

Valkyrie 1781

[Chapter 1781: Where is the iron cow](#)

Ancient Cangwu Emperor smiled humbly: "Compared with the two seniors, the juniors can only be regarded as slightly improved."

In front of the two powerful alien demons, Skeleton Rudder Lord and Mokara, Ancient Cangwu Emperor did not dare to be too arrogant.

However, this time, he did gain a lot. There were too many treasures in the branches of the Law Enforcement Hall, and he ransacked everything he passed, making his strength soar.

In particular, he possessed the ancient cosmic bloodline, which could have an effect similar to "freezing time and space". With the increase in battle and strength, his ancient cosmic bloodline became more and more terrifying, and he began to show abilities far superior to ordinary Wudi.

"He's meow, don't brag about you three."

A trace of spatial power flashed through the void, and the **** cat walked out of the void.

"My Lord Cat!"

Mokara and Skeleton Rudder stood up immediately and saluted respectfully. Qin Chen could disdain the **** cat, but they didn't dare to neglect.

"My Lord Cat, is there any news from the owner?" Everyone looked at the **** cat anxiously.

"I found out early, that kid Qin Chen is really not worrying. He should be in the Ji family ancestral land, Ji family ancestral land. It is rumored that it is a very powerful secret realm in ancient times, so it is difficult for you to feel his existence. "The **** cat curled his mouth and said, "He ran in to find his little girlfriend and left us here. It was really loyal."

Everyone looked at each other, and the **** cat seemed to resent the owner.

The Master Skull Rudder frowned, and said, "Master Cat, this Ji family should be from the Hall of Law Enforcement, right? Is the owner in danger?"

"It should be useless for the time being, that kid, pretending to be an aboriginal from this Martial Domain Luoxue Mountain Range, entered the ancestral land baptism as a Tianjiao, but after entering the ancestral land, the situation is not clear, the Ji family ancestral land, the strong It is everywhere and dangerous, and the ancestor of the Ji family is sitting in town. Once the kid reveals his identity, I am afraid it will be dangerous."

"Then what to do?"

The head of Skull Rudder and the others suddenly raised their hearts. If Qin Chen had a problem, then they were still tossing about it.

"Is there any way, let's go to this Ji's house, back to this so-called hidden family." The **** cat waved his hand comfortably, "Follow me."

Then, it flickered, escaped into the void, and disappeared instantly.

Outside the Ji's mansion.

This building community is as peaceful as ever. The Ji family has been born for three hundred years and has already established endless majesty in Jizhou, and no one dares to offend.

Therefore, some guards outside the Ji family's mansion were very relaxed. The last time Ji's family was attacked was more than a hundred years ago. There was a fierce conflict with the neighboring Mo family. Ask for justice to the Ji family.

As a result, the Ji family ignored it, and the two sides confronted strongly. In the end, the two sides did not have any violent impulse, but just shouted to leave.

This is because the Mo family is just to pretend, not really want to attack. If the two big families really want to fight to the death, the two big families will be finished, and they can only make the other forces cheaper.

What's more, what the two sides are fighting for is the position in the palace of law enforcement. It is also an internal struggle. Naturally, they will not go to the line and let the whole continent see jokes.

Since there has been no fighting for too long, the guards of the Ji family are naturally very relaxed, taking this job as a rest, one by one loose and very idle.

"There is an enemy!" Suddenly, a guard exclaimed loudly. He also looked up by accident, but saw a few dark shadows in the sky passing by, coming towards the Ji family mansion.

"Alert!" A guard hurriedly shouted.

The rest of the guards looked up and saw that the few shadows were three extraordinary people, each with a sturdy back and waist, with a majestic momentum, full of blood and energy, with the ambition of swallowing mountains and rivers, flying by, the void trembling, and coming Rumble and roar.

At the same time, there was a **** cat squatting on the shoulder of the leader man, with bright hair and cold evil spirits.

This group of people is too overbearing, just by looking at them, these guards who only have the cultivation base of King Wu actually knelt down, and they only felt that they were going to be terrified.

What is this group of people?

"Which friend, since he came to my Ji's house, he is so aggressive?" A strong voice came from the Ji's mansion, but it was like Hong Zhongda Lu, deaf and deaf, Ji Daoyuan was talking.

At the same time, the camp below was alarmed, a famous Ji family expert appeared, countless Wu Huang experts gathered into a terrible force, staring at the three in the sky, and there were Wu Emperor experts appearing in every corner, staring at them.

Seeing the sky above, the black cat on the shoulder of the leader waved his hand, and all three of them stopped, floating in the sky, their movements were very neat, and they didn't care about the mighty power of the Ji family.

"Is there a person named Tie Niu who is in the Ji family mansion at the moment?" The man headed by him was very domineering, and said, suddenly like a thunder and sensation, it instantly resounded every corner of the Ji family mansion.

"Your Excellency, you rushed into my Ji's house, and you looked like you were arrogant, thinking that my Ji's family is good for bullying?" Hush, a figure flew out, standing proudly in the air.

This is Ji Dao Mausoleum, with extraordinary dominance. The mid-term peak of Emperor Wu's breath erupted. He felt that Ji Daoyuan's opening was too weak, and he came forward and sternly rebuked him, exposing the power of the Ji family.

The leading man looked at Ji Daoling coldly, as if the other party was not a middle-term martial emperor, but an ant.

What contempt is this?

Ji Daoling is the leader of the third generation of the Ji family. He broke through the mid-term martial emperor more than a decade ago. Now, he has stepped into the mid-term peak martial emperor realm and is in charge of many affairs of the Ji family. It can be described as a powerful figure in the Ji family. .

Although he is not the strongest person in the Ji family, he is a favorable candidate for the next Patriarch. Naturally, he should use this opportunity to suppress Ji Daoyuan and show his demeanor.

If another person was so contemptuous of him, he would have slapped him to death, but he didn't rashly attacked the three of them.

The opponent is also a strong man of Emperor Wu.

To reach their heights, as long as the aura is not obvious, it is impossible to predict the cultivation base of the other party. It is also true that Ji Daoling was a little jealous, did not take it easily, for fear of hitting the iron plate.

If his backbone was defeated at the door of his home, even if a Ji family master found him back, this shame would still accompany him throughout his life and become a stumbling block for his promotion to the Patriarch status.

However, Ji Daoling is still very confident. Although the three opponents are not weak, this is the residence of the Ji family. The strong are like clouds. Before they don't know the origin of the other party, Ji Daoling can only pay attention to it, not enough to be afraid.

What's more, the Ji family is in charge of the Hall of Law Enforcement, following the Misty Palace, in the world, which top power dare to be an enemy of them.

"Where is the iron cow?" the leader asked coldly, defiantly.

Naturally, it is the three of Mokara.

[Chapter 1782: You don't go](#)

Tie Niu, are these three people looking for Tie Niu?

Ji Daoling's face sank. He didn't expect that these three people came to look for the iron cow, but they didn't know what was their relationship with the iron cow? Enemy or friend?

That iron bull is now in the ancestral home of the Ji family. Once baptized, it will inevitably become a running dog of the Ji family, and Ji Daoling will naturally not easily say it.

The most urgent task is to clarify the relationship between the two parties.

Boom!

At this moment, I saw a battleship in the distance. This battleship was thousands of feet long. As soon as it appeared, the sky was obscured, and a tyrannical aura burst out. The battleship rumbling, came to the outside of the Ji family mansion in an instant.

"Ji Daoling, you are here, just right." From the battleship, a group of people flew quickly, each with murderous aura and extraordinary momentum. The leader was a slender old man. He glanced over and said: "Ji Daoling, the old man wants Ask you for someone."

His voice rumbled like thunder.

Ji Daoling's eyes couldn't help but tightened, and said: "Mo Wuji, what do you mean? Go to my Ji's house to ask for someone?"

Mo Wuji, the leader of the Mo family, the mid-term peak Wudi strong, was one of the competitors for the next Patriarch of the Mo family like him. The two have fought many times in the long battle between the two, you can say They are familiar with each other.

"Hmph, you are ashamed to ask me, there is a man named Tie Niu who destroyed one of my son's arms on Dao Mountain, and provokes my Mo family again. I am going to kill this son by the order of my Mo family ancestor! "Mo Wu said with a cold voice: "Now, I heard that this son is in your Ji's house, Ji Daoling's hallowed Ji's Emperor Wu, will you admit it?"

Iron Bull, Iron Bull again!

Ji Daoling's expression was strange, but he naturally knew Qin Chen and Mo Qianyuan's grievances on Daoshan, but he saw that the Mo family had not been moving, and thought that the Mo family would not be coming. Unexpectedly, it was actually a shock to the old Mo family Ancestor.

