

Valkyrie 1761

[Chapter 1761: Ancestor shot](#)

"Soul Devoured!"

boom!

The mortal monarch roared, and an astonishing soul power suddenly swept from its body, rushing towards Qin Chen.

This is the unique soul attack of its alien demons.

The terrifying soul power is like a sharp cone, penetrating the isolation of the formation, and piercing into Qin Chen's body for an instant, but what makes the Eternal Demon Lord unexpected is that Qin Chen is unharmed?

"What's the secret hidden in this child?" The Eternal Demon Lord was furious, and while casting his soul attack, the Black Flame Halberd in his hand had already blasted out again.

boom!

The black flame halberd once again rolled up countless black flame dragons and blasted out, and the surrounding space was completely swept. The flame dragon circled in the void, and the aroused aura was majestic and terrifying, as if to burn everything around it.

If in normal times, Qin Chen would definitely use Imperial Swordsmanship to fight the opponent once, but he didn't feel that way now.

At the moment when the endless flame dragon swept the surrounding space, Qin Chen's eyes were cold, and when he raised his hand, dozens of gestures blasted out, the space was regular.

The space swept by the endless flame dragon seemed to be completely frozen at this moment, and the space shook in an instant. The flame dragons carried by the black flame halberd, before they had time to surround Qin Chen, they were torn apart by void power.

Waves of rumbling sound continued in the space, and the flame dragons that were torn by the rules of the space burst into pieces, the endless heat wave disappeared, and only the more terrible spatial turbulence.

"Space rules and supernatural powers?" The mortal monarch stared in shock at the black flame dragon that had disappeared, unable to believe it.

How did Qin Chen have time to explain to the other party, raising his hand was another attack.

The sky that was still trembling just now seemed to have no more sensation, only a terrifying punching fist rushed out, and that fist formed a roaring giant mouth, and the black devilish energy rose, biting at the rotten monarch.

This is the slaying fist intent that Qin Chen urged the alien demon clan's exercises to display. He combined the alien demon clan's exercises power with the slaying fist, and merged the two to evolve a new magical power.

Facing the masters of the alien demon race, it is obviously more effective to use the skill of the alien demon race.

"What? This is the power of our alien demons? Who is your kid?"

Rotten Demon Lord was finally shocked, he couldn't think that Qin Chen, a human race, could actually perform an attack from a foreign demon, this was simply against common sense.

Although the Misty Palace, the Hall of Law Enforcement and they have been studying the cultivation methods of the human race to cultivate their alien demons, in this way, they can strengthen the power of their alien demons, and they can also restore their cultivation base when they rob the human beings. Faster.

But this was only in an experimental stage, and it hadn't really achieved a thorough understanding. But now, the strength of the strange demon aura contained in Qin Chen's fist's intent was so horrifying that even it had surpassed some of the research it currently knew.

As far as it knows, apart from the high level of Misty Palace, no human race can practice such terrible alien demon exercises.

At this moment, its spirit was almost shocked.

At this moment, its pupils suddenly became pitch black, and the black flame halberd in his hand blasted out desperately, roaring: "Devil Halberd!"

The pitch black halberd instantly blasted into the huge black mouth that Qin Chen blasted.

"Boom... Kaka..."

Amazing explosions continued to sound in the void, the halberd in the hand of the eerie demon trembled frantically, and the endless demon energy roared out desperately. Between the collision of the two forces, a wave of cold power even tried to rush into the eternal demon. In the body.

finally!

"puff!"

Qin Chen's murderous fist in the void burst into pieces, while the deadly demon shook his body, and a jet of dark blood spurted out of his mouth. The whole person flew out, and the meridians in his body were about to split.

"Damn it, if it weren't because this human body was not strong enough, how could this seat be hurt by you." The rage demon became angry, and even stabilized his figure, seeing the great elder whose eyes were still somewhat dull below, and he was not angry. Come everywhere.

This idiot, don't you know how to shoot?

"Great Elder, you still don't do it?" Roaring Demon Lord roared.

However, before the Great Elder took action, it saw that Qin Chen had already come to the core of the Five Elements Extinction Array. He pinched Dao Dao Hand Art with both hands, and with a puff, it opened a way to the outside world in the Five Elements Extinction Array. The gap.

"Not good!" The Evil Monarch was shocked immediately. It knew that it could not stop Qin Chen. If he missed it, he would hate it forever. It didn't detect it and didn't make a full move, thinking that it could stop it by relying on the Five Elements Extinction Array. The other side gave the other side a chance to escape.

There was endless annoyance in my heart.

"Successful!" Qin Chen was overjoyed in the Five Elements Extinction Array, and he also thanked the mortal Lord for urging the Five Elements Extinction Array.

When Qin Chen came to the ancestral home of the Ji family in the previous life, he had studied the Five Elements Extinction Array, so he knew the many structures and flaws of the Five Elements Extinction Array.

If it were to change to a ninth-level peak formation, no matter how high Qin Chen's formation was, it would be impossible to find a way out in such a short time.

And now, he finally succeeded.

"escape!"

Suppressing the surprise in his heart, Qin Chen was about to rush out along the passage for the first time.

"Kid Qin Chen, be careful!"

But at this moment, Lao Yuan's voice suddenly came from the jade disc of good fortune in the universe.

what?

Qin Chen raised his head, before he had time to reflect on what happened, he saw a pitch-black True Essence palm suddenly appeared in the sky.

The palm of this Zhenyuan's hand is as large as it is endless, traversing the sky above the castle, as if condensed out of thin air, and slapped him down.

boom!

Qin Chen only had time to urge the sacred body of the space to the extreme, and that terrifying palm had already slapped his body fiercely, taking him from the Five Elements Extinction Array back into the castle again.

Qin Chen's body shook wildly, and the power contained in his palm was too strong, the terrifying power instantly tore his body, and suddenly he could no longer hold back, and a mouthful of blood spurted out wildly.

"call!"

Silently, in the sky, I don't know when an old man has appeared in the sky, his back turned to the crowd, his whole body exuded **** light, the whole person is like a blood-colored scorching sun, suspended between the world.

As soon as he appeared, the entire ancestral land seemed to have lost its brilliance, and he became the only one in this world, blooming with endless blood, just like the **** who controls the world.

A terrifying force that was too vast to resist, instantly suppressed everyone on the court.

"what!"

There was a scream, and Xu Dongsheng and others were seriously injured on the spot. The only breath that escaped made them unbearable for the powerful men who were close to the mid-term Martial Emperor. Blood flowed into a river, one after another fell into the void, and the true essence in the body was killed to death. Suppression, even urging cannot be urged.

"Boy, you dare to be wild in my Ji family ancestral land, so bold!"

The old man turned around and his eyes fell on Qin Chen indifferently. The two **** rainbows skyrocketed. Qin Chen only felt as though his breathing was suffocated. The void around his body seemed to be frozen, and he was firmly pressed into the void.

"Ancestor!"

Below, countless castle guards and guards knelt on the ground, and even the great elder and the mortal monarch also knelt down, their bodies trembling and trembling.

It is the old ancestor of the Ji family that Ji cannot!

[Chapter 1762: Ji Family Patriarch](#)

This is the ancestor of the Ji family?

Seeing the gray and defeated old man above his head, Qin Chen felt palpitations in his heart.

Strong, too strong, indescribably strong.

Just standing there, the oppressive breath escaping from this person made everyone's heart palpitations, and even the Great Elder and the Divine Demon Lord knelt on the ground, trembling.

This is a kind of terrifying aura that can destroy everything and sweep the world. He is so obstructed in front, giving Qin Chen the feeling, but it is like a sky, a land, an infinite mountain, traversing in front of him, unable to surpass .

Flop!

The people on the ground knelt on the ground, and there was no sound in the entire castle. The fierce Xu Dongsheng and others who had resisted before were kneeling on the ground at this moment, terrified, and they didn't even have the courage to look up at the other party. The endless courage was instantly lost. Exhausted.

"not good!"

Qin Chen also broke out in a cold sweat. He had imagined the terrible Ji family ancestors, but never thought that the Ji family ancestors would be so strong.

In the face of the great elders and the rotten monsters, Qin Chen had the thought of fighting, but in front of the ancestor of the Ji family, he could not even rise to the thought of fighting.

"How can I escape?"

Qin Chen was shocked.

"Boy, dare to run wild in my Ji family ancestor land, you are still the first one, but since you are here, you can leave it to my ancestor."

Ji couldn't sneer, his tone was indifferent, he raised his hand and stretched out, with a bang, the endless true essence in the void instantly condensed, turning into a black true essence hand and grabbed it towards Qin Chen.

