[Chapter 2461: Devil's Gate](#)

The soul light of the Lord of Abyss Demon stood proudly between the heavens and the earth, and terrible magic lights bloomed from him, and the terrible magic energy drew endless magic sources, forming a huge magic energy vortex.

Rumble!

From outside the ancient battlefield, a series of demonic energy madly condensed. This is the endless demonic energy in the previous demon cave, lingering quickly, covering the sky.

At this moment, the entire forbidden place was trembling.

"Smelly boy, do you think this seat is really afraid of you? This seat is the supreme Lord of the Abyssal Demon. How can you be afraid that a human boy in your area will die for me?"

boom! The terrifying demonic energy lingers, the ancient battlefield roars, and the world instantly seems to be at the end of the world. The terrible aura is much more terrifying than the power of the heavenly holy ancient talisman released by Ling Luling before, especially the kind that shatters everything. Tianwei, let Qin

Endless fear emerged from Chen Xin, and his whole body was standing up. "Kid Qin Chen, it's no good, this Lord of the Abyss is motivating the original magic power, this guy has left a trace of the original magic in this forbidden land, and the power of the Lord of the Abyss is enough to kill the heavenly sage. Level master, you hurry to hide in the universe

Good luck in the jade dish. "

The anxious voice of the **** cat suddenly sounded in Qin Chen's ears. Qin Chen also felt the threat of death at this moment. The Lord of Abyss Demon was too strong. He set up a dark hand back then, leaving a soul-separation and a trace of original magic power in this forbidden land, although it was only a trace of original magic power. But it is enough to make the whole Tianwu

The mainland was destroyed.

Thanks to this being a place forbidden by the gods, the special place formed by the great battle of the heavens that year was able to withstand the fight of a master-level master, otherwise under this breath, the entire Tianwu Continent would also collapse. Of course, the soul of the Lord of the Abyss can only be arrogant in this forbidden land, because once it leaves the forbidden land, its breath will be instantly captured by the sea of thunder. At that time, the sea of thunder will definitely Will explode and shoot out lightning, killing it

.

"boom!"

In the sky, a dark world-destroying magic light appeared and turned into a black hole that swallowed all things. This terrible light seemed to have penetrated all things in time and space, and burst at Qin Chen instantly.

Qin Chen had a feeling that once he was shot by this light, he would definitely die, let alone him, this light, the Heavenly Sage master would fall directly.

Qin Chen was horrified, and was about to enter the Universe Good Fortune Jade Disc for the first time, but when he urged the Universe Good Fortune Jade Disc, he found that he couldn't get in at all.

"Hahaha, the world-killing magic light of this seat can shield all power, you can't hide it, this seat has to see if the treasure in your mind is the one that was the same in the past."

The Lord of Abyss Demon laughed wildly, and the soul light on its body disappeared bit by bit, and this blow was also consuming its soul-dividing power. This is a play that hurts both sides.

The endless magic light came, swallowing it towards Qin Chen instantly.

"Less dust!"

"Master!"

"Kid Qin Chen!"

In the jade disc of good fortune in the universe, You Qianxue, Ji Ruyue, Chen Sisi, Mo Yuanbai, Big Black Cat, Lao Yuan, they all spoke in anger, and their faces were shocked.

Under this circumstance, even the **** cat was helpless, and could only watch Qin Chen fall under this light.

Seeing that Qin Chen was about to be bombarded by this world-destroying magic light.

suddenly.

boom!

A black figure suddenly appeared in front of Qin Chen, who was the Sect Master of Illusory Demon. At the moment of life and death, she madly blocked Qin Chen.

"dust!"

Turning around, Sect Master Illusory Demon looked at Qin Chen pitifully, his eyes were full of tears, and the expression in his eyes was not fear, but relief.

Yes, relief!

She facelessly faced Qin Chen.

After knowing Qin Chen's true identity, her mood has been fluctuating. She doesn't know how she should face Qin Chen in the future, and at this moment, she is willing to die for Qin Chen. "Chen, I'm sorry, I shouldn't have deceived you with my sister back then, I love you, I am willing to give my life for you, Chen, I'm sorry, I have always wanted to say this to you for three hundred years, I Thought I would never have a chance in my life

I will say this, thank God for giving me this opportunity. "

"Dust, forget me, I am a woman who is not worthy of your love, I am not worthy of you, and I am not worthy of loving you."

"Sorry!"

"dust!"

boom!

When the magic light descended, the Sect Master of Illusory Demon was shrouded in endless magic light. The veil on her face shattered, revealing an ugly twisted face, but those eyes were brighter than ever.

Those eyes hurt Qin Chen's heart instantly.

"It's you!"

Qin Chen throbbed, and from these eyes, he saw Shangguan Xi'er who was in love with him back then.

Do not!

She is not Shangguan Xier, but Shangguan Xier's twin sister, Shangguan Wan'er.

It turned out to be her, it turned out that it was her who loved herself deeply.

Qin Chen understood everything in an instant, but all this came too late.

boom!

The endless magic light enveloped Shangguan Wan'er, and Qin Chen's eyes suddenly turned blood red.

"Do not!"

He roared and rose into the sky to save the opponent.

He doesn't know how to deal with this relationship, but he can't just watch a woman die for himself.

What shocked Qin Chen was that after the Demon Light of Extinguishing the World swept Zhong Shangguan Wan'er, Shangguan Wan'er's body was not shattered, but a deep demon energy suddenly poured into her body.

"Jie Jie Jie! I lost a body just now, but I didn't expect to get a body again by this seat. This is the immortality of me, Jie Jie."

This cold and cold aura was the Lord of the Abyssal Demon. It did not dare to seize Qin Chen, but saw the Sect Master of the Illusionary Demon rushing forward, and immediately entered the body of the Lord of the Illusionary Demon.

"No, how can you have magical power in your body..."

Suddenly, the Lord of the Abyss made a frightened sound, and the aura on Shangguan Wan'er's body was fluctuating rapidly. Obviously, the Lord of the Abyss was unable to swallow Shangguan Wan'er's soul and was unable to seize her body for a while.

"dead!"

Qin Chen hurriedly urged the Heavenly Soul Forbidden Technique, and a horrible soul force rushed into the body of the Illusory Sovereign, and he wanted to rescue the Illusive Sovereign.

When Qin Chen's soul power entered the mind of the Illusory Sovereign, what he saw was a picture, a picture of getting along with himself in the past. These memories are deeply rooted in the Illusory Sovereign's mind. forget.

In addition, the two groups of dark souls are fighting frantically, and there is a unique magical power in the soul of the master of the magic demon, which can resist the devouring of the soul of the master of the abyss.

"Damn, why this seat is so unlucky!"

The Lord of the Abyss roars.

"The gate of the devil, open!"

With a roar and boom, a dark crack was actually cracked in the sky of the ancient battlefield in the Forbidden Land, and a breath that was so powerful that it could destroy the world and the earth passed from that crack.

Behind the crack, there seemed to be a supreme plane, a beam of light shot out from the crack, and suddenly fell on the body of the Illusory Demon Sect Master.

Whoosh!

The Phantom Demon Sect Master was quickly pulled into this crack.

"Dust!" Shangguan Xi'er looked at Qin Chen, tears streaming down, and instantly entered a dark crack, disappearing.

[Chapter 2462: Infinite Hell](#)

Qin Chen stood in the void, looking at this magic light crack between heaven and earth, his heart was full of horror. He could feel that behind this crack, there was a world, a world full of cold air.

Behind this crack is obviously a higher plane, exuding an aura that makes Qin Chen's heart palpitating. Qin Chen has a feeling that if he rushes into this crack, facing himself, it is most likely to be death. .

"boom!"

In the cracks, the endless black light and the deep demon aura made Qin Mo feel extremely comfortable, but it filled other people with palpitations.

This is a power above the plane of Tianwu Continent.

In Qin Chen's eyes, Shangguan Wan'er's finally infatuated and liberated gaze appeared.

Qin Chen's fists suddenly clenched.

He, he couldn't let Shangguan Wan'er leave just like that. At this moment, Qin Chen didn't know how he felt about Shangguan Wan'er.

