[Chapter 1871: Mad Sword Emperor](#)

When the voice fell, the world changed color.

Hum!

The originally bright white sky seemed to be in the dark for an instant. Above the endless sky, a pitch-black sword that reached the sky appeared, tearing the heavens and the earth apart, piercing through the ancient and modern, through the sky and the earth.

This is not a real war sword, but a sword energy and sword intent, but it bursts out with terrible coercion that makes everyone discolored. The star was chopped down, and the chaos was overflowing.

boom!

The light of the sword fell down, it was too terrifying, without any evasiveness, it slashed down at the people below, the blade was awe-inspiring, and wanted to cut everything.

"what!"

Many powerful people in Wanbaolou were shocked, their livers and guts were cracked, and they made a sound of horror. They couldn't restrain themselves under the aura of the sword, and they backed up, as if the sword was blown, the soul and the body would be torn in half, falling into endless In the sword abyss.

"Crazy Blade Martial Emperor!"

Zhuge Qingyun changed color, shouted angrily, and hurriedly pointed out his right hand, and suddenly the chaos was filled and turned into a galaxy. In the galaxy, a big hand was floating and mighty, and he squeezed the giant sword that fell down.

Boom!

Two terrifying forces touched in the void, and the world directly split a terrible big opening, like a prehistoric behemoth opened a hideous mouth.

Under the knife's intent, the Hanging Xinghe exploded directly, and at the same time, the huge chaotic palm was instantly torn apart. The knife's intent was rumbled and riddled with holes. After advancing hundreds of meters, it also shattered in an instant. From the horrible waves.

That terrifying wave of swords continued to squeeze crazily downward.

"not good!"

"Block!"

Some of the vice-hosts and top powerhouses around Zhuge Qingyun's complexion changed, and they even shot and waved their sleeves to resist. If this terrible knife-inspired aura is allowed to crush down, although it is only an aftermath, most of the people below are probably , Will be directly cut and exploded.

This group of people joined hands and turned into an invisible barrier, finally resisting the aura of the sword wave, but all of them turned pale and snorted.

Because in this sword intent, there is an immortal aura that is indelible, and each and every one's face changed slightly, and they hurriedly urged the true essence to eliminate it.

At the same time, many disciples and Wudi elders below also felt that an invisible and immortal power had penetrated, making their faces pale and oppressed from a spiritual level.

"hiss!"

Everyone sucked in air-conditioning, and every one of them was shocked to go crazy. This was too terrifying.

The sword intent fell, and the elder Zhuge Qingyun had already blocked it, but the aftermath was only rippling, and many giant Wudi couldn't completely block it. The terrible sword intent aura still affected everyone below. Terrible strength?

At this moment, everyone changed color.

Come, too strong!

In shock, everyone looked up, and then saw a middle-aged man wearing a black martial robes walking in the distance in the sky.

I saw him walking in the void, and the space around him was constantly trembling, and he couldn't bear his power at all. This person had dark eyes, and he looked like two heavenly swords rotating. It contains the sun, moon and stars, and the universe is too strong. Up.

No one dared to stare into his eyes, because his eyes were like two swords that opened up to the sky. Whoever stared at them would be cut and wounded by the invisible sword intent.

"Crazy Blade Martial Emperor!"

"Is this the Emperor Wudi Crazy Blade?"

"Our top consecration in Wanbaolou!"

"Shenlong sees a character who never sees the end!"

The crowd was shaking, and they all spoke with amazement.

No one knows the name of Emperor Wudi Crazy Blade, no one knows.

Before joining Wanbaolou, he was already a well-known Martial Emperor in the world. With a turbulent sword, he killed the world's powerhouses. It was the first time that many people on the court saw him, and he felt that he was truly well-deserved. Horrible and shocking.

The ordinary disciples were frightened and shocked, while the remaining top powerhouses had ugly faces, and they were so incomparable that they dared not speak.

This is natural. Before so many people joined forces, they could not completely block Martial Emperor Crazy Sword's sword intent, and it was too shameful to spread it out.

"The Emperor Martial Sword, this is the Treasure Pavilion, not the place where you go wild." Zhu Zishen jumped wildly and said angrily: "You dare to act here to destroy the Wanbao Tower formation. Didn't you pay attention to the high-rise buildings of Wanbao Building present?"

Zhu Zi Shen was very clever. He didn't speak in his own name, but stood in the name of many powerful people in Wanbaolou, and wanted to unite with the many remaining powerful people and put a high hat on Emperor Wu Wu of Mad Saber.

"Yes, Emperor Martial Blade, your strength is strong, but it is too much to do it when you come up."

"Elder Zhuge, the Martial Emperor of Mad Sabre said he was a strong man in Wanbaolou, but he didn't take my Wanbaolou rules into consideration at all."

"Too arrogant."

The other strong men were also angry, furious, and criticized.

Under the gaze of everyone, Emperor Mad Saber Wudi completely ignored this group of people, but fell down and came to Wang Qiming, admiring: "Your previous performance has been seen by the teacher. Yes, you are very good!"

Wang Qiming had faced so many powerful people before, even the elders like Zhuge Qingyun, who were not afraid, humble or overbearing, which made Emperor Martial Sword very gratified.

Swordsman, walking against the sky, if you are afraid of being afraid of this, you can't become a top-level swordsman.

The Emperor Martial Sword himself is famous for his madness, and he naturally looks down on people who follow the rules. In his opinion, to be a swordsman is to be a little arrogant. It takes every second, every second, every second!

Zhu Zi Shen's face was red and white, and he jumped up and down himself, who knew that Emperor Martial Sword didn't even look at him, but treated him directly as air.

He couldn't help but feel angry, and said grimly in his heart: "Knack Martial Emperor, you are crazy, continue to be crazy, it is best to be crazy again, when you provoke public anger, you will feel better."

Thinking in his mind, he coldly snorted: "The Emperor Martial Sword, when you see many elders and deputy posters, you ignore it, don't you put everyone in your eyes?"

Zhu Zishen's words immediately attracted the approval of many people. The Emperor Martial Sword is too arrogant, even if he is strong, he can't ignore everyone.

Unexpectedly, Emperor Wudi continued to ignore Wang Qiming, and said to Wang Qiming, "However, you were too conservative before. In the face of these unreasonable wastes, you should not give in. Even if you die, you have to resist, rather stand dead. Don't want to live on your knees."

In the eyes of Emperor Wudi, Wang Qiming was the only one at this moment.

"Yes, Master, the disciple knows." Wang Qiming nodded, thinking everything.

Hum!

There was an amazing breath blooming in him, and he seemed to have realized something.

This made Emperor Wudi Crazy Saber even more satisfied. His disciple had too much talent, and he might surpass himself in the future.

[Chapter 1872: Lose face](#)

But these words naturally aroused other people's dissatisfaction.

Damn, what do you mean?

Unreasonable waste, do you mean them?

Their faces turned red and white. They were also high-ranking members of Wanbao Lou. When were they scolded like this.

Simply lose face.

"Emperor Martial Blade, you tell me clearly." Many people roared, furious, and so angry that they would blow their lungs.

"If you have anything to say, let's go." The Emperor Wudi Crazy Blade didn't want to talk nonsense at all. He took Wang Qiming and the others and turned around to leave.

"The Emperor Martial Sword, you are too much." Zhu Zi Shen's expression changed. If Emperor Martial Sword like this took Wang Qiming away, how would he complete the task assigned by Misty Palace?

