

Valkyrie 1991

[Chapter 1991: Enter Leihai](#)

Thinking of this, Qin Chen nodded and said: "I will indeed enter the Sea of Thunder in a few days. If I can meet the president of your Skyscanner, I will naturally take action when I need help, but if I don't meet, Ben Shao will not deliberately risk

To find out the risk, let me make it clear first. "

"Thank you Young Master Chen." Ge Hongsen was overjoyed immediately.

"As for this treasure..." Qin Chen glanced at the jade box on the table.

"Shaoxia Chen, this is a little bit of my Skyscanner's intentions. I also ask Shaoxia Chen not to refuse. Regardless of whether Shaoxia Chen meets President Gongsun or not, Shaoxia Chen must laugh at it. ."

Ge Hongsen said immediately, he was very sincere, and there was absolutely no reason to take it back.

"If that's the case, I'll accept it." Qin Chen thought for a while and nodded. "Shaoxing Chen, our Tianxun Association also selected a few Wudi strong men to go with you, and you will take the lead." Seeing Qin Chen's agreement, Ge Hongsen immediately added: "Except for my Tianxun meeting, I guess Tian Several other top forces in Leicheng will also send

People go. "

Qin Chen waved his hand and said to Ge Hongsen: "This is not necessary. Vice President Ge only needs to give me the latest map of Thunder Sea, and I will set off in two days. As for yours, you can leave separately. Follow me."

The first thing Qin Chen had to do after entering the Sea of Thunder was to cultivate the impervious body, so naturally there was no time to bring a group of people from the Sky Excursion Club.

"That's okay." Ge Hongsen thought for a while, nodded and said, "So, then Ge will go back first. As for the latest map of Thunder Sea, Ge will send someone to it as soon as possible."

"Wait a minute."

Qin Chen called out suddenly.

"I don't know what else is Young Master Chen?" Ge Hongsen turned around in confusion.

"I heard that the Moxiu Tower was supported by other forces when it was established in the Thunder City. Do you know this force?" Ge Hongsen was taken aback, glanced at Qin Chen, hesitated, and said, "This is my God. The tour will naturally know that, in fact, Ge wanted to inform Young Man Chen that the power behind the Moxiu Tower is the Fighting Club, which is not weaker than the top power of our Sky Patrol Club. In fact, the Fighting Club is in Although the history of Tianlei City is not short, it has always been similar to a second-level power such as the Laozhong Chamber of Commerce. However, more than two hundred years ago, a group of top powerhouses suddenly emerged from the Fighting Club and became the most powerful force in Tianlei City.

One of the top forces. "The people in the Fighting Club are very combative and violent. The establishment of the Magic Building was originally hit by our major forces. Later, the Fighting Club came forward, and our major forces tolerated the establishment of the Magic Building. . Now Xiaoxia Chen, you have destroyed the magic repair

Lou, if you let the people of Fighting Club know, you shouldn't be let off easily. "The reason why I haven't done it now is because the Fighting Club is the same as my Skyscanner. The top powerhouses in it have already gone to the Thunder Sea, but I also ask Young Master Chen to rest assured that even the masters of the Fighting Club come back. With my Skyscanner, it's definitely not

Let them do something to your black order. "

Will the fight?

Qin Chen whispered, a top power that suddenly emerged more than two hundred years ago, he had some speculations in his heart, this fighting will most likely be the puppet of Misty Palace.

It's no wonder that I didn't get help when I destroyed the Moxiu Tower. It turns out that all the masters of this fighting club went to the Thunder Sea. It happens that if you meet in the Thunder Sea, it would be a bit interesting.

Seeing that Qin Chen didn't say anything, Ge Hongsen left soon. After a while, the people of the Skyscanner sent a brand new map of the Thunder Sea, which even included the location of the land where the seal was originally discovered and where their Skyscanner president eventually disappeared. In addition, Ge Hongsen also sent the Fighting Club

data.

This made Qin Chen have a good impression of Ge Hongsen.

Next, Qin Chen used the time to arrange a large formation for the black cultivator, and let the Heavenly Emperor Mountain Lord hide in the black cultivator secretly, guarding Xia Wushang and the others, then he was relieved.

Before leaving, Qin Chen left Xia Wushang and the others with a large amount of medicines, and even left the regular fruit, the great road fruit, and some regular crystals so that they could have a breakthrough after their cultivation reached the peak of Wu Huang. Resources.

After doing all of this, Qin Chen took Fu Qiankun, You Qianxue, and Ji Ruyue safely to leave Tianlei City and head straight to the Sea of Thunder.

The Sea of Thunder, the largest area in Leizhou, is also the most dangerous place.

For others, it takes a few days to reach the Sea of Thunder. Qin Chen and his entourage had seen Lei Hai only two days later. It was only a short time from Qin Chen seeing Lei Hai to when he stood on the sea.

Boom boom boom!

Qin Chen and Fu Qiankun had both been to the Sea of Thunder before, and they were quite calm, but You Qianxue and Ji Ruyue were both here for the first time. When they stood in front of the Sea of Thunder, they knew what the real vastness and boundlessness is. And the power of heaven and earth. In

front is a mighty sea of thunder. The endless blue thunder light fills every place of sight. The sky is connected to the sky and the ground below. Looking around, there are endless thunder lights everywhere. There are too many blue thunders, like Like a snake,

And these snakes gathered together to form this vast sea of thunder.

This is simply a wonder of nature.

Anyone who saw the Sea of Thunder for the first time would be deeply shocked by it. At the same time, they felt small and curious about how such a terrifying Thunder Sea was born.

"Let's go."

Under the leadership of Qin Chen, a group of people entered the sea of thunder.

After entering, You Qianxue and Ji Ruyue realized that the sea of thunder in front of them was shocking, but the thunder light in the outer area was actually not powerful, it was just equivalent to the thunder tribulation of the seventh-order martial king.

In other words, the lowest cultivation base to enter the Thunder Sea is the cultivation base of King Wu. If it is lower than King Wu, it will be instantly blasted by the peripheral Thunder, but this does not mean that you can enter as long as it is above the realm of King Wu. King Wu's thunder tribulation is at most three nine thunder tribulations, but the thunder and lightning in this sea of thunder is endless, and it does not fall at all times. Therefore, people at the level of King Wu can only stay for a while outside of this sea of thunder. Really want to enter

This Thunder Sea is practicing uninterrupted training, at least at least the Emperor Wu.

Of course, to Qin Chen and his party, the peripheral thunder robbery was nothing.

Boom boom boom!

Thunders blew on them, Qin Chen and the others only felt that they were numb and did not suffer any harm, but a sense of vastness and vastness emerged in their minds. Moreover, as soon as Qin Chen and the others entered the sea of thunder, they felt a rustling and sad sound of whimpering in the sea of thunder. Even with Qin Chen's mentality, there was also a kind of faint sorrow. Endless withered bones

And the dead soul, to swallow him and drag him into endless purgatory. What a terrible Thunder Sea.

[Chapter 1992: Mad Demon Wudi](#)

In fact, if Qin Chen didn't have the blood of Thunder, or he had never experienced the terrible thunder tribulation along the way, it would really be difficult for his mind to stay awake forever in this sea of thunder.

But now he is of course not afraid, although he only has the cultivation base of the initial peak of the ninth stage, his mind is already extremely strong, even when he is crossing the catastrophe, the heart demon can hardly affect him. Except at the time of Emperor Wu's thunder tribulation, he experienced a heart demon tribulation, and he has never experienced it afterwards, because his soul is extremely strong, his will is extremely firm, and his bloodline is the thunder bloodline, ordinary Heart evil

To him, it was illusory.

Qin Chen uttered a long roar, and Thundering's bloodline turned slightly, his mind immediately cleared, and the sad whimpers around him instantly disappeared in Qin Chen's ears. What shocked Qin Chen even more was that when his thunder bloodline was running in this sea of thunder, he felt a little bit of ease, and he easily transferred the power of his bloodline to every part of his body. of

It feels like a person has come into the water from land, and the weight of his body suddenly becomes lighter.

