

## Valkyrie 2641

### [Chapter 2641: Senior Mu](#)

Qin Chen asked that, Ruorui knew Qin Chen had no aptitude at all, and she smiled bitterly. If it weren't for Qin Chen's previous strength, she almost thought Qin Chen was playing herself. She stood up and said: "Let's do it, while the registration for the assessment is not over, we will first find a way to get a qualification for you, but we have to find a senior who is a cooperative relationship with us. Its identity

Surprisingly, before that, I would like to ask the host for instructions, and pavilion Qin to wait. "

"Good to say." Qin Chen waited in the room.

"My lord, the qualification assessment of the craftsman in Yunzhou has now been suspended. Even our Wangu Tower cannot intervene. If you want to help him, you must pass that one, you see..."

In the depths of the Wangu Tower, Ruorui respectfully salutes when she sees the real man Tianxing.

"Oh? He actually wants to perform the Tianxue refining master assessment? It's getting more and more interesting." The original poster Wangu laughed, his eyes flickering: "What do you think?"

He tested the school road. "The subordinates dare not speak falsely, because the subordinates really can't see through this person. This person's cultivation level has undergone such a change in just five days. It is really scary. If you are a person who knows the roots, it doesn't matter. , But this person, from unknown origin,

The subordinates have a feeling that this child is not simple, it is impossible to practice casually, and he is definitely a person of identity. "

Ruo Rui respectfully said to the eternal host in front of her. The eternal host smiled faintly, and said: "I have sensed the breath of this child. His holy essence is really boundless. I can't detect the laws of the earth holy origin contained in his body. I really can only use Horror II. To describe it in words. Whatever it is

It's not a mysterious person, what we want to do and what purpose we want to join Tianjia, it's none of our business. As long as we can do big business, we must make friends with such a person. "I have already handed in the Saint Demon Soldier the day before, and it has also been handed over to that big man. That big man admired it very much and gave us a lot of benefits from the Wangu Building. The headquarters was full of praise and gave us points. A lot of benefits, this is

Ten million low-grade sacred crystals, you made this business and rewarded you specially. "

"Thank you, my lord!" Ruo Rui was shocked and excited when she got 10 million low-grade sacred crystals. For her, this was the wealth she could only earn in many years.

"Therefore, for such a person, you can make friends a lot. There is no harm. Sometimes, you don't need to think too much. Our Wangulou is in business, and what others do has nothing to do with our Wangulou." Pay attention to the movement of Qin Chen. If he is really promoted to the Heavenly Sage of the World, he has great potential and more useful value. Think about it, he is the cultivation base of the Heavenly Sage of the World, and he can have such a great life.

Yi, after Tiansheng, what business will he do with us? "So, you have to keep an eye on this big customer. It is convenient for you to do more things. If you do a big business with him, I will report your credit to the headquarters. At that time, you will enter the headquarters to practice secretly, and there is hope. Promoted to Heavenly Saint. This way

, This customer, the benefit to you is unmatched by all customers in your first half of your life. Would you still consider his purpose? "

Ruo Rui came to understand in an instant, "Thank you for your teachings."

"Very well, take my token and go, I have to see, this Qin Chen is just for fun, he still has some refining skills."

The landlord Wangu threw a token and disappeared instantly.

And Ruo Rui took the token and quickly took Qin Chen away from the Wangu Building. Qin Chen thought that the people who could help him obtain the qualifications must have some status in Yunzhou, at least they should live in the city center with the most holy spirit. He didn't expect Ruorui to take him to the most remote place in Yunzhou Prefecture.

Stopped.

What caught my eye was a small and broken refining shop. An old man who couldn't see his age was engraving something, with a focused expression and seemed to be very attentive.

This refining shop is remote and has no good things, so it is obviously impossible to have customers.

Qin Chen was a little puzzled as to how such a shop could make money, and the things in the shop were also very common, all of which were weapons of some local products.

"Senior Mu, Ruo Rui, the superintendent of Wangulou, pay respects to Senior Mu."