His figure shook, and even intercepted the Emperor Wudi towards Crazy Blade, trying to stop him.

"Huh!" Mad Sabre Wudi snorted coldly. He raised his right hand and slashed it out flatly with a palm of his hand. This was just a palm of the sword, but it felt like a mountain of swords for Zhu Zishen. , Longlong smashed down, with his later cultivation base of the Wudi giant, it was completely impossible to resist.

With a bang, he flew out, spouting blood, and fell to the ground embarrassedly.

"Hehe, this is the deputy host of Wanbaolou, just that kind of strength? Also worthy of being the deputy host, a joke!" Mad Sabre Wudi sneered, and the face of the philosophers Shen was green and white, and his expression became extremely exciting.

"Emperor Martial Blade, you are too much."

Everyone's faces were blue and angry.

"I'm too much, don't you wrong the emperor's disciple, isn't that too much?" Emperor Wudi snorted coldly.

"Injustice? It's ridiculous, the evidence is solid, the facts are all there, how can I be wronged?" Someone shouted.

Zhuge Qingyun also frowned, and said, "Emperor Martial Blade, you said your disciple was wronged, is there any evidence?"

"What I said is evidence."

"..." Everyone was speechless.

"Zhuge Qingyun, you and I are both old acquaintances. This emperor will not make it difficult for you. Today, this emperor tells you in front of everyone that the emperor's disciples will never steal things from the treasure pavilion. "The Emperor Martial Blade said coldly: "It's just a piece of Heavenly Dragon Jade. If this emperor really needs it, I wait for four people to apply. Will Wanbaolou not give it? With the talent of this emperor's disciple, isn't it worth a piece of Heavenly Dragon Jade?"

Zhuge Qingyun couldn't help frowning, showing a suspicious look, really.

Although Tianlong Jade is precious, it was originally used by Tianjiao. With the qualifications of the four Emperor Wudi and Wang Qiming and their talents, if you really ask Wanbaolou for it, I am afraid Wanbaolou might not stop it.

Why steal?

"This matter is a lot strange, but the emperor is too lazy to investigate, Zhuge Qingyun, you can check. Today, the emperor's words are here. If the investigation shows that the emperor's disciples really committed the theft, the emperor will Negative Jing pleaded guilty and brought his disciples to confess the punishment, but if the Tianlong Jade appeared in the so-called Celestial Compass, it would be necessary to condemn the emperor's disciple, and I would not blame the four of us for not thinking about old feelings."

When the words fell, Emperor Wudi Crazy Blade and Emperor Wu Xuanbing turned and left with Wang Qiming and others, leaving the place floating.

"Elder Zhuge Taishang." Zhu Zishen's expression changed, and he hurriedly looked at Zhuge Qingyun. If Emperor Martial Blade and the others were to leave, his task would not be completed.

"Let them go!" Zhuge Qingyun said coldly.

"But..." Zhu Zishen wanted to say something, but was interrupted by Zhuge Qingyun, and said coldly: "Why, Emperor Martial Sword said that, what do you want? If you want to stop, you can go by yourself. Stop, this emperor will never stop you."

Zhu Zishen suddenly became unhappy, and asked him to stop the Emperor Martial Crazy Blade, isn't he going to die?

"Damn it, why did the four Martial Sword Emperor Four come so quickly, and now they can't complete the mission of Misty Palace, how can this be good?" Zhu Zishen was anxious, but he had no choice but to sigh, depressed. .

Outside the Marble Mountains.

"The four of you, after today, move to the old man's Valley of the Dao, Ba Jue, Hong Luan, Xuan Bing, and the three of you are also coming." The Martial Emperor Crazy Blade said to Wang Qiming.

"Yes, Master." Wang Qiming and the others nodded.

On the side, Kong Sitong was a little curious, and wondered: "Four worship adults, why are you here so fast today?"

This was what he was most puzzled about. It wasn't long before he sent the message that Emperor Martial Blade and the others appeared, but even the nearest palace where the four were located was at least a few days away.

The four of Wang Qiming also looked over in confusion.

"We got a message as early as half a month ago. The news says that the four of you may be in danger." Martial Emperor Crazy Blade said.

"Half a month ago?"

Several people looked at each other, how could this be possible? Half a month ago, they didn't know that they would come to this treasure house.

"I was skeptical at the beginning, but I was afraid that in case, so these days, I have been around here a long time ago, but no one knows it."

Everyone was stunned, no wonder Master and them came so quickly.

"Master, who is the person who sent the message?" Qin Ying frowned and asked.

"I don't know, the other party has no signature." Hongluan Wudi shook his head.

Emperor Xuanbing Wu said: "The other party only said that the four of you are in difficulty, and if someone starts to attack the four of you, then the person who does it is most likely a hidden child of the Law Enforcement Palace."

"People from the Hall of Law Enforcement?"

"Hey, you mean Zhuzi Shen's deputy poster and Tiannan Wudi are the hidden children of the law enforcement palace?"

"How is this possible?"

Several people were taken aback, and the news completely surprised them.

Zhuzi Shen's deputy host and Tiannan Wudi are the upper floors of Wanbaolou, so they are actually from the Hall of Law Enforcement?

"We didn't believe it at first, but now it's hard to tell." Emperor Xuanbing Wu said with squinting eyes.

"But why does the Hall of Law Enforcement target us?" Qin Ying and the others became curious again.

They are just Wanbaolou disciples, and there is no point in targeting them.

"As stated in the message, the other party is targeting you because you are from Chendi Pavilion." Emperor Xuanbing Wu said.

When these words fell, the eyes of Wang Qiming and others suddenly became cold.

"Everyone, what are you going to do?" Kang Sitong also changed his color and said in a condensed voice.

"Don't worry, there is no clear evidence yet, so we can only continue to observe. If Zhu Zishen and others are really members of the Law Enforcement Hall, they will definitely show their feet." Mad Sabre Wudi narrowed his eyes, and his whole body burst into a cold chill.

When Zi Xun and Wang Qiming, who were in the Dan Pavilion, were targeted by the Hall of Law Enforcement.

In the Misty Palace, Qin Chen also encountered a problem.

It has been three days since he was trapped in Misty Palace, but Qin Chen still couldn't find a way to leave.

Outside the universe of good fortune jade disc, every moment, there is a terrifying force sweeping through, even if Shangguan Gufeng has already explored the entire Misty Palace, but still does not relax, and is determined that the attacker is still here. Leave.

[Chapter 1873: Altar of Directional Teleportation](#)

"This old witch!"

Qin Chen was depressed, and he did not dare to leave rashly, because once he was searched, it would be difficult to avoid it. Under the supervision of Shangguan Gufeng, he could not guarantee that he would not be discovered if he entered the universe again.

what can we do about it?

In three days, Qin Chen grabbed a lot of hair.

He wanted to treat Fu Qiankun first, but after the examination, he gave up reluctantly. Fu Qiankun's injuries were too serious, and it was not easy to treat him. It took too much time, and Fu Qiankun treated him well. Now they are all hostile, but silently recover on their own, and don't want to talk too much.

In this case, Qin Chen didn't have much time to pay attention to Fu Qiankun, after all, leaving here first is the kingly way.

"How can I not be discovered?"

Qin Chen murmured, now that the formation of the entire Misty Palace is mobilized, and there are strong patrols everywhere, it is too difficult to leave quietly.

Qin Chen faces two problems at present.

