### [Chapter 2091: Mysterious Rust Sword Recovery](#)

"what?"

Qin Chen was surprised, showing a look of surprise.

This Xu Shaotian really had two effects. Together with the other masters of the Di Zhen Pavilion, the power of the formation that was refined was nearly twice as terrifying as the previous single Heaven and Earth Killing Game. No wonder the other party was so confident.

Boom!

The invisible murderous force surrounded Qin Chen, like a cloud of pervasive smoke.

Moreover, Xu Hantian displayed his own space domain for the first time, and a terrifying space rule, together with the murderous intent of the formation, double blessed Qin Chen.

What is the giant Wudi?

If you want to break through the later stage of Emperor Wu, you must reach the realm of Xiaocheng based on the understanding of the rules of space. At this realm, the martial artist can form a space domain and suppress his opponents with a move.

In many cases, the same giant Wudi, according to different understanding of the rules of space, created different domains.

In his own field, the strength of the warrior will be improved several times.

Peak martial emperors like Xu Hantian are not as simple as Xiaocheng, and can even go further in Xiaocheng realm, and some can even reach the legendary Dacheng realm.

But now, Xu Shantian has displayed his own spatial domain, and has severely restrained Qin Chen.

"Ha ha!"

But Qin Chen was not afraid, and the blood of Thunder instantly moved.

Hum!

A terrifying thunder light burst out of Qin Chen's body, and the endless thunder light evolved into a thunder field, covering Xu Shaking the sky. After breaking through the mid-term peak of Emperor Wu, Qin Chen's mastery of the rules of Thunder has reached a brand new level, enough to form a brand new Thunder Realm. Under this realm, Xu Shaotian's body is numb, as if there are snakes in his body.

Walking midstream, stinging.

"How is it possible, your strength?"

Xu Shantian's face was shocked, unbelievable.

Not long ago, he even fought Qin Chen. Even though Qin Chen was strong at that time, he definitely didn't use such a thunder field.

A shocked thought arose in Xu Shantian's heart. Could it be that this kid had preserved his strength during the previous battle with him?

But at this moment, he couldn't take care of that much anymore, the glove appeared in his hand and punched Qin Chen.

"Heavenly Fighting!"

Xu Shantian roared, his right fist danced, dyed with a layer of pitch black fist power, his domineering and mighty fist, like a king of heaven and earth, swearing his fist power.

Rumble!

The overwhelming true essence surged into the surrounding space, but could not cause any damage to the stone chamber.

"Hehe, just this point?"

Qin Chen sneered, and immediately aroused the Immortal Eucharist, and at the same time, his thunderous blood urged to the extreme.

Whoops!

A layer of glazed thunder light emerged from Qin Chen's body, and a terrifying aura of destruction and killing exploded violently.

At the same time, endless thunder light poured into Qin Chen's body and gathered on his right fist.

"Indestructible Thunder Fight!"

Qin Chen combined the power of the bloodline and the power of the Immortal Eucharist, combined with the killing rules, and hit a devastating flaming thunder light that collided with the fist blasted by Xu Shantian.

This is already the strongest boxing technique Qin Chen can display, how terrifying the power is, I dare not imagine it!

Boom!

Xu Hantian was blasted back by Qin Chen's instantaneous power, hitting the stone wall behind him, and his whole body was still surging with a layer of dark thunder, corroding and violent.

"puff!"

The blood surging in the body, Xu Shaotian's mouth overflowed with blood.

"How come, the power of this guy..."

Xu Shantian was shocked, his preparations for this shot were much more than when he was in the palace, but who knows that the result is not as good as before, how could this be possible?

Xu Shantian had a feeling that Qin Chen at this moment really broke out his fighting power, like a wild beast, staring at him coldly.

"impossible!"

He roared!

Hum!

The power of the blood surging above the head, layers of earth-yellow light bloomed above the body, and the whole body seemed to have doubled.

Boom boom boom!

Xu Shantian danced his fists, and suddenly the waves of fists were layered on top of one another, pouring towards Qin Chen like a vast ocean.

"Hehe, good time."

Qin Chen laughed and was not afraid. After breaking through the mid-term peak of Emperor Wu, he hadn't fought well, and he immediately urged the Immortal Eucharist to kill Xu Shantian.

Bang bang bang!

The image of the two people is two giant beasts, collision after collision, collision again and again.

The two were evenly matched.

"This Xu Shaotian does have two sons. His strength is actually not as good as Ji's. However, in this world-killing formation, his strength can be doubled. Moreover, this person has a Gangyuan formation and his defense is extremely high. terrible."

Qin Chen tried to figure out Xu Shaotian's strength while fighting against each other.

In terms of real combat power, Xu Hantian and Ji family ancestor Ji can't be the same, but the opponent is still a formation mage, combined with the formation, the power is terrifying.

In particular, there are several masters of formations on Xu Hantian's side, and the united formations have reached the stage of the late-stage formations of the ninth rank, which can be called unparalleled in the world.

Therefore, purely using real strength to collide, Qin Chen couldn't take this Xu Shaotian in a short time.

"Kid Qin Chen, do you want me to help you?" Lao Yuan was eager to try in the jade disc of good fortune.

And Ji Ruyue and You Qianxue were also very nervous, and they wanted to kill them too.

"No, this young man is just warming up."

Qin Chen chuckles, his best is not the boxing technique at all.

Cang!

A sword light lit up, followed by the loud sound of sword chanting, Qin Chen was too lazy to continue fighting with Xu Hantian, and directly refined the mysterious rust sword sacrifice.

Woo!

As soon as the mysterious rust sword came out, gusts of yin wind suddenly appeared in the void, as if the sound of ghost crying and wolf howling, resounded in the void, making Xu Shaotian's scalp numb.

What a sword is this?

The whole body is dark, like a stream of water, exuding a cold breath, making people look at it, and the mind will be swallowed.

Qin Chen was also surprised. After the mysterious rust sword swallowed that drop of sacred blood, the rust spots on it completely disappeared, and the whole body bloomed with black light, flowing like a stream of black light, revealing a mysterious aura.

Compared to before entering this ancient magic land, the mysterious rust sword seems to have undergone some transformation and become even more extraordinary.

But no matter what, this is always a good thing.

Huh!

Qin Chen cut out with a sword, and an invisible sword light suddenly surged, a terrifying aura that made people feel palpable, and the sword light suddenly appeared in front of Xu Shantian.

"How could it be so fast?"

Xu Shaotian was shocked, his figure retreated in an instant, and at the same time he threw a punch.

"Boom!"

When the fists and swords collided, Xu Shantian only felt that a cold force was constantly infiltrating into his body, even his gloves could not resist, he snorted, and a mouthful of blood spurted out. he is injured.

### [Chapter 2092: Got into big trouble](#)

"The power of the mysterious rust sword has increased so much?"

Qin Chen was also surprised. He hadn't used much force yet. With a single sword, the power of the mysterious Rust Sword was already close to the Ban Yue Ancient Sword. It was even more powerful than ever. What level of treasure is this? ?

Qin Chen himself was shocked.

After devouring the blood of the holy realm, the mysterious rust sword seemed to have risen by a level.

But Xu Hantian was even more shocked. He stared at the mysterious rust sword in Qin Chen's hand, roaring in his heart, this was definitely not an ordinary emperor soldier.

Otherwise, even the pinnacle imperial soldier would not be able to wound him with a single sword. The gloves on his fist were also ancient imperial soldiers, not ordinary treasure soldiers.

He lowered his head, looked at his gloves, and took another breath.

There was a small scratch on the glove.

by!

This is an emperor soldier, how could it be damaged.

"Hahaha, come to fight!"

Qin Chen laughed and became even more complacent, urging the mysterious Rust Sword to cut it out repeatedly.

Suddenly, the swords energized the sky one after another, pushing Xu Shantian to the left and right, and did not dare to fight head-on.

Nonsense, a sword hurt him. Before he could figure out the power of the opponent's weapon, how dare Xu Hantian to fight hard, he could only continue to urge Heaven and Earth to kill the bureau, attack and kill Qin Chen, and shot himself frantically.

Fists swept across the sky, like a mighty ocean, constantly surging towards Qin Chen.

"What if you use the Nine Star God Emperor Art to force the mysterious Rust Sword with all your strength?"

Suddenly, Qin Chen thought.

Doing what he thought of, he immediately ran the Nine Star God Emperor Jue with all his strength, letting his true essence flood into the mysterious Rust Sword.

Zi Zi Zi...