Is it love?

But she deceived herself with Shangguan Xier back then and let herself fall into Death Canyon.

Is it hate?

She is also a poor person, especially when she recalls the little things that year, she has to say that she was happy when she was with Shangguan Wan'er.

This is a love-hate emotion that makes Qin Chen unable to sort out.

Whether it was love or hate, Qin Chen couldn't just watch a woman die for herself.

boom!

He rose to the sky, trying to rush into this crack.

"Kid Qin Chen, stop, do you know what you are doing? This is the gate of the demon world. Behind it, there is a world connected. You dare to enter with your current cultivation base, and you will die forever." The **** cat sounded in fright. , With warnings and reminders. "No matter what is behind the gate of the demon world, I can't let a woman die for me." Qin Chen snorted coldly, he was about to go up, bang, but there was a horror in the gate of the demon world. The breath, a trace of magic,

Permeated from it, it was actually going to erode the entire ancient battlefield and the entire forbidden land.

This is the oppression from a higher plane, to swallow this lower plane.

puff!

Qin Chen was directly shocked, and the breath escaping from the gate of the demon world was too terrifying. Only a trace of it made Qin Chen's blood solidify and almost freeze. Even the Immortal Eucharist could not resist, because of his current cultivation level. too low.

"No, this is the world in the gate of the demon world that is devouring the Tianwu Continent, **** it, if enough demon aura is allowed to diffuse out, then the entire Tianwu Continent will collapse, and all the people will fall." The **** cat said in shock.

"what?"

Qin Chen's expression was extremely ugly, this Demon World's aura was so terrifying?

Hum!

Just when this trace of devilish energy was about to escape in this ancient battlefield, suddenly, a magnificent breath swept across from a distance, and when this breath approached, it immediately took control of the world.

It is the aura of the origin of the Tianwu continent. Along with the origin of heaven and earth, there is also the power of the long river of years. As soon as the power of the years appeared, it immediately

enveloped this square of heaven and earth. It actually began to corrode the breath emanating from the gate of the demon world, and the formed power quickly melted Arrived

In the origin of heaven and earth.

The breath of the Demon Gate suddenly melted like a snake and scorpion, and the crack in the sky was also quickly closed, and finally disappeared.

call!

The world is calm, and all the breath has disappeared.

Qin Chen looked at the breath in the sky with an ugly expression, and his eyes showed helplessness.

Shangguan Wan'er disappeared, and entered the crack along with the Lord of the Abyss.

"Master!"

Chen Sisi suddenly appeared beside Qin Chen, looking up at the calm sky, tears streaming down his face.

She did not expect that Master and Chen Shao would have an unforgettable love. At the last moment, in order to save Qin Chen, Master was willing to dedicate his life, and was taken to the gate of the demon world by the Lord of Abyss Demon.

Whoosh whoosh.

A group of figures appeared, it was the **** cat and Lao Yuan, they all looked at the sky silently, sighing in their eyes.

Almost, Qin Chen fell, and the terrifying attack released by the Lord of the Abyss in the split soul rage was enough to destroy the Heavenly Sage master. If it weren't for the master of Illusory Demon, Qin Chen was alive or dead, it was really hard to say.

"Kid Qin Chen, don't think too much, the Illusory Demon Sect Master was taken to the gate of the Demon Realm, I am afraid that life and death will be unpredictable, and it will be too bad." The **** cat sighed.

"What is behind the gate of the demon world?" Qin Chen suddenly turned his head and looked at the **** cat.

"The gate of the Demon Realm is actually a secret method of the Abyss Demon Race. It should be connected to another world. If I am not mistaken, behind the Gate of the Demon Realm should be the Infinite Demon Prison of the Abyss Demon Race!"

"Infinite Demon Prison?" Qin Chen wondered. "Yes, the Infernal Demon Prison is located in the heavens and is the territory of the Abyssal Demon Clan. It is rumored that after every member of the Abyssal Demon Clan leaves the Infinite Demon Prison, no matter where they go, they can return to the Infinite Demon Prison through a special secret method. Because Yuanmo people have special

A special method can leave the coordinates of the Infinite Demon Prison in the body, so that it can travel through any plane and return to the Infinite Demon Prison. "

"There is the birthplace of the Abyssal Demon Race."

Qin Chen frowned, "But isn't the heavens destroyed? If the Infinite Demon Prison is in the heavens, how can the soul of the former Abyssal Demon Lord return?" The **** cat shook his head and said, "The heavens are destroyed, but the specifics are destroyed. I'm afraid no one knows what it will be like. What is certain is that the heavens are not completely destroyed, otherwise where did the previous masters of the heavens come from? Not to mention the heavens that came this time.

Man, at the beginning in the celestial passage in the depths of the blood **** sea, didn't there also celestial masters who came countless years ago? So I guess that although the heavens are destroyed, they actually still exist, they are just broken. "

This guess surprised everyone.

Broken heaven?

This is really possible. If the heavens are completely destroyed, it is impossible to explain where so many masters of the heavens come from.

"In other words, the heaven is still there?" everyone was shocked. The **** cat nodded, "This is affirmative, but I am afraid that I can only know what it looks like when I go to the heavens. In fact, the emperor originally had this guess, but I have never been sure, but I saw the previous Ling Luling and others. , The emperor

On the contrary, he has more confidence, hehe, if the heaven is destroyed, where will there be Yaomie Mansion? "

Everyone is throbbing, this news is too important to them.

"Heaven Realm?" Qin Chen clenched his fists and looked at the **** cat with scorching eyes. "That is to say, as long as you go to the Heaven Realm, it is possible to go to that Infinite Demon Prison?" "This is the theory, but it's actually very difficult." The **** cat didn't want to hit Qin Chen, but still said, "The Infinite Demon Prison is the birthplace of the Yuan Demon Clan. This place is where the Yuan Demon Clan's secret lies. It is one of the most mysterious places in the heavens. In other words, everyone in the heavens knows the existence of the Infinite Demon Prison, but no one knows where it is. It is so difficult to find the Infinite Demon Prison, and I am afraid it is not easier than breaking through to the Holy Lord."

[Chapter 2463: acceleration time](#)

"The most important thing is, if the soul-separation of the Lord of Abyss Demon really goes to the Infinite Demon Prison, once the Abyss Demon Race knows that their masters are sealed on the Tianwu Continent, what do you think will happen?" The **** cat sneered. Tao.

Qin Chen's heart trembled.

Everyone also took a breath, and they all understood the consciousness of the **** cat.

Once the people of the Abyssal Demon Race knew that Tianwu Continent had sealed a master of the Abyssal Demon Race, wouldn't they be able to attack immediately?

The Deep Demon Race, that is one of the top races in the heavens. It is definitely more terrifying than the Yaomie Mansion. With such forces coming, is there any hope of survival in the Tianwu Continent? "That's why I advise you not to be reckless. You are now the hope of the Tianwu Continent. Now, not only the heavenly masters are coming, but there are even more terrible crises lurking. You could enter the gate of the demon world regardless of your life and death, but once so do

What about Tianwu Continent? "

Qin Chen was silent.

The heart is heavy, yes, Tianwu Continent still needs him, and countless people still need him.

Especially people from the heavens, there are only three years, three years, enough to do?

"Big black cat, I understand, what do you dare to do?" Qin Chen said with a gleam in his eyes. Sovereign Illusory Demon must be saved. Whether she is alive or dead, she must figure it out, but not now. .

"What can you do, the only thing you can do now is to improve your strength." Big Black Cat said. "I also know this, but how can I improve? Moreover, the other party will be coming in three years. With my current strength, no matter how I practice, I am afraid it will be too late." Qin Chen smiled bitterly, and it was too difficult to improve his realm. , Although he is repaired

In the mid-term of the near mortal sacred realm, but wanting to rise to the point of confronting the people from the heavens, it is so difficult that it will reach the sky.

"Actually, it's not impossible." The **** cat suddenly laughed.

"any solution?"

Everyone looked over. "If you continue to cultivate in the Tianwu Continent, it won't do anymore, but if you go to the heavens? The rules and avenues of the heavens are far beyond this world. In the heavens, with your talents, you may not be able to break into a new world. Come."

