

Valkyrie 2571

[Chapter 2571: Breakthrough to the mid-term](#)

The breath of the real dragon, the pressure of the real dragon, the history of the real dragon, the origin of the real dragon... all turned into a wave of medicinal power and entered Qin Chen's body.

Looking at Qin Chen, it was as if he had seen the growth history of this true dragon.

boom!

The strength in Qin Chen's body began to increase, and the powerful Earth Saint Origin was like lightning, flickering on the surface of Qin Chen's body, bombarding it, it could destroy everything and suppress everything.

The promotion of Qin Chen's power, Qin Chen's body, soul, and will have all risen, and he has truly reached a peak. As long as he has the ancient holy energy, he can rise to the point where he is exposed to a stronger earthly holy way, eternally free artistic conception.

A large amount of ancient holy energy madly entered Qin Chen's body.

Qin Chen felt that his physical strength was increasing crazily.

one day.

Three days.

Ten days!

A month.

One month later, this Peerless Earth Pill was completely absorbed by Qin Chen, but Qin Chen's cultivation level still hadn't broken through, and a Peerless Earth Pill could not break him to the middle stage of the Earth Sage.

This is abnormal. It should be noted that this is a Peerless Earth Pill. For the Peerless Earth Sage, it is also a heaven-defying pill. It can even improve the cultivation and strength of the strong man in the late Earth Sage, but Qin Chen, a warrior at the peak of the early Earth Sage, takes it. , Failed to reach the ground

In the mid-sage, it can be seen how much power Qin Chen needs to break through.

Huh!

No matter what, Qin Chen took out the second Peerless Earth Pill instantly.

Boom!

This is another true dragon pill. The aura of the other true dragon pill is exactly the same. These pill made by peerless earth-level true dragons were actually mass produced. The terrible race.

This pill entered Qin Chen's body, and this time, in just half a month, Qin Chen had completely absorbed this peerless true dragon pill.

But his cultivation level still hasn't broken through.

"All the peerless true dragon pills will be decomposed for me! The ancient holy veins melt for me, and I use my body to forge endless rules. Within the rules, everything is eternal and immortal, and immortal and comfortable..."

With a fierce mouth, Qin Chen took out all the peerless True Dragon Pills, ten in total, burst them all at once, and swallowed them all.

The earth sage origin in Qin Chen's body suddenly soared and reached the peak of strength. Every earth sage origin was close to perfection, and it was stained with a golden light.

The countless earth saint origins in Qin Chen's body began to condense and were rapidly fusing.

Every twelve earth sage origins are automatically combined, evolved, condensed, intertwined, and condensed into an extremely subtle earth sage origin.

The other earth saint breakthroughs only increased the number of earth saint origins in the body, but Qin Chen condensed the earth saint origins in his body into a stronger earth saint origin.

This is a transformation.

And the whole process requires a lot of energy.

Fortunately, Qin Chen had obtained the ancient holy veins, otherwise, just a large amount of ancient holy energy could drag him to death, preventing him from breaking through, and his cultivation would not be able to make progress.

Qin Chen originally had thousands of earthly sage origins in his body, and every twelve sages were condensed together, and it was basically possible to condense hundreds of earthly sage origins.

The tyrannical nature of the earth sage depends on its origin and thickness.

People like Ao Lie and others have thousands of earthly origins in their bodies. And the strips are thick, like chains. As for some of the powers below, there are only a few hundred of them. Qin Chen, who was initially promoted to Earth Sage, had hundreds of them, and his roots were extremely thick. Later, he broke through the early peak of Earth Sage and condensed to a thousand, so he could compete with Xue Wudao. Now, Qin Chen has thousands of them. The origin of the earth saint begins to change

, Condensed into 108, became even more terrifying.

However, Qin Chen was of course not satisfied that he had only a few 108 Earth Saint Origins, so he swallowed all the peerless true dragon pills into his body.

Each peerless true dragon pill contains thousands of powerful peerless true dragons of the earthly origin, and even the power of these peerless true dragons.

Qin Chen swallowed so much at once, how terrible?

"I want to be the first person of the holy land! I want to gain more powerful power! God help me! I want to seize everything, and I want to become the master of the heavens."

Qin Chen fiercely absorbed the ancient holy veins and blended into his body, and countless holy qi evaporated and burned, serving as the source of strength for the transformation of the earthly holy origin.

The medicinal power of that peerless True Dragon Pill, the origin of the earth saint, was directly refined by him and integrated into its origin.

Boom boom boom!

Qin Chen's cultivation base that had been stuck at the early peak of Earth Sage finally began to loosen.

The terrifying ancient holy veins in the jade disc of good fortune in the universe, when the powerful force is continuously supplied to make Qin Chen transform into the origin of the earth, there is no worry that the holy energy will be exhausted.

Crackling!

In Qin Chen's body, all the earth saint origins, all combined, turned into a more powerful origin, the meridians in the body were emptied, but the medicinal power law of the peerless true dragon pill was continuously added in.

Roar! Roar! Roar!

Qin Chen's whole person, crawling on the jade disc of good fortune in the universe, looks like a dragon but not a dragon. Like a beast, not a beast. It's not human.

Above his head, countless sources of power were spinning, and these all became the power in Qin Chen's body.

His body is undergoing transformation.

Moreover, the Sky Patching Hammer was also stimulated, suddenly bursting out with a shocking light, countless runes flickering, tempering his body, making Qin Chen's body rise at an astonishing speed.

Moreover, Qin Chen also used the Heavenly Soul Forbidden Technique at the same time, and Qin Chen's substantive soul power had also undergone transformation.

Boom!

Qin Chen stood upright, his hands intertwined with runes that no one could understand, and the infinite power merged into his body.

He seems to have seen his own destiny, but he runs the origin of time and obscures his own destiny. His destiny must be controlled by himself.

With his hands tearing apart the void, he chose the most powerful path in the fuzzy future.

The way of the supreme strong.

The strong will not listen to fate, they will break fate, give the strongest note, and open up their own path. At this moment, Qin Chen felt his destiny in a real sense and began to control his own destiny.

Boom!

In his body, countless sacred origins were circulating, and all the ancient holy energy was transformed into the power of the origin, echoing the five secrets in his body.

In addition, various flame forces swept across Qin Chen's body and also got transformed.

It was as if some shackle broke all at once.

Qin Chen stood up quickly, his eyes opened, and endless rainbow light burst out.

At this moment, finally broke through the middle of the earth saint. A breath of control over the world swept through Qin Chen's body.

[Chapter 2572: Life](#)

"In the mid-earth sage, did I break through the mid-earth sage?"

Qin Chen stood up and clenched his fists. Suddenly, terrible power condensed on his fists, and a violent storm of righteousness formed in the entire world.

"It's no wonder that the holy level is one day at a time."

Qin Chen was shocked to feel the power of his whole body. Although he had only stepped from the peak of the early earth sage to the middle earth sage, it was only a small level improvement.

But it was this small realm that made Qin Chen clearly feel the skyrocketing behavior of his power. If he meets Xue Wudao again, he has absolute certainty and is not afraid of the other party.

"Are you peerlessly holy?"

Qin Chen's eyes were cold, and with a cold snort, he suddenly appeared outside the Universe Jade Plate.

"I have been in retreat for about five months. In this way, three days have passed from the outside world. During these three days, I don't know how City Master Ao Lie is exploring."

Qin Chen put away the restraint under the cloth, and began to fly through the inheritance of the Demon Sage, looking for Ao Lie and others.

at this time.

Ao Lie and others have come to the deepest part of Yan Luo's secret realm.

Huhuhu!

The strong Yama demon energy swept through, and Ao Lie urged Noah's Ark to explore in the Yama demon energy.

"Father, three days have passed, and there is no news about Qin Chen. There is nothing wrong with him, right?"

Ao Qingling was worried. For three days, they searched for Qin Chen and explored the secret realm of Yama. Naturally, they also gained some gains, but Qin Chen's traces were never seen, and it was inevitable that they were a little worried. "Daughter, don't worry, Qin Chen, a person with great fortune,

will not fall so easily. Moreover, we have been very close to Xue Wudao. If they find Qin Chen, we will definitely feel the movement. But now,

There was no movement at all, obviously they didn't find Qin Chen either. "

Ao Lie couldn't help but exclaimed, "That kid, he can hide, and he doesn't know where he went. He is carrying a lot of treasures. Couldn't he find a place to practice?"