On the mysterious rust sword, there was a terrible beating of brilliant light, exuding high pressure, even the sword body was trembling, and the void was trembling.

"So strong!"

Qin Chen had a feeling that the aura exuding from the mysterious Rust Sword at this moment was even a bit like Lao Yuan helping him with all his strength, reaching a higher realm.

This power is so terrifying that it can even hurt Qin Chen himself.

It's terrible!

Qin Chen was frightened secretly, did not dare to continue pushing, and directly slashed out.

"Puff!"

Suddenly, the sword light submerged in the full sky fist power, as if a hot knife was inserted into the butter, where the dark sword light passed, the full sky fist power burst and was easily separated.

"call out!"

The sword light flickered, and suddenly came to Xu Shantian.

"not good!"

Xu Shantian was shocked, his entire body erected with cold hair, with a premonition that death was coming, his brows jumped wildly, and he did not dare to pick it up. He hurriedly urged a pitch-black shield to stand in front of him.

This is an emperor-class defensive shield. Although it is much worse than the Gangyuan Formation, it is also a rare top-level shield.

Bang!

The sword energy slashed on the shield, and with a crisp sound, the shield was violently shattered, and the sword energy continued to sharpen almost unimpeded. Xu Shantian's heart shook violently. He didn't expect the power of this sword light to be so terrible. Under the shock, he hurriedly avoided, 咻, the sword light rubbed against his Gangyuan Formation, and the Gangyuan Formation was piercing ears. There was a small sound of friction on it

The gully.

This is because he hides fast, otherwise he will directly attack the Gangyuan Formation, and his armor damage will definitely be even greater.

Huh!

The sword light passed by, and finally landed on the formation not far away. With a bang, the formation exploded and roared violently. This top-level formation in the late stage of the ninth level was almost smashed by a sword, making a rumbling roar.

"Damn it, come help me!"

Xu Shantian was shocked, angry and fearful in his heart, and he immediately asked for help from the other four strong men in the Dizheng Pavilion.

But when he looked to the side, he was stunned again.

"Quack, quack, you have the patience and dare to deal with the master, you are really weak!"

Boom boom boom!

One of the burly black figures was arrogant and domineering, and punched one of his deputy pavilion masters in the basement pavilion, flashing the light and darkness of the armor of the pavilion master, vomiting blood and blood, without any resistance. force.

On the other side, the thin man in black, holding a bone whip, firmly wrapped a deputy pavilion master of the Di Zhen Pavilion while shaking it, and was completely suppressed, without the strength to fight back.

Xu Shaotian's heart was cold, and he only felt cold from the soles of his feet rushing to his brain, his body trembling and trembling. These are the strongest masters in his Array Pavilion. Although their strength is a bit worse than him, they are also the top strongest. They were actually crushed and beaten by these two mysterious people, and they were still in the big formation they arranged. In, if there is no formation, then the ending

What will happen?

Xu Shantian faintly felt that he seemed to have caused a big trouble.

"The gods are dead!"

Qin Chen took advantage of Xu Shaotian's distraction, running the Wan Shen Jue, releasing a soul shock.

Boom!

The inexhaustible soul bombardment suddenly exploded in Xu Shantian's head.

With the current strength of Qin Chen's soul, he cast a note of the death of all gods, which directly caused Xu Shaotian's soul to blow apart.

"what!"

He screamed, blood overflowing from the seven orifices.

"The magic cage!"

Qin Chen used the Wan Shen Jue again, but this time it was an illusion imprisoned cage dominated by illusion techniques.

For an instant, Xu Shantian's thinking was attracted by Qin Chen's soul, and he was about to fall into that endless illusion.

"This Gang Yuan Formation is not bad, I want it less."

Qin Chen was slightly delighted.

At this time, Qin Chen could use the mysterious rust sword to crush Xu Shaotian and kill him with an overwhelming advantage.

But in that case, Xu Shaking Tian's Gang Yuan Formation might also be bombarded.

After several fights, Qin Chen also saw that this Gangyuan Formation is definitely a peak defensive imperial soldier, so the treasure is directly exploded, it is a bit wasteful, as long as it is won, no matter who it is, it will be a piece. Nice treasure.

And more importantly, Qin Chen also wanted to see the structure and refining method of this armor from this Gangyuan Formation. Any detail of this ancient defense armor can give Qin Chen a lot of inspiration.

"Pavilion Master!"

But at this moment, a master of the Dizheng Pavilion discovered the strangeness here and directly displayed a mental shock.

This mental shock instantly disappeared into Xu Shaotian's mind and awakened him.

"Damn it, you dare to be distracted when you fight against this seat."

The Skeleton Rudder master was furious, and a terrifying bone whip swept over him, instantly entangled the person, and then severely twisted.

puff!

The blood flew across, and this person screamed, burst into pieces instantly, turning into countless blood mist.

But Xu Shantian came to his senses after a blow from him, suddenly shocked in his heart.

"not good!"

"Blast me!"

In just an instant, he understood his situation, and in his anger, he didn't care about the pain that his brain was about to explode, directly detonating the world under the cloth.

Boom boom boom...

The entire formation exploded in an instant, and the terrifying power annihilated everything, while Xu Hantian used the moment the formation exploded and was about to rush out of the stone chamber. It has to be said that this person is fierce and resolute. Knowing the crisis, he immediately detonated the big formation and created a chance for himself to escape. It was too decisive.

### [Chapter 2093: Assassin the king](#)

But how could Qin Chen give the opponent a chance to escape?

"Leave me!"

Qin Chen snorted coldly, and threw the Tiankong Wanzhuan array plate, a terrifying array of light instantly enveloped the stone chamber.

"boom!"

Xu Shantian slammed his head into the array light, and he was immediately dizzy. Then he looked at the array plate above his head in horror, and said in amazement: "Tiankong Wanzhuan array plate, are you the array master of the device hall?"

Qin Chen answered him with a sword gas.

"Puff!"

The sword light flicked past, directly cut off Xu Shahtian's head, strangling his head into nothingness.

Then Qin Chen raised his hand and put away Xu Shaotian's Gangyuan Formation Armor, boxing gloves, and storage ring.

Puff puff.....

On the other hand, after losing the blessing of the formation, Mokara and Skeleton Rudder also killed several other people, but what made them depressed was that after killing each other, they could not absorb any trace of blood from several people.

In the stone chamber, a mysterious force ascended, absorbing the vitality and vitality of several people, and the bodies of several people instantly turned into ashes, leaving only some weapons and armors.

"Little dust!" Mokara and the skeleton rudder master shook their bodies and returned to Qin Chen.

Buzzing!

But the mysterious rust sword in Qin Chen's hand was trembling at this moment, exuding a bloodthirsty aura. It seemed that the killing was not intense enough, and he wanted to continue drinking blood.

"Damn it!"

Qin Chen looked cold, and hurriedly urged the Nine Star God Emperor Jue to suppress the mysterious Rust Sword.

"This sword..." Mokara and the Skeleton Rudder Master looked at the mysterious Rust Sword, with inexplicable tremors in their hearts. The two of them couldn't help but feel terrified about a sword. What kind of treasure is this?

Qin Chen frowned and looked at the calming mysterious rust sword in his hand. His face was slightly gloomy. The power of the mysterious rust sword has increased, but his resistance has become stronger and stronger. If he continues to grow, one day in the future, he may not be able to eat the Lord. .

Regardless of it, Qin Chen put away the mysterious rust sword, brought Mokara and Skeleton Rudder to the jade disc, and began to clean the battlefield.

During the cleaning, footsteps sounded outside the door.

"someone is coming."

Qin Chen raised his head abruptly, with a boom, the door of the stone room opened, and several figures appeared at the door of the stone room.

It turned out to be a few people from Dark Moon, and Lu Zian was naturally among them.

"Less dust!"

Seeing Qin Chen in the stone room, Lu Zi'an suddenly said in surprise.

Qin Chen nodded, shaking his figure before leaving the stone room.

"Stay."

A Dark Moon expert snorted coldly, blocking Qin Chen.

"There should be treasures in this stone room just now? Why don't you take them out and let everyone watch them?" The dark moon expert said with a sneer. He was also a pinnacle martial emperor with a breath of Lu Zi'an. .

"Jiang Ye, Young Master Chen is my savior, you..."