Qin Chen was overjoyed immediately. It seemed that he had come to this sea of thunder. He had never found a way to integrate the power of blood into his body before. Maybe he could really do it in this sea of thunder.

The most important thing is to find a suitable retreat.

"How are you guys?" Qin Chen immediately looked at the three of You Qianxue. "It's a terrible sea of thunder." Both You Qianxue and Ji Ruyue's faces were filled with exclamation. They obviously heard the sad whimper, but this whimper is also nothing to them, Wei Wei Run the exercises or blood,

It can be easily removed.

This is because the will of the two is equally strong, as firm as a rock, if it is changed to an ordinary warrior, it will not be so easy. "But the thunder is the most masculine thing, representing punishment, representing the condemnation, like the fire of the sky, it should be able to purify all filthy things, but why is there such a sad whimper in this sea of thunder that affects the soul?" You Qianxue Face

There are doubts on it.

"This sea of thunder has always been so weird, what you said, many people in Wuyu have studied it, but there is still no conclusion." Fu Qiankun said with a smile.

He has been to this sea of thunder twice, and the power of thunder here naturally can't bring him the slightest influence.

"Then let's go."

Qin Chen's figure shook, causing a ripple in the endless thunder, and continuously swept toward the depths of the thunder sea.

As Qin Chen and his group entered, the thunder power inside was slowly increasing.

Qin Chen had the Thunder Sea map given by Ge Hongsen. Although this map was not the full picture of Thunder Sea, it could also point out his direction.

In fact, in the sea of thunder, a simple map cannot describe the position of the sea of thunder at all. It must be combined with space power and the tide of thunder in the sea of thunder to roughly distinguish the direction.

The thunder bloodline runs automatically, and the whimpering Thunder Sea around has become plain and ordinary, and the four of Qin Chen seem to be flying in a very ordinary but endless thunder light.

Everyone enjoys the feeling of flying in the sea of thunder, everything in the world is turned into nothingness, only the endless thunder light surging, there is a trace of vastness in the desolation, making people feel endless insignificance, and let people know the terrible way of heaven .

Here, everyone has a heart to yell up to the sky and vent their hearts.

"Kill..." A stern roar containing endless killing intent came from the top of the head, Qin Chen and the four suddenly stopped, and at the same time, a man wearing a khaki-colored military robe appeared in everyone's perception. At this time the martial robe on this man was already in tatters,

He wielded a saber in his hand, waving wildly all the way, as if there were countless enemies in front of him, but in fact, there was only endless thunder in front of him. The endless thunder light in front of him turned into masses of thunder light under his attack, which caused countless ripples. The masses of thunder light exploded, bursting out with an astonishing aura, but as others passed by, the previously exploded thunder light was already Under the surge of thunder sea

Restore so.

"Kill you, I'm going to kill you..." The man kept roaring, and the earth-yellow sword rolled up the regular light of the earth element, but there was nothing around him, and there was no obstacle.

He was like a madman, unconscious.

"What's wrong with Shao Chen?" You Qianxue took a breath, drew out a weapon in his hand, trying to stop the opponent from taking action.

"Let me come." Qin Chen stopped You Qianxue. As soon as he was about to step forward to catch the opponent, he saw that the man suddenly fell down, and the sword in his hand was also thrown out.

Zi Zi Zi...

After the man fell, the faint layer of true essence shield on his body was completely scattered, and then the whole person was instantly burnt black by the thunder light around his body, and his body crackled with fire.

"It's too late, he's already dead." Qin Chen was secretly startled, swept through his divine sense, and found that this martial artist had fallen, and there was no aura.

This is an early martial emperor who lost his mind in the sea of thunder, and finally died of exhaustion in the illusion of fighting Dao Zhenyuan. This cannot but be said to be a kind of sadness.

I don't know how long he has been fighting together, or how many attacks he has urged Zhen Yuan to perform. Rays of lightning kept falling on the emperor in this early stage. Gradually, the robe on the emperor's body was burned to ashes, and his body was gradually cracked. After dozens of breaths, he was still here before. This man has been

The thunder light blasted into pieces of scorched black fragments, and slowly scattered into the thunder sea. Lei Hai, as always, was like an endless ocean, and the man gradually disappeared. He was swallowed by the thunder light. Perhaps it would not be long before he would be wiped out. Everything about him would become nothingness, leaving only some storage. Quit

Refers to something that will not be destroyed by lightning.

In the void, the sword was floating there, being bombarded by thunder light again and again, and gradually drifting away. This became the only evidence that the man had existed before.

And maybe dozens or hundreds of years later, this sword will be destroyed under the endless thunder of the sea of thunder and become an obsolete weapon. After another thousand years, it will be completely ashes.

In the sea of thunder, only real imperial soldiers can be preserved for a longer period of time, survive in the long river of history, and witness the warriors who have appeared here. "This person was bewildered by the whimper in the sea of thunder, entered an illusion, and lost his reason." Qin Chen sighed softly.

[Chapter 1993: Suo Lei Array](#)

Lei Hai continued to churn, as always, Qin Chen stood in front of the Lei Hai for a long time, did not move, he did not fetch anything from this martial artist, that is, his storage ring and battle sword. Qin Chen did not move either. Look on the handle of the war knife

There is a word "Rong".

This may be the name of Emperor Wu, or it may have special meaning to him, but now, everything is not important. An early emperor Wu died in this thunder sea inexplicably. Maybe he was a famous person in front of him, or even a person in a certain place, majestic, maybe there was someone behind him waiting for him to go back, but now he

But he died in this endless sea of thunder, if it hadn't been for Qin Chen and his party to see it, perhaps no one would know that he died.

This also warned Qin Chen and the others to be extremely careful here. "Here, in addition to the terrifying power of Thunder, the mind is also extremely important. There are countless warriors who fall as a result of this every year, so once you find that you can't hold on, you can never go deeper, but you need to calm your mind.

Get rid of distractions. "Qin Chen said silently.

At this moment, You Qianxue and Ji Ruyue understand the terrible sea of Thunder. Although this place is a good place for experience, it is also a very dangerous forbidden place.

The few forbidden lands in the Martial Domain have nothing to do with each other.

"However, this place is not particularly deep. With this person, Emperor Wu's cultivation base should not be lost. What happened to him?" Fu Qiankun suddenly said with some doubts.

A trace of doubt appeared on Qin Chen's face.

The place where they are now is not particularly deep, and the Emperor Wu might find it difficult, but for Emperor Wu, it should not be lost to completely lose himself.

Qin Chen and the others continued to go deeper, and the deeper they went into the sea of thunder, the more people felt a faint shout lingering in their ears, like the roar of thunder in the sea of thunder, and like a desperate soul in purgatory. Lei Hai wept deeply.

Qin Chen and the others went deep for a long time before they understood why the person had been lost in the Thunder Sea before, because the invisible deceiving power in the Thunder Sea was many times stronger than when they came in. If you are walking alone, the feeling of loneliness and helplessness will gradually occupy your mind as long as you spend a long time in the thunder sea. The longer the time, the deeper the feeling. If you don't solve it, it will be finally broke out

, Even the stalwart people will get lost in this sea of thunder.

However, Qin Chen and the four were okay, and this level of feeling still couldn't affect their perception.

"I don't know if the changes in this sea of thunder have anything to do with the spatial seal!" Qin Chen and the others had a thought, but they quickly left it behind.

After half a day, Qin Chen and others finally came to a place.

This is a monstrous sea of thunder. The endless thunder light is surging, turning into a series of angry dragons, roaring.

This is the place where thunder light is extremely violent in the sea of thunder, but for Qin Chen, it is one of the best places to practice.

"I want to practice here, you can also find a place for your own practice based on your own situation."

After discussing with Fu Qiankun and the others, Qin Chen entered the thunder light.

Suddenly, waves of terrifying thunder light smashed Qin Chen's body, making Qin Chen feel tingling all over his body. The thunder light poured into his body, and the blood was surging throughout his body.

"It's a pervert." Fu Qiankun originally wanted to practice in this thunderstorm, but not long after he entered, he ran out dingy.

Although his strength is stronger than Qin Chen, he has never cultivated the Immortal Eucharist, does not have the bloodline of Thunder, and the resistance to Thunder is not necessarily stronger than Qin Chen, so he can only find another place.

