[Chapter 2151: Shangguan Wan'er](#)

what?

The demon was taken aback.

People?

His thoughts flickered, but before they fell, a strong sense of crisis suddenly struck from behind, and a terrifying force poured out.

"So courageous!"

The demon was furious, turned around and screamed, its body turned into a cloud of smoke, ethereal and light, and it shot out with a palm of its backhand.

boom! A terrible force struck, and the demon only felt that the magic energy in the body was surging, and the strange special magic power poured into its body, and it was torn its body. It was shocked and hurriedly urged the body. The magic in the world, and this special power

This confrontation is difficult to resist.

Whoosh!

But once the man hit, he didn't leave his hand at all, and he came back again, with a misty figure. She was a woman with a black glove on her palm, exuding a cold luster.

"Huh!"

The palm of his hand contained endless terrible magic energy, and he patted the demon's head.

"Where did you come from, do you really think I am afraid of you?"

The demon was furious and boomed. The devilish energy on his body suddenly surged, his body became burly, his gaze was fierce, and a trace of devilish energy formed a magical shield in front of him, blocking the palm of his hand.

Boom!

The magic shield trembled crazily, making a cracking sound, and cracks quickly appeared on it, which was about to break apart.

The demon was shocked, who was this person, and when was there such a terrifying powerhouse in the human race? What's more, it is still a special kind of magic power, although it is similar to their alien demons, but not exactly the same.

"Devil Soul Impact!"

The demon opened a vertical eye between the eyebrows, and the pupils were pitch-black, and the magic light swirled in them, full of evil, anger and greed... Numerous negative emotions surged, accompanied by an invisible soul impact, rushing towards the dark shadow.

The black shadow knew how powerful it was, and hurriedly backed away, and a series of talisman lights appeared in front of him, shocking the soul to resist with difficulty, and then her body shook, she was about to kill again.

"enough."

A cold, sharp shout sounded, Shangguan Xi'er, looking at the dark shadow coldly, with complex emotions in his eyes.

"Wan'er, do you have to fight against me?"

Shangguan Xier said coldly.

The black shadow didn't make any more moves, stopped, and was actually the Sovereign of Illusory Demon. He looked at Shangguan Xi'er coldly, hoarsely and coldly said: "Don't call me Wan'er, you are not worthy!"

Shangguan Xi'er breathed, her eyes grew colder, and she said coldly: "Sister, do you really think I won't kill you?"

"Hahaha, kill me?"

Sovereign Illusory Demon laughed, laughing frantically, like a madman, she stared at Shangguan Xi'er, and said grimly: "My good sister, you never wanted to kill me, just like you killed him back then. If you can, kill him. me!"

The Phantom Sovereign said hysterically. "For so many years, you still can't forget him?" Shangguan Xi'er looked indifferent and frowned, "Back then, I asked you to approach him for me, only to let you replace me, so as to cover up the affairs between me and Shaoyu. Unexpectedly, you would actually fall in love

He has caused you and my sisters to become strangers, Wan'er, you and I are twin sisters, blood dissolves in water, when my mother leaves, let me take care of you. My sister has always remembered me. How could he kill you? "

"You are not allowed to mention his name!"

Sect Master Phantom trembles, and then laughs: "Really? I think you want me to die? It's a pity that you can't kill me. You can kill the lover who gets along day and night. What's a younger sister?"

Sect Master Phantom looked up to the sky and laughed, laughing sternly, smiling, tears rolled down under the mask, and his voice choked. "I hate and hate why he first met you back then. You are deliberate and never let him know of my existence. I was naive at that time. I thought you were really just afraid that I would affect your feelings. Later I learned. You just think of me

It's your tool, my "good sister". "

Sect Master Illusory Demon gritted his teeth, "Don't worry, one day, I will avenge him. I will definitely kill you and Feng Shaoyu that vile villain."

"For a man with no interest, is it worth it to become enemies between you and my sister?" Shangguan Xier sighed.

"You don't understand!" Sovereign Illusory Demon murmured: "You don't know how I felt by his side at that time. Although he was a wood, he knew how to study bloodline and alchemy all day long, but he really liked these, but he was immersed in it. When inside, that kind of brilliance

, I will never forget. "

"Only then did I know that men can be so attractive when they get serious."

"He doesn't need to be rich, nor does he need to reach the top, he is him, no one can compare."

Sovereign Illusory Demon, no, Shangguan Wan'er whispered, tears welling down. "But he is just a useless person after all." Shangguan Xi'er sneered, "No matter how noble his status, alchemy talent, bloodline talent, etc., but he is a useless vein, his whole life, he is no more than the Emperor Wu. Man, what is it worth

Nostalgic. "Shangguan Xi'er seemed to be lost in memory, and sighed quietly: "Did you forget, how did your mother die?" From the moment my mother died, I knew that I, Shangguan Xier, could only match the strongest man. No, men are not reliable, I can rely on it.

Only myself, I want to come to the martial arts talent, let everyone in this world kneel at my feet, this is my Tao. "

"So you are also using Feng Shaoyu, right?" Sect Master Illusory Demon sneered. "I'm not using him." Shangguan Xier shook his head: "I said, I will only match the strongest man, if he is the strongest, then it is my future, but if he is not strong enough, then It's also his fate. If a man is not strong enough, he should know himself

Ming. ""sad! Sect Master Illusory Demon sneered: "You are just a **** who does everything possible. No words can change this fact. If the Lord of the Abyssal Demon is strong, you will become its slave. You like this, you have dignity. ? And personality

? "No, it's you sadly." "Shangguan Xier's eyes were cold: "Is it wrong for women to pursue stronger men?" Is it wrong for women to want to live a better life? But you, for a man who is not worthy of your love, make yourself a man, a ghost

Looks like a ghost, and he doesn't even know your existence, don't be silly, Wan'er, with your looks, with your talent, you deserve better. "

"shut up!"

Sect Master Phantom Demon roared, and instantly tore off the mask on his face, and laughed hysterically: "My face? This is my face!"

Shangguan Xi'er's heart shook wildly. The Sovereign of Illusory Demon in front of her had countless scars on her face. The dense scars made her face like a devil. The scars were extremely scary and scarlet, running across the entire face, like a devil.

"You..." Shangguan Xier sucked in air, and even the demon on the side was taken aback. This misty palace owner's twin sister was even more terrifying than this alien demon.

"How did you become like this?" Shangguan Xier hissed.

[Chapter 2152: Black Order Crisis](#)

Sovereign Illusory Demon put on the mask again, his eyes were calm, and he said indifferently: "Of course it's because of you, my good sister, what you did makes me sick, so I don't want to see myself and you in my life. The same face

It just so happened that cultivating Illusory Demon Dafa requires severing the seven emotions and six desires, and the magic heart stone can corrupt my appearance, so I followed the tide and did so. "

"I have done so much for only one purpose, and that is to kill you."

"However, it seems impossible to do it today." Sect Master Phantom Demon glanced at the demon and said coldly: "My dear sister, you are really capable. You colluded with Feng Shaoyu back then, now you are colluding again. Alien demon, giggle, but don't worry, I will break through to the holy realm before you

At that time, it will be your death date, I will kill you personally and pay homage to his dead soul. "

As the words fell, the Illusory Demon Sect Master left with a big laugh, and his figure quickly disappeared into the endless sea of thunder.

"Palace Master Shangguan, do you want to..."

There was a cold light in the demon's eyes, and the killing intent on his body surged. With a slight stroke of his palm, he made a beheading gesture.

The strength of the Illusory Demon Sovereign, even it feels a trace of jealousy, this is a top master, not inferior to its semi-sacred realm powerhouse, such a person staying, it will inevitably be a disaster.

"No need."

Shangguan Xi'er shook her head and sneered: "My younger sister only relies on the Demon Heart Stone to reach all her current realms, and also makes herself inhuman, ghost or ghost. It is as difficult as to climb the sky if she wants to go further. She will go."

"Will she..."

The demon frowned, just about to say something, his face suddenly changed.

Whoosh!

Its figure disappeared. After half of the incense, the demon and Shangguan Xi'er had already arrived in a sea of thunder.

Hum!

In the thunder sea, a black prohibition rose up, and there were traces of passing over the prohibition.

"The extremely strong breath passed by here just now." The demon said solemnly.

"Could it be that someone has escaped again?"