Lu Zian glanced at the strong man in anger, before he could finish his words, for some reason, his expression changed suddenly, and the words in his mouth stopped instantly, just looking at Qin Chen, his eyes filled with hesitation and anxiety. "Humph." Jiang Ye glanced at Lu Zian, snorted coldly, waved his hand, and several people of Dark Moon immediately surrounded Qin Chen, and said coldly: "Your Excellency, I see you are kind to the people of Dark Moon. For your sake, hand over the treasures in the stone chamber, and you can go.

"

He stood tall and looked down at Qin Chen, as if looking at an ant!

"you sure?"

Qin Chen's eyes were cold, with a cold tone in his tone.

"Huh?" Jiang Ye frowned and snorted coldly: "Boy, don't I understand enough? Hand over the treasure, or die, don't blame me for not giving you a chance."

Qin Chen sighed quietly. He didn't think that he had saved Lu Zian. The other party would definitely be grateful to him, but he really did not expect that the other party would be so direct that he didn't even give a chance to turn around.

Obviously, the other party was used to being aloof, thinking that Qin Chen had to follow their requirements.

This is a group of killers whose hands are stained with blood. They don't talk about any emotions. All they have in their eyes are benefits.

"It seems that we are going to do it ourselves."

Na Jiang Ye watched Qin Chen not speaking for a long time, his eyes gradually cooled, his murderous intent broke out, and he was just about to do it.

Whoosh!

Qin Chen's speed was faster than him. Boom, a terrifying murderous intent suddenly broke out on his body, and he rushed towards the door of the stone chamber like lightning. At the same time, the killing fist had already blasted out, and a terrible fist suddenly swept toward him like a hurricane.

After knowing that the opponent was an enemy or not a friend, Qin Chen was much more lazy to talk nonsense, and blasted out with a punch to rush out of the stone room.

"Huh, can you escape?"

Na Jiang Ye mocked, his palm was like a knife, and suddenly, a terrible sword aura swept over, poof, the sword aura was like paper, and instantly bombarded with Qin Chen's fist.

Boom!

With a blast, Jiang Ye only felt that a terrible force was coming, and he was blasted for several steps. The blood in his body surged, revealing a hole.

"Stop him!" Jiang Ye was furious, and he was blasted away.

Whizzing!

Two Dark Moon killers rushed in quickly, and the closest to the entrance was Lu Zian.

Facing Qin Chen rushing over, Lu Zian's expression changed slightly, as if stunned, whoosh, Qin Chen blasted the two surrounding killers and rushed out of the stone chamber.

"Lu Zian, are you stupid?"

Jiang Ye shouted angrily.

Lu Zian's forehead was covered with cold sweat, but he was silent and his face turned pale.

"Humph."

Jiang Ye snorted coldly, and chased Qin Chen, and at the same time he struck with a knife, and shouted angrily: "You can't run away."

call out!

The palm knife swept over, and Qin Chen punched the backhand, banging the palm knife to pieces.

Hum!

Abruptly, a cold light flashed in the void, and a cold black light hit Qin Chen's back.

"I've been waiting for you for a long time."

Qin Chen's eyes were cold, as if he had expected it, Ban Yue's ancient sword appeared in his hand and cut out with a backhand like a spirit snake.

boom!

The sword light collided with the black light, and a dazzling glow suddenly burst out. Qin Chen snorted and turned and flew without looking back.

In the void, a figure appeared, it was the leader of the dark moon, Jia Li, showing surprise.

How could it be discovered by him?

Moreover, under Qin Chen's blow, he actually blocked his ingenious blow.

"Haha, did you run away?"

Jia Li sneered while surprised, and with a gesture, a black wind wall was raised in front of the passage in front of Qin Chen, blocking Qin Chen's path.

"This Jia Li's strength is not weaker than the Heavenly Emperor Mountain Lord!"

Qin Chen broke through one wind wall after another, but the speed of the wind wall was too fast, he destroyed one, and the other was already formed, endless. "Hehe, the person being stared at by the emperor has never escaped from the palm of the emperor." Jia Li smiled proudly. After blocking Qin Chen, he did not act immediately, but looked at Lu Zian coldly. , As soon as he raised his hand, a \*\*\*\* mouth appeared on Lu Zian's face, extremely stern.

#### [Chapter 2094: Set out the calendar](#)

"Lu Zi'an, the emperor asked you to take action before, why didn't you take it?" Jia Li said coldly, his eyes venomously like a poisonous snake.

Lu Zi'an trembled with fear on his face, "My lord, Chen Shao is the lifesaver of his subordinates, so his subordinates..."

boom!

Before he finished his words, Jia Li had already blasted out with a palm, snorted, spurted out a mouthful of blood, Lu Zian flew out in embarrassment and fell to the ground, afraid to resist.

"Huh, what a life-saver does not save a benefactor? In my dark moon, there are only benefits and no kindness. If you let the emperor see what you mean to disobey the emperor again, you know the consequences!" Jia Li hummed coldly, turned his head and looked towards Qin Chen, the coldness on his face disappeared, instead he turned into a smile, and said: "Brother Chen is really extraordinary. At a young age, he can actually detect this emperor's shots. If you can tell how you discovered this emperor, and be obedient.

Hand over the treasure, tell the calendar, this emperor can let you go. "

Jia Li's eyes flashed and he had a plan. He was very curious about how Qin Chen discovered his whereabouts. With his concealment skills, even President Gongsun Zhe of the Skyscanner and President Wuyong of the Fighting Club etc. Experts, it may not be easy to find.

This made him extremely puzzled and curious.

"grown ups!"

Jiang Ye didn't intend to let Qin Chen leave alive. Hearing what Jia Li said, he couldn't help but hurriedly spoke.

It must be known that Qin Chen has a master beside him, and he has a good relationship with Gongsun Zhe of the Sky Excursion Association. If he is allowed to leave, it will be a disaster for Dark Moon.

"What's the hurry, first set out what the emperor wants to know, and then kill him. This son has an extraordinary origin, and the emperor is somewhat interested."

Jia Li Zhenyuan said through the voice.

"Set up the calendar?"

Jiang Ye suddenly nodded, and smiled at Qin Chen: "Now you have only one way to go, tell the story, and hand over the treasure, otherwise, it's death."

"The origin of this young man, are you so curious?"

Qin Chen's expression remained unchanged, but he actually smiled, his eyes icy. Jia Li's right hand is surrounded by dark streamers. These streamers are like viper's letters. They flicker and walk around, exuding a cold air. He said lightly: "Your Excellency is so young, so you can cultivate like this, and there is a top peak next to him. Wu

Emperor, why don't you make this Emperor not curious? The emperor speaks and counts, tells how to find the emperor, and then surrender the treasure, tell your own origin, and spare your life. "

He secretly said in his heart: There is no need to keep one's word to the dead, this is the law of the jungle.

"it is good!"

Qin Chen agreed without hesitation.

"Haha, your Excellency is indeed a great master!" Jiang Ye and others laughed, but Lu Zian's expression was very disturbed.

"You want to know how Ben Shao found you, but it's actually very simple."

Qin Chen's eyes were cold, and he sneered: "The killers are all dregs living in the dark, and they all exude a smell that ordinary people don't. When you come, this young man will smell it all the way, because it's too smelly. Up."

"As for the origin of Ben Shao, Shao Ben is from the Xuanyuan Empire, and this spar is the treasure that Shao Ben Shao had obtained before. Since the leader of Dangdang Dark Moon wants it so much, Shao Ben will give it to you."

Qin Chen lifted his hand, and a spar was thrown out by him immediately, shooting it at Jia Li like a jujube pit.

"Snapped!"

Jia Li grasped it in his hand, but found that it was actually a low-grade real stone. He smashed the real stone, a frightening chill shot in his eyes, and said grimly: "You fool me!"

"Yes, what about playing with you?"

Qin Chen took out his sword and slashed out against the group of people in Dark Moon, booming, dense sword aura poured into the crowd, Jia Li was naturally fearless, waved his hand to block it, but the rest of the people's faces were pale, left and right, extremely embarrassed. .

Whoosh!

Taking advantage of the chaos of Dark Moon's people, Qin Chen urged Banyue's ancient sword to break through several wind walls and break through.

"You're looking for death!" Jia Li was furious, and his figure disappeared in the void. The black streamer in his hand sank into the void like a snake, rushing towards him. At the same time, Jia Li blasted out from the air, a horrible whirlwind palm. There was no force trajectory, and he came to Qin Chen instantly

Behind.

Too fast, silent, like a ghost in the night!