The first is the formation. If you want to leave here, you must break through the formation of Misty Palace. Although the formation foundation here was laid by him once, it still takes some time to completely break through.

Although this time is not long, it has to be at least half a stick of incense, and for the strong, every second counts, and life and death can be decided in a moment, so Qin Chen has always found such an opportunity.

The second one is the investigation of Shangguan Gufeng and the powerful aliens.

Throughout the Misty Palace, there is always a horrible soul power and spiritual power permeating through it. This is the frantic search of Shangguan Gufeng and Yemoshi. These days, it has been continuously like this, and there is almost no stopping.

As soon as Qin Chen goes out, I am afraid he will be discovered in a moment and fall into a siege.

Therefore, there is only one opportunity and it must not be wasted easily.

"If the **** cat is here, it will be fine, maybe there will be some way." Qin Chen sighed, but this time it doesn't make sense to think about it.

With the constraints of these two conditions, Qin Chen had no suitable way to leave.

"Little dust, haven't you found a way?" At this moment, You Qianxue and Ji Ruyue walked up, worried.

"Not yet." Qin Chen shook his head.

You Qianxue and Ji Ruyue left and right, gently shook Qin Chen's hand, "With less dust, we will definitely think of a way."

Qin Chen smiled. Although he did not have full confidence, he could still feel the care of Qianxue and Ruyue.

He secretly vowed in his heart that even if it was for Qianxue and Ruyue, he would think of a way to leave.

"In another ten days, if you can't think of another way within ten days, you will have to force it." Qin Chen glanced at Lao Yuan.

In fact, Qin Chen is not without help. If he had Lao Yuan help, he would have a success rate of at least 40%, but in this way, Lao Yuan would be exposed, and the consequences would also be serious.

Without a last resort, Qin Chen would not let Lao Yuan make a move.

The restriction Qin Chen gave himself was ten days. In ten days, Shangguan Xier should be back soon. If within ten days, if he couldn't find a way to go out, he would have to break out by force.

"Alas, it's a pity that Fu Qiankun still doesn't trust us now, and he doesn't say anything. In addition, his injury is too serious. If he has some top-level elixir to restore his body, we will have such a strong person. The probability of breaking out will definitely increase a lot," You Qianxue said quietly.

"Yes, it's a pity that we don't have any top elixir. It would be nice if we could find some top elixir now." Ji Ruyue also sighed.

The former president of the Bloodline Holy Land, this is definitely a top-level combat power, but unfortunately, the injury is too serious now that ordinary elixir can't be cured, and only the top elixir on the mainland may have some effect.

But how could Qin Chen carry such an elixir with them.

The two sighed faintly, but Qin Chen was stunned.

"Little dust, what's the matter with you?" Both You Qianxue and Ji Ruyue looked over suspiciously.

"What did you two just say?" Qin Chen turned around and asked, his eyes gleaming with light.

"We said that if President Fu Qiankun can regain some strength, the hope of breaking out will be great." You Qianxue said.

"No, it's not this, it's another, top-level elixir. Yes, you just said, the top-level elixir." Qin Chen muttered.

"Yes, we did." You Qianxue and Ji Ruyue were puzzled, but does this have anything to do with their departure?

"I'm too stupid, I didn't expect this, hahaha, I'm so stupid." Qin Chen suddenly laughed, extremely excited.

"Young Chen, he won't worry about being crazy, right?" You Qianxue and Ji Ruyue were a little dazed.

I saw Qin Chen getting more and more excited. In the end, he suddenly hugged You Qianxue and Ji Ruyue and kissed them on the cheeks.

"Hey, you two are really my lucky stars." Qin Chen said excitedly.

The faces of You Qianxue and Ji Ruyue flushed suddenly, like ripe apples.

Qin Chen seemed to be unaware, and said excitedly: "Yes, Holy Medicine Garden, why didn't I think of this."

He turned around and hurriedly said to You Qianxue: "Qianxue, you are in this Misty Palace, have you heard of the Holy Medicine Garden?"

He was talking, but found that You Qianxue and Ji Ruyue's expressions were a bit wrong, and the roots of their ears were all red. Only then did they think of what they had done before, and suddenly began to chatter.

"Ahem, just now I..."

"It's okay." You Qianxue lowered her head, her complexion was crimson, and she nodded and said: "Holy Medicine Garden, I seem to have heard of it. It is an ancient relic in the Misty Palace, where a lot of Misty Palaces are planted from the world. The rare elixir found in the search, without the permission of the Lord Palace Master, and even the Deputy Palace Master cannot enter it. It is one of the strictest forbidden places in the Misty Palace."

"That said, the Holy Medicine Garden is still there."

"Little dust, does it matter if we leave?" You Qianxue was curious.

"Of course it's related." Qin Chen said excitedly: "You don't know. There are several special places in Misty Palace. There are no formations to monitor, and soul power can't be swept into them. Everything is for safety, Holy Medicine Garden. It is one of them. As long as we can find a way to enter the Holy Medicine Garden, we may have the opportunity to leave here."

"Is there anything like this?" You Qianxue had never heard of such a thing. Although she was curious how Qin Chen knew about it, she frowned and said, "But I don't know where the Holy Medicine Garden

is, and we get to the Holy Medicine from here. The garden, there should be some distance away, once you go out, you will still be discovered in the first time."

"It's okay, I know the location of the Holy Medicine Garden. As for how to enter the Holy Medicine Garden, it is indeed a problem, but I can build a directional teleportation altar." Qin Chen said excitedly. This is indeed a way. Although it is risky, it is always a problem. Better than waiting.

As he spoke, he quickly took out a piece of sacred iron, fiddled with it on the ground, and piled it up like an altar.

[Chapter 1874: Fu Qiankun's shock](#)

The Altar of Directional Teleportation, the name sounds better than that of the Teleportation Array. In fact, the Altar of Directional Teleportation is more difficult than the Teleportation Array, but it's really hard to say in terms of awesomeness.

The teleportation array is universal in the world, and can establish a void passage in a stable space for the warriors to pass through.

This distance can be close or far.

The near teleportation array can only teleport to two small cities, while the far teleportation array can span large areas.

However, no matter how close the distance is, it must be more than a thousand miles apart, otherwise, the space between the formations will be unstable and easy to collapse.

Moreover, there is a problem with the teleportation array, which is easy to fail in the formation.

Now that the guardian array in the Misty Palace is fully activated, there are large arrays everywhere, sealing the void, and it is almost impossible and difficult to build another spatial teleportation array to tear the void.

The directional teleportation altar is different. This is a very stable spatial structure. The closest distance is much closer than that of the teleportation array. It can be said that if you are too lazy to move, you can build one in both the inner and outer rooms of your residence. Directional teleportation altar.

And its accuracy is better, and the spatial distance is more difficult to capture.

In addition, the void can be torn apart in the formation without being affected.

Qin Chen's current purpose is to go to the Holy Medicine Garden in Misty Palace, which is only two hills away from here, which can be said to be quite close.

So Qin Chen planned to build a space teleportation array altar, and compared to the teleportation array, the preparation time for the space teleportation altar to activate was less, and it was enough to activate it directly.

The only trouble is that it is difficult and not easy to build.

But for Qin Chen, a top-level formation master, it was naturally nothing.

Jingle bells!

In the jade disc of good fortune in the universe, Qin Chen did not hesitate to construct the teleportation altar with all his strength, and his hands outlined a series of lines, engraved on these gods.

