

## Valkyrie 2471

### [Chapter 2471: Origin restoration](#)

Seeing the disappearance of Qin Chen and the four of them, Lei Ting breathed a sigh of relief. The master of the black twin pupils suddenly fell out of the twin pupils with two magic swords, 咻, the magic sword slashed out, tearing open the void, he was actually looking for it. The breath slashed towards the four Qin Chen.

"Huh, kill!"

The Thunder figure sneered and attacked. Suddenly, Thunder Light's big hand appeared, one after another thunder annihilated everything, and fell on the two magic swords. The light of thunder surged, crushing the two magic swords.

Boom boom boom!

The battle between the two, and their actions are extremely stalwart, and it is easy to make a pinnacle strong.

Fortunately, Qin Chen's four had disappeared, otherwise under such an attack, it would be impossible to escape.

boom!

Immediately, the river of years suddenly surged, and the battle between the two caused a riot of the power of the years. Suddenly, an endless and terrifying breath of years fell from the void and entangled the two.

The long river of years contains the power of endless years. When stimulated, it will naturally trigger a counterattack. This is the highest-level counterattack. Who can stop it?

"Damn, those guys ran away again, this deity doesn't share the sky with you." The black eyes roared, watching the power of the horrible years come, and his figure flickered and disappeared directly into the river of years, obviously. left.

The four of Qin Chen had already left, and it didn't make any sense to fight.

"This old thing has finally gone." Lei Ting looked at the disappearing demon shadow, and looked up at the spot where Qin Chen had disappeared. "Boy, you have to rely on yourself next."

Then, he looked towards the lower reaches of the long river of years, his eyes flashed with a sharp light: "The origin of the Tianwu Continent is finally being repaired, I will help it."

The Thunder figure shot out a ray of light, booming, the light penetrated the long river of years and rushed towards the downstream.

"This is the top priority of the plan. I hope that everything will go smoothly as planned."

After hitting this blow, the thunder light exploded, and the figure suddenly disappeared, and then turned into an endless thunder light and dissipated.

With the disappearance of the two powerhouses, the long river has finally calmed down.

God forbidden place, in the ancient battlefield.

The \*\*\*\* cat, Lao Yuan, Qin Mo, Gu Zunren, and Mo Yuanbai all waited quietly for the return of Qin Chen.

But suddenly, the river of years in front of everyone violently surged, and waves of terrible years were overwhelming.

"No, it seems that something has happened in the upper reaches of the river over the years."

The \*\*\*\* cat's face changed, revealing a look of shock.

"Qin Chen, what happened?"

Lao Yuan and the others hurriedly turned around and looked at Qin Mo.

"I..." Qin Mo's face was ugly, "My main body has been attacked over the years, and now my connection with my main body has disappeared."

"Disappeared?"

Everyone immediately took a breath of cold air, their expressions anxious and ugly, Qin Mo and Qin Chen were one body, how could their perception disappear? Once they disappear, there is only one possibility, that is, fall.

Could it be that some accident happened to Changhe over the years that caused Qin Chen to fall.

"It's not like falling, but like entering another world. Let me see... We have encountered attacks in the course of the years..."

Qin Mo closed his eyes, and soon, the scene of Qin Chen's experience in the long river of years began to appear in Qin Mo's mind.

These pictures are very vague and not clear, but they can tell the outline. In fact, any strong person enters the long river of years, and after leaving, the memory will completely disappear, but the relationship between Qin Chen and Qin Mo is very strange. Although Qin Mo's soul is one with Qin Chen, it has two unique structures. , Not like normal

The clone of Qin Chen and Qin Mo, although they are the same person, are two separate individuals.

This also led to the fact that the long river of years had not completely erased the memory in Qin Mo's mind, and there was still a trace.

And this trace of memory, don't Qin Mo fully capture it.

"Qin Chen, what is going on?" Lao Yuan and the others were very anxious. Qin Mo closed his eyes and recalled carefully: "We saw a lot of the history of Tianwu Continent in the long river of years, and then we were attacked by a pair of eye pupils. Later, a figure of thunder appeared and saved us, yes, that People seem to be

He is the strong man in the heavens who suppressed the Lord of Abyss Demon. We have no choice but to fly to the heavens..."

Qin Mo murmured.

Although Qin Mo's memory is incomplete, the general picture can be clearly remembered, leaving an overall memory.

"I was attacked and ascended to the heavens." The \*\*\*\* cat looked solemnly: "Anyone who can take action in the long river of years and open the passage of the heavens, is it the existence of beyond the Holy Lord?"

"Big black cat, what do you know?"

Everyone looked over.

"In the long river of years, even the Holy Lord cannot easily make a move, but Qin Mo said that the opponent can not only fight, but also open the heavenly passage. The one who can do this is definitely a master beyond the Holy Lord."

Everyone was stunned. From their point of view, the Holy Master was already the most terrifying powerhouse in the heavens, and it was unexpected that there would be even stronger ones above the Holy Master.

"Qin Mo, feel for a moment, is there still a connection between you and the ontology?" The \*\*\*\* cat said solemnly.

Qin Mo perceives carefully, and after a while, he nodded and said: "Yes, I can still perceive that the body is still there, but the connection is very weak. Apart from perceiving that the other party is still alive, there is no location information."

Qin Mo's face was ugly.

"That's right. Only when you go to the heavens, you can't perceive the specific position of the body. Otherwise, even if you go to any plane, you should be able to vaguely sense the position between the body and you. of."

The \*\*\*\* cat nodded.

"This... \*\*\*\* cat, what shall we do?"

Everyone was dumbfounded, and the four Qin Chen directly ascended to heaven, what about them?

"Haha, don't worry, it's only the heavens. Since Qin Chen has already gone, then I will go directly to the depths of the blood \*\*\*\* sea and pass through the heavenly passage. As long as Qin Mo is in the heavens, he will naturally be able to get in touch with the body." Black cat

Don't care.

As long as Qin Chen is not dead, there is no fuss.

Everyone suddenly realized that this was a good idea.

"Then what are you waiting for, let's go now."

Mo Yuanbai hurriedly spoke, but his voice had not fallen yet.

suddenly.

call out!

A terrible streamer swept from the upper reaches of the long river of years, and suddenly entered the source of heaven and earth.

boom! The original source of heaven and earth, which had been restored, suddenly burst out with a dazzling glow. Suddenly, a vast aura rose. Boom, this source of heaven and earth suddenly broke free from the long river of years. , Like a fish leaping over a dragon gate, suddenly escaped from the long river of years and emerged in the forbidden land.

### [Chapter 2472: Royal Weed](#)

Endless rays of light bloomed. After the origin of heaven and earth was separated from the long river of years, it suddenly disappeared into the void, and the long river of years that traverses the ancient battlefield seemed to be shaken at this moment, rumbling, and the river of years rose up in the void.

It becomes lighter and lighter, and finally disappears completely.

The years go by.

"Do you feel it?"

The \*\*\*\* cat raised his head, revealing a muttering color. At this moment, a perfect breath circulated between heaven and earth, flooding the entire continent.

Mo Yuanbai and the others only felt that the original power in the body was cheering, as if a new life was ushered in. "The origin of Tianwu Continent has been restored, and everyone on this continent can enter the Holy Realm again." The \*\*\*\* cat murmured, with shock in his eyes: "Where did the light come from? To repair the origin of heaven and earth, this

The power contained in Daoguang is too strong, and why is the breath of Daoguang so familiar to the Emperor? "

The \*\*\*\* cat was lost in thought.

"What shall we do next?" Everyone looked at Qin Mo and Big Black Cat.

After a brief panic, Big Black Cat and Qin Mo were not in a hurry. "Don't worry, since Qin Chen has already gone to the heavens, then we don't have to worry anymore. Three years later, the power of the heavens will come. If you want to save the mainland, you can't rely on us alone, but everyone in the Tianwu continent. Let's rectify Tianwu first

On the mainland, we must first settle inside the mainland, and after rectifying the Tianwu mainland, we will go to the heaven. "

Qin Mo burst into a cold light from his pupils.

Some accounts should be settled.

At this moment, after Qin Chen and You Qianxue entered the rift, they were immediately attacked by the terrifying spatial turbulence.