As for You Qianxue and Ji Ruyue, they were also unable to enter the thunderstorm. The two of them were restricted by their cultivation bases, and the place they practiced was more gentle than that of Fu Qiankun.

During the thunderstorm, Qin Chen did not practice directly, but used the Tiankong Wanzhuan array disk and the mysterious forbidden air array beads to first arrange a lightning lock array.

With this lightning lock array, Qin Chen can continuously increase the power of thunderstorms without needing to go deeper into the sea of thunder, making his cultivation more comfortable.

Just as Qin Chen sat down cross-legged, just as he was about to cultivate, the small ants and small fires from the Universe Fortune Jade Plate suddenly heard waves of fluctuations.

"Why did I forget these little guys."

Qin Chen laughed and let out the little ants and the little fire. A group of gas-eater ants and fire-refining insects suddenly surging happily in this sea of thunder.

"Boss, we went to practice ourselves."

Under the leadership of Xiaoyi and Xiaohuo, a group of fire worms and gas-eater ants sank into the thunder sea.

Only then did Qin Chen settle down and began to urge Thunder's blood with all his strength.

Crackling!

Countless thunder lights suddenly appeared on his body, and in just a moment, Qin Chen was completely trapped in this sea of thunder, trying to spread the blood to every part of his body, and cooperate with the Immortal Eucharist to reach the legendary realm of no leakage.

one day!

Three days!

Ten days!

Half a month passed.

Cultivation in this Thunder Sea is indeed too strong, and in just half a month, Qin Chen has been able to spread the blood of Thunder to most of his body. But Qin Chen knows that this is far from enough, or even too far away. His goal is to reach the state of non-leakage, and the so-called state of no-leakage is not just to infuse the blood into most parts of the body, but needs Let the blood and the body thoroughly

Combination.

So after another half month passed without any changes in his physical body, Qin Chen immediately urged the Suo Lei Array to gather all the thunders here.

Only heard the endless thunder light roaring, the thunder thousands of miles around seemed to be furious, turning into a series of snakes, frantically gathering towards the location of Qin Chen. Suddenly, the thunderstorm area where Qin Chen was originally located turned into a thunder vortex. The power of the original thunderstorm was increased several times in an instant, and Qin Chen gritted his teeth and entered the thunder vortex. He knows that he can never change without life

Reaching the state of non-leakage, and he doesn't have much time.

Fu Qiankun and others were cultivating in the distance, and they were all taken aback when they felt the movement here.

Is Qin Chen crazy?

Suo Lei Great Formation completely locks that piece of thunder together. That terrifying thunder light is even more terrifying than the most terrifying heavenly calamity. If such thunder light strikes a person, the giant Wudi will be shattered and torn apart.

Is he cultivating or is he looking for death?

"Little dust..."

You Qianxue and Ji Ruyue clenched their fists, full of worry, murmured, praying silently for Qin Chen. "What a lunatic." Fu Qiankun shook his head, but didn't say anything. He also knew that no one could change what Qin Chen decided.

[Chapter 1994: No leakage](#)

At the center of Suo Thunder formation, as soon as Qin Chen entered the thunder vortex, a powerful spatial agitation immediately brought Qin Chen in. Only in the blink of an eye, Qin Chen's clothes were completely strangled into dust, and the skin on his body suddenly Cracked. His body, which had already cultivated to the eighth level of the Immortal Sacred Land, was unable to stop this terrifying tearing meaning. Compared to this thunderstorm vortex, Qin Chen knew that the tribulation he had passed through was nothing. Compared with the current one,

The power is even worse.

This is the real thunder anger, this is the amount of thunder violence that annihilates everything.

"If I can control this amount of violence? Wouldn't it be fearless of any top powerhouse?"

A thought came to Qin Chen's mind, but he quickly left it behind. Now his most important thing is to survive the thunder vortex.

The Immortal Eucharist had already urged Qin Chen to the extreme, but the feeling that the skin and bones of the body were about to be torn apart became stronger and stronger. At this moment, Qin Chen even wanted to escape into the Universe Good Fortune Jade Disc. He knew that as long as he entered the Universe Good Fortune Jade Disc, he would no longer be able to reach the Immaculate Realm in a short time, or even if he entered the Immaculate Realm in the future. , Psychologically

Leave a trace of cracks.

Qin Chen swallowed several healing pills one after another, the practice of the Immortal Eucharist was fully operational, the error was corrected, the essence and blood were purified, the body Google, and even the soul was strengthened one by one.

The most important thing is that Qin Chen is running the thunder bloodline frantically, using it to fight against this endless horrible thunderstorm vortex.

After a stick of incense, the feeling of tearing was still there, but it was completely different from when he first came in, and Qin Chen was pleasantly surprised to find that the power of his own blood had been integrated into more places.

Qin Chen's heart was immediately full of motivation. He knew that as long as he continued to persevere, once the bloodline power could diffuse to every part of the body, he could completely integrate the bloodline power with the body.

Three days later, Qin Chen's skin was still being taken away, the blood on his body was still losing, and even his bones were still broken. After six days, the rate of that kind of blood loss became slower and slower. At this time, Qin Chen was not only pale, his body also lost blood, and he had lost too much flesh and blood. But he closed his eyes tightly and kept holding different

Gestures guide the blood flow of the broken meridians and control the flow of true essence, allowing the blood to flow to every part of the body, it seems that the thunderstorm vortex that hurt him does not exist at all.

Nine days later, the blood on Qin Chen's body surface had completely stopped the splashing, and even the bones had not broken.

Twelve days later, Qin Chen's body wound started to heal gradually.

Fifteen days later, his torn skin also began to grow automatically. At this time, Qin Chen suddenly opened his eyes and swallowed a few pills, and at the same time suddenly increased the power of the lightning lock array, attracting more thunder.

These elixirs were prepared by him in advance, and they were all the top elixir in the Misty Palace Holy Medicine Garden. They were used at this most critical moment, and he stimulated the bloodline secret technique to make the bloodline power in the body crazy Bloom.

Crackling!

The endless thunder light bloomed, and Qin Chen began to guide the thunder vortex outside, pouring into his body to transform his body.

On the twenty-first day, Qin Chen's injuries not only disappeared completely, but his skin was as good as before, and it was more moisturized than before, only slightly darker. On the contrary, Qin Chen liked it better, giving people a masculine beauty.

On the twenty-fifth day, Qin Chen's bones all over his body made a sound, and the true essence flowed faster in his body. This kind of faint noise lasted for an hour. After the faint sound was over, Qin Chen suddenly opened his eyes, booming, and endless thunder light bloomed on him. This was a layer of thunder light that was very different from the thunderstorm outside, permeating his whole body and even the soul sea in his mind. Also bloomed silk

The thunder of silk.

A light of excitement flashed in Qin Chen's eyes. He knew that at this moment, he had integrated the power of blood into every part of his body. This was the body without leakage, and he actually reached the body without leakage. And Qin Chen clearly felt that his immortal body had broken through again. One reached the late stage of the eighth stage. Although there was still some distance from the ninth stage, Qin Chen clearly felt that his body's The intensity is shocked again

The promotion of people.

He suddenly stood up and stepped out. The thunderstorm vortex that could easily tear his twisted armor before, had no effect on him.

Even as Qin Chen stepped out continuously, the surrounding thunderstorm vortex split apart, as if the courtier had met the emperor and was frightened. The power of thunder in the sea of thunder was in awe of Qin Chen's body.

Qin Chen suddenly uttered a long roar, and he took the real yuan with both hands and pointed to the two sides. The thunderstorm vortex was separated by him and swirled away from both sides of him.

Qin Chen tried to mobilize the lock thunder formation to the greatest extent, and suddenly the thunder within a radius of thousands of miles was completely aroused and gathered frantically. The resulting scene seemed to be the end of the day.

Fu Qiankun and their cultivation stopped once again, staring at the thunderstorm position Qin Chen was in aghast, and then they heard Qin Chen's joyful roar.

"Successful."

"Did Shaochen succeed?"

