

## Valkyrie 1401

### [Chapter 1401: Give it a try](#)

"This....."

Ye Mo and Yan Chidao were a little confused, but nodded and said, "That's good!"

Qin Chen said again: "Also, when you two will practice cultivation, remember to practice in an open place and find a place that everyone can see."

Ye Mo and Yan Chidao were stunned. They looked at Liang Guanghao and several people not far away. They immediately understood Qin Chen's meaning and why Qin Chen didn't want to cultivate with them, because they didn't want to hurt them. Moved suddenly emerged in my heart.

"Everyone find a place to practice, remember not to go deep into the canyon, otherwise we will not be able to protect you in danger."

A rumbling voice sounded, but the few Wu Huangs who remained guarded spoke.

Not all the Martial Emperors of the Dan Pavilion have entered the Guyu Realm. There are still five Martial Emperors who stayed behind to protect the geniuses such as Ouyang Nana.

Of course, these five people will not stay on the periphery all the time. Every six months, another five people will come to replace them.

At this time, many Dange geniuses began to choose favorable positions.

In the canyon, the further inward, the stronger the power of space, because this place is the dividing line between the inside and outside of the ancient Yu boundary, resulting in a significant gap in the power of space between the two even if it is only a small distance.

Therefore, the more inside, and there are few space debris and cracks swept over the location, the better naturally, it is the place that everyone covets.

Qin Chen raised his head and glanced. Ouyang Nana, Ling Yi and other core geniuses of the Dange occupied these positions for the first time. Once inside the canyon, other geniuses saw it and smiled suddenly, but they could only choose another one Bit.

A famous genius chose their respective positions, row upon row. It can be seen that the position of each person is not only based on strength, but also based on identity, and there are some hidden places in this canyon, which are more suitable for retreat. Tight.

The lower the cultivation base, the position of cultivation is naturally also at the outermost periphery of the canyon.

Ye Mo and Yan Equator naturally don't need to think about them. They must be located behind everyone. Fortunately, this canyon is very vast. Even the last person in the line can get close to the middle of the canyon without being crowded out of the canyon.

Ye Mo and Yan Equator sat in the middle of the valley, surrounded by vast expanses. They practiced directly under everyone's eyelids, and they didn't feel embarrassed at all.

"Damn, these two guys are really cunning, they chose such a position, huh, they have been practicing there if they have the ability." Liang Guanghao and his friend were angry enough when they saw this.

The martial artist does not want to find a more private place, and does not want to be spied by others. Looking around, most people hide among the cliffs and hide their bodies.

But Ye Mo and Yan Equator are better. They just found an open space where everyone can see the open space for cultivation. This... has been being watched by others, don't you feel embarrassed? However, the behavior of the two is undoubtedly correct. In such an open space, Liang Guanghao and his friends want to trouble the two of them. I am afraid it is impossible. After all, there are five Wuhuang adults guarding them, even if one of them is himself. 'S elders exist, and we can't just attack them in such a fair manner

"Look at where Qin Chen practices?" Then, Liang Guanghao and others began to look for Qin Chen again.

At this look, he was immediately dumbfounded, because Qin Chen didn't enter the canyon, but directly searched around the canyon.

"Does this kid want to practice outside the canyon?"

Not only Liang Guanghao and the others, but other geniuses who saw this scene were also dumbfounded.

Among other things, just the strength of the space, the middle part of the canyon is nearly twice as rich as the outside, and now there are many places in the middle, but Qin Chen has to find a place outside.

Is this kid idiot?

Facing everyone's idiot-like gaze, Qin Chen ignored it, found a concealed mountain col on the periphery, and sat down in peace.

Without thinking about it, Qin Chen is the coldest place here, and the power of space is extremely thin. It can't be compared with the inside at all, but Qin Chen is very calm and feels inside.

"The power of space is not that the richer the better, but that it needs to be suitable for you." Others think Qin Chen is an idiot, so why not Qin Chen.

The perception of the profound meaning of space is like martial arts training, which requires gradual progress. If you blindly pursue fast and profound, then you should go to a human-level martial artist without even mastering the cultivation of the earth-level, but directly learn the cultivation method of the sky-level.

Of course, this is not completely bad, but for Qin Chen, it is not the best practice method.

"The power of space here is stronger than that of the outside world, but it is just right. It allows me to perceive the profound meaning of space, merge with the heaven and earth, and get the baptism of the profound meaning of space at the fastest speed." Qin Chen realized the beauty in the first place. .

During this period, Qin Chen took out a jade disc from his body.

The jade disc of good fortune in the universe is rumored to contain a realm, which is the key to open certain secrets. Although these are only rumors, Qin Chen knows that the jade disc of good fortune in the universe contains an amazing and mysterious atmosphere. Is there any effect in the world?

"Huh? It's amazing, it really works!"

When the Universe Fortune Jade Disk was taken out, the power of the space between heaven and earth suddenly seemed to be attracted, and inexplicably surged over. At the same time, Qin Chen, holding the Universe Fortune Jade Disk, felt the profound meaning of space. It was several times clearer than before.

If the original power of space was still quite hazy in his perception, then the power of space in his perception now is extremely clear, and the changing flow of space is extremely clear.

"Unbelievable, with this jade disc of good fortune from heaven and earth, the speed at which I perceive the profound meaning of space and absorb the power of space will increase at least several times."

Qin Chen exclaimed. After a short while, his whole body was glowing, and his whole body became nothingness. The shape was like crystals of nothingness. This was the embodiment of the body being nourished and tempered by the power of space, and he was training the body of space.

"This thing could be moved by the profound meaning of space earlier, let's give it a try."

Qin Chen tried to use the profound meaning of space to spur the jade discs of good fortune from the universe. He was surprised to find that the jade discs for good fortune from the universe were different, emitting a dazzling light.

He hurriedly stopped urging, fearing that there would be any movement. I don't know why, the Universe Jade Plate in this ancient Yu world, constantly absorbing the power of space, actually seemed to be slowly recovering, exuding an astonishing breath.

He was afraid of disturbing others.

Fortunately, the jade disc of good fortune in the universe is unpredictable, it suppresses all of this by itself, and there is no breath leaking. Afterwards, Qin Chen practiced with peace of mind, storing the jade disc of good fortune from the universe close to his body, with ethereal spiritual power, and comprehending the profound meaning of the space between heaven and earth.

#### [Chapter 1402: Human King Bloodline](#)

Qin Chen himself has a certain grasp and understanding of the profound meaning of space. After realizing this, the speed of cultivation is naturally extremely amazing.

"Heh, it's a bit of a way of life, it's no wonder it's so arrogant to realize the power of space so quickly."

At this moment, a voice sounded, and a figure appeared not far from Qin Chen's retreat, it was Ling Yi, with a sneer at the corner of his mouth, staring at Qin Chen.

"Are you not cultivating there, come here to worship me?" Qin Chen opened his eyes and said lightly.

At this moment, everyone is in retreat, all in enlightenment and practice, and sharpening themselves. Although I had known that Ling Yi would come to trouble myself, it was too impatient to wait.

How much hatred and hatred can be found so quickly, the other side's retreat, I am afraid that even the \*\*\*\* is not hot.

"Worshiping you, thinking too much, don't you know how to pay homage when this young man is here? Are there any rules?" Seeing Qin Chen not surprised, Ling Yi was surprised.

"What are you worthy of my visit?" Qin Chen smiled. "Boy, I didn't expect you to be so mad here. When you were in the palace, you hid in the room for three months before you survived. Now in this ancient Yu world, there is nowhere to hide. You dare to be so arrogant. It's really fearless for those who don't know." Ling Yi said coldly, "Seeing this young man come, I don't kneel

under? "

"Kneel down? It's just a half-step martial emperor, pretending to be a big head of garlic. People who don't know think you are a powerful nine-day martial emperor." Qin Chen said without any fear, "I also give you a chance. Kneel down in front of Young Master Ben, Young Master Ben may forgive you for your disrespect."

"Haha..." Ling Yi laughed, full of contempt. In his opinion, Qin Chen is too ignorant that the sky is so great that he dares to speak so boldly?

Do you think it will be invincible if you block Ouyang Nana's move? He also saw that punch. Although Qin Chen blocked it, he was also injured. Although he was not as good as Ouyang Nana, he might be enough to win Qin Chen within ten strokes.

"I don't know how to live or die, you know, this young man can make you kneel down without even having to do it." Ling Yisui: "Let you see the strength of my blood."