Shangguan Xier felt a little, and suddenly changed her color, "It's the breath of your alien demons."

Mo Li's eyes flashed with cold light, "This aura is very weird. I just felt that there are two people in the hall that are very similar to my alien demon. Now it seems that those two should be hidden by my alien demon. of!"

"Do you know the identities of those two?" Shangguan Xi'er frowned.

"I can't feel it for the time being." Mo Li shook his head, "But the aura on this is very terrifying, and it's somewhat similar to the Demon Master-level treasure of the alien demon race."

"Devil-level treasure?" Shangguan Xier thoughtfully. She thought of Long Po's investigation. After the destruction of the Guyu Realm, she had discovered news about the Red Face Martial Emperor. After tracking it, she discovered that it seemed to be related to the masters of the alien demon race. The strong have

Associated.

At the same time, Shangguan Xi'er also thought about the Xuanyuan Empire being attacked by a master of a foreign demon race not long ago. It was obvious that there was a power of a foreign demon race not under the control of the demon, but secretly targeting their Misty Palace.

"It seems that your control of the alien demon is not so complete." Shangguan Xier glanced at the demon and said.

"You are not the same, the strong human race, can you control it all?" the demon said solemnly.

Shangguan Xi'er didn't say any more, and her heart sank: "In this way, there are most likely people alive in this ancient demon land. In this way, I am afraid that the news of my Misty Palace and your alien demon union will not be kept."

When the voice fell, Shangguan Xier turned around and left.

"What are you going to do?" "Since the news can't be kept, what are you still here to do? The top priority is to arrange it quickly. You will follow the trace of the alien demon, and the main palace will go to Tianlei City and investigate it. Black Xiu Hui, that Fu Qiankun is actually related to Black Xiu,

If I want to come to this Black Order, there must be some connection with the people who attacked my Misty Palace at the beginning, and maybe we can find some clues. "

"What about Shangguan Gufeng?" The demon frowned. It was very clear that Shangguan Gufeng was Shangguan Xi'er's aunt and was still in this ancient temple. "She?" Shangguan Xier looked indifferently: "If she can survive, it will be fine. If she can't survive, it will be useless for me to stay here. For the current plan, we should act quickly. If we let the major forces react in advance, I'm afraid of the Misty Palace

It's in trouble. "

When the voice fell, Shangguan Xi'er's figure shook, she already rushed towards the Thunder Overseas, and disappeared instantly.

"This woman is really vicious."

The devil squinted his eyes and shook his head. Even his own aunt gave up when he said to give up. Even the devil himself was a little surprised. They were indeed heroes.

"Well, let's take a look at that seat, which force is sneaky and opposing this seat."

The demon's eyes flashed, and he immediately followed his senses.

Even Qin Chen didn't expect that the departure of Demon Sovereign Scarlet Flame would give Shangguan Xi'er and Demon Ling such a guess, and completely led away both Shangguan Xi'er and Demon Ling. At the same time, Qin Chen did not expect that Shangguan Xier would come here, and in order to investigate him, he directly killed Tianlei City, and now, the Tiandi Mountain Mountain Lord and the black slaves in Tianlei City are still in the black cult. Captured by Shangguan Xier, all the secrets

Midu will be exposed.

call!

Shangguan Xi'er is extremely fast, she shuttles in the void. With her cultivation base, she has left the range of Thunder Sea only after half a day. After going out, she finds that Thunder's overseas is heavily guarded, and there are many strong ones. The person sits down.

"Huh? People from the major forces? It seems that the major forces have received the news and dispatched masters immediately."

Shangguan Xi'er snorted, grabbed a martial artist directly, searched for the soul, and also understood the ins and outs. It turns out that although the major forces have received the news that there are treasures in the Thunder Sea, many of the top forces in the mainland are located in the third heaven of the Martial Domain. The natural journey to get here is naturally far away, and it is also a small number of top powers such as Jijing Dandi. Heavy treasure

To arrive at the first time.

However, in addition to dispatching the Great Mirror Dandi and others, the major forces also dispatched follow-up teams, which had just arrived in Tianlei City not long ago.

However, the passage established by Shangguan Xier has been taken back by her, and the space seal was once again hidden, causing the major forces to find no targets. They can only station in Sky Thunder City and stay in the Thunder City, and wait for them.

"Hehe, let them work for nothing."

Shangguan Xi'er snorted and rushed towards Tianlei City.

After only half a day, Shangguan Xier rushed to Tianlei City.

She killed one person directly, and after searching for the soul, she immediately learned the location of the Black Order.

"Oh? Is it in the original Demon Repair Building?"

Shangguan Xi'er escaped into the void, and after a while, he had arrived at the mansion of the Black Order.

"Hehe, there is still a big formation."

"Wow!"

Shangguan Xi'er didn't hesitate. After disguising casually, she raised her right hand and directly grabbed the black cultivator below, banging, and immediately, the black cultivating formation was activated, and a roar erupted.

However, although the ninth-level formation is terrifying and can stop the general peak martial emperor, how can it stop the strong like Shangguan Xi'er.

boom! Just a few breaths, the large array above the black cultivator suddenly burst, and the violent roar shook the entire Thunder City, attracting countless people's horrified eyes.

[Chapter 2153: Ten Thousand Ghosts](#)

"It's the mansion of the Black Order."

"Who is this mysterious person? You dare to do something against the Black Society, aren't you afraid of death?"

"Huh, there are many top powerhouses in my Sky Thunder City these days, and now my Sky Thunder City masters have all gone to Thunder Sea, when did these people put the people in my Sky Thunder City in their eyes? "

"I want to be a master of a certain top power in the mainland. How would you care about the power of my Sky Thunder City, but why does this person take action on the Black Cultivation? It hasn't been long since the Black Cultivation was established in my Sky Thunder City. If something happens, I can't find the black cult, right?" The fierce roar attracted the attention of countless experts in Tianlei City, and the powerful spirits swept in one after another to observe, trying to detect Shangguan Xi'er's identity. It's just theirs. As soon as the sense of consciousness touches Shangguan Xi'er, it is like sinking into a black hole

, Was swallowed up, once there was no reply.

This surprised everyone, and everyone who dared to directly use their divine sense to spy was all the top powerhouses here. Some of them were even the martial masters, but they could not snoop out Shangguan Xier's message at all. Shock.

"Huh, Shrimp and Crab General!" Shangguan Xier snorted coldly, not paying attention to the prying eyes of these people at all. She wanted to hide, let alone these ordinary martial emperors, even the powers of the major forces, it may not be easy. Identify it.

"Boom!"

She increased her strength, and Qin Chen's formation finally couldn't hold on. It burst into pieces, and endless smoke filled the black cultivator's mansion. The mansion of the Black Order was caught and exploded, revealing the empty ground, but Shangguan Xi'er's face turned It was a sudden change.

There was no one in the Black Order.

"Where are the people from the Black Order?"

Shangguan Xi'er's heart sank. She didn't expect that there was no one in the huge black cult. It seemed that she had already left before she arrived.

"What a cunning force."

Shangguan Xi'er was extremely smart, and she understood in an instant that the other party must have retreated early because he was afraid of accidents. For the sake of this plan, if you want to know the identity of the other party, you can only continue to investigate along this line.

But she couldn't stay here any longer. The only way was to contact the Fighting Club. The Fighting Club of Thunder City was controlled by her Misty Palace. It was most convenient for the Fighting Club to come forward.

Thinking of this, Shangguan Xi'er shook her body and was about to leave completely.

"What kind of person is your Excellency? I'm so brave. I'll just come and go if I say you want to. But you have put this world powerhouse in your eyes."

A cold snort sounded, and at the same time, a dark shadow suddenly appeared beside Shangguan Xi'er, raising his right hand, and suddenly a stern ghost claw covering the sky and covering the sun, grabbed and photographed Shangguan Xi'er.

This ghost claw is gloomy, with a length of hundreds of feet, covering the world, falling like a curtain of sky, containing endless terrifying aura.

Shangguan Xi'er frowned: "The master of the Heavenly Ghost Sect?" She sneered, then struck out her slender palm, and instantly fell into the huge ghost claws, woaaa, countless gloomy ghosts. She wanted to corrode Shangguan Xi'er's palm, but she couldn't get close to Shangguan Xi'er's body.

Shangguan Xi'er hit with one hand, and her white palm was immediately inserted into the monstrous ghost's claw, and she tore it lightly.

puff!