It was the first time that Qin Chen saw someone who wanted to use his true essence to take him. His eyes were cold, what about the ancestor of the Ji family? Dare to stop yourself, then fight!

Hum! The space rules were displayed in an instant, and the space rules were supernatural.

The void around him was instantly enveloped by an invisible force. At the same time, Qin Chen clenched the mysterious rust sword in his hand, the true essence in his body was violently agitated, and the thick true essence poured into the mysterious rust sword, turning into a piece The black sword light slashed at Ji Cannot.

"Swordsmanship!"

"Dead Word Sword Art!"

Qin Chen displayed his strongest swordsmanship in an instant.

boom!

After the giant hand of True Essence plunged into the realm of space rules, its speed dropped sharply, and the terrifying space rules continuously weakened the power of the palm of this True Essence hand.

"Space rules?" Ji couldn't show shock on his face, but Ke Xuan even sneered: "Boy, you really surprised me, not even Emperor Wu, you can apply the space rules to this level. Unfortunately, you think there is only Do you know the rules of space?"

Om, the power of rules rippled from the palm of the pitch-black Zhenyuan, which was actually the rules of space, quickly offsetting the supernatural powers of space rules that Qin Chen had displayed.

Space rules are unmatched rules for the powerful below the Wudi giants in the later period, but for Ji Cannot and such old monsters, they are nothing.

When his cultivation reached the point where Ji could not, his control of space had reached the extreme, and he would not be weaker than Emperor Wu who entered the Tao with the rules of space.

Without the obstacle of the space rules, Ji couldn't reach out the giant hand of the true essence and instantly came to Qin Chen and collided with the mysterious rust sword that Qin Chen had split.

"Haha, little bugs!" Ji couldn't chuck lightly. He didn't care about Qin Chen's move, but when he actually touched Qin Chen's attack, his face was surprised.

"Boom!" With a loud bang, an unmatched force swept over.

For a moment, Qin Chen even thought that what his mysterious rust sword struck was not the palm of the true essence, but a magic weapon that was harder than his mysterious rust sword.

In the rumbling sound, the palm quickly shattered the sword aura that Qin Chen had split. Numerous sword auras containing the rules of killing continued to slash on the palm, but it only stirred up ripples and smashed the palm of the palm. Hundred holes.

But even so, it was enough to make Ji unable to be surprised.

"It's surprising that there is such a level of cultivation in the young grade."

With this palm, the Emperor Wu at the mid-term peak will be crushed, but can Qin Chen stop it? You know he is not even Emperor Wu.

With Ji's incapable cultivation base, it is natural to see that Qin Chen's cultivation base is definitely not even Jiutian Wudi. What an enchanting perversion is this?

"Come!"

With a low drink, he saw black air currents haunting from the battered Zhenyuan palm, spreading like countless ropes, filling the entire void.

"not good!"

Qin Chen's figure flickered and turned into afterimages, as if traveling through the void, trying to escape this blocked space, but these black air currents seemed to be able to penetrate the endless void as if they were constantly tightening.

"call!"

In an instant, countless black air currents directly surrounded Qin Chen, quickly entangled, and could no longer escape.

"What is this?" Qin Chen desperately broke free, relying on the brute force of the Space Eucharist to break dozens of them, but more black air currents entangled and wrapped Qin Chen layer by layer.

It's too strong, Ji can't just show the palm of the true essence, so that he can't move, how can he fight the opponent?

Qin Chen even felt suffocated by the endless black air current.

"Let my ancestor see, what is your secret? At such an age, you have such strength!" Ji couldn't raise his hand, and Qin Chen, who was immediately surrounded by countless black air currents, was dragged over.

"Can't go on like this, do you want to stimulate the horrible existence in the mysterious Rust Sword?"

Qin Chen was anxious, but once he did this, he couldn't control his life and death either. The feeling that his soul was in chaos and turned into a madman, Qin Chen didn't want to try again.

Moreover, even if the mysterious rust sword is activated, it may not be able to kill the ancestor of the Ji family. Once it fails, there is no room for counterattack.

This is no different than before. In the ancient Yu world, as long as he defeats Feng Shaoyu's divine mind clone, his power will naturally not penetrate the endless time and space to continue to attack, but here is the Ji family ancestral land, except for the Ji family ancestors, the ancestral land There are endless powerhouses.

But if it didn't, once he was captured by the ancestor of the Ji family, it would be completely over.

"Emperor Wu, I still haven't been able to break through Jiutian Wudi. If I am a Jiutian Wudi cultivation base now, where is it necessary to be so passive, even if I can't fight, it may not be impossible to escape."

But Qin Chen knew that it was useless to think about it at this time, except for activating the mysterious Rust Sword, only Lao Yuan could have the power to fight.

"Lao Yuan, do you have anything to do?" Qin Chen's eyes were red, and he furiously asked Lao Yuan in the jade plate of Universe Good Fortune.

If Lao Yuan couldn't help it, then he could only activate the mysterious Rust Sword and fight to the death.

"Hehe, Lao Yuan, I have swallowed so many alien demon souls before. Naturally, there is a way. I can lend you a small amount of power temporarily."

"However, in order not to be aware of my existence by these alien demons, the power I lent to you is only a very small part, and can only last you for a short time."

"You must use this time to escape, otherwise, once this power is exhausted, I can't help it."

Lao Yuan Shi Randao in the jade disc of good fortune in the universe.

[Chapter 1763: Blood Sea Pearl](#)

"Ma De!" Qin Chen was about to scold his mother, this old Yuan clearly had a way to make him so anxious, and immediately yelled: "Then you don't want to lend me your strength."

"coming."

Lao Yuan said, and the next moment, a terrifying force burst out from the jade disc of good fortune in the universe, and poured into Qin Chen's body.

Hum!

For an instant, Qin Chen felt like his body was transformed, and when he raised his hand, he seemed to be able to break the void and possess the power to destroy everything.

This feeling is so wonderful.

"Broken!" At the moment this force entered the body, Qin Chen roared, buzzing, and saw endless glowing glow all over his body. The dense sword energy seemed to straddle the time and space of the universe, bursting from his body. Out, the countless people who will entangle him in an instant

The black air flow burst.

After doing all this, Qin Chen jumped up into the sky, with no intention of being unable to fight Ji at all, and wanted to rush out of this ancient castle.

"what?"

Seeing Qin Chen suddenly breaking his shackles, Ji couldn't be shocked. How could this kid's strength suddenly increase so much?

"Want to go? Leave it to the ancestor!"

Ji couldn't get angry anymore, his eyes bloomed with divine light, and two **** rainbows rose into the sky, like two rounds of blood moons, instantly blocking Qin Chen.

"Block!"

Qin Chen swung his sword, booming, and it was just a sword. The sword energy skyrocketed, and the void was about to split, and endless void ripples appeared.

When the sword light collided with the blood moon, Qin Chen only felt a terrible power transmitted, and his body shook wildly, but immediately this power was eliminated by the power of the source beast in his body.

But Qin Chen's skyrocketing momentum was also blocked, and he flew out in an instant, and the true essence inside his body surged, and a terrible soul rushed into Qin Chen's mind, causing an uproar in Qin Chen's mind.

"Huh? Boy Qin Chen, this person's soul power is very strong, and he has the aura of a foreign demon."

The old source in the jade disc of good fortune in the universe was puzzled.

"Myriad Gods, extinguish!" The soul power in Qin Chen's mind surged for an instant, shocking the soul, and after hearing Lao Yuan's voice, he was shocked: "You mean this Ji family ancestor has already been taken away by the aliens?"

But he didn't feel the soul power of the alien demon from the ancestor of the Ji family, but this person's aura was very cold, as if he had practiced the techniques of an alien demon.

"It's not being taken away, but it's like being attached, strange!" Lao Yuan said in doubt, "Unfortunately I can only stay in this space of yours, I can't snoop very clearly, otherwise, I should be able to see everything."

"Do whatever so much, kill it."

Qin Chen drank coldly and rushed out of the ancestral land again.

"This **** boy." On the other side, Ji couldn't be more horrified than Qin Chen. Even if the ordinary late Martial Emperor was here, he would be severely injured by his attack, and it was difficult to resist. Moreover, he has cultivated for hundreds of years. There is the power of the alien race, and the power of the alien race and oneself

The true essence is completely combined to form a more terrifying force.

