

Valkyrie 1901

[Chapter 1901: Tianmen Sect](#)

Shangguan Xi'er's voice was full of hatred, and she could not exaggerate the Tianmenzong disciples.

"Shangguan Xi'er, things are not what you think!" The Supreme Sect Master of Tianmen Sect frowned, and said in a cold voice. Although the Xuanyuan Empire and Miomi Palace were in a hostile state, he didn't want to just fight Miomi Palace like this. .

What's more, he boasted that he hadn't done anything.

But how could Shangguan Xi'er listen to his explanation, and he had already killed him directly.

"Huh, Shangguan Xi'er, do you think I'm afraid of you?" The Supreme Sect Master of Tianmen Sect shouted angrily, his face sank, he said that he had given Shangguan Xi'er face, and Shangguan Xi'er turned a blind eye to the clinker, naturally furious in his heart .

He is a magnificent emperor. Although Shangguan Xier is strong and unparalleled, it is not easy to defeat him.

The Supreme Sect Master of Tianmen Sect suddenly showed a dark armor on his body, and then he punched it out without fear.

Boom!

Under this punch, the world broke apart, and the void directly cracked a large hole. The power of this punch was too terrifying, enough to destroy the world.

But Shangguan Xi'er looked indifferent, and plunged both hands into the cracked hole, "Die to me!"

puff! The huge hole burst open all of a sudden, the boundless space turbulent flow scattered everywhere, Shangguan Xier was like the same **** king, killed him, ignoring the attack of the Supreme Sect Master of the Tianmen Sect, the boundless fist blasted her body completely. Failed to give her

Bringing the slightest harm, he bucked the trend and directly slammed in front of the opponent, with both hands out.

"You..." The Supreme Sect Master of Tianmen Sect was shocked, how could this be possible? Although Shangguan Xi'er is strong, but he is also the pinnacle martial emperor, yet he can't break through Shangguan Xi'er's defense at all? In fright, he hurriedly wanted to retreat, and black runes appeared on his body. These runes surged and turned into a barrier.

Stopped in front of him again.

But it's useless.

Click! As if a knife pierced into the crispbread, the rune in front of the Supreme Sect Master of Tianmen Sect was torn to pieces in an instant, and then Shangguan Xi'er's palm continued to move forward, as if a hot knife pierced the butter, and then The black armor of the Supreme Sect Master of Tianmen Sect

A caught and burst away.

"what!"

The blood rushed, the whole process was long speaking, but in an instant, Shangguan Xi'er's right hand stabbed into the body of the Supreme Sect Master of Tianmen Sect, and directly pinched his heart.

The defense of Emperor Wu of the dignified peak was as if nothing was left in front of Shangguan Xi'er.

The Supreme Sect Master of Tianmen Sect screamed in horror, blood spurted wildly, and looked at Shangguan Xier in fear.

how is this possible? how can that be?

He was also the peak Martial Emperor, although he was not the top batch, but he also surpassed the realm of the later Martial Emperor, how could he be unable to stop even a single move.

"Shangguan Xi'er..." He stretched out his hands, trying to say something in horror, but Shangguan Xi'er didn't wait for him to speak, and he squeezed his heart.

"Ah!" the Supreme Sect Master of Tianmen Sect screamed. He is the peak martial emperor. Even if his heart burst open, he still couldn't die in the first time, so he howled in pain.

"How could it be so cheap to let you die?" Shangguan Xi'er said coldly, and boomed, a black **** light swept out of her body, and immediately enveloped the Supreme Sect Master of Tianmen Sect, and he struggled painfully And twisted, and then, the voice became weaker and weaker, the next moment, blood and black light

After dispersing, the Supreme Sect Master of Tianmen Sect had already turned into a corpse, and the blood and soul in his body had been swallowed up, leaving only the skin and bones.

Puff, Shangguan Xier retracted both hands, and the body of the Supreme Sect Master of Tianmen Sect fell silently, his eyes filled with endless fear.

Sect Master of Tianmen Sect, Die!

All around, there is dead silence!

The Supreme Sect Master of Tianmen Sect was dead, and even Shangguan Xi'er didn't hold a single move, just like slaughtering a dog and a chicken.

This is the peak Wudi powerhouse!

Everyone had their legs trembling. They wanted to run, but they felt that their legs seemed to be filled with lead and couldn't move at all.

"escape!"

Only Dongfang City, the Sect Master of Tianmen, still reacted, hurriedly fleeing in panic.

"Where to go, everyone in Tianmen Sect today will die!"

Shangguan Xi'er grabbed it with a palm, and the void was directly imprisoned. Dongfang City only felt that the surrounding void seemed to be sealed by ice, and she couldn't move at all.

My God, this strength gap is too big, right?

He was a giant of the Martial Emperor in the later stage. He already had a unique power on the rules of space. He would be directly imprisoned in the void with a single move, unable to move. This would have to be spread, and the whole world would be in an uproar.

"I'm fighting with you!"

Dongfang City roared with murderous aura. Knowing that begging for mercy was absolutely useless, he urged the Zijin long stick to smash it frantically.

Boom!

Shangguan Xi'er shot, and directly grabbed the purple gold long stick. Originally, endless coercion erupted, as if the purple gold long stick that could ruin the world was dimmed for a moment, and was firmly grasped without moving.

"Let me go, the matter of your Misty Palace disciple has nothing to do with us. We only met later..." Dongfang City said in horror.

Shangguan Xi'er didn't want to hear anything now. The anger had filled her mind. She stretched out her right hand and pinched the opponent's neck.

In the later period, the giant Wudi was like a duck, struggling weakly with his neck held by someone.

This power gap is as big as heaven and earth!

Shangguan Xi'er also grabbed Dongfang City's neck with his other hand. Just like that, Dongfang City's neck was sprained at the sound of a card, and a puff of blood spurted out. The old guy suddenly The limbs are drooping, like a dead dog.

He was indeed dead, his body was brought to life by Hongmei, and even his soul was destroyed by Shangguan Xier's power of rules, and there was no chance to escape.

Shangguan Xi'er threw it away and threw the body of Dongfang City to the side.

The countless disciples of the Tianmen Sect below were all terrified, and even the mid-term Wudi elders shivered. Like the quail, they wanted to escape, but they didn't even have the courage to escape.

Shangguan Xi'er was merciless and blasted out with a punch, and suddenly several top elders were blown to the ground, and their body and spirit were destroyed.

"Forgive me!" Some people were weak-willed and immediately knelt down and begged for mercy to Shangguan Xier.

"Let us go."

"We were wrong."

"Don't kill us!"

Many disciples of Tianmen Sect knelt down and said in horror, some even peed their pants. "You unfilial children, don't beg for mercy from this executioner, could she let us go?" But there are also

tough people, with their heads up there, staring at Shangguan Xi'er, as if to remember her face. I will turn into a ghost after death

Come revenge.

"You kill us, the emperor will not let you go, he will definitely destroy your Misty Palace." These people roared, although they didn't have the courage to take action, they were resisting.

Shangguan Xi'er had cold eyes and ignored them. The only thing she brought to Tianmen Sect today was death.

boom!

She shot, and countless disciples of Tianmen Sect all exploded. There was no bones left, and it was too tragic.

In just a quarter of an hour, the entire Tianmen Sect's tens of thousands of disciples had fallen, including the handyman slaves, none of them left, blood flowing into a river, and corpses piled up like mountains. Tianmen Sect is destroyed!

[Chapter 1902: Cracks appear](#)

Shangguan Xi'er looked down coldly, blood flowed down, and corpses piled like a mountain.

But she was still not satisfied, standing proudly in the sky above Tianmen Sect, gathering terrible power in her hands, and then crushing the mountain gate of Tianmen Sect below.

boom!

There was a big explosion at the Tianmen Zongshan Gate. The tops of the mountains exploded, and the buildings exploded and shattered. In an instant, the ashes disappeared. Then, the boundless explosion resounded, and this mountain range was sunk.

The smoke and dust dissipated, the original Tianmen Sect was completely gone, and a ruin appeared. This overlord-level power that had ruled Yongzhou for hundreds of years was completely destroyed.

"Om!"

At this moment, a black shadow appeared, suddenly appeared beside Shangguan Xi'er, illusory, like a ghost.

"Palace Master Shangguan, why is it so angry, so much flesh and blood, wasted!"

This figure is surprisingly the strong alien of the demon who has been following Shangguan Xi'er, looking at the Tianmen Zongshan gate that has turned into nothingness below, Jiejie smiled strangely.

This is a top sect. The flesh and blood of all the disciples here is such a tonic, it was so wasted, what a pity.