Said the **** cat.

"But now the world has changed drastically, and it is no longer possible to break through the void with force, how can we go to the heaven?" Mo Yuanbai was curious. "In fact, there are many ways. For example, you can leave the Tianwu Continent directly, travel through the void of the universe, across various planes, and you can naturally rush to the heavens. The heavens are also a plane. Just in this universe, it is not nothing.

The place where the law reaches. "You are all masters in the holy realm right now, so you can do this. Ling Luling and others should start from the heavens and attack the lower planes. But this process will be very long, and no one knows what will be encountered in the void,

Even the Yao Annihilation Mansion team wants to reach the Tianwu Continent for three full years. If you use this method, I'm afraid it will take more time. "

Mo Yuanbai smiled bitterly: "When we reach the heavens like this, wouldn't the Tianwu Continent have already been contributed?"

"That's for sure." The **** cat nodded.

"Where is there anything to say?"

Everyone was speechless.

The **** cat gave everyone a glance, "In addition to the first method, there is another method, but there are some risks."

"What?" Everyone was curious.

"Stupid, have you forgotten the Sea of Blood God?" the **** cat said lightly.

"You mean, which passage under the blood **** seabed?" Qin Chen was startled, he vaguely knew what the **** cat was thinking. "That's right." The **** cat nodded and believed: "What we can know now is that the passage is indeed leading to the heavens. Back then, the person could rely on this passage to come from the heavens to the Tianwu Continent. This channel directly

Going to the heavens, the only trouble is not knowing where in the heavens behind this passage leads, and whether there is any danger. "

Qin Chen frowned, this was indeed a way.

It seems...

There is only this way.

Qin Chen's eyes flickered, and the time must be quickened.

"Let's go, let's go back to settle down, and then think of a way to go to the heavens." After speaking, Qin Chen will leave this ancient battlefield.

"What is the urgency, even if you go to the heavens now, it will only take three years, or even less. Are you sure you can cultivate to the realm of defeating the masters of Yao Mie Mansion in such a short time?" The **** cat suddenly sneered. Qin Chen smiled bitterly. He already knew from the mouth of the **** cat that any breakthrough in the holy realm requires a lot of time, not only the perception of the rules, but also the breakthrough and improvement of the body, and then genius People, think

It would take hundreds of years to cultivate in order to break through at the holy realm level. In a mere three years, I am afraid that there is not enough time to consolidate the cultivation base.

However, knowing this, Qin Chen did not admit defeat.

For the current plan, there is only one way, is it to watch the enemy come and destroy the Tianwu Continent?

"Big black cat, this young man also knows that it is difficult, but no matter what, this young man will never give up, and will not let anyone destroy our hometown." Qin Chen gritted his teeth, his eyes were bright, and his whole body bloomed with terrible fighting spirit. .

"Yes, fight to the death to the end."

You Qianxue and the others are also cold, even if there is no hope, how can it be? They are all unwilling to admit defeat, willing to fight at the last minute.

"It's stupid, if there is no solution, I will propose this idea? You don't need to think about it, it's really stupid." Seeing Qin Chen and their aura, the **** cat was speechless.

"Do you have a way?" Everyone looked over.

The **** cat looked contented: "If I can't help it, I will let you do this, you are not stupid."

"Damn, there is a way you can't tell."

Qin Chen raised his head and gave the **** cat a thud.

"You brat dare to beat the emperor." The **** cat jumped up, his hair cocked and it was about to explode.

"Okay, let's go back and find a female cat for you." Qin Chen couldn't help but leaned, "Quickly, what can I do?"

Others also looked fiercely.

"Years are long." The **** cat uttered four words unpredictably.

"A long river of years? What do you mean?" Qin Chen was confused and couldn't help but smashed over with another violent shudder. The **** cat whizzed and jumped away, "I warn you, do something to the emperor, believe it or not. You are welcome."

"Okay, okay, I won't do it, you talk carefully." Qin Chen asked. "The long river of years is the most mysterious river between heaven and earth, and the time rule is also one of the most powerful rules between heaven and earth. In the long river of years, it has amazing power of time, and even the origin of the world of the source continent can be restored. This is also the reason why the Tianwu Continent is here, but in the same way, the power of time can accelerate time." The **** cat said solemnly.

[Chapter 2464: Eternal Years Dan](#)

"What do you mean by accelerating time?" everyone asked.

"I don't know this? It's just cultivating in a certain area of heaven and earth. Time slows down indefinitely. Maybe you have cultivated for a year, but in the outside world, it is very likely that only one day has passed.

hiss!

Everyone took a breath.

Is there anything so awesome? After one year of cultivation, only one day has passed by the outside world?

"You mean to let us practice in the long river of years?" Qin Chen frowned. "Of course not." The **** cat shook his head and glanced at Qin Chen, "I want to enter the Long River of Years with your cultivation

base? Where is the Long River of Years, even if the Heavenly Sage master enters, it will be instantly wiped out by the power of the Years. Unless it's a holy master level,

Maybe you can resist it a little bit, and needless to say with your cultivation base, you will die if you enter. "

"What's that?" Qin Chen was anxious: "Big black cat, tell me clearly."

"Ahem, what I said is that you can't go in under normal circumstances, but isn't there a special situation." Big Black Cat said: "Young man, don't be so anxious, be calm."

"Xin Ping, you are a ghost." Qin Chen scolded, but he also knew that the **** cat was joking, so he didn't worry: "Just let's talk about it, what is a special situation." "Don't you have the origin of time? As long as you refine a part of the original power of time, you can travel through the years and enter the river of years, and after you enter the river of years, you need to continuously collect the power of the years.

Instilled into the jade disc of good fortune in the universe. "There is a small world in the Universe Destiny Jade Plate, which is completely under your control. It only takes enough time and energy to form a time mystery. Coupled with the source of time in your body, you can control this in the Universe Destiny Jade Plate. Time in the Secret Realm

In this way, the time you practice in the Universe Jade Plate can be compared with the time elapsed outside. "

"As for how strong this comparison is, it depends on how much power you have collected over the years and your control of the origin of time, but as long as it succeeds, ten to one is fine."

"Ten to one?" Qin Chen and the others took a breath. This is not a small amount. In other words, ten days of cultivation in the Universe Jade Plate, only one day has passed outside, which shocked Qin Chen and the others. "In the long river of years, in addition to absorbing the power of the years, you can also temper your physical body. Once you temper your physical body in it, your physique will evolve into a divine body of the Universe. Zhou, you Ben

The body forms the space eucharist based on the rules of space, and if it re-forms the time eucharist, then it will become the cosmic infinite body throughout the ages. "

The **** cat paused and said leisurely: "At that point, you can even run through the ancient and modern times and become the strongest physique in the world. Even in the heavens, there are few opponents."

Qin Chen was shocked after hearing this: "Although I didn't hear clearly what is going on, it's pretty awesome, right?"

"That's natural." The **** cat said proudly: "Once you really succeed, there may be hope to fight against the masters of the heavens. This is the only hope."

"Can You Qianxue and the others also enter the long river of years to practice?" Qin Chen asked again.

The **** cat frowned: "They don't have a source of time. Once they enter the river of time, they will be eroded by the force of time, and they will die instantly..."

Qin Chen's face was ugly.

"but....."

The **** cat said again: "It's not impossible."

"Damn, can you finish it in one sentence." Qin Chen's face was black and his eyes wanted to kill: "What way?"

"Didn't you get three years of Tao Yun fruit? As long as you refine a kind of pill, you can let them travel through the years and enter the long river of years." Big Black Cat said.

"What kind of medicine?" Qin Chen's gaze beamed. With such a good opportunity, he must let You Qianxue and the others enter together.

"Eternal Years Pill!" said the **** cat: "This is a holy grade pill. If you want to refine this pill, you must first raise your pill cultivation base to holy level."

Alchemy Saint Master? Qin Chen's eyes condensed. He is now proud enough to be the number one pharmacist in the mainland, but Qin Chen doesn't know whether he can refine a holy realm pill. This is a holy pill. For tens of thousands of years, Tianwu has not had it. A sacred place is born, let alone

It is a holy pharmacist.

