

## Valkyrie 1501

### [Chapter 1501: do not come](#)

The warm spring water surrounded him, making Qin Chen almost forget that he was here to cultivate, not to soak in the hot springs, but the next moment Qin Chen felt a sting.

The power of the space in the space pool began to crazily enter his body, especially when he penetrated the clothes, that power was increased tenfold, a hundredfold, and Qin Chen snorted directly, almost bleeding.

"Less dust!"

Several people in You Qianxue were taken aback, and saw Qin Chen's face turned pale, sweat was dripping from his forehead, and they all wanted to get down in a hurry.

"do not come!"

Qin Chen yelled anxiously. The penetrating power of this space pool was too terrifying. With the defenses of his space body and the six peaks of the Immortal Eucharist, they were almost seriously injured. If You Qianxue and the others rushed in, the consequences would be disastrous.

He closed his eyes and began to realize that this space pool was rising. In his understanding, although the space pool contained amazing space power, it was very pure, even if it had the power of destruction, it would not be impossible for him to bear it.

But Qin Chen was stunned by this perception, it turned out to be the reason why he was wearing clothes.

He suddenly smiled bitterly, and he was anxious for a while, and even forgot this.

The force of space is a very special force. Once there is interference from external forces, it will immediately become irritable and terrible, just like a space crack, which is the result of the force of space reaching a critical point.

Therefore, when a warrior enters the blood spirit pool, he must remove his clothes and be naked, so that he can safely absorb the power of the space in the space pool.

And he wore clothes directly into the space pool, which naturally caused a riot of the power of space. Just like in the blood soul pool, he must be naked to absorb the blood soul pool liquid, otherwise the body will be given by the blood soul pool. corrupt.

boom!

With a slight shock, all the clothes on his body were shattered, and the tingling sensation on his body was reduced a lot and became gentle.

Sure enough.

Qin Chen smiled bitterly! After those pin-like powers entered his body and meridians, he could clearly feel his body was changing, and there seemed to be some impurities in his body that were taken away

by those pool waters, and the power of ten spatial principles that were already very condensed.  
,actually

However, it is still faintly improving, becoming more condensed.

Qin Chen was overjoyed. Whether the power of Space Dao is strong or not represents a person's future achievements. Originally, his power of Space Dao is already terrifying, but if it is improved, he will reach a more terrifying state. .

Moreover, You Qianxue and the others can also be greatly improved.

"The three of you come down quickly." Qin Chen blurted out in surprise.

But as soon as the words fell, he suddenly froze. If he wanted to enter the space pool, he had to take off his clothes, but You Qianxue were all women, alone, this...

Seeing that Qin Chen was okay, the three of You Qianxue let out a sigh of relief, and at the same time they were about to walk into the spatial pool.

"Hold on." Qin Chen shouted hurriedly.

"What's wrong with Young Chen?" You Qianxue asked suspiciously, and Ji Ruyue and Chen Sisi also looked at Qin Chen suspiciously.

"This...to enter the space pool, you must take off your clothes and enter naked, otherwise, the power of the space will be blocked by the clothes and riots will occur, and you will be torn apart by the power of this space in an instant." Qin Chen was a little embarrassed. Said.

Take off your clothes and be naked?

The faces of the three of You Qianxue blushed instantly. Three women and a big man were cultivating naked in this spatial pool. This...

Just thinking about it made the three of them feel awkward, and they almost couldn't stand up.

"Did you mean it?" Ji Ruyue exhaled.

"goat!"

Chen Sisi also took a sip.

What's wrong with me, Qin Chen was speechless, he kindly reminded him that he was regarded as a hooligan, which was too wrong.

However, Qin Chen also knew that it was indeed embarrassing to let the girl take off his clothes and soak in the water with another naked man, so he said: "I will go inside, with my back facing you, you will take off your clothes and put it in the water, and then notify I."

Said that Qin Chen calmly paid attention to the three of them, and calmly walked to the depths of the pool, turned his back to the crowd, and felt the changes in his body little by little.

"Qianxue, what shall we do?" Ji Ruyue's cheeks were red, and her expression was a bit tangled. Although Qin Chen was facing them with her back, and in the depths of the pool, it was still covered by mist, but

the pool was not big after all, just thinking of herself It's a bit difficult to take off your clothes next to a man

accept. "What do you do?" You Qianxue looked at Ji Ruyue suspiciously, and said in a deep voice: "This weird continent is full of dangers. If it weren't for Xiao Chen, we would all die here. Here, strength is the only one. , I have been hating,

I hate that I don't have enough strength to share the burden for Chen Shao. Now that I have such an opportunity to improve my cultivation, I naturally have to grasp it. "You Qianxue said as she took off her clothes, her white ankles walked into the water a little bit, and then her thighs and slender waists were plump as jade, until she immersed her white neck in the water. , You Qianxue is loose

Tone.

Ji Ruyue and Chen Sisi saw that although You Qianxue spoke righteously, when she undressed, her cheeks were red, her cheeks were twisted, and even a belt was untied for a long time, obviously not as calm as she said on the surface.

Just stand quietly in the pool.

You Qianxue thought that when he was in the blood spirit pool, Qin Chen rushed into the blood spirit pool on the side of the female disciple of the Five Kingdoms. At the beginning, the other party was the same as now, and almost looked at her. Now, chasing and killing Qin Chen all the way.

Now think about it, my heart is shy and happy.

If you went back to that time, You Qianxue would never believe that Qin Chen, who used to be a disciple in her mind, would eventually become her favorite person.

"Sisi, what shall we do?" Ji Ruyue originally had some opinions on Chen Sisi, the saint of the Illusory Demon Sect, and some even looked down on these so-called witches, but now, the two of them have the same illness. "Sister Qianxue is right. If it weren't for Qin Chen, we would all be dead, and I don't even know how miserable we would end up. For me, Elder Phantom died, and everyone else died, although Feng Yulei is dead now. , But this hate me

I will never forget, I must kill all the warriors of the Xuanyuan Empire in the ancient Yu world, and avenge the elders of the Phantom. "

Chen Sisi gritted her teeth, her eyes full of hatred.

She gently took off the light gauze on her body, and the light gauze fell down to outline a graceful figure. The convex place was convex, the concave place was concave, and the skin was white as jade, giving people endless temptation.

She stepped into the space pool little by little, with an enchanting posture, not deliberately pretentious, but born like this. "Hmph, I don't believe it anymore, then Qin Chen is also wearing clothes, so why do we have to take it off?" Ji Ruyue snorted and jumped straight into the space pool.

[Chapter 1502: Mid-sprint](#)

You Qianxue and Chen Sisi were suddenly shocked, Ji Ruyue jumped in without taking off his clothes. This is too bold! "Look, even if you come in with clothes, it's okay." Ji Ruyue was a little nervous at first, but after she came in, she found that her body was no different, she suddenly smiled, but the voice just fell, her body seemed to be covered by countless steels. Needle penetrated

Generally, a sharp pain passed.

In horror, Ji Ruyue immediately activated the Moonlight Divine Body, but a mouthful of blood spurted out, her face pale, and her expression extremely painful.

"Qin Chen!"

"Less dust!"

You Qianxue and Chen Sisi suddenly exclaimed, they both looked panicked and didn't know what to do.

Qin Chen felt the strangeness behind him, and turned around hurriedly. After seeing Ji Ruyue jump down wearing clothes, he was speechless.

He shook his figure and swiftly swept through the space pool. He came to Ji Ruyue's side quickly, picked her up, and at the same time the invisible true essence diffused out, shattering her clothes instantly with a pop .

The skin that could be broken by the blow was so smooth and tender, but Qin Chen didn't have any reverie. He quickly sensed Ji Ruyue's body and couldn't help but breathe a sigh of relief.

It's also because Ji Ruyue urged the Moonlight Divine Body in the first place. Although her body was injured, she saved her life. Otherwise, she would have been strangled to pieces by the terrifying spatial force in the spatial pool.

Qin Chen urged Zhen Yuan to dredge Ji Ruyue's injured meridians a little bit. After a while, Ji Ruyue, who passed out of a coma from the severe pain, woke up and turned around.

"This is..."

