

Valkyrie 1821

[Chapter 1821: Spiritualism](#)

This group of people are all members of the Mo family, and each of them is a top powerhouse. This is the rescue that Mo Duanming has been expecting before.

It's a pity... They were late in the end, and Qin Chen rushed over as soon as they left.

"Mo Duanming...Mo Hongzhi..." An old veteran of the Mo family powerhouse looked at the corpse lying on the ground, glared straight at him, and shouted in distress.

"Who is it? Who killed them?" The old veteran asked loudly, with a terrifying killing intent scattered all over his body.

As for the other strong men, their faces were sullen, and a terrible killing intent was emitted from their bodies.

The great elder and old elder of their Mo family actually died on the Mo family's territory. This is simply a shame and shame. Where did they spread their Mo family's face?

And... their ancestors will definitely blame it!

"Who is it? Who would dare to do something on the site of my Mo family, and live so impatiently?" An angry questioning came from their mouths.

When they are angry, the world can feel the anger and killing intent on them!

They only knew that their great elder had encountered danger and notified them to come over, but they didn't know the specific situation.

Boom!

But at this moment, the sky suddenly cracked, and a figure appeared above the endless sky.

This is an old man wearing a black cloak, shrouded in endless darkness, gloomy and full of murderous intent, like a demon who has walked out of hell.

As soon as this person appeared, the strong men who had arrived from the Mo family knelt down and said in horror: "Ancestor."

The person here is the ancestor of the Mo family.

"Mo family ancestor?"

When the few Wuhuang strong men heard this, they buried their heads lower in horror. The Mo family ancestor, this is the most terrifying strong man in Chuzhou, as they are, they don't even have the courage to look up at each other.

The ancestor of the Mo family looked at the scene in the valley coldly, a hint of chill appeared in his eyes, and then he turned his head and his eyes fell on the Wu Huang.

Although the Wuhuang bowed their heads, they felt like a man on their backs for a moment, as if two sharp blades were stabbing them. Poof, someone was so frightened that they urinated their pants directly, and the smell filled them.

The dignified and powerful men are so scared to pee their pants, which shows their inner fear.

"Who are you? Come on, who killed us from the Mo family."

A strong Mo family grabbed the collar of the leading burly man, lifted it easily, and asked aggressively. The burly man was trembling with fright, and his words became stammered, "My lord, I'm waiting... I don't know, we... come from Wanjia, before... just accidentally... passing by, I heard that there is... fighting here. Sound, this is the first time..."

Came here, but after coming to...here, I...saw this...scenario, which is the same as what the adults saw..."

After the burly man said these words, he only felt that his back was infiltrated with cold sweat, and his whole person seemed to be collapsed. The power of Emperor Mo Jiawu was too terrifying.

"Don't you know?" The strong Mo family suddenly shouted angrily, frowning.

"We really don't know, my lord forgive me..."

The burly man screamed in horror, his body trembling under the pressure, as if he was about to split.

"Huh, don't you know, right?"

"Soul Search Dafa!"

boom!

Emperor Mo Jiawu stopped talking nonsense, and a terrifying soul power poured into the mind of that burly man.

"Ah!" The burly man yelled in pain, his face distorted, his soul collapsed immediately under the terrible search of the other party, and he died for a moment.

"I really haven't seen it!" The strong Mo family burned with anger, his eyes were fierce, and with a wave of his hand, the burly man was instantly blasted into a **** mist, disappeared in ashes, and no bones existed.

The remaining few people were trembling even more. Their eldest brother was killed just like that. They didn't even have the courage to resist, but even more trembling.

Because they are the strong Mo family in front of them, how dare they resist, if they resist, the entire ten thousand family will be destroyed, not one left.

There is only one begging in their hearts, and that is the other party forgiving them.

But Mo Family who was furious, how could they spare them.

"Soul Search Dafa!"

Suddenly, they were captured and photographed one after another, and were used to search for souls!

"Ah!" Amid the screams, the souls of the remaining few people were wiped out and died on the spot.

"Ancestor, these people didn't see the real murderer, they came after the fact." Several Mo family powerhouses said to the ancestor tremblingly.

"Hmph, Mo Duanming sent the message to the old man, saying that it was the fire of Emperor Wudi of the Xuanyuan Empire and others. Let me see, who is the murderer?"

The hoarse voice sounded, the ancestor of the Mo family moved. When he lifted his hand, the withered claws suddenly filled with endless black air, and then, the ghosts cried out, countless yin wind bursts, and countless rising in the valley Ghostly spirit.

"Soul Calling Dafa!"

woo woo woo woo!

The yin wind bursts like the Nether is howling, and there are some changes in the valley, as if the ghost has been recruited back, and at the same time, there is a vaguely flame knife light, retrospective in the valley, murderous.

But before these scenes appeared completely obvious, there was a snap, as if something had been broken, and the whole scene disappeared and disappeared instantly, returning to calm.

"what?"

The strong Mo family watched this scene with some surprise, the ancestor's soul-calling Dafa actually failed?

"Huh? There is a special breath here, which interferes with the old man's spellcasting, a good method." The Mo family ancestor said with a cold voice, and two **** of fine light burst into his eyes.

The opponent's strength is so strong that it is no wonder that he can quickly kill Mo Duanming and others, and even his soul-calling skills are invalid. It can be seen that the enemy's strength is far beyond his imagination.

But everyone could see the flame blade light clearly.

"Fire Sword Emperor Wu!"

"Xuanyuan Empire!"

A cold voice full of killing intent came from the ancestors of the Mo family, bitterly angry, swish, the next moment, his figure disappeared, because the person who attacked Mo Duanming and them had just left not long.

"The ancestors went to track these people, let's follow."

Many powerful people of the Mo family followed one after another, but after a while, they saw the ancestors of the Mo family standing in the void and did not do anything else.

Because those people disappeared completely, leaving no traces at all, even if they were as strong as the Mo family ancestors, they would not be able to trace them at all.

"Is it the Xuanyuan Empire? My Mo family and him will never die. I give my order to start a full-scale war on the Xuanyuan Empire, and pass the news to Misty Palace. The old man will mobilize the Law Enforcement Hall and destroy the Xuanyuan Empire." The Mo family ancestor roared, murderous. , The endless rain of blood, falling from the sky, rumbled.

[Chapter 1822: Xingshi asks crime](#)

"kill!"

"Destroy the Xuanyuan Empire and avenge my Mo family elder!"

"eye for eye!"

The news came back to the Mo family, and the Mo family shook, and countless strong men roared with murderous aura to conquer the Xuanyuan Empire.

For a time, Chuzhou was screaming, and all the masters of the Mo family were mobilized, and a part of the team that directly belonged to the Mo family was also mobilized and quickly assembled in Chuzhou.

How shocking was the death of the Mo family elder and the old elder, as if the sky had been stabbed in a hole, how could the Mo family bear it?

This was a provocation to the Mo family, and it was unbearable.

"There is also the Ji family. The reason why the elder Mo Duanming left the Mo family was to go to the Ji family to ask for justice. Now that the elder Mo Duanming and Mo Hongzhi have fallen, the Ji family must also bear certain responsibilities."

In the Mo family, someone also roared and directed the spear at the Ji family.

Because, if it weren't for the Ji family, how could his Mo family elder fall? The initiator also has a copy of the Ji family.

As soon as this word came out, everyone in the Mo family nodded instantly.

"Ji family?" The ancestor of the Mo family has a cold look. At this moment, he has understood the ins and outs of the matter and has to say that the Ji family also has certain responsibilities.

If it weren't for the Ji family, how could so many powerful people from his Mo family be dispatched, and how could the Xuanyuan Empire seize the opportunity and annihilate it with one blow? "Er wait, go to Ji's house immediately to ask for justice. Although my Mo family elder was not killed by the Ji family, it is not unrelated to the Ji family. We must let the Ji family give an explanation." Mo family powerhouse said angrily

Tao.

"However, pay attention to your sense. If you can't tear your skin with the Ji family, don't tear your skin!"

Then, the ancestors of the Mo family warned.

Because he knew that the Ji family was terrible. Once a war with the Xuanyuan Empire provokes hostility from the Ji family, the Mo family would never win in a two-line battle.

Of course, justice cannot be neglected. This represents the dignity of the Mo family.

"Subordinates take orders."

Immediately, several powerful men from the Mo family set off, aggressively, and quickly went to the Ji family to ask for justice.

But when the Mo family quickly mobilized the team, angrily, to take a tragic revenge against the Xuanyuan Empire.

Over the Boundless Mountain Range, several horrible figures descended, looking down in anger. Among them, the leader, with the weakest breath, stood at the forefront of the team, with a vertical eye-like trace on the center of his brow, and was extremely angry.

It was Emperor Wushang Wushang of the Xuanyuan Empire, Feng Shaoyu's right-hand man.

At this moment, he was trembling all over, looking down in anger, his eyes gleaming with unprecedented coldness.

Behind him are a few powerful men with terrifying aura. The cultivation base is much more terrifying than Wushang Wudi at the mid-term peak. It is obviously the late Wudi giant. At this moment, he is also looking down in horror, his body is trembling, and his body is so angry. .