A purple-red halo emerged from his body. Hajime appeared to be terrifying, with a special charm, and the latter kind of breath spreading from prehistoric times, magnificent and ancient, majestic and frightening.

In that halo, a shadow of a figure appeared vaguely, like a prehistoric king, suppressing the world, with his hands on his back, looking down on the world, beneath the boundless vastness, billions of creatures bowed their heads and worshiped.

"The blood of the king?"

Qin Chen was surprised. He didn't expect that Ling Yi's bloodline was actually an extremely rare human king bloodline.

The human king bloodline, as the name implies, takes the king of people. The birth of this bloodline is extremely difficult. Generally speaking, human kings have appeared in their ancestors and they are worshipped day and night.

In an instant, Qin Chen's scalp tightened, and his soul throbbed, feeling an unprecedented pressure, shocking the soul, striding across the space, and crushing it.

This is a kind of instinctive worship, like a courtier seeing the emperor, shaking inexplicably, similar to the suppression of blood between blood beasts.

Boom!

A strong breath swept out, and Ling Yi was very satisfied with Qin Chen's performance. His king bloodline was extremely terrifying. If there was no resistance against the heavenly bloodline, he would surrender from the bottom of his heart.

But as soon as Qin Chen came from the Northern Horizons, what kind of blood could he have? I am afraid that what I have is also some blood that is not influential. It is not to be feared at all.

"Don't kneel down for me!"

Ling Yi yelled, with a strange light in his eyes, and long hair flying all over his head. He lived under the high forest and looked down at Qin Chen.

Qin Chen did have an unspeakable sense of urgency. The human king's bloodline was very special. When the bloodline came out, it would shock people from the soul.

However, he is not afraid. Although the human king has a strong bloodline, it is not invincible. It is just that a figure of the human king level has appeared in the ancestors, and it is not the human king who is here, and what about the human king?

He will live the next life, only kneeling his parents, not even the heaven and the earth, how can he care about a king?

Furthermore, his Thunder bloodline is mysterious and unpredictable, even Qin Chen himself is hard to get a glimpse of it, and it is absolutely impossible to be weaker than the human king bloodline.

Boom!

He didn't deliberately resist, just urged the thunder bloodline out a bit, and immediately, the coercion of everyone outside his body subsided, and the so-called human king bloodline was repelled by the thunderous breath he released.

"Huh?!" Ling Yi was taken aback, what kind of power was this that could push back his bloodline?

The power of thunder and lightning, is it some kind of thunder blood?

However, the ordinary Thunder bloodline, how can it be the opponent of the king bloodline of others?

It should be understood that among all the Tianjiao in the entire Dan Pavilion, there are only a few three or two bloodlines, including Ouyang Nana's ancient phoenix bloodline, which can be compared with the king's bloodline, and all other bloodlines are suppressed by it.

But today, he faced Qin Chen, a pariah from the Lower Four Realms, unexpectedly failed?

"Kneel down!" Ling Yi drank again, his eyes were cold, the power of his blood was spurred to the extreme, he didn't believe his blood could not suppress Qin Chen.

"Insane, screaming here, your parents haven't taught you, don't make a big noise? You should kneel down for me!"

Qin Chen had stood up, booming, the thunder bloodline was spurred by its strong force, crackling, and the entire mountain col was full of thunder light, covering everything.

"Boom!"

Ling Yi didn't dare to neglect, feeling that the situation was not good. At the moment Qin Chen stepped in, he had already urged his true essence and merged into the blood of the king, and he drew the power of the space between the heaven and the earth, half of the emperor's Power swept out, shocking Qin Chen.

An invisible space force swept across, forming a unique space domain, covering Qin Chen.

Although Half-Step Wuhuang was not a real Wuhuang, he could not form a space enchantment, but he also grasped the rough meaning of space. Perhaps it was not very prominent in the outside world, but in this ancient Yu world, space oppression was immediately formed.

"See if you are still kneeling!" He shouted sharply, his posture even more arrogant.

"Even the space barrier has been released. You, the king's bloodline is not bad. Look, Ben Shao can suppress you by relying on your bloodline." Qin Chen sneered, buzzing, the infinite lightning burst from his body. The power of Thunder's bloodline skyrocketed, and it spread out instantly.

This time, Ling Yi was even more unbearable. With a thud, the space pressure he had displayed was blown away a bit, and under Qin Chen's thunderous blood, he was constantly being wiped out.

This chilled Ling Yi's heart.

"What kind of blood is this? How could it be so strong?"

He is a little hairy. At this moment, he has displayed all the spatial comprehension of the King of Human Blood and the Half-Step Martial Emperor, but he can't match the power of the opponent's single blood. This kid is no more than his late peak, and his cultivation is even one level lower than him. How could he be so strong?

#### [Chapter 1403: Still human](#)

"I don't believe it, Wang Huiyan!"

Boom!

Ling Yi's eyebrows split apart and turned into a vertical eye. In the pupils of his eyes, there was a vacant purple-red light flying out, like a thunder, slashing towards Qin Chen, what could be faster than this light? Within ten feet, it is difficult to even avoid it.

"Hey, mental pupil technique, it also incorporates a trace of blood, interesting!"

Qin Chen was surprised. As expected, he was the apex Tianjiao of Pill Pavilion, who had actually practiced such pupil technique.

Comparable to the pupil technique, among Tianjiao, he is fearless.

"The Eye of Breaking the Forbidden!"

At the center of the eyebrows, there were also vertical eyes opened, as if a golden symbol flashed by, bursting out a terrifying mental impact.

With a bang, he crushed the purple-red light, turning it into bits of energy.

All this happened between the electric light and the flint. From the conversation between the two to the hands, it was too fast, Qin Chen stepped forward, like a lightning bolt moving.

He shook his fist and slammed a punch into Ling Yi's face.

However, when he approached the opponent, the mutation happened. Ling Yi suddenly burst out with a blue light, rushing towards Qin Chen, and every rune flickered, and his power was amazing.

This is the amulet rune left by the strong Ling family on Ling Yi.

The dull voice roared, like the sky, countless blue light violently slashed on Qin Chen, the speed was too fast, and Qin Chen could not avoid it.

"This is your own death, no wonder I am." Ling Yi savagely, under this blow, the Martial Emperor of the eighth-stage peak will die. Qin Chen, a seventh-stage peak martial king, how can he not die?

Although he came this time, just want to teach Qin Chen first, he has no plan to kill Qin Chen. It is not that Ling Yi has a benevolent heart, but is here to kill the Guyu Realm genius set by Dan Pavilion and spread it out. , He is also unlucky, and the Ling family can hardly protect him.

But now, he had no choice, the amulet was activated, and Qin Chen was bound to die. At this moment, his mind was rapidly turning, thinking about how to avoid responsibility.

But before the thoughts fall, suddenly—

Hum!

The surrounding space was suddenly silent, and a terrifying sword-inspired atmosphere filled him, completely enveloping him.

Kaka Kaka...

The sword intent and the blue light collided fiercely, annihilating each other wildly.

boom!

In the end, there was a loud blast, the blue light burst, and disappeared completely. On the opposite side, Qin Chen's robe was shattered, and dense blood stains appeared on his body, but it was only a skin injury, and the whole person was not bad.

"God, how is it possible?" Ling Yi was taken aback, completely horrified, he never expected to encounter such a monster today.

How could this fight for the front? The blue light that just broke out could kill even the Martial Emperor at the peak of the eighth stage, but this Qin Chen didn't have anything, and Ling Yi's heart was inexplicably rising in fear.

Is that human being?

"You're just a wild cultivator, a pariah from the Lower Four Realms..." His face changed suddenly. Could it be that although the other party came from the Lower Four Realms, he actually had a lot of origin? Otherwise, how to explain all this in front of me.

In an instant, he was in a state of confusion.

On the opposite side, Qin Chen's eyes were cold and too dangerous. Even he had almost failed to respond to the sudden murderous intent before. If it hadn't been for displaying the realm of the sword at the moment of crisis, with his current cultivation level, even if he didn't die, Must be seriously injured.

Therefore, his eyes were cold, no longer wasting time, and he went straight to the front, with a punch.

"No!" Ling Yi was furious and boomed, half-step Wu Huang Zhenyuan inside his body tried to resist, like a surging ocean.

However, under Qin Chen's suppression, how could Ling Yi resist? Under a palm, the sky full of true essence was instantly torn, and a terrifying fist came to Ling Yi in an instant.

What about Geshitianjiao?

What about the blood of the king?

In the face of Qin Chen's strength, all were ineffective, only the ones who were oppressed.

boom!