Shangguan Xi'er glanced at it coldly, her eyes were cold, containing endless killing intent, which made her expression suffocated and she didn't dare to speak.

"Bingyun, are you okay?" Shangguan Xier turned around and came to Murong Bingyun, looking at her worriedly, her heart clenched.

Murong Bingyun calmed down at this moment, stopped crying, and hurriedly said in panic, "Palace Master, I'm fine!"

She trembled and dared not raise her head in front of the palace lord.

Shangguan Xi'er felt a pain in her heart, but didn't say anything, she directly took out a pill to heal Murong Bingyun.

As time passed, Murong Bingyun's injuries healed quickly.

Then, Shangguan Xier's face showed joy.

Because Murong Bingyun was injured too badly before, and she was too anxious, so she couldn't see the specific situation of Murong Bingyun for a while, but now, she could see that the primordial yin on Murong Bingyun had not disappeared.

In other words, Murong Bingyun did not lose his life.

This made Shangguan Xi'er's gloomy heart disappear.

"Bing Yun, what happened before?" Shangguan Xier said coldly, with a gloomy expression, to know what happened.

Murong Bingyun even told the truth about what he had encountered, not daring to hide it at all.

"In other words, after you were taken out of the Holy Medicine Garden, you were knocked out. After you woke up, you appeared in the Tianmen Sect?" Shangguan Xier frowned, which made her suspicious, because she felt Things are quite strange.

Because she feels that the Supreme Sect Master of Tianmen Sect definitely does not have that kind of strength, and can be wild in her Misty Palace, but who is not the Sect Master of Tianmen Sect?

Suspiciously, Shangguan Xi'er suddenly raised his head to look at the void in the distance, then raised his hand, and the void in front of him was punched through a passage.

"call!"

A figure appeared from the passage and rushed out, it was Shangguan Gufeng.

Shangguan Gufeng breathed a sigh of relief when he saw that Murong Bingyun was safe, but immediately after seeing Murong Bingyun's injuries, he was shocked and furious.

"Bingyun, you..." She came to Murong Bingyun quickly, grabbed her palm, and then let out a sigh of relief.

She also saw that Murong Bingyun's Yuan Yin had not been lost.

But even so, the anger in her heart still couldn't dissipate, because the purple bruises on Murong Bingyun's body clearly indicated that she had been abused.

"Palace Master, is that guy caught?" Shangguan Gu Feng said angrily, his murderous aura was overflowing with nowhere to vent.

"It's a member of the Tianmen Sect. When this palace discovered Murong Bingyun, it was in this Tianmen Sect. However, this Tianmen Sect has been destroyed by this palace, but the person you said broke into my Misty Palace, Ben The palace is definitely not like the people of Tianmen Sect."

This is an intuition, and Shangguan Xi'er doesn't know why she has this intuition.

"Not from Tianmen Sect?" Shangguan Gu Feng was taken aback, "Huh?"

Suddenly, her eyes flashed, and she rushed into the ruins, lifted her hand, and suddenly, a broken storage ring fragment was taken into her hand.

"My lord, this is the storage ring left by his subordinates." Shangguan Gufeng said angrily. "If it wasn't made by Tianmenzong, why would the subordinate storage ring appear here?"

"Are you sure?" Shangguan Xi'er frowned.

"My Lord Palace, I'm sure it is indeed my storage ring. There was originally a Supreme True Vein in this storage ring, but now that the storage ring is broken, the Supreme True Vein should be swallowed by the turbulent flow of space. It's..."

The space in the storage ring is a space condensed by special means. Once the storage ring is destroyed, the contents in it will disappear and be drawn into the turbulence of the space.

"Is it really from this Tianmen Sect?" Shangguan Xier frowned. Although she still couldn't believe it in her heart, but the facts were there, she couldn't help but not believe it. Moreover, what the Xuanyuan Empire did during this period of time also made her a little angry. She remembered that she had reminded Feng Shaoyu very clearly. As far as she could, she would naturally suppress the hostility of the Hall of Law Enforcement and allow both parties to enter. A peaceful

Status.

But who knows that the law enforcement palace is not over yet, and another Mo family incident has occurred, and now, there are people who have broken into the Misty Palace and behaved and wreaked havoc.

Although this incident should not have been ordered by Feng Shaoyu, it must have something to do with Feng Shaoyu's connivance. Shangguan Gufeng looked a little ugly and angrily said: "What exactly did Feng Shaoyu want to do to start war between the Xuanyuan Empire and the Law Enforcement Palace and Misty Palace? How the Xuanyuan Empire was managed, even his subordinates couldn't see.

Dignified Xuanyuan

The emperor is not ridiculous. "

At this moment, the black shadow of the alien demon clan suddenly smiled gloomily: "How did you know that Emperor Xuanyuan couldn't hold back his subordinates, maybe...hehehe!"

"Maybe what?" Shangguan Gu frowned. "Shangguan Gufengzong, some things don't need to be said so clearly. A man's self-esteem is sometimes very strong. Today's Emperor Xuanyuan has lost his face on the mainland since the last World War. Who knows? Not want to make

Do something to restore your reputation? Hehehe! "The shadow monster laughed.

"Impossible, even if Feng Shaoyu wants to redeem his self-esteem, he will not start with Murong Bingyun. This is his..."

"Shut up!" Shangguan Xi'er heard a change in her expression here, and yelled in anger, coldly looking at the ancient style of Shangguan, there was a cold glow. Shangguan Gufeng suddenly realized that he was wrong, and even closed his mouth, somewhat stunned.

[Chapter 1903: Break completely](#)

"Sect Master Shangguan Gufeng, what is Emperor Xuanyuan to me?" Murong Bingyun listened to the side for a moment, and said in doubt.

She always felt that the conversation between the Palace Master and Zongshang was a bit weird, and between the lines, she seemed to have an inexplicable view of Emperor Xuanyuan.

"It's nothing." Shangguan Gufeng laughed awkwardly. Under Shangguan Xi'er's stern gaze, he felt a little guilty and explained: "This is a matter for our older generation and has nothing to do with you." "Okay, don't say more. This matter, this palace will find out, don't spread it indiscriminately for now, and go back to Misty Palace." Shangguan Xier snorted coldly. What she wants to count most now is the loss of Misty Palace. In order to save Murong Bingyun, The first time she

After chasing it out, it is not clear what is going on in the Misty Palace. "Palace Master, can this be the case?" Shangguan Gu Feng was immediately unhappy, and said grimly: "Since we have come to this Xuanyuan Empire, why not turn this Xuanyuan Empire upside down? With our strength, is it still scared? This Xuanyuan Empire

Can't intercept and siege? "

Shangguan Gufeng came all the way, and he had been holding his stomach for a long time, and there was nowhere to vent it. Now that Shangguan Xi'er wanted to leave like this, he couldn't help it.

How could he let the people of the Xuanyuan Empire be spared just this cheap.

"I said I'll go back, why, are you the palace owner or am I the palace owner?" Shangguan Xier angrily rebuked: "Moreover, without this palace's order, what happened to the Misty Palace and the Xuanyuan Empire, don't just spread it out for the time being. "

Shangguan Xi'er always felt that this matter was very strange, and wanted to make it clear with Feng Shaoyu, and she also wanted an explanation from Feng Shaoyu about the Mo family.

"Yes, Palace Master!" Shangguan Gufeng said helplessly, gritted his teeth, and there was no place to sprinkle the fire.

"Who is going to run wild in my Xuanyuan Empire."

But at this moment, a few angry voices sounded, the void in the distance split open, and a terrible coercion passed over. Someone immediately received a call from the Tianmen Sect and rushed over.

Each of these people has extraordinary cultivation bases, and they are all strong in Emperor Wu, but strong in the nearby Xuanyuan Empire. They arrived as soon as they received the message.

Then, they saw the Tianmen Zongshan gate that was razed to the ground below, and they all showed shock and anger.

How is this possible?

How long has it been since they received the message and arrived here? The Tianmen Sect was completely destroyed, and even the mountain gate was destroyed, which is simply amazing.

"Shangguan Xi'er, from the Misty Palace!" Then, they saw Shangguan Xi'er and others not far away, and their faces suddenly showed anger.

"No, kill them." Shangguan Xier's expression changed, and she shouted.

She didn't want things here to spread before she communicated with Feng Shaoyu.

But it was too late. After these people appeared, the images here were sent out immediately.

Boom!

The next moment, the battle broke out, a fierce roar rang through the world, and the battle broke out instantly.

This battle is coming and ending soon. When the battle is over, this group of people has been wiped out, all turned into dead bodies.

