

Valkyrie 1411

[Chapter 1411: This is sky fire](#)

After a stick of incense, Qin Chen had already left the range of the canyon and appeared in a desolate area in front of him. This area was full of space debris, and space cracks flickered from time to time, which was very dangerous.

Of course, the power of space here is stronger than the outside.

In his previous life, Qin Chen had been to this ancient Yu realm, and he naturally knew where he could easily break through to the Martial Emperor realm in his cultivation. In his previous life, he found a very perfect zone.

In this life, he has cultivated the body of space. Although his strength is stronger, his requirements for mastering the profound meaning of space have also become higher, and the difficulty of breaking through is far greater than that of the average half-step Wuhuang.

If he continues to stay outside the canyon and wants to condense another spatial path to break through to the Wuhuang realm, it will take at least another year, but for Qin Chen, there is not so much time to waste.

Only half a step away from the Martial Emperor Realm, he broke into the depths of the Ancient Yu Realm, with the goal of going to the perfect zone he found in his previous life.

But before that, Qin Chen had to do one thing first, and that was to solve the follower behind him.

Ling Jun thought he had hidden his figure well, but Qin Chen had already noticed him the moment he followed Qin Chen.

Whoosh!

His figure flew across the sky, half an hour later, Qin Chen came to the foot of a black barren mountain and fell down.

As soon as Qin Chen stopped, he threw dozens of formation flags, and these formation flags were hidden in the void as soon as they were thrown out.

Qin Chen didn't dare to be careless when he fought against Ling Jun, the first peak of the eighth stage, even though he had already killed the Demon Sword Emperor Xufeng Sword Emperor in the Northern Heavens before breaking through half a step. But the Emperor Wu of Wuyu and Emperor Wu of Beitianyu were definitely not on the same level.

Moreover, Ling Jun had an extraordinary background. Qin Chen not only had to ensure that he could kill the opponent, but also ensure that while killing the opponent, he would never let the opponent send any news. This was the most difficult.

Therefore, Qin Chen not only threw out a large number of formation flags, but also a large number of fire-refining insects and gas-eater ants in the gourd. He also secretly released them, hiding in the gravel, and being concealed by the atmosphere of the formation.

After doing all this, Qin Chen began to dig a cave at the foot of the barren mountain.

Ling Jun had been following Qin Chen secretly, and in a moment, he had already reached the void not far away. He could not help but stop when he saw Qin Chen digging a cave here. He was a little puzzled why Qin Chen wanted to dig a cave here.

Feeling that Ling Jun stopped, Qin Chen seized the time to arrange the formation. He pretended to dig a hole to prevent Ling Jun from coming up for the time being, so that he had enough time to arrange the formation.

Does this Qin Chen want to dig a cave and practice here?

Ling Jun thought for a long time before he thought of such a possibility.

That's right, Qin Chen is a half-step martial emperor, in the depths of this ancient Yu boundary, not only has to face the danger of space cracks, but also the murderous intent of other martial emperor masters passing by.

So if you want to practice, it's best to find a no-man's land, no wonder you will dig holes here.

Before half a column of incense, Qin Chen's formation hadn't been completely finished. Ling Jun thought of this possibility and didn't bother to wait any longer, swish, a figure flashed past, and Ling Jun had appeared in front of Qin Chen.

"Why are you here?" Seeing Ling Jun appearing, Qin Chen said like a ghost, his eyes full of panic, and at the same time his hand movement stopped. Ling Jun smiled and said, "Why do you say I am here? Qin Chen, you are really an idiot. If you continue to cultivate in the canyon and so many people watch, I'm really not good at killing you, but you have to A person came to the depths of the ancient Yu world to find his way, hahaha, do you think you are white?"

Foolish? "

"You...you want to kill me?" Qin Chen panicked.

Ling Jun looked at Qin Chen like an idiot, and was a little speechless. Qin Chen seemed to be quite clever before, so why did he suddenly become so mindless?

He sneered and said: "Of course I am here to kill you, or else I'll come to visit you? As a pariah of the Lower Four Realms, you dare to hurt my disciple of the Ling family. It would be difficult for you not to kill you."

"You killed me, aren't you afraid of Dange's punishment?" Qin Chen was still backing away. "Hahaha, Dange punishes? I killed you here. Who knows that Dange was my hand? Even if other people can guess, there is no evidence, what qualifications do they have to punish me Ling Jun, Jie Jie Jie, kid, accept your fate, if you want to blame, blame you for being too arrogant."

Sin I Lingjia. "

A trace of killing intent flashed across Ling's eyes, and then, without waiting for Qin Chen to continue speaking, he raised his hand to grab Qin Chen and sneered: "Aren't you very strong before? I want to see what you can do. ."

"My ability is not great, but I have a sky fire."

After Qin Chen finished speaking, he directly released the Qinglian demon fire, and the cyan flame instantly filled it, enveloping Qin Chen, exuding a terrible flame aura.

"Is this sky fire?" Ling Jun suddenly said out in shock.

Skyfire is the most terrifying flame in the sky and underground. Even in the entire martial arts domain, it is rare to hear that anyone has a skyfire. Qin Chen, a pariah in the lower four domains, has a skyfire?

"No, this is not a sky fire, it has a breath of life, it should be a blood spirit fire... or it is wrong, if it is a blood spirit fire, why is the flame aura so unique? Is it really a sky fire?"

Ling Jun was the Martial Sovereign of the Dan Pavilion, who knew very well about flames, and he couldn't tell the origin of the flames Qin Chen released for a while.

"Whatever the flame, it's mine now."

Too lazy to distinguish, Ling Jun's eyes suddenly showed ecstasy, buzzing, the space barrier was released instantly, completely confining the space of a hundred miles, and then he did not hesitate to grab the Qinglian demon fire in Qin Chen's hand, root He didn't look at Qin Chen.

Qin Chen sneered in his heart, waiting for you to look down.

The true essence in his body was condensed to the extreme in an instant, and while Ling Jun caught the Qinglian Demon Fire, he slashed out with a sword.

"Swordsmanship!"

Since breaking through the half-step Wuhuang cultivation base, he has never used the swordsmanship so fully.

A sky-shattering sword aura rose to the sky, with a terrifying sword intent to destroy everything, directly slashed with a brutal aura, with no room for change. Ling Xu's sword light led Qin Chen's indomitable murderous aura, ploughing the surrounding gravel and ground out of the ravines.

"Hmph, you accidentally broke the attack before, do you think it will work this time?"

Ling Jun felt Qin Chen's murderous aura for the first time. Before in the canyon, Qin Chen broke through his great hand with a sword, which was already a great shame for him. Naturally, he had been prepared for this attack. Ten percent.

"Tiantian Hand!" At the same time, he ran the Ling family's unique skills, and the huge Zhenyuan palm exuded the atmosphere of suppressing the ages, and Ronglong crushed it.

[Chapter 1412: Sun Yan Xuan Wheel](#)

boom!

The terrifying True Yuan hand stirred the void and directly grabbed the mysterious rust sword in Qin Chen's hand, without any hesitation or fear.

He is just a half-step martial emperor, but he is infinitely close to the early peak of the eighth mid-level martial emperor, and is the top powerhouse among the young martial emperor generation of the Ling family. He missed the canyon before, but he was careless. Do you really think you can fight against yourself?

With this blow, Ling Jun wanted to let Qin Chen know how small Qin Chen would be in front of him.

Therefore, under this palm, he did not put Qin Chen in his eyes at all.

But the next moment, a feeling of extreme danger came. He seemed to feel that the opponent's sword aura still carried a binding force. This binding force made his space enchantment power weak, and he even had a kind of I feel that the opponent's sword can threaten me.

Ling Jun frowned, how is this possible? But he was very vigilant, his palm shook, he wanted to smash this restraining force, and at the same time he wanted to sacrifice his weapon.

But what shocked him was that before he had time to do it in the future, a terrifying kendo aura suddenly spread, and with a thud, it directly shattered the space barrier of his initial peak.

After Ling Jun's figure and movements were blocked by this terrifying kendo aura, he immediately became a bit stagnant.

An extremely terrifying aura of kendo enveloped this world, turning this world into a sea of kendo.

