

Valkyrie 1361

[Chapter 1361: Xuan Yuan Dao Dan](#)

This is definitely Wang Dan in the late seventh stage.

If it weren't for Wang Dan in the late seventh stage, it would be impossible to produce such a terrifying scene.

hiss!

Everyone gasped, and almost missed it.

In an alchemy competition, so many seventh-rank late Wang Dan appeared, and they were born under such conditions. This shock was enough to shock everyone.

These people are no longer alchemy geniuses, but real alchemy powerhouses.

Following the completion of the elixir by Ye Mo and others, the rest of the players also completed the refining of their own elixir.

At this time, Qin Chen, the champion of the previous two rounds, was still closing his eyes and resting, and did not start refining at all.

This... everyone couldn't help but shook their heads.

I thought that Qin Chen was so strong and talented, and never thought that once it was time for the real competition, he would actually lose the chain.

Now that the third round of assessment is over, there is only more than one hour left, even if Qin Chen wants to start refining, it may be too late.

What everyone didn't see was.

At this moment in Qin Chen's body, the invisible spiritual power is gradually forming, and finally, it merges into a large network of spiritual power.

Unlike Ye Mo and others who formed a mental power barrier to resist external mental impact with all their strength, Qin Chen's large network of mental power is actually absorbing the mental power storms in the heavens and worlds.

It was just because of being under the envelope of the heavens and the outside world that even Ouyang Zhengqi couldn't notice the abnormal situation around Qin Chen.

When the mental power net around him formed, Qin Chen, who was originally closed, finally opened his eyes.

boom!

He suddenly moved. As his hands flicked, the real fire flowed, and the hot pot instantly began. Moreover, the flames were very condensed, and there was no instability under the influence of the mental storm.

This... everyone is shocked.

After the hot pot was over, Qin Chen waved his hand, and many of the finished elixir were thrown into the pill furnace, and the refining began.

Such scenes naturally provoke a burst of exclamation.

The refining of the pill, the investment of every kind of elixir, must count the time, like Qin Chen, who puts so many elixir into it, is it not afraid of the pill furnace exploding?

It's just that at this moment, everyone can't think about it too much, and everyone's eyes have been attracted by Qin Chen's smooth movements.

Although everyone can only see a slightly vague scene under the influence of the heavens and the world, it still makes everyone intoxicated and shocked.

Time goes by little by little.

when!

When the bell for the end of the assessment rang, Qin Chen finally finished the refining, hum, there seemed to be an astonishing vision circulating between the heavens and the earth, and the stream of light shot up into the sky from the pill furnace and instantly entered the pill in Qin Chen's hands. In the bottle.

"Okay, the assessment is over, everyone should stop refining."

Master Ouyang Zhengqi stood up, waved his hand, and immediately all refining stopped, and the mental power storm released by the heavens and worlds also disappeared.

At this moment, there are only more than 110 players left on the field, and among the more than one hundred and ten people, only 87 have truly succeeded in refining the pill.

"Start registering your results now."

Master Ouyang Zhengqi gave an order, and the strong around him immediately stepped forward and registered everyone's results one by one.

The order of registration starts from the bottom of the previous ranking.

The 87th player who refined the pill opened the pill bottle, only to see that there were actually six sixth-order exalted pill inside, and it was only the middle stage of the sixth step.

The dignified Seventh-Rank Medicine King was actually in such a competition to refine a sixth-rank exalted pill, and it was only the middle stage of the sixth-rank. Under normal circumstances, it would inevitably cause everyone to laugh at it, but at this moment, no one laughed.

Although this person had only refined the mid-level sixth-rank pill, he won at least 87 in this round. Compared with other players, although he claimed to be stronger, he failed in refining. I have to say it is a kind of irony.

Sometimes, knowing yourself clearly represents success. "Okay." Ouyang Zhengqi yelled "Okay," with a look of admiration on his face, and said: "A pharmacist, the most important thing is to be able to recognize himself, although you only refine the mid-level 6 The level pill, according to the truth, is not qualified to go to the Martial Domain at all, but it depends on your positioning.

, If you can reach the seventh stage late-stage medicine king state within five years, you will be sent to the old man, and the old man will recommend you to Wuyu Dange. "

"Thank you Master, thank you Master Ouyang Zhengqi."

The player thought that he had no hope of entering the Martial Domain, he was overjoyed when he heard that, and hurriedly bowed to the ground, seeing all the people around him envied.

Knowing this a long time ago, they have also gone to refine the sixth-order pill. Anyway, the first three do not have their share. Why do they have to work hard to refine the Wangpin pill? In the end, not only the refining failed, but also the hope of being favored by Wuyu Dange.

Next, registration continues.

Among the 87 contestants, there are about 20 people who have refined the sixth-rank exalted pill, but most of the refined ones are the exalted pill of the late sixth-order. These people, It was not as lucky as the player at the beginning.

However, being able to reach the last step in such a big competition and successfully become one of the more than 80 people who refined the pill is a great gain for them.

In addition to the twenty-odd players, almost all of the remaining nearly sixty people have refined the pill of the seventh-order king grade.

However, most of them were Wangpin's pills at the early stage of the seventh stage, and only a few more than a dozen people refined the pills for the middle stage of the seventh stage.

Among them, Wei Jinzhou, Xi Aoling, and You Huaqing all refined the seventh-grade mid-stage pill, which surprised Pavilion Master Xuan Sheng.

In the imagination of Pavilion Master Xuan Sheng, with Xi Aoling's strength, it was already very impressive to be able to refine the Wang Pin pill of the early seventh stage, but he did not expect the result to be far beyond his expectations.

After all these people were counted, it was finally the turn of the strongest six.

The first to count was Kui Xinyu, who ranked sixth with 184 points at the beginning.

When he handed over the pill bottle in his hand, everyone's eyes began to shine, and they looked over.

The top six were personally identified by Ouyang Zhengqi. He stepped forward and began to identify pill, while Kui Xinyu was very confident with his hands behind him.

"Xuanyuan Dao Pill, the late seventh stage pill, seven Cheng Pills, one high-grade, four medium-sized, and two low-grade." After careful observation, Master Ouyang Zhengqi made a conclusion.

Suddenly, there was a sensation all around.

Qipin late pill? Sure enough, it is a seven-stage late pill!

The performance of Kui Xinyu and their pills when they were born has long caused everyone to speculate, but now that the speculation is realized, everyone is shocked. The current achievement is the undisputed number one.

[Chapter 1362: Pinnacle](#)

"It deserves to be Kui Xinyu. Under such pressure, he has refined a seven-stage late-stage pill, and there is also a first-class pill."

"Awesome, Beihai is only a small place in the Lower Four Regions, and there are such geniuses."

"Furthermore, it is the Xuanyuan Dao Pill that is refined. Even if this pill is in the late seventh stage pill, it is not ordinary!"

"Under such pressure, you can refine the Xuanyuan Dao Pill, so how strong is Kui Xinyu's strength under normal circumstances?"

Everyone was shocked and talked a lot.

And Ouyang Zhengqi has moved on to the next player Qiu Tian.

The discussion stopped in an instant, and his eyes stared fixedly, expecting Qiu Tian's achievements.

"how is it going?"

Everyone became curious again, this is also a pill genius, the results of the first two rounds are still above Qiu Tian.

General Qiu Tian stretched his hand, crushed the bottle of pills, and there were eight purple pills in his palm.

"Zi Yuan Gui Yi Dan, Wang Dan in the late seventh stage, five grains are medium, and three grains are inferior!" Master Ouyang Zhengqi looked carefully for a moment, and said the answer.

"Sure enough, it is another seven-stage late pill."

"Hey, wouldn't the next few be pills of the late seventh stage, right?"

"It's hard to tell."

Among the remaining few people, there have actually been two seventh-stage late-stage pill, which has never appeared in the previous alchemy competition.

wonderful!

Moreover, everyone is secretly guessing whether Qiu Tian and Kui Xinyu are strong or weak.

The difficulty of refining the Ziyuan Guiyi Pill and the Xuanyuan Dao Pill is about the same, but to talk about it, the Ziyuan Guiyi Pill may be a little bit more difficult, but the difficulty of this is almost negligible.

If Qiu Tian's pill is obviously higher than Kui Xinyu's grade, then the results are very good, but Kui Xinyu has refined the first-class pill, and Qiu Tian's highest is only medium, which is even more impressive. What is speechless is that Qiu Tian refines a furnace of eight, Kui Xinyu has seven.