Suddenly, pieces of divine iron were activated, emitting a misty light.

You Qianxue and Ji Ruyue looked at Qin Chen's efforts to build, showing obsessive expressions.

When are men the most charming?

Everyone's answer may be different, but most women think that when they are working hard and working hard.

At this moment, Qin Chen was immersed in the construction of the altar, forgetting everything around him. He lowered his head, with knife-cut lines, deep eyes, tall nose, and charming lips.

Thinking that Qin Chen kissed them with excitement before, it made You Qianxue and Ji Ruyue's faces hot. They couldn't bear to wipe the place where they were kissed, and couldn't help but recall their previous feelings.

Naturally, Qin Chen didn't know all this, he was completely immersed in the construction of the altar.

In addition to You Qianxue and Ji Ruyue, there is actually one person in the Universe Good Fortune Jade Disc who is always paying attention to Qin Chen, and that is Fu Qiankun.

Although his eyes were gouged out, his perception was still there.

When he was first rescued, his soul was extremely weak, but now more than three days have passed, and under his own healing, his soul power has already recovered so much.

As soon as the soul power was restored, Fu Qiankun released it, sensing this empty space.

Everything here shocked him, unable to tell where he was.

But by listening to Qin Chen and their conversation secretly, he also understood that these people should still be in the Misty Palace at the moment and never escaped.

But this shocked him even more!

Because he knew best about the horror of Misty Palace. Not only did the top Wudi sit in town, but also the powerhouses of alien demons lurking. It could be said that even an ant who was afraid of entering Misty Palace could be found in the first time.

They are a group of living people here, how can they not be discovered by the people of Misty Palace?

This made him more vigilant, wondering if Qin Chen and the others were acting, and wanted to get the secret of the Holy Land of Blood from him.

Therefore, he was tight-lipped, no matter what You Qianxue and the others asked before, they kept silent.

I can't blame him for being so vigilant, because he was too easy to believe in people back then, and in retreat, he was framed by an adulterer, and then taken to the Misty Palace, where he fell into two or three hundred years of suffering.

This kind of experience completely closed his heart, and he would no longer trust anyone easily.

Therefore, although he had recovered a trace of soul power, he remained silent, observing everything here silently.

Then, he saw Qin Chen constructing the altar of directional transmission.

This surprised him.

"This...this...is a directional teleportation altar?"

He was shocked, and there was a stormy sea in his heart.

In fact, the difficulty of constructing the Altar of Directional Teleportation is not very good. Basically, some 9th-level array masters can construct it, but the key is Qin Chen's technique and speed.

The directional teleportation altar has too high requirements for the formation pattern, and there can be no mistakes. Therefore, many formation masters will be cautious, and will only start after careful consideration.

But Qin Chen?

The whole action is like running clouds and flowing water, which is pleasing to the eye, too fast.

In just a moment of effort, the entire altar has been constructed for a fraction.

This made Fu Qiankun's attitude towards Qin Chen a huge change. Although he still doesn't believe in Qin Chen, this does not prevent him from being shocked at Qin Chen. He muttered in his heart: "How can there be such a master of formation in this world? "

Afterwards, he focused his attention carefully, trying to see Qin Chen's construction process clearly. As the president of the Holy Land of Bloodlines, in fact, he also has amazing attainments in formations, not to mention his vision.

But he stared carefully and stared again, and he couldn't see the construction process clearly. There were some techniques that he had never heard of, especially from Qin Chen's techniques, he actually saw some familiar flavors.

"This technique...why do I have a very familiar feeling, who is this young man? Why do I know some secrets of the year, and this method of formation is so familiar, who is he?" It's muddy, completely clueless.

"It's done!"

Qin Chen arranged it for a long time, and about an hour later, a small altar was completely completed. Qin Chen climbed up, muttering words, it was a very dry text with weird syllables.

Fu Qiankun tried to repeat it, but was shocked to discover that he could not remember any word!

This is natural, because Qin Chen has added the alien demons' restraint technique to this teleportation altar, which has changed dramatically from the conventional teleportation altar technique of the Tianwu Continent.

But in Fu Qiankun's heart, the stormy sea was rolled up.

"How is this possible?" Fu Qiankun was shocked. He is the president of the dignified blood holy land. He can't remember even a word. Isn't this too shameful?

Fortunately, he was only fluctuating in his heart, no one could tell, otherwise he would be ashamed.

[Chapter 1876: Shameful shame](#)

However, thinking that Qin Chen had been hiding silently in Misty Palace for so long before, Shangguan Gufeng became more determined, and the other party must still be in Misty Palace, but it was hidden again, they just couldn't find it temporarily.

Therefore, she immediately ordered to mobilize the entire Misty Palace powerhouse and search for Misty Palace again.

A large group of top powerhouses in the Misty Palace once again swarmed in groups, with swords drawn and murderous.

But Shangguan Gufeng didn't move, instead he came to the place where Qin Chen appeared, frowning.

"Shangguan Gufeng, what do you think?" Yemoshi, Zhengkong and other alien demons came over, staring at the eagles, flashing cold and cold light.

They also felt very embarrassed. A small human race actually played them over and over again, this-
What a shame!

Shangguan Gufeng did not answer, but stared at the place where Qin Chen had left, frowning her brows. After a long time, she said in a low voice, "As long as that person appears, he will be spotted by the Great Array, but when we arrive, it will be too late. Now, the old man is thinking, how did that person escape our perception?"

In these days, she has scanned this area at least hundreds of times with her perception. If anyone is there, she will definitely be found.

"Perhaps, that person has a way to avoid our detection?" Zheng Kong frowned.

"This is indeed possible!" Shangguan Gufeng nodded, but the doubt in his eyes did not diminish, instead it became more intense, "But what I am puzzled is that the other party could be discovered by us for the first time, obviously it is impossible to avoid the Suotian formation. The blockade, but why these days, that person has not been moving until he was only discovered by the lock sky formation?"

As soon as this remark came out, everyone's faces also showed doubts.

Really, if that person can avoid both their perception and the blockade of the big formation, these days, he should have left here quietly, at least, he has come to the edge of the Misty Palace formation, and he has left in a way.

But the fact is that the other party is still located in this core area and hasn't been far away.

Moreover, the person was also captured by the Suotian Great Array. In this case, the person obviously could not escape the monitoring of the Misty Palace Array.

But the problem is that in the past three days, it was only just now that Suotian Great Array discovered the opponent.

Between the two, it is obviously a paradox, which cannot be established at all.

Without figuring this out, they have no clue at all.

Shangguan Gufeng has a faint feeling, as long as she understands this doubtful place, she will be able to understand why the person disappeared into the Misty Palace quietly without being found out of this secret.

But so far, Shangguan Gufeng hasn't had any clues, just confused.

At this moment, she stepped forward and picked up a piece of divine iron fragment on the ground. This was the fragment formed after the directional teleportation altar exploded. Shangguan Gufeng wanted to analyze Qin Chen's departure from the formation of this fragment. Direction and location.

"what!"

But when she just picked it up, Yemoshi who was on the side suddenly gave a startled suspicion, and quickly stepped forward and took the **** iron all at once.

"What?" Shangguan Gufeng frowned and saw.

"This divine iron outline, how can there be my alien demon clan's restraining technique?" Yemoshi murmured.

"What?" Zhengkong from the side was taken aback, swished to the front, and looked at it from a very high degree, suddenly startled, and said in amazement: "This... is really my alien demon's restraining technique."