The three of Fu Qiankun were extremely excited. Although they didn't know whether Qin Chen had succeeded, they all clearly felt the joyful emotion.

In the thunderstorm vortex, after Qin Chen urged the lightning lock array to the extreme, the thunderstorm vortex became even more terrifying, but at this time, no matter how the thunderstorm vortex strengthened, it would not be able to bring any harm to Qin Chen. Qin Chen knew from the movement of the true essence in his body that even if his cultivation level did not increase, but his body refining was promoted to the late eighth stage of the Indestructible Sacred Land, the power of blood was integrated into every part of the body, and it was already greatly reduced. His strength

Has been promoted. Although Qin Chen could easily kill the giant Emperor Wu before, without Lao Yuan's help, it was impossible to fight the peak Wu Emperor, but now even without Lao Yuan's blessings, he can still be like the Ji family ancestor. The pinnacle of

Emperor Wu confronted without worrying about falling into the wind. Qin Chen couldn't help but sigh. If he knew that the Sea of Thunder was so helpful to his cultivation, he should have been here long ago, but Qin Chen immediately understood that there are some things that can't be met, although he was given a lot of trivial things. Tied up

, Didn't come in the first time, but because of this, he had a deep enough understanding of the power of blood.

If he had arrived half a year earlier, he might not only be unable to cultivate into a non-leakage body, but at first he would be unable to hold on in the thunderstorm vortex, and would be completely torn apart and turned into powder. Fortune and misfortune depend on each other, who can fully understand?

[Chapter 1995: Soul split](#)

After successfully cultivating the Leak-Free Body, Qin Chen spent half a day adjusting, and did not leave the thunderstorm area, but sat cross-legged again.

Relying on various opportunities and the promotion of the Sea of Thunder, he finally cultivated his physical body to the non-leakage body.

However, it is not Qin Chen's real goal to cultivate into a non-leakage body. His real goal is to cultivate the soul from the body and free himself from the influence of parasitic seeds.

"If you want to practice the separation of the soul from the body, the **** cat said that it is best to do it through some special soul secret methods, otherwise, if a normal soul leaves the body, it will inevitably lead to the soul annihilation, and if one is not careful, the soul will be scattered."

"And now that I have completed the cultivation of the Wanshen Art, I can try to separate the soul from the body by practicing the first level of the Heavenly Soul Forbidden Technique."

Qin Chen's mind moved slightly.

At this time, his soul body already possessed the prerequisites recorded in the "Heaven Soul Forbidden Technique", and even exceeded it.

Although the Wanshen Art was not yet complete, the strength of Qin Chen's soul had reached the standard for cultivating the Heavenly Soul Forbidden Technique. "The last level of the Ten Thousand Gods Art is to divide the soul into thousands of powers. It seems to be powerful, but in reality, these thousands of soul threads are still under the control of the original soul. The Celestial Soul Forbidden Technique is different. If it is mine

The soul can really separate the soul, so it is not difficult to separate the soul from the body. "

"Once the separation of the soul is successful, even if the body is seized by the parasitic seed, I will have the opportunity to regain it."

According to Qin Chen's guess, the split soul was to a certain extent equivalent to his clone.

This has not appeared in the history of Tianwu Continent. The normal divine mind clone is made by using the spirit power of Emperor Wu, combining the blood and soul. It has a certain strength, but there is still a certain distance from the body itself. .

Qin Chen didn't know what kind of combat power he would have when his soul clone succeeded.

Perhaps it will give him some surprises.

Doing what he thinks, doing all the preparations, Qin Chen runs the Heaven Soul Forbidden Technique and sinks into the soul world.

This is a very dangerous soul secret method, Qin Chen's mind is calm, and he progresses gradually.

Three days later!

Qin Chen felt a pain in his soul.

His thunder soul body swelled slightly, and the size of his soul body exceeded Qin Chen's body, exposing his body, with several lightning bolts occasionally walking on it.

Originally, Qin Chen wanted to separate the soul from the body, and it was extremely difficult. The ordinary Wudi didn't know how to get the soul out of the body. However, Qin Chen had the heavenly soul forbidden technique and only needed to practice according to the heavenly soul forbidden technique, and everything would change. It's very simple.

Moreover, after Qin Chen's soul power oozes out of his body, Qin Chen finally understands why he must first let his blood flow into his body to achieve a leak-free body.

The non-leakage body means that the physical body has reached the state of non-leakage, and the power of blood is integrated into every part of the body, including the soul.

In this way, a trace of blood will naturally blend into the soul. First, it will cause the soul and the body to remain in contact forever. Second, the power of this blood will also protect the soul from external forces.

Otherwise, the human warriors are not aliens. Once the soul power enters the physical body as a separate individual, it may be instantly annihilated by external power.

With surprise, Qin Chen continued to practice.

Three days later, Qin Chen's soul body continued to expand, completely covering up his body.

In Qin Chen's soul sea, a dark and touching Qin Chen is extremely solid, with countless thunder tribulation marks swimming in it. This is Qin Chen's soul, and Qin Chen's body is inside, solidified. The soul is covered.

If others were to see Qin Chen's soul at this time, they would be shocked.

Qin Chen's soul body had become a foreign object, more solid than the peak of Emperor Wudi's soul, possessing terrifying power similar to that of a foreign demon race, and within it was the power of lightning.

As we all know, after the martial artist's cultivation base breaks through the Emperor Wu, he can cultivate the soul, but it is very difficult to truly cultivate the soul, and it is not something that can be done in a moment.

And Qin Chen's soul at this time, even the pinnacle Emperor Wu, could not compare.

"Awesome, what kind of soul secret is Qin Xiaozi practicing? His soul power at the moment, compared with the average lower demon monarch, is more unfavorable?"

In the jade disc of good fortune in the universe, Lao Yuan woke up and said in shock.

Qin Chen is just a human being, but the strength of his soul is comparable to that of an alien demon monarch, which is like a fantasy.

It should be noted that alien demons are inherently powerful in their souls, and Wudi, the peak of human races, cannot rob human bodies at will like alien demons. All this is due to the strength of alien demons soul.

And Qin Chen is only the first peak Martial Emperor. If his cultivation reaches the peak Martial Emperor, how terrible will his soul power be? I am afraid that the upper demons dare not say that they must be better than the opponent.

This is only the realm of Emperor Wu, what if this kid stepped into the holy realm? Isn't the soul power comparable to or even stronger than the devil?

Time passed slowly.

Qin Chen went on very slowly in the first level of "Heaven Soul Forbidden Technique". He was afraid that if he acted too hastily, it would cause the parasitic seed to change, and it would be broken.

Qin Chen's entire consciousness stayed above the soul, observing every change in the soul body in his eyes.

As long as there is an unexpected crisis, Qin Chen may stop "Heaven Soul Forbidden Technique".

At this time, Qin Chen's soul body has been swollen and deformed. He can't see the original appearance. The whole body is haunting Thunder, and because of the practice of the different demons, it has a trace of evil aura, just like evil spirits. same.

However, the Heavenly Soul Forbidden Technique is the most orthodox celestial soul secret method, which naturally brings a touch of sacredness.

The three powers merged together to form an amazing spectacle.

Whoops!

In the soul, the Thunder brand moved wildly, and from this it could be seen that Qin Chen's soul power was rapidly operating.

The intense tearing sensation of the soul also impacted Qin Chen's consciousness all the time.

"Critical step!"

Qin Chen's nerves were tense, and he dared not neglect the slightest.

Boom!

In the center of Qin Chen's dark soul body, a lighter purple area appeared, and the lightning marks that wandered past here were fresher, like a physical lightning creature.

A piercing pain occurred in Qin Chen's soul consciousness, and the face of his soul body was twisted like a horrible evil ghost.

At this moment, Qin Chen's soul had already begun to split.

"Cut!" Qin Chen suddenly shouted in his heart, running the techniques in the Heavenly Soul Forbidden Art, and suddenly a terrifying force was born on the soul body, and it smashed into the center of Qin Chen's soul body.

[Chapter 1996: Divine Soul](#)

Tear!

Qin Chen's virtual image is flowing like smoke, which is split from the top of his head, and is continuously split along the center under the cutting of this force.