She felt as if her body was tightly wrapped by a powerful male, their bodies pressed together, their warm skins pressed against each other, and when she turned her head, she found that Qin Chen was actually holding her.

"What do you want to do?" Ji Ruyue was so scared that his soul was about to fly, and at the same time said in horror: "Where are my clothes?"

The two of them didn't wear any clothes at all, just so close together, Ji Ruyue was so ashamed that she subconsciously slapped Qin Chen with a palm.

When she moved like this, there were more parts in contact between the two of them. Originally, Qin Chen deliberately separated some distance, and at this moment, he immediately pressed closer.

The two of them were struck by lightning, and there seemed to be a surge of electricity throughout their bodies.

"You rascal, I want to kill you." Ji Ruyue was so embarrassed, tears flowed down, and she struggling to take a picture with a palm.

"What are you doing?" Qin Chen was annoyed, and grabbed Ji Ruyue's wrist. Ji Ruyue staggered, and fell on Qin Chen's body tightly.

Ji Ruyue was shocked, hurried back, and almost fell into the space pool. Fortunately, You Qianxue and Chen Sisi hurried over and helped her up.

"Ru Yue, Shao Chen was saving you before." You Qianxue smiled bitterly. "Who wants him to save!" Ji Ruyue's eyes were teary. From childhood to adulthood, no one had dared to touch her hair, and even his hand was never held by another man, but Qin Chen not only grabbed her hand before. , There is such a close contact between the two

, Immediately became ashamed and furious.

"This woman is simply unreasonable. What's more, I haven't seen it before. Why should I be so excited!" Qin Chen shook his head and was too lazy to pay attention to the three of them. He turned to the depths of the space pool and said: "I have practiced, you should practice too. Don't waste time."

Haven't you seen it before?

You Qianxue and Chen Sisi looked at Ji Ruyue suspiciously. What do they mean?

Ji Ruyue's face was even redder, and she also thought of Qin Chen as a simulation body when she inherited the Demon Sword. The two sides fought, and the clothes on her body were tattered, and she was even more shy in the scene where her clothes were worn out a lot.

"something wrong!"

A woman's intuition is undoubtedly powerful, and Ji Ruyue's expression makes You Qianxue and Chen Sisi even more convinced that there is definitely something between them.

Do Qin Chen and Ruyue still have a leg?

You Qianxue's eyes flickered, and she sighed: "Ru Yue, if you like Shao Chen too, I don't mind introducing Shao Chen to you."

"Introduce you to a big-headed ghost, I would like him? A joke!" Ji Ruyue gritted her teeth and snorted, but she also knew that Qin Chen had been doing it for her good.

But soon, the three of them were attracted by the power in the space pool. With the power of Sisi space entering the body, the three of them clearly felt the body is changing. The power of the ten realms in the space that had been condensed to the extreme in the body has been rapidly increased. The power of the space is based on the original foundation. , More condensed

. The improvement in just a moment is more amazing than they would take one day in the outside world, and what makes them more excited is that the power of this spatial pool can not only accelerate the condensing speed of the power of the spatial Tao, but also improve the previous Already condensed

The space is the power of Tao.

Under the surprise, the three of them all settled down and began to practice. They soon forgot the terrible nature of this spatial pool and fell into painful cultivation.

The entire space pool finally calmed down slowly.

one day!

Three days!

Five days! After half a month, the power of the spatial Dao in You Qianxue's body was more than double that of the original. The power of the space in the body and the true essence were particularly condensed, and the power of the ten spatial Dao was almost it's up to the extreme, no matter how condensed it is

Can't go further.

The three of them have a faint feeling that if they are allowed to encounter wind, rain and thunder now, if there is no interference from external forces, any of the three of them can suppress wind, rain and thunder by themselves.

Strong, too strong!

The three of them thought that the power of the Dao of Space only needed to be condensed, but they never thought that they could improve again and reach such an astonishing level.

Although the power of the spatial Dao in the three people is still only the ten at the initial peak, it is several times stronger than the original ten, and it is not at the same level.

It's no wonder that the same martial emperor has so much difference in combat power. Not to mention the difference in the true essence bloodline of the martial arts and martial arts, the difference in space strength alone can be so big, it is amazing.

After condensing the power of ten spatial principles, the three of them simultaneously began to sprint into the mid-level realm.

At this moment, the power of the ten spatial principles in Qin Chen's body has also been condensed to the extreme, and it has also been nearly doubled on the original basis.

"Why don't I feel the slightest breakthrough?"

But unlike the three You Qianxue, after condensing the power of the ten spatial principles to the extreme, Qin Chen didn't have the slightest feeling of breaking through to the mid-term.

Moreover, he has a feeling that he can continue to condense the power of the spatial principles.

how can that be?

In the early days, there were only ten powers in the space and power that the peak Martial Emperor could possess. This was an axiom on the mainland, and Qin Chen couldn't be more aware of it, and it would never be wrong.

But he can still continue to condense, hell?

Is it the Nine Star God Emperor Jue? A thought rose in Qin Chen's mind.

### [Chapter 1503: Ambition](#)

He analyzed it carefully, and after a long time, he was stunned to discover that it was actually because of the Nine Star God Emperor Jue.

"When a martial artist cultivates, he can condense ten meridians in his body, which is the limit, but my nine-star divine emperor art has condensed twelve, reaching the highest number." The power of Dao is because every main meridian must be integrated into the power of one spatial Dao, and my main meridian is twelve, that is to say, I have to condense two spatial Dao.

Power? "

Qin Chen frowned.

This is not impossible.

He urged the eleventh meridian to try to condense the power of the new spatial Dao, but he didn't move at all and couldn't condense at all.

Could it be that I made a mistake?

No, it shouldn't be a mistake, because when he tried to condense the power of the new spatial principles, the eleventh meridian had a faint urge to try.

The method should be wrong.

That's right, if you want to condense the power of the eleventh space principle, you can't do it simply by condensing it. This is tantamount to violating the laws followed by other warriors, and there must be special methods.

Under normal circumstances, the power of each space principle represents the martial artist's understanding of the profound meaning of this part of the space. In terms of the profound understanding, Qin Chen feels that he has far surpassed the ordinary martial emperor. After all, in his previous life, he was in the late eighth stage. Peak Wuhuang.

What's wrong with that? Qin Chen tried many times, but he couldn't find the reason. He subconsciously urged the jade disc of good fortune from the universe, but when he just urged the jade disc of good fortune from the universe, the power of the space on his body suddenly became agitated. , The power of countless space

He quickly lingered around him and began to enter his body.

The power of the eleventh space principle has actually begun to slowly form.

This.....

Qin Chen was shocked. He didn't expect the Universe Good Fortune Jade Disc to have such an effect, but at the same time he wondered why he didn't react at all when he urged the Universe Good Fortune Jade Disc before.

Is it because the power of the spatial Dao in his body was not condensed to the extreme before? Or is it because of entering the spatial pool?

Putting down his thoughts, Qin Chen didn't think about it anymore, but devoted himself to the absorption of the power of the Dao Ze in the space.

"Chichichichi..."

A trace of the power of the invisible space principle was slowly condensed in his body, and I don't know how long it took, and with a click, Qin Chen finally condensed the power of the eleventh space principle in his body.

It was really successful? Qin Chen looked shocked. In the early days, Emperor Wu was able to condense the power of ten spatial principles. This has become the axiom of the mainland. Even in his previous life, he has seen countless geniuses and strong men, but he has never heard of it. The warrior can be in the early days of Emperor Wu

Time to condense the power of eleven spatial principles.

But today, he did it, unprecedented and unprecedented. And when the power of this space Dao Ze was successfully condensed, there was a bang, and the whole world seemed to faintly shake. Qin Chen felt that the power of the space Dao Ze in the body seemed to skyrocket. An indescribable feeling, like

It has been improved by leaps and bounds.

"This feeling of power seems to be more than the power of one spatial principle, but ten!"

Although the difference between eleven and ten is only one, it is a qualitative change. It is not one but ten that is promoted.

"Next, concise Article 12!"

Qin Chen continued to condense, but the power of the twelfth spatial principle was several times more difficult than the eleventh.

Qin Chen condensed a little bit, and finally spent several times the time, and also successfully condensed the power of the Twelfth Space Principle.

Boom!

