

## Valkyrie 2631

### [Chapter 2631: Wan Gu Lou](#)

Naturally, there was also a teleportation formation in Cangxuan City. Qin Chen left the city lord's mansion and instantly entered the teleportation formation and teleported out.

Next, Qin Chen traveled all the way, starting from Cangxuan City, teleporting to the next Lingbo City near Yunzhou, and then to Yindi City...After going through 17 large and small cities, he finally arrived. The city of Yunzhou.

On the way, he didn't know how many celestial sceneries he had experienced, and saw countless powerful men, forces, and various things.

There were even starry sky abysses between some cities, and the turbulent flow of the void revealed the scene of the broken heavens, which surprised Qin Chen.

It wasn't until this time that Qin Chen realized that he was in the celestial realm, a top plane in the cosmic starry sky, a place that had just been broken and was still in the recovery stage.

This kind of long-distance journey made Qin Chen seem to have returned to the scene where he had traveled from the land of hundreds of dynasties to Pill City in the Northern Heaven Region, and went through countless places, Demon Sword City and other forces. This kind of journey was very magical.

If it were not for Qin Chen in a hurry, he would surely move forward slowly to see the scenery along the way.

But now, he only knows how to go.

In this way, Qin Chen rushed frantically, and in about ten days, he had already approached the Yunzhou prefecture.

If it hadn't been for the ancient times, when the celestial top forces had built so many teleportation formations, he would not have been able to reach the Zhongzhou prefecture from Cangxuan City for decades. According to Li Luo's knowledge and memory of the heavens, he has gone through more than a dozen cities and crossed over half of Yunzhou. It is just a tiny corner of the heavens. Although the area of Yunzhou looks vast, it is similar to the entire heavens. ratio

, It is equivalent to a drop of water and a grain of sand in the sea.

Even if the entire Guanghan Mansion is compared with the Heaven Realm, it is just a big river compared to the sea, the gap is too big.

Boom! When Qin Chen came out of the huge ancient teleportation formation in the last city, he saw a magnificent city that appeared in front of him. It was an extremely vast city. In the depths of this city, there were countless spaces and countless streets. ,countless

The holy veins constitute an unprecedented state city.

"This is Yunzhou Prefecture? So vast and so majestic?!"

Qin Chen came out of the teleportation formation and saw Yunzhou Prefecture City, as well as the forces and spaces in the depths of the Prefecture City. The shock in his heart could not be described in words.

There are too many powerhouses coming and going. Compared with Cangxuan City, this Yunzhou Prefecture is ten times bigger, more than a hundred times bigger.

Moreover, there are too many big forces inside, one by one, exuding a terrifying aura, they are all powerful super forces with a very strong appearance.

No wonder the Ao family wanted to return to Yunzhou, and it was indeed much better here than below.

Originally, compared with the ancient bell school, Cangxuan City was already very vast, but in comparison with this place, Cangxuan City was just a small village, while Yunzhou Prefecture was a real metropolis. Moreover, in this state city, there are sacred veins surging everywhere. Under this ground, there is not only one ancient sacred vein, at least ten, no, dozens or more than a hundred, each ancient sacred vein is covered by one Occupied by big forces, very strong

fierce. On the streets of this state city, at first glance, they are all tall buildings with people coming and going. There are the most common sages walking on the ground, honestly doing business, working as slaves, and serving others. There are also superior earth saints, flying in the sky

Come and fly.

There are even more advanced masters of the late Earth Saints who have a good position.

There is no shortage of peerless earth saints, and there is a breath of peerless earth saints in almost any building.

In Yunzhou Prefecture, it is not a peerless holy land, it is simply difficult to establish a long-term power, and it is easy to be destroyed.

Even Qin Chen faintly felt the aura of several half-step heavenly saints.

However, Tiansheng masters are still rare. After all, in the heavens, it's not difficult to half-step the power of the heavenly saints. Some veteran earthly saints who have cultivated for tens of thousands of years will naturally touch a trace of the heavenly saints, but it is difficult to get past this step and become a true heavenly saint, So the Heavenly Sage is very

rare.

"Hehe, boy, it's your first time to come to Zhoucheng, you are coming out soon, don't take up the teleportation formation."

A loud shout rang out, trying to drive Qin Chen off the teleportation formation.

Qin Chen glanced at the person indifferently, and immediately, terrifying power poured into the person's mind, and the person was shocked. He was suddenly confused. Knowing that he had gone, he hurriedly lowered his head and dared not speak.

Qin Chen walked down without expression. The teleportation formation in Yunzhou Zhoucheng was more than ten times larger than that of Cangxuan City. There were tens of thousands of people who came out of the Zhoucheng Teleportation Formation. After the city is bustling, it disappears at once Missing.

Qin Chen felt his own insignificance among the strong men coming and going.

In front of this vast state city, I have a sense of aimlessness. "It's too big. To create such a state city, it will only take countless strong people and countless years of hard work to do it. According to Li Luo's memory, these state cities are all left over from ancient times. Countless years of development before

To the point where it is today. "

While walking in the Zhoucheng, Qin Chen estimated the holy energy and underground holy veins in the city. He discovered that all the holy veins in the underground were blocked by powerful forbidden laws. The ancient spiritual veins like Cangxuan City, intertwined with terraces, were very extraordinary.

Even Li Luo didn't know how many sacred veins were in the ground of Yunzhou Prefecture.

Because there are too many forces in a state city, and more or less control a lot of holy veins.

"If you want to find You Qianxue and the others, you can't just blindly search for them. Anyone who enters the state city is like a drop of water into the sea. You can't find it at all. Even if I search with the power of my soul, it takes too long, too long."

Qin Chen's eyes flashed, and he began to search Li Luo's memory. "My friend, did you come to participate in Guanghan Fu Tiangong's opportunity to recruit disciples soon? Why don't you live in our Wangu Building for cultivation! Watch the changes. Our Wangu Building can provide Tiangong for this assessment. All kinds of information.

"

While Qin Chen was thinking about it, some people suddenly came from not far away, one after another, selling in front of these powerful people who had transmitted, and eagerly wooing the guests.

"Huh?" Qin Chen looked at these warriors. They were all young men and women dressed in uniform, full of vigor and profound wisdom. Their eyes were very powerful, and Qin Chen seemed to ask about this group. Elite figures in the teleportation array. Such characters would be extraordinary children in Cangxuan City, but now they are actually serving as soliciting salesmen in this Wangu Building, which makes people feel full of emotion.

#### [Chapter 2632: Five specifications](#)

"Tianzuo recruit disciples for assessment?"

Qin Chen instantly read Li Luo's memory, and immediately knew that this day's work was a top crafting force in Guanghan Mansion. This force is called Tianjiao, not only in Guanghan Prefecture, even in other provinces, there are also branches of Tianjiao. This force is very mysterious. Even Li Luo's memory does not have much information, only knows This is an extremely

The forces of terror.

Generally, Tian Zuo rarely recruits disciples from outside, at least in Li Luo's memory, there has never been a precedent for Tian Zuo to recruit disciples in Yunzhou.

However, this Wan Gu Lou should know a lot of news.

"Okay, I will live in your Wangu Building."

Qin Chen's soul turned, and once again got the information of the Wangu Tower from Li Luo's mind. This Wangu Tower was also a terrifying force, not unique to Yunzhou.

Rumor has it that Wangu Tower was opened by a mysterious organization in Yunzhou. It has branches in many prefectures, spreading throughout Guanghan Mansion, and has a huge influence. This Wangu Building is not only a restaurant, hotel, but also buying and selling news, sacred treasures and medicines, and establishing various auction sites. Living in this Wangu Building can ensure absolute safety. Even if the Heavenly Sage wants to kill you, you must Wait for you to come out

, And you can also secretly trade countless hidden treasures.

This is equivalent to a replica of Chendi Pavilion, doing all business.

The only difference is that Wangu Building is developed in the form of a restaurant, with a state government and a branch building, which is a dotted branch. But Chendi Pavilion is a fragmentary branch. Moreover, the core business of Wangulou is restaurant and information exchange and the trading of obscure treasures, while Chendi Pavilion is a business of weapons, medicines, formations, etc. Both are in the core business, but also

There are certain differences.

In Wangulou, as long as it is valuable, the other party can take it all. As long as you can afford the price, Wangulou dare to do everything for you.

Even "assassination"!