Gang Yuan Formation!

boom! Qin Chen's body lit up with dazzling brilliance, countless bursts of talisman flickering, wrapped his body, banged, and the palm hit, Qin Chen felt the biting chill like steel needles sweeping in, and the internal organs seemed to be covered. Cut, came

Tingling.

"What a strong penetrating power!" Qin Chen frowned. He possessed the two major defensive powers of the Immortal Eucharist and the Gangyuan Formation. He was almost injured. This Jia Li deserves to be

the leader of the top killer organization in the Thunder City. The killer king in the second layer of the domain, the ordinary peak Wudi suffered

This blow will undoubtedly die.

"Huh, he didn't die?"

Jia Li was concealed in the void, and said in shock, and then, he was shocked when he saw the armor shining with light runes on Qin Chen.

"Gang Yuan Formation Armor, this is Xu Shaotian's defensive treasure, how can it be on you?"

He was furious, and he didn't expect Qin Chen to have the most powerful defensive treasure on his body, and the light of greed bloomed in his eyes.

Assassin, the most important concealment ability and self-defense ability. On concealment ability, he claims that no one in Tianlei City can do it, but the defense is naturally the stronger the better. Xu Tian's Gangyuan Formation is One of his most coveted treasures.

"Kill you, this thing is mine, see if you are still dead!"

Jia Li's figure flickered in the void, diving into the night with the wind, his whereabouts were strange, like an antelope hanging with horns, without a trace.

Whoosh whoosh!

Suddenly countless cold lights appeared beside Qin Chen, and a terrifying spatial force swept over, with a bang, directly suppressing Qin Chen.

"Damn, it's the space domain again."

Qin Chen was speechless. After suffering from the loss of his cultivation base, he had been restrained by the giant Wudi for the first time in the space domain. Although Qin Chen was extremely knowledgeable in space rules, he could never form his own without the giant Wudi realm. Space field.

"Space Eucharist!"

Qin Chen urged the power of space, and his figure suddenly became blurred, silently, and hidden into the void.

Puff puff!

Countless cold light fell on him, but this void seemed to be refracted, and many attacks were refracted. Even if the cold light hit Qin Chen directly from time to time, it was blocked by the Gang Yuan Formation on Qin Chen. under.

"What kind of spatial means is this!"

Jia Li was shocked, assassinated the king dignified, but failed several attempts, and the opponent was just a young man, which made Jia Li's shock like a horrified ocean wave.

"You must kill him. If you can get the space mystery on this child, this emperor's concealment skills may be able to rise to the next level. Even the strongest powers of the mainland's top power can never feel the slightest."

Jia Li was frantic, and behind him, whoosh, Jiang Ye and others all surrounded one after another to trap Qin Chen in this passage.

"There is little dust, it's better to let me wait for the shot and kill them all." In the Universe Good Fortune Jade Disc, Mokara and Skeleton Rudder Master suddenly yelled and said ferociously.

### [Chapter 2095: Can't stay here](#)

Qin Chen's eyes were cold, and such a thought came into his heart.

It's no wonder that Jia Li is dead by himself.

"Lao Yuan, I will arrange a big formation later, when the big formation becomes 10%, you will help me to kill Na Jiali as soon as possible."

Qin Chen said coldly to Lao Yuan, murderous intent had already moved in his heart. But killing Jia Li is different from Xu Shantian. Before Xu Shantian trapped himself in a stone room, seeking his own way of death, but now in a wide passage, Jia Li is the king of the assassination world. He must strike with one strike, otherwise one

Once let him run away, then Mokara and the others were all exposed.

As for the rest of Jiang Ye and others, Qin Chen didn't care at all.

"Don't worry, I finally have a chance for Lao Yuan to shoot."

Lao Yuan stayed in the jade disc of good fortune in the universe, and he was very uncomfortable.

"it is good!"

Qin Chen's eyes flashed as he was about to sacrifice the Tiankong Wanzhuan array. Suddenly, he felt a powerful breath rushing out of the side channel.

"Huh? It turned out to be your kid!"

The visitor was Long Batian, the ancestor of the Long Family, and was shocked by the battle here. He rushed to him for the first time and immediately showed excitement after he sensed that Qin Chen was being chased by Dark Moon's Jia Li and others.

"Haha, Jia Li, I will give you a big gift."

Long Batian had seen Qin Chen dissatisfied a long time ago, but Fu Qiankun was there before, and he had no chance to make a move. Now the opportunity is in front of him. He intends to kill Qin Chen first and then seize his storage ring.

"Boom!" As his mind turned, Long Batian blasted out with a punch, roaring, a huge real dragon phantom appeared, roaring for nine days, as if the dragon revealed its true face from the sky, with the pressure to suppress everything. Roared and rushed towards Qin Chen, banging hard

Hit Qin Chen.

"Long Batian, Master Ben won't let you go, wait for your death!"

The moment Qin Chen saw Long Batian, he knew it was not good. If he faced Jia Li and others, he boasted that with Lao Yuan he could quickly resolve the battle without leaving a living, but as soon as Long Batian appeared, Qin Chen would I don't know. As the ancestor of the Long Family, Long Batian has too many hole cards on his body. This is one of the top masters in the mainland. Once he joins forces with Jia Li, he may not be able to easily solve the battle with the old source, and once the news leaks, he must Will become a target

. Therefore, he abruptly took a blow from the Dragon Batian, and the terrifying true dragon essence poured into his body. The Gangyuan Formation on Qin Chen's body flickered brightly and darkly, and the strong shock caused all the internal organs in his body to turn upside down. He opened his mouth and spurted out blood and was wounded

hurt.

Whoosh!

With this momentum, he crazily sank into the channel on the other side.

"impossible!"

Both Long Batian and Jia Li were shocked, especially Long Batian, who didn't expect Qin Chen to explode with a punch.

Is this guy a monster? He is not an ordinary pinnacle martial emperor, but the ancestor of the mainland's top power Long Family. There are only a handful of masters in the world who are stronger than him. He can only face Shangguan Xier and others in the Misty Palace. Some guilty conscience, as for the others

A master of the big forces, he has no fear at all, even if it is Emperor Pill Mirror, Chu Huahan and others from the Mist Hidden Gate.

Characters like him have reached the top of the pyramid on the continent, the end of the realm of Emperor Wu in martial arts practice.

And a master like him, with a punch, let alone a new-generation martial emperor like Qin Chen, even some peak martial emperors would definitely not survive his punch, but Qin Chen just survived.

Especially, after Qin Chen was hit by a punch, he only vomited blood. The injury did not seem to be too serious, and he could escape at such a speed, which was beyond Long Batian's ability to understand.

Even if Qin Chen has the top defensive armor on his body, it won't work.

Top treasures also need top cultivation base to support. A child holding a shield can't stop an adult strong man's stick.

Long Batian and the others were shocked, and Qin Chen, who was the party involved, sighed.

"It couldn't stop it!"

He thought that with his own immortal sacred land and Gangyuan Formation, he could block the Long Family Ancestor's shots, but the facts still gave him a blow.

he is injured!

This shows that his defense has not yet reached the point where he can resist the top powerhouses like Dragon Batian.

"It seems that the cultivation base is not enough!"

With all kinds of terrifying talents and secret techniques, Qin Chen could kill other peak martial emperors with the strength of the mid-term peak, but it was useless to face Long Batian and other top figures standing on the top of the continent.

The group of people like Long Batian is the top layer of the pyramid on the continent, and various means are emerging in an endless stream. Without the help of Lao Yuan's power, Qin Chen might need to go further if he wants to block it by himself.

"We have to break through the late Emperor Wu as soon as possible!"

Qin Chen felt the heavy pressure. It was already so difficult just to face a dragon batian. There were still Shangguan Gufeng and others here. Even if there was an old source, it would still be risky if his cultivation level was not improved.

If Long Batian were allowed to know Qin Chen's thoughts at the moment, they would vomit blood with anger.

Damn, you all used the cultivation base of the mid-term peak Martial Emperor to block his attack from the continent's top peak Martial Emperor. What do you want? Is it against the sky?

"You can't stay here!"

Long Batian and Jia Li took a deep breath, with undisguised killing intent in their eyes.

"Die!"

The two jointly issued a killer move, and their violent energy swallowed Qin Chen instantly like a roaring tsunami.

Boom! The passage vibrated, and the smoke was filled. Qin Chen was scratched by the blow, and a mouthful of blood rushed to his throat again. Qin Chen roared and swallowed the blood abruptly. Communion of Art and Space

, Buzzing, fled directly into the void, and disappeared into thunder.

Whizzing!

