

## Valkyrie 1511

### [Chapter 1511: Totem](#)

If there were no secrets in bringing so many people into this palace, Qin Chen would not believe it at all.

What's more, the group of people in black have been planning something since the Guyu Realm assessment. Now it seems that it has something to do with this palace?

Could it be said that the other party's purpose is to attract people from all major forces and then kill them?

Such a thought came to Qin Chen's mind.

This is of course also possible, but for some reason, Qin Chen faintly felt that this should not be the other party's ultimate goal.

"Let's go!"

A group of people walked towards the depths of the passage, and in an instant, they came to a hall. The whole hall is very magnificent and deep. There are huge stone pillars standing in it, forming a group of stone pillars. These stone pillars are pitch black and engraved with complicated black patterns. It makes people feel very evil and hideous at first glance.

.

I don't know how long it has been abandoned here. The stone pillars have been covered with a layer of black material, exuding a decayed atmosphere. Even if the Emperor Wu is here, he feels uncomfortable.

"There are really treasures here?"

Wei Xingguang frowned and said something. They received news that there were many heaven-defying treasures here, and they came here one after another, but now this decayed and ruined appearance does not look like treasures.

Skeleton Rudder's eyes were cold, and everyone came to the stone pillars together, and carefully looked at the stone pillar forest in front of them. It was so vast that it couldn't see the edge at a glance, and they didn't know how much danger existed in it.

Everyone's heart is heavy and inexplicably depressed.

"Yong Ye, what can you see?" Qin Chen asked the Skeleton Rudder Master. "Master, this should be the totem formation of my alien demon race in ancient times..." Skeleton Rudder said: "The totem formation is a formation method to identify the genius of my alien demon race. It can activate the potential in the alien demon warrior. But it's also very dangerous, not small

The heart will die in it, which belongs to the ancient setting to select the powerful geniuses of the alien demons. "

"Totem formation?" Qin Chen was surprised. He hadn't seen it before. There was such a formation. Sure enough, the differences between different civilizations were too great, and the development paths were also completely different.

"How powerful is this totem formation?" Qin Chen asked again. The Skeleton Rudder master solemnly said: "The Totem Array, which can identify the talents of our race, is naturally terrifying. A generally complete Totem Array, even if it is based on the subordinates' cultivation base, you must be very careful. I don't know

Whether it can run, if it can run, the power is naturally terrifying. "Qin Chen is secretly awe-inspiring. Even the Skeleton Rudder Master has to be careful? Although he doesn't know exactly what the Skeleton Rudder Master used to be terrifying, he also knows that they are definitely not weaker than the top martial emperor. Isn't there not at all

A way to survive?

"Then you have a way to crack it?" Qin Chen asked. Skeleton Rudder said with a wry smile: "Master, his subordinate is just an alien warrior. The totem formation is a very important thing in my clan heritage. The subordinates only heard about it. As for how to crack it, they don't know at all, not to mention. , This totem in front of you

The formation should be the ancient totem formation of my alien demon race, even if it is the priest of the same era as the subordinates, it may not be able to break open. "

"But the master doesn't have to worry too much. Since these people have received the call, it naturally means that someone has already passed through the totem array, maybe there is a way to crack it." Skeleton Rudder said suddenly.

Qin Chen was stunned for a moment, but he turned to look at Shang Wuji and others.

Indeed, since Shang Wuji and the others received the call, someone must have spread from the depths of the palace ruins, and the totem array is located at the entrance of the ruins, would there be no solution?

Even, this totem array may have been completely scrapped, and there is no danger at all. Otherwise, how did the previous people pass?

Thinking of this, Qin Chengang was about to ask, but saw a young Martial Emperor in the crowd step forward directly and touched one of the stone pillars.

"What is this? Is it some kind of relic from ancient times?"

He stretched out his hand and said with a smile.

"Be careful!" Shang Wuji suddenly let out a startled cry when he saw this, his eyes showed fear, but it was too late, and his shock hadn't fallen yet, and the palm of Emperor Wu Huang had touched the stone pillar. A terrifying coercion broke out in the

Over the body of Emperor Wu.

"puff!"

The smile on that Emperor Wu's face stagnated, his frightened eyes were round, his mouth was open, and he wanted to say anything, but he couldn't say a word. The whole person was shattered, turned into black powder, and dissipated. In this hall.

Extinct!

Pedal!

Everyone was horrified, all of them in cold sweat came out all of a sudden, back and forth, fearful

It was terrible. This stone pillar looked lifeless, without any energy fluctuations, but just touched it, and a martial emperor was instantly wiped out, and it was almost too late for everyone to react. These scenes were too terrifying.

Everyone felt that if they were to go up there, they would definitely end up exactly the same as the Emperor Wu, instantly annihilated, without any resistance.

This...is it a Wudi level attack?

"Shang Wuji, didn't you say that there is no danger in this ruin? Why did my disciple who returned to Yuanzong died here." Yue Zhongkui looked at Shang Wuji angrily, and suddenly shouted coldly.

Shang Wuji sighed: "Oh, brother Yue, this group of stone pillars is indeed not dangerous, but you are too reckless to return to the Yuanzong disciple. The emperor has acted recklessly before he can speak, I..."

Shang Wuji blamed himself.

"Senior Shang Wuji, do you have a way through this group of stone pillars?" Qin Chen asked immediately. "Exactly." Shang Wuji nodded, "I, Elder Wuyinmen, has already been here first, and there is indeed a way to pass through this place in the content of the message, but I haven't had time to speak before, so... It's useless to say more, now open

Hajime, everyone just follow me, be careful. "

After that, Shang Wuji did not explain, and was the first to step into the stone pillar group.

"Remember, you must follow me closely when you are walking, and secondly, never touch any stone pillars." Shang Wuji drank coldly again.

Everyone nodded and saw that Shang Wuji had stepped into the group of stone pillars, and there was really nothing wrong with him.

Just thinking of the death of the Guiyuanzong disciple before, everyone was still a little nervous.

"You guys follow me closely." Qin Chen said to the three of You Qianxue, and stepped into the stone pillar formation first.

Sure enough, after entering, a faint breath enveloped him, but he did not release any sense of danger. After seeing that Qin Chen and the others had gone in without incident, Yue Zhongkui and Wei Xingguang looked at each other, and led the disciples into the group of stone pillars.

### [Chapter 1512: Little white face](#)

Everyone walked slowly in the stone column array.

The group of stone pillars did not know how wide the coverage was. If it were not for Shang Wuji to lead the way, they suspected that they would get lost in the group of stone pillars and could not find a way

out. You must know that the formation method is a formation method, there will not be too many flaws, such as the seemingly safest sky, perhaps the most dangerous, so no one rises up into the air, all walks carefully on the ground, and Keep a certain distance from the stone pillars

from. "This Shang Wuji has too much information? This group of stone pillars is very vast. In this alien demon continent, it is very difficult to transmit any message. Could it be that the strong man who came first in the Wuyinmen The structure of the stone pillars is sent to

Him? "

After walking for a quarter of an hour, Qin Chen was a little confused.

This group of stone pillars is really too vast. For such a long time, at least thousands of stone pillars have been passed by everyone. If Shang Wuji came for the first time, how could he remember it so clearly? And so sure?

"Unless he has been here before, or the message sent to him by the master of the fog hidden door is not the route of the safe road, but the method of walking."

Qin Chen carefully observed the surroundings passing by.

"Hey, many of these black stone pillars have been broken or collapsed. Walking along the broken stone pillars will not trigger the formation, and it must be ensured that there are at least three broken stone pillars within ten meters of the surrounding area. ."

After walking for a long time, Qin Chen finally saw a little way.

No wonder Shang Wuji can walk so freely, Qin Chen smiled, not because he remembered the route, but found a way to walk.

After knowing it, Qin Chen glanced behind him, and suddenly found that Wei Xingguang and Yue Zhongkui were also looking around in secret, and their eyes flickered.

It seems that these two people seem to be rough, but in fact they are as careful as they are. They didn't blindly follow, and they were also looking for a way to walk on the stone pillars.

No matter how large the group of stone pillars is, there is a limit. Everyone followed Shang Wuji, turning around in a big circle, and finally passed the entire group of stone pillars, and came to an unusually magnificent arch despite being broken.