Because Wangulou will release missions, many experts gather around it, which is equivalent to a dark web information platform, which is very mysterious.

Qin Chen didn't care about this, the only thing he cared about was the intelligence ability of the Wangu Tower.

In terms of intelligence methods, Wan Gu Tower can be said to rank first in Yunzhou. The most important thing is that Wan Gu Tower has sub-buildings in various prefectures, and its influence spread throughout Guanghan Mansion. "I want to find You Qianxue, Ji Ruyue, and Chen Sisi. It is too difficult to rely on Chendi Pavilion alone, because the development of Chendi Pavilion is too slow, and it depends entirely on my ability. When I develop Chendi Pavilion to the entire Guanghan Mansion, I don't know what the year of the monkey is, so I must

I have to rely on external forces, and this Wangu Tower is simply the most suitable for me. "

Therefore, Qin Chen agreed.

However, the price of living in this Wangu Building is not cheap. It costs 10,000 low-grade holy crystals a day, even ordinary holy warriors can't consume it. Among them, the most luxurious VIP room is one hundred thousand low-grade holy realm every day.

You know, at the beginning, Shang Gukong, the ancestor of the ancient bell school, only had two or three hundred thousand low-grade holy crystals on his body, and more than one thousand high-grade holy crystals. This was the wealth he had accumulated for countless years.

Think about it, the ancestors of the small forces of the ancient bell school like Shang Gukong came to Yunzhou Wangu Tower. All the savings would be gone after living in a month. How luxurious?

"Senior, may I ask your surname and name?" When these men and women saw Qin Chen expressing to live in their Eternal Building, they all smiled and their names changed.

However, if they can say that they live in the Wangu Building, they are right to call Senior.

"My name is Qin Chen. This time I came to Yunzhou Prefecture to find out some news. Of course, I am also interested in the assessment of work this day. If there is hope, I would like to participate in the assessment."

Qin Chen said lightly, following a few people towards the Eternal Building.

Qin Chen knew the status of Tianjiao in Guanghan Mansion. If he didn't respond at all when he learned the news, it would be weird. "Senior, since you want to inquire about the news, it is undoubtedly the best choice to live in our Wangu Building. We don't say anything else in the Wangu Building. Any news, as long as the senior can afford the price, it is not good to say, even if the senior thinks. To inquire about Yunzhou

We can inquire about the color of the clothes worn by the main concubine today. "

A young man laughed, confident.

Such words can be spoken casually, which shows the status of the Wangu Tower in Yunzhou and also expresses the ability of the Wangu Tower. However, once these words are said, it immediately loses the structure.

"The color of Yunzhou Prefecture's concubine's obscene clothes? I'm asking what this is for?" Qin Chen smiled coldly, "I really want to ask, that's also the color of Palace Master Guanghan's underwear."

"This this....."

Several young men and women were shocked, all of them without expression. Palace Master Guanghan is a woman. This is something everyone in Guanghan Mansion knows. Qin Chen dares to tease the Palace Master like this. If this word reaches the Palace Master's ears, it will be a discoloration of the world. All of them will be killed by Guanghan Mansion

People put to death.

"Senior, you laughed!" The young man who had spoken before was suddenly in a cold sweat.

"Senior, Wensan means that we can inquire about any news in the Wangu Tower, and, senior, don't you want to participate in the Tianxue assessment? The information about our Wangu Tower is absolutely the most complete and perfect."

Several other boys and girls also had cold sweat on their foreheads and hurriedly explained.

A few people didn't dare to say much, they took the teleportation array in the city, and soon they arrived at the Wangu Tower.

Sure enough, this Wangu Tower was extremely magnificent. It stood in the center of the state city and occupies the most prosperous area around it. Under the ground, the terrifying sacred vein aura surged, and it was incredible.

"Senior, please."

As soon as you enter, the world changes, the space freezes, and you enter into another world, where the holy spirit lingers, auspicious, beautiful, and very vast.

Qin Chen was not surprised that Qin Chen was already well informed. "Senior, this day job recruiting disciples, in addition to the disciples of the refining department, but also recruiting martial artists, your cultivation level, senior, there must be no problem. Once you enter the sky job, your status will be transformed into a dragon. After you come out, even

You can be the leader of the state, be the hegemon of a state, and be in power. "A young woman complimented: "But we still have to prepare first. This time the disciples are recruited. Not only are there people from Yunzhou, but there are even experts from nearby states. But the news of our Wangulou is the most comprehensive. , Just before

As soon as you move in, you will get the most basic information for free, and you will even have a day to work with the examiner's information, but the core information will be charged. "We have five rooms in the Wangu Building. Each room has a quiet room and a training room. The specifications are different and the effect is different. Seniors can check the price. The most basic room is 10,000 lower-grade holy crystals per day. , The higher level is...

..." The woman introduced carefully.

### [Chapter 2633: Magic saliva](#)

"No introduction." Qin Chen waved his hand, "Arrange for me a top-notch guest room, one hundred thousand holy crystals a day."

"What? Seniors want to live in such an expensive VIP room?" Several men and women were taken aback. This is one hundred thousand sacred crystals a day, not ten yuan. Generally, Peerless Divine Saints don't want to live in such an expensive room.

The pride of the boy in front of him shook them beyond description.

"Why? The most luxurious VIP room is gone? Ordinary Ben Shao can't stay." Qin Chen frowned and said.

"No, yes, yes."

Several men and women spoke again and again, joking, how can such a local tyrant let it go.

"It's fine if you have it." Qin Chen nodded, mysteriously, and threw away a storage bag containing 500,000 lower-grade holy crystals: "I will live for five days, and I will visit you later. Intelligence Department, get some information."

"Yes, yes, yes, Senior Qin, we will help you arrange it right away." Several young men hurried away with storage bags, while several female saints leaned forward, very much. Enthusiasm, one by one is ashamed to let go, looks like letting others pick it up, I can't wait to stick it directly on Qin Chen, something different happens

General relationship, get a lot of holy crystals.

One hundred thousand sacred crystals are nothing to Qin Chen, but to these boys and girls, it is an unimaginable amount of money.

Qin Chen remained calm, not being tempted by these women, and directly let these people arrange rooms for him.

The room that spent one hundred thousand sacred crystals for a day is indeed very luxurious and vast, like a huge space, inside, there are all equipment, reception room, training room, quiet room, and the function of one-key calling.

The whole room is filled with a magical fragrance. After people smell it, they feel calm and elegant, and all distracting thoughts are eliminated. Cultivating in this environment can get twice the result with half the effort.

And this scent radiated from a piece of black grease in the center of the room, and it was placed in an array of gold and jade, very noble.

"This is... Demon Saliva?"

Qin Chen was shocked, this Eternal Building is indeed a big deal.

Demon salivation incense is the origin of the demon race. It has gone through a long period of time and is the essence of time, and under the rules of the heavens, it has been tempered and finally formed. The spice inspired by the formation is rumored to be the best fragrance between heaven and earth.

Originally, the origin of the demons was violent and evil, but after hundreds of millions of years, various substances and void rules have evolved, the violent aura in it will dissipate little by little, and eventually, the most perfect source of magic will be formed. .

This kind of demon source must take hundreds of millions of years to form, otherwise, the demon energy that burns out without purification will not be able to quiet the warrior's thoughts, but will have a great impact on the warrior.

Therefore, it takes hundreds of millions of years to form any piece of demon saliva. Many of them are refined from the demon race in the ancient heavens, which is very rare.

And the magical incense in this Wangu Tower is naturally the real magical incense, which can purify the soul and give vital help to the warrior. "It's really generous. No wonder it takes one hundred thousand

sacred crystals a day. Just the cost of burning this magical incense will cost at least one to two thousand sacred crystals a day. There are also various training rooms and services to enjoy. This Wangu Building is really capable of doing it. Business, they built this VIP room

, Really not necessarily to make much money, it is very possible, to establish a good relationship with the top group of people in various places. "

Qin Chen's thoughts turned, and in an instant, he thought of many, many things.

"But it's a pity that this Demon Mouth Fragrance is only refined after the death of an ordinary Earth Saint Demon Clan, and it is not very helpful to me. If it is a Heavenly Saint Level Demon Mouth Fragrance, it would be terrifying. Soul and mind are of great help."

Qin Chen smelled the devil's saliva carefully, and suddenly, his mind became clear, his whole person was refreshed, all kinds of thoughts flickered, and the speed of calculation accelerated a little.

