

Valkyrie 1451

[Chapter 1451: Go to the emperor](#)

Someone's eyes are dull.

Someone's eyes burst.

Some people also dropped their weapons.

All are dumbfounded!

On the Rainbow Bridge, Qin Chen began to rush.

boom!

In his sight, he quickly saw the first person, and it was a guy who had mocked him before.

"Huh, what sound?"

This person was struggling forward, and suddenly heard a sharp sound coming from behind him. Without seeing Qin Chen's appearance at all, someone rushed past him.

"Boom!"

Even when he passed through, he hit him heavily.

"Damn, who is it?"

The person was frightened and furious, trying to stabilize his figure as hard as he could, but the whole person had been knocked out of the range of the Rainbow Bridge, how could he be steady? It naturally fell from the Rainbow Bridge.

If you fall on the Rainbow Bridge, you will naturally fall on the Rainbow Bridge, but if you are knocked out of the Rainbow Bridge, you will naturally fall under the Rainbow Bridge.

"what!"

Below the Rainbow Bridge, the roar of the man came.

Of course, this person's Wuhuang level cultivation base would naturally not fall to death, but he could only start from scratch.

Whoosh!

Qin Chen ignored the other party and continued to move forward. Along the way, several people were knocked off the Rainbow Bridge. If you look closely, you will find that these people have spoken badly about Qin Chen before.

Who said Qin Chen didn't hold grudges?

Being too lazy to bother about it doesn't mean that he will forget it. Since he has caught up, he will work harder by the way. Shaking these people down and punishing them slightly is a matter of course.

If it was replaced on flat ground, unless Qin Chen made a strong move, it would naturally not be easy to knock people into the air with a simple collision.

But here is different. The Rainbow Bridge is extremely slippery. Everyone has to walk carefully. How can it stand the external force?

For a time, as if the goddess was scattered, many people fell from the sky, and the scene was quite spectacular.

"Who is this, too fierce, right?"

"Hey, isn't this Qin Chen?"

"The guy who offended Emperor Feng Lei?"

"This speed is too fast, I can catch up so quickly."

"My God, others can only walk cautiously, but he can run wildly, is this my dazzling?"

A group of people walking cautiously on the Rainbow Bridge were all dumbfounded.

They tried their best and finally came here, but Qin Chen? Actually rushing, surpassing them in a moment, is this still a human?

Oh my god, everyone was laughing at this person for being overpowered, but now? This speed can't be compared to him, right?

"Have you noticed that the people who were scraped off the Rainbow Bridge were people who had laughed at him before?" someone suddenly said.

With such a reminder, the others suddenly changed color.

"It's really true when you say so."

"This kid is specifically taking revenge on the person who targeted him just now."

"Nima, we were on the Rainbow Bridge, we didn't even dare to pant, for fear of falling, he would be fine, but he could actually make a move. What kind of strength is this?"

"How can there be such a pervert?"

Everyone is speechless, this person is really annoying than others.

At the same time, I was also fortunate. Fortunately, they had not offended Qin Chen before, otherwise they would have fallen now.

In amazement, Qin Chen quickly surpassed them and disappeared at the end of his sight.

After a while, Qin Chen saw Ye Mo and Yan Equator.

The speed of the two is still very fast, after knowing the essentials, the latter came first, and soon exceeded a lot.

"Less dust!"

Feeling someone approaching behind, Ye Mo and Yan Equator turned their heads and looked silly for an instant. Is there anyone who can run on the Rainbow Bridge?

The speed of the two of them is already very fast, but compared with Qin Chen, they are like snails.

"Go ahead."

Qin Chen greeted the two of them and continued on their way.

His speed is getting faster and faster, and it seems that his feet are not a test road composed of rules, but a broad road that cannot be more ordinary.

One is surpassed by him.

Damn it!

Some people don't need Qin Chen's hands, they are almost frightened to fall.

For a moment, a person appeared in front of him.

It's Ling Yi.

But at this moment, the Rainbow Bridge in front has clearly come to an end.

"It seems that I wasted too much time at the beginning." Qin Chen shook his head. He originally wanted to catch up with Qianxue, but didn't expect to miss it at all.

He simply slowed down and quietly approached Ling Yi.

"Huh?" Ling Yi faintly felt someone approaching behind him. When he turned his head, Qin Chen was already only a few steps away from him.

"It's your kid!"

Ling Yi was shocked. Didn't Qin Chen never get on the Rainbow Bridge before? Why did you suddenly come behind you?

But immediately, there was a spiteful color in his eyes.

"It's just right, let the emperor roll down."

"boom!"

He directly raised his hand and patted Qin Chen with a palm, showing a hideous look, clearly intending to blast Qin Chen down from the Rainbow Bridge.

Qin Chen smiled, he didn't even do it yet, Ling Yi actually did it first.

Qin Chen glanced at the front, the end of the Rainbow Bridge was in a cloud of mist, no one was visible, and the others were left far behind.

Qin Chen smiled immediately. If he doesn't seize this opportunity, when will he wait?

"dead!"

With a sound of "cang", a black rust sword suddenly appeared in Qin Chen's hand, a cold killing intent flashed in his eyes, and he slashed over.

Ling Yi was surprised that Qin Chen could still use weapons on the Rainbow Bridge? He was able to take action and was extremely careful, not daring to be too strong, but Qin Chen was unscrupulous.

"Huh, the king!"

Ling Yi shouted angrily. Although surprised, he was not afraid at all. On the palm of his hand, the glow was shining with an astonishing breath.

After he broke through the Emperor Wu, the bloodline of the king in his body was awakened again, and he trained the clan, town and clan secret method king hand, which is unmatched.

"Small bugs."

Qin Chen sneered, slashing with a strong sword, without leaving a hand.

Puff!

The glow on the king's palm was instantly separated, and the mysterious rust sword was as strong as it was in the realm of no one, and it was indescribable. Under a sword, Ling Yi's arm was cut off instantly, and blood flowed.

"what!"

Ling Yi screamed, his face distorted.

how is this possible! how is this possible! how is this possible!

Ling Yi yelled, his head was full of incredible, and the whole person was going crazy.

Qin Chen is definitely the emperor of the early Wushu, and the aura he exudes can testify to it. If this is not visible, then Ling Yi would be in vain.

But it was also the early Emperor Wu, how could Qin Chen be so strong?

A sword slashed his arm, and the intense pain caused Ling Yi to almost fall off the Rainbow Bridge.

"It's the Excalibur!"

Ling Yi stared at Qin Chen, definitely because of this sharp sword in Qin Chen's hand. Otherwise, how could the ants in the four territories be his opponent? However, how could Qin Chen, an ant from the Lower Four Realms, possess such a terrifying magic weapon?

[Chapter 1452: Absolutely no reason](#)

Ling Yi only felt that the sky was about to fall, completely beyond his own understanding.

Qin Chen frowned slightly. On this rainbow bridge, his power was too much restricted. Otherwise, with this sword, it would be impossible to just cut off one of Ling Yi's arms, but should cut his whole person in two. half.

That's right, Qin Chen was murderous.

This Ling Yi, he has long been displeased, such a good opportunity, if you don't kill it, do you want to stay?

kill!

He raised his sword and killed it again.

boom!

This time, he shot with all his strength, and his speed rose to the extreme in an instant, like a beam of light, he instantly came to Ling Yi's body, slashing again with one sword.

A strong sense of danger struck, Ling Yi couldn't care about the horror in his heart, and a long spear hurriedly appeared in his hand. Boom, it was a black long spear, like a magic dragon, dancing to resist and counterattack.

He did not care that he might be knocked into the air from the Rainbow Bridge, if he did not resist, he would be cut off.

Cang! Cang! Cang!

When the two magic weapons collided, Ling Yi felt that the spear in his hand burst into bursts, like a dragon crying.

Qin Chen didn't use all his strength, because he was afraid of blasting Ling Yi off the Rainbow Bridge. What he wanted was to kill Ling Yi, not let him go to the Rainbow Bridge from the beginning.

Ling Yi backed back again and again, his face turned from anger to surprise, and fright to fear.

He found that Qin Chen really had the ability to kill himself.

No, he can't die here!

He was absolutely determined, a lot of pills suddenly appeared in his hand, swallowed into his abdomen, and in an instant, his body was burning with an astonishing breath, and his entire breath exploded several times in an instant.