Mo Yuanbai also took a breath. He was the master of the alchemy pavilion, and naturally knew the difficulty of becoming an alchemy saint master.

In the history of Tianwu Continent, there have been many holy realm masters, but the strange thing is that the alchemy saint masters are extremely rare, almost never heard of, which shows the difficulty of it.

"There is little dust, you don't care about us, it's better to enter the river of time as soon as possible, we don't have much time." You Qianxue and the others were moved, but resolutely refused.

"Don't rush to refuse, Qin Chen must refine the eternal years pill, otherwise the emperor will not let him enter the river of years." The **** cat said at this time.

"Why is that?"

Everyone was puzzled. Didn't the **** cat say that Qin Chen had time for his roots and didn't need to take eternal years pills at all? "It's very simple." The **** cat said solemnly: "If you want to enter the long river of years to collect the power of the years, you must have a certain control over the origin of time, and how to verify Qin Chen's control over the origin of time, and refine the eternal life pill. The best way, holy

The reason why the pill is difficult to refine is because it needs to form the source of power in the process of refining, which is also the most critical part of the difficulty of the holy grade pill. "

"When Qin Chen can refine the Eternal Years Pill, it means that he has a certain control over the origin of time and can safely enter the long river. Otherwise, if he enters rashly, his life and death will be uncertain."

"Furthermore, in the long river of years, the more people there are, the more power of the years will be collected. Qin Chen has the origin of time, and the years of Dao Yunguo on him have no effect on him. Why not do this? Time to use it."

Everyone understood Qin Chen's intentions.

"Is it a holy pill?"

Qin Chen's gaze condensed, "Let's start." Qin Chen directly took out countless elixir from the Universe Jade Plate. These elixir were all holy spirits obtained from the storage ring of Ling Luling and others. Medicine, time, Tao Yunguo is too important, naturally you can't refine this as soon as you come up, you can

Refining other holy elixir pills first, and after successfully breaking through the alchemy saint master, then refining the eternal age pill.

Of course, Qin Chen did not directly refine other holy-level pill. The difficulty of refining a holy-level pill was extremely high. If he rushed to refine it, there would be only one possibility of failure.

Qin Chen first took out the holy-level pill that Xiu Chengze and the others were carrying, and started by analyzing these holy-level pill.

He immersed himself in hard work, and began to analyze the sacred pills one after another. On the side, Mo Yuanbai and Qin Chen also began to analyze. Both the master and apprentice are the top pharmacists in the mainland. Refining the peak emperor-level pill is as simple as eating and drinking. If the world says who can become Saint-level pharmacists, only the two of them are the most promising.

[Chapter 2465: Successfully refined](#)

Qin Chen and Mo Yuanbai are both top alchemists. Now that they have entered the Holy Realm, their spiritual power, soul power, and vision techniques have been greatly improved.

Boom boom boom!

They took out the sacred medicinal pill, carefully studied and observed. At the beginning, Mo Yuanbai could still keep up with Qin Chen's rhythm. The two discussed the structure of the pill, formed and refined it. The method and process of the system.

But afterwards, Qin Chen's speed was obviously faster than Mo Yuanbai's. In many places, Mo Yuanbai couldn't see anything at all, but Qin Chen had a glimpse of the mystery.

The world's number one pharmacist, never just talked about it casually. Based on the alchemy talent, Qin Chen could be called the first person in the Dark Age for thousands of years, no one before and no one to come after.

Even before the Dark Ages, it was difficult to say whether there was a Alchemist better than him.

The most important thing is that Qin Chen's soul power is too strong. The stronger the soul power, the deeper his observation and understanding of the medicine, and the higher his natural attainments.

While studying, Qin Chen yelled at Mo Yuan Bai, hating iron for not making steel, too idiotic.

Mo Yuanbai felt wronged in his heart, but he was extremely happy. This kind of feeling has not been experienced in more than three hundred years. Although he has been scolded by Master's side, his heart is sweet.

Only a few days later, Qin Chen had already analyzed the holy grade pill in all storage rings.

And when Qin Chen analyzed, Lao Yuan and the others were naturally not idle, but from time to time they explored this divine forbidden place. This place is an ancient battlefield and one of the most mysterious forbidden places in Tianwu Continent. There may be something in it. What a treasure.

Because Ling Luling didn't carry many holy-level medicines, Qin Chen and Mo Yuanbai analyzed all the medicines in just a few days, and then began to refine them.

Seeing Qin Chen and Mo Yuanbai starting the furnace for alchemy so quickly, the **** cat was stunned.

This is too fast. After only a few days of work, I started refining by myself? Qin Chen naturally didn't do anything unsure. He took out the pill furnace and blew, Qinglian Demon Fire and Youkong Bingyan were released at the same time, and began to heat the cauldron, while Mo Yuanbai was helping and watching, because he I know that I am worse than the master on the alchemy

a lot of. Qin Chen took out many holy-level elixir and started the refining of the first furnace. Seeing Qin Chen's non-stop operation, the **** cat was dumbfounded. Qin Chen's technique was too subtle. It was certain that Qin Chen was the first. Refining a holy pill once, but Qin Chen

The technique is extremely skillful.

The more it looked, the more shocked it became. This guy was a miracle.

boom!

The pill furnace trembled violently, and a terrible pill gas rushed into the sky. The pill furnace in Qin Chen's hand roared violently, and the flames rushed into the sky. The refining of the holy-level pill was too terrifying. War.

Cang Dang!

Suddenly, the pill furnace uttered a roar, and a scorching smell emerged. This time the refining failed.

The **** cat was stunned. Unconsciously, he actually watched it for several hours, and it was almost, almost the elixir was about to take shape, but it failed in the end.

This is natural, and Qin Chen is so awesome, it is the first time to refine a holy grade pill, and it is self-exploring, if the first batch can be completed, it would be too abnormal.

He had a conversation with Mo Yuanbai, and quickly figured out the reason for the failure of this pot of medicine, and then began the second pot of refining.

After a few hours.

boom!

A roar sounded, all the medicinal materials in the pill furnace turned into ashes, this time it failed again.

But it is clearly better than last time.

Qin Chen began to refine the third furnace of pill.

Cang Dang!

This time, it was even more terrifying. The furnace cauldron couldn't bear the energy, so it exploded directly, and Qin Chen's face was scorched.

This is due to the tyrannical Qin Chen Xiu base, who came to an ordinary mortal sacred alchemist and was probably seriously injured.

"Hahaha." Qin Chen was not upset, but laughed, because he felt that he was getting closer and closer to success.

"Master, take my pill furnace." Although the pill furnace was broken, as the master of the pill pavilion, Mo Yuanbai naturally had more than one ninth-rank emperor grade pill furnace, and he quickly took out a brand new pill furnace. furnace.

Qin Chen didn't refuse either. Using the nine-rank pill furnace to refine the sacred pill was indeed a bit low-level, but he could only pay attention to it.

This time, Qin Chen's technique became more proficient. He threw a strain of elixir into it, and all kinds of elixir merged in the pill furnace. The whole process was as perfect as the clouds and flowing water of the same peer.

The **** cat's eyes were round, and this scene was really shocking.

Qin Chen was a bit strange when refining the first pot of pill before. It didn't take long before Qin Chen was so proficient.

This makes the **** cat's scalp numb, and it has a feeling that this furnace is about to become a pill. Sure enough, Qin Chen continued to refine. Although there were some troubles in the process, they all conquered one by one. Suddenly, a strong fragrance filled the ancient battlefield, booming, and there seemed to be thunder in the sky. A shining spirit

cloud.

Countless heaven and earth auras lingered down and merged into the pill furnace at once.

then.

Hum!

When the stove lid was opened, three pill exuding strong medicinal gas instantly rose into the sky. These three pill, the whole body is smooth, exudes a strong medicinal fragrance, let people smell it, and the pores all over the body are relaxed.

Moreover, a trace of the unique power of the sacred pill was absorbed by the origin of heaven and earth, repairing the loss of the origin of heaven and earth.

The holy pill is the same as the holy realm master, once formed, it can also replenish the energy of the heaven and the earth.