This shows that the Mo family is moved to kill.

However, it's a coincidence that the Mo family and these three people came here? Before and after, could it be that these three powerhouses were foreign aid invited by the Mo family, or was it just a coincidence?

Thinking of this, Ji Daoling looked weird and said: "Mo Wuji, you have come to ask for the iron bull, and now these three people are also coming to ask for the iron bull from me, who do you think I should give it to?"

"Oh?" Mo Wuji frowned and looked at the three of Mokara. "Your Excellency, did Tie Niu hurt your family too?"

Mokara looked at him coldly: "Does it have anything to do with you?"

"You..." Mo Wu was so angry that his heart was beating wildly. What kind of attitude is this person? The Emperor Wu of the Mo family dignified himself and asked him a question, but he answered like this, coldly snorting: "Your Excellency, do you know who I am?"

"Who are you, do you have anything to do with me?" Mokara said with a grin, a mid-term peak martial emperor, putting garlic in front of him.

"Bold!"

"presumptuous!"

"What attitude!"

A group of strong men behind the Mo family were angry, and each screamed, violently, and said coldly: "I am from the Mo family. Before you speak, you'd better inquire about the identity of others and don't get into trouble."

"Mo family, what about the Mo family, go away." Mokara looked cold, and then impatiently said to Ji Daoling: "Don't be so nonsense, Tie Niu is not in your Ji family now, let him come out immediately. "

Ji Daoling almost died of anger, I am also a Wudi strong anyway, what is your attitude? Moreover, you came to beg for help, this attitude is too arrogant, right?

"Your Excellency, Tie Niu belongs to our Mo family, do you have to be an enemy of our Mo family!" Mo Wuji immediately said to Mo Kara, his eyes cold.

If the Mo family wanted to take down the Iron Bull, it was not just about taking revenge, but also getting the great fruits of Qin Chen's body and coveting the secrets that Qin Chen carried.

What's more, the legend of the Iron Bull comes from the Luoxue Mountain Range, which is a forbidden area in the Martial Region. If you take down the Iron Bull and extract everything from the opponent, don't you know everything in the Luoxue Mountain Range?

For the Mo family, this was a huge temptation.

Therefore, Tie Niu must not be given to others.

"Are you threatening me?" Mokara looked at Mo Wuji, his eyes cold, without a trace of emotion.

Mo Wuji's heart jumped suddenly by this look, as if his heart was about to pop out of his throat. This feeling was very bad, and he almost slammed it over, as if the opponent was a scourge.

He was shocked, how could the other party give him such a strong pressure? What is the origin?

"Tie Niu must be killed by my Mo family, sir, if Ti Niu also offends you, then it is the same for my Mo family to solve it. My Mo family controls the Law Enforcement Palace, and I hope your Excellency will save you face." Mo Wu Ji's words softened.

It wasn't that his Mo family was afraid of these three people, but that this was the Ji family, and he didn't want to be out of touch.

Mokara frowned slightly, revealing a hint of impatientness, and said: "Get out of the way, or you don't leave." His eyes were cold, and in an instant burst of infinite killing intent, making the world tremble.

Mo Wuji couldn't help being flustered, but then he was furious. He is the heir of the Mo family dignified, no matter where he is placed in the Martial Domain, he is regarded as a figure with a good face, even if he is in some top forces, he must be polite to welcome him.

These three savages who ran out of nowhere, dared to let him go.

by!

"Your Excellency, I don't want to be aggressive, do you really think that the Mo family is afraid of you? Go out to find out, what is the origin of my Mo family!" Mo Wuji's voice also became cold, not showing his hands. The arrogance of this price is obviously unstoppable.

The weight of the martial artist's words, after all, depends on his fists.

Mokara glanced at him coldly and said: "Then do you know who I am?"

"How does the old man know who you are?" Mo Wu said with disdain.

"Hehe, I'm from the Fallen Mountains, what do you think?" Mokara said coldly.

"what?"

Mo Wu was extremely shocked, and Ji Daoling on the side also took a breath of air-conditioning. These three people came from the Luoxue Mountain Range? No wonder the breath is so terrible? Could it be that Tie Niu's elder relative?

His heart sank, and if that's the case, it would be troublesome.

But Mo Wuji was furious at first, but immediately, his eyes froze, and he said angrily: "Wow, who am I? It turns out that you and the iron bull are in the same group. You know, the iron bull hurt my Ji family disciple. , Dare to kill my son, the crime deserves death."

Mokara didn't care, and said: "Oh? Kill your Ji family disciple, where are the people?"

"Qianyuan, come out." Mo Wuji yelled coldly, and suddenly Mo Qianyuan walked out, lacking an arm, Mo Wuji said: "See, this arm of my son is the iron bull Duo Zhan, if your Excellency doesn't give me an explanation from the Mo Family today, you will not blame the Mo Family for being merciless."

[Chapter 1783: Who is not afraid](#)

"Hehe, it turns out that I just injured an arm. What does this mean to kill you?" Mokara grinned, swish, his figure disappeared suddenly.

"what!"

The next moment, Mo Qianyuan screamed and burst open in an instant, and then, with a flash of black light, Mokara had already returned to the place.

And Mo Qianyuan, who had just walked out before, had already turned into a pile of blood mist, not to mention an arm, not even a finger.

"Hehe, it wasn't called killing your son before, but now it's really killing your son." Mokara grinned.

"Ah, I'm going to kill you!" Mo Wuji's whole body was erected, and he roared, and blasted a punch at Mokara. The world changed color suddenly, and his mighty fist instantly ripped open the sky, and went straight to the magic. Kara faces the door.

At the same time, the group of Mo Family powerhouses behind Mo Wuji also moved, and they were frightened and rushed one by one.

Boom!

The world was filled with murderous aura in an instant, and countless true essences gathered together and turned into a torrent of true essences, rushing towards the three of Mokara.

"Haha, seek your own dead end." Mokara glanced coldly at Mo Wuji, protruding his right hand, and patted Mo Wuji: "Die."

"You are the one who is dying." Mo Wu roared, hum, above his head, an astonishing phantom appeared. It was the power of his Mo family's martial spirit. The world was instantly gloomy, as if it had arrived in the twelfth lunar month of winter.

Moreover, there was a cold breath in Mo Wuji's body that rose up like hell, killing it forcefully.

However, before his attack fell on Mo Kara, Mo Kara's big hand had already reached over, and then Mo Wuji's eyes went round instantly.

Because of Mokara's shot this time, the sky's blood was aroused, and the amazing rules turned into a sky-reaching giant pillar, which smashed his attack in an instant.

Too terrible, too powerful!

"Late Wudi giant, it's not right, it seems to be stronger!" Ji Daoling said with a trembling voice, feeling a little shaking in his hands.

What is a giant?

That is the top group of people in the Martial Domain, each with extraordinary cultivation bases, who can cultivate to become a giant, and the top powers in the Martial Domain cannot be underestimated.

Such a powerful person has reached a completely new realm in his cultivation. Regardless of his Ji Dao Ling cultivation as high as the mid-term peak, he is only one step away from the later period, but it is this step away that can hold most of the mid-term peak Martial Emperor for a lifetime.

However, once entering the later stage of Emperor Wu, there will be a sudden change in his cultivation, and he will become a real giant in the mainland, so he is called a giant.

In the entire Ji family, there are also two such masters. For example, the great elder is a giant of the late Emperor Wu, but at this moment, it gives Ji Daoling the feeling that the aura of this burly man is even more terrifying than the great elder.

What will be the result of these strong players facing Mo Wuji?

Destroyed!

"Senior, if you have something to say, I am the Emperor Wu of the Mo Family, and I hope to stop. If you kill me, you will anger Mo Family... if you have something to discuss!"

Mo Wu was extremely frightened, screaming in anger, and at the same time his figure hurriedly retreated and wanted to withdraw from the battlefield.

But, will Mokara let him run away? The answer is naturally yes.

"dead!"

The **** hand fell and boomed, and the sky seemed to turn black in an instant. The next moment, Mo Wuji's body burst open, inch by inch, exploding into blood fog in the sky.

At the same time, a black shadow rushed out of the **** mist, with horror on his face, but it was Mo Wuji's soul power that was about to soar into the sky in an instant and flee here. "Hey, it's the soul escape technique of my alien demon." Mokara was surprised. He didn't expect that the other party had also practiced his alien demon's exercises. If he were to be replaced, he might be escaped by Mo Wuji's soul. , But in front of Mokara, Mo Wuji's point

Little tricks are really unattractive.