The ghost claws that were as mighty as a mountain burst into pieces in an instant, and the sky was sobbing, disturbing, and dissipating.

"What?" The dark shadow was shocked, and his body shook violently. It was no one else, but the deputy chief guest of the Heavenly Ghost Sect, Xing Lan. His ghost claw was extremely powerful. Under one claw, the peak Martial Emperor would be jealous. , But the mysterious person in front of him easily resisted, making

How is he not surprised?

Although he had already guessed about Shangguan Xi'er's strength, he never expected that Shangguan Xi'er was so strong.

This person is definitely a master of the mainland's top great power suzerain level.

Under the horror in his heart, Bin Xinglan suddenly appeared a dark picture scroll in his hand. On the picture scroll, countless ghosts and ghosts appeared and threw them into the air.

Oh oh oh!

Suddenly, this scroll of thousands of ghosts rose sharply in the wind and became as long as tens of thousands of meters, covering the sky of Thunder City. Above the scroll, countless grievances howled, and the ghosts and ghosts were vicious and gloomy. Shangguan Xier wrapped it up.

"Thousand Ghosts?"

Shangguan Xi'er sneered, "Since you are looking for death, you can't blame this emperor."

The breath in the body was surging, Shangguan Xi'er was just about to start, glanced at the void in the distance, her eyes condensed, and in the distance, a few breaths approached quickly, which was extremely terrifying.

Although these auras were not as good as hers, they were also extremely terrifying. They were clearly at the level of the ancestor of the Long Family, Dragon Tyrant.

"Sky Ghost Sect Master? Long River Xiao Family Patriarch? And...Teng Family Patriarch?"

"Unexpectedly, these guys have all come here, and that's right, the attraction of the holy crystal is extraordinary, my palace is not healed now, and I can't stay here for long."

Thinking of this, Shangguan Xi'er rose up into the sky and left quickly.

"Quack, want to go, leave it for this emperor." The deputy chief of the Sky Ghost Sect, Xing Lan smirked, he also felt the aura of the master and others, and even urged the Ten Thousand Ghosts, and saw countless resentful ghosts suddenly swarming. Coming, it turned into a black air covering the sky and sun, and immediately wrapped Shangguan Xier in.

.

"Quack, I'm wrapped in this Emperor's Ten Thousand Ghosts, don't think about getting out of trouble."

Bin Xinglan laughed fiercely, Ten Thousand Ghosts Tu is the treasure of the Heavenly Ghost Sect, and its power is infinite. Even if the peak martial emperor is wrapped, he can only wait to die obediently, and finally be refined by endless resentment and become the nourishment of Ten Thousand Ghosts. But before he laughed, his face changed drastically, and he saw the person in front of him who was wrapped up. Wan Guitu made a harsh sound, and countless resentful souls roared like boiling water, and then there was a thud. The soul burst open, together

The power of horror swept out, the resentful souls all over the sky vanished, and a half died instantly.

And that figure slid out of it in an instant, and after a step out, the void flashed and disappeared without a trace.

"what!"

Bin Xinglan was struck by a terrifying backlash, furious, and while spouting a mouthful of blood, staring at the blood-red pupils, he roared, "The Emperor's Ten Thousand Ghosts!"

Under Shangguan Xi'er's blow, a quarter of his Wanguitu's Wraith Soul was directly bombarded and killed. He suffered heavy losses immediately, and the Wraith Soul suffered heavy losses.

And at the moment when Shangguan Xier disappeared.

Whoosh whoosh!

Several figures suddenly walked out of the void, and instantly came to Bin Xinglan's side.

"Bin Xinglan, where was the man before?"

One of the strong men wearing black robes took the lead to walk out, and asked immediately, the cold voice said. This person has a skinny face, like a skeleton. His pupils are black and white, one is completely white without eye pupils, and the other is completely black without white eyes. They are actually a pair of yin and yang eyes for anyone to see. Everyone inhaled air-conditioning, and inexplicable fear emerged in their hearts.

[Chapter 2154: Ghost Yama](#)

Seeing the visitor, Bin Xinglan hurriedly saluted, and respectfully said: "My lord, that person ran away, and hurriedly said what had happened before."

The person who spoke was the Sect Master of the Sky Ghost-Ghost Yama!

And the few people around him, with strong auras, are not weaker than Bin Xing. Standing proudly with Ghost Yan Luo, they are the ancestors of top families such as the Xiao family and the Teng family.

"What? Run away?"

Everyone's gaze was suffocated, and they showed surprise.

Although they had never seen a match between the two, they also felt the aura left on the scene and understood Bin Xinglan's strength.

This person is the first deputy sect master of the Heavenly Ghost Sect, and the peak Wudi cultivation base is the veritable number two figure of the Heavenly Ghost Sect, and possesses such a treasure as the Ten Thousand Ghost Diagram, even if he encounters the top ancestors of these major forces. , Can also fight one or two.

Could it be that the person before was actually the ancestor of a certain top power in mainland China?
call!

Ghost Yanluo's figure flickered and came to the place where Shangguan Xi'er had escaped. His yin and yang eyes instantly rotated, as if he could see through the world of heaven and earth, prying into the past and the future.

"How? Brother Gui, did you find anything? Where did that person go?"

The ancestors of the Xiao family and the Teng family stepped forward and asked in a deep voice, ready to go. The Eye of Life and Death of the Sect Master of the Heavenly Ghost Sect, Ghost Yan Luo, is famous

all over the world. This pair of yin and yang eyes is said to be able to see the ghosts of the heavens and the earth, control the life and death, and even communicate with the underworld. Trace, to distinguish Don't identify the other party.

Therefore, the two of them are very confident in the abilities of Ghost Yama and look forward to it.

But this time, they were disappointed.

"The other party has covered up his secret secret, and this sect is unable to detect the origin of this person at all, and there is no trace left." Ghost Yan Luo stopped searching, and said with some shock.

"What? How is this possible?"

The ancestors of the Xiao family and the Teng family were shocked, and then frowned and said, "Brother Ghost, are you hiding something from me?"

Gui Yanluo said angrily: "If the two do not believe in this suzerain, then the suzerain will have nothing to say, huh, the two are also heroes, wouldn't they look at it for themselves?"

The ancestors of the Xiao family and the Teng family did not need Gui Yan Luo to speak, they had already searched, but as Gui Yan Luo said, it is clear that they have just experienced an astonishing battle here, but apart from the breath of Bin Xinglan, the two did not even search for a breath. .

hiss!

Both of them inhaled air-conditioning at the same time, and various thoughts kept tumbling in their hearts.

"The other party is here for this black cult. Go, go to the black cult."

Then, a few people quickly rushed into the black cult, but like Shangguan Xi'er, no one was seen, nor did they find the slightest clue.

"Hmph, it seems that Leicheng is getting more and more interesting this day."

Several people looked at the eagles, and finally left in despair.

And at the moment the Fighting Club headquarters.

Yuan Tianhuan, the vice chairman of the Fighting Club, was practicing cross-legged, and suddenly a figure appeared in front of him out of thin air.

Yuan Tianhuan was shocked and furious, just about to start his hand. After seeing the face of the opponent, he hurriedly bowed down and bowed in salute, exclaiming: "Subordinates have seen the Lord of the Palace." He took Shangguan Xier and others to the space seal, and said I did not enter the space seal with them, but returned to the Fighting Wuhui. These days, I have been waiting for the news in the space seal. I am worried. Now I see Shangguan Xier, how

No surprise.

"This palace has a task to give you to concentrate all the forces of the Fighting Club and investigate the origins of the Black Order. Remember, don't make a big fanfare, but do a secret investigation. Once there is news, you must notify this palace as soon as possible."

Shangguan Xier gave the order directly.

"Investigate the Black Order?"

Yuan Tianhuan was taken aback. Although he didn't understand why Shangguan Xi'er gave this order, he took it as soon as possible and respectfully said: "Palace Master, why did you come back alone? I don't know how they will grow up..."

"Wuyong is dead. Starting today, you will be the president of the Fighting Martial Arts Association." Shangguan Xi'er raised his hand, and a storage ring fell into Yuan Tianhuan's hands. "Here are some training resources reserved for you by this palace. With these resources, you can reach a level of cultivation that is close to nothing within a few months, but if you want to improve, just look at it.