"Hmph, a bunch of trash, dare to stop me and wait for death." Shangguan Gufeng said disdainfully, there are not many masters in the world who can be seen by her.

A few of them went all the way back, as if they were in the realm of no one. Although they had encountered several ambushes, they were easily resolved, leaving the Xuanyuan Empire and returning to the Misty Palace.

And what happened in the land of Yongzhou also spread like a gust of wind in the martial arts.

One stone caused a thousand waves!

There was an uproar in an instant. "Have you heard that the Xuanyuan Empire sent a master to break into the Misty Palace and took away the Young Palace Master of Misty Palace. As a result, Palace Master Xier, the official of the Misty Palace, was chased and killed, and the Xuanyuan Empire Yongzhou overlord Tianmenzong was directly flattened. Tens of thousands of disciples

None survived. "

"Cut, what is this? I heard about it. After the masters near Yongzhou learned the news, they joined forces to intercept them. As a result, they were all resolved, and the sky was splashed with blood!"

"This time the Xuanyuan Empire suffered heavy losses. Not only did the entire army of the Tianmenzong collapse, but the powerful forces in several nearby states also suffered heavy casualties."

"Is the two major forces going to merge?"

The news spread so quickly, only two or three days later, the entire Martial Domain knew about it, and it spread wildly everywhere.

Moreover, the more things spread, the more crazy, the more mysterious it spreads. "Do you know that the Young Master Murong Bingyun of the Misty Palace is actually Shangguan Xi'er's illegitimate daughter. The master of the Xuanyuan Empire has just taken Murong Bingyun away. How can Shangguan Xi'er be able to bear it? Slaughtered clean, bloody

Chenghe. "

"It's not just because of this, I heard that the master of the Xuanyuan Empire directly blew up the gates of Misty Palace, and the roar is audible!"

"As far as I know, the guarding mountain formation of Misty Palace has been scrapped, and the masters of Xuanyuan Empire discovered an amazing thing. There are tens of thousands of powerful strangers in Misty Palace. This is the stronghold of different demons. what."

"Tens of thousands of alien demons? How did I hear that it was an army of hundreds of thousands of alien demons? Misty Palace is preparing to unify our Tianwu Continent and become the supreme queen!"

"I also heard that in addition to the hundreds of thousands of alien demons in the Misty Palace, there are hundreds of true veins of the highest quality. The treasures are piled up like a mountain, and they are inexhaustible."

"Hundreds of top-grade true veins, how is this possible?" Someone didn't believe it, and said in shock, these are the top-grade true veins, which are extremely rare in the martial arts.

"What did I lie to you for?" The person was quite serious, "Think about it, how many years has the Misty Palace shocked my Martial Domain? There are not dozens of top forces that have been destroyed, at least a dozen, right? Don't even have hundreds of true veins? Just kidding!"

Such news spread wildly in the mainland, and Shangguan Xi'er was extremely angry.

"Who is it, who is it going crazy?"

Because there are truths and falsehoods in these news, they are very realistic. Although they are spreading randomly, some of the news is groundless, exposing some of the secrets of Misty Palace, and it is definitely someone deliberately spreading it in secret.

She mobilized the Hall of Law Enforcement and wanted to dig out the news spreader.

But the spread of these news was crazy. It took only a few days. The whole continent knew about it and was paying attention here.

Shangguan Xi'er originally wanted to make contact with Feng Shaoyu in secret and questioned clearly, but now that the countless lights from the mainland gathered here, she suddenly did not dare to move.

Because it is easy to expose the relationship between the two parties.

With the spread of these news, the contradiction between Misty Palace and Xuanyuan Empire also broke out completely, and the forces of the two subordinates had already begun to fight frantically, causing heavy casualties.

No one took the battle easily, they were all secretly targeted, but they did great harm to the two forces.

At this time, it was too late for Shangguan Xi'er to suppress her. If she did not retaliate against the Xuanyuan Empire, she would definitely arouse the suspicion of other forces in the mainland, and the hidden relationship with Feng Shaoyu for three hundred years would definitely be exposed.

"Kill, target the Xuanyuan Empire in all aspects, don't keep any hands."

In the end, under the angry suggestions of many powerful people in the Hall of Law Enforcement, Shangguan Xi'er was helpless, and finally issued such an order against his original intention. Since then, the two major forces have completely broken apart and hunted and killed each other's people.

[Chapter 1904: The running dog of the Misty Palace](#)

call!

Above the vast sky, a figure quickly passed by.

It was Qin Chen who left from the Xuanyuan Empire.

In order to arouse the hatred between the Xuanyuan Empire and the Misty Palace, Qin Chen did not rush back immediately after leaving the Xuanyuan Empire, but deliberately spread rumors about the two major forces near the Xuanyuan Empire.

Those Misty Palace had a lot of news such as the best true veins, in fact, he secretly released them to disturb his sight.

He did this in order to completely lose the opportunity for peace talks between the Misty Palace and the Xuanyuan Empire. Before Shangguan Xi'er and Feng Shaoyu had time for peace talks, they caused hatred between the two powers.

It now appears that his move is currently considered a success.

This also gave Qin Chen a sigh of relief.

As long as the sight of Misty Palace is shifted, he will have more time to lay out and fight Misty Palace.

Ten days later.

Qin Chen finally hurried back to Ji's house.

"Less dust!"

Seeing Qin Chen coming back, the great elders Ji Dewei, Ji Hongchen, and Ji Daoyuan suddenly walked out with excitement.

"Are you okay?" They all looked at Qin Chen nervously, feeling anxious.

Since Qin Chen went to the Misty Palace, their hearts are extremely anxious, and their lives are like years. A few days ago, Shangguan Xi'er arrived at the Mo family, and their Ji family was also summoned. The elder Ji Dewei didn't know what to do and was about to pass. , But received news that Shangguan Xier left quickly, and the trip was immediately cancelled.

Then they learned of the conflict between the Xuanyuan Empire and Misty Palace.

This makes them nervous and hard to endure. After all, let's not say that their life and death are in Qin Chen's hands. Ji Ruyue is also with Qin Chen. If something goes wrong with Qin Chen, Ji Ruyue will naturally be exposed. At that time their Ji family will definitely be over.

Whether it was selfish or public, they always remembered Qin Chen, and now they finally saw Qin Chen coming back, how not excited.

"How are the days I left?" After Qin Chen fell, he entered the Ji's mansion, sat down directly, and asked.

"You can rest assured, Shao Chen, our Ji family is still safe, but there is a message from the Law Enforcement Hall, asking my Ji family and Mo family to unite to prevent the Xuanyuan Empire from continuing to attack the Mo family. The subordinates don't know what to do. "Ji Dewei smiled bitterly, now that the ancestor is dead, Qin Chen is the leader of the Ji family, and all actions naturally have to listen to Qin Chen.

"Cooperate with the Mo Family to target the Xuanyuan Empire?" Qin Chen laughed: "Of course you have to participate in such an action. Remember, your Ji family's future actions must be based on the Ji family's temperament, not showing flaws. It's the most important thing. What you have to do now is to never cause accidents and exposure. As for other things, you can make your own decisions."

"Thank you Chen for not caring." Ji Dewei and the others were immediately moved. They didn't expect that Qin Chen's most concern was not their own interests, but their safety.

"Little Chen, how is Ruyue? You really rescued people from Misty Palace?" Ji Hongchen walked up at this moment and asked nervously, with a vague excitement in his tone.

Qin Chen glanced at Ji Hongchen and said with a smile, "Young Master Ben takes a shot, can you catch it without his hands?"

With a wave of his hand, Ji Ruyue, You Qianxue, and Fu Qiankun suddenly appeared in the hall.

The two parties had a good exchange, but then they were very excited.

Especially Ji Dewei and others, all looked at Qin Chen in disbelief and couldn't believe that Qin Chen actually succeeded.

That's the Misty Palace, it's not an exaggeration to call it the most dangerous place in the mainland. It's almost as difficult as climbing to the sky to rescue someone from the gods, but Qin Chen really succeeded. Up.

incredible.

Moreover, what was even more frightening was that Qin Chen could still lead the disaster to the Xuanyuan Empire without exposing himself.

Others didn't know, if even Ji Dewei didn't know that the conflict between Xuanyuan Empire and Misty Palace was caused by Qin Chen, it would be too idiotic.

Therefore, they admired Qin Chen even more.

If they had an unspeakable feeling for Qin Chen because of life and death being controlled, then now they really admire Qin Chen. This method is not something ordinary people can have.

"Haha, this time, it can be said to be a complete victory. What is the Misty Palace, there is little dust, and it will be overthrown one day, easy." Everyone couldn't help laughing.