In such a complicated situation, everyone didn't know who was strong and who was weak, so they could only follow Master Ouyang Zhengqi's final decision. Qiu Tian and Kui Xinyu themselves were quite nervous. In the first two rounds, each round scored 100 points, but this third round scored a full 200 points. In other words, the scores will be very wide. The difference between the first two rounds of a few points is almost negligible now, as long as Master Ouyang Zhengqi

Whoever thinks the difficulty is high is very likely to overtake.

look forward to!

Only then is there suspense, not to mention that there are still a few people below who have not shown their results.

Snapped!

At this moment, Yan Equator also crushed his pill bottle, revealing the pill he had refined.

The dazzling Danguang suddenly burst out of his hands, with an amazing breath.

"This... is definitely the pill of the late seventh stage."

Everyone was stunned. It was said that in the past, someone told them that there would be more than three Seven-Rank Late-stage Medicine Kings in the Alchemy Grand Competition. They would never believe it, but now they have verified it with their own eyes.

Eight red-colored pills rolled in his hands, pill patterns appeared, and the anger rose to the sky.

"Is this Chilong Pill?"

"It's very similar, but Chilong Pill is not that difficult in the seventh-stage late-stage pill, is it? It is much weaker than Xuanyuan Dao Pill and Ziyuan Guiyi Pill."

"Hey, although the pill pattern looks more complicated, and the rank seems to be good, the Chilong Pill is inherently simple and inherently weak."

Everyone shook their heads, feeling a pity for Yan Equator, the competition for several great alchemy geniuses finally left someone behind.

Both are Wang Dan of the late seventh stage, Chilong Dan, which belongs to the simplest kind.

However, Ouyang Zhengqi, who was in charge of the inspection, had his eyes brightened, staring at the red pill for a while, and said solemnly: "Three deep red lines are looming, this is not a red dragon pill, but a three-stripe red dragon pill!"

"what?"

Hearing this kind of evaluation, everyone was boiled. The three-pattern Chilong Pill was still the late Wang Dan of the seventh stage, but it was more than twice as difficult as the ordinary Chilong Pill. Elixirs.

"Three-stripe Chilong Pill, the late stage of the seventh stage, three are high-quality, and five are medium." Ouyang Zhengqi finally said.

Damn, and it's three first-class.

Everyone was in an uproar and was shocked instantly.

This suddenly widened the gap between the two before.

The expressions of Qiu Tian and Kui Xinyu suddenly became extremely ugly.

Snapped.

At this time, Yu Sihui also took out the pill that she had successfully refined.

"Black Bone King Body Pill, the late seventh stage, two top-grade pills, six medium-sized pills."

hiss!

There was another air-conditioning sound.

The Black Bone King Body Pill, this is an ancient pill, and the difficulty is even higher than that of the Three Pattern Chilong Pill.

Gosh, what day is today? The pill that these contestants refined, one by one, is better than the other, just like taking medicine.

"Oh my god, I heard that in the previous editions of the Alchemy Grand Tournament, one or two late-stage Seventh-Rank Medicine Kings is enough. There are already four in this edition, right?"

"It's the same as encountering the golden age of alchemy. Sometimes there is no genius for thousands of years, but in the age of geniuses, the king of medicine appears like fried beans."

"Yes, could it be this year, but witnessing this scene with my own eyes, it is shocking to have a scalp numb!"

Everyone's faces flushed with excitement, and they were almost crazy.

After Yu Sihui's grades came out, it was Ye Mo.

Everyone's eyes widened suddenly, this is what everyone has been waiting for.

Ye Mo smiled slightly, with a proud look on his mouth, he crushed the pill bottle and revealed the pill in his hand.

"Tiankui Fulingdan!" Ouyang Zhengqi looked up, his gaze swept, and he suddenly revealed a shocked expression, almost yelling out a little.

"what?"

"Master Ye Mo refined Tiankui Fuling Pill?"

"Too exaggerated?"

"Tiankui Fuling Pill, it is rumored that it is the top grade among the seven late stage pill!"

Suddenly, there was an uproar from the crowd.

The expressions of Yan Chidao and others have also changed.

They refined all seven-stage late-stage pill, but Tiankui Fuling Pill was definitely the most difficult one among their pill.

"Ten pills of Chengdan, five of the best, and five of the medium." Ouyang Zhengqi said again.

Suddenly, the crowd's uproar was louder.

It turned out to be ten pills, and five of them are medium!

Like Yan Chidao and others before, they only became eight pill, but Ye Mo not only became ten pill, surpassed everyone, and even five of them were first-class. How could anyone compare with such an achievement?

This is almost no longer the same on a class.

God, it's too exaggerated.

Everyone felt extremely shocked, and felt incredible in their hearts.

Everyone looked at Ye Mo with awe. Such a terrifying Alchemy Master would definitely be selected to enter the Martial Domain, and his future would be unlimited.

Ye Mo showed a reserved smile, he was waiting for Qin Chen's results now, but the overall situation had been decided, he didn't believe that Qin Chen's results would be higher than his own.

Other people naturally had the same thoughts as him. Qin Chen, who had just started refining when there was only one hour left, could he refining a good pill? It is impossible to think about it.

At this time, Master Ouyang Zhengqi finally came to Qin Chen and looked at the pill bottle in his hand.

Snapped! The pill bottle shattered and a pile of pills rolled out.

[Chapter 1363: Waste](#)

Everyone was stunned, and saw a full twelve pills appear in Qin Chen's palm, but what is puzzling is that the color of eleven of the pills is very dim, and no fragrance of the medicine has escaped. The essence of the pill was completely exhausted.

On the contrary, there is a pill, the color is not bad, it gives a strange feeling, but it also doesn't emit any medicine, and it is lifeless.

At first glance, almost none of the twelve pills in Qin Chen's hand are intact, all of which are waste pills.

"This... twelve waste pills?"

"Then Qin Chen's refining failed?"

Someone was shocked. Although Qin Chen had long been puzzled about Qin Chen's alchemy strength, he couldn't help being a little surprised when he saw that Qin Chen had produced a pile of waste pills without a good pill.

Qin Chen was the champion of the first two rounds, even if his cultivation base was weak, he wouldn't be like this, right? What's more, when Qin Chen condensed the pills before, everyone clearly saw the brilliant rays of pill bursting out, the rays of light bursting out, why at the end, all the pills that were taken out were waste pills?

"Hahaha, Pavilion Master Xuansheng, it seems that your North Heaven Domain Dan Pavilion may be in serious trouble this time."

Pavilion Master Taiyuan's hands all clenched, but now they finally let out a sigh of relief and laughed.

The pavilion owners of the other great Dange also laughed, and looked at Xuan Sheng with a mocking expression. In the previous two rounds, Qin Chen was aggressive and won two rounds of championships in succession, completely suppressing their Dange genius, to be honest. , In everyone's mind, it is quite not a taste.

When Qin Chen's refining was over, everyone was shocked when the pill furnace was rushing up against the sky, and they thought that Qin Chen had also refined the late-stage seventh-rank pill, and a heart was nervous. What's like.

But now, everyone is relieved, no matter how strong Qin Chen's results in the first two rounds are, as long as he fails in the third round of refining, it means that he has no results at all. Not to mention winning the championship, the first 80 is difficult.

Xuan Sheng's face turned pale. At this moment, he also ignored other people's sarcasm. He just clenched his hands and stared at the medicine in Qin Chen's hands with bloodshot eyes. He was sweaty.

Two trillion yuan, once Qin Chen can't win the championship, his Beitianyu Dange will pay a full two trillion yuan, and selling that is not worth that much money. In the audience, the host of Wan Bao Lou's Kong Sitong has also been watching the game, holding two emerald dragon eyes in his hands. After the first two rounds, the corners of his mouth have been smiling, but now, the smile on the corners of the mouth has solidified. An egg-sized jade dragon eye fell to the ground, but he did not feel.

"Impossible. How could Master Qin fail to refine even a perfect pill in this third round? How could this be possible?"

The cold sweat on Kang Sitong's forehead oozes out instantly, and his lips are a little pale.

Among them, he was the only one who had experienced Qin Chen's alchemy, and at the same time was the most confident in Qin Chen's strength.

After seeing Qin Chen's alchemy, Kang Sitong firmly believed that Qin Chen was at least about 60 to 70% sure of winning the championship, and only then would he agree to his request and let Beitianyu Dange pledge to make such a handicap.

But now, the host of his dignified Wanbao Lou is panicked, "It's over, this is completely over, two trillion yuan, even if it is guaranteed by Beitianyu, my Wanbao Lou must at least take a certain responsibility. , This...how to be good, how can I explain to my superiors when I look back?"