It was the sword domain that Qin Chen mastered in the Demon Sword Tower.

"This is the Sword Realm? Exhibiting the sword in the sword realm like a space barrier, you are no more than a four-domain untouchable, how can you have such a terrible understanding of the sword?" Ling Jun's heart trembled, and he couldn't believe Qin. Chen is so terrible in his understanding of kendo.

At this moment, he knew that it was too late to avoid, so he did not hesitate to agitate his true essence and madly grabbed the mysterious rust sword in Qin Chen's hand.

Qin Chen sneered, what was waiting for you.

"puff!"

A beam of blood bloomed in the void, and the dark Zhenyuan hand was cut open. The horrible sword light kept cutting open the palm of Ling Jun's hand immediately, splashing blood everywhere.

"what?"

Ling Jun was shocked, his shot was not only broken by Qin Chen, but even the other party injured him. In fright, he hurriedly retreated.

"Swordsmanship!"

Qin Chen yelled, how could he give Ling Jun a chance to escape, the mysterious rust sword suddenly skyrocketed, turned into black streamer, and slashed towards Ling Jun.

At the same time, five sword pills appeared in Qin Chen's hand. The sword pills circulated and turned into five sword lights, swarming towards Ling Jun and slashing towards his right hand.

Puff puff!

The speed of this sword light was too fast. In an instant, there were countless wounds on Ling Jun's right hand. He was about to cut off his right hand completely. Ling Jun suddenly screamed: "Talisman!"

Hum!

A strange rune suddenly lit up on Ling Jun's body, and that rune breath suddenly came to his right hand, and at the moment when the mysterious rust sword fell, an astonishing power burst out.

With a bang, the mysterious Rusty Sword and Wudao Sword Pill were immediately blocked outside, and the huge impact force sent Ling Jun away.

Ling Jun retreated tens of meters away, staring blankly at his injured arm, and suddenly shouted angrily, "Smelly boy, you dare to hurt me, I won't boil you to light a sky lantern today, I'm a beast..."

After speaking, a white profound wheel had been sacrificed in his hand. The white profound wheel had nine cutting edges and was extremely sharp. As soon as it appeared, it exploded with astonishing pressure, and Qin Chen even felt that the void was shaking. Shocked.

This is definitely the ultimate treasure among the imperial soldiers.

Qin Chen's eyes were cold and stern, he was worried about this, Ling Jun, as the Wu Huang genius of the Ling family, definitely had far more methods than those in the North Tianyu. Other than that, just a treasure is not a Wuyu. Those Wu Huang can compare.

The reason why Qin Chen first displayed the Qinglian Demon Fire just now was to make a sneak attack. He believed that Ling Jun would not put himself in his eyes at all. The facts were just as he had guessed, when he took out the Qinglian Demon Fire. , Ling Jun's gaze only stared at Qinglian Demon Fire.

It's a pity that even so, he just hurt the opponent's palm.

It seemed that he had succeeded in the sneak attack. In fact, Qin Chen knew that he had injured one of Ling Jun's palms, and Ling Jun's combat effectiveness had actually not dropped much, and his impetus had only dropped by 10%.

But Qin Chen's original purpose was to at least abolish one of Ling Jun's arms.

Of course, this time the sneak attack was not without results, at least one of the protective treasures from Ling Jun was removed.

"Good boy, you hide so deeply, but unfortunately, you still want to die."

Ling Jun roared, and immediately after the white profound wheel was sacrificed, it formed a pale light that completely enveloped Qin Chen. The terrifying temperature raged under the Sun Yan Xuan Wheel, and Qin Chen immediately felt dizziness and dullness in his mind.

The pale light of Yan Xuan Wheel on this day can not only release a terrifying temperature, but it even carries a trace of divine soul attack.

What a terrible real treasure, Qin Chen secretly marveled. He didn't intend to escape from under the Sun Yan Xuan Wheel. He knew that since the other party could cover him, there would be a way to stop him from escaping. Moreover, since he did it, it was not for escape.

If it were an ordinary warrior, under this terrifying hot temperature, it would have melted into blood water, but Qin Chen had an immortal body in his cultivation, and even became a body of space. Although this tragic white light is powerful, it is also Don't let him get hurt.

But he still pretended to be extremely strenuous, pretending to urge the Zhen Devil Cauldron to resist frantically, blocking the attack of the Sun Yan Xuan Wheel.

"Huh..." Seeing that Qin Chen didn't fall in a coma, Ling Jun was shocked. While constantly urging the Sun Yan Xuan Wheel, he also paid attention to Qin Chen's Demon Suppressing Cauldron.

In his opinion, the reason why Qin Chen can persist until now has nothing to do with Qin Chen's own strength.

"How many treasures are there on this kid?"

Ling Jun was taken aback. According to the truth, Qin Chen came from the Lower Four Realms, and the treasures on his body were nothing in the Martial Realm, and should even be extremely poor.

But now under the fight, Ling Jun is puzzled. Let's not talk about the weird black rust sword in Qin Chen's hand, which is amazing in power, and there are five sword pills, which are also terrifying, and there are mysterious flames and this weird black color. Dading, how many treasures are there on this kid?

If the opponent is the same martial emperor master, Ling Jun might be worried about his safety now, but what he is facing is Qin Chen such a half-step martial emperor, and at the same time shocked, more ecstasy.

As long as Qin Chen is killed, will these treasures be obtained by him? Thinking of this, he immediately launched an attack even more violently.

[Chapter 1413: You asked for it](#)

Boom boom boom...

Countless scorching attacks enveloped Qin Chen layer by layer, Qin Chen controlled the Demon Surge Cauldron with difficulty, and blocked the Sun Yan Xuan Wheel's attacks time and time again.

"This big tripod is really amazing."

Ling Jun was shocked secretly, but the more he knew that the Demon Surgery in front of Qin Chen was powerful, the more excited he was.

"Master, when is my turn to play?"

In the Calming Cauldron, the Skeleton Rudder Master couldn't help but couldn't help but asked in secret.

"Don't hurry."

Qin Chen pretended that he couldn't hold on, but he said angrily, "Don't do anything, if you let this Ling Jun discover your existence, it won't be good."

"It's just a small initial peak Martial Emperor. As long as the subordinates come out, it won't be easy to catch." Skeleton Rudder said with disdain.

His cultivation base had already been restored to the Martial Sovereign equivalent to the mid-tier eighth peak level. In his opinion, Ling Jun was nothing at all.

Qin Chen was very solemn: "Killing him is easy, but the key is to get a hit. If you let him spread the news, you and I will be in danger."

The Skeleton Rudder Master must not be easily exposed. Once exposed, he must have full confidence, otherwise once the news is spread out and known by the Hall of Law Enforcement, then Dange will not be able to protect him.

Therefore, Qin Chen wanted to counterattack several times, but he resisted it. He felt that the timing had not yet reached the best moment.

Ling Jun urged the Nine Lights Star Wheel with all his strength, and Qin Chen immediately felt even more terrifying heat, and a huge, pale white mysterious wheel tens of meters wide had already rolled over him.

Ling Jun had already done his best, and Qin Chen sighed inwardly, he was indeed the martial emperor of the Wuyu Ling family. If it were an ordinary Martial Emperor of the eighth stage, how could he pose such a threat? It actually made him feel a little strenuous.

If Ling Jun knows Qin Chen's inner sigh at this moment, I am afraid he will vomit blood directly. Qin Chen is only a half-step martial emperor, and he can already hurt himself almost close to the middle of the eighth stage. What else does he want?

He was also a Tianjiao back then. Leapfrogging fighting is also what he is good at. Does he still want to jump a few levels to kill Tianjiao?

Ling Jun would not understand that Qin Chen had such thoughts. From Qin Chen's point of view, he couldn't win Ling Jun because of his own failure. What qualifications did he argue with Shangguan Xier and the others? revenge?

"Boy, do you still want to resist?"

Seeing Qin Chen's body trembling constantly and his face turned pale, Ling Jun suddenly laughed, "I want to see you, how long can I hold on."

He sneered from the bottom of his heart. Under the attack of the Sun Yan Xuan Wheel, it was extremely difficult for even the mid-tier Martial Emperor to escape, let alone a half-step Martial Emperor.