"Ah!" Pain, extremely severe pain, for a moment Qin Chen felt like his body was split in half. The feeling of being torn apart was so clear that it directly affected Qin Chen's soul. Above, even more than the flesh is torn

The pain caused is ten times stronger, a hundred times stronger. "It hurts, ah!" Qin Chen felt that his mind was trembling, and the whole person had the urge to collapse and faint. This was the defense of the soul and consciousness instinct, and the emptiness of mind power that opened up the soul. It's also constantly trembling, faintly

The feeling of falling apart.

Divine Sense is composed of consciousness. If you can't bear the pain and your will is not firm enough, then consciousness will collapse, and Divine Sense Scimitar will naturally collapse, and the first stage of the Soul Forbidden Art will be considered a failure.

What is even more frightening is that Qin Chen has now begun the cultivation of the Heavenly Soul Forbidden Technique, and his own soul power has been slashed, and he cannot stop it in the middle. Once it stops, the damage to the soul can no longer be restored.

"Give me condensed, cracked, cracked, cracked!" When his consciousness was about to collapse and his divine power was about to collapse, Qin Chen endured the pain and made his consciousness clear. At this moment, his strong will finally became prominent. The faintly trembling divine power once again condenses, under Qin Chen's control

Under the system, continue to tear apart the soul power.

"what!"

Qin Chen snorted, bleeding from Qiqiao.

The soul is the foundation of everything, and the pain of dividing it into two can be imagined.

While tearing his own soul apart, Qin Chen used the healing technique in the Heavenly Soul Forbidden Technique to relieve the pain of the soul.

Moreover, Qin Chen used the Ten Thousand Gods Art to turn his soul into inexhaustible power, and healed the torn soul continuously.

At this time, Qin Chen unexpectedly discovered that the combination of these two discoveries had an amazing therapeutic effect.

What surprised Qin Chen even more was that when he was operating the Nine-Star Divine Emperor Jue, the true essence power created by the Divine Emperor Jue actually had a slight healing effect on the torn soul.

Hiss!

The center of Qin Chen's soul body gradually split into two halves, and countless lightning marks almost burst from it.

In this way, every time Qin Chen used the Heavenly Soul Forbidden Technique, tore his soul apart, and then used the Wanshen Jue and the Nine Star God Emperor Jue for repair and treatment.

This cycle, three days passed.

puff!

Qin Chen's originally thick and solid soul finally split into two halves, forming two groups of spirit powers that floated separately.

"Successful, unexpectedly successful."

Lao Yuan had been staring at Qin Chen during the whole process, and suddenly let out an exclamation. Divine and soul are divided into two points, which is too defying. Although the soul power of alien demon people is very powerful and terrible, they can take away the strong human race at will, but this is only the soul of the individual. Lao Yuan has never heard of any alien demon. Clan people can do two things

Divided into two different soul bodies.

Qin Chen is the first one.

After the two souls were torn apart, one of them was condensed into a human form, suspended in the depths of Qin Chen's soul sea, while the other was squirming, as if to reintegrate into the soul sea and merge with the soul power of the other half.

"go with!"

Qin Chen's consciousness let out a cry, and instantly pushed that half of his soul out of his body.

Divine spirit out of the body!

Hum!

Qin Chen felt as if he was divided into two people at once, and it was as if one person had two consciousnesses, one in the flesh, and the other appeared floating in the sea of thunder.

"It's cold!" The thunder light surging in the sea of thunder should be hot and violent, but as soon as half of Qin Chen's soul left his body, he felt as if he had come to the ice and snow naked, his whole body was shaking, and he was about to freeze to death at any time. ; And it seems not

The drowning swimmer fell into the vast sea under the squally rain, and the waves were overwhelming, full of helplessness and despair.

This feeling is very uncomfortable and hopeless.

"My soul is out of the body, which is equivalent to that the soul of the alien demon race is out of the body. It turned out to be such a feeling." Qin Chen felt the soul out of the body for the first time, and then realized that the feeling of the soul out of the body was not. Fortunately, any trace of external power at the level of individual spirits will be magnified a thousand times, ten thousand times, no wonder the souls of those alien demons leave the body

Later, I couldn't wait to find a new body, because it felt too uncomfortable.

And Qin Chen had a feeling that if an early Wudi made a hand on him at this moment, he might wipe out this half of his soul.

The soul is too fragile in isolation.

Of course, once you have practiced the Heavenly Soul Forbidden Technique to the extreme, according to the records in the Heavenly Soul Forbidden Technique, the soul can even be so powerful that it can be transformed into an entity and go out to fight. That is another level.

Perhaps in the heavens, there is such a strong existence.

The top priority is to stabilize one's soul first.

Qin Chen didn't dare to be careless, although he felt extremely uncomfortable and terrifying, the whole person had a kind of conflict that wanted to dizzy and faint, but he immediately recalled the calming technique in the heavenly soul forbidden technique, calmed his mind, and then tried his best to stabilize another. Half of the soul. At this time, the benefits of the impervious body are fully manifested. Because the power of the blood is contained in the soul power, the half of the soul that has been divided out shines in the thunder sea, quickly stabilized, and the cold feeling is also fast

It was swept away.

Qin Chen divided the soul into two halves and cultivated the two parts of the soul separately to heal the damage caused by the split of the soul.

Three days later.

Qin Chen's two souls were replenished, and the feeling of pain disappeared. This is the soul that healed under the secret method of the heavenly soul forbidden technique.

"Now let the two souls merge again."

Then Qin Chen merged his split soul together again.

Suddenly, with a boom, the soul in Qin Chen's mind surged, and the two souls instantly merged into one, turning into one soul.

It can be seen from the naked eye that after the fusion of the two souls, the soul finally formed is actually 30% larger than the original Qin Chen's soul, which is more solid and terrifying.

"The soul of this kid Qin has risen so fast, this is close to the soul power of the middle demon."

Lao Yuan took a breath.

It was only three days, Qin Chen's soul power actually skyrocketed by 30%, how did he do it?

It must be understood that the improvement of soul power is extremely difficult, not to mention that it is three times, even a trace, it takes years or even decades of hard work.

But Qin Chen had improved by 30% in just three days, and he was also abnormal. This speed, even the top genius in the alien demon race, was far beyond compare. Is this guy going against the sky?

[Chapter 1997: You kill me](#)

Although Qin Chen was also surprised, he was not too shocked, because he knew that this was the first time the effect of cultivating the Heaven Soul Forbidden Art.

The first split of the soul will cause the split soul to supplement and grow alone. It is absolutely impossible to have such a speed in the future.

Unless he cultivates the second level of Heavenly Soul Forbidden Technique, his soul will be improved again by then.

"Try to get out of the body."

The two souls merged, Qin Chen subconsciously let his soul leave the body, and suddenly, the huge soul suddenly jumped out of Qin Chen's body. Qin Chen's body lost the support of the soul and was suspended in the sea of thunder. Chen stood proudly in the thunder sea, staring at the body below him.

After fusing the two souls, Qin Chen's soul power has only increased by 30%, but his soul is even more perfect. The previous feeling of cold and loneliness has been eliminated several times at once, and he can swim in this thunder sea.

"Successful."

Qin Chen's eyes flickered with excitement.

"Awesome, wandering in the thunder, this is something that even the upper demon king can't do, even the strong demon master is dangerous, but this kid Qin did it. His future is unlimited. Xiao Hei is really Find me a good place to belong."

Lao Yuan felt Qin Chen's soul power, and was shocked secretly.

Thunder, magnanimously strong, represents punishment and possesses the power of destruction. Many people know that ghosts are afraid of sunlight and flames, but in fact, the damage of thunder to souls is even more terrible than sunlight and flames.

There are some top alien demons whose souls can fly by under the scorching sun and survive in flames. However, there are very few alien demons who dare to swim under the thunder. The power of destruction is enough To destroy their soul power deep in the source.

But Qin Chen did it.

Although Qin Chen himself had the blood of Thunder, it also showed that Qin Chen himself was terrible.

Although his soul strength can only be compared with the ordinary middle-ranked demon at present, in some respects, it is even more terrifying than the upper-ranked demon.