The host of the dignified Wanbaolou, Zhongzhou City can be said to be the existence that calls the wind and the rain, but at this time, he can't panic. Is that like a top master, the eighth-level peak Wuhuang? On the contrary, it is like a gambler, and it is the kind of loser.

"This is...Zonghun Wuyang Pill!" Master Ouyang Zhengqi, who was the judge, came to Qin Chen at this time, looked at the pill in his hand, and said in shock and disappointment.

"Zonghun Wuyang Dan?" Suddenly, everyone around was exclaimed.

Zonghun Wuyang Pill, an absolute heaven-defying pill, the difficulty of refining is higher than that of Tiankui Fuling Pill.

If Tiankui Fuling Pill is the top one among the seven-tier pill, then Zonghun Wuyang Pill, to some extent, has even surpassed the limit of the seven-tier pill and entered the eighth stage emperor. The level of the elixir.

Unexpectedly, Qin Chen was refining this kind of pill. Everyone couldn't help being surprised. No wonder he would fail in refining. This was almost beyond the limit of a Seventh-Rank Peak Medicine King.

Entrusting the big, it is too big.

Pavilion Master Xuan Sheng's body shook, and his face became paler. The cold sweat on the master of Wanbao Lou Kong Sitong also wetted the martial arts. Only now did they understand why Qin Chen's alchemy skills failed to refine. Up.

Zonghun Wuyang Pill, let alone Qin Chen, even the pavilion master Xuansheng wouldn't dare to say that it would definitely be refined. Qin Chen actually tried to refine such a heaven-defying pill under the interference of mental power storms. The pill, it's almost like looking for death.

Master Ouyang Zhengqi also sighed, and said, "It's a pity, it's a pity, looking at the form of the pill, when the pill is condensed, these souls of Wuyang pill have already been formed, and it can even be said that the refining is successful, but In the end, it became a pile of waste pills."

Ouyang Zhengqi was extremely disappointed in his heart. Qin Chen showed his talent in the first two rounds, which made him quite amazed. He thought he had found a good seed. Who knows, in the last round, Qin Chen was too bold to refine the soul. Wuyang Pill, such an elixir, really does not know the heights of the sky.

Although looking at it, the pills in front of Qin Chen were indeed useless pills, but to be on the safe side, Master Ouyang Zhengqi came to Qin Chen and reached out and picked up one of them.

Snapped!

Ouyang Zhengqi squeezed it lightly, and the pill was broken between his fingers. The place where it broke was dry and mottled, and no medicine gas escaped. It was indeed a waste pill, and even lost its energy. It's so serious that it can't even count as medicine residue.

Ouyang Zhengqi shook his head and announced: "Qin Chen, the third round of refining pills is Zonghun Wuyang Pill, 12 grains of pill, but all of them are waste pills, and the assessment failed."

He announced, then patted Qin Chen on the shoulder, and sighed: "Young people, sometimes it is not a good thing to be humble and low-key, so lofty." With Qin Chen's ability to refine the Zonghun Wuyang Pill, Judging from the rays of light that burst from the previous burst, Qin Chen is probably only a little bit close to succeeding in refining. If he does not choose Zonghun Wuyang Pill, he chooses the same ordinary Seventh Stage late-stage pill like Qiu Tian and others. The probability of successful dust refining, at least

Will rise by half.

At that time, with Qin Chen's first two rounds of results, even if he may not be able to win the championship, there is still great hope for the top three.

But now... Ouyang Zhengqi shook his head, it can only be said that he is self-inflicted and cannot live.

[Chapter 1364: Re-identification](#)

Xuan Sheng and their faces turned pale, their eyes were gray, and many people around couldn't help sighing when they saw this scene.

Everyone knows that although Qin Chen failed in the third round of assessments, with his results in the first two rounds, Guyu Realm would never be able to go, but it may not necessarily be taken by Wuyu Dange. After all, his first two rounds The results are too bad.

But no matter what Qin Chen's future is, the North Heaven Domain Pill Pavilion is completely finished.

Two trillion debts will not only make Beitianyu Dange ruined, but I am afraid that in the next hundred years, there will be no development opportunities, and it can only be spent in endless debt repayment.

This is the consequence of arrogance.

Now many warriors who overwhelmed Qin Chen to win the championship, all were excited, gearing up, all waiting for the end of the big match, they went to Wanbaolou to cash it out as soon as possible.

Two trillion debts, the Beitianyu Dange definitely can't get it right away. It is very likely that those who exchange it in the first time can still get the money, and those who go later can only get it after a few days. . However, because it was the opening of Wanbaolou, everyone was not too nervous. People in the East Continent were very clear about the power of Wanbaolou. This is a huge force with wealth against the sky in the martial arts, and it controls the entire continent. A huge amount of wealth is not enough to make such a bad reputation without paying

Things come.

At most, wait for a while.

"Well, I now announce the final results of the three rounds of assessment..."

On the ring, Master Ouyang Zhengqi looked at everyone and began to announce the total results of the three rounds.

But before he could finish speaking, a voice suddenly interrupted him.

"Wait!"

The voice is crisp, very calm, and full of breath.

Everyone looked at him, who, so bold, dared to interrupt Master Ouyang Zhengqi's words? This was the look, but everyone was stunned.

It turned out to be Qin Chen.

"Qin Chen, what do you want to do? Aren't you dissatisfied with Master Ouyang Zhengqi's judgment?"

"In the lower four realms alchemy competition, you dare to be wild, too arrogant, it is really **** from the northern heaven, and you have no education at all."

"Master Ouyang Zhengqi, this person is bold and reckless, and the disciple feels that this person should be dragged down."

Wang Tai was eliminated early because of being interfered by Qin Chen, and he had already suffocated Qin Chen in his heart. Now that he caught the opportunity, he quickly jumped out and sternly scolded.

Others looked at Qin Chen with dissatisfaction. Although they didn't know what Qin Chen wanted to say, it was indeed a bit arrogant to interrupt Master Ouyang Zhengqi in the Alchemy Competition. If there is something, can't you wait for the game? Say it when it's over?

Ouyang Zhengqi stopped and looked at Qin Chen indifferently. His expression was not irritated, but his eyes were cold, and he said indifferently: "What else do you have to say?"

Qin Chen arched his hand, not being frightened by Ouyang Zhengqi's eyes, but said: "Master Ouyang Zhengqi, the disciple interrupted the master rashly, not deliberately breaking the rules of Dabi, but the master just identified the wrong disciple. Achievements, so you must appeal."

"You... bold!"

"What do you dare to say that Master Ouyang Zhengqi made a mistake in distinguishing, so bold."

"Qin Chen, you are so arrogant because of your own talents. You don't know how high the sky is. Although the alchemy talent is good, you don't have the virtue of medicine. What qualifications do you have to become a pharmacist."

"Master Ouyang Zhengqi, please also give an order to let the disciple take down this arrogant person and compare the morals with integrity."

Wang Tai and others suddenly jumped out again, their expressions stern, and they shouted loudly, but they were ecstatic in their hearts.

Zheng Chou couldn't find a chance to deal with him, he didn't expect Qin Chen to give the opportunity so soon.

"Ugh!"

The audience was also speechless, and immediately shook their heads and sighed.

This Qin Chen is so arrogant that he dare to say that Master Ouyang Zhengqi made a mistake in his identification. Isn't that a joke?

Who is Master Ouyang Zhengqi? The senior level of Wuyu Dange, at least an eighth-rank emperor-level alchemy master, would have misidentified the achievements of your little medicine king.

"It seems that Qin Chen can't accept reality."

"I knew today, why bother to refine the soulless pill."

"Since the choice has been made at the beginning, it should be expected the fate now."

Ouyang Zhengqi looked cold, and said coldly, "You said I made a mistake in identification?"

"Yes, the disciple is courageous, but also ask the master for a second appraisal." Qin Chen held up the pills in his hand. "It's ridiculous, the old man, as the core manager of the Wuyu Pill Pavilion, has seen more pills than you have heard. How can you make a mistake?" Ouyang Zhengqi's expression became cold, his anger dissipated, and he said coldly: "Since you think the old man's appraisal is unfair, that's fine, the old man will satisfy your request and re-appraisal

set. "

"But..." His tone turned, his voice fell cold, as if there was a chill, and he said coldly: "The old man originally wanted to take you there because you have a good talent and willing to learn and make progress. Wuyu Dange is going to further his studies. Now it seems that the old man has taken it for granted. The most important thing is medicine.