Practice?

Everyone was stunned, cultivating in this Yama secret realm, it was too wasteful. What's more, they had also obtained some treasures before, among them there were two unparalleled earth pill. This kind of earth pill was very terrifying. After taking it, the body would change and it would inevitably cause great movement. If Qin Chen was practicing, Impossible not

Was found unless he hid in an extremely secret place.

"What I am worried about right now is not Qin Chen, but the weirdness of this Yan Luo secret realm." Ao Lie frowned as he looked into the distance.

"Weird?" "Yes, don't you think it's weird? This Yama Secret Realm is a base camp of the ancient Yama Demon Clan, and, not long after it opened, we are considered the first people to come in, regardless of the Yama Demon Clan. Why did it fall back then, such a place

How can there be no treasures? Ao Lie said solemnly: "However, in these days, except for the cave that Qin Chen looted, there is an ancient holy vein and an amazing pill. In other places, the treasures we have successively found are fundamentally Not much, this is too inconsistent

The identity and status of the Yan Luo Demon Race has been combined. "

Everyone can't help but nod, and it's very true that the number of treasures here is too small, and it doesn't meet the level of the Yan Luo Secret Realm. How can a middle-level demon only have such a thing?

"Besides, I'm also worried about a problem."

Ao Lie squinted his eyes, "Where have the people of the Soul Fire family gone?"

"This....."

Everyone was horrified.

Yes, what about the people of the Soul Fire family?

Ever since the inheritance of the grand gathering of Cangxuan City was over, the people of the Soul Fire family have disappeared, there is no movement at all, and they have not even seen it until they enter the Yan Luo secret realm. This is too weird.

Others may not think it is weird, but Ao Lie and the others know it better. The soul fire family Li Dongyu and the others are here this time, the goal is this Yama secret realm, would they not come here?

"So, I suspect that the people of the Soul Fire family should be in this Yan Luo secret realm, but they have gone to other places, and I don't know it at all." Ao Lie's eyes were gloomy.

This is a big problem.

If people from the Soul Fire family really come, but are not here, what does it mean? The other party is very likely to know some secrets here, otherwise the two parties would have run into it long ago.

However, Ao Lie and the others couldn't understand that it didn't take long for the people of the Spirit Fire family to get the news of Yama's secret realm, so what secrets could they know?

And when Ao Lie and the others were careful to guess.

In the deepest place of Yan Luo Secret Realm.

Ao Lie was worried about the soul-fire family members, but stood with a group of people in black from Wukong Organization in this weird place.

It was very empty here, and even Yama's demon energy was very thin. A group of masters stood here, and the people in black without empty organization threw out black magic disks one after another, as if they were laying out something.

"Brother Destiny? Are you sure there is a legacy of Demon Sage here? Peerless treasure!"

Du Luo Xin frowned as he watched the leader in black desperate.

They entered the secret realm of Yan Luo. Under the leadership of the Wukong organization, they did not meet with Ao Lie and the others, nor did they search for the surrounding treasures, but came directly to this mysterious place to arrange.

For a whole whole number of days, they didn't have any rest, and they were all setting up a large array, which naturally made Du Luoxin and the others anxious.

If the intelligence of No Air is false, then they may have to return empty-handed.

"Brother Poison, can't you believe in the intelligence of our No Space Organization?" The leader in black desperately glanced at Poison Luo Xin, "Don't worry, our No Space Organization has searched countless ancient cheats and searched a lot of information. It's out, this demon saint treasure left by the Yama demon clan back then is very likely to be here

, Ao Lie and the others searched for only the outer treasures. This is the core place of the Yan Luo Demon Clan. Compared with this, the outer treasures can only be regarded as rubbish. "

"hiss!"

Du Luoxin took a breath of air-conditioning. The treasures outside can only be regarded as rubbish. This is a big tone of empty organization. However, poison Luo Xin knew the terrible nature of Wukong Organization, and in just a few days, he found out a lot of Qin Chen's intelligence. This ability is by no means comparable to that of his soul-fire family, and now even the secret realm of the ancient demons possesses a treasure. , Even Zhibaosuo

I can inquire about it on the ground, I am afraid that even Ao Lie, who was the first to find this place, has no idea.

This kind of method is simply perfect, so how can Du Luo Xin not be shocked?

This organization is too mysterious and terrible.

"It's okay." At this moment, the man in black suddenly raised his head desperately, and saw that the entire area was surrounded by countless magic disks. These magic disks were quickly activated, and the black magic lights quickly merged together. It turned out to be a very complicated magic pattern.

[Chapter 2573: Patch the sky](#)

"This is... the Mark of the Demon Race?"

Du Luo Xin said in surprise.

"That's right." The man in black desperately sneered: "This mark of the Demon Race was found by our organization from an ancient book of ancient times. It is the key to unlocking the treasure of the Demon Sage of the Yan Luo Demon Race."

When the voice fell, a strange light flashed in the black man's desperate eyes, and he stretched out his palm, palm facing down.

No one could see that a special magic stone appeared in his hand, the magic stone shining light, and a complex black pattern was outlined on the desperate palm.

"The ancient secret store, open it."

boom!

Desperately slapped to the ground with a palm.

At this moment, Qin Chen, who was comprehending Yama's devilish energy, quickly went deep into Yama's secret realm, his mind suddenly throbbed, and an unprecedented sense of crisis appeared in Qin Chen's heart.

"That is....."

Qin Chen's heart shrank suddenly and suddenly raised his head. He mastered the rules of the Demon Race and could feel that in the depths of this secret realm, there seemed to be some terrifying aura that suddenly leaked out.

"Go, go over and take a look."

boom!

In the face of the crisis, Qin Chen did not retreat but moved forward, thunder surging on his body, and with a bang, it turned into a void of thunder, rushing toward the depths of the secret realm, disappearing into the world in the blink of an eye.

Not only Qin Chen, at this moment, Ao Lie, Xue Wudao and others also felt the terrible breath one after another, and each one looked deep in shock.

Boom boom boom!

At this moment, in the depths of the secret realm in the distance, there was a deafening roar suddenly, like the angry roar of countless behemoths. Boom, between the heavens and the earth, all the demonic energy of Yama was violent, and I saw the terrifying demonic energy of Yama, all over the secret realm, as if attracted, madly swept to the place where the roar passed, and disappeared quickly. One and two net.

The devilish spirit of Yama has disappeared?

Everyone was shocked to look at the depths of Yan Luo's demon qi, and the earth cracked a huge gully like a galaxy, a black magic light, with the aura of extinguishing everything, soared into the sky.

With the shining of the black magic light, the world was distorted and the void shattered. From the cracks in the dark and icy void, there was a shocking suction of death.

At this time, Qin Chen looked at the destruction energy that passed through the sky and the earth in the distance, and his heart throbbed. He felt that if he was swept by this terrifying destruction energy, he would be wiped out in ashes in an instant, and his soul flew away.

"This is... Demon Sage breath."

Qin Chen was shocked, and the inheritance of Mending Heaven Palace gave him a deep understanding of everything in the heavens. This kind of aura was clearly the demon saint aura recorded in the Mending Heaven Palace inheritance.

"Could it be that something unexpected happened to this Yama secret realm?"

Qin Chen's heart throbbed, and his figure shook, and instantly turned into a stream of light, rushing towards the black light.

"what is this?"

In the Secret Realm of Yan Luo, Ao Lie and other masters in the four major cities also felt this breath, raised their heads one after another, looking at the horrible scene in front of them, making a dull voice.

They urged the warships and ancient boats to rush to the place where the black magic light is.

At this time, Qin Chen came first and was already approaching where the magic light was.

Hum!

His tyrannical soul power spread out quickly.

Soon, the scene before him shocked Qin Chen.

In front of him, the earth cracked a gully that was tens of thousands of miles wide, and the black magic light burst out from it, and the power of taboo terror to exterminate all was enveloped tens of thousands of miles.

This force seems to be able to wipe out everything in the world.

However, in this dark magic light, Qin Chen actually saw some figures. "It's from the Soul Fire family, and there are a group of weird people in black. It's strange that these people in black have never seen them before. How can the aura on them be so weird? It's a bit like the unspace organization master who assassinated Ao Qingling before. , Is it a non-space organization

People? In that case, the people of the Soul Fire family and the people of Wukong Organization united?"