So he doesn't worry that Qin Chen will escape. What he has to do now is to wait for Qin Chen to be unable to hold on and be completely killed by him. Of course, he will not kill the opponent so quickly, but slowly. Torture him.

Moreover, Ling Jun had a feeling that with so many treasures in his body, there must be some kind of secret. If he just killed him, it would be a bargain for him.

"Boom..."

The terrifying sound of crushing sounded in the surrounding space. There was no trace of Qin Chen being crushed by the white light of the Sun Yan Xuan Wheel.

"I'm fighting with you!"

Suddenly, a sharp roar sounded, and Ling Jun felt Qin Chen's breath under the white light suddenly skyrocketed, and at the same time a terrifying cyan aura spread, and it was the cyan flame that was soaring rapidly. Forced away his white flame.

what?

How could Ling Jun's heart not be shocked, this blue flame was able to avoid the attack of the Sun Yan Xuan Wheel, is it really like the other party said, it's the fire of the sky?

If such a terrible attack can erupt in the hands of a half-step martial emperor, what will happen once he gets it? Can't he directly confront the Martial Emperor in the late eighth stage?

Ling Jun was surprised and delighted.

He raised his hand, and suddenly a few strange runes appeared in his hand. These runes quickly turned into a five-pointed star pattern and suppressed Qin Chen all at once.

This was his assassin, but in order to take Qin Chen as quickly as possible, he couldn't take care of that much.

Because the treasures on Qin Chen's body were too shocking, if other Martial Emperors sensed the movement here, and ran over to insert a leg, then he would definitely not be worth the loss, so he would fight it too.

boom!

Under the suppression of the rune, a violent roar sounded, and Qin Chen's face suddenly paled under the white light.

"puff!"

Suddenly, Qin Chen spurted out a mouthful of blood, and the Devil Surgery Cauldron in his hand could no longer be controlled, and it was thrown away.

"Hahahaha!"

Ling Jun was overjoyed immediately. He stretched out his big hand and immediately took the Demon Cauldron into his hands. He smiled and looked at Qin Chen, who was pale and even a little gray.

"Boy, get me here."

He laughed, and raised his hand to catch Qin Chen. Originally, he killed Qin Chen directly, but now, he must capture Qin Chen alive and torture his secrets.

But when Ling Jun was about to catch Qin Chen, he buzzed, and suddenly countless black insects appeared below. These insects flew to him like migratory locusts, and he suddenly felt cold all over his body. The true essence is dissipating quickly.

what happened?

Ling Jun was suddenly shocked. How could there be so many flying insects in this Guyu Realm? Before he could react, he saw Qin Chen, who was originally pale, rushing up. A big net wrapped him in it.

"Good boy, you did the trick."

He immediately understood what was going on. Almost at the moment when the Refining Insect attacked, he instigated the true essence, and shook out many Refining Insects and Qi Devouring Ants. At the same time, the Sun Yan Xuan Wheel slammed towards Qin Chen. Bombarded out.

boom!

Riyan Xuanlun immediately resisted Qin Chen's attack, but at this moment, five sword lights swept in once again and stab Ling Jun suddenly.

"hateful!"

Ling Jun was about to explode with anger. Boom, a terrible aura erupted from his body again, a rune flashed, and the five flying sword pills flew out for the first time.

He was so angry that this was his last means of life.

But what he didn't expect was that Qin Chen still attacked behind.

"Qinglian Demon Fire!"

boom!

The monstrous flames directly enveloped Ling Jun, puff, Ling Jun spouted out a mouthful of blood, his expression became wilted.

"Smelly boy, I want you to die!"

Ling Jun was furious. He didn't expect that under such an attack by Qin Chen, he would be injured. He couldn't get rid of his hatred if he didn't break his body into pieces.

Thinking of this, Ling Jun immediately spouted a mouthful of blood on the Sun Flame Profound Wheel, and with a bang, the Sun Flame Profound Wheel burst out with an unprecedented horrible white light, and immediately wrapped Qin Chen inside.

"Boy, you asked for this." He roared loudly, madly urging the Sun Yan Xuan Wheel.

It can be seen that when Ling Jun would rather be injured than continue to use any means, Qin Chen, who was wrapped in the Sun Yan Xuan Wheel, was not surprised, but overjoyed.

"Master Skull Rudder, it's your turn to take action." A wave of mental power suddenly sank into the Calming Cauldron.

"Finally it's the subordinate's turn."

boom!

A black figure suddenly rushed out of the Demon Suppressing Cauldron, releasing a terrifying aura that was earth-shaking, and that body was like a demon god, whipping directly at Ling Jun.

"Not good!" Ling Jun couldn't think of it. There was still a person hiding in this **** cauldron. Under the shock, his soul was scattered and horrified.

[Chapter 1414: Wudi Will](#)

fast!

too fast.

As soon as the black figure appeared, it hit Ling Jun with a whip, and even before Ling Jun could react in the future, the whole person had been blown up.

And at the moment when Ling Jun exploded, a simple tortoise shell-like thing appeared in the air, exuding a weird and weird aura, the half of Ling Jun's exploded body suddenly reunited, and then poof. He spouted a mouthful of blood, and his body flew out dozens of meters.

"who are you?"

Ling Jun was covered in blood and looked at the Skeleton Rudder Master in shock. This person was wearing a black robe, his face hidden in the darkness of the mask, but when he looked vaguely, he could vaguely see that his face was very haggard, like a ghost.

There is such a strong person beside Qin Chen, when did he come in, and what kind of treasure is that **** cauldron?

Ling Jun's heart was full of fear.

As a master of Pill Pavilion, he has been walking with Qin Chen all the time. He has never seen the man in the black cloak. But now, this man has rushed out of the black cauldron. How can this make Ling Jun not surprised?

Is this person a master Qin Chen brought in from the outside world?

However, the Guyu Realm is very peculiar and contains amazing spatial laws. No one can even bring in a spiritual pet. How did Qin Chen bring in a living person?

What's more, human powerhouses are not like spirit pets, who can't survive in space items like spirit pet bags. So what is this black cauldron, and how can it be safe and sound in this black cauldron?

For a moment, Ling Jun was full of doubts, and only felt as if he had discovered some earth-shattering secret.

"Huh, you are not dead?" On the other side, the Skeleton Rudder Master was also surprised.

His cultivation base has been restored to a state equivalent to the peak of the eighth stage of the human powerhouse. According to the truth, a whip is enough to explode Ling Jun, who is at the peak of the eighth stage, but the fact is that the other party except I was injured and nothing happened.

It's no wonder that the master didn't let himself take action at the beginning, this martial arts powerhouse really had two tricks, and there were so many life-saving methods, it was a tortoise.

The Skeleton Rudder master didn't talk nonsense, and took another whip, because Qin Chen had already ordered that once he appeared, he must immediately kill the opponent, and he must not give the opponent a chance to breathe.

The white bone whip spins like a chain, wrapping Ling Jun in the center, around the bone whip, the void is constantly twisted, just like a soap bubble being twisted.

But the skeleton rudder is fast, then Ling Jun is faster, at the moment when the skeleton rudder takes the shot, a rune has appeared in Ling Jun's hands for some time. The rune diffuses a weird breath, and the whole person will melt into the void. Disappear here.

"Master Skeleton, stop him!" Qin Chen yelled coldly, and at the same time he killed himself.

The Skeleton Rudder Master didn't need Qin Chen's instructions at all. As soon as he raised his hand, the blood-colored halberd had appeared in his other hand. The halberd was waved out, and the blood-black demon aura instantly spread and enveloped Ling Jun. among them.

"Want to go, have you asked this seat?" Skeleton rudder master sternly shouted.

Under the barrier of blood black devil qi, Ling Jun's originally emptied body, the connection with the void, actually weakened a bit. "Damn it, since you have to die, the emperor will do you." Ling Jun had a trace of unwillingness on his face, and his expression was a little hysterical. He roared, gritted his teeth, and put his right hand on the center of his eyebrows, an inexplicable force from his body. Ascends up, and at the same time his body is visible to the naked eye

The speed dries down, and the blood in the body is consumed a lot in an instant.