This arch is very huge, impressively hundreds of meters high. Shang Wuji apparently understood this, and explained: "This is the real entrance to this ruin, but the message I got said that this arch has a weird prohibition and must be broken to enter, and after breaking, the passage presented ,each

It is different once you enter, you will enter different places in this ruin. "

What's the matter?

Everyone was a little nervous and a little expectant.

The tension is, if you enter different channels, don't you have to encounter unsolvable dangers? For example, the group of stone pillars before, if they hadn't had the experience of the ancestors, they would not have been able to enter.

What is expected is that someone has already walked through the previous passage, and even if there are treasures, they have been taken away. If they enter a brand new passage, they will naturally get other treasures.

"Brother Shang, tell me what we are going to do."

With Shi Zhuqun's experience, everyone believed in Shang Wuji. "It is rumored that the prohibition on this stone gate will be calculated according to the strength of each person, and different results will be calculated. As long as everyone's attack is over, the arch will naturally open. It is better for us to make a shot together and break the prohibition together. This time, it is still

How about I come first?" Shang Wuji said.

Everyone naturally had no objection.

Shang Wuji stepped forward, a terrifying force erupted from his body, and he slapped him with a palm.

boom!

The arch shook suddenly, and after receiving the force, black bans appeared on it, and they soon went out again.

"next."

Shang Wuji retired, and at the same time warned: "Everyone, please do your best, because it is said that this arch will judge the strength of the treasure in the passage according to our strength and power attributes, and we must not hide it."

What's the matter?

Everyone looked at each other, Wei Xingguang and Yue Zhongkui did not come forward for the first time. This time, Qin Chen did not rush to do it, and finally watched Wu Huang at Wuyinmen's move.

Bang bang bang! As everyone took their shots time and time again, the arches really showed up a series of prohibited patterns, each of which was different, and the stronger the attack, the more profound and complete the pattern, like Shang Wu Bogey

Record the power attributes and strength of everyone.

However, for some reason, Qin Chen always felt a slight discomfort in his heart.

"There is little dust, the atmosphere of this place is too weird and it makes people very uncomfortable."

At this moment, You Qianxue said suddenly.

"Hey, I feel that way too."

"It's really uncomfortable."

Ji Ruyue and Chen Sisi also said.

Qin Chen was surprised, but he didn't expect You Qianxue and the others to feel this way.

"Three, this place is very weird, and I don't know how long it has been decayed. The space is very muddy and a little uncomfortable. It is normal. If you are afraid, you can get closer to the emperor. The emperor promises to protect several people."

A Tianjiao Wuhuang said proudly, with a self-confident expression.

Not to mention that the three of You Qianxue are beautiful and beautiful, each like a fairy. The status of the three is enough to make them fascinated and obsessed with them, naturally looking for opportunities everywhere.

In fact, many people had spoken up to the three of them before, but You Qianxue had ignored them.

This time, the result is naturally the same.

"Huh, these three people are from the Hall of Law Enforcement. What kind of perspective? I would rather follow a pariah from the lower four domains? I don't know if I wait for a look, on talents, talents, etc., should I wait than that one under the four domains? The untouchables are bad?"

A few people have their hearts and minds, of course, they just think about it in their hearts, but they dare not say it, they still have to show a gentle smile and keep their image.

Qin Chen didn't bother to pay attention to how others thought about himself. What he cared about was what You Qianxue said.

You Qianxue is an ice-snow divine body, Chen Sisi is a natural charming body, and Ji Ruyue, who also has a moonlight divine body, belongs to a natural physique and feels uncomfortable just like himself, which can explain the problem.

"When you take action later, remember to keep some strength." Qin Chen warned secretly.

You Qianxue nodded.

Soon it was their turn.

boom!

You Qianxue was the first to make a move, cutting out with a sword, the sword light soared, leaving an obscure pattern on the arch.

"hiss!"

Everyone took a breath of air and a sword, but the fluctuations formed were second only to the three late martial emperors such as Shang Wuji, making the other emperors feel inferior.

Next is Ji Ruyue, whose fluctuation is similar to You Qianxue.

The same goes for Chen Sisi.

Then Qin Chen.

"Chang!"

With a hand, it was weaker than Ji Ruyue's trio, but it was stronger than most of the others in the mid-term peak Martial Emperor.

"Huh, little white face!"

Everyone only saw that Qin Chen's fluctuation was weaker than that of Ji Ruyue's trio, and no one sneered. Qin Chen didn't care, and stepped aside.

### [Chapter 1513: Worm puppet](#)

Finally, the skeleton rudder master.

drink!

He took it out with one palm, so fast that it made people look at him.

"boom!"

The arch shook, and a pattern that was faintly bigger than the three of Shang Wuji appeared, making everyone stunned.

Click!

When the skeleton of the rudder master disappeared, the arch opened instantly, revealing a passage.

It really is.

Everyone was surprised and looked at Shang Wuji.

Previously, Shang Wuji said that the arch would naturally open after everybody slapped it. Everyone was still a little confused. After all, the normal prohibition must be broken forcefully before it can be opened. Who knows it is true.

Qin Chen also glanced at Shang Wuji, and had to say that the master of the Wuyinmen really had some means to understand the palace ruins so clearly that it was impressive.

It would never have been possible to do this without the existence of a top-level organ expert, or a master of ban or a master of formations, it would have been impossible to analyze so many things after only one visit.

"walk into!"

Shang Wuji led the crowd and swept in along the Shimen.

At the moment when everyone entered, the arches had already fallen again, Huaguang was restrained, and from the outside, there was nothing unusual. "Be careful, everyone. I don't have any information when I get here. However, according to the information from the master of the fog hidden door, there should not be too much danger in it. Everyone mainly looks for something similar to the stone room. It is very likely that there will be Treasures exist.

"

Shang Wuji said, this time, he also had no experience, and he seemed a little nervous, which made the atmosphere on the court tense inexplicably.

The ruins are very dilapidated, and the buildings inside are skewed. In some places, the ground has collapsed, and the inside is black and unfathomable. A glance will make people dizzy. I don't know what happened here.

Qin Chen used his soul power to sense, and faintly felt a trace of evil spirits, and there was a tingling pain in his soul power, and illusions and bad thoughts immediately appeared in his mind, somewhat similar to a curse.

"This place is unknown."

Qin Chen passed the sound to You Qianxue's trio, so they were always on guard.

"Master, there seemed to be a vague black shadow flashing past here just now."

The skeleton rudder master also said.

"There is a dark shadow?" Qin Chen was awe-inspiring, but he stared at him for four and a half days, but he didn't notice anything unusual, and he still didn't dare to care.

The Skeleton Rudder is a member of the alien demons, and his perception here is far more acute than him. What's more, the power of the opponent's soul is also terrifying, and he can see many things that others can't see.

"They come, the security!"

Along the way, I haven't encountered any danger yet, but Qin Chen doesn't believe that this place will be so peaceful. Misty Palace and the group of people in black must be in the depths of the ruins and have a certain purpose. Clues.

Although Qin Chen was vigilant, he was not the kind of person who was overly worried.

Along the walkable passage, everyone walked here and there, and soon came to the depths of the building complex, which was a corridor.

There are huge reliefs on the pillars on both sides of the corridor, which are very strange. They are strangely shaped insects. They are very realistic and lifelike. A pair of pupils are like blood and black gems, which are essentially different from stone pillars.

"Huh, these bugs again."

A Wu Huang snorted coldly, and said in disgust.

Ever since they came to this continent through the Rainbow Bridge, they have encountered a lot of strange bugs, brought a lot of trouble, and even lost many warriors. "These insects and beasts seem to be enshrined here as totems. I don't know what exactly this place is. Someone actually enshrines these insects and beasts. In the ancient days of our Tianwu Continent, it was not the blood beasts and humans who occupied the world, but This

Are some insects? "Wei Xingguang sneered.

Many people didn't know that this place was a foreign demon continent, and thought it was just an ancient secret realm of Tianwu continent hidden in the ancient Yu world.

The corridor is quite long, and everyone came to the center of the corridor without knowing it.

Click!

There was a faint voice.

"What sound?" Wei Xingguang stopped.