Ruo Rui respected the old man who focused on carving, and she bowed far away to salute before she got closer.

Qin Chen's eyes narrowed, is it because Ruo Rui is looking for this person for help? This was a bit interesting. He quickly checked the old man's cultivation base with his spiritual sense, but found that his spiritual sense could not be seen clearly, and he was immediately shocked.

Even a Heavenly Sage master like Wan Gu Lou Zhu could see the opponent's cultivation base, but this old man, he could not detect the opponent's cultivation base, which made Qin Chen not surprised.

Is it the Holy Lord?

wrong! Qin Chen discerned carefully, and still faintly sensed the other's cultivation base. This old man is still a heavenly saint, but his aura is extremely restrained. The breath that occasionally escapes is like a vast ocean, like an abyss, more than the owner of the Wangulou

It's much scarier.

This is definitely a stronger master than the original poster of Wan Gu Lou.

The middle of the holy days.

Or later?

Qin Chen was surprised.

Now he can face the early days of Heavenly Sage without fear, but he doesn't know what he will do to the powerful in the middle and late stages of Heavenly Sage. Now it seems that before breaking through the Heavenly Sage, he still cannot underestimate the people of the world.

"What is your little girl looking for me again?"

The old man seemed to have no temper at all, but he was not very enthusiastic about Ruo Rui. He still carve the things in his hand, but after saying this, he glanced at Qin Chen. It was obvious that Qin Chen had just checked his cultivation level with his spiritual mind. Known by him.

Qin Chen's heart shuddered, and he firmly believed in the guess in his heart. The general Tiansheng early warrior may not be able to feel his soul exploration. This old man is not easy, and immediately went forward and said: "Junior Qin Chen, I have met senior."

Only then did Qin Chen see clearly that what the old man was carving seemed to be a portrait, and the carving was not beautiful, crooked, and did not use the half-dividing rule and power at all.

However, at the level of the old man, even without any rules and holy essence, the control of the physical body is already accurate, and it is impossible to carve this crooked twist.

Qin Chen frowned and looked.

At this look, his eyes condensed.

boom!

This sculpture seemed to contain unpredictable rules of heaven and earth, which attracted Qin Chen's sight at once. At this moment, what Qin Chen saw was no longer a sculpture, but a woman, a beautiful woman, with a graceful posture, like a nine-day fairy, falling from the sky. The Taoism contained in this sculpture shocked Qin Chen.

#### [Chapter 2642: Saint Soldier Advisor](#)

It's amazing, it's amazing.

Qin Chen had never seen such a terrifying sculpture, which pointed directly at the human heart and contained the rules of heaven.

He can be sure that the carving in the hands of this old man does not contain any rules of heaven and earth and holy origin, but it can make him seem to see endless everything, because the carving itself contains the highest heaven. However, this kind of heavenly temperament is very special, and ordinary people can't detect it at all. Qin Chen has absorbed the origin of the Tianwu Continent to break through. Tianwu Continent is the source continent formed when the universe was opened, and only then can he see this statue. One

Sitiandao breath.

"what."

The old man suddenly glanced at Qin Chen in shock, then turned his right hand, and he put away the human statue. He nodded to Qin Chen, then looked at Ruori, shook his head and said: "I knew that you should have been cheeky and refused to accept your invitation from the chief owner of the Wangu Building to serve as a consecration, the little girl said. You are in trouble again

What's up with me? "After listening to the old man's words, Ruo Rui sighed for a long time. She was really like a girl in front of the old man, and said respectfully: "Senior Mu, this is our VIP Qin Chen from the Eternal Building. He wants to participate. The appraisal of the craftsman who worked in the sky, but

Now his skill in refining has not been recognized by Guanghan Mansion. If he follows the normal procedures, at least he will have to wait until after the Tianxue Appraisal, so..."

"Do you want me to help him pass the appraisal of the refiner certification? Then help him sign up?"

The old man said with an urn voice, his tone seemed disdainful.