A series of terrible turbulence bombarded Qin Chen's four people. Qin Chen was like collecting the You Qianxue three people into the universe jade disc for the first time, but still couldn't get it in. In this spatial turbulence, any spatial treasure Can't display it.

Boom boom boom! A series of terrible attacks kept coming. Qin Chen hugged the three of You Qianxue and used his body to block the attacks frantically. His whole body was shaken and blood was splashed. Even with the strength of his body, he was constantly suffering Chuang, if you change to You Qianxue

Several people will be fatally injured.

"Little dust, let us go quickly."

You Qianxue, Ji Ruyue, and Chen Sisi desperately shouted, not wanting Qin Chen to be injured for them.

"Don't talk, hold on."

Qin Chen gritted his teeth, the shocks constantly invaded his body, causing his body to rupture, and his origin was destroyed by destruction.

Fortunately, Qin Chen was strong and possessed a spatial body, and his physical strength was comparable to that of an Earth Sage master, otherwise, even if Ling Luling and the others came, they would be torn apart instantly, leaving no bones. Qin Chen could not control his body. In the dark, he seemed to have passed through a weird space barrier. Suddenly, life seemed to be sublimated, and a vast force poured into the bodies of the four. The lifespan of four people is like

It was infinitely expanded, and the life in the body passed thousands of times faster.

The original life span of three thousand years was suddenly sublimated to one hundred thousand years.

This is the improvement of the essence of life.

"Is this the rule of life in the celestial realm?" Qin Chen was shocked. He could feel that the time and space laws around him had become different. The space had condensed millions of times, and time also showed a roaring trend. Fortunately, the four of Qin Chen have been in the long river of years, and they have not

It was too unbearable, otherwise, such a rapid change in time flow would make their bodies unbearable instantly.

After all, they did not ascend normally, but forcibly entered the heaven.

A light spot suddenly appeared in the front, getting brighter and brighter, as if it contained endless possibilities.

"Is that the heaven?"

Qin Chen raised his head. At this moment, a terrifying spatial fluctuation struck Qin Chen, banging heavily on Qin Chen's body. The bones in Qin Chen's body suddenly shattered, and the spatial fluctuations instantly blasted Qin Chen away. .

"Qianxue... Ruyue... Sisi!"

Qin Chen roared!

"Less dust!"

The three Qian Xue also shouted in horror.

The four of them were separated, Qin Chen frantically wanted to catch the three of them, and suddenly—

boom!

As if suddenly falling into the water from a high school, Qin Chen's body shook, and with a loud noise, he seemed to fall heavily to the ground, and the violent impact made him faint completely.

I don't know how long Qin Chen has been asleep before he woke up leisurely.

As soon as I opened it, I saw a huge mountain range. This mountain range was extremely wide, with big trees piercing the sky, comparable to the Optimus Pillar.

"I... why am I here..."

Qin Chen only felt that he had a terrible headache, and couldn't remember the reason.

"I... seems to have entered the long river of years, and then, it seems that I encountered some attack and was forced to enter the heaven. What did I encounter? Why can't I remember?"

"Where is Qianxue, Ruyue, Sisi?" Qin Chen raised his head with difficulty, but found that there was no one around him. Above his head, above the endless void, a golden scorching sun appeared. This scorching sun is bigger than Tianwu Continent. All are small, dark gold, gilded and sparkling fire, bursting

The flames, this flame is too strong, can burn thousands of rivers and mountains.

"Qianxue and the others were separated from me when they were about to reach the heavens. They must have landed near here too, certainly not too far away."

Qin Chen was anxious, but he knew that there was no urgency at this time. The most urgent thing was to figure out the situation here first.

Qin Chen immediately penetrated his soul power, and his soul power penetrated into this celestial realm, which was countless times more difficult. The emptiness of this celestial realm was extremely solid, much stronger than the Tianwu Continent. However, Qin Chen has fought in the Forbidden Land before. Although the void of the heavens is strong, it is twice as strong as the Forbidden Land. This makes it very convenient for Qin Chen to be familiar with it. Otherwise, it would be from Tianwu. The mainland will not be able to stand it when it enters the heaven

Up.

The surrounding area was deserted, without any creatures.

Did you fall into a wilderness?

Withdrawing his soul power, Qin Chen found that his whole body was broken bones, his body was severely damaged, and his meridians were broken, making him a serious mess.

However, the heaven and earth here are so energetic and abundant. Qin Chen breathed a little, and he felt the real aura of heaven and earth in the air, rolling in. These auras were too rich, more than ten times stronger than Tianwu Continent, no, not only the difference in quantity, but The quality gap, light lightly transformed, it can become the power of Saint Yuan, and it is extremely pure, as if the whole world is full of Saint Qi.

Even the grass under her body exudes a strong fragrance. Damn, this turned out to be an elixir equivalent to an emperor.

### [Chapter 2473: Seems not dead](#)

Moreover, these weeds are so strong that even if the martial masters of the Tianwu Continent come, they may not be able to cut them off.

This is just a grass, it is so terrible.

This is because the emptiness of the heavens is filled with countless heaven and earth holy energy. These weeds absorb the holy energy of heaven and earth day and night, which naturally contains extremely terrible holy energy.

However, the extraction of these holy qi is very difficult. Although it is very strong, these weeds can only be regarded as weeds in the heavens. If you want to refine the holy qi, it is not worth the loss, and it is difficult to do it.

Moreover, Qin Chen felt the laws around him carefully, and realized that the space here was so solid that it was unimaginable that no master of the holy realm could tear the space, move, and could only fly.

This space law is too powerful, and the heaven is indeed the heaven.

It seemed that his own spatial body had to be tempered anew in this celestial realm, because the spatial rules of the lower realm were not enough.

"I successfully ascended to the heavens. I can't believe it. I just don't know where Qianxue and the others have gone?"

Qin Chen immediately became worried. In the heavens, he was separated from Qianxue and the others. Qianxue and the three were unfamiliar with the place of life here, so they would inevitably encounter danger. When he thought of this, Qin Chen was full of anxiety and wanted to stand when he jumped. stand up.

However, a sharp pain came, and Qin Chenbian found that his body was full of scars, damaged too badly, his bones were broken, his internal organs were extremely severely injured, and even the origin of his body had some damaged.

My own situation can be described as a mess.

"Hey, why did I fly up here?" Qin Chen covered his head. He remembered that he had entered into the long river of years, and then seemed to encounter some crisis, and then entered into the heaven with Qian Xue and others. As for the specific situation in the long river of years Qin Chen only had extremely I can't remember the vague concept.

"Look at the Universe Good Fortune Jade Disc first." Qin Chen hurriedly dropped his divine knowledge on the Universe Good Fortune Jade Disc. As long as the Universe Good Fortune Jade Disc is intact and has absorbed enough time and energy, he can enter the Universe Jade Disc. In, repair the injury as soon as possible, and find You Qianxue

they.

The most urgent task is to repair the injury first, and then understand where you are in the heaven. But when Qin Chen's soul power fell on the Universe Jade Plate, he found that he couldn't enter the Universe Jade Plate at all. Qin Chen could still perceive the treasures in the Universe Jade Plate, and he could take it out, but his body Temporarily unable to be free

Go in and out of it.

"Ok?"

However, what made him gratified was that the depths of the jade disc of good fortune of heaven and earth was exuding a terrible aura, a trace of the power of time and the holy energy of the heavens merged into the jade disc of good fortune of heaven and earth, every moment They all exude vast power.

"This is the evolution of Universe Good Fortune Jade!"

The laws and aura of the heavens have transformed the jade discs of good fortune in the universe, and amazing changes are taking place all the time. Qin Chen was overjoyed: "As long as the transformation of the jade disc of good fortune in the universe is completed, I can re-enter it and practice in the special time flow inside. Moreover, I have a feeling that after the transformation of the jade disc in the universe, special things will happen.

Variety. "

"Moreover, I came to the Celestial Realm earlier than I planned, and now it is less than three years for the Celestial Master to enter the Tianwu Continent. In less than three years, I want to break through and return to the Tianwu Continent. It is difficult. Hard, hard!"

Qin Chen sighed, there are too many things that need to be done by himself, and the \*\*\*\* cats don't know what to do. Are they still waiting for them in the forbidden place? Maybe they won't. With the cunningness of the \*\*\*\* cat, it should Can arrange everything.