He stuck out his palm, and an invisible force immediately swallowed the black soul phantom into his hand. He snorted and disappeared into nothingness. Mo Wu extremely screamed, completely wiped out, and his soul flew away.

On the other side, Skeleton Rudder Master and Ancient Cangwu Emperor also moved.

"Jie Jie Jie, when we people in the Luoxue Mountain Range are good to bully? People who dare to move us in the Luoxue Mountain Range, die for me." The skeleton rudder master and the ancient Cangwu Emperor shook their bodies and rushed into the Mo family's team. in.

"Ah!" The screams resounded through the world, and the speed was too fast. Before Ji Daoling and other Ji family powerhouses could react, the many powerhouses from the Mo family who came on the battleship all fell here, bursting open, their bones Nothing.

"No, run!"

On the Mo family battleship, there was still someone controlling the battleship, but did not come out. Seeing this scene, they were scared to death, and hurriedly urged the battleship to escape into the void and escape from here.

"Haha, stay."

Mokara laughed and leaned out his dark palms. Suddenly, a large real yuan hand protruded out of the void and grabbed the huge battleship with a bang. Then, under the force of the real yuan hand, the battleship creaked, and the crazy explosion was prohibited. ,next moment--

boom!

The entire battleship burst open, and the sky was full of flames, like the sun and the moon falling, staining the sky red, like the end of the day.

The whole process is long, but in a flash, all the strong Mo family fell, all of them were bombarded and turned into dregs, not one left.

"hiss!"

The Ji family powerhouses who were extremely angry at the arrogant behavior of Mokara and others all took a breath.

Many people were speechless, a little dumbfounded, and of course more shivering and frightened.

What kind of monster are these? He didn't fear the strength of the Mo family at all, and shot directly, even Mo Wuji was killed. Who is not afraid?

Ji Daoling only felt that his legs were shaking so badly that he almost passed out. Mo Family Mo Wuji, who was comparable to him, who could run rampant in the Mo Family territory, was killed just like that.

These people from the Fallen Mountains are too domineering, right?

He felt guilty in his heart, and his eyes were a little dark. Why did he want to suppress Ji Daoyuan instead of going out? Now that he is well, he is in a dilemma and is about to vomit blood.

At the same time he breathed in air-conditioning, knowing that something was in trouble.

Mo Wuji died in the Ji family mansion, on the Ji family's territory.

This matter, how can the Ji family be pushed to the bottom, the two sides have been fighting to the death and the fire, and if the news is returned to the Mo family, it is not impossible for the Mo family to even go to full-scale war with the Ji family.

Because Mo Wuji, like him, is a leading figure in the third generation of the Mo family. He was prepared to be the heir to the family master. He just fell away. No matter how good the Mo family is, he will not give up and let Thunder be angry. , Fu Shi Baili.

The consequences of this will be catastrophic.

But what can he say now?

This is a giant. In front of the opponent, if he dares to be presumptuous, it is estimated that he will instantly turn ashes like Mo Wuji.

The iron bull said that he came from the Luoxue Mountain Range, but he didn't expect to have such a source. Ji Daoling's heart sank and the problem was troublesome. Once the other party found that the iron bull had been controlled by their Ji family, it was inevitable that he would not go crazy. Must inform the upper level of the clan.

[Chapter 1784: Unhappy](#)

Ji Daoling hurriedly said: "Your Excellency, Tie Niu was indeed at my Ji's house before, but because I was in retreat at the time, I didn't know where he went later. I have to investigate."

Before he knew it, Ji Daoling's voice was lowered a lot, revealing a humble look in front of the other party.

Giant and powerful, now the great elder is not there. In the entire mansion, there is only one old elder sitting here. With this strength, can he not keep a low profile.

Although the Ji family is very strong, the masters are all in the ancestral land, and the distant water cannot save the near fire.

"What to investigate? People are in your mansion, let him come to see me, this stinky boy, running by himself, said that he would come out to find a wife, and see if I don't interrupt his legs." Mokara grinned.

"This..." Ji Daoling was embarrassed, and he didn't dare to leave forcibly, and he was dizzy.

"Damn, I don't know if this kid Ji Daoyuan notified the old man about them, don't deliberately punish me." Ji Daoling scolded his mother inside.

Boom!

At this moment, powerful figures emerged, standing proudly in the sky, one after another from the depths of the Ji family mansion, some of them were apparent, while others were shrouded in chaos, with the atmosphere of a great avenue. Covered, it is difficult to see the true content.

There are a total of six such strong men, like Ji Daoling and Ji Daoyuan, all of whom are mid-term Wudi and above, and are the backbone of the Ji family to the outside world. At present, the only remaining old elder in the Ji family, named Ji Delong, is guarded by many strong men. He looks only 70 or 80 years old, but in fact he is more than 100 years old, and the great elder Are of the same generation, the later Emperor Wu

break.

He came with the rainbow, the power of the rules around his body became the essence, the chaotic energy surged, and his body was terrifying.

Ji Delong was observing Mokara in secret. This master gave him a sense of inscrutableness. It was indeed very strong. If there was a war, he was not sure of winning.

Unexpectedly, there really is a powerful tribe in the Fallen Mountains.

He was secretly startled in his heart, but smiled on his face, and said, "It's a pleasure to have friends coming from far away!" He led the strong Ji family to greet him.

"What's the fun? What about the Iron Bullman? This bastard, he won't come out when I see me, is it itchy?" Mokara dissatisfied, his voice was loud and deaf.

Ji Delong's face was a bit sullen, this is not a routine at all, he is also a giant of the late Martial Emperor, he was put aside, ignored, who can bear it?

He no longer spoke, but winked at Ji Daoling. "You don't need to shout, Tie Niu was indeed at my Ji's house before, but now I'm not here, I went to my Ji's ancestral land." Ji Daoling got Ji Delong's hint and told the truth to the other party, because Ji Delong was nearby and he The confidence

That's enough, the words are said to be clear.

"Oh?" Mokara raised his brows: "Then where is your ancestral land?"

Ji Delong said: "Your Excellency, are you going to my Ji family ancestral land to find Iron Bull?"

"Nonsense!" Mokara said unceremoniously: "Are you all idiots? Our group came from the Luoxue Mountain, is it because we are coming to your ruined place to sit?"

"Bold!" All the strong in the Ji family yelled. You are too presumptuous. Killing at the door of the Ji family doesn't count. You also lose respect for the clan elders. Do you really think the Ji family is a bully? Ji Delong was also dissatisfied and said: "Your Excellency, you killed a group of Mo family at the door of our Ji family. This matter... There must be an explanation. You may let our Ji family carry this pot, let alone my Ji family ancestor. The land is my Ji family

Is it the birthplace of you outsiders who can enter if you want to? "

Mokara was even more impatient, and said: "What Ji Family Mo Family, if you want to confess, OK, come to my Luoxue Mountain Range, no matter who you are, I'll take it down!"

Fallen Mountains!

Everyone was speechless, it was a forbidden place in the Martial Domain, and who the **** would go to that kind of place if he had nothing to do.

But is the Falling Blood Mountain Range great? When the female emperor dominates the world, she will inevitably push the entire martial arts domain at that time. If you want to smooth the so-called many forbidden areas, how can these people be arrogant. Ji Delong took a deep breath and didn't want to tear his face with Mokara and the others, because he really had no bottom, so he could only say: "Your Excellency, it's better to live with my Ji family for a few days. Anyway, Tie Niu went to the ancestral land to accept it. Baptism, I will come back as soon as I want,

If you can still see him, why rush for a while! "

As long as the three people in front of him live in Ji's house, he will immediately notify the ancestors in the ancestral land and the Mo family. When the people of the Mo family come, the ancestors will get news, then no matter how you solve it, anyway, he doesn't care about Ji family Something up.

Ji Delong snorted coldly and said, "I'm asking you where the Ji family's ancestral land is. I don't need your advice. If you don't want to, just tell the location and you don't need to take it. We will go by ourselves."

"Your Excellency, you are too much!" a mid-term peak Martial Emperor said, anyway, the old man is on the side, he is naturally fearless.

With so many people in the Ji family, can't they still deal with these three savages?

"A group of itchy idiots, I have to do it!" Mokara said impatiently. He was here to make trouble anyway. He raised his right hand, boomed, and the rules condensed. The surroundings suddenly turned into a dark ocean, boundless blood swallowing everything and shaking. Void.

boom!

In the vast ocean, there was a terrifying beast rising into the sky. It was a blood beast transformed into a **** beast. It was hideous and terrifying, and fell towards the six powerful Ji family.