Your future good luck. "

"If you have anything, you can call this palace."

After Shangguan Xi'er finished speaking, she shook her body and disappeared.

"The guild leader actually died, what happened in the space seal? What about the guild leaders of the Skyscanner and other forces?"

Yuan Tianhuan's heart trembled, he had too many questions to ask Shangguan Xier, but Shangguan Xier didn't give him the opportunity to ask at all, so he suppressed the doubts in his heart.

"I'm the president of the Fighting Club? Haha!"

Yuan Tianhuan felt the many treasures in the storage ring and was so excited that he couldn't help but laugh up to the sky.

This inexplicable taste of power is really refreshing. Yuan Tianhuan didn't know that the reason Shangguan Xi'er dared to hand over the Fighting Club to him was because he thought that Qin Chen, Gongsun Zhe and others would inevitably die in the hands of the Lord of Abyssal Demon. The promoted Yuan Tianhuan is bound to

A strong man who can hold the entire Thunder City.

If Shangguan Xi'er knew that Qin Chen and the others were not dead yet, I am afraid he would never make such a decision.

Sky Thunder City!

In an ordinary mansion not far from the Black Order in the city.

An old man came back slowly, entered the mansion, carefully closed the door, and quickly came to a secret room in the mansion.

"How's it going?"

As soon as the old man came in, someone in the secret room greeted him. It was a group of black slaves and old people with great compassion. The whole body was full of strong aura, extremely terrifying.

During Qin Chen's absence, both the black slave and the old man of Great Compassion had all made breakthroughs and entered the realm of Emperor Wudi in the Nine Heavens.

It is really the effect of the fruit of the avenue, the fruit of the rule and the stone of the rule is so good that the black slaves and the old man of great compassion who are stuck in the bottleneck can easily get a breakthrough. If it were not for these treasures, the two would want to break through, ten or twenty years, It may not be possible.

And the old man's rickety figure quickly became burly, his eyes showed dignity, and his body was suffocating, but he was the lord of Tiandi Mountain.

"Sure enough, I was caught by the two. A top powerhouse attacked the Black Order before. Fortunately, I had already evacuated before I was in crisis, otherwise..."

The Lord of Tiandi Mountain has a fear. After Qin Chen and the others left, the original plan of the Mountain Lord of Tiandi Mountain was to guard the Black Order, but the black slaves found that there were more and more masters in Tianlei City, and after the powerhouses of the major forces gathered, they immediately did it. Make a decision, move away from the Black Order, and become lurking.

[Chapter 2155: Keep lurking](#)

The Lord Tiandi Mountain didn't take it seriously at first. When he was sitting in Tiandi Mountain back then, when he was so cautious, but he saw that the black slave and the old man Dabei made sense, and both of them were old people who had followed Qin Chen for many years.

If it were, he quietly moved to this mansion that no one knew about, and he didn't even know the sky tour.

Who knew it was actually expected by the black slave and the old man of great compassion.

Hearing the words of the Tiandi Mountain Lord, the black slave's expression changed, and he solemnly said, "Master Shan, is that a master better than you?" Although the black slave made this suggestion, it was just his prudent approach. Qin Chen was not there. You need to be careful in everything. After all, the Black Order had caused too much trouble in Tianlei City before. Once the major forces who came here were curious and secretly inquired, he

Once they are exposed, they will inevitably fall into crisis.

But I didn't expect that someone would actually attack.

Especially seeing the heavy expression of Tiandi Mountain Lord, the black slave and the old man of Great Compassion were not calm.

It should be known that the Mountain Lord of Tiandi Mountain is one of the top masters of the Xuanyuan Empire. The peak Wudi powerhouse was arranged by Feng Shaoyu to sit on the Xuanyuan Empire's extremely important secret Tiandi Mountain, which shows how strong his strength is.

This is definitely the top strong figure in the mainland. Although not comparable to the ancestors of the major forces, it is not much different and has a prominent reputation.

But now, the Heavenly Emperor Mountain Lord behaved like this, showing how much shock he received in his heart.

"Strong, much stronger!"

The Lord of the Heavenly Emperor had a solemn expression. He saw Shangguan Xi'er's shot in the dark. Thinking back to the scene at that time, he still has lingering fears.

"The one who attacked my Black Order must be the ancestor of the continent's top power, and one of the few people in the continent." Tiandi Mountain Lord said in a deep voice: "If this emperor fights against it, I am afraid that within a hundred moves, He must fall." Tiandi Mountain Lord is also an arrogant person, but he also knows his own position very well. In terms of strength, he is not much better than Binxinglan of Tianguizong, and that mysterious person easily injured Binxinglan. Even the ancestor of the Sky Ghost Sect, Xiao Family, and Teng Family

People can't be tracked, and just this hand is no small matter.

Hearing the words of the Heavenly Emperor Mountain Lord, everyone's hearts were heavy, and they could only pray silently here, hoping that Qin Chen would be safe, otherwise, they would have to give up Sky Thunder City.

At this time, Qin Chen naturally did not know what was happening in Tianlei City. He was completely immersed in the fight with the demon puppets, constantly using the swordsmanship, double swords, and the consumption of mental power and true essence can be imagined. know. Sword Qi swept out, Qin Chen was completely immersed in it. When he seemed to have returned to Guyu Realm, facing the scenes of many blood beasts and strange beasts siege released by Lao Yuan, where did he comprehend. Kill Dao Quan Yi, the cultivation base was obtained

Promote.

And here, these demon puppets are much more powerful than the blood-colored strange beasts that the traces of blood released by Lao Yuan at the beginning, but in comparison, Qin Chen is now even more relaxed.

After he was promoted, he had a spatial minefield. Although these demon puppets were strong, but there were too many, they could not break his spatial minefield at all, and naturally they could not pose much threat to him.

At this time, in order to reduce consumption, Qin Chen shrank his spatial minefield to a smaller area, and spread the sword energy to any corner of the spatial minefield.

Knowing that they could not break through Qin Chen's domain, those demon puppets were still mad, flocking to Qin Chen frantically, as if not swallowing Qin Chen, they would never be reconciled, and there was even more demon energy below. The magic puppets swarmed. Although they can't kill Qin Chen, they want to use the pure demon energy that escaped from their fall to completely infect Qin Chen. In fact, although Qin Chen can withstand the invasion of this demon energy, he has been immersed for a long time. In these demons, the spirit

The soul was gradually affected. Although the sword light spurred by the swordsmanship is crazy, ordinary magic puppets are even more soaked and die, but it can't match so many more crazy magic puppets, and there are also some very powerful warriors in front of them after being sacrificed into magic puppets. , Qin Chen is still under a sword

Unable to behead the opponent.

And these demon puppets were extremely crazy at first, but later they became shrewd. Once they were seriously injured by Qin Chen, they hid behind and swallowed the abyss devil energy, waited for the wound to heal, and attacked Qin Chen again. Gradually, the number of these demon puppets that can withstand Qin Chen's blow is increasing. The number of these high-level demon puppets piles up. Although they cannot break through Qin Chen's spatial thunder domain, they have mastered the method not to be killed by Qin Chen. Qin Chen is more and more in

Unfavorable state.

"It would be great if his sword light could be used in any corner." Qin Chen couldn't help but recall the sword domain he had seen in the Demon Sword Tower at this moment. In the sword domain, there were countless sword auras. , There are many disillusionments, but in this space thunder domain, Qin Chen must continuously use his sword aura, and these sword auras cannot

To be born with one's heart, can only continue to display.

Qin Chen also wanted to use the sword domain, but in the space thunder domain, the sword domain cannot exist alone. Even the same warrior cannot simultaneously use different domains in the chain, because once the two domains are displayed, it will inevitably result. Repel.

Just like the realm of space and the realm of thunder and lightning, Qin Chen can only use it easily after fully combining the two.

It would be great if the sword domain could also be incorporated.

Thinking of this, Qin Chen's heart was shocked. Yes, since he can integrate the domain of space and the domain of thunder and lightning, why can't he also integrate the domain of sword into it?

Although the domain of space and the domain of thunder and lightning can be perfectly integrated because of his own spatial body and the other because of the power of the bloodline, based on his understanding of kendo, it may not be impossible to integrate the domain of sword into it.

Once the domain of the sword is integrated into it, and the three areas are combined, the power that is formed is definitely not as simple as one plus one equals two.