"Damn, it really succeeded in refining."

The **** cat's eyes flickered, and the shocked eyes almost didn't fall. It was confident in Qin Chen, but he didn't expect Qin Chen to successfully refine a pot of holy pill so quickly.

"Master is awesome!"

Mo Yuanbai was also very excited, almost kneeling down.

He is also a master of alchemy, and in the discussion with Qin Chen, he also has a thorough understanding of the holy pill, but for him to refine a furnace of holy pill, I am afraid it is still far away, at least a lot of Research and practice.

But Qin Chen succeeded in a few attempts.

The master is the master, too awesome.

"Well, there are only three sacred pills in this furnace, and the refined sacred pills are only inferior, and there are even some flaws."

Qin Chen looked at the three pills in his hand, but frowned, very dissatisfied.

The Saint Yuan Pill is the simplest of the holy pill, but he only has three pills, and the ranks are all low-grade. Obviously, there are many mistakes and omissions in the refining process.

"Continue to improve." Qin Chen immediately opened the next furnace, and these three pills were collected by him. Although they were only low-grade, the Holy Pill was the Holy Pill. Even if he got the Heaven Realm, he could sell a good one. price.

[Chapter 2466: Into the long river](#)

In the fourth furnace, Qin Chen refined four Saint Yuan Pills, and one of them reached the middle rank.

Qin Chen was still dissatisfied.

In the fifth furnace, Qin Chen succeeded in refining six of them at once, and two of them reached the middle grade.

"Or not."

Qin Chen kept shaking his head, he must be very sure. After all, there are only three Years Dao Yun Guo, and there is no room for mistakes.

Mo Yuanbai was already stunned, Master's progress was too fast, his assistant could not keep up with Qin Chen's rhythm.

"Look carefully, if you don't know how to refine the sacred pill after I finish refining, let's see how I beat you."

Qin Chen warned Mo Yuanbai.

"Yes, the disciple must work hard." Mo Yuanbai said hurriedly, not daring to slack in the slightest.

Sixth furnace!

Seventh furnace!

Fifteenth furnace!

Eighteenth furnace!

Twenty-seventh furnace!

boom! But when Qin Chen refined the twenty-seventh furnace, the furnace tripod opened, and nine pills of pill rose up into the sky. The bright pill was like a star, and the light was bright, and every pill was covered with light. The mysterious pill pattern, three of which are

At the top grade, there are six middle grades. The **** cat was already shocked. First of all, he was shocked that Qin Chen was able to continuously refine twenty-seven furnaces of pill. It is important to know that the refining of the holy pill, every furnace is equivalent to fighting a master of the holy realm. It's hard and exhausting, but Qin Chen

Persevering easily, this is inseparable from Qin Chen's terrifying soul power.

The second shock was that Qin Chen went from three to nine after only twenty-seven pots, and changed from all low-grade to high-grade and medium-grade. Such progress is too exaggerated.

Of course, the elixir that Qin Chen squandered during this period was also astronomical. Fortunately, Ling Luling and his storage ring had looted possessions to maintain his squandering.

"about there."

Qin Chen sighed, "It's really difficult. It's been almost a month before I finally reached the threshold."

The words made the **** cat hear, and the speechlessly almost licked Qin Chen's face. Refining such a perfect holy pill in a month, what do you want? Is it so easy for you to refining pharmacists because of the holy goods? Even in the heavens, a sacred pharmacist is enough to attract the attention of all major forces, even if it's just a sage.

Alchemist in the realm. Qin Chen refined a few more furnaces, and the success rate was naturally okay, but every time he became a pill, there were nine, and the maximum was only ten, and he could not reach the perfect twelve. Secondly, the grade was basically All flow between top grade and middle grade

Turn, the best time was to refine six top grades and four middle grades.

As for the best, none of them!

"It's almost a bottleneck."

Qin Chen sighed.

This is how the alchemy is refined. It is fast to get started, but it is difficult to truly achieve the peak, as if there is a mysterious power in the sky and the earth, so that no one can easily reach the peak.

Even Qin Chen is just that.

Nothing in this world can easily be the ultimate.

However, the current stage of refining Eternal Years Pill is almost the same.

"Big Black Cat, what about the formula of Eternal Years Pill?" Qin Chen asked.

Fortunately, the **** cat knew this formula, otherwise Qin Chen would definitely be crazy.

He began to refine alchemy. Although the eternal years pill is very powerful, it is only a sacred pill. Moreover, it can be refined at the sacred level, but if you want to successfully refine it, there is one of the most critical ones, that is, the time rules Must understand, otherwise even if there is medicine

Fang and materials could not be refined successfully.

Fortunately, Qin Chen has a source of time, so there is no problem at this point.

Qin Chen simulated countless times in his mind, and even carried out several trial systems. The so-called trial system is to not join the years and years at the last moment, and then go through the entire process to check for errors, omissions and mistakes.

In the end, Qin Chen really began to refine.

He is cautious and very cautious.

Because one Years Dao Yun Guo can only refine one Eternal Years Pill, there are only three of them, so there can be no mistakes.

Under Qin Chen's care, three days later, Qin Chen finally refined the first pill.

"This is the eternal life pill?" Qin Chen muttered to himself, holding a radiant pill in the palm of his hand, evolving the eternal years Cangsang.

The moment this pill was formed, a terrifying force of years was integrated into the origin of heaven and earth, giving a huge subsidy to the origin of heaven and earth.

"Unexpectedly, you have succeeded in refining, but it is also. You are a person recognized by the origin of time. If you are another person, even the Holy Master of Alchemy, it may not be easy to refine." The **** cat sighed.

The first furnace was successfully refined, and the next two furnaces of Qin Chen were naturally refined without any difficulty.

After the refining of the three pills was completed, Qin Chen clearly felt that more than half of the origin of heaven and earth had recovered, and there was a kind of vigorous vitality blooming.

"The origin of this world is about to be repaired." The **** cat's eyes flashed, a little suspicious: "This time is a bit coincidental."

Qin Chen looked at the three pills in his hand, there were only three places, who should he give it to?

"Master, just give it to the old man. I was wasting it to the old man." Mo Yuanbai said directly, with a sincere tone. He had never thought about entering the long river of time.

Lao Yuan and Big Black Cat naturally didn't bother to ask for it.

In this way, it happened that You Qianxue, Ji Ruyue, and Chen Sisi could enter the river of time with Qin Chen.

Everyone came to the river of time.

"let's start!"

The **** cat said, You Qianxue and the others looked at each other, and at the same time took out the eternal years of pill and took it.

Hum!

The medicinal properties of this pill dissipated very quickly. As soon as it was taken, the three of them glowed, and a breath of time permeated from the three of them. "You go in quickly, the effect of the Eternal Years Pill can only last for about ten days. After ten days, you all come out. If you don't come out, you will die inside." The **** cat reminded, then looked at Qin Chen: " Remember, the years

No danger, you have to be careful. "

Qin Chen nodded, and the four of them immediately rose up into the sky, went up the river, and suddenly entered into the long river of years.

"The river of fate is flowing, I hope they can come back safely." The **** cat said quietly.

And at the moment when the four of Qin Chen entered the long river of years.

Hum!

Outside the Tianwu Continent, in the supreme heaven realm, one by one aura of terror was suddenly awakened.

"what."

They made a sound of suspicion, as if they had discovered something.

"Years and long rivers have been alarmed."

Some strong people were shocked and said. Time is the most mysterious power, and the long river of years is also one of the most mysterious secret realms in this universe. Once someone stirs the years, they will naturally alarm these top masters.

[Chapter 2467: Continental Secret](#)

However, time is irreversible, and even the most powerful characters in the universe, they dare not go back to time, trying to reverse the past, affect the present, and shake the future.

Because once there is any change, they cannot bear this kind of cause and effect, and the strongest people will fall.

But now, they actually discovered that someone has entered the long river of years?

This is a kind of deep feeling, because the long river of years is too mysterious, except for a few of the top powerhouses, other people will not feel the existence of the river of years.

They were all shocked and began to calculate one by one.