"Presumptuous!" Ji Delong roared. This person is really bold. The trio of people came to Ji's house and killed a group of Mo family. It didn't count. They actually wanted to shoot at their Ji family. He didn't know what to say.

"Open the big array!"

Ji Delong roared, and suddenly, hum, the Ji family mansion was enveloped by a terrifying prohibition, covering thousands of miles of void in an instant, bursting with glare.

At the same time, Ji Delong shot, and the other five mid-term martial emperors also shot. This is not a discussion, but a defense against foreign enemies. Naturally, there is no need to fight alone.

In fact, many of the early Wu Emperors and even the powerful Wu Emperors also moved, and they all shot together and broke out to join forces to capture the three of Mokara.

It has to be said that the Ji family is very powerful, even if there are no great elders and others, the strength is still terrible. This group of powerful people combined with the power of boundless restraint is enough to suppress the later Wudi giants and sweep everything. "Pick yourself up!" Mokara grinned, grinning very sullenly, and his figure moved suddenly. At the same time, the figures of Skeleton Rudder and Ancient Cangwu Emperor also disappeared. The most terrifying thing was that he was sitting lazily. The **** cat on Mokara's shoulder also disappeared

Lost.

puff! The next moment, the prohibition outside the Ji family mansion burst to pieces and lost its effect, as if it had been blocked by someone, and the key center was instantly paralyzed.

[Chapter 1785: Draw tiger cat](#)

Then, endless rainbow lights flickered, an astonishing roar resounded throughout the world, the monstrous true essence covered everything, and the sky dimmed and turned into night.

The night only lasted for a while, the sky cleared again, and then it was calm.

The three of Mokara still stand proudly in the void, while many of the strong in the Ji family are stumbling, even Ji Delong is no exception, disheveled and covered in blood.

The six powerhouses couldn't help being horrified. What kind of strength is this?

It's nothing more than others. Ji Delong is a great late emperor of Wudi, and with the help of the five mid-term peak Wudi, he was actually defeated by the opponent in an instant. How big is the gap between the two sides?

No, it can't be said that it is because of the difference in strength, because at the moment of the previous fight, they discovered that the skeleton rudder is also a giant of the late emperor. Under the two joint efforts, only one blow to the old Ji Delong was injured.

hiss!

This made everyone **** in air.

There are actually two late martial emperors of the other three, and there are so many people on their side, but there is only one late martial emperor, so naturally they suffer.

"I just taught you a lesson. If you don't take us to your Ji family ancestral land, I won't blame the three of us for being polite." Mokara grinned, with green eyes like evil spirits, which was terrifying.

"Old man!"

Everyone looked at Ji Delong, their faces pale and ugly.

The other party had only three people, but broke into their Ji family, and they made so many people in their Ji family helpless, as if they were surrounded, and the humiliation in their hearts can be imagined.

However, Ji Daoling and the others also knew that the other party had two great late martial emperors and they really wanted to fight against each other. They would definitely suffer a loss here, and even like the Mo family before, many people fell instantly.

But now, they are only injured, it can be seen that the other party still kept their hands.

"Why, don't answer yet? Our patience is limited." Mokara squinted, like an evil spirit choosing people and devouring them.

"Well, since the few people have to go to the ancestral land of my Ji family, the old man will lead the way and lead you through." Ji Delong said helplessly, then turned around and flew away.

He looked at the eagle bird, and his heart was cold, and he secretly said: Since these three people are looking for death, then it is no wonder our Ji family, waiting in the ancestral land, there is the ancestor to take action, to see where you can escape.

As the old veteran, he is naturally very clear about the strength of the ancestral land. Dealing with these three guys is not easy to catch.

Under Ji Delong's leadership, the Mokara trio soon arrived outside the Ji family ancestral home.

"This is where my Ji family ancestors are located." Ji Delong said. Mokara and the others raised their heads. There was a mountain range in front of them. There was no ancestral land at all. The **** cat narrowed his eyes and said secretly, "Hey, this place seems to be a secret realm. If this kid hadn't brought it, it's not easy to find

."

"Old man!"

At this moment, a few figures swept out of the mountains and forests, the Wudi strong man guarding this place, and he immediately bowed and saluted when he saw Ji Delong.

"Well, I want to bring three people into the ancestral land, you open the ancestral land." Ji Delong ordered.

The three of them didn't dare to neglect, and they urged the void. Suddenly, a halo like a gate appeared in the void, and a predominant breath came out from it.

After that, Ji Delong led the three of Mokara into the ancestral land.

"This place..." Looking at the wild mountains in the Ji family ancestral land, the **** cat's eyes narrowed, but immediately, the group of people all looked up in amazement, because they felt that there seemed to be endless thunder roaring in the distant sky, and the sky, It was gloomy, the true essence was violent, and it was boiling

Teng general.

Looking around, I saw a dark cloud in front of this wild and unexplored realm. Under the cloud, raging thunder shrouded, endless thunder light poured out, and extremely violent.

"It's the direction of the ancestral land." Ji Delong's expression suddenly changed.

How could there be so many thunderclouds over the ancestral land?

On the contrary, the **** cat and the skeleton rudder master were speechless, staring at their eyes one by one. How familiar with this scene, it wouldn't be Qin Chen...

"Go, let's go."

The three Mokara rushed towards the thunderstorm.

"Three wait a minute, now my ancestral land has changed, please wait a moment, let me inform the people of my Ji family." Ji Delong even stopped the three of them and shouted in a low voice.

"Haha, notice, what can I do to inform you, your mission is complete, you can go to death!" Mokara grinned, and suddenly sprang over.

"What are you talking about..." Ji Delong's eyes froze. Before he could do anything, he swish, the ancient Cangwu Emperor and Skeleton Rudder also moved, and shot him at him in an instant. "You guys!" Ji Delong was shocked immediately, and even a mouthful of blood spurted out. At the same time, his body soared wildly, more than double the size of the original, and suddenly a black killing flag appeared in his hand, and it was rolled out suddenly. Within without

The killing momentum was rolled up, and in the sound of wooing, it turned into an endless black mist and swept towards the three of Mokara.

"Hey, it's like my Alien Demon Clan's technique, but unfortunately, it's not like painting a tiger cat." Mokara sneered, then punched out.

Om, the moment he blasted his punch, the terrifying killing intent brought by the fist wind had already covered the power of the black killing flag, and the next one was high. Originally, the sky full of killing

power rolled up by the black kill flag has been climbing frantically, but after Mokara's punch was blasted, this rising sky of killing power stopped in an instant, just breathing, this kind of instant was suppressed, a moment later

, Within a hundred miles, it is no longer Ji Delong's offensive, but Mokara's endless killing intent.

boom!

The two forces collided violently, erupting an unprecedented terrifying power, and at the same time the black magic energy formed by the black killing flag was madly annihilated, arousing a violent spatial turbulence. The cold aura poured into Ji Delong's body along this killing force, immediately causing Ji Delong's body to tremble, and there was a lot of chill in his whole body, and a trace of black thread spread wildly on his body.

The space covered his whole body.

"Not good!" Ji Delong was shocked immediately, the other party was only a move, let him fall into the wind, under the panic in his heart, he was going to retreat frantically. "Jie Jie Jie, where are you going to run?" But at this moment, there was a grinning sound from behind Ji Delong, only the skeleton rudder master, a white bone whip appeared in his hand, turned into a cage-like chain nebula, curling up endlessly. The whirlpool, pack towards him

Wrapped up.

Oh oh oh! Bone whip whispered, countless black demon energy swept through, Ji Delong felt like his body was about to be frozen, the cold power, which can almost freeze the soul, was actually the power of a foreign demon race.

[Chapter 1786: Destruction thunderstorm](#)

"You are not from the Fallen Mountains, who are you anyway?"

Ji Delong's cold hair stood up all over, and he roared in anger, these guys are alien demons, how could they come from the Luoxue Mountain? Could it be that the Mo family deliberately sent to kill their Ji family?

No, if it was sent by the Mo family, how could they kill Mo Wuji's people just now? Even if it was a bitter trick, it would be too cruel.

It was not sent by the Mo family, but who could it be? For example, the strange demons in the Wu Continent all obey the orders of the Misty Palace. Although his Ji family and Mo family also have strong strange demons, but the other party doesn't listen to their two families at all. Only Misty Palace can really mobilize them. Misty Palace

Killed their Ji family?

But if the Misty Palace really wants to do this, doesn't it need to be so troublesome?

When Ji Delong was so frightened in his heart, the bone whip of the Skeleton Rudder Master finally wrapped Ji Delong.

"what!"

