

Valkyrie 1691

[Chapter 1691: Interrupt dog leg](#)

Everyone felt the killing intent of the Hall of Law Enforcement, otherwise, how could they say so much and just do it.

But now, they are furious, they are a little crazy, and their murderous aura is boiling to the extreme.

It was precisely because Qin Chen could not be found immediately, he could not vent, and the other party was still unscrupulously taking action, treating the Law Enforcement Hall as nothing, and the killing intent was condensed to the extreme.

"Search me. The other party just left here. I don't believe it. Where can he escape in such a short time?"

Emperor Wudi Anxu gave the order, angrily, ready to mobilize all nearby law enforcement halls and hidden forces to encircle, chase, intercept, and find Qin Chen at all costs.

"A few old things, what are your dogs barking? Young master, I am living well, and I want to continue to be invincible. If you wait, do you think you have a helper in the Law Enforcement Hall?"

"My Heavenly Dao organization is a hidden world organization, and it is rarely born. Young master, I immediately let a few members of my Heavenly Dao organization who have nothing to do and have the weakest cultivation base to be born, and do something to your Law Enforcement Hall, I tell you, you want Destroy our Heavenly Dao Organization, my Heavenly Dao Organization will be destroyed first!"

"If you have a kind, let the horse go. It's just a small law enforcement hall. It has a history of thousands of years. After being a dog of Shangguan Xier's **** for nearly two hundred years, he still learned to bite people, right? Dog legs."

Qin Chen challenged him and attracted the attention of the Hall of Law Enforcement.

After several trials, he has tested the abilities of the Dark Xu Wudi, which is indeed very strong, extraordinary, and cannot easily fight against him, otherwise he will be surrounded and fall into danger.

But as long as he doesn't come into direct contact with him, Qin Chen from other law enforcement halls is not afraid and can act unscrupulously.

"What? Is this person who has been fighting for the weakest person in the Heavenly Dao Organization? There are other masters in the Heavenly Dao Organization who will be born soon?"

"What is the origin of this Heavenly Dao Organization?"

"Is there really such a terrorist organization in this world, or is it just an alarmist talk?"

"Maybe it's just shifting the audience, it's impossible to have such a force."

Qin Chen's clamor spread, causing the whole Wuyu to be in an uproar.

If it is true as Qin Chen said, wouldn't this Heavenly Dao Organization be comparable to the top power in the mainland, extremely terrifying?

At least so far, people have more speculation that a certain top power is secretly stirring the muddy water, trying to use this method to deal with the law enforcement palace and the misty palace.

"Hehe, what a heavenly organization, it's extremely ridiculous. It's a thing that dares to make a move, but doesn't dare to show its true face. It only dares to use three indiscriminate methods. I don't know which force is pretending to be a ghost. You wait, you must tear away the disguise of you, and see what you really are, what kind of monsters and ghosts, and what origin."

In the Hall of Law Enforcement, a strong man spoke with a sullen face and sneered again and again, because the Hall of Law read through the files and found that there was no such a so-called Heavenly Dao organization in ancient times, but found some other secrets, but he was sure that it had nothing to do with this so-called Heavenly Dao organization. .

"If you have the kind, show me your face, sneaky, just knowing to pretend to be a ghost, and I will wait for the law enforcement hall to find out which force is behind it, and I will step down on your gate."

Another expert from the Law Enforcement Hall stood up and shouted coldly, indicating that the Heavenly Dao Organization was just a fake of a certain force and wanted to destroy the reputation of his Law Enforcement Hall, and no new expert would appear.

This is because almost all the information law enforcement halls of the emperor Wudi in the mainland are available. Even a hidden world powerhouse of a certain top power has experience in the mainland. As long as you take action and find clues, you can see the origin of the other party.

Therefore, if the Heavenly Dao Organization is really a secretly fictionalized by a top power, then the other party will definitely not dare to send other masters out, because this is too risky, as long as one misses it, it will be completely exposed and face the revenge of the law enforcement palace.

"It's ridiculous, the frog at the bottom of the well guessed that we were secretly fabricated by a certain force in the martial arts. It really is not knowing the heights of the earth. My heavenly organization has a long heritage and an extraordinary origin, but your law enforcement hall is ignorant. You wait, I have asked me to organize a few idlers out of the mountain , In a day or two, you will be beaten up in the Hall of Law Enforcement."

Qin Chen appeared again, he sneered, and declared war on the platform of Heavenly Dao organization and the Hall of Law Enforcement, very domineering and heroic.

Everyone was awe-inspiring, this was on the bar, and the two sides could not relax, they did not stop dying, and a big battle really broke out.

If the Heavenly Dao Organization mentioned by that person is true, then there will be a top powerhouse in two days, targeting the Hall of Law Enforcement, if it is true...

Many people from the top powers were ready to move, and suddenly felt that this was an opportunity, an opportunity for the Hall of Law Enforcement.

Maybe you can get some benefits from fishing in troubled waters.

While the major forces were about to move, the Hall of Law Enforcement moved, because Qin Chen appeared to speak, causing his position to be exposed, and some strong people immediately killed him.

boom!

Hundreds of thousands of miles in the void were boiling. Someone saw several terrifying figures piercing the sky and rushing to a certain place where Qin Chen appeared, making a powerful mess.

It is reported that in addition to Emperor Wudi Anxu, Qin Chen's successive provocations caused the Hall of Enforcement to be completely angry. He felt that the matter could not be dragged on like this, so he sent several giant-level experts to besiege.

However, this time they failed again.

boom!

Several horrible figures appeared.

Thousands of miles of void transpired, and this void was banned early. Several giant-level figures sat down and were murderous, but they didn't find Qin Chen's trace and were once again slipped away by him.

"Is this guy a loach?"

Emperor Wudi Anxu was furious. As the head of the penalty hall of the Hall of Law Enforcement, he had never been so aggrieved like this time. He was preempted by the opponent repeatedly and escaped from his fingers. It was too slippery.

"Hall Master Anxu doesn't need to care. More masters have been sent in the hall, so I don't believe that this guy who hides his head and shows his tail can escape several times."

The strong sneered, very confident.

Because, with Jizhou and Mingzhou as the center, within a radius of hundreds of millions of miles, several important branches of the Law Enforcement Palace have all come out, leaving only a few strong people to maintain the necessary order and intelligence exchanges.

For the rest, all the sub-temple disciples were mobilized to form a big pocket, enclosing the area of millions of miles, and it was impossible to escape with the other party's means.

This action was more severe than the destruction of the ancient Fangjiao at the beginning, and the strong gathered, obviously, it would not stop without killing Qin Chen.

Because Qin Chen's several provocations have completely threatened the dignity of the Hall of Law Enforcement, the Hall of Law Enforcement has been monitored. Because of the emergence of the so-called Heavenly Dao organization, the majesty of the Hall of Law Enforcement among the top forces has been damaged, and some forces are ready to move. , Watching the fire across the bank.

This is something that the Hall of Law Enforcement cannot tolerate. The Hall of Law Enforcement stands high. Once the majesty collapses, the consequences will be unimaginable. The order issued by the Misty Palace will also lose the possibility of completion.

[Chapter 1692: Run away](#)

Therefore, even if they are desperate, they must complete this beheading task, and they will never allow the other party to continue to arrogantly continue.

How many branches of the Law Enforcement Hall are in a region of hundreds of millions of miles? It can be said to be countless, can't catch a guy who hides his head and shows his tail?

In a forest a million miles away.

Qin Chen appeared.

He hid in a mountainside, very secretive, surrounded by the atmosphere of space, blending with the void.

Through some channels, he also learned about the actions of the Hall of Law Enforcement. Almost all the powerful people in the Hall of Law Enforcement gathered in this heaven to encircle this heaven.

"No, it's time to leave."

Qin Chen knew that the Hall of Law Enforcement had dispatched several giants, and once he found his trace, he would be really dangerous, and he would most likely stumble.

"Mokara and the others should also be in place. It's time to give the Hall of Law a heavy blow."

After that, Qin Chen sneered, contacted several Mokara and issued some orders.

As for himself, he thought for a whole night, and how to change his actions in order to teach the other party a lesson.

Nothing major happened that night, only the people from the Hall of Law Enforcement gathered quickly and searched this place.

Let all major forces pay attention to this place, the undercurrent is surging, and the atmosphere is very unusual.

Because Qin Chen said that in these two days, someone from the Heavenly Dao Organization will come out of the mountain and will fight against the law enforcement.

Everyone is waiting. This is an important piece of evidence to verify whether the Heavenly Dao Organization is genuine or not.