With a punch, Ling Yi's face instantly bloomed, his nose turned crooked, and blood spurted out.

"hateful!"

Ling Yi roared, his whole body glowing, even his ears, nose, and mouth were gushing light, the true essence in the seven orifices blasted, and he tried his best to use various secret techniques to kill Qin Chen.

Unfortunately, he failed, and Qin Chen got close to him. He lost his first move, one step wrong, wrong step, and most importantly, the suppression of Thunder's blood.

Crackling!

He was smashed and beaten by thunder, and his body was paralyzed.

Bang bang bang!

Qin Chen smashed out with a fist, the fist hit the flesh, the fist was bleeding, and every punch contained an astonishing mental impact that made Ling Yi completely lose resistance.

puff!

Ling Yi vomited blood, his eyes widened, his parents with swollen faces couldn't recognize them, and his heart was terrified.

"Let you pretend to be here."

"Let you be arrogant in front of this young man."

"Isn't there someone who has the blood of Wang, is it amazing? Isn't it the same as being beaten."

Qin Chen turned his fist into his palm, and slapped Ling Yi with seventeen or eight slapped slaps in an instant.

"what....."

Ling Yi yelled, covered in blood, filled with grief and anger, but was unable to resist. He could only scream sternly, trying to alarm the outsiders and rescue him.

It is a pity that in order to deal with Qin Chen, Ling Yi set up a soundproof barrier outside without making a big noise, but now it has become a prison for him to keep outsiders from knowing the situation here.

"How dare you scream, you scream, I tell you, no one will come to rescue you if you break your throat!"

Qin Chen disdain, another mad beating, the body of Ling Yi that was beaten torn apart, blood burst from all over his body, miserably like a beggar, there was not an inch of intact skin on the whole body.

He was frightened, frightened, and eventually his legs became weak and he wanted to kneel down.

He came here to humiliate Qin Chen and make Qin Chen kneel at his feet, but he never thought that it was himself who was kneeling.

"No!" He struggled with all his strength.

The dignity of the king is not to be desecrated. He is the martial arts Dange Tianjiao, how can he kneel down on the four domains.

However, Qin Chen came with a punch again, and he was unable to resist.

boom!

He flew out, and then, unable to hold it anymore, his knees were trembling, his head lowered, and he knelt down uncontrollably.

In the distance, people don't know what's going on here, because it's located in a mountain col, and the power of the space here is too strong. It is difficult for the spiritual power to see a little farther away. What's more, before doing it, Ling Yi deliberately used a restriction. But never wanted to be a cocoon.

However, many people know that Ling Yi secretly entered Qin Chen's retreat and went to trouble Qin Chen.

Many people speculate that Qin Chen is in great trouble, and in front of Ling Yi and other Tianjiao, the Xia Siyu Tianjiao who is against the sky is useless, death can be escaped, and life crime is inevitable.

Didn't you see the faint fluctuations in the true essence that came out of it? Obviously, both sides are doing it, and it must be Ling Yi teaching each other.

After a while, the fighting stopped, and all fluctuations fell silent. "Haha, the result came out, then Qin Chen should be very miserable!" Someone chuckled lightly, very confident.

#### [Chapter 1404: Beat half dead](#)

"To blame, blame him for being too arrogant. He actually offended Young Master Ling Yi and didn't see who he was." Another humanity.

"Since I'm from the next four domains, I should keep a low profile. I don't know how to converge. Isn't it a fight?"

Everyone said.

Liang Guanghao had a smile on his face, a little excited, but he didn't say anything. After all, he had been embarrassed and didn't want to be too aggressive. Moreover, Ling Yi's shots were also instigated by him and didn't want to be contacted by others.

But his expression is enough to explain everything, with a slight excitement and excitement, his mouth is almost reaching the roots of his ears.

"Hey, this son can be considered as an individual from the Lower Four Realms into the Martial Realm, but people still have to recognize their position, otherwise, they will suffer a lot."

He sighed, as if pitying Qin Chen, but in fact he was elated and expressive.

Ouyang Nana also looked at the mountain col, her eyes hesitated slightly, but in the end she could not express anything.

"Hmph, I have already reminded him to be careful, but he has to go into some col. It doesn't matter, let Ling Yi teach him a little lesson, anyway, Ling Yi won't kill him, at most he will teach him a few times. , Make him suffer."

Ouyang Nana closed her eyes, ignored it, and continued to practice.

"Less dust?"

On the empty ground, Ye Mo and Yan Qidao looked at each other, but there was concern in their eyes.

After the fierce confrontation in their hearts, the two gritted their teeth and shook their figures. They just wanted to stand up and go to Qin Chen's place. Suddenly a few terrible auras descended, shocking them, but it was Liang Guanghao and others.

"Two, is it okay to practice well? Don't make trouble for yourself." Liang Guanghao's hideous laughter sounded, warning them.

"If you have a seed, you can do it." Ye Mo and Yan Qidao gritted their teeth and stood up.

"These two guys." Liang Guanghao's eyes were cold and his face was sullen.

But he really didn't dare to do anything to Ye Mo and Yan Equator. This was an open space. Under the eyes of everyone, there were so many people staring at them, and there was not even a fig leaf.

"Well, that kid has been taught a lesson anyway, go and see how miserable that kid is."

Liang Guanghao stopped paying attention to Ye Mo and brought a few people closer to the Col.

Perceiving all this, Qin Chen immediately imitated Ling Yi's accent and shouted: "I am going to retreat here for a period of time, please don't disturb."

Liang Guanghao and the others who had been close to the spy were all startled when they heard the words. They had already quietly approached, but they stopped immediately and slowly backed away. No one wanted to upset Ling Yi.

At the same time, Liang Guanghao's heart became more excited and his smile thickened. It seemed that Ling Yi had taught Qin Chen not enough. He probably wanted to play with the kid for a while. Although he had never seen the scene inside, it must be uncomfortable to come to Qin Chen.

Now that Ling Yi has spoken, everything is obvious, his hunt has been successful.

Only after Ye Mo and Yan Qidao's face changed slightly, they rushed up quickly.

"Do you two want to die?" Ling Yi's cold voice sounded again, and at the same time, Ye Mo and Yan Qidao heard Qin Chen's secret voice transmission in their minds, "You two go back, I'm fine, don't show your feet. ."

The two of them were stunned for a moment, and they reacted in an instant, a gleam of excitement flashed in each other's eyes, and then they pretended to be frightened and hurried back.

"I thought these two guys had a lot of bones, but that's all." Upon seeing this, Liang Guanghao couldn't help sneering.

In the mountain col, Ling Yi was very embarrassed and angry. He knelt down in front of Qin Chen, feeling that Liang Guanghao and others retreated, and immediately vomited blood.

Are these guys idiots? Can't you tell if you speak?

What kind of identity is he going to practice in retreat in the cols outside this canyon? Can't use your brain?

He thought that Liang Guanghao and others would react, but he was disappointed, no one would think about it, only when he wanted to continue to teach Qin Chen, and all of them started their own cultivation with peace of mind.

"Boy, I admit it, you let me go, the grievances between you and me are wiped out."

Ling Yi was frightened and said, obviously begging for mercy.

"Haha, a cancellation? Do you think it's possible?" Qin Chen smiled.

The other party came to teach him, first shot, and failed, but he was taught, and then he wanted to write off, is there such a good thing?

What is Qin Chen when he is?

Come, say, leave?

"Then what do you want?"

Now Ling Yi is most worried about being captured alive, how will the other party deal with him?

Kill yourself?

It is very unlikely that no one would dare to kill anyone here, even he would not dare to kill Qin Chen casually, just holding a lesson mentality.

But apart from murder, there are too many things that Ling Yi feels terrifying, and nothing else, just kneeling here makes him extremely humiliated, like torture.

"What do you want? Let me think about it. Why don't you give me all the treasures on your body? I'll see if I can count them." Qin Chen touched his chin, raised his head high, and looked down at him.

He was very polite, and started directly to check Ling Yi's storage ring.

"Quickly, open the restriction on the storage ring and let me see what treasure is inside." Qin Chen said.

Ling Yi glared at him.

Snapped!

The result was Qin Chen's slap, and the blood sprayed straight away, his face crooked.

"Dare to stare at me, don't hesitate to open the storage ring." Qin Chen said with a smile, but it fell in Ling Yi's eyes, but like a devil.

He gritted his teeth and did not give in.

Happiness!

But after Qin Chen slapped up the face, he suddenly gave in.

"I'm driving, I'm... driving!"

He said with a cry of grievance.

This guy is simply a devil.