"It's too much. Who, who attacked the residence of my Xuanyuan Empire, killed Emperor Martial Fire Blade, destroyed the Heavenly Star Mineral Vein and Medicine Field of my Xuanyuan Empire, and took away all the resources."

A giant roared, killing intent, and booming, and the surrounding mountains nearly a hundred miles exploded directly, and countless blood beasts screamed and shattered, leaving no bones.

"enough."

Emperor Wushang walked in the hell-like valley, his eyes were grim and terrifying, he screamed, and immediately the giants no longer roared, but stood respectfully beside Emperor Wushang.

Wushang Wudi, although the cultivation base is only the mid-term peak, it is still a little bit short of the later Wudi. It is also very high in the Xuanyuan Empire. It is the right arm of the Xuanyuan Emperor. In terms of status, it is higher than some giants. .

It was him who ran the Xuanyuan Empire for Emperor Xuanyuan. Over the years, the empire expanded wildly, annexed some other empires in the Martial Domain, and became the supreme first empire on the Tianwu Continent.

Therefore, his words are very important in the Xuanyuan Empire.

"It's the Mo family of Law Enforcement Hall!"

At this moment, he looked at the eagle bird and said, his tone was cold and murderous, because it was he who received the call from Emperor Fire Saber, and then led the strong to come, knowing that it was Mo Hong from the Mo family who attacked his Xuanyuan Empire. Wisdom and other strong people.

"Mo family!"

Several Xuanyuan Empire experts said with a cold voice, and their eyes burst out with dazzling killing lights. Suddenly, the mountains and forests seemed to have arrived in winter in an instant, cold and killing intent lingering.

"Master Wushang, what shall we do next?" a strong person asked.

"What to do?" Wushang Emperor Wu said quietly, his eyes were cold: "The emperor has already said that if the Hall of Law Enforcement is more aggressive, my Xuanyuan Empire no longer needs to bear it."

"Now, this Mo family is attacking my Xuanyuan Empire heavy ground and killing my Xuanyuan Empire powerhouse, what do you think?"

Several powerful men shook their bodies, showing a grinning smile, and said in a cold voice: "Naturally kill them back." "That's not the right thing. Send my order to mobilize the forces of our empire near Chuzhou and prepare to fight the Mo family. The Mo family was only in charge of some departments of the Hall of Law Enforcement, so he dared to target my Xuanyuan Empire. This emperor wanted to let him know.

What is regret! "

"Yes!"

Several powerful men bowed and saluted, all over with murderous aura, and began to pass the news. In the valley, Emperor Wushang Wushang's eyes were cold, and he slowly said: "It seems that the world forces have forgotten about my Xuanyuan Empire for too long. Since the Misty Palace destroyed the ancient Fangjiao, the world has not put my Xuanyuan Empire in its eyes. .Today, the emperor will let the world go

People know that in this world, in addition to Misty Palace, there is also the Xuanyuan Empire. As the first empire on the mainland, how can you let others go wild. "

When the Mo family mobilized the strong, the Xuanyuan Empire also secretly moved, gathered the team and prepared to kill.

At this moment, the Mo family powerhouse also came to the Ji family for the first time, wanting to inquire about the crime.

"Hmph, you Mo family are embarrassed to raise the teacher to inquire about crimes. It should be us who should inquire about the crime. Mo family Mo Duanming, pretending to leave, but secretly ambushes my Ji family, Ji Daoling and other strong men, causing my Ji family to fall down many martial emperors. Do you still have a face?"

Just as soon as the strong Mo family spoke, the elder Ji Dewei shouted angrily, and moved out a corpse, it was Ji Daoling and others.

At this moment, Ji Daoling and the others were covered in blood, scarred, and terrible death. Judging from the appearance of their bodies, they were actually killed by the Mo family.

"Today, if your Mo family doesn't give me an explanation from the Ji family, just stop blaming my Ji family for ignoring the law enforcement palace." Ji Dewei snorted coldly, murderously and angry.

"This....."

The Mo family's assistants were so dumbfounded. They came to ask Ji Jiaying's guilt, but who knows, they were accused by the Ji family, and their faces were very unnatural and extremely ugly.

"These people can't be killed by my Mo family, Ji Dewei, don't spit people." Some of the Mo family strong yelled and retorted, because they had never heard Mo Duanming said that they had attacked and killed the Ji family strong.

[Chapter 1823: Two major forces](#)

"Haha, **** mouth?" Ji Dewei smiled angrily: "Ji Daoling is the top powerhouse of the second generation of my Ji family. In the future, I am expected to inherit my Ji family's mantle and even take over as the head of the family. But now, he is dead. "Here." "There are also these people, all of whom are strong in my Ji family, who spent a lot of energy training. Now, all of them have fallen. They were all killed by the strong Mo family led by Mo Duanming. Denial, ridiculous, these people are not Mo Duanming killed

Yes, could it be that my Ji family couldn't kill it himself? "

The strong Mo family stopped speaking immediately, and there was nothing to say.

Indeed, Ji Daoling's status in the Ji family is also clear to them, it can't always be the Ji family who killed Ji Daoling and the others, to blackmail him Mo family.

Under the anger of the Ji family, at this moment they asked the Mo family for justice.

This... the strong Mo family looked at each other, and finally fled in embarrassment. Originally, he came to Ji Jiaying to inquire about their sins. Now, it has become his Ji family to inquire about their sins. But the elder Mo Duanming is dead, and they too Helpless, I can only hold back the fire

, Yan Yan came back.

After returning to the Mo family, several people reported the incident to the Mo family ancestors for the first time.

"You mean, Mo Duanming killed the Ji family, Ji Daoling and many other strong men. Now the Ji family wants to ask our teacher Mo Jiaying for sin?" The Mo family ancestor was furious, his eyes were cold, and he looked over in disbelief.

Because he didn't get the news at all. If Mo Duanming really did something like this, would he not report it to him?

But the strong men sent by the Mo family said they saw the bodies of Ji Daoling and others with their own eyes, which made him a little unbelievable.

"Are you sure, that is really Ji Daoling's corpse?" The Mo family ancestor frowned, still a little suspicious.

"Back to the ancestors, it is true that in addition to Ji Daoling, there are also the bodies of many masters of the Ji family. The Ji family has suffered a heavy loss this time." Several Mo family powerhouses looked at each other, their expressions very strange.

"It was indeed Mo Duanming and the others who did it?" Mo family ancestor asked again.

"It seems to be!" The Mo family masters were a little nervous.

"What does it mean, yes, yes, no, no, what does it mean?" "Old ancestors, the situation at that time Ji family promised to come to Xingshi to inquire about crimes. We briefly looked at the wound, it was indeed like the handwriting of the elders. But in that case, it's impossible to check carefully, and ancestors, you think, if it's not the elder

Their killers, how would Ji Daoling and the others die? Could it be that the Ji family killed it himself? This is not logical at all. "

The old ancestors of the Mo family are speechless. Indeed, with the identity and prestige of the Ji family, and the strength in Jizhou, who dares to attack them? Apart from his Mo family, I am afraid there is no one else.

"In this way, now it's the Ji family who troubles our Mo family, not our Mo family who troubles their Ji family?" The Mo family ancestor's face was as black as the bottom of a pot.

"This..." The Mo family's powerhouses were afraid to speak.

The Mo family ancestor's face was pale, his mother was too suffocated, his Mo family elder died, and even the Ji family came to ask for trouble, you can imagine the aggrieved heart.

"We don't have a conflict with the Ji family. Our primary goal is the Xuanyuan Empire. Are you ready? We must not give the Xuanyuan Empire a chance to respond. If we have to hit it, we will hit it." The Mo family ancestor was murderous.

"Back to my ancestors, I'm all ready."

"Very well, give my order, immediately set off to attack the Xuanyuan Empire." The ancestors of the Mo family ordered the first time. That night, the huge team set off secretly to the major locations of the Xuanyuan Empire.

When the Mo family set off, the Xuanyuan Empire also gathered strong men and secretly came to Chuzhou.

For a time, the Mo family and the Xuanyuan Empire were secretly surging.

In this scene, the powerhouses of other forces in the martial arts are naturally not aware, and they are still paying attention to the law enforcement hall in the first heaven of the martial arts. For a period of time, the law enforcement hall frantically searched for the traces of the Tiandao organization in the first heaven of the martial arts. Gained nothing.

This shocked everyone. The Heavenly Dao organization was hidden too deeply. With the power of the Misty Palace and the Law Enforcement Hall, it took so long to find the trace of the Heavenly Dao organization. What is the origin of this organization?

Of course, the forces near Jizhou and Chuzhou are also paying attention to another matter, that is, the confrontation between the Mo family and the Ji family. It is rumored that the Ji family and the Mo family are very hostile these days.

Many people think that there is bound to be a battle between the Ji family and the Mo family, but what makes them strange is that the two families of the Ji family and the Mo family, who were fighting back, suddenly fell silent during this time.

This puzzled them, and they secretly inquired about the news.

But suddenly, these inquiring forces fell silent, and some areas fell into dead silence in an instant, because something was happening that shocked everyone.

"Kill!"

Shout to kill the sky, tear the sky apart.