Long Batian and Jia Li had arrived very quickly, but when they arrived, Qin Chen had disappeared.

"There!"

Both of them are top masters, and the tracking methods are naturally amazing, and they immediately followed them up.

But Qin Chen was out of trouble, how could they be able to track it? After using various means, after going around a dozen passages, they lost Qin Chen's trace.

"This kid is so \*\*\*\* slippery!"

Long Batian was shocked and angry, more embarrassed.

His dignified Long Family ancestor dealt with a junior, and even let the other party run away and spread it out, which could provide the laughingstock of Tianwu Continent for a year.

"This son is really evil!"

Jia Li's eyes were cold, like a poisonous snake, blinking coldly. Lu Zian had already told him a lot about Qin Chen's deeds, and he praised Qin Chen's position very high, but Jia Li didn't take it seriously. Now I know that Lu Zian's previous words are not exaggerated, but rather Also converged.

### [Chapter 2096: Good luck](#)

"Damn it, let him run away this time, it will be difficult to find such an opportunity next time!" Jia Li's eyes were gloomy.

Suddenly!

A breath of danger rose from the bottom of his heart.

"not good!"

Jia Li's figure shook, he slid into the void, flashed aside, raised his head and immediately met Long Batian's eyes, and saw the trace of malicious intent in the opponent's eyes.

Jia Li was shocked, and he didn't have much confidence in the famous Long Family ancestor.

"Hmph, good luck for you."

Long Batian glanced at the many powerhouses of Dark Moon that flew quickly, and finally put aside his thoughts of killing Jia Li, his figure shook and disappeared here.

"Let's go too!"

Jia Li took a deep breath and led everyone away.

Huhuhu...

In the passage, Qin Chen flew quickly, Jia Li and Long Batian's combined blow caused Qin Chen's blood to flow, causing his internal organs to be misaligned, causing severe pain.

Hum!

The Nine Stars Divine Emperor Art worked, Qin Chen flew by while healing his injuries, and at the same time swallowed a 9th-rank healing pill, his injuries healed at a speed visible to the naked eye.

"Little dust, why didn't we let us take action just now..."

In the jade disc of good fortune in the universe, Mokara and them are all extremely lost.

"No hurry, there will be a chance for you to take a shot later. Long Batian and Jia Li are nothing. The most important thing is Shangguan Gufeng and the others. They are not sure, it is best not to expose them in advance." Qin Chen shook his head. "My cultivation base is still too low. Since this point is reached, there is no such thing as an opponent of ordinary peak martial emperor. The real opponent is Dragon Batian, the top peak martial emperor of the continent. They have reached the end of the martial emperor realm. want

To fight against them, a breakthrough is necessary, and the realm of the mid-term peak is still somewhat weak. "

Qin Chen's eyes flickered, and his only thought now is to break through the realm of the giant Emperor Wu. Only in this way can he not fall under the wind in the next fight.

Originally, Qin Chen didn't have much confidence in breaking through the giant Emperor Wu, but after getting the holy crystal just now, he was confident.

"Find a place first."

Qin Chen flew quickly. Facts proved that Qin Chen's luck was good. About a half-zhuxiang passed by, Qin Chen found a stone room. This stone room was empty, and there was a door opening mechanism outside the stone gate. Qin Chen broke the switch with a punch, and then sighed. one of

Qin Chen rushed into the stone room and closed the stone door from the inside.

Hum!

The space fluctuated, Qin Chen had already entered the Universe Fortune Jade Plate. In the empty stone room, only a small dust of the Universe Fortune Jade Plate fell to the ground, inconspicuous at all.

"Little dust!" As soon as Qin Chen entered the stone room, You Qianxue and Ji Ruyue walked over worriedly, looking nervous.

"I'm okay." Qin Chen said with a smile. He was indeed okay. During this period of time, his injuries had been cured.

"I need to retreat, Lao Yuan, you care about the outside for me." Although Qin Chen destroyed the switch outside the stone room, he was afraid that a master would forcibly break in. It would be nothing if it was just some ordinary Wudi. If it is Shangguan Gufeng group, it will be troublesome if they find out his great fortune jade disc.

.

Then Qin Chen came to the black stone platform.

On the black stone platform, there are layers of restrictions, these restrictions are extremely complex, protecting the holy crystal in the middle.

However, the Universe Good Fortune Jade Disc belongs to Qin Chen's small world, and here, there is nothing that can hold Qin Chen up.

Buzzing...

The force of the horrible rules swept out, constantly killing the black stone platform's prohibition, and the light on it flickered, giving people a feeling of coldness. If other warriors come to crack it, even with the help of Qiankun's jade disc, it may not be able to break the ban in a short time, but Qin Chen himself is a master of ban, combined with the rules in Qiankun's jade disc. Force, finally in the small half

After days, the restriction was wiped away with a pop.

boom! Suddenly a strong breath filled the air. A milky white spar was suspended in the void, exuding a misty breath. All those who came into contact with this breath felt that the true essence in the body was about to move and couldn't help it. want

breakthrough.

This is just an illusion, but it also shows the terrifying power of this holy crystal.

"This is Saint Crystal?"

Qin Chen tried to absorb the power in the holy crystal, and instantly Qin Chen felt that all the meridians in his body were unfolding. The unspeakable comfort made him know for the first time that there is still such a comfortable time to cultivate.

These are extremely strong sacred powers.

What shocked Qin Chen even more was that while absorbing the power of the sacred crystal, the power of various rules in his body flickered wildly, and his understanding of the rules surged like a fountain of writing.

"It's terrible." Qin Chen was astonished. Is the power of this holy crystal so powerful? Not only does it contain incomparably pure sacred power, it can also make all kinds of perceptions in his mind keep flashing. If there are enough sacred crystals for the martial artists of Tianwu Continent to cultivate, most of them

Wu Huang of the eighth rank can enter the realm of Nine Heavens Emperor Wu.

Emperor Wu wants to break through the nine days of Emperor Wu, he needs to master the rules, but this holy crystal can make people feel that the understanding of the rules can be increased by geometric multiples. How abnormal is this?

Moreover, this holy crystal power even contains a trace of original power, that is, with enough holy crystals, it is really possible to give birth to a holy realm powerhouse.

It's just that the holy crystals that are needed in this way are definitely an astronomical number, and they can't be done with one or two.

"Let's start, and then make every effort to break through the realm of the late Emperor Wu!"

It is very difficult to break through from the peak of the middle period of Emperor Wu to the latter period of Emperor Wu. Based on the calculation of Tianwu Continent, if there are 100 masters of Emperor Wu, there are about 60 in the early stage of Emperor Wu, and about 38 in the early stage of Emperor Wu. As for the giants in the later stage of Emperor Wu, there are at most two or three. percent

Two or three, you can imagine how difficult it will be to promote to the late Emperor Wu.

And only after becoming Emperor Wu can he be called a giant, meaning that he truly rules the world.

If Qin Chen hadn't gotten the holy crystal, he wouldn't have the idea of breaking through immediately. After all, this is not realistic. He would break through the mid-term peak realm, or in the sea of thunder, and if he wanted to continue breaking through, it would be so easy.

Of course, once a breakthrough occurs, the benefits will be enormous.

Entering the later stage of Emperor Wu will allow Qin Chen to enter a mysterious realm of the unity of nature and man. At that time, he felt that all kinds of rules would be twice the result with half the effort, and all the rules would be greatly improved. Do it when he thinks of it, Qin Chen took a deep breath and entered an ethereal state, slowly spinning his true essence, making a big week cycle.

### [Chapter 2097: It broke our hearts](#)

As the Nine Star God Emperor Jue took off, a misty glow appeared on Qin Chen's body, like a Buddha glowing between heaven and earth.

Although Qin Chen did not deliberately operate the Indestructible Eucharist, after this fight and injury with Long Batian, Qin Chen's Indestructible Eucharist actually improved a little instinctively, and his spirit and energy were even more improved than before. Stronger, more adequate.

"I don't know if the Immortal Eucharist can break through to the ninth level this time." The cultivation technique of the Immortal Eucharist has never reached the ninth level. In fact, the seventh peak is already Back then, some Wudi strong men could practice their limits, Qin Chen was already ahead of everyone, but in the ninth stage, Qin Chen also

no guarantee.

He has a feeling that the ninth level of the Immortal Eucharist will be a completely new realm, and it will not be easy to break through.