He must never make the mistake he had made in the valley again and give Qin Chen a chance to control himself.

Moreover, he coveted the divine soldier in Qin Chen's hands. This thing was so terrifying, at least it was the pinnacle imperial soldier, or even the emperor soldier.

Emperor Bing, even in his entire Ling family, there are few treasures of this level.

As for the arm being cut off, his Ling family, as the big family of the pill pavilion, don't have a few medicinal pills that can cure the dead and rebirth from the broken arm? As long as you can get out alive and rebirth with a broken arm, it is not impossible.

"kill!"

Ling Yi used the blood of the king to the extreme, and his murderous intent was boiling, coming from strong.

He also found the secret to suppress the resistance of the Rainbow Bridge, that is, the power of blood, but in order to understand the law, he did not overly rely on the power of the law along the way.

After all, he is also one of the top talents in Dan Pavilion.

"Do you think that taking some pills is enough?"

Qin Chen sneered, offering a mysterious rust sword, cutting it across, and slashing towards Ling Yi's head and neck.

"How can you match me who inspired the blood of the king?" Ling Yi yelled, and he swept through with a single shot, using it as a stick, abandoning the imperial soldier's might, but just using the imperial soldier's own dominance.

The human king bloodline, the top bloodline of the mainland, will be constantly activated as the cultivation base increases. If it grows, this is a genius who is destined to become a strong man.

In the gorge, he was only suppressed by Qin Chen's bloodline, and he missed it for a while, otherwise would the dignified pill pavilion top Tianjiao be so weak?

boom!

The spear was swept out as a stick, and its power was not weakened at all compared to his original combat power, but it was increased several times. If Ouyang Nana were here, she would be surprised. The opponent's combat power could almost equal her. .

Bang!

Swords and guns fought, bursting out a series of dazzling sparks, and a shock wave also radiated out, bang bang bang, if it were not on the Rainbow Bridge, the ground would definitely be cut off by a large layer.

The smile on Ling Yi's face suddenly disappeared, revealing an unbelievable expression again, because even if he took the Body-Explosive Pill, the ultimate power of the human king's blood broke out, he was still lost to Qin Chen!

How could this be?

Shouldn't the human king bloodline sweep Invincible? Moreover, the techniques and martial skills he cultivated were all top in the martial arts, definitely several times better than the kid from the lower four domains, why did he still lose to Qin Chen?

There is absolutely no reason!

His face was at a loss, the confidence that had just been erected collapsed again, and this time it collapsed completely from the inside out.

"Ignorance!" Qin Chen scolded softly, the mysterious rust sword flicked, and the sword spirit was overwhelming. For people like Ling Yi, he didn't need any mercy.

kill!

In Qin Chen's hands, the mysterious Rust Sword exuded a wave of demonic and evil power. Boom, he urged Thunder's bloodline to eliminate the obstacles of the Rainbow Bridge, and moved towards Ling Yi's suppression.

Ling Yi is indeed very strong. He was originally a top arrogant. After breaking through the emperor and activating the bloodline of the stronger king, he is even stronger than a super arrogant like Ouyang Nana.

Unfortunately, his opponent is a monster in Tianwu Continent that has been difficult to produce for thousands of years, the real monster in the world!

This was also because of the suppression of the Rainbow Bridge, which caused Qin Chen and Ling Yi's combat power to drop dozens of times at the same time, and the gap between them became even smaller.

If in other places, Qin Chen will become stronger.

"what!"

Before the mysterious rust sword fell completely, Ling Yi let out a painful roar, his body was shrouded in sword aura, almost torn apart under the sword aura.

He didn't even have time to jump off the Rainbow Bridge, and Qin Chen's sharp sword could smash him in an instant.

"boom!"

At the moment when the sword light was about to cover Ling Yi, a terrible aura suddenly rose from Ling Yi.

The power of Emperor Wu!

Hum!

In his body, it seemed that there was something aura that had awakened. This was the mental clone left in his body by the powerful Emperor Wudi of the Ling Family. When Ling Yi was facing life and death, it began to be activated.

"Hahaha, you can't kill me, I have the protection of the strong family, you can't kill me, you die for me!"

Ling Yi yelled frantically, and his self-confidence suddenly recovered, even if his own strength is not as good as Qin Chen, he is the arrogant of the Ling family, with the idea of being a powerful emperor of the Ling family in his body, he can fight back.

boom!

A phantom began to appear on top of Ling Yi's head, containing the breath of Emperor Wu sweeping across nine heavens and ten places, like a **** king coming, sending a powerful blow towards Qin Chen.

But that power has not yet been shot in the future, the vague phantom, unexpectedly began to tremble, and the terrifying power continued to dissipate, like a mud cow entering the sea, continuously dissolving.

"How could this be?"

Ling Yi was horrified. Why did the family powerhouse's breath collapse as soon as it came out? This is impossible. "Ignorance!" Qin Chen shook his head and said with a sneer: "The power of Emperor Wudi of the Nine Heavens, if elsewhere, naturally contains amazing power, but this rainbow bridge contains the power of endless rules. The will of Emperor Wu of the Nine Heavens will be hundreds, thousands of times, here. Limit, let alone generation

You can't even protect you. "

"You... are as ignorant and stupid as that Ling Jun!" Ling Yi's eyes widened with horror, and there was uncontrollable horror in his eyes: "You...sir Ling Jun was killed by you?"

[Chapter 1453: Centipede](#)

"That's right, but unfortunately there is no prize. Go and accompany him!"

Qin Chen shook his head, and an indescribable force of terror burst out of his body.

He was too lazy to fight with Ling Yi, so he displayed the blood of thunder, and while offsetting the strength of the Rainbow Bridge, he displayed the strongest sword of death.

The dense killing sword energy instantly enveloped him.

"Do not!"

Ling Yi yelled, but stopped abruptly and instantly turned into fly ash.

Sword Qi passed by, and only a pool of blood remained on the Rainbow Bridge, which was then wiped out into nothingness by the force of rules.

Energy surged violently, Qin Chen stood still, and the breath on his body slowly calmed down.

Although he killed Ling Yi, Qin Chen did not show the slightest complacency. From the moment he met Ling Yi alone, Ling Yi was already dead in his mind, unless the other party was the first moment he saw him. , Then jumped off the Rainbow Bridge.

If it were not for the restrictions of the Rainbow Bridge, Ling Yi might have died faster.

"someone is coming."

Qin Chen glanced down, and a faint figure appeared. He shook his figure and ran towards the end of the Rainbow Bridge.

After dozens of breaths, the Rainbow Bridge finally came to an end, and there was a hazy white mist ahead.

Whoosh!

Qin Chen rushed in.

I thought that after the white mist, it was the mysterious continent, but as soon as Qin Chen entered the white mist, he immediately felt dizzy.

No, it's a space channel.

Qin Chen was taken aback. He didn't expect that the end of the Rainbow Bridge was actually a space channel. Where would he be teleported to?

Qin Chen's heart gradually sank.

But in the space channel, he was helpless, just about to look around attentively.

Suddenly, the dizziness of spatial transmission suddenly disappeared, and with a thump, he fell heavily on the ground.

"it hurts!"

With this strong impact, Qin Chen's internal organs faintly felt pain.

Where did the hard ground come from?

Qin Chen gritted his teeth. He was the peak Martial Emperor in the early stage of the eighth stage, and he was so painful after he had cultivated the Immortal Eucharist. Generally, the Martial Emperor in the early stage might be seriously injured directly by this blow.

Shaking his body, Qin Chen recovered, and just took a breath, suddenly a strong sense of crisis came under the hard ground.

boom!

Qin Chen soared into the sky. Because he had come to an unknown place, he had already taken out the mysterious rust sword as early as the first time. At the same time he was shocked, he cut a sword at the bottom without even thinking about it.

boom!

The ground cracked, and a black shadow rushed out, just colliding with the mysterious rust sword in Qin Chen's hand. Qin Chen only felt that his arm shook, and the black shadow was suddenly split and flew out, and Qin Chen himself was also caught. It flew out dozens of meters.

Qin Chen saw clearly that the place where he appeared was a very desolate black wilderness.

And what appeared in front of him was a pitch-black bug with hundreds of feet, like a centipede, three meters long, and a pair of terrifying mouthparts with a pair of small black eyes on the mouthparts. Full of evil.

This terrifying bug was completely dark, as if covered with a layer of armor, and its defensive power was amazing. Qin Chen's previous sword had only left a few inches of shallow wound on its body.