The ring opened, and Qin Chen immediately investigated.

"Tsk tusk, it's Dan Pavilion Tianjiao, a lot of treasures."

Qin Chen said with a smile, and while talking, he moved the contents into his storage ring. Not to mention, there are at least tens of millions of high-grade real stones, and there are also many elixir.

"you....."

Ling Yi cried and felt wronged, but at this moment, he could only watch Qin Chen move the things in his storage ring away, not even dare to let go.

In the end, Qin Chen almost emptied the contents of Ling Yi's storage ring.

"Now can you let me go?" Ling Yi cried. He just wanted to go back and tell the elders to kill him. He had to take off Qin Chen's skin. Even if he was punished by Dan Pavilion, he would admit it.

If you don't take revenge, you are not a man!

"Let you go back?" Qin Chen smiled, "Since you are here, don't think about going back, stay here and enjoy the scenery."

Qin Chen picked up Ling Yi, snapped, hurried with his hands, directly sealed Ling Yi's body meridians, and at the same time, his mental power was also imprisoned, and then snapped his head to the side. Go in the stone wall.

Ling Yi hung on the stone wall, twitching there, is this looking at the scenery? Being pressed in the stone wall, the five senses are sealed, and the ghost can't see it, okay? If he could move, he would really be mad, and he would be beaten half-worn and half-dead, which was really shameful to his bones.

#### [Chapter 1405: Body of space](#)

"Stay well in the stone wall and look at the scenery. If I find out what tricks you do, you will be at your own risk." Qin Chen said against Ling Yi's ear, and then slapped him into a faint.

"Okay, continue practicing."

After doing all this, Qin Chen clapped his hands and began to practice again.

Although he wanted to kill the opponent directly and save trouble, the location was wrong. Once the old guy outside found out that Ling Yi was dead, he would definitely be attacked, and it would be impossible to stay in Dan Pavilion any longer.

Although Ling Yi concealed his actions well, would the five martial emperor masters in the canyon not know? He didn't believe he killed Qin Chen, but the other party didn't even act at all. It was clear that he had acquiesced to Ling Yi's behavior.

What's more, one of the five martial emperors in the gorge is still the martial emperor of the Ling family, no ghosts.

Therefore, Ling Yi can't kill, and can't be released, and can only be detained here.

In the mountain col, Qin Chen held a jade disc of good fortune from the universe, madly absorbing the power of the space between heaven and earth.

Outside, others are feeling the profound meaning of space and mastering the power of space, but Qin Chen is introducing a lot of space power into his body.

Hum!

I don't know how long Qin Chen's whole body glowed brightly. He was haunted by the power of a large amount of space, baptizing his body, and under the power of Dao Dao space, his body began to become nothingness, showing a sense of ethereal.

"Sure enough."

Qin Chen was overjoyed.

If a strong person sees what Qin Chen is doing now, he will definitely be surprised, because Qin Chen is not even a half-step Martial Emperor, but constantly absorbs the power of the surrounding space, this is basically a kind of death-seeking behavior.

The power of space is an illusory power, but it is extremely terrifying.

Once there is too much space power in the body and the warrior himself cannot control it, once the power of space erupts, the warrior will be torn into countless fragments by the terrifying space power, and his body will die.

This is a behavior that is even more terrifying than getting involved.

It should be noted that even the martial emperor masters must be cautious when displaying and absorbing them, and don't dare to be too rash, that is, those martial emperor masters who have reached the late stage of Tier 8 dare to try to do so.

But now, Qin Chen, a small late-stage peak martial king, actually did this.

What is it not to die?

No one knows that with Qin Chen's previous attainments and understanding of the profound meaning of space, it is not difficult for him to break through half a step in this ancient Yu world.

But he didn't do this, instead, he continuously melted the power of space into himself.

What he is doing now is something that he could not do successfully in his previous life.

Train the body of space.

The body of space means that when the martial artist has not fully grasped the profound meaning of space, he will integrate the power of the body and space, so that his perception of the power of space will be raised to the point where it is extremely against the sky.

Once trained, it will not only greatly increase the speed of perceiving the profound meaning of space, but also master the power of space, which is much stronger than ordinary Wuhuang. Even in the realm of Wuhuang, it can tear the void.

This is equivalent to Yan Equator's natural fire source body and Feng Yu Lei's natural thunder body, which is also one of the divine bodies, but it is more powerful than ordinary divine bodies. I saw a large amount of space power continuously entering Qin Chen's body. Qin Chen's body gradually became transparent. At first, the space power was not much, but gradually, Qin Chen's body was filled with space power. After that, a large amount of space power has completely flooded Qin Chen's skin.

A cell.

If a strong person sees this scene, he will be surprised, because the power of space contained in Qin Chen's body at this moment has even exceeded the power of space possessed by an ordinary eighth-order martial emperor.

But he is just a pinnacle martial king?

How did a martial king manage to accumulate so much space power in his body, and he has not been torn apart by the space power?

"It's almost done, it's already at its limit. Although my Immortal Eucharist has reached the sixth level, my cultivation level is too low, and the power of the space that can be accommodated in my body can no longer be increased."

Qin Chen also knew that the power of the space he contained had reached its limit, but instead of stopping the absorption, he accelerated the absorption.

Because he knows that the critical moment for the physical body of space has now come.

When the wisps of space power continued to blend into Qin Chen's body, his body that had reached the limit finally couldn't hold on.

Puff!

A crack immediately appeared on Qin Chen's body. In the crack, the power of the space madly dissipated, and traces of blood spurted out of it.

This is because his body can't bear more space force, causing his body to be torn apart by the flooded space force.

At this moment, Qin Chen had reached an extremely dangerous position.

But instead of stopping, he continued to absorb.

Puff puff.....

In the next moment, dense gaps appeared on Qin Chen's body, and the blood immediately changed his whole body.

"not enough."

Qin Chen gritted his teeth. As he absorbed it, he condensed crazily. The wounds on his body continued to appear. The whole person instantly turned into a blood man, and there were gaps in his whole body, which was shocking.

Even, not only a gap appeared on the surface of his body, but even inside his body, cracks began to appear, and the internal organs were torn apart.

It's like being tortured by thousands of swords.

But Qin Chen silently endured, his whole body was soaked in cold sweat, and he didn't hum.

When he came to Wuyu, he saw the horror of the Xuanyuan Empire and Misty Palace.

Three hundred years have passed, Shangguan Xi'er and Feng Shaoyu have become stronger. Not only have their strengths become unfathomable, no one knows them, but the power they possess has reached the level of easily destroying many forces in the martial arts.

If you continue to follow the steps, how can you talk about surpassing them?

How to take revenge?

"The body of space, I must practice it!"

Qin Chen didn't yell in his heart, his unyielding will rose to the sky.

Puff puff puff...

Thousands of gaps appeared all over his body, but he was still absorbing the power of space.

If there is a Martial Emperor master here, you can be shocked to see that while Qin Chen continues to absorb the power of space, his wound is actually slowly absorbing the power of space.

This absorption is different from the initial absorption, just like ordinary Wuhuang, Wudi, storing the power of space in the body, but a process in which the body cells and the power of space are truly combined into one.

No one knows that if you want to train the body of space, you must maximize the power of the internal space. When the body collapses, the self-healing body will instinctively absorb the wisps of space power to achieve harmony with the space power. Thorough integration.

This process is very dangerous. If you are not careful, your body will completely collapse and be wiped out.

Moreover, it takes at least a few months for the continuous process to truly integrate every part of the body into the power of space and form the body of space.

that's it.....

Qin Chen was cultivating in the constant tearing of his body. Every day, his body was torn thousands of times.

one day!

Two days!

A month!

Two months!

During this period, Qin Chen almost collapsed several times, completely shattered, and was forced back by his terrifying will.

Finally, in the fourth month of Qin Chen's practice.

Hum!

Every cell in Qin Chen's body was integrated with the power of space, and only the brilliant light of space flowed out of his cells.

From the inside out, Qin Chen was sacred and flawless, and his body couldn't go further. The whole person was transparent, flesh and blood and spirit were flawless, like a dreamlike crystal, bright and brilliant.

The body of space! It succeeded!

#### [Chapter 1406: Half-step Wuhuang](#)

At this moment, Qin Chen's whole body exudes a bright light, and is submerged by various spatial runes, with a lingering breath, baptizing the flesh and condensing the spirit.

Moreover, the Immortal Eucharist has also broken through, the power of the Dao Dao Space rushes into his body madly, and his body is healed at a speed visible to the naked eye.

Can the power of space heal the body?