The combination of the domain of space and the domain of thunder and lightning already possesses this kind of power. If the three domains are combined, the power that bursts out is definitely increased by geometric multiples.

Although Qin Chen didn't know if there were any masters who merged the three domains in this world, and Qin Chen had never seen or heard of it, but Qin Chen didn't believe that others couldn't do it, and he definitely couldn't do it.

Thinking of this, Qin Chen immediately forced the Realm of Sword to be integrated into the Thunder Realm of Space.

Click!

At the beginning, as soon as the Sword Realm was deployed, the Space Thunder Realm made a blast, and the two canceled each other out, and the power was even weaker than at the beginning, so the magic puppets immediately seized the opportunity and almost rushed to Qin Chen.

"Can't it work?"

Qin Chen was lost.

"No, there must be a way." He recalled his previous feelings when he merged the domain of thunder and lightning with the domain of space. Numerous thoughts suddenly appeared in his mind, and his eyes became brighter.

[Chapter 2156: Empty Thunder Sword Domain](#)

He began to keep trying.

"No, it won't work."

"Almost!"

"This method doesn't work either."

With Qin Chen's attempts again and again, the domain of swords and the domain of space thunder continued to combine, but every time there were problems.

Two of them even led to the collapse of the space minefield, and Qin Chen was almost surrounded by the demon puppet, but he was spared by reacting in time.

But Qin Chen did not stop trying. Although he could continuously use the space thunder domain to consume these demon puppets, Qin Chen knew that this was not what he wanted.

Moreover, trying again and again in the crisis can make Qin Chen's nerves tense and more involved. The various thoughts are like a kaleidoscope, and Qin Chen's mind keeps flashing and inspiration.

Originally, Lao Yuan looked at him leisurely, but now his blood-red pupils and the boss with an open mouth widened.

Qin Chen simply took his own life to fight.

"Humans are really weird. There is a simple way. They have to take risks here."

Lao Yuan murmured.

It couldn't understand this behavior. If Qin Chen followed the original routine and proceeded step by step, although it was a little troublesome, he could kill these demon puppets sooner or later, even if there was an accident, he would still be on the sidelines.

But what Qin Chen is doing now is an act of looking for death. If he is not careful, he will definitely be seized by these demons and even fall here.

In Lao Yuan's view, this is simply incomprehensible.

"This is why humans can dominate this world."

The **** cat did not know when he woke up, standing on the old source, looking at Qin Chen fighting against the devil below, his eyes flickered.

"It is rumored that the human race turned out to be the weakest race in the world. For countless years, they have been able to continue the race through constant struggle and hard work, and risking death again and again."

The **** cat said with emotion, "Perhaps, this is the humane spirit of the human race."

"Humanity?"

Lao Yuan murmured, it obviously couldn't understand this spirit.

"That's right." The **** cat nodded: "The humane spirit represents the core spirit of the human race. When facing foreign enemies, they can kill them frantically, even if they sacrifice their lives."

"Their racial sentiment has made this race more and more powerful and multiply to its peak."

"Moreover, in order to improve themselves, human beings are even willing to risk life and death to pursue that illusory inspiration, because they firmly believe that between life and death There is a big horror. Only between life and death can the spirit be sublimated and oneself can be rested.

Realize, get a breakthrough. "

The **** cat said quietly, with an indescribable meaning in his tone.

Lao Yuan listened, and said nothing. Although it could not understand the so-called humane spirit, Qin Chen's actions shocked it and made it feel a lot of heart.

Can they dedicate their lives for their homeland? Lao Yuan didn't know the answer. If he knew that one day the Heavenly Dao of the Alien Demon Continent would be destroyed and dedicate oneself, he could save the Heavenly Dao. What about

?

Lao Yuan smiled bitterly. Although it didn't know if it could do it, it was certain that the alien demons could never do it.

This is a selfish race. It can give everything for its own sake. The Sky Devourer can even frame his descendants, and there is nothing he can't do.

inherited?

In terms of alien demons, it is a joke.

Lao Yuan had never understood why the Tianwu Continent Human Race, such a weak race, could withstand the invasion of the alien demon race. Now that it has been in contact with Qin Chen for so long, it has some understanding and some feelings.

A race that can dedicate its life for the world, you can beat him to the ground, but you will never be able to beat him down.

Buzzing...

Following Qin Chen's attempts again and again, gradually, Qin Chen finally found the common ground between the three.

"I understand, I was wrong, I was all wrong before."

At a certain moment, Qin Chen suddenly gave a wry smile, but there was ecstasy between his brows.

He had been trying to integrate the Sword Realm with the Space Thunder Realm before, but now he knew that his idea was completely wrong.

The domain of swords should not be merged with the realm of space, but to find the connection between the realm of swords, the realm of thunder and lightning, and the realm of space. Only by finding the common point of the three can the three be merged, otherwise, Everything is in vain.

As soon as this thought came out, Qin Chen was very excited in his heart. He slowly searched for the connection between the three, and then merged the three together through this weak connection.

Wow!

Suddenly, a whole new field appeared.

Hum!

There is no need for Qin Chen to deliberately urge anything. He cuts down with both hands, and the sword aura of Banyue Ancient Sword and Sky Thunder Sword spreads instantly, even if the sword aura does not touch the place, he is also crazy by the sword aura. The murderous intent was enveloped.

The realm of space, the realm of thunder and lightning, and the realm of swords are integrated.

Empty Thunder Sword Domain!

Crackling!

In the void, a terrifying field spreads, the power of space is permeated, thunder and lightning are surging, sword aura is vertical and horizontal, as long as the power of space is diffused, the power of thunder and lightning will naturally arrive, and the place where the power of thunder and lightning reaches, sword aura Also emerge naturally.

Qin Chen urged Banyue Ancient Sword and Heavenly Thunder Sword, and slashed down with one sword, a very ordinary sword, but after this sword passed, the demon puppets around Qin Chen were empty.

Except for a few demon puppets with extremely terrifying defenses, all the other demon puppets were annihilated by this sword.

Qin Chen suddenly looked up to the sky and laughed. He finally understood what was going on. In the next moment, he didn't even use his sword aura very much, and countless sword auras rose in all directions.

There was no surging sword energy to the sky, only the ordinary sword light flickered, only covering Qin Chen's radius of tens of meters, but after this sword was split, all the demon puppets within a radius of tens of meters were lost. Extinct, turned into ashes.

With just a few knives, the group of demon puppets that Qin Chen could not kill before became empty. Qin Chen could even feel the inexplicable fear emerging from those demon puppets, but even these, these demon puppets are still crazy. Pouring in.

Qin Chen was not afraid of it. The imperial soldiers with his hands moved vertically and horizontally. In the end, the scope became larger and larger, and the scope of the empty thunder sword domain became wider and wider. No demon puppet can survive for several seconds in this terrifying domain.

There were still many demon puppets who wanted to sneak around Qin Chen from where they were being attacked, but now Qin Chen has no flaws. Any demon puppet will be killed as long as it enters his attack range.

If Qin Chen wanted to leave at this moment, he could easily leave here, but he did not leave. The swords of Banyue Ancient Sword and Sky Thunder Sword were still reaping the lives of these demon puppets wantonly.

In the end, these demon puppets finally knew that they could not help Qin Chen, and they retreated one after another, sinking into the devilish energy. It disappeared in the blink of an eye.

[Chapter 2157: It really is here](#)

Qin Chen wanted to catch up and kill, but he was still very shrewd and didn't rush in. These devilish auras were extremely powerful. Although he was even more terrifying now than at the beginning, Qin Chen didn't dare to conclude that the devilish auras here would be impossible. he. The prolonged shot made Qin Chen's spirit extremely exhausted, but also extremely excited. In such a short period of time, Qin Chen couldn't count how many demon puppets he had killed. He believed that even if there were still demon puppets left. Down, the number will not be very

many.

And if the puppet he killed was not destroyed in ashes, the corpses could even pile up into a mountain.

Although there is no exact figure, Qin Chen roughly estimated that at least a few hundred thousand is at least.

"I'll restore the true essence first." Qin Chen said to Lao Yuan, and entered the Universe Good Fortune Jade Disk for the first time. As soon as he entered the Universe Good Fortune Jade Disk, Qin Chen quickly took out countless pills and swallowed it. Go down, and then set up a solid array around the body, crazy

Absorb the zhenqi in it.