Various ideas emerged in Qin Chen's mind.

But, how could the people of the Soul Fire family be safe and sound under such a terrifying magic light?

Qin Chen stared at it, and immediately saw that the soul fire family and these people in black were haunting Dao magic patterns, and under their feet, there was a magic formation rising, forming a strange pattern.

"This is... the Mark of the Demon Race, the Enlightenment Great Formation. Could it be that these people in black and the people of the Soul and Fire family made this emptiness, but how did the people of the Soul and Fire family know that there is such a horror hidden here? Stuff?"

In Qin Chen's mind, various thoughts and speculations.

After the endless magic light soared into the sky, it quickly dimmed, and a huge underground gap appeared below.

"this is....."

Du Luoxin and the others saw the scene below, countless demonic energy surging, exuding an astonishing aura, that kind of aura actually suppressed them on the soul level.

Pedal.

All the people of the soul fire family had their bodies undulating, and under this breath, their bodies trembled.

What treasure is there? The breath that came out made them so throbbing.

"How? Brother Poison, I just said there are treasures here?" The man in black gave a desperate sneer. He shot, and immediately, the countless magic disks that were originally arranged were broken and turned into nothingness: "These things can't be allowed. Others have seen it, so we don't need them to be prepared, let's go down quickly, or else

Everyone will be there, eh? "

Suddenly, desperately raised his head suddenly, his dark eyes looked towards the endless void.

"Brother Destiny, what's the matter?" Du Luo Xin took a deep breath and turned his head.

"Nothing, it seems that someone is spying on us." Desperately frowned.

"Spy on us?" Du Luoxin sank his heart, but did not feel any abnormality: "It should be your perception wrong, right?"

"Perhaps." The man in black desperately was also a little uncertain. He turned around and said, "Let's go."

Whoosh whoosh!

Suddenly, streamers quickly swept into the gap and disappeared.

Not long after they left.

Huh!

A stream of light fell, it was Qin Chen.

Although Qin Chen lags behind Ao Lie and the others because of the progress of cultivation and exploration, but because he felt the change here earlier, he rushed ahead of Ao Lie and the others.

He bowed his head and looked deep into the crack.

Below, countless demon qi surged, obscuring his sight.

"Heaven Soul Forbidden Technique."

Hum!

Qin Chen suddenly opened a vertical eye between his eyebrows, and suddenly a terrifying soul power lingered down.

However, the magic light power below is too strong, even Qin Chen's soul power cannot be broken.

"The Art of Patching the Sky!"

Qin Chen urged the sky-repairing technique, and immediately, countless magic light structures were decomposed under Qin Chen's soul and became extremely clear.

"Sure enough, the sky-filling technique left, even the magic light breath can be resolved and penetrated." Qin Chen's expression was joyful, and his heart was shocked.

[Chapter 2574: Demon Sage Corpse](#)

Now, Qin Chen finally understands the power of the sky patching technique.

This fascinating school can spy on all things in the world and decompose everything, which can be called abnormal.

call!

Qin Chen's soul power has been penetrating down, but this huge gully seems to extend to the deepest part of the earth, as long as tens of thousands of miles.

Qin Chen pushed the soul power of the Heavenly Soul Forbidden Technique to its limit. Finally, Qin Chen's gaze penetrated 100,000 miles underground. Although his vision was blurred at this time, Qin Chen still saw something that made him feel unbelievable. thing.

"this is?"

Qin Chen's breathing fluctuated.

In his field of vision, a huge outline of the palm appeared, and beside the palm, there was clearly a body.

However, the size of this palm alone is so huge and shocking, let alone how big the body is.

"How big should this be?"

Qin Chen stood still, taking a breath.

Under one hundred thousand miles underground, there was a body lying, and the size of this body could not even be estimated by Qin Chen's soul power, maybe a million feet, ten million feet...

Demon Saint Corpse!

For such a huge body, Qin Chen could only think of this possibility.

Moreover, the aura exuding from this body made Qin Chen throbbing extremely, but the aura of the Holy Master he once felt in the Forbidden Land was exactly the same.

Lord of the Demon Race!

In the depths of this Yama secret realm, a body of the demon saint master was buried.

Such a scene made Qin Chen not shocked.

However, the power of the body of this demon clan saint master seemed to have been exhausted.

Qin Chen clearly felt the horror of the Saint Master powerhouse. Although his cultivation base had broken through to the mid-sage stage, facing the Saint Master powerhouse, the opponent might make him fall with a single look.

But this body, although its breath is throbbing, but the power contained in it is not strong. Obviously, in the endless years, the power in the body of this demon saint master has almost been exhausted.

Think about it, if it was the corpse of the demon saint master during the victory period, who would dare to enter? I am afraid that if the Heavenly Sage powerhouse enters rashly, it will fall.

However, how did the Wukong organization and the Soulfire family know that there is a body of the demon saint master here?

Looking at the previously arranged formation, the opponent obviously came here to set up a large formation at the very beginning of the secret realm opening, unlike the search found.

Could it be that the Soulfire Family and Wukong Organization have additional information?

Hum!

Qin Chen's eyebrows pierced, and an invisible ripple appeared again.

His eyes swept toward this demon corpse.

"It's so complicated and advanced. Although it's just a body, it's like a god, and it makes people surrender."

Qin Chen originally planned to analyze this body.

However, Qin Chen's scalp was numb when he saw the aura and magic structure on the corpse of the demon saint master, he was completely confused about his thoughts and did not know where to start to understand.

Although the technique of patching the sky is strong, Qin Chen's cultivation is too weak. With the cultivation of the earth sage, how can he fully analyze the power of the holy master.

Unable to thoroughly analyze the power of the Holy Master, Qin Chen bowed his head again, and passed through the earth and the magic light power, penetrating a distance of 100,000 miles, and looking to the deepest part of the earth.

Although Qin Chen's soul power can penetrate the magic light and the earth and see the scenery under the earth 100,000 miles, what he can see is very limited and the scene is blurred.

But even if his vision was blurred, Qin Chen was already very satisfied.

You know, even the first to enter the soul fire family, it may not understand more than he now.

"This is the head of the demon saint master!"

Qin Chen's gaze swept away, and it was difficult to penetrate a large number of obstructions, relying on many fuzzy scenes to guess.

And the head of this demon tribe saint master is so huge that it is unimaginable that there will be such a huge race in this world.

Is the demons born so terrible? Or is it an acquired form?

Qin Chen stared at the head of the demon saint master, and in his eyes, strange runes flickered, filling the surface of Qin Chen's eye pupils.

At a certain moment, Qin Chen's soul light faintly penetrated the surface of the head of the demon saint master.

"Inside, there is movement!"

Qin Chen couldn't believe it, and said in horror.

The taboo power that broke out before can easily kill a master like him, not to mention the terrifying power contained in this holy master's body, it is absolutely more terrifying.

But now, Qin Chen felt the movement in the head of the corpse of the Holy Lord.

"impossible!"

Qin Chen shook his head.

The holy lord of the Yama Demon Race had already fallen, otherwise, he would not be so indifferent, and there would be no breath of life in him.

In other words, the corpse of the demon saint master is definitely dead.

What is the vague movement Qin Chen saw just now?

Peerless soldier? Treasures of heaven and earth?

Qin Chen was excited, curious and longing for the corpse of the demon saint master that was 100,000 miles underground.

"The terrifying power of the demon saint is gradually weakening."

Qin Chen witnessed the emergence of this demon saint inheritance power with his own eyes.

At this time, the magic light power surging on the body of the demon clan saint master was obviously much weaker than it was at the beginning.

"It seems that the power of this demon saint is gradually disappearing, and it should be possible to enter and explore, otherwise the soul and fire family and the people of Wukong organization will not break in."

Qin Chen thought about it, suddenly, from a distance, there were waves of waves.

"It's from a few big cities!"

Qin Chen frowned. He didn't want to meet these people for the time being.

"go!"

Qin Chen's figure shook, and with a sneer, it turned into a thunder light, and instantly swept towards the corpse of the demon tribe saint master below, disappearing.

At this time, Ao Lie and others also appeared in the cracks in the ground one after another.

"How is this going?"