Then, Qin Chen glanced at the training room again.

boom!

In this training room, the endless holy energy surged, and it was obvious that there was an ancient holy vein buried in the underground, connecting this place, and it was the top training room.

However, these holy spirits cannot be absorbed endlessly.

This is natural, after all, it is only one hundred thousand sacred crystals a day. Otherwise, with Qin Chen's absorption speed, he would be able to swallow the room fee back in a few moments. Wouldn't the Wangu Building be a big loss?

"Regardless of this, it's important to find out the news first."

Qin Chen came to the reception room and began to call the staff in the Wangu Building. He lived in the VIP room and could directly let the staff come. For other rooms, he could only go to the special place.

Moreover, if possible, Qin Chen would like to auction some things. The treasures he obtained from the major powers were too many, all sorts of things, and many of them were not available. If these treasures are distributed, it will be too wasteful, but if they are placed in the jade disc of good fortune in the universe, it will be even more wasteful, especially some holy soldiers and demon soldiers, with Qin Chen's strength, the cultivation base will be improved in the future. Refining in minutes

, It is only cost-effective to exchange for the largest resources now. "I can auction some things that I don't need first, in exchange for all the ancient sacred veins. After all, the ancient sacred veins of Yama's secret realm are very precious. It will help me to break through the heavenly sage in the future, and even break through the heavenly sage realm. Peerless Earth Saint,

Can swallow some ordinary holy veins, this is a reasonable way of cultivation. "

"So, after the meeting, I have to exchange for some cultivation resources for me to break through the peerless Earth Saint."

Qin Chen calculated in his heart that he could not make the slightest mistake when he cultivated into a heavenly saint, it was related to the future and destiny of him and the Tianwu Continent.

Every step must be carefully planned and not wasted at will.

"Is Mr. Qin here?"

While Qin Chen was meditating, suddenly, outside the VIP room, a voice filled with gentleness and gentleness came. It was a woman's voice, soft and waxy, which made people feel very comfortable.

"Yes, come in."

Qin Chen said lightly.

Suddenly, the VIP room door opened, and a woman came in curled up. This is a woman wearing a palace gown, plump body, full of charm, majestic, beautiful, the bun on the head, rolled up high, between a curl and a smile, is full of charm, her skin is white and shiny, and her eyes sparkle smartly. , Full of wisdom

.

This woman was actually a peerless Earth Sage powerhouse. Behind her cultivation base, the Earth Sage origin contained in her body was so strong that she was not even weaker than City Lord Ao Lie before the breakthrough. This is a world-famous figure, and a figure of Tianjiao. The Ao family is also a big family before Yunzhou. An ordinary and peerless Earth Sage, there will be no stronger Earth Sage origin and laws than City Lord Ao Lie.

#### [Chapter 2634: How to call](#)

"How do you call it?"

When Qin Chen saw it, he knew that this woman was a high-ranking member of the Wangu Tower, and was not an ordinary service maid.

I should have seen myself living in the VIP room and sent a high-rise directly. This should be the rules of the Wangu Building. "Mr. Qin just calls me Ruorui. I am the director of this Wangu Building. I heard that Mr. Qin wants to know some information. I am responsible for everything." The graceful and luxurious woman in palace clothes smiled. Said: "I wonder if Mr. Qin wants to know

What information? Or do you want those help? "

Obviously, this woman had already inquired about Qin Chen from a few boys and girls. This was also the respect of Wan Gu Lou to the distinguished guests and would not be very reckless.

"Young Master Ben wants to inquire about some information, but before that, I want to do some business with you Wangulou first. I don't know if you can do big business with Wangulou?" Qin Chen said.

"Mr. Qin was joking." Ruorui suddenly laughed, smiling like a flower, not at all uncomfortable. "Our Wangulou is doing all kinds of business. Many peerless Di Sages, and even the seniors of Heavenly Sage,

send their secret items to our Wangu Building for trading. We have several guarantees in the Wangu Building. The first guarantee, any Treasure is here

Nothing will be revealed in the transaction, and the identity of the owner will never be revealed. There is also a guarantee that we can trade any treasure, not only the treasure, but also other businesses. "

"For example, if Mr. Qin wants to assassinate a Heavenly Sage, as long as the price is right, we can also take it down in the Wangu Tower."

Ruo Rui was very confident with her smile.

"I don't need to assassinate people." Qin Chen shook his head: "I don't have any grievances on my body, so I am good at practicing alone. I want to sell some treasures, and I need the ancient holy veins to advance to Heavenly Sage."

"Oh? Mr. Qin also wants to be promoted to Heavenly Sage? The ancient holy veins that are needed are not just one star and a half. It can't be solved by selling a few treasures."

Ruorui's face showed a strange look. She looked at Qin Chen and was surprised when she realized that she couldn't detect Qin Chen's true cultivation level.

But she could feel that Qin Chen was not yet a heavenly saint, but the deep breath of the other party made her feel some inexplicable heart palpitations. This was from a woman's intuition and immediately regarded Qin Chen as a peerless saint.

Under the sky, there are too many peerless earth saints who want to practice and advance to become heaven saints, such as the crucian carp that crosses the river, there are countless.

It can be said that in the entire Yunzhou Prefecture City alone, there are countless number of peerless earth saints, but there are very few who can truly become heaven saints in ten thousand years, and it is very few.

It shows its difficulty.

Some people, who can take such a small step at the last juncture, gain a trace of the heavenly sage, and become a half-step heavenly sage, they are already more than 99% of the peerless earth sage.

Even if she wanted to break through the Heavenly Sage, it was extremely difficult, and there was no hope for the time being.

Qin Chen said that she wanted to break through the Heavenly Sage. She obviously did not believe that the other party could really break through the Heavenly Sage.

"I got some Saint Soldiers, Miss Ruori can help me see, can the price be?"

Qin Chen threw out a storage ring.

Na Ruori opened it to see, and the inside suddenly burst into the sky, showing various colors and scenes.

"What? So much?"

Ruo Rui was taken aback, and saw that the treasures in the storage ring were so numerous that even she was amazed. The most important thing was that there were still many peerless treasures inside.

These treasures were naturally obtained from Xue Wudao, Du Luoxin, Gu Liushen, Defifeng, and the leader of the Wukong organization Destiny, as well as the treasures of the three major cities and the ancestor of the soul fire family.

It is densely packed with dozens of pieces.

"This this....."

Ruo Rui was shocked in her heart. There were so many peerless local treasures, and the number was astonishing. It was unavoidable that she had seen so many big deals, and among them, there were a few treasures from the Soul Fire family.

Moreover, the treasures of the peerless land grade are one of the hottest treasures on the market at present, because the masters of the peerless land are also the most numerous and top-ranked figures in the level of Yunzhou Zhoucheng, the heavenly saints. It is a minority after all.

Therefore, treasures at this level are the most popular.

If these treasures are taken out, they will definitely be looted.

And the most important thing is a few treasures of the Soul and Fire family. "Mr. Qin, if Ruori read these treasures correctly, they should be the treasures of the Soulfire family? The Soulfire family is the top family in Yunzhou, and its ancestor Li Luo is a half-step Heavenly Sage master. However, there are rumors. More than a month ago, the ancestor of the soul fire family

Li Luo led the senior members of the Soulfire Family to Cangxuan City, Yunzhou, but was beheaded by City Lord Ao Lie of Cangxuan City and a strong man above Cangxuan City. "

"To join forces with City Lord Cangxuan to kill the people of Li Luo is rumored to be a master of a newly emerging power, called Chendi Pavilion. This organization integrates several major cities such as Cangxuancheng. Could it be..."

This Ruori is worthy of being the director of the Wangu Building, in charge of all kinds of intelligence, and in a flash, she guessed Qin Chen's identity.

Of course, this was also exposed by Qin Chen on his own initiative. Otherwise, if you conceal it, the other party would be impossible to guess it anyway.

"Awesome, the Wangu Tower is indeed well-deserved. That's right, the soul fire family has been destroyed by Ben Shao, and Ben Shao is the pavilion master of Chendi Pavilion. These treasures are also Ben Shao's spoils."

Qin Chen said openly. He also has some understanding of the abilities of the Wangu Tower. Although the events that occurred in Cangxuan City's integration of the major forces have spread to the surrounding forces, the events of the day have been strictly blocked by City Lord Ao Lie, so they did not cloud

What a sensation caused by the state, the number of forces that Yunzhou knows about is not many.