At least, Lao Yuan could feel that in this sea of thunder, its source beast's power has also been greatly suppressed. If it rashly appears in this sea of thunder, it will inevitably be wiped out, fearing the might of life.

Qin Chen separated the soul from the body, tried for a long time, and became thoroughly familiar with the soul. It was not until the soul was almost too much to bear in the thunder sea that he returned to the body.

Suddenly a feeling of stagnation passed, and Qin Chen suddenly realized that his body seemed to be under control, as if he was wearing an unsuitable dress, his actions were extremely jerky and uncomfortable.

what happened?

Qin Chen turned his True Essence, and suddenly realized that the operation of True Essence was also a bit stagnant.

"You are the soul that has left the body for too long, which has caused some problems in the fit between the soul and the body. You only need to be familiar with the exercise for a while." Lao Yuan's voice came.

"Moreover, your current soul cannot leave the body for too long for the time being. Once the soul leaves the body for too long, your body loses support and will enter a state of brain death. At that time, even if your soul comes back and wants to recover completely, Need more energy."

Qin Chen heard this, secretly awe-inspiring, there is still such a thing, it seems that he has to be careful in the future, not long after he left, there was a sense of jerky in his body, and he started to operate the Nine Star God Emperor Art and the Immortal Saint. body.

Hum!

In just an instant, the invisible power filled the whole body, the sense of stagnation in the dark disappeared, and the body returned to its free state again.

"Damn, you recovered too quickly!"

Lao Yuan's eyes were staring, and he said aloud. As soon as he finished speaking, Qin Chen had completely mastered the physical body once again, and the speed of mastering the physical body could not be matched by the upper demon king.

"Is it soon?" Qin Chen was puzzled. He urged the Nine Star God Emperor Jue and the Immortal Eucharist, and naturally became familiar with the flesh again. He himself was a little surprised and thought it would take some time.

"Of course it's fast." Lao Yuan was speechless, "Normally, even the upper demon requires a certain amount of time to get acquainted with the flesh, and your speed is faster than the upper demon."

It seems that the Nine Star God Emperor Art and the Immortal Eucharist also have miraculous effects in terms of spirits.

Qin Chen's heart moved.

"In this case, it's time to solve the problem of parasitic seeds."

But he didn't think too much, but stared at the parasitic seeds in his mind and suddenly made up his mind.

call!

He walked out of the thunderstorm in an instant.

As soon as he appeared, Fu Qiankun, You Qianxue, and Ji Ruyue quickly gathered around and asked excitedly: "Little dust, how is your Immaculate Body practice?"

Qin Chen smiled slightly and said, "Everything is as expected."

"Success?"

Everyone was extremely excited, You Qianxue and Ji Ruyue grabbed Qin Chen's left and right hands at once, and the joy was even stronger than that of breaking through.

hiss!

Fu Qiankun also took a breath of air, the state of no leakage, he had only seen it from ancient books. To reach this state, the difficulty is unimaginable, even in ancient times, only a few top masters can reach it.

And in this life, even if he was the former president of the Holy Land of Blood, he had never reached the state of innocence, but now Qin Chen has actually reached it.

incredible.

"You kid..." Fu Qiankun looked at Qin Chen, shook his head, and was speechless. After holding back for a long time, he said: "Look back and talk to me about how you broke through the realm of non-leakage. Grandma's, I'm not a breakthrough. No."

There was energy in his heart. Why Qin Chen could break through, he couldn't break through, and he was not much worse than Qin Chen.

"Little dust, what about your parasitic seeds?" You Qianxue looked at Qin Chen nervously.

"That's what I said when I came out." Qin Chen's expression became solemn, "After a while, I will try to break through the mid-term martial emperor realm. By then, the parasitic seed will definitely fight me, and I will fight the parasitic seed for the flesh. , If you win, then everyone is happy, if you lose..."

Qin Chen looked at Fu Qiankun's three people suddenly, "You will kill me!"

Ji Ruyue and You Qianxue suddenly exclaimed: "Little dust!"

There was panic in their eyes.

"I'm serious. If I lose, I must be killed. Although I don't know what I will become after being seized by a parasitic seed, I believe that I will definitely become a running dog of the alien race. At that time, Tianwu Continent will be over." Qin Chen's expression was extremely serious and solemn as never before.

"There is little dust, can't you wait any longer?"

Ji Ruyue and You Qianxue are extremely anxious, this is too risky.

[Chapter 1998: Mid-term Wudi](#)

"Can't wait any longer." Qin Chen shook his head, "If I haven't broken through, I will be dragged farther and farther by Shangguan Xier and Feng Shaoyu, so I must break through as quickly as possible. Secondly, this sea of thunder contains the power of thunder. Lao Yuan said that this place has a strong suppressive effect on parasitic seeds or alien demons. The right time and place are here. There is no need to hesitate because of risks."

"Since there is such a day sooner or later, it might be more appropriate to be in this sea of thunder."

Qin Chen is very resolute, he is the kind of person who will resolutely execute once he is determined.

"But..." Ji Ruyue and You Qianxue were still a little nervous.

"Don't worry, kid Qin Chen, if you really become a running dog of the alien demon, I will kill you as soon as possible."

At this time, Fu Qiankun looked over seriously, his voice was heavy, but he didn't joking at all: "You can rest assured to break through."

"Thanks."

Qin Chen patted Fu Qiankun on the shoulder.

"Don't make it the same as life and death. Even Death Canyon can't kill you. I don't believe that this little parasitic seed will kill you." Fu Qiankun curled his lips and looked indifferent.

"Qianxue, Ruyue, don't worry, I am sure to do this." Qin Chen looked at Ji Ruyue and You Qianxue again, and smiled slightly.

"Little dust, go, we will wait for you."

Ji Ruyue and You Qianxue looked at Qin Chen silently and said firmly, neither of them wanted to put too much pressure on Qin Chen.

Qin Chen smiled slightly, and immediately cross-legged in the thunder, swallowing a few pills, and began to fully operate the Nine Star God Emperor Art, attacking the mid-term Martial Emperor realm.

Hum!

A trace of invisible terrible fluctuations filled Qin Chen's body.

In fact, Qin Chen has already had the accumulation of the Martial Emperor in the middle of the breakthrough, but he has not dared to break through because of the parasitic seeds. Now, he is actively

urging the Nine Star God Emperor Art, and the power of invisible rules begins to descend instantly. Enter the realm of Emperor Wudi in the middle.

Rumble!

In the heaven and the earth, there is an aura of invisible rules condensed, and the power of mighty rules lingers around him, forming a regular vacuum zone.

Although Emperor Wu won't cause the thunder of heaven and earth in the middle of the breakthrough, Qin Chen is so special that he still attracted a special vision.

When all the power of the invisible rules was integrated into Qin Chen's body, pushing Qin Chen's body to the middle stage of the ninth stage, with a hum, the parasitic seeds in Qin Chen's mind suddenly rioted.

Bang bang bang...

The golden parasitic seeds beat frantically, and every time it beats, it exudes a terrible power. This power poured into Qin Chen's body, gradually changing Qin Chen's body.

Moreover, golden tentacles appeared, and instantly submerged into Qin Chen's soul sea, and a wave of evil power gradually penetrated into Qin Chen's soul sea, gradually controlling Qin Chen's soul sea.

A strand of unique power continuously merged into Qin Chen's body.

"Little Qin Chen, the parasitic seeds are gradually taking away your soul sea." Lao Yuan's voice came.

"I know." Qin Chen nodded. He previously guessed that when he broke through the mid-term Martial Emperor, he would inevitably be seized by the parasitic seed. He didn't expect it to be true. He felt that when he broke through the mid-term Martial Emperor, this parasitic seed was completely When seizing him.

He is still waiting.

Wait for the moment when the parasitic seed completely seizes oneself before launching a Jedi counterattack.

"It seems that you are going to fight back at the last moment. If this is the case, you must get the power of this parasitic seed. You can try to feel its power, absorb it, and merge." Lao Yuan said suddenly.

Qin Chen originally wanted to resist this force, but now when he heard Lao Yuan say this, he moved in his heart and asked, "What's the use?"