If you let other powerful people see this scene, their shocked eyes will fall. The power of space is a kind of illusory power, which belongs to a kind of rule and a kind of profound meaning.

It is a kind of destructive power, but now, it is healing Qin Chen's body, isn't it hell?

They don't know that this is the horror of the body of space. Once the body of space is trained, the force of the space that flows into the body is not only not dangerous, but is like a big tonic, nourishing and healing the body.

Hum!

His body quickly healed and became crystal clear, with a lustrous jade, Qin Chen stood up, raised his hand slightly, and instantly, the power of the space between heaven and earth was attracted and lingered around him.

"This is the body of space?"

Qin Chen was shocked. In his perception, the power of the originally vain, tyrannical and terrifying space became very docile at this moment, and he was easily controlled by him.

This kind of control is even more comfortable than the control he had when he was Emperor Wu in his previous life.

How to describe it?

If Qin Chen in the previous life, as a martial emperor, had a very high understanding of the profound meaning of space, his control over the power of space was like manipulating a skilled weapon.

So now Qin Chen felt like an arm driven.

As if the power of this space is part of his body, that kind of freedom is like controlling one's arm.

How can a weapon be compared with one's own arm even if it is proficient in manipulation?

Although at present, Qin Chen's power to control the power of space is far less powerful than that of the previous life, but he is comfortable and comfortable, but now Qin Chen has surpassed the state of the peak of the previous life.

"The body of space is really powerful, but unfortunately, it is too difficult to practice, and too risky!"

After the surprise, Qin Chen's heart came out of fear.

No one knows how many times he has walked on the edge of life and death during the four months of cultivation, and at least hundreds of nearly collapsed, making him feel a little palpitating now.

"If it weren't for this jade disc, I'm afraid I would have died already?"

Qin Chen took out the jade disc of good fortune from the universe, and now he has cultivated the body of space, and he is very keen on space perception, and he can even feel the horror of the jade disc for the fortune of universe. Although it is only a jade disc, it is in Qin Chen. In his perception, it is like a hazy world, unfathomable.

During the previous practice, Qin Chen almost couldn't hold on for hundreds of times. Every time, his body could hold on because of the jade plate made by the universe. Otherwise, even if he had hundreds of lives, he would have died.

The jade disc of good fortune from the universe has the effect of solidifying the void.

It can be said that he would have died long ago without the jade disc of good fortune in the universe, and it is even more impossible to cultivate the body of space.

"It's no wonder that people who knew the body of space in the previous life were rare, but they weren't there. But none of those who really trained the body of space appeared." Qin Chen sighed.

It should be noted that the body of space can only be practiced in the realm of King Wu, and although Qin Chen is King Wu, he has already mastered part of the space artistic conception, and has also practiced the Immortal Saint Body, the most defying body practice in the mainland, to the sixth level. , The one who cultivates is also the Nine Star God Emperor Jue, a technique that surpasses heaven and earth.

But in this case, it almost fell a hundred times, and it was because of the good fortune of the world that the jade plate persisted.

How can other people practice successfully?

This is simply impossible.

I am afraid that in the previous life, it was not that no one tried to practice the physical body of space, but that everyone who wanted to try was already dead!

"However, since it is impossible to do so, who created and passed down the cultivation method of this spatial body?"

Immediately, Qin Chen wondered again.

This is obviously counterintuitive.

"Perhaps in ancient times, there was a certain method that could enable people to practice the physical body of space!"

There is only this explanation.

After some speculation, Qin Chen sat down cross-legged again. Since the spatial physical training was successful, it was time to break through the half-step Martial Emperor.

Hum!

Qin Chen closed his eyes, felt the profound meaning of the surrounding space, and absorbed the power of the space. In a moment, the power of the surrounding space seemed to be attracted, rushing crazily and submerged in his body.

The absorption speed is more than ten times faster than when the body of space was never trained.

In itself, absorbing the power of space in the ancient Yu realm and perceiving the profound meaning of space is equivalent to ten times that of the outside world.

And now, on this basis, Qin Chen has once again increased more than ten times.

In other words, at this moment, Qin Chen absorbed the power of space and felt the profound meaning of space at a speed that was almost a hundred times higher than that of the outside world.

What a speed is this?

boom!

I saw the amazing space power almost turned into a whirlpool in this mountain col. Every moment there was a large amount of space power, poured into Qin Chen's body, like a waterfall.

Chi Chi Chi Chi!

The power of the first spatial principle in Qin Chen's body was rapidly forming.

This movement was so loud that it immediately stunned many geniuses and strong men in the canyon outside, all of them looked shocked.

"This momentum is terrible!"

"what happened?"

"Could it be that Brother Ling Yi is breaking through?"

"It's only four months. Ling Yi is about to break through Wu Huang?"

Outside, Ouyang Nana and others were shocked. With such a movement, besides Ling Yi breaking through the Emperor Wu, what else is possible?

It's only four months. In Ouyang Nana's plan, she is planning to hit the Martial Emperor realm in six months, that is, half a year. This is already very scary. Almost the top tianjiao in the Martial Domain has this plan. .

Half a year is not long, they are also very confident, and the remaining two and a half years are enough for them to reach a higher level.

But now, Ling Yi, whose cultivation base was clearly inferior to her, even though she had begun to break through the Martial Emperor within four months, this was too powerful.

At this moment, the five great martial emperors all showed shocked faces, condensing the power of the second spatial principle for half a year, is this Ling Yi a peerless genius buried?

Although during this time, many people have broken through the half-step Wuhuang, but the breakthrough from the peak of the Wuwang to the half-step Wuhuang is not the same as the half-step Wuhuang breakthrough to the eighth-order Wuhuang.

In comparison, this second one is more difficult.

Moreover, he broke through the Emperor Wu in half a year, and the remaining two and a half years were enough to make him enter the middle stage of the eighth stage again. This was definitely not a difficult task.

At this moment, everyone was shocked, showing a different color.

"Haha, I just said, Brother Ling Yi is so majestic, who can fight with him? I don't know what happened to Qin Chen. After being bullied by Brother Ling Yi for so long, he wouldn't commit suicide in shame, right?" Guanghao couldn't help laughing, his expression was very excited, as if he had broken through himself.

#### [Chapter 1407: Stunned people](#)

"It is possible that in front of Ling Yi, Qin Chen doesn't even have the qualifications to surrender!" Someone agreed.

"Let's wait and see!" Liang Guanghao smiled.

A group of people were ready to welcome Ling Yi, the young master of the Ling family, to leave, Liang Guanghao looked forward to it.

Rumble!

In the mountain col, the power of the space was very dense, all pouring into Qin Chen's body, his seven orifices were spraying the power of the space, and the whole person became more and more transparent.

It can be seen to the naked eye that in his body, a thick chain is slowly forming, this road is a chain, extremely thick, with the thickness of the arm, and contains unpredictable power.

If anyone saw this scene, they would be surprised.

Although the power of the space Dao Ze is formed by the Wu Huang's perception of the profound meaning of space, in fact, there are also strong and weak points. The power of the ordinary Wu Huang's condensed space Dao is at most the thickness of the thumb.

It is already very difficult for some top-notch Tianjiao and Tianjiao Wuhuang to condense the thickness of the gun stick.

But Qin Chen's current condensed spatial Dao is chained, with an adult's arm thickness, which is almost ten times that of an ordinary martial emperor, and several times that of the Heavenly Jiao, how not surprising?

In this world, how could there be such a large chain of Taoism, and the profound meaning and power of space contained in a chain of Taoism surpasses others' ten, just like a fantasy.

Even if it can be condensed successfully, how can it blend into the body? With the general strength of Wu Huang's body, he couldn't bear it at all.

Rumble!

Between the heavens and the earth, the power is even more astonishing, and countless spatial forces continue to flow in.

The chain of space and Dao within Qin Chen's body was also rapidly forming, but the further behind, the slower the condensing speed, and Qin Chen became more and more strenuous.

It should be understood that with Qin Chen's understanding of the profound meaning of space, it is not difficult to step into the realm of Emperor Wu.

But now, this is just a chain of space, which makes him so strenuous, showing its power.

"Brother Ling Yi is really awesome. He's only thirty years old. He actually broke through the Emperor Wu, and the momentum he caused is too terrible. How do I feel that I am not weaker than those celebrities in history?"

Some people sigh, very shocked.

This momentum is too big, unlike an ordinary breakthrough.

Liang Guanghao nodded and said: "It doesn't matter who Ling Yi is, he is from the Ling family, and it is rumored that his blood is the blood of the legendary king. Can it be ordinary? Once the trip to the ancient Yu world ends, it will definitely become The son of Dange, one of the future heirs of Dange."