"Easy?" Qin Chen shook his head, "Next, you should be more careful, be more cautious."

Why is this?

Everyone was puzzled. Why is there no excitement about Chen Xiaoxiao at such a big victory?

They didn't know that after rescuing You Qianxue, Qin Chen was also very excited, but there was not much excitement, because after experiencing this incident, he deeply knew the horror of Misty Palace.

The alien demons in the Misty Palace are not useless. They only know that they are lurking. Many of them are studying how to integrate into the Tianwu Continent.

Especially that Soul Master Ye Mosha, not only had already condensed the power of blood, he could even master some rules of Tianwu Continent.

Fortunately, he was beheaded by himself, and You Qianxue was also rescued, otherwise once the alien demon race grasped the method to completely integrate into this Tianwu Continent, the Wu Continent would be completely finished that day.

Although Ye Mocha was killed by himself now, Qin Chen was not sure if there were other alien demons studying this.

In addition, Shangguan Xier's strength also shocked him.

Qin Chen thought that with his current strength, he could compete with Misty Palace, but this trip to Misty Palace made Qin Chen deeply understand the gap between himself and Shangguan Xi'er.

This is the difference between heaven and earth.

He is not even an opponent of a clone, and it is even more futile to compete with himself.

Three hundred years have passed, Shangguan Xi'er's strength has reached a state of discoloration. If it is really like what Lao Yuan said, she has even touched the realm of Empress Wu.

Once she can break through, the entire Tianwu Continent, she will be alone and invincible.

Therefore, after his trip to the Misty Palace, Qin Chen was not excited, but pressure.

"Little Chen, who is this one?" Seeing Qin Chen not speaking for a long time, Ji Dewei and others' eyes fell on Fu Qiankun again.

At this moment, Fu Qiankun, although his robe was still in tatters, his aura had recovered a lot in this half a month, and he gave people a sense of shock that he didn't dare to look at.

Damn, this is just a pervert!

After being imprisoned by the nailed soul chain and alien demons for three hundred years, and tortured for so long, he recovered a lot in just half a month. How can ordinary people have such a recovery ability.

"Are you from the Ji family?"

Although Fu Qiankun's eyes were hollowed out, but the perception was still there, he could naturally distinguish the aura of Ji Dewei and others, but it was the aura of the Ji family who lived in seclusion.

"Hehe, it seems that the Misty Palace paid a very high price this time to dig out the old man's things!" Fu Qiankun said with a sneer: "Why, after playing in the Misty Palace, came to Ji's house again? When you are an old man, don't you know that your Ji family has become a running dog of Misty Palace? I'm!"

Fu Qiankun said with disdain.

[Chapter 1905: News from all parties](#)

"Little dust, who is this person?" Ji Dewei's face was depressed. He only asked who this person was, and was scolded. Although the Ji family had done some wrong things before, they were not so bad. To save face, is it too much?

Many members of the Ji family also showed anger on their faces, and what this guy said was too ugly.

"You all know this person, even if you don't know, you must have heard of it." Qin Chen glanced at Fu Qiankun and said with a slight smile.

"We all know each other?" Ji Dewei glanced at Fu Qiankun unexpectedly. Is this person so famous? Moreover, Shao Chen said that everyone who didn't know would have heard it. This is not what ordinary people can introduce.

Ji Hongchen also looked over in confusion. From Fu Qiankun, she felt an extremely terrifying pressure. Although this person seemed to be down and down, he must be an extraordinary powerhouse.

"Little dust, who is he?" Everyone couldn't help it.

Qin Chen said with a smile, "President of the Holy Land of Blood-Fu Qiankun!"

what? He is Fu Qiankun?

Everyone was shocked, and looked at Fu Qiankun in amazement, startled the raging waves.

Chen Shao was right, Fu Qiankun's name, no one knows, no one knows.

Even if Fu Qiankun had disappeared on the mainland for hundreds of years, the era when Fu Qiankun was at the peak of the Holy Land of Bloodlines was equivalent to the current Misty Palace.

May I ask the world, who does not know the prestige of Shangguan Empress?

But since Fu Qiankun disappeared, the Holy Land of Bloodline has fallen. Although it is still one of the top powers in the mainland, it is far from the supremacy of the year.

"Why is President Fu here?"

"Didn't he mysteriously disappear back then?"

Ji Dewei and others shook violently, and they discussed one by one. The previous dissatisfaction completely disappeared, but the doubts in their hearts were overcome.

"Little Chen, how could President Fu Qiankun be with you? Did you save Xiao Chen from the Misty Palace?" Ji Dewei seemed to think of a possibility and couldn't help but lose his voice.

This made everyone's eyes condensed and they were shocked. Could it be that the disappearance of Fu Qiankun that year was the work of Misty Palace?

Although the Ji family is a high-level person in the Hall of Law Enforcement, not everything is known. The Hall of Law Enforcement is jointly controlled by several major forces under the Misty Palace. Everyone performs their duties and rarely even communicates. For some things, there are only the core characters of Misty Palace. Just know some.

Perhaps the ancestor Ji of the Ji family could not know anything, but the elder Ji Dewei knew nothing.

"Pretending to be." Hearing the discussion from everyone around, Fu Qiankun snorted coldly, with a mocking look on his face. He still doesn't completely believe in Qin Chen.

It is true that his experience over the years has been too miserable. Once bitten by a snake, and ten years of fear of well ropes, his heart has been completely closed, and it is difficult to truly believe in a person.

"Little dust, what's the matter with Chairman Fu Qiankun?" Ji Dewei asked with some doubts. It seemed uncomfortable how he looked at him.

"It's nothing, don't worry about him. By the way, do Mokara and Yongye have any news from them? What about Pill Pavilion and Wanbaolou?" Qin Chen asked.

This is what he cares most about.

"Little dust, Senior Yongye has already arrived in the land of a hundred dynasties, and has gained the trust of the owner of the medicine king of the land of the hundred dynasties, and they are secretly relocating the personnel of the Chendi Pavilion in the land of the hundred dynasties. According to the news, Senior Yong Ye was able to secretly transfer the people of Chendi Pavilion away before the team from the Hall of Law Enforcement arrived. Moreover, with our Ji family as cover, there should be no problem." Ji Dewei said respectfully.

"Excellent." Qin Chen was delighted. Since he learned that Misty Palace was going to deal with the Lord Chen Truth, before going to Misty Palace, he arranged for Yongye to transfer personnel to the land of a hundred dynasties in time.

With Yongye's cultivation base, I am afraid that it will only take half a month to rush to the land of Hundred Chaos, but Misty Palace conveys the message to the North Horizon Law Enforcement Hall, and then the North Horizon Law Enforcement Hall sends masters to the land of Hundred Dynasties. , For Chendi Pavilion, it is impossible to achieve without a month or two.

The most important thing is that the Northern Heaven Territory Law Enforcement Hall is under the control of the Ji family, otherwise Ji Hongchen would not go to the Northern Heaven Territory Law Enforcement Hall to serve as the head of the palace. The Northern Heaven Territory has always been the sphere of influence controlled by the Ji family.

In addition, Yong Ye, the Skeleton Rudder Master, was an alien from the Secret Realm of Heavenly Demon. He had served as the Rudder Master of the Blood Demon Cult in the Northern Heaven Territory at the beginning, and he was very familiar with the Land of Hundred Dynasties.

You Yongye and the Ji family joined forces to try to get past the Misty Palace. It couldn't be simpler. After all, Shangguan Xi'er is aloof, and all the information obtained from the Northern Heaven Region is basically provided by the Northern Heaven Region Law Enforcement Hall. It's too easy to operate. .

"As for the Dan Pavilion and Wanbao Tower, it is indeed as little dust as you expected. The Chen Di Pavilion disciples who came to the two major forces from the Northern Horizons were all attacked suddenly, but fortunately, Dan Pavilion has Ouyang. The family and the Situ family came forward to guarantee that although Chen Shao's friends were detained, they were not in serious trouble for the time being."

"The same is true in Wanbaolou. Several of your friends were framed by others, but the Four Great Enshrines including Emperor Mad Saber Wudi made a strong move and saved several of your friends. They are all right now."

The Ji family's forces are all over the world, and it is naturally easy to inquire about these news.

What's more, the Ji family can also use the intelligence of the Law Enforcement Hall.

Hearing this, Qin Chen breathed a sigh of relief again. Wang Qiming and the others were safe and sound. That was more exciting than any news.

"It's the problem with Senior Mokara."

As soon as Ji Dewei said this, Qin Chen's heart was instantly lifted.