"The night has passed, has the master of the Heavenly Dao organization appeared?"

Outside, all parties concerned.

I don't know how many powers and terrible families are all eagerly waiting. There may be major events this morning.

If the Heavenly Dao organization makes a move, it will definitely be this evening. This is the best time. Once the Hall of Enforcement is mobilized, they will have no chance. The void will be sealed off by the Hall of Enforcement, and no fly can escape.

However, the red clouds on the horizon were gushing, and the waves in the martial arts were calm and there was no big news.

Then, the sun was shining brightly and the scorching sun was in the sky. It has been a long time, and it is still calm as water.

The intelligence networks of the major forces were all activated, but it was precisely known that nothing happened and it was very calm. Even the boy who had been clamoring in Mingzhou before that time disappeared completely, and no traces appeared.

"I said, this guy will not be a bluff, has actually escaped?"

At this time, countless people from all over the Wu domain were paying attention to this matter, but there was no movement at all?

The sun was scorching. Yesterday, Qin Chen challenged the Hall of Law Enforcement, saying that he would call the insiders of the organization to come out and attack the Hall of Law Enforcement. The news had spread to every corner of the mainland, and everyone was waiting to see the excitement.

However, no one appeared at all, and the Hall of Law Enforcement was as calm as water, not even a rat appeared.

"Old Fu went out specially and nothing happened. Is it interesting to lie to me a bad old man?"

Some people are dissatisfied, and they are the elders of some top forces. After hearing the news, they went out.

"What's this? I am a newcomer today. I have chosen the date. Upon hearing this news, I deliberately changed the day. The Daoist couple wanted to kill me with a knife, and let me see this?"

"It's not as true as the Hall of Law Enforcement said, it was a certain top power who deliberately gave eye drops to the Hall of Law Enforcement. Now that things are making a big deal, I am running away?"

"I just said, this kind of Heavenly Dao organization, I have never heard of it, how can such a force suddenly appear, it is too fake."

"I really believed him in evil."

Many people were dissatisfied and prepared to watch the excitement. Who knew it would turn out to be this.

Many people couldn't help but jumped out to express their opinions.

Normally, at this time, the Taoist organization should have jumped out early that day and made speeches, but now, it has disappeared, as if completely disappeared.

"It's gone, it's gone, there should be no good show to watch. I have a hunch that this farce should end."

"It's so hateful, this guy actually released the pigeons of the people of the whole martial arts, did he fail to mobilize the members of his organization, or is he a complete scam?"

"Does this still need to be said? It must be a person from some top power in disguise. Now that the matter is serious, I dare not show up."

"I heard that the Hall of Law Enforcement has secretly sent a lot of people to monitor the major forces in the Martial Domain. It depends on who can't help but show their feet."

Up to now, most people believe that the so-called Heavenly Dao organization was secretly disguised by a certain top power. Now that they refuted the face of the Law Enforcement Hall, it was time to retreat because they were afraid of causing trouble to the upper body.

"These guys are really liars, they are also top powers, they are extremely shameful, they dare not speak, they only know that they are nonsense!"

"Cut, what do you want the other party to do? It's amazing to be able to deal with two law enforcement halls so sneakily. Now the law enforcement hall is in full swing, do you want the other party to collide with the law enforcement hall frontally? I don't even dare to even Xuanyuan Empire."

"Forget it, forget it, it's just a farce ending. It's too speechless. Some kind of heavenly organization, acting for the sky, just shrunk like this. It really disappoints me."

Some people spoke very unpleasantly, because they were very disappointed, did not see a good show, and ridiculed them, feeling like they were cheated.

The people in the Hall of Law Enforcement were very stable. The area was sealed off and they were ready for a long time. They waited for people to attack and made some protection. As a result, everything was calm as usual.

"Heh, what kind of heavenly organization, I finally know that I am afraid, and I have become a tortoise."

The people in the Hall of Law Enforcement spoke, and the words were even more ugly.

However, they did have the confidence, disdain, arrogance, and contempt, and they just waited for the so-called Heavenly Dao organization to appear, but they did not wait for anything.

There are too many powerful people in the law enforcement hall in this area, and even if a top force makes an all-out effort, they are confident to block the opponent's attack.

"The Heavenly Dao Organization is just a liar."

Outside, many people are dissatisfied.

"Hey, what about the person who has been clamoring before? How come there is no news, it is not scared to show up, right?"

"What are you calling? The other party ran away a long time ago, and the soles of their feet were oiled. Everyone knows that the Hall of Law Enforcement is really angry. Don't you want to run and wait for death?"

Many warriors made speeches to vent their dissatisfaction.

"Haha, that guy before, where's the organizer you called? Nothing happened, my law enforcement hall is waiting for you, do you dare to come? Ha ha, brave rats!"

Someone in the Hall of Law Enforcement sneered, becoming more domineering.

At this moment, Qin Chen ignored the noise from the outside world, but arranged traps everywhere and set up formations one by one, very cautiously.

At several critical moments in this million-mile area, Qin Chen set up a terrifying formation, and even the void was not let go.

In the end, Qin Chen escaped here and came to a mountain range a million miles away.

Is it here?

Qin Chen murmured, according to the news he inquired, this is a very important stronghold of the law enforcement hall, very crucial.

[Chapter 1693: Yanlong Wudi](#)

Outside the mountains, Qin Chen looked around.

The whole mountain range is very impressive.

Qin Chen sneaked into it carefully, and when he saw this place was very extraordinary, he was shocked.

"It seems that the news I got before is indeed true."

Earlier, after beheading the two main hall masters of the Law Enforcement Hall again, Qin Chen forcibly searched for his soul.

But the same, without success, was blocked by the Forbidden Soul Curse, and annihilated the souls of the two main hall masters.

But Qin Chen didn't get nothing. At the last moment, he got the position here from the mind of one of the sub-temple masters, hidden in the depths of his soul, and was finally intercepted by Qin Chen.

Although Qin Chen only obtained some scattered fragments, after analysis, Qin Chen discovered that this place is likely to be an important stronghold of the Law Enforcement Palace, dedicated to cultivating elites, so it is very important and belongs to the top secrets. Speak out.

This made Qin Chen overjoyed.

The secret training camp is the place where the Law Enforcement Hall is dedicated to cultivating the top elite masters.

Generally speaking, all the top geniuses in the First World of Martial Arts will be selected here for training, which is equivalent to a genius camp.

Such as Ji Ruyue, as well as the previous Ba Leng, had joined this training camp and stood out from the crowd.

It can be said that this is the core elite training place of the Hall of Law Enforcement, and it will cultivate the senior level of the Hall of Law Enforcement in the future.

Therefore, even if something as big as the Tiandao organization happened, the characters here were not recruited to Mingzhou, but continued to train here. Only a few top martial emperors left here and went to Mingzhou to hunt down Qin Chen.

"Today, I finished this genius training camp in one fell swoop."

Qin Chen sneered, and wiped out the several branch halls of the Law Enforcement Hall, and the Law Enforcement Hall would not feel distressed, but was just embarrassed.

Because there were too many sub-halls in the Hall of Law Enforcement, Emperor Wu was not a big deal in the Hall of Law Enforcement in the early days.

But this genius training camp is different. It gathers all the elite disciples of the Hall of Law Enforcement in the First Heaven of Wuyu. In the future, more than half of these people will become the upper level of the Hall of Law Enforcement. The headquarters of the Hall of Law Enforcement was even selected into the Misty Palace.

If this place could be wiped out, it would be an extremely painful blow to the Hall of Law Enforcement.

"You can do it."

Qin Chen quietly escaped into the mountains and began to search for the whereabouts of the secret stronghold. At the same time, he sent a message to Mokara and others.

Outside of several important branches of the Law Enforcement Hall tens of millions of miles or even tens of millions of miles away, Mokara, Skeleton Rudder Master, and Ancient Cangwu Emperor received news at the same time.

"Jie Jie Jie, the master finally ordered."

Mokara licked his tongue, his tongue was blushing, and he was full of demonic energy, and rushed directly into a magnificent building in front of him.

This is the most important branch of the Hall of Enforcement in the First Heaven of Wuyu. It can be called a bronze wall and an iron wall. The strong are gathered. In normal conditions, there is a late Wudi giant and several mid-term peak Wudi. They govern many branches in the same heaven. temple.

But because of Qin Chen's actions in Jizhou and Mingzhou, his top giant led many powerful men to Mingzhou as soon as possible, making this branch very empty.

And Mokara took this opportunity to directly kill in.

"kill!"