"If you can resist the seizure of the parasitic seed, but completely absorb the parasitic seed, your cultivation base will go straight to the upper demon, but your path forward will only stop there." Lao Yuan said, "this I do not recommend you at all."

"However, the golden parasitic seed is the core of the birth of the Chaos Demon Nest. It contains the perfect will of the Chaos Demon Nest. If you can comprehend the true meaning of the power of this parasitic seed, you may become the co-lord of the alien demon race and understand the difference. The

reincarnation and rotation of the life of the demon clan touches the level above the demon lord...that is, the level of the demon lord!"

"In the Continent, the Golden Parasitic Seed also has a title, that is, the Demon Lord Seed. Because of the power it contains, the alien demon race can reach the level of the Demon Lord."

"Of course, you are a human being. Even if you understand the power of the golden parasitic seed, you can't suddenly become a powerful demon master, but it will still be of great help and will be of great benefit to your future path. "

"Keep a glimpse of the world, this will be your life's wealth."

Qin Chen was shocked, there is still such an effect?

The demon master is the top powerhouse in the alien demon continent, at least equivalent to a holy realm master, even Qin Chen guessed that it might be more terrifying than ordinary holy realms.

If you can come into contact with a trace of power at the Demon Lord level, even the power of the alien demon race, it will definitely help you break through the holy realm in the future.

As a result, Qin Chen immediately settled to feel the power in this parasitic seed.

Under Qin Chen's initiative, the parasitic seeds invaded Qin Chen more quickly, and the powerful force contained in it instantly poured into Qin Chen's body.

boom!

As if some shackles were broken in Qin Chen's body, various crackling sounds came from his body, and a terrible breath was released from his body.

Rumble!

The world is shaking, and the invisible power is permeating.

"Mid-term Wudi, Chen Shao has broken through the mid-term Wudi."

Outside, Ji Ruyue and others were extremely nervous.

Fu Qiankun was also nervous and worried. Don't look at the lightness he said before, but he really had to face it. He was nervous like someone, even worse than Ji Ruyue and You Qianxue.

"Kid Qin Chen, you must be successful, damn, I want to really kill you, your two daughters-in-laws won't kill me." Fu Qiankun muttered silently.

"Also, your former woman, Shangguan Xi'er, is a devil. Without you, you let me do it all by myself. I have a guilty conscience."

"Be sure to succeed."

Fu Qiankun chirped crookedly and kept talking, causing Ji Ruyue and You Qianxue to become more nervous.

At this moment, Qin Chen's body was enveloped by layers of invisible black light. From his body, an extremely evil aura was exuded, as if, at this moment, he was incarnate as the demon of ten thousand demons, the demon lord of heaven and earth, that This feeling is very uncomfortable.

And at the moment Qin Chen broke through the mid-term Emperor Wu -

boom!

The golden parasitic seed in Qin Chen's mind was radiant, suddenly turning into a golden light, going into the depths of Qin Chen's soul sea and completely occupying Qin Chen's body.

[Chapter 1999: Clone](#)

This is the time.

At the critical moment, Qin Chen's soul suddenly separated, and suddenly escaped from the soul sea.

Moreover, at the moment of being separated from the body, Qin Chen spurred the demon fire of Qinglian quickly, and the horrible demon fire of Qinglian quickly turned into a sea of flames, shielding Qin Chen's soul from the sea and preventing the invasion of parasitic seeds. .

The golden light emitted by the golden parasitic seeds collided with the flames released by the green lotus demon fire instantly.

With a bang, the power of the Qinglian Demon Fire still failed to stop the golden parasitic seed. The golden seed turned into a Rubik's Cube in an instant, running dense aura and power, and instantly broke through the blockade of the Qinglian Demon Fire and entered Qin Chen's soul sea.

Suddenly, Qin Chen was full of demonic energy, and a burst of dark demonic energy was released from his body, and the whole person was demonizing.

However, in the process of demonization, his body was not suppressed by the Tianwu Continent's rules of heaven at all, because his body was the flesh of the Tianwu Continent, and he had practiced the techniques of the alien demon race. In the imperceptible way, he has become two A special existence that can cultivate freely in this world.

On the Tianwu Continent, even after he was demonized, he would not be suppressed by the Dao of Heaven.

"Perfect demonized physique." Lao Yuan said in shock.

"What is this?" Qin Chen's soul power left his body, clearly feeling the changes in his body, and could not help asking when he heard what Lao Yuan said.

"Your body is a perfect demonized physique. This is the physique that alien demons dream of. As long as alien demons get your body, they will instantly return to their peak strength without any bottleneck."

"And depending on the level of the parasitic seed, the power that can be accommodated is also different. For example, the silver parasitic seed represents that after the upper demon seizes the home, he can instantly restore his peak strength, and yours is the golden parasitic seed, which is even more

terrifying. It means that even if the demon master seizes your physical body, it can be restored to a realm close to the peak, and the entire Tianwu Continent will fall into ruin in an instant."

Old Yuan's tone was shocked: "Awesome, indeed...Which genius came up with this?"

I have to say that the person who can come up with such a plan is definitely a genius in the alien demon race.

"It turns out that this is the plan of the ancient southern capital."

Qin Chen also reacted instantly and understood Gunandu's plan. This basically made the genius disciples of their human race as the furnace of the powerful aliens.

The intention is so sinister.

"boom!"

The moment the parasitic seed entered Qin Chen's soul sea, Qin Chen's strength immediately rose.

Mid-term, mid-term peak...

Parasitic seeds are improving Qin Chen's cultivation

"You can't let it improve your cultivation. Once the parasitic seed increases your cultivation, it will be completely integrated with your physical body, and it will be difficult to regain the flesh." Lao Yuan's voice was eager, "Secondly, even if it is You regain it next. Once the cultivation base is raised too high, your future will be finalized and there will be no possibility of any further improvement."

When Lao Yuan drank anxiously, Qin Chen's spirit had already moved.

Heavenly Soul Forbidden Technique!

boom!

His soul turned into a stream of light, re-entered the body, and submerged in the soul sea.

Suddenly, a huge repulsive force was repelling Qin Chen's entry, which was the power of parasitic seeds.

But how could Qin Chen succumb? His soul power turned into an invisible sharp cone, rushing into the soul sea strongly, and crazily intertwined with the power of the parasitic seed.

Hum!

Outside, half of the light on Qin Chen's body was pitch black, and the other half instantly turned milky white, as if forming a Tai Chi diagram, and the two forces of Yin and Yang were clashing.

"Kid Qin Chen is regaining his body." Fu Qiankun whispered, hands clenched, and looked at Qin Chen nervously, sweat oozing from his forehead.

"Senior Fu, can Shao Chen succeed?"

"Don't worry, if Qin Chen dare to do this, he must be sure and will succeed." Fu Qiankun said firmly, but the tension in his eyes could not be concealed.

The timing of Qin Chen's invasion was just right, and the Parasitic Seed had just taken his physical body and had not yet fully integrated, and counterattacked the Parasitic Seed.

Boom boom boom!

Qin Chen frantically urged the Wanshen Jue and the Heavenly Soul Forbidden Technique, and a wave of terrifying soul power madly stormed the inside of the parasitic seed.

The parasitic seed struggled frantically and counterattacked Qin Chen, but the parasitic seed at this moment had already seized Qin Chen's soul sea, which prevented it from effectively attacking Qin Chen's soul power. Instead, it was Qin Chen's soul. Can keep wiping out the consciousness of parasitic seeds.

This is what the **** cat said.

Regardless of how strong the parasitic seed is, in fact, the most terrifying thing about it is that it can instantly take away a person's soul and body, no matter how strong the person's cultivation is, under the subtle influence of the parasitic seed, as long as it can't do it. The soul is separated, and the parasitic seed can take it away in an instant.

Once the home is seized, it is over, and there will be no room for resistance after being controlled.

But as long as you cultivate to the realm of divine and soul separation, once you wait for the parasitic seeds to seize the physical body, you can counterattack, and the strong person who has reached the divine and soul separation state, the physical body has reached the realm of no leakage, this person can use the soul The bloodline power merges with the physical body, repelling the parasitic seeds.