At the same time, some of the important places of the Mo family were suddenly attacked. The strong, the masters gathered, the ferocious and domineering killers, shattered into an ancient and grand building!

For a time, the war broke out and blood flowed directly into the river.

A total of tens of thousands of troops appeared!

"Oh my God, look at it, all the Xuanyuan Empire powerhouses near Chuzhou are crazy. They gather and all target the Mo Family. Is this going to start another war against the Mo Family?"

People were shocked, and after receiving the news, they were shocked and inexplicable.

This incident was so big that it was immediately known to other forces in Chuzhou, and it was spread out like a hurricane.

But then, news came from other regions, shocking the world again.

"kill!"

The Xuanyuan Empire spread all over the territories and forces in the Triple Heaven, and was attacked by a large number of powerful people, causing heavy casualties and blood flow in the first place.

According to the news from others, it was the Mo family who did it. They were crazy and didn't keep any hands.

These two events happened almost at the same time, and the news broke out immediately, shocking the world.

The Mo Family and the Xuanyuan Empire attacked each other at the same time. What happened? Is it going to change?

Especially the forces in Chuzhou and Jizhou were even more stunned. A few days ago, the Mo family and the Ji family were battling swords and tit-for-tat. Why did they suddenly attack the Xuanyuan Empire?

Combining with the identities of the top executives of the Mo Family Law Enforcement Hall, many people are shocked and have speculated that it is the Misty Palace and the Law Enforcement Hall that are about to attack the Xuanyuan Empire?

But, is this wrong? Although the Mo family is at the top of the Hall of Law Enforcement and has a prominent status, in the Hall of Law Enforcement, there are also families such as the Ji family. Even if they do, it will not only be the Mo family. This battle was so sudden that the major forces on the mainland were completely unprepared, and they were all stunned for an instant.

[Chapter 1824: Never killed](#)

Because the news is not circulating, the major forces are watching and inquiring about the news quickly, wanting to know the inside story as soon as possible.

As for some important sites of the Xuanyuan Empire, the Mo family powerhouse swept through like locusts. Wherever they passed, many important sites of the Xuanyuan Empire were destroyed and blood flowed into rivers.

"Hahaha, this is the fate of offending my Mo family."

During the battle, more than a dozen sites in the Xuanyuan Empire were destroyed. Some sites near Chuzhou were uprooted. It was too tragic. The Xuanyuan Empire suffered heavy casualties.

The ancestors of the Mo family laughed, leading a group of strong Mo family members with fierce eyes and blood on their palms.

"Look, this is the fate of offending my Mo Family. Even if it is as strong as the Xuanyuan Empire, it is hard to escape sanctions. My Mo Family is in charge of the Law Enforcement Palace, and it is the emperor who is here to stay."

The Mo family powerhouses are very proud, roaring loudly, venting their inner anger.

But the next moment, their expressions changed, because there was news from Chuzhou, a hundred thousand hurried.

"Old ancestor, the Xuanyuan Empire suddenly sent a large number of strong men to attack Chuzhou. My Mo family suffered heavy casualties, and some divisions were wiped out."

"Ancestor, come back to the rescue soon, I can't hold on any longer."

"Old ancestor, my Mo family is under frantic attack, and I ask for support."

Thousands of urgent distress messages flew like snowflakes, stunned all the strong men of the Mo family.

"what!"

The stern roar shook the world.

For a moment, the ancestor of the Mo family was almost crazy! Originally, they came out and attacked the Xuanyuan Empire frantically in order to teach the Xuanyuan Empire a vicious lesson, but they did not expect that the Xuanyuan Empire also had the same thoughts and attacked his Mo family in Chuzhou at the same time. collar

Ground.

The consequences were too serious. Tens of thousands of powerful people in the Xuanyuan Empire made trouble at the same time, and it broke out suddenly.

These people, like bloodthirsty demons, broke out of **** and suddenly killed the branches of the Mo family in Chuzhou. Many industries suffered a devastating blow.

Some mineral veins exploded on the spot, and some elixir gardens did not grow.

As for some of their branches, some cultivation secret realms, they collapsed in the first time, the magnificent buildings fell in pieces, and the blood was splashing.

This is a group of fanatics, in order to subvert the Mo family, it is crazy!

The ancestors of the Mo family were suddenly frightened and Chuzhou was their base. Although they had also attacked the Xuanyuan Empire, they did not break into the core area of the other empire. They just wiped out some of the other's resident sites in the triple heavens.

But what about the Xuanyuan Empire? It's too vicious, to attack their base camp directly, this is the rhythm of killing the Mo family.

"Damn it, Xuanyuan Empire, the crime deserves ten thousand deaths!" The Mo family ancestor roared, and the opponent was too much. Not only did he ambush him the Mo family elder and the old elder, but also behead the Mo family's many powerful elders. It is to directly attack the base camp of the Mo family, and to completely wipe the Mo family from the mainland.

?

It's too much! Suddenly, the ancestors of the Mo family were in a state of desperation. Emergency newspapers from all over the world flew like snowflakes. They were too dense and too many. Their family has developed in Chuzhou and nearby for hundreds of years. With the help of the Palace of Law Enforcement, they have a big family. All over the world

Ground.

Nowadays, some important places are being uprooted, and they can't support them.

"Xuanyuan Empire!?" Mo family powerhouses gathered, some roared, shaking the sky, and the clouds in the sky were shaken away. Moreover, the ancestors of the Mo family were frightened. He did not understand why the Xuanyuan Empire had been against his Mo family over and over again. Even if it was for the Hall of Law Enforcement, one shouldn't just stare at his Mo family. Don't say anything else, where the Ji family is. Jizhou is from here

Not far away, why can it be safe and sound?

what is happening?

Does the Xuanyuan Empire look at him like that, and it's not pleasing to the Mo family?

"Ancestor, the Xuanyuan Empire's announcement came from the intelligence department. It was too much."

At this time, a strong Mo family was furious and handed a message.

The ancestor of the Mo family almost spewed out blood after watching it. Because, when the Xuanyuan Empire attacked the Mo family base camp, it also announced that it solemnly rebuked that the Mo family sneaked an attack on his Xuanyuan Empire, slaughtered his Xuanyuan Empire's star-minded land, and killed him, the Xuanyuan Empire's giant Fire Saber Martial Emperor.

The empire will never die with the Mo family.

"Puff!"

The ancestors of the Mo family spouted out blood, angrily and furious.

The Xuanyuan Empire was too despicable, and it was almost bloody. It was clear that they ambush the Mo family powerhouse first, causing the Mo family elder and the old elder to fall, and now they have to take the upper hand of public opinion. There is no such cheap thing. "Ah!" The ancestor of the Mo family roared, blood surged up, and blood rushed into the sky. He ordered and roared: "Use the law enforcement hall channels to inform the world. The Xuanyuan imperial thief shouted to catch the thief, and sent the fire sword Emperor Wu to ambush my Mo family. The strong came first, now it's even more bloody

People, my Mo family and him never die. "

"Yes!"

Immediately there was news from the Mo family powerhouse.

After that, the ancestors of the Mo family led many strong Mo family members and immediately returned to the Mo family base camp in Chuzhou.

At this moment, in Chuzhou, the Xuanyuan Empire was raging, launching a fierce attack on the base camp of the Mo family.

The Mo family has a lot of industries, many branches, and there are too many places to start. This time the Xuanyuan Empire is well prepared. Under the command of Emperor Wushang Wu, the division of labor is the first time to focus on some of the core industries of the Mo family. Devastating blow.

This caused some of the Mo family's sites to explode and fall apart almost instantly, and they were the core assets of the Mo family.

"Master Wushang is really amazing, hahaha, in this way, I think the Mo family will dare not challenge our Xuanyuan Empire in the future."

"As expected of Lord Wushang, the layout is too clever. I think this time the Mo family is going to be unlucky. Ten percent of the property will be destroyed and at least seventy percent."

"Just to teach them a heavy lesson, let them know who can provoke and who can't provoke in this world!"

Too mad!

The powerful Xuanyuan Empire swept across the Mo family's industry while being extremely excited. They were all about Wushang Wudi.

Including some giants, they were also amazed and sincerely admired, and finally knew why Wushang Wudi could use the cultivation level of the mid-term peak Wudi to become the right arm of the great emperor and the core figure of the empire.

Although his combat power is not top-notch, he is very clever in the offensive arrangements and various sneak attack arrangements, causing them to attack very smoothly. It can be said that they swept all the way, and the Mo family was defeated.

Such a task is too easy, swept by tens of thousands of strong, and soon some teams began to converge and gather together.

"My lord, what shall we do next?"

This group of powerful men came to the meeting place that Emperor Wushang had arranged in advance, and when they saw Emperor Wushang, they were extremely excited and full of fighting spirit. Because they haven't killed the addiction yet and don't want to stop there.

[Chapter 1825: Quartet vibration](#)

In other places, the powerhouses of the Xuanyuan Empire are still sweeping away. These people have long been prepared to fight together. Can the industries in all parts of the Mo family get better?

At the same time, many forces in and near Chuzhou also came, approaching the battlefield one after another, inquiring about the news, and spreading it outward.