When the power of the twelve spatial principles was formed, Qin Chen's body seemed to undergo some kind of transformation in an instant, the power of the space was radiant, and the whole figure seemed to have become transparent, almost integrated into this void. Among.

An inexplicable enlightenment rose up in his mind.

At this moment, an indescribable force was spreading in his body. He seemed to see the continent in the endless void, the vast martial arts triple heaven, the land of the five kingdoms, and the many warriors in this ancient Yu world.

Even seeing the depths of this mysterious continent, it seemed that there was a faintly suppressed aura of terror, and that aura was summoning himself inexplicably.

He also saw that near that breath, there seemed to be a series of figures, it was the many powerful men in this ancient Yu world.

But the only constant is his self, the space itself, standing in this rule.

He has an indescribable understanding, and he only feels that as long as he can overcome this barrier, he will gain the Dao, completely control the rules of this space, and become a part of the Dao of Heaven.

Hum!

Suddenly, a simple and simple scroll appeared in Qin Chen's mind, it was the mysterious ancient book.

The ancient book glowed, exuding terrifying power, and immediately awakened Qin Chen. At the same time, the original half of the font on the ancient book became clearer and clearer. Qin Chen stared carefully, and it seemed to be a "empty" character!

air? What is empty?

Does it mean space?

Qin Chen opened his eyes wide, trying to see the other fonts on the cover of the ancient book, but it was still blurry, and then the entire ancient book slowly disappeared and disappeared again.

But Qin Chen suddenly woke up.

He looked at his body, his skin and bones were all turned into symbols, and the whole person was nothing and transparent, blending into the pores, as if to be regularized.

"hiss!"

"I almost turned my way!" Qin Chen sucked in air, horrified. He couldn't help but feel horrified. The sense of supremacy in controlling space just now was actually the right space rules after condensing the power of twelve space principles. His test, if he fails to pass, it will be

Assimilation of rules.

This is just to say it nicely, assimilated with the rules, how could he affect the world with his current meager power, like dripping water falling into the sea, only to be absorbed.

Qin Chen couldn't help secretly calling out luck. If there were no mysterious ancient books, he would have been immersed in this space power, completely turned into a part of the space rules, and died.

so close!

But now, he has finally passed the test, not only has the power of twelve spatial principles condensed in his body, but the body of space has also been amazingly improved.

The original body of space was only in its infancy, but now it has entered the realm of Xiaocheng. Moreover, Qin Chen had a feeling that his power had been raised to the extreme. When the power of the twelve spatial tracts was condensed, the power in his body naturally transformed, and the impact went to the middle of the eighth stage, as if it were a natural fit. root

Qin Chen didn't need to control it by himself.

Rumble!

Suddenly, there was a roaring sound in the sky, and all kinds of terrifying power gathered in the sky and gathered into a terrible breath.

"Is it Thunder Tribulation?"

Qin Chen was shocked. Before, he only encountered the thunder robbery when he broke through the great realm. This time, if he broke through the mid-term martial emperor, he also suffered thunder robbery?

not good! He was suddenly shocked. His thunder tribulation was far more terrifying than the thunder tribulation of wind, rain and thunder. Once the thunder tribulation came down, the three people of You Qianxue in the spatial pool would inevitably be affected by the thunder tribulation. Ashes are gone.

#### [Chapter 1504: Gone](#)

With a bang, before he opened his mouth to remind, the power of the endless space diffused down, turned into a spiritual cloud of Taoism space, and swept down.

It turned out not to be a thunder robbery, but countless spatial spirit clouds.

As soon as these spiritual clouds fell, the entire space pool was wrapped in a rich spatial atmosphere, and the power of the space in Qin Chen's body seemed to be purified, rapidly increasing.

"this is....."

"what happened?"

"What a rich atmosphere of space."

You Qianxue and the others were at the critical moment of breakthrough, and they suddenly woke up and looked towards the sky in amazement. Seeing the infinite space spirit cloud descended and enveloped the space pool, You Qianxue and the three people suddenly felt that the power of the spatial Dao in the body, which had reached its limit, was once again improved, and at the same time, an inexplicable understanding, In the human mind

Rise up.

It seems that the power of their ten spatial principles is not the limit of the early Wuhuang, the real limit should be twelve.

The three were dumbfounded, how could this be possible? The power of the ten spatial principles is already at the limit, how could an early martial emperor condense the power of the twelve spatial principles?

But that kind of clear feeling made the three of them doubtful and tried to condense the strength of the eleventh spatial principle.

The result is naturally a failure.

The three of them didn't practice the Nine Star God Emperor Jue, and there were only ten main meridians in their bodies, so how could they successfully cultivate? Although the power of the eleventh space Dao has not been formed, during the condensing process, two space Dao power phantoms appeared in the three people. These two phantoms represent the eleventh and twelfth ones. The power of the principle of space, although not real

Body, but also contains a hint of space and power of space.

It was this trace of space profundity and space power that distinguished the three of them from other martial arts arrogances and entered a new realm of space.

Boom!

The trio's original cultivation base broke through in an instant, and the sea of Qi in the body suddenly expanded, and a powerful force echoed in the trio's body as the true essence was circulating.

Just like dominoes, once one person has a breakthrough, the cultivation of the other two will naturally be affected, and then they will break through. In an instant, all four of them break through the mid-term at the same time, forming a shocking scene.

Between heaven and earth, countless true qi gathered and crazily instilled into the four people.

Among them, the Zhen Qi vortex on Qin Chen's head was the largest, while the three of You Qianxue were similar, and the aura on their bodies increased at an astonishing speed.

In the end, when the infuriating vortex above the four of them disappeared, all four of them broke through to the middle stage of Emperor Wu.

The four of them looked at each other and smiled.

"I have some pills here."

"I have some top-grade real stones."

Ji Ruyue and Chen Sisi took out some pills and real stones.

The instillation of the true energy of heaven and earth in many cases just allows the martial artist's cultivation base to smoothly enter the next realm. If you want to completely transform the true essence of your body and reach the extreme, you need to consume a lot of treasures.

Their goal is not to break through to the mid-term to be satisfied. With such a good opportunity in the space pool, at least they have to cultivate to the mid-term peak. It's just that, in this space pool, the cohesion of the power of the space is good. There is a steady flow of space power, but the accumulation of true essence requires the consumption of real stones and medicine. Everyone comes to this ancient Yu world. , How could you bring so many real stones

?

"You all put away the real stone on your body."

Qin Chen smiled slightly and waved his hand, a small hill-like high-grade real stone veins suddenly appeared in the spatial pool, causing the pool to rise a lot.

This.....

Seeing such a large piece of real stone veins, Ji Ruyue and the others looked stupid, the small hill-like real stone veins, and all of them are high-grade real stones, this... Did Qin Chen sack a high-grade real stone vein?

In the space pool, the absorption of the power of space far exceeds that of the ancient Yu world, plus such a large piece of high-grade real stone, the mid-term peak is just around the corner.

Qin Chen was also delighted in his heart. What he lacks most is time. Now that he has the space pool and this real stone vein, his time from the mid-term breakthrough to the mid-term peak will be greatly saved. Only in this way can he have a chance to catch up with Shang Guan Xi'er and the others.

Think about it, practicing here is equivalent to a thousand times the speed of a warrior in the martial arts domain, which is too powerful.

He immediately sat cross-legged and began to practice.

After killing the ancient Fangjiao Guying elders, the Tianguizong skeleton ghost elders, the Xuanyuan imperial Mowu Emperor and Fengyulei, Qin Chen obtained a large amount of training resources, which were enough for Qin Chen to cultivate in the Wuhuang cultivation base.

Sure enough, the plunder came quickly.

If you are looking for or earning slowly, and want to get so many resources, you don't know you have to wait until the year of the monkey.

Regardless, practice first.

Qin Chen continued to practice retreat in the space pool.

one day!

Ten days!

A month!

Three months!

Half a year!

Qin Chen's cultivation base began to surge.

With the support of a large amount of resources, Qin Chen's true essence accumulation is like a volcanic eruption, and in the space pool, there is no problem with condensing his space power.

Even the peak martial emperor would be jealous, a fool can get these resources, and his cultivation base can skyrocket, let alone Qin Chen's four.