"What kind of monster is this?"

Qin Chen was taken aback. Although he had hurriedly shot before, he was not careless. He directly displayed the ultimate killing sword. The ordinary peak king-level blood beast was definitely beheaded with a single sword. Even the blood beast of the eighth rank would be injured, but this The weird bug actually does everything

No.

Damn it!

"Squeak!"

The strange insect was slashed by Qin Chen, and immediately roared in anger, and a dark gray light flashed all over his body, and the black eyeballs became more evil and cold.

With a squeak, the black bug turned into a black streamer and struck Qin Chen again.

"Fast speed!"

Qin Chen was shocked, he subconsciously slashed the mysterious rust sword out again, and with a bang, a huge force came, and the mysterious rust sword in Qin Chen's hand almost couldn't be stabilized.

The weird bug also turned a somersault again and fell to the ground, overflowing with black juice, which was extremely disgusting.

Qin Chen's gaze gradually became serious.

call out!

The pitch-black worm grinned, constantly attacking Qin Chen, and instantly fought with him, like a black shadow, constantly entangled around Qin Chen, making a violent roar.

Shoo!

Especially its mouthparts and one hundred sharp feet, just like barbs, puff puff puff, cut on the hard ground, and instantly cut deep holes in the black ground.

If stabbed by it, it definitely stabbed a hole.

"Good guy."

Qin Chen secretly frightened against him.

This centipede-like monster, although not very eye-catching, was so powerful that Qin Chen had never seen it before.

In terms of defense, it is stronger than that source beast's essence, definitely at the late stage of the eighth stage, and its attack power is also abnormal.

One person, one beast, and one stick of incense, Qin Chen was evenly matched with this centipede monster. Apart from leaving countless wounds on this centipede monster, it did not cause much damage.

And this centipede monster couldn't help Qin Chen either.

hiss!

The centipede monster stared at Qin Chen with a cold gaze, full of evil aura. Although it couldn't help Qin Chen, it had an aura that would never give up unless Qin Chen was killed.

call!

It opened its mouth, and suddenly a black mist sprayed out, and at the same time the luster on the centipede monster's body dimmed a lot, as if a lot of blood was consumed.

This is its big killer.

Qin Chen immediately felt a strong sense of crisis, and Qin Chen felt dizzy before the black mist approached.

"What is this?"

Qin Chen held his breath. He cultivated the Immortal Eucharist, and the fog that made him feel dizzy, how poisonous is it?

"Very poisonous? By the way, Skeleton Rudder Master."

Qin Chen thought of the Skeleton Rudder Master, and immediately took out the Demon Suppressing Cauldron, and pierced in with a spirit of strength.

"Don't be lazy, come out and kill the enemy."

Qin Chen cursed and said, he was fighting hard, this skeleton rudder master was better, and he was very at ease in the devil-suppressing cauldron.

"Master, didn't you let me retreat? I almost broke through, and you woke me up."

The Skeleton Rudder Master was awakened by Qin Chen's mental strength, and he mumbled, and he had already appeared outside of the Demon Cauldron.

"Little dust, who do you want me to kill? Hurry up, I have to hurry up and practice. It's just a critical moment of breakthrough."

Skeleton Rudder swept his eyes around, and wondered: "Where is this place? Why does it feel so comfortable?"

After its gaze fell on the centipede monster, it suddenly sucked in a cold breath, and there was an expression of shock in its eyes.

"His, Centipede?"

"How can there be a hundred-footed corpse worm in this ancient Yu world!" Skeleton rudder master's face was suddenly full of shock!

[Chapter 1454: Alien Land](#)

Centipede?

This thing has such a name? But how did the Skeleton Rudder Master know the origin of this strange bug? Qin Chen thoughtfully.

A white bone whip appeared in the hands of the skeleton rudder master, whoosh, the white bone whip instantly entangled, and quickly wrapped the centipede corpse worm in it.

Squeak!

After the centipede corpse was wrapped in the white bone whip, he let out a stern cry, and black smoke gradually emerged from his body, struggling in pain.

Qin Chen was shocked. The Skeleton Rudder Master was so strong? This is wrong, right? The master skeleton rudder's cultivation base is still a little short of the late eighth stage, according to the truth, it should be not much different from himself.

But he hadn't killed the centipede corpse for a long time before, and the skeleton rudder only wound the opponent with a bone whip. This centipede corpse could not hold on?

What surprised Qin Chen even more was that the body of the centipede corpse worm wrapped in the white bone whip gradually shrivelled, and at the same time, strange power poured into the body of the skeleton rudder master through the bone whip.

boom!

The aura on Skeleton Rudder Master suddenly soared, and suddenly broke through to the late eighth stage.

"Quack, I just happened to be stuck on the bottleneck before, and I didn't expect to encounter a hundred-footed corpse worm. It seems that God wants this seat to break through, hehehe, quack!"

The Skeleton Rudder Master laughed, extremely proud.

Putting away the bone whip, the centipede corpse that was still arrogant before has turned into a corpse, and shriveled and old, as if it had been dead for dozens of hundreds of years.

"Little dust, where is this place? Why did you come here?" Skull Rudder glanced around his eyes, his eyes faintly glowing, and couldn't help asking.

Qin Chen briefly recounted what had happened before, and immediately asked, "What is this bug called a Centipede? How do you know it?"

"Mysterious Void Continent, why is the environment so similar to my Alien Demon Continent? And there are hundreds of corpses appearing?" Skeleton Rudder Master muttered.

"What did you say?" Qin Chen frowned. The master of skeleton rudder hurriedly pointed to the corpse of the centipede corpse and said: "Master, this thing is a worm and beast unique to my alien world. It is equivalent to a blood beast in your Tianwu continent. The worm and beast are inherently terrifying in defense. In terms of strength, they are even more terrifying than our alien demons, but they have a weakness, that is, they cannot withstand our alien demons' demon energy inside their bodies. Master, you previously severely injured this insect beast, this seat only needs to use its own demonic energy. , Corrupt its flesh, and naturally it can

Beheaded. "

"The insects and beasts of your Alien Demon Continent? How can they appear in the Guyu Realm?"

"This subordinate doesn't know anymore, but the environment here is very weird. After coming here, the subordinate feels very comfortable, but it is somewhat similar to the environment of my Alien Demon Continent."

"Similar to your Alien Demon Continent?" Qin Chen was shocked.

He opened the Eye of Illusion and began to look around.

"Ok?"

Qin Chen was slightly taken aback. He only discovered at this time that this weird place had certain suppression of mental power and the power within sensory search.

The world here seems to be full of negative particles and energy, which can limit his mental power, soul power, even vision, hearing and other powers.

Qin Chen roughly estimated that the strength of his soul was suppressed to one-third.

But from the Skeleton Rudder Master, Qin Chen didn't see the suppression, on the contrary, he had a lot of improvement.

This...can suppress the soul power?

Qin Chen couldn't help but be surprised. In fact, there are many secret realms on this continent that can suppress people's spiritual power, and even some secret realms can suppress the cultivation of martial artists, but the places that can suppress soul power are rare, because soul power is compared with spiritual power and true essence. More nothingness

Misty, more mysterious.

This shows that this place is special.

"No, this place is not only similar to my Alien Demon Continent, but it seems to be part of my Alien Demon Continent, or a secret realm in my Alien Demon Continent." After watching for a while, the master Skull Rudder couldn't help being shocked. Tao.

"Are you saying that this place is the secret realm of your Foreign Demon Continent?"

Qin Chen was also shocked.

This place is clearly a piece of void continent that the ancient Yu world of Tianwu Continent has entered, how could it suddenly become the secret realm of the Alien Demon Continent?

Could it be said that Tianwu Continent and Alien Demon Continent are not connected?

"Where are you Alien Demon Continent?" Qin Chen frowned.

According to his understanding, the alien demons, and even the legendary alien aliens, invaded the evil aliens of the Tianwu Continent.

Originally in his imagination, the alien demons should come from the legendary heaven, or an evil race in the heaven, but now it seems that something is wrong.

"Master, the Alien Demon Continent where our Alien Demon Race is located is actually the same low-level plane as your Tianwu Continent."

"Plane?"