The moment the bone whip entangled him, Ji Delong suddenly burst into black smoke and roared in pain.

He was frightened, and hurriedly wanted to break free from the shackles of the bone whip, but the bone whip couldn't break free, and the cold power penetrated from it, quickly corroding his soul.

"burst!"

At the critical moment, he didn't care too much. Above his head, blood suddenly appeared. He wanted to explode on the spot, break free, and escape from here.

But at this moment!

"Ancient Bloodline!"

Hum!

A strange power suddenly filled the body of the ancient Cangwu Emperor. As soon as this power appeared, Ji Delong's bloodline that was about to explode suddenly stagnated.

And because of this stagnation, the attacks of Mokara and Skeleton Rudder have once again fallen.

With a puff, Ji Delong's head burst open, and the whole scream was blasted to pieces.

"Hahaha, delicious flesh and blood." Mokara and the Skeleton Rudder master sucked forcefully at the same time. One swallowed Ji Delong's blood and the other devoured Ji Delong's soul. Both of them showed satisfied and intoxicated expressions on their faces, and The aura on the two of them has once again

A faint promotion.

In the later period of Emperor Wu, it was so delicious.

The two of them were a little intoxicated and said, if they want to use such delicacies every day, would they worry that their cultivation base can't be restored? I'm afraid it won't take long to recover to the peak.

"Well, you two, don't get intoxicated. He's meowing. It's just a late Martial Emperor. It's a waste of so long, waste."

The **** cat said a word of dissatisfaction, shook his body, and disappeared into the void suddenly.

"Let's go, let's go and see if the master is there to cross the robbery, but unless the master, what kind of abnormality can attract?"

Mokara and Skeleton Rudder Master laughed and swept towards the minefield ahead.

The ancient Cangwu Emperor also followed. As soon as they entered the ancestral land, they connected with Qin Chen. They found that the soul connection between each other was stronger than ever, and the three of them were relieved, knowing that Qin Chen was safe and sound. I'm not so worried.

In their opinion, it is the Ji family who dares to confront the master, anxious and unlucky.

Just as Mokara and the others had guessed, the Ji family ancestors and others at this moment were about to explode in anger.

Boom!

The endless thunder light surged in the sky, and the entire Ji family ancestral land was flooded with thunder light, and a large number of strong men wailed under the thunder, and their bodies were scorched.

This thunder calamity is too strong, and the long thunder light poured down like a waterfall of thunder light.

This kind of power is too terrible.

As the ancestors of Emperor Wu, they had seen too many thunder robberies, but they had never seen a person's thunder robbery as terrible as it is today.

Normal Emperor Wu's thunder calamity is a series of three-nine days, six-nine days, or nine-nine days. But now? The tribulations flooded all over the sky, like a big river falling down, this kind of momentum is too scary and too terrifying.

In the void, there were hundreds of thousands of thunder tribulations, flooding everything, even if Ji couldn't be stronger, it was unbearable, shrinking the blood sea range of the blood sea bead, in an instant, dozens of hundreds of people exploded, it was too tragic.

"what!"

Ji couldn't scream, his canthus was cracked, and his eyes were red.

These are the top-notch details of his Ji family, but so many died in an instant, this kind of loss is too great, it is equivalent to an instant, the Ji family's decades of savings are instantly destroyed, which is frightening.

"come!"

Ji couldn't scream, and gathered the great elders, the rotten demon monarch and other late martial emperors together to form a new battle formation. He was full of blood, like a demon god, and the monstrous blood was floating and sinking in this sea of thunder.

He wants to keep more people, otherwise, if he survives and everyone else falls, the Ji family is also over.

At this time, Qin Chen didn't have much energy to entangle Ji with Ji, because Lei Jie became more tyrannical, and even he began to feel strenuous.

The sky broke through an extremely huge black hole. Inside the black hole, the endless energy was compressed together and rotated wildly, finally forming a super energy vortex. In the energy vortex, black thunderstorms poured down.

Boom boom boom!

These black thunder and lightning became more terrifying, much stronger than the previous thunder, the space was torn into thin cracks, the cracks continued to spread, and finally Qin Chen was surrounded by a spider web.

The aura of destruction was too terrifying, making people palpitating and frightening, Ji Ruyue suddenly looked over nervously.

She was also crossing the robbery, but these black destruction thunders did not affect her.

"Don't come here!" Qin Chen yelled coldly, his eyes dignified, and his cold hair stood up, feeling a strong threat. In the next moment, the black storm rushed towards Qin Chen. With Qin Chen's eyesight, it was hard to see that this black thunderstorm was extremely sharp, as if it were composed of endless black swords, even if it was a mountain range, it encountered a black thunderstorm. , Both

Was bombarded into powder.

boom!

It was a hundred meters in radius, and was swallowed by a black thunderstorm. Qin Chen's figure was swept away, and the figure was not visible.

Boom! The thunderstorm exploded, and the endless black energy erupted in an instant. Ji couldn't wait for people to be rushed out in embarrassment. "Ah", someone screamed. The power of this destructive thunderstorm is too terrible, even if it is only affected by the aftermath, located in the blood. Under the sea they also

Unbearable.

On the spot, someone exploded. They were two mid-term Wudi strong men who were on the side of the thunderstorm and couldn't bear their weight. "What kind of thunder robbery is this?" Ji couldn't wait for people to watch this scene in astonishment. It was too terrifying. The great elder was also shaking in his heart. Is this still a martial emperor thunder robbery? That power, I'm afraid it's not blessed by the ancestor's blood sea bead, even he would be injured, too terrible

Up.

puff!

The thunderstorm exploded, and a figure flew out. It was Qin Chen. His robe was broken and he was extremely embarrassed. There was blood spilling from the corner of his mouth, his hair was scattered, and his whole body was a little scorched. This destructive thunderstorm was too terrifying, even he was injured, the meridians in his body were split, his breath floated, and his body was extremely hot.

[Chapter 1787: Thunder Tribulation](#)

This thunder robbery is too strong. Compared with the Wuhuang thunder robbery in the ancient Yu world, it is a hundred times more powerful. The destruction aura surges. If Qin Chen had not mastered the rules of destruction, it could greatly reduce the destruction in the thunderstorm. Mind, otherwise just now

, Can make him explode on the spot, there is no bones left.

"This is... the Thunder Tribulation of World Destruction?"

Outside the Ji family ancestral land, several figures appeared, it was Mokara, and the **** cat was floating in the air, with golden eyes looking at the pitch black ink above his head, like a black hole, revealing a solemn color.

The World Extinguishing Thunder Tribulation, in the legend, this is the terrifying sky thunder of the Heavenly Dao jealous of people who will send thunder punishment to the other side to be intolerable.

But now, Qin Chen was embarrassed with bleeding from the corners of his mouth. It was too tragic. Although he couldn't see the severity of the injuries, he could see that his condition was very bad, his breath was suspended, and he seemed to be seriously injured.

"No, the master is injured, let's go in and help." Skeleton Rudder's face changed, and he was about to rush into the castle.

"Stop!" A black light flashed, and it was the **** cat that quickly stopped him.

"The World Extinguishing Thunder Tribulation is the most terrifying thunder Tribulation of the Heavenly Dao. If you enter, you will not help Qin Chen, but you will be wiped out in ashes. It will not help the matter, and it will offend the rules of the Heavenly Dao." The **** cat said condensed.

"Then we can only watch here?" Skeleton rudder master was anxious and nervous. "Otherwise? Lei Tribulation is the root of the transformation of a Martial Emperor. Only through the thunder Tribulation can we be recognized by the will of Heaven and be integrated into the rules of Heaven. This is a step that any Martial Emperor must go through, although this kid Thunder Tribulation

Far beyond ordinary people, but I believe that this kid will never be knocked down by thunder." The **** cat said.

"Okay, then." The Skeleton Rudder master gritted his teeth, and now he can only do that.

No one saw it, the **** cat clenched its paws and stared at Qin Chen, obviously also extremely nervous.

In the old castle, Ji couldn't wait for others. Obviously, he wouldn't be nervous for Qin Chen. On the contrary, he was overjoyed when he saw Qin Chen's injury.

"Good chance, give me death!"

Ji couldn't be clear about Qin Chen's state, but seeing his embarrassed appearance, it was obvious that he was seriously injured and would not take action at this moment? When are you waiting?

As long as Qin Chen is beheaded, the Heaven and Earth Thunder Tribulation will naturally disappear, and the Ji Family Ancestral Land can be safely preserved. Therefore, he shot in an instant, and once shot was a lore, he burst out toward Qin Chen.

Qin Chen sneered and did not dodge.

Boom!