After nearly a year, Qin Chen's cultivation finally broke through to the mid-term peak. At the same time, the power of the spatial Dao in his body also condensed a full 36 points, only one step away from the late Emperor Wu.

The three of You Qianxue are naturally no exception, and all of them have reached the mid-term peak.

Qin Chen opened his eyes and found that the real stone veins in front of him had consumed a full half, which was clearly smaller, and only about half of the space pool water remained.

about there.

Qin Chen did not continue to practice, because he knew that even if there were no side effects, he had only broken through the mid-term Martial Emperor in less than a year. If he directly broke through the late stage, it would inevitably cause unstable foundation and affect the future.

Therefore, he collected the remaining real stone veins at will.

The huge real stone veins disappeared, and the pool water immediately dropped by a large amount, and then Qin Chen saw three naked beauties sitting in front of him, their skin was as white as jade, and they could be broken by a bomb.

"what!"

Ji Ruyue was the first to react and screamed, and then all three women were in a hurry, covering everything.

Because of the absorption of the four people, the water in the pool dropped by more than half. The four people were naked and immediately appeared in front of each other.

"I....."

Qin Chen was also dumbfounded. Looking at the three perfect ketone bodies, he almost squirted a nosebleed. He hurriedly stood up and waved his hand, "Misunderstanding, this is a misunderstanding..."

As soon as he stood up, the screams suddenly became worse, and Ji Ruyue, who had originally covered his body, raised their hands one after another, covering their eyes.

Qin Chen felt chilly in his lower body, and only then realized that when he stood up, his lower body was completely exposed to the pool water, and he hurriedly sat down again.

It's over. Qin Chen smiled bitterly. He was justified this time and couldn't tell. He would definitely be nicknamed a rogue.

### [Chapter 1505: Long Family Strong](#)

"You go get dressed first."

Qin Chen shouted helplessly, closed his eyes, watched his nose, his heart, and stopped talking.

The whistling voice of Ji Ruyue's three people heard in the ears, and then the sound of Xixi Suosuo's dressing. After a while, You Qianxue said, "We are done."

"You turned around."

Qin Chen smiled bitterly. After the three of them turned around, they went to the shore and quickly put on their clothes before saying, "Okay."

"Say, did you mean it just now."

Ji Ruyue rushed up first, Qiang, drew the Sealing Sword, pointed at Qin Chen, with a blushing face.

"Unexpectedly you are like Qin Chen."

Chen Sisi also said, her beautiful eyes flickering, as if she had met Qin Chen for the first time.

What's wrong with me?

Qin Chen is depressed, it's his fault.

"Now that you have absorbed it, I will collect the water in these spatial pools."

Qin Chen raised his hand, and a large amount of water in the spatial pool was immediately drawn up like a long dragon, and then continuously entered the jade disc of good fortune in the universe.

After breaking through the mid-term peak Martial Emperor, and the body of space became small, Qin Chen discovered that the Universe Jade Plate was still a space container, and the space inside was extremely large.

Moreover, its space container is more special than ordinary storage rings, and it can even hold strange objects such as space pool water.

You must know that the water in the space pool is composed of the power of space, and it is easy to dissipate. Generally, storage rings cannot be collected at all, and only such wonders as the jade discs can be collected.

Ji Ruyue was very angry, and said: "Why can only you collect?"

She urged the storage ring, but found that she couldn't collect the water in the space pool in front of her, and stomped her feet with anger.

Qin Chen couldn't help laughing, and Ji Ruyue was even more annoyed.

Seeing that the water in the spatial pool dropped a little bit, in the end, the bottom of the pool water immediately appeared clearly, and it turned out to be a dense crystal of space.

hiss!

Everyone took a breath. There are too many space crystals in front of us. Looking around, there are at least thousands of them, embedded in the bottom of this pool of water. According to the rule that three space crystals can condense the power of a space, so many Space crystal, can condense more

Less space is the power?

I am afraid that a large force can instantly add dozens of late martial emperors.

Qin Chen glanced at the crowd, he could take the space pool naturally, but he was embarrassed to swallow this crystal of space alone.

"I want three quarters of these crystals of space, and you can divide the remaining quarter equally."

As Qin Chen said, he raised his hand to capture the large space crystal, and left a quarter of the space crystal.

Although it was only a quarter of the crystals of space, there were thousands of them. Ji Ruyue and Chen Sisi looked at Qin Chen in shock. Qin Chen actually left them a quarter of the crystal of space? To know that their lives were saved by Qin Chen, even if Qin Chen took away all the crystals of space, they would have no objection.

Who knew he actually left a quarter.

This gave Ji Ruyue and Chen Sisi a new perspective on Qin Chen.

How did they know that the reason why Qin Chen would collect three-quarters of the space crystals was because he still had a lot of people to help. Taking these space crystals out could greatly increase the cultivation speed of the black slaves.

Otherwise, Qin Chen wouldn't care even if the four shared equally.

"Qin Chen, we only need two hundred crystals. These space crystals are enough for us to directly condense the power of the space principle to the highest 100 after we break through the late stage. As for the rest, you still need to collect it yourself. Get up."

Ji Ruyue and Chen Sisi each put away two hundred crystals of space, and the remaining several hundred large ones did not move.

Qin Chen didn't care, and said to You Qianxue: "If that's the case, you should put away a part of Qianxue."

"Okay." You Qianxue also put away two hundred of them. Qin Chen saw that, not a polite person, and immediately began to collect the remaining space crystals.

"Huh, why is there a ruin here?"

"Strange, there seems to be an array blocking at the entrance of the ruins."

"What's in it?"

Just as Qin Chen had just collected the remaining space crystals, suddenly a few doubtful voices came from outside the ruins, and then there was a roar, and the whole ruins shook, and it seemed that someone was fighting outside the ruins.

boom!

As soon as Qin Chen had collected all the crystals of space, a huge roar came from outside the ruins, and at the same time three powerful emperors walked in from outside the ruins.

"So fast to break through the formation." Qin Chen's gaze narrowed. Although the shielding formation he placed at the entrance of the ruins was not the top-level one, and it was only a basic formation, it was still an eighth-level formation anyway.

It was broken open so quickly.

"It's you?" One of them blurted out while watching Qin Chen.

Qin Chen frowned and looked at the person, suddenly feeling a little familiar, and only after a while did he realize that this person was one of the people who had obtained colorful spirit fruits in the valley before.

At that time, this person's cultivation was only in the middle of the eighth stage, but now he is at the peak of the eighth middle stage, and he even has a faint feeling of breaking through the latter stage. Obviously, he has gained a lot this year.

And beside him, there was a middle-aged man with sparse hair and a wide mouth. The blood on his body was very surging, like a \*\*\*\* and demon, and his cultivation had reached the late stage of the eighth stage.

In addition, beside the two of them, there was also a Martial Emperor who was at the peak of the middle stage of the eighth stage. He was holding a soul-seeking formation disk, and it seemed that he should be a master of formation.

It is no wonder that these three people broke the formation so fast before, there was actually a formation master among them, and it seemed that they were at least an eighth-level formation master.

After seeing the four of Qin Chen in the ruins, the three of them were shocked first, and then they showed amazing expressions.

It is true that the three of You Qianxue are too outstanding, each is like a fairy, and has a different temperament, it is impossible to look away.

"Do you know this person?" The surging late Emperor Wu Huang asked suspiciously the Emperor Wu next to him.

The Emperor Wu immediately said respectfully, "Master Long Xiucheng, this person is the Qin Chen I once said, who won nearly 80 colorful spirit fruits and killed the murderer of Long Lingfeng of the Long Family. "

"What? This person killed my Long Family?" The face of the wide-mouthed middle-aged man changed, and his breath suddenly became extremely terrifying, like a violent storm.

"Hey, there seems to be something here just now." At this moment, Emperor Wu, holding the soul-seeking array, came to the empty pool with his hand, wiped the edge of the pool with his hand, and put his finger in the entrance for a moment. After that, his face changed drastically, "Space pool, there is actually a space here.

Pool! "And the next moment, his eyes were already fixed on Qin Chen.