Ruo Rui immediately reverently said: "Yes, Senior Mu, this is what our Tianxing branch poster meant."

She hurriedly took out the token of Tianxing Zhenren and handed it to the old man. Qin Chen heard the voice of the old man's urn and knew that the old man was probably unwilling to help. After hearing Ruorui's words, he couldn't help but wonder, could the real man Tian Xing move this old man? This old man absolutely must be a real person in the sky

It seems to have something to do with the main building of Wangu Building. Would you care about the attitude of a Yunzhou sub-host?

Unexpectedly, after the old man took the token, he waved his hand speechlessly: "That guy Tianxing... is willing to use an opportunity for this guy, no matter." He glanced at Qin Chen suddenly and said: "This The little guy is a little bit interesting. For the sake of you and me, I will help you once today. Your name is Qin Chen, right? Okay, you take this jade medal and give it to the people at Yunzhou Qige. What is it?

Just say it, but the assessment of daily work is not that easy. Young people, don't let the old man down. "After speaking, he threw a black jade medal to Qin Chen, and then said: "Remember, kid, you owe me a favor. The old man is not because of the real man who helped you, but because of you and me. Helpful. Go, don't delay the old man carving

Engraved. "

This is a direct eviction order.

Ruo Rui and Qin Chen looked at each other, not sure why the old man would say such things, but Ruo Rui saw the opportunity quickly and immediately took Qin Chen to bow and salute, and then withdrew from this simple refining shop.

On the way, Ruori looked at Qin Chen curiously: "Pavilion Master Qin, do you know Senior Mu? Why would Senior Mu help because of you? And said you owe him a favor?"

This old man Mu has a weird temper, and sometimes he doesn't even sell the face of the host, Ruori is the first time seeing him say this.

Qin Chen also had some doubts in his heart, "This is the first time Ben Shao saw this person. I don't know why he should give me a face." He was really puzzled, and he was not happy in his heart. This old man has an extraordinary status and his cultivation is rebellious. God, the personality is also very eccentric. In Qin Chen's opinion, nothing is dedicated to courtesy, and if anyone is treacherous, it is stolen, and this old man surnamed Mu is equivalent to being courteous, but it is

I still can't see why he wants to do this, coveting something on his body.

Qin Chen didn't think that the other party valued his talent and wanted to help himself. He didn't believe that there was such a kindly helpful power in the heaven.

"Senior Mu acted unreasonably, perhaps because he had taken a fancy to Pavilion Master Qin's extraordinariness." Ruo Rui's eyes on Qin Chen became different again.

"Who is this Senior Mu?"

Qin Chen frowned, and asked a little bit of worry. Ruo Rui said with respect in her tone: "Senior Mu is the top crafting master of our Guanghan Mansion, the honorary elder of the Guanghan Mansion Pavilion, and the worship of our Wangu Tower. Besides, he is the Guanghan Mansion. Mr. Mu likes to travel and is accustomed to traveling between different states. When he came to Yunzhou Prefecture hundreds of years ago, the headquarters informed the host and asked him to serve carefully, because Mr. Mu just arrived. In Yunzhou, he did several things for Senior Mu,

Therefore, the original poster has the qualification to ask Senior Mu for help. "However, Senior Mu has a very strange temper. Although he is willing to help the host, he doesn't want to see the host, because the host had been with Senior Mu for a hundred years in order to gain the favor of Senior Mu, and he almost came after him. Did not put Mu

Senior annoyed to death. "

Ruo Rui couldn't help but laugh when she said this, this incident is also a funny thing in Wangulou.