The sky suddenly flashed, and the whole world was filled with endless light. Almost one in a thousand blinks, a flash of thunder fell from the sky, smashed straight down, and instantly fell on Ji Can't, giving him no chance to dodge at all. .

puff!

A mouthful of scorching blood spurted out, Ji could not fly out miserably, his body was burnt black.

"Ancestor!"

The elders exclaimed and hurriedly greeted them.

"Hehe, I am a robber who wants to attack me, but I have to bear the anger of the will of heaven and earth."

Qin Chen seemed to know that he would be fine.

He looked up, and the sky became gloomier and suffocating. The mid-term Wudi powerhouse shivered under this depressive breath, and even the late-term Wudi giant was trembling, feeling that he couldn't bear such pressure in his heart.

"How..." Ji couldn't be frightened. Although he knew that the catastrophe would come to the victim, but it was too fast. The thunder was flashing. He was inevitable, and his power was so powerful that he could be seriously injured. he.

What kind of catastrophe is this?

Although Ji Keneng knew that attacking the robbers would anger the will of heaven and earth, but he did not expect that the will of heaven and earth this time was too terrifying, and even he would retreat.

"Huh, well, such a powerful tribulation is not so easy to get through. When the thunder tribulation is over, I will kill you immediately, even if you pay more."

Ji couldn't give up the plan to kill Qin Chen now, he couldn't do it.

Qin Chen raised his head, his eyes were very solemn, and he was not excited because Ji could not be seriously injured by the robbery, because he knew well that the stronger the punishment of Lei Jie's external intervention, the more terrifying the power of the thunder robbery. Ever?

Click! The black thunderstorms are just appetizers. Below, another wave of terrifying thunderstorms came. I saw **** thunderballs falling from the sky and smashing towards Qin Chen. These were not ordinary thunder and lightning, but blessed the world. Destruction of Will

, The power is unimaginable, every thunderball has the lethal power to destroy a city.

"Exit!"

This time, Qin Chen didn't hold it big, and a mysterious rust sword appeared in his hand. He swung it hundreds of times in an instant, and the sword energy went up against the sky.

Crackling!

Thunderballs burst, exploding skylights.

Boom!

After the thunderball, the world took a big move. A huge thunder and lightning giant like a mountain slowly fell from the rotating black hole. The huge pressure swept all directions and the entire prehistoric land, forming a doomsday-like scene.

This is a figure made up of thunder and lightning, holding a halberd, like the world-destroying thunder god, around him, there are 108 thunder dragons, and under his feet, there is an even bigger one. Thunder Dragon.

This thunder dragon snakes and circulates, covering the sky. The scales are larger than the house. A pair of dragon horns are like two mountain peaks that pierce the sky. The black destructive thunder and lightning gather and flash all over it. Off.

As soon as the thunder and lightning giant appeared, an aura of the end of the world wafted thousands of miles away, and all the wild beasts in the secret realm were trembling, their eyes horrified.

"What? The most terrifying Heavenly Dragon Thunder Tribulation in the World Extinguishing Thunder Tribulation!"

The **** cat took a deep breath and couldn't believe his eyes. The World Extinguishing Thunder Tribulation was already very difficult to appear. Only the most stunning genius who can influence the luck of the mainland will receive this "treatment".

It is not an exaggeration to say that as soon as the World Extinguishing Thunder Tribulation appeared, it represented that Qin Chen had the hope of becoming a powerful man and taking over the entire continent. But now Qin Chen's thunder catastrophe is even more terrifying. There is even a thunder and lightning giant in the sky thunder, with a foot on the thunder and lightning dragon. This is the most terrifying heavenly dragon thunder **** calamity in the world extinction thunder catastrophe. The highest recognition of warriors

, At the same time, it was also the most tragic thunder disaster.

Because, the occurrence of this kind of thunder tribulation, it means that Tiandao believes that this person can change the Tiandao of the entire continent, which is the most severe test for him.

Shocked, nervous!

The **** cat's heart beats very fast. He originally thought that Qin Chen would be the proud son of this world. In the future, he was expected to stand at the pinnacle of this continent.

But now, the **** cat feels that he has made a mistake in his estimation. Once this child grows up, it will affect the fate of the entire continent, and even... his own hope!

The **** cat was fortunate, and fortunate that Qin Chen had survived the calamity in this deserted ancient secret realm, because if such a thunder calamity appeared outside, it would create a vision for the entire continent and attract endless powerhouses. "Boy, you have to come on!" The **** cat murmured, hopeful.

[Chapter 1788: Actually blocked](#)

In the ancient city.

Ji couldn't beat his heart very fast. As soon as this thunder and lightning figure appeared, he was stunned. Is this Thor?

As the ancestor of the Ji family, he was very knowledgeable. It was the first time he saw thunder electric energy transform into a human form, and the endless dragon, thunder surging, it was too terrifying.

His heart was beating. Although he didn't know what thunder tribulation was, he knew that the more powerful the thunder tribulation, the stronger the potential of a person, and Qin Chen's potential had obviously exceeded his imagination.

This person must be killed, otherwise, he will become a big trouble in the future. Qin Chen didn't have the mind to guess what Ji couldn't think, because his mind at the moment was all on the Thunder Giant. This Thunder Giant gave him an aura of destruction, as if he was the creator of destruction, the **** of destruction, and was in control. The world

Punishment must be in charge of everything.

This feeling was too terrifying. Under this force, Qin Chen even knelt down, kowtow to worship, and a crack appeared in his heart. This shocked him. The most terrifying thing about crossing the thunder tribulation is the cracks in his heart. Once a crack appears, the thunder tribulation will take advantage of the vacancy. Perhaps the power of the thunder tribulation itself cannot kill you. A kind of will, but from a spiritual level

Go on, knock you out and wipe out.

The lightning giant slowly pressed down, and the huge dragon looked down below, just like overlooking the ants. The aura of the doomsday, the atmosphere of panic, swept the world and spread wantonly.

"Too strong, you want to challenge my limit and impose sanctions on me?"

Qin Chen's heart was cold.

"Do not!"

He raised his head, his gaze exploded again, and his body stood straight.

"I, Qin Chen, have already died once. No one can punish me in this world, even if it is the way of heaven, just let it go!"

Qin Chen looked up to the sky and roared invisibly, black hair surging.

"cut!"

He took the lead in doing it, booming, with the mysterious rust sword in his hand, Qin Chen's spirit, the ultimate sublimation, and the tall and straight body, went retrograde, and smashed it up with a sword.

Clang!

The blazing black sword aura stretched out for hundreds of thousands of miles.

A sword mark appeared on the thunder and lightning dragon, but after a slight shock, the sword mark disappeared and roared. Then, the 108 dragons beside the thunder and lightning dragon moved, and one of the dragons roared and rushed in an instant. Down.

"Fan Tianyin!"

boom!

The Heavenly Seal suddenly appeared in Qin Chen's hand, and he blasted it out for the first time. Then, the long sword was stretched across his chest, and the swordsmanship was used to the extreme.

At this moment!

Qin Chen broke out!

boom! Fan Tianyin blasted the Thunder Dragon, as if it had hit a big mountain, and flew out in an instant, but the Thunder Dragon was also blasted away, and at the same time Qin Chen's terrifying sword came, Jian Guang Burst, like hundreds of volcanic eruptions, in an instant

Blow up this Thunder Dragon!

It turned into a flood of thunder.

"Buzzing!"

Countless air-cheating ants and fire-refining insects appeared, as well as spirit-seeking insects, each exuding a terrible aura, surrounding Qin Chen, resisting the endless thunder light for Qin Chen.

Crackling!

The beetles such as the gas-eater ants and the fire-refining insects flashed with thunder light, and the thunder light pouring out spread to Ji Ruyue's body and baptize Ji Ruyue.

The Thunder Dragons in the sky were angry, seeming to anger Qin Chen's actions.

Boom boom boom!

The next moment, nine thunder dragons flew down at the same time, and their power instantly increased countless times.

"go with!"

Qin Chen was not afraid, but rushed up and fought with the nine thunder dragons. The destructive power of this thunder dragon was practicing his rules of destruction.

In the battle between the two sides, the nine Thunder Dragons were madly beheaded by Qin Chen, and they were torn apart in an instant.

"It was actually blocked!"

Ji couldn't wait for people to stare.

Each of these nine thunder dragons was extremely terrifying, but in front of Qin Chen, it didn't seem to be that terrifying at all. How did they do it?

They didn't know that Qin Chen himself mastered the rules of destruction, and could only fight against these thunder dragons when he resisted the vast majority of destructive forces. Otherwise, if they were replaced by others, ten of them would probably die.