Regardless of how strong the parasitic seed is, even the golden parasitic seed cannot give birth to true consciousness in a short period of time, and it is easy to be rejected by the strong who can separate the soul from the body.

Crackling!

I saw countless lightning rays blooming in Qin Chen's body. Under the bombardment of Qin Chen's soul power, the parasitic seeds struggled unwillingly, but Qin Chen was repelled out of his mind a little bit.

The parasitic seed is the most perfect seizure for the first time. Once it is rejected, it will not be able to seize the second time.

The whole process can be described as thrilling. Under Qin Chen's frenzied rejection, the soul power's desperate attack. I don't know how long it took. A pitch-black seed was instantly repelled by Qin Chen. Qin Chen screamed and flew out.

Qin Chen's soul returned instantly, occupying the soul sea and body again.

The Nine Star God Emperor Jue and the Indestructible Eucharist revolved, and Qin Chen regained the dominance of his body in just an instant.

"Tweet!"

Outside Qin Chen's body, the golden parasitic seeds turned into a group of pitch-black twisted creatures, screaming in anger to leave.

"Don't let it go!" Lao Yuan said anxiously.

"rest assured."

As soon as Qin Chen regained his body, he used a powerful soul cage to instantly envelop this terrifying twisted creature.

"The parasitic seed is the most perfect carrier. Now it only has a trace of instinctive consciousness. You can seize it with a trace of soul power, and this parasitic seed will become your clone of an alien race, and it is the most perfect alien. The demon clone possesses all the power of the parasitic seed, creating unlimited possibilities."

Lao Yuan's voice was trembling, as if talking about an unprecedented event.

[Chapter 2000: Second body](#)

Alien clan clone?

Qin Chen was surprised, there is still this kind of operation? He just instinctively didn't want this parasitic seed to escape.

But Lao Yuan excitedly said: "Yes, it is the clone of the alien demon race, and it is the most perfect clone. The parasitic seed is born from the Chaos Demon Nest, especially the golden seed, which is the most perfect alien species of heaven and earth, with the strongest talent of the alien demon race, this is also the reason why the golden parasitic seed is called the demon master fate in the alien demon continent. As long as you can turn this parasitic seed into a clone of yourself, you can have two flesh bodies with endless good fortune."

"Ordinary people may not be able to do this, but you have previously achieved two souls, representing two different individuals, and can exist alone."

Lao Yuan was even more excited than Qin Chen.

"Unexpectedly, this parasitic seed has such other uses?"

Qin Chen was surprised. Alien Demon Clone, Qin Chen just thought about it, and was inexplicably excited. If he really had a Alien Demon Clone, not only would he be able to penetrate into the Alien Demon Clan, it would also mean that he had one more life. .

How can you miss such a good thing?

"How to do it?" Qin Chen asked immediately.

"First obliterate this parasitic seed's own will." Old Yuan said.

Obliterate the will?

Qin Chen's eyes flashed, and the green lotus demon fire was mobilized for the first time, and a sea of cyan fire immediately wrapped the parasitic seeds, struggling and roaring painfully, as if a dark evil twisted.

"Qinglian Demon Fire is not enough!"

"Thunderblood!"

"The power of destruction!"

Qin Chen urged his blood, and the horrible blood suddenly turned into thunder, enveloping the parasitic seeds. The pitch-black seeds struggled painfully, rushing from left to right, trying to escape from Qin Chen's encirclement, but after leaving Qin Chen's soul sea, How could a simple parasitic seed be Qin Chen's opponent? Under the constant erosion of Qinglian Demon Fire, the instinctive "evil" in the parasitic seed suddenly screamed and disappeared.

In the void, a seed is floating. When you look carefully, this seed contains endless possibilities, like the embodiment of heaven and earth, and the carrier of rules.

"Now use your soul clone to blend into this seed and become your clone." Lao Yuan said again.

Hum!

The power of the humanoid soul in Qin Chen's mind split instantly. This is the Heavenly Soul Forbidden Technique, and thanks to Qin Chen's cultivation the first stage of the Heavenly Soul Forbidden Technique early in the morning, the soul is divided into two points. Otherwise, if he cultivates now, it must be too late.

Once the parasitic seed loses its soul, it will have a limited time in this space. If it is not seized in time, it will dissolve in the world and be assimilated by the rules.

An empty humanoid shadow came out of Qin Chen's body, hum, and stepped forward towards the parasitic seed, but the parasitic seed regressed infinitely and turned into a small spot.

Space rules?

Qin Chen couldn't help being surprised. Didn't it mean that the parasitic seed had lost consciousness, it was just a carrier?

"Don't be confused by foreign objects, listen to your heart." Lao Yuan said.

Qin Chen nodded, he closed his eyes, closed his soul perception, and looked at it with his heart.

Suddenly, he realized that his eyes and perception had indeed deceived himself, because the parasitic seed was clearly still in place and did not appear at infinity. He continued to walk over, and then, like a demon of the heart, there were countless reveries in his heart. The soul is crushed.

This is the instinctive resistance of the parasitic seed, which magnifies the evil of the human heart infinitely.

Suddenly, the mountain wind roared, and there was a crisis in front of Death Canyon. Shangguan Xier and Feng Shaoyu raised their eyes to the sky and laughed, their eyes stern.

With the dying eyes of his mother, Qin Yuechi, he was in danger somewhere in the mainland, desperate to survive, so he couldn't search hard.

There is the temptation of stunning beauties, countless women wearing silk satin, tulle and blue silk, walking naked, enchanting and charming.

There is also the supreme throne of the mainland, in charge of all things in the world and life and death.

There are even alien demons descending on the mainland, destroying everything, causing the Tianwu Continent to fall into eternal decline, causing a doomsday scene like the collapse of the sky and the earth.

But Qin Chen just sticks to his heart and is not shaken by foreign objects.

After more than a hundred steps, he finally came to the eyes of the parasitic seed.

He stretched out his hand and pressed his hand to the parasitic seed, and the change suddenly occurred.

The parasitic seeds swelled suddenly and turned into dense small holes, like a Rubik's Cube, just in that moment, as if it became bigger than the world.

No, every small hole is like a world, containing everything, and each small hole is a rule that derives everything.

Qin Chen has a clear understanding that parasitic seeds can give birth to infinite rules and incarnate a universe.

However, in the next instant, the parasitic seeds shrank endlessly, becoming thinner than the tip of a needle, turning into dust, but still composed of numerous small holes.

The size is up to your heart, and the changes are endless.

This is the most original core of the birth of the Chaos Devil's Nest. It can be regarded as a seed, naturally small and pitiful, but when the seed grows, it can grow a whole new world.

Qin Chen felt it with his heart and released his soul power into it, so that the parasitic seed could recognize the master and become one.

The parasitic seed grew from a very small size again, and turned into a Qin Chen-like human form, instantly wrapping half of Qin Chen's soul in it, and then no longer changing, a dead silence.

However, within the parasitic seed, there were earth-shaking changes, countless rules poured into Qin Chen's split-up soul body, a kind of nascent power revived in Qin Chen's body.

This is the power of life and the beginning.

In the end, the parasitic seed slowly squirmed and turned into another Qin Chen, which looked very similar to Qin Chen's appearance, but had the unique characteristics and temperament of the alien demon race.

"Successful!" Lao Yuan said excitedly.

Qin Chen finally breathed a sigh of relief aside, and the two Qin Chen showed the same expression.

"Qin Xiaozi, how do you feel?" Lao Yuan laughed: "Although the parasitic seed is your clone, it is actually one with you. The clone created through the parasitic seed never has to worry about resisting and getting out of your control. You should be able to feel that although your soul is divided into two, it is still that one."

"Can the clone resist?" Qin Chen was surprised.

"This is nature." Lao Yuan explained: "In our Continent, some top powerhouses can use the origin to create clones, and then brand their soul will into it to form independent individuals."

"Although this avatar obeys the order of the ontology, there is a separate thinking between the two."

"If the clone is too powerful, the clone may be out of control in the event of an accident in the main body."

"In my world of different demons, something like this happened: I once separated from the clone of a certain strong man, and returned after a thousand years, killed the main body and replaced it."