The pictures captured from the record crystal and some special channels all show that the Mo family is too miserable, and the industries everywhere are almost destroyed.

"Hey! The Xuanyuan Empire is too ruthless, it has destroyed almost 80% of the Mo family's industry!"

When many forces saw the content, they breathed in air-conditioning, shocked and shocked.

No one thought that the Xuanyuan Empire's actions this time would be so big and shocking.

Not to mention other forces, even the Ji family was stunned at this time, and then his body became cold. The Xuanyuan Empire had launched so many powerful people. This was simply a large-scale battle.

"Who arranged the action? It was too precise, and each broke through it quickly and quickly, which caused the Mo family to fail to react at first. When they reacted, they had already suffered heavy losses and were unable to recover." Ji Jiada The elder returned to his senses and was extremely shocked.

"The Xuanyuan Empire definitely has masters in command."

Many people sucked in air-conditioning, and Ji Ruyue and Ji Hongchen were also shocked, their eyes were solemn, happy, but also a little afraid.

Because they were considering, if the Xuanyuan Empire's goal this time was their Ji family, would their Ji family wait to block it?

After thinking about it carefully, the great elders and the others were all chills. They were sure that based on the background of the Ji family, it would never be as tragically as the Mo family was attacked, but again, with such meticulous actions, even if it was good, it would not be better. How many.

"The Xuanyuan Empire can become the first empire. There really are two things." Qin Chen murmured, frowning here.

He had anticipated this battle long ago, but he didn't expect that the Xuanyuan Empire would be swept so easily, and the Mo Family would suffer such a heavy loss.

At this time, the Mo family's heart was bleeding, and the industries everywhere were destroyed. A lot of people died. Various minerals and elixir were not harvested and looted.

"Ah..." someone roared, vomiting blood.

"Xuanyuan Empire, my Mo family will never die with you!" Some people in the Mo family were furious.

But the Xuanyuan Empire's team was very warm and excited.

"My lord, it's better to kill their Mo family ancestral land and attack them all the way. What Mo family is nothing more than that." The Xuanyuan Empire was excited, and the fighting spirit rose to the sky.

"Yes, kill the Mo family ancestor land and teach them a tough lesson."

"Let the Law Enforcement Palace and Misty Palace know that our Mo family is not easy to mess with."

The sentiment is exciting, all murderous, unwilling to stop here, and want to launch a more fierce attack.

But Wushang Wudi was not impulsive, he was not dazzled by the victory in front of him, he was frowning, because the resistance of the Mo family was too weak, which did not match his imagination.

In his imagination, the Mo family should have reacted long ago and came to block and shoot, but so far, the entire Chuzhou realm has not had any effective resistance.

There must be something strange.

"My lord, news is coming from behind."

At this moment, a strong Xuanyuan Empire suddenly trembled and said.

"My lord, my Xuanyuan Empire was attacked at many important stations near Chuzhou, and the entire army was destroyed."

"Ah, the Yizhou resident was also attacked."

"And the Bingzhou resident."

"The **** Mo Family, it's the Mo Family, sneaking into my Xuanyuan Empire's many locations."

News came crazily from the rear, and the complexions of all the Xuanyuan Empire powerhouses changed, one by one was extremely frightened.

It's no wonder that they made a big deal in Chuzhou, and the entire Mo family didn't have many effective empires. It turned out that all the top Mo family members went to their Xuanyuan Empire residence and carried out a **** massacre.

"Damn it, these Mo family members are too hateful."

Someone yelled and was frightened. They were very happy to attack the Mo family's premises before, but when they heard the news from the rear, they trembled, furious, and almost vomiting blood.

Then, there was news that the first to see the popularity almost vomited blood, trembling all over, unable to restrain himself.

"It's horrible, Lord Wushang, this Mo family used the Hall of Law Enforcement to tell the public that it was my Xuanyuan Empire Fire Saber Emperor Wu who attacked his Mo family first and killed many powerful men in his Mo family, including the Great Elder. We must order the world to crusade against my Xuanyuan Empire."

A giant powerhouse trembled all over, his eyes widened and murderous.

"Despicable, it is clear that their Mo family first attacked our Xuanyuan Empire's Jueshan Mountain resident, and they even dared to beat him down, ah, I'm so angry!"

boom!

The heavens and the earth shook, and the mighty murderous aura rushed into the sky, and the clouds were shaken away. Many Xuanyuan Empire experts vomited blood and anger attacked their hearts.

I have seen a despicable one, I have never seen such a despicable, this Mo family, shameless!

"My lord, I can't bear it. Since this Mo family powerhouse is not there, it's better to take this opportunity to slaughter his Mo family ancestral land and make him homeless."

A strong Xuanyuan Empire roared, unwilling to reconcile, and wanted to kill the Mo family ancestor land and completely destroy the Mo family.

"Yes, take this opportunity to slaughter his Mo family ancestral land."

"Destroy his Mo family!"

Everyone roared, and the murderous aura was wild, and the surrounding mountains exploded directly, unable to withstand the murderous aura, and the world was trembling.

"Okay, then kill the Mo family ancestor land." Wushang Wudi's eyes flashed, and he said coldly, his eyes burning with anger.

The despicability of the Mo family has already made him intolerable.

boom!

Suddenly, Emperor Wushang Wu led many powerhouses in the Xuanyuan Empire, taking advantage of the absence of the Mo family powerhouse, to directly kill the Mo family ancestral land, wanting to bloodbath the Mo family ancestral land.

"Oh my God! The two sides are really hitting fire, or they won't die!"

"Extraordinary, the Xuanyuan Empire attacked the Mo family ancestor land and wanted to slaughter Mo family!"

"The shocking news, the Xuanyuan Empire team is marching towards the Mo Family Ancestral Land, and they want to bloodbath the Mo Family Ancestral Land."

When someone saw this scene, the news came out for the first time, which immediately caused the Quartet to shake.

"What? The Xuanyuan Empire team actually directly killed the Mo Family Ancestor?"

Ji Ruyue's mansion, Ji Ruyue and the others took a breath after hearing the news.

Although the matter was arranged secretly by them, they did not expect that the matter would develop into this way, which has exceeded their initial expectations.

Qin Chen was also surprised, a little surprised, but even sneered: "Hehe, one is the Hall of Law Enforcement, which belongs to Shangguan Xi'er, the other is Xuanyuan Empire, Feng Shaoyu's subordinates, I want to see it, this time it's so big. How else can you act in the scene between Feng Shaoyu and Shangguan Xier?"

A smile appeared at the corner of his mouth, and Qin Chen sneered.

Feng Shaoyu and Shangguan Xi'er secretly colluded, but on the surface they pretended to be hostile. It just so happened that now he added a fire to the two of them to see how they could perform?

[Chapter 1826: Cemetery ancestral land](#)

When this news came out, the entire Martial Domain Triple Heaven was shocked, and the news was sent back one by one, shocking the world.

This is related to the two major forces of the Law Enforcement Palace and the Xuanyuan Empire. Although the severity is not as serious as the war that the major forces joined against the Misty Palace not long ago, it was even worse in local areas.

For a while, everyone was silent, their eyes were projected, and their hearts were shocked.

"The people of the Xuanyuan Empire are reckless." The Grand Elder of the Ji family mansion suddenly spoke, shaking his head slightly.

This attracted everyone's attention.

"The Xuanyuan Empire should accept it as soon as you see it. The Mo Family can become a pole of the law enforcement palace. It is by no means as simple as it seems on the surface. If the Xuanyuan Empire forces a shot, I am afraid it will not be as lucky as before."

The Great Elder said quietly.

This caused everyone to think about it, the elder must know something.

Think about it too.

The Xuanyuan Empire is strong, but the Mo Family can occupy a place in the Hall of Law Enforcement, and fight against the Ji Family for so many years. It is not a soft-footed shrimp, but also has some background. If the Xuanyuan Empire is careless, it may suffer a big loss.

It all depends on how the people of the Xuanyuan Empire arranged. After all, those who can make such a plan are not reckless people who think about it.

All eyes came together, looking forward to the next war.

"The **** Xuanyuan Empire, dare to attack my Mo family ancestor land, and hurried back to support." Mo family ancestor received the news, angry and retreated frantically.

However, they went too far, there was no time to retreat, and they couldn't keep up with their feet.

However, the Xuanyuan Empire's team was mighty and mighty, attacking forcefully, pushing horizontally all the way, and encountered no effective resistance at all, and came to the Mo family mansion for the first time.

Outside the Mo family mansion, the light circulated, the prohibition permeated, and it was very magnificent and vast. This is when the Mo family disciples learned the news and immediately opened the defense to guard the large formation.

"Shoot!"

Emperor Wushang Wu coldly shouted, and suddenly many powerful players shot, frantically toward the Mo family mansion.

boom!

The formation of the Mo family mansion shook, and the countless children of the Mo family below were panicked and stared with amazement. These were the powerhouses who stayed behind. Among them, the strongest was only the mid-term peak Martial Emperor. Once the formation was broken, how could it be resisted?

In an instant, the true essence skyrocketed, and countless lights flickered, covering the sky.