Even if Qin Chen had rich combat experience, he had never experienced a situation where his mental power and true energy were almost completely exhausted like today.

At this time, he only felt that his hands and feet were soft, like an ordinary person who had not practiced and was exhausted. Although his empty thunder sword domain was great, his true essence was greatly rested, but it was also a huge consumption. . You Qianxue and Ji Ruyue both looked at Qin Chen distressedly. They both saw the appearance of Qin Chen desperately before. They also understood the reason why Qin Chen did this. Everything is for the safety of Tianwu Continent, otherwise so many magic puppets Into

In the Tianwu Continent, the entire Martial Domain Second Heaven will be destroyed.

A large number of real stones were crushed piece by piece, and a day later, Qin Chen didn't know how many real stones he had consumed before the true essence and spiritual power in Qin Chen's body were completely restored.

What surprised Qin Chen was that he found that his true essence and mental energy were exhausted, and after recovering again, he actually rose by a lot.

Qin Chen knew very well that when he reached his level, it would be even more difficult if he didn't have any particularly great sentiments.

Even Fu Qiankun was shocked, and Qin Chen's cultivation base broke through faster than he had imagined.

After a few moments of greeting, Qin Chen instantly came out of the Universe Jade Plate and appeared at the bottom of the abyss again. He wondered if his cultivation level would be improved again if he killed the remaining demon puppets, but this was just He just guessed wildly.

At this moment, he was standing above the black qi. These black qi were extremely gentle, and there was no sign of those demon puppets. Qin Chen had to wonder if these demon puppets were controlled by the master of the abyss.

Also, if these demon puppets were controlled by the master of the abyss, the other party knew that they could not kill Qin Chen, and it was absolutely impossible for these demon puppets to come up and die.

So many demon puppets could completely form a huge army and attack the Third Heaven of Martial Domain, but they were almost completely killed by Qin Chen.

"Kid Qin Chen, you have finally figured it out. Are you tired of fighting and go to Wenrou Township to do 'bad things'."

The **** cat walked up with a smile, surprised at it, looked at Qin Chen, teasing, Qin Chen looked embarrassed.

"Go away." Qin Chen cursed, this **** cat has nothing to say.

"Where is the suppression of the Lord of Abyss Demon?"

Qin Chen couldn't help asking.

After walking for so long, they haven't seen the Lord of the Abyss at all.

"Don't worry, this emperor can lie to you? Since these puppets appear here, the position of the Lord of the Abyss is also nearby."

The **** cat swept forward and said, "Come with the emperor."

In fact, when Qin Chen was cultivating in the Universe Jade Plate, he had already probed this place.

Soon, the **** cat came to a surging demonic energy.

It sniffed and said, "It's almost here, just below."

Qin Chen perceived it carefully, and he really found something special, the demon energy below it was very strange, and there was a breath that made his heart palpitations surge.

"There is devilish energy below this, how can I go down?"

Qin Chen frowned.

"Don't you have the Demon Suppression Cauldron? Use the Demon Suppression Cauldron to protect you. As for Lao Yuan is a source beast, it will not be invaded by these demon qi in a short time. As for the emperor, let alone." Da Hei The cat's double claws linger on the power of the Dao Dao space, and these space powers quickly spread into the demon energy below. Suddenly, the demon energy slowly spread out under the claws of the **** cat, but, There are still strands of magic

Flooding this space does not completely dissipate.

When Qin Chen heard the words, he immediately urged the Zhen Devil Cauldron, hum, a huge black cauldron appeared on Qin Chen's head, and wisps of power lingered down, actually isolating the devilish energy around him.

"Can the Demon Suppressing Ding actually suppress this demon energy?" Qin Chen was taken aback.

"What do you mean?" The **** cat said disdainfully: "The Demon Suppressing Ding is a treasure of the ancient human race, specially used to deal with the masters of the alien demons. It was in the hands of the strong human races, and even the masters of the alien demons did not dare I look down, I can naturally suppress this devilish energy,

However, the main reason is that the emperor has isolated this devilish energy a lot, otherwise you can just wait for death by relying on the devil cauldron. "

The **** cat said proudly, with a look that it had done the most, and swept down first.

Qin Chen did not argue with the **** cat, but was quite shocked in his heart. Following the **** cat, Lao Yuan naturally followed. Qin Chen thought that the devil energy would become stronger and stronger after he went down, and it was true at the beginning, but gradually, the devil energy around has dissipated a lot, and in the end, the devil energy became less and less, and at the same time there was a rich space. Breath and thunder

The power is coming.

Crackling!

There was a wave of thunder below, and, with a richness to the extreme, Qin Chen's pores stretched out.

"This is... the breath of Saint Crystal."

It was not that Qin Chen had not absorbed the holy crystal, he clearly felt that this breath that made him feel extremely comfortable was the aura of the holy crystal he had absorbed, could it be that there is still a holy crystal here? He hurriedly opened his eyes to look, and suddenly saw the thunderbolt below, the thunder light surging down, extending to the depths, and there is a place very dazzling, obviously the most violent place of thunder, and this thunder contains Extremely powerful

Terrible, much more terrifying than the thunder in the sea of thunder outside.

Even Qin Chen had a feeling of palpitations. If it is someone else, he will definitely be frightened by the thunder here, but Qin Chen's mental power and soul are extremely powerful, and the sixth feeling is incompetent, plus he is a top-level magic formation emperor. Seeing this place of thunder

There seems to be a problem, the void below seems a bit weird.

"It really is here." At this time, the **** cat had already jumped up excitedly.

[Chapter 2158: Love or not](#)

"Lao Yuan, try it!" Big Black Cat shouted immediately.

Lao Yuan immediately lifted his claws and reached out, with a bang, and saw thunder light surging below, Lao Yuan suddenly snorted, his claws shattered with a bang, and turned into a **** breath in the sky, quickly making people too late to react.

"There is a strong thunder power below, I can't move at all." Lao Yuan said in a bit of amazement, his face was ugly, it was already injured by the blow just now.

"Kid Qin Chen, you are practicing the rules of thunder and lightning, come here." The **** cat looked at Qin Chen again.

"Damn, why don't you come by yourself?"

Qin Chen is full of black lines, is this **** cat too unreliable?

Even Lao Yuan was injured. If he didn't have time to resist, he would be wiped out in an instant.

"Don't you have the thunder bloodline? With your understanding of the thunder and lightning rules, it's okay." Big Black Cat urged.

Qin Chen was speechless, but he himself was very curious about this place of thunder, and in the thunder below, it seemed that there was not only the power of thunder, but also a special space and inexplicable breath of holy crystal, which made Qin Chen also full of curiosity. .

"go with!"

Qin Chen sacrificed Banyue's ancient sword, and slashed it out with a sword facing down.

"boom!"

The sword light surged, bringing up a lot of lightning, but it seems that because Qin Chen himself incorporated the power of thunder on the sword light, this sword light actually swept into the thunder below, instead of being instantly blasted like Lao Yuan. The explosion caused a backlash.

Only a dull roar was heard. After Jianguang entered the thunder, he did not go all the way down, but hit an inexplicable obstacle.

Hum!

When the thunder light dissipated, a huge beam of light suddenly appeared in the void where the Thunder Sea was located, and within this beam of light was a huge space seal.

And around this space seal, there are still pieces of holy crystals, densely arranged, it is the seal formation that Qin Chen and the others have seen outside the space seal.

"It turns out that the holy crystals we saw before are all real." Qin Chen took a breath. He always thought that the holy crystals that he saw outside the space seal were just the mirage that the Lord of Abyss Demon or Heaven Devourer used to attract everyone. , But at this moment Qin Chen realized that all the holy crystals they saw were real, but not

It's just the projection here.

How many holy crystals does this have?

Qin Chen's heart trembled. At a glance, it was densely packed, and every sacred crystal exuded a misty light. If these sacred crystals could be obtained by him, how far would his cultivation level rise? Although Qin Chen now knows that it is impossible to enter the sacred crystal just by absorbing the sacred crystals, but with these sacred crystals, let alone anything else, he can definitely break through to the semi-sacred realm in a very short time, even beyond Shangguan Xier's cultivation base, to

At that time, as long as no master of the Holy Realm appeared, he would be the first person in this Tianwu Continent.