Everyone looked at the huge gully that suddenly appeared in front of them, and felt the incomparable power that filled the gully, and their hearts trembled.

In the secret realm, how could such a terrifying demonic power suddenly surge up.

Moreover, all Yama's devilish energy has disappeared, and they don't need to stay in the battleship at all. Even the strong men in the early days of Earth Sage don't have to fear the environment here, they can walk as they wish.

This seems to be a good thing, and it makes these people more vigilant.

"There seems to be something under this secret realm."

Fengyun City Lord headed against the wind, his face was gloomy, and his eyes flashed with cold light.

On the other side, City Lord Xue Wudao and Ancient Language City Lord Gu Liushen also stood in the air, a terrifying spiritual coercion, powerful in all directions.

Opposite them, it was Ao Lie, urging Noah's Ark with a vigilant look, and endless terrifying power surged through his body.

But at this time, they all looked insignificant compared to the breath emanating from this crack.

"Go, go down!"

Boom boom boom boom!

The masters of the four major cities, there is no time to fight each other at this time, but one after another urges the treasures into the cracks. The endless magic light slowly disappeared, and they went deep into it.

[Chapter 2575: Devil Cave](#)

Ten thousand miles.

Thirty thousand miles.

Fifty thousand miles.

The magic light here is very strong, but it carries a kind of coercive force, but it will not cause them harm, which also allows them to enter the depths of the earth more freely.

The deeper you go, the more fearful you are, because the breath radiating from below is even more terrifying.

Finally, they came to the deepest part of the earth.

"hiss!"

After seeing the huge corpse traversing below, the people in the four major cities couldn't help but breathe in air-conditioning.

"Is this breath the corpse of the holy master of the Yan Luo Mozu?"

Everyone changes color.

They all know that this is the base camp of the Yan Luo Demon Clan. Once, there was a strong demon saint sitting in the town, and even the rules of the saint lord were haunting, otherwise they would not call it the demon saint treasure.

But now, when he really saw the corpse of the Demon Race Holy Lord, he couldn't help but be shocked and shocked.

Holy Lord?

Supremacy, in charge of the party, these peerless sages are in the city of Yunzhou, flaunting their might and slamming Fang Yao, but everyone knows that the entire Guanghan Palace is truly supreme, and only Palace Master Guanghan is the only one.

Just because the Lord Palace Lord is the real powerhouse of the Holy Lord.

Huh!

In an instant, everyone's breathing became heavy.

Although they are not demons, they also know how terrifying the corpse of a demon saint master is, such a treasure, even the strong saint master must be tempted.

As long as they get the corpse of the holy lord and the treasures inside, they still worry about not breaking through the holy sage?

"There is a gap here!"

"Go!" Everyone couldn't help but rushed down. Suddenly, on the huge Demon Saint corpse, they saw a ravine. These ravines were definitely blasted out by that battle. Even, it's the true death of the demon saint master

Because of where.

What kind of strong man can blast such scars?

Everyone couldn't understand it, and didn't have time to think about it. People from the four major cities rushed into the gap in front of them.

As soon as they entered the body of the demon saint master, everyone found that the demon saint master's body was like a magical space, extremely vast, and countless passages were standing horizontally, extending for nowhere.

"Intrinsic Caverns!"

Ao Lie and the others were shocked.

This is a method only possessed by the Saint-Master level powerhouse. At this level, the control of space has reached an extremely high level, and it can form its own heaven in the body.

What kind of method is this? Even a peerless earth sage like Ao Lie must be shocked and throbbed by it.

"go!"

After the people of the four major cities entered the body of the Holy Lord, they each faced a passage and rushed in instantly.

Ao Lie urged Noah's Ark, only to see that the body in the main body of the Yama Sage had turned into a hard crystal wall, which contained the terrifying demon aura, and the power that escaped was magnificent and profound.

Fortunately, the Lord of Yama has fallen for countless years. Although the coercion is terrible, but the power has been lost seven or eight eighty-eight, otherwise, these holy masters' demon energy alone can corrode and annihilate Ao Lie and the others. "Everyone, the body of this demon saint master is very mysterious. The space inside is stacked on top of each other. I don't know how vast it is. I don't know how wide I am. I don't know when I will find it. It's better to act separately. Notice,

Of course, be careful. Although there is no erosion of Yama's devilish energy here, it may not be without risk. Moreover, once you encounter people in other cities, the other party will definitely hurt the killer when they see the order. Therefore, you must be careful and careful. "

Ao Lie made a decision quickly.

"Yes, Santo!"

Suddenly, many Cangxuan City Di Sacred Late Stage powerhouses walked out of Noah's Ark, followed the surrounding channel crystal walls, and quickly deepened.

"Daughter, let's go too."

Ao Lie urged Noah's Ark to perceive the breath in front of him, and found a passage with the most terrifying breath, and quickly went deep.

At this time, Qin Chen was also in the body of the Yama Sage Lord, moving forward quickly.

In the surroundings, a faint demon energy lingered, extremely pure, and in the process of flying by, Qin Chen quickly absorbed these demon energy into the jade disc.

These are the devil qi of the holy master level, and the power and aura contained in them are simply an excellent supplement for those who practice the magic way.

Moreover, the body of the Yama Lord is also a treasure, and any piece of flesh and blood contains amazing demonic energy.

It's a pity that the structure of the corpse of the Holy Lord is very complete, and the crystal wall is extremely hard. Qin Chen tried to make a move, but he didn't even have the ability to scratch the crystal wall.

This shows how terrifying the Holy Lord is. A demon saint master who has fallen for so many years has almost exhausted his body's aura. Qin Chen made an all-out effort, but he couldn't hurt the opponent's body. I am afraid that only a strong heavenly sage can destroy this corpse. It's horrible

.

Flying all the way, Holy Master Qin Chen absorbed a lot of devilish energy, but none of the treasures were obtained.

"If I guessed correctly, the most terrifying treasure in the body of the Holy Lord is definitely on its head."

Qin Chen had felt the fluctuations in the head of the corpse before. From this, it can be seen that there must be treasures in the head of the corpse of the demon tribe saint master.

However, Qin Chen relied on intuition that there were other treasures in the body of the demon saint master. The space inside this body is composed of countless tunnels and space barriers. In some places, there is still a large amount of devilish energy remaining, which is extremely dangerous, but after Qin Chen realized the demon reincarnation formation, he also had a lot of understanding of the devil energy of Yama. Use it

, Like a fish in the water, it seems that the entire body of the demon clan's holy master is like his mountain gate, free and easy.

Afterwards, Qin Chen's soul power diffused out, and he could perceive dozens of channels around him, but because the demon saint aura here was too terrifying, his soul power could not penetrate too far.

"Well, in which passage, there seems to be a faint magical law flickering!" Suddenly, Qin Chen's soul perceives a seemingly unremarkable passage, and he has discovered the clue. Jin Yan burst out and burned in the crystal wall. After a while, there was a bang, and it was empty.

The time collapsed, and a cave appeared unexpectedly.

This cave has no barriers, it is just blocked by a piece of devilish energy.

In the devil qi, the terrible demon saint aura drifted away, eroding the bones and annihilated, but Qin Chen didn't care, urging the universe to make the jade disc, the devil qi disappeared one after another, entering the universe and being taken away.

As soon as the demon energy disappeared, one by one demon soldiers appeared in it. The violent power shook this space, and all kinds of light rose up into the sky, shaking the sky and the earth.

These visions are all transformed by these magic soldiers.

"Get rich!" Qin Chen jumped up when he saw it.

[Chapter 2576: Crystal Ganoderma](#)

Qin Chen was in this cave, faced with many Yan Luo Demon Clan demon soldiers, suddenly burst out his breath, suddenly burst in time and space, and countless visions were suppressed.

The entire cave appeared intact, like an internal organ of the Lord Yama, with a honeycomb-like space in it, and in this space, dozens of magic soldiers were suppressed with a series of talismans.

"Here, is the kidney of the Five Secrets located?"

Qin Chen felt the aura around him, thoughtfully, his attention was focused on the dozens of magic soldiers in front of him.

Those dozens of demon soldiers are extremely terrifying. They are demon soldiers of the Heavenly Sage level. This is natural. With the strength of the Yama Sage Lord, the demon soldiers below the Heavenly Sage will not be regarded by it. .