"You mean, was that person from your alien demon race just now?" Shangguan Gufeng was taken aback, this is a hot guess.

"It's not like, I haven't fought against that person, but from the aura, I don't have the aura of my alien demon at all." Yemoshi shook his head, then looked at Zhengkong: "Zhengkong, you have fought against that person. Did you find anything?"

"This..." Zheng Kong frowned, sinking into memories, and suddenly thought: "When I fought against that person, I never found that person was from my alien race, but there is something weird. In that person, there is indeed some power aura of my alien race."

"hiss!"

This made Yemoshi shocked, could it be that the other party was really disguised by an alien race? But what kind of character could be disguised as such, even it could not be identified.

"Haha, it's getting more and more interesting!" Shangguan Gufeng laughed in anger, and said coldly: "No matter whether that person is an alien race or not, the old man doesn't believe that he can escape the Misty Palace under the supervision of the old man and everyone. , As long as that person is still here, when Xi'er comes back, that person will not escape death."

Shangguan Gu Feng said grimly, that appearance was obviously full of confidence in Shangguan Xier, and he was sure that as soon as Shangguan Xier came back, he would definitely find the trace of the other party.

If Qin Chen was here, he would definitely have some doubts, Shangguan Gufeng's cultivation base was already extremely terrifying, and he was stronger than the peak Martial Emperor Ji Beng.

And Shangguan Gufeng couldn't find himself after so many days of hard work, so why would he be sure that Shangguan Xier would be able to find himself when he came back? Where does her confidence come from?

It is a pity that Qin Chen is not here. After being exposed by the teleportation altar, Qin Chen only felt that a flower in front of him had appeared in a forest.

"It's dangerous, I was almost left just now, the old witch of Shangguan Gufeng's reaction speed is so fast."

Qin Chen was so scared that he had some lingering fears. It was too thrilling just now. If he was left by Shangguan Gufeng, he would have to fight to the death.

Fortunately, I succeeded.

As soon as Qin Chen appeared here, he knew that he had left the lockdown area of the Suotian Great Array, so he was much more relaxed.

Looking around, it seems that this place is similar to some areas of the previous Misty Palace, but in fact, there are many differences.

The soil here is yellowish, and the leaves of the trees are more generous, and the height is much lower, and the sun is impervious.

Qin Chen looked up and saw through the layers of leaves. He clearly saw that above his head, there was a splendid luster. This was an invisible halo that blocked the power of the Sky Locking Formation outside and also blocked it. The perception scan of Shangguan Gufeng and Yemoshi.

"I have to hurry, I don't know if Shangguan Gufeng and the others will realize that I am in the Holy Medicine Garden. Although the probability is not high, it is not impossible." Qin Chen whispered.

"Little dust, this is the Holy Medicine Garden?"

In the jade disc of good fortune in the universe, You Qianxue and Ji Ruyue also perceive the outside scene, and can't help saying.

"Hehe, this is not the holy medicine garden, it's just the periphery of the holy medicine garden. The holy medicine garden is full of elixir, which is much more powerful than here, but here, it is already much safer." Qin Chen smiled and said. , His face changed, "Someone is coming."

Whoosh!

He quickly entered the Universe Good Fortune Jade Plate, and the Universe Good Fortune Jade Plate turned into a mustard seed and fell into the soil.

[Chapter 1877: Ransacked](#)

Whoosh whoosh!

A moment after Qin Chen entered the Universe Good Fortune Jade Plate, there were bursts of sound, a group of strong guards from the Misty Palace patrolling back and forth.

"Remember, the Misty Palace is very troubled these days. All of you, you must be cautious and cautious and cheer up one by one. Don't miss a place. If you let me know that the enemy ran under your nose. , Don't blame me for being unkind."

A strong man with murderous aura coldly shouted. Wearing a red silk, his eyes were cold and terrifying. The breath on his body was terrifying. He was actually a giant of the late martial emperor, shouting at the players under his command.

This is the guard in the Holy Medicine Garden. They patrol the outside of the Holy Medicine Garden every day to see if anyone breaks into the Holy Medicine Garden by mistake.

And when she was talking, the mustard seed turned into the jade plate of Qiankun's good fortune was under her nose, but she didn't even notice it.

"My lord, don't worry, let alone someone broke into the holy medicine garden, even if a mosquito comes in, you can never escape our eyelids."

"Captain, you are right. Those people outside can't catch people. They are idiots. If that guy dared to break into my Holy Medicine Garden, see how I wait to teach him."

"That is, let that guy know how powerful our Misty Palace is."

A famous team member coldly said, with all nostrils facing the sky, very arrogant and disdainful, talking about how to teach that person if the person who broke into the Misty Palace appears in the Holy Medicine Garden.

No one noticed that Qin Chen was actually under their noses.

This group of people spoke arrogantly while patrolling, Qin Chen did not reappear until they were far away.

Although the group of people did not find him, Qin Chen still had some concerns in his heart, and muttered: "It's not safe here. The Holy Medicine Garden is heavily guarded. The periphery often requires expert patrols. You must enter the Holy Medicine Garden as soon as possible. Inside, no one will patrol."

With thoughts, Qin Chen quickly approached the inside of the Holy Medicine Garden.

Just on this road, within an hour, Qin Chen encountered four or five waves of patrols, which shows that the holy medicine garden is heavily guarded.

Whenever someone passed by, Qin Chen would enter the Universe Good Fortune Jade Disc for the first time. Fortunately, there was no powerhouse at the peak martial emperor level nearby, and no one could discover the existence of the Universe Good Fortune Jade Disc.

After another hour, Qin Chen arrived at the entrance of the Holy Medicine Garden.

At the end of the mountain forest, a wall appeared, very weird, like a moving painting, constantly changing colors.

"There are still formations here?" You Qianxue and Ji Ruyue showed surprise.

"This is natural, but here is the sacred medicine garden of Misty Palace. It is planted with all the rare elixir of Misty Palace. How could it be possible to open the door and let people in and out!" Qin Chen smiled, "But don't worry, this dot formation is simply difficult. Not me."

As Qin Chen spoke, he began to touch the formation, and suddenly ripples slowly rippled away.

The minds of You Qianxue and Ji Ruyue were suddenly stretched.

Will not be discovered?

But what shocked them was that Qin Chen quickly squeezed his hands, and the ripples that came out unexpectedly stopped and dissipated in the formation again, without any shock.

How is this possible?

When they were outside, the sky-locking formation easily found their tracks. Why didn't the formation of the Holy Medicine Garden show any response at all?

"Sure enough, this formation hasn't changed at all." Qin Chen's heart was calm, and he laughed, he was affirmed that this formation was exactly the one he arranged back then. It is different from the outside world's lock sky formation, which has lasted three hundred years. , Nothing has changed.

Because the formation he arranged in his previous life was terrifying enough, and it consumed a lot of his energy, enough to block the intrusion of the peak martial emperor level powerhouse, it was perfect.

Maybe Shangguan Xi'er also had such considerations, and didn't have the same external sky-locking formation, which has been continuously reinforced over the past three hundred years.

However, the formation of this holy medicine garden can block any powerful warrior, but it cannot stop Qin Chen, the creator of this formation.

Hum!

After a few dozen breaths, a gap appeared in the formation of the Holy Medicine Garden, like a whirlpool.

At the same time, Qin Chen just felt someone approaching in the distance.