"Be careful."

The few people walking behind raised their heads and saw that the insect totem on the stone pillar to the right of Wei Xingguang opened their eyes as red light sprayed.

Boom!

The totem of insects and beasts jumped down from the stone pillar, and the forelimbs were like sharp blades, turning into double knives, slashing at Wei Xingguang's head.

This scene happened too quickly, and this double-knife insect beast seemed to have broken through the limitations of space and appeared above Wei Xingguang out of thin air.

Wei Xingguang is not a small character, he is also a top powerhouse of ancient Fangjiao. Before entering the ancient Yu world, he was a late-level Wuhuang. Now two years have passed, and his cultivation is already terrifying.

When it was said that it was too late, Wei Xingguang's body swayed slightly, leaving a lifelike afterimage on the spot. The double-knife insect beast slashed it off, and the afterimage was split into two and instantly dissipated.

"Dare to fight the emperor's idea."

Wei Xingguang shouted angrily, slashed out with a backhand, and with a click, the knife slashed on the beast. Numerous rubbles popped out. Half of the body was about to be cut off. The beast was lifelike, but it was made of rock. The puppet is average.

The insect beast was chopped by a knife, but he didn't care, swaying his about to break body, and continued to kill.

"Hurry up." Shang Wuji has rich experience. At a glance, the strength of this worm beast puppet is equivalent to that of an ordinary late martial emperor. Wei Xingguang is fearless because of his superb strength, but the worm beast totem on the corridor, More than tens, reaching hundreds, he

It is not an easy job for a group of people to face hundreds of insects and puppets.

Click! Click!

As soon as Shang Wuji's voice fell, the insect puppets on the corridor were resurrected one by one, jumping off the corridor and squeezing the corridor so that there was no way to the sky.

Cang!

Qin Chen swung his sword and slashed an insect beast. The stone skin on the opponent's body was very hard, but it cracked a sword mark, which was not much better than the real insect beast.

More importantly, these stone puppets are not afraid of the demon energy of the alien demon race at all, that is, the advantage of the skeleton rudder master can not be used here, and their advantage against insects and beasts has also been weakened by half.

"go!"

"I rely on, so much."

In the blink of an eye, everyone was surrounded by hundreds of insects and puppets. What kind of scene is this? No one didn't change color, everyone was shocked.

Everyone didn't care about fighting with the worm beast puppets, rushing all the way, the worm beast puppets blocking the road were lifted out one by one, opening up a passage for one person only.

"Everyone follow me and kill them. These worms and beasts puppets should only be able to move in the corridor. They can survive as long as they rush out."

Shang Wuji yelled and walked in the forefront, making a strong shot.

Boom boom boom!

The insects and beasts were shaken away by him, and they retreated.

Everyone is taking a strong shot, not dare to be careless. This is hundreds of insects and beasts. Once surrounded, no one can save them. You can only watch them be cut to pieces. How can you not be afraid? There was no danger before, but now it is enough to destroy everyone.

#### [Chapter 1514: Strange assessment](#)

boom!

In order to survive, everyone went crazy, displayed the strongest cultivation base, and showed their strength to the extreme.

At this time, everyone's style was exposed. Shang Wuji's attack methods are simple and unpretentious, not very vast or gorgeous, but very effective, just right, not wasting a bit of strength, nor wasting a bit of effort, while the palm of his hand was flying, a head of insects and beasts puppets were shaken off one after another.

It's easy to do. Wei Xingguang's rich experience is not under Shang Wuji. The quaint sword in his hand does not know what kind of material it is. It is heavy and has no sharp edge. It is very thick. It seems that the insects and puppets on both sides are cut and flew out. , Left large or small

The cutting edge, the rubble flew around.

Yue Zhongkui may seem inconspicuous, but in fact it is also very strong. His body strength is surprisingly strong, his footsteps are steady, and he takes advantage of his strength.

As for the remaining mid-term peak martial emperor, there are also a few Tianjiao, although the cultivation level is not in the late martial emperor realm, but the strength is not weak at all. During the shot, a head of insect beast puppet was smashed into flight.

One of the most eye-catching is an indifferent young man who is also a swordsman. His sword is extremely fast. It should be respected by speed. The insect puppets that rushed towards him were flew out by a series of sword qi bullets, dizzy.

But this is only a partial, there are still many mid-term martial emperors surrounded by many insects and puppets, unable to resist, and frequent wounds on their bodies, terrified.

Qin Chen walked at the back of the team, and the Skeleton Rudder was behind the team's nave.

With the strength of the five of them, they actually didn't care about these insects and beasts puppets at all, but among so many people, Qin Chen and his party naturally did not expose much.

Cang! Ji Ruyue and You Qianxue's sword aura bloomed one after another, and the sharp swords in their hands seemed to be swung out slowly and quickly. Every time they swiped, they were just right. It happened at the moment when the insect puppet was about to attack, so it seemed , It seems these insects

The puppets took the initiative to send them to the door to cut them, orderly and pleasing to the eye.

As for Chen Sisi, the magic power of the Phantom Demon Sect should not be effective against puppets, but after the actual use, these insects and beast puppets actually have their eyes twinkling, staggering, as if being confused.

"This....."

Qin Chen was surprised that Chen Sisi's natural charm was also effective against these insect puppets, which exceeded his expectations. Although it is not limited to race or cultivation base, these insects are monsters of the otherworld, not to mention, these are not real insects, but insect puppets. They can be charmed and born. The charming body is really scary

. The three of them shot frequently, and the surrounding insect puppets had no chance to get close at all, and there was a skeleton rudder master sitting behind, and one of the insects and beast puppets was shaken off between the hands. As a result, Qin Chen, who was in the middle of the four, was actually  
There is no room for use,

It's very relaxing.

"Damn, this little white face." When many Tianjiao Wuhuang saw this scene, he was suddenly vomiting blood. They wanted to take this opportunity to protect the three of Ji Ruyue, so that the three of them could look at themselves with admiration and show their power, but Instead of asking for help from others, the three of them are protecting

Protect the untouchables of the four realms.

In an instant, I suffered a 10,000-point blow.

People are better than people, this is really annoying. Qin Chen strolled in the corridor, because he didn't need much action, instead he had a chance to observe the surroundings. As he walked, he stared at these insect puppets. But when he watched, his brows suddenly wrinkled. Was seen by him

Some clues.

These insects and beasts puppets are extremely terrifying in strength. Each head is equivalent to a late-stage Martial Emperor. According to the truth, if Qin Chen and the five of them did not fully show their strength, their team would inevitably suffer heavy losses.

After all, most of the Wuhuang cultivation bases in the team are only at the peak of the middle stage of the eighth stage. Even if it is comparable to the late Wuhuang, it is only comparable. How can it withstand hundreds of insect puppets?

But the fact is that, with the exception of a small number of people who were injured, the vast majority of people were not in danger.

These worms and beasts puppets don't seem to be fighting life and death, but like...in the assessment!

Yes, it is the assessment!

Qin Chen suddenly realized. He finally understood why he had always felt weird. Although these insect puppets were fierce, in fact, they did not explode their strength to the extreme. They did not seem to be fighting life and death, but like an assessment. A

Human strength.

Combining the previous totem formations and mysterious arches, Qin Chen immediately transmitted to the Skeleton Rudder Master: "Yong Ye, are these insects and beast puppets evaluating our cultivation?"

"Master, it is indeed very similar." Skeleton Rudder Master also felt the same.

"Huh, what the hell?"

Qin Chen gave a cold snort, turned his head subconsciously, but saw that Shang Wuji at the front seemed to have discovered something. After observing everyone's shots, Qin Chen suddenly smiled after he was staring at him. Turned his head.

This Shang Wuji also seems to have discovered it.

The worm and beast puppets in the corridor are like tide water, and everyone is like an iron boat on the tide water, surmounted by thorns and thorns.

About half a cup of tea time passed, everyone finally passed through the corridor, turned around and looked around, all the insects and beasts puppets were frozen there, and then their respective lights flashed, merged into the pillars on both sides, integrated with the totem, regardless of each other.

"Everyone is okay?" Shang Wuji sighed with relief, his eyes swept around and asked.

"Can I be okay? I am not like some people, who are ashamed of being protected by women."