#### [Chapter 1506: Get out](#)

When the master of formation said the space pool, Long Xiucheng was already opening his mouth and couldn't close it together. He was instantly surprised. His reaction was faster than that of the mid-term peak Martial Emperor, and he stared at Qin Chen and asked: " Said, are these spatial pools

You put it away? "

"Long Xiucheng, where there is a space pool, there will be space crystals. It seems that there will be absolutely no shortage of space crystals."

"Boy, say, where did you receive the space crystal? Please take it out quickly and give it to Master Long Xiucheng! Also take out all the colorful spirit fruits you got earlier, do you have to remind me??"

The eyes of the three of them became fiery instantly, staring at Qin Chen as if they had seen a huge piece of fat.

At that mid-term peak Martial Emperor even sneered. He walked in front of Qin Chen and said very arrogantly that when he was in the valley before, they had such a large group of people that they wanted to listen to Qin Chen's assignments, and he had been unhappy for a long time. Up.

It was just that at that time his strength could not deal with Qin Chen, he could only swallow his anger, and now following Long Xiucheng, he was naturally arrogant, very arrogant.

He did not expect that the ancient Cangwu Emperor of the Xuanyuan Empire was also present, and even chased Qin Chen away. Now that Qin Chen is standing here, how can he be afraid of the later Emperor Wu?

In other words, it wasn't that he didn't expect it, but that the temptation of the colorful spirit fruit and the crystal of space had blinded his reason. "Where did you hide?" Qin Chen sneered. He didn't bother to talk nonsense about this kind of person. The mysterious rust sword slashed out immediately, and a black sword rainbow instantly filled the whole world, with a thud like a heavenly sword. Generally, directly split

To the emperor of the mid-term peak.

Isn't it just coveting the treasures on his body?

"You're looking for death." The Emperor Wu suddenly roared in anger, but he also knew Qin Chen was terrible, and hurriedly urged a dark shield to block him in an instant, and said to the burly man Long Xiucheng: "Long Xiucheng, look, this is too rampant

Mad, I didn't put you in your eyes at all. "

Before his words fell, Qin Chen's sword light had fallen on his shield.

"Boom!"

The horrible sword aura instantly tore the shield apart, like a thin piece of paper, which was split into shreds, and at the same time, the endless sword light had poured down, completely enveloping the mid-term peak Martial Emperor. This Emperor Wu was so frightened that his soul was about to fly out, with a look of horror on his face. He did not expect Qin Chen's strength to be so terrible. He hurriedly urged all the true essences to resist in front of him, and at the same time, he retreated madly. Horrified: "Long Xiu

Master Cheng, please help..." The last word of 'I' has not been spoken yet, the endless sword light has completely wrapped Qin Chen inside, and a \*\*\*\* light of 'poof' blew up, waiting for the \*\*\*\* light to disappear. When he was missing, the mid-term peak Wu Huang who was still arrogantly asking Qin Chen had already

It disappeared without a trace, and on the hard ground of the ruins, there was nothing but a gap that was ten feet deep and nearly a hundred feet long.

Qin Chen slashed a mid-term peak Wu Huang into nothingness, no matter it was armor or storage ring.

The master of formation and Long Xiucheng looked at the long sword mark in horror, with shocked expressions in their eyes. The two of them looked at each other, and they came together in an instant, looking at Qin Chen warily.

It's terrible, how could there be such a terrifying genius who killed a martial emperor at the mid-term peak with a single sword, even if Long Xiucheng made his own moves, right?

No wonder the other party is so calm, it turned out to be confident that he has confidence. But without saying a word, it was too bold to kill one of them directly. That Long Xiucheng instantly rose up with a terrifying killing intent, and said coldly: "Your Excellency is so bold, you don't even say anything. The chance to kill the Fuji family

The person, even if your talent is amazing, is it too arrogant? "

Qin Chen sneered: "What is he, he will kill him if he is killed. If your two are alright, get out of the way, or kill you two together." "Good, good, good..." By a young man The humiliation of Tianjiao, even if the angry Long Xiucheng was afraid of Qin Chen, he could no longer speak. When he raised his hand, a cyan true treasure had appeared in his hand. He didn't even say a word.

It is said that the blue magic weapon has been sacrificed with all its strength.

Almost in the blink of an eye, the cyan real treasure in his hand has turned into a thick giant scissors, and the giant scissors burst out with a terrifying aura, which immediately enveloped a radius of several tens of meters, and Qin Chen was right here. Right in front of the giant shears. At the same time, Long Xiucheng's body was filled with \*\*\*\* halo, and a terrifying space barrier swept out, instantly covering the world, not only Qin Chen, but also the three of You Qianxue were also bound by the other's space barrier. Give it a shroud

Go up a big mountain. Long Xiucheng used his full force when he shot. He knew that Qin Chen was able to kill the mid-term peak Martial Emperor at will. His strength was absolutely terrifying, and even he had to be jealous, so he didn't show any mercy at all. The strongest

The purpose of the attack was to prepare to suppress Qin Chen in the shortest time.

No matter how strong Qin Chen is, he is only the Martial Emperor of the mid-term peak, but he is the Martial Emperor of the late period, even with only a little distance from the late peak. It shouldn't be a problem to win Qin Chen even if it is a bit difficult.

After his giant shears really fell, the other master of the formation holding the spirit-seeking formation plate also moved swiftly. He quickly raised his hand, and the formation flags were thrown out at an astonishing speed. , Instantly fell into this world. After these formation flags fell, combined with the formation plate in his hand, a formation barrier was instantly formed, enveloping the few people in Qin Chen. At the same time, the formation master rushed to the three of You Qianxue at the moment Long Xiucheng shot it. I want to capture You Qianxue

The three of them came to threaten Qin Chen.

In order to suppress Qin Chen, the two of them can be said to be doing everything they can, and they all used their strongest methods.

Qin Chen sneered, without any idea of avoiding it, and then slashed out the moment the giant scissors fell.

boom! The black rust sword slashed on the giant shears, Long Xiucheng's face suddenly became ugly, roaring...a series of roaring sounds continued to ring in everyone's ears, and then Long Xiucheng was amazed to see , Qin Chen's own giant scissors was cut with a sword

Flying out, with a click, a crack even appeared on the giant shears.

what?

Long Xiucheng's eyes widened suddenly, and there was a look of fear in his eyes. Qin Chen actually smashed his giant scissors with one sword. Is this dreaming? A horrible blood burst out from him, roaring, above Long Xiucheng's head, a phantom of a giant dragon suddenly appeared, the blood of the dragon boiled, and the \*\*\*\* streamers smashed down towards Qin Chen like a meteor. .

#### [Chapter 1507: Turn over](#)

The sky was full of blood, like a meteorite outside the sky, with the power of destroying the sky and the earth, rushing down, and instantly came to Qin Chen's head, but Qin Chen didn't even have the idea of avoiding it.

Qin Chen didn't move, not because he couldn't hide, but because these dozens of rays could make the deadly stream of the ordinary mid-term peak Martial Emperor hit him, and it was no different from scratching him.

Don't say that what he cultivates is the Immortal Eucharist, his spatial body alone can resolve most of his attacks, and the rest of the attacks fall on him, which can only make his armor rupture, or at most just suffer. Just a slight injury.

"Boom..."

More than a dozen meteorite-like blood streamers fell on Qin Chen's body, and the sound he made was a weird dull sound, and there was no ear-piercing sound of a strong bombardment.

Long Xiucheng originally thought that Qin Chen was attacked by himself, and he would be seriously injured if he didn't die. It might even be a mass of residual ashes. Even if there was something left, it was just some ash. But after this dazzling blood stream hit, his eyes straightened immediately. The light dissipated, and Qin Chen under the astonishing roar, just reached out his hand to pat the dust on his body, or fanned away a fly, his expression was extremely relaxed

.

But there is no dust on his body? Not to mention the dust, that is, his clothes are not wrinkled, and his hair is not messed up.

At this moment, the scene became deadly silent.

The master of formation was even more shocked, and even the three people of You Qianxue stopped in shock.

He also saw the dozen or so \*\*\*\* streams that Long Xiucheng had previously blasted. He said that as long as he was rubbed a little, he would inevitably be seriously injured, but Qin Chen blocked it unscathed, not even wrinkling his clothes. Is that human being?