In an instant, Ling Jun's eyebrows filled with a terrifying aura that shocked the world. Above his head, a humanoid shadow that threatened the world appeared. The shadow raised his hand, and a white emperor light violently cut from the heart of Ling Jun's eyebrows. Out.

"The mindful breath of Emperor Wu Tian!"

Qin Chen's pupils shrank and his scalp became numb.

This is what he fears most.

Just like in Tianlongzhai, the Fairy Chilian in the Law Enforcement Hall had the power of the power planted by Ji Hongchen in his body. This kind of mentality is equivalent to planting a thought in someone else, and once the other person is in danger, it will be activated. come out.

However, the Guyu Realm is a bit special. It is an independent space. Even the powerful Nine Heavens Wudi can't transmit ideas into the Guyu Realm and come personally.

light. A huge gap appeared directly, running through the entire chest. The wound was too big, even the internal organs could be seen inside, and to Ling Jun's shock, the exposed bones of this cloaked man turned out to be dark gold with a suffocating luster.

[Chapter 1415: Scarlet Beast](#)

Ling Jun's eyes widened.

The will that the ancestors left in his body before, with a single blow, was enough to kill a martial emperor in the late eighth stage, but now, this cloaked man's aura is less than the eighth mid-stage peak, but it is fine.

And the chest was directly cut, and the bones weren't even broken.

Is this man beaten with iron? No, even if it was made by Xuan Tie, it should have exploded directly.

"Damn it, this body that was so hard to condense was half destroyed by one of your moves. You pay me."

The Skeleton Rudder roared and rushed up quickly.

"Stop, I have something to tell you, it will definitely be good for you, I know a mysterious relic in this ancient Yu world, I am willing to give it to you..."

Ling Jun immediately yelled. He was covered in blood, and he couldn't see a good place on his body. Under the anger of the cloaked man, he would definitely be beheaded.

At this moment, he can only fabricate such a reason to let the other party relax his vigilance and not kill him under greed, but he can secretly send a message to let Elder Ling Yuannan come to save himself.

But when he wanted to send a message, he saw that the cloak man didn't stop at all, and he smashed it in the air.

A trace of despair flashed in Ling Jun's eyes, and he wanted to avoid it in horror, but he only avoided half an inch, and the **** halberd was slashed off, and the blood splattered, Ling Jun's body was **** warped. The halberd split and turned into blood mist.

He would actually die here, in the hands of that Qin Chen?

Before he died, Ling Jun was unwilling and regretful for a while. If there was a chance to turn back in life, he would definitely not choose to follow Qin Chen again. Unfortunately, there was never regret medicine to eat in life.

It wasn't until this time that Qin Chen sighed for a long time, looked at the exploded Ling Jun's corpse, thinking about the fierce battle just now.

Although he had been prepared for a long time, he still didn't expect to fight like this. Thinking about it, Ling Jun is not an ordinary person, even among the many geniuses and powerhouses in the Dan Pavilion, he is one of the top groups.

Fortunately, he was prepared in time and did not give Ling Jun any chance to spread the news or even escape. Otherwise, it would be very troublesome.

It's still not enough to cultivate yourself!

Qin Chen sighed. If he is not a half-step Martial Emperor, but a powerful Martial Emperor, even in the early days of the Martial Emperor, it would have been much easier before. How would it take such a lot of effort to kill the opponent?

"the host!"

At this time, the Skeleton Rudder Master came to Qin Chen, his appearance was very miserable, his flesh and blood exploded, but the bones were intact, and he looked at Qin Chen pitifully.

"Look at the subordinate who is seriously injured like this, isn't it..."

He glanced at Qin Chen, then at Ling Jun's exploded corpse, and couldn't help swallowing.

Qin Chen gave the Skeleton Rudder Master a glance and said, "Go!"

"Thank you, Master!"

The Skeleton Rudder Master was overjoyed, screaming, his body released a terrifying swallowing force. Ling Jun, who had burst into blood mist, was instantly absorbed into the body by the Skeleton Rudder Master. The place where his chest burst was quickly formed and recovered. As it is.

"Comfortable, really comfortable, Jie Jie Jie, it really is the Martial Sovereign of the Martial Domain. It's a great supplement, so comfortable. Such abundant energy is many times stronger than the original Xufeng Sword Emperor. Jie Jie Jie, sure enough. Great."

The Skeleton Rudder master groaned comfortably, and the whole person became fuller. If the previous Skeleton Rudder master still needed a cloak to cover himself, he was afraid that he would find something unusual.

So even if the current Skeleton Rudder Master walks into the crowd like this, he won't be able to see any clues.

Qin Chen watched from the side, slightly shocked in his heart. This alien demon was too terrifying. After swallowing human essence and blood, not only could it recover its cultivation base and strength, but it could also make him pretend to be more like a human, which is almost hard for ordinary people to detect.

Compared to those alien races who robbed human warriors, skeleton rudder masters are even more terrifying, because their bodies are actually the bodies of alien demons.

Just like the Skeleton Rudder Master who absorbed the Demon Lord's bones, he is only at the mid-level of the eighth stage, but his bones are so strong that he can resist even a blow from the Nine Heavens Emperor Wudi, and he is safe and sound. How strong?

Qin Chen didn't even dare to imagine.

Seeing the skeleton rudder master absorbing the essence and blood, Qin Chen picked up the Sun Yan Xuan Wheel on the ground and put away Ling Jun's storage ring, feeling extremely satisfied.

The Yan Xuan Wheel is a good thing today. Although it is only a treasure of the imperial peak, the power of this thing is extraordinary. The terrifying pale light can not only burn the body of the warrior, but also confuse the mind of the warrior. , It is difficult for ordinary Wuhuang to resist.

After the skeleton rudder master had absorbed the essence and blood, he immediately returned to the Demon Suppressing Cauldron, while Qin Chen put away his hidden array flag, and after clearing the surrounding traces, he quickly disappeared here.

When Qin Chen killed Ling Jun, somewhere deep in the ancient Yu world.

Bang bang bang!

A group of Emperor Wu are fighting together with a few scarlet, but extremely strange-looking monsters.

The physical defenses of these alien beasts are terrifying, and they are very cruel. violent.

However, there are too many Martial Emperors besieging these strange beasts. There are more than a dozen people. If Qin Chen is here, you can see that these people are just a group of the more than 60 Martial Emperors in the Dan Pavilion.

Puff puff!

Under the joint attack of more than a dozen people, several strange beasts burst open, leaving only a few scarlet spar.

"Hahaha, good harvest, and a few more blood crystals."

The leader laughed, and when he raised his hand, a few scarlet spar suddenly fell into his hand.

"Brother Yuannan, I said that this blood crystal is extremely difficult to obtain. I didn't expect that this time we were so lucky. It didn't take long to come. We already got eight? It won't be long before we can get one. ."

"It would be great if we could get three blood crystals for each person in this ancient Yu world. It is said that although this blood crystal contains very tyrannical power, once it is refined, it can make our physical defenses much stronger. The outside world is a priceless treasure."

"Three blood crystals? According to this posture, we should be able to get them within half a year."

"It is said that there are two treasures in this ancient Yu realm, the crystal of space and the blood crystal. Everyone knows that the formation of the crystal of space is because the strength of the space of the ancient Yu realm is too strong. It is formed over time, but this strange blood color is different. Where did the beast come from?"

"Follow him, maybe it's a blood beast unique to the ancient Yu world. It's just that I have waited too ignorantly. No one has figured out these things for thousands of years, so don't think too much about you and me. "Everyone has smiles on their faces.

[Chapter 1416: Space turbulence zone](#)

"Haha." Ling Yuannan smiled slightly, "Let's go deeper. When we get a few more blood crystals, we will distribute them again...Huh?"

Suddenly, Ling Yuannan's face changed slightly, and he turned pale.

"Brother Yuan Nan, what's the matter with you?" Everyone felt something wrong and asked.

"Ling Jun of my Ling family is dead."

Ling Yuannan looked at the broken life jade token in the storage ring, his expression suddenly became extremely frightened.

"What? Ling Jun is dead?"

"How is it possible? Didn't Ling Jun be placed in the canyon to protect those geniuses? How could he die if he didn't even enter the Guyu Realm?"