A Tianjiao Wuhuang gasped, with several wounds on his body, with deep bones visible. While healed, he mocked.

"That's right, dignified man, hiding behind a woman, what a skill."

"Lost the face of our major forces Tianjiao."

"I don't know exactly how I was selected to enter the ancient Yu world."

Other Tianjiao dissatisfied and said, with a look of disdain and mockery, of course more jealous.

Can you not be jealous?

They worked so hard to rush out, each wound was not light, the most serious one even almost fell, but Qin Chen? Being protected by the three of Ji Ruyue, they hardly did anything, but there was no injury at all.

Who can bear it?

"What nonsense are you talking about?"

You Qianxue snorted coldly, and drew out a sword. Clang, the icy chill spread out, covering the few disciples who talked coldly.

The atmosphere of the scene suddenly tightened. "Okay, when this is the time, everyone should stop quarreling. The insects and beasts puppets did not seem to have the intention to kill us, but seemed to be evaluating our cultivation. Otherwise, who could survive? At this time, how many people still say less Some. "

Shang Wuji hurriedly stepped forward to dissuade You Qianxue and said to You Qianxue: "This girl, calm down." His smile was very sincere.

#### [Chapter 1515: Soul worm](#)

"Hmph, dare to talk nonsense, Xiao Chen, I cut their tongues."

You Qianxue coldly snorted.

The few Tianjiao Emperor Wu had a gloomy expression, but they didn't dare to say a word.

"You just said that these insect puppets are testing our strength?" Wei Xingguang said suddenly.

"Yes, but this is just my suspicion, but looking at the previous situation, it is indeed very similar, otherwise, how can I rush out so easily?" Shang Wuji said solemnly.

Wei Xingguang and Yue Zhongkui looked at each other and both frowned.

"What the \*\*\*\* does this palace ruin want to do?" The two frowned, feeling vaguely before.

After an hour, everyone's injuries were all good.

"Everyone, go ahead, this place is full of dangers, I hope everyone can unite after the meeting, and don't make unnecessary conflicts anymore." Shang Wuji warned.

The previous insects and beast puppets should be just appetizers, there is no danger, but what will happen next, no one knows, if they are not united, they will undoubtedly die here.

Shang Wuji continued to lead the way, and he also believed that no one would make trouble at this time.

Through the corridor, everyone came to a central hall. This hall was just equivalent to an aisle resting place. There were some lounges on both sides. Everyone rushed in in surprise, but found that it was empty and there was nothing else inside.

According to this pattern, this place is more and more like a certain test place for the alien demons.

After a while, everyone left the hall and walked out directly from the passage in front of the hall.

As soon as they left the hall, everyone suddenly stopped.

What you see is a large stone forest, which is divided into two. The black stone path in the middle is the only road leading to the opposite side. In the stone forest, purple light is dotted and shimmering, as if countless fireflies are flying in it. .

eccentric!

The first feeling that everyone felt was weird. An inexplicable and dangerous aura appeared in everyone's mind, as if there was a huge mouth in the abyss ahead, and it would be life-threatening to walk in.

But everyone observed carefully, but they couldn't see any clues in the stone forest, except for the floating purple light in the distance, there was nothing else.

"How to do?"

Everyone looked at each other.

"What can be done, of course, is to keep going."

At this point, no one wants to retreat, let alone, is it safe to retreat? They didn't want to go to the corridor full of insect puppets again.

Without saying anything, Shang Wuji took a deep breath and stepped out.

On the quiet trail, the mist ahead is unfathomable, with dense stone forests on both sides, quiet and peaceful, with a trace of silence in the calm.

On both sides, there were purple spots of light fluttering, and when I walked in, I could see clearly that these spots of light turned out to be purple bugs, like fireflies, very tiny, and not dangerous.

Everyone was very nervous at first, but after walking for a long time, these purple 'fireflies' didn't do much, and there was no danger in the stone forest, so they breathed a sigh of relief.

"What a weird bug, is this the 'feature' here?"

A purple bug flew over from a nearby stone forest, about to fall on the shoulder of a martial emperor, glowing like a bean.

The Emperor Wu was taken aback, but it was too late to avoid him. He watched the purple bug fall on his shoulder without moving.

Everyone's hairs were erected, for fear that something might happen, as for the Emperor Wu, his face turned pale with fright.

But after a long while, nothing happened.

"Damn it scares me to death."

The Emperor Wu yelled angrily, thinking that the purple bug was a terrifying foreign object, but he didn't expect it to hurt at all, so he was so angry that he slapped it.

boom!

A group of strong purple light erupted, and the surrounding people were unsteady and couldn't open their eyes.

"what!"

The Emperor Jiaowu had already fallen to the ground in pain, half of his arm was completely gone, a piece of his shoulder was blown away, his face was burnt black, and blue smoke appeared.

He fell to the ground, rolling in pain, his face distorted, as if he had suffered an unprecedented hit and a roar of pain.

"Fu Kang, how are you?"

A Martial Emperor who had a good relationship with him rushed up and shouted anxiously.

But that person's complexion was distorted, as if he hadn't heard at all, his eyes were distracted, he rolled in pain, and he attacked indiscriminately in his hands, regardless of the enemy's attacks.

"Something's wrong, Fu Kang should be more than just a physical injury." Someone shouted coldly.

Although Fu Kang's injury was serious, he was only blown off his arm and half of his shoulder. No matter how painful he was, he was at the peak of his mid-term Wu Huang. How could he be in madness, unless he was traumatized mentally.

Qin Chen also stepped forward, swept away his mental strength, and immediately took a breath of cold air.

There is a missing piece in Fu Kang's soul sea, which is clearly the soul damaged.

The damage to the soul can be said to be the most serious damage to the warrior, which is almost equivalent to a delusion and it is difficult to cure.

"Fuck, these fireflies not only explode, but they also attack the soul."

Shang Wuji also seemed to have discovered the problem and yelled angrily.

"what!"

At this moment, Fu Kang rushed out madly, waving his sharp blade everywhere.

"Stop him." Shang Wuji was shocked, if he attracted other fireflies, it would be dangerous.

It's too late.

After the man rushed out, he immediately alerted the nearby purple fireflies, and several of them fell on him and exploded immediately.

Boom boom boom!

The purple light flickered and then annihilated. Fu Kang split instantly and turned into a corpse. One of the blown-out eyeballs fell on the ground, staring at everyone, as if telling a grievance.

"Quick, go!"

The crowd suddenly became agitated, and hurriedly began to rush along the Black Rock Path. The explosive power of this purple bug is terrifying. I'm afraid that a few purple fireflies can kill a mid-term peak Martial Emperor of Tianjiao level. It is so powerful, even for Shang. Wuji waiting for the late stage

How many heads can Feng Wuhuang block?

Moreover, this purple bug has the ability to attack by the soul. Once surrounded, who can stop it?

Whoosh whoosh...

In an instant, a group of people ran wildly.

"Master, this is the Soul Slayer!"

While flying, Skeleton Rudder opened his eyes and said with a trace of fear.

"Soul Worm?"

Qin Chen looked at it puzzled. A look of horror appeared on the face of the Skeleton Rudder Master, "The Soul Slayer is a very terrifying ancient fierce worm in the Alien Demon Continent. It specifically restrains our alien demons. When it explodes, it can form a unique soul impact, which can annihilate us. The soul of the family.

Moreover, if a soul-killing bug explodes itself, all other soul-killing bugs will be attracted. This is the soul-killing bug forest. Once a large number of soul-killing bugs are attracted, we all have to die. "

It was the first time that Qin Chen saw such a horrified look on the face of Skeleton Rudder Master.

"The soul-killing insects are ancient fierce insects. They should have been extinct long ago, but why did they appear here?" Skeleton Rudder Master said in horror.

### [Chapter 1516: Soul attack](#)

Not only the Skeleton Rudder Master was frightened, but Shang Wuji also had an uncontrollable fear on his face, shouting, "Quick, quick, quick!"

He has always been very calm, but before such a terrified Soul Killer, he could no longer calm down.

Everyone ran swiftly, but in front of them, suddenly there were patches of black mist lingering, forming a mist, in the mist, countless purple light spots were looming.