The power of the sacred crystal is too strong, and the utilization rate of the sacred crystal is too low for simply absorbing it. In order to facilitate his own cultivation, Qin Chen directly arranged a spirit-inducing formation in the jade plate of the Universe Good Fortune to guide the sacred crystal. The power of the dissipated.

Moreover, Qin Chen did not completely swallow all the power in the holy crystal, some of which naturally escaped, and Qin Chen gave You Qianxue and Ji Ruyue to absorb it.

Although the power of this part of the sacred crystals is not much, but with the cultivation base of the two of them, this power can allow them to get a bit of transformation and step into the realm of the giant Wudi as soon as possible. You Qianxue and Ji Ruyue's talents, Qin Chen is not at all worried, even Qin Chen is not worried about the opportunities of the two. One has the inheritance of the ancestors of the Ji family in the heavens, and the other has a picture of a nine-day goddess. What the two lack is just some introductions. ,and

These introductions are the keys that allow them to make rapid progress in their cultivation.

call!

Along with the operation of Qin Chen's Nine Star God Emperor Art, a trace of the power of the holy crystal quickly poured into Qin Chen's body, and Qin Chen's entire body glowed, and both his body and blood had undergone unprecedented transformation.

But Qin Chen was not completely immersed in the transformation of his physical body and true essence. His mind was extremely active, he wanted to fall into a certain state of insight, and quickly deduced the profound meaning of space rules.

The most important thing for Emperor Wu to step into the realm of giants is to control the rules of space. Although Qin Chen has reached an extremely astonishing level in the control of the rules of space, he is very likely to be even bigger with this opportunity. The promotion.

Hum! He glows in the whole body, and the power of space is permeated. This is the particularity of the sacred body of space. The most important thing is that the jade disc of heaven and earth is the treasure of space. Here he makes a breakthrough in the giant Wudi, and his understanding of the rules of space will reach a goal. brand new

Steps.

And when Qin Chen broke through the realm of the giant Emperor Wu with all his strength.

In the mysterious void of this ancient magic land.

A high altar stands in this endless magic abyss.

Below the altar is a ladder with nearly a hundred layers. Below the stairs is an endless abyss. The devilish energy is surging and everything in the world is invisible. Only this towering altar stands in this demon abyss, immortal. .

On the twentieth level, Qin Mo was sitting cross-legged, and in his mind, there were endless magic sounds lingering, like howling ghosts, bewitching people's hearts.

Qin Mo didn't know where this place was. After passing the altar test, he came into this mysterious magic abyss and heard a voice asking him to step on these ninety-nine steps and walk up to the supreme one. altar.

If you pass, you will have the supreme demon way, if you fail, you will fall into the endless demon abyss, and you will never live forever. As soon as Qin Mo walked up these ninety-nine steps, faint magic sounds sounded in his mind. These magic sounds fell directly on his soul and were pervasive. It was useless even if he shielded the six senseless senses. These magic sounds are like directly in the spirit

The sound in the depths of the soul was normal, making him almost crazy.

But these magic sounds contain a certain unique law. When Qin Mo carefully understands it, he will find that his soul power seems to have been purified and become more pure.

Even the soul power is slowly increasing. This increase is not due to being demonized, but the essence of the soul is increasing.

This shocked Qin Mo extremely.

This is obviously a magic sound, but it can purify his soul. This kind of strong contrast makes him completely unable to understand everything he feels.

In his opinion, demons should be violent, cruel, and bloodthirsty.

But here, what he perceives is not so. The devil here is a kind of Tao, a kind of avenue between heaven and earth, a avenue that can reach the peak, supreme, towering, without good and evil.

Qin Demon was transformed by a parasitic seed, and was the most perfect demonized physique. Therefore, in a very short time, he held the magic sound of the first step and realized the magic sound of this layer.

And when he walked up to the second level of stairs, he found that the second level of stairs had been sublimated on the basis of the first level, which made him continue to sit cross-legged, feeling hard.

In this way, Mo Qin kept on understanding, constantly improving himself, step by step, and now he has reached the twenty-sixth step.

On the twenty-sixth step, he practiced for a long time before finally holding onto the magic sound and finally opening his eyes.

Looking at the remaining seventy steps above his head, Qin Mo felt a bit of bitterness in his heart.

The higher the steps, the more terrifying the magic sound, and the longer he needs to realize. At the beginning, he held the first step with only a few dozen breaths, but when he reached the 26th step, he actually It took a long time.

So how long does he need to realize the last ninety-nine steps?

Qin Mo didn't know.

But this will definitely be a terrifying number.

Qin Mo didn't rush to step on the twenty-seventh step, but turned his head slightly to look aside, his eyes condensed immediately.

On the other side of his same level of steps, a figure stood. This person was wearing a cloak, with a veil on his face, and his body was full of blood. The body is graceful. It can be seen that this person is a woman, but the real face is unattainable.

"She actually came to the twenty-sixth step?"

Qin Mo took a breath.

This woman was also teleported over not long after he came to this step. When the person saw Qin Mo for the first time, there was an inexplicable light in her eyes, like a torch, shining brightly.

But when she saw Qin Mo's dark and cold eyes of the Demon Seed, the gleam of light extinguished and became extremely cold. That trace of cold made Qin Mo feel a bit of distress inexplicably, as if his heart had been severely cut, and his heart hurt.

## [Chapter 2098: Not worth it](#)

Qin Mo didn't know why he felt this way. He was sure that he didn't know the other party at all. This woman is so devilish and charming, but in the depths of the charming, there is endless coldness, not the ice-like coldness, but

A kind of cold heart, this is a ruthless person, the heart has long been turned into a stone, no emotion can make her frown.

What has gone through to make people so unfeeling?

Qin Mo was sure that it was definitely the first time he saw this woman, but for more than that, there was always a familiar feeling.

But Mo Qin couldn't remember. When did he meet the other person? The devilish energy on this person was too heavy and too cold. If it weren't for Qin Mo's own perfect demonized physique, he would definitely treat this person. Think of it as an alien race.

But Qin Mo knew that the other party was not.

At the beginning, Mo Qin still had time to wonder how the other party would feel so familiar to him. Later, Mo Qin had no such thoughts at all, and instead felt endless pressure.

Because this mysterious woman's perception of the magic sound ladder is so terrible.

At the beginning, Qin Mo was still in the lead, but later, the opponent bit down Qin Mo's progress, each time only a little bit slower than him.

How is this possible?

He is the most perfect demonized physique that can comprehend the magic sound so quickly, but the opponent, but a human, can actually be not much different from him, which makes Qin Mo not surprised.

This woman is terrible! Although Qin Mo didn't know if the first person to board the altar would have an advantage, he still said that once someone climbed onto the altar, the person behind would fall into the endless demon abyss. Qin Mo didn't know and did not dare to try, so He can only feel crazy about the magic scale

Ladder, strive to ascend the uppermost altar as quickly as possible.

"Being talented in the magic way, my Qin Mo is never afraid of anyone."

"Patter!"

Qin Mo's eyes were firm, and he stepped onto the twenty-seventh step, and suddenly a terrifying magic sound hit him, making him sway, sitting cross-legged, and continued to resist and realize.

"It has reached twenty-seven steps?"

As if he felt Qin Mo's movements, Chen Sisi opened his eyes, and looked at the figure who was on the stairs upstairs with a complicated expression.

This figure is too dusty.

Chen Sisi's gaze was lost for a while, but immediately went cold. She already knew that the figure she had seen outside the space seal was actually the back of the man in black. At first, she even thought that Shao Chen had come alive, but when she saw Qin Mo's eyes Time, what was in her heart

All hopes were broken, and then endless hatred emerged.

This is an alien race!

Chen Sisi will never forget the dark eyes of the demon species. In the ancient Yu world, it was these alien demons who caused Shao Chen to fall on that continent.

The fall of the dust, all thanks to Misty Palace and these alien demons.

"Little dust, although I don't know where this place is, I will never let this alien demon race inheritance from this place. Chen Sisi, I am willing to fall into the demon, and I will avenge you."

With black hair flying, Chen Sisi closed his eyes and realized everything here.

When she first came, she resisted.

Although she is the saint of the Magic Sect, her dream is to be a carefree girl, living in a wooden house with mountains and water, enjoying the sun and nature.

But her natural charm does not allow her to have such a dream.

She seemed to be unknown when she was born, and everyone close to her would leave her.

This is true of her parents, and so is the dust.

She once cried bitterly, but she knew that she could not change all of this, and crying could not change anything. In this cruel and naked world, all she could do was to keep getting stronger.