"Could it be that someone is attacking our Dange residence?"

Everyone was shocked.

"No, I have to go back and have a look, everyone, immediately report the matter to Master Situ, I will go one step ahead."

Ling Yuannan's face was pale, anxious, his figure shook, suddenly turned into streamer, and disappeared here.

"Go, quickly notify Lord Situ Zhen."

The expressions of other people also changed drastically. Ling Jun was the Emperor Wu who was guarding the Dange resident. His death did not mean that there was an accident in the Dange resident?

Whoosh whoosh...

After delivering the news, this group of people jumped up and swept to the outskirts of Guyu Realm.

At the same time, they had already dispersed. After learning the news, Emperor Wu Huang in other places was also frightened and returned to help.

Qin Chen naturally didn't know that after he killed Ling Jun, there would be such a big fluctuation.

He did not return to the canyon, only a fool would return to the canyon.

He suffered a slight injury in the previous match and must find a place to heal.

After half a day, Qin Chen fell down in an ordinary valley. After hiding it well, he immediately began to heal his injuries.

The resilience of the power of the Immortal Saint Body and the space was amazing, and Qin Chen's injury was not serious at all. After a while, Qin Chen's injury was healed.

After taking off his clothes and burning them, Qin Chen changed into a set of clean clothes again and put on a mask, which made him relieved.

He is now a half-step martial emperor. According to the truth, he cannot enter the depths of the ancient Yu realm. If someone sees his face inadvertently, it will inevitably cause some trouble.

After that, Qin Chen began to check Ling Jun's storage ring. The prohibition of the storage ring did not pose any difficulty to Qin Chen.

After breaking the restriction on the storage ring, Qin Chen poured all the contents of the ring into his storage ring, only then did he understand what real wealth is.

Before killing the Sword Emperor Xufeng in the Lower Four Regions, although he also got a lot of good things, except for the five amazing sword pills, everything else was extremely ordinary.

The real stones are all middle-grade real stones, and the highest-grade pill is only the seven-grade pill, and it is still a relatively ordinary product among the seven-grade pill.

But Ling Jun's ring made Qin Chen couldn't help but sigh that people would not make a fortune.

There are more than one billion high-grade real stones in it, but there are not a single low-grade real stone, and the middle-grade real stones also have 500 million, which is estimated to be only change.

After the Wuhuang cultivation base, the effect of the middle-grade real stone has been much smaller. Of course, like the Wuhuang of the lower four domains, he will already use the middle-grade real stone to cultivate, but this Lingjun is obviously not comparable to those of the lower four domains. of.

In addition to real stones, the medicines are also some eighth-rank emperor-level medicines, not even the ordinary imperial-level medicines such as the eighth-rank true yuan medicine, such as Qinglin Pill and hemolytic medicine, which are relatively advanced. There are medicines.

Moreover, there are some pills in it, once Qin Chen breaks through Emperor Wu, it will also be of great help to him.

It is worthy of being the top family of the Pill Pavilion, and the pill that he possesses is really extraordinary.

Of course, what makes Qin Chen most happy is that there are many eighth-order emperor-level elixir in it, there are more than 30, and the age is not low, except for three or two, the other years are more than a thousand years.

In Qin Chen's eyes, these elixir are just a furnace of imperial grade pill. As long as he breaks through the Martial Emperor, he can easily refine these elixir into pill.

As for the Yan Xuan Wheel that day, although Qin Chen didn't want to be his true treasure, this thing was really powerful and very special. He also refined it to avoid using it when he got it.

Of course, if it were not for a certain situation, Qin Chen would not easily display it. Otherwise, who knows how many people know the Yan Xuan Wheel, once it is displayed, everyone knows that he killed Ling Jun. The murderer.

In addition, there were still a lot of Tier 8 materials in Ling Jun's storage ring, and Qin Chen also put them away.

These materials can be refined into his formation, and will be able to exert greater power at that time.

This time, if he hadn't arranged the hiding formation in time, even if he could kill Ling Jun, he would have sent the message out, so the formation flag is undoubtedly very important to Qin Chen now.

After changing the decoration on his body, Qin Chen set off again.

According to the memory of his previous life, Qin Chen searched here, but after three days, Qin Chen was speechless, because he found that he was lost.

The Guyu Realm is too vast. Although he lived here for three years in the previous life, he only searched a small part of the place. This time he came in with the Dange people, and the route was completely different from the previous life. Some are lost.

This is how to do?

Qin Chen was depressed. The place in his previous life was indeed perfect for him to break through the Martial Emperor. If he practiced there, he would definitely be able to break through in a short time, but if it was in other places, it would take at least time. Doubled.

"By the way, try this jade dish."

Suddenly, Qin Chen thought of something, his eyes brightened, and he even took the Universe Good Fortune Jade Disc in his hand.

When he was in the Secret Realm of the Heavenly Demon, this jade disc of good fortune could quickly allow him to see through the spatial arrangement of the Secret Realm of the Heavenly Demon. Is there any effect in this ancient Yu Realm?

Holding a jade disc of good fortune from the universe in his hand, Qin Chen felt it blended into it.

Hum!

Suddenly, Qin Chen felt his body melted into the void, and the surrounding scenes were really clearly presented in his mind.

Baili!

Thousands of miles!

This is a structural diagram of the Guyu Realm, with various mountains undulating, but only the structure of the Guyu Realm can be seen.

"Hey, there should be a turbulent space within the Guyu Realm."

In Qin Chen's perception, thousands of miles away, a turbulent space appeared in Qin Chen's mind.

The space turbulence zone is a very dangerous zone in the ancient Yu world. It is a river formed by spatial turbulence. Even the strongest Wu Huang dare not rush in. If one is not careful, even the late Wu Huang of the eighth stage will fall inside. But Qin Chen was overjoyed. He remembered that the place in his previous life was not very far from the space turbulence zone. As long as he found the space turbulence zone, he could follow the vines and find the place in the previous life.

[Chapter 1417: Misty Palace Disciple](#)

When Qin Chen was pleasantly surprised, suddenly there were waves of mental power in Qin Chen's mind.

Someone came over, and was still spying on him with perception, and even rushed here quickly. This person's divine consciousness fluctuated much more terribly than Ling Jun, and he was definitely an eighth-tier mid-stage martial emperor.

"not good!"

Qin Chen was shocked immediately. He only used Qiankun's jade disc to search, but he forgot to be alert to his surroundings. Although Qiankun's jade disc could allow him to see the structure of the ancient Yu world, he could not spy on his surroundings. The strong.

Just a dozen or so breathing times, a blue light flew from the side. This is a woman wearing a blue dress. The dress is fluttering, with the breath of fairy spirit, and the breath on her body is also very good. Horror, far more terrifying than Ling Jun.

It turned out to be the middle stage of Emperor Wu, Qin Chen frowned, and what made him even more cold was the aura on the opponent that gave him a rather familiar feeling.

When Qin Chen was outside the Guyu Realm before, he had never seen this woman at all. With his memory, as long as it was someone who appeared outside the Guyu Realm, it was impossible to miss it. Then the other party was likely to appear later. .

The Law Enforcement Palace, or the Misty Palace?

Qin Chen's eyes were cold, no wonder the other party would give him a familiar feeling, it turned out to be the unique arrogant and cold aura of the Hall of Law Enforcement, as if the world was stepped on by them.

This person was clearly aimed at him, Qin Chen mentioned slightly with a heart.

He still didn't want to conflict with the Law Enforcement Palace and Misty Palace, and the opponent's strength was as high as the mid-term Emperor Wu. Before he killed Ling Jun, he spent so much effort and almost escaped by the opponent.

The woman in front of him was clearly more terrifying than Ling Jun, and he couldn't guarantee that he would be able to win the opponent.

"Hey, the aura on your body is a bit weird, it seems that even Emperor Wu is not here? Who are you? Take off your mask and let the emperor see." The woman came to Qin Chen and immediately said in surprise. After a sentence, the expression in Qin Chen's eyes immediately glowed, and he directly commanded.

Qin Chen originally wanted to talk to the other party. After all, the other party's cultivation base was higher than him, but as soon as he came up, he heard the other party's command, and immediately gave up the plan to waste saliva.