"No, it's not a master in the heavens, but outside the heavens. Could it be that someone from a lower plane has entered the long river of years?"

"How is this possible? In the long river of years, the Holy Lord is very likely to fall when entering it. How can the people of the lower planes enter it?"

"Let me calculate, where is this plane?"

"What? I can't figure it out? Someone has blinded the secret, who is it?"

"If you want to enter the long river of years, you must have the source of time, or the eternal years pill, but the eternal years pill is a taboo. If the sky is not allowed to appear, you will be jealous and lost."

"Is it the son of destiny in this era?"

These big people were shocked, but they didn't dare to continue the calculation, because the years are not to be guessed. If they force the calculation, they will inevitably cause harm to themselves and trigger the taboo of heaven and earth.

Qin Chen and the four entered into the long river of years, following the light of the years, going retrograde upwards. They saw the evolution of the stars in the universe, but they couldn't really see it. Everything was too fast. But their speed is still increasing, getting faster and faster, so that they can't see any picture at all, only the time is constantly going backward. When their speed reaches an extreme, the past, present, and future lose their meaning, and their speed also loses.

Got meaning.

Om, they suddenly went from a rush to a state of absolute stillness, and everything around them became bizarre and colorful, but they were indescribable.

Is this the long river of years?

Then, Qin Chen and the four saw that they were standing on a long colorful river. In that long river, it was not the river water, but the world evolving.

This is a long river flowing.

And in the river, colorful lights are blooming, this is the power of time.

According to the method taught by the **** cat, the four Qin Chen pulled the power of the years into the jade disc of good fortune in the universe. Sure enough, the strength of the years was absorbed by the jade disc of good fortune in the universe and preserved.

This can only be achieved by small worlds such as Qiankun's good fortune jade disc. Of course, Qin Chen can also do it. He absorbs the strength of the years and repairs the damaged source of time.

When the source of time arrived here, a faint of cheers emerged immediately, like a fish in water.

As for the three of You Qianxue, they can't absorb the power of the years, but they can use the power of the years to temper their physical bodies and form the universe's infinite body.

Qin Chen and the others were tempering in the long river over the years, while looking into the river, where the sun, moon and stars were floating and sinking, and the years were changing. Qin Chen and the others were suspended in the sky over the long river, and they did not dare to touch the water, because the **** cat said that the years are irreversible. Although they can enter the long river for special reasons, they cannot disturb the years, especially never touch them.

The water of Yuechang River, as long as it touches the river water, it will be assimilated by the years and will never be resurrected.

This is what the **** cat warned, very cautious.

"Hey, look at Shao Chen, there is something in this river." Suddenly, Ji Ruyue whispered and said in a deep voice.

Qin Chen looked down, and sure enough, he actually saw a picture in the river.

"This is... what happened in the Tianwu Continent before infinite years."

Qin Chen was shocked that they actually spied the past in the long river of years.

However, they can't understand most of the things, the pictures are too fragmented and meaningless.

"Look, that is the alien demon invading the Tianwu Continent."

After that, Qin Chen and the others actually saw the invasion of the alien demon race, the battle between the human race and the alien demon race, and the flow rate was very fast, prehistoric scenes appeared in Qin Chen's sight.

This is too shocking.

Moreover, according to the **** cat's theory, if history can be changed over the years, then the true history of the outside world can be changed.

"I want to see how the Tianwu Continent is going in the future."

Qin Chen said in a deep voice.

The long river of years is sorted according to time, forward is the past, and the next is the future. What Qin Chen wants to know most is whether he has survived the disaster in Tianwu Continent three years later.

However, Qin Chen was disappointed, because the future picture was too vague, and he could not see anything, as if it was covered with a layer of fog, and he could not see the real situation at all.

This is because his strength is too weak. If he wants to spy on the future, at least the Holy Master level has that possibility.

Because the past is constant, and the future is changing, no one knows what will happen in the future. Only real talents can deduce the scene of the future from the long river of years and peek some clues.

"If this is the case, then go to the source to see what happened in the Tianwu Continent in ancient times. What was the purpose of the Celestial War?"

The four Qin Chen traced the years and flew upwards. Qin Chen saw a lot of pictures, all of which happened in the history of Tianwu Continent, but the pictures flowed so fast, he could only see a few bits and pieces, and even saw a trace of human figures, as if he wanted to break out of the long river of time, but Years

There seemed to be an invisible barrier above the river, preventing any figure from rushing out.

"This is the protagonist of each era, trying to break through the shackles of the years and see the future, but unfortunately, they all failed."

Qin Chen suddenly felt something.

a thousand years.

Twenty thousand years.

Fifty thousand years.

One hundred thousand years.

Qin Chen and the others went all the way up, saw many scenes, and finally approached the time period of the Celestial War.

However, they were disappointed.

In this period of time, the river is completely unclear, like muddy water.

"Why can't you see it?" You Qianxue asked strangely.

"Could it be that this period of history is so important that heaven and earth are not allowed to watch?" Qin Chen guessed.

Involving the Holy Lord, this is naturally significant.

"Let's go, maybe we can see more clues ahead, and whether the Tianwu Continent is the Source Continent or not, maybe you can see it here."

They continued to move forward, up the river.

However, in the back, there are more and more time gaps. With their cultivation, they can't see the past clearly and obstruct endless events, so they can't even see the blurry picture.

The prehistory of Tianwu Continent is like a mystery, and it can't be detected at all.

If it is said that the formation of the forbidden land is due to the battle of the masters of the heavens, it is too important and deceived by the secrets of heaven, then why is the earlier history invisible at all.

The mystery of Tianwu Continent made Qin Chen even more shocked. Perhaps, Tianwu Continent was not as simple as they thought.

"Let's go, go back, or we won't have time to leave."

Qin Chen finally stopped, because he knew that he would continue to move forward, and he might not see much.

But at this moment.

Hum!

A terrible force swept past, and the four Qin Chen raised a strong chill at the same time, as if they had fallen into the cold cave, but their souls were instantly frozen. In the sky, a pair of dark eyes suddenly appeared, staring at the four Qin Chen coldly with a cold breath.

[Chapter 2468: Beyond the Holy Lord](#)

What a pair of weird and cold eyes? The pupils of the eyes are dark, as if it contains the endless cold and evil in the world, and there are indescribable flashes of runes, which seem to interpret the secret of time.

These dark eyes swept across the four Qin Chen, hum, a black light shot out from the pupils and turned into a magic sword, the magic sword bloomed with endless cold light, and slashed towards the five Qin Chen.

The **** cat said that even the Holy Lord can't make a move in the long river of time. This will reverse the past and the present and change the future.

But the master of the pupils made a move, the black magic sword burst into light, and the power of the years did not even destroy it.

Hiss, who is doing this? Can ignore the power of the years, not be affected by the rules of the years, and act recklessly.

Is it beyond the existence of the Holy Lord?

Heaven, a master who surpasses the Holy Master, don't fight Qin Chen, they are just a small mortal realm, what about the Holy Master? Can you stop it?

What to do, wait for death?

Over the long river of years, the flow of time is very strange, it may be astonishingly fast, or it may be ridiculously slow, even if the owner of these pupils can make a move, but it will also be affected.

This magic sword slashed, seeming to be extremely fast, but it was stunned by two people sliding countless distances in the sky, but it didn't come down.

In the whole process, the runes on the magic sword lingering with the mighty demon spirit were dim, it seemed that it had gone through endless years and was about to die in the years. Qin Chen suddenly realized that this terrifying powerhouse was not in the same era as them, or even in the same plane. It was originally impossible to meet, but they have all entered the long river of time, here. Of time

Next, with the intersection, this caused the encounter between the two sides.

Failing to cut the Demon Qi Long Sword, it disappeared on its own in the long river of years, this is the force that failed to resist the years.

Qin Chen and the others were all shocked, a magic light swept out, and it took so long to overcome chaos before finally perishing. What a terrifying power is this? No, horror is not enough to describe, it should be called great.

Who is this? Is it the magical power of the heavens?

If it weren't for being suppressed by the power of the years, this blow would be enough to destroy a world and instantly kill Qin Chen and the others.