And these magic soldiers are entwined with the terrifying Heavenly Sage Law, strong and weak, and of different ranks. Among them, most of them are top-level magic soldiers, exuding magical energy, such as one of the mace and the spikes of wolf teeth, which are like the teeth of ancient beasts, engraved with magic patterns, which form a magic array, and Nourished by demonic energy,

The terrible atmosphere of magic soldiers continued to be emitted, and the surrounding areas were dyed in pitch black.

But the lethality is indeed amazing.

The so-called magic weapon is actually the same as the holy weapon, except that it differs in materials, refining methods, and attributes, but the essence is actually the same.

Since the clone entered the abyssal demon secret realm and cultivated the profound meaning of the abyssal demon clan, Qin Chen had a more thorough understanding of the demon clan.

magic!

It's just an attribute, there is no distinction between good and evil, just like darkness, darkness has no good or evil, no good or bad, it just depends on the user.

Of course, because of the attribute of devil qi, it is more explosive and can confuse the mind of the martial artist. This also leads to the more cruel and cruelty of the people who practice magic arts, and naturally everyone else shouts and beats. Although these magic weapons contain endless magic energy, once they are refined, they can naturally be used by human warriors. However, because of the different power attributes, if they are not completely re-refined, their power cannot be fully released.

Just come out.

Just like the green demon sword, it is clearly a treasure of the demon clan, but Qin Chen can also use it, sacrifice and refine it, and if he has enough strength, he can control any power in the world.

If Qin Chen had obtained these demon soldiers before, he would naturally be at a loss, but now he has the inheritance of Mending Heaven Palace. As long as the cultivation base is sufficient, any demon soldier can be re-trained.

Moreover.

On the Tianwu Continent, there are Skeleton Rudder Master and Mokara. Even if these demons are not sacrificed, Mokara can also be controlled, which is enough to greatly increase their strength.

Qin Chen counted. There are 36 cavities here. In each cavity, a magic soldier is sealed, including mace, black scale spear, skeleton stick, snake crutch, etc. Extremely evil, not right. "So many Heavenly Sage Demon Soldiers are priceless things. This is the savings of a Demon Sage master. Anything placed in Yunzhou can cause a sensation. Even in the entire Guanghan Mansion, it is a rebellion. My god, I'll charge it first and see if I can

It cannot be sacrificed. If it does not work, it can be sold in exchange for sufficient resources to prepare for future breakthroughs. "

Qin Chen deeply knew how much resources he needed to make a breakthrough, and these magic soldiers would be the resources for his future cultivation.

Boom. He grabbed it with a big hand, and immediately, the terrifying power swept out, and the seals on these magic soldiers swayed quickly, khaka, countless seals broke, hum, one of the magic soldiers was murderous and killed it like a fierce monster. Unexpectedly

Backlash.

"Looking for death!" The power of the Universe's good fortune jade plate bloomed, and Qin Chen urged the profound meaning of the Yuan Mo, and immediately, there was a magic light rising on his body, and at the same time he urged the sky-repairing technique, and suddenly surrendered the magic soldier, suppressed it, and then space A volume of power, instantly transformed into a jade disc

I got involved, and I got into the small world.

Buzzing buzzing...

I saw these more than 30 demon soldiers flying out one after another, lingering demon energy one by one, killing them like crazy. Qin Chen is not afraid. He urges the sky-repairing technique. The sky-repairing technique is the ancient secret method of replenishing the heavens. It sacrifices the weapons of the world. Although the magic weapon contains devil energy, it is also a weapon. He is restrained by the sky-repairing technique. Qin Chen masters the profound meaning of Yuanmo and controls it

He suppressed a large amount of Yama Demon Qi, and he suppressed all the demon soldiers, and all of them were collected.

boom!

After doing all this, Qin Chen was exhausted. If he hadn't mastered the art of patching up the sky and possessed the universe of the universe, once so many demon soldiers were backlashed, the peerless Di Sage would explode.

But now, they were all suppressed by Qin Chen in the Universe World, completely surrendered.

"The harvest is not small, look for it again, and see if there are other treasures. There should be more than this in the main body of Sage Yama. The most important treasure should be on top of its head and head towards the head. It's a bigger harvest."

With a thought, Qin Chen left this cave and swept directly towards the head of the corpse of the Holy Lord.

Along with Qin Chen's continuous upward movement, the devilish energy around him became rich.

Ok?

This kind of richness is even more vigorous than the demonic energy of Yama.

On the way, Qin Chen also felt some breath passing by around him. It seemed that he was a master of the four major cities, but Qin Chen ignored it and swept directly over the body of the Holy Lord.

Qin Chen knew better than the people in the four major cities that the Wukong organization and the Soulfire family had already entered first, and the other party was more purposeful. In case the journey was slow, there might be no hope for the treasure in the head of the Holy Lord. .

"what is this?"

After flying by for a long time, Qin Chen suddenly found a blood crystal-like blood black ganoderma on the crystal wall next to him.

"The powerful aura of the Demon Race, and the aura of the blood of the Primordial Demon Race."

Qin Chen raised his nose and said in surprise.

"Could this be a trace of the faint blood left behind in the body of the Lord Yama after his fall, combined with magic power, and bred precious materials?"

Qin Chen slowly guessed it.

This crystal-like blood-black Ganoderma lucidum is not connected to the whole body, as if it had grown out of the day after tomorrow. This kind of ganoderma is a treasure that spans the plant and mineral series, but the blood-black ganoderma in the blood crystals in front of you is undoubtedly more precious. It contains the powerful blood of the Yama demon clan and the rich demon energy of the Holy Lord, and there are many darkness, Blood Austria

Righteous energy.

Moreover, this blood-black crystal Ganoderma lucidum, the Yama demon energy and the power of the demon clan contained in it, is the most terrifying demon clan treasure that Qin Chen has seen second only to the lord of the abyssal demon.

Without saying a word, Qin Chen directly collected this precious material into the universe of the universe.

After taking away the blood black Ganoderma lucidum, Qin Chen also found that the demon energy and demon essence contained in the crystal wall that breeds the bleeding black Ganoderma lucidum are completely equivalent to the top-level demon crystals, much richer than those seen before. Unfortunately, Qin Chen couldn't take it away.

[Chapter 2577: Demon consciousness](#)

"How can the devilish energy in the crystal wall here be so rich, more than several times stronger than the previous place, is this the heart of the Lord Yama?"

Qin Chen's heart moved.

People have the Five Secrets, and so are the Demon Race.

And the heart is the strongest place in the Five Secrets, containing endless blood. If this is the heart position of the Lord Yama, then it contains the blood of the demon race and the strong demon energy, which can also be explained.

"I don't know if there are any treasures here. These Ganoderma lucidum is of great help to the clone and Mokara. They are all treasures." Qin Chen continued to go deeper while guessing, and then unexpectedly discovered that when he took the blood black crystal After putting the Ganoderma lucidum on the jade disc of good fortune in the universe, the spirit worms who had swallowed countless Yama's devil energy and fell asleep before suddenly awoke

Come.

Click!

I saw that these spirit worms, led by the little ants, Xiaohuo and other spirit worms, immediately wrapped the blood-black ganoderma lucidum and began to eat them.

Suddenly, the spirit worms such as Little Ant and Little Huo exuded a heart-palpating breath, and they began to transform again.

"This is... the little ants and the little fire are devouring the blood power of the Lord Yama."

Qin Chen felt the changes in Little Ant and Little Huo, and was shocked.

These spirit worms are simply too abnormal. When they were in the Tianwu Continent, they were able to swallow all things. They thought they had broken through the holy realm. When they reached the heavens, they had already reached their limits, and there would be no progress.

Who had thought that now that even the blood of the Holy Lord could be swallowed, Qin Chen could clearly feel the changes in the aura of Little Ant and Little Huo, a deep and terrifying aura, reviving in their bodies.

"It looks like this blood-black ganoderma has an amazing effect on these strange spirit worms. I don't know how far the ants and small fires will evolve after swallowing these ganoderma."

Qin Chen was shocked.

Unfortunately, this blood black Ganoderma lucidum should be a very rare thing in the body of the Holy Lord.

As Qin Chen thought, he quickly searched the passage.

"There's more here."

"There are also there."