Virtue, if you don't even have medicine ethics, what if your talent is high? "

After the words fell, he easily grasped all the eleven pills left in Qin Chen's hand, without careful identification, but just squeezed it with his hand, and there was a sound of pops, and suddenly many of the pills shattered and turned into the sky. The gray medicine **** is flying and falling.

In these medicine residues, there is not even a trace of the essence of elixir, which is obviously a waste pill.

He sneered at the corner of his mouth and said: "What else do you want..."

Before the word "say" after the word "to" could be spoken, Ouyang Zhengqi's expression suddenly became extremely weird, because there was actually a pill in his palm that had not been crushed.

Others naturally didn't know the feeling in the palm of Ouyang Zhengqi's palm, thinking that Master Ouyang Zhengqi couldn't even speak his anger, and a group of people yelled at Qin Chen as if they had killed their parents.

"Huh!"

An old man from the Wuyu Dange came up, came to Master Ouyang Zhengqi, and whispered: "Master Ouyang, do you want your subordinates to drive this person off the ring?" "Shut up!" Ouyang Zhengqi glared at that. Like a human, he hurriedly opened the palm of his hand. Sure enough, there was a pill in

his palm, and it was not crushed together. It was the pill that looked a little weird before, just the simple surface of this pill. , Cracks also appeared, as if to

Broken at any time. "Huh, this pill?" Ouyang Zhengqi said in surprise, Zhen Yuan shook slightly, slap, and suddenly, the surface of the pill was completely cracked, but it was not completely shattered like the previous pill, but like a slough. It's just like a shell, a strong to the extreme medicinal fragrance, which cannot be restrained from the cracks

Dissipated like this.

boom! The fragrance of the medicine was permeated, and the gods of the world rose from the cracked gap, and the sky was shining, forming a shocking vision.

[Chapter 1365: Half step emperor pill](#)

Rumble!

At this moment, there seemed to be an amazing vision forming in the sky, and the true energy of heaven and earth surged wildly, like a real dragon, soaring in the clouds, exuding a terrifying aura that overwhelms everything.

When this amazing vision and medicinal energy spread, almost everyone became a sensation, and even the Dan Pavilion masters of several major regions could not stand still, and suddenly stood up.

This is... the vision of heaven and earth, is it because the eight-level pill is not made?

The vision of heaven and earth is a scene that only occurs when the eight-level pill is born. Even if the pill of the late seven-level pill is the top level, it is impossible to cause the phenomenon of heaven and earth. The pavilion masters of the major domains are the closest to the medicine emperor. This couldn't be more clear.

But now, Qin Chen has actually refined the pill that can trigger a vision of heaven and earth. Doesn't this mean that he is actually an eighth-grade medicine emperor?

How can this make everyone not surprised?

Although the peak medicine king of the seventh stage late stage and the eighth stage medicine emperor are only one step apart, they are a huge watershed.

Although there are not many medicine kings at the peak of the seventh stage late stage, there are still some in the lower four domains. However, the eighth stage medicine kings are also very few in the entire lower four domains. The existence of travel in the next four domains.

After all, with the status of the Eighth Stage Medicine Emperor, it is enough to easily enter the martial arts domain that martial artists dream of, and witness the stronger place of the mainland. Who will stay in the next four domains?

Among other things, even Xuansheng, Taiyuan and other major domains of the Pill Pavilion masters are determined to become the Eighth-Rank Medicine Emperor, so they have the opportunity to go to the Wuyu Pill Pavilion and go further.

So when everyone on the field saw that Qin Chen could actually refine the eighth-rank emperor pill, everyone was shocked, and they could no longer calm down.

The eighth-grade medicine emperor means that it can be refined to produce imperial-level pill, and the imperial pill is too useful for them, the martial emperor powerhouses of the lower four domains, and even some eight-level emperor pill can be used. These martial emperors easily broke through the current shackles and stepped into new realms and realms.

Can we see how terrifying the Eight-Rank Yaohuang is? Even some of the top emperor-level ancestors in the Eastern Continent, when you see the Eighth Stage Medicine Emperor, you must respectfully call him a master.

Now that Qin Chen, a young man in his twenties, has actually refined an eighth-rank emperor-level pill, how can he not let those forces and strong people get excited?

"Heaven and earth vision, no, it's not the eighth-rank emperor pill. The heaven and earth vision of the eighth-rank emperor pill can be said to be condensed but not scattered. The sky and the earth shake. This should be... a half-step emperor pill!" Ouyang Zhengqi stared at the pill in his hand. Medicine, said in a deep voice for a long time.

He is the Eight-Rank Medicine Emperor himself, and he is naturally qualified for evaluation.

But even a half-step imperial pill was enough to shock everyone and shook their hearts.

"Impossible, this Qin Chen's cultivation base is at most only the seventh-order peak martial king, how did he refine the half-step emperor pill?" Yan Jidao suddenly shouted.

At present, Ye Mo's performance can definitely be said to surpass them. Without Qin Chen, both he and Yu Sihui are highly likely to enter the top three.

But if Qin Chen wins the first place, then Ye Mo must be the second one, and he will not only compete with Qiu Tian and the others, but also compete with Yu Sihui for the third place. The pressure suddenly rises, so he raises questions right away. . Everyone was puzzled, yes, the level of the alchemist is often followed by the cultivation base. A martial king in the late stage of the seventh stage, no matter how strong his mental power, is the late stage of the seventh stage, so no matter how talented the alchemy is, he can become the late stage seven. The Medicine King is already at the limit, how could it be possible to refine a half-step Emperor Pill?

?

"Master Ouyang Zhengqi, is there any misunderstanding in this?"

"Or in other words, this pill was not refined by Qin Chen at all, did he move his hands and feet in it?"

Other players frowned, including Ye Mo, everyone was skeptical.

No one believed that Qin Chen, a twenty-year-old boy, could actually refine a half-step emperor pill.

Ouyang Zhengqi's gaze narrowed. Indeed, there are still a lot of weirdness in it. He nodded and said, "Is this pill refined by Qin Chen?"

"You know it at a glance?"

Everyone was stunned, this refining is over, how can they "watch"?

In doubt, when Master Ouyang Zhengqi raised his hand, the heavens and worlds above his head suddenly emitted a misty light. The picture Qin Chen had refined before suddenly appeared in front of everyone, and it was extremely clear. There is no ambiguity in previous refining.

When everyone saw the weird mental power barrier formed around Qin Chen, and the mental power storm released by the heavens and worlds absorbed it, everyone's eyes suddenly rounded.

Damn, can you do this?

Everyone was numb by the irritated scalp, as if electric current swept past.

During the previous refining, everyone could see clearly that other players used mental power barriers and other methods to shield the disturbing mental power storms and weaken their interference.

But Qin Chen?

Not only did it not shield the mental power storms, but after absorbing these mental power storms, they used them in their own refining and became part of their own refining.

Everyone clearly saw that the absorbed mental power storm was controlled by Qin Chen, used to stir up the real fire and refine the elixir. This technique stunned everyone.

And then Qin Chen's crazy operation techniques shocked everyone, and saw various refining techniques emerge in an endless stream, not like a young man who has not been involved in the world, but like a master who has been immersed in alchemy for hundreds of years. The skillful movements made everyone intoxicated.

"Incorporating the spiritual storms released by the heavens and all realms into one's own refining, it is powerful, as expected."

Ouyang Zhengqi has the highest attainments and reads the most carefully, and couldn't help muttering to himself.

It was the first time that he saw a person who could use the spiritual storm released by the heavens and the world for his own use.

What kind of accomplishment is this?

However, these alone cannot form a half-step emperor pill, right?

When Ouyang Zhengqi saw the final condensed pill coming out, his eyes went straight, "It turns out that it is, it turned out to be this way, this Qin Chen... is really a ghost!"

I saw that when Qin Chen finally came out of the pill, twelve elixir rushed up into the sky, but eleven of the elixir was surrounded by stars in the middle of the elixir like a moon, and was rushing up. In the process, a weird formation was formed.

With the heavens and myriad worlds deliberately slowing down the camera, Ouyang Zhengqi clearly saw that the essence of eleven of the twelve pills that were released was naturally destroyed during the final condensing of the pills. Introduced into the middle pill.

"Swallow, swallow again..."

Ouyang Zhengqi was about to vomit blood. In the first round of assessment, Qin Chen made nine flames swallow each other, forming a seventh-order flame.

In the second round of assessment, Qin Chen let ten elixirs swallow each other again, planting a seventh-order elixir. But this time, Qin Chen swallowed twelve seven-stage peak elixir, forming a half-step emperor pill.