From the moment she saw the explosion of the Foreign Demon Continent, she wanted to die with Qin Chen, but was stopped by the Phantom Martial Emperor.

Later, she lingered and survived.

But her heart is already dead.

The only thought she has in life now is to avenge Qin Chen.

However, the strength of Misty Palace and Alien Demons made her feel desperate, and she didn't know where the road to revenge was.

Until now, she has come to this mysterious Demon Abyss. Although she doesn't know where it is, she has a feeling that as long as she can climb this altar, she has the ability to avenge Chen Shao.

No matter what is on this altar, death or devil is good.

Even if she was asked to dedicate her life and her soul, she would have no hesitation, as long as she could satisfy her wish, even if it was a demon, what? For Qin Chen, she is willing to fall into the demon!

"Little Chen, you are waiting for me, as long as you avenge your revenge, Sisi will come to accompany you immediately, the world...not worth it!"

Chen Sisi's eyes were moist, but there were no tears left. Her tears had already drained for Qin Chen.

She closed her eyes, frantically feeling the magic sound.

She, to reach the summit of the altar, no one can stop her.

God blocks and kills the gods, the devil blocks and kills the demons!

On the jade disc of good fortune!

As time passed bit by bit, Qin Chen finally entered a critical moment.

Buzzing buzzing...

A trace of space rules linger around his body, he wants to evolve into a field, shining brightly.

Qin Chen could feel that the True Essence in his body had signs of metamorphosis, like an undercurrent under a calm ocean, which would explode with huge potential at any time and set off stormy waves.

"Kid Qin Chen, you are almost breaking through!"

Lao Yuan's voice sounded.

Qin Chen opened his eyes suddenly, and he also knew that he had reached the critical moment of breakthrough.

"Get out!"

Holding the holy crystal in his hand, Qin Chen appeared in the stone chamber. The stone chamber was very safe and no one had discovered it so far, and Qin Chen had already grasped the holy crystal in his palm.

In the later stage of the breakthrough, Emperor Wu must be in the big world, in a small world like the jade disc. The rules are not complete. If it is just cultivation and understanding, it is okay, but the breakthrough is not enough and will cause some hidden dangers.

"No need at this time, when will you wait?" This piece of sacred crystal, absorbed by now, is only half of its size. Before, Qin Chen used to absorb it little by little to understand its power, but at this moment, Qin Chen Completely let go, the Jiuxing Divine Emperor Jue runs to the extreme, boom, he is crazy

Devour the energy in this holy crystal.

The holy crystal is indeed a holy crystal, even if it directly swallows the power in it, it does not need to be refined, it can be absorbed directly. The true essence in Qin Chen's body instantly thickened. Although the true essence absorbed now cannot become his own permanent true essence, it is an external force. If it cannot break through, it will gradually dissipate, but there is no doubt that this external force will let After Qin Chen broke through

The odds of Emperor Wudi were even greater, almost out of ten.

Buzzing...

A series of spatial rules linger around Qin Chen, to form a realm, his body glows, is a natural Dao body, blooming with colorful glow.

"Break it!"

With a low cry in his heart, Qin Chen puffed up all his true essence, and the Nine Stars Divine Emperor Jue turned to the extreme, violently rushing to the indispensable barrier.

"Boom!" Qin Chen felt like he had been broken through a shackle, a feeling of comfort, the feeling of being extremely peaceful spread all over his body instantly.

#### [Chapter 2099: Breakthrough the late Emperor Wu](#)

boom!

The moment Qin Chen broke through the shackles, he couldn't help screaming, and the sound wave spread everywhere, causing dust to fill the entire stone room. Qin Chen in the center of the stone room could only see a faint shadow, with a terrifying breath lingering around him. .

Boom boom boom!

Waves of majestic true essence rose to the sky, strangling the dust into nothingness, this true essence fluctuation far exceeded Qin Chen's previous true essence, no matter whether it is strong or pure, it is not reached at a level. Another level.

The later stage of Emperor Wu!

Successful breakthrough!

"Success!"

With Qin Chen's disposition, he couldn't restrain his emotions, and was so excited that he finally broke through the realm of the giant Emperor Wu. Thinking of his previous life, he possessed a wasteful vein, and was unable to break through the Nine Heavens Emperor Wudi from the beginning to the end. In this life, he entered the later stage of Wudi and became a veritable giant Wudi. This kind of excitement made his mind excited and thoughts. unprecedented

Masterful.

Now his cultivation is in the realm of the late Emperor Wudi.

Gurgling! A strong stream of true essence flowed through his body, Qin Chen clenched his fist, buzzed, and the void directly oscillated. His physical strength had increased a lot. Just making a fist was enough to make the void oscillate. This is just here. In the ancient land

, If it is outside, he can easily tear the void with one punch.

Although he was happy, Qin Chen was not overwhelmed. Breaking through to the late Emperor Wu didn't mean he was invincible. There was still a longer way to go in the future. What's more, the true essence in his body had not been completely transformed at this moment.

"There is still one-fifth of the holy crystal left, which can just consolidate my cultivation base."

It's not that Qin Chen didn't want to leave the Saint Crystal to Ji Ruyue and You Qianxue, so that they could also have a chance to break through the peak of Emperor Wudi, but here, the most important thing is to improve their strength as soon as possible, and the others can only go back.

The first thing to do now is to stabilize the cultivation base, and then gradually adapt to the new true essence.

Of course, the understanding of the rules is also extremely important.

Slowly exhaling a suffocating breath, Qin Chen closed his eyes again and entered into a state of harmony between man and nature. While running his true essence and consolidating his cultivation, he absorbed the power in the holy crystal and at the same time understood the power of the rules.

Now is the best time to comprehend the rules, miss the opportunity to break through and absorb the holy crystal, I don't know when next time.

A trace of the power of the holy crystal was quickly absorbed by Qin Chen, Qin Chen's mind was sober as never before, and he fell into an epiphany, and the true essence in his body quickly consolidated.

Hum!

The rules of his body surface space are condensed, forming a terrifying space field in an instant, and this space field is still constantly changing, and its power is gradually increasing.

"It turns out that space rules can be deduced like this!"

In the state of epiphany and the unity of nature and man, Qin Chen's comprehension and deduction ability reached the extreme, especially after he broke through the later period of Emperor Wu, his physical body was transformed, the sacred body of space was improved, and the fit and understanding of space became more perfect. .

In the past, although he had a small world and reached an extremely deep level in the rules of space, because of his cultivation, he was not so comfortable with the rules of space in many cases.

But now, such obstacles have completely disappeared.

Buzzing...

The terrible power of space lingers around him, forming the space field, but this is not enough. It is also the space field, with strengths and weaknesses. Qin Chen has a little bit of strength in the space field.

"That's not bad..."

"Yes, this is better."

"Hey, the rules of space can be used in this way!" Qin Chen was completely immersed in his own world. The space field beside him was constantly changing. Sometimes it became stronger, sometimes it weakened, constantly changing. Gradually, Qin Chen's spatial realm gradually took shape, especially Qin Chen's perception

The small world rule pattern in the jade disc of good fortune in the universe has actually evolved its own spatial rules into a small world.

Hum!

In the end, an invisible space field was formed. At the moment when this space field was formed, the space around Qin Chen seemed to be isolated from the world, forming his unique world.

"It's done!" Qin Chen opened his eyes, revealing ecstasy. He used Saint Crystal's epiphany ability to actually evolve the prototype of this space world. At this moment, the space field formed by Qin Chen is no longer just a simple space. Field, but empty

The world.

Although it was just a rudimentary form, in this world, Qin Chen's mastery of space had reached the realm of whatever he wanted.

This is the unique ability of his Space Eucharist.

"The perception of the rules of space is okay. If you want to improve again, it is extremely difficult. Now feel the rules of thunder!"

Space rule is the rule that Qin Chen first mastered, and then the rule of thunder, because this is the origin rule of Qin Chen's bloodline, and the rules of killing and death are just extensions of the rule of thunder, which can be put later. Feeling.

"Crack!"

Thunder light blooms. Qin Chen spurred the power of blood, and there was thunder surging everywhere, and a group of void lightning spontaneously appeared in his mind. Lightning existed in various forms and contained extremely high rules of thunder, and Qin Chen put the lightning in The rule of thunder,

The observation is clear.

That kind of comprehension of thunder and lightning, the understanding of the punishment of heaven, made Qin Chen fascinated.