Moreover, Cangxuan City is also in a remote location, and few people pay attention to the news here.

But the director of the Wangulou could pass these news, guess about him in an instant, and said so many things, it can already be a glimpse.

Perhaps, if you hand over the search for You Qianxue and the others to this Wangu Tower, you might have something to gain.

Qin Chen secretly guessed.

"It turns out that it is Pavilion Master Qin, disrespectful, disrespectful!" Ruo Rui smiled and arched her hands: "Please rest assured, Pavilion Master Qin, I will never reveal anything about Pavilion Master Qin. This is the purpose and principle of my Wangu Tower. And, your Excellency's Chendi Pavilion and my Wangulou, maybe there is still some cooperation.

"

After learning of Qin Chen's identity, Ruorui was only slightly surprised, and she returned to normal, as if she didn't care about Chen Dige. With the strength and status of the Wangulou, there is no need to take Chendi Pavilion in mind.

#### [Chapter 2635: Heavenly Demon Soldier](#)

"As for the holy soldiers that Pavilion Master Qin took out before, I can roughly estimate it, which is equivalent to a half-earth ancient holy vein." Ruo Rui meditated for a moment.

"Oh?"

Qin Chen nodded, but didn't say anything. The price was also in his expectation.

The so-called ancient earth sacred veins are the kind under Cangxuan city. An earth sacred vein can nurture peerless earth sage masters. Therefore, it is of extraordinary value and is more extraordinary than ordinary holy crystals. You want a lot of baby.

And although the treasures Qin Chen took out were many, they were of great use to the peerless earth sage, but no matter how they were, they couldn't be compared with the ancient Saint Veins.

Therefore, Qin Chen didn't feel surprised that these saint soldiers exchanged for a semi-ancient holy vein.

"Ben Shao also has a magic soldier here. Miss Ruorui will help me identify it. How valuable is it?" Qin Chen shook his hand, and a magic light rose into the sky, the mighty magic light shaking on the spot.

This is a sword-shaped demon soldier. The Heavenly Sage Law on it has turned into a pitch-black color. The characters of the demon races are flashing, and the atmosphere of the magic way is slightly shaken, filling the entire living room.

Suddenly, the entire living room seemed to have come to the territory of the demon clan, with demon qi bursts everywhere, and the wind lingered.

"this is....."

This Ruorui changed color on the spot, "This is the Heavenly Sage Demon Soldier. It contains the Demon Clan's Heavenly Sage Divine Soldier. It has a strong Demon Clan aura. What is the law of the Demon Clan? And, it seems to be an ancient demon Qi?"

This Ruorui was shaking again and again, her body trembling, unbelievable, and restless. "Are you really going to sell this demon soldier? This demon soldier is extremely powerful, and the ancient demon energy surging on it is definitely a treasure of a powerful demon clan in ancient times. Terran can't be used, but as long as it has a good feel

The aura on the Wu Ji Refining will also be huge, and once the demon aura is washed away, it will also become a top treasure. "

"Which ancient demon clan Heavenly Sage left this?"

Originally, Ruo Rui didn't care about Qin Chenchen's identity as the pavilion master, but at this moment, she was taken aback and shocked again and again.

How could an ordinary person bring out the treasure of the Demon Race Heavenly Sage? The origin of this son is by no means as simple as I can see on the surface.

"How is it? What is the value? I hope you can estimate it."

Qin Chen smiled slightly, his face calm.

This demon soldier was not the more than 30 heavenly sage demon soldiers Qin Chen had obtained from the main body of Yama Sage.

The Sage Lord of Yama is a master of the Yama Demon Clan. The Heavenly Sage Demon Soldiers bred in his body are all the best of the Heavenly Sage Demon Soldiers. Once taken out, it will inevitably cause a sensation and even shock the Guanghan Mansion.

These magic soldiers, Qin Chen is still useful, can be left to the masters of Mokara and Skeleton Rudder.

And the Heavenly Saint Demon Soldier he took out now came from the desperate ancestor, the old man of the Saint Demon Race.

This ancestor of the Saint Demon Race was in the realm of Heavenly Saint. He naturally possessed some demon soldiers on his body, which was obtained by Qin Chen and sold them in exchange for his own resources.

"This... the value of this magic soldier, I can't estimate it clearly. Can you bring me back to appraise it?" Ruori hesitated.

"It's okay. I can trust the credibility of Wangulou. Moreover, there is more than one Demon weapon like this. As long as the price is right, I will sell you Wangulou."

Qin Chen smiled, and handed this sword-shaped demon soldier to Ruo Rui, not minding that the other party swallowed it. In the Wan Gu Building, many Heavenly Sage Treasure Soldiers have been sold, and even the top Heavenly Sage weapons were auctioned in the Wan Gu Building Auction in Guanghan Mansion. The reputation is very good. Qin Chen is not worried about his own. A treasure was forcibly taken away by the opponent

No change.

Countless years of credibility, but a Heavenly Sage Demon Soldier can compare.

Of course, it would be hard to say if it was the origin of time and the treasure of the holy master. Human nature can never be tested.

"Okay, please wait for Pavilion Master Qin!"

Taking this extremely strong Heavenly Sage Demon Soldier, Ruo Rui hurried out. In a short while, she entered a mysterious place deep in the Wangu Tower. This place is very secretive. There are enchantments everywhere, and the fragrance of burning and magic salivation is one level higher than that of Qin Chen's room. Level, the effect is good

How many times.

"What? Ruori, didn't you go to the VIP room to greet a new VIP? Why did you come back in a hurry? What needs does this VIP have?"

A middle-aged man who was also a peerless earth saint walked in the mysterious place and saw Ruo Rui's hurried footsteps.

"Hold all the management meetings, ask the landlord, there is a big business."

Ruo Rui said in a hurry, and at the same time turned over the Heavenly Sage Demon Soldier in her hand. As the magic light radiated, endless demon energy surged, and the middle-aged man also changed his color: "What a strong Heavenly Sage Demon Dao law, what kind of demon weapon is this? The above Demon Clan law is very powerful, absolutely. The high-level demon celestial envoy in the demon clan The weapon used was too terrifying, and even I couldn't hold it just because it escaped. "

"Devil energy is soaring to the sky, and it is ancient devil energy..."

"This demon soldier has an extraordinary origin." As soon as the heavenly sage demon soldier appeared, in this world, many powerful divine thoughts were intertwined and revolved around the demon soldier: "Humans and demons have different paths, if we understand the above The law of the demons, for us to enter the realm of heaven in the future, also

There are no small benefits and can go further. "

The essence of the Heavenly Sage is to perceive the origin of the heavens. Regardless of the Heavenly Sage Law of the Human Race or the Demon Race's Heavenly Sage Law, mutual understanding will be beneficial. Unlike other levels, the perception of other races will not have any effect.

"Good thing, good thing! Why are there so many ancient demon rules? The one who sacrifices this demon soldier is definitely a master in the demon clan."

"Such an ancient demon soldier has not appeared for many years. It is rare, too rare."

Divine thoughts flowed one by one.

"Everyone, this is a treasure for a guest. Let us estimate the price and sell it." Ruo Rui said sternly, she came to a secret room in the mysterious place, which is a circular meeting room with a platform in the middle. There are seats all around, Ruo Rui sat down on one of the seats and put this magic soldier on the middle platform at the same time

.

Boom boom boom!

Suddenly, a series of terrifying auras appeared, each of which was a peerless master of the earth sage, and there was more to it. Among them, a few of the auras clearly surpassed the peerless earth sage, and have touched a trace of the heavenly holy law, which can be called a half step. Heavenly Saint. In the heavens, any master who has touched a trace of the heavenly sage can be called a half-step heavenly sage, but according to the number of heavenly sage laws mastered, the cultivation level also varies greatly, and the status is slightly higher than that of the peerless earth sage, but far away Far inferior to the real Heavenly Sage master.

### [Chapter 2636: Priceless](#)

As soon as these masters appeared, they landed on their own high seats, sending out a series of divine thoughts, and began to study this Heavenly Sage Demon Soldier.

"The Heavenly Sage Demon Dao law inside is extremely surging, and I don't know the depth at all. How do you estimate the price?"