Qin Chen was speechless, the owner of the dignified eternal building, the master of Heavenly Sage, was actually willing to be the other party's follower for a hundred years, and everything was fine and meticulous. No wonder this old man didn't want to see the real Tianxing. However, Qin Chen did not expect that this old man would be a top craft refiner: "Guanghan Mansion's Saint Weapon Advisor? I see that the Saint Weapon on his shop seems to be only local level? And the refining technique seems to be good. Not very good, such a person actually

Can you become a sage advisor in Guanghan Mansion? "

Qin Chen claimed that his eyesight was extraordinary, and the treasures on the old man's shop were basically at the local level, and on the surface they were nothing special. Ruo Rui smiled faintly: "These are all things that Senior Mu refined casually, and you don't know what materials Senior Mu used to refine these treasures. What he uses are the most common things I see. I heard from the host

, When he was following Senior Mu, once he saw a brick on the road, took it back, and refined it into a sage soldier with amazing power. "

"what?"

Qin Chen couldn't help taking a breath of air, and being able to refine the Saint Soldier with any thing was simply appalling.

Just like the emperor no matter how powerful it is, it is impossible to use weeds to refine the medicine. This is because the emperor's comprehension is still in the most basic refining and refining of materials. Of course, it's different when it comes to the Holy Realm. Especially Qin Chen got the inheritance of Tianmengong, and he understood that once the refiner cultivation reached the top level, only his own perception of heaven and earth could make ordinary materials glow with terrible power. .

#### [Chapter 2643: Yunzhou Qige](#)

But in order to achieve this, it is not only necessary to have an extremely high level of attainments in refining tools, but also to achieve an incomparably astonishing level of understanding of the way of heaven.

At least the current Qin Chen couldn't do this.

Perhaps in terms of inheritance, this old man may not have a terrifying refining inheritance like Butiangong, so that the future of the old man is not as infinite as Qin Chen, but in terms of current refining strength, this old man definitely surpasses Qin Chen. of.

"It's no wonder that the old man used an ordinary wood carving before, but he was able to carve such a terrifying mood. If he has the opportunity, he can communicate."

Qin Chen secretly said in his heart.

Although he got the inheritance of Patching Heaven Palace, he has too little experience after all. If he can communicate with a top refiner master, he will surely make his refinement attainments progress by leaps and bounds.

However, the most urgent matter is to pass the assessment of Tianzuo first. As long as you enter Tianzuo, you will naturally see countless master refiners.

This is also the reason why Qin Chen wants to join the work of Heaven. Although he has received the inheritance of Tianjiagong, he has too little experience. Refining tools can be more than inheritance.

This is the same as building an aircraft carrier. It gives you blueprints to let you know the theory and the structure of each part. You can't build it. There are too many thresholds.

"Senior Mu is so powerful, didn't he join Heavenly Work?" Qin Chen asked, suddenly thinking of something. "Senior Mu has always been accustomed to wandering. As far as I know, he seems to have joined Tianjiao. After all, as long as a top craftsman, he rarely does not cooperate with Tianjiao, but it is only a form of worship. He does not work in Tianjiao. , But if Tiangong

The author knows that he is in Yunzhou, and after a few days of work assessment, he may invite Senior Mu to serve as an examiner. "

Qin Chen nodded.

Yunzhou Qige, located in the core area of Yunzhou, belongs to the certification department of a craftsman under the command of Guanghan Mansion. The Celestial Realm is the same as the Tianwu

Continent. Although the various residences are divided and governed by each other, a unified professional organization has been established for the professions such as the refiner, alchemist, and formation mage.

rule. However, the professional organizations between the various provinces are not connected to each other. For example, the device pavilion of Guanghan Mansion was established with the support of Guanghan Mansion, Yaomie Mansion was naturally established with the support of Yaomie Mansion, and the two were even called the same. Ge, there will be two totally different

Related forces.

On the contrary, it is a great power like Tianjiao that spreads across the entire celestial realm, which will connect some refiners. Just like the Tianwu Continent, Guanghan Mansion's Qi Pavilion is also an extremely powerful branch of Guanghan Mansion. The buildings in Yunzhou are also extremely luxurious. Qin Chen followed Ruo Rui into the Yunzhou Pavilion branch, and he felt the whole The Qige branch is very noisy

Miscellaneous noise.

In the hall, a lot of people were actually crowded, and some powerful people in the Qi Pavilion were maintaining order.