There are a lot of soul-killing insects in front.

Everyone stopped, their eyes horrified.

"Here, there are also on the left and right."

"Is this forcing us to retreat?"

"Can't retreat, a group of people came from behind."

An atmosphere of horror spread among the crowd. Everyone turned their heads and looked around, and they saw in fear that these purple spots of light appeared everywhere around the black stone path, densely packed, like stars in the sky, endless.

"Fight, rush forward!"

Shang Wuji roared, and slapped a palm toward the front, shouting, the strong real essence palm power was submerged in the mist like a stream of light.

Boom boom boom boom boom boom...

Continuous explosions resounded through the world, and the gorgeous purple halo illuminated the entire stone forest, and the mist on the black stone path was also swept away by the shock wave, and no obstacles.

Everyone looked forward and couldn't help but sucked in the air. They didn't see at the end. What they saw was an overwhelming purple bug. Among them were some huge purple bugs the size of a fist. The small needle-like eyes exuded a scarlet light. .

On the other hand, although there are many soul-killing insects in the rear, they are sparse, less than 1% of the front, and there are more soul-killing insects on the left and right sides than in the rear.

"Go back, shall we go back?"

"Don't go forward, you will definitely die."

"There are too many purple bugs in front. We can only go up to die."

Someone said in horror, the fear on his face gave birth to retreat.

"No, you can't retreat." Shang Wuji gritted his teeth. There was horror in his eyes, but his expression was extremely firm, and said: "I finally got here, how can I retreat? There are a lot of treasures in the palace ruins. We must Go forward."

"If life is gone, what use is there to ask for treasures?"

"I want to go back, Elder Wei, take us back quickly?"

"Yeah, it's too late not to go back."

Some people said in horror, an atmosphere of fear spread in everyone's hearts, their faces turned pale without the slightest blood. "Don't you even want the rule fruit? I have heard that in the depths of the

palace ruins, with rule fruit, for Emperor Wu, it is equivalent to the crystal of space to the king. Once absorbed, it is enough to make the peak of martial arts. The emperor became a powerful emperor, Jiutian Wudi, don't you just give up? "

Everyone was shocked, what could make everyone become the fruit of Jiutian Wudi's rules?

At this moment, both Wei Xingguang and Yue Zhongkui showed fanaticism in their eyes.

"Shang Wuji, are you sure?" the two shouted in surprise.

"How could I lie to you?" Shang Wuji said in a deep voice, "Otherwise I would have backed away."

"Then go ahead!"

Wei Xingguang was the first to vote and took a step forward.

"I also agree to move forward."

Yue Zhongkui's eyes flashed, and he said madly.

These three late Wuhuang have spoken, and the others naturally have no room to vote.

"Little dust." Skeleton rudder master looked at Qin Chen.

"Hehe, they are all going forward, how can we go back?" Qin Chen smiled, not only for the treasure, but also for the group of people in black. Qin Chen must also enter the depths of the ruins. At this time, Shang Wuji said again: "This purple bug should be attracted by blood energy. Everyone should try to condense the energy and blood. Be fast. Don't take it rashly. We can only take it when they get close. Of course, we must first That big group of purple

The color bug blasted away, otherwise we wouldn't be able to rush through. "

When the voice fell, Shang Wuji took the lead in going out.

Whoosh whoosh!

Everyone rushed and rushed forward. Soul Killer is a kind of fierce worm that is very sensitive to blood qi. Everyone's vital energy is used to make the blood qi more vigorous, and the attraction to them is undoubtedly huge. One by one flutters over, forming a large sky. The sky is full of light

point.

"Shoot!"

With Shang Wuji's yelling, everyone shot their hands. In an instant, countless streams of light surged, and various attacks such as sword aura, sword aura, and True Essence palms fell into the soul-killing insect swarm like streamers in the sky.

Boom boom boom boom... The flames enveloped everyone, and there was a shocking explosion in front. At the same time, Shang Wuji and others who rushed in the front had taken out various defensive soldiers with shields and protective covers. There are also all kinds of magic weapons like the canopy to resist the sweeping

Coming shock.

Because the speed at which these soul-killing insects gathered was too fast, they couldn't wait until the explosion was over before sending out. They could only rush over at the moment of the explosion to seize the time.

"Om!"

The terrifying shock wave swept along with the destruction of the soul, Qin Chen suddenly felt a little dizzy in his mind, but it was just dizziness, and the other things were fine.

The impact of these soul-killing insects on the soul seems to be limited in distance. The power of the explosion is enough to sweep out nearly ten meters, but the power of the soul impact can only produce an effect within one meter, so everyone has no particular damage. In the blink of an eye, everyone rushed out a lot of distance, but the various shields and other treasures that everyone took out were also broken and severely damaged, and they replaced other defensive soldiers. Here, the imperial defense soldiers seemed to become a consumer

Consumables are consumed all the time. Fortunately, the Tianjiao and the strong who can enter here are all from the top hand of the major forces. The top imperial soldiers are certainly rare, but like ordinary defensive soldiers, they are more or less there are few, so it's still strong

hold.

boom!

Suddenly, a huge explosion of several times broke out, and everyone's formation fell apart.

Qin Chen looked at it and didn't know when, those huge fist-sized worms with scarlet radiance in their eyes also joined the attack camp, and the explosive power was ten times that of ordinary soul extinguishers. After being dispersed, the crowd did not dare to neglect. Not only did the speed not decrease, but the speed increased by a secret method. Of course, everyone did not dare to hit the fist-sized Soul Exterminator. Don't open, but also send out one

Attack and shoot down the opponent.

"Ah!" At this time, the team also began to suffer casualties. Ordinary soul-killing insects could still resist the explosion, but those fist-sized soul-killing insects exploded, and the soul-destructive power released by them was even more terrifying. The man howled in pain,

As if going crazy, he waved his hands indiscriminately to attack, and even attacked his own people.

"go with!"

Wei Xingguang's gaze was cold, and he slapped one of the mad Wu Huang directly with his palm, and blasted him forward.

boom! The man rushed into the swarm, causing an explosion in an instant.

[Chapter 1517: Out of danger](#)

"Wei Xingguang, what are you doing?" Yue Zhongkui was furious, and the person Wei Xingguang shot into the air happened to be his disciple of Gui Yuanzong.

"What are you doing? When is this time? This person's soul is damaged, and there is no doubt that he will die. Even if he rushes out alive, can you save his injuries? It's better to use waste." Wei Xingguang roared with a grim look.

Yue Zhongkui silently, the next moment, he also moved, banging, and slammed a martial emperor whose soul was damaged in a mad attack, and flew him out, clearing a path ahead.

"Listen to me. If anyone is injured by the explosion of this strange bug and loses his mind, just wait to clear the way." Yue Zhongkui gritted his teeth.

Everyone was chilling, and at this moment they were facing not only the attack of the Soul Exterminator, but also the malice from the surrounding disciples.

It's too tragic.

For a while, everyone went mad, no one hid their strength anymore, and they all shot wildly.

Qin Chen walked behind the team and frequently fell into crisis, but he was keenly aware of them and avoided them.

boom!

Suddenly a fist-sized soul-killing bug exploded not far away from a few people, and an invisible soul impact swept across, directly at Ji Ruyue and Chen Sisi.

"Not good!" Qin Chen was shocked, his figure shook, and he stood in front of them. This was an instinctive reaction, because his soul power was definitely stronger than Ji Ruyue and Chen Sisi, if Ji Ruyue and Chen Sisi were shocked by their souls. In the blast, you will be seriously injured if you don't die, and

At least he can resist.

"Qin Chen!"

"Less dust!"

Ji Ruyue and the others hadn't reacted at first, and it was too late when they reacted. They watched Qin Chen stop in front of them, wrapped in that invisible power.

"Om!"

That terrifying force of destruction instantly filled Qin Chen's soul sea, and Qin Chen's soul sea instantly surged.

Pantheon!

Qin Chen used the Wanshen Jue to resist the impact, but this force was very unique, like a certain kind of vibration, directly shattering Qin Chen's Wanshen Jue's defenses.

"puff!"

A mouthful of blood spurted out, Qin Chen's face turned pale, and the soul sea was about to burst. Suddenly, the Qinglian demon fire in his mind filled with an invisible force, which instantly burned this destructive force.