The only thing Qin Chen is fortunate about now is that the clone is still in the forbidden place. Once they find that they have entered the heaven, the \*\*\*\* cat and others will definitely find a way to reach the heaven. Once the clone enters the heaven, they can immediately sense it.

Thinking about this, Qin Chen felt a little bit relieved that he had directly ascended to the heavens. He vaguely felt that because of this, he had escaped a fate of death in the long river of years.

However, what puzzled Qin Chen was, isn't the heaven already broken amidst the rumors? How come it looks like there is no brokenness, at least the power in the void is extremely powerful, and it doesn't look broken at all.

No matter what, now that he is seriously injured, he still needs to recover carefully. As long as his strength is restored, with his ability to resist the masters of the earth and wave his hand to kill the peak of the mortal sacred realm, it can also be mixed in the heavens. Up.

boom! Qin Chen urged the Nine Star God Emperor Art and the Immortal Saint Body, and ran the Space Saint Body. Suddenly, a trace of the power of the celestial space and the endless holy energy poured into Qin Chen's body. Kakaka, Qin Chen's body was in Nourished by the breath of heaven, the meridians and bones

Skeletons and flesh and blood are all repaired one by one, becoming more powerful.

Countless heaven and earth sacred auras lingered, this was drawn by the Nine Star God Emperor Jue, such as the Ruyan Swallow returning home, pouring into Qin Chen one after another.

"hiss!"

Qin Chen was shocked. This was amazing. The Nine-Star Divine Emperor Art was operating in the heavens, and the power that burst out was even stronger than in the Tianwu Continent.

In addition, the Universe Jade Plate is constantly absorbing power, and now it is reshaped. If it succeeds, it will definitely be more complete than before. Qin Chen's body is also slowly repairing, and his origin is gradually improving. The Saint Yuan that broke through the holy realm in the body is also undergoing transformation, and the immortal sacred body has formed an ancient talisman, growing Qin Chen's body makes Qin Chen have

This kind of feeling, this immortal Eucharist was originally the technique of the heavens, and only when it got here did it exert its true power.

Under the Immortal Eucharist, no matter what the injury is, it can be recovered. As long as the injury is recovered, Qin Chen can be sure that his strength will definitely rise to an incredible level.

This is a feeling in the dark, but Qin Chen is very sure, because his sacred essence has been improved a little during the process of transformation, and he is breaking through to the late mortal realm.

This jungle is very quiet and inaccessible, but no one will bother him, which allows him to heal his injuries quietly without being disturbed by the outside world.

I don't know how long it took, Qin Chen's body moved, and the sacred yuan was able to move through the meridians in his body, regaining a little bit of strength.

However, at this moment, in the jungle in the distance, there was a sound of shock.

"Hey, why is the holy spirit of heaven and earth so strong here? No, there is a person lying here, as if he's not dead—" A voice came, Qin Chen heard clearly, and then, swish, two sounds of breaking through the sky. The two figures came to Qin Chen in an instant.

#### [Chapter 2474: First battle](#)

Qin Chen's divine consciousness swept both of them for the first time, both of them were in the Mortal Saint Realm cultivation base, and they were both at the peak of the Mortal Saint Realm mid-term.

Qin Chen got up with difficulty, clasped his fists to the two who came over and said, "Two friends, I was chased and killed just now, and I fled here all the way. May I ask what place this is?" "No, it was here just now." The holy energy is extremely rich. I thought there was some kind of heaven and earth elixir here. I couldn't think of anything. Besides, there is a special rule power here. Is there anything in your body that can attract heaven and earth?

The special thing of holy spirit? "One of the men with a dark complexion stared at Qin Chen, with a look of doubt on his face.

"Could it be that this person has a treasure?"

The other person said in surprise, looking at Qin Chen with fiery eyes, showing a greedy look, but he was carrying the other person on his back, so his companion did not see it.

After the two said, they completely ignored Qin Chen.

Qin Chen's heart sank, and the other party's attitude was obviously not very friendly. But Qin Chen didn't show it, just handed his hands: "Two, there is no treasure in the lower body. The reason why the heaven and the earth are strong is that he healed here before going down and took a healing pill. It is a pity that the pill already disappeared

It's exhausted, I don't know if you can tell me the information here, I am grateful! "

If there were no injuries on his body, Qin Chen would definitely ask the two of them directly, even if the other party didn't say anything, Qin Chen would force it, because he wanted to know his whereabouts urgently.

But now, the two of them in front of him were both holy realm masters at the mid-term peak, and Qin Chen didn't want to rush into action. Who knows where this is, who the other party is, and whether they have any accomplices behind them. Who knows that these two people simply ignored Qin Chen's words, the dark man stared at Qin Chen solemnly and said, "You said you took the healing pill? Hehe, what healing pill can attract so much holy energy from heaven and earth? Well, what's the matter with you oo? "

The other person stared at him coldly.

Qin Chen didn't want to conflict with these two people, frowning and said: "If you two don't want to tell, then I will leave."

After speaking, Qin Chen arched his hands and wanted to leave here. Qin Chen didn't expect the heaven and earth holy energy attracted by his Nine Star God Emperor Art to be in such trouble.

"Hahaha, seeing our two brothers, you still want to leave. The holy spirit of heaven and earth here just now is not only very strong, but also extremely pure. There is definitely something in your body, boy, hand it over."

The dark guy suddenly laughed, raised his hand and grabbed it at Qin Chen. Obviously, Qin Chen, a wounded mid-Sacred Realm martial artist, did not pay attention to him.

Qin Chen was really embarrassed, covered in blood, and the aura on his body was also very weak.

Qin Chen was shocked. He didn't expect that the other party would directly attack him. Is this heavenly person so naked? This is no different than those evil people in Tianwu Continent, and even worse than that.

Although Qin Chen didn't want to have a conflict for no reason, since the other party had started, then Qin Chen had nothing to say, he was not a person waiting to die.

What Qin Chen didn't expect was that the dark-skinned man who had just stretched out his hand, he stopped. He looked back at his companion with difficulty, and said angrily: "Chen Guang, you, why? ....." The middle-term mortal realm warrior named Chen Guang drew a black war knife from him, and said with a sneer: "There is only one treasure, give it to you or give it to me! And, you don't feel there is a time rule here. The breath? This person must be

There are treasures with time rules. "

When Qin Chen heard these words, he immediately understood that the time aura exuded when the Universe Fortune Jade Disc was raised was unexpectedly caught by the other party.

Puff!

The man drew out the black saber, and the dark guy suddenly fell unwillingly. Qin Chen keenly felt that the soul of the other party died together. In this celestial realm, the rules are too strong. Unlike the masters in the Tianwu Continent's holy realm, they can separate their souls and rob others, but in the heavens, Soul and body are one

Yes, the only people who can separate the soul from the body are the real top big people, ordinary people, the body is annihilated, and the soul is also annihilated.

Everything is because of the rules.

After Chen Guang killed his companion, he didn't even have time to control his storage ring, so he looked at Qin Chen coldly and said, "Hand over your treasure, and I will leave you with a whole body." Qin Chen I sneered in my heart, let myself hand over the treasure, dream, originally Qin Chen was worried that his injury had only recovered a little, but the other party had two people, if the wind leaked out, he was too dangerous, who knew that the other party solved one for him. Qin

The pressure on Chen's body suddenly reduced.

A fellow in the middle of the mortal realm, dare to rob himself?

Without even thinking about it, the Demon Sword appeared in his hand instantly, slashing towards Chen Guang with a sword.

Then Chen Guang obviously didn't expect Qin Chen to take the initiative, "You're looking for death!"

After an angry shout, the black battle knife in his hand immediately drew a black light circle. Within the light circle, a terrifying knife-shadow angry dragon swept towards Qin Chen roaring.

Qin Chen sneered, and immediately wanted to urge the space domain to restrain the opponent, but as soon as he performed Qin Chen, he was stunned. The space domain he could easily control in Tianwu Continent could only form a vague spatial shadow here.

No, Qin Chen immediately understood that the heaven and earth rules of the heavens are much stronger than the Tianwu Continent, and with his current ability, there is no way to control the space rules of the heavens.

At this time, the shadow war knife had already appeared in front of Qin Chen.

Swordsmanship!

Qin Chen's eyes were fierce, and without hesitation, he displayed the strongest swordsmanship.

"boom....."