He was very excited and proud of it.

In the mountain col, Qin Chen's breakthrough finally came to the end, hum, a large amount of space power submerged into his body, slowly completing the last part of the chain of this space road.

boom!

When the power of the last space was integrated, the thick chain of Dao Ze suddenly burst into dazzling light, and a heart-palpating breath of terror suddenly swept away.

Puff puff!

Qin Chen's body almost rotted, bursting open, and blood was sprayed everywhere, but soon, the chain of the formed space channel released the power of the pure space of the channel, and Qin Chen's body was repaired.

When Qin Chen's body was repairing quickly, he cracked, and a layer of old skin was shed from his body, his body was full of light and vitality.

At this moment, he realized an extremely powerful force, full of vitality.

"This is just a half-step Martial Emperor. Why do I feel the illusion of being in charge of a world?"

Qin Chen whispered, although he had only condensed the power of a spatial principle, his feeling was better than ever, and everything around him was so kind.

"Where am I?"

Suddenly, a murmur resounded, it was Ling Yi who was awakened by the huge fluctuations. After being in a coma for so long, his mind was a little confused.

But immediately, he woke up, understood his situation, and just about to speak, he was knocked out by Qin Chen.

After being in a coma for four months, the blood on his body was crusted, and his body was muddy, very miserable and unbearable.

Not far away, seeing the movement dissipated in the col, some people came, all smiling, and came to congratulate.

"Congratulations to Brother Ling, who succeeded in breaking through the Emperor Wu, he will surely be named a saint son and inherit the Dange Master." Someone respectfully said.

"Brother Ling Yi, the hunting was successful, and now he has broken through the Emperor Wu, and Wuwei has succeeded in the world. I admire him. From now on, Liang will be led by Brother Ling and let him be driven." Liang Guanghao came, exaggerated praise, his face was full smiling, shouted loudly, and hugged his thigh for the first time.

"Brother Ling is mighty, and I am willing to follow Brother Ling in the future to fight the world and raise power for Dan Pavilion."

Unwilling to be left behind, the other parts stepped forward to compliment them and walked towards the col, unwilling to be led by Liang Guanghao alone.

They all smiled and came to the col, very respectful and humble.

However, the next moment, the smiles on everyone's faces froze, and the voice stopped abruptly.

Who did they see? The untouchables of the four domains!

It was like a sap, the whole person was stupid, and all the words in his mouth were swallowed back, and the choking blush was thick and his neck was too uncomfortable.

Liang Guanghao staggered and almost vomited blood.

How could it be that pariah? This scene, this accident, made him stare, unacceptable.

The others were stunned. All Tianjiao who came to the mountain pass were dumbfounded. The place was quiet, there was no sound, and the needle drop was audible. It was too weird.

They saw Ling Yi, like a beggar, falling down on the side of the mountain col with his heels and feet, covered in blood, motionless, unconscious.

On the side, Qin Chen stood there, his body was full of energy, and his heart was palpitating.

Ling Yi crawled under his feet in an unsightly posture, as if kneeling down, unable to resist.

This really stunned them. This is the Young Master Ling Family, one of the top princes of the Dan Pavilion, how could he be so embarrassed?

Moreover, his clothes were torn and worn out. It didn't look like he had just been defeated. On the contrary, he seemed to have been sloppy for several months and had not been taken care of.

For a while, everyone was shocked. Who has been practicing here for the past four months? Isn't it Ling Yi?

As soon as this thought came out, everyone was stunned. They quickly understood that all the earlier guesses were wrong. This ending is really cruel. The previous breakthrough was that Qin Chen, who has been practicing for the past few months. Qin Chen.

As for Ling Yi, he probably missed the first hunt and became a prisoner.

The mutation here has also attracted other Tianjiao who had never been attracted before, and they have swept over.

Seeing this scene, everyone was shocked.

The only smiles were Ye Mo and Yan Equator, they had already guessed and doubted, and now they are so, their hearts are extremely happy.

"How...what did you do to Brother Ling Yi?" someone shouted, his face was very wrong and pale. Because Ling Yi was lying there, motionless, as if he had lost his life, it was too miserable, he didn't know his life or death.

#### [Chapter 1408: Long-term](#)

Hearing this, Liang Guanghao's face instantly turned pale, his legs were soft, and he couldn't stop shaking.

If Ling Yi died here and really had to settle the accounts, he would not be able to run, because he was instigating the shot, which was considered one of the culprits.

"You dare to do such a cruel hand to Brother Ling Yi, you are dead." Liang Guanghao said in horror, he thought that there was a martial emperor in the Ling family who was also in the canyon, inside the canyon.

He turned and ran, wanting to send the news, but Qin Chen had long seen him not pleasing to his eyes, and he threw out a punch, blasted that Liang Guang violently, vomiting blood with no resistance.

Na Liang Guanghao also broke through half of the martial emperor realm in this April, but there was no resistance in front of Qin Chen. He was seriously injured with just one blow.

Everyone took a cold breath. Although Qin Chen had never targeted them before, when he shot, he actually gave everyone the illusion that the end is coming, and he couldn't help but be shocked.

"Quickly report to Master Ling Jun and ask him to take action!" Liang Guanghao shouted.

In this trip to the ancient Yu world, Ling's family has three places. In addition to Ling Yi, there are two martial emperor masters.

One is an elder of the Ling family, Ling Yuannan, whose cultivation is as high as the late stage of the eighth stage, is the main force of the Ling family's current martial emperor and the mainstay in the future.

The other person was Ling Jun, who was only in his early forties, and was already the peak Martial Emperor in the early stage of the eighth stage.

Although the five martial emperors of the Dan Pavilion didn't care about the movement here, they always paid attention. Although Liang Guanghao and others did not come in person, the perception has never moved away. Therefore, while Liang Guanghao shouted, Ling Jun It is already clear when this happened.

"Boom!"

Almost instantly, Ling Jun appeared and rushed straight to his face. His face was cold. The young master of his Ling family was so humiliated here. How could he not be angry?

Ling Yi secretly targeted Qin Chen, he had known it, even by his acquiescence, and had previously suspected that Ling Yi would stay in that mountain col to continue practicing after he succeeded, but he didn't care.

But now I realized that Ling Yi had already missed the first shot. He was \*\*\*\* here, became a prisoner, and was dying.

He was shocked and angry in his heart. If Ling Yi had an accident in front of him, he would also be severely punished by the family when he left Guyu Realm.

"Let go of Ling Yi!" Ling Jun's face was cold, and he was already very angry when he was disturbed by his cultivation. Now that he saw Ling Yi's miserable look, his expression was even more ugly.

The young master of the dignified Ling family was actually captured by a pariah from the lower four domains. The words that came out were too embarrassing and a shame.

"If you want, just give it to you."

Qin Chen didn't care, picked up Ling Yi and threw it directly at the opponent.

If you want to kill, you would have killed it a long time ago, so what do you do so nervously.

Ling Jun took over Ling Yi, and after the Zhenyuan instilled, Ling Yi immediately regained consciousness. Seeing Ling Jun, the dignified Tianjiao, he burst into tears.

"Uncle Qi, Yi'er is too miserable, you have to avenge Yier!"

Ling Yi's tears and nose were running wild, and these four months of experience were like a nightmare to him.

Ling Jun was annoyed and angry. He took a few pills for Ling Yi. After finding that his life was not hindered, he was relieved. Then he glared at Qin Chen and shouted: "Boy, as a pill genius, how dare you He was cruel to the disciples of the same pavilion, and the crime was so heinous, he would be arrested before I was restrained, kneeling and bound.

"Are you all idiots in the Ling family? Everyone has nothing new except kneeling down?" Qin Chen sneered, dismissively: "It was Ling Yi who did it first. He should kneel down and be punished. It's Ling Yi."

In terms of reason, he occupies a high moral point. Everyone knows that when he is cultivating in this col, it is Ling Yi who troubles him first, not him.

"You still dare to argue and die!" Ling Jun said coldly.

In an instant, he released the space barrier, wanting to imprison Qin Chen and act on it.

Because he also knows the truth well, his Ling family is at a loss, so he can only act first.

Boom!

At the critical moment, Qin Chen moved. He urged the power of space to form a defensive space around him to resist the pressure of Ling Jun's space barrier.

On the side, the seriously injured Liang Guanghao and others hurriedly backed away and left this area. With their current cultivation base, Ling Jun and other Tianjiao Wuhuang displayed the space enchantment.