The corner of Long Xiucheng's eyes twitched for a while, and he realized that he seemed to underestimate Qin Chen. Qin Chen was even more powerful than he thought, or even more powerful.

His own attack, even the peak Martial Emperor in the later stage, might not be able to resist it so easily, but Qin Chen was able to block it so easily, this strength definitely surpassed him by far.

In an instant, he reacted, his back was already dripping with cold sweat.

Without waiting for him to retreat, Qin Chen sneered and said: "After starting an attack, do you want to retreat? Stop dreaming..."

Before Qin Chen finished speaking, he raised his hand, and the mysterious rust sword had already been sacrificed, but what he sacrificed was only a sword aura.

A sword energy with the thickness of an adult's arm, and still pitch black as ink, flashed through the void in an instant, and fell on Long Xiucheng's body quickly. An imminent danger came, and Long Xiu was so flustered that he couldn't even retract the giant shears in front of him. He only knew that he had to avoid this sword light, although the sword light had not yet fallen on him, but he

I already knew that I could never withstand the power of this sword light.

But the next moment he even started to sweat the top of his head. He found that the surrounding space had turned into a quagmire, and his movement became slow. Long Xiucheng was so shocked that his soul was about to disappear. Qin Chen actually shattered his space barrier. A martial emperor at the mid-term peak, the space barrier displayed was so much more terrifying than him. He was frightened, I only had time to shift my head

After the past, the black sword light blasted on his shoulders.

"boom....."

The terrifying sword light fell, and one of Long Xiucheng's shoulders was directly cut to pieces. The blood mist splashed and his arm was torn apart. He was struck by the sword light and flew diagonally, and then fell heavily to the ground. After a violent spout of blood, Long Xiucheng rushed up from the ground, ignoring that he was seriously injured, so he roared wildly: "Qin Shaoxia, I Long Xiucheng admits it, please don't

Xia is merciful..."

"Quickly, take down the three women, quickly!"

But at the same time, Long Xiucheng's furious voice rang in the mind of the master of formation. What Long Xiucheng said before was obviously to deliberately paralyze Qin Chen, but in fact it was for the master of formation to act quickly and use You Qianxue. The three threatened Qin Chen.

At the moment Long Xiucheng exited, the master of formation rushed towards You Qianxue with a sharp heart, booming, with his big hands sticking out, like a sky covering the three of You Qianxue.

He looked at Qin Chen nervously at the same time, for fear that Qin Chen would make a move, because he knew that as long as Qin Chen made a move, his strength would not be able to resist it.

But what shocked him was that although Qin Chen saw his actions, he did not react at all.

He was overjoyed in his heart, and hurriedly grabbed Xiang You Qianxue and the three of them, but the joy hadn't fallen yet, puff, suddenly a sword light lit up, but saw one of the three women shoot out a sword like lightning, and instantly split his protruding palm into pieces in half.

Then another sword light swept over him, and he was instantly slashed out, a huge gap appeared in his chest, and blood flowed across.

puff!

A mouthful of blood spurted out, and he looked at the three You Qianxue in horror, never expected that the strength of the three You Qianxue was as terrifying as Qin Chen. "Is this your recognition?" Qin Chen sneered, and directly urged Fan Tianyin to press down, while Long Xiucheng looked at the badly injured Master Formation Master with extremely dull eyes, watching Fan Tianyin fall. He only reacted and said in horror: "Long

If someone doesn't know Qin Shaoxia's supernatural power, Long will retire now..."

Where did Qin Chen tell him to retreat, the Fan Tianyin fell directly, and Long Xiucheng saw that Qin Chen did not show mercy at all. Although his face turned pale, he instantly crushed a talisman and roared: "Qin Chen, don't you want to do things absolutely..."

Qin Chen didn't care about the other party at all, the Fan Tianyin completely fell, and at the same time the power of the powerful space permeated, instantly confining this space, leaving Long Xiucheng behind.

"Do not!"

With a puff, Long Xiucheng just flew hundreds of meters away, and was directly shocked into blood mist by Fan Tianyin, and even the spatial talisman could not take him away.

A Martial Emperor who was close to the peak of the latter stage had no chance to escape in Qin Chen's hands.

After killing Long Xiucheng, Qin Chen then looked at the formation master.

"You can't kill me, I'm from the Hall of Arms..." The Formation Master said in horror. At this moment, he already knew that he was not Qin Chen's opponent at all.

Not to mention the Qidian, even if the people in the Pill Pavilion treat him this way, Qin Chen will directly kill him, what about the trivial Qidian?

With a click, it was also the Fantian Seal falling, and the thick big seal exuded a misty atmosphere, blasting the master of the formation into blood mist, leaving only a piece of the spirit-seeking formation disk falling on the ground and spinning. At the same time when the master of formation was beheaded by Qin Chen, an astonishing aura rose to the sky in a palace in the depths of the Foreign Demon Continent. Emperor, looking for death..."

### [Chapter 1508: Space beads](#)

After the voice yelled angrily, a misty burst of light rushed out of the palace in an instant, blasted towards Qin Chen and his party, and disappeared without a trace in an instant.

After killing the three of them, Qin Chen sneered in an instant. The three of them thought they were bullying and wanted to occupy their colorful spirit fruits and space crystals. They were naive. "Are you three okay?" Qin Chen turned his head and looked at You Qianxue. Just as he spoke, he found something was wrong. The ruins were in a mess because of the previous battle, especially where the space pool was, and the ground cracked. Cracks, cracks

In the middle, there was a little bit of space pool fluid overflowing.

How can there be space pool fluid in this rock crack?

Qin Chen immediately felt that something was wrong, could it be said that there is nothing at the bottom of this space pool?

There was a hint of surprise in his heart, and he hurried to the bottom of the space pool, and then another sword smashed out, but his mental power controlled the sword energy, preventing it from destroying the structure at the bottom of the space pool. The bottom of the space pool that had been split was opened again, and then Qin Chen saw a transparent bead quietly embedded in the bottom of the space pool, and the whole bead seemed to have melted into the void, if not before. fighting

Qin Chen couldn't find the bottom of the pool to crack.

"What is this?" Ji Ruyue said in shock, with a look of astonishment in his eyes.

This bead exudes a heart-palpitating atmosphere of space, as if it will be instantly annihilated by this space force as long as it touches it lightly. This is the first time they have seen such a magical space bead.

Some are similar to the crystals of space, but they are hundreds, thousands of times worse than the crystals of space, no, even ten thousand times more!

It seems that this bead can contain all the spatial rules and meanings between heaven and earth. "I don't know what this is, please be careful." Qin Chen looked at the space bead in front of him cautiously, and found that as long as the surrounding space forces touched this bead, a little bit of space pool liquid would form on the surface of the bead. And slowly

Slowly penetrated out.

Could it be that the previous pool of space pool water? Was it all born of this bead? Those crystals of space were also condensed because of this bead?

Thinking of this possibility, Qin Chen suddenly gasped.

If this is the case, then this transparent bead is too terrifying. It can naturally absorb the power of the space between heaven and earth, and condense it into the power of an incomparably pure water in the space. This is something that the peak martial emperor could not do.

Although the Emperor Wu could travel through space and control the power of space to an astonishing level, he couldn't condense the water and crystals of the space at all, otherwise the Emperor Wu Continent would be full of powerful people.

But this mysterious space bead can do just that, isn't it that after getting it, there will be an endless stream of space pool liquid and space crystals in the future?

The only doubt is how fast this space bead condenses the space pool liquid, but in just a short moment, a few drops of the space pool liquid have already condensed on it, which shows that the speed of this space bead condensing the space pool liquid is definitely not slow.

Qin Chen directly probed his hand and grabbed the transparent bead, but couldn't grasp it at all, as if the transparent bead was like nothingness. Instead, the palm of his hand was cut by the force of the terrible space, and he wanted to split.

Can't capture it?

Qin Chen tried to diffuse a spiritual force and put it in the storage ring, but after the spiritual power was diffused, it was still like nothingness, and it could not be collected in the storage ring.

Try to use the universe to make jade discs?

Qin Chen took out the Universe Good Fortune Jade Disc, this time he hadn't shot it yet, the transparent beads seemed to be attracted inexplicably, and instantly turned into a transparent streamer, submerged in the Universe Good Fortune Jade Disc.