This destructive power...

Qin Chen's mind was dull, as if a flash of lightning flashed across, as if he had touched something.

"Wow!"

At the same time, he spouted another mouthful of blood, but his face became a lot ruddy and he fell into a dullness.

"call out!"

Suddenly, a blade of light came violently, and instantly came to the top of Qin Chen's head, but an ancient school disciple not far away was very unhappy with Qin Chen along the way, and at this moment, he strongly attacked Qin Chen.

At the critical moment, Ji Ruyue slashed out with a sword, splitting a flying knife, and shouted angrily: "What are you doing?"

The man's eyes were cold, and he said: "This child has been injured by the purple monster, his soul has been damaged, and he has become a lunatic. If you don't kill him, can you wait to be killed by him?"

Ji Ruyue was very frightened, and at this moment, a cold voice sounded, "Who do you think is a lunatic?"

"Qin Chen?"

She was overjoyed, turned her head, and saw Qin Chen coldly looking at the person, it seemed that there was nothing serious about it.

"This....."

The others were stunned. When the purple bugs exploded, their souls would inevitably be damaged, but this kid, why did nothing happen?

In Shang Wuji's eyes, a glimmer of light flashed suddenly, and Wei Xingguang and Yue Zhongkui also silently looked at each other.

"Since your Excellency is okay, I was reckless before." The man snorted coldly, without a word of apology, and turned his head to continue rushing wildly.

"Little dust, are you okay?"

Everyone swarmed, and even the Skeleton Rudder Master looked at Qin Chen in amazement. His own master was too abnormal, but their alien demons would also fear the soul-killing insects.

"I'm fine, and I should understand how this soul-killing bug hurts the soul seriously, everyone follow me." Qin Chen smiled.

"Qin Chen." Ji Ruyue and Chen Sisi gritted their teeth and looked at Qin Chen, looking at Qin Chen's smiling face at this moment, and they were full of flavours in their hearts.

At the moment of danger, that moment appeared in front of them, preferring to risk their lives, rather than their injured figure being deeply engraved in their hearts, and they will never be erased in this lifetime.

"go!"

At this pause, Qin Chen and the others were already behind the team, and the others naturally didn't have the spirit to stay at this time. They took care of themselves one by one and ran wildly.

"Sword Realm!"

Qin Chen was instantly wrapped by dozens of soul-killing insects, running at extremely fast speed, Ji Ruyue's expression slammed, and the sword domain was strongly urged.

Puff puff!

Sword aura pervaded everyone around them, and all the soul-killing insects that approached were slashed.

boom!

Half of the soul-killing insects were detonated, but half of the soul-killing insects continued to rush because of insufficient power.

"Sword Realm!"

You Qianxue also hurriedly urged the realm of swords, and countless cold sword qi emerged, combined with Ji Ruyue's realm of swords, and slashed on the remaining soul-killing insects.

boom!

The remaining soul-killing insects were also blasted open at the same time, and everyone was completely wiped out.

"Unexpectedly, the Sword Realm has such a great effect!"

Everyone was overjoyed.

Normal space barriers, although capable of space binding power, are of no use to these soul-killing insects. These soul-killing insects seem to be able to travel through the void, and the constraints of the space barrier cannot restrain them at all.

But the domain of the sword is different. In the domain of the sword, a strong enough sword intent and sword aura can be formed. As long as it can be blasted before these soul-killing bugs approach, it can ensure that everyone is not harmed.

With the protection of the Sword Realm, Qin Chen suddenly felt a lot easier.

It's like a supreme truth, one thing drops one thing.

Ji Ruyue and You Qianxue were also extremely pleasantly surprised: "The Sword Realm actually has such a great effect!"

I didn't understand the characteristics of Soul Slayer before, thinking that the space barrier is invalid, and the sword domain should also be invalid, so I can't help but use it at this time. Who knows that the effect is better than imagined.

The only trouble is that the explosive power of the Soul Slayer is too terrible. It consumes a large amount of the true essence in Ji Ruyue and Chen Sisi all the time, which can easily cause the sword domain to be unable to display for a long time.

"go!"

call!

The five of them were surrounded by the sword domains of Ji Ruyue and You Qianxue, and quickly moved forward, quickly approaching the leading Wei Xingguang and others.

"what!"

The quick approach of the five Qin Chen quickly attracted the attention of others. Seeing that the Qin Chen and the others could easily kill the soul-killing insects that approached, ecstasy flashed across their faces.

Among them, Emperor Wu, who had attacked Qin Chen before, walked at the back, his face turned pale, and his body was wounded. If it were not for the difficult support, he would have already fallen.

Nevertheless, he has begun to despair, this black stone path seems to have no end, I don't know when it will end.

If this continues, he will be killed sooner or later. Seeing Ji Ruyue and the others so comfortable at this moment, there is no reason not to be ecstatic and not to care about other things. He shook his figure and rushed directly in the direction of Qin Chen and others, wanting to seek shelter.

#### [Chapter 1518: Return](#)

He was not the only one, and others approached quickly. Although some of them were not injured yet, who knew what would happen next. At this time, a shelter suddenly appeared. Who would be so stupid not to accept asylum?

Hum!

The Emperor Wu Tianjiao was about to approach, but unexpectedly countless sword auras swept over him and quickly forced him back.

"you!"

Wu Huang Tianjiao was suffocated and angry.

"Several people, everyone is in a team now, and should help each other." Wu Huang Tianjiao shouted coldly. "Help each other?" You Qianxue sneered. Earlier, Chen Shao was only affected by the explosion

of these little insects, so she wanted to kill Chen Shao. Just now, she didn't kill each other in the first time. She was already kind. Let the opponent enter the realm of this sword

, Isn't it a joke?

"Get away!" Ji Ruyue shouted directly.

"you....."

The face of Emperor Jiaowu was pale that day, and the faces of the others changed slightly.

"If we weren't there, could I just rely on a few of you to get out? Don't be too much." Someone sipped.

"Are we too much or you too much?" Ji Ruyue sneered: "What's more, why do we have to take more risks? Don't we owe you all?" "Well, everyone don't quarrel, so I promise for everyone Several people, if you find a treasure, not only will you be the first to choose, but you can also get 10% more, how about? Do you agree?" Shang Wuji is indeed an experienced person.

At this time, he knew how good it would be for everyone to fall out, and before coming in, everyone did not expect that they needed to seek asylum.

Everyone is a team, yes, but after all, they are not from one power. At this moment, when a certain power can protect others, the taste is different, and it cannot be generalized.

After speaking, Shang Wuji turned his head to look at the others, he believed that everyone would make the right choice.

"One more score makes 10%, but only for the first time."

Yue Zhongkui's eyes flashed and said first.

"Okay, I have no objection!"

"me too."

Wei Xingguang and others also said one after another, Heishi Xiaolu didn't know how long, they didn't dare to make fun of their lives.

"Let them in!"

Qin Chen confronted Ji Ruyue and You Qianxue, and it was not time to fall out.

Ji Ruyue nodded slightly, and a gap was opened in the boundary of the sword for everyone to enter.

Hum!

As soon as everyone entered, the Soul Exterminator followed their blood, but the sword domain had healed, and the Soul Exterminator that had approached was immediately cut off.

Maintaining the boundary of the sword, Ji Ruyue and You Qianxue led the crowd and continued to advance fast.

In fact, she didn't let other people in at the beginning. It was not for personal gain, but a principle. Everyone met right away. Although they took risks together, you came in if you wanted to. What do you think of them?

At this time, you can't back down without a single step. You must maintain your own force field. Without a force field, others will have to take it for granted.

As for irritating each other, Ji Ruyue didn't care at all. With the strength of their team, would it depend on the faces of others to act?

Everyone was protected by the sword realm, and they breathed a sigh of relief. Many soul-killing bugs couldn't get close at all, and they were slashed out by the sword aura, even if there were occasional soul-killing bugs rushing into the sword realm. , Will also quickly blast. The Emperor Jiaowu was in the team that day, looking at Qin Chen coldly, a fierce gaze flashed in his eyes, and said in his heart: "Then Qin Chen, I don't know good or bad, a little white face can actually confuse so many people. Don't know how to do it,

When there is a chance, I must kill him. With my qualifications, when Qin Chen dies, these three people will definitely be attracted by themselves, and when that time comes, they will directly reach the pinnacle of life. "

On that day, Emperor Jiaowu was healed while sneering at the corner of his mouth.