"What's the problem? Was it caught by the people from the Hall of Law Enforcement?" Qin Chen looked over nervously, his eyes very cold.

In his arrangement, Mokara's task was to protect the black slaves and the old man of Great Compassion who used to contact Wang Qiming and Beitianyu Chendi Pavilion.

Could it be that what happened to the black slave and the old man of great compassion?

This made Qin Chen extremely nervous.

The black slaves followed him from the land of the Five Kingdoms to the Wuyu region, and made great contributions, and the black slaves were very loyal to him. Therefore, when Qin Chen felt that his soul power was not enough, he immediately relieved the soul of the black slaves.印控。 Printing control.

This is because he trusts black slaves so much.

But if something went wrong with the black slave and Da Bei old man, then Qin Chen would definitely blame himself extremely.

What's more, the role of the black slave and the old man of Great Compassion is also very important. It is a very important key point to contact the Beitian Domain and the Martial Domain. If there is an accident between the two of them, it will be very dangerous for the Chendi Pavilion. Because many things will leak.

"This is not the case, but Senior Mokara did not find them at all. Not only Senior Mokara, even the Hall of Law Enforcement can't find both of them. Shao Chen, the two you mentioned, seem to be aware of the presence of the Hall of Law Enforcement. Looking for them, so I hid the trace the first time." Ji Dewei said embarrassingly.

[Chapter 1906: Prepare alchemy](#)

Qin Chen was taken aback, there was still such a thing.

"Haha." He couldn't help laughing.

The black slave and the old man of Great Compassion were really shrewd, and they went dormant for the first time.

If you think about it, it's really possible.

Who is the black slave?

The family was destroyed in the Dawei dynasty that year. With a young body, it can pass through the blood beast mountain range. The existence that survived from the top forces of the Dawei dynasty can be said to have been tumbling in life and death since childhood. Intuition about crisis That is much better than ordinary people.

Needless to say, the old man of Great Compassion, the North Tianyu top-level casual cultivator, as a casual cultivator, has cultivated to the eighth mid-stage peak martial emperor, and his survivability is absolutely leveraged.

The two of them wanted to smell the crisis and avoided in time.

"Then continue to search for them, but be careful, otherwise the law enforcement hall will see the clues." Qin Chen's heart was also let go, as long as it was not captured by the law enforcement hall, then he would be relieved.

"Go, let's go to the ancestral land first." Qin Chen said to Ji Dewei.

"What are you going to do to the ancestral land?" Everyone looked over in doubt.

Qin Chen glanced at Fu Qiankun in the hall, and said helplessly, "What else can I do, heal him."

Although Fu Qiankun still didn't believe him, Qin Chen couldn't really ignore Fu Qiankun.

Not long after, Qin Chen and his party came to the ancestral land.

The Ji family ancestral land has been renovated, and the rich and wild atmosphere is permeated here, giving people a very shocking feeling.

"This is... the Ji family ancestral land?" Fu Qiankun felt a little shocked around him. It was the first time that he came to this Ji family ancestral land, naturally surprised.

After the group of people fell on the ancestral land, Qin Chen immediately put Fu Qiankun on the ground.

Hum!

He put his right hand on Fu Qiankun's head, and an invisible force immediately filled Fu Qiankun's body.

"You don't want to take Mr. She, do you? Hmph, the old man can tell you that even those alien demons can't take Mr. She, depending on you... hehe!" Fu Qiankun said disdainfully.

"Shut up!" Qin Chen cursed. This old man's nagging is really nonsense.

Back then, I didn't notice that he was still talking.

Hum!

Invisible power permeated Fu Qiankun's body, and Qin Chen perceived it carefully. Today is the first time he has time to feel Fu Qiankun's body well.

With this perception, his eyes suddenly condensed.

"Soul is damaged, blood is destroyed, dantian is damaged, this..."

Qin Chen sucked in air, and Fu Qiankun's injury was too serious. He wanted to be treated. It was absolutely simple.

What kind of torture has Fu Qiankun suffered over the years?

Qin Chen took a deep look at Fu Qiankun. No wonder he didn't believe in himself. With such an injury, ordinary people would have died a long time ago, but Fu Qiankun insisted on it abruptly. Moreover, the intent to fight is immortal. What is this? Faith and spirit?

call!

After investigation, Qin Chen directly put away his soul power.

This caused Fu Qiankun to be a little surprised, the other party actually only checked his own injuries, instead of taking home.

"Fu Qiankun, how could your injury be so serious." Originally, Qin Chen saw that Fu Qiankun had recovered a bit in the Qiankun Fortune Jade Plate, thinking that his injury could be treated, but now after investigating it, Feeling extremely tricky.

This is simply an incurable disease.

It was already a miracle that Fu Qiankun could survive.

"Haha, it can't be cured now? The old man knows that you have been pretending to behave. Since it can't be cured, you can let go of the old man if you have the ability. The old man still believes you half, otherwise, just put the old man in prison. Acting again, no matter how you act, the old man won't believe you." Fu Qiankun simply sat cross-legged and ignored Qin Chen.

"Who said I can't cure it?" Qin Chen gave Fu Qiankun a white look, and said to Ji Dewei on the side: "Elder, I wonder if your Ji family has a top-level pill furnace, lend me a use."

"The pill furnace is naturally there, but I don't know if it is what Chen Shao wants." Ji Dewei hurriedly arranged to take the pill furnace in his hand, but he was puzzled, is Chen Shao still a famous alchemist? I can't see it at all.

But the evil demon king and others also rushed here at this moment, and they felt the injury on Fu Qiankun's body, and were shocked by it. This injury is difficult to heal if it is replaced by another demon. Is there a way for Chen Fei?

"Do you really want to treat me?" Even Fu Qiankun was surprised.

Knowing that I wouldn't believe him, this guy is still acting at this time?

"Otherwise? Humph, thanks to Ben Shao who emptied the Holy Medicine Garden of Misty Palace, otherwise, it would be really troublesome to treat your injuries." Qin Chen said silently.

But he was very clear in his heart that he was not sure that he could completely heal Fu Qiankun, but at least it was not a problem to let Fu Qiankun recover some of his injuries and his cultivation base.

Otherwise, Qin Chen didn't know how long Fu Qiankun could hold on.

Not long after, the people of the Ji family had already brought the pill furnace.

This is a furnace tripod with a height of about ten feet. The furnace wall is very thick, with complicated patterns engraved on it, which obviously blesses various formations and runes to enhance the power of the pill furnace.

"Little dust, what do you think of this pill furnace?" Ji Dewei patted the furnace ding, and suddenly buzzed, and a dull voice rang, showing that the furnace ding was very powerful and could withstand the slapping of the late Emperor Wu.

This is obviously a furnace tripod of Tier Nine.

"The alchemy furnace is not bad, just make do with it," Qin Chen whispered.

Ji Dewei heard that he almost vomited blood. What does it mean to make do with it? You have to know that this is the top alchemy furnace in their Ji family, or it was bought by a ninth-order emperor-level alchemist in the Ji family, and stored in the family treasury. , Has a history of thousands of years.

Although this furnace cauldron was only a relatively common among the nine-tier pill furnace, it was not a heavy treasure furnace cauldron, but it was also an emperor-class pill furnace. It was definitely a sky-high price when it was put up for auction, but it became improvised in Qin Chen's mouth.

Ji Dewei was hit immediately.

"Haha, pretend to be too much." Fu Qiankun sneered again. He also felt the terrible pill furnace, but he didn't believe that Qin Chen would really refine any pill, so although it was for him Refining the pill, but it has nothing to do with the attitude of hanging up high.

"Young Master Chen has spent so much painstaking effort to save you, don't you have a good word?" You Qianxue couldn't stand it anymore, and shouted coldly at Fu Qiankun, very dissatisfied.

She didn't care if Fu Qiankun was the president of the Holy Land of Blood, as long as anyone dared to target Qin Chen, she would dare to smash.

"Qianxue, don't care about him." Qin Chen smiled at You Qianxue. He knew why Fu Qiankun would say that. No matter how much he said to him now, he would think that he was acting. Only practical actions can dispel his doubts. .

[Chapter 1907: Ten Quan Da Bu Dan](#)

"Everyone retreats." Qin Chen asked Ji Dewei and others to retreat, and began the inspection before alchemy.

"With my current mental power, which is equivalent to that of the late Emperor Wu, refining those kinds of pills shouldn't be a problem." Qin Chen took a deep breath.

In terms of mental power, he is completely fine, and Qin Chen's mental power is even more terrifying than in his previous life.