It grinned loudly, like a demon god, broke into this important branch, and killed it.

Mokara is a strong ancient alien demon race. Although he has been sealed for many years and his cultivation base has not been fully restored, after this period of cultivation, coupled with the nourishment of ancient source beasts, he has now recovered to at least the later Wudi cultivation base.

Even if the giant of the law enforcement hall of this branch is here, Mokara dare to compete, not to mention that the branch is very empty at this moment, and there are only two or three strong ones left.

It entered, and the pitch-black palms fell directly, blasting the entire section into ruins, killing at least a thousand people in an instant, and blood flowed into rivers.

"Who, dare to break into the branch of my law enforcement hall!"

Seven or eight figures rushed out, exuding a terrible aura, roaring to the sky, each of them was a powerful emperor.

They are the masters who stayed to sit down, the strongest among them is a mid-term peak martial emperor, another mid-term martial emperor, and five early peak martial emperors.

The leading person, with knotted muscles and eagle-like rays in his eyes, was furious, and immediately slammed towards Mokara.

boom!

Seven people shot at the same time to form a battle formation to kill Mokara.

"Quack, good coming, dare to offend my Heavenly Dao organization, the old devil, today, I want to destroy your law enforcement hall branch."

Mokara laughed fiercely and killed him.

puff!

With just one punch, the formation of seven people was exploded, vomiting blood and retreating. Among them, two Wudi with weaker cultivation base broke their bodies and turned into blood mist.

what?

All the martial artists in the Hall of Law Enforcement below were frightened. With just one punch, they broke through the joint efforts of Emperor Wu of the branch, and also directly killed two of them. Even the strongest Yanlong Wu Emperor was also blown up, and the corners of his mouth were bleeding. How could it be so terrible?

"quack!"

Mokara wouldn't care about the shock of this group of people. His task was to destroy this branch of the Law Enforcement Hall, without giving the other party a chance to breathe, and then went in again.

boom!

It did not retain its strength, did it quickly and accurately, and made the first shot, entangled with the remaining five people.

"Kill!"

The lead Emperor Yanlong Wu went crazy, his eyes were red, and he charged up.

This is the most important branch of the Hall of Law Enforcement in One Heaven, how could it be destroyed in his hands.

For a time, shouting to kill the sky, tearing the sky apart.

But Mokara was not afraid, just for a moment, he beheaded these martial emperors, covered in blood and laughter.

Not only here, but in another branch, the Skeleton Rudder also moved, attacking strongly and launching a thunder attack.

But the ancient Cangwu Emperor, with the weakest cultivation base, could only target the sub-temples below, and began to sweep away.

For a time, the war broke out and blood flowed directly into the river.

Originally, it was extremely difficult for Mokara and others to destroy these branches and sub-temples, and it was definitely not easy to do, even if they were strong.

But now, in the entire Martial Domain, almost all the top powerhouses have been attracted to the vicinity of Mingzhou, encircling Qin Chen, leading to the emptiness of the major branches and temples, leaving only two-tenths of the powerhouses left.

Facing such a powerful person as Mokara, these people are simply destructive and have no resistance.

In an instant, two branches and one branch hall were destroyed and turned into ruins.

After that, Mokara and the others continued their actions, rushing to the nearest branch and sub-temple, carrying out a lightning attack.

Because of Mokara and the others, the entire army was destroyed every time. This also led to the fact that after Mokara and the others had destroyed several branches and a large number of sub-temples, the matter was discovered and spread out in an instant.

[Chapter 1694: Damn it all](#)

"Oh my God, have you heard that many branches and sub-halls of the Law Enforcement Hall of Wuyu Yizhong were attacked, and they were bombarded into ruins. Nothing was left, blood ran into rivers, and countless casualties."

"It's the people of the Heavenly Dao organization who made the move. It is said that all the branches and sub-temples that were destroyed have erected a stone tablet with the words Heaven and Dao written in blood."

"Hey, is there such an organization?"

Suddenly, the entire Martial Domain was quiet, and for an instant, all the major forces were shocked by the news, and there was no sound.

At the same time, the news came back to the headquarters of the Hall of Law Enforcement and Mingzhou where Emperor Anxu Wu was located. All the strong people in the Hall of Law Enforcement went crazy.

"Ah! Heavenly Dao organization, my law enforcement hall is not at odds with you."

The roar of anger resounded throughout the world, the sky exploded, and a raging fire was burning.

They searched for Qin Chen's traces here, wanted to encircle and suppress the Heavenly Dao organization, and at the same time, waited for the so-called Heavenly Dao organization's attack.

As a result, they were very quiet here, but the branch thousands of miles away was attacked.

Moreover, the consequences were very serious. It seemed that many powerful players took action at the same time. Before they could react, several branches and a large number of branch halls were swept away. At the same time, the contents were looted, and the explosion was too sudden.

These powerful men broke out of **** like a bloodthirsty demon, and suddenly slammed into the branch of the Law Enforcement Hall in Yizhong, and many industries suffered a devastating blow.

Some branches exploded on the spot, were completely destroyed, razed to the ground, and turned into a pile of rubble.

Moreover, many of their branches are cultivation secret realms, but they are also disintegrated under attack, completely destroyed, and can no longer be established.

This is a group of fanatics who came specifically to destroy their law enforcement hall branch and branch hall. It was crazy.

For a time, the Hall of Law Enforcement was overwhelmed, and all kinds of urgent reports flew like snowflakes. They were too dense and too many. They were strong in the organization, but their families were big and powerful, and they were all over the place.

Nowadays, some important places are actually being uprooted, and they can't support them.

More importantly, because a large number of forces were attacked at the same time, and no one was left alive, they didn't know how many units the other party was divided into and how many people there were in total.

"Heavenly Organization!"

Someone roared and shook the firmament, and the clouds in the sky were blasted through.

What is the situation, is there really a heavenly organization in this world that dares to resist their law enforcement palace? The Hall of Law Enforcement can hardly believe it.

Because they got news that the major forces that were secretly monitored had not been dispatched by the strong, and they were very quiet.

This makes them horrified, and their hearts tremble.

"Be sure to find out the origin of the other party and check it out for me!"

The headquarters of the Hall of Law Enforcement was furious, and even Shangguan Xier of the Misty Palace was shocked and furious.

At the same time, the headquarters of the Hall of Law Enforcement gave an order to Emperor Wu Anxu to send people back for rescue.

"Quickly, you guys, go back to the rescue!"

The emperor Anxu, who received the news, hated him, vomiting blood on the spot, and became angry.

He ordered the masters of those branches to go back quickly and provide support, and he was full of murderous aura.

Because, if he hadn't mobilized the top masters of several branches to travel tens of millions of miles to Mingzhou in order to catch the people of the Dao organization, how could such a consequence be caused?

However, this group of masters left Mingzhou and suffered heavy losses.

boom!

A big explosion suddenly occurred in the territory of Mingzhou and in the void. After the team in the Hall of Law Enforcement passed by, a terrorist formation suddenly blew itself up, producing terrible lethality.

In an instant, thousands of law enforcement disciples fell and tens of thousands were injured.

In the air, there was blood mist floating everywhere, like a sea of blood.

"what!"

Wudi Anxu was furious, and he was going crazy, the terrible impact blasted the surrounding mountains to pieces, black hair flying all over the sky, and blood was vomited again.

He knew that he had been hit again, and the other party had known that they would be the first to rescue him, set up a formation in the void, and waited for them to take the bait.

Although, because there are a large number of masters, the loss of manpower is not particularly exaggerated, only thousands of people have fallen.

But this pair of law enforcement halls was just a naked mockery, too shameful, and gave a blow.

"Heavenly Dao Organization, you wait for me. When I get you out, I must let you know what regret is."

Anxu Martial Emperor roared, never as angry as he is now, his eyes are red, his whole body is bloody, and he is going crazy.

But in the Hall of Law Enforcement, when the major forces in the martial arts were shaking and silent.

In that mysterious mountain forest, Qin Chen is moving forward.

It was night now, with an indifferent killing intent on his face, and after searching for it, he finally reached that mysterious secret realm.

Here, there are many prohibitions everywhere, very cold and terrifying, belonging to the nine-level prohibition, which is extraordinary.

Because this is the elite training camp of the Hall of Law Enforcement, it is very important, and the defense is not weaker than the most important branch of Wuyu Yizhongtian.

Even if a late Emperor Wu comes here, he may not be able to break in silently, because there are too many traps here, full of restrictions and crises.

Unfortunately, what they met was Qin Chen.