The demon sword and the black saber collided with each other, making a huge noise. If the impact was in the Tianwu Continent, the surrounding space would have been torn apart, but here, the surrounding space did not even startle. A terrifying force of the Holy Origin swept across the black sword, and Qin Chen realized that a breath of excitement spread from his demon sword, as if excited about being in the heavens. Boom, the demon sword bloomed with terrible light, All of a sudden

The vitality was resisted.

A terrifying demon sword aura surged, and Chen Guang was directly bombarded and flew hundreds of meters away. Before the person fell, a mouthful of blood had been sprayed from the air.

Qin Chen's body shook, the blood surging in his body, he stopped after a dozen steps back, and a red color appeared on his face. Qin Chen was secretly shocked. He didn't expect that the Demon Sword would have such a change in the heavens. At the same time, he secretly cried out that it was a pity that if he was not injured, and the other party dared to underestimate the enemy like this, he would be able to obliterate the opponent with one move.

#### [Chapter 2475: Cangxuancheng](#)

And Qin Chen felt that Chen Guang was far worse than Ling Luling and the others who had descended on Tianwu Continent, and was not above the level at all.

It seems that not everyone in the heavens is a master, a lot of ordinary holy realm.

"What?" Chen Guang didn't expect to fight against him just now. He was injured in an instant. He immediately looked at Qin Chen in anger. Qin Chen was clearly only in the middle of the holy realm, and

the breath on his body was extremely weak. He was obviously affected. Seriously injured, he can be injured seriously in this state

, There is definitely a big secret in the other party.

"And your sharp sword... Is it a demon soldier?"

Chen Guang looked at Qin Chen with fiery eyes, his greedy expression even worse.

Obviously the reason why he thinks Qin Chen is so powerful is because he has a special heavy treasure on his body, and the green monster sword in Qin Chen's hand exudes a strange aura, not like a holy soldier of the human race, like a monster. Of weapons.

The black saber in his hand is his only saint soldier, and this is a mortal-level inferior saint soldier, and the demon sword in Qin Chen's hand is obviously more terrifying than his own black saber, indicating that the level of the demon soldier is also in his own. Above the black saber. Thinking that as long as Qin Chen is killed, the secrets and treasures of the other party will be his own. Chen Guang even grinned and boomed. The aura on his body suddenly rose, and the black sword in his hand flicked, and countless black knife shadows flew away. Came out, these

With a whistling voice, the black knife shadow enveloped Qin Chen in the blink of an eye.

"Fight against the Eight-Faced Knife Art-Swallowing Sky Style!"

Among the black blade shadows, a huge black angry dragon opened a terrifying black hole and bit at Qin Chen, as if to swallow Qin Chen with a sword. Qin Chen raised his hand and sacrificed the Demon Cauldron. His injury had not yet recovered, and Sheng Yuan had not repaired it. If he was injured again, it would be troublesome. At the same time, Qin Chen sacrificed dozens of thunder swords. These thunder swords carried azure blue thunder, and fought in Qinchen Town

The black knife on the magic cauldron was like a shadow, and the black angry dragon was surrounded in a blink of an eye.

And a terrifying sword field has swept out.

Empty Thunder Sword Domain!

When Qin Chen offered sacrifices to the town's magic pot, the eagerness in Chen Guang's eyes was that Qin Chen could see it. Chen Guang didn't expect Qin Chen's good things to continue to be the same, and this town magic cauldron is another good thing. These good things are in the hands of a badly wounded Mortal Saint Realm mid-stage kid, and this kid's luck is too bad. He didn't think he would

It was just a martial artist who was at the peak of the Mortal Saint Realm mid-term, and he only had all the treasures on Qin Chen's body in his eyes.

But the next moment he had no such expression of surprise at all. Qin Chen's empty thunder sword domain had completely enveloped the black angry dragon. The black angry dragon roared in the blue thunder sword arc, and at the same time gave out bursts of sharp sharpness. Howling. Chen Guang's face suddenly paled, Lei Xiu? He did not think that Qin Chen was still a Lei Xiu, not only a Lei Xiu, the Thunder System technique was still so against the sky, and there was a terrible spatial force in the opponent's Thunder Sword, and even the shadow of his sword

Completely bound.

The power of the Sky Thunder Sword Territory in the heavens is not as strong as in the Tianwu Continent, but it is not a problem to trap a small middle-term warrior in the mortal holy realm.

A feeling of extreme aggrievedness came, and Chen Guang understood in an instant that although the opponent was also a warrior in the middle of the mortal realm and was seriously injured, he also restrained him.

Chen Guang has rich combat experience. He knows that it is impossible for him to kill Qin Chen. The strength Qin Chen has shown has already surpassed him. If he continues to fight, not only will he not be able to kill Qin Chen, but he will fall into it. crisis.

He regretted immediately, regretting that he had killed his companion in the first place. But he was also extremely resolute. When he found something was wrong, he quickly backed away, and at the same time sent out a talisman for transmission. He would find a helper to destroy Qin Chen and let a martial artist such a wealthy Qin Chen escape. He would never be reconciled.

.

It's just that Chen Guang just sent out the talisman, Qin Chen's sword light has already come.

Time rules! In order to trap Chen Guang, Qin Chen even urged the origin of time. The origin of time was too strong and belonged to the supreme power. He was not hindered in this celestial realm. Although Qin's understanding of the rules of time is a little bit of a fur. But Chen Guang's actions

Slowly in an instant, as if it became slow motion.

boom! Qin Chen first extinguished Chen Guang's messenger talisman, and then the demon sword had already blasted the war knife in Chen Guang's hand, pierced Chen Guang's chest with a sword, snorted, blood splashed, and then Chen Guang returned. God, break free from the rules of time

.

"The power of time..."

Chen Guang made a sound of shock and fear, and was completely controlled by Qin Chen.

"Heaven Soul Forbidden Technique!" Qin Chen immediately released a soul power, boom, soul power directly submerged into Chen Guang's mind, obviously to search for the other party's soul, but Qin Chen's soul just entered Chen Guang's mind, but I found that it is too difficult to search for the soul of the other party.

Under the rules of the heavens, the difficulty of searching for souls is more than a hundred times more difficult than the lower ones.

With Qin Chen's terrifying soul power, he couldn't forcefully search for the soul, because it was too difficult to deprive the memory of the opponent's soul, so he could only attack on the soul.

Just as Qin Chen was thinking about leaving the other party's life for interrogation, the demon sword that pierced Chen Guang's body suddenly burst into a weird light, and immediately enveloped Chen Guang.

"what!"

Chen Guang let out a scream, and his whole body suddenly shrivelled, his spirit and energy dissipated completely, was swallowed by the demon sword, and his whole soul completely collapsed and fell completely. Qin Chen was startled. He didn't expect such a change in Demon Sword. He threw down Chen Guang's body, shook his head, and picked up the storage rings of the two of them. When they were about to clear the battlefield, slight fluctuations in the surrounding space came. , Qin Chen immediately knew

People came, he didn't dare to wait for half a second anymore, turned around and brought a trace of the disappearance of light.

Immediately after Qin Chen left, two shadows fell beside Chen Guang and the companion who was killed by Chen Guang.

"It's Chen Guang and Feng Yuan, it turns out that the two of them died here?" One of them looked at the corpse on the ground with a look of surprise: "Big Brother, Chen Guang and Feng Yuan are also good hands. Who killed them? Wouldn't they be the masters of the late stage or even the peak of the sacred stage? If we want to chase them

..."

This warrior hesitated, obviously because he was a little afraid of the other party's ability to kill Chen Guang and Feng Yuan. "This time the grand event of Cangxuan City only once in a thousand years is about to open again. I am afraid that there are experts from all over Yunzhou, and the neighborhood will start to be dangerous again." The leading warrior said with an ugly expression, "But Fengyuan is not someone else. It was Chen Guang who killed it, and Chen Guang was killed by another person. Killing Chen Guang's person should not be a master."