However, the Mo family mansion was saved after all, the light flowed, and it was difficult to resist the attacks of everyone, causing the stones in the hearts of the Mo family disciples to fall instantly.

As long as it can stop for a moment, and when the ancestors rush back, the people who are unlucky will be the Xuanyuan Empire.

"Huh? Nine-level formation? Humph." Wushang Wudi sneered when he saw this. Then, his hand was in the void, and suddenly, a black object appeared in his hand.

Hum!

This is a horn, the horn is simple and huge, the whole body is pitch black, and there are pitch black runes on it. When it appears, the void is trembling, as if it can't bear the power of the horn.

"This is... the horn of war!"

Someone was shocked, distinguished this thing, showing a look of shock.

The horn of war was the Xuanyuan Empire's heavy weapon of war. It was an ancient treasure, specially used to conquer cities and territories.

The reason why the Xuanyuan Empire was able to annex several other great empires in the Martial Domain and become the first empire of the mainland in more than two hundred years relied on this horn of war.

"Woo!"

Emperor Wushang Wu raised the horn, and it blew for the first time. Suddenly, it seemed that there was the sound of the ancient Jin Ge conquest. A terrifying black sound wave turned into an invisible wave and rushed to the Mo family mansion below.

"boom!"

The formation outside the Mo family mansion fluctuated rapidly, and then exploded immediately!

puff!

Countless bursts of light vanished, and then, the buildings below exploded in pieces, turning to ashes in an instant. A large number of Mo family members died tragically, and only a few masters survived.

"kill!"

The powerful Xuanyuan Empire was murderous, rushing below, like a tiger entering a flock, beheading frantically, just a moment's effort, the hand was quiet, blood flowed and turned into a dead city.

"My lord, the Mo family left-behind masters are not here, there are only a few here."

"The rest of the Mo family should have retreated and are not in the mansion."

"My lord, what should I do?"

The Xuanyuan Empire master was furious, his face was very ugly, and he felt dissatisfied.

Because, not many people existed in the Mo family mansion. There were some strong men who were defending, but not many. Others, should have learned the news, retreated as soon as possible, leaving them empty.

"Go, go to the ancestral land of Mojia Cemetery."

Emperor Wushang Wu's eyes were cold, as if he had expected it a long time ago. He was not discouraged, but continued to set off to go to the ancestral land of Mojia Mausoleum.

This is the birthplace of the Mo family. The people of the Mo family have to hide in Chuzhou. There is only one place to hide, because there are formations and restrictions, easy to defend and difficult to attack.

"kill!"

But Emperor Wushang Wu is not afraid, they have the horn of war in their hands, even if it is difficult to break through, they are not afraid, they can run wild.

"The Mo family mansion has been razed to the ground and turned into ruins. Now the strong men of the Xuanyuan Empire are heading to the ancestral land of the Mo family cemetery."

"The Xuanyuan Empire used a heavy weapon of war horn. It was a team led by Emperor Wushang, and the strong were like clouds. It was terrifying."

"The ancestors of the Mo family are still on their way back. They are still some distance away from Chuzhou, they can't stop them."

"Is the Mo family really going to be destroyed?"

All kinds of news spread, like snowflakes, passed on to all parties, shocking and shocking, and swaying.

Then, everyone's eyes were cast over again, because the Mo family ancestor land was nearby, Emperor Wushang Wu and the others rushed to launch an attack.

"Woo!"

Emperor Wushang Wu blew the horn, and the terrifying sound waves of war swept out to wash the ancestral land of Mojia Cemetery.

boom!

In an instant, many restrictions were destroyed, the light disappeared, and the ancestral land of Mojia Cemetery was suddenly exploded.

The so-called ancestral land of the cemetery is too big, and the Patriarch and ancestors of the Mo family are buried!

This is the forbidden land of the Mo family and a pure land. It is the top priority of any large family. Among them, the strongest men of the Mo family are buried. It is the resting place of the ancestors of the Mo family. It can be called the most taboo forbidden place of the Mo family. .

Here, the corpses of many powerful men in the Mo family are buried, which should not be desecrated.

But today, under the horn of war, the ancestral land of Mojia Mausoleum was directly exploded, and that terrifying sound wave passed down, shattering endless restrictions, and then turned into a tangible and intangible terrible murderous intent, to annihilate this place and completely wipe out the entire ancestral land. Ruined.

Moreover, at the end of the cemetery, there was a lot of blood surging. It was obviously the direct disciples and strong men of the Mo family who had received the news, hiding here, terrified.

The Mojia Cemetery was about to be completely destroyed.

At the critical moment, some of the graves in the Mojia Cemetery collapsed directly, and with a bang, one after another stone monuments skyrocketed, rising through the sky, turning into a thousand-meter-long sky monument, magnificent and majestic, the strong rune shining, the epitaph circulating and shattering Void.

[Chapter 1827: Call ancestors](#)

"what?"

Everyone was shocked. There was such a terrifying arrangement in the Mojia Cemetery. After the attack, many tombstones burst into the sky, and unexpectedly terrifying power erupted.

Huhuhu!

Immediately afterwards, there were gusts of yin and wind, and the world was surrounded by endless black air, as if arriving at the Yin Cao Jifu, there was a strong man who had died for thousands of years, whispering, trying to get out of the rotten tomb.

"How come? Are the ancestors buried in the Mo family still alive?"

The Xuanyuan Empire powerhouses were shocked and stunned. Under the endless cemetery, there seemed to be a terrifying catastrophe, which shocked them.

"Huh, pretending to be a fool."

Emperor Wushang Wu coldly shouted, and continued to blow the horn of war. Suddenly, terrifying sound waves swept through and bombarded.

boom!

The sky exploded, the two forces collided, and their strength went straight for 90,000 miles, tearing the sky apart.

I have to say that the layout of the Mojia Cemetery is too powerful. After the terrorist attack of the horn of the war, it was not destroyed, it was just damaged.

Some tomb heads were directly exploded, and some tomb heads were overturned, revealing the dark coffins. After such an attack, the coffins were still intact and were not blasted away, just lingering endless black light and fog.

"Offense me!"

Emperor Wushang Wu gave the order, his eyes were cold, and suddenly, many of the Xuanyuan Empire powerhouses moved and rushed down.

"kill!"

The sound of fighting sounded, and the secret realm on that side was immediately blown up. Many disciples of the Mo family appeared, all hidden here.

"Hahaha, the remnants of the Mo family are indeed here. Today, wherever you can escape, you will have to die. Anyone who touches my Xuanyuan Empire, any force, will kill you."

The powerhouse of the Xuanyuan Empire smirked and shot frantically. Suddenly, a scream rang out, and a disciple of the Mo family exploded immediately, turning into a blood mist, with no bones left.

It's too miserable.

The disciples of the Mo family who fled to the ancestral land of the Mo family cemetery are all direct disciples of the Mo family, the seeds and hope for the future, but at this moment, they are being massacred, blood watered the cemetery, and the corpses of the ancestors of the Mo family witnessed the extermination. Scene.

"Xuanyuan Empire, you have to die."

Someone in the Mo family screamed, their voices were bloody, they were all hoarse, and angry.

But it's useless.

The ancestors of the Mo family attacked the Xuanyuan Empire on this trip and took away most of the elites in the clan. Only some old, weak, sick and disabled were left behind. Although there were also strong people who stayed behind to guard, the Xuanyuan Empire was well prepared and made a full plan. To no avail.

"Is the Mo family going to be annihilated?"

In the distance, many spies from the forces stared at them, trembling in fear.

Even if they are not in it, but using the secret method to watch from afar, their hearts will be chilled, and their souls will be frozen.

"Ah, burn incense and pray, calling for ancestors!"

At this moment, a large number of Mo family disciples died tragically, and a stern and old roar sounded from the secret realm, raging to the sky.

As soon as this kind of words came out, the mountains and rivers trembled!

Call the ancestors?

This kind of low roar caused many powerful people in the Xuanyuan Empire to stand upright, and a little frightened. Shouldn't the ancestors of the Mo family be already dead? Is it still alive?

This is really an incredible event.

Don't think about it, how terrible it would be for a powerful person like the Mo family to be honored as the ancestor of the Hui? There is no doubt that in his period, he must be the ultimate figure.

And the strong who can be buried in the ancestral land of the Mojia Cemetery are also strong such as Patriarchs and Patriarchs. If there are people alive, they must be old monsters with great means.

But, does the Mo family really have ancestors alive?

Although the emperor Wu has a long life span, it is no problem to live for hundreds of years, and even some emperors live for thousands of years.

However, the continent changes, fights and kills, and power changes. Generally speaking, it is difficult for the strong of that era to live as a fairy, and they are almost extinct.

Moreover, according to the information they obtained, the older generation of strong men in the Mo family should have died hundreds of years ago, and they have been dead for many years. Today, the only ancestor of the Mo family is still alive.

Others should have already died in the passing years.

But when the Mo family expert uttered these words, the atmosphere of the cemetery suddenly changed, buzzing, the vast stone stele exuded a black atmosphere, and there was an inexplicable and terrifying aura flowing in the cemetery, making people stunned and chilly. Up.