Hum! The light on the jade disc of good fortune in the universe suddenly shined, and a shocking spatial fluctuation was transmitted from it. Then, the space in the jade disc of good fortune in the universe suddenly expanded a lot, and it turned into a small world. Inside gray

Blind, still unable to pry out clues.

But Qin Chen could clearly feel the space pool water collected inside and the terrifying space power. After the transparent space beads entered the universe jade disc, it seemed to become a part of the universe jade disc, disappearing. trace.

Although he didn't understand what happened to the jade disc of Qiankun's good fortune, he could feel that in the space of the jade disc of Qiankun's good fortune, the water in the birth space was always present, as if it had been completely activated.

"Let's go!"

Qin Chen did not continue to study, but quickly put away the storage rings of Long Xiucheng's people and left instantly. Not long after the Qin Chen and the four left, a terrifying array of light flew over from the sky, and quickly fell into the ruins. After this array of light circulated in the ruins, it came again. Soaring into the sky, disappearing without a shadow

Without a trace, he returned to the depths of the palace.

In the depths of the palace, a brown-haired old man raised his hand, and the stream of light instantly fell into the primitive formation in his hand.

"Old Fei, what's the matter?"

Beside the old man, there is a group of strong men, who are concerned and asked.

The old man carefully stared at the primitive formation plate in his hand, and then said in a deep voice: "There is a hint of thunder and lightning, and a hint of real dragon...Of course, it is more of the power of space."

"Thunder electric breath? Could it be Emperor Fenglei of the Xuanyuan Empire?" Someone exclaimed.

"Could it be said that it was Emperor Fenglei of the Xuanyuan Empire who killed Master Konoha, as well as the powerhouse of the Long Family? But didn't Master Konoha have a good relationship with Long Xiucheng of the Long Family? How could it be related to the Long Family? "

This group of people, all wearing the robes of the master of formation, said one after another.

"Hmph, what is impossible. With such a strong atmosphere of space power, it is very likely that Master Konoha found a large number of space crystals outside, and he was jealous of the Xuanyuan Empire and the Long Family, so it hurts. Killer."

Someone snorted coldly.

"This matter, the old man will definitely investigate it." The old man snorted coldly. "But here, there are rules and fruits. Let's continue to go deeper, but we can't let people from other forces take away all the good things. ."

Speaking of the fruits of the rules, all these people showed excitement in their eyes.

Qin Chen naturally didn't know what happened here. After he left the ruins, he immediately contacted the Skeleton Rudder Master.

"Master, I'm in front of a palace ruin now. Come here quickly." Because of the Soul Destruction Seal, Qin Chen easily contacted the Skull Rudder Master.

### [Chapter 1509: The world is too small](#)

Qin Chen finally came to a piece of palace ruins after a few days according to the instructions of the master skeleton rudder.

"Master!" The Skeleton Rudder master suddenly walked up and respectfully said, and then, it saw Ji Ruyue and the three of them on the side, and a humble smile suddenly appeared on their faces, secretly giving Qin Chen a thumbs up.

Qin Chen was speechless, pretending not to see it.

"What about Zhou Zhiwei?" Qin Chen said solemnly.

In addition to these people on the field, Zhou Zhiwei of Misty Palace knew about the deeds of killing Feng Yu Lei himself. This incident must not be publicized.

Even if Qin Chen is not afraid, once it spreads out, it will have a great impact on You Qianxue and everyone in Beitianyu. "Master, don't worry, Zhou Zhiwei's memory has been deleted by this seat. She will never remember what happened before. During this time, she has been cultivating here, but not long ago, she seemed to have received some information and entered this place. Of the Palace

in. "The skeleton rudder said.

Alien demon race is best at body and soul, erasing some memories is not a big deal for it at all.

Qin Chen nodded and said, "So, the people of Misty Palace are probably here?"

"It should be like this." Skull Rudder said, "And these days, the subordinates have seen many people enter this ruin."

"Oh?"

Qin Chen frowned. He carefully recalled that the inexplicable summoning at the beginning seemed to come from the depths of this ruin.

What is in this palace ruins?

"Then let's go in too." Qin Chen said to Ji Ruyue, You Qianxue and Chen Sisi, "By the way, Yong Ye, wear a mask on your face, Ji Ruyue, if someone asks later, you just say this person. It's yours from the Hall of Law Enforcement." The origin of Skeleton Rudder is unknown. Once he meets the people of Dan Pavilion, he is inconvenient to explain. Among the major forces, only the Hall of Law Enforcement brings in a wave of mysterious people, and this group The mysterious man, even the Law Enforcement Hall itself does not know its origin,

And each wearing a mask is the easiest to impersonate.

It's just that Qin Chen said this, but Ji Ruyue was stunned for a moment, a little wondering why Qin Chen said this, is there anything weird about this person?

But this shouldn't be right. Basically, the strong people who came here have met in the outside world, it is impossible not to see each other.

When Ji Ruyue came late, she naturally didn't know that the master of skeleton rudder was not the emperor of the major forces at all, and its identity could not stand scrutiny.

However, she trusted Qin Chen very much and nodded herself. This little matter didn't matter to her.

Although Chen Sisi knew that the Skeleton Rudder Lord was not from the Dan Pavilion, nor was it the last person to come to the Law Enforcement Hall. Its origins were very strange, but the Skeleton Rudder Lord saved her before, so naturally he would not say much.

A group of people just got ready to go in.

suddenly.....

Whoosh whoosh!

Several sharp sounds of breaking through the air came, and a group of people instantly fell on the entrance of this ruin.

When Qin Chen saw the other party, he only felt that the world was so small, but the people who came were a few Wuyinmen Martial Emperors who had met before. In addition, there were other people, obviously from other forces, each with aura Extraordinary.

Among the top ones are the three late martial emperors, with a restrained aura and magnificent aura.

"It's you!"

When the Wu Yin Sect masters saw Qin Chen, their faces suddenly showed a hint of surprise.

"Several people, don't be unharmed." Qin Chen smiled and arched his hands.

"You are still alive." One of Wu Huang from the Wuyinmen blurted out, his expression didn't seem to be fake at all, he was obviously shocked that Qin Chen was still alive.

At the beginning, they saw Qin Chen being pursued and killed by the ancient Cangwu Emperor of the Xuanyuan Empire, and the ancient Cangwu Emperor was the veteran late Emperor of the Xuanyuan Empire. In their expectation, Qin Chen would have died long ago.

Qin Chen smiled and said, "Are you hoping for Qin to die?"

"no no!"

The disciples of the Wuyinmen hurriedly waved. "Qin Chen of Pill Pavilion?" At this moment, a middle-aged man standing in front of several Wuyinmen Martial Emperors suddenly said. He glanced at Qin Chen suspiciously. Qin Chen was outside the ancient Yu boundary. After nodding the limelight, he naturally heard about it, but he was more concerned

, Or the news that several colleagues told him before, could not help but secretly spread the voice: "He is the Qin Chen that you said before and got a lot of colorful spirit fruits?" "Master Shang Wuji, it is this person. Thinking that he was still alive, his subordinates saw the ancient Cangwu Emperor of the Xuanyuan Empire chasing him with his own eyes, thinking that he was already dead, who knows..." A Martial Emperor of Wuyinmen couldn't help but pass the message. Sound interpretation

. The late Wu Huang, known as Shang Wuji, had his eyes flashed. Gu Cang Wu Huang, he had naturally heard about his fame, and even his strength, although the two had never fought against each other. I don't know who is strong and who is weak. But the ancient Cangwu Emperor has become famous as the Xuanyuan Empire

The strong for a long time is by no means a general generation.

But Qin Chen was able to survive the chase of the opponent, and he heard from the other people in the Wuyinmen that Qin Chen was only the martial emperor of the initial peak, and could not help but put away his contempt in an instant.

"Haha, it turns out that the hero was born as a teenager. This emperor Shang Wuji, Wu Yinmen elder, Qin Shaoxia is already the mid-term peak martial emperor at such an age. It seems that the harvest of this trip is not small." Shang Wuji said with a smile. sound.

Seeing that the other party's attitude was good, Qin Chen suddenly smiled and said, "Senior Shang Wuji is too good."