"Wow!"

Qin Chen rushed in in an instant, and the whirlpool immediately swallowed Qin Chen, and then returned to calm.

And the moment after Qin Chen entered, a patrol team passed by in the distance, and after finding that there was nothing unusual here, they searched and walked all the way.

"So hanging!"

Qin Chen breathed a sigh of relief, and when he came back to his senses, an indescribable infuriating aura struck, causing every pore of Qin Chen to relax.

What appeared in front of Qin Chen was a vast medicinal garden. It was too magnificent. Looking around, it was a medicinal field. The medicinal fields were filled with all kinds of magical medicine, and the true energy was like the ocean. If someone at a lower level comes in, I'm afraid they will be blown up if they take a breath of real energy.

Qin Chen asked You Qianxue and Ji Ruyue to come out together, and now Ji Ruyue's cultivation base was approaching the mid-term peak, while You Qianxue was still a little close to the mid-term. The two continued to break through. Although very solid, they still need to accumulate a lot of true yuan.

Although at this level, the importance of true essence has receded, but true essence is still fundamental, and true essence is not strong and will not be able to support the building of rules.

"Little dust, this is the Holy Medicine Garden?"

The two were stunned.

The heaven and earth zhenqi here is too rich, just take a breath, a lot of zhenqi poured into their bodies, no matter how hard they are, this feeling is simply too cool.

Moreover, looking around, all the places in front of them are full of large tracts of elixir, a mountain full of them, when have they seen such a large tract of elixir.

"There are too many elixir here." You Qianxue and Ji Ruyue were dumbfounded.

"Although this is the Holy Medicine Garden, it is only the periphery, and the highest level is only the eighth-level elixir." Qin Chen glanced, and with his current taste, he is no longer satisfied with the eighth-level imperial elixir, at least It would also be a Tier 9 elixir that could attract his attention.

"So many eighth-order elixir, and they are all top-level eighth elixir, are they still not changing?"

You Qianxue and Ji Ruyue are almost speechless, the emperor-class elixir here is everywhere like Chinese cabbage, Young Chen is not satisfied, this vision is too high.

"Hehe, I just said casually, of course the emperor-level elixir is equally important." Qin Chen laughed.

Whoosh!

He skimmed the medicinal field and collected all these emperor-level elixir into the jade disc of good fortune in the universe.

Although the emperor-level elixir is nothing, they are all supplementary medicines of the nine-grade pill, and they are also extremely precious when placed outside.

Moreover, the imperial level elixir that can be planted in the Misty Palace Holy Medicine Garden are not ordinary imperial level elixir, each of which is an extremely rare variety.

[Chapter 1878: Supreme Zhenmai](#)

Qin Chen collected frantically all the way, and wherever he passed, he had all taken a large amount of elixir into the jade disc of Universe Good Fortune. This feeling was simply too cool.

"The age of these emperor-level elixirs is more than hundreds of years." Qin Chen exclaimed, how long has the Misty Palace not picked the elixir here, and many of the elixir are very old.

There are even some elixir of millennia.

Of course, this so-called millennium medicine age is definitely not that the elixir has grown for a thousand years, but that it has a thousand years of medicinal properties under the urging of this formation and the medicine garden.

These are some treasures.

Because there is often no distinction between high and low levels of elixir of the same level, but their effects are different after refining, and the classification of elixir is based on the year. The longer the year, the more medicinal properties are contained, and the more concentrated it is. The more precious it is.

Qin Chen walked all the way, as long as he saw the mature medicinal materials, he would collect them into the jade disc of good fortune in the universe, and he even took in some of the half-cooked medicinal materials.

Later, Qin Chen was still a little dissatisfied.

The collection of such a strain is simply too slow, have to wait until the year of the monkey? Moreover, Misty Palace has done a lot of evil, so it is better to collect all this Holy Medicine Garden.

"Yes, why don't you collect the entire pharmacy?"

Ordinary warriors can only steal the elixir one by one, because after receiving the storage ring, the elixir will stop growing and lose its activity.

But he is different. The Universe Jade Plate is a small world in which even warriors can survive, and the elixir is naturally the same.

Qin Chen did as soon as he thought of it, and reached out with his big hand, and suddenly, the huge Zhenyuan palm grabbed the entire medicine field.

Rumble!

I saw the decrease in the number of medicine fields, and Qin Chen received them into the jade disc of good fortune in the universe.

What Qin Chen collected was not only the elixir, but even a large piece of medicine soil.

It should be noted that these soils are not ordinary soils. They are all seven cloud soil and five elements soil. They have extraordinary properties and can accelerate the growth of elixir. They are all rare earth resources.

But now, all of them were smashed into the universe by Qin Chen, and there was not even a piece of dirt left.

You Qianxue and Ji Ruyue who were on the side were stunned.

Rumble!

Qin Chen collected the elixir in a blockbuster, which was so cool. In the beginning, they were only some eighth-level emperor-level elixir, but later, they appeared in tablets of emperor-level elixir, and even some emperor-level elixir made Qin Chen excited. They were rare and rare on the mainland. Variety, not even Dange

Have.

Qin Chen was overjoyed and took all these spirit medicines in a single pot, and there was no medicine **** left.

After half a day, the entire Holy Medicine Garden was completely bald.

However, after the medicinal fragrance between heaven and earth disappeared, that strong infuriating energy actually remained.

"How come? All the elixir has been taken away, why is there such a strong heaven and earth true energy." You Qianxue wondered.

Qin Chen wasn't surprised at all, but was surprised, "The true veins in this holy medicine garden have not changed as expected, so it seems hopeful to go out."

"True pulse?"

"Yes, in this holy medicine garden, the elixir belongs to the elixir, but in addition to the heaven-defying elixir, there is also a top-grade true vein under this, which is specifically used to provide nourishment for the holy medicine garden." A top-quality true pulse, how big a handwriting is!" You Qianxue was shocked, sucked in the air-conditioning, and dedicated a top-quality true pulse to the medicine garden to provide nourishment. I am afraid that only Misty Palace can do such a thing.

Come on.

"A true vein of the highest quality is nothing to Misty Palace. The resources that Misty Palace has looted from the mainland for so many years are beyond people's imagination." Ji Ruyue sneered. Compared with You Qianxue, she understood Obviously more.

"The chance for us to leave is just above this top-grade true vein." Qin Chen was a little excited.

He removed the mud and rocks below, and suddenly a piece of white real stone appeared, and the stretch of real stone veins resembled a long red-white dragon lying horizontally under this land.

Moreover, its core is all top-quality real stones.

If this one of the best true veins appeared in the outside world, it would be enough to drive the warriors in the world crazy, even some top powers would have to fight.

But now, it is placed under this holy medicine garden and used to nourish the elixir.

"This should be one of the top two true veins in Misty Palace." Qin Chen murmured.

"Little Dust, isn't there just this top-grade true vein in Misty Palace?" You Qianxue asked in surprise.

"This is natural." Qin Chen said: "The Sky Locking Array of Misty Palace has been practiced to the top level, so it can block the Peak Martial Emperor. To do this, at least nine true veins are needed. Energy, of which there must be three

Reach the point of the highest-grade true vein, otherwise it would not be so strong, for example, there must be a top-grade true vein under the residence of your core disciple. "

"But the true vein in the holy medicine garden must be one of the core true veins of the entire array. Let me first look at the role of this true vein."