Without disturbing the opponent, Qin Chen quietly broke the restriction and sneaked into it easily.

Today, there are not many restrictions that can stop Qin Chen. If it is the headquarters of the Law Enforcement Palace, Qin Chen may still be a little jealous, but even if it is terrible, Qin Chen does not care about a training camp for the elite of the first heaven.

Because these restrictions are insoluble to others, but they are nothing to Qin Chen.

In the depths of the secret realm, the mountains are magnificent and the old trees are in pieces. Under the dim light of the secret realm, it is very magnificent, without losing the meaning of beauty.

Moreover, the zhenqi here is very rich, the zhenqi transforms into a mist, and there are traces of primordial essence condensing in the body while breathing, and the cultivation is too fast.

This is a top secret realm that was captured by the Hall of Law Enforcement. As a place of secret training, the people and organizations who knew this place were destroyed by the Hall of Law Enforcement and became the place of the Hall of Law Enforcement.

But now, Qin Chen broke in, stood on a high ground, and quietly observed.

He saw in the depths of the secret realm, there were many people, with extraordinary auras and amazing talents.

These people were murderous and very cruel. They practiced magic skills and exuded a cold air-conditioner. Moreover, Qin Chen vaguely felt that there was a special aura here, coming from a strange demon race.

"Sure enough, the Hall of Law Enforcement has colluded with the alien demon race, and there are experts from the alien race here to train masters for the Hall of Law Enforcement and make these elites practice magic skills."

Then, Qin Chen saw countless corpses and corpses in a valley.

These people were all masters sought from the mainland by the Hall of Law Enforcement. After being imprisoned secretly, they were brought here to let these elite disciples fight and kill them cruelly.

Because, the Hall of Law Enforcement knows that mere practice can not cultivate masters, only life and death can cultivate genius.

And these people have become innocent burial objects.

"These people deserve to die."

Qin Chen was murderous, and the Hall of Law Enforcement was too vicious. He actually used his life to let his disciples practice, just to improve his strength, which was too cruel.

[Chapter 1695: Send you on the road](#)

Seeing this, Qin Chen had no scruples at all, and all these people were going to die tonight.

However, he didn't do it right away. The main target was the top powerhouses sitting here, as well as the masters of the alien demons!

As for these ordinary geniuses, there is no fear at all, they can be killed easily.

Qin Chen moved forward like an experienced lone wolf, crossing the mountains and forests, avoiding external cultivators, and his soul power was mobilized to the extreme.

In the deepest part of the mystery, the richness of energy is even more amazing, and it is really weird, with black magic lingering around, and ghost-like figures hidden in the dark.

It is a member of the alien demons.

The breath of these people is very special, converging the demon energy on their bodies, as if they merged with the heaven and the earth, transforming the demon energy of the alien race into the common magic aura on the Tianwu Continent, hiding their body shape.

However, their bodies are as evil and hideous as an abyss, with a violent aura permeating and converging in their flesh and blood.

This is a group of people with alien demon blood cultivating, trying to transform the breath of alien demon into the magic power of Tianwu Continent. Once they succeed, they can walk on the mainland in the future without revealing their identity easily.

Qin Chen ran the Nine Star God Emperor Art, using the rules of space to the extreme, shutting his own vitality and staring at them, his figure was like the void of air, blending into the heaven and the earth, blending with the night, he was looking for the strongest in this place.

At the same time, the Summoning Demon Cauldron also appeared, and Qin Chen's palm appeared silently, which was prepared for the strong alien demon race.

Compared with the human powerhouse, the alien demon race has too many methods, and there are many ways to escape. He must destroy the entire army in this place and cannot give the opponent the slightest possibility of escape.

Otherwise, under normal circumstances, he would not easily expose this treasure!

With the terrifying soul power of Qin Chen now, it was only after a long time of observation that he sensed a wave of faint to almost nothingness, and it took a long time to discover a man in black dormant in a void in the depths of the secret realm.

He didn't do anything, frowned, felt again, and then found two terrifying auras in the other two places in the secret realm, the cultivation level was amazing.

At least the mid-term Martial Emperor level powerhouse, there are three people, the aura in the body is extremely strong and exuberant, but it has not leaked out.

In particular, the powerful alien of the Demon Race, with a trace of evil aura, is much stronger than the ordinary middle-term Martial Emperor, very terrifying and intimidating, and a formidable enemy.

Sure enough, the Hall of Law Enforcement places great importance on this place, even if this is the case, there are three mid-term Wudi sitting here, almost no weaker than the branch of the Hall of Law Enforcement in the world.

After that, Qin Chen was silent and began to put down the formation flags on the periphery of the distant secret realm. He was arranging formations and was not ready to let go of one.

Time is running out, he has no time to lay out too complicated formations, but it is enough to block ordinary genius disciples. As for the three terrifying powerhouses, Qin Chen has the Tiankong Wanzhuan formation in his hand, which is very sure.

In addition to these three top powerhouses, there are more than one hundred talented disciples of the Law Enforcement Palace, most of whom are young, with amazing talents, and all of them are good seedlings.

Among the weakest, only the peak Wuwang's cultivation base, and the strongest, close to the late Wuhuang.

As for the early Emperor Wu, there were none at all. Perhaps the Hall of Law Enforcement knew clearly that with these three people in town, the presence or absence of the Early Emperor Wu had no influence. Therefore, the original Emperor Wu was sent to Mingzhou to search for Qin Chen.

"It's time to get you on the road!"

Finally, Qin Chen moved, like a ghost, broke into that piece of demon energy, silently approached the position of the strong alien demon race, and then broke out into trouble.

In his hand, the mysterious rust sword appeared, and a piece of it was pierced out, and directly used the sword of death, slashing at the man in black.

I have to say that the black-clothed men of the alien demon sent by the Hall of Law Enforcement to sit here are terrifying, with extremely keen perception, and their soul power is always paying attention to the surroundings. In an instant, he sensed Qin Chen's murderous intent and quickly avoided.

The main reason is that he is a purebred alien demon with terrifying soul power. The most proficient in this kind of assassination is spotted on the spot.

At the same time, his own strength is also very outstanding. On the battlefield of humans and demons, he once killed many human martial emperors. Although the cultivation level has not been restored to the peak, the intuition is still there. He was transferred here to train a training camp. .

He avoided this fatal blow while not letting it happen, which surprised Qin Chen.

boom!

The sword light rose up, cut through the void, swept out, almost swept past the side of the man in black, a blood streak was drawn on his face, and then fell into the air, and fell on the ground not far away, directly blasting the ground. A huge gap was opened, and the earth broke apart.

The shot fell through.

However, Qin Chen had been prepared for a long time, and was not surprised. Using one of his strongest methods, Fan Tianyin appeared in his left hand and directly smashed the man in black.

Because Qin Chen had a hunch, he judged the possible consequences in advance, and followed up while piercing the air with a sword.

Hum!

The black big seal spun crazily, swelled in an instant, turned into a tens of feet in size, and fell down. Beneath the big seal, a terrifying black vortex was formed, almost confining the man in black in this void.

The black-clothed man's complexion changed, the divine light in his cold eyes skyrocketed, and his robe shattered, and his whole body was so devilish that he no longer concealed it. The swelling body turned into more than two meters, and his figure rose into the sky. To get rid of the bombardment of Fan Tianyin first.

However, Fan Tian Yin is really terrifying. After being refined by Qin Chen several times, his power has become stronger and stronger, and under the urging of Qin Chen's space rules, it has the effect of confining space, creating an excellent opportunity for Qin Chen. .

The demon-suppressing cauldron on Qin Chen's head moved, and then the cover was pressed down. The pitch-black cauldron revolved, containing endless murderous intent. You know, this is a human treasure that specializes in killing alien demons on the battlefield of the heavenly demon secret realm. There is a natural restraint.

The man in black was horrified, when the Demon Cauldron of the town approached, the blood in his body seemed to be suppressed, and the devilish energy poured back, which was terrible.

boom!

The next moment, he burst out with black magic light, and he didn't even have time to say a word. The endless magic energy rose from his body, soaring into the sky, and the magic power was overwhelming.

Moreover, his eyes exploded with cold light, and directly released a terrible soul-killing attack towards Qin Chen.

However, the endless magic light was swallowed by the Demon Cauldron, which was meaningless, and then Fan Tianyin fell down for the first time, banging on him with a bang.

His body was smashed to pieces on the spot, and at the same time, his body shook violently, and his head seemed to be stunned. Before he had time to react, Zhen Mo Cao also fell again.

boom!