This is another new term. "Yes." Skull Rudder said: "The so-called planes are the continents where living creatures are born in this vast starry sky. These continents are very far apart from each other, of course, there are also very few apart, and your Tianwu continent, It's the alien demon

A plane adjacent to the continent. "

"Between planes, there will be wars, mainly for resources."

"Because creatures go against the sky, they need to consume a lot of resources, but the resources of one realm are always limited. Heaven and earth can't give all the strong enough resources, so they have war behavior, by plundering other plane continents to strengthen themselves. "And the planes are also divided into strengths and weaknesses. Our Different Demon Continent is more advanced than your Tianwu Continent, so the number of strong people born is naturally more than your Tianwu Continent. In fact, as far as our subordinates know, we Different Demon Continent is better than yours

Wu Mainland is at least ten times stronger. "

"hiss."

Qin Chen sucked in the air-conditioner, more than ten times stronger, what is this concept?

"Speaking of which, wouldn't your Alien Demon Continent easily destroy our Tianwu Continent?"

Qin Chen shocked.

But why did the human race win in the ancient war, but the alien demons from the outside world were suppressed and hidden in the long river of history?

"That's not necessarily."

The Skeleton Rudder master shook his head, "Heaven and earth are fair. Any continent will form unique rules of heaven and earth at the beginning of its formation. After foreign races enter, they will be severely restricted and their cultivation base will be greatly reduced."

"After our alien demon race entered the Tianwu Continent, both our cultivation base and our strength were severely suppressed by the heaven and earth that will meet your Tianwu Continent, and the cultivation base is even less than a fraction of the original." "That's why I think it should be me here. The secret realm of the alien demon race, because after coming here, the subordinates feel very comfortable in their souls, and the cultivation level seems to have been liberated. If the subordinates are right, your cultivation level should be affected.

Certain restrictions. "Qin Chen nodded, really.

[Chapter 1455: Indignation](#)

Is this really the secret realm of the alien race?

Guyu Realm was born in ancient times, and no one knows how it was formed, but now it seems that it is a channel connecting Alien Demon Continent and Tianwu Continent?

But who opened this passage, the alien demon? Or the human race of Tianwu Continent?

"Where is the realm of the day? Do you know?"

Qin Chen asked the heaven again, this is the legend of Tianwu Continent in ancient times.

"Heaven is a more advanced interface. It is rumored that people of any plane can ascend in the day, break through the void, and enter the heavens as long as they reach a certain level of strength, but where the specific heaven is, the subordinates will also Never known."

Skeleton Rudder shook his head, and he knew very little about the heavens.

Qin Chen was shocked, but he didn't expect that Skeleton Rudder Master didn't know much about Heaven.

Moreover, he originally thought that the heavens belonged to a plane similar to the Tianwu Continent, just like the Alien Demon Continent, but it was more advanced, but now it seems that this is not the case.

Next, Qin Chen asked something more.

However, the Skull Rudder Lord was only a middle-ranked demon in the past, and he can only be regarded as a middle-level in the alien demons, and he doesn't know much about it.

Moreover, the alien demons invaded the Tianwu Continent back then, with a long history and not a short time process. The Skeleton Rudder Master came to the Tianwu Continent in the middle stage.

As a result, he was seriously injured and fell asleep during a battle in the secret realm of the heavenly devil, but when it came to the Tianwu Continent, the ancient Yu realm had not even existed.

"In this way, the Ancient Yu Realm should only appear after the Heavenly Demon Secret Realm."

Qin Chen thoughtfully.

The land of a hundred dynasties is extremely remote. Although I don't know if it was prosperous in ancient times, the Martial Domain is the absolute core of the Tianwu Continent.

If the alien demons want to invade, it is bound to be impossible to directly attack the Martial Domain, and it is very likely to invade from the outside.

In this way, the area of the Heavenly Demon Secret Realm should belong to the early main battlefield when the alien demon invaded the Tianwu Continent.

The Guyu Realm is a battlefield that only appeared in the later period.

But the Misty Palace, and those people in black from the alien demons, why did they open the restrictions here?

"hiss!"

Qin Chen immediately sucked in the air-conditioning, and his cold hair stood up.

If this is really the passage between the Alien Demon Continent and the Tianwu Continent, can the Alien Demon Race continue to invade their Tianwu Continent through this passage?

Could it be said that the people of the Misty Palace wanted to attract the people of the alien demons?

This is not impossible!

Qin Chen only felt cold on the soles of his feet.

He can vaguely feel some of the terrible alien race. In ancient times, there were many powerful human races, and Wudi was like a cloud. There were even rumors that some people could ascend to heaven and hold hands.

However, in those grand occasions, in the ancient dark ages, the strong human race fought **** battles, seeing death as home, and finally repelled the invasion of the alien demons.

It even caused a historical gap, making it impossible for people to understand the true face of the dark age.

This shows the tragedy of the ancient times.

After this period of historical fault, the Tianwu Continent today is no longer the grandeur of the ancient times. Once the alien demons invade, what will be the consequences?

shudder!

"No, no matter what purpose the people in black have, they won't be able to succeed, and the Misty Palace..."

Qin Chen's eyes were cold.

He originally hated Shangguan Xi'er, only because Shangguan Xi'er and Feng Shaoyu deceived themselves, shamelessly.

But now, the Misty Palace is actually connected with the alien demon race, thinking of the disappearance of the leader of the blood demon sect in the land of a hundred dynasties, the killing intent on Qin Chen's body suddenly became stronger.

Collusion with aliens.

Man and God are angry!

"go!"

Qin Chen's figure flickered and flew out in an instant. His top priority now was to find You Qianxue first.

There are many dangers here, and I don't know where You Qianxue has been teleported to. If you encounter danger, you will be in trouble.

However, there are too many restrictions on Qin Chen here, which has caused Qin Chen's perception to weaken a lot.

And this continent is so vast, so when to find it?

"Master, my subordinates have heard from Moli that you once practiced a special technique when you got the inheritance of Ancient Southern Capital?" The master skeleton rudder suddenly said: "You can try to run that technique, the limitations here, it should weaken a lot."

"The method of ancient southern capital?"

Qin Chen remembered that when he was in the ancient southern capital, he did go through three more rounds of assessments after he got the spiritual seed.

The first round is to master the basic secret patterns.

The second round is to feel the weird true power.

The third round is to practice a weird exercise.

This exercise is indeed very weird, not even weaker than the heavenly exercise.

Qin Chen hadn't practiced for a long time just because the weird true power cultivated by this technique could nourish the parasitic seeds.

Hearing this from the Skeleton Rudder Master, he couldn't help but move.

Hum!

With this movement, Qin Chen felt an inexplicable relief, as if a huge rock was pressed on his body and was suddenly loosened.

In addition, Qin Chen's perception has also been amazingly improved, and the range of perception has suddenly increased several times.

this is.....

Qin Chen was surprised, how could this be? The skeleton rudder master said in a deep voice: "I have heard Moli talk about the ancient Nandu ruins. The exercises passed down from the ancient Nandu are very special. Transformation, so that the human race can also practice, its

The power of the exercise is even more terrifying than the strongest exercises practiced by the subordinates. It should be some kind of heaven-defying technique. "

"Since this place is related to my alien demon race, it will suppress the cultivation methods of the human race, so master, you only need to run my alien demons' cultivation method, and you will naturally restore a lot of strength."

That's it.

Qin Chen nodded.

"Then this ancient Nandu, do you know what's going on?" He asked again.

The parasitic seed that Gu Nandu planted has always been a haze in his mind. When thinking of the ancient Nandu assessment at the time, the black phantom informed them that only by combining the

spiritual seed can the ancient Nandu treasure be finally opened, and Qin Chen couldn't help but be angry. .

What fusion of spiritual seeds, the so-called fusion, is nothing more than to mean that they are enslaved by spiritual seeds and become running dogs of alien demons.

It can be seen that this ancient southern capital must be a trap set by the alien demons.

But, what is the purpose of this trap set up by Gunan?

It is important to know that from the **** cat, the parasitic seed is a treasure that can only be born from the Chaos Demon Nest, the supreme treasure of the alien demon race, and a golden parasitic seed can only be born in 10,000 years.

Since Gu Nan had planted that spiritual seed on himself, it should not only be to enslave himself, but also have another purpose.

"This subordinate doesn't know anymore. When the subordinate was sleeping, he hadn't heard of any ancient Nandu at all." Who knows that Skeleton Rudder shook his head again and didn't know.