#### [Chapter 2476: Tianmang Mountains](#)

The warrior who had spoken before looked at Feng Yuan, who was killed by Chen Guang in confusion, and was shocked after a while and said: "It was really Chen Guang who killed him, but the friendship between Chen Guang and Feng Yuan was extraordinary. Going out in a team, why did Chen Guang kill Feng?

original? "The leading warrior pondered for a moment, frowning and said: "Chen Guang killing Feng Yuan is indeed very weird, but since it happened, there are only two reasons. One is that Chen Guang and Feng Yuan didn't seem to be superficial. It's better to get up,

The two sides actually had a gap, so here Chen Guang sneaked an attack on Fengyuan. This is one possibility. Besides, there is another possibility—"

Speaking of this, the eyes of the leading warrior suddenly lit up, and a brilliant light burst out.

"Brother, what's the possibility?" Another warrior looked over in confusion, not sure why the eldest brother stopped talking.

"That is, Chen Guang and Feng Yuan discovered a top-notch treasure at the same time. This treasure is extremely important and can even change the fate of the two. Chen Guang wanted to swallow the treasure and killed Feng Yuan secretly."

Having said that, the breathing of this leader warrior has become heavy, and this second one may be obviously more real and closer to the truth. "So, is Chen Guang also dead because of this? That top treasure should have fallen into the hands of the guy who killed Chen Guang." Another warrior said in a deep voice, his eyes lighted: "Brother, let's next What to do? Do you want to catch up?"

From the aura, it shouldn't take long for the person who killed Chen Guang to leave, but if that person can kill Chen Guang, will we go up? . . "

He was a little worried about whether the opponent could kill Chen Guang, would he be a master.

The leading warrior sneered: "Chasing, of course, chasing. If the person is really strong, he won't leave Chen Guang's Saint Soldiers, and he flees so hastily. If I'm not mistaken, the person will kill. Chen Guang should also be lucky."

The two looked at each other, and their eyes immediately showed a fiery color. Putting away Chen Guang's black saber, the two immediately chased in the direction where Qin Chen disappeared, without the slightest deviation, showing the extremely rich combat experience. Qin Chen came here all his life, hasn't experienced anything? He didn't know what the strength of the two people who followed later was, but Qin Chen didn't want to meet these people when he was seriously injured. Therefore, he kept changing in the void.

Direction, and erase the traces along the way.

Qin Chen's figure flickered, and he plunged directly into the mountains in front of him.

Only a moment later, the two figures fell near Qin Chen's disappearance.

"The aura disappeared here?" After the leading warrior frowned, he couldn't perceive the direction in which Qin Chen disappeared, and he said in a deep voice, "What a strong means of hiding!"

"Big brother, what should I do next?" another warrior asked. The leader of the warrior hesitated and said: "He should have escaped. Besides, the Tianmang Mountain Range is in front of you. There are many sects in it. It is easy to encounter danger if you rush in. Besides, the grand meeting of Cangxuan City will be held soon. And we also

Don't waste time here, it's a rare opportunity. "

"It's a pity, then let's go."

The two shook their heads regretfully, turned around and left here quickly.

After the two left, Qin Chen had already entered the vast mountains. "The most urgent thing is to completely heal the injury first, and then figure out where he is." Qin Chen fell in a mountain col, sighed slightly, or the injury has not recovered, otherwise he doesn't need to be so worried about the future.

Qin Chen was still a little wary of the world of knowledge.

Qin Chen's cultivation base is at best close to the late stage of the Mortal Sacred Realm. Of course, if all his hole cards are exposed, he will naturally be stronger, but it is still a bit weak after all.

Once all the injuries are completed and the jade disc of good fortune in the universe is completely transformed, then Qin Chen will be invincible in the mortal sacred realm, and even dare to challenge the masters of the sacred realm. If he wants to come to this celestial realm, he has a certain ability to protect himself.

"First think of a way to figure out the current situation. Qianxue and the others separated before they finally entered the heaven. They shouldn't be separated too far if they think about it. The sooner you find them, the less danger they will encounter."

Qin Chen was extremely worried about the three You Qianxue, and was about to find a place to retreat and heal their injuries.

However, at this moment, from the jungle in the distance, there were waves of swaying grass and trees, and it seemed that something was coming.

Roar!

With a loud noise, a monster leaped out of the jungle, its entire body covered with scales, like a giant crocodile, covered with dark scales, and the iron armor exudes natural Dao patterns.

The giant crocodile saw Qin Chen, roared, and directly hit Qin Chen. "Holy level monster beast!" Qin Chen took a deep breath. He knew that there were also monster beasts running rampant in this celestial realm, but this monster beast was not even as aura as the ancient beasts in the land of the gods, so Qin Chen was not in a hurry, punched towards this

The giant crocodile blasted over.

"Killing Fist!"

This monster spit out, and between the gallops, the rocks broke, and the trees were broken. The power contained in the body was equivalent to a warrior in the middle of the mortal realm.

boom!

Qin Chen blasted the giant crocodile with a fist, and a roar sounded. The giant crocodile was blasted upside down by Qin Chen. The terrible fist shook the giant crocodile with a scream, and the skull cracked. Chen also stepped back a few steps.

The injury has not been healed, otherwise such a giant crocodile, Qin Chen could explode with one punch.

Of course, this also has something to do with Qin Chen just trying to test it out at the beginning, and didn't show his full strength.

With a fist blasting the giant crocodile, Qin Chen gained confidence and was about to behead the giant crocodile. Suddenly, there seemed to be a breaking sound from behind the giant crocodile, as if many people were chasing him.

After the giant crocodile heard the sound, he couldn't choose his way, and hurriedly rushed past.

Whoosh whoosh! There were dozens of attacks, shot from behind, all submerged in the body of this giant crocodile, and then began to cause damage. Qin Chen's expression moved, each of the dozen or so attacks contained extremely powerful penetrating power, which was a variety of rules.

Then they are combined together, and they are tempered.

Moreover, once the rule attack is sent out, it can automatically absorb the holy energy of the heavens and strengthen itself.

Boom!

The head of this giant crocodile was cracked by Qin Chen, and it fell to the ground, convulsing vigorously.

"Okay, it's dead!"

"It is indeed dead. We tracked this ancient rune iron-clad crocodile for a long time. Today we finally killed it. It should be sold for a good price, especially its iron armor, but it is a good material for refining holy armor." There were five or six figures in full, jumping out of the mountains and forests, showing excitement.

#### [Chapter 2477: Ancient Bell School](#)

Qin Chen saw that these five or six figures were all mortal sacred realm cultivation bases, about at the initial peak, there were also two in the middle realm, but it seemed that it was not long to enter the middle realm.

Several people were wrapped with regular rays of light, but from the aura, it was clear that their understanding of the rules of heaven and earth was not profound, and it was still on the surface. Qin Chen saw that in order to break through the holy realm in the lower realm, he must understand the origin. The understanding of the rules of heaven and earth is like opening the sky, and each is very proficient. Although the rules of the lower realm are not as good as the heavens, it is in the understanding of the profound meaning of the rules. of

The Holy Land masters are not weak.

The opposite is true in the heavens.

The rules of the heavens are too strong, and there are heaven and earth holy auras everywhere, and it is very easy to condense the origin. Condensing the origin in the heavens is equivalent to breaking through the martial arts and the king of the lower realms, and the difficulty is much smaller than that of the lower realms.

This also caused the masters of the heavens to absorb too much holy energy from the heavens and the earth, resulting in strong power, but in terms of understanding of the rules, they were not as good as some of the holy masters of the lower realms.

These five or six figures jumped over, with surprises on their faces.

"Huh! Sister, there is another person here!"

"who are you?"

"Why did your Excellency appear here? We are disciples of the Ancient Zhong Sect. This mountain forest is the sphere of influence of our Ancient Zhong Sect. Tell us quickly, otherwise, don't blame us for being polite."

At this moment, everyone also found Qin Chen who was extremely embarrassed, and immediately showed vigilance.

Among the few people, a woman walked out, frowned and said: "Your Excellency, which disciple of which school is it, why is it in the Tianmang Mountain Range?"

Qin Chen glanced at a few people. These people are not weak in cultivation, but they are much weaker than the two Chen Guang who killed before. They are not a threat to him. If he wants to do it, I am afraid it will be instantaneous. Can kill these people in time.

But Qin Chen finally met people, so naturally he wouldn't do it easily. "Below is a casual cultivator who encountered the enemy's siege and was seriously injured here to heal. I have no intention of being an enemy. Please rest assured." Qin Chen arched his hands and said, "I don't know who these people are. Where is the mountain before going down

After a period of retreat, and then fled all the way, I don't know where I was. "

"If a few people can tell you about the next situation, you will not treat them badly."