But he couldn't think that the supreme cultivation base he had created by such an adventure could not take a small half-step martial emperor. "There is definitely a secret in this child, and it's a big secret." Ji couldn't instantly burst out fiery light from his eyes. Although he didn't know what the secret of Qin Chen was, these secrets could actually make a small one. Half-step Wudi,

Have the strength that is not weak with yourself.

So what happens once this secret is obtained by oneself? Ji couldn't even tremble with excitement. If he got the secret, he would have to worry about the Mo family, maybe he could control the entire law enforcement hall in one fell swoop. When that time, even the emperor Shangguan would be on an equal footing with himself, not dare to overplay

Wanton. Thinking of this, Ji couldn't suddenly sacrifice a blood-colored ball, and then hit several magic arts. The ball instantly burst into endless blood, buzzing, and at the same time, endless blood rose in the Ji family ancestral land. Light, these blood lights are round

The ball is the center, instantly turning into a **** sky, covering the Ji family ancestors.

boom!

Qin Chen bumped against the blood-colored light curtain, and blood poured into his body swiftly, trying to devour his flesh and blood. If it were not for the power of the source beast with the old source to guard, his spatial sacred body alone might not be able to resist it. The devouring of this blood.

"What kind of treasure is this?"

Qin Chen was shocked, he almost rushed out, who knew that Ji could not stop him again, Lao Yuan's power was limited, once the power was exhausted, he would be finished.

"broken!"

Immediately, Qin Chen roared, swung the mysterious rust sword, and slashed it against the blood-colored light curtain.

boom!

The blood lingered, the sky turned into blood, terrible power swept away, and the sky turned into a sea of blood, surging up and down.

"Hahaha, you are too naive to break the blood sea bead of the ancestor. This blood sea bead is the most precious treasure that the old man has practiced for more than two hundred years. Do you want to break it?"

"The blood is overwhelming!" Ji couldn't drink coldly.

"boom....."

The crazily skyrocketing blood suddenly surged, countless blood pouring down, and the surrounding space was completely enveloped in the blink of an eye.

"In the old man's field of blood, you just wait to be captured."

Ji could not walk in this sea of blood, like a demon god.

"Lao Yuan, what do you do now?" Qin Chen said coldly. Under the power of this sea of blood, Qin Chen felt as if he was trapped in a quagmire, and his power was greatly restricted.

"This thing can limit all power, it's a bit troublesome." Lao Yuan said in the Universe Good Fortune jade disc, it urged Dao Dao power, and the sea of blood around Qin Chen suddenly surged, but it could not be completely broken. "Hehe, don't waste your efforts, my blood sea bead has integrated the power of the entire ancestral land, that is to say, you are not fighting against the old man alone, but the entire ancestral land of my Ji family." Ji could not be very confident and said proudly, Walking, blood sea

surge. "Boy Qin Chen, your body cultivation level is too low. If it is higher, maybe I can increase the power input and break it open. But now, your body can't bear too much strength from me. It is basically impossible to break through this sea of blood. The only way now is for me to mobilize the greatest strength to break this sea of blood briefly, but even if you rush out of the sea of blood, the power I transmitted to you is still Almost to the extreme, you will not be able to escape from this person's hands next."

Lao Yuan said in a condensed voice. It also feels very tricky. First, Qin Chen's cultivation base is too low to bear too much power, unless it can come out of the jade disc of the Universe fortune, but once it comes out, it will be suppressed by the laws of the Tianwu Continent. , And it hasn't recovered enough strength yet, it will only be more troublesome to come out hastily.

[Chapter 1764: Cycle of Life and Death](#)

"Can you only be trapped here?"

Qin Chen was anxious, his gaze swept away, and he was suddenly startled, because he found that the entire ancestral land was enveloped by an endless sea of blood at this moment. There was only one place where the power of the sea of blood could not permeate through, as if it had been invisible blocked.

That is--

Ji Family Forbidden Land!

Qin Chen's mind suddenly brightened, and he suddenly remembered what he had heard before, that was that Ji Wuxue blocked the Ji family's forbidden area back then. As a result, for more than two hundred years, no one in the Ji family could enter the forbidden area.

In this way, now the ancestor of the Ji family can't break the ban set by Ji Wuxue back then, otherwise, the ban has already been opened, where will it be blocked until now?

Qin Chen's mind flashed, and he already thought of a way.

"Lao Yuan, I have a way. After a while, you will break through this sea of blood with all your strength, and I will rush to the forbidden land of the sea of blood in front of you. That is the forbidden land of the Ji family. Just rush into it. It's safe."

"Ji family forbidden land? I saw it, this distance is completely okay, but you are sure that you can ensure your safety after entering? Do you know that I will not have enough strength to allow you to leave here next." Lao Yuan said solemnly.

"Other than that, is there any other way?" Qin Chen smiled bitterly.

For the present, Qin Chen has no idea about whether he can enter the forbidden area and how to escape by then, but it is better than waiting here.

Qin Chen now doesn't even want to be unable to fight with Ji, because if a bit of strength is consumed, a bit will be lost. All the strength can only be used for escape.

"Well, in that case, you are ready."

Lao Yuan let out a low cry, and Qin Chen immediately felt that a pure power poured into his body once again from the jade disc of good fortune in the universe.

"Kid Qin Chen, do it!"

Before Lao Yuan's voice came, Qin Chen had already taken action, "Broken!"

He screamed, the mysterious rust sword cut out suddenly, the power of space lingered in it, and there was thunder light blooming, that was the power of his blood.

boom! This sword cut out, and the sea of blood in front was suddenly broken through an astonishing gully. The mysterious rust sword containing the power of blood was even more terrifying than Qin Chen had imagined. The lightning seemed to be able to suppress the power of blood, quickly Break one in the blood

aisle.

"Wow!"

Qin Chen's figure shook, and he swept towards the passage.

This scene changed the expression of Ji family ancestors and shouted: "You dare." His figure shook, and he moved towards Qin Chen like a flash of lightning, and lifted his palm, booming, endless blood boiling, squeezing crazily towards Qin Chen wanted to stop him from retreating, and a series of terrifying True Qi attacks swept towards Qin Chen.

past.

Qin Chen's eyes were cold. Under Lao Yuan's blessing, the mysterious Rust Sword quickly swung away, and the endless sword aura burst out with a sharp aura that cut everything, resisting the Ji family ancestor's attack layer by layer.

Moreover, he urged the rules of space, constantly approaching the forbidden place of the ancestral land.

At this time, not far behind Qin Chen was the forbidden area of the Ji family. At the entrance of the forbidden area, there was a huge statue of the ancestors of the Ji family, which was also the entrance to the forbidden area of the Ji family.

But Qin Chen's figure was already close to the entrance.

"not good!"

The ancestor of the Ji family had a grim expression, but the more exaggerated his expression, the more Qin Chen wanted to enter it.

"Om!" At this moment, Qin Chen's figure has already touched the restriction at the entrance of the forbidden area, and a series of misty restrictions surfaced, and a terrible aura burst out instantly, the endless restriction flashed a terrifying light, and that power would immediately restrain the nearby blood sea. Force to repel

Come.

This kind of power, even the late Emperor Wu, would be shocked.

"This is... the ban on the wheel of life and death in the universe!"

Qin Chen could see the origin of this prohibition at a glance. It was the method Ji Wuxue obtained from an ancient forbidden place. Ji Wuxue once took it out and studied it with Qin Chen. The two verified and communicated with each other. , To crack.

Qin Chen still shocked the horror of this restriction. Even his master of restriction was extremely difficult to imitate and crack. Unexpectedly, after his death, Ji Wuxue actually imitated this restriction and set it in the ancestral land of Ji family. outer. No wonder the Ji family ancestors can't enter this forbidden area. Once these restrictions are completed, even beyond the limit of ninth level, they cannot be broken easily. What's more terrifying is that these restrictions can continuously absorb the power between heaven and earth. , No special

It is impossible to open this prohibition by a certain method.

"Boy, leave it to me!"

The ancestor of the Ji family flashed wildly, and the ancestor of the Ji family rushed over quickly. Although he knew that as an outsider in Qin Chen, it was impossible to enter the forbidden area, he still couldn't help intercepting it and didn't want any accidents.

At this moment, he was amazed to see that Qin Chen reached out with his right hand, and half of his body suddenly entered the restriction.

"what?"

The ancestors of the Ji family were shocked, how could this be possible? Even if it was him, the restrictions left by Ji Wuxue could not be broken by force, but this kid actually went in, how did he do it?

Never let him in!

The Ji family ancestor's complexion suddenly turned blue, frightened, and booming, the true essence in his body exploded to the extreme, it was actually burning true essence, be sure to stop Qin Chen.