"What was the thing you put away just now?" The blue-clothed woman asked again without waiting for Qin Chen to reply, in a cold tone. Although it was a questioning, she also had a commanding tone.

This person was too presumptuous, and Qin Chen's unhappiness emerged immediately, but he didn't break out. He just hugged his fist at random and said, "It's just a little thing next, it's not worth mentioning, there's still something next. I'll leave first."

"Bold, did the emperor let you go? Why did I detect that there was a huge spatial fluctuation just now, but when I got here, it disappeared? Was it the thing you put away?" The blue woman asked again.

Although she was scolding Qin Chen, her eyes lit up. She was sure that the spatial fluctuations that had just given off were not simple, and it was very likely a spatial treasure.

Qin Chen's expression immediately turned ugly, what is the relationship between him and him? I didn't know each other, but when I came up with this command, I thought that being strong would be great?

However, the words of this blue-clothed woman made Qin Chen think of a problem, that is, the jade disc of Universe Good Fortune cannot be arbitrarily moved, and its movement is too bad. Once seen by some top powerhouses, it will not be a good thing.

"Xia Xia has already said that it is just a gadget of Xia Xia, and doesn't seem to know you, does Xia Xia do not know you? What does Xia Xia have to do with you?" Qin Chen said coldly.

What if the opponent is a mid-term Wuhuang? He can't kill the opponent, there is hope to escape, not to mention, according to the woman's tone, even if he pleases, the other party will not let him go easily. "Huh, what's wrong with this emperor? This emperor is a disciple of the Misty Palace. My Misty Palace is in charge of the Martial Law Enforcement Hall. I have a supervisory role for all things in the world. The emperor sees you as sneaky and unruly. Order now. You, hand over what you put away before, then take off your mask and report your origins, otherwise,

My Misty Palace will act for the sky and capture you." The blue-clothed woman yelled coldly, as she expected.

Really a person from the Misty Palace!

The killing intent on Qin Chen's body immediately emerged, but he didn't do anything. Who knows if there is anyone in the Misty Palace nearby, he must keep a low profile before he is fully sure. "It turned out to be from the Misty Palace." Qin Chen sneered, "What illegal things can you do when the next person is here? What's more, the Emperor Feng Shaoyu of the Xuanyuan Empire, and you, Shangguan Xier and daughter of Misty Palace, are lovers. You won't even search for people in my Xuanyuan Empire, are you?

Blame with you? "

"Presumptuous, you dare to insult Lady Empress! What kind of emperor Feng Shaoyu, bullshit, how can you compare with Lady Empress?"

The blue-clothed woman was furious when she heard the words. In her anger, she raised her hand and grabbed Qin Chen.

Qin Chen was startled, what's going on? Isn't Feng Shaoyu and Shangguan Xi'er together?

This is impossible!

Back then, Feng Shaoyu and Shangguan Xi'er secretly colluded and framed herself. The two have been in collusion for so many years, can it be said that they separated?

However, the behavior of the blue-clothed woman was not like a disguise. It was indeed an anger to talk to her generals Shangguan Xier and Feng Shaoyu, which made Qin Chen slightly puzzled.

Doubt turned into doubt, Qin Chen had to face the opponent's attack.

boom!

A Zhenyuan palm appeared out of thin air and snapped at him.

Qin Chen saw that the other party underestimated him, and he didn't know where to seize the opportunity.

At the same time when the mysterious Rust Sword was sacrificed, it was immediately urged by Imperial Swordsmanship, and when it was shot, it was a full-fledged fight. At the same time, it displayed the two ultimate moves of Jidao Sword and Seven Swords, without half a hand.

Although Qin Chen was only a half-step martial emperor, the nine-star divine emperor art he cultivated led to his true essence, which was very condensed, not inferior to the martial emperor of the early eighth stage.

Coupled with the simultaneous use of imperial swordsmanship and the two heaven-level top swordsmanships, the Extreme Killing Sword and the Seven Killing Sword, which were originally obtained in the Demon Sword Inheritance. It shot out like a torrential rain.

Puff puff puff!

The sky full of sword light instantly tore apart the space barrier that the blue-clothed woman had not fully released, and then turned into a nearly hundred-foot-long sky-reaching sword energy, passing through the void, and slashed at the blue-clothed woman. On the big hands of the real yuan that came out.

Almost instantly, the woman in blue knew that she underestimated the enemy. "Puff..." The Heavenly Sword Mang smashed the blue-clothed woman's big hand, and immediately blood splashed into the sky full of sword energy, but the Heavenly Sword Qi continued to slash down without half a moment of relaxation.

[Chapter 1418: Space manipulation](#)

The blue-clothed woman's figure just flickered, and she completely broke free from the kendo shackles of the sky-reaching sword aura, but her palm had already been split into a gap and blood flowed.

It was just a trick. A mid-term Martial Sovereign of his own dignity, was actually injured by someone who seemed to be unable to even reach the Martial Sovereign cultivation base?

And she is still a disciple of Misty Palace, the most heaven-defying force on the mainland.

The blue-clothed woman suddenly became furious. She swallowed an elixir, and her hands healed in the blink of an eye while the true essence was in motion. At the same time, a azure blue fairy silk of the same color as her clothes had been sacrificed.

"boom....."

This azure blue immortal silk seemed to be very soft, but at the moment it was thrown out, the blue light suddenly turned into a azure blue spear, and it slammed on the heavenly sword light displayed by Qin Chen.

The huge sword light suddenly trembled, and instantly fell apart, exploding into countless dense sword lights, blasting the surrounding ground into riddles.

Qin Chen snorted with a muffled groan from the powerful True Essence backlash force, and he even put away the mysterious Rust Sword from his throat.

At this time, the blue-clothed woman's space barrier was formed again. The space barrier formed this time was completely different from just now, it was like a quagmire, and Qin Chen was instantly bound.

"What a strong space bondage!" Qin Chen exclaimed in his heart. Even though he hates and angers Misty Palace, he still has to admit that the powerhouse of Misty Palace is indeed extraordinary, and this space enchantment alone is far beyond The mid-tier eighth peak martial emperor of other forces can even be compared with the general force's late eighth emperor.

And talk about it.

The Misty Palace can stand in this martial domain, not relying on flaunting power, but real strength.

When the cultivation base was two levels worse, and there was still a large level, Qin Chen immediately understood that even if he tried his best, even if he could defeat the blue-clothed woman, he would not be able to kill him.

Even if it is to let Skeleton Rudder Master take action, this class of masters will not even have the means to save their lives.

"Sword Realm!"

As his thoughts turned, Qin Chen immediately released the boundary of the sword.

"Kaka..."

The realm of the sword and the space barrier of the opponent kept clashing, making a violent roar, but Qin Chen could only protect himself.

Qin Chen did not hesitate to perform Imperial Swordsmanship again, and also displayed the third stage of Jidao Killing Sword in the Demon Sword Inheritance-Death Word Sword Art!

boom! A sword intent containing the ultimate killing intent rose to the sky, and the space barrier that imprisoned Qin Chen creaked instantly. In just a short time, the space barrier became weak. At the same time, Qin Chen's first way The sword light was also consumed by the barrier, and it was not mentioned before the blue-clothed woman.

The blue-clothed woman was extremely shocked at the moment, because she had already felt that Qin Chen's cultivation was only half a step Martial Emperor.

Although she felt that she could kill the opponent, but a half-step martial emperor was so powerful, it really made her unimaginable, when did the Xuanyuan Empire have such a terrifying half-step martial emperor?

Could it be that the other party is the emperor of the Xuanyuan Empire? But even the emperor could not be so terrible!

The saints of their Misty Palace are at this level, right?

At this moment, the murderous intent in the blue woman's heart was unprecedented.

If this half-step Wu Huang is promoted to Wu Huang, where else would Wu Huang be his opponent? Even if he was an early martial emperor, it was enough to despise the vast majority of martial emperors.

There is no doubt that this person must be killed, otherwise there will be endless troubles. The blue-clothed woman thought of this, and the blue fairy in her hand turned a dazzling light, forming a blue light cut.

"boom....."