A super-large formation like the Suotian Great Formation must be the source of the required power. Unlike some ordinary formations, it can maintain operation by simply absorbing the true energy between the heavens and the earth. The larger the formation requires The more infuriating.

Therefore, the many true veins buried in the Misty Palace must be the key to the power source provided by the Suotian Great Array, and each true vein plays a different role.

This is also to prevent one true pulse from causing problems in the entire formation. This is to reduce the probability of problems with the formation.

Qin Chen focused his attention on the true veins below, and began to observe the shape, placement, and direction of this true vein.

Three hundred years have passed, and the formation in this holy medicine garden has not changed, but the true veins have undergone changes. Compared with the true veins three hundred years ago, it is far more powerful.

"The formation is invisible, move away from the palace, and turn to the nine pivots. This true vein should control the core of the great formation of Suotian..."

A look of surprise appeared on Qin Chen's face.

Unexpectedly, I was so lucky that I ran into the control core of Suotian Great Array as soon as I came up.

"Haha, God really helped me." Qin Chen couldn't help laughing.

"Little Chen, what's the matter with you?" You Qianxue and Ji Ruyue both looked at them in confusion, Master Chen wouldn't be too stressed, and there was a mental problem. Why look at this Zhenmai and suddenly laughed?

The two looked at each other, worrying in their eyes and self-blame in their hearts: they both blame themselves, their strength is too weak, and they can't share the worry for the dust. "Haha, it's okay, I'm

just too excited. This true vein provides the core power supply of the Suotian Great Array. If we can control this true vein, then we may escape." Qin Chen said with excitement.

[Chapter 1879: core control](#)

He should have thought of this a long time ago. Although the true veins under the Holy Medicine Garden are the best true veins, their most important role should be to provide zhenqi for the elixir in the Holy Medicine Garden. The most important thing

Place.

In other words, the true veins of the Holy Medicine Garden could never be the source of strength of the Suotian Great Array.

In the Suotian Great Array, there are three most critical places.

The first is energy. Once the energy is cut off, the big formation will lose its source of power and it will be easily breached. This can be eliminated first.

The second is blockade. The Sky Locking Formation is a trapped formation that assists the maze and killing formations. Therefore, the requirements for blockade are very high, and there must be a Supreme True Line dedicated to this aspect of power.

And the power needed for the trapped formation is also great, and it shouldn't be provided by this top-grade true vein in the Holy Medicine Garden.

Then there is only the last one left, which is control. The entire big formation will inevitably have a control core, and there must be a power of the best true vein, which will be provided to the control core to operate.

But as a central system, the control core actually does not consume a lot of energy, it just needs to be very pure, so this holy medicine garden is obviously the most suitable.

"Hahaha, I should have thought that the true vein in this holy medicine garden is most likely to provide energy to the central system of the formation, which is simply too stupid." Qin Chen was excited and couldn't restrain himself.

If Qin Chen was only 30-40% sure of entering the Holy Medicine Garden and trying to escape from the beginning, now that he understood the effect of this true vein, his assurance of escape has skyrocketed to about 70%.

"Control the core?" You Qianxue and Ji Ruyue are still a little confused, neither of them are masters of the formation, they don't know much about the formation, only knowing this true vein seems to be very important.

"Correct!"

Qin Chen nodded: "Next, I am going to modify the true veins. You'd better enter the Universe Jade Plate, otherwise, if someone comes, I am afraid I can't take care of you."

Although there are very few people entering the Holy Medicine Garden, it doesn't mean that no one will come at all. In case someone shows up, Qin Chen can kill them directly, but if You Qianxue and Ji Ruyue are outside, it will be troublesome.

"Little Chen, we will guard the Holy Medicine Garden for you. You can make changes with peace of mind. If there are people, we will notify you as soon as possible so as not to disturb you." You Qianxue and Ji Ruyue looked at each other, but rejected Qin Chen's kindness. .

They knew that Qin Chen was facing tremendous pressure, and instead of letting the two of them enter the Universe Jade Plate to be anxious, it was better to do something for Qin Chen more at ease.

"That's OK." Qin Chen thought for a while, but smiled. I forgot, now You Qianxue and Ji Ruyue are no longer what they used to be. Now they are the first peak Martial Emperor and the mid-term Martial Emperor. In terms of strength, they can also compete with some late Martial Emperor giants.

See it as someone who needs care.

With You Qianxue and Ji Ruyue staring at the side, she can concentrate more.

With Qin Chen's affirmation, You Qianxue and Ji Ruyue were a little happy. The two of them landed at the opposite ends of the Holy Medicine Garden one after the other, watching the signs outside the Holy Medicine Garden nervously.

But Qin Chen directly sat cross-legged, his eyes revealed the spirit, quickly sorting out the formation of the true veins, one by one, and one after another, carefully distinguishing its direction and structure.

"This sky-locking formation is very high-level. Generally, slight changes will trigger changes in the outside world. Once it does, it will inevitably be noticed by the Shangguan Gufeng who is guarding the outside. My changes must be extremely subtle, or even immobile. But can let

They have no doubts. "

Qin Chen's eyes flickered as he kept deducing in his mind, this was not a simple project for him.

Fortunately, the base of this sky-locking formation was laid by him back then, and he was very familiar with and understood it, otherwise, given Qin Chen a few months, he might not be able to find a way.

I don't know how long it took, suddenly Qin Chen's eyes trembled, and a striped road appeared clearly in his mind.

"Yes." Qin Chen's eyes lit up, and pieces of real stones appeared in his hand. These real stones were all top-quality real stones, which he plundered from strong men such as Ji Wu and Mo family, and quickly placed them in. In the veins in front of me, make subtle changes

move. Under Qin Chen's manipulation, a large number of real stones formed a unique pattern, attached to the top-grade true veins beneath the ground, and instantly seemed to have come to life, as the secret patterns continued to flow. Exudes a strong breath

.

And when Qin Chen was carefully modifying the true veins below.

Outside the Holy Medicine Garden.

call!

A stream of light swept directly into the outer area of the Holy Medicine Garden.

"who?"

Whoosh whoosh!

At the moment that person fell, dozens of horrible figures swept around, and asked coldly, it was the guards patrolling the surroundings.

These people had murderous eyes in their eyes, but after seeing the people coming, their faces changed suddenly, their murderous auras were restrained, and they quickly became extremely respectful, and said respectfully: "Young Palace Master, why are you here?"

The visitor was Murong Bingyun, the Young Master of Misty Palace.

Murong Bingyun is dressed in a white dress, and the whole person is extremely ethereal. While walking, the power of rules between heaven and earth lingers all over her, rippling with colorful ripples, like a fairy descending from nine heavens, pure and beautiful. .

In addition, her whole body is haunted by the power of terrible rules, and her cultivation has broken through the realm of Nine Heavens Emperor Wudi, exuding a heart-palpitating breath.

The surrounding disciples who can be taken into the Misty Palace and patrolled in the Holy Medicine Garden are in fact all otherworldly and no ordinary people. Regarding their appearance, any one of them will be stunning and peerless when placed outside.

But compared with Murong Bingyun, it is like a swan and a wild duck, which makes people feel inferior from the bottom of their hearts. They only think that such a woman is rare in the sky, and she is just a vulgar fan.

"Take me to the Holy Medicine Garden, this palace needs to pick some ethereal flowers!" Murong Bingyun said lightly, with a soft voice, but with an indisputable meaning, giving people a sense of not entering.