But the **** cat on the side did not focus on the holy crystals, but fixedly stared at a vague light ball in the center of the rows of holy crystals. His face was very strange, it seemed very puzzled, and it seemed to think. do not understand.

"What's wrong with the **** cat?"

Qin Chen was taken aback, looking like a **** cat, seeing so many sacred crystals, shouldn't he be so calm, or is there something weird about this light group? Qin Chen focused all his attention on the light group in the center of the holy crystal. In this look, Qin Chen finally found something wrong. This light group exuded the aura of space, forming a very terrifying seal, and These holy crystals formed

An extremely complete individual.

This is definitely a top treasure.

For some reason, when he saw this light group, Qin Chen felt that his Universe Fortune Jade Disk was showing an aura of desperate desire, as if he had seen something that excites it.

"Big Black Cat, what exactly is this light ball?"

Qin Chen couldn't help asking.

"It's a spatial treasure, but it seems to be different from what the emperor originally knew." The **** cat murmured.

"What? Do you know what this is?" Qin Chen's eyes flashed, what the dead cat really knew.

He suddenly reacted. The **** cat was so active in bringing him here before. Couldn't it be that he didn't bring him to find the powerhouse of the Abyss Demon Clan, but to find this treasure?

"Big Black Cat, did you deliberately bring us here? The Master of the Deep Demon Clan is actually not here at all?" Qin Chen couldn't help asking.

"what?"

Only then did the **** cat react, and said with an aura: "What do you think of the emperor, yes, the emperor has indeed guessed here a long time ago, but the master of the Abyss Demon Race is indeed here."

"If the emperor is not wrong, this weird piece of thunder sea and seal is the seal that suppresses the master of the abyss demon clan, and the master of the abyss demon clan has been suppressed under this seal."

"Kid Qin Chen, you know very well about the tactical restrictions, there should be a way to break the seal, right?"

The **** cat looked at Qin Chen.

"The deep demons master is here?"

Qin Chen's eyes condensed, who has such a great ability to build such a thing? This thought flashed, and Qin Chen gave a wry smile. He was really stupid. Do you still have to ask? It must be an ancient heavenly powerhouse.

His heart suddenly became vigilant, "If I break this seal, the Abyss Demon Race master will not be released, right?"

His heart sank. This is not impossible. The other party created such a seal to seal the master of the Abyssal Demon Race. If he makes a move, it will inevitably cause the master of the Abyssal Demon Race to lose control and get out of trouble.

"Don't worry, the people of the Yuanmo tribe are not so easy to get out of trouble." The **** cat said, "And, I just let you try to crack the surface of this seal. The emperor wants to see clearly the center of the seal in the middle of these holy crystals. What is light mass."

The **** cat's voice was a little impatient.

Qin Chen calmed down. He believed that the **** cat would not lie to him about this kind of thing, and since he found Saint Crystal, he couldn't miss this opportunity. Once he missed it, who knows when he will find out next time?

Qin Chen took a deep breath. Now that the Heaven Devouring Demon Lord has escaped, the outside world is full of dangers. Although his current cultivation base is not weak, it is still a bit heavy when he thinks of the identity of the other Demon Lord.

For the present plan, he can only think of ways to improve his strength, and such a good opportunity, can he waste it?

Thinking of this, Qin Chen was quite moved, and said in a deep voice, "You give me the Seven Stars of the Seven Stars."

"You kid wouldn't want to deceive the emperor's treasure?" The **** cat looked at Qin Chen suspiciously.

"Love or not!"

Qin Chen was speechless, this **** cat was too stingy.

"Okay, I will lend it to you first."

As soon as the **** cat lifted his hand, the Qixuan Dou Tianxingyi that it had secretly put away had fallen into Qin Chen's hands.

Qin Chen proficiently urged the Qixuan Doutian Star Apparatus, and an invisible light immediately shrouded the seal in front of him. Numerous restrictions emerged on it, and the formations permeated Qin Chen's eyes instantly.

Too complicated. It was the first time that Qin Chen saw such a complicated formation and seal.

[Chapter 2159: Sentimental Array](#)

It was the first time that Qin Chen saw such a complicated formation, and when he looked at his mental strength, he was slightly dizzy. Obviously, this was because the pattern above was so complicated that Qin Chen's mental power simply couldn't bear these complicated. Array pattern.

"Heaven Soul Forbidden Technique!"

Qin Chen hurriedly closed his eyes, and his soul power spread out. Since his spiritual power could not bear such a complicated formation, Qin Chen could only use his soul power to spy.

Suddenly, the previous vertigo disappeared a lot. Under Qin Chen's soul power, the lines on the formation in front of him began to appear in Qin Chen's soul power little by little.

However, Qin Chen still did not dare to spy on the entire formation with his soul power. He could only analyze the entire formation slowly from the edge, little by little. Just looking at one part, Qin Chen was sure that the formation in front of him was definitely not only a ninth-level formation, but even a holy-level formation. Otherwise, how could he use so many holy crystals? A holy seal, Qin Chen is not sure whether he

You can snoop out the clues, and he can only do his best to detect it little by little.

Fortunately, Qin Chen also has the Seven Xuan Dou Tian Xing Apparatus. This object is a treasure of the Palace of Artifacts. It is specially used to analyze formation restrictions. With this Seven Xuan Dou Tian Xing Apparatus, Qin Chen can save a lot of effort, peel away the cocoon, and point to the core.

At the beginning, Qin Chen was still in the clouds, but with a little bit of shedding, Qin Chen was completely immersed in this seal.

He had never imagined that there should be such a terrifying seal in this world, and the mystery of the pattern made Qin Chen extremely shocked and intoxicated.

"It's incredible, how did such a seal come into being?"

The formation patterns of the space seal were mysterious and unpredictable. Just a pattern was enough to immerse Qin Chen in it, let alone such a huge seal.

At the beginning, Qin Chen could only make the simplest analysis, but as he explored the space seal more and more, he became more and more shocked.

"Ok?"

Along with Qin Chen's understanding of the space seal, a trace of sentiment rushed to Qin Chen's heart. Suddenly Qin Chen was shocked. The formation in front of him was actually similar to what he had seen in the forbidden land. Formation prohibition is very similar.

Is this the same technique?

Or is this a certain type of formation restriction in the heavens?

But no matter what, this obviously represents the forbidden formation of God's Forbidden Land, which is most likely from the heaven.

Originally, Qin Chen had always thought that the forbidden land was laid by the ancient human race holy realm strong, and what he was using was the ancient formation spell.

But now, Qin Chen was a little puzzled. He still couldn't understand whether the ancient formation technique was born in the heavens, or whether the forbidden land was originally related to the strong in the heavens.

A trace of doubt was surging in Qin Chen's heart, but Qin Chen was still immersed in the formation, whether it was spirit or attention, wandering in the ocean of formations. In fact, there is no explanation. Just relying on a formation mage to comprehend the formation of the heavens is completely in the clouds. After all, the formations of the heavens are too advanced. The vastness is like a sailor who often churns in a small river. Came to the sea in an instant

In the ocean, the endless and deep horror can even suffocate people.

Change to an ordinary ninth-level formation master to come, let alone comprehend, I am afraid that just clarifying the clues of the formation inside will be overwhelmed, and it is impossible to do it.

But Qin Chen is different.

In his previous life, he was the top master of formation in the mainland. In order to enter the secret realm of martial arts such as the forbidden land, he had studied countless ancient formations, and this was the only way to survive from the forbidden land in the past nine deaths.

In this life, Qin Chen came into contact with the forbidden formations of the alien demon race, and after experiencing the ancient southern capital, the world of the black death marshes, the mystery of the heavenly demon, the ancient Yu world, etc., his understanding of the forbidden formations was once again amazing. Promote.

It can be said to be the best of the past and present.

This can be easily understood.

What's more, what puzzled Qin Chen was that when he analyzed the seal of this space, for some reason, he had a very familiar and familiar feeling, as if these formation patterns and restraints were born with him.

"Could it be..."

Qin Chen couldn't help but recalled the moment when Thunder's bloodline awakened, and the kind and gentle eyes of the towering and powerful man he had seen soaring over the sky, Qin Chen couldn't help but touch.

As Qin Chen was completely immersed in it, Qin Chen became more and more familiar with the seals and formation restrictions. Although he could not fully understand it, he was not clueless, but found some superficial laws and rules.