It's just that before the blue Light Slash attacked Qin Chen, Qin Chen's second round of kendo killing intent had already killed him, and Qin Chen had also incorporated the power of some Qinglian Demon Fire, such a terrifying flame sword aura, The eyes of the blue-clothed woman suddenly froze.

This flame aura is too terrifying, it is definitely not an ordinary true essence fire, but some kind of external special flame, at least the top one among the earth fires.

A half-step martial emperor not only has such a level of cultivation against the sky, but also has such a terrifying flame, her eyes become even more hot.

This person must be captured alive, because he has too many secrets. But even if she wanted to capture Qin Chen alive, she knew that she couldn't let this attack be injured, otherwise she would definitely be injured again.

The immortal Ling who turned into a light cut suddenly rushed over and collided with Qin Chen's attack.

"Rumble..."

A deafening roar sounded, and the two forces collided, bursting out a terrible light of true essence, just the time of breathing, Qin Chen's second death word sword art had disappeared.

"Blue Moon Bloodline!"

After the blue-clothed woman blocked Qin Chen's attack, she did not stop. Above her head, a blue moon suddenly appeared. The power of the terrifying bloodline instantly merged with the azure blue fairy silk in her hand, turning into a huge The blue beam of light swept towards Qin Chen.

And with the attack of this blue light beam, the space around Qin Chen was also shrinking sharply, as if waiting for the space to shrink to a certain point, it happened to be hit by the blue light beam.

"Space manipulation!"

Qin Chen's eyes were cold. This space technique was taught to Shangguan Xi'er in his previous life, and he didn't expect it to become the secret technique of Misty Palace.

But Qin Chen had to face this dangerous situation. If he was already Emperor Wu, he could easily break through the influence of this spatial manipulation technique, but he was not yet Emperor Wu.

This time, Qin Chen did not continue to attack, but a black big seal appeared in his hand, really his big seal, and he stopped in front of him suddenly.

With a thud, the Da Yin Zhenbao shook violently, and an incomparable terrifying force was passed along.

"puff!"

Qin Chen spouted a mouthful of blood, and his whole body flew upside down suddenly, and while flying upside down, Qin Chen immediately activated the thunderous blood in his body.

With a sneer, a azure blue electric light flashed in the void, and in the blink of an eye, Qin Chen had appeared several miles away and flashed quickly.

The blue-clothed woman didn't expect that with her full blow, she hadn't won Qin Chen, and Qin Chen didn't have the means to continue fighting with her, and escaped directly during the fight. How could she stand it? The blue fairy Ling chased after Qin Chen.

Above her head, the blue crescent moon exudes a misty breath, and she steps on the blue immortal silk, as if flying like a sword, the speed reached the extreme in an instant.

But what made her look ugly was that instead of pulling in, the distance between her and Qin Chen was getting farther and farther.

A small half-step martial emperor, the speed is actually about the same as her mid-term martial emperor. The blue-clothed woman's face was green, and she bit Qin Chen hard to prevent Qin Chen from disappearing from her sight. She not only wanted to kill Qin Chen, but also to discover the secret that Qin Chen could fight against her.

[Chapter 1419: old woman](#)

Even if Qin Chen didn't have a secret, the weird space treasure that Qin Chen had previously put away, the weird flames on his body, and the **** seal that blocked his full blow before, were definitely not ordinary products.

Qin Chen dashed all the way, the Thunder Bloodline was used to escape for the first time, but the effect was good.

If it were an ordinary mid-term martial emperor, Qin Chen would have already thrown away the opponent, but this blue-clothed woman's real treasure and her Blue Moon bloodline could oscillate so fast that he couldn't get rid of the opponent for half a day.

"Hey, old woman, if you chase me and can't catch up, why not give up." Qin Chen shouted behind him.

"Old... old woman!"

The blue-clothed woman was so angry that she could be selected into the Misty Palace, how could she be ordinary, not to mention the beauty of the country, it is also quite beautiful, who in the martial arts sees her, does not call a fairy? But the guy opposite dared to call her old woman.

"Smelly boy, the emperor will not kill you today, and swear not to be a man." The blue-clothed woman said angrily.

She didn't believe that Qin Chen could continue to flee at this speed. The other party was only a half-step Martial Emperor. Sooner or later, the true essence would be exhausted. Then she would not be left to deal with it. At that time, she would not be slashed with all kinds of swords. It is difficult to understand her hatred.

"If you can kill, come and kill it."

Qin Chen sneered. The reason why he fled was not because he was afraid of the other party, but because it made no sense to continue fighting in his heart.

In this way, two chased and the other escaped.

Fortunately, no one else was encountered along the way. After a while, a vast space turbulence appeared in front of him, like a river of heaven, running across the line of sight.

"Space turbulence zone!" The blue-clothed woman suddenly sneered to see where you are still running.

The space turbulence zone is very dangerous, even she dare not rush in, and Qin Chen, a half-step martial emperor, can survive in this ancient Yu world, probably because of the space turbulence he has, and encounter this space turbulence. With it, it is bound to be helpless.

Whoosh!

What shocked the blue-clothed woman was that when Qin Chen came to the space turbulent zone, his figure did not stop at all, but rushed in directly.

Does this kid want to die?

The blue-clothed woman took a breath of air, and if the space turbulence zone was so rushing, it would not be one of the forbidden places in the ancient Yu world.

But she watched Qin Chen rush in without even hesitation.

Boo!

Like a stone falling into a river, Qin Chen disappeared instantly after entering the spatial turbulence.

"This kid, are you crazy?"

The blue-clothed woman stopped in front of the space turbulence belt, her face gloomy and uncertain.

Although she only fought Qin Chen for a while, she felt that Qin Chen was definitely not the kind of person willing to commit suicide. Unless the other party has the ability to survive the turbulence of space, it would never be possible to rush without hesitation. Go in.

"What the **** is this treasure of space on this child? Can he be fearless even in the turbulent space?"

The blue-clothed woman thought of the treasure of Qin Chen's body, apart from this possibility, she couldn't think of the second one.

In the turbulent space flow, Qin Chen breathed a sigh of relief.

"Finally dumped that guy."

Puff puff!

Dao spaces flowed randomly on Qin Chen, and countless wounds appeared on Qin Chen's body instantly, but these wounds were healing quickly at the same time.

"The body of space is really powerful. If it weren't for the cultivation of the body of space, I would have rushed into this space turbulent zone, I am afraid I would be in danger."

Qin Chen was secretly surprised.

The body of space can absorb the power of space between heaven and earth. Although in this space turbulence zone, his body will be hurt by the turbulence of space at all times, but at the same time, his body is also the power of space contained in the turbulence of space. In, he is constantly being cured.

The combination of the two, coupled with the immortal body in his cultivation, can survive in the turbulent space.

This is also his own advantage. If he changes to another martial artist, he will not want to survive in the turbulent zone of this space without reaching the realm of the later Martial Emperor.

"My spatial body is only at the most basic level. If I can practice in this spatial turbulent zone for a period of time, it will definitely be improved, and the Immortal Eucharist will also be improved here. Unfortunately, the top priority. Let's talk about breaking through the cultivation base first."

The cultivation base is not limited to Emperor Wu, and he is always stretched in this ancient Yu world, so breaking through Emperor Wu is what Qin Chen needs to do most at the moment.

At the moment, Qin Chen searched in this space turbulent zone.

Hard work pays off.

Three days later, Qin Chen really found the area he knew in his previous life.

This is a vacuum zone not far away from the space turbulence zone, very secretive, located in the middle of a mountain.

Qin Chen was worried at the beginning that this cave had disappeared after three hundred years, but now he found it again, but he was pleasantly surprised.

The whole cave is extremely deep, as if it leads to the bottom of the earth, surrounded by colorful light of space, beautiful and magnificent, every light of space contains amazing spatial atmosphere.

But at the same time, the light of this space also has amazing lethality. Because it contains too much space power, if an ordinary martial artist absorbs it, it will inevitably tear the body and cause the body to fall here.

Moreover, the deeper the ground, the greater the power of the light of this space, even more terrifying than the space turbulent zone.