The Demon Suppressing Cauldron exuded terrible power, which made him wilt suddenly, and the devilish energy poured out frantically, and he couldn't bear the suppression.

[Chapter 1696: Emperor Wu in the middle of the battle](#)

"Thunderblood!"

"Swordsmanship!"

At the same time, Qin Chen urged the power of the blood in his body, and an endless thunder light suddenly burst out of his body. The thunder light surged like a tribulation, smashing the devil energy around him, and then he urged the mysterious rust sword to kill with lightning. past.

A burst of energy boiled and the light was brilliant, and the world was immediately enveloped by endless lightning. The sword aura containing the ultimate killing intent was like a violent storm, the glow of the sun was shining, penetrating the void, and it fell on the man in black crazily like a shot. Body.

puff!

In an instant, countless sword holes appeared on the man in black, and blood was shot out from it, while his body was suppressed by the Demon Suppressing Ding, and he shrank in an instant, letting out a long, stern cry.

He was blasted out with a bang, his body was almost like a rag bag, almost exploded, his body was covered with blood, his body was out of control, and half of his body was about to explode.

The battle between the two was long, but it was just a moment from Qin Chen's shot to the moment when the powerful alien of the demon race was blown away.

The riots here finally alarmed the other two in this secret realm.

"Who is strayed in the secret realm of my law enforcement hall!"

A roar sounded, whoosh, the first thing to react, it was not the group of geniuses with alien demon blood in the demon qi not far away, but the two mid-term martial emperors who were sitting here.

With a roar like thunder, two figures rushed out violently, rushing towards Qin Chen for the first time.

At the same time, the roar of the two shocked Tianjiao in the entire secret realm, and all the geniuses came out, looking for intruders.

"it's here!"

Then, they found Qin Chen for the first time and rushed over.

"dead!"

One of the middle-term Emperor Wudi had gray beard and was an old man with wide-open eyes. His body was murderous and his black palm penetrated the void. He found the trail of Qin Chen for the first time and caught it.

Boom!

The dark palms exuded a chaotic aura, which was too violent, and instantly came to the top of Qin Chen's head, suppressed, like a giant mountain, enough to blow up the world.

"Huh, I didn't expect to be discovered so soon."

Qin Chen snorted coldly, and the other party reacted too quickly, not giving him too many opportunities at all.

However, Qin Chen is not afraid. In Guyu Realm, when he had never understood the rules of space, he could kill the early emperor Wudi in only half a step. Now, he understands the rules of space. Although his cultivation has never broken through, he in essence, he was already the Emperor Wu of the Nine Heavens, and naturally did not fear the mid-term Emperor Wu.

Now that his strength has improved greatly, it is time to test himself!

boom!

Qin Chen urged the rules of space, and the mysterious rust sword in his hand seemed to melt into the void. He chopped it out quickly, and with a chuckle, he split the terrifying palm in half, and the power of the true essence at the edge burst wildly.

"What? A sword split my attack."

The old man who rushed up was shocked, and at the same time he had seen the scene in the secret realm, his pupils suddenly shrank and his heart shook wildly.

Not far away, a man wearing a grimace mask stood proudly in the void, holding a cold sword.

Opposite him, the mysterious man in black who had been sent by the executives of the Hall of Law Enforcement lay on the ground embarrassedly, covered in blood, and had revealed his original shape, his whole body muscular knotted, like a demon.

"Alien demons? Could it be that Misty Palace and Law Enforcement Palace really cooperate with Alien Demons?"

The two mid-term Wudi glanced at each other, astonishment flashed in their eyes.

As the mid-term Wudi, although they are senior figures in the Hall of Law Enforcement, they can even participate in some basic decisions of the Hall of Law Enforcement, but they still have no access to the core secret of the alien demon.

They only knew that there was a mysterious department in the Hall of Law Enforcement that directly belonged to the Misty Palace. This department was a group of people in black with very mysterious behaviors. They practiced some weird magic skills and were not under their jurisdiction.

However, other than that, they didn't know much, even if there was such a mysterious man in black in this training camp, there was not much communication between the two sides, and they hardly spoken.

They only know that this person in black only needs to be responsible for this group of geniuses who practice special magic arts. As for the others, they have no right to intervene.

After the Guyu World incident spread, they also had doubts, but there was no evidence.

Now that they saw the true face of the man in black, the two of them were shocked, and suddenly understood that what the major external forces said was very likely to be true. The Misty Palace did cooperate with the legendary alien race.

However, at this moment, they didn't have much time to sort out these, their eyes just fell on Qin Chen.

Judging from his dress, it looks very similar to the members of the Heavenly Dao Organization who are raging from the outside world. Could it be that the members of the Heavenly Dao Organization found here?

"kill!"

The two looked at each other, without any hesitation at all, directly rushing towards Qin Chen, booming, booming, two terrifying auras erupted in an instant, shaking the entire secret realm.

The two turned into black lights and rushed towards Qin Chen, wanting to besiege and kill Qin Chen.

At the same time, others finally saw Qin Chen.

Even the world's arrogant man, who has fought **** battles countless times, can't help being shocked at this moment, and even shouts.

"Could this be... the master of the Heavenly Dao Organization!"

They can't tolerate them not being surprised. Not long ago, the Heavenly Dao organization killed several branches of the Law Enforcement Hall in Mingzhou, and it was even more annoying about the deeds of the senior officials in the Law Enforcement Hall. They have already known them.

Moreover, even many instructors in the training camp have also received news that they left the secret realm not long ago and went to Mingzhou to support them, and they wanted to search for the trace of this person.

I never thought that before the news came from Mingzhou, there was a strong man from the Heavenly Dao organization who touched here unconsciously and attacked them first. This shocked them.

"That's right, my Heavenly Dao organization, today I am going to take the Heavenly Path and kill you all here."

Qin Chen drank coldly, his murderous aura filled the sky, like a demon god.

"It's ridiculous, do you think that this place is the same as the law enforcement hall of the outside world? You don't know the height of the sky, there is a way to heaven, and there is no way to hell. You have to break in. Today, the old man wants you to come back and forth."

An old man sneered, his blood pulsing into the sky, and for a time, a monstrous flame swept through, and his whole body was surrounded by terrible flames, like a fire god, and above his head, there was also a terrible flame rising.

This person enters the Dao with flames and controls the rules of flames. At the same time, his bloodline is also a fiery bloodline of fire attributes. When he raises his hand, the world seems to melt, and it is incredible.

He turned into a fireball and rushed towards Qin Chen, burning everything in the world.

On the other side, the old man who had previously shot also moved.

The black light rises all over, with a cold and devastating aura, as if death descends, pinching Qin Chen from the other side, the corner of his mouth outlines a mocking smile.

The two great mid-term Wudi teamed up, and the power that broke out was unique, and they wanted to kill Qin Chen in an instant.

[Chapter 1697: Pay the price](#)

boom!

At this moment, the void was almost exploded. Qin Chen was in the center of the whirlpool, swaying in the wind and rain, as if in an instant he was about to be swallowed up by the wind and rain, and disappeared.

"kill!"

Seeing that the attacks of the two were about to fall on Qin Chen.

Qin Chen sneered suddenly and erupted in an instant. He went all out. Since there was no need to hide, his blood was surging like a river, and his blood boiled like volcanic magma, swept violently.

In an instant, endless rays of sunlight bloomed on him, just like the rising sun, bursting out a dazzling glow in an instant.

Swordsmanship, cut through the sky!

The blood of thunder makes heaven and earth seem to be a sea of thunder.

boom!

Qin Chen jumped into the sword and rushed into the flame for an instant, no matter what the power of the flame bombarded him, he remained motionless.

A pharmacist is born with flames. The control of flames is far beyond ordinary people's imagination. It can be said that the first rule of any pharmacist is the rule of flames.

As for Qin Chen, although he had never entered the way with flames, in fact, his control of the flame rules was not weaker than his opponents.

Not to mention, Qin Chen possesses the Qinglian Demon Fire, and his resistance to flames is even better than ordinary people.

Therefore, when these flame attacks fell on him, he would run the indestructible Eucharist, and easily block these flame attacks outside his body.

"what?"

The old man was shocked, he could feel that his attack was being easily dismantled by the opponent, and he did not cause any harm to the opponent.

This is impossible?

He was furious, and he had time to react--

Huh!

A figure flashed by.

Qin Chen had already penetrated the flames of light and came to him, and then, in the frightened eyes of the old man, Qin Chen's blow into the Slaughter Swordsman slashed out at an unstoppable speed.

"not good!"