"That kid is dead, he dare to be rampant in front of Lord Ling Jun."

Liang Guanghao gritted his teeth. This trip to the ancient Yu world felt that he had suffered from blood mold for eight lifetimes. First he was insulted. However, he asked Ling Yi to take action, but something went wrong and it was very unsatisfactory.

What gave him peace of mind was that although Ling Yi was seriously injured, he was unscathed, and Master Ling Jun was guarded here, otherwise, he would not be able to escape.

"Oh, it's a bit of a way to resist the emperor's space barrier, no wonder you dare to be so arrogant!" Ling Jun looked cold, looking down at Qin Chen, and said: "But if you think you can fight with the emperor by this, it's too naive Up."

He didn't put Qin Chen in his eyes at all. The Tianjiao-level half-step martial emperor was able to leapfrog the level, and his strength surpassed the average ordinary early martial emperor.

But who is he?

The most talented person in the hands of the Ling Family Martial Emperor, who was also a Tianjiao level figure at the time, and now his cultivation is infinitely approaching the middle stage of the eighth stage, how can he not get a pariah from the lower four domains? Qin Chen looked indifferent and didn't argue. He just looked at the other four martial emperors in the depths of the gorge and said: "A few, what

happened, everyone knows, this young man had cultivated peacefully in that mountain col before, but Ling Yi secretly Come here and take a shot at Ben Shao, you don't care, but now, this

Ling Jun made a high-sounding shot at Ben Shao, don't you care? "

Qin Chen was angry, why can't these same forces kill each other? This is how these people maintain order?

The other four Emperor Wu's expressions suddenly changed upon hearing this.

Qin Chen's words were too heartbreaking, if Situ really knew it, they would not escape punishment.

"Ling Jun, since Ling Yi is fine, one less thing is worse than one more thing."

"Before the matter is investigated, Ling Jun, you still don't want to be reckless."

"There is something weird at this time, and we need to take a long-term view."

Several Wu Huang spoke out one after another.

They knew about Ling Yi's business from a long-term perspective. It wasn't that Ling Yi wanted to teach the untouchables who came from the lower four domains. Which one of them didn't know?

I didn't stop it before, just selling the Ling family's face, anyway, Ling Yi also knew how to measure, and shouldn't be a killer, so he didn't bother to expose it.

Now that Ling Jun was about to openly attack Qin Chen, they couldn't bear it.

"A few rest assured, I will not be cruel to this son, but my Ling family Lingyi was seriously injured in his retreat. This matter must be investigated clearly. To prevent this son from escaping, the emperor will first He won't say it again." The voice fell, and before the others could speak, Ling Jun grabbed Qin Chen with his palm.

#### [Chapter 1409: This son must be removed](#)

Under this palm, the void in front was rippling crazily, and the power of the terrifying space was twisted into waves, and the astonishing true essence rushed straight towards Qin Chen like a tsunami.

This is how I only want to catch Qin Chen, obviously I want to use the name of catching to brutally attack Qin Chen and cause Qin Chen to be seriously injured.

"Ling Jun, stop!"

Several other emperors were shocked and hurriedly stepped forward to stop them.

Ouyang Nana and the others also showed shock. This Ling Jun was too ruthless. He clearly wanted to avenge his personal revenge, so he would give Qin Chen a blow.

How could Qin Chen, who came from the Lower Four Realms and had just broken through half a step, resisted a Martial Emperor who was at the peak of the early eighth stage? Apart from being seriously injured and captured, there is no other possibility.

But in the next moment, everyone's expressions solidified, and each of their eyes was about to burst, and the mouth could be filled with eggs.

What did they see?

Under the huge palm of his hand, a black long sword suddenly appeared in Qin Chen's hand. Above the long sword, a monstrous sword aura rose suddenly. The magnificent sword intent rushed into the world, exuding an aura of destruction. The sword slashed out boldly.

Boom!

The astonishing roar resounded, as if the sound of a sword rubbing against the glass sounded, the black sword aura that pierced the sky violently collided and rubbed against the huge palm released by Ling Jun, and then snorted, actually giving Ling Jun the giant hand of Zhen Yuan displayed. Divided into two, torn apart.

boom!

The crushed Zhenyuan giant hand covered it and shook Qin Chen flying out below him. His clothes fluttered, and he went backwards for hundreds of meters before stopping, but his body was unscathed and there were no wounds.

how is this possible?

Everyone was shocked and couldn't believe their eyes.

Qin Chen, who was only a half-step martial emperor, was unscathed under the action of a martial emperor at the peak of the first eighth stage of the Ling family, which made people unable to believe their eyes.

Even Ling Jun was a little dazed.

Although he didn't use all his strength with this palm, he was afraid that Qin Chen would be killed with one palm, but he also used 60% to 70% of his power, but who had thought that this would be the result.

In anger, Ling Jun wanted to make another shot.

Whoosh whoosh!

The other four Emperor Wu arrived in an instant and prevented Ling Jun's shot.

These four people also looked at Qin Chen in shock at this moment, as if they knew each other for the first time.

"Several guys, let me capture this kid." Ling Jun blushed and shouted with a thick neck, very humiliated.

"Brother Ling, it's almost there. Anyway, Ling Yi doesn't have any worries about his life. If you continue to make trouble like this, I won't be able to explain it."

Someone secretly spread the message, with a warning.

If conditions permit, they can give the Ling family a face and close one eye, but now, with so many disciples openly watching, if they don't behave favorably, they can't justify themselves.

What's more, Qin Chen's talent also shocked several people, not only defeating Ling Yi, but also blocking such a powerful blow from Ling Jun.

This son is extraordinary!

Ling Jun became furious, but he was helpless.

"Boy, wait for you to move the people of my Ling family, and if you allow you to reach the sky, you will not escape the punishment of my Ling family."

Ling Jun shouted and stared at Qin Chen fiercely, extremely angry.

The dignified martial emperor actually threatened a half-step martial emperor with words. This move is unavoidable.

Four other Emperor Wu intervened, and soon the storm calmed down.

As for the so-called clarification of the truth, it is just talking. Ling Jun and Ling Yi did not continue to investigate, because idiots know who made the first move. If you continue to investigate, you will only buckle the \*\*\*\* on your head. .

Before the other Tianjiao left, they all glanced at Qin Chen in shock, showing a strange light, no longer the original contempt and disdain, and some were just solemn.

"Little dust, you are too mighty."

Ye Mo and Yan Equator walked up and said excitedly.

"Mighty?" Qin Chen smiled.

He didn't realize there was any mighty power, but he sneered in his heart. Ling Jun might think that he was lucky. The other party probably didn't know it. If it weren't for the fact that there were so many eyes and ears, there were other people around, this person would dare to do something to himself. How can he leave alive?

On the other side, it took a long time for Ling Jun to basically heal Ling Yi's injuries.

"Damn it." Ling Yi hit the ground with a fist.

After being imprisoned for four months, coupled with the injury, it will take him at least quite a while before he can get his body back to its peak state. I am afraid that almost half a year will be wasted by him. Up.

Looking around, there are more than 30 Dange Tianjiao who broke through the half-step Wuhuang realm, and there are already more than 20 people. His original advantage in the outside world has long since disappeared.

What made him even more irritated was the whispering voices of other people and the frequent glances that made him want to find a place to sew down.

"Ling Yi, how could you be captured by that Qin Chen?" Ling Jun said with an ugly expression.

Ling Yi said what was about to happen at the beginning.

"In that case, that kid is actually a peerless arrogant talent?" Ling Jun was shocked. He thought that Qin Chen used any method to capture Ling Yi, but who would have thought that he was defeated in a direct bloodline competition. Come down.

"My Ling family's Wang bloodline, even in the Martial Domain, is not an unknown person. How can he be a kid from the Lower Four Domains..."

Ling Jun felt the seriousness of the matter.

Qin Chen defeated Ling Yi, the leader of the young generation of their Ling family with the cultivation base of the pinnacle of Wu Huang. Just now, with half a step of the cultivation base of the Emperor Wu, he blocked a palm that contained 60 to 70% of his strength. Grow up, then...

"No, this son must be eliminated!" Ling Jun said coldly, otherwise once he exits the ancient Yu realm, enters the Dan Pavilion, and is valued by the Dan Pavilion high-level, it is almost impossible to kill him.

But there are so many eyes and ears here, how can he kill Qin Chen calmly, Ling Jun is a little crazy.

Whoosh!

When he was at a loss, he saw that Qin Chen didn't find a place to stop and continue to practice, but flew directly toward the inside of the canyon, and went all the way in, even trying to go deep into the ancient Yu boundary.