"Huh, what hero is born in a young age, he is not the only one who broke through the mid-term martial emperor, and that is nothing."

A cold snort sounded, but the face of a Tianjiao who came with him said proudly.

Qin Chen glanced at him, but saw that this person's gaze had been fixed on the faces of the three You Qianxue, and suddenly he suffered another disaster.

The three of You Qianxue are all stunning people, and they are only disciples of the Lower Four Realms. When these so-called Tianjiao see that they are acting with the three of You Qianxue, they are naturally jealous and very upset. Not only him, but the other Tianjiao and Martial Emperor on the court, all showed amazing colors at this moment, envious that they could act with You Qianxue, but it was not as obvious as the performance, but the hostility on him was no longer Obviously

.

"Haha, this should be Shaoxia Qin from Dan Pavilion, Wei Xingguang, the elder of the ancient Fangjiao, I don't know how many of them are left?"

One of the late Emperor Wu Huang glanced at Shang Wuji and Qin Chen, and said with a smile, his eyes flickering.

"The emperor returned to Yuanzong elder Yue Zhongkui, and it seems that he has never seen a few of them." Another late Wuhuang also smiled, but his eyes were very deep. He knew Qin Chen and Chen Sisi, one was a Dange genius and the other was a saint of the Illusory Demon Sect, but he had never seen the other two stunning women. There were also a few people in black, who had very cold aura, so that He was also faintly afraid and curious about it.

[Chapter 1510: excuse me](#)

Ji Ruyue glanced at several people, but did not speak, but said to Qin Chen: "Qin Chen, let's go in!"

Qin Chen nodded, arched his hands and said, "Farewell, everyone!"

He didn't want to have anything to do with this group of people.

"Wait, it's fate to meet a few people, not even mention the origin of the name, a bit too much, right?"

Wei Xingguang, taught by the ancient prescriptions, came to the front of Qin Chen and the others in an instant. Ji Ruyue ignored his questioning, it was too much to pay attention to them.

"Your Excellency, what do you mean? Do you want to do it?" Ji Ruyue snorted, and in front of outsiders, she instantly recovered her pride.

"Naturally not, I just want to know the origins of a few people. The old man had never seen a few of them outside of Gu Yu before. Now I doubt the origins of a few. It's nothing."

Although Ji Ruyue had a beautiful face, she was only the Martial Emperor at the peak of the mid-term. She dared to be so presumptuous in front of him, which made him secretly angry.

"Which green onion are you, and what right do you have to doubt me? Get out!"

"you....."

Wei Xingguang was furious, and his killing intent was immediately overwhelmed. Ji Ruyue was too shameless to give him face.

"Om!" But before he could speak, a cold breath enveloped him. Turning his head to look, it was the man in black, staring at him coldly, and at the same time a lingering killing intent. Pervading, it seems that as long as he dares to move again, it will be greatly

General shot. "Brother Shang, Brother Yue, are you just watching?" Wei Xingguang felt cold and said hurriedly. For some reason, under the eyes of the man in black, he felt like he was being stared at by a beast, as if this For a moment, he became a prey, and

The other party, want to swallow him alive.

"Misunderstandings are all misunderstandings." Shang Wuji hurriedly stepped forward and said with a smile, with a very sincere attitude. At the same time, he said to Wei Xingguang: "Brother Wei, you are too much. Since several little friends are unwilling to speak, you Why be aggressive?"

"I....."

Wei Xingguang was furious. What happened to Shang Wuji, he first called that Qin Chen brother, but now for a woman, it would be too much to say such things. He just wanted to speak, but saw Shang Wuji smiled and said to Ji Ruyue: "This girl, if Shang is not wrong, several of them should come from the Law Enforcement Hall? The Law Enforcement Hall is indeed the law enforcement agency of my martial arts. Among them, the genius, each extraordinary, the business

A certain admiration, compared to my fog hidden door, it is much more powerful! "

Wei Xingguang and Yue Zhongkui were suddenly shocked. What, the other party is from the Hall of Law Enforcement? But the two of them instantly realized that this was most likely true.

At that time, although strong men and tianjiao of all forces gathered on the Guyujie Square, two forces were bound to come, but it was Misty Palace and Law Enforcement Palace that did not come at that time.

"Elder Shang Wuji is polite, the younger Ji Ruyue, the younger brother of the Ji family, this is the senior of my law enforcement hall." Shang Wuji is polite, Ji Ruyue is naturally not too arrogant, and nodded.

"hiss!"

Really a person from the Hall of Law Enforcement.

The faces of the remaining people changed wildly. As for Wei Xingguang and Yue Zhongkui, they were even more nervous. This was too unlucky. They just wanted to know the situation of a few people, but they didn't expect to get into the law enforcement palace.

And one of them is still a disciple of the Ji family.

The Ji family is a hidden family in the Martial Domain. Although it rarely appears in the Martial Domain, it is definitely one of the top forces in the Martial Domain, and should not be underestimated.

"It turned out to be everyone from the Hall of Law Enforcement. I took the liberty of waiting."

"Disrespectful, disrespectful!"

Wei Xingguang and Yue Zhongkui hurriedly said, their attitudes immediately eased a lot, and the other warriors recognized their own power's elders, so naturally they didn't dare to be presumptuous.

"A few of you also got news and want to enter the palace ruins? I waited for the news too. How about going in together?" Shang Wuji smiled.

"Received the news?" Qin Chen was stunned.

"Isn't there a few? I only learned that there is a palace ruin here, but it is very dangerous. It is better to go together and take care of it."

"But isn't it impossible to communicate here?"

"It's true that you can't send information, but in fact, there are some channels of communication between the major forces." Shang Wuji laughed.

Qin Chen suddenly, indeed, Misty Palace has seven orifice exquisite balls, and the fog hidden gate also has special communication methods, and other forces may not have it.

It's just that the transmission of news in this ancient Yu world is not that convenient, but for simple transmission of some content, there may be their own methods among the major forces.

Qin Chen didn't want to go in with this group of people at all, but now, his thoughts moved.

For the past year, he has been in retreat and cultivating painstakingly. If the Misty Palace and others had any purpose, they would have entered the ruins of the palace early. If Shang Wuji and others had received the news, they would go in together, it might be a good idea. Method.

Qin Chen turned to look at the Skeleton Rudder Master.

The Skeleton Rudder master immediately understood Qin Chen's meaning, and said coldly: "If this is the case, let's go in together."

Whoosh whoosh!

At the moment, a group of people entered the palace ruins one after another.

call!

A dark breath rushed toward their faces, and everyone felt a slight depression in their hearts, and the circulation of true essence in the body became obscure.

Everyone didn't dare to be careless, and as early as the moment they entered, they displayed the body protection essence.

The scene in front of everyone caught everyone's eyes, but it was a damp and cold passage. I don't know how long it was abandoned. It was primitive and barren, very ancient, exuding a decadent atmosphere.

The Skeleton Rudder was taken aback, as if he had found something.

"What's the matter?" Qin Chen transmitted the sound.

"Master, this palace seems to be a building from the ancient times of my alien race." Skull Rudder said in a deep voice.

"ancient time?"

"Yes, I have a very long history and years of alien demon. The architectural style here is indeed the style of my alien demon, but it is the style of ancient times. It is very likely that my alien demon was in ancient times. A relic of the era."

"Ancient ruins of the alien demon? What do the people in the Misty Palace and the people in black want to do?"

Qin Chen frowned.

The passage is deep, simple and profound, but it is obvious that there are many fresh traces on the ground. Obviously, many people have entered it before.

"It should be some powerhouses of many forces." Qin Chen knew this trace, and the number of people was definitely not a small number. As the news spread, it was not known how many people had already entered the ruins.

He squatted down and carefully watched the traces around him.

"What you look at, don't you think that these traces can be seen?" A Tianjiao sneered. Ji Ruyue's status was noble, but Qin Chen could still be stunned.

Qin Chen didn't bother to pay attention to the other party. After watching for a long time, he stood up, his eyes blinking.

Judging from the traces, the number of strong men who entered this ruin is extremely large. It seems that at least half of all the strong men who entered the ancient Yu realm have already entered this ruin, and even more.

What is the purpose of those in black? Qin Chen was cold.