"That's not to be counted. If this seat is not mistaken, this Heavenly Sage Demon Soldier should still be an ancient demon soldier. It contains ancient demon energy, and that ancient demon energy contains the rules of the magic way before the heavens are broken, which is comparable to what appeared in modern times. Heavenly Sage Demon Soldiers are more precious."

"Yes, and the aura of this Demon Race is also very special. It is definitely the upper-class race in the Demon Race, and it even carries an inexplicable and sacred aura. It is powerful."

Many people shook their heads. The valuation of treasures depends not only on materials and grades, but also on history, effects, and price evaluations, which cannot be explained in one sentence or two.

"This treasure can only be evaluated by the original poster."

Ruorui communicated with many high-level executives, and instantly shot out a divine mind. In front of the seat of the highest leader, a passage was suddenly opened, as if leading to an endless void, and a figure appeared on the passage.

As soon as this figure appeared, it was like an eternal god, in charge of the sky, just the breath escaping from the passage, it instantly suppressed the many peerless earth sages present, and even the half-step heaven sage masters.

"What is going to disturb this seat?"

This is a majestic heavenly sage, a true heavenly sage master, forever.

This person is also the owner of the Wangu Building Sub-building in Yunzhou.

"Enlighten the host, there is a big business, we can't tell, and ask the host to be firm on this magic soldier." Ruo Rui immediately arched his hands.

"Oh?"

The master of the Geshitian Sage immediately saw the demons on the platform, and was also taken aback. Suddenly, a storm-like terrifying spiritual thought swept over, penetrating inch by inch and understanding.

Hum!

On this day, the Saint Demon Soldier exploded thousands of phantoms, swelling outward, and unexpectedly revealed an ancient demon god, erupting with terrible murderous intent.

boom!

The terrifying devilish energy swept across in an instant, with endless devil intent, to destroy this place.

Ruo Rui and others present felt like a boat in a storm, about to capsize instantly.

"Suppress me!" The landlord of the Wangu Tower snorted coldly, and immediately suppressed the demonic energy, but his face was full of shocked meaning: "This kind of power is the power of the Saint Demon Race, and it is The demon soldiers of the ancient holy demons are invaluable and invaluable!"

"Lord Lord, although this demon soldier is a treasure, belonging to the Heavenly Sage level, but the aura on it is not too strong among the Heavenly Sages, it should belong to the ordinary Heavenly Sage level, shouldn't it be considered invaluable? Unless it's the Peak Heavenly Sage Demon Soldier,

Worthy of such a title! "

When many senior officials heard this, they were very puzzled.

The Heavenly Sage's treasure soldiers are also divided into levels. The early days of the Heavenly Sage and the middle of the Heavenly Sage's middle stage are the levels of magic weapons used by the warriors in the late stage of the Heavenly Sage. The level of the Holy Demon Soldier. "Huh, what do you know? I say that the Saint Demon Soldier is extremely valuable, not its power, but what it contains. The Saint Demon Race is the second-line race among the Demon Race, second only to the Abyss Demon Race. Top demons such as tribes, demon tribes, etc., and

In ancient times, it was a loyal lackey of the Yuanmo tribe. "Furthermore, the aura of the Holy Demon Race is very sacred and rare among the Demon Race. Therefore, in the ancient times, the members of the Holy Demon Race pretended to be humans. If they did not truly display the power of the source, it would be difficult to see their true colors. , To cultivate the human race,

Has a great inspiration. "

"In addition, there are not many of them in the world, so the treasures of the holy demons are especially precious." "In the heavens, many great figures need to pursue higher realms and comprehend more terrifying laws and powers, such as today's realms. They can't satisfy them anymore. They need to feel the power of the human and demons in the heavens in ancient times.

Improve your way more. "

"Therefore, once the news comes out of this ancient Heavenly Sage Demon Soldier, I don't know how many big people will rush to ask for it." The Wangu poster, Geshitian Sage said, "It just so happens that I know a big person in Guanghan Mansion. He is prying into the realm of the Holy Lord, and he needs to understand all kinds of different rules. The rules of the ancient magic way are one of the things he needs most at the moment.

Send it over, my Wangulou will definitely get a big price. "

"Spy into the realm of the Holy Master?"

When many high-level people heard this, they took a breath. This demon soldier even liked such a strong one. No wonder the host is so excited.

If this Heavenly Sage Demon Soldier is sent to the headquarters of Guanghan Mansion, the host will definitely be rewarded by the headquarters, and the identity and status will immediately be different. These are all qualifications. The landlord Wan Gu coldly snorted: "Now you know why the Saint Demon Soldier is so valuable this day? To be honest, if it weren't for the lack of cultivation in this seat, the Heavenly Saint Demon Soldier of the Saint Demon Race would have coveted even this seat. By the way, I heard that the customer is a year

Qingren, how many treasures are there on his body, and are there more Heavenly Sage Demon Soldiers? If so, we can accept it in the Wangulou. As for this one, first ask him, how much do you want? "

"My Lord, he said, he wants to hit the realm of Heavenly Sage, and he still lacks the ancient sacred veins." Ruo Rui said. "Oh? Want to hit the realm of the Heavenly Sage? That's also a master? Yes, this kind of treasure is not available to ordinary people, but I see a lot of young people who want to attack the Heavenly Sage. , Lack of cultivation, experience

Not enough, not enough experience, so I thought about flying into the sky. As a result, there are often innumerable people who get into trouble, or directly explode and die. "

The Wangulou sneered: "I think this son wants to make an impact, but it is only a one-tenth of a ten thousand chance. On the contrary, it wastes the ancient holy vein." "However, he wants to die. We fulfill him. We only do business in Wangulou. As long as the price is right, any business can be done. In this way, for this Heavenly Saint Demon Soldier, you should give him the price of the three ancient Saint Veins, which should be enough.

""what? Three ancient holy veins? My lord, this price is a bit high, because this child also took out other treasures, about one and a half pieces of ancient sacred veins, in this way, there are four and a half ancient sacred veins, hundreds of years

We Wanbaolou, it is also difficult to take it out all at once, right? "

Ruo Rui hurriedly said.

"What? He has other treasures?"

The eternal poster was taken aback, "What treasure can be worth a semi-ancient holy vein, please take it out and let me see."

Ruo Rui hurriedly took out the previous storage ring.

"This is... the treasure of the Soul Fire family."

This Wangu poster was taken aback: "What's the background of this kid?" He was really interested in Qin Chen.

#### [Chapter 2637: Looking for a few people](#)

Ruo Rui hurriedly explained her guess.

"Ok?"

The eternal poster frowned, "Is just a small Chendi Pavilion lord in Cangxuan City? Impossible, what was his previous identity?"

"This..." Ruo Rui said, "His previous information is not available in our Wangu Tower. It seems that his previous information was blank."

"now it's right."

The landlord Wangu's eyes gleamed with wisdom, and he said coldly, "This makes sense. In a small Cangxuan city, how can such a character come out!"

"My lord, do you want to investigate again?" Ruo Rui hesitated. "No, the purpose of our Wangulou is not to investigate everything about the guests. If you do so, it violates the rules of the Wangulou and spreads it out. I can't do business in Wangulou anymore? Don't say his origin is unknown, as long as he is not a demon. Clan, we are forever

No need to worry about the building. "

The landlord Wangu said in a deep thought, "Go and talk to him and try to negotiate this business. As long as you send this Heavenly Sage Demon Soldier, don't talk about the three ancient sacred veins, it will be one heaven. It is possible to taste the ancient holy veins."

"Yes, the subordinate will go to discuss with Qin Chen, to ensure that the matter is completed, and please rest assured, the host." Ruo Rui is confident.

"Okay, as long as you finish this matter, your credit, I will upload the headquarters for you, and then I will make a serious note in your credit book, go." The host Wangu waved his hand and immediately passed the channel. Closed, disappeared.

"What? This Heavenly Sage Demon Soldier is worth three ancient sacred veins?"

In the reception room, Qin Chen once again saw Ruo Rui who came in a hurry, but this time, her face did not have the initial calmness, and when she heard the offer, Qin Chen also fell into thought.

There are many types of ancient sacred veins. From Li Luo's memory, Qin Chen also knows that the ancient sacred veins of the heavens are the strongest resources. According to the concentration, size, and quality of the holy energy contained in the heavens and the earth, they are divided into ordinary products, local products, and heaven. Products and so on.