Qin Chen glanced around and said to several people.

"You were chased here by someone?"

A man looked at Qin Chen carefully, and said in doubt: "I haven't even heard of the Tianmang Mountain Range, where did you escape from, and what benefits can you give us if you say you don't treat us badly?" Qin Chen did not speak, and with a flick of his finger, a bottle of Saint Yuan Pill had already appeared in his hand. This Saint Yuan Pill was refined by him in the forbidden land, and said lightly: "This is a bottle of Saint Yuan Pill. If you can tell the truth, this bottle of Saint Yuandan should be under Paid. "

"Holy Yuan Pill, you actually have a Holy Yuan Pill?"

Several people said in shock, as if very surprised.

Qin Chen frowned. Although the sacred pill was precious, these people seemed to be disciples of a certain power, so it wouldn't be such a fuss.

These men and women did not directly answer Qin Chen, but flashed aside and communicated in secret.

"Senior Sister, what should I do? This person looks extremely badly injured, do you want to help him? Or..." "A wounded warrior... actually has Saint Yuan Dan on his body, and as long as we tell him something, he Willing to pay us the Saint Yuan Pill, it can be seen that besides the Saint Yuan Pill, this person definitely has other treasures. If he can

..."

One of the men staring at eagles flashed murderous intent. Although Qin Chen was far away, with his powerful soul power, he could clearly feel that the young man with gleaming murderous intent had the coldest breath in his body.

"Junior Brother Pang, don't mess around, it will be the day of the Cangxuancheng grand meeting soon. This generation is not peaceful now. Our ancient Zhong school has a small business. If we offend someone who can't afford it, we are in danger of destruction."

The leading woman said that this person is a elder sister in the crowd, and she seems to be only in her thirties, but Qin Chen can feel that this person is not young. In the heavens, everyone has a long life span. Can't distinguish age from appearance.

And this person's cultivation is also the best among the people, in the middle of the mortal holy realm. "But, Senior Sister Qin, this person is extraordinary, and the source of the body is absolutely extremely powerful. Senior Sister, you are only one step away from the mid-term peak. If you kill this person, refine his source, plus the holy pill on him, Sister, what is your cultivation

Must be greatly improved? When the time comes, Cangxuan City will have a chance to get a chance. . . "

Junior Brother Pang continued to flicker coldly. "Nonsense, our Ancient Bell Sect is not the outside of the Demon School. It refines the origin of others. This is the Demon Dao. How can I cultivate? Moreover, this person's origin is unknown. If there is a big background, it will not bring us the ancient Bell School. Curse? It's better to make a good bond, I

This person does not look like a villain. "

Senior Sister Qin yelled coldly: "Go, come with me. As for the origin of refining, you don't want to mention it again, otherwise Senior Sister I will report to the head, and you will all be punished!" The voice fell, and Senior Sister Qin arrived. In front of Qin Chen: "Senior, although our Gu Zhong Sect is a small school, we are not a generation taking advantage of others. This place is the Tianmang Mountain Range. I am a disciple of the Ancient Zhong Sect nearby. I think Senior was seriously injured.

The land is not suitable for healing, so seniors might as well go back with us and take care of them slowly. If you want to come to the head of the master, you should not mind. "

"So thank you very much." Qin Chen nodded. Although the other party's previous conversation was vague, he was fully aware of his soul power: "You waited to save me and planted a good cause. Return."

"As for this holy essence pill, you will have one pill for each of you, and you will divide it first."

Qin Chen raised his hand and flew out five Holy Yuan Pills. Among the six, except Junior Pang, one pill.

"As for you, there is a devil in your heart. This seat will not care about your faults for the time being. If there is a next time, don't blame this seat for being rude.

Qin Chen said lightly.

Junior Brother Pang's face was ugly, but he didn't refute. The others were all delighted. Although this Saint Yuan Pill was only a low-grade, it was a rare treasure for them.

A group of people immediately happily put away the ancient talisman iron-clad crocodile, and took Qin Chen toward the deep forest.

Seeing the delighted expressions of a few people, Qin Chen was thoughtful, and it seemed that the pill of the heavens was very scarce. In this case, his status as an alchemist might be of much help.

Along the way, everyone flew like the wind.

This mountain range is very vast, much larger than the Tianwu Continent, every inch of soil, rock, and holy energy around it is unimaginable. In the process of flying by, Qin Chen also learned something about this neighborhood from the mouth of Senior Sister Qin.

#### [Chapter 2478: Come right](#)

It turns out that this place is the Tianmang Mountain Range. The entire mountain range is extremely vast, covering hundreds of billions of square kilometers. In this mountain range, there are a number of schools of various sizes. The Ancient Bell School is just one of them. Big or small.

The Tianmang Mountain Range is just a magnificent mountain range outside Cangxuan City. Cangxuan City is a city under Yunzhou in the 13 prefectures of Guanghan Mansion, and it is also the most expansive city in an area of countless billions of miles.

This Senior Sister Qin, named Qin Tingting, is a great sister of the Ancient Zhong School. She has been to the farthest place, that is, Cangxuan City. As for the Yunzhou world outside Cangxuan City, she has never gone out to travel.

As for Guanghan Mansion, she also saw it from some ancient books, and as for other places in the heavens, she had no idea what was going on.

"Yeah." Qin Chen thought for a while, and immediately sketched out the entire celestial realm in his mind.

According to the \*\*\*\* cat, the Saint Master level master is already the strongest power in the heavenly realm, so this Guanghan Mansion should be at the same level as the Yaomie Mansion, and its strongest is also a Saint Master level master.

A Guanghan Mansion is divided into 13 prefectures, and Cangxuan City is a top-level city under Yunzhou in the 13 prefectures. As for the Tianmang Mountain Range, it is just a top-level mountain range outside Cangxuan City. A member of the forces around Xuancheng.

The distribution of all these forces instantly formed a perfect picture in Qin Chen's mind.

"I don't know if you have any information around here, you ancient Zhong school, should have these geographical classics, show me."

When he first arrived in the heavens, the first thing Qin Chen needed to be familiar with was the place, and then he would look at the forces that could threaten him. At the same time, Qin Chen would also need to see where he was so that he could improve his strength as soon as possible.

In the Tianwu Continent, there are information and maps in various places, so it should be the same if you want to come to this heaven.

Sure enough, Qin Tingting took out a jade slip: "Senior, this is the opinion of some forces around my ancient clock. Please see, this jade slip will be given to you."

Compared with a holy yuan pill, the jade slips that can be purchased with these holy crystals are naturally nothing.

Qin Chen took the jade slip, and all kinds of materials immediately merged into Qin Chen's mind. The things recorded in the jade slips are not bad from what Qin Tingting said, but they are more detailed. For example, in cities like Cangxuan City, the strongest masters are often masters of the Earth Holy Realm, while the higher level Yunzhou, It is a master of the Heavenly Holy Realm, a mansion

, Is the master of the Holy Master. The entire celestial realm is composed of countless palaces, but no one can tell how many palaces there are, and what is above the palace is not known by Qin Tingting, a disciple of the ancient bell school, even the head of the ancient bell school. , And even Cangxuan City Lord did not

Must know.

"If the strongest person in Cangxuan City is an Earth Sage master, then the head of the Ancient Zhong Sect should not be much stronger."

Qin Chen relaxed, if the ancient bell sect was in the Tiger's Den of Longtan, and he couldn't get out of it, then it would be troublesome. After all, the jade discs hadn't recovered, and he had nowhere to hide in danger.

Now, Qin Chen breathed a sigh of relief. Even if the opponent is malicious, he should be able to escape, and he needs a quiet place to heal if he wants to recover his injuries.

When the injury is healed, go to Cangxuan City, get there, and find a way to find Qian Xue and the others.

After making up his mind, Qin Chen circulated the Saint Yuan in his body carefully and found that his injury had recovered a small amount again, but he still had to speed up his recovery before he could go to Cangxuan City safely.

After walking for about half a day, a mountain peak appeared in front of him, and there were palaces on the mountain peak, which reached the gate of the ancient bell school.

Qin Chen followed Senior Sister Qin and the group into the mountain gate.