[Chapter 1366: Three places](#)

Ouyang Zhengqi couldn't even think about it. At this moment, he had understood that the other eleven elixir was not a failure in refining, but the essence of it was given by this only pill. Swallowed and became its nourishment.

Naturally, it was not only Ouyang Zhengqi who was shocked, but also the many alchemy masters on the court. Seeing this, they finally understood all this.

A trace of bitterness was quietly revealed on the faces of Ye Mo and others.

They had always been extremely dissatisfied with Qin Chen, thinking that Qin Chen could only win the first two rounds by means, but when they saw the third round of assessment, they finally accepted.

In terms of pill talent, they are not weak, and in terms of cultivation base, they are not inferior to Qin Chen, but when refining, Qin Chen can use all kinds of fantastic ideas to refine them even if they don't even think about it. The medicine comes, and lose to such a genius, they can't say a word. Ouyang Zhengqi recovered from the shock and said loudly: "Now I announce that in the Four Domain Dandao Competition, Qin Chen from Beitian Domain is ranked first, and the second is Dongzhou Domain. Ye Mo, ranked third, is Yan Equator in the South China Region. As for the next rankings, you can read the list.

OK. "

Ouyang Zhengqi waved his hand, and suddenly, the heavens and myriad worlds radiated light, and a list of 87 people appeared in the sky.

All the players who completed the third round of assessment are on the list, among which Yu Sihui is ranked fourth, Kui Xinyu is fifth, and Qiu Tian is sixth.

"I don't accept it!" Yu Sihui's expression changed, and she hurriedly shouted, "Although there are only two of the eight medicinal pills refined by the disciple, and six of them are medium, there are three medicinal pills refined by Yan Equator. High class, five medium, but the Black Bone King Body Pill I refined is definitely three patterns refined by Biyan Equator

Chilong Dan is higher, not to mention, the total score of the first two rounds, I have three points more than Yan Equator, why is it not me third. "

As soon as this statement was made, everyone's expressions changed, and Yu Sihui was openly questioning the results of the competition.

However, the top three have the qualifications to enter the Guyu Realm, no one has to fight for it, and Yan Equator is not like Ye Mo and Qin Chen in the third round, completely overriding her, she naturally refuses.

"Are you not convinced?" Ouyang Zhengqi looked over coldly.

"Yes." Yu Sihui looked up, his eyes fiery. On the side, Qiu Tian and Kui Xinyu also had their eyes flickering. They finally came from the Martial Domain to compete for the top three places and get the qualifications to enter the Guyu World. Who knows, none of them won the top three. Not only won't you be able to qualify for the Guyu Realm, once you return to the Martial Domain, your face will be

It's all lost. "If you don't accept it, you are ashamed to say it." Ouyang Zhengqi sneered and said, "In terms of real results, your Black Bone King Body Pill is indeed higher than Yan Equator's three-stripe Chilong Pill, although he refined three upper ones. Wait, you only have two, but in fact, you two can only be considered equal

."

"Then why did you rank Yan Equator in third." Yu Sihui did not expect Master Ouyang Zhengqi to say so.

"Why, do you still have the face to ask why?" Ouyang Zhengqi sneered, "The purpose of my Wuyu Dan Pavilion holding the Lower Domain Dan Dao Competition is to select geniuses from the lower four domains, but what about you? One from the ancient Dan Dao family, One from the Heavenly Medicine Sect, and the other from the King Pill Sect. Tell the old man, you

Which one is the genius of the next four domains? "

The faces of Yu Sihui's people suddenly changed. "If you are indeed talented, it would be nothing more than a pill genius far surpassing the four domains. But you look at yourself, even in a fair duel, you are not as good as each other, and you can only draw with each other. But the alchemy forces from the Martial Domain have even a few small lower four domains

Alchemy geniuses are not opponents, and there is actually a face called injustice here. Don't you feel embarrassed and panic? "

"we....."

The three of Yu Sihui's face turned pale, each of them could not speak.

They didn't expect that Dan Pavilion's intelligence was so brilliant, and they had already found out their details.

There were also noisy discussions on the field. Today, Yu Sihui's En was actually an alchemy force from the martial arts domain. No wonder the various cultivation bases are extraordinary. I said, the Tianmen organization and the Beihai organization are just small forces that can actually be cultivated. Such geniuses were originally invited foreign aid.

"Well, you people of all major forces, please take away your own disciples. This time, the old man will not be held accountable. In the future, the old man does not want to see people from your martial arts alchemy powers come to me. The quota of the headquarters." Master Ouyang Zhengqi snorted coldly.

"Boom!" "Boom!" "Boom!"

Suddenly, a few horrible auras appeared in the crowd, and in a flash, they came to the arena and said to Ouyang Zhengqi, "Thank you, Master Ouyang Zhengqi for your mercy."

After speaking, one after another shot to take Yu Sihui away from the ring.

"Elder." Yu Sihui still wanted to argue, but was reprimanded by these strong men. "If you lose the game, you lose. If Dan Ge is not held accountable, it is considered a kindness. Don't cause trouble to the family."

In the cold shout, several figures disappeared into the sky. "Qin Chen, Ye Mo, and Yan Equator, give the three of you three days to deal with the affairs of the lower domain. After three days, follow me to go to the martial domain. As for the others, some of you will be qualified to go to the martial arts. Domain, all stay in Zhongzhou City, waiting for the old man's news, and we will set off together three days later

. "Ouyang Zhengqi finished giving orders, turned around and left first.

This Dan Dao Grand Contest came to an end like this.

As soon as Qin Chen and the master of Pavilion Xuan Sheng returned to the resident Fengyun Pill Garden, the people who came to climb the relationship had already crossed the threshold.

Each hand was carrying a heavy gift, and they were all well-informed people, all smiles, and very flattering.

Can you not flatter me?

At such a young age, Qin Chen has been able to refine a half-step imperial pill. Next, he will follow Master Ouyang Zhengqi to the Wuyu Pill Pavilion. Under the training of the Pill Pavilion headquarters, he will become an eighth-rank Emperor Alchemist. .

This is an eighth-rank emperor-level pharmacist. The entire lower four domains are hard to find. If you can indulge in such an expert, would you worry about not having a pill in the future?

Qin Chen naturally did not refuse these great gifts and accepted them all. There was no way, who made him poor now.

As for people, Qin Chen naturally didn't bother to see him, so he let Pavilion Master Xuan Sheng arrange.

Pavilion Master Xuan Sheng is in a good mood now, just like the second spring. Qin Chen won the championship of the Alchemy Grand Competition, then he will be able to return to the Wuyu Alchemy Pavilion in three days, a long-cherished wish for decades. Achieved, is there anything more exciting than this? Too lazy to worry about too much, Pavilion Master Xuan Sheng pushed people these people to Huangfu Nan and other elders who followed to receive them, but Huangfu Nan and the others were too busy, but what was the excitement in his heart? It cannot be covered.

[Chapter 1367: Five Elements Secret Realm](#)

All night, the gifts Bei Tianyu received piled up all over the room and couldn't put them down.

Of course, the focus is still behind.

Sure enough, at night, the host of Kong Sitong came to visit him in person.

"Hahaha, little dust, congratulations, congratulations!" As soon as he came up, Kang Sitong laughed freely, and there was an extra real card in his hand: "less dust, pavilion master Xuansheng, this is a big comparison this time, less dust According to the regulations, my Wanbao Lou had to withdraw 10% of the handling fee for the 183.6 billion middle-grade real stones in your handicap. This time, it won't be a cent.

Take it, leave it all to you, less dust. "

Kang Sitong said that he handed the real card up, but it was a real stone card jointly issued by Wanbaolou and the four major banks in the mainland. You can withdraw real stones from any Wanbaolou or four major banks in the mainland.

Pavilion Master Xuan Sheng was shocked to see, 183.6 billion middle-grade real stones, what concept is this? Even for him, it was the first time that he saw so many real stones.

And what surprised him even more was the attitude of the host Kang Sitong towards Qin Chen, one mouthful and one little dust. In terms of status, the host of Wanbaolou in Zhongzhou City is not inferior to him, the principal of the Dange Pavilion in the North Tianyu, and even worse than that. Would you be so respectful to Qin Chen?

As far as he knows, this is the first time Qin Chen has come to Zhongzhou City, right? And last time, I only met with the host of Kong Sitong for a long time. Why did Kong Sitong become so polite just like meeting his father?