Qin Chen's rules of thunder can only be said to be proficient. It can be regarded as a beginner, at most close to Xiaocheng, but now he has continuously climbed up, from Xiaocheng, to the realm of Dacheng in one fell swoop, and is still improving.

What is this concept? It is often the best among the peak martial emperors to comprehend the rules to the realm of Dacheng, while the ordinary peak martial emperor can master Xiaocheng is already great, but if you want to enter the holy realm, you need to reach the perfection in the power of rules. , Trace back

Source, comprehend the power of the source.

As for Qin Chen, he was close to the rule perception of Emperor Wu, the top peak.

In fact, Qin Chen's perception of the space rules is close to being complete, and he hasn't done too much compared to the top Wudi, only exceeding it. If it wasn't for Qin Chen's too little background and too short training time, he had just broken through the Martial Emperor Realm in the late stage, and his true essence hadn't been fully consolidated yet, he would have crossed into the Peak Martial Emperor Realm a long time ago, but now, it is only at the limit of the late Martial Emperor. distance

That pinnacle Wudi was still so short.

"Crack!"

Opening his eyes, Qin Chen subconsciously stretched out a finger and tapped it out of the air. He only heard the thunder of lightning, and a shallow hole appeared in the wall of the opposite stone room with a blackened edge and a crystal shape.

Qin Chen was shocked, the attack power of Lei Zhi's Rules was so terrifying. Qin Chen doesn't know how hard the building here is. Before he used the Banyue Ancient Sword, even with a full blow, he couldn't leave scars. But now, a lightning bolt burned the wall into a shallow hole. This blow is more powerful than

Zhi Qin Chen's full blow increased several times. This is brought about by the double breakthrough of the improvement of the true essence and the rule.

#### [Chapter 2100: Space minefield](#)

"Since the rules of space can form domains, why can't the rules of Thunder?"

Then, Qin Chen had a fantastic idea in his mind.

Boom!

Countless thunder light spread all over his body, and the power of blood penetrated out, actually forming a world of thunder in his body, filling the entire stone room.

Qin Chen at this moment is like a moving sea of thunder, wherever he walks, thunder will spread.

"If the rules of space and the rules of thunder are combined to form a space minefield, what kind of lethality will it have?"

His eyes flickered, and Qin Chen was excited.

Do what you think.

Qin Chen was not satisfied with a single space world, but tried to integrate the rules of thunder into the rules of space, forming a more terrifying realm.

Qin Chen felt the difficulty just for the initial deduction.

This is different from a simple spatial rule deduction. To blend two different rules perfectly, the difficulty is not doubled, but ten times.

In many cases, if two different rules are forcibly combined, the power will not only be improved, but will be weakened.

This is because the rules are exclusive.

If another person comes over, it will definitely fail.

But Qin Chen is different.

He is a natural Dao body, and he is extremely sensitive to any rules.

Secondly, he is the sacrament of space, and his perception of space is far beyond ordinary people, and he can even melt into the void. Furthermore, the Thunder bloodline is his lifeblood, and Qin Chen can feel that his thunder bloodline is extremely powerful, and the ordinary Thunder bloodline is definitely not so terrible, but his thunder bloodline is inexplicably thick and deep.

It looks like a legendary god-level bloodline.

The combination of the three made it possible for Qin Chen to cultivate in the space thunder domain.

Boom! I saw a small space world formed, turning this stone room into Qin Chen's own territory. Then, in this space world, a trace of thunder light began to appear. The thunder light surged and became stronger and stronger. In the end, the entire stone room Flooded in

With endless thunder light, it became a sea of thunder.

It's like someone is crossing the robbery.

Moreover, the two continue to combine, sometimes the space rules are stronger, sometimes the Thunder rules are stronger, the two constantly change, and finally a balance is reached.

"Just call it a space minefield!"

Qin Chen smiled.

"The rules of killing are all invincible!" After Space Leiyu could not continue to deduct and progress, Qin Chen turned to understand the rules of killing. Qin Chen's understanding of the rules of killing has reached a small level, but the rules of killing are the most atypical that Qin Chen has mastered. Rules, and the most used, so now

It also urgently needs to be upgraded.

In fact, almost all the martial artists in the Tianwu Continent have a certain grasp of the killing rules, but they are different in strength.

After the breakthrough, Qin Chen's perception of the killing rules also improved extremely quickly.

In a short while, the killing rules quickly climbed from the original trivial to the great realm, a terrifying mess.

boom!

At the same point, Qin Chen's fingertips burst out with black ripples, as if a gloomy flower of darkness was blooming quietly, blasting a mark on the stone chamber wall.

This was not over yet, Qin Chen clenched a fist, urged the Indestructible Eucharist, combined the rules of killing and the rules of thunder, and blasted out with one punch.

"Sacred Thunder Fighting!"

With a thud, the wall of the stone chamber trembled, and a fist mark appeared on it. Around the fist mark, there were traces of scorched thunder, which was shocking.

Since then, Qin Chen's space rules, thunder rules, and killing rules have all been elevated to a whole new level.

Coupled with the fact that Qin Chen's cultivation base made a breakthrough to the late stage of Emperor Wu, he almost reached the peak of Emperor Wu. The combination of these factors caused Qin Chen's strength to skyrocket. The ordinary peak martial emperor could instantly kill and chop melons and vegetables. The best among the peak martial emperors was not his opponent. Once again met Jia Li, Qin Chen did not Will need Lao Yuan's help again, too

Can confront it.

Even Qin Chen could use the powerful Immortal Eucharist to fight against top martial emperors such as Long Batian. As for who wins and who loses, who will live and die, it is especially unknown.

"Heaven Soul Forbidden Technique I don't know if I can make a breakthrough."

After comprehending the power of the rules, Qin Chen did not forget his most terrifying soul strength. The soul in his mind was constantly surging, slowly transforming, and his cultivation level breakthrough would naturally increase his soul.

But relying on the soul's self-improvement is actually very slow, and most warriors have no way to control the soul, and can only let the soul slowly improve by itself.

Qin Chen is different. He uses the Heavenly Soul Forbidden Technique to enhance his own Soul Power.

In the state of the unity of nature and man, Qin Chen's understanding of the soul was unprecedented, and his soul power increased at the fastest speed.

Double!

double!

three times!

Hum!

When it was tripled, Qin Chen's soul power had finally increased to its limit. Then it wasn't that he couldn't increase it any more, but it couldn't be so fast, but only slowly.

With the breakthrough of soul power, Qin Chen's perception of the outside world became particularly clear, and everything in his perception became sharp.

If Qin Chen used the Wan Shen Jue now, his power would definitely be several times stronger than before.

Moreover, the soul power broke through, but Qin Chen's perception of the controller was exceptionally clear.

"Huh? Qin Mo!"

Suddenly, Qin Chen's eyes flashed, and he vaguely felt Qin Mo's existence. It seemed to be in a certain mysterious space, but it was very vague and could not really establish a stable connection.

But this was enough. Qin Chen knew Qin Mo's state at least, and it was not bad.

Three times the soul power increased, but Qin Chen was more confident.

It should be noted that soul power is fundamental, and the improvement of the rules is only the improvement of a certain aspect of the move and power, and the difference in soul power will make the strength be comprehensively improved and reach a new realm.

At this time, Qin Chen's holy crystals were getting less and less. At the end, with a snap, the holy crystals finally turned into powder, and Qin Chen's cultivation level also completely stopped at the limit of the later stage, only so short of the peak of Emperor Wu. A trace.

This time, Qin Chen didn't care anymore.

He didn't use his cultivation base to win, what's more, his Nine Star God Emperor Jue's true essence was strong and terrifying, even if it was only the true essence of the late Emperor Wu, it was more terrifying than the peak true essence of others.

call!

Exhaling heavily, Qin Chen opened his eyes, and the two beams of light flashed away.

"Go out in no hurry and look at the spoils!"

Whoosh!

next moment.

Qin Chen appeared in the jade disc of good fortune in the universe.

"Less dust!"

You Qianxue and the others looked at Qin Chen with complicated gazes. Qin Chen was still the same Qin Chen, but the aura on his body had become completely different. The kind of vigorous coercion made both of them feel a little confused.

"Master!" Mokara and Skeleton Rudder also looked at Qin Chen in shock. After Qin Chen's soul power increased, their fear instinct towards Qin Chen increased. As long as they saw Qin Chen, there was a strong aura of oppression. In them, it made them feel terrified, and the feeling came from the heart, even if Qin Chen had released them from their slavery now, they could not change their concepts in a short time.