"If I guess right, this kind of space seal and restraining formations should be used to seal the deep monsters below. Since it is a seal, it is absolutely impossible to open it, but it can be weakened from the side.?"

"After all, this seal should be aimed at the masters of the Abyssal Demon Race below. Otherwise, because of the terrifying nature of this seal, I would have been killed by this seal long ago. How can I be safe to this day?"

"And this seal exudes the power of every space. If I set up a large formation to block the space and open a gap from the seal, will I be able to figure out the internal structure of the seal? Open the true face of the light group?"

Although Qin Chen didn't know why the **** cat wanted to look at the light group, Qin Chen believed that it must be targeted.

As for destroying this seal, Qin Chen would not do it even if he killed Qin Chen. This seal was obviously used to seal the Ancient Demon Land Zhongyuan Demon Clan powerhouses out of trouble. Catastrophe.

Qin Chen can still distinguish between the ego and the ego.

Thinking of this, after Qin Chen had an idea, he did what he said. After analyzing for so long, he knew that it was impossible for him to completely figure out the structure of this seal. The level of this seal was too high, and his cultivation base was far from enough, but based on his previous insights, he opened the door. How important is it

Mouth is not completely impossible.

Immediately, Qin Chen stopped feeling, and instead began to refine the formation flags on the spot. He had a lot of formation flags, but those array flags were ordinary nine-level array flags, and it seemed a little weak to use them here.

Moreover, after seeing this Saint-level big formation, Qin Chen has a new understanding of the formation method, and can completely refine a stronger formation flag.

He took out a lot of materials one after another, and Qin Chen began to reform the original formation flag.

Buzzing!

The array patterns re-formed, and Qin Chen painted it very slowly, because he hadn't had that thorough understanding of the formations of the Saint Grade, so he could only make simple attempts at the beginning.

I saw a heart-palpitating breath gradually permeating the formation flag, which was obviously much more terrifying than at the beginning, but before Qin Chen was surprised, the formation flag made a click, and the material was shattered. It was obvious that he couldn't bear it. Power and ruined. Failed!

[Chapter 2160: Layout](#)

The first formation flag was destroyed, and Qin Chen didn't have any frustrated expressions.

The layout of the formation flag is by no means a casual success. Even if you understand the structure of the formation, it is not a simple thing to describe it perfectly. It requires many trials.

He quickly picked up the second formation flag to outline, his eyes were solemn, stroke by stroke, more careful than before, and he repaired the mistakes of the previous formation flag.

"What is Qin Chen doing?" Lao Yuan asked in confusion.

The **** cat squinted his eyes and said: "Kid Qin Chen should have understood the seal below and started to try to break the formation, and he is now portraying a brand new formation flag and enhancing the power of the formation flag." The black cat was shocked. After simply observing for so long, Qin Chen was able to transform the original formation flag, and the **** cat could see that the power of Qin Chen's reformed formation flag was significantly higher than that at the beginning. Too much, wait

Talent, even if the **** cat is among the strongest ancient human races, he has not seen a few.

"This son, the talent is really superb, if it grows like this, then..."

The **** cat murmured, his eyes flashing inexplicably light.

"Snapped!"

Although the second formation flag lasted a lot longer than the first, it was quickly broken.

The third one!

"Snapped!"

The fourth!

Fifth!

Qin Chen kept trying, but kept failing. After a while, there were as many as ten or twenty broken array flags around him.

This made Lao Yuan a little worried. It didn't understand the formation technique at all, but also knew that the broken formation flag obviously meant that Qin Chen's refining had failed. But Qin Chen didn't look impatient at all. If there is a master of formation here, you will find that although Qin Chen has failed in refining many times, the place of each failure is different. The place where he failed the last time has arrived. next time

It will be solved perfectly.

Moreover, the reason why Qin Chen failed in some places was not because he was unable to refine it successfully, or even deliberately.

Qin Chen's purpose for doing this was naturally to familiarize himself with the entire formation pattern, rather than simply refining the formation flag.

The array flags were damaged, and the damaged array flags around Qin Chen had fallen into a pile, and even a lot of materials were wasted.

But Qin Chen didn't stingy with any materials, as long as it was high-level materials, he took out all the materials, facing this space seal all over the holy crystal, the materials he lost were not worth mentioning.

Moreover, these materials were not completely lost. Under Qin Chen's consumption, his formation attainments had once again increased at an appalling speed. Qin Chen had forgotten how long he hadn't been so heartily refining the formation flag. In the past, it was simple work for him to refining the formation flag, because he had already talked about it every time, but this time was different. Any trace of walking

When he moved, Qin Chen didn't know what would happen, and this kind of stimulation and groping made him more enjoyable than ever.

I don't know how long it took.

Qin Chen finally succeeded in refining the first formation flag, hum, as soon as this formation flag appeared, it exuded a terrible aura, this kind of aura made Qin Chen a little palpitating.

"It's too strong, this formation flag has undergone a completely different transformation in its formation structure, and its power has increased so much!"

Qin Chen himself was a little excited.

Then, he continued to refine the formation flag.

After one succeeded, the remaining formation flags were much simpler. The formation flags were quickly refined by Qin Chen. At the back, there were no mistakes at all, and each formation flag was completed in one go.

I don't know how long it took before Qin Chen finally refined enough formation flags. He first threw the Tiankong Wanzhuan formation disk, and then began to arrange a space blockade formation around him.

This formation is the top-level formation Qin Chen can control at present. It has reached the ninth-level peak. Coupled with the Saint-level formation structure that Qin Chen has integrated, it is even more powerful than before.

It's a pity that, limited by Qin Chen's current cultivation base and formation flag materials, the seal of the Saint Level space below is still much worse.

Fortunately, Qin Chen only needed to open a gap in the space seal below.

Under Qin Chen's control, the formation flags fell one after another. This time Qin Chen deployed the formation carefully, and it took a long time to finally complete the arrangement.

"I'm going to start."

It was not the first time that Qin Chen broke the seal. He knew that if the method of breaking the seal was not correct, it would inevitably lead to backlash from the seal. Once the power of the seal below provokes backlash, I am afraid neither he nor Lao Yuan can survive. Come down.

"Lao Yuan, Big Black Cat, go ahead and go to the Universe Good Fortune Jade Plate!" Qin Chen said, and if he encounters danger, he will enter the Universe Good Fortune Jade Plate for the first time.

Lao Yuan and Big Black Cat also knew how great they were, and quickly entered the universe of good fortune jade disc.

Qin Chen took a deep breath and began to urge the Tiankong Wanzhuan array disk. Suddenly, a misty array of light emitted from the Tiankong Wanzhuan array disk, which activated the first formation flag, then the second and third. ...

Buzzing...

The formation flags were activated one by one, and there was a terrible array of light power instantly permeating the field. With the blessing of the Tiankong Wanzhuan array disk, this force of light instantly fell on the space below it. on.

Click!

Qin Chen only heard a faint blast, and then a strong and extreme Saint Crystal aura rushed out, and at the same time a strong sense of crisis came out.

"not good!"

Qin Chen was shocked, and he didn't care to think too much, and immediately entered the jade disc of good fortune in the universe.

Om...

Suddenly a strong spatial fluctuation swept across, and then Qin Chen's formation flag immediately made a creaking sound, and it was about to burst.

Qin Chen was shocked. He immediately knew that the large formation he had arranged could not stop the sealing force. If the formation he had arranged was broken, his work for the previous few days would be wasted. Anxiously, Qin Chen hurriedly released a wave of power in the Universe Good Fortune Jade Plate to control these formation flags. However, Qin Chen could not attack the seal with all his strength, because once the seal was attacked, the damage to the seal would be over. Shi Yuan

The consequences of the Lord of Devil's escape are more serious than anything.

Click! The formation flags burst instantly under this force, but Qin Chen also relied on the formation method he arranged to withstand the initial shock, but there was still a terrible spatial force attacking, even Through Qin Chen's control, we must rush into

In the jade disc of good fortune. It was the first time that Qin Chen saw the power to rush into the universe jade disc. Anxiously, he could no longer control the flag of the outside world. He burned his blood madly and hurriedly wanted to make the universe jade disc. Closed the opening to isolate that

The influx of space power.

boom! But that power was too strong, accompanied by a terrifying spatial power and an astonishing Saint-level power, instantly poured into the Universe Fortune Jade Plate, and attacked Qin Chen fiercely.