[Chapter 1456: Don't give face](#)

Qin Chen was helpless, but didn't think too much, and the most important thing for him now was to find You Qianxue first.

But this void continent is too vast, where can I find You Qianxue?

"Try using the Universe fortune jade disc." Qin Chen took out the Universe fortune jade disk, thinking that the Universe fortune jade disk was useless in this mysterious continent, but when Qin Chen filled the power of space into it, he was surprised to find The jade disc of good fortune in the universe can also release an amazing breath here

.

Hum!

Scenes within a radius of a hundred miles suddenly came into his mind. Although it was only a scene of hundreds of miles, it could not be better for Qin Chen.

With a look of surprise on his face, he urged the universe to make a jade disc and began to search in this emptied continent.

Although Qiankun's good fortune jade disc helped, the continent was too vast. After searching for a long time, Qin Chen couldn't find the trace of You Qianxue. Instead, he found a lot of elixir.

The elixir in the Void Continent contained a trace of special magic energy, and many Qin Chen didn't even recognize it.

Qin Chen thought that these elixirs were useless to him, but after picking them, he discovered that the structure of the elixir in this Alien Demon Continent was very similar to the structure of the elixir in the Tianwu Continent, except that there were a few more unique ones in the Alien Demon Continent. It's just a magical breath.

Not to mention that Qin Chen's thunderous bloodline can purify this demon energy, even an ordinary pharmacist can remove the demon energy from it and refine it into a pill.

Therefore, the elixir here is equally effective for the warriors of the Tianwu Continent.

And because no one has entered in this continent for more than a few years, the number of elixir in it is extremely large, some of which are even the elixir of the Eighth Emperor.

In only half a day, Qin Chen had found more than a dozen eight-level emperor medicines with at least two to three thousand years of efficacy.

But Qin Chen didn't have many surprises in his heart, but rather anxious.

Because in addition to these elixir, he also saw a lot of insects and beasts, relying on the universe to make jade discs, and carefully avoided the past.

It can be seen that the insects and beasts here are very scary.

If Qianxue met her, she would definitely fall into a dangerous situation. The only fortunate thing is that You Qianxue also got the inheritance of the ancient southern capital at the beginning, and possessed the silver spiritual seed. Here, it will be lighter to be suppressed, and I don't know if Qianxue broke into the third floor of the ancient southern capital and practiced the mystery. Work

law.

If you cultivate it, it should be better.

"Master, you don't have to worry too much. With the strength of the mistress, there should be no danger. After all, this place is still in the periphery, and the strength of the insects and beasts that appear is not strong." Skull Rudder said.

"Mistress!" Qin Chen sweated coldly, "Who said she is the mistress."

"Hey, master, don't hide it, I Yong Ye, I'm also very knowledgeable, and that, he is also a love saint in the Continent of Other Demons. If you think about it, your subordinates don't understand?"

The Skeleton Rudder master smiled: "Let me say, Master, you are passive. In love, you like to accept passively. Well, in addition to the mistress, the little girl from the Magic Sect is also okay, with unlimited charm. More importantly, be proactive."

The Skeleton Rudder chuckled.

"You can cultivate for me obediently." Qin Chen cursed angrily with a black line on his face.

I thought that the Skeleton Rudder Master would be very familiar with this place, who knows, he was blinded here too, and couldn't find a way out.

It's useless at all.

"I heard the **** cat say that here, there is an opportunity to become an emperor. It should not only be the Rainbow Bridge, there is definitely something else in the depths of this continent."

"Furthermore, the man in black and the man in the Misty Palace have never met, and they should have entered the depths of the mainland early."

While searching, Qin Chen went inside. On the way, he had also sensed that some other powers were fighting and fighting with each other, but Qin Chen ignored them.

Another half day passed.

A strong medicine aura suddenly appeared in front of Qin Chen's eyes, which turned out to be a seventh-tier spiritual medicine garden, and all that caught his eye were seventh-tier spiritual medicines, and they were also king-level spiritual medicines of sufficient age and extremely high quality.

At this moment, Qin Chen didn't think of anything else. He didn't collect these king-level elixir at all. He moved all this place directly and threw it into the storage ring.

The more Qin Chen went in, the more pleasantly surprised he was in his heart. The elixir in this continent was simply too exaggerated. In addition to the seventh-order elixir, there were also many eighth-order imperial elixir. Unfortunately, No nine-tier emperor-level elixir appeared.

Qin Chen began to quickly collect these elixir.

After half a day, Qin Chen's storage ring had thousands of seventh-order elixir and hundreds of eighth-order elixir, and this medicine garden had already been collected by Qin Chen.

"Hey, there seems to be a medicine garden here just now, but it has been collected now."

There was a surprise sound from behind, whoosh, and the two figures instantly fell beside Qin Chen.

Both of these two were at the peak of the early stage of the eighth stage, and they were obviously Tianjiao who had just broken through after entering the ancient Yu realm to practice.

At this moment, the two of them were carrying blood. They should have experienced battle before, so they looked a bit miserable.

"Look, it's Qin Chen!"

After the two saw Qin Chen, their eyes brightened, and they fell directly beside Qin Chen.

Upon seeing this, Qin Chen frowned slightly. He didn't want to make contact with the other party. He shook his figure and prepared to leave here.

"Haha, wait a minute."

"Stay."

The two yelled, swished, and immediately stopped Qin Chen, one after another, falling beside Qin Chen.

"Two people, is there anything wrong?" Qin Chen frowned.

"Hehe, it's nothing, but I waited to see a medicine garden here, but found that the elixir was missing here, it should have been taken away by you? The so-called seer has a share, you alone swallow so many elixir. ,Not so good?"

The two of them surrounded Qin Chen one after another, looked at each other, and said with a smile.

"There are indeed some elixir here just now, but I have collected these elixir, and the two of them are late. If there is nothing wrong, please let me go. I have something else." Qin Chen was not angry. Said lightly.

"I'm late?" When the two saw Qin Chen saying this, their faces suddenly became gloomy, "How do I feel that we are just right here? Qin Chen, we also respect you as one person, three of us, one person One serving, as long as you hand in the elixir from this elixir garden

Two-thirds out, give one of us a share, and we will make your friend...otherwise..."

"Otherwise what?"

"Otherwise, just stop blaming us for not giving face. Not only will we take away two-thirds of ours, but also the other things in your storage ring."

The two said with a grinning smile, a trace of killing intent flashed in their eyes. Qin Chen has not been able to find You Qianxue. He was holding back the fire, and now he sneered: "If this is the case, you two should not give Qin some face."

[Chapter 1457: Master, don't do it](#)

"You..." The two were furious.

"court death!"

Angrily screamed, the two of them suddenly burst into horrible killing intent, and rumbling, they shot at the same time, one after the other, it was clear that they wanted to kill Qin Chen on the spot.

What only needs to be given to two-thirds is simply to talk casually. The two of them had the meaning of killing Qin Chen long ago, and they had been looking for opportunities.

"Smelly boy, really naive, just a pariah from the lower four domains, where is the courage to disobey the emperor and die for me!"

A young man in front yelled coldly, with a long sword in his hand with a dazzling rainbow, piercing Qin Chen's eyebrows directly, with harsh methods and no mercy.

"Extreme Path Killing Sword!"

Qin Chen was too lazy to talk nonsense, looked cold, raised his hand, and cut out the Jidao Killing Sword at will.

Boom!

The world seemed to be shrouded by a monstrous killing intent, and the dense sword aura with a terrifying thunderous meaning collided with the Jinghong split by the youth.

With only a click, the sword rainbow displayed by the youth shattered, and the sword aura displayed by Qin Chen had completely wrapped the opponent.

With a scream of "Ah!", the youth didn't even have time to realize what was going on. Numerous sword intent with killing intent passed through his body, bringing up a lot of blood.

Puff puff!

The blood mist filled, and the person burst into pieces in an instant, disappearing in smoke.

"Wang Chong!"

Behind Qin Chen, another person was holding a saber, watching this scene in amazement, and he roared, his body trembling.

His cultivation base is only a little stronger than Qin Chen, and Qin Chen is also a genius who has just broken through the Martial Emperor of Pill Pavilion. Even if he is also a Tianjiao, everyone's strength should be among the first ones.

But Qin Chen killed Wang Chong, who was almost the same as him, with a single sword. How could this not shock him?

Roar!