"Host Kang, how did this make it? Although the handicap is my Beitianyu owns, but your Wanbao Building is also considered as a guarantee. You should still take away 10% of this stipulation." Qin Chen took the real card. , But said with a smile, although this amount of money is huge, he has not paid too much attention to it. "Hahaha." Kang Sitong waved his hand again and again, "You are joking, Shaochen, this time, I have to thank you, to tell you, although I won't make a cent in Wanbaolou in this market, but in other markets, My Wanbao Lou earns a lot, although it is not as good as your nearly 20 million, but it is not the same

Big, hey, it's all my Wanbaolou. "

Naturally, Wanbaolou will not only open Qin Chen's handicap. Like Ye Mo and others who won the championship, there are not a few people who buy it. After Qin Chen won the championship, Wanbaolou took all the handicap and made a big profit. How can Kang Sitong not be excited?

When Qin Chen heard this, he also understood, "If that's the case, I will accept it."

Qin Chen is also not welcome. After accepting the real card, he smiled and said to Kong Sitong: "Lord Kang, I don't know what Ben Shao made last time, what does the Lord Kang think now?" "Shao Chen said that he was going with Beitianyu. Don't worry about the transaction? Shao Chen, don't worry.

Although I am just a small sub-owner, I can still take charge of some transactions with Beitianyu Dandao City. I have arranged it before I come. Let his staff collect resources for a while

, The first batch of resources, as you said, is worth 10 billion high-grade real stones. "

Qin Chen is not only his black card VIP in Wanbaolou, but he is now the number one in the Four Regions. The key point is that Qin Chen is able to refine a half-step imperial pill at such an age. What are his future achievements? Kong Sitong did not dare to estimate at all.

He naturally wants to make friends with such characters.

"Okay!" Qin Chen clapped his hands. "The host of Kang is really quick to say, there are more than 10 million middle-grade real stones in this real card, and the initial funds, the host of Kang should be checked out first. I can't let the host of Kang suffer, except In addition, I asked the host Kang to set aside 50 billion middle-grade real stones and hand them to the host Xuan Sheng. After all, this

Pavilion Master Tsixuan Sheng used Dan Dao City as a guarantee and also assumed a lot of responsibility. "

Qin Chen took out his real card. He was not a person who ate alone, so naturally he would not let Kang Sitong pay for himself. As for Pavilion Master Xuan Sheng, it should be divided into 50 billion. Who knows that the two of them waved their hands again and again, and Kang Sitong directly said angrily: "Little dust, do you look down on my Kang? A mere 10 billion high-grade real stone resources, my Kang is still the master, and I After the staff of Wanbaolou arrived in the North Sky Territory, they would naturally meet the Chendi Pavilion under Chen Shao's command.

Contact, when the time comes, Chendi Pavilion can use the material of the North Heaven Territory to trade with us, and you don't need to pay for it. "

Pavilion Master Xuan Sheng also smiled and said: "Qin Chen, you can collect these 50 billion real stones by yourself. I didn't do anything, so I'm ashamed to take your money."

"but....."

"What's the matter?" Pavilion Master Xuan Sheng's expression sank, "Qin Chen, do you look down on the old man? You are still the saint son of my Dandao City!"

Qin Chen smiled bitterly: "If that's the case, it's better for the younger generation to respect their fate."

"What kind of younger generation is not younger, you are now the number one in the Four Regions Dan Dao Grand Competition. Going to the Wuyu Dan Pavilion will inevitably be valued by the Dan Pavilion headquarters. Maybe the old man will rely on you in the future." Xuan Sheng Pavilion The Lord said with a smile.

Although there are many 50 billion middle-grade real stones, it is nothing compared to making friends with Qin Chen. What's more, Qin Chen's current alchemy attainments are no longer higher than that of him. What will happen to the future after entering the Martial Domain? Pavilion Master Xuan Sheng couldn't imagine it himself.

Xuan Sheng and Kang Sitong are both smart people, and they naturally understand this, so they have such an attitude towards Qin Chen.

Several people chatted a few more words, and Qin Chen said to Kang Sitong: "Lord Kang, this young man has something to ask for."

"Please tell me." Kang Sitong sat up straight, he was not afraid of Qin Chen speaking now, he was afraid that Qin Chen would not speak.

"I have some friends who are in Beitianyu, but this young man has already notified them to come over. It is estimated that they will come to Zhongzhou City in the next few days. I heard that the host Kang will return to Wuyu soon. I want them to follow. Lord Kang, Lord Kang recommended them to go to the Five Elements Secret Realm in Wanbaolou."

The top powers in the mainland have their own places of cultivation, such as the Heavenly Sacred Pool in the Misty Palace, and the Five Elements Secret Realm is the secret realm controlled by Wanbaolou, which is specially used for the talented disciples cultivated by Wanbaolou to enter the cultivation. .

Although it was a bit worse than the Ancient Yu Realm, it was already an extremely rare secret realm in the Martial Realm, and it was not an ordinary genius to enter.

Qin Chen himself obtained the qualifications to enter the ancient Yu realm, but Wang Qiming and the others hadn't obtained much cultivation. Qin Chen wanted Wang Qiming and the others to enter the Martial Domain and grow up one after another to become the dominant existence. Just as Qin Chen's words fell, the expression on Kang Sitong's face froze, and he smiled bitterly: "Little Chen, you are too dear to the old man. The old man is just a middle-level man in Wanbao Lou. You let your friends follow me in Wanbao Lou. Cultivation, that's absolutely no problem, but it's difficult for Kang to enter the Five Elements Secret Realm

To do it! "The Five Elements Secret Realm is very powerful. Even the top geniuses in Wanbao Lou are not easy to enter. It is difficult to recommend someone to enter with Kong Sitong's identity!

[Chapter 1368: Arrived safely](#)

"This won't bother you. My friends have extraordinary talents. Although they dare not say that they are the best in the world, they are also outstanding talents. Qin only needs a recommendation from the host Kang. As for whether he can enter the Five Elements Secret Realm in the end, it depends on their own destiny." "If this is the case, then Kang can try." Kang Sitong nodded, "However, after your friends come here, Kang needs to identify their talents. Knowing that the entry into Wanbao Lou is very strict, not everyone can be recommended, and it must be the bottom

Son of innocence. "

"Just don't worry, the hostess Kang, will Qin still cheat you?" Qin Chen laughed.

Kong Sitong breathed a sigh of relief. For a moment, he suspiciously said, "You are the champion of the Four Domains Competition in the Dan Pavilion. Why not recommend your friends to the Dan Pavilion?"

The Dan Pavilion is also the top power in the Martial Domain. In terms of status, it is by no means under the Wanbao Tower. Although Dan Pavilion has always cultivated Dan Dao geniuses, in fact, Dan Pavilion also attaches great importance to martial arts geniuses and gathers a lot every year. Budo genius.

Pavilion Master Xuan Sheng also showed suspicion. The genius Qin Chen said should be his friends in those dynasties, right? With Qin Chen's identity, he can recommend it to Pill Pavilion.

The secret realm that Dan Pavilion mastered was no less than that of Wanbaolou.

"Hehe, Dan Pavilion, I would naturally recommend it too, but I'm afraid it will be a little troublesome if there are too many people, so I can only recommend some to Wanbaolou." Qin Chen smiled.

"Too many people?" Kong Sitong was taken aback: "How many people are there?"

"Lord Kang, don't worry, there are only a few."

"That's good." Kong Sitong nodded.

The two parties chatted for a while, and the matter was settled.

Qin Chen smiled slightly after sending off the master Kang Sitong and Pavilion Xuan Sheng.

Wang Qiming and their talents are indeed good. If they continue to stay in Beitianyu, they will continue to improve, but their growth is limited after all. Now that they have a good relationship with Wanbaolou and sent to Wanbaolou for training, their growth will inevitably exceed their expectations. .

Perhaps in the future, I can use them to unite Wanbaolou to deal with Misty Palace and Xuanyuan Empire, which would be much easier.

After experiencing the previous life, Qin Chen clearly knew that going alone is the most disadvantaged, and sometimes he must unite all the forces that can be united.

The next day, Qin Chen went to Master Ouyang Zhengqi again.

"How many friends do you want to recommend to our Dange Talent Camp?" Ouyang Zhengqi looked over.

"Yes." Qin Chen nodded.

"You should know that our Dange's genius camp is not so easy to enter, right?"

"Naturally need to be approved by Master Ouyang Zhengqi. I think Master Ouyang is in the Wuyu Dan Pavilion, and he still has this authority." Qin Chen laughed.

"it is good."