Who would have thought that when Qin Chen flew by, he saw crystal medicinal materials everywhere on the surrounding crystal walls.

"Damn, are these just ordinary medicinal materials bred from this body?"

Qin Chen was a little embarrassed and daring to love. The crystal Ganoderma lucidum, which he thought was extremely precious, was just a very ordinary thing here.

However, this is also good, the little ants and little fire will naturally have enough energy to swallow them.

At the same time, Qin Chen also saw the terrifying power of the Saint Master level.

The bloodline profound meaning contained in the body of the Saint-Master-level powerhouse, even a trace, is enough to bring earth-shaking changes to others.

Whoosh whoosh! Qin Chen flew all the way and quickly collected the blood black crystal medicinal materials around. However, Qin Chen did not deliberately search for other channels. He just went along. If too much time was wasted on these crystal medicinal materials, the gain would not be worth the loss. hidden

There was a feeling that there should be more amazing treasures here.

Sure enough, when Qin Chen flew across this passage, suddenly, the little ants and little fire worms in the jade plate of his universe seemed to sense something, and he would turn around when he was excited.

"Little Ant, Little Huo, do you feel something?"

Qin Chen asked immediately.

"Boss, there is a very powerful energy in it, which is of great help to us."

Xiao Yi and Xiao Huo said excitedly.

"Powerful energy?"

Qin Chen flew forward immediately following the guidance of Xiao Yi and Xiao Huo.

"Old and big heart."

Suddenly, a magic wave hit.

Boom!

A roar, accompanied by a terrifying aura, bombarded Qin Chen.

I saw a black light and shadow rushing out of the fork in the road ahead.

The black light and shadow resembled a human shape, but did not have any five senses. Its body was like a combination of pure heaven and earth energy and many demon secret rules.

Demon?

Qin Chen was startled, there was a demon in the corpse.

However, the demon that Qin Chen saw at this moment was much stronger than the demon he had seen in the cave before, and his body exuded an astonishing aura. It was clearly a demon of the late Earth Sage level.

call!

The blood black demon's body was extremely flexible, and suddenly he waved a palm.

Boom!

The invisible rules of the demon clan and the energy of Yama's demon energy were mobilized by it, condensing a **** black palm, carrying a terrifying and domineering force, and oppressing Qin Chen.

"What a powerful force!"

Qin Chen's face sank, the strength of this demon was even more terrifying than he had imagined. There was a layer of thunder light lingering all over his body, turning into a huge thunder claw, and it suddenly shot out.

Boom!

When the two collided, Qin Chen remained motionless, but the demon only retreated a few steps.

"Awesome!"

Qin Chen's eyes narrowed slightly.

The power of this blood-black demon is only equivalent to the power of the late Earth Sage, but because it is extremely strong, invulnerable, and even painless, the degree of difficulty is much more terrifying than the general power of the late Earth Sage.

If Qin Chen hadn't broken through the middle stage of the Earth Sage, with the strength when he first entered the Yama Secret Realm, this demon alone could cause him big trouble. "The devil is formed by the demon energy of Yama. The demon in the cave was born because the ancient holy veins provided energy to the reincarnation of the demon, combined with the demon energy of Yama, then the demon in this demon corpse, How is it formed? What is it,

Is it maintaining energy? Is the blood of the Lord Yama? "

Qin Chen's heart moved without any pause, and his palm was lightly waved, the endless demon energy in the devil's corpse was stirred up, and a storm of killing swept toward the blood black demon.

Puff!

A group of dark slaughter fists, with the aura of destruction and thunder, exploded on the body of the blood black demon.

"what!"

Facing Qin Chen's attack, the blood-black demon instantly fell into a weak position.

Among them, Qin Chen's power of thunder calamity caused the most damage to the blood black demon.

The ruling thunder formed by the blood of Qin Chen thunder, contains the power to judge everything, and can be called the nemesis of the demons' demonic energy.

What surprised Qin Chen even more was that this blood-black demon was a demon born from the demon corpse. Not only was it powerful at the material level, but at the same time, it contained a trace of weak mind because of the strength of the blood of the demon corpse.

Of course, it is a bit too much to call mind, because these demons are not creatures, they can only be regarded as having some vague consciousness.

call out!

Therefore, it felt that it was not Qin Chen's opponent and immediately fled.

by!

It was the first time that Qin Chen saw a demon that would run away, and he chased him directly. He didn't directly kill the demon, but kept following behind.

Qin Chen believes that the place where such a demon can be bred is definitely different.

Soon, Qin Chen came to a crystal wall cave.

Hum! In this crystal wall cave, there is an unprecedented energy aura, emitting power that makes Qin Chen's heart palpating.

[Chapter 2578: Demon Saint Blood](#)

"Boss, be careful, the powerful energy we felt before is in this cave."

Xiao Yi and Xiao Huo screamed hurriedly.

Qin Chen stopped his figure, his eyes became solemn, and the color of the nearby crystal wall became deeper and deeper, and the gleaming strange crystal was completely different from the previous surrounding crystal walls.

Whoosh!

The blood black demon rushed directly into the cave.

Ho Ho Ho!

Suddenly, in the cave, several shocking roars sounded, and the terrifying breath of the blood of the demon race, accompanied by strong demon energy fluctuations, spread.

Whoosh whoosh!

From the crystal wall cave, ten **** black demon spirits sprang out immediately, each exuding a terrifying aura, staring at Qin Chen all at once.

"hiss!"

so much?

Qin Chen sucked in air. These demon spirits only had the strength of the later stage of the Earth Sage, and they only dealt with one. Qin Chen was naturally not a problem, but suddenly a dozen or so appeared, which immediately brought a lot of pressure to Qin Chen.

"Huh, it's just more than a dozen demons, just about to test Ben Shao's combat effectiveness."

After Qin Chen broke through, he hadn't really fought before, and after his surprise, endless fighting spirit appeared on his body.

Boom!

Without waiting for these blood-black demons to take the initiative, Qin Chen took the initiative to take the initiative. He was like an afterimage, instantly rushing into the group of demons.

Boom boom boom! An astonishing roar resounded, Qin Chen spurred the power of thunder, and his body moved quickly. On the palm of his hand, endless thunder light surged, tearing away toward the front. His attack fell on these demons, blasting them instantly Fly upside down, but soon

, These demons rushed up again.

"Overlord ascends to heaven!"

"Killing Fist!"

Qin Chen used the Thunder incarnation technique to master the absolute degree in a limited space, and constantly attacked the blood black demon.

When the realm broke through the middle stage of the Earth Sage, Qin Chen's power became even stronger.

Moreover, the power of Qin Chen's Nine Star God Emperor Jue can be integrated into the power of Thunder, combined with the rules of space, to explode with astonishing power.

However, these blood-black demon spirits are also extremely terrifying. They are all composed of the blood of the demon saint and the demon energy of Yama. They are invincible. Qin Chen can wound these demon spirits, but he wants to kill them with a punch. Hard to do.

"It seems we have to play some hole cards."

Qin Chen frowned.

"Boss, let us come."

It was just that before Qin Chen took the shot, the little ants and little fires in the jade disc of good fortune of heaven and earth flew up one after another and asked Qin Chen to fight.

"you guys?"

Qin Chen was stunned. These blood-black demon spirits were powerhouses of the late Earth Sage level. Although Little Ant and Little Fire had undergone several transformations, they still seemed unable to match these blood-black demon spirits, right?

"Boss, you underestimate us, just let us out."

Although Qin Chen had doubts in his mind, when confronted by the small ants and the small fire, Qin Chen's eyes flashed, and finally opened the Universe Jade Plate.

Buzzing!

Suddenly, two groups of terrifying black clouds flew out of Qin Chen's body. Little Ant and Little Huo brought an army of gas-devouring ants and fire-refining insects, mighty and excited, and instantly rushed to the front two blood Black demon. A scene that shocked Qin Chen happened. After the little ants and the little fire wrapped the two blood-black monsters, they suddenly made a sound of chewing. These monsters, which were extremely difficult to explode, were eating the air ants and the fire. Refining insects, their gnawing, no

The broken disappearance was completely swallowed by mouthfuls.