The old man was furious, and his figure retreated crazily, trying to avoid this sword, and at the same time a shield of flames formed in front of him, and bright runes flashed on the shield, bursting out a heart-palpitating breath.

"Spirit Fire Shield!"

This is a terrifying mystery created by the old man after he took control of the rules of fire, using the true essence of fire to form a tangible shield of rules, which can resist all material attacks, and the defense is terrifying.

"Haha, the power of soul extinguishing!"

Qin Chen sneered, an invisible light flashed in his eyes, and the terrifying soul power instantly turned into an astonishing soul storm, ignoring the defense of the Spirit Fire Shield, and instantly submerged into this person.

Although the Fire Spirit Shield was terrifying, it was a material defense after all, how could it withstand Qin Chen's soul attack.

"what!"

The old man screamed, his soul power was directly shattered, and he let out a stern roar, desperate to live, the fire spirit shield in front of him was also crumbling, losing control, and its power instantly weakened by more than doubled.

"puff!"

Then, a sword light flickered straight through the sky, smashing the flame shield instantly, and the sword light flashed across the old man's neck.

puff!

The head of the old man flew up instantly, and the corpse hovered in the sky.

what?

Another mid-term Wudi was stunned for an instant. Only for a moment, his companion died? An unprecedented fear filled his mind.

What is even more shocking is the many talented elites below. These people have soared into the sky and came to kill. But as soon as they rushed over, they saw such a tragic scene, each of them turned pale, suspended in the air, and their bodies could not help but rush over. Back.

"dead!"

Before Qin Chen went to deal with them, they rushed over by themselves, Qin Chen sneered, and rushed directly, the dense sword light suddenly lit up.

Puff puff puff puff...

The next moment, more than a dozen people fell to the ground in an instant, one with a head went out, blood splattered.

At this moment, the entire secret realm was alarmed.

Under the moonlight, Qin Chen looked like a great demon god, extremely cruel, dazzling sword light, and magnificent and majestic fist marks.

He rushed into the crowd, slaying all directions, rushing all the way, one after another corpses appeared under his feet, blood splashed, his body was chopped into countless pieces, the corpses flew all around, and those who were hit by fist marks directly exploded. It broke apart and turned into a blood mist, leaving no bones.

This is a massacre. Aiming at the law enforcement palace Tianjiao in this secret realm, these arrogant and cold-blooded sinners became Qin Chen's prey and were slaughtered frantically by him.

Qin Chen was too strong. Although these arrogances were extraordinary and appeared to the outside world, they could all be called the arrogance of heaven, but under Qin Chen's pursuit, they turned into a massacre, and the corpses fell one by one.

Qin Chen was moving like a thunder. Wherever he passed, these heavenly arrogances were harvested like wheat, there was no living soul under the mysterious rust sword, and no living corpse before the killing fist.

Each of these people was full of blood, and the innocent people who died on their hands knew no geometry, so Qin Chen didn't have any mercy at all, and was killing wildly.

"what!"

The screams came one after another, one after another, Qin Chen's shot was too harsh, so he pushed it all the way.

The genius training camp in the Hall of Law Enforcement is suffering a devastating blow.

"Ah, Heavenly Dao Organization, you are demons!"

In the rear, the only mid-term Emperor Wu who still preserved his strength was chasing his head. He exuded a cold air, full of anger, hissing and roaring, but at the root of Qin Chen's speed, he could only see his afterimage. Qin Chen was here. The area is vertical and horizontal, constantly sweeping, beheading everywhere.

"I'm a demon, then what are you? Each body was stained with blood, and the corpses of the warriors killed by you were piled up like a mountain. In the past two hundred years, how many innocent people have been killed by your Law Enforcement Hall? Do you have the face to mourn here?"

Qin Chen's eyes were cold and stern, without the slightest pity. From the words of Qi Xiong and others before, he learned a lot about the law enforcement hall.

In the past two centuries, the Misty Palace has used cruel and heinous methods to strengthen the rule of the Law Enforcement Hall. There are countless forces that have been destroyed. It has caused people in the entire Martial Domain to change their colors after hearing the name of the Law Enforcement Hall. How rampant this is.

Now, he is walking the way for the sky, and returning to the martial arts.

Qin Chen shot quickly, even if these people were Tianjiao figures, they were all horrified. He had never seen such a demonic character. Someone fought back and used terrible methods, but Qin Chen ignored him, letting all kinds of attacks fall on him. He was unscathed on his body.

"You... beast, you are an executioner, and your Heavenly Path Organization will pay for it!"

The old man was furious, his beard and hair spreading, booming, a frightening aura swept across his body suddenly, as if he had changed, his speed skyrocketed and he wanted to stop Qin Chen.

At the same time, he roared: "Escape, let me escape."

He is desperate, knowing that if he continues to fight, the disciples below will continue to fall. These are the future elites of the Law Enforcement Hall. Some of them have profound backgrounds and must not die here.

Therefore, he used the secret technique to stop Qin Chen and give others a chance to escape.

[Chapter 1698: It's your turn](#)

"Want to stop me?"

When Qin Chen saw this, he didn't take action against him. He just sneered, and displayed the Tiankong Ten Thousand Revolving Array. For a moment, a terrible light rose, instantly enclosing the person.

boom!

The old man blasted out with a punch, the array of lights flickered, and the two collided crazily, causing a violent explosion, but failed to break through the defense of the Tiankong Wanzhuan array.

"what?"

The old man was furious and completely stunned. He used a forbidden technique and even burned his life force, but he couldn't break the formation formed by the opponent in a hurry. How could it be possible?

"Could it be that you are from the Palace of Instruments?"

The old man screamed, thinking of a possibility, in addition to the Hall of Arms and the whole world, what other forces can set up this large formation so quickly?

"you guess!"

Qin Chen did not answer directly.

"I guess your sister."

The old man was so angry that he vomited blood, his lungs were about to explode, his face was hideous, **** runes appeared in his hand, suddenly urged to move.

Hum!

The **** light blasted through the sky, the murderous intent was so powerful that it was terrifying, and the void was melted away, quickly wiping out the power of the Sky Control Ten Thousand Revolving Array.

Qin Chen was astonished, what kind of treasure is this that can actually eliminate the power of the Tiankong Wanzhuan array?

Then, he concentrated and discovered that this scarlet rune contained terrifying power, which should have been refined from the blood of the late Emperor Wu, which was terrifying.

He was a little scared, but fortunately, he made a crazy shot at the beginning, and immediately defeated the black-clothed man of the alien demon race and another mid-term martial emperor, otherwise the three of them would join forces at this moment, and he would be really in trouble.

But at this moment, there was only the old man left, and Qin Chen was naturally not enough.

"Xiao Yi, Xiao Huo, this old man is handed over to you."

Qin Chen waved his hand and a large swarm of air-eaters and fire-refining ants appeared. The two leading fire-refining ants and fire-refining ants had amazing auras. Each was the size of an adult's fist, but exuded a wild-like aura.

"Boss, leave it to us."

Little Ant and Little Huo quickly led the Air-Devouring Ant and Fire Refining Insect to kill them, wrapping the old man.

Boom boom boom!

The old man was wrapped up in a large number of fire worms and gas-eater ants, and tried his best to blow these insects out, but it was useless. After the gas-eater ants and fire ants went through various evolutions, their defenses were terrible, although they could not kill the old man in a short time, but it was not difficult to control the opponent with the assistance of Tiankong Wanzhuan.

Qin Chen freed his hands and once again slew the group of strong men. This time, he focused on the group of people in black who had the blood of the alien demon race.

"Asshole, you know who we are. If you dare to move us, you will pay the price of blood for it. Death is not your end. You will sink in the dark, endure endless pain, struggle in the years and years, and live forever. Superbirth!"

This group of people in black is very extraordinary. Among them, there is a half-step martial emperor who is cursing crazily.

"Hmph, it's just a bunch of bugs that are not people, devil and devil, so why be afraid."

However, Qin Chen was not afraid, and blasted out with a punch, piercing the person, his body cracking like a porcelain, and instantly disintegrating.

"what!"

The man roared, puffed, burst into blood fog, no longer exist!

In the secret realm, the true spirit lingers and is beautiful, under the moonlight, it was originally very holy and quiet.

But now it's all changed!

The corpses in the same place, all kinds of corpses and blood, merged together and turned into a hellish scene of Jiuyou, which made people sick.

All of them are elites. On the surface, there are only more than a hundred people. In fact, a lot of them have been killed out of the darkness, and they are in their early 200s.

And every one of them was an elite figure in the Hall of Law Enforcement, who usually existed as treasures, but now they were beheaded by Qin Chen like cutting melons and vegetables.