However, Qin Chen was very puzzled, why did this terrifying powerhouse attack them if he didn't agree?

The two sides have no grievances or enmity, is it just because they have also entered the long river of years?

In the sky, those pupils shook slightly, and a blood stain appeared in the dark pupils, but black blood was flowing out.

Hum!

A force repelled by the long river of time permeated.

Qin Chen vaguely saw the other party's phantom. It was actually an extremely large phantom. It didn't look like a human at all, but it couldn't see the real appearance, and its power was terribly messed up.

At this moment, this phantom is being oppressed by the long river of years, and it is shaking constantly.

Even if such a person is strong, he takes a shot in the long river of years, and the years are reversed, but he will eventually be punished by the force of the years. There are some rules that no one can get away from. The long river of years is the supreme rule of the operation of this universe. Anyone who shoots here will be backlashed. This is still the strong cultivation base of this person.

Other people, even if they were a holy master, were already wiped out in an instant. "This branch of the years is unexpectedly frequently entered. At the node of the last years, a woman just appeared. Unexpectedly, this time four people came. I saw your vague figures in the lower reaches of the river. You seem to be with me.

It's about the future, you must not stay! "Vague thoughts came from these vertical eyes, it was too long apart, and the voice was indistinct.

Catching this thought, Qin Chen's heart trembled. It should be that this terrifying strong man just entered the long river at some point in history and captured the passage of Qin Chen's four people. Then he unfolded his magical powers and saw a corner of the future of Qin Chen's five people, thinking that they might affect them. future

Therefore, he did not hesitate to rebel against the chaos, from ancient times to kill the present, even if he was backlashed by the years.

God, can their future affect the future of this big man? Qin Chen's heart trembled wildly, which meant that some of the four of them must have achieved an unprecedented achievement. Only this can make this strong man jealous, and at least he is also a Saint-Master-level figure. Otherwise, with the strength of the opponent, Even if

It is the four of them who have become heavenly saints, and it should not be worth mentioning.

However, this strong man is really stingy, can't he tolerate others? Also, since in the course of the years, this strong man discovered the threat of the four of them, but in reality, why didn't the other party take action? With the strength of the opponent to overcome the chaos, how can it be impossible to simply calculate fate? difficult

Do he has fallen?

impossible!

If he has fallen, then he shouldn't be regarded as a threat to the four.

Could it be said that everything you have seen and perceived in the long river of years will disappear after you leave the river of years?

This is possible, otherwise it would be impossible to explain.

Also, there is another message in the other party's meaning, that is, before their arrival, in the time branch of Tianwu Continent, there was a woman who appeared, who is this woman?

"What about the time difference? What about the causal backlash? The deity wants to kill people, and the universe can't be blocked!" The black pupils exuded divine thoughts, and he exploded with a more terrifying aura, as if the world had to crawl in front of him.

"Less dust!"

The three of You Qianxue looked ugly, and their bodies trembled under the breath.

Hum!

A sharp claw came out of those pupils, as pitch black as ink, as if it contained power that shouldn't exist in this world, and pressed it towards the five Qin Chen.

This claw was wrapped with endless runes, and with one claw, the entire river of years was suppressed, and the power of the years could not completely destroy it.

Compared with the previous magic sword, the power of this blow has skyrocketed hundreds of times.

boom! The black claws came, and the speed was so fast that even the endless years could not stop it from showing off, because Qin Chen and the others traversed the river of years, as long as the other party does not dig out of the river of years, only relying on the river to emit come out

The power of this is hard to match the grandeur of this black claw.

"go!"

The five Qin Chen turned around and left, but no matter how they urged them, their figures remained motionless. Under the influence of the black claws, the flow of time in this world was very strange.

Hum! At this moment, a purple halo burst out of Ji Ruyue's eyebrows, and suddenly rose to the sky.

[Chapter 2469: Master of Thunder Sea](#)

This is the power of Amethyst. A misty purple figure has emerged over the long river of years. It is the ancestor of the Ji family. He appears here. Although he can't simulate his body, he actually appeared.

Holy Lord!

Qin Chen was shocked that the aura of the Ji family's ancestors could show up in these years. There is only one possibility, that is, that the Ji family's ancestors were masters of the Holy Master level, and they didn't expect the Ji family's background to be so big.

But it's useless.

boom! Purple light bloomed, and the purple figure stepped out and collided with the black claws. The purple figure shook violently, and then shattered with a bang. The ancestors of the Ji family were strong, but after all, it was just a breath remaining. Nothing at all

Law resists the opponent.

"The origin of time."

At the juncture of the crisis, Qin Chen urged the origin of time, and the instantaneous velocity around the four suddenly changed. The black sharp claws paused in the void, and the four Qin Chen seized the opportunity and escaped from the sharp claws.

Boom.

The sharp claws fell, and the river of years was shaking, but it was empty, and Qin Chen's face turned pale, pouting, and spitting out a mouthful of blood.

He was injured, and when he shot here, he suffered the backlash of the years. Fortunately, he has the origin of time, otherwise he would be broken to pieces, but even so, his body is still like a ten thousand needle piercing, painful and broken meridians.

"Hey, you have escaped the attack of the deity. You have the origin of time. It seems that the deity is right. Your future is indeed related to the deity."

A wave of fluctuations bloomed in those pupils, becoming colder, booming, the black sharp claw talisman blooming, and booming again.

Is it... to die here? Qin Chen was cold in his heart. In these years, he couldn't avoid it at all. Moreover, he couldn't enter the Universe Jade Plate, even if he could hide in the Universe Jade Plate, what could he do? The strong who surpassed the Holy Lord shot, the small world would

Was blown up.

Is there really no way?

Huh! At this moment, only a ray of thunder light swept across, hitting the paws, knocking it back.

Who is taking this shot, actually blocking the attack of the master of the twin pupils?

The black pupils condensed slightly and looked upwards. From above the main trunk of the long river, there appeared an eye pupil. This pupil was blue and contained thunder, and deep in the pupil, there seemed to be endless thunder surging, representing the world. Penalty.

The previous thunder light was caused by this pair of pupils.

At the moment when the thunder light blasted out, Qin Chen felt that the thunder blood in his body had been irritated. "It's you again?" The black eyes were very angry: "The last time you shot and saved the woman, this time, you actually want to stop me again, huh, the deity has calculated it, in the endless years, your future Ambiguous because of several interference

This branch of the long river of years, you have already had a catastrophe, still dare to go against the chaos of time and space? "

Qin Chen's scalp was numb.

To be able to fight against the chaos, it must be the supreme strong, but can such a strong also have a big catastrophe? In addition, the opponent has interfered with this long river several times, that is to say, the opponent has made several shots in the history of Tianwu Continent.

Qin Chen suddenly realized that a top powerhouse with lightning power had interfered with the fate of Tianwu Continent several times.

Master of the Thunder Sea.

Who else but him?

No wonder this piece of Lei Guang felt familiar to himself, because it came from the same source as the Sea of Thunder, and a very cordial feeling rose in Qin Chen's heart, as if the other party had a great connection with himself.

Could it be that he had been transformed in the Thunder Sea?

Qin Chen and You Qianxue looked at the upper reaches of the long river of years, and saw a figure striding over the river, shrouded in a misty thunder light, the thunder light exuded the atmosphere of suppressing the heavens and destroying the ages.

The power of thunder punishment!

This power is so familiar, Qin Chen recognizes it naturally, and is completely affirmed in his heart. This is the master who used to attack the Tianwu Continent in the ancient times to suppress the Lord of the Abyss.

This person entered here at different time fragments and found Qin Chen, and also discovered that Qin Chen and the Tianwu Continent had a great connection, so Qin Chen encountered danger and made a decisive move.

Moreover, the opponent had rescued a master of Tianwu Continent before. Who was the opponent and why did he save Tianwu Continent again and again?

Such a master, even if he is in the celestial realm, is in charge of the eternity, it is impossible to be interested in a lower realm continent, right? "Huh? It turns out that you little guy has some kind of connection." The black pupils glanced at the thunder figure who was striding over, showing a stunned look: "So, the **** strongman of our clan back then was also The destiny changed by you? The deity obeys him

We have seen the fate of that important figure in our clan. It seems that between you and me is determined by fate. "

The black pupils let out an angry rumbling roar: "However, the future is not unchangeable. As long as I kill them here today, the future will also be rewritten!"