"Ah!"

When Qin Chen saw this, he smiled slightly, and his heart moved. The sword domain where the man was in suddenly cracked a gap, and several soul-killing insects rushed in and rushed towards the Emperor Wu.

"Be careful."

Everyone was shocked and hurriedly drank, and Wei Xingguang shot at the first time, banging, and smashing the bodies of the soul-killing insects, causing an explosion.

The terrifying explosion swept over, and was only a few meters away from the Jiaowu Emperor that day, and immediately wrapped him. Fortunately, the opponent's location was still a certain distance away from the soul impact, and it would not be affected.

With the cultivation base of Emperor Jiaowu that day, as long as the soul is okay, the damage from this explosion will only slightly hurt him at most.

But at this moment, a different color flashed across Qin Chen's eyes, buzzing, without seeing, an invisible soul wave burst out of Qin Chen's eyes, slamming into the body of the Emperor Wu.

boom!

That day, Emperor Jiaowu's mind was swept away by the explosion of a soul-killing insect, and it instantly boiled, blasted, and was blasted to the side.

"what!"

He screamed, his soul was wounded, his true essence disappeared instantly, and he was swallowed by the terrifying purple fire, and his whole body was burnt to black.

"what!"

The flames diminished, and this person screamed endlessly. Under the pain of his soul, he seemed mad, waving his sharp blade madly.

"what happened?"

"His position just now should be far enough away from the purple bug. According to reason, he won't be impacted by the soul attack?"

"Is there a special species among those purple bugs?"

There were discussions around, one by one, so I don't know what happened.

"It really works." Qin Chen watched this scene in surprise. He was just simulating the soul impact of the previous soul-killing bug when it exploded. He never thought that it had such an amazing effect and gave him another new soul secret skill. .

Huh!

The next moment, Qin Chen swung his sword directly, a sword light passed by, and with a puff, the head of the Emperor Wu Jiao instantly rose into the sky, blood spurted out several meters away, and then a few purple bugs flew over. Instantly exploded the Emperor Wu Huang that day into pieces.

"Qin Chen, what are you doing?"

Wei Xingguang exclaimed in anger, this person is just his ancient genius.

"What do you do? This person's soul is damaged and the waste is used." Qin Chen sneered, "Isn't this person doing this before? Ben Shao is just doing what he does."

"You..." Wei Xingguang was furious. "How could there be a gap in the Sword Qi barrier before? Did you do it on purpose." Ji Ruyue's face suddenly sank and said, "Elder Wei, you are boring to say that. , With so many bugs, how can I stop them when my cultivation base is low, there will naturally be fish that slip through the net, if Elder Wei can't believe us, it's better to leave early

Open, why not stay here. "

Wei Xingguang's chest rose and fell with anger, but could not say a word. Leaving the realm of swords, the disciples of his ancient teachings will inevitably be more dangerous.

### [Chapter 1519: Regular fruit](#)

In fact, anyone could tell that Qin Chen and the others were clearly deliberate before, but now they all rely on Qin Chen and them, naturally no one would speak for Wei Xingguang.

Even after Wei Xingguang's face turned blue and white, he could only swallow and swallow.

It's just that I feel a little unhappy in my heart.

But other people naturally had some unhappiness in their hearts. Now that Ji Ruyue and his party have already said a lot, Ji Ruyue and his party have gained 10%, and the other party is still such a whole person, it is indeed a bit past, but at this time, smart people will not speak.

The length of the Black Stone Path was beyond everyone's imagination. He flew a cup of tea in one breath without seeing the end. At this time, everyone's unhappiness disappeared. Compared with the 10% more harvest, they didn't lose at all. On the contrary, they still made a profit. Of this length, basically no force can pass safely. They have to pay some price, at least a few people. and,

This fashion has not seen the end, who knows how long it is.

The tragic death of Tianjiao Wuhuang before, can only say that he is seeking his own way.

Shang Wuji also had the same idea. He glanced at Ji Ruyue strangely, and then smiled at Ji Ruyue and his party: "Several people, thank you."

Ji Ruyue nodded, saying nothing.

After another cup of tea time passed, everyone finally saw the end, and let out a sigh of relief one by one, removing the previous depression.

Click!

At the end of the path, everyone fell down.

Looking back, many soul-killing insects flew around like headless flies, and it seemed that they could not sense the existence of blood. After a while, all the soul-killing insects dispersed and flew into the stone forest, disappearing.

"Finally passed."

Shang Wuji laughed.

"Your sword spirit enchantment is very special, is it a unique use after sword intent? Or, some kind of swordsmanship?!" There was a master swordsman in the crowd, looking at Ji Ruyue and You Qianxue with interest.

"Small carving skills are not enough."

The two smiled slightly.

Seeing that Ji Ruyue didn't want to talk, everyone didn't continue to question.

Thanks to Qin Chen and the others for this trip, it would definitely not be as simple as dying a few people. For that matter, the major forces have also suffered some injuries, and they began to cross their knees to treat their injuries.

Qin Chen didn't waste time either, he sat down cross-legged, recalling the feelings he had obtained before, that the soul fluctuations caused by the self-detonation of the soul-killing bug before, gave Qin Chen a lot of gains, and a lot of inspiration emerged.

After a while, everyone's healing was over.

At this moment, the original team of more than 20 people, and nearly 30 people, has been reduced to a team worth 20 people. Among them, Qin Chen and his party are five, Wuyinmen six, Guiyuanzong five, and ancient Fangjiao only four are left. , The biggest loss.

"go!"

Everyone continued to set off, and the extremely dangerous bluestone path fell behind them. What appeared in front of everyone was a very magnificent palace with its gate closed tightly and magnificent.

"open!"

Shang Wuji saw that the palace gate was not covered by restrictions, and patted the Sensen gate with his palm.

Rumble!

The gate of the palace that had been closed for endless years, opened in response, as if opening a door to the past to everyone. Everyone held their breath and stared at the opening palace unblinkingly. The gates of the palace finally opened. Suddenly, a pillar of true Qi light vented from the gate. How did everyone expect such a change, each one had no time to dodge, and was rushed by the pillar of true Qi light, but no one was injured.

I feel refreshed, this zhenqi light beam is not aggressive, and when it hits them, it is absorbed a lot.

"This is the true energy exuded by the real stone."

Yue Zhongkui called out in shock.

"How many true stones are needed to gather such a strong beam of true energy? The true energy consumed in my body seemed to have recovered a little in the punch just now."

Wei Xingguang also opened his mouth.

"Go in first."

Shang Wuji took a deep breath and walked into the palace first.

Everyone followed in.

The palace is not very big, it is very complicated and obscure around it, and there are cumbersome lines engraved everywhere, and the gloomy atmosphere is permeated, but it is washed away by a large amount of true energy.

In the center of the palace, a huge forbidden formation is depicted. The formation is circular, with countless patterns carved around it. It is extremely exquisite and attracts everyone's attention. It is not the formation, but the real stone pushed in the formation.

Real stone like a hill.

They were all top grades, beside the small hills of scattered real stones, there were seven or eight piles of blood crystals, each with nearly a hundred.

"So many high-grade real stones, how many should there be?"

"There are seven or eight piles of blood spar."

"It's a pity that there is no crystal of space, otherwise it would be perfect."

Everyone opened their mouths, and they were speechless. And what attracts everyone's attention the most is not this, but a tribute in the center of many real stones. On top of the tribute, a bright fruit is presented there. The fruit is like colored glaze. The void around it is distorted and beautiful. Huan, as different

General treasure.

The idiot can also see that this fruit is clearly the most precious of these things. In front of this fruit, the other real stones and blood crystals are eclipsed.

The power of the fruit dissipated, giving everyone a faint feeling of touching the Great Avenue of Heaven and Earth.

"This, could it be... the fruit of the rules?"

The hearts of everyone were violent.

Immediately one by one was extremely enthusiastic.