However, Qin Chen's speed is too fast, and the opponent's strength is so terrible, can he stop it for the first time?

boom!

He could only urge the blood Haizhu frantically to stop Qin Chen from entering the restriction little by little.

At this moment, a cold and hideous voice suddenly resounded in Ji Cannot's mind.

"Ji can't, I want this kid's body, let this seat take him away."

This voice was gloomy and exudes endless chills. It was the leader of the alien demons who was attached to Ji Wu. Now that he felt Qin Chen's powerful strength, he suddenly gave birth to the covetous heart.

This son is not even Emperor Wu, and his strength is so terrible. Where can the entire human race look for such a body? The Human Race Tianjiao who completely crushes those so-called top forces.

After finally encountering such a body, it suddenly became extremely excited, said ferociously.

"Okay, leave it to you, you go and take this kid away. By that time, his body will belong to you, but you and I must share the secrets of this kid." Ji couldn't say in a deep voice.

"Don't worry, Jie Jie Jie, I'll go."

I saw a black shadow rushing out of Ji Wueng's body. As soon as this shadow appeared between the sky and the earth, there was a faint sound of thunder in the sky, as if the sky was angry and the people were resenting, and the sky and the earth could not tolerate it. At the same time, in the sea of blood, which was originally crimson, was instantly filled with countless cold breaths, and the howls of ghosts and howlings filled everyone's ears. Everyone in the castle seemed to feel that countless ghosts appeared in front of them, and they were crazy. Bite everything.

[Chapter 1765: Escape from the dead](#)

"My lord, my lord has appeared."

The mortal demon was trembling with excitement. It knelt on the ground with pious eyes, like a courtier worshipping the emperor, extremely excited.

"Is your lord trying to seize that kid?"

It trembled and said, raising its head, and saw that black streamer seemed to cut through the void distance, rushing into Qin Chen's body quickly.

"Kid Qin Chen, be careful, he's a strong alien from the demons."

Lao Yuan's warning came from the jade disc of good fortune in the universe, but it was too late. The black aura was too fast, and it instantly rushed into Qin Chen's mind with the meaning of boundless coldness.

boom!

Qin Chen's mind seemed to have rolled up the stormy waves, and the soul sea instantly rioted. A terrifying soul power that seemed to be able to swallow the world filled his mind. For a moment, Qin Chen even felt that his soul was about to split, disintegrating every inch. .

"Jie Jie Jie, such a rich soul sea, boy, you really surprised this seat. With such a body, this seat is really satisfied, Jie Jie Jie!"

The cold and excited voice reverberated crazily in Qin Chen's mind. Qin Chen felt that his soul was about to freeze, a suffocating pressure cap was pressed down, and the true essence in his body stopped flowing.

The soul power of the powerful alien of the demon race was too strong, and Qin Chen felt such a terrifying soul power for the first time, and in his anger, he immediately spurred the parasitic seed.

Hum! In the sky above the dark soul, a golden seed appeared, blooming with golden light, and beating like a human heart. Every time it beats, it exudes a terrifying aura, bringing that terrifying soul power into one. moment

Wrapped up.

"What, golden parasitic seed?"

The soul power that was still ecstatic, screamed in anger, and saw the parasitic seed burst out with terrible golden light, enveloping the black hideous figure in an instant.

"Damn, why do you have parasitic seeds on your kid, ah!"

The hideous figure roared, "Soul burst!"

boom!

The invisible soul power exploded in an instant, and Qin Chen's soul sea instantly became violent, but the golden light emitted by the parasitic seed was also abruptly blown through a gap.

"call!"

Then, the hideous figure escaped at a faster speed than before, and rushed out of Qin Chen's mind for an instant, so fast that even Qin Chen could not catch it.

The black figure flashed and submerged into Ji's body again, but it lost at least one third of its strength compared to the beginning.

"You... why are you back again?" Ji family ancestor said with some anger.

"Ah, I'm mad at this seat. There is a golden parasitic seed in this child. He is the chosen person of my clan. Damn it. Why is this kind of thing encountered by this seat, ah, ah!" It simply suffered a big loss

once. Not only did it fail to seize Qin Chen, but in order to escape the control of the parasitic seed, it blew one-third of its soul forcibly. What a loss was this? Even if it swallows hundreds

Emperor Wu can't make up for it.

"Stop him, I must stop this kid." The hideous figure shouted at Ji Cannot. In fact, without it, Ji Cannot rushed towards Qin Chen.

Qin Chen's heart was also shocked. It was the first time he saw a strong man with a foreign demon race who could escape under the attack of the golden parasitic seed, but at this moment, he could not think too much because the ancestor of the Ji family had already killed .

"go!"

Qin Chen's body flashed, exerting the power of all kinds of restraints, and at the moment that Ji couldn't come, he rushed into the restraint of the wheel of life and death in the universe.

The figure flashed wildly, and the ancestor of the Ji family suddenly appeared outside the restriction, taking advantage of the moment that the restriction had not been closed, he would rush in, but at this time, an extremely fierce sword light burst out, causing his body to retreat again.

Rumble!

Accompanied by a slight roar, the boundless restriction was closed, allowing the ancestors of the Ji family to focus there.

"Crack!"

The ancestors of the Ji family made a clicking sound with both fists, staring at the restriction in front of him, and what he worried most still happened.

Just a little bit, he could stop Qin Chen, but in the end, Qin Chen entered the restriction under Ji Wuxue's cloth.

This restriction is his Ji family's ancestor land, why can this kid enter? Does he have anything to do with Ji Wuxue?

Ji couldn't be unwilling, but Qin Chen had already entered the restriction, and he had nothing to do.

The complexion kept changing, the ancestor of the Ji family stayed still, waiting outside the forbidden area, staring silently at the restraint in front of him, his eyes gloomy.

Boom boom boom!

Then, he was unwilling to urge the sea of blood, and the endless sea of blood surging against the restriction, but the entire restriction exuded brilliant light, and stood still without being affected by the sea of blood.

"Damn Ji Wuxue, more than two hundred years have passed, and you are still fighting against me, ah!"

The ancestors of the Ji family roared, and the sky rumbling roared. Finally, the ancestors of the Ji family were helpless and had to put away the sea of blood.

In front of him, the flicker was forbidden. After Qin Chen entered it, he continued to go deep, blinking, he could no longer see the figure. "Hmph, the old man doesn't believe it, this kid can stay in this restriction, even if he enters the restriction, he is not of my Ji family blood, and he can't enter the forbidden ground. I can only shiver under the protection of this restriction. I don't believe it. How much this kid can hold on

Long, one year? Two years? Even if it takes a long time, the old man has to wait for him to come out! "

The ancestors of the Ji family waved to the great elders below, the evil demon lord and others.

Suddenly, a group of masters flew over tremblingly.

"You guys, send me someone to guard here for twenty-four hours, and spread a big array outside the restriction. I want that kid to get in but not out." Ji couldn't say viciously.

"Yes, ancestor!"

The elders also saw the battle, knowing that the ancestor was angry, they didn't dare to say anything, they even arranged for someone to surround the place.

"Also, come with me and bring those people with you. My ancestor wants to know what happened in the baptismal stone room."

The eyes of the ancestors of the Ji family were gloomy and terrifying at this moment.

When the Ji family's ancestor land was furious, Qin Chen had already come inside the restriction.

What appeared in front of him was an ancient stone gate. The stone gate was closed tightly, and the rays of light flowed above it. Inside was the forbidden area of the Ji family. Only the people of the Ji family could open the upper seal and enter the forbidden area.

Qin Chen was weak, and sat down on the open space at the entrance of the forbidden ground.

"Finally escaped."

He Chen laughed bitterly, pain came from everywhere in his body, and even dizziness came in his mind.

If you didn't enter this prohibition before, the consequences would be unimaginable.

"Lao Yuan, why didn't you stop that guy before and let it run away." Qin Chen still felt a little palpitated even now when he thought of the powerful alien demon clan who suddenly killed him.

[Chapter 1766: Inexplicably call](#)

"The person of the alien demon is very strong, and I am not sure that I will be able to keep it. If I make a move but fail to keep it, I will completely expose the old source, and the consequences will be disastrous."

"Moreover, you have golden parasitic seeds in your body, what am I worried about?"

Lao Yuan said indifferently.

With parasitic seeds, Lao Yuan didn't believe that Qin Chen could still be taken away.

"Forget it, don't think about it so much, let's think about how to get out of here next?"