Qin Chen was taken aback, is this Guanghan Mansion's Pavilion so popular? Is everyone so short of weapons?

However, after listening carefully for a while, Qin Chen realized that these people were actually refiners who had been certified as ground refiners like himself.

Qin Chen glanced roughly. There were already tens of thousands of people in this hall, right? This is also due to the vastness of the Qige Pavilion's hall, and the average hall is definitely crowded. "Everyone, please let us go right away. If there is normal transaction and demand, you can line up, but if you are here for the appraisal of the refiner certification, please go back. The appraisal of the refiner certification of our Yunzhou Qige branch, Has been suspended, any

Anyone who wants to be certified must wait until the Tiangong Mixer's assessment. "

An old man came into the hall, and the rumbling roar passed and entered everyone's ears.

This immediately caused a commotion in the hall.

These craftsmen are all from Yunzhou, or even some states around Yunzhou. They rushed to the Yunzhou prefecture, but only after arriving did they know that if you want to participate in the examination of Tianzhu craftsmen, the lowest standard is local products. Mixer. And there are many people here. Their professional certifications are at the pinnacle of Mortal products. Some have not yet reached it, and some have missed the assessment of land products. After receiving the news, they rushed to Yunzhou's Zhige to be certified. But who ever thought Yunzhou Qige

The certification of the ground refiner was suspended, which made them not anxious and angry.

Without the qualification certification of the local craftsman, they don't even have the qualification to sign up, and it is impossible to join Tianzuo. "You guys, the assessment of the work of heaven was not

set by our cabinet. Moreover, our cabinet has already set a time for the centralized certification of land products. You are either late or because you didn't have enough qualifications, you can't. Blame us. It's the pavilion. This is the rule of the day's work. Please leave as soon as you want to be certified as a master craftsman. "

The old man's eyes were cold, and he said with a cold voice.

These refiners still wanted to make a fuss, but inside the Pavilion, a group of aggressive warriors had come out, and the great formation opened, and a terrible force filled with them. Suddenly, these refiners had no choice but to curse one after another. Retreat.

Qin Chen touched his forehead, this was too exaggerated, too crazy.

How did he know that for some ordinary crafting masters, the assessment of the work day is even a chance they will encounter in their lifetime, how can they not be crazy?

But there are still some refiners who are unwilling to leave like this.

"Guan Shi, I belong to the Nanoha family. I missed the certification because I didn't make it in time, so I'd like to ask Guan Shi to save face."

"Guanshi Xu, I have a letter of recommendation from Zuo Feng, Lord Tiansheng, and I also ask Guanshi Xu to raise your hand."

"Xu Guanshi..."

These people have backgrounds. For example, the family of Nanoha, the Yunzhou forces that are not weaker than the family of Soulfire, all want to pass the back door to come to the certification test. "I'm sorry, this rule is stipulated by Tianzhu and Qige. No matter which force recommends it, you must abide by it, even if it is the master of Yunzhou state. Let's not hide it from you, there are several disciples in Yunzhou Qige. I couldn't get through

If you have passed the certification, you are also not eligible to participate in the daily work assessment. Please leave it all. "

This Xu Guanshi didn't recognize any favors, and directly refused the guests.

Various groans and sighs sounded, and these refiners had no choice but to leave one after another.

Guan Shi also breathed a sigh of relief. To be honest, countless forces and countless refiners were responsible for his crimes, but he couldn't help it.

"Xu is in charge."

Just when he was about to leave, a voice rang, and then a woman from Feng Yun came with a young man.

"It turned out to be Supervisor Ruori. I don't know why Supervisor Ruorui came to our cabinet?" Guanshi Xu asked Ruori immediately when he saw Ruori.

[Chapter 2644: Saint Mugutian](#)

Although Xu Guanshi had a tough attitude before, his tone was very polite when he saw Ruorui. Obviously he knew Ruorui's identity as the director of Wangulou. Wangulou has an extraordinary status in Guanghan Mansion, and he naturally doesn't know how to manage Ruorui. Freely crime.