"try it yourself!"

This thunderous figure had reached the front of Qin Chen and his party, and the tall figure blocked Qin Chen's four people behind.

"You guys, leave here quickly and walk down the river. With me here, he can't help you." Lei Ting said proudly, turning his head to look at Qin Chen, Qin Chen felt a touch of kindness inexplicably. A trace of care, this figure overlaps with the gentle gaze that looked down at him in the endless sky of the sea of thunder, Qin Chen body

The blood within can't help but boil.

It seems that there is a special connection between them.

"You...who are you?"

Qin Chen couldn't help asking.

He has a feeling that the other party and himself are definitely not just because of the relationship between the sea of thunder, but there is an unprecedented connection.

"You are still too weak. If you are strong enough, you will know one day. Now, you should leave first."

Lei Ting said, with a hint of gentleness in his bold voice, looking at Qin Chen's gaze, flashing kindly.

"Hahaha, want to go, can they walk away in front of the deity?" The black pupils sneered. Behind them, a terrifying figure appeared, extremely large, shocking the eternal world.

"If you can't walk away, you don't count, I don't count." This figure is extremely domineering and proud.

Qin Chen looked at the other party slightly.

Although the other party was wrapped in lightning, it can be seen that this is a very handsome man, tall, and his hair roots are like electricity, flying like a waterfall, and dense, each of them bursts with endless lightning, as if it can cut a piece. mainland. What's more terrifying is the aura on his body, who dominates the world, as if the destiny of the world is under his control, and reincarnation is in his hands.

[Chapter 2470: Enter the heaven](#)

The black pupils stared at the thunder figure and couldn't help but sneered: "You have too many fetters on your body, and you have changed your fate many times. Fate has bound you more and more heavily, especially the one you saved from the deity last time. Woman with you

In the inextricably linked relationship, you interfere too much with fate, so here, you can't stop me. "

"Really?" Thunder figure sneered, not afraid. "Don't hold on." The black pupils said coldly, "Whether you are really confident or strong, this deity will definitely kill these juniors. Their future is full of mist, and even the deity is watching Not true, has unlimited possibilities, does not shovel

Get rid of it, the deity feels uneasy. "

He lingered all over with murderous intent, obviously staring at the four Qin Chen to death, with full confidence.

is it hard?

It is not difficult at all, this kind of master wants to kill, even another master of the same level is difficult to maintain.

The Thunder figure laughed loudly: "You are in vain, the ancestor of the demon clan, how many epochs have you achieved, and you are still afraid of a few juniors!" "Huh, what?" The black double pupils sneered, "Are you there? Protect them? As long as it threatens the deity, it must be erased, but unfortunately, the long river has the rules of the long river. If you leave here, all the memories here will disappear.

How could the deity allow you to grow up, and would have strangled you in the celestial infant. "

Hearing this, Qin Chen couldn't help but suddenly. They guessed right. It turned out that all the memories here will really disappear when they leave here, even the strongest master is no exception. Therefore, in addition to obliterating the fate of future people in this long river of years, even if it is Snoop here

What happened, once we left the long river of years, I would forget it again.

The secret is not easily revealed, this is the supreme rule. Of course, some top masters can also enter the river of time again and wipe out their old enemies from the river of years. However, the more powerful the fate of the character is harder to change, and the more it is full of mist, because the involvement is too wide.

We didn't happen to meet the master of this pair of black pupils. If the other party wanted to see Qin Chen and the others from the endless river, it was tantamount to finding a needle in a haystack and it was difficult to succeed.

Even if the opponent is lucky enough to find it, fate will cause some accidents to appear, and history will return to its original trajectory.

For example, now, the owner of this eye pupil has encountered the four Qin Chen, but they were just saved by the thunder figure. This is a kind of cause and effect. It is the destiny that is in motion, so that no one can find it difficult to escape.

"go!"

Under the protection of Lei Ting's figure, Qin Chen and the others began to withdraw carefully.

"There is no absolutely destined future. Today, the deity will go against the sky."

boom!

As soon as Qin Chen moved, the black pupils moved, and the black shadow flashed, and it turned out that from the distant future, a black shadow like a canopy came out, like a giant billions of feet high, covering the sky over the long river. Obscured.

What a horrible figure this is.

What kind of monster is the other party?

go!

Qin Chen and the others turned around, speeding up to the extreme.

"Where to go."

The black demon roared, the magic light in the pupils skyrocketed, emitting billions of magic light, killing Qin Chen and others.

Each of these magic lights is billions of meters long, as if it can penetrate the heavens and the earth, traverse the past, the present and the future, and suppress everything in the past.

With so many magic lights, each of them could kill the four of Qin Chen.

"With me, you can't kill anyone." Lei Ting said proudly. Boom, thunder light appeared all over his body, heading towards the black shadow.

boom!

The monstrous roar resounded, the long river of years shook violently, the light of endless years boiled, and the whole river was rolled up with stormy waves.

The endless years of rivers rolled around the two, but they were suppressed by the terrifying aura on them, unable to let them blend into the years.

too strong.

These two powerhouses were able to suppress the years.

Although this long river of years is only a branch of the river, it is not the same. In this case, the strong saint will also be assimilated instantly, but the two are not afraid and fight.

Boom boom boom!

The endless divine light covered everything, and thousands of divine rainbows penetrated the void, Qin Chen and the others were shocked, and they backed away frantically.

This kind of power is too terrible. When they are swept away, they will be crushed to pieces. Even so, Qin Chen and four of them are shaking under the waves, their faces are pale, and they will be rolled up.

The light of the years keeps coming. Thanks to Qin Chen's time origin and constant dodge, he can be safe and sound, but it is still dangerous. "Hey, why didn't you take them to leave?" The master of the black double pupils fought against the Thunder figure, and suddenly let out a surprise, because the Thunder figure is fully capable of sending Qin Chen away from this area, preventing them from being affected by the waves of time. The shadow

Sounds, but he didn't do this, instead let Qin Chen leave by himself.

"Haha, I understand." The black pupils suddenly laughed, revealing a hideous look: "You and one of these four people or one of the four is connected by cause and effect. You can't contact, because once you contact, you will be backlashed by cause and effect, so you can only let

They leave by themselves. "

The Black Demon wanted to understand all this, and smiled acknowledgingly. In that case, it was simple.

boom! He grinned, and the huge black claws directly grabbed the long river below, booming, the river was raised, and the terrible river was danced like a ribbon. Suddenly, the waves on the river were surging and turned into a tsunami. monstrous

, The four Qin Chen frantically swept towards the downstream.

"you....."

The expression of Thunder's figure changed for the first time. He was very angry and banged. He shot and suppressed the river of years. The river of years suddenly calmed down, but it was useless. That terrifying tsunami of years had already rushed out and was already close to the four of Qin Chen. .

"Hahaha, the deity will have to see how you can save them, these little guys, as long as they are caught in the long river of years, they will definitely die." The black shadow laughed wildly.

"Damn it!"

The Lei Ting figure roared, and a spear suddenly appeared in his hand. This was a spear containing endless thunder. His eyes flashed with determination, boom, and blasted towards Qin Chen's four people.

Boom!

The thunder spear exploded, blasting a crack above Qin Chen's heads.

"Four of you, fast forward into the passage." Lei Ting shouted sharply.

"Huh? Celestial Passage? Are you trying to send them into the Celestial Realm? Damn it." The black magic shadow was shocked.

At this time, the endless light of years swept over, and the four of Qin Chen were like boats in the raging waves, ready to be destroyed at any time. Seeing that the years and tsunami were about to cover him, Qin Chen gritted his teeth and pulled You Qianxue San. people.

"go!"

Qin Chen urged the origin of time, and suddenly, the tsunami stopped slightly, and the four of them plunged directly into this crack at the moment of the death.

boom! In the next moment, the endless years of tsunami rolled down, swallowing everything, but Qin Chen and the four had disappeared, disappeared from the long river of years.