If it's someone else's request, Ouyang Zhengqi may not pay attention to it, but Qin Chen is the number one in the alchemy competition. Moreover, in his early twenties, he has been able to refine a half-step imperial pill, although he has used the heavens. Because of the Ten Thousand Realms, Ouyang Zhengqi would still sell this face. Pavilion Master Xuan Sheng heard about this and also found Qin Chen: "Qin Chen, don't worry, if your friend fails to pass Master Ouyang Zhengqi's assessment, I can also recommend it here, but there is no Ouyang starting point. Master Zhengqi recommended that high, but he still didn't enter the training camp of Wuyu Dange.

questionable. "

"Then I would like to thank Pavilion Master Xuan Sheng." "You are welcome, Qin Chen, do you know what I admire you most?" Pavilion Master Xuan Sheng said with some emotion, "The first point is that I am kind and righteous to myself. , When you came to Dandao City, you didn't have to worry about the Zhuo family and other messy things, but you did not hesitate to turn back and would rather fight Qinghong and the others as enemies.

Never thought of giving up them. The second point is that you are very confident, very determined, and believe in your own decision. If I had the same determination as you back then...not to mention the bad things that year. "

Two days in the past, Zhuo Qingfeng brought Zi Xun, Zhao Lingshan, Wang Qiming, Yu Wenfeng, Lin Tian, Zhang Ying, Di Tianyi, Leng Wushuang and Qin Ying to Zhongzhou City, accompanied by the original Dandao City. An old man of

The order that Qin Chen left when he left was for these people to rush to Zhongzhou City directly after setting off from the land of hundreds of dynasties. The other party was a storm, and he finally arrived at a critical moment. Two days later, I am afraid it will be too late. Up.

"Little dust!" When Zhao Lingshan and Zi Xun saw Qin Chen, their eye sockets instantly turned red, and they threw their tears up and hugged Qin Chen.

Since Qin Chen left the land of hundreds of dynasties, everyone hadn't seen it for almost a year. After this journey of wind and rain, the two could no longer contain their inner excitement, and tears flowed instantly.

Qin Chen touched the heads of the two, smiling bitterly, and a little bit heartache in his heart.

"Little dust." Wang Qiming and others also walked up. Compared with Zhao Lingshan and Zi Xun, they were obviously more stable, but they all showed excitement.

"It is really great that everyone can arrive safely." Qin Chen was also a little excited. These people are all his own good partners, and they are talented enough to help him in the future.

"Little Chen, I didn't expect so many things happened after you left. I heard Pavilion Master Zhuo say that You Qianxue actually joined the Law Enforcement Hall?" Zi Xun and Zhao Lingshan opened their red eyes and pursed their mouths.

On the way, they heard Zhuo Qingfeng say a lot. They did not expect that after Qin Chen left the land of a hundred dynasties, he would actually do so many things in a short time. They both admire and feel proud in their hearts. Of course, there is also a trace of annoyance and hatred. He wasn't strong enough to share it with Qin Chen.

Especially Zi Xun and Zhao Lingshan, thinking that You Qianxue can already help Qin Chen, but they can only stay in the land of a hundred dynasties, it is even more unpleasant in their hearts.

At this time, Zhuo Qingfeng smiled and walked up: "There is little dust, and I am fortunate to live up to our mission. Along the way, thanks to Gu Fei's old man, otherwise we will be in danger. If we don't leave the northern horizon, we won't know how big the sky is in this life. I didn't expect the outside world to be so wonderful."

"I have seen Saint Son." An old man walked up with an extraordinary aura. It was the old man Gu Fei from Dandao City.

After arriving in Zhongzhou City, he immediately returned to Pavilion Master Xuan Sheng, and heard about Qin Chen's deeds from Xuan Sheng's mouth, and his heart was full of admiration.

As the Son of the Northern Horizons, winning the championship of the Four Domain Alchemy Grand Competition is a feat that has not been achieved in the history of Northern Horizons for thousands of years.

Everyone reunited after a long time and naturally chatted a few words. "Little Chen, who are these?" The old man Da Bei carefully looked at the group of Qin Chen's friends, and was surprised. Although these people are young, they have extraordinary aura, and they are all very young. King Wu Xiuwei couldn't help asking immediately.

[Chapter 1369: Talent Crystal](#)

"They are all my friends in the land of a hundred dynasties. This is the person who is going to recommend to Wanbaolou and Pill Pavilion this time." Qin Chen said with a smile.

"That's them?" The old man in Da Bei nodded secretly, with Wang Qiming and his cultivation base, once recommended, he might be taken seriously.

Of course, Elder Dabei didn't know exactly what it was, because after all, he was only a casual cultivator in the North Sky Territory, and he did not know what the major forces in the Martial Region required to recruit disciples.

However, at the age of his early twenties, he was the cultivation base of King Wu. Although Wuyu was strong, it was not yet at the point where he could not look down on such geniuses.

Everyone finally met once, and naturally the chat was full of enthusiasm. At the same time, Qin Chen also ordered the old man Da Bei to call the host of Kang Sitong.

Not long after, the host of Kang Sitong came to Fengyun Pill Garden.

"Hahaha, little dust, these are your little brothers?" Kang Sitong smiled heartily as soon as he came in, and at the same time looked at Wang Qiming and others. At this look, the original anxiety was suddenly relieved, and he couldn't help but darken. Surprised.

He originally thought that Qin Chen spoke this way because he wanted to leave his relationship and bring some of his ordinary friends to Wanbaolou, wanting to enter the Five Elements Secret Realm through the back door.

But when I saw it now, I couldn't help but feel shocked. These friends who were less dusty were incredible. Although their aura was far from that of Qin Chen, they were much stronger than most geniuses in the Martial Domain. "Lord Kang, these are my friends, please test it." Qin Chen smiled and said to Wang Qiming and the others: "This is the owner of Wanbao Lou in Zhongzhou City, Wanbao Lou is the top strength of Wuyu. One, as long as you can join Wanbao Lou, you will definitely get

The cultivation of domains will be unlimited in the future. "

Wang Qiming and others looked at Kang Sitong in shock, the host of Wanbaolou? Although they didn't know the identity of the original owner of Wanbaolou, the terrifying mountain-like aura of Kong Sitong had already shocked them as soon as he came up.

"Shao Chen laughed." Kong Sitong smiled.

"Qin Chen, you are so good. I brought my friends and introduced them to the host Kang first. Do you look down on our Dan Pavilion?" At this moment, a laugh rang and Master Ouyang Zhengqi left. Come in.

"Master Ouyang." Qin Chen hurriedly saluted, and then introduced Wang Qiming and others to the other party.

"These are the genius teenagers you said you want to recommend to the Pill Pavilion? They are really impressive." Ouyang Zhengqi glanced at Wang Qiming and the others, and was secretly surprised.

He had the same idea as Kang Sitong before, thinking that Qin Chen wanted to walk through the back door, but now he saw that Wang Qiming and others, at least on the surface, did not look like ordinary geniuses, and obviously had two brushes. "Everyone, this is Master Ouyang of Wuyu Dange, Zi Xun, Lingshan, Yu Wenfeng, Lin Tian, Zhang Ying, Qin Ying, haven't you guys said that you want to join Dange? This time I asked for it. Master Ouyang Zhengqi, as long as you can pass his test, you can go to Wuyu and enter

Dan Ge's training camp. "Qin Chen said with a smile.

"I have seen Master Ouyang." Zi Xun and the others were secretly startled. They did not expect that in less than a year, Shao Chen had known so many mainland powerhouses. While shocking them, they also admired them.

At the same time, Zi Xun and the others were suspicious. They never said that they wanted to join the Dan Pavilion. Why would Shao Chen say that? Moreover, Qin Chen deliberately spotted a few of them, but omitted Wang Qiming, Di Tianyi and Leng Wushuang, obviously not for a certain purpose.

Although they were puzzled, they all looked respectful and didn't raise them.

"Little dust, you can say that you want to introduce me to geniuses, Master Ouyang, you can't fight with me in the so-called first come first come." The host Kang Sitong said.

"Okay, Lord Kang, don't worry. Although Ouyang has a bad temper, I won't be able to **** geniuses from Wanbaolou." Master Ouyang laughed. Although he was amazed at Wang Qiming and their youth and cultivation level, it was only a bit of a surprise, not much shock. Such performance only gave Qin Chen a face. Although Wang Qiming and the others are strong, Ouyang Zhengqi is in Wushu after all. How can people who have seen the world's face be

The genius was shocked. "Then I will come first. I have a talent crystal in Wanbaolou, and the old man has sent someone to bring it. After a while, you will stimulate your blood, and input your true essence into it, and the talent crystal will show the number. As long as it meets the standards of my Wanbao Lou, you can enter my Wanbao Lou." Kang

Si Tong smiled and said, he was still very curious about Qin Chen's talent.