The ancient bell sect was built on the mountain peaks, with palaces towering up, surrounded by some forbidden formations. Qin Chen could see at a glance that this was just an ordinary Saint-level formation, and Qin Chen immediately let out a sigh of relief.

With his knowledge of the formation, such a big formation can't help him at all.

"Senior Sister, how does this senior settle down?" several people asked.

"Settle this senior into my mansion." Senior Sister Qin thought for a while and said.

The eyes of several disciples suddenly widened. Senior Sister Qin is a great sister of the Gu Zhong School. She has always been extremely majestic. Ordinary men in her mansion can't get in at all, and Senior Sister Qin let this senior live in.

However, the senior sister ordered, they naturally did not refute, and the group came to a small palace, while Qin Chen was taken into the palace and came to a pool of water deep in the palace.

"Senior, this pool of water is the place where juniors usually practice. Seniors can enter the pool to practice, and it should do some good to senior's injuries." Senior Sister Qin said.

This pool of water exudes a rich aura. As soon as Qin Chen entered, a faint aura poured into Qin Chen's body, moisturizing Qin Chen's meridians. This pool of water seemed to be a special kind of spiritual pool.

"It should be some kind of holy pond liquid. The water in the pond is stronger than the holy energy of the world, but it is not much stronger, but it is not a small benefit to my injury. It should be the foundation of this ancient bell school." Qin Chen thoughtfully, from this sacred pool, it can be seen that the family of the ancient bell sect can only be regarded as ordinary, but Qin Chen's first ascent, any celestial aura nourishment can make Qin Chen's cultivation and injuries Growth and repair, this holy pool is right now

For Qin Chen, unintentional is a huge benefit.

Enough to recover his injuries several times faster. "Senior is here to heal his wounds with peace of mind. Recently, the world is in chaos, but my Gu Zhong sect is in this Tianmang Mountain Range, and it can be regarded as a small force. Seniors are at ease here. There should be no problem with safety. I wonder if Seniors can tell juniors, you are coming.

From which school? "

Qin Tingting asked. "You'd better not know where I came from, otherwise it won't do you any good." Qin Chen smiled slightly, "I'm just borrowing here for a while. Don't worry, I will leave immediately when my injury is healed." The seat will give you one

化. "

Qin Chen really thought that Qin Tingting was a good person, at least after he ascended to the heavens, he was the first kind person he encountered.

Qin Tingting saw that Qin Chen didn't say anything, but didn't continue to inquire, "Then senior, please rest, junior is outside. If you have anything, senior please tell me."

Qin Tingting retired after speaking.

After the opponent left, Qin Chen stepped directly into this spiritual pond.

boom!

Qin Chen ran the Nine Star God Emperor Art, and immediately, the aura in the holy pool rushed into Qin Chen's body frantically, surging in his meridians and acupuncture points, and Qin Chen's aura suddenly increased at an astonishing speed.

A warm mood, rippling in my heart.

Qin Chen was overjoyed. The speed of repair was amazing. At this speed, he would be able to heal his injuries in no time. Sure enough, this ancient bell school is on the right side.

#### [Chapter 2479: Wound healed](#)

Boom!

Qin Chen urged the Jiuxing Divine Emperor Art to increase the absorption of the holy pond liquid, and immediately, the rich aura in the holy pond rushed into Qin Chen's body like the ocean.

At this moment, Qin Chen was like a giant whale, devouring everything around him frantically.

Of course, after learning from the previous lessons, Qin Chen set up a series of restrictions around this holy pond to prevent the situation here from inducing the strange heaven and earth holy energy, causing other people's attention.

Boom boom boom!

I saw a stream of terrifying holy pool liquid madly pouring into Qin Chen's body, transforming his body.

Immortal Eucharist!

At the same time, Qin Chen revolves the indestructible sacred body, his body makes a creaking sound, as if it is transforming, and there is thunder sound surging in his body. This is the blood force, which spreads throughout the body and becomes the rule of the body's instinct. Power.

"what happened?"

"Why did the aura in the holy pond suddenly weaken so much?"

"Strange, the tide of the holy pond fluctuates only once every three months. It should be the time when the aura of the holy pond is at its strongest, how can it seem to be weaker than when it was at its weakest." At this time, the night had come, Countless disciples of the Ancient Bell Sect were cultivating in their respective cave mansion sacred pools. At this moment, they opened their eyes in astonishment, because they discovered that the aura of the sacred pool under them was slowly decreasing, even when the aura of the sacred pool was weakest

They are going to be weaker, if it weren't for the effects of the holy pond, they would even think they were cultivating in clear water.

"Could it be that what has changed at the bottom of the Tianmang Mountains? This has caused the holy pond to change and the aura weakened?"

"How is this good? The holy pond is the foundation of my ancient bell school. My ancient bell school is in a very difficult situation in this Tianmang mountain range. I can barely make it. If even the holy pond is consumed, my ancient bell Pie will inevitably fall into decline."

"Oh, difficult, difficult, difficult, how difficult it is to revitalize the martial art."

An elder and high-level member of the ancient Zhong Sect also found this change and couldn't help sighing.

This sacred pool is the most powerful treasure of the Ancient Bell Sect. Together with the spiritual soul beneath the ground, there is such a sacred pool in the caves of almost every disciple and elder. Once the sacred pool falls, the Ancient Bell Sect will definitely Decline too.

Naturally, Qin Chen didn't know what happened in the ancient bell school. He greedily swallowed the power in the holy pond, and every cell in his body was cheering.

This is a transformation.

Entering the heavens from the lower realm, no matter the rules or the physical body, they are in a more powerful area. Qin Chen has been tempered to the extreme physical body in the lower realm. Under such an environment, he is involuntarily improving and changing.

This is like a match burning in ordinary air with low oxygen content. The flame is only the size of a thumb and the light is not full, but if it is placed in a container full of oxygen, it will immediately burst out with a light that far exceeds the outside world. And high temperature.

Moreover, Qin Chen came from the lower realm to the celestial realm containing the holy energy of the heavens and the earth everywhere, like a burning match placed in the container full of oxygen from the air, naturally undergoing transformation.

boom!

Qin Chen's body acupuncture points were filled with the aura of the heavens, and Qin Chen could feel that the jade discs of the world's fortune were also rapidly recovering and improving, absorbing the rich atmosphere of the heavens and the earth, and melting the rules of the heavens into it. .

In addition, Qinglian Demon Fire and Youkong Bingyan, which originally seemed to have reached the bottleneck, are also cheering and jumping, as if like a fish in water.

Skyfire is supposed to survive in the heavens. Here, Skyfire can rise again and achieve even more terrifying flames.

The impact of the environment on everything is too great.

Sometimes, a person's efforts and talents are completely inferior to the impact of the environment.

In the process of rapid physical recovery, Qin Chen re-trained all the rules, exercises, and martial arts of the lower realm in accordance with the rules of the heavens.

In the lower realm, the rules that can be easily controlled are not necessarily easy to control in the heavenly realm, because different planes and different strengths of the rules make the natural core different.

The only thing that has not changed is the time rule.

Time surpasses everything. The origin of Qin Chen's time is against the sky in the lower realm, and it is also against the sky in the sky.

The second is the rules of space. There are still some differences between the space of the lower realm and the space of the celestial realm.

Fortunately, Tianwu Continent is the Source Continent, and its core of origin is exactly the same as the Heaven Realm, except that one is strong and one is weak. This also led to Qin Chen not encountering too many difficulties in the conversion of other rules.

But there was one rule that shocked Qin Chen.

It's the Thunder rules.

boom!

In Qin Chen's body, the endless thunder light surged, bursting out blazing light.

Qin Chen felt that after the thunder power in his body came to the heavens, it was as if he had come to a familiar place. Not only did it not have the slightest influence, but it became more terrifying and the aura became deeper.

This.....

Qin Chen was shocked.

"Heaven and earth, everything, the origin of the universe, the vast world, do everything for you..."

A breath of heaven and earth descended, the power in the holy pool fluid kept surging, and countless holy crystals appeared on Qin Chen's hand, all of which were obtained from Ling Luling and the others.

Originally, it was enough to cultivate in the martial arts of the heavens and absorb the holy artifacts of the heavens and the earth.

However, in order to speed up Qin Chen, even the holy crystals were directly absorbed, only to hear the constant blasting sound, and the holy crystals were continuously swallowed by Qin Chen, turned into powder, and dissipated in the air. .