This is the rule fruit that can let the peak Martial Emperor master the power of the rule. With this fruit, the Martial Emperor can more easily enter the realm of Emperor Wu, how not excited.

boom!

Suddenly, Wei Xingguang moved, and his figure flickered, like lightning, and directly rushed to the position of the glazed fruit, but before his figure came close, he was blasted away by an invisible force.

The formation of this treasure before it has been in operation for many years, but it has not lost its effectiveness.

"Wei Xingguang, what do you want to do?"

Everyone was furious and looked at Wei Xingguang. Wei Xingguang cursed secretly in his heart. He originally wanted to grab the fruits of the rules for the first time, but now he can only laugh and say: "It's nothing, I just want to test the power of the ban. I didn't expect so many years. , Like

This is strong. "That's right. "Shang Wuji snorted coldly and looked at the crowd: "The top-grade real stone here, to be less, there are 500 million, blood crystals, 800 pieces, and a regular fruit. Why don't we allocate it now and wait until the allocation is over. Start cracking

Array prohibition. "

"It's not right." Wei Xingguang said at this time: "From my point of view, it is better to break the formation restriction first. After all, this formation restriction is so strong, who knows how much time it will take to break it? If it is allocated now, is it too I got a little irritable."

He said, looking at Yue Zhongkui.

Yue Zhongkui's eyes flashed and he also laughed: "I think so too. It's better to break the barriers of the formation first, and then talk about the distribution!" The two sides had differences for the first time.

### [Chapter 1520: Master of Forbidden](#)

Shang Wuji's expression sank. Wei Xingguang and Yue Zhongkui's actions clearly had ulterior motives. They could clearly distribute the treasures first, but they had to wait until the end to distribute them. What if there was a conflict?

It's just that there are four forces on the field. They are mainly him, Yue Zhongkui, Wei Xingguang and Qin Chen and his party in black. Now Wei Xingguang and Yue Zhongkui have reached a consensus. He can't say anything, he can only look at Skull Rudder. the Lord.

"Hehe, I also think that the two of them are right. The formation prohibition has not been broken, so they come to talk about the distribution. It is indeed a bit impatient. It is better to break the prohibition and then distribute." Skull Rudder said with a smile.

"What?" Shang Wuji was stunned, staring at the Skeleton Rudder Master in amazement, didn't he know what Yue Zhongkui and Wei Xingguang meant?

Once the formation restriction is broken and the treasures are piled up in front of you, whoever cares whether you have allocated them or not will definitely rush to grab them.

"Hahaha, your Excellency is really quick to talk, if that's the case, let's start to break the formation." Wei Xingguang laughed and started to take action.

"Wait." The Skeleton Rudder master suddenly said: "Since the allocation is made after the formation is broken, the allocated amount will naturally be re-divided on the original basis."

It turned out to have such an idea.

Wei Xingguang sneered in his heart, but there was no wave on his face, and said, "How do you say?" The skeleton rudder said with a smile: "Now there are four forces on the field. Originally, our distribution was about three, two, two, and two. , There is still 10% left. It is not easy to allocate for the time being. Since the next step is to break the formation, it is simple, if anyone is going to break the formation

The strength is the most, there is a significant improvement, then the last 10% will go to this person. What do you think? "

Wei Xingguang and Yue Zhongkui stared at each other suspiciously, and secretly said in their hearts, Is it possible that this person from the Hall of Law Enforcement has studied the formation method quite a bit, so they made such a request?

Hmph, I thought he was so kind, because he wanted to get 10% more. How could there be such a good thing. "It's just a small restriction formation, don't you need it? The emperor can break open in a few moments, why is it so troublesome." Wei Xingguang laughed, ignored it, and slashed at the restriction in front of him. Formation, suddenly rumbling

The sound was loud, and the swords were everywhere, and the power was rumbling.

It's just that the forbidden formation, and I don't know what level it is, it's incredible. Wei Xingguang slashed it, only to start the ripples, but the entire forbidden formation remained motionless.

What a strong banning formation! Everyone's expressions changed. Wei Xingguang was already ranked among the top four top masters. The Martial Sovereign who was close to the peak of the late eighth stage, possessed at least sixty or seventy powers in space. , This forbidden formation is not

The hair is not damaged, if you want to break open, how long will it take?

Boom boom boom!

Others immediately shot, and only after this shot did they know the power of the restriction formation. Everyone's attacks fell, and only the rumbling sound was heard, but the entire restriction did not weaken much.

At this speed, if everyone wants to forcefully break through this formation, wouldn't it take at least a month? It may not be broken.

How can this afford?

We must know that it has been more than two years since the opening of the ancient Yu world, and the remaining time, less than a year, spent more than a month on the battlefield, which is too extravagant.

But now that the treasure is in front of everyone, it is even more impossible for everyone to give up, let alone one or two months, even three or four months, you can only endure it.

"This prohibition is too abnormal."

"Who arranged it, the formation of ancient times, the power can be maintained to the present?"

"If you want to break it open, at least one or two months, there is not much time left before the closure of Guyu Realm."

Everyone looked ugly and kept making moves, but looking at the almost unchanged restraining formation, their faces became more and more gloomy.

"Forcibly breaking the formation is naturally very difficult, but if you find the right method, it will naturally save a lot of time."

At this moment, Shang Wuji suddenly said, he came to this forbidden formation, and seemed to be looking at something?

Wei Xingguang and others' eyes brightened: "Shang Wuji, do you have a way to break this forbidden formation?" "Shang is only slightly involved, and I don't dare to say that it will break open quickly, but there are many treasures in the palace ruins. , If you waste too much time here, it can be said that the gain is not worth the loss, even if it doesn't work, you have to try it." Shang Wuji touched the front.

Fang's forbidden formation, murmured.

Everyone showed disappointment. Since they are not sure, what are you talking about here?

Shang Wuji didn't care about it. He just continued to observe the restriction formation. He walked back and forth, as if tentatively, with his right hand resting on the formation restriction, and the formation restriction immediately fluctuated slightly.

Everyone's eyes condensed, revealing ecstasy.

Seems to work?

Qin Chen's gaze also condensed. This prohibition formation is clearly the handwriting of the ancient alien demon race, and it is very similar to the prohibition he has seen in the ancient southern capital and the secret realm of the heavenly devil. Didn't expect that Shang Wuji would have some research?

He suddenly smiled and said: "Unexpectedly, Lord Shang Wuji is still a master of alien restraint formations? It's amazing, it's amazing!"

Master of alien formations prohibition? What do you mean?

Everyone looked over in amazement, Shang Wuji also showed shock on his face, but he quickly converged, looked at Qin Chen in amazement, and frowned, "I don't know what Qin Shaoxia meant?"

Qin Chen wondered: "Does Lord Shang Wuji don't know?" He smiled: "This forbidden formation is very special. It is quite different from the normal forbidden formation in Tianwu Continent. As far as Qin knows, it should be ancient This kind of forbidden formation is very weird, even if it is left by the aliens who invaded our Tianwu Continent.

The formation masters of Qidian may not be able to crack it quickly, but Master Shang Wuji can find the key points of this formation restriction in a short time, which is really amazing! "There have been alien invasions in the ancient continent. Perhaps many people in the Northern Heavens don't know much about it, but all the major forces in the Martial Region know about it. That period of history is called the dark age of the Tianwu Continent. , Listen to what Qin Chen said

, Suddenly stunned.

"Boy, what do you know as a disciple of the four domains?" Wei Xingguang snorted coldly.

Qin Chen didn't take it seriously, and smiled: "Qin has seen this kind of forbidden formation in a certain ruin in the northern sky, and has studied it for a long time. Even if he doesn't know much, he knows more than yours. "

Shang Wuji looked at Qin Chen in shock, and said, "Qin Shaoxia actually has a research on this forbidden formation? Are you true?"

"This doesn't seem to be anything to show off." Qin Chen smiled faintly. "Great." Shang Wuji said in ecstasy, "Shang Mou was only lucky before, and he had touched some of the laws of the forbidden formation, but if he wants Shang Mou to break open in a short time, he will do everything. Not anymore. Since Qin Shaoxia has an understanding of this forbidden formation, it would be better to ask Qin Shaoxia to take action to break this forbidden formation."