"Roar!"

The sky was furious with thunder. In this wave, 36 thunder dragons appeared, and they surged down in an instant.

Ji couldn't open her eyes wide: "Thirty-six Thunder Dragons!"

These thirty-six thunder dragons seemed to be alive, and the roars of the dragons came one after another, and the dragon mighty.

Boom!

The thunder dragon soared, opening his mouth and spouting thunder light, the thunder light was as sharp as the heavens, bright and dazzling, and it flashed before my eyes.

Waving the mysterious rust sword with his right hand, Qin Chen split open one after another thunder light, but there were still countless thunder light falling down, and then, thirty-six thunder dragons, seeming to form a large array, enveloped Qin Chen for an instant.

boom!

Qin Chen spurted blood, like a meteor falling, and was blown off all at once. His whole body was torn apart, and bone scum appeared.

But this was not enough. I saw that the remaining sixty thunder dragons also moved one after another, without giving Qin Chen any chance to react, and immediately rushed down.

Too ruthless, these Thunder Dragons clearly did not give Qin Chen a chance to react.

"Feijianjian pill!" Qin Chen roared, several sword pills on his body soared into the sky and bombarded with the thunder dragon, crackling, and the lightning burst. The Feijianjian pill Qin Chen had once got cracked instantly. Was blasted into powder, and the countless thunder dragons continued to fall, covering

Live in Qin Chen.

"Zhen Mo Ding!"

Qin Chen roared, without considering too much, he directly urged the Demon Suppressing Cauldron, and the Demon Suppressing Cauldron rotated and stayed on top of his head.

Cang Dang!

When countless Thunder Dragons fell, the Demon Surgery Cauldron trembled violently, and it persisted for a while, but immediately, the Demon Summoning Cauldron couldn't hold it, and it was blown out with a devilish energy.

Ji couldn't see this scene, his eyes widened, and a frightened and unbelievable voice echoed in his mind: "It's the Calming Demon Cauldron, the Calming Demon Cauldron on the battlefield of the Heavenly Demon, the treasure of the ancient human race, how could it be here? This person's hands?"

This is the strong alien demon, furious, his voice trembling. And when he roared, Qin Chen was already enveloped in endless thunder light. The thunder light burst. Qin Chen's whole body was enveloped by thunder light. A large number of gas-eater ants and fire-refining insects were blown out. Scorched, unbearable such thunder

The power of electricity.

boom!

The endless thunder light exploded, and a figure appeared, it was Qin Chen, he was covered in blood, he was too embarrassed, there was blood everywhere, and a lot of bone stubble was exposed, Bai Sensen, very terrifying.

In his hands, he was holding two long swords, one was the mysterious rust sword, and the other was the sky thunder sword obtained from the wind, rain and thunder. The thunder light surged, revived, exuding terrifying power. This is what Qin Chen has to do. At the moment of crisis, he can only use the Heavenly Thunder Sword to resist. This is an ancient imperial soldier, and it is made of Wangu Thunder Stone. It is born with antibodies to thunder and lightning. Make amazing achievements.

[Chapter 1789: Apocalyptic Thunder Dragon](#)

Qin Chen stood proudly in the air like this, holding a sword in each of his left and right hands, and there was lightning lingering around him. It was his thunder bloodline, which finally resisted the attack of the 108 Thunder Dragon.

At this moment, he was covered with blood, but his energy and energy were particularly strong, and he rushed straight into the sky, like a giant driving a mountain, defying hardships, standing proudly.

"blocked!"

Everyone in the Ji family took a deep breath, and when someone saw the sky thunder sword in Qin Chen's hand, they were even more shocked and lost their voice: "The ancient sky thunder sword, isn't this the treasure of the Xuanyuan Empire? How could this kid be here? Hands!"

And when everyone spoke, hum!

The huge thunder dragon at the feet of the lightning giant 'woke up'. As soon as the dragon head lifted, his mouth opened slightly, a huge thunder light hit Qin Chen's body guard Zhenyuan, and flew him out.

With scorched skin and smoke coming from his body, Qin Chen was smashed into the ground.

"Qin..." Ji Ruyue lost her voice and looked down nervously. She shook her figure and was about to rush down, but this was, puff, a destructive thunder light fell directly on her body, flying her out.

At the critical moment, the purple spar at the center of Ji Ruyue's eyebrows glowed, blocking the blow for her, otherwise, she would be seriously injured.

"do not come!"

The underground exploded and Qin Chen rushed out, covered in blood, but with a firm expression, shouting to Ji Ruyue.

Then, he looked up and his pupils shrank.

Above his head, a huge thunder dragon, wandering, violent thunder, revolving around it, on its two sharp horns, black thunder is condensing.

Doomsday Thunder Dragon!

"Crazy, really crazy, who can survive such a thunder catastrophe? Is this really just a thunder catastrophe?"

Ji couldn't open his mouth wide, and lost the strength to roar.

"Roar!"

In the last days, the thunder dragon's feet were more than a hundred miles long, and a dragon claw as large as a mountain probed down, tearing the space, grabbing at Qin Chen, the tip of the claw, the lightning flashing, and the electric field of thunder.

Zi Zi Zi Zi Zi!

Qin Chen could feel that the water in his body was evaporating, and his skin was becoming dull. The strong overcurrent made him soft and his strength gradually disappeared.

"Fan Tianyin!"

"Zhen Mo Ding!"

As soon as the soul power moved, Fan Tian Yin and Zhen Mo Ding rose into the sky at the same time.

"Double swordsmanship!"

At the same time, Qin Chen danced two swords with both hands, turning into forty-nine sword shadows, forming an invisible sword dragon shadow, and greeted him.

Cang Dang!

The power of the Thunder Dragon Claw was too great. Fan Tianyin and Zhen Mo Ding were bombarded and flew out, bombed, and smashed into the ancient city below. Suddenly, the ancient city that had not been destroyed for thousands of years was cracked open, and rubble splashed.

The dragon claw fell again, and the phantom of the sword dragon transformed into countless sword shadows, which collapsed at the touch of a touch, turning into countless broken sword lights shattered.

However, this trick also caused the dragon's claw to drop slightly, and the lightning power field had a flaw.

"Broken!" The mysterious rust sword raised, the black sword aura soared into the sky, and finally resisted with the dragon claw, puff, the dragon claw finally appeared wounds and was torn apart, but the terrifying power of the dragon claw still hit Qin Chen's body, because the dragon claws were too big, Like a mountain, Qin Chen was bombed into the ground once again.

"boom!"

The dragon claw continued to dig down, approaching Qin Chen directly, pressing down with a frantic cover, and plunged into the ground.

This is no longer a thunder and lightning, but a thunder and lightning dragon that has turned into a substance, and the amount of thunder power is condensed into substance, incredibly powerful.

"No, break it for me!"

Qin Chen roared and buzzed, above the mysterious Rust Sword, a dazzling glow broke out, the true essence in his body burned wildly, and the blue thunder light surged, it was the blood of thunder, spreading his whole body in an instant.

At the same time, Qin Chen penetrated a strand of spiritual power into the mysterious Rust Sword.

Hum!

Thunder and lightning roared, and the rusty stains on the mysterious rust sword were torn apart again, and at the same time, an astonishing cold breath permeated from the mysterious rust sword.

Stabbed!

On the mysterious rust sword, the black sword aura skyrocketed and turned into a ten-meter-long black giant sword. Holding the black giant sword in his hand, Qin Chen cut straight up from the bottom to the palm of the dragon claw, cutting everything in half.

boom!

The broken dragon claw exploded, and endless destructive power swept across.

With his body breaking through the ground, Qin Chen took the initiative to kill Thunder Dragon in the end.

The Thunder Dragon's reaction in the last days was constantly fast, and Qin Chen's sword penetrated his body, but compared to its huge body, the lethality brought by this sword was nothing.

But the destructive force vented from the wound made Qin Chen float like a flat boat.

The long tail swept away, and Qin Chen couldn't avoid it. He was taken away thousands of meters away, with blood spurting out of his mouth, and his right arm broke directly. "It's too strong. This last-day Thunder Dragon is stronger than the average late-stage Martial Emperor. Although my cultivation base is close to the initial peak of Tier Nine, I haven't been baptized after the thunder tribulation. I want to survive this tribulation. Hard resistance, although this Thunder Dragon is strong,

But as long as you keep consuming it, there will be a day of collapse, and I only need to persist until the end. "

Qin Chen gritted his teeth, blood dripping from the corners of his mouth.

"kill!"

Sword energy is vertical and horizontal, thunder and lightning are raging.