The pill that Qin Chen is going to refine this time is called 'Shiquan Dabu Pill', which is a top nine-grade pill. Just like its name, it contains amazing healing power.

This kind of pill is not a fixed prescription. The so-called ten complete tonic is refined from ten top nine-tier emperor medicines. Each imperial medicine has different attributes. It can vary according to the injury of each person. Shi Yi, repair it.

But after Qin Chen checked Fu Qiankun's injuries, he had already prepared which elixir to use.

With a calm expression, he came to the alchemy furnace, released his powerful mental power, and directly released the green lotus demon fire.

Hum!

The terrible lotus flame appeared between the heaven and the earth, immediately illuminating the entire Ji family ancestral land.

"It's the flame..." With a shocked expression on the faces of the mortal monarch and other alien demons, they backed away for a while.

It was this flame that caused heavy damage to them at the beginning, and for some reason, seeing this flame, they instinctively felt fear from deep in their hearts.

Ji Dewei and the others had also seen the scene where Qin Chen used the Qinglian Demon Fire, and they were naturally familiar with it.

It was Fu Qiankun, feeling it for the first time, and he couldn't help showing surprise.

"What kind of flame is this? The power is so terrible? Is it some kind of sky fire?"

He muttered to himself.

Although he is the president of the Bloodline Holy Land, he can serve as the president of the Bloodline Holy Land. Naturally, he will not only have amazing attainments in bloodline. In fact, his vision of formation and alchemy is far beyond ordinary people. The strange thing flame is also very clear.

But the Qinglian demon fire breath that Qin Chen is displaying now, he has never seen before.

This surprised him greatly.

Especially the Qinglian Demon Fire exuded the aura of life, and the scorching coercion made him a little shocked. This is definitely some kind of top flame, even the sky fire.

"This kid doesn't really want to refine pills, right?" Fu Qiankun's heart flickered, and then he shook his head: "Just taking out a flame, it can't prove anything, alchemy is not a terrible flame. of."

Even if Qin Chen took out the Qinglian Demon Fire, Fu Qiankun still didn't think that Qin Chen really wanted to refine a pill for him.

At this moment, the Qinglian Demon Fire slowly landed under the alchemy furnace under Qin Chen's control, and the blazing flames roasted the alchemy furnace.

This is the first step in alchemy, the hot pot.

Especially for some dusty furnaces that have been sealed for a long time, the pill furnace must be heated first before the furnace can be fully activated to better integrate the medicinal properties.

Because this is an essential process in alchemy.

After countless thousands of years of development, alchemy has also developed a lot of hot pot techniques. Different hot pot techniques have different effects, and you can also see the strength of a pharmacist.

Therefore, when Qin Chen made the first step to heat the tripod, he immediately attracted the attention of everyone around him.

What everyone didn't expect was that Qin Chen's hot cauldron was so simple that it spurred the Qinglian Demon Fire to burn the Pill Furnace without any splendid techniques.

"This...Does Chen Shao really know how to make alchemy?" Ji Dewei wiped the cold sweat from his forehead.

Isn't this method of heating the cauldron too rough? Even if it is a Seventh-Rank Medicine King, it would not be so straightforward and rude to perform the heating cauldron, right?

Not only Ji Dewei thinks so, but other people are also a little speechless after seeing it.

"Hehe, I said, your Excellency is acting. Idiots can see that there is a problem with this kind of hot trick." Fu Qiankun sneered, firming up his mind.

I saw a sound of 'cracking' in the alchemy furnace, and violent power was surging crazily in the alchemy furnace.

"Buzzing!"

Under the high temperature baking, it didn't take long for the alchemy furnace to vibrate slightly, making a very crisp sound.

"Huh? This is the resonance of the furnace." Fu Qiankun was taken aback, showing a look of surprise, if he had eyeballs, he would definitely have stared out.

The appearance of the furnace cauldron resonance means that the activity of the 9th-order pill furnace has been fully stimulated. This is the situation that will only appear after the hot cauldron has reached the highest realm.

Damn, this kid is so lucky?

Such a simple and rude hot cauldron can also resonate the pill furnace?

At the moment when the pill furnace resonated, Qin Chen's eyes condensed, and he instantly took out many Tier Nine Emperor Medicines from the Universe Good Fortune Jade Plate.

boom!

This is a dragon-shaped elixir. As soon as it appeared, it seemed as if a real dragon rose to the sky, roaring from the sky, many martial emperor-level Ji family masters, even a little unable to bear it, backed away.

"True Dragon Flying Medicine!"

Many people exclaimed, this is the top level elixir of the Ninth-order elixir.

Their shock has not yet subsided.

"Yo!"

There was another long sound, and a flaming phoenix soared into the sky. This was a phoenix-shaped coral-like elixir that was alive and wanted to rise into the air.

"Oh my god, it's another Tier 9 top elixir, Fire Phoenix Coral..."

But before their shock fell.

boom! boom! boom! ...

A series of terrible auras rose up, there were dragons, phoenixes, white tigers, and colorful rays of light blooming, and the refreshing spirit medicine aura was released in Ji family ancestors in an instant.

A total of ten Tier Nine top elixir appeared in front of everyone.

As soon as these elixir appeared, the entire Ji family ancestor land was enveloped by the endless aura of elixir. In addition, there were many eighth and ninth-order auxiliary medicines, which also appeared one after another, exuding an astonishing aura.

"These ten elixirs are not the most complete. It's a pity that only these ten elixirs are most suitable for Qiankun, and they can only be used." Qin Chen shook his head slightly.

His words are not loud, they are self-talking, and have not been heard by Ji Dewei and others, otherwise they don't know what kind of shock it will cause.

But Fu Qiankun was nearby, but he heard Qin Chen's words clearly and was shocked.

Damn, these ten elixirs are still bad, what kind of pill is this kid going to refine for himself?

Is it the perfect supplement?

As soon as this thought came out, he was stunned for a while, he smelled the breath of other spirit medicines, and vaguely felt that Qin Chen actually wanted to refine the Ten Complete Nourishing Pill.

This is the top ninth-grade pill. In order to gain his trust, Misty Palace has too much blood?

Naturally, Qin Chen didn't know Fu Qiankun's thoughts. He didn't have any ink marks. Under the eyes of everyone, he threw all the elixir into the alchemy furnace.

Seeing this, everyone was dumbfounded.

Can there be such alchemy?

Damn it!

[Chapter 1908: Can you take a snack](#)

What is the most important thing in refining an elixir?

Different people have different understandings, but for alchemists, there is only one answer!

That's the prescription!

If you want to refine the pill, the first thing you need to know is the prescription of the pill. Only after knowing the prescription can the pill be refined.

In addition to the elixir and quantity of the elixir, the most important part of the prescription is the process of refining.

In the process of refining any kind of pill, the process of putting the elixir in is in order. Which elixir is put first, which elixir is put later, and when to put it is very strict. There can be no difference.

Once there is a mistake, it will inevitably lead to the failure of the entire refining, leading to a fall in success.

Even an idiot understands this truth.

But now?

Qin Chen unexpectedly put all the elixir into the furnace.

My God, this is the hell!

The eyes of Ji Dewei and others were almost bursting, and they looked at each other and laughed bitterly. There was only one thought in their hearts: Will Shao Chen really make alchemy?

One brain puts all the elixir into it, let alone whether the properties of these drugs can be completely integrated and refined into a pill. Just the medicinal gas that is directly smelted by so many elixir can blow up the pill furnace. Right?

Klang Klang!

Sure enough, this idea of everyone had just fallen, and the pill furnace in front of everyone suddenly trembled and screamed violently, as if there were a hundred wild beasts in the pill furnace, violently hitting the pill furnace.

Moreover, around the pill furnace, the emptiness was constantly trembling, and there were a series of fine spatial cracks, which were about to tear apart.

This kind of aura is so amazing, it makes people change color, and there is fear in the heart.

"Be careful, everyone, join forces, Patriarch, you immediately promote the ancestral formation, if the pill furnace explodes, be sure to stop this power as soon as possible." Ji Dewei hurriedly said to Ji Ruyue, his tone filled Anxious, things are extremely tense.

Damn, can you not be nervous?

This is the ten top nine-tier elixir.

The reason why the Tier Nine Spirit Medicine is called the Imperial Medicine is because the condensed medicinal power in it is extremely terrifying, and it can bring great benefits to the powerful Nine Heavens Emperor.

To put it simply, the medicinal power erupted from a Tier 9 spirit medicine is equivalent to a full blow of a nine-day martial emperor of the same level.

And now?

In this pill furnace, a whole ten plants of Tier 9 elixir have been put into it, and they are all Tier 9 top elixir. In addition, there are many Tier 8 Emperor Medicine and Tier 7 King Medicine.