Qin Chen became the real demon **** at this time, sweeping this secret realm.

"Ah...Run away!"

"Devil, this guy is the devil!"

"Help!"

When Qin Chen killed more than a hundred people, the remaining dozens of people all collapsed, crying bitterly one by one, crying and crying for mother, like crazy.

They are generally in their twenties and thirties, and the oldest is only in their thirties and less than forty. They are usually very calm, introverted and cold, and are the top elites in various departments with huge potential and amazing talent.

Otherwise, they will not be sent here for training.

But now, witnessing Qin Chen's indifference and ruthlessness, they completely collapsed.

At this moment, many people dropped their weapons, turned around and fled, howling in their mouths, their faith collapsed and they wanted to rush out.

Moreover, many people took out the escape rune for the first time, trying to escape here.

However, the next moment, the entire secret realm was shrouded in an invisible light.

The void was imprisoned, the exit was blocked, and it became a dead place, unable to escape.

puff!

A genius Emperor Wu offered a piece of talisman paper, and just as he escaped into the void, he was shaken out, his body was torn apart by the terrifying force of space, and he almost died.

"Want to escape, is it possible?"

Qin Chen's eyes were indifferent, as if death was walking. He displayed the mysterious rust sword and other treasures. How could he let these people escape? Once someone escapes, his identity may be exposed. So this time, his goal is The whole army was destroyed.

"kill!"

He used thunderous methods to rush into the remaining crowd, and every time his figure flashed, he harvested a life.

Within half a time, the roars in the secret realm quieted down.

Qin Chen stood proudly in the void. At this moment, apart from the mid-term Martial Emperor, there were only corpses left in one place, and more than two hundred talented elites had been beheaded, and none were left.

"Ah, I did it with you!"

The old man roared, rushing into the crown with anger, and finally broke through the shackles of the Tiankong Wan turn array, covered in blood, and rushed over with a large number of gas-eating ants and fire worms.

He was full of black energy, with black lines and runes lingering on his body, very hideous and terrifying, and his strength once again improved.

He was burning essence and blood, burning life, burning blood, burning true essence, he was crazy.

"It's your turn, too."

Qin Chen turned and stared at the opponent, and finally there was a threatening strong man.

boom!

The two fought together instantly.

The strength of this person was terrifying, and he didn't know what forbidden technique he had used, and his cultivation level instantly rose to a realm close to the mid-term peak of Emperor Wu, which was chilling.

It was a pity that he met Qin Chen. Whether it was fighting alone or in a group battle, Qin Chen's current strength was terrifying and amazing.

Moreover, Qin Chen possesses the sacred body of space, and it is almost impossible for Emperor Wu to hurt him in the later stage.

In the eyes of Emperor Wu in the mid-term, Qin Chen at this moment is equivalent to an invincible existence.

"dead!"

The two sides fought for hundreds of rounds, and in the end, with Qin Chen's soft rebuke, first smashed the other's mind with his soul power, and then a sword smashed the man's head away.

Before his death, the old man stared in anger and stared at him.

At this point, the entire genius training camp has more than two hundred people, except that the black clothed life of the alien demon is unknown, the rest, including the two middle-term martial emperors, have all fallen, and none have survived.

"go!"

After taking the person in black of the alien demon clan into a jade dish of good fortune in the universe, Qin Chen quickly cleaned up the corpse of the disciple who had the blood of the alien demon clan, and after cleaning the entire secret realm, he quickly left and disappeared into the void.

[Chapter 1699: Where to run](#)

The sky is dotted with stars, the moon is bright and clear, and the secret realm is deadly quiet, Wan Lai is silent, even mosquitoes dare not call again.

Qin Chen left the secret realm, deployed a teleportation array, and escaped again.

He teleported randomly several times, and finally left this area, completely away.

When Qin Chen finished all this, the Hall of Law Enforcement was still angered by the destruction of major branches and sub-halls, and many powerful men rushed to their own territory one after another.

They traveled all the way through the void, taking a large teleportation formation, and wanted to rush back as soon as possible to capture the murderer.

"Everyone can withdraw."

Qin Chen settled down in a city and sent a message to Mokara and others.

In fact, without Qin Chen speaking, Mokara and the others had already sensed the crisis, and they had already prepared for the next move. They disappeared in an instant and disappeared completely.

boom!

But not long after they escaped, the strong from the Hall of Law Enforcement rushed to the sky, angrily, looking at the many branches that were turned into ruins, their blood rushed into the sky and swept 90,000 miles.

"what!"

They were angry, roaring, the true essence was boiling, and the glow of the sun was shining, covering the rays of the scorching sun.

They attacked frantically, looking around, not reconciled to the other side's escape, and used various means to find the murderer.

However, the group of murderers had never been seen before, and there was no trace at all.

"Impossible, how can so many people and such a fierce attack disappear silently?"

There was a high level of law enforcement hall shouting, feeling incredible, the other party destroyed so many of their branch halls in one fell swoop, the personnel mobilized must be very terrifying, how can such a huge force have no clues.

It was impossible for the Hall of Law Enforcement to think that only three people actually shot, each of whom was the best among Emperor Wu. Using the emptiness and time difference of the branch of the Hall of Law Enforcement, they were caught off guard to cause such a feat.

It's a pity, because every time Mokara and the others make their move, the entire army is destroyed, and there is no specific information about the battle. As a result, the Hall of Law Enforcement is completely buried in the bones, without any clue.

Just when the Hall of Law Enforcement was furious, the murderer was searched around the destroyed branch and branch hall.

In a top-tier city in the Martial Domain, one layer of heaven tens of millions of miles away, someone from the Heavenly Dao organization suddenly appeared in the air and spoke to the whole city with a message.

The Heavenly Dao organization stated that after they were born, they accidentally discovered a top secret realm. The intensity of true energy was more than five times that of Wuyu Yizhongtian, and the land was ethereal, very suitable for enlightenment, and it was a matter of no owner. Interested forces can A view of the past.

The sound rumbling, came from the void above Haoguang City, erratic, but very loud, and it spread to the ears of the entire city martial artist in an instant, which was shocking.

boom!

In the next moment, several terrifying auras rose into the sky in Haoguang City, quickly sealed off the void, and opened the Haoguang City Great Formation.

These are the powerhouses of the Law Enforcement Hall. One of the leaders is actually the mid-term peak martial emperor. The aura rises all over the body, like a god, sealing this void.

In addition, the remaining few people are also extraordinary in strength, and they have joined hands to sacrifice the power of the law enforcement hall, and no one is allowed to leave.

Haoguang City is one of the top cities in the First Heaven of Wuyu. There is a large office in the Hall of Law Enforcement, and strong people are always in charge.

Therefore, as soon as the people of the Tiandao organization appeared, they were blocked and became the turtle in the urn.

"Huh, where are you going to escape this time?"

Emperor Wu, the leading mid-term peak, sneered and quickly searched the nearby void, but found nothing.

This person frowned. In such a short time, the other party had escaped?

impossible!

He shook his head. The Haoguang City Law Enforcement Hall office has a void forbidden device. Even if it can't stop the opponent, as long as someone breaks through the void, it will inevitably cause spatial fluctuations. Therefore, he is sure that the opponent is still imprisoned here, just hidden. In the city.

"Hmph, since it's here, don't leave!"

He sneered, and immediately passed the news to Emperor Wudi and others, asking for help from Emperor Wudi and others.

However, at this moment, Haoguang City is already boiling. As the top cities in the First Heaven of Martial Domain, all major forces in Haoguang City are everywhere, such as the bloodline holy land, pill pavilion, instrument hall, and Xuanyuan Empire. There is a station.

After they heard the news of the Heavenly Dao Organization, they were immediately ecstatic. If such a secret realm really exists, it would definitely be the blessing of a heavenly warrior.

Therefore, they will leave Haoguang City as soon as possible, and go to investigate first.

However, they were all stopped in Haoguang City by the people of the Law Enforcement Hall.

"What do you mean by Law Enforcement Hall?"

The major forces were furious, furious, and questioned, trying to break through the ban of the law enforcement hall.

"Everyone, everyone should have heard of what happened in my Law Enforcement Hall these days. The Heavenly Dao Organization is acting against my law, and my Law Enforcement Hall will never spare him. Now, in Haoguang City, the Heavenly Dao organization evil animals have appeared. If I waited in the city, if it was because of everyone that caused the other party to escape, who would bear it?"

"So, I'm sorry. From now on, Haoguang City prohibits anyone from entering or leaving until the Emperor Wudi, Anxu, from my law enforcement hall comes."