The one below Cangxuan City is the Earth-Rank Ancient Sacred Vein, and the general Earth-Rank Ancient Sage Vein can breed peerless Earth Sage masters.

Of course, the same ground grade also has high and low points. The ancient sacred vein that Qin Chen found in the Yan Luo Secret Realm cave is still above the one below Cangxuan City, but it is also only a ground grade, which is far from the heaven grade.

The higher the rank of the ancient saint veins, the better the effect and the greater the value.

As for the ancient sacred vein that Qin Chen took from the Lord of Yama, it was even more remarkable. It was definitely of the Holy Master level, capable of maintaining the operation of a huge secret realm and nourishing the growth of the Ten Thousand Realm Demon Tree. It's a pity that this ancient holy vein of the Holy Master level has been consumed in hundreds of millions of years, especially to nourish the Devil Tree of the Ten Thousand Realms, and the energy in it is not a single one. But even so, the holy The ancient holy veins of the main level are not universal

Tongyuan ancient holy veins can be compared.

According to that, Qin Chen seemed not to be interested in the holy veins of the land.

But in fact it is not like this at all. Because that ancient sacred vein of the Holy Master Level is too important, it is now placed in the Universe Fortune Jade Disk to protect the world of Universe Fortune Jade Disk and the growth of the Ten Thousand Worlds Devil Tree, and the power contained in it is very violent. With Qin Chen's current cultivation For once absorbed

, it is difficult to refining, but it is best to absorb the ancient holy veins.

The most important thing is that this ancient holy vein of the Saint Master level has been consumed in endless years. If Qin Chen swallows it, once the power is exhausted, it will be troublesome. Qin Chen can't find other holy veins. To add.

Moreover, Qin Chen is also preparing to use this ancient Saint Lord's vein as an opportunity for him to break through the Heavenly Saint.

Now he is only in the late Earth Sage, from the late Earth Sage to the peerless Earth Sage realm, it is more convenient to absorb the ancient sacred veins of the land.

Therefore, Qin Chen was naturally very excited when he heard that the four and a half-terrain ancient holy veins could be exchanged.

Anyway, there are still a lot of treasures on his body. Not to mention the thirty-odd Heavenly Sage Demon Soldiers of the Lord Yama, he didn't take out all the Heavenly Sage Demon Soldiers of the old Sage Demon tribe. Qin Chen now seems to be very wealthy, but in fact it is far from enough in the ancient sacred veins. He had already consumed the ancient sacred veins obtained from the Yan Luo Secret Realm caves in the early breakthrough stage. And urge the universe

The jade dish has a flow rate of fifty times the time, and it also requires a lot of ancient holy veins.

It is a bottomless pit.

I thought that the higher the cultivation base, the more resources, but now Qin Chen realized that there were more resources, but the higher the cultivation base was still not enough, and he was always in a lack.

It is extremely rare to be able to add some now.

"Pavilion Master Qin, the four and a half ancient sacred veins are already at a sky-high price. If you sell them, you will never find a better buyer than our Wangulou. No one can afford this price." Qin Chen groaned, Ruori hurriedly said: "Furthermore, if you have made this transaction with our Wangu Tower, you can become a VIP guest of our Wangu Building. When doing business with our Wangu Building, there will be different Kind of convenience, this is our

Gold card VIP order of Wangu Building. With a VIP order, you can consult in any branch of our Wangu Building. "Our Wangu Tower has sub-buildings in every prefecture of Guanghan Mansion, and some places have established sub-buildings outside Guanghan Mansion, and have business dealings with countless large forces in Guanghan Mansion, even in Guanghan Mansion. Some of the top big people also pass

Work through our Wangu Building. "By the way, Pavilion Master Qin, don't you want to participate in this day's work assessment?" As long as the business is completed this time, my Wangulou is not qualified to send you to the refining department of Tianjiao, because this must pass the refining assessment, but you are allowed to join

The warrior department can still do one or two activities..."

While speaking, Ruorui handed a gold card to Qin Chen.

Qin Chen saw that there were countless runes and formation patterns engraved on this gold card. It was magnificent and holy. It was very noble at first glance, and it was no small thing.

"If Pavilion Master Qin encounters any difficulties in the future, holding this token and going to our Wangu Building for help, it can be settled." Ruo Rui said again.

In order to facilitate this transaction, she has already used her highest authority.

"Oh? But to join Tianjiao, I don't need you to operate, but I have another requirement." Qin Chen's eyes flashed and his thoughts moved.

"Please also ask Pavilion Master Qin to make it clear." Ruo Rui hurriedly said. "In this way, I agree to this transaction. I don't want you to have four semi-ancient holy veins. You only need four. However, you need to cooperate with my Chendi Pavilion to conduct business dealings." Qin Chen said: "Except. In addition, the young master needs your Wangulou to inquire for me and find a few people."

### [Chapter 2638: Tian Xing Zhen Ren](#)

"Cooperate with your Chendi Pavilion? It's okay. Pavilion Master Qin, you are a distinguished guest of my Wangu Tower. As long as there is interest, I Wangu Tower welcomes it. As for finding someone, it's no problem. My Wangu Tower is well-informed. This person has appeared in Yunzhou

, There are none that I can't find in Wangulou. "

Ruo Rui said with confidence.

"Not only in Yunzhou, but also in other prefectures in Guanghan Mansion. I don't know where it is." Qin Chen shook his head.

"This....."

Ruorui frowned: "If it's in Yunzhou, it's okay, but if it's in another state, we may need to report to the headquarters to coordinate resources and mobilize manpower..."

"Otherwise, why would Shao Ben let half of the ancient sacred veins come?" Qin Chen said lightly: "As long as you agree, this transaction will be considered successful, and as long as you can find someone, Shao Ben and your Wangu Tower will have a fortune. Big business to do."

Qin Chen said proudly.

"Big business?"

Ruo Rui's eyes flickered, and finally gritted her teeth: "Okay, then Ruorui will hand over you as a friend of Pavilion Master Qin, and it will be decided."

"can."

Qin Chen smiled slightly, lifted the storage ring, and handed all the Heavenly Sage Demon Soldiers into Ruorui's hands: "Where are the four ancient sacred veins?"

"Landlord, the business has already been established, please let me down the Holy Vein!"

Ruo Rui hurriedly shouted into the void.

"Boom!" Void immediately trembled, and four mighty dragon-like sacred veins were wrapped in a horrible heavenly sage light, bursting through the air, and suddenly, ample ancient holy aura came upon his face. , Almost in the ocean of ancient holy air pervades the sky

. "Sure enough, it is the ancient sacred vein of the land, there are four! Good! And every ancient sacred vein is similar to the one in the underground of Cangxuan City, combined with the one obtained in the Yan Luo Secret Realm cave, and many peerless land Dan, it should be enough

Stepping into the Peerless Land Sacred Cultivation, I don't know where these ancient sacred veins came from. Could it be a city like the plundered Cangxuan City? "

Qin Chen's heart flickered.

He is really a big family who eats ancient saint veins. Two or three of these ancient holy veins are enough for a half-step Heavenly Sage like Ao Lie to directly enter the realm of Heavenly Sage, but what about Qin Chen? The five ancient sacred veins, plus many Peerless Earth Pills, were actually only enough for him to enter the Peerless Earth Sage from the late Earth Sage.

If it spreads out, it will stun all the strong. Seeing these dragon-like sacred veins, Qin Chen continuously grabbed them with his hands. Among his fingertips, tyrannical sacred origin fluctuations flew out, and he immediately suppressed the four ancient sacred veins, and then his own holy origin, Into an endless vortex, turning those four

The ancient holy veins were quickly collected in the storage ring.

In front of the Heavenly Sage, Qin Chen was very vigilant and didn't use the Universe for Good Fortune Jade Disc, if it was discovered, it would be forever.

"Huh?" In the Holy Light that day, there was a sound of shock. "Young man, you are very strong. You can collect four ancient holy veins at once. These four spiritual veins are all treasures from the ancient ruins of my Eternal Building. Each one contains terrifying power. General Peerless Land Saint Ke

Can't charge. "

Under the rumbling voice, a terrifying figure condensed. It was the host of Wangu. Although this was only a clone of him, it also bloomed with the terrifying aura of a heavenly sage, suppressing the ages.

A general peerless earth sage can collect one ancient sacred vein like Cangxuan City at a time. Qin Chen has collected four ancient sacred veins at once without showing any difficulty. The heavenly sacred capital is amazed.