Qin Chen smiled bitterly. Although he entered the ban outside the Ji family forbidden area, it does not mean that he is safe. At this moment in the outside world, Ji family ancestors and others are bound to watch over there. It is still difficult to get out alive. Reach the sky.

"But I didn't expect that Wuxue's attainments in prohibition would have reached this level." Qin Chen looked at the Tianzhou Life and Death Runner Restraint covering the entire forbidden area in shock, even if it was him. It may not necessarily be set up now. Of course, after Qin Chen has absorbed the prohibition methods of the alien demon in this life,

Oh, it may not be as good as Ji Wuxue.

However, there is a special skill in the art industry, at least in the prohibition of the wheel of life and death in this universe, Qin Chen prides himself on being inferior to Ji Wuxue.

"Why did Wuxue block the forbidden land of Ji's house back then? Also, he obviously got Rong Dao grass, but it was not placed in Ji's house, but placed on the so-called Dao Mountain. Is it because he found something? "

Qin Chen murmured, there were too many questions, and he couldn't figure out the reasons, maybe only Ji Wuxue knew the answers.

In his mind, Qin Chen had already arrived in front of the Ji Family Forbidden Stone Gate. On the stone gate, complex carvings were engraved on it. Just standing there, a breath of suffocation came to his face.

The Ji family forbidden land has always been one of Qin Chen's most curious places. Although Qin Chen had received a few drops of spiritual liquid in the Ji family's forbidden land in the past, he had never entered the Ji's forbidden land. In this life, would he have the opportunity to enter? ?

Qin Chen urged the universe to make the jade disc, hum, an invisible space power flashed, and then a figure appeared in front of Qin Chen.

It's Ji Ruyue!

"Qin Chen, I was worried to death just now!"

Ji Ruyue hugged Qin Chen hard, tears streaming down her face.

Before looking at everything about the outside world in the Universe Good Fortune Jade Disk, her heart was actually more nervous than Qin Chen. If possible, she would rather Qin Chen not come to rescue herself than Qin Chen was in danger.

Even if she could use her life to exchange Qin Chen's peace, she could do it without hesitation.

"Well, am I okay?" Qin Chen smiled bitterly and stroked Ji Ruyue's hair, "Ruyue, where do you think this is?"

"This is..." Ji Ruyue turned around, feeling the Shimen in front of him, "It feels so kind."

"This is the forbidden area of your Ji family." Qin Chen smiled.

Ji Ruyue said in surprise: "This is the forbidden land?"

"Yes." Qin Chen said with a smile: "The Ji family's forbidden land is rumored to have been discovered by the oldest ancestor of the Ji family. This place has developed into the Ji family's ancestral land, and it is also the mission of the Ji family to protect it." In the past, as long as the Ji family was the top tianjiao, they were eligible to enter the forbidden land for baptism. Any tianjiao who has been baptized will have a comprehensive improvement in all aspects. However, for nearly two hundred years, this place has been sealed by Ji Wuxue. stand up

, So far no one can enter it again. "Grandpa Wuxue?" "Ji Ruyue's eyes flashed, staring at the stone gate in front of him. Suddenly, a mighty breath rushed toward her face. Ji Ruyue's eyes seemed to see an ancient starry sky, and at the same time there was a terrifying sense of summoning from the stone.

Passed out behind the door.

She was startled at once, and hurried back two steps, her heart beating wildly.

"what happened?"

"I feel like something is calling me behind Shimen." Ji Ruyue said in shock.

She had an illusion that if she didn't retreat, her soul would be summoned away by the power behind Shimen.

"Summon you? Could it be that you can really open this forbidden area?" Qin Chen's eyes brightened: "Ru Yue, you go forward and try."

"it is good!"

Ji Ruyue took a deep breath and slowly walked to the front of Shimen, with her right hand slowly reaching up.

Hum!

Suddenly, the entire Shimen burst into a misty light, rumbling, and at the same time, as if some power awakened from it, a little bit filled Ji Ruyue's body.

"What a magical power."

Qin Chen was surprised. The strength of this force made him feel shocked, as if he couldn't bear the pressure in his heart, as if he was about to split.

In front of him, there was the great evolution of the universe, and above the sky, it seemed as if a **** looked down below.

It feels smaller than ever.

"what!"

Suddenly, Ji Ruyue snorted, and blood overflowed from the corner of her mouth. Her body was shrouded in halo, flashing and disappearing, and her body quickly became hot. "Ru Yue, what's the matter with you?" Qin Chen was surprised and hurried forward. At this time, he rang the words of the

former elder, because many Ji family disciples have fallen in this forbidden area, so he placed hope on Ji Ruyue. Is this forbidden land open yet

Is there any danger?

But he hadn't approached yet, hum, the light flashed, Qin Chen had already been shaken out, pouch, a mouthful of blood spurted out, and the internal organs were about to split.

It was terrible. It was just a breath. It almost shook him seriously. Qin Chen dared to guarantee that if he was more reckless and was directly struck by that power, the Space Eucharist would not be able to resist it and would split instantly.

As for this matter, Ji Ruyue showed a painful look on her face, and her body was steaming with a trace of steam, her whole body was hot, and the blood in her body seemed to be boiling.

"Lao Yuan, what happened to Ru Yue?!" Qin Chen hurriedly contacted Lao Yuan.

"What a weird power!" Only then did Lao Yuan perceive the situation of the outside world, with a dignified voice in his voice, and said: "This power is testing her body."

"Detection?"

"Yes, it's a test, but it's actually a test. If you can bear it, your little girlfriend will pass the test successfully, but if you can't bear it, your blood will collapse and it will be completely ashes." Lao Yuan The voice is very serious.

"How could this be?"

Qin Chen froze, his tense hands clenched tightly, can Ru Yue pass the test? He was a little annoyed at this time. If he knew that, he didn't need to be so anxious. Even the elder of the Ji family was waiting for Ruyue to break through the Nine Heavens Emperor Wu before coming here, but now...

"Lao Yuan, do you have anything to do?" Qin Chen said anxiously. Now he would rather Ru Yue can't open the forbidden ground than in any danger.

"No, the power on this stone gate is terrifying, not weaker than me in the heyday, let alone now." Lao Yuan shook his head.

Qin Chen's gaze was shocked. Lao Yuan was born from the foreign demon continent. In its heyday, he was only stronger or weaker than the demon masters of the foreign demon race, and the power on this stone gate was even more terrifying than its heyday?

For a while, Qin Chen finally woke up and underestimated the terrible Ji Family Forbidden Land. The origin of this Ji family's ancestral land is even far beyond what I expected.

[Chapter 1767: Purple lake](#)

Fortunately, Qin Chen's worries did not last long, and Ji Ruyue's body suddenly burst into bright light.

As soon as these rays of light appeared, Ji Ruyue, who was originally in pain, instantly eased a lot.

It is the Moonlight God Body!

At the same time, above Ji Ruyue's head, a sword light appeared, and the long sword of nothingness rose above the sky, exuding a palpitation aura.

This is the blood of the Heavenly Sword!

As soon as the two powers came out, Ji Ruyue's breath instantly recovered, causing her to fall to the ground with a thump.

"Ru Yue, how are you?" Qin Chen hurried forward to hug Ru Yue.

"I'm okay." Ruyue raised her hand in surprise, her eyes flashing and flashing: "I feel like my body is different, but I can't tell where it is different."

"Kakka..."

At this moment, the stone gate in front of the two of them suddenly opened, and amidst the rumbling roar, it slowly rose, revealing a dark cave.

"Go, go in and take a look!"

Qin Chen and Ji Ruyue looked at each other, and they took a deep breath and walked into the stone gate at the same time.

Boom!

As soon as the two of them entered, Shimen fell with a bang and closed again, shocking them.

"Can't get out."

The two looked back and had to move on.

In the forbidden ground, there was a trace of dullness, a little depressed.

Wan Lai was silent all around, there was no sound at all, and it was even a little frightening. The whole cave was filled with a faint purple light.

The purple color illuminates the space in this forbidden area, adding a sense of weirdness and weirdness.

Ji Ruyue held Qin Chen's hand tightly, as if afraid that Qin Chen would loosen it, her beautiful eyes looked at the forbidden space, with a little curiosity and a little nervousness.

Of course there was a bit of fear, but because his identity followed Qin Chen, this fear was not too strong.

"Ru Yue, have you heard of Ji's forbidden land?" Qin Chen asked, and echoes came from the empty forbidden land.

"No." Ji Ruyue shook her head.

Qin Chen hesitated for a moment, urging the universe to make a jade disc, and suddenly, a figure appeared, it was Ji Hongchen.