He roared, his eyes widened, and a phantom figure appeared on his head. In an instant, his aura rose greatly. From the battle sword in his hand, a sharp beam of sword surged to the back of Qin Chen.

He knew that even if he wanted to stop now, it would be impossible for Qin Chen to let him go. The only chance was that he seized Qin Chen's opportunity to kill Wang Chong and severely wounded Qin Chen. Maybe there is still a ray of life. .

Boom!

The sword light pierced the sky, fell instantly, and slammed on Qin Chen's body, making an astonishing roar.

"Success!"

He was overjoyed.

No matter how strong Qin Chen was, he would be severely injured by his own stab, and his combat strength would be greatly reduced.

But the feedback from the battle sword changed his expression greatly. Boom, the battle sword fell, and Qin Chen was clearly hit, but there was a feeling of emptiness, as if it was empty.

Puff!

The figure of Qin Chen in front of him burst into pieces in an instant, but no blood spilled.

"No, it's an afterimage!"

He was shocked, and before he had time to react, he heard a cold voice that sounded after him.

"I'm here!"

This voice, like a ghost, with a coldness, made him stiff like an ice cellar.

"dead!"

He roared, turning around with a backhand, slashing to the place where the sound came from.

"too slow."

A soft sigh sounded, followed by a dazzling sword light.

Puff!

The sword light passed by, and the young man's head stared with fright and furious eyes, slamming into the sky, blood spurting out several feet away.

In the next moment, with a boom, the sword energy surged, and the young man's body and head burst into pieces and turned into nothingness.

Whizzing!

The two storage rings suddenly fell into Qin Chen's hands.

"Just these two people, dare to rob yourself!"

Qin Chen snorted coldly, put the two storage rings away, just about to set off, and continued to search for You Qianxue's traces, suddenly felt that there seemed to be a change in his storage ring.

Almost at the same time, Qin Chen saw that the original thousands of seventh-order elixir and hundreds of eighth-order elixir in his storage ring had almost been ruined.

Originally nourished by thunder tribulation, a large number of gas-eater ants and fire-refining worms that had been sleeping in the spirit worm gourd had woken up at some point, lying on the many spirit medicines in the storage ring, and devouring them frantically.

Qin Chen was furious, and he didn't give any orders at all. How did these gas-eater ants and fire-refining insects escape from the gourd? And still devouring his elixir frantically.

Fortunately, he discovered it early. If he discovered it later, wouldn't the elixir in his storage ring be gnawed away by these worms?

"Give me all out!"

At this time, Qin Chen couldn't care about other things, and the spiritual power spread directly into the storage ring, driving all these spirit insects out.

"boom....."

Qin Chen's space barrier and sword domain spread out instantly, wrapping these spirit worms inside.

After these spirit worms were awakened, their body size has actually grown a lot. Among them, there is a gas-eater ant and fire-refining worm, which are clearly twice as large as the other spirit worms.

"Little dust, don't do it, we are just hungry."

What made Qin Chen even more shocked was that the two distinctly large one-size spirit worms actually uttered human words. Fortunately, Qin Chen heard what he said and immediately stopped the sword

realm aura released. These two spirit worms flew in front of Qin Chen. Their originally black and fiery red bodies were not only filled with golden patterns, but also with the breath of heavenly thunder, and the original gas-eater ants and fire-refining insects. Totally different, already

I don't know what species it mutated into.

With four small eyes, they all looked at Qin Chen pitifully.

Squeak!

The remaining gas-eater ants and fire-refining worms surrounded the two spirit worms and screamed as if they were expressing something.

This.....

Qin Chen was shocked, these strange spirit worms actually evolved spiritual wisdom.

If these strange spirit worms are spirit pets or blood beasts, Qin Chen would not be so shocked, because similar to blood beasts, once they reach the king level, they can possess wisdom that is not weaker than that of humans, and some blood beasts can even change their human form. .

But strange spirit worms are extremely low-intellectual creatures. Under normal circumstances, even if they evolve, it is difficult to evolve wisdom, but the scene before them has completely subverted Qin Chen's understanding.

What the **** are these strange spirit insects obtained from black slaves?

"Wow!"

The Skeleton Rudder Master also came out of the Demon Cauldron, looking at these spirit pets in amazement.

"Hey, Master, these spirit worms seem to have the breath of the worms and beasts of my otherworldly continent." Skeleton Rudder said with a frown.

"Insect beast?"

Qin Chen thought of the centipede corpse worms before, and at the same time thought of the origin of these strange spirit worms.

These spirit insects were obtained by black slaves from a forbidden area in the Black Death Swamp, and they were sealed in this gourd. At the same time, they were sealed in that place, as well as Qinglian Demon Fire.

Qin Chen was shocked.

He also went to that place later. He remembered that the ban on the Qinglian Demon Fire was sealed using the secret pattern banning technique of the ancient southern capital. Could it be that these strange spirit insects were left behind by the people of the alien demons? In other words, these strange spirit insects are actually insects left behind by the alien demon race?

[Chapter 1458: Little ants and little fire](#)

"What the **** is going on?" Qin Chen looked at the destroyed panacea, and almost released his sword energy.

"Little dust..."

"Stop, don't call it that disgusting."

Seeing the pleasing eyes of the two insects, Qin Chen yelled viciously. The two insects called him less dust, always feeling very awkward.

"Aren't the guys outside all calling you Chen Shao? And that beautiful fairy called you Chen Shao, why are they all OK, we can't?"

The eyes of the two insects were very innocent.

"Then we call your master, and this black bone also calls your master." said the gas-eater ant among them.

"No, how can I be called the master? Wouldn't it be indistinguishable from the black bones? I think it's better to be called the boss." The other fire worm said.

The Skeleton Rudder Master was full of black lines and black bones. Is this talking about him? Are these dead bugs tired of living?

"Okay, okay, whatever your name is, the master or the boss, let's talk about what the **** is going on." Qin Chen said. "Boss, after we were baptized by your thunder tribulation, we have undergone mutation, and we have become like this, and we have born spiritual wisdom. As for those elixir, after we wake up, we feel so hungry. There are some of these elixir Let us feel comfortable,

We couldn't help but eat a little bit. "

The two insects felt Qin Chen's anger, and said pitifully.

"a little bit!"

Qin Chen is about to scold his mother, is that a little bit? Almost all the elixir he had collected in this continent had been eaten up.

Then, he looked at the two insects and frowned. He knew that some blood beasts would mutate in the process of evolution, but never thought that these strange spirit worms would also mutate, and it was because of his thunder. Mutations.

"Then do you remember how you were in this gourd?" Qin Chen asked.

"I don't remember, we only remember the boss, you took us to fight, and sleep in the warm cyan flame, very comfortable." The two insects said in unison, as if they had rehearsed.

Qin Chen wanted to learn the origins of these two insects, but after asking a few questions, he knew it was a delusion.

In addition to the memory of these insects following their own, even the memory of following the black slaves are gone. The beginning of their memory is after he was bombarded by the sky when he broke through the seventh-order martial king.

"Then what is your strength now?" Qin Chen asked with a frown.

"Huh? We don't know either." The two insects shook their heads and said.

"Don't move."

Qin Chen urged the realm of swords, and suddenly a sword aura appeared in the world, slashing on the two seeds.

Qiang Qiang!

The sword light fell, and the two insects were unscathed.

"what!"

Qin Chen was shocked, and then increased the power of the sword light, puff puff, these gas-eating ants and fire worms actually did nothing.

"How do you feel?" Qin Chen asked.

"Feeling? How does it feel?"

The two insects said in a puzzled manner, and the four small eyes were grunting, very funny, silly and cute.

Qin Chen sweated on his forehead and said, "I mean, how does it feel when these sword qi fall on you?"

"Oh, boss, you mean this!"

Only then did the two bugs react, "It's very comfortable, boss, are you tickling us?"

puff!

Qin Chen almost vomited blood, and was shocked. The realm of his sword could even directly kill the general eighth-stage peak martial emperor at the beginning, but to these strange spirit worms, it was just tickling. What defense was this?

Skeleton rudder's eyes are also round, these two little things, so awesome, aren't they bragging?

"You are careful."

Cang!

Qin Chen drew out the mysterious rust sword, and then slashed it with one sword.

when!

Qin Chen didn't use any force at the beginning, but when he hit the two spirit worms, he hit two pieces of star iron, which was incredibly hard.

"How do you feel?" Qin Chen asked.