"Yes, Young Palace Master!"

The patrol team didn't dare to disobey, and immediately led the way, leading carefully.

At the entrance of the Holy Medicine Garden, You Qianxue was watching the outside world, and suddenly discovered that a faint power was approaching in the distance, and he was directly approaching the Holy Medicine Garden.

"No, someone is coming." You Qianxue was startled. She hurried to Qin Chen's side and said: "Little Chen, someone is coming." "What, so soon?" Qin Chen was awakened all of a sudden, now he At the critical final stage of the layout, only a little bit to the last point, I nervously asked: "Do you see who it is?"

[Chapter 1880: Take her down](#)

You Qianxue shook her head and said, "I feel someone is approaching, so I'll be back to notify him, or I'll check it out again."

"No, it's too late." Qin Chen said solemnly. He just asked casually. You Qianxue was obviously right to do this. If you waited for the person to come back to report, it would be dangerous.

"You two, advance the world to make jade discs." Qin Chen took a deep breath. Although the formation hasn't been fully arranged yet, he can't control that much at this time.

This time You Qianxue and Ji Ruyue did not refuse either, and the two of them instantly entered the universe of good fortune jade disc.

After that, Qin Chen didn't care to think too much, speeding up, and pieces of real stone of the highest quality were quickly thrown below by him and connected together.

Outside the Holy Medicine Garden.

Murong Bingyun, led by a group of patrolling guards, came to the front of the painted formation barrier.

"Young Palace Master, inside is the Holy Medicine Garden. I am not qualified to enter the Holy Medicine Garden at will. Young Palace Master can go in by myself. I will wait outside." The leading woman said respectfully, standing aside seriously.

Murong Bingyun didn't speak, but just took out a token, hum, an aura suddenly radiated from the token, and an entrance was instantly opened above the barrier of the Holy Medicine Garden in front of everyone.

Whoosh!

Murong Bingyun swept in directly from the entrance, arousing the envy of the surrounding patrols.

Although they are guards of the Holy Medicine Garden, they are actually not qualified to enter and leave the Holy Medicine Garden at will, and they can only watch them normally.

In fact, in the entire Misty Palace, except for a few high-level officials such as Shangguan Gufeng, only Murong Bingyun could enter and leave the Holy Medicine Garden at will.

As the Young Palace Master, Murong Bingyun can enter and exit most places in the Misty Palace. Unless it is strictly forbidden by the Palace Master, other places will be opened to Murong Bingyun.

Therefore, Murong Bingyun would also come to the Holy Medicine Garden from time to time. Whenever she needed any elixir, she could go directly to the Holy Medicine Garden to pick it, and only needed to register afterwards. The treatment was enviable.

And these guards, every time they can only take advantage of the opening of the Holy Medicine Garden, breathe in the amazing medicinal aroma and rich innocence escaping from the entrance, and fill their mouths. For them, this is also some of the boring days. Enjoyed it.

"Hey, what's the matter? Why is there no medicine smell in the breath escaping from the entrance just now?"

"Yes? The true qi is very strong, but why is the smell of the medicine gone?"

"strange!"

But what puzzled them was that after the entrance was opened this time, the breath that escaped had no medicinal fragrance.

This makes them depressed.

The elixir in the Holy Medicine Garden is extremely rare. For them, even the scent of the medicine that escapes is a great tonic, but this time they didn't smell the medicine, which was so disappointing.

"Isn't something wrong in the pharmacy?"

"Every time the entrance was opened in the past, the fragrance of medicine escaped. This time it was too weird."

Several female disciples couldn't help muttering, but they drew rebuke from the leader.

"What nonsense? The Holy Medicine Garden is the most important place in our Misty Palace. What can go wrong."

She coldly yelled: "All to cheer me up, if the Young Palace Master sees your lazy appearance, do you want to continue mixing in the Misty Palace."

She scolded, but she was also disappointed that she didn't smell the comfortable fragrance of medicine.

And when Murong Bingyun entered the Holy Medicine Garden, Qin Chen had just completed the arrangement of the last formation pattern, and at this moment, the passage in front of him had been opened, and a figure appeared dimly, and that figure was extremely beautiful, even if it was separated from the dim formation. Fa, you can still see that beautiful figure.

However, Qin Chen didn't have time to admire the other party. He shook his body and entered the ground with a whistle, and then entered the Universe Jade Plate for the first time, turning into mustard seeds.

At this moment, Murong Bingyun's figure finally appeared.

Whoosh!

She walked in through the entrance and, as usual, was about to fly towards the ethereal flower, but when she first came in, she was shocked.

I saw the mountains and plains, all bare, as if they had been plowed, and there were turned up dirt everywhere, and there was still an elixir on the ground, not even a leaf of the elixir.

Murong Bingyun rubbed his eyes in disbelief, is he dazzled?

But what she saw was still a desolate medicinal garden, no, I couldn't even see the medicinal garden, it was just a bald hill, three feet of ground was dug, and only mud was left.

"who is it....."

Murong Bingyu spoke a little furiously, and she suddenly panicked. As the Young Palace Master of the Misty Palace, her mind could be called the topmost, and it would be no wonder that the Tianshan Mountain collapsed without changing color.

But now, she was really panicked, and even her hands trembled.

Whoosh!

With horror, she rushed to the depths of the Holy Medicine Garden, wasteland, wasteland everywhere.

The scenes she used to be familiar with were gone, Qiming Tianyun, Dragon Soul Fruit, Tianzhilan, Ethereal Flower, everything she was familiar with was gone, only the ground that was gnawed by a dog.

Where is the Holy Medicine Garden?

If she hadn't walked in in person, she couldn't even believe that the place where she was now would be the Holy Medicine Garden of Misty Palace.

She went directly to the center of the Holy Medicine Garden, and then she saw the top-grade spiritual veins exposed, exuding a strong qi.

"Who is it, who dug up all these elixir? Is it the guy who broke into the Misty Palace these days?" Murong Bingyun was so frightened that she had been in retreat these days, ignoring everything outside. With her strength and identity, there is no need to bother.

It was not until just after the lack of ethereal flowers that he went out to search for ethereal flowers. I didn't expect to see this scene.

"The best true veins are still there, that person should have been here for too long." Murong Bingyun's cold hair stood up in an instant, she was too keen on her perception, a natural spirit body, although she did not perceive anyone around, but instinctively felt that she was around Someone is spying on her.

In the underground, Qin Chen was also shocked.

Murong Bingyun?

He didn't expect Murong Bingyun to enter the Holy Medicine Garden.

In less than a year, Murong Bingyun had also stepped into the realm of Emperor Wutian in the Nine Heavens. This talent made Qin Chen a little palpitating.

"Murong Bingyun, it turned out to be her. She is the Young Palace Master of the Misty Palace, and she must have a token to enter and leave the Misty Palace. If she was captured, wouldn't it be..." A thought suddenly emerged in Qin Chen's mind. .

This is a good idea.

Qin Chen became excited instantly.

Originally, he wanted to wait for the incoming person to leave the informant before triggering the formation, but at this moment, after seeing that the incoming person was Murong Bingyun, he instantly changed his mind.

Grasping Murong Bingyun, the chance of escaping here can definitely increase by several percent.

"Take her down!"

With excitement and boom, Qin Chen rushed out of the ground without waiting for Murong Bingyun to leave, and leaned on Murong Bingyun like lightning, trying to capture her in an instant.