Vaguely, many Xuanyuan Empire experts felt as if there were eyes staring at them in the surrounding darkness, cold and tyrannical, and murderous.

This made them frightened, horrified, and a little afraid.

In the ancestral land of the cemetery, many strong men of the Mo family gave up their resistance, and displayed their essence and blood one by one.

Endless black air lingers in the void, a mysterious force is born, and the whole body is cold.

"My lord, don't there really be old things in the Mo family who haven't died yet?" A Xuanyuan Empire expert trembled.

Because many people feel this kind of breath, as if being stared at by a dead person, it is very uncomfortable. This is an intuition of the strong. One person may still make mistakes. How can so many people make mistakes together?

"Oh, frighten someone, just a bunch of dead bones. At most, the corpse was refined with a special secret method. Using his prestige in his lifetime, I really dare to summon it and blow it up directly. What are you afraid of!"

There was also a giant Wudi sneered, strong and domineering, blood raging to the sky while waving his hands, slaughtering the strong Mo family, blood pouring in the sky.

"Everyone, be careful!"

Emperor Wu Shang frowned, his eyes solemn, because he also felt something was wrong, and he felt an inexplicable panic in his heart.

He had a vague retreat, this place was too weird, and now it's done. The survivors of the Mo family were almost killed seven or eighty-eight. He wanted to preserve his strength and began to retreat, not wanting to make extravagance.

"Everyone back!"

As a result, he shouted loudly, laid out the teleportation pattern for the first time, and constantly observed the situation below.

"My lord, don't be afraid. There are some cats and dogs in this life, which will directly blow up. If you are worried, let your subordinates take the lead and kill them."

The previously disdainful emperor Wudi spoke, with savage eyes, killing intent in his pupils, and rushed to wash the rest of the Mo family.

"Be careful!"

But suddenly, Wushang Wudi roared, feeling that something was wrong for the first time, and roared: "Everyone retreats and enters the teleportation formation."

"boom!"

At the moment his voice fell, the ghost wind howled, and a black coffin below it exploded directly, and a dark figure burst out from the coffin.

This is an old man with a howl like a night owl, roaring, skinny, hair all lost, his clothes decayed, he has rotted in the long river of history, and he has been dead for a long time.

But now, he was resurrected, and his eyes shot out a faint green light, like an evil ghost.

His body exudes a decadent aura, and his cultivation level is unpredictable. He rushed out in one step, his hands were like dry bones, and he pierced into the chest of the giant Wudi with a chuckle.

"what!"

The giant Wudi screamed, the blood flew all over, and he was stunned for an instant, and wailed in pain!

[Chapter 1828: Ancestor resurrection](#)

boom!

This old man is too strong, although his body is withered, like withered bones, and his body is filled with decay, he is about to rot.

But now, his whole body is glowing, black aura lingers all over his body, his pupils are glowing, and he is murderous.

His hands plunged into the chest of the giant Emperor Wu of the Xuanyuan Empire with his hands like sharp blades, and the blood flew across it. It licked its tongue with a hideous face and howling like a ghost.

Everyone was hairy and horrified. What is that?

The spies of the major forces who used the secret method in the distance were so shocked that their hearts were about to explode. What did they see? A corpse was killed from the coffin of the ancestral land of the Mojia Cemetery. It was so hostile, like a ghost coming out of purgatory. It was terrible.

"Xue Kui, go back!" The Xuanyuan Empire experts were also frightened, Wushang Wudi directly roared, shouting at the giant Wudi, making him retreat.

Emperor Xue Kuiwu was cold all over, and he retreated for the first time, surging with blood, like a sea of blood, retreating backwards, trying to escape the enemy's killing range.

But it's useless, the old man's eyes are faint, staring at him, like a ghost, it's terrible.

"You, slaughter my descendants of the Mo family, kill without mercy!"

He roared, his hands protruding forward, and the light flowed, almost crushing Cangyu, freezing the years, and wanting to go back to the past, lifeless.

puff!

Emperor Xue Kuiwu coughed up blood, his body was stained with a trace of black blood, and his skin rotted directly, turning into black pus and blood dripping, and there was no way to stop it.

"what!"

He howled miserably, screamed, and paid everyone for his own recklessness and carelessness. He felt that his body was rotting and could not stop it. Even the late Emperor Wu's true essence could not stop this rotting posture.

"Half man and half ghost, I'll fight it for you!"

Emperor Xue Kuiwu roared, and instead of retreating, he rushed out, thundered and shot, and his blood exploded, fighting with the withered old man.

Boom!

The sky was directly blasted through gaps, and the two of them fought, and the chaos was filled, the sky was blown up, lifeless, the withered old man was thin and weak, but it contained terrible power that made the heart palpitating.

In particular, he was filled with a cold breath that seemed to come from purgatory, which made people shudder, and his combat power was greatly reduced.

"Quickly, save the blood of Emperor Kuiwu!" Wushang Wudi exclaimed in anger, and while arranging other people to retreat, he wanted to lead other top Wudi to rescue Emperor Kuiwu.

"Old folks, our ancestral tombs are going to be planed. If we don't come out, if we don't come out again, there will be no offspring to offer incense for us in the coming year."

A faint wailing came from the withered old man, like a magic sound, quickly spreading.

"not good!"

Emperor Wushang only felt heartbroken, there was a huge danger coming from the sky, his cold hair was standing up, and countless goose bumps appeared all over his body.

"Retreat, all retreat, leave this place immediately!"

He screamed, gave up the rescue for the first time, turned and retreated.

boom!

The moment he left, countless coffins in the cemetery below exploded.

"Jie Jie Jie, who disturbed the old man's dormancy."

An ear-piercing cry sounded, it was an old skinny woman, her hair was also lost, and her body was also filled with a rotten breath, like a Yasha, killed.

"Kill, kill, kill! The smell of human blood!"

"I came back from **** and killed everything in the world!"

boom!

In the Mojia Cemetery, countless cemeteries exploded, and the tombstones blasted into the sky with black light, playing a requiem.

These people were lingering in black energy, like a ghost killing, rushing into the Xuanyuan Empire crowd for the first time.

"what!"

There was a scream, and the Emperor Wu fell for the first time. I saw a dead bone-like corpse with faint green eyes, biting on the neck of a Xuanyuan Empire Emperor Wudi, blood spattered and spilled like a fountain. He is all in.

But he didn't realize it, groaning in gloom, swallowing human blood, like a vampire demon, swallowing human flesh.

"puff!"

Then, the person was torn apart, his body was torn apart, his blood was consumed, and he fell into a dry corpse.

"kill!"

The corpses of many Mo family ancestors were shot out. It was too terrible. The killing intent was dreadful. It trapped hundreds of Xuanyuan Empire powerhouses for the first time, and they were torn into blood mist in an instant, leaving no bones.

After that, their bodies shook and directly entered the Xuanyuan Empire powerhouse team. In an instant, the sky exploded and countless blood rain fell, which was too miserable.

In this attack on the Mo family in Chuzhou, many powerful people in the Xuanyuan Empire have not suffered any powerful obstacles along the way, but the first time they missed, they suffered heavy losses, because these powerful people who suddenly smashed out of the coffin were too strong, like a tiger into the flock. .

"Woo!"

At the crucial moment, Emperor Wushang Wu blew the horn of war. Numerous runes appeared between heaven and earth to fight against them. Moreover, various treasures were sacrificed. The runes and the forbidden array light flickered in the void and turned into a splendor. Tianhe.

boom!

The next moment, the void exploded directly, and the chaos was filled, Wushang Wudi seized the opportunity, and even urged the teleportation formation to lead the countless remaining Xuanyuan Empire powerhouses to leave.

Hum!

Lights flickered between the heaven and the earth, and many powerful men left immediately. Wushang Wudi prepared too well. Anticipating that it was not good, he fled at the first time, leading most of the powerful men across the void and disappeared directly.

"Boom!" Then, with a roar, the endless chaotic energy was directly torn apart, and a figure that looked like the withered bones of a dead person appeared, rushed out, tore the void, and captured the departed Xuanyuan Empire powerhouses. .

However, Emperor Wushang Wu was fully prepared, with secret treasures on his body, which concealed his own breath, and could not be traced. Moreover, the void formation method they used was also a treasure, crossing the void, which was terrifying and made it impossible for people to track it up for the first time.

They managed to escape and just disappeared.

But the ancestors of the Mo family were not reconciled. With a swish, several figures disappeared. They chased them down, and their eyes were faint, as if two groups of ghost fires were beating, chasing and killing the shooter.

This world was silently annihilated, and then exploded, and a terrifying wormhole appeared in the void. Those figures looked decayed and decayed, but the strong made the powers of all forces tremble, and their scalp numb.

This is definitely a group of giant-level masters, a group of giants, is the Mo Family guarding the sky?

Originally, the Mo family's mansion was demolished, and even the ancestral land of the cemetery was destroyed. It was almost annihilated. But now, these powerful men suddenly appeared, gloomy, like walking out of the underworld and returning to the world. Could it be that the Mo family Are there so many strong ancestors who have not died?

Many people were frightened, but at the same time, they were puzzled. This was simply impossible. But now, it appeared naked in front of everyone, and people had to believe it.