"A bit shaken."

"It's so crispy."

Two insects said one after another.

Qin Chen was speechless, and then he increased his power.

Until they tried their best, the two insects said, "Boss, it hurts."

Qin Chen took a breath of cold air. The sword just now, even the previous Hundred-legged corpse, was enough to split the carapace and severely wounded, but these two gas-eating ants and fire-refining insects were only a little painful, and the defense was too abnormal. Got it.

"Is it so exaggerated?"

Skeleton Rudder didn't believe him, and he patted over.

Boom!

The two insects were immediately wrapped in his pitch-black palms, and captured them in his palms.

But the next moment, Skeleton Rudder's face changed.

puff!

His palm shook, these two insects actually penetrated from the back of his hand, and two large holes appeared directly.

"Black Bones, don't think about bullying us, we are not afraid of you."

The two insects cried out immediately.

Buzzing...

The rest of the gas-eater ants and fire-refining insects also began to restless.

"Stop it, I just made a joke with you!"

The Skeleton Rudder master yelled in a hurry, with a look of palpitations, and at the same time he cursed in his heart, damn, Qin Chendong, you all enjoy it very much, I will only take this treatment, the difference is too big.

After experimenting with the power of these two strange spirit worms, Qin Chen couldn't help but be delighted. He didn't expect these strange spirit worms to increase their strength so much after waking up.

"How about the remaining strength?" Qin Chen asked.

"Slightly worse than the two of us."

"Because we are their boss."

Two insects said one after another. After the air-eater ants said this, afraid that Qin Chen would be angry, he hurriedly said: "Of course, you are our boss, we all listen to you."

"Yes, although they can't speak, they can also feel the message the boss sends you."

"In that case, in the future, I will call you Xiaoyi and Xiaohuo. Did you hear that?" Qin Chen named the two insects.

"Wow, I have a name, my name is Xiaoyi."

"Hey, my name is Xiaohuo, it sounds good."

The two insects immediately danced with excitement.

"Well, okay, now you go in, and remember, you are not allowed to use other elixir, except for the elixir that you have eaten, otherwise you will not blame me." Qin Chen said that he would remove these. The spirit worm was taken back.

"Boss, don't do it." The gas-eater ant called out immediately.

"Xiao Huo likes the outside, and the air Xiao Huo likes it." Huo Lian Chong said.

Qin Chen frowned. Although he suspected that these spirit worms liked the demon aura here, he couldn't run around with this group of spirit worms, right?

"Boss, aren't you looking for your sister-in-law? Xiaoyi and Xiaohuo can find it for you." Gaschewing Ant suddenly cried.

Qin Chen was surprised: "Can you still find someone?"

Huo Lian Chong suddenly said: "Yes, we can smell the breath far away, we will definitely be able to find the sister-in-law."

"Well, you can find someone for me right away, remember, don't cause trouble, and don't be discovered."

"Boss, you can rest assured."

The two spirit worms got the order, and they were more excited than ever.

"Little ones, let's go."

Buzzing buzzing...In an instant, countless gas-eater ants and fire-refining worms burst into all directions like celestial flowers, and instantly disappeared from Qin Chen's sight, extremely active.

[Chapter 1459: shameless](#)

Qin Chen breathed a sigh of relief immediately after Xiao Yi and Xiao Huo brought so many gas-eater ants and fire-refining insects to look for.

With these guys, it is equivalent to thousands of helpers. Finding someone here will definitely become much easier.

By the way, what about the spirit seeker?

Qin Chen thought of the spirit-seeking insect again. He remembered that the strange spirit insect in the gourd had a spirit-seeking insect besides the gas-eater ant and the fire-refining insect.

Spirit-seeking worms are a kind of strange spirit worms that are more special than gas-eater ants and fire-refining worms. They act alone. There are very few groups of spirit-seeking worms. Any spirit-seeking worm is extremely rare and rare. .

It's just that the Spirit Seeker is suitable for finding the spiritual objects and treasures between the heavens and the earth, and the combat power is not high, so Qin Chen has never released the Spirit Seeker when he resisted the thunder.

Therefore, the spirit seeker should not have undergone mutation. Thinking of this, Qin Chen immediately took out the black gourd and released the spirit-seeking worm. He saw this spirit-seeking worm. His body was not haunted by thunder and lightning like a small ant and a small fire, but there was a trace of entanglement throughout the body. Silk black silk thread, very

Weird.

And at this moment, the spirit seeker seems to be asleep, with its breathing, the black thread on its body flashes brightly and darkly, giving people a very evil aura.

"Hey, why does the breath of this insect give its subordinates the breath of a native insect beast on the alien continent?" Skeleton rudder master suddenly surprised.

This trace of black aura gradually changed after the Spirit Seeker had absorbed the strange power of this alien demon continent.

Not only the spirit-seeking worms, the previous gas-eater ants and fire-refining worms have obviously undergone some transformations, but because they have experienced thunder tribulation, they are not so obvious, and this spirit-seeking worm suddenly appeared very eye-catching.

Qin Chen thoughtfully.

There should be two possibilities in this matter. The first one, based on the origins of these strange spirit insects, these gas-eater ants, fire-refining insects, and spirit-seeking insects are themselves products of this alien magic continent. They were brought to the Tianwu continent by a strong man in the alien magic continent. And then placed in the Black Death Swamp

.

It was only later discovered by a black slave and then acquired by himself.

At the same time, there is a second possibility, that is, the strange aura of the Foreign Demon Continent is very suitable for the growth of strange spirit insects, which can be seen from so many insects and beasts here.

The gas-eater ants, fire-refining worms, and spirit-seeking worms are themselves strange spirit worms of the Tianwu Continent. After they came here, they were activated by the strange aura and mutated.

This is not impossible.

When Qin Chen and Skeleton Rudder were studying here.

Many air-eating ants and fire-refining insects have been scattered in all directions.

Xiaoyi and Xiaohuo are the fastest, and they are also at the forefront of the team, searching in two directions respectively.

"The boss finally released us. I have to work hard to find my sister-in-law, otherwise the boss won't let us out in the future."

The little ants bury their heads and fly by, feeling the breath everywhere.

"Hey, there seems to be a sister-in-law around here."

After the little ant flew out about two thousand miles, his nose moved suddenly, and it seemed to smell a familiar smell.

"In which direction?"

Just when it looked carefully.

suddenly--

Boom, the ground exploded, and a crocodile-like monster rushed out from the ground, opened the mouth of the blood basin, and instantly swallowed the gas-eater ants.

The crocodile monster swallowed the gas-depleting ant queen with a contented expression, shook her body, just about to go into the ground again, but suddenly, its expression changed drastically and it rolled on the ground in pain.

Bang bang bang!

It smashed its body into the ground in pain, and there was a black breath on its body, and this breath became weaker and weaker.

Bang!

In the end, it exploded, and a big hole appeared in the lower abdomen, and the gas-eater ants whizzed out from inside.

"Damn, dare to swallow your little ant boss, and don't look at your own strength, bah bah bah, it's dirty and disgusting."

The little ant looked at the crocodile under his eyes with disdain. The blood on the crocodile dissipated and became shriveled, while the breath on the little ant's body became richer, and the carapace became darker and shiny.

boom!

At this time it heard a faint roar from a distance.

"Sister-in-law's breath seems to be there."

The gas-eater ants whizzed and flew over.

What greeted it was a valley. In the valley, three martial emperors were surrounding a woman in white clothes. Two of them were fighting each other with women in white clothes, with wicked smiles on their faces.

"Hey hey, this beauty, you just have to have fun with the three of us, without losing anything, why not do it?"

"Quack, that's right, our two brothers are also considered arrogances of the world. Well, this elder of our ancient Fangjiao will surely become Emperor Wu in the future. It is an honor for you to serve me."

Rumble!

The two of them shot strongly, and the breath on their bodies was extremely terrifying. They were both the Martial Sovereign of the mid-tier eighth stage. The true essence was like a vast ocean, pouring out. You Qianxue was holding a sharp sword, surrounded by ice, and his face was blue, trying to resist. .

Behind the two, a middle-aged man with an eagle-eyed expression stood there, his face was cold and his aura was extremely terrifying, he was actually a Martial Emperor of the late eighth stage.

At this moment, he was looking at You Qianxue, with a feverish look in his eyes.