"Is this the heavenly sage aura? It's really powerful, just a clone, it's not weaker than half-step heavenly sages like Ao Lie and Li Luo."

Qin Chen was shocked, but on his face, there was a look of neither humble nor arrogant, neither happy nor sad, and said lightly: "The predecessor has been wrongly rewarded, and the mere sage yuan is hard to get into the sacred eyes of the senior!"

"Hehe, young man, don't underestimate yourself."

The host of Wan Gu laughed and glanced at Qin Chen higher in his heart: "This young man is not simple, unfathomable, and has a lot of background."

The peerless earth saint who can still maintain calm under his breath is extremely rare, one in a thousand.

"Young man, where are you from?"

This avatar of the heavenly sage. "I'm a casual cultivator, no school, no school, otherwise, I won't come to this Wangu Building, and even want to join Tian's work." Qin Chen said lightly, half true and half-fake: "But senior, wait for me to join Tian. Work, after Wangu Lou found someone for me, maybe

There will be a bigger business to cooperate with you Wangulou. At that time, I hope that seniors will prepare more resources, even the holy vein of heaven. "

"What, what do you want to sell, and want the holy vein of heaven?"

This eternal poster, the clone of Heavenly Sage was shocked: "Young man, do you know the value of the Holy Veins of the Heavenly Grade? Ten or a hundred ground-grade Holy Veins are not as good as the Holy Veins of the Heavenly Grade. This is the foundation of the Great Sect. !"

"I'll talk about this when the time comes." Qin Chen waved his hand, unwilling to say more, "This time I have a good relationship with Senior and Wan Gu Lou. I have a great opportunity to cooperate with Wan Gu Lou in the future. Seniors will know about it in the future."

Qin Chen wanted to put pressure on the opponent so that he could concentrate on finding people. "Hahaha, interesting. I haven't seen such an interesting young man for a long time. Well, remember, this seat is called Tianxing Zhenren. You can directly use the VIP token to find me in the future. I heard that you will join Tianjiao. Work day, but one

Unbelievable forces, if you can really join, maybe we will have a lot of cooperation in the future. Good luck, Ruo Rui, take good care of the guests. "

The avatar of Heavenly Sage gradually disappeared. The clone of Xingzheng disappeared that day. Seeing Qin Chen about to practice, Ruorui also said goodbye. At the same time, she took out a jade slip: "Pavilion Master Qin, this jade slip is the information for this day's work assessment. More information, I will send it right away

Come here, now I will immediately mobilize the staff of the Wangu Tower to find people based on the information you gave to the Pavilion Master Qin. It may take some time, so please wait patiently. "When the voice fell, Ruorui said goodbye. Before leaving, she seemed to give a few words to the outside. Soon, the magical fragrance in Qin Chen's room was actually replaced by the stronger one in the mysterious depths of the Wangu Building. Ambergris, refined by the peerless holy demons

The magic salivation fragrant.

A more quiet, strong breath filled the room, causing Qin Chen to enter the realm of meditation.

Qin Chen was amazed at the means and abilities of the Wangulou.

"I hope this Eternal Building can find Qianxue and the others." Qin Chen was looking forward to it. During this period, he missed You Qianxue and the others all the time. Everything was to find three people.

### [Chapter 2639: Craftsman](#)

"Let's take a look at the information about this day's work first."

Qin Chen came to the quiet room, and his divine sense merged into the jade slip, and all kinds of materials suddenly emerged, all flooding into Qin Chen's mind. "What? The origin of this day's work is so great. It is a branch of ancient celestial craftsmen rumored to be spread across the celestial realm. Now it is formed again, and business exchanges between the various holy master's palaces are dedicated to the frontline and the demon race. People

Strong clan to create a peerless magic weapon? "

Qin Chen was taken aback. The intelligence of the Wangu Tower is indeed very powerful. The outside world only knows that this day's work is a very terrifying force. There are many holy master's mansions all over the heavens. It is an organization that specializes in refining weapons, but the intelligence of the Wangu Tower points out. This day work

The predecessor of the work may be a craftsman from the ancient heavens.

Craftsmanship is a huge refining organization in the ancient celestial realm. It is an alliance organization. Generally speaking, it is somewhat similar to the refining hall of the Tianwu Continent. It is the central organization for the evaluation and promotion of countless refining masters in the celestial world.

It is semi-official and semi-civilian.

But then the heavens shattered, and the powerful organization of craftsmen immediately fell apart. For example, today the world is reunited again, and heavenly work also came into being. It is said that there are branches in every holy master mansion in the heavens, and the power is very large.

And it is rumored that the predecessor of this day's work was actually made by craftsmen.

However, Wangulou analyzed this point of view and believed that the predecessor of this day's work was craftsman's work is just a rumor. Whether it was developed by craftsmanship remains to be verified.

But it is clear that there is indeed a shadow of craftsmanship in Tiangong. Among the founders of Tiangong, there should be ancient giants who once served as high-level craftsmen. Of course, these are all speculations of the Wangulou. Tianjiao is very mysterious and powerful. Even Wankulou does not know its true colors. It never fights for hegemony and is very low-key. Therefore, the Tianjiao branch of Guanghan Mansion has a special status. House Lord

People respect it.

Tianjiao rarely recruits disciples publicly. In the past, if you want to join Tianjiao, you must be a well-known refiner and a strong person to join on your own. There are strict assessment goals. For ordinary refiners and strong people, there is no hope at all. .

Therefore, the public selection this time naturally attracted excitement and enthusiasm from all states. Even some state and major disciples have signed up and tried to join Tianzuo. After all, once you join a huge force like Tianjiao, you will be amazingly cultivated, and Tianjiao does not restrict personal freedom. After you join, you can choose to join Tianjiao completely and conduct refining and training in the designated training place by Tianjiao.

Cultivation, you can also choose to participate half-in, you only need to be called up when the day's work needs it. This also leads to freedom after entering Tianjiao, and also attracts countless Tianjiao and refining masters to come for assessment. With Tianjiao's identity, not only can you enjoy many resources, but also does not restrict freedom. You only need to time

Was called up.

And the number of such recruitments is actually not that many, so why is it unpleasant?

After all, Tianjiao's identity is universal in the heavens, even if he leaves Guanghan Mansion and goes to another Holy Lord Mansion, it will still work.

Think about it, with this identity, no matter which Holy Lord's Mansion you go to, it is equivalent to having a background and background. Who is not happy? Moreover, this time Tianzuo's recruitment of disciples shows that only talents and abilities are considered. In the past, if a refiner wanted to join Tianzuo, don't even think about it without the strength of the heavenly rank, but this time, even if it is a local craft refiner. Teacher, as long as you have some days

You can also join if you pass the assessment.

The same is true for Martial Artists, the previous days work will not recruit masters below the Heavenly Sage, but this time there is no limit, as long as the Earth Sage Martial Artists have enough talent, they can also join.

Because for Heavenly Work, cultivating a talented earth sage to enter the realm of heavenly sage is not something that cannot be done.

This also intensified the popularity of recruiting disciples this time.

"There is such a good thing." Qin Chen's eyes brightened. If so, it would be a huge opportunity for Ao Qingling and Qin Tingting. With their current cultivation bases, they would join the team of Heavenly Work Warriors. , It is still very promising, some day work will help, breakthrough

Heavenly Sage will also be easier.

"Well, since my Chendi Pavilion is going to cooperate with this Wangu Building next, it is possible for Ao Qingling and the others to come directly to Yunzhou first."

Qin Chen originally came to Yunzhou by himself, only because he was not familiar with the place and he hadn't established his foothold in Yunzhou. But now, his mind moved, instead of cooperating with Wangulou, Yunzhou can now establish a Chendi Pavilion. Branch.

Thinking of this, Qin Chen directly pressed the subpoena.

"I wonder if Pavilion Master Qin has any more orders?"

Ruo Rui, who had just left for a short time, came back to Qin Chen's room in a moment, obviously paying attention to the news here.

"I have a message here, and I would like to ask Wangulou to pass on Cangxuan City."

"Leave it to us Wangulou."

Ruorui smiled slightly, and after learning that Qin Chen had no needs, she retired again.

Qin Chen knew that Wan Gu Lou must have a way to contact Cangxuan City, and the speed was much faster than himself. In this way, Ao Qingling and the others would have enough time to arrive in Yunzhou, so that they would not miss the recruitment of Heavenly Work. Disciple opportunity.