Qin Chen and the apocalyptic Thunder Dragon, which was over a hundred feet long, continued to fight. The entire ancient city was a battlefield for two people, fighting from east to west, from south to north.

This time, it was suffering from the Ji family powerhouse in this ancient city, "Ah!" The screams rang out one after another, and people fell and exploded into blood fog. Under such destructive power, they couldn't bear it and collapsed on the spot. .

Don't talk about them, even Ji Neng could be horrified, and avoiding repeatedly, this also caused many people to be covered by a sea of blood, and they screamed and turned into ashes in an instant, and disappeared.

Even the great elder was accidentally swept by the thunder light lifted by the Thunder Dragon's tail, he vomited blood on the spot, his body almost exploded, and he hurriedly stabilized his figure, his breath was weak.

This shocked the great elders and the evil demon lord, and their eyes became colder.

"This son will kill!"

Everyone's eyes flickered coldly, and they said coldly.

"It must be removed!"

Ji Cannot also said coldly.

"When he gets through this thunder tribulation, the thunder tribulation is over, and the moment when the body is weakest, we will do it together, and will not give him any chance to struggle." The mortal monarch gritted his teeth and cut his teeth.

Outside the ancient city, the location of the three Mokara is another scene.

"There are so many martial emperors, master, be careful, if they are all dead, what a waste."

Mokara had green eyes and looked at the Emperor Wudi who was killed by the thunder robbery, with an anxious look on his face. These are all delicious, how could he fall like this.

It can't wait to rush in and feast on it.

"Old devil, you are still thinking about eating at this time, the master is like this, do you have any brains."

The Skeleton Rudder Master was angry and nervous for Qin Chen. Seeing that Mokara was still worried that the Wu Emperors of the Ji family were dead and could not eat, he was so angry that he wanted to slap him.

Boom boom boom! After a long battle, Qin Chen's true essence, such as the loss of water, barely survived.

[Chapter 1790: Avenue of Destruction](#)

"No, I can't go on like this. The destructive power of this Thunder Dragon is terrible. If you continue to fight, I will die."

Qin Chen flew out in the explosion, adding some wounds to his body.

At this moment, he was dizzy and dizzy. He was losing too much blood. At the same time, he obviously couldn't keep up with his energy.

"boom!"

But the Thunder Dragon didn't feel any tiredness, and he bit into it. In the dragon's mouth, the aura of destruction condensed, as if it was sanctioning the world.

That kind of destructive power bloomed, and Qin Chen seemed to be in a realm of death for an instant. No matter how hard he struggles, he will die and cannot escape the destiny of destruction.

"Rules of destruction can still be used in this way."

Qin Chen was stunned for an instant. In his mind, it was like a flash of light. In front of him, the endless aura of destruction surged, but Qin Chen was dumbfounded, sinking into it, and his mind seemed to open the door to a new world. .

Puff!

Seeing that the aura of destruction was about to engulf Qin Chen, suddenly, Qin Chen moved, he cut out with a sword, and the sword light shone, a kind of destruction avenue emerged from the sword light.

If someone is in this sword light realm at this moment, they can immediately discover that this is a sea of death swords, where life and death reincarnate, being constantly destroyed, endless, and perishing forever.

Destruction Avenue!

boom!

The black sword light prospered, and the destructive breath of the Doomsday Thunder Dragon was split by a sword. The next moment, the sword light flashed directly along the body of the Doomsday Thunder Dragon, and the sword split the Doomsday Thunder Dragon.

boom!

Apocalyptic Thunder Dragon completely exploded.

"Finally succeeded!" Qin Chen held the mysterious rust sword and the sky thunder sword, his body was trembling, he finally realized that fighting against the thunder robbery is not a real brainless confrontation. This last days Thunder Dragon is extremely terrifying, but it represents A higher level of destruction rule is a destruction

Destroy the avenue.

As long as you can comprehend this kind of avenue, you can block the thunder robbery.

Of course, if you can't comprehend it, then Qin Chen will die, and even if Qin Chen is strong, it is useless, because the Thunder Dragon is almost immortal in the last days.

However, Qin Chen's body is extremely weak at this moment, and even the strength to lift the sword is almost gone. The previous destroying sword trick directly consumed all his true essence, and the true essence in his body was empty.

"has it ended?"

In the distance, Ji couldn't look cold, just about to act.

Hum!

After the thunder dragon exploded in the last days, it suddenly turned into countless lightning rays, and instantly entered Qin Chen's body.

Crackling!

Qin Chen only felt the blazing thunder light in his body, a breath of life was resurrecting, the original injured body was healed in an instant, and the broken meridians in the body were also quickly healed, like a dead tree in spring.

What's more terrifying is that his true essence is extremely condensed and contains the power of thunder and lightning. At the same time, his bloodline also skyrocketed in an instant.

He ran the Nine Star God Emperor Jue. Those thunder and lightning primordial essences first turned into gas, then compressed into liquid, and finally changed from liquid to solid, condensing in the Dantian.

"So cool!"

Qin Chen had never felt so refreshed, his whole body was full of blood, and his life force was stronger than ever.

"Life, thunder and lightning, in addition to destruction, in addition to death, there is a breath of life?"

Qin Chen was startled, a little dull.

This is too profound. All he can comprehend at present is destruction, only death, but life, but he vaguely feels it, but he can't touch it.

Just like the lightning strikes the wood, it regenerates life, in the thunder and lightning, there is clearly the power of life, this is the most original energy between heaven and earth.

In the confusion, Qin Chen had consumed all his true essence, and he recovered 10% after a few breaths, then 20%, 30%...70%, until 10%.

call!

The aura on Qin Chen's body was unprecedentedly strong. Not only him, but the strange spirit worms such as the gas-eater ants and the fire worms around him were also nourished. Haunted to the thunder.

Moreover, Ji Ruyue, who was not far away, was also enveloped by this thunder spirit, her aura skyrocketed, and even Ji Hongchen who was far away got some benefits.

"Recovered so soon?"

Ji Cannot originally wanted to take action, but in a moment, Qin Chen's breath recovered, and it was stronger than it was at the beginning, and his face suddenly turned black.

Doesn't it mean that everyone has a period of weakness after Thunder Tribulation? How can he do this?

call!

Just when Ji couldn't be speechless, thinking that the thunder tribulation was over, booming, in the sky, the thunder and lightning giant moved at this moment.

"What? Thunder Tribulation is not over yet?"

Ji couldn't open his eyes.

This is clearly a sign that Thunder Tribulation is not over yet.

Outside the ancient city, the **** cat narrowed his gaze and muttered: "Kid Qin Chen, Tianlong Thunder God Tribulation, it was just an appetizer. Now it is the real test. You must stand it up."

In the sky, under the black hole, the lightning giant moved.

boom!

He raised his hand, and the endless thunder light condensed in the heart of his palm, and suddenly fell towards Qin Chen.

In an instant, the entire world was flooded with endless lightning, and the terrifying lightning fell down, the speed was too fast, as if a flash, the lightning had already struck Qin Chen.

"puff!"

The blood flew across, and Qin Chen was directly smashed out. No matter how powerful Qin Chen's spatial body was, it was almost torn into pieces by these robbery thunders. He had just recovered to its peak, and his body that had obtained a breakthrough was split instantly.

"Puff..."

Qin Chen opened his mouth and spouted a big mouthful of blood, almost vomiting out the debris of internal organs.

"Too strong, how can it be so strong?"

Qin Chen opened his eyes wide in anger, and his heart was full of anger. This Thunder Tribulation was too strong, and its power increased by nearly ten times in an instant. Even, he was so close that he could not even resist and was directly injured.

This is not crossing the catastrophe at all, but in the way of heaven to completely annihilate him.

After the lightning giant slapped it down, he didn't stop his hand. In his palm, the endless thunder light was condensing, and the power of terror was accumulating rapidly and continuously increasing. The power was even more terrifying than before.

Qin Chen immediately secretly said that it was not good. He could no longer handle the previous blow. If he took it again, he would definitely die.

Qin Chen frantically healed the injuries on his body. Suddenly, Qin Chen felt that his mind became empty, his injuries seemed to recover quickly, and the meridians and true essence became thicker again.

Qin Chen breathed a sigh of relief. He didn't expect that his recovery speed would be so fast. Is it because the space sacrament broke through? If this is the case, he may not be unable to stop the next robbery thunder.

Boom!

In the sky, lightning flashed, and the thunder and lightning giant had already blasted a second robbery thunder.

Buzzing! The void was torn apart, countless dark cracks appeared, and thunder light poured down. The power was too strong, and the world would be destroyed at this moment.