"Qin Chen, this place is already inside the Ancient Yu Realm. If you go deeper, with your half-step Martial Emperor's cultivation base, you will be worried about your life and leave quickly."

A martial emperor guarding there warned.

Qin Chen arched his hands and said, "Senior, the disciple wants to enter the depths of the ancient Yu realm to practice."

"what?"

Everyone was shocked when he said this. "Are you sure you want to enter the depths of Guyu Realm?" The Emperor Wu's eyes were cold: "Don't blame me for not reminding you. The reason why Guyu Realm is divided into inside and outside is definitely not groundless. Inside Guyu Realm, the probability of spatial cracks appears. Great, with your half-step Martial Emperor's cultivation base, it is difficult to catch the attack of the space crack. If the body and limbs are cut, it will be disabled at most, but if the head is directly cut by the space crack, it will be a dead end. One."

#### [Chapter 1410: I don't think so](#)

The Emperor Wu warned Qin Chen seriously, with a serious expression.

He is not alarmist.

In the ancient Yu realm, even the Emperor Wu must be cautious and in danger of falling.

Qin Chen rushed into the depths in a half-step, not a life of nine deaths, but ten deaths without life, no doubt he would die.

Therefore, even no matter how arrogant a genius is, few people are willing to risk their lives.

"Senior, I voluntarily entered the Guyu Realm. Life and death are determined by fate. Even if I die, I won't involve anyone." Qin Chen arched his hand, and then, before the Emperor Wu agreed, his figure flickered and he already broke through. Into the interior of the canyon.

"This kid..."

The Emperor Wu was furious, and he kindly advised him, Qin Chen did not appreciate it at all, but although he had the responsibility to protect the many geniuses present, he did not have the power to stop Qin Chen.

Can only watch Qin Chen break into the depths of the canyon.

"Hmph, there are space fragments in front of him. When he suffers, he will know he will regret it." Several Wuhuang's expressions were gloomy. Qin Chen had to enter the depths of the canyon. He could not take Qin Chen directly! In the depths of the canyon, in front of them are scattered fragments of space, bunches of soft space power, like thousands of silver ribbons pouring, ripples of nothingness in the void, in the surrounding space, from time to time Cracks in the dark space flashed past, revealing a hint of danger

interest.

Space debris, space power and space cracks, combined with the milky white void, form a dangerous but gorgeous picture, which is called the beauty of the world.

When everyone watched Qin Chen enter this area, their gazes suddenly tightened.

The emperor Wu Huang controls the power of the two spatial principles, and has a certain level of understanding of the profound meaning of space. Therefore, once there are spatial cracks in the surroundings, he can sense and avoid them for the first time.

But the half-step Wuhuang or Wuwang strong, the understanding of the profound meaning of space is not so strong, often too late to discover the space cracks in time, when they feel the space cracks appear, it is too late to avoid them.

"This kid is too crazy, thinking that he is a little capable, he dare to break into the depths of the canyon."

"Hmph, in history, there has never been a practice of daring to enter the depths of the ancient Yu realm in half a step in Wu Huang's cultivation."

"Even the genius who is against the sky will wait until after breaking through the Emperor Wu before going to the depths of the ancient Yu realm to explore."

"I don't know how to live or die."

Some Tianjiao said disdainfully, their eyes flickering with cold light and expectation, staring at Qin Chen, wishing that Qin Chen would be killed by the spatial crack that suddenly appeared.

What shocked them was that after Qin Chen entered the depths of the Guyu Realm, he constantly shuttled among the many space fragments, and what was puzzling was that no matter where Qin Chen went, there were no space cracks around.

Several times, a few spatial cracks appeared almost worthy of Qin Chen's body, but they never hurt Qin Chen.

"How can that be?"

"Shit luck is too good, right?"

"This is not dead!"

Everyone was dumbfounded, and in astonishment, they watched Qin Chen disappear into the canyon and broke into the depths of the ancient Yu world.

Everyone was speechless and didn't know what to say.

"Master Mo, what shall we do now?"

The Emperor Wu who had blocked Qin Chen before suddenly came to the middle-aged Emperor Wu Huang, speechless.

This Lord Mo, that was a middle-ranking martial emperor of the eighth stage, and the leader among the five martial emperors who stayed here.

"What can we do, then Qin Chen has to enter, we can't stop it, right?" Martial Emperor Dao known as Lord Mo.

"You can get in with Qin Chen's cultivation level, and you will definitely die. When we look back, how do we explain to Master Situ?" The Emperor Wu was crying.

"There is no doubt that you will die, I don't think it is necessary!"

Lord Na Mo flashed his eyes and said in a deep voice.

Several other people suddenly startled, "Master Mo, what do you mean?" "What do you mean? How dangerous the space cracks in this canyon are, you don't know, they appear randomly, and there is no sign. Generally, in the early stage of the eighth stage martial arts The emperor can only rush away at the moment when the space crack appeared, but Qin Chen just now avoided multiple space cracks one after another.

There are even a few of them, which are worthy of passing by Qin Chen, only a few inches apart. What do you think is the probability of this?" Master Mo looked at them.

"This....."

Several people looked at each other, and the probability of this was almost zero.

"Does Lord Mo mean that based on Qin Chen's understanding of the profound meaning of space, he can perceive the appearance of cracks in space?" One of the emperors whispered, but immediately shook his head: "How is this possible? The emperor's cultivation base shouldn't be possible, right?"

"I don't know why, but I have a feeling that this Qin Chen can indeed detect the appearance of space cracks, otherwise, how to explain the scene just now? Not to mention..."

Lord Mo sneered: "Would there be an idiot who can be killed from the Lower Four Regions Pill Dao Competition? Then you have seen Qin Chen's performance when he came to the palace and along the way, like suicide. Is it a human being? Who can become a Tianjiao, which one will be a simple one?"

After saying this, Lord Mo stopped speaking and started practicing again with his eyes closed.

Several people looked at each other, smiled bitterly, and started to practice as soon as they were about to prepare, but suddenly they stared blankly.

"Master Mo, Ling Jun is gone!" someone exclaimed.

"Ling Jun?" Lord Mo was taken aback, opened his eyes suddenly, and glanced at the place where Ling Yi was. Ling Jun was there just now, but now, only Ling Yi was left there, and Ling Jun was indeed gone.

His body flickered, Lord Mo came to Ling Yi in an instant, and said coldly: "Ling Yi, where is Ling Jun?"

"Master Mo, you are looking for my seventh uncle, hey, where is my seventh uncle, who was here just now, now I don't know where I've gone, don't you not cultivate in the canyon?" Ling Yi said with a look of astonishment, but with a sneer in his heart, then Qin Chen, it's not good to cultivate here, so he has to go out to find death.

Where, of course he went to kill that Qin Chen.

"Not good." Master Mo's face was shaken, and he rushed into the canyon in an instant, searching along where Qin Chen disappeared.

After half a stick of incense, Lord Mo returned, his face pale and gloomy.

"Master Mo, where are Ling Jun and Qin Chen?" The remaining three Wuhuang hurried forward and asked.

"I don't know, the internal space of Guyu Realm is too chaotic. After I entered, I couldn't catch the slightest clues. Ling Jun was so bold and so bold..." Lord Mo was furious, but there was no way.

How can they not know that Ling Jun must have gone after Qin Chen while they were not paying attention. If he killed Qin Chen in the Guyu Realm, no one knew who did it. When that happens, This bad debt.

Even if he knew that Ling Jun killed Qin Chen, no one could cure him.

"Damn it, careless." Mo Da stomped in popularity.

"Then what do we do now." The other three were also dumbfounded.

"What can I do, pray for that Qin Chen." Lord Mo sighed. Although he had sold the reputation of the Ling family before, he didn't want such a genius to die in Ling Jun's hands.

When Lord Mo and the others were nervous for Qin Chen, in the depths of the ancient Yu Realm, Qin Chen urged his body to move deeper and deeper.

As soon as he went out, he found that someone had followed up secretly. After a sneer, he ignored him, and the speed got faster and faster.

Upon seeing this, Ling Jun gave a sneer and followed quietly. If it weren't for waiting for Qin Chen to leave the canyon area early and Mo Wuwei and the others could not follow him, he would have caught up with Qin Chen.

However, now is not the time to appear, you have to find a safe place to do it again.

A sneer was drawn at the corner of Ling Jun's mouth.

Boy, to blame, blame you for being too rampant and offending my Ling family. Anyone who offends his Ling family must die!