It was the first time that he saw such a perfect woman, like a fairy in the cloud, so that anyone who saw it could not help but feel the urge to take care of the other person.

"Girl, just follow us. This seat is not someone who doesn't know how to pity and cherish jade. As long as you follow this seat, you will have everything you need to be delicious and spicy in the future." The middle-aged eagle said, his eyes fiery.

You Qianxue's face was pale, and he snorted, and said coldly: "I advise you to let me go. I am a disciple of the Law Enforcement Hall. You dare to do something against me. Are you not afraid of the law enforcement hall sanctions?"

The eagle man's face was gloomy, and he smiled grimly: "The Hall of Law Enforcement, this place is so remote, the top powerhouses in the Hall of Law Enforcement should have gone to the depths, will they stay here?"

"Hey, what the elder said is that we will kill her at that time, who knows that we did it."

"Huh, those disciples of the Hall of Law Enforcement are defiant in every way, high above them, hehe, the emperor has played with many women, and it is the first time to play in the Hall of Law Enforcement. I don't know how it feels."

You Qianxue trembled with anger: "I don't know how to be ashamed!"

"Hehehe, it's this kind of angry look. The emperor likes it so much. Tsk tsk, I don't know how beautiful it will be when it is conquered by the emperor."

These people spoke foul language and kept provoking You Qianxue, obviously because they wanted her to be in a mess. It's okay for You Qianxue not to say that she belongs to the Hall of Law Enforcement. Once they say that they belong to the Hall of Law Enforcement, how can these three people let her leave?

[Chapter 1460: Elder Gu Ying](#)

"No, the sister-in-law is in danger, you have to notify the boss immediately."

Seeing this scene, Xiao Yi was shocked and hurriedly passed the information to his men.

Then, it came to the valley carefully, waiting anxiously.

"What should I do, do you want to kill it?" The little ant glanced at the middle-aged eagle bird who was standing by.

"No, this guy has a stronger aura, but he hasn't taken any action yet. In case I go up and provoke the other party to take action, I'm fine, but if my sister is in danger, it's not good. I'd better stay here and wait."

At this moment, in a mountain forest tens of miles away from here, a gas-eater ant was searching for something. Suddenly, it stopped and received a message from the little ant in its mind.

"No, my sister is in trouble."

Although it can't speak, it knows the meaning of the message. This is the message of promotion for help. It immediately shakes its wings and immediately begins to pass it down.

Buzzing...

I saw a bunch of information, quickly conveyed out among the many gas-eater ants, and transmitted to Qin Chen at an astonishing speed.

This is the advantage of letting gas-eater ants search. There are unique information transmission channels among the strange spirit worms that live in groups, which can perceive the situation of the same kind in the vicinity, so that the information can be transmitted in the first time.

Outside the mountain forest, after Qin Chen put away the spirit-seeking worm, he and the skeleton rudder master flew toward the depths of the mountain forest.

"Om!"

At this moment, a gas-eater ant suddenly flew over and came to Qin Chen, humming and shaking his body.

Did you find You Qianxue?

Qin Chen was overjoyed, but after seeing the anxious actions of the gas-eater ants, he was suddenly shocked.

Although these gas-eater ants can't speak, they are controlled by Qin Chen, and Qin Chen can naturally feel their emotions simply.

"Could it be that You Qianxue encountered any danger?"

His face changed drastically, and he said, "Immediately lead the way."

Whoosh whoosh!

The gas-eater ant took Qin Chen and the skeleton rudder forward quickly, and the three streamers swept across the forest at an alarming speed.

Along the way, no matter where they go, there will be new gas-eater ants to respond.

Qin Chen and Skull Rudder approached the valley at an astonishing speed.

Boom boom boom!

At this moment in the valley, You Qianxue was struggling to resist the two of them. She saw that her sword energy was all over her body, and she also faintly formed a sword domain, combined with her space enchantment, and tried her best to resist.

"Damn, why is this little girl so strong, but it's just the peak of the early stage of the eighth stage, and our two brothers haven't won it for so long."

As time passed, the two gradually became anxious.

I thought that You Qianxue's cultivation base was not high, and it was easy to take her down, no effort at all, but who knew that the other party was so difficult, facing their two mid-term peak Martial Emperors, they could still easily resist.

"Dong Xinghuo, Qiu Junmai, how did you two do it, you can't even get a woman?"

The middle-aged eagle said coldly.

"Elder Old Eagle, this guy is a little weird."

"Give me some more time and promise to take this person."

The two of them gritted their teeth and boomed, and their breath became even worse, and their blood was also released.

Bang bang bang!

You Qianxue kept backing away, but she clenched her teeth, her eyes were cold, and the long sword in her hand danced into a ball, with a thrilling light.

After experiencing the baptism in the Heavenly Sacred Pond, You Qianxue's ice and snow divine body awakened, and she had silver spiritual seeds in her mind, and the restrictions here were weaker than those of the two.

"Two rubbish, this little thing, I have to do it."

The middle-aged eagle hummed coldly, and finally couldn't help it.

It was really that the two of them took too long. After all, the other party was from the Hall of Law Enforcement. Once someone else broke in and leaked the news, even the ancient Fangjiao couldn't keep them.

If they knew the origin of You Qianxue for the first time, perhaps because of fear, they might not be able to do it.

But it was only after he started to learn about You Qianxue's origins, even if it was desperate, he would have to take You Qianxue, otherwise the three of them would never end well.

Boom!

The middle-aged eagle bird stretched out his hand, and a black palm instantly formed in the void, like a sky curtain, pressing down towards the quiet snow cover.

This palm is vast and majestic, like a huge five-fingered mountain, sweeping down, to suppress the quiet snow in it.

"Seven Killing Sword!"

Puff puff puff...

You Qianxue gritted his teeth and burst out astonishing Sword Art of Killing all over his body. Countless sword auras rose to the sky, and finally turned into a long sword that reached the sky, slashing on the black giant hand.

boom!

The sword aura collided with the palm of his hand, erupting an astonishing roar, and at the same time blocked the palm of the middle-aged eagle bird.

Ok?

The middle-aged eagle bird was taken aback, although this was just a casual look at him, but his cultivation level, the late eighth-stage martial emperor, actually couldn't take a small eighth-stage early peak martial emperor.

It's no wonder that Dong Xinghuo and Qiu Junmai have not been able to win that woman for a long time. They are somewhat capable.

But it was only somewhat capable. Because of resisting the attack of the middle-aged eagle bird, You Qianxue's attack on the other two immediately made a mistake. Puff, one of them slashed You Qianxue with a single knife, and immediately a mouthful of blood spurted out.

"Damn, be careful, don't kill this person, we haven't gotten off yet." Another Wu Huang called out anxiously, with a wicked tone, his tongue licking his lips.

"Don't resist. In front of this seat, no matter how hard you resist, it's useless. It's better to wait on this seat." The middle-aged eagle grinned, and the probing hand caught it again.

Boom!

You Qianxue was instantly wrapped in a black palm, unable to resist.

"Sister-in-law, don't worry, I'm here."

The little ant couldn't bear it anymore. At the critical moment, it stopped before the giant palm with a bang, and the giant palm slapped the little ant into the ground, but it shook its head and flew again in an instant. Up.

"what?"

The three middle-aged eagle birds looked at the small ants that suddenly appeared in surprise, with shocked faces.

You Qianxue was also stunned.

"Sister-in-law, don't worry, the boss will come right away, let the little ants come to protect you first."

The little ant flew in front of You Qianxue, looking like a loyal guardian.

The middle-aged eagle bird was shocked. Although he didn't know what a small ant was, what he was most afraid of at this time was an accident.

"Kill it."

The middle-aged eagle screamed, and a gong appeared in his hand. As soon as the gong appeared, it immediately turned into a yellow golden light and slashed towards the gas-eater ants.

when!

The gas-devouring ant was cut and flew upside down, fell heavily to the ground, dizzy.

"Wow, it hurts Little Ant."

The gas-eater ants whirled and flew again.

"What?" The middle-aged eagle bird was taken aback. He knew how powerful his gong was. Even if an eighth-tier mid-level peak martial emperor was cut, he would be severely injured if he did not die, but this weird spirit worm was a little bit worse. No injuries. "Huh, hold this person first." The middle-aged eagle bird had a cold look, and instantly gave up on the gas-chewing ants, and turned to attack You Qianxue, as long as you hold You Qianxue, everything else is easy to say.