After only dozens of breaths, two blood black demons were gnawed clean, buzzing, and the two large legions of spirit worms separated at once, and then wrapped the remaining dozen blood black demons, and continued clicking. Chewing up. Qin Chen was already silly. Although he knew that Qi Devouring Ants and Fire Refining Insects could swallow the aura of heaven and earth, and have special destructive effects on anything constructed from auras, he did not expect that even this blood black demon could Swallow, gnaw like this

Even Qin Chen's scalp numb with the ability to swallow.

"Boss, it's done."

After a while, Xiao Yi and Xiao Huo came to Qin Chen triumphantly, asking for credit.

The dozen or so blood black demons had all disappeared and became the nutrients in the belly of the little ants and little fire.

"go in."

Qin Chen nodded and rushed into the cave.

The space inside the cave is not large, and the surrounding walls are not completely crystallized, but a colloidal substance with slight fluctuations.

In the center of the cave, there is a small blood-colored pool with an abnormally thick blood-black liquid flowing in it.

"What a terrifying demon blood aura!"

Qin Chen felt the breath in the pool of blood, shocked in his heart.

"here is?"

Qin Chen turned his head, he vaguely felt that this should be the heart of Yan Luo Demon Saint's body.

That said, the blood in this pool of blood, is it the blood of Yan Luo Demon Sage?

hiss!

Qin Chen sucked in air, no wonder that such a terrifying demon could be born here, how terrible the energy contained in the blood of a master master would be.

And the terrible energy that Little Ant and Little Huo felt before was also this **** black blood.

"Boss, we can feel that if we swallow this **** black liquid, we can continue to transform."

Xiao Yi and Xiao Huo said excitedly.

Qin Chen nodded, this is natural, the blood of the holy master, let alone the little ants and little fire, is of great use even for the strong heavenly saints, right?

"Come!"

Qin Chen immediately approached the pool of blood and transferred the blood in it to the Universe World.

At the same time, the little ants and the little fire were also sent to the Universe Jade Plate, directly near the edge of the blood pool, opened their mouths, and sucked directly.

call!

Suddenly, a terrifying force poured into their bodies.

Seeing this scene, Qin Chen's eyes flickered, thoughtfully.

Originally, he thought that this pool of blood should be the blood of the Yan Luo Demon Sage's heart. But now, he suspects that this should not be the original blood of the Demon Sage Yama, because the

power contained in the blood of the true Holy Lord is absolutely terrifying. It is difficult for him to even get close. It is impossible to take it away so easily. Ant and small

They cannot easily swallow fire.

This should be the blood of the heart of the Lord Yama. After countless years of divergence, the remaining fluid is not as terrible as the blood of the original heart, but it contains the blood and profound meaning of the Lord Yama, which is equally terrifying.

After all, to be able to give birth to such a terrifying demon, where can this blood go?

"No, someone is coming."

At this moment, Qin Chen felt a wave of energy.

"So strong energy, what was there just now?"

Suddenly, three figures flew over, and suddenly entered the cave.

"What, this kid?" Then, three shocked voices sounded at the same time.

[Chapter 2579: One enemy three](#)

After the three strong men saw the figures inside, they all showed ecstasy.

The crystallized demon corpse caused any crystal matter in the body to hinder the soul. Therefore, the divine consciousness of the strong earth sage was blocked and could only rely on the line of sight, so the situation in the cave was not known in advance.

At this moment, seeing Qin Chen, all his eyes lit up, as if seeing an unprecedented treasure.

boom!

Three terrifying rules and profound powers directly surrounded Qin Chen in the cave.

"Haha, we are so lucky, we actually met this kid."

"It's really nowhere to be found after breaking through the iron shoes, it's all effortless!"

"This son's luck is really good. I got the treasures in the cave before. It is said that there are many outstanding earth pills and an ancient sacred vein. Now, I got the treasures in this cave again. Unfortunately, these treasures are now returned. We are."

The three powerful late-stage earth sages were all extremely excited and besieged Qin Chen, revealing surprises. The three of them came from the three different cities of Tianyue City, Ancient Language City, and Fengyun City. The people from the three cities had chosen different passages and spread out from each other, but they did not expect that the three of them would meet together, plus The three major cities are

Together, the three chose to act together.

Who ever thought that he would meet Qin Chen.

"Unfortunately, there are people from the other two big cities. Otherwise, this kid will be exclusively for me."

There was a trace of depression in the hearts of the three.

There are too many treasures on Qin Chen's body. If it is possible, naturally no one is willing to share it, but now that the three of them have met, they can only join hands.

"People from the three major cities?"

Qin Chen glanced at the three people in front of him, frowning.

Unexpectedly, people from the three major cities have already arrived here, and Qin Chen couldn't help expressing a trace of anxiety in his heart. It can be seen from this that the people of the Soul Fire Family and Wukong Organization are very likely to have reached a deeper place.

Have to hurry up.

However, before that, you can use the late masters of the three major cities to test your own strength.

"Smelly boy, surrender all the treasures on your body obediently and catch them with your hands. I'll wait for three people, maybe I can give you a way out."

Among the three people, an elder from the late earth sage of Tianyue City was the main one. The elder said coldly, listening to Qin Chen with alert eyes. He saw with his own eyes how Qin Chen escaped from Master Xue Wudao. Although this child's cultivation base is not high, his strength is quite powerful, and his defense is extremely amazing. Before, even Master Xue Wudao was evaded by him. If it can

It is naturally better to capture it without a blade.

"What nonsense with him, a small Earth Saint early peak warrior, dare to break in here? Seeking his own death."

A middle-aged post-sage master in Fengyun City sneered.

The master of Old Language City also laughed with disdain.

They had never seen Qin Chen make a move, only knowing that Qin Chen was a warrior at the peak of the early days of the Earth Sage, so naturally they were very disdainful.

"Brother Luo, you watch from the side to see how this seat can take him down."

The middle-aged master of Fengyun City's late Earth Sage sneered, and then the big hand directly grabbed Qin Chen at random.

"Ha ha!"

Qin Chen smiled, and before the palm of the master of the late sage fell, he moved first.

Whoosh!

With a flash of thunder, Qin Chen rushed out.

"what?"

That Fengyun City's late master of Earth Sage was just about to torture Qin Chen in front of him, but he didn't expect that Qin Chen directly rushed towards him.

Hum!

In Qin Chen's spatial thunder body, a layer of azure blue thunder and lightning space domains gushed out, enveloping the masters of the three great sages of the three major cities. After breaking through the middle stage of the earth sage, Qin Chen's spatial attainments and lightning power increased again. Under the suppression of Qin Chen's thunder and lightning pressure, the ordinary earth sage martial artist was like carrying a huge mountain on his back, everything was greatly affected. Suppress this

The late masters of the three sages are naturally no exception, and their bodies all sink involuntarily.

"How is it possible, your cultivation base!"

The elder of the late Earth Saint in Tianyue City was shocked and unbelievable.

A few days ago, he also fought with Qin Chen. At that time, Qin Chen was just a peak warrior in the early stage of the Earth Sage, and although his spatial rules were strong, he could not form a domain that suppressed the late stage powers of the Earth Sage.

Although he escaped from the Lord's hand, he only used his negligence and carelessness to design the escape. In fact, the entire battle was in embarrassment and did not take any initiative.

But now, in just a few days, Qin Chen faced the three late masters of the Earth Sage at the same time, yet he was so strong.

"kill him!"

The elder of the late Saint Stage in Tianyue City sternly shouted at the other two masters beside him, with a trace of badness in his heart.

However, he was just more vigilant. After all, they were the late masters of the Three Great Earth Saints, even if Qin Chen's cultivation base had a breakthrough, the three of them would surely be able to kill Qin Chen together.

"kill!"

The other two masters of the late Di Sage also felt the pressure at this moment, did not dare to despise Qin Chen, shouted sharply, and shot at the same time.

"Fengyun Ten Thousand Worlds!"

The master of Fengyun City condensed his eyes, and the sacred aura of the surrounding world was immediately controlled by him, transforming it into an endless violent strangling power.

"Vientiane Flame Dragon!" The short-haired middle-aged man from Ancient Language City roared, waving his fists, and dyed with a layer of red flames. The power of the terrifying flame turned into a violent flame monster, roaring out like an angry dragon. The surrounding temperature rose suddenly, forming a fiery mass

Yan Lang surrounded Qin Chen.

"Chi Yan points!"

call out!