"Are you here?" When Ji Hongchen came out, he looked around with some doubts.

"This is Ji's forbidden land, do you know what's here?" Qin Chen said.

"What, we are in the forbidden area?" Ji Hongchen was shocked, his eyes widened, and looked at Qin Chen and Ji Ruyue in amazement, "You two came in and opened the forbidden area."

Qin Chen frowned.

Ji Hongchen hurriedly said: "Sorry, I'm so shocked. The forbidden land of Ji's family has been sealed by the ancestor of Wuxue. More than two hundred years ago, no one could enter here. Many Tianjiao come here. As long as the young Tianjiao who has never been seized from the Ji family, there is a certain probability that they will break the prohibition and come before the forbidden area. However, no one can open the forbidden area alive, otherwise the ancestors would not let their hopes go. On Ruyue alone."

"But I don't know what's in this forbidden land, let alone me, even the great elders don't know, maybe only the ancestors know some, because the old ancestors without snow and the ancestors without snow were the last ones to be able to enter. The Tianjiao of the forbidden area, since then, the forbidden area has been completely closed."

Ji Hongchen said in shock, as if he could not digest this knowledge for a while.

Qin Chen shook his head speechlessly, waved his hand, and Ji Hongchen was instantly included in the jade disc of good fortune.

"Qin Chen, is Aunt Hongchen enslaved by you?" Ji Ruyue looked at Qin Chen. She knew Qin Chen's methods, and she had seen too much when she was in Guyu Realm.

"Yes, I planted a soul-killing mark on her." Qin Chen nodded.

Ji Ruyue looked at Qin Chen and said with some embarrassment: "Qin Chen, in fact, her aunt is not bad in her heart, and when she was a child, her aunt was the one who loved me the most, and she sometimes had to..."

"You don't need to say Ru Yue." Qin Chen looked at Ru Yue softly: "I know what you mean, don't worry, I will not keep her enslaved, but for now, I can't let her go because she knows mine. There are many secrets and I also know the existence of Lao Yuan. When the time comes later, I will naturally release her from slavery and let her return to herself."

Ruyue looked at Qin Chen and whispered: "Qin Chen, thank you."

"Silly girl." Qin Chen touched Ruyue's head and laughed.

"Let's take a look inside."

After that, Qin Chen took Ji Ruyue and walked slowly forward with the help of a faint purple light.

As Qin Chen and the two moved forward, the purple light in this space was getting brighter and brighter. In the end, everything around them was very clear.

At this moment, what Qin Chen and the others are stepping on is a crystal-like ground, clean and tidy. The walls on both sides are engraved with roads and roads. As Qin Chen and the others move forward, the space in front of them is more spacious. .

Finally, the space ahead brightened, and Qin Chen and Ji Ruyue's eyes condensed slightly, looking forward, their eyes were shocked.

I saw that what appeared in front of Qin Chen and Ji Ruyue was a lake, but this lake was purple. Among them, the purple liquid rolled fiercely in the lake, as if it would not stop.

This purple liquid was very viscous, like blood, and the breath that radiated from it shocked both Qin Chen and Ji Ruyue's souls.

On the opposite side of the lake, there is a clearing. Above the clearing, there are tables and stools, like a courtyard, and behind the tables and stools, there is a simple stone house.

"Purple lake and stone house?"

Qin Chen's eyes narrowed slightly. Could this constantly rolling lake be the spiritual liquid in the forbidden land of the Ji family in the legend?

But, how much spiritual fluid is there?

Qin Chen was shocked. As far as he knew, the baptism of Tianjiao required only a few drops of spiritual liquid. In his previous life, he had only received a few drops of spiritual liquid. In his opinion, this spiritual liquid should be extremely rare.

But now? It was too scary to fill a lake of spiritual fluid.

On the face, the surging spiritual fluid surging, exuding an astonishing aura, indeed similar to the spiritual fluid aura he had obtained in his previous life, Qin Chen was shocked, this was too much.

What shocked him even more was that the liquid in the lake seemed to have life at this moment, constantly roaring and surging, transforming into various shapes, with beasts roaring, and Baina Hechuan, as if the same source would not stop.

"This is the spiritual liquid in the forbidden ground of our Ji family?" Ji Ruyue was also amazed, covering her small mouth, a little unbelievable.

Moreover, the power of attraction was transmitted from the bottom of the lake, and she could feel that her body seemed to be extremely eager to absorb this spiritual fluid.

"Go, let's go to the stone house first."

Qin Chen said to Ji Ruyue. He didn't know how the Ji family collected the spiritual liquid here, but there was a lake full of spiritual liquid. It is no wonder that after more than two hundred years, the Ji family still has the remaining spiritual liquid to give. Ji Ruri and the others baptized, they should have saved a lot.

[Chapter 1768: Ancient book reproduction](#)

Unfortunately, no matter how much you save, the situation that only consumes but does not replenish will be depleted a little bit and will not be left in the end.

Ji Ruyue nodded slightly, and then Qin Chen took Ji Ruyue's hand and flew together in the sky, wanting to cross the lake and enter the stone house opposite.

However, just when Qin Chen and Ji Ruyue crossed the sky over the lake, abnormal changes suddenly emerged.

boom!

The purple lake below seemed to boil, soaring up into the sky, and the soaring water column instantly enveloped Qin Chen and Ji Ruyue, as if forming a giant vortex, quickly engulfing the two of them, and then directly The body was pulled into the lake.

Qin Chen never expected that the spiritual fluid in the lake would have such an abnormal change, and hurriedly wanted to use the space rules to avoid the purple spiritual fluid.

But what shocked Qin Chen was that in this mysterious space, the rules of space seemed to have no effect.

Puff!

The next moment, the two fell into the turbulent lake together.

Everything happened in an instant, and it was almost unbelievable among the sparks.

Qin Chen's face was shocked, and he hurriedly wanted to enter the Universe Good Fortune Jade Disc, but to his amazement, the Universe Good Fortune Jade Disc could not be opened. He seemed to have lost contact with the Qiankun Good Fortune Jade Disc, and even directly contacted Lao Yuan. The contact was also isolated.

Ji Ruyue was also shocked by this sudden scene, exclaiming, and holding Qin Chen's hand firmly, the two were drawn into the purple lake together.

"Roar!"

At this moment, the purple lake seemed to be excited, madly roaring and roaring, the purple liquid continuously rushed into the sky and rolled endlessly, all converging towards Qin Chen and Ji Ruyue, trapping the two in this lake.

The two of them are like two-leaf flat boats on the sea with squally rain, and there is no resistance at all in the purple lake.

The clothes on Qin Chen and Ji Ruyue were instantly melted away under the purple liquid, turning into nothingness, without strands.

Even though Qin Chen and Ji Ruyue had experienced naked in the space pool, they were separated from each other by a considerable distance, but now they are almost embracing each other.

But this sudden and weird thing made people forget about any embarrassment.

Because, at this moment, the purple spirit liquid turned into streams of rivers, like purple snakes, pouring into their bodies, from the pores, into their bodies.

Not only that, the purple spirit fluid followed the limbs and skeletons of their bodies. After entering from the pores, it spread to the internal organs, musculoskeletal, meridian dantian, all pervasive, as if to occupy their bodies.

"Qin Chen, I'm so uncomfortable."

Ji Ruyue's face was pale, and the purple light flickered. At this moment, she felt as if her body was about to swell, and then her white arms, which tightly held Qin Chen, finally slowly loosened, and she lost her strength.

Hum!

Ji Ruyue was shining all over, this was the moonlight divine body, and at the same time, there was an astonishing breath permeating her blood. The purple blood seemed to have regular fragments, making Ji Ruyue's breath crazy.

Hum!

Above her head, the Heavenly Sword bloodline appeared again. This time, the Heavenly Sword bloodline, which was originally a nihilistic sword body, turned into a purple divine sword, blooming with endless divine light.

In addition, Ji Ruyue's body aura was frantically improving, and she immediately reached the peak of the half-step Wudi, rising towards the realm of the nine-day Wudi.

This is actually going to directly break through the Nine Heavens Emperor Wu!

Qin Chen was shocked. Although he had given Ji Ruyue a few great fruits before, the breakthrough of Emperor Wutian was a long accumulation and required a new understanding of the rules. But now, Ji Ruyue is breaking through, and his breath is soaring. .

Moreover, Ji Ruyue's moonlight divine body is even worse. The Ji family's bloodline is at work. In the beginning, these purple spiritual liquids were going to invade Ji Ruyue, but now, it is Ji Ruyue who is absorbing these purple spiritual liquids and melts them into Own power.