"Little dust, what is the crystallization of this talent?" Wang Qiming and others were a little curious and asked one after another. "Talent Crystal is an instrument to test the talents of the martial artist in the Martial Domain. It can comprehensively evaluate a number based on the martial artist's bloodline grade, true strength, bone age and cultivation base, etc.. In the Martial Domain, the higher the talent crystal number test, the more you can get the favor of the major forces. But you

We don't have to care about the number of talent crystallization, this is just a simple test, and may not really represent the future. Some people have low talent crystallization numbers, and they may grow into a powerful team. Some people have high talent crystallization numbers but don't work hard. , It's just a waste. "

Qin Chen explained that he didn't know what Wang Qiming's talent numbers were, so he hoped that Wang Qiming and the others would not give up on themselves even if the numbers tested were very low.

Qin Chen was still a little worried. After all, Wang Qiming and the others came from the most remote places of the hundred dynasties. Although they had made rapid progress under their own training, many times, the environment could still determine many things.

Like the warriors in the Martial Domain, their natural talent will definitely be stronger by the next four domains. This is an unchangeable fact.

Wang Qiming and the others are also faintly worried. This is a test of martial arts geniuses. Can they pass the assessment? Everyone has no bottom.

"There is little dust, so how many talent assessment numbers are considered excellent?" Wang Qiming and the others asked again, wanting to understand more clearly. "The number of talent crystallization is one to one hundred, and generally can reach ten. Even if it is a genius, if it reaches twenty, it is already qualified to enter our Wanbao Lou. If it reaches 30, it can be considered even among Wanbao Lou disciples. Top-notch, as far as higher...it's even more terrifying." Kong Sitong smiled

Interrupt. Then he comforted: "Since you were introduced by Chen Shao, as long as you reach ten, I can recommend you to Wanbao Lou. Then, through some pills and treasures to change your physique, the numbers will improve significantly, so you don't need to go too far. worry."

[Chapter 1370: Amazing value](#)

Wang Qiming and the others glanced at Qin Chen, and they were all under pressure. They could reach ten. Even if they were geniuses, they could enter Wanbao Lou, but could they reach ten? Everyone feels a little nervous.

After a while, Li Xuanchao of Wanbaolou came to enshrine, spread his right hand, and a fist-sized nine-color bead floated, which was the crystallization of talent.

Kang Sitong held the gift of talent in his right hand, smiled and looked at Wang Qiming's group of people, and said, "Which one of you will come first?"

Wang Qiming and the others looked at each other, feeling a little nervous.

"Wang Qiming, Di Tianyi, and Leng Wushuang, didn't you three say that you admire Wanbao Tower very much? Let's test the three of you first." Qin Chen winked at the three of them, wondering what their talent numbers were. Qin Chen was also a little concerned.

At the same time, he couldn't help feeling a little nervous, he really didn't expect Master Ouyang Zhengqi to come over.

Wanbaolou test geniuses use the crystallization of talent, which is nothing, but Master Ouyang Zhengqi wants to test Wang Qiming and the others, he will inevitably use the heavens and the world, and the heavens and the world also have the function of testing talent, Qin Chen knows very well. But Wang Qiming, Di Tianyi, and Leng Wushuang, like himself, had been inherited from the ancient southern capital and possessed silver spiritual seeds in their bodies. Before in the Big Competition, the heavens and all realms almost realized the seeds of life in their minds. Fortunately, the golden spiritual seed in my mind myself

Hidden away.

But Wang Qiming and their spiritual seeds don't know where they are. Once they are discovered by the heavens and the world, it will be troublesome.

This is also the reason why Qin Chen said this deliberately before, just to let the three of Wang Qiming enter the Wanbao Building, instead of conducting the Pill Pavilion test.

But at this point, Qin Chen couldn't say anything. He only prayed that the talents of Wang Qiming's trio could reach ten and be favored by Wanbaolou. This way, there is no need to test the pill pavilion, otherwise, Qin Chen is really not. I know what excuses I will make.

"Let me go first!" Leng Wushuang summoned his courage to take a step forward. Although he didn't understand why Qin Chen had called the three of them, he had only trusted Qin Chen after getting along for so long.

Before coming to the crystallization of talent, Leng Wushuang couldn't help taking a deep breath.

At this moment, he is still quite nervous, not knowing how much his talent number can reach. This is the moment that determines his life's fate.

If he could reach ten, he would be satisfied. As long as he could reach ten, he would be able to go to the Martial Domain, join the Wanbaolou, and become a Martial Sovereign would be much easier, and he would be able to handle some things for Qin Chen in the future!

When he was in the ancient southern capital, Qin Chen was still his competitor, but now, Qin Chen has become his idol. If it were not for Qin Chen, they and Di Tianyi would not be able to enter the heavenly demon secret realm, nor would they have been here. step.

When encountering danger in the past, Qin Chen always stood in front of them like a god, shielding them from wind and rain. Every time he looked at Qin Chen's back, he longed for one day to stand side by side with Qin Chen. Like Qin Chen, he can guard the Northern Heaven Region.

Di Tianyi, Wang Qiming, Zi Xun, Zhao Lingshan and others all looked at Leng Wushuang with a little nervousness, a trace of sweat leaked from the palms of their hands. This is the Eastern Continent, and

everything here is different from the North Tianyu. Talent The crystal value directly determines their future!

I don't know what the final result will be, but that kind of result is something they must bear.

"Okay, I'll start." Kang Sitong glanced at Qin Chen, and when he moved his right hand, the talent crystal flew to Leng Wushuang's side.

The crystallization of talent is floating beside Leng Wushuang.

Leng Wushuang reached up with his hands, and his true essence and blood were stimulating at the same time. He vaguely felt that there was a voice calling in his ear. Listening to that voice, the tension and anxiety in his heart gradually disappeared, and the whole person relaxed.

The talent crystal buzzed and shivered, emitting a dazzling light.

Seeing this scene before him, Qin Chen also had an uncontrollable excitement in his heart. Looking at the crystallization of talent, Leng Wushuang's talent value would never be low, at least not less than ten.

Master Ouyang Zhengqi and others were surprised.

Kang Sitong also opened his mouth in surprise. After a long while, he recovered. He hurriedly turned his head, arched his hand towards Qin Chen, and said excitedly: "Congratulations on the dust!"

"What is the value of Leng Wushuang's talent?" Qin Chen asked.

His heartbeat speeded up slightly. If Leng Wushuang's talent value exceeds twenty, he will definitely be able to join Wanbaolou, and he will be promoted in the future. Once he enters the Five Elements Secret Realm of Wanbaolou, his future help will be very great.

"Leng Wushuang's talent crystallization value is fifty-seven...In the future, it is possible to become a powerhouse of Emperor Wu..." Kang Sitong said in shock.

The number of talent crystallization is not random. The Wuyou recognized that if the value of talent reaches 20, it is very likely to become a powerful emperor, and if it exceeds forty-five, it is possible to become a powerful emperor.

General martial arts geniuses have a talent value between ten and forty, and those over forty are very rare, but Leng Wushuang's talent value is as high as 57, far beyond Kang Sitong's expectations.

This means that Leng Wushuang is qualified to attack the realm of Emperor Wu in the future, not even an ordinary Emperor Wu.

Of course, it doesn't mean that the talent value reaches forty-five, and it will definitely become the emperor of Wu, just that it is possible. It will take more than a hundred years of cultivation and the assistance of countless elixir to reach the realm of Emperor Wu.

But even so, it is already scary.

Regardless of the cultivation base, those with a talent value of forty-five or more are all geniuses, and they are all the targets of the major forces in the martial arts.

Kang Sitong didn't expect that one of Qin Chen's Northern Heavenly Domain partners had a talent value of 57. "Fifty-seven?" Leng Wushuang opened his mouth in shock. He even wondered if the talent crystallization was wrong, his talent value reached 57? When chatting just now, he already knew that the talent value of the entire martial arts area reached more than forty-five, which can be said to be one in ten thousand, ten thousand.

I couldn't find one of them.

Will I have a chance to become a Wudi strong in the future?

Just thinking about it, Leng Wushuang felt incredible.

"Great!" Di Tianyi, Wang Qiming and others were a little excited, happy for Leng Wushuang.

If there are more geniuses and strong people among them, their strength will be greater and they will be more united.

Ouyang Zhengqi also looked at Leng Wushuang in shock. With such a talent value, he has the opportunity to become a genius of Emperor Wu. Even he desperately wants to recruit him. Why does he want to join Wanbao Lou? He turned his gaze, and his eyes rolled up grunting.