Back in the training room, Qin Chen first placed a shocking ban in the training room. After excluding any prying eyes, he entered the universe to make a jade disc and began to practice.

"Peerless Di Pill, ancient holy vein, fusion!"

Qin Chen mixed one of the ancient sacred veins and a bottle of Peerless Earth Pill in front of him.

boom!

The two forces quickly merged. This Peerless Earth Pill is amazingly powerful. If the average person swallows too much, it will explode and die, but Qin Chen doesn't care. He directly fuses a bottle of Peerless Earth Pill with an ancient holy vein to make the two Combine the strengths and gradually absorb

, The impact of peerless Di Sheng.

Suddenly, infinite power erupted, and the Peerless Di Dan and the ancient holy veins merged with each other to form a lake of holy energy. In this lake, there seems to be dragons and phoenix roaring, roaming, and countless holy laws and powers. Which ups and downs.

Qin Chen directly sat in the middle of this holy energy lake, lingering around the dragon and phoenix phantoms, like a \*\*\*\* king, opening time accelerating, pulling out the power from the lake and integrating it into himself.

These powers entered Qin Chen's body, instantly turned into a series of talismans, merged into Qin Chen's various acupuncture points and meridians, and finally returned to the important parts of the Five Secrets.

His cultivation base is growing again, and the earth saint origin in his body continues to soar, slowly approaching the peerless earth saint. And the power continues to grow.

#### [Chapter 2640: Qualification of mixer](#)

The power of an ancient sacred vein is too strong. It takes a long time for Qin Chen to completely refine and swallow it a little bit. Moreover, there is a bottle of Peerless Earth Pill in it. Qin Chen needs to comprehend the rules of the Earth Sage. , While absorbing energy

.

Fortunately, Qin Chen has time to accelerate, one day outside and fifty days inside.

After dozens of days, Qin Chen completely absorbed this first ancient holy vein.

"not enough."

Qin Chen took out the second ancient holy vein and the second bottle of Peerless Earth Pill, merged again, and absorbed it.

Then comes the third.

boom!

Finally, on the fifth day of the outside world, Qin Chen had fully refined three ancient holy veins. His whole body was densely covered with the texture of the earth, the golden luster, hidden in the skin, and intertwined into a large net.

His Earth Sage Origin Law also soared to more than 10,000.

In the heavens, there are generally more than one thousand earth sage origin laws in the most peerless earth sages, and the true top-level earth sage does not exceed two thousand.

But now, Qin Chen has more than 10,000 Dao, spreading it out, and can already scare other peerless Earth Saints to death. It should be noted that there are only more than 5,000 Dao in semi-holy like Ao Lie and Li Luo. .

Moreover, after absorbing the three ancient sacred veins, Qin Chen still did not step into the realm of the peerless earth sage.

"It's almost there. After absorbing the three ancient holy veins, my strength has reached its limit, and I can't continue to absorb it. If I absorb it again, every particle of my cell will explode."

Qin Chen opened his eyes and appeared in the training room. "Unexpectedly, there are still two ancient sacred veins left, or, after I break through the peerless earth sage, I will definitely be able to absorb it. Now the power has reached the limit, but the realm perception is not enough, but it will not be long. I have a hunch,

It won't be long before I can directly enter the peerless earth sage, and when that time, I can attack the realm of heavenly sage. "

Qin Chen stood up, and between his gestures, he was full of explosive power. It seemed that he could destroy the entire Wangu Tower directly with a single click.

Every breath can drive the fluctuations of the holy energy of the heavens.

However, Qin Chen knew that this was an illusion. The Eternal Building was the top power of Guanghan Mansion. There were various restrictions in the depths of this building. Even the Heavenly Sage couldn't break it. Although he broke through again, he was not strong enough to destroy the Eternal Age. The point of the floor.

"Let's go, go out and find out the situation first."

Qin Chen walked out of the training room. When Ruorui saw Qin Chen again, he was taken aback. Because Qin Chen opened his eyes, the golden light burst out, and Ruorui had an invisible oppressive force between them. In her pupils, there seemed to be stars that were born and die. She was terrified again and again.

Backed up and almost sat on the ground.

"what is this?"

Ruorui's expression was pale and sweaty. Facing Qin Chen, she felt like facing the heavenly sage, and lost her voice: "Have you broken through to the realm of the sage?"

It was only five days before Qin Chen broke through the Heavenly Sage? "It's far from it. It's just a small cultivation." Qin Chen slowly collected his aura into his body, converged, and suddenly turned into an unfathomable appearance at the beginning: "Right, I don't know if I let you go forever. What happened to the building?"

? "The person you are looking for, our Wangulou has already started searching, but there is no news yet. There must be too much news to check for this kind of thing. You'd better be patient, but I will give you an answer sooner or later. As for Cangxuan City

The news has already been sent out, and the people in your Chendi Pavilion have already left. Our Wangulou is helping out. It should be a few days before you can reach Yunzhou. Ruo Rui returned to her self-confidence: "I heard that you are planning to establish a Chendi Pavilion branch in Yunzhou. It just

so happens that our Wanbao Lou has many properties in Yunzhou. We have a store that can be transferred to you. The transfer fee will be temporary. No more, cooperate in the future

There are opportunities. Here are the information and title deeds of the shop, so I will leave it to you. "

After finishing talking, Ruo Rui took out a piece of jade slip and a land deed, which is an official land deed recognized by Guanghan Mansion. The location is excellent. The distance from the Wangu Tower is not very far, but the shop is not very large, but It's enough.

Qin Chen accepted the title deed and said, "Okay, Ben Shao is not polite with you anymore, thank you for your help, there will be opportunities for cooperation in the future."

Qin Chen really knows the capabilities of the Wangu Building. Although this shop is not large, the location is very good. The price is certainly not cheap. The average person can't get it at all. Wealth.

Of course, this is also because Wan Gu Lou is optimistic about Qin Chen's Chendi Pavilion. After all, Chendi Pavilion now controls the four major cities of Yunzhou, as well as a force of hundreds of millions of li, and has a bright future.

Even so, this Wangu Tower is very generous, and most people can't do it.

Qin Chen had made up his mind, and if he had a good relationship with this organization, his actions in the future would definitely be much easier. "By the way, Pavilion Master Qin, I think you let the people under your command come over. It should be a martial artist who wants to participate in the assessment of Heavenly Work. These two days happen to be the day of the assessment. I have a way out of the Eternal Building. It is better to do it for Pavilion Master Qin I reported my name with you, also

I wish in advance that the pavilion master Qin and the people under his command will become disciples of Tianjiao, and will hold great power in the future and become the overlord of the party. "

Ruorui said with a smile.

"Martial artist sign up?" Qin Chen smiled: "You can report to my subordinates. This is not necessary for Ben Shao. What Ben Shao wants to participate in is the assessment of the refiner. If there is a way out in the Wangu Building, he can do it for Ben. Underreport."

"What? Is it true that Pavilion Master Qin is still a craftsman?" Ruo Rui was taken aback. There was no such information in their Wangulou data. The Wangulou data only recorded that Qin Chen took the ancient medicine after entering Cangxuan City. Tang and Gu Fangzhai are suspected to be an alchemy master of local grades, but

There is no record in the face.

Now I hear, how not surprised.

"Good to say."

Qin Chen smiled lightly.

"Why don't you know if Pavilion Master Qin has the qualifications of a refiner certified by Guanghan Mansion?" Ruori asked.

Qin Chen was startled, what was that? "If you want to participate in the examination of Tiangong, you must have the qualification of a craftsman certified by Guanghan Prefecture, and you must be a qualified craftsman, otherwise you will not be able to participate in the assessment. You also know that this day's work is recruiting disciples. The impact is too great, and

Moreover, becoming a Tianzuo craftsman is different from becoming a martial artist, and the benefits they enjoy are above and below. Therefore, in order to prevent some ordinary craftsmen from signing up at random, this rule was set. "

Ruorui explained. "How can I get this qualification?" Qin Chen also understood it, it was still so troublesome, but think about it, anyone can sign up, wouldn't it be the skyshaking, just like the inheritance of the original Cangxuancheng grand meeting, obviously it is Refining equipment inheritance, but

Martial artists will also come to realize that, leading to a small inheritance, with millions of people participating. This is an assessment, and naturally it must be screened.