If an explosion really happened, the entire ancestral land would be blown up and wiped out.

"Don't worry, Chen Shao will never fail in alchemy." Ji Ruyue glanced at the elder and said calmly.

Although she had never seen Qin Chen refining any medicine, she was full of confidence in Qin Chen and knew that he would not do anything unprepared.

What's more, after experiencing the Misty Palace and his party, Ji Ruyue's confidence in Qin Chen was completely overwhelming, without any doubt.

But Ji Dewei doesn't know!

"Hey, my aunt." Ji Dewei was about to cry, and hurriedly said: "Juyue, Chen Shao's alchemy will not fail, but we also have to plan ahead, in case, I mean what if it is a pill furnace? It explodes, then the trouble will be big..."

He was a little frightened. It wasn't that he didn't believe Qin Chen. The scene in front of him was really scary, and there was a faint tendency to explode the furnace. It seemed that it was nothing more than a matter of time.

But Ji Ruyue was still indifferent.

"Oh, that's all, that's all!" He sighed helplessly, and the true essence in his body was fully urged, and he was always ready to suppress that power to prevent others from being injured.

Although he wasn't sure, this pill furnace was really going to explode, and his cultivation base could stop this power.

But if you can't stop it, you have to stop it, otherwise Ji Jiazhu's land that has just been repaired will probably be destroyed again.

"This son is too reckless. I saw him making flames and heating the cauldron quickly before. I thought it was really great. Now it seems that it is purely nonsense." Fu Qiankun shook his head and was speechless. .

He is very knowledgeable and it is the first time he has seen this refining method.

Even if it's acting, does it need to be so fake?

Can you take a snack?

How does this make yourself believe in you?

However, although the pill furnace was shaking violently, and the people in the entire ancestral land could even feel the ground shaking with it, the pill furnace did not explode.

Gradually, the alchemy furnace became red under the burning of the Qinglian Demon Fire, and a scorching breath also radiated out, as if it would explode at any time.

At this moment, there was a burst of fragrance from the alchemy furnace, which surprised everyone.

Could it be that the medicinal materials in this pill furnace are really reacting?

At the next moment, Qin Chen's figure began to move. The huge furnace cauldron quickly rotated on the palm of his hand. The green lotus demon flame filled the entire furnace, and Qin Chen waved. With his fist, he slammed his palm at the cauldron.

Cang Dang, Dang Dang!

A burst of crisp roar echoed in everyone's ears.

"Huh? What is Shao Chen doing? Do you want to smash this pill furnace?" Ji Dewei was taken aback.

It was the first time he saw that the alchemist would bombard the pill furnace in the process of refining the pill.

This pill furnace was about to explode. With such a dozen, wouldn't it explode faster?

But Fu Qiankun felt more. He was shocked to discover at the first moment that after Qin Chen took the first palm, the pill furnace that had been exploded was not more unstable, on the contrary, there was a hint of peace.

How is this possible?

He was shocked, perceiving carefully, and was shocked to discover that he had not perceived wrongly, and he was indeed more peaceful.

Each of Qin Chen's palms seemed to be very random, but in fact, the position, strength and technique of each palm were extremely particular.

After each palm fell, the violent alchemy furnace calmed down a bit, and the pill incense from the alchemy furnace became more and more intense.

"Is this the legendary physical true essence alchemy?" Fu Qiankun took a breath.

When a normal pharmacist refines the pill and fuse the properties of the medicine, he often uses mental power to fuse the properties of each elixir and make them fuse.

But he had heard of a physical true essence alchemy, no, not only had he heard of it, but had also seen it with his own eyes.

The so-called physical true essence alchemy method is based on the principle of the pill furnace using physical impact, which makes the medicinal properties in the pill furnace merge more quickly and more perfectly.

This method is an ancient alchemy technique.

It sounds awkward, but in fact the principle is very simple.

For example, compare the fusion of two elixir to a drop of blood into a basin of water, requiring the perfect fusion of this drop of blood and water.

[Chapter 1909: Going to explode](#)

The normal alchemy technique generally speeds up the fusion by increasing the temperature of the water, or the higher blood solubility.

But the physical alchemy method is to shake the water basin, so that the two can merge faster through physical methods.

Of course, this is just a simple explanation of the principle.

The actual refining process is certainly not as simple as the example.

And because the physical refining method is very difficult, it is often difficult to control the rhythm, leading to this kind of alchemy technique, in the long history, was quickly eliminated.

So far, there are very few alchemists in the entire continent who have mastered this technique.

The last time Fu Qiankun saw such a technique, he used it by the Pochen Wuhuang Emperor.

How did the Pochen Wuhuang emperor achieve the nine-tier pill emperor with the eighth-level peak martial emperor realm?

It depends on these special techniques!

After all, although the Pochen Wuhuang Emperor was super talented, his spiritual power and true essence were inferior to some of the top alchemy masters in the Dan Pavilion because of his cultivation base. The reason why he is comparable to those alchemy masters, and even surpass them in fame.

It is precisely because of these special ancient alchemy techniques that made him possess the attainments of Emperor Pill in the realm of Emperor Wu, which is unprecedented.

"Three hundred years, more than three hundred years, the old man actually saw this legendary ancient alchemy technique once again!" Fu Qiankun's emotion and exclamation in his heart were beyond added and shocked.

Gradually, Ji Dewei also discovered the mystery. He couldn't help being shocked, and lost his voice: "How could it happen? Chen Shaoming is bombarding this pill furnace. Why not let the pill furnace explode, but make the pill incense more and more Rich?"

This method of alchemy has completely subverted his imagination.

Hearing this, Fu Qiankun laughed suddenly, but he knew why. Although Qin Chen slammed his palm on the pill furnace, in fact, the inside of the pill furnace was under the huge impact of many elixir. Dust's attack, instead of destroying the pill furnace itself, on the contrary weakened the impact of these elixir, naturally making the pill furnace more stable.

Of course, Fu Qiankun was too lazy to explain.

Compared with knowledge, although Ji Dewei is also the elder of the Ji family, a giant, but it is far worse than Fu Qiankun, ten Ji Dewei, knowledge may not be comparable to Fu Qiankun.

Gradually, Qin Chen stopped his hand movements, but increased the burning of the Qinglian Demon Fire.

At this time, the pill furnace was extremely stable, and there was no violent previous violent at all. Where is there any trace of an explosion?

Seeing this, many people were stunned, and they didn't even understand the mystery.

"How did you do it? What kind of alchemy technique is this? Why have I never heard of it?"

"My Ji family is considered to be the top martial arts family, and there are some alchemists in the family. Why is it completely different from today's Chen Shao's refining?"

"Is it really my Tianwu Continent's alchemy technique that Chen Shao uses? Why does it feel so weird?"

Everyone was full of respect and worship for Qin Chen. At this moment, this kind of worship was even stronger.

This has completely exceeded their imagination.

Qin Chen naturally didn't know the thoughts of these people. He was immersed in alchemy. When the Qinglian Demon Fire regained its might, the terrifying spiritual power swept out of his eyebrows, turned into a spiritual storm, and rushed in. In the pill furnace.

boom!

The whole pill furnace hummed, making the sound of Hong Zhong Da Lu.

But at this moment, Qin Chen unexpectedly took out a large amount of elixir from the Universe Good Fortune Jade Plate again, and put it into the pill furnace again.

boom!

The entire furnace vibrated violently again.

"What is Shao Chen doing?" Everyone was stunned.

This alchemy was halfway through, and Shao Chen actually put in so many elixir again. Although everyone could not see how many elixir was put in because of the fast speed, at a glance, at least seven or eight kinds of elixir were put in. Nine-tier emperor medicine, and dozens of emperor-level elixir.

This is simply going against the sky!

Fu Qiankun was also shocked: "Isn't this kid refining the Ten Complete Pills? The Ten Complete Pills can only smelt ten kinds of Tier Nine Emperor Medicines, but the Tier Nine Emperor Medicines that this kid put into, at least There are nearly twenty plants, right?"

Ten plants and twenty plants are definitely a qualitative difference.

Originally, Fu Qiankun could still discern Qin Chen's methods, but now, he is completely confused, even with his vision, he can't tell what Qin Chen wants to do.

This feeling is very bad!

God, anyhow, I was once the top powerhouse in the Martial Domain, the president of the Holy Land of Blood, and was in charge of the existence of the world.

But after being imprisoned for two hundred years, he couldn't even understand the alchemy techniques of pharmacists on the mainland!

Are young people now so perverted?