This caused Qin Chen's heart to relax slightly. Ji Ruyue was originally a child of the Ji family. There shouldn't be any serious problems in the spiritual liquid pool in the Ji family's forbidden ground. It is him, these purple spiritual liquids are entering his body. After that, he started to occupy his body.

This purple spirit liquid seemed to possess spirituality. Knowing that Qin Chen was not a disciple of the Ji family, it was eroding Qin Chen's physical body, causing him incomparably painful, as if to melt.

However, at this moment, strands of familiar feelings spontaneously emerged, causing Qin Chen's body to tremble, and immediately, the light of thunder and lightning surged in his body.

It is the blood of thunder and lightning.

"boom!"

The blue thunder light surged, swallowing all the purple spiritual liquid that had entered Qin Chen's body. The thunder and lightning bloodline that had been stagnant had rapidly soared in power and thundered like a sky thunder.

this is too scary.

At this moment, there was thunder roaring in Qin Chen's body, trembling like the anger of the heavenly palace, what kind of blood is this? More terrifying than the sky thunder, exuding endless aura of destruction, like the **** of life and death.

Under the blood of Thunder, the purple spirit liquid that was arrogantly going to swallow Qin Chen suddenly felt threatened, and he roared again, actually fighting against him.

But at this moment, hum!

In Qin Chen's mind, there was a sudden ray of light, and a familiar feeling emerged spontaneously. In his mind, an ancient book with dazzling radiance appeared. Qin Chen had been rescued several times, but the ancient book disappeared several times. , Appeared again.

Hum!

The ancient book bloomed with glow, causing Qin Chen's mind to tremble crazily. At the same time, the power of Taoism was permeated, and it turned into an invisible black hole, devouring these purple spirits.

The purple spirit fluid was suddenly terrified, and she wanted to escape Qin Chen's body madly, but it was useless. The ancient books bloomed with glow, and these purple spirit fluids were swallowed by the ancient books. Then, several fuzzy fonts on the ancient books suddenly shone loudly.

Two words slowly appeared, Qin Chen opened his eyes, desperately trying to see clearly, but couldn't see clearly, the next moment, the ancient book bloomed, he only felt that a flower in front of him had come to a dark and vast land. .

"Where is this? Am I not in Ji's forbidden land?"

Qin Chen looked at the world in amazement, and when he looked up, the sky was gloomy and suffocating. In the distance, there was an endless dark world, with black gravel everywhere, like hell.

Moreover, on this land, ruins and broken walls, as if they have experienced tragic baptism and poisoning, look at the dark mountains, the mountains collapsed, as if they were shattered by a peerless powerful person, on the ground, there was actually a concrete Huge corpse.

"This is... Alien Demons?"

Qin Chen was surprised. Could it be that he came to the continent of the alien demon race?

However, why is this place in ruins, between the heaven and the earth, the setting sun is like blood, and the blood is rushing into the sky, and then Qin Chen saw that a group of alien demons rushed out in horror, all of them with fear and astonishment on their faces, fleeing madly .

And behind them, tall figures appeared one after another. These people, with their backs to the sky and the earth, were full of glow and could not see their faces.

[Chapter 1769: Breakthrough Wudi](#)

I saw them moving, waving their hands, and suddenly, the sky split, endless fire poured down, the earth broke, endless flames rose into the sky.

The world was swallowed by all the power of destruction.

All the alien demons were horrified and screaming. Among them, some of the alien demons were powerful and terrifying, capable of destroying the heavens and the earth at the touch of a finger, but at this moment, they were easily shattered, which kind The force of destruction easily tears their bodies apart and turns them into nothingness.

boom!

The earth has fallen, and the entire continent seems to be collapsing. This devastating power makes Qin Chen's heart palpitations and trembling terribly.

Qin Chen watched this scene in shock, his mind was filled with that devastating blow, that kind of destruction, filled everything, and there were endless rules evolving in his mind.

Then, among the strong in the distance, someone seemed to have discovered him, and looked over coldly, what a pair of cold eyes, it was enough to destroy everything in the world, and the universe of stars was collapsing.

The man moved, raised his hand towards Qin Chen and blasted, the world collapsed, and a dark big hand contained endless aura of destruction. The sky was trembling. Qin Chen wanted to avoid it, but couldn't avoid it. Watching this palm that destroys the stars of the universe, swallowed him.

Qin Chen was terrified and felt that death was approaching. For a moment, he seemed to be dead, but when he recovered, he found that he was falling crazily.

And around his body, there were lingering black whirlwinds, these black whirlwinds carried the breath of death, making Qin Chen as if he were in hell, as if he had come to the underworld.

No, why is this scene so like three hundred years ago?

Qin Chen was shocked to discover that he had returned to three hundred years ago and was falling crazily in Death Canyon.

Death Canyon, one of the most terrifying forbidden places in the Martial Domain, is filled with the breath of death, like a paradise for the dead.

what happened?

Is it all just a dream?

Or to say... that mysterious ancient book brought itself back three hundred years ago, is this possible...

call!

With the endless wind blowing, the power of death poured into Qin Chen's body, with traces of destructive power, Qin Chen vaguely felt, as if faintly touching something, this was a force of death, a rule of destruction.

Qin Chen kept falling, as if it were endless, never ending, and Qin Chen's mind was full of such a force of rules.

This is death, this is destruction.

The rule of death? Or, destroy the rules?

A seed germinated in Qin Chen's mind. The next moment, he was shocked to discover that he was still in the purple lake in the Ji family forbidden area.

In the mysterious ancient book, a mysterious force poured into his body. The next moment, Qin Chen, who was originally stuck at the peak of the Emperor Wudi for half a step, only felt that something in his body suddenly split, and then, booming...

In the sky, a faint thunder sounded, and thunder lights appeared on him in an instant.

On the other side, Ji Ruyue was also wrapped in thunder light, which was the power of heavenly thunder.

boom!

I saw Ji Ruyue frantically devouring the power of this purple lake, and the aura in her body soared frantically, breaking through the realm of Emperor Wudi in Nine Heavens.

Hum!

In her body, countless purple lightsabers are floating, and the sword aura is soaring, cutting the void into cracks.

"Kagitsuki is entering the Tao with the rules of the sword!"

Qin Chen was shocked, and after Ji Ruyue broke through the Nine Heavens Emperor Wu, his cultivation did not stop, but continued to climb frantically.

In the blink of an eye, he was promoted to the initial peak of Tier Nine, and even still improving...

"Unbelievable."

Qin Chen was shocked in his heart, but he couldn't control too much, because his body was also undergoing transformation. This transformation was not only brought about by this purple lake, but the mysterious ancient book.

The power that the mysterious ancient book entered into his body was rapidly transforming his body. Every cell in his body was crushed and recombined.

At the same time, when he comprehended the rule of destruction, his cultivation level suddenly broke through the limit of Emperor Wutian of Nine Heavens.

boom!

Below, the endless purple lake was boiling, and a large amount of purple spiritual liquid was swallowed by Qin Chen. At the same time, Qin Chen quickly took out all the crystals and real stones in the storage ring, the huge real stone obtained from the ancient Yu world, spread into a large array, turning into endless power to flood into the bodies of Qin Chen and Ji Ruyue.

At this time, in the Ji family ancestral land, the entire sky above the ancestral land was enveloped by a depressed aura, and endless black clouds swept across, as if something abnormal happened.

"Boom!"

The thunder was roaring, and Ji family ancestor Ji couldn't appear outside the castle suddenly, staring at the sky with dignified eyes. What's going on?

He guarded the ancestral land for hundreds of years, and this was the first time he encountered this situation. The endless wild power condensed above the ancestral land, and then turned into a huge whirlpool and appeared above the forbidden land.

Moreover, in the sky, black thunders flashed, which contained terrible power, and all the thunder lights flickered, and thunder was dormant.

"In that forbidden area? What happened?"

Ji couldn't be shocked inexplicably, it didn't take long for that kid to enter the forbidden area, right? How could this happen, could it be said that what happened in the forbidden ground?

His face changed, his figure shook, he wanted to peek out the changes in the forbidden area, but it was useless. Ji Wuxue's Tianzhou Wheel of Life and Death prohibition completely blocked him from the outside world, but it didn't stop that great power at all. Invade.

"Damn, what did that kid do in the forbidden ground?"

Ji couldn't be very anxious, but there was no way. Even before, he could let the children of the Ji family break into the forbidden area. But now, the children of the Ji family, such as Ji Ruri, are totally connected in this wild atmosphere. There is no qualification to approach the forbidden area, let alone break into the forbidden area.