"The Mo family has such a deep background, what is going on? Are these ancestors really still alive? Or were they refined by special methods, refined into human corpses, and shot as weapons?" Someone exclaimed.

This incident made all parties outside awe, and the strength of the Mo family was shocking.

[Chapter 1829: Go to Misty Palace](#)

"The ancestors of the Mo family have been dead for a long time. Some of them were clearly dead in the war and shouldn't be alive. Why are they now resurrected?"

"This is too weird. With such a background, which force would dare to challenge the Mo family?"

"The Xuanyuan Empire had won a big victory, but at the last moment, it fell short and suffered heavy losses, and even Emperor Xue Kuiwu fell."

Many people were horrified and frightened, and the news spread out immediately, and the major forces were boiling and talking.

Because this reality was beyond their expectations, it was difficult to understand and confused.

"These people should be members of the alien demon race!" Ji Family, Qin Chen said with faint eyes when he heard the news coming back from the front.

He knew more information than others, and he had some guesses.

"Yes, the Mo family also has an alien demons resident, located in the ancestral land of the Mo family cemetery. The Xuanyuan Empire still wants to blast the Mo family ancestral land into ruins. Those alien demons are forced to do it. But you can't be upright, you can only use the corpse to resurrect your soul." The elder said, obviously he had expected it.

This made Qin Chen horrified.

The alien demon race has a resident in the Ji family ancestral land, but it is unexpected that there is also a resident in the Mo family ancestral land. How far has its influence developed?

It is conceivable that the entire Hall of Law Enforcement may have been infiltrated by this alien demon force. How many forces are still in the hands of the human race in the world?

Qin Chen was chilled and filled with anger.

When Shangguan Xier and Feng Shaoyu shot him, although he hated him, he could understand.

But now, Misty Palace is secretly colluding with alien demons, which makes him really unacceptable.

Those who are not my race must have different hearts. For tens of thousands of years, the alien demons have been invading the Tianwu Continent, destroying the foundation of the human race, cooperating with them, and introducing wolves into the room, what is the difference between human traitors?

There was a bang, and at this time, the Mo family ancestors and other strong men finally came back. They saw the destroyed Mo family lands, the Mo family mansions turned into ashes, and the Mo family ancestors land that was almost bombed, directly roaring, Killing intent went straight into the 33rd heaven.

"Xuanyuan Empire, you and I are alive and dead, ah!"

He roared, the sky exploded, and the anger was soaring, and the strong people far away from Chuzhou seemed to be able to hear it, unforgettable.

After that, the Mo family's ancestral land was once again covered by clouds of smoke, and no one could snoop out the true situation, and naturally it was impossible to know the status of those Mo family's ancestors.

But this news was passed on the mainland for the first time, causing an uproar.

Soon, some forces made statistics for the first time.

However, most of the Mo family's power and residence in Chuzhou were directly destroyed, with a direct loss of more than 80%. Large areas of mineral veins and medicine gardens disappeared and were destroyed. The Mo family's mansion was also destroyed, and the strong were killed and injured, except for the Mo family. Except the part of the strong people that Zu led to the Xuanyuan Empire, more than 80% of the remaining people died.

Only 30% of the entire Mo family descendants were left, which was extremely miserable.

This kind of loss is almost the same as the extermination. If it were not for the group of ancestors who broke out in the last moment of the Mo family's ancestral land, I am afraid that the Mo family would be defeated in an instant. Everyone shouted and beat them, even if the Mo family ancestors were alive. Nothing.

Because the vitality of the Mo family has been directly wiped out by 70%, even if the peak combat power still exists, it is of no avail. Because a family is strong, in addition to the peak power, the lower-level power is also indispensable.

But now, the Mo family's vitality is severely injured, and there is even no one available under his command.

The Xuanyuan Empire also suffered a lot of losses. The resident sites in several states near Chuzhou were destroyed, and at least a dozen resident sites were erased, which can be described as heavy losses.

Of course, the Xuanyuan Empire's losses were not too great compared to the Mo family, but in the last battle in the ancestral land, the defeat of Emperor Kuiwu and other strong men directly caused the final defeat, otherwise it would be more perfect.

This battle caused a sensation in the entire Martial Domain, causing turmoil everywhere, and the major forces became extremely safe, each shrinking the front, because everyone knows that the next storm will be strong, and this can never be the case. End.

The Mo Family is not only a top-level family in the Martial Domain, but also a high-level executive in the Palace of Law Enforcement, under the command of the Misty Palace, representing the top power in the mainland.

The Xuanyuan Empire also came from the first pole of the mainland, the first empire of the mainland. The collision between the two major forces will directly lead to changes in the entire military domain, which is closely related to each force.

Once a war really breaks out, no power can survive alone.

Therefore, after the war, the entire Martial Domain was strangely quiet, and the major forces focused their attention on the Mo Family and the Xuanyuan Empire, wanting to see the next actions of the two major forces.

Of course, there are also many people who are concerned about the movement in the Mojia Cemetery, wanting to find out the real situation of the group of strong people in the coffin.

This is really terrifying. The dead ancestors were resurrected and fought forcefully. No matter which force, they were afraid of it. They would not give up unless they knew the situation.

"It seems that in a short time, these two forces will not do anything again, and once Shangguan Xier receives the news here, he will pay attention to Mo Family and Xuanyuan Empire for the first time. I go to Misty Palace, the best time to rescue Qianxue."

At the Ji family, Qin Chen set off very decisively, and left Ji family for the first time, heading to Misty Palace without hesitation.

Also traveling with Ji Ruyue and Ji Hongchen.

The purpose of bringing Ji Hongchen is very simple. Qin Chen also needs her to enter the Misty Palace. Otherwise, the Misty Palace will be much stricter than Ji Jia, and it will be difficult for Qin Chen to break directly into it without anyone leading it.

And Ji Ruyue, when Qin Chen was worried that Shangguan Xier came to investigate the situation of the Mo family, he would come to Ji's house to check. Once Ji Ruyue's cultivation level was discovered, he would naturally notice the abnormality, which aroused her suspicion.

People like Shangguan Xi'er are too suspicious, and their thinking is very quick. A little clue can arouse her attention, and naturally they can't show any horses.

"From the time Shangguan Xier learned the news of the Mo family, to the arrival of the Third Heaven and meeting Feng Shaoyu secretly, it would take at least half a month to a month. During this time, I must rescue Qianxue, otherwise Once Shangguan Xier returns to Misty Palace, things will become troublesome."

Qin Chen crossed the void, fast, rushing to the Misty Palace with all his strength, racing against time, without stopping.

call!

Only three days later, Qin Chen had already arrived within the area where the Misty Palace was located and broke into the area directly under the control of Misty Palace.

At this time, the news that happened in the Wuyu Triple Heaven, like a gust of wind, immediately reached the hands of Shangguan Xi'er who was still in the Wuyu First Heaven and was investigating the Tiandao organization.

"What? There was a fight between the Mo Family and the Xuanyuan Empire? Heavy losses?"

Upon receiving the news, Shangguan Xi'er stood up suddenly, her eyes bursting with fright, she was so cold, she was shocked!

[Chapter 1830: Mental gap](#)

"What the **** is going on? Tell me the truth." Shangguan Xi'er was extremely frightened, her delicate face frowned, her eyes bursting with cold light, and the whole palace was in this breath. Trembling, almost disappeared.

Can she not be angry? These days, she is struggling with the affairs of the Law Enforcement Palace and the Xuanyuan Empire.

At the beginning, the Heavenly Dao organized disasters and shifted the target to the Xuanyuan Empire, which directly caused the anger of many powerful people in the Hall of Law Enforcement, and they were full of opinions about the Xuanyuan Empire.

Even under anger, some branches of the Hall of Law Enforcement made a frantic attack on the residence of the Xuanyuan Empire, causing the two sides to rattle each other and the atmosphere was very tense.

For this reason, Feng Shaoyu also visited her specially.

In order to prevent others from seeing the connection between her and Feng Shaoyu, she had no choice but to let the Law Enforcement Hall take action while secretly appeasing Feng Shaoyu and letting him put the overall situation first.

At the same time, they urgently searched for traces of the Heavenly Dao organization to prove that the Xuanyuan Empire had nothing to do with this matter, so that the conflict between the Palace of Law Enforcement and the Xuanyuan Empire was eased. But these days passed, the original imposing Heavenly Dao organization suddenly disappeared, as if it had never appeared before, and there was no clue at all. Many executives of the law enforcement hall found her and threatened to take action against the Xuanyuan Empire and destroy it.

The Xuanyuan Empire was already annoying enough in her heart.

But who would have thought that such a thing unexpectedly broke out at this time.

How does this make her not angry?

At this moment, in front of Shangguan Xi'er, the person who passed the information was trembling and shivering. He told about the things that happened between the Mo family and the Xuanyuan Empire in the triple heaven of the Martial Domain. Then, he knelt down. Looks terrified. "What? The Mo family ancestor land was almost destroyed by the Xuanyuan Empire, and the Mo family ancestors were resurrected. This blocked the Xuanyuan Empire's offensive, and the Mo family's power in Chuzhou suffered heavy losses, and its combat power was consumed by 80%? And the Xuanyuan Empire? , Each in the triple heaven

More than a dozen important locations in the state were destroyed, causing heavy losses of personnel?
"

Upon learning the follow-up information, Shangguan Xier gasped.