At this time, the true essence in Qin Chen's body was madly blending into the pill furnace, and his forehead was also oozing sweat.

Nearly twenty strains of Tier Nine Emperor Medicine had reached the limit he could bear, and even he felt extremely strenuous and felt a sense of powerlessness.

If it were not for Qin Chen's soul power to surpass ordinary Wudi, and to be able to judge the situation in the pill furnace more accurately, his refining would have already failed.

But even so, Qin Chen had already reached the end of the battle.

"Damn, my true essence is still a bit lacking, and some are enlarged. If the cultivation base can enter the mid-term martial emperor realm, it may be a lot easier." Qin Chen gritted his teeth and insisted firmly.

It should be noted that a normal Nine-Rank Emperor Pill, just throw in one or two Tier Nine Emperor Medicines, it's a bit more powerful, and throw in three or four is enough.

But what about Qin Chen now?

To refining nearly twenty Tier Nine Emperor Medicines at one time, if it were to be spread, it would definitely shock the entire Tianwu Continent alchemy world and the entire alchemy pavilion.

Klang Klang!

Qin Chen tried his best to continue refining. With his refining, the power of Dao Dao Jiuxing Divine Emperor Jue poured into the pill furnace and merged into the refining of the pill.

This made the entire alchemy furnace vibrate more violently, and there was a huge noise in the alchemy furnace, and all the materials were tumbling.

The pill furnace, which was originally peaceful, rioted again, and a terrifying aura instantly filled out and surged rapidly.

"No, the pill furnace is about to explode." Ji Dewei was shocked and said in horror.

His face was pale and his expression changed drastically.

After adding seven or eight Tier 9 imperial medicines, the coercion emitted from the pill furnace at this moment even changed the color of his giant Emperor Wu. He had a feeling that if the pill furnace exploded now, it would be enough to threaten his late Martial Emperor giant. Life and death.

"Why did Chen Shao add so many elixir just now? Obviously the refining is almost complete..." Ji Dewei was anxious and extremely depressed. He raised a hand to his throat and stared at the pill furnace.

[Chapter 1910: Alchemy success](#)

"Crack!"

At this moment, there was a crisp sound from the alchemy furnace, and a small crack emerged from the alchemy furnace. The rich pill fragrance spread in all directions, and a terrifying pill power came from there. The cracks vented wildly and escaped.

"Kiritsu, hurry, spur the big formation, it's going to be a fryer."

Ji Dewei was so frightened that he screamed in horror, his body was shining with true essence, he must protect this area, and once the pill furnace exploded, he had to take action immediately.

Everyone was taken aback by Ji Dewei's roar, and they all showed horror.

Only Qin Chen's face did not change color. He seemed to be prepared long ago. With a cold snort, he quickly covered the entire alchemy furnace with the Qinglian Demon Fire, blocking the gap, and the pill

incense instantly dissipated, but he was making alchemy. The furnace was constantly shaking, as if trying to break free from the **** of the demon fire of Qinglian.

Click!

This gap had just been blocked by the Qinglian Demon Fire, and soon a gap appeared on the pill furnace again, and Qin Chen urged the Qinglian Demon Fire to block it again.

In this way, the furnace tripod did not break open, and Qin Chen continued to urge the Qinglian Demon Fire to block it. In the end, the entire surface of the pill furnace was completely blocked by the Qinglian Demon Fire.

But the furnace tripod was still shaking rapidly and was about to burst open.

Ji Dewei's heart hung high, uncomfortably messed up, and extremely entangled. He had been hanging between the explosive and non-explosive pill. He was frightened again and again, and he was almost numb.

Although Qin Chen blocked the crack time and time again, Ji Dewei could still see that no matter how idiot he was, the furnace cauldron had reached the point where it could no longer be repaired.

It is a miracle that Xiao Chen can persist until now.

But miracles will always end.

Fu Qiankun also sighed slightly, shook his head and said: "It's useless, it can't be blocked."

Now that there are cracks on the furnace tripod, it has reached the point where it is impossible to repair it. Even if Qin Chen has the ability to go against the sky, it is impossible to continue to repair it. It can be said that Qin Chen can persist to the present, far beyond the payment. The anticipation of the universe.

He had a feeling that even if the deputy pavilion masters who had been replaced by Pill Pavilion came, they might not do what Qin Chen did.

Qin Chen was full of sweat on his forehead, his face flushed, and his body trembled.

It can be seen that he himself is almost unable to hold on.

"Scatter!"

Seeing that the furnace cauldron was about to split again, Qin Chen suddenly roared and collected the Qinglian Demon Fire, and a scorching wave suddenly swept in all directions.

Fortunately, Ji Dewei responded promptly and controlled the strong wave, otherwise I don't know how many Ji family children will be affected.

"He also gave up." Fu Qiankun sighed, but he didn't expect that he would ultimately fail.

At this moment, his malice towards Qin Chen was also dissipated. Although Qin Chen failed in the final refining, his attainments on the path of alchemy had definitely reached the top level in the mainland, making Fu Qiankun feel full of emotion.

Of course, it is absolutely impossible for him to believe in Qin Chen.

As the Qinglian Demon Fire withdrew, cracks appeared on the furnace cauldron in an instant.

"Crack! Click!"

There were bursts of crisp noises, and the whole pill furnace was instantly fragmented, and pieces of scarlet fragments burst into pieces, spraying in all directions, and each fragment was mixed with terrifying blades.

"boom!"

An astonishing air wave swept away, and the terrifying air wave immediately flooded the world, and the erupting power shook the void, and a series of terrifying space cracks appeared.

Ji Dewei and the others reacted quickly, and one after another shot, and hurriedly blocked the fragments.

What surprised them was that the power of these fragments was not as terrible as they had imagined. With the strength of Ji Dewei, Divine Demon Lord, You Qianxue and Ji Ruyue, they easily stopped it.

It didn't cause much damage to the Ji family ancestral land.

How is this possible?

The power that has been shown before is obviously terrifying, the kind that can completely blow up the entire ancestral land, how can the power be so small after the real explosion?

At the same time, everyone smelled a refreshing fragrance.

Comfortable!

It was as if thousands of pores in the whole body were all unfolded, the true essence in everyone's body was involuntarily urged, and the whole body condition became surprisingly good, and the whole body was full of power.

My God, what kind of pill did Chen Shao refining?

Just the scent of medicine that escaped, made them, the martial emperor-level powerhouses, feel like this. If you take it directly, what effect will it have?

"It's a pity, it's a pity, this pill has such an effect only as a medicinal fragrance. If it is successfully refined, it will definitely be a heaven-defying pill."

"It's a pity that the refining failed in the end."

"I knew this earlier. Our Ji family should prepare a better pill furnace in advance. I didn't expect that the furnace tripod exploded at the end of the refining. Now the medicinal fragrance is so rich, if the previous furnace tripod could hold on for a while. , Maybe it can be refined successfully."

"It's all my Ji family's fault, what a pity."

Ji Dewei and the others were heartbroken, annoyed to speak, as if they had failed in their own refining.

The fragrance of the medicine is really amazing. The fragrance of the medicine alone has such an effect. If it is a real pill, the effect is absolutely against the sky.

Fu Qiankun shook his head slightly, he knew that blasting the furnace would mean failure in alchemy, and it was the kind of failure that was a complete failure.

However, before everyone was disappointed for too long, I saw that the strong medicinal energy in front of Qin Chen had not yet dissipated, and the medicinal energy had turned into a furnace ding.

"open!"

Qin Chen shouted angrily and slapped the medicine gas pill furnace violently. With a bang, the medicine gas pill furnace exploded and burst into the sky with an astonishing breath.

Rumble!

In the sky, there are colorful auspicious clouds emerging, and a rush of shocking heaven and earth, falling like a waterfall, falling on the several streams of light.

Buzzing...

In the void, several radiant pills of the whole body were suspended in the void, and the phantoms and glow of various exotic animals flew around the pills, accompanied by terrible pressure, and shocked everyone on the field. people.

"Heaven and earth vision, colorful glow, Shao Chen has successfully refined it?"

"This... how is this possible? Isn't it already exploded? Why is it still successful?"

"How did you do it? And what kind of pill are these pills? Why does the emperor feel the pressure and have difficulty breathing?"

When the pill was completed, the fragrance of the medicine was condensed. Ji Dewei looked at the few elixir on top of his head in amazement, shocked.

His reaction was so exaggerated, not to mention the ordinary martial emperors and disciples of the Ji family.

"This is the human pharmacist? It is terrifying!" The mortal demon is also dumbfounded. The alien demon race does not have the profession of pharmacist, so it shocks the human pharmacist.