The old sage of Tianyue City, his eyes burst with terrible light, and he pointed out abruptly. Suddenly, a terrifying beam of flame burst out with red flames overwhelmingly.

Boom boom boom!

The three masters all shot together, and suddenly, the overwhelming flame aura surged into the surrounding space, but they could not cause any damage to the surrounding crystal walls.

"Haha, use fire attribute attack to deal with me?"

Qin Chen sneered, and immediately aroused the three peerless flames in his body.

Boom!

A terrible golden flame emerged from Qin Chen's body, a terrifying aura of tyrannical burning, raging and exploding.

He didn't evade, and even hardly took the attack of these three powerhouses.

Boom boom boom!

An astonishing roar resounded, and a terrifying flame attack fell on Qin Chen. Instead of breaking his defenses, the endless flame power quickly poured into Qin Chen's body.

"Overlord ascends to heaven!"

Qin Chen merged the golden flames of the day with the overlord's ascension, and, in the mood of the overlord's ascension, merged into the killing fist, and then joined the terrible ruling Thunder.

boom! A group of burning flames of thunder blasted out, and Qin Chen's eyes were cold, and he first aimed at the short-haired man in Ancient Language City. The terrifying attack collided with the Vientiane Flame Dragon released by the short-haired man. Suddenly, the dull roar was like thunder. , Resounding loudly in the cave, burst out suddenly.

[Chapter 2580: Test strength](#)

Boom! The Yanlong released by the short-haired man let out a roar, and it fell apart in an instant. It was unable to withstand Qin Chen's attack at all. A terrifying force blasted on him. In fright, the short-haired man was blown into flight. Go out,

When hitting the crystal wall behind him, there was still a layer of red-gold hot flame burning all over his body, corroding and burning.

Puff!

A mouthful of blood spurted, and the short-haired man's eyes were horrified.

"How come? The power of this kid..."

He looked shocked and couldn't believe that his own grand saint late stage powerhouse was simply defeated by a kid like Qin Chen.

Shoo!

And at the moment when the short-haired man in Ancient Language City was blasted into the air, thousands of violent wind and cloud auras pierced towards Qin Chen in the fire wave. It was the strong of Fengyun City that was urging Fengyun Ten Thousand Worlds to make a strong shot.

"Chi Yan is shaking the sky!"

The old man surnamed Luo in Tianyue City also roared, several red seas, tearing open the endless thunder light, launched a strong long-range attack towards Qin Chen, countless scarlet crits, covering Qin Chen's whole body.

"Haha, this is the strength of your three major cities and the strength of the late Saint Stage powerhouse?"

Qin Chen couldn't help laughing.

Hum!

Qin Chen's whole body, the immortal sacred body and the power of thunder twisted together to form a simple thunder light shield, exuding shining light, and the whole body was cast like gold, releasing a terrifying light.

call out!

That thousands of wind and cloud sharp blades pierced Qin Chen's body guard Lei Gang, and was blocked by half an inch deep.

Boom!

The quaint thunder shield surrounding Qin Chen blasted dazzling blue thunder patterns, directly shattering the countless violent wind and clouds.

"what?"

The face of the strong man in Wind and Cloud City changed drastically, his own Wind and Cloud and Myriad Realms, fused with the profound meaning of the Wind and Cloud, are powerful enough to cut the world and destroy the earth. Can't break it?

Damn it!

The face of the old man surnamed Luo in Tianyue City also showed a look of anger, and the power in his body surged crazily, and the terrible red flame beam shot, and instantly hit Qin Chen.

Boom!

An astonishing roar resounded, and an astonishing explosion suddenly occurred in the cave. Amidst the endless roar, Qin Chen was blasted away instantly.

Did it succeed?

The three elders surnamed Luo hurriedly looked in the middle of the explosion, but saw that the endless smoke and dust dispersed, a figure standing proudly in the void, without any injuries.

"what?"

The eyes of the three masters are almost bursting.

The three of them joined forces and attacked with all their strength, but they were unable to break through this kid's defenses. This... a fantasy.

"Interesting? It's a pity that compared to Xue Wudao before, is this the gap between the late master of Earth Sage and Peerless Earth Sage?"

In the smoke and dust, Qin Chen shook his head slightly.

He insisted on the attack of the three people, also to understand the gap between the so-called late master of the earth saint and the peerless earth saint.

What is Peerless Earth Saint? Only those who break through the peak of the late Earth Sage and reach the peak of the Earth Sage can be called a peerless Earth Sage.

It now appears that the gap between the two is indeed very large, and it cannot be based on reason. Before Qin Chen and Xue Wudao fought against each other, under Xue Wudao's punch, the holy yuan in Qin Chen's body was frozen and almost fell. But what about these three late masters? Although the attack was extremely strong, if Qin Chen hadn't broken through, he could still be injured, but

In terms of strength, it was far worse than Xue Wudao's peerless earth sage.

"It was you just now, now it's my turn."

Qin Chen came back to his senses, chuckled, his body flashed with thunder, and a part of the thunder's might swept out instantly.

Boom boom boom!

The masters of the three cities condensed their gazes, and a holy yuan shield hurriedly formed in front of them to resist the thunder attack released by Qin Chen.

boom! The terrible thunder light spread all of a sudden, noisy, the thunder snake roamed in the void, terrifying, and the three masters only felt numb, and the Saint Yuan in the body was almost out of control. They tried their best to take Qin Chen's thunder light. The mighty resistance came down, only to feel

My whole body was paralyzed.

"Your realm has improved so quickly, how can you still have this level of combat power?"

The old man surnamed Luo in Tianyue City was furious. He fought Qin Chen for the first time, but it was only a few days ago. Qin Chen was only the pinnacle of the early earth sage. After a few days, his cultivation level had not changed, but Qin Chen had broken through to the mid sage earth, and the holy yuan was incomparable. Vigorous, the cultivation base has been thoroughly

Consolidate.

His reason was that Qin Chen had swallowed the unrivaled earth pill he had previously obtained in the cave, and forcibly broke himself into the middle stage of the earth saint. This kind of breakthrough requires a lot of time to consolidate his cultivation base, and there is a limit for his strength growth. .

But at this time, the power Qin Chen showed made him feel terrified.

What made him even more shocked was that he seemed to have heard that before the great ceremony of Cangxuan City not long ago, the boy in front of him was not even the Holy Land.

In less than a month, this son has grown from a mortal sage with such terrifying strength. Is this still a human?

"Where is so much nonsense?"

Qin Chen sneered, freeing the space domain, and cooperating with Thunder's profound meaning, to suppress the three powerhouses.

Qin Chen's realm has indeed improved very quickly, but who knows how much resources Qin Chen has consumed and how much Saint Vein power has been devoured in order to improve his realm.

Therefore, although Qin Chen is not as good as the three in front of him at the realm, but at the energy level, he is not weaker than the three at all. It is even worse than the three at the level of energy, and at the level of soul, Qin Chen crushes them even more.

"Two, let's shoot together."

The old man surnamed Luo roared and rushed like lightning.

"Hehe, Soul Storm!"

Qin Chen sneered, and directly spurred a powerful soul storm. After breaking through the middle stage of the earth saint, Qin Chen's soul power increased again, and the use of the heavenly soul forbidden technique was more casual.

Boom!

The terrifying soul power suddenly exploded on the heads of the three powerhouses.

With such a terrifying soul will of Qin Chen, casting a soul storm is enough for the three powerhouses to endure.

"what!"

The three of them screamed in pain, covering their heads, and their consciousness became disorganized.

"The magic cage!"

Qin Chen performed the soul illusion again.

Hum!

For an instant, the old man surnamed Luo in Tianyue City was attracted by the pupils of Qin Chen's eyebrows and fell into an endless maze of illusions.

"This person, Master Ben just happened to be enslaved."

Qin Chen sneered.

At this time, if Qin Chen made an all-out effort, he could completely crush the old man surnamed Luo with an overwhelming advantage, cooperate with the soul attack, and kill him.

But in that case, it wouldn't help Qin Chen at all.

Nowadays, with the power of the three major cities like clouds, coupled with the soul-fire family and the Wukong organization hiding in the dark, Qin Chen didn't believe anyone, so in order to be guarded, he naturally needed to lay a secret hand. But these three people, coming from the three major forces, were an excellent opportunity for Qin Chen.