The leader of the law enforcement hall is strong, his eyes are cold and cold, and he refuses to give up.

Why?

His words immediately aroused the wrath of the major forces. Entering and leaving Haoguang City was their freedom. Why would they be trapped in this Haoguang City and unable to enter or leave?

For a time, the top powers were dissatisfied and aggressive.

Because of the emergence of the Heavenly Dao organization, the authority of the Hall of Law Enforcement has been broken a lot, causing the major forces to start to move around and make major incidents.

"Can you stop so many of us with just a few of you?"

"Yes, we are leaving today, who dares to stop?"

"This Martial Domain is not a force in the Hall of Law Enforcement. If your Excellency has evidence, you can trap us here, but now, sorry, I will leave."

The big powers sneered again and again, and the true essence flowed in each body, bursting into coldness.

If they join forces, how can they be stopped with the presence of a few strong law enforcement halls?

"You can leave forcibly, but the ugly words will come first..."

The leader of the Hall of Law Enforcement looked at him. He knew that with his own power, it was impossible to stop these powerful forces from leaving, so he sneered at everyone and said: "But if it is because of your departure, the Dao organization Those who escaped, our Hall of Law Enforcement will definitely transfer the target to you."

"This emperor made it clear here today, which force dared to be the first to rush out of Haoguang City, and my Law Enforcement Hall decided that he was a member of the Heavenly Dao Organization. Then, I would not blame my Law Enforcement Hall for not showing affection. Stomped it down."

As soon as this statement came out, the court instantly became quiet.

[Chapter 1700: Never die](#)

Although everyone wanted to refute the face of the Law Enforcement Hall, they did not want to be identified as a person of the Heavenly Dao Organization and cause trouble to the sect and family.

Because, now the state of affairs is unknown, the Hall of Law Enforcement is still the top power in the mainland, and it cannot be humiliated.

"Okay, I'll just wait."

In the end, everyone's anger dissipated, but what happened in Haoguang City was sent out by the major forces for the first time. In an instant, the entire Martial Domain knew about it.

And this news was also passed to the hands of Emperor Anxu at the first time.

"What? Haoguang City surrounded the people of the Heavenly Dao Organization?"

Emperor Anxu was overjoyed at first, but after seeing the following content, he was surprised again.

Because the secret realm coordinates mentioned by the Taoist organization staff that day were actually the elite training camp where his Law Enforcement Hall was located in the first heaven of Wuyu.

"not good!"

The senior officials of the Hall of Law Enforcement couldn't calm down instantly.

Because that place is very important. The Hall of Law Enforcement is in the Wuyu Triple Heaven, and there are only three secret training camps in total. The Heavenly Dao organization can tell the coordinates of this place, doesn't it mean that the secret training camp of the Heavenly Heaven has been exposed?

Therefore, they immediately communicated the location of the training camp, wanting to know something.

However, there was no movement, lifeless, and no one responded.

Then, they made a single contact with the many Tianjiao disciples they had trained, but there was no response.

Secret training camp lost contact!

This is definitely a big event. Their hearts were sinking at the time. The fact that all the people in the training camp lost contact with each other was really ridiculous.

In the end, they contacted Yizhongtian's Anxu Martial Emperor for the first time and asked him to send a master to investigate.

In fact, without an order from the headquarters of the Hall of Law Enforcement, Emperor Anxu had already dispatched a giant to go there for the first time, and at the same time, he quickly killed Haoguang City.

At the same time, the major forces that received the news also sent masters to the secret realm, and even some forces, because there were people stationed in nearby cities, they rushed to the law enforcement hall masters.

That night, a piece of news that shocked the Martial Domain came out, spreading across the mainland at an explosive speed, shocking many forces and stunned!

Because when the people of the major forces rushed to the mighty mountain for the first time, they did discover an amazing secret realm, but after their people entered the secret realm, they immediately smelled the pungent **** smell. Then, they saw the corpses all over the ground, as well as many human-shaped ashes, and the remaining armor and robes were engraved with the mark of the Hall of Law Enforcement. Moreover, most of the fallen people were not very old, but they had blood and blood. Very rich and shocking

Human terrible.

They immediately realized that this was a genius training camp somewhere in the Hall of Law Enforcement, and it was a secret realm at the core of the Hall of Law Enforcement in the First Heaven of Martial Domain. In fact, the major forces have long known that the Hall of Law Enforcement is in the Martial Domain, and there are a few top secret realms that specialize in secretly training the Hall of Law Enforcement. Basically, more than 80% of the senior officials in the Hall of Law Enforcement These two hundred years

, Walked out of this top secret.

But now, the Hall of Law Enforcement was in the secret realm of the First Heaven in the Martial Domain, and it was even handled.

And the genius disciples inside are all dead!

This is more shocking and shocking than the first branch in the world where the Hall of Law Enforcement was destroyed.

When the news spread, huge waves were set off across the continent.

"Oh my God, who did this? The Heavenly Dao organization? All the elite disciples cultivated by the Hall of Law Enforcement in Yizhongtian were hunted and killed, and none of them were able to escape!"

"My God, how did the Heavenly Dao Organization know about this secret realm? This is a high-level secret of the Hall of Law Enforcement, and ordinary people have no way of knowing it."

Wuyu triggered a major earthquake, and news spread rapidly in Wuyu.

Naturally, the Law Enforcement Hall also got the news, and the high-level leaders of this behemoth in charge of the world were furious!

"Heavenly Dao Organization, I'm waiting for you to die!"

On this day, a chaotic figure emerged from the headquarters of the Hall of Law Enforcement, roaring in the sky, shaking the mountains trembling.

Someone recognized that this was the current lord of the Hall of Law Enforcement, living in seclusion all the year round, and had not appeared for hundreds of years, but now, he appeared, and was so angry that he was very angry. Not only that, the strong from the Misty Palace also came forward, severely criticizing the actions of the Heavenly Dao Organization, defining it as a cancer of the Martial Domain, and calling on the major forces to eliminate them, and there are strong people in the Misty Palace, joining the law enforcement team. In

Any clues about the Tiandao organization in the investigation across the continent.

A genius training camp was destroyed, the Misty Palace and the Law Enforcement Palace were completely furious, unable to maintain calmness, they were so angry that they would explode, and there was nowhere to vent their anger.

Moreover, it is rumored that many high-level officials in the Hall of Enforcement were so angry that they vomited blood on the spot, and they almost went crazy.

Because, in that secret realm, their nephews and nephews are cultivating in it, and they are expected to inherit their own mantle in the future, but now they have been put in a pot, and many corpse capitals are not left. It is too miserable.

Wu Yu caused a major earthquake for this, and all the major forces were stunned, and no one could calm down.

"This is really done by the Heavenly Dao Organization? It's too terrifying. Even the genius training camp of the Hall of Law Enforcement can be searched and completely destroyed. What else can they not do?"

"What is the origin of this Heavenly Dao organization? Not long ago, the Hall of Law Enforcement mobilized the public, dispatched high-level lower realms, and mobilized the entire Yizhongtian disciples, saying that they would encircle and suppress the Heavenly Dao organization. As a result..."

Something happened to the training camp! "

"Could it be that this Heavenly Dao organization is really a very large ancient force, otherwise, how can it be done under the nose of the Hall of Law Enforcement?"

The major forces were shocked and there were many speculations.

At this moment, not only the Hall of Law Enforcement, but they can't keep calm. If there is such a force, it will have indescribable changes to the structure of the entire military domain.

"Did someone from the Heavenly Dao organization do it?"

However, some forces also doubted the true background of this matter.

If there is such a force as the Heavenly Dao Organization, how can the position of the genius training camp in the Hall of Law Enforcement be known for the first time when the other party is just born? This is by no means easy to do.

It should be noted that the major forces have long known that there is such a training camp in the Hall of Law Enforcement, but after investigating it for a long time, few people know its specific location.

Because it is too secret.

Therefore, some people have reason to doubt whether a certain force secretly borrowed the name of the Heavenly Dao organization to fish in troubled waters and target the law enforcement palace.

As soon as this speculation came out, it also attracted the approval of many people. If this matter was really done by a force of the Heavenly Dao organization, then this organization would be too terrifying and even frightening.

When various forces were talking about it, Qin Chen, who was lurking somewhere in the city, appeared for the first time, and he appeared calmly in front of the major forces in that city. Then, he expressed his position very seriously, saying: "My Heavenly Dao organization is responsible for the incident in this secret realm in the Hall of Law Enforcement!"