In his previous life, Qin Chen went deep into the cave for about three hundred meters, so he didn't dare to go deeper. If there is a chance in this life, Qin Chen also wants to go into the investigation.

Of course, the top priority is to practice first.

Entering the light of space, an inexplicable feeling rose from the bottom of Qin Chen's heart, as if the light of space contained the infinite mystery of the heavens and the earth, which made people intoxicated and couldn't help but want to explore. Want to pursue. Standing here, there is no need to deliberately perceive, Qin Chen suddenly has a trace of comprehension, his heart instantly becomes extraordinarily ethereal, his eyes are closed, Qin Chen sits cross-legged, the whole person is completely integrated here, his spiritual power spread out, the soul enveloped all around, full of piety, seek here

Own avenue.

Gradually, the light in the surrounding space seemed to be called, frantically surging from all directions.

This scene shocked even Qin Chen. He had never encountered such a situation in his previous life. This is the body of space in this life, exuding charm.

The wisps of space light, bursting into colorful rays of light, surrounded Qin Chen in the center, making him look like a god.

Qin Chen is like a child, standing calmly in the center of the light of these spaces, like a fish swimming in the water, full of tranquility and serenity. Qin Chen felt that the light of these spaces was like moths fighting fire, surging into his body from all directions, while his body was greedily breathing the light of every space, as if in the desert. The traveler who had been thirsty for three days and three nights saw an oasis and drank gulps of water, as if he couldn't get enough.

[Chapter 1420: Angry Situ Zhen](#)

When Qin Chen was practicing in the light of space.

At this time, in the valley where the Dange disciples were, Situ Zhen, Ling Yuannan and others returned to the valley for the first time.

"Elder!" Seeing Ling Yuannan, Ling Yi hurriedly stood up.

"Master Situ Zhen." Mo Wuwei and the four also stood up anxiously.

It has only been more than four months, and it seems that it is not time to change shifts, right? Master Situ Zhen, why are they all back?

Seeing that the canyon was safe and sound, Situ Zhen and the others were relieved immediately, their eyes were cold, and they said coldly, "Mo Wuwei, where is Soldier Ling?"

"Back to Master Situ, where Ling Jun has gone, his subordinates don't know." Mo Wuwei said nervously.

Ling Yi was overjoyed. Could it be said that Ling Jun killed Qin Chen, causing Master Situ Zhen's guilt? It's not impossible, otherwise, Master Situ, what did they rush back in such a hurry?

However, even if Qin Chen was killed by Ling Jun, how did Master Situ know?

"Elder Ling Yuannan, did Master Ling Jun killed that Qin Chen?" Ling Yi asked impatiently.

"Qin Chen, do you know where Ling Jun went?" Ling Yuannan immediately looked at Ling Yi coldly.

"Yes." Ling Yi nodded, and secretly transmitted his voice: "Ling Yuannan, you don't know, that Qin Chen was too presumptuous. He had acted on his disciple before and did not abide by the rules set by Dan Pavilion. He had to break in. Going inside the canyon, Master Ling Jun secretly pursued and killed his disciple..."

...Why, did Qin Chen file a complaint with Sir Situ Zhen? still is....."

"Are you saying that it was because of you that Ling Jun left here to go to the depths of the canyon?" Ling Yuannan immediately filled with coldness.

"Yes, what's wrong..." Ling Yi said suspiciously. He faintly felt that Ling Yuannan's tone seemed a little wrong.

"Snapped!"

Ling Yuannan was furious, and slapped Ling Yi away directly. Ling Yi had just recovered from his injury, and he immediately spewed blood again, completely stunned.

"What's the matter, you are ashamed to ask me what's wrong? Ling Jun is dead, do you know!" Ling Yuannan stared at Ling Yi angrily.

Although Ling Yi is the heir of the third generation of the Ling family, Ling Jun is not weak. In the second generation of the Ling family, Ling Jun is also the most outstanding tianjiao, otherwise the Ling family would have one of the three limited quotas. , Hand it to Ling Jun.

Once such a warrior grows up, he is at least a master at the peak level of the late eighth stage, and has a certain chance of being able to impact the realm of Emperor Wu.

But now, because of the conflict between the disciples of these younger generations, Ling Yi has fallen into the Guyu Realm. After the Guyu Realm ends, how can he explain to his family?

If it weren't for Ling Yi's status, he wouldn't even have a low status.

At this time, Situ Zhen also understood the ins and outs of the matter. "What you mean is that there was a conflict between Ling Yi and Qin Chen. That Qin Chen broke into the depths of the ancient Yu realm with half-step Martial Emperor regardless of his life, and without your knowledge, Ling Jun also Disappeared, went to chase and kill that Qin Chen?" Situ looked at the four Mo Wuwei coldly, feeling cold.

Yi can almost freeze the void.

"Master Situ Zhen, this is just the subordinate's guess. As for whether Ling Jun is going to hunt down Qin Chen, the subordinate doesn't know..." Mo Wuwei said tremblingly.

"Waste, a bunch of waste."

boom!

A terrifying killing intent burst out of Situ Zhen's body, instantly rushing Mo Wuwei out of the four. The four of them turned pale, and the corners of their mouths overflowed with blood, but they all looked at Situ Zhen in horror.

"I asked you to stay here for the purpose of maintaining the order of the Dange geniuses, but what have you done? Let the Ling family go wild here, targeting the geniuses of the lower four domains. Do you regard the command as the wind in your ears?" Situ really exclaimed.

"The subordinate didn't dare, it was Ling Jun, who told me to wait not to take action, and told him to give him a face on the Ling family. I'll wait...I'll wait..." Mo Wuwei said tremblingly.

"Give him a face to the Ling family? Where is this place? Guyu Realm, who are you? Dan Pavilion valued genius! Then Ling Jun said that, you really don't care about it, so why do you need you? Are these dogs from the Ling family?"

"Master Situ really calmed down." Mo Wuwei and others all bowed their heads in horror.

"Master Situ Zhen, what do you mean? The strong man in my Ling family is dead now." Ling Yuannan heard this and suddenly looked over.

"I know that it was your Ling family's strong man who died, so I was angry. What did your Ling family consider Dange's order? Now that Ling Jun is dead, who knows how he died, then Qin Chen might also Has fallen, this is the good thing your Ling family did." Situ Zhen said angrily.

As the leader of everyone in the Dange, he naturally has the responsibility to protect everyone, whether it is Ling Jun or Qin Chen, in his opinion, it is the same.

"You..." Ling Yuannan was anxious.

"I warn you, especially the so-called big forces inside Dan Pavilion. You are outside, and I will not care about any trouble. If I let this seat see you fighting each other in the Guyu world again, I will not blame this seat. You're welcome." Situ really looked at Ling Yuannan and the others coldly: "The one hundred places that Dan Pavilion has finally gotten are not for you to fight each other here. If something like this happens again, I will directly You will be killed, and your forces will never want to get the chance to enter the ancient Yu world.

, If you don't believe it, you can try. "

"Don't blame me for not putting the ugly words first."

The icy voice came to everyone's ears, and many geniuses were chilling, even Ouyang Nana did not say a word.

Situ really can become the leader of Dan Ge this time, not only on his strength, but also on the forces behind him. Among so many people on the field, only he is qualified to say such a thing.

"What about the Ling Jun of my Ling family?" Ling Yuannan suppressed his anger, said in a deep voice. "I will naturally investigate the death of Ling Jun. Only Qin Chen may know the truth now, but Qin Chen's life and death are unknown to everyone. Therefore, if anyone has news about Qin Chen, I will inform this seat at a time." Situ Nan said coldly, "Now, everyone continues to repair

The three years of training seems to be very long, but in reality it is very short, so you should take the opportunity. "

With a cold snort, Situ Nan looked at Mo Wuwei, "The four of you will be punished to guard you for half a year. Do you have any objections?"

"The subordinates have no objection." Mo Wuwei several people bowed their heads.

Nonsense, dare to have objections? If you have objections, just wait for luck. "And you so-called tianjiao, your goal is to break through the Emperor as soon as possible, not to fight for the strong. If anyone breaks through, he will be informed. This seat will send someone to pick you up as soon as possible. Practicing within Yujie." Situ Zhen looked at Ouyang Nana and others.