Counting them carefully, Qin Chen at least swallowed tens of thousands of holy crystals. It must be known that the total number of holy crystals he obtained from Ling Luling and others was only about 30,000 to 50,000. Later, he broke through the holy realm and absorbed some in the Forbidden Land. Only about 20,000 are left, and now he has swallowed tens of thousands. , Which consumed half at once

.

In addition, Qin Chen swallowed all the high-grade pills in the Saint Yuan Pill he had refined in the Forbidden Land.

Boom boom boom!

The strands of Saint Yuan here are like countless giant dragons, surging on Qin Chen's body, vomiting, incredibly strong.

"Unfortunately, the pill on my body is still a little bit less. Compared with the holy crystal, the effect of the holy yuan pill is better. It is a pity that I don't have a good furnace cauldron, otherwise I will refine enough holy yuan pill. I am afraid that there will be no one in the future. Holy Yuan recovery?"

Qin Chen thought that after the restoration, he must find a holy furnace in the heavens.

"The medicinal materials of the heavens are very easy to collect. If I want to make a breakthrough in the heavens in a short time, I must consume a lot of resources. Then I can refine a lot of pills to provide resources for my own practice."

Various thoughts flickered in Qin Chen's mind.

This night, Qin Chen's consumption was undoubtedly huge, almost consuming more than half of his property.

But the effect is also amazing. Overnight, when the sky was dark, Qin Chen's injuries finally healed completely.

#### [Chapter 2480: Late Van Holy Land](#)

The Immortal Eucharist is too terrifying. It seems to be truly reborn in the heavens, and when it is in operation, its effect is much more terrifying than in the Tianwu continent.

Such a serious injury, one day and one night, healed, and it almost broke Qin Chen's understanding.

And the moment Qin Chen's injury healed.

boom!

As if some shackles had broken in Qin Chen's body, a terrible breath burst out from his body, shaking the entire palace.

The late Van Sacred Realm!

After experiencing the tribulations of the years and life and death in the heavens, Qin Chen's cultivation level stepped from the middle stage of the mortal sacred stage to the latter stage of the sacred stage, and his strength suddenly skyrocketed again, and the feeling of being in charge of the world rose from Qin Chen's heart.

A breakthrough, a direct breakthrough.

Qin Chen sighed in his heart that the whole process from breaking through the holy realm to entering the later stage of the mortal realm was very brief, except that because of his profound background, he stayed in the semi-sage realm for a long time, and it has a great relationship with entering the heaven

realm. The holy aura in the heavens is too strong, coupled with Qin Chen's injury, his physical body has recovered, and he has been transformed again, and he will naturally enter the late stage of the mortal holy realm. Otherwise, if he is still in the Tianwu Continent, without any chance, at least he needs a Years

Can do it.

This is an opportunity, blessings and misfortunes are interdependent, and destined.

Although the transition from the middle stage of the mortal realm to the later stage of the mortal realm was only a small state, for Qin Chen, who had first come to the heavens, the help was undoubtedly huge.

"In the late Fan Sacred Realm, even if it is a master in the Early Earth Sage, this young man has the power to defend himself, enough to compete." Qin Chen stood up, showing a relieved smile. "Next, I will find a way to find Qianxue and the others, but with my current strength, although it is not weak in this Cangxue City, after all, people are weak. Wanting to find Qianxue and the others requires a lot of manpower, and the most Fortunately someone who is familiar with here

Hand, where can I find it? "

Qin Chen's heart moved, he was in this ancient bell sect, maybe he could cooperate with this ancient bell sect.

"Senior, what happened?"

At this moment, Qin Tingting felt the shock of the palace and rushed in, then her expression was shocked. I saw Qin Chen standing proudly in this holy pond, exuding an incomparably confident aura. His face was sharp with water chestnuts, and his eyes were as bright as stars, making Qin Tingting's heart throbbing, and she did not dare to have any thoughts or thoughts of resistance. This is for the big shot momentum.

Qin Tingting suddenly shook her body. "What kind of expression is this, looking at the world, proudly taking care of himself, this senior, definitely has a big identity, a great background, this kind of tolerance, by no means a person who is waiting for nothing, every move, there is life and death, power is in control, and overlooking The artistic conception of the world, I

What kind of big man was saved? "

Qin Tingting was shocked: "Is it the Young Master of Cangxuan City? No, even the Young Master of Cangxuan City does not have this kind of tolerance."

"It's nothing, it's just that when he treated the injury, he accidentally exuded some aura." Qin Chen smiled, very flat.

Ok?

At this moment, in Qin Chen's perception, outside Qin Tingting's palace, a few streams of light were flying quickly, exuding a powerful breath.

"Master of the Late Van Sacred Realm?"

Qin Chen pondered and looked at his breath. These guys should be the big figures of the Ancient Bell Sect. He didn't expect that he was just about to come into contact with the Ancient Bell Sect, and the other party came to the door in advance. went.

"Unexpectedly, my Gu Zhong sect came to a distinguished guest, Qin Tingting, why did you hide it and didn't report it, or Nephew Pang told us, how can you ignore the distinguished guest?"

The streamer fell, and the sound came out from outside.

"Qin Tingting, you are getting bolder. This is an extraordinary period, and our Tianmang Mountains are not completely safe. What if we get caught in by some evil spirit?"

"Don't talk about it, everyone, I heard that the distinguished guests are here, why don't you come out and see?"

A full of breath, with a faintly majestic voice resounded, and directly passed into Qin Chen's ears, shaking his soul, and actually implying the mystery of space operation, shaking the space rules of the heavens.

This is a master at the peak of the late Fan Sheng realm. This master is above the rules of the celestial realm, and has reached the point where he is proficient in the fire, like an arm-driven, otherwise it is impossible to shake the rules of the celestial realm. Of course, he can only simply operate the space rules, from the real control of the celestial space rules

Then, it's still a thousand miles away, just mastering the fur. Qin Chen walked out slowly, and saw that there were several strong men standing on the ground outside the palace. Standing in the middle was a middle-aged strong man, wearing a dark blue Taoist robe, turned out to be a mortal sage. Baobing's clothes, eyebrows like a sword, eyes like

In the abyss, standing there quietly, there is a kind of tolerance in controlling the lives of everyone around him and holding authority.

It was actually the pinnacle of the Van Sacred Realm, and it seemed to be stronger than Ling Luling and the others.

In addition, beside him, there were five or six elders with different strengths, but they were all in the late Mortal Saint realm, and they all looked at Qin Chen with vigilant eyes.

There is no doubt that these are the senior members of the Gu Zhong School.

"My friends, how do you call it?" Qin Chen walked out slowly, arched his hand, polite, and also very confident. Of course, Qin Chen recovered from a serious illness, and the breath on his body still gave people a weak feeling. "Your Excellency? How was it hurt? Deliberately mixed into our ancient bell school, what is the purpose, truthfully recruit, don't think that our ancient bell school has a small business and can do whatever he wants." A middle-aged man in the late Fan Holy Realm suddenly crossed. One step before

The time was cold, somewhat similar to Junior Brother Pang who wanted to undermine Qin Chen before, and seemed to be a father and son.

Qin Tingting stood on the periphery, shaking her head repeatedly, with a look that made Qin Chen wary.

"Zaixia is just a casual cultivator, occasionally injured, and getting help from the ancient Zhong school girl Qin Tingting is not a wicked spy." Qin Chen said lightly, without any change due to the other party's bad tone.

"Father, this guy must be a spy of the Demon Race. He deliberately got into our Ancient Zhong Sect. There is definitely a conspiracy. He must be arrested and interrogated severely." Junior Brother Pang said suddenly, with a cold light in his eyes, and then The message was sent to the middle-aged man: "Father, I stayed in the middle of the mortal sacred realm, and I have been unable to make progress. The reason for entering the peak of the middle sacred realm is because my body is not enough.

And the resources of our Guzhong School are too few. "But this person has a holy essence pill, and he just took out a lot. There must be other treasures on him. If you capture him, take away his treasures, let the child refine his The origin, children must be able to step into the mortal realm

At the peak of the stage, participating in this grand meeting in Cangxuan City, I am afraid that you will have a greater grasp of this opportunity, father, you must fight for the child. "This Junior Brother Pang whispered secretly.
