

Valkyrie Domination

Chapter 16 Training Tower

"Ohhhhhhhhhhhhhhhhhhhhhhhhhhhhhhhhhhh"

Wei Zhen's facial features were instantly squeezed into a ball of rags, his eyes were almost bursting, and he yelled miserably while lying on the ground. The sound was really sad for the hearer, and tears for the listener.

At this time, even idiots felt something was wrong.

"What's the matter, this is too mysterious."

"Wei Zhen is a mid-human martial artist. He has also awakened the power of the bloodline. How come he hit Qin Chen's leg twice."

"Evil door!"

The crowd around the audience showed surprise and said with a weird look.

"Little dust, you...you..."

Lin Tian and Zhang Ying were also stunned and surprised.

"Little bastard, wait, don't give me a chance, or I will want you to look good."

Wei Zhen rolled all over the ground in pain, and took a sigh of relief for a long time. He stared at Qin Chen with bitter eyes, wishing to slash Qin Chen with all his might.

Qin Chen had already turned around and left. Hearing this, he suddenly turned around. Wei Zhen's cold eyes made Wei Zhen shiver.

"Dare to scold me again, I will kill you!" Qin Chen said one word.

The voice was cold, as if it came from Jiuyou Hell. Wei Zhen originally wanted to yell at him, but I don't know why. After seeing Qin Chen's gaze, he couldn't help but shiver. The rest of the insults couldn't come out, and he couldn't help himself. Shivering.

Qin Chen sneered, then suddenly turned around and left the place in a stride, leaving a group of students stunned.

Seeing Qin Chen's back disappear from the line of sight, Wei Zhen's talents came back to their senses as if they were waking up from a dream.

"This little bastard." Wei Zhen took a breath, his eyes flashing with a sullen expression.

What is going on today?

Why was he beaten up on the duel stage not long ago, and almost killed Qin Chen who was in the past, his strength suddenly increased so much.

Wei Zhen recalled the previous fight, and still couldn't help but trembled.

Qin Chen's legs are almost like gods, and that superb skill, completely playing with himself in the palms, is not like a human-level early warrior can display.

"Big brother, big brother, are you okay."

Wei Zhen's three followers all got up from the ground one after another at this time and said in fear.

"You said I'm okay, don't hesitate to help me go to the treatment room, ah, my baby." Wei Zhen felt his broken egg, and howled in pain again, his eyes were resentful, and his heart snarled: "Qin Chen, wait, Wei Zhen must repay this grudge against me."

Getting rid of the four of Wei Zhen, Qin Chen walked towards the training room quickly, and Lin Tian and Zhang Ying also quickly followed up.

"Little dust, are you okay? Those few shots just now were so handsome."

Lin Tian and Zhang Ying said with excitement, they were still immersed in the process of Qin Chen showing off just now.

"Are you two okay?" Qin Chen gave them a caring look.

"We're all right, haha, this time is really cool, I think Wei Zhen and others will dare to trouble us in the future." Lin Tian looked excited.

After Zhang Ying was excited, she couldn't help but worry: "Wei Zhen is the son of Wei Qihou's family. There will be no trouble if Shao Chen beat him like that?"

"Huh, what can be the trouble." Lin Tian sneered: "Fighting between students is normal. As long as no lives are caused, the academy will not care at all, and Wei Qihou has nothing to say. Last time, Xiao Chen was in the duel stage. Wei Zhen got his hands down and almost killed him. The college didn't care about it."

Zhang Ying still has concerns on her face: "Wei Qihou and the college have no reason to do it. What I worry about is Wei Zhen's eldest brother Wei Zhen."

"he?"

Lin Tian's face also showed a dignified look. Wei Zhen was two years older than Wei Zhen. He was a disciple of the academy's advanced class. He was a master of the later stage of the human level. He was only one step into the prefecture level, and he was a man in the academy.

"Should he not make a move?" Lin Tian said nervously.

Wei Zhen is far more terrifying than other younger brother Wei Zhen, and the students in the academy are not afraid.

Qin Chen looked at the two people who were worried about him, his heart warmed, and said with a smile: "If Wei Zhen dares to move the rescuer, even his elder brother will be beaten."

"hiss!"

Lin Tian and Zhang Ying took a breath, both looking at Qin Chen in surprise.

Why haven't seen it for a few days, Young Chen has become different regardless of strength and temperament, causing the two to rise from the depths of their hearts to worship.

The three of them talked a few words, and soon all the way to the college training tower.

The tall training tower towers into the sky.

Qin Chen walked into it, and the voices of the people burst instantly.

The Tianxing Academy is the first college in the Great Qi State. In addition to Wei Zhen, Lin Tian, Zhang Ying and other royal officials and eunuchs, there are more talented disciples from all over the country. They have finally been admitted to the Tianxing Academy, and they are naturally reluctant. Give up great opportunities, many people will soak in the cultivation tower whenever they have a chance.

As a result, the room location in the training tower of the academy is always overcrowded and needs to queue up.

"Hey, isn't this Qin Chen who was beaten to death by Wei Zhen on the duel stage a few days ago? I heard that he is almost dying. In only a few days, his injuries have healed?"

"Shhhh, keep it quiet, I am An Pinghou's nephew, the grandson of King Dingwu, be careful to trouble you."

"Hmph, I'm still afraid that he won't be a child, he's just an illegitimate child, and I heard that he is almost sixteen years old and he has not yet awakened his blood. If he fails the college assessment soon, I am afraid he will be expelled from the Star Academy due to blood problems. The first person of the year."

"It's also weird. Those who can become a martial artist can awaken at least a first-grade bloodline even if their bloodline is poor. Those who can't even awaken their bloodline are really rare."

"Hey, I heard that he is an illegitimate child, he is inherited from the previous generation, not his cheap father..."

Many people in the crowd started whispering when they saw Qin Chen.

Qin Chen's special identity, and the fact that he has not yet awakened his blood, has long made him a well-known celebrity in the academy.

In particular, some civilian children were very hostile to the powerful children, and Qin Chen's affairs became the object of their rumors.

"You guys, what are you talking about?"

Lin Tian and Zhang Ying were furious when they heard the whispers, and they were about to step forward angrily.

Qin Chen stopped the two of them, then looked at the few people slowly, and then walked forward leisurely, directly in front of the group of them.

"what are you doing?"

"How to jump in the line."

"Do you know if you come first and then arrive."

Several people immediately screamed in dissatisfaction.

Qin Chen glanced at a few people faintly, his icy eyes with a palpable chill, causing the calls of the few people to stop abruptly.

"Let me hear a few words later, you guys don't stay in the Star Academy." Qin Chen said lightly.

His voice was calm, but there was an unquestionable aura.

A few people looked pale, and there was a hint of fear in their hearts, but under the gaze of so many people, they couldn't help but mumbled: "Why..."

Before he finished speaking, Lin Tian and Zhang Ying interrupted fiercely: "Huh, talk nonsense, talk nonsense again, believe it or not, beat you up."

The expressions of a few people changed drastically, but they didn't dare to speak anymore.

The Star Academy prohibits murder, but does not prohibit fighting, so there are countless students in private fighting in the Academy.

As for the duel stage, it is not even responsible for killing people.

The two sides really want to clash, Lin Tian and the noble children are nothing, even if they are expelled from the academy, they will not hurt, but the future of their civilian children is completely finished.