"Ancestor."

The Great Elder, the Divine Demon Lord and others also appeared, staring at the forbidden area in front of them in amazement.

"Keep it, keep it for me." The ancestor of the Ji family roared, his eyes staring fiercely.

At the moment in the forbidden land, the auras of Qin Chen and Ji Ruyue were still skyrocketing, and the endless prehistoric power entered their bodies, making their auras more powerful.

In the end, Ji Ruyue's breath had soared until the middle of the ninth stage before it completely stopped.

As for Qin Chen, his cultivation base reached the peak of the initial stage of the ninth stage, and his cultivation soared.

Looking down, the originally huge purple ocean lake turned into a small pond at this moment. Together, the two swallowed more than nine tenths of the purple spiritual liquid.

We must know that under normal circumstances, a Ji's prostitute only needs a few drops of spiritual liquid to complete the baptism, but what about Qin Chen and Ji Ruyue? Swallowed an entire huge lake.

"It feels so powerful."

Qin Chen raised his head, and after breaking through the Nine Heavens Martial Emperor, the endless rules became restrained. He waved his hand gently, and the void seemed to be manipulated, more than ten times stronger than before?

"Is this the cultivation base of Emperor Jiutian Wu? But why does it always feel so empty?"

Qin Chen frowned. He felt that the void in his body was not so solid.

"Right, it's Thunder Tribulation!"

Qin Chen suddenly woke up, because he hadn't survived the thunder tribulation, and now he could only be regarded as a breakthrough in his cultivation, but he hadn't really solidified, and he could not be regarded as a real nine-day martial emperor.

Only through the thunder tribulation, can he truly be regarded as the Nine Heavens Emperor Wu.

[Chapter 1770: Purple spar](#)

"However, why didn't Thunder Tribulation fall when I broke through the Nine Heavens Emperor Wudi?"

"No, it's not that Thunder Tribulation didn't fall, but Thunder Tribulation was blocked."

Qin Chen raised his head, and he faintly felt that above the endless sky, there was a terrifying force condensing, and that power with endless destructive power was the will of the heavens and thunder was condensing.

However, between this power and oneself, it seemed that it was shielded by some kind of power, causing the thunder tribulation to still condense in the outside world, but it has not fallen behind.

"It should be because of the Ji family's forbidden land, which blocked the induction of the sky thunder and made it impossible for the sky thunder to fall."

Qin Chen took a breath of air, and Ji's forbidden land was able to block Thunder Tribulation from being shot down. This was really surprising and incomprehensible.

It should be understood that the heaven and earth are the expression of the highest will of the heaven and the earth. At the beginning, whether Qin Chen was in the mysterious realm of the heavenly devil or in the ancient Yu realm, the sky thunder could sense him and descend the sky thunder, but now, the sky thunder is blocked .

"Is it because of this mysterious land, or is it just because of the Ji family forbidden land?"

Qin Chen frowned. Perhaps, this answer will only be known after he leaves the secret realm and sees the sky thunder can descend.

But no matter what, after breaking through the Nine Heavens Emperor Wu, his strength has become too strong, and the purple spirit liquid in the Ji family forbidden land is really against the sky.

If it weren't for this purple spirit liquid, Qin Chen didn't even know when he could break through the Nine Heavens Martial Emperor.

"I don't know what happened to Kisaragi."

A smile appeared on Qin Chen's face, he turned his head, but his face turned red all of a sudden.

Because what appeared before his eyes was a naked body, a graceful body full of endless temptations.

At this moment, Ji Ruyue appeared naked in front of him.

The snow-like white skin, and the part that tempted the dead, caused Qin Chen to give birth to a violent flame.

Qin Chen only felt that his face was hot and embarrassing. At this moment, his whole body was also naked, and his clothes had already been melted away by the purple lake in the first time.

Don't go too far, Qin Chen didn't dare to look at Ji Ruyue's body again. He was afraid that he would not be able to bear it. Although his will was very firm, Ji Ruyue was too tempted. After the breakthrough, the whole person was more holy and sacred, like a nine-day fairy descending. .

Such a stunning beauty is floating there naked, and he himself is also naked. At this time, the feeling of heart shaking is too strong.

With a move of mind, two sets of clothes appeared. Fortunately, he had a lot of clothes in his storage ring.

Putting on a set of martial arts robe, Qin Chen walked towards Ji Ruyue and draped her clothes on her body. Only then did he dared to turn his gaze to look at Ji Ruyue.

However, at this moment, Qin Chen saw a pair of bright and beautiful eyes just opened, staring at him unblinkingly, eyes facing each other, Qin Chen wanted to find a place to drill down, embarrassing.

Ji Ruyue glanced at her body, and immediately realized what had happened, her face instantly became extremely red, even the roots of her ears were red.

"I did not do it on purpose."

Qin Chen said awkwardly, and glanced at Ji Ruyue's red cheeks, which were like ripe apples, tender and crystal clear, and touching.

Ji Ruyue gave a soft humble, and immediately put on the clothes that she draped over, covering her graceful body, every movement was enough to make a man crazy.

After that, Ji Ruyue looked down at the purple lake. At this moment, the lake was much calmer, but it was still surging, and Ji Ruyue fell down inexplicably.

"Ji Yue?"

Qin Chen was taken aback. What is Ru Yue doing?

"There seems to be something at the bottom of the lake."

I saw Ji Ruyue stop on the purple lake, staring at the lake in a daze, and gently touching the surface of the lake with her right hand.

suddenly!

call out!

A purple streamer suddenly rushed out of the lake and entered the heart of Ji Ruyue's palm.

"what!"

Ji Ruyue exhaled in a low voice, it was a purple spar, exuding the aura of the avenue, it was branded in Ruyue's palm for an instant, and then disappeared.

In the next moment, a purple rune appeared at the center of Ruyue's eyebrows. In an instant, Ji Ruyue's breath became extremely noble, like a high goddess.

After the purple spar entered Ji Ruyue's body, the surging lake instantly calmed down. Although the remaining spiritual liquid still exudes an amazing aura, it gives people the feeling that they have lost their spirituality. general.

"Kiritsu, how are you?"

Qin Chen's figure shook, and anxiously came to Ji Ruyue's side.

"I'm fine!"

Ji Ruyue shook her head and murmured: "It seemed that this thing was calling me just now."

"This thing?"

Qin Chen touched Ji Ruyue's eyebrows with his right hand, and suddenly, a mighty aura rushed toward his face. That aura even made Qin Chen feel a little palpating, as if an ant was looking up at the Shenlong.

"What on earth is this thing?" Qin Chen muttered.

"I don't know, but I can feel that this thing seems to be the source of the spiritual liquid lake in the forbidden land of my Ji family." Ji Ruyue whispered.

Qin Chen was taken aback, "You mean, this purple lake was born from this purple spar?"

When this thought came out, Qin Chen was startled.

This is not impossible.

Just like the space pool in the ancient Yu world, in fact, the entire space pool was born from a space pearl containing the power of endless space, and this forbidden land spiritual liquid should be the same.

Otherwise, for countless years, no matter how much spiritual fluid there is in this lake, I am afraid that it has been consumed by the Ji family, and it is impossible to provide it endlessly from ancient times to the present.

"Hey, the feelings of Qiankun's good fortune jade disc and I have returned." At this time, Qin Chen once again sensed Qiankun's good fortune jade disc, and when he sensed Qiankun's good fortune jade disc, Lao Yuan's voice also spread. Came out: "Kid Qin Chen, you actually broke through Emperor Wu, what happened before?"

Before, there was an invisible force that shielded the universe's good fortune jade disc and the outside world, causing Lao Yuan to feel a little nervous. Now that he felt the outside world again, Lao Yuan was immediately stunned by Qin Chen's cultivation base.

"I don't know either." Qin Chen smiled bitterly, and briefly said what had happened before.

"This..." Lao Yuan was shocked. "Are you saying you saw something about my Alien Demon Continent? Impossible. I have never heard of those strong people you mentioned before, Lao Yuan, in my Alien Demon Race, There can never be such a character."

What is going on here?

Qin Chen frowned. He was sure that he saw that those people were definitely alien demon people. He still wouldn't admit that he was wrong, but Lao Yuan was an ancient source beast of alien demon people, so it was naturally impossible to say anything false.

"No matter what, let's see what's in the stone house first."

Qin Chen no longer wasted time. He raised his hand, and immediately, all the remaining purple spiritual liquid was absorbed into the jade plate of Universe Good Fortune by him, and turned into a pond.