How did things develop like this?

The Mo family was the family she fostered, and it completely obeyed her orders, and it was very handy to use. Otherwise, the Mo family would not be allowed to serve as the high-level of the law enforcement hall, and even the Ji family would fight against each other and cultivated as a resident of alien demons.

But now, 80% of the Mo family's forces have been destroyed, such a heavy loss, this is completely torn from the Xuanyuan Empire.

And she also had a headache on the Xuanyuan Empire. Feng Shaoyu's forces, she wouldn't be able to intervene arbitrarily, but if such a big thing happened, could Feng Shaoyu be able to suppress his subordinates?

Once the Xuanyuan Empire and the Hall of Law Enforcement had a full-scale conflict, the arrangements she and Feng Shaoyu worked so hard to make would be completely destroyed.

"How did things get to this point."

She trembled, her expression contained endless killing intent.

"My Lord Palace, the development of things is a bit weird. Both the Xuanyuan Empire and the Mo Family said it was the other party's first hand..." The intelligence officer said tremblingly, telling the story of the matter bit by bit.

what?

Shangguan Xi'er frowned and suddenly felt something wrong. "The Xuanyuan Empire said it was the first hand of the Mo Family, attacking his top mountain resident, killing the strongmen such as Fire Saber Martial Emperor, plundering a large number of Heavenly Star mineral veins and elixir, but Mo Family said it was the Xuanyuan Empire's hands, Fire Saber Martial Emperor Waiting for the strong to secretly block the Mo family leader

The old wait for the strong, and kill the Mo family elder and the old elder, and then the Mo family rises up to fight back? "

Shangguan Xi'er was so smart that he found the problem in the first place.

The statements of the two major forces are completely incompatible, and there must be something wrong with it.

"Where is Mo Family's information? Show me." Shangguan Xi'er sneered coldly, Mo Family would definitely report to her if such a big incident happened.

Sure enough, the intelligence officer handed over the information urgently sent by the Mo family. The first sentence above was to cry for Shangguan Xier to take action, mobilize the Misty Palace and the Law Enforcement Palace, destroy the Xuanyuan Empire, and seek justice for the Mo family, and pay the blood debt. .

Shangguan Xier naturally ignored these contents. What she was most concerned about was the cause of the incident.

In the intelligence, the Mo family stated the original cause of the incident, saying that the Xuanyuan Empire took the lead to ambush the elder of the Mo family, Mo Duanming and the old elder Mo Hongzhi, and kill all the members of his Mo family's direct line. Live without leaving.

His Mo family was forced to fight back strongly.

Unexpectedly, the Xuanyuan Empire spit out blood, the thief shouted to catch the thief, and immediately continued to attack the Mo family's forces. His Mo family was not aware of it for a while,

which led to the destruction of 80% of the family's forces and the thousands of years of foundation almost destroyed.

"The Mo family obeyed me, it is impossible to play any slippery heads in front of me, is it really the hands of the Xuanyuan Empire?" Shangguan Xier's eyes were cold and angry.

As the person in charge of the Law Enforcement Palace, she naturally believed what the Mo family had said, and was sure that the Mo family would not deceive him.

"But Shaoyu clearly told me that he would restrain the people of the Xuanyuan Empire, why would the Xuanyuan Empire do such a thing?" After that, she was angry, her body was chilly, and her killing intent was awe-inspiring.

If what the Mo family said is true, then the Xuanyuan Empire is too much, so she is not angry.

"My Lord Palace."

"We want to see Lord Palace Master!"

But at this moment, Shangguan Xier was outside the palace of Wuyu Yizhongtian, suddenly there was a sound of anger, a bang, and a few terrifying auras came.

These people, each wearing the costumes of the Hall of Law Enforcement, have a terrifying aura, like a deep prison, and they are the powerful executives of the Hall of Law Enforcement such as Emperor Anxu.

"My lord, do you know what happened to the Mo family?" As soon as Emperor Anxu Wudi and the others came in, before Shangguan Xi'er could speak, they said in a deep voice, full of killing intent.

Shangguan Xier's heart sighed, she was most afraid of this situation, and said slowly: "I just learned, are you all right?"

"Please also the Lord Palace Master to order that the Hall of Law Enforcement and the Xuanyuan Empire will start a full-scale war, and let me wait to completely wipe the Xuanyuan Empire from the mainland."

This group of strong men said, murderous and angry, they couldn't wait to rush out now and kill all the people in the Xuanyuan Empire.

"Enough, don't you think things are not messy enough?" Shangguan Xi'er frowned, and shouted coldly. "Palace Master?" Anxu Emperor Wu and others were taken aback? The anger on his body diminished a little, but he immediately emerged again, hissing: "My lord, are you not angry? What is the Xuanyuan Empire? How dare you attack the high-level family of my Law Enforcement Hall, Mo Family is now

The loss was so heavy that it was almost wiped out. Should I still remain indifferent? "

They looked at Shangguan Xier in disbelief, and they didn't understand why Shangguan Xier behaved like this.

"It's not that this palace is indifferent, but that you shouldn't act rashly for the time being until things are clear." Shangguan Xier said coldly. "I haven't figured it out before? How to figure it out. The Xuanyuan Empire attacked the Mo Family. The facts are there. Now the whole world is staring at our

Law Enforcement Hall. If our Law Enforcement Hall is indifferent, the momentum accumulated in the previous battle must be Fall short

basket for carrying soil? "This group of people said in anger, in disbelief.

"Why, don't you listen to what my palace said?" Shangguan Xier's eyes were cold.

"No, Lord Palace..."

What else did Wudi Anxu want to say? Suddenly, Shangguan Xi'er's figure moved, and she suddenly appeared in front of him, threw a sleeve out, and with a puff, Wudi Anxu was directly shaken out, spouting a mouthful of blood, and fell into a panic. Fell to the ground.

He looked at Shangguan Xi'er in horror, and hurriedly turned over and knelt down, while many other senior officials in the Hall of Law Enforcement also silenced one after another, afraid to speak.

The anger subsided, and they woke up, who they were facing was Shangguan Xier, the Misty Palace Master, their master. "This palace has its own decision, but I still use you to teach it?" Shangguan Xier said murderously: "As for the Mo family, this palace has its own decision. Since this heavenly Taoist organization has no trace at all, this palace is now Will set off immediately to Mo's house,

To figure out the truth of the matter, what you have to do now is to find the Dao Organization of the day. Also, figure out the impact of the Mo family incident instead of thinking about revenge first. "

Shangguan Xier's gaze swept over everyone on the court, and suddenly everyone's gaze fell one by one, and they dared not look at him. "This time, the Xuanyuan Empire attacked the Mo family's ancestor land, which caused the aliens to have to take action. This palace believes that the current major forces in the Martial Domain are investigating the resurrection of the Mo family's ancestors. The top priority is that we are not taking revenge, but handling the rest. ,

The major forces must not be suspicious, otherwise, a second conquest will surely be triggered, do you understand? "Shangguan Xi'er said sharply.

"Subordinates understand." The group said repeatedly.

"Since you understand, don't do it soon." Shangguan Xi'er drank coldly, then pointed to two of them, and said: "You two, let me go to Mo's house."

"Yes!" The two bowed to salute, trembling.

"And... Dark Xu Wudi." Shangguan Xier said again.

"Subordinates are here!"

Emperor Wudi Anxu wore blood at the corner of his mouth, but he dared not wipe it, and came forward cautiously. "Didn't I ask you to investigate the matter of Chendi Pavilion? During these days, this palace always felt something was wrong. I heard that some disciples of Chendi Pavilion entered Dan Pavilion and Wanbao Tower, and mobilized Anzi to target these people. , Figure out the situation,

There are other people in the Chendi Pavilion who have also investigated clearly for me and brought them to this palace. "

"Subordinates understand!"

Anxu Wudi immediately retreated respectfully.

"Others, let me go to Mo's house."

Shangguan Xi'er finished giving instructions and set off quickly to Mo's house.

At this moment, the Xuanyuan Empire.

Feng Shaoyu also got the news for the first time.

"Are you sure, it was the Mo family who attacked our resident of the Supreme Mountain Range first?"
Feng Shaoyu stared at Wushang Wudi below, and said with a cold voice, his eyes surging with cold light.

"Subordinates dare not lie, it is true." Wushang Wudi continued.

"That's it, this is the end of the matter, this emperor can't say anything, immediately mobilize all the powerhouses of my Xuanyuan Empire, and then shrink the defense line to prevent a surprise attack by the law enforcement hall."

"Yes, the Great!"

Emperor Wushang Wu immediately retired respectfully.

"Xi'er, don't blame me, if your law enforcement hall is aggressive, I will have no choice but to take action."

Click!

Feng Shaoyu squeezed hard, and the armrest beside her body was instantly crushed and turned into powder.

"Stop coming!" As soon as Ji Hongchen entered the Misty Palace area, he was stopped, and a group of murderous powerful men surrounded him, blooming with chills.