"Guan Shi, we are here to find Deputy Pavilion Master Ge who presides over the certification of the refiner." Ruo Rui did not say that she was here for the certification of the refiner.

Guanshi Xu glanced at the young and outrageous Qin Chen suspiciously. What does it mean that Director Ruo Rui came to the deputy pavilion master Ge who presided over the certification of the refiner? Is it necessary to conduct the certification of the refiner? Guanshi Xu immediately shook his head and said: "If Director Rui came to see Deputy Pavilion Master Ge for the refiner certification, then I am really sorry. Before the Tianxue assessment, the refiner certification has been suspended and can only wait for days to work. Come after the assessment

Up. Ruo Rui seems to know that Guanshi Xu will say so, she smiled and said: "I know, Guanshi Xu, this is Pavilion Master Qin, a VIP guest of our Wangu Building, he came to Fu Ge, who is certified by the master refiner. Lord, because he was respected

The heavy senior entrusted him and asked Guanshi Xu to inform him on his behalf. As for how Deputy Pavilion Master Ge considers, I think Guanshi Xu can't mention Deputy Pavilion Master Ge's decision yet? "

Manager Xu glanced at Qin Chen suspiciously, but saw that Qin Chen was extremely calm, and there was an inexplicable breath of palpitations escaping from his body, he hesitated, and finally nodded and said: "Wait a minute, I'll report it. Deputy Pavilion Master Ge."

The director of the Wangulou came personally, no matter what the other party has, this aspect of face must be given, even if it is refused, it should be rejected by Deputy Pavilion Master Ge.

Guan Xu left soon.

Qin Chen and Ruorui waited in the hall. Qin Chen looked around slightly. In the entire hall, the space was folded and heavily guarded, and there was a terrible atmosphere everywhere, but it seemed to be a little bit worse than the Wangu Building.

It didn't take long for Mr. Xu to come over again and say, "You two, please follow me."

Ruorui smiled slightly, and Qin Chen followed Guanshi Xu to a room inside the device pavilion. Before the two entered the room, they felt a faint formation fluctuation and a strong holy atmosphere inside.

Guan Shi just brought Qin Chen and Ruorui to the door of the room, and said respectfully to Li, "Deputy Pavilion Master Ge, the person has already been brought, and the subordinates retire first."

After Guan Shi retired, a slightly hoarse voice came from the room, "Come in."

After Qin Chen and Ruorui entered the room, they saw an old man who was studying a sage soldier. He had a shaggy beard and a terrible aura. He was actually a half-step heavenly sage master.

However, this person's half-step Heavenly Sage breath is more energetic than Li Luo, and obviously, there is still a chance to step into the Heavenly Sage.

"It turns out to be Ruorui girl in Wangulou. I don't know what wind is blowing Ruorui girl here?"

The old man glanced at Ruorui and laughed, but his tone was obviously polite. Ruorui didn't mind, she smiled, and said straight to the door: "Vice-Guardian Ge, this is the VIP Master Qin from the Eternal Building. Master Qin is going to take part in the next examination of Tiangong's craftsman. The Lord hasn't gotten the local refiner

Seriously, so..."

Another guy who came through the back door.

The deputy pavilion master Ge has already put a label on Qin Chen and interrupted Ruorui directly and said: "Ms. Ruorui, this is really sorry." He frowned: "If Miss Ruorui is another time If you want to be authenticated, how can the old man have to do things for you in Wangulou, but it is indeed not possible now. This time the regulations are negotiated by Tianjiao and Guanghan Mansion.

Here, even the lord of our Pavilion may not dare to break this rule, let alone the old man..."

Ruorui didn't wait for him to finish speaking, and smiled and said: "Vice pavilion master Ge, this pavilion master Qin was not stuffed in by our Wangu Tower, but was arranged by Senior Mu. I think that after the pavilion master knows, I should not refuse..."

Qin Chen saw the opportunity. As soon as Ruorui said this, Qin Chen had already taken out the jade card and handed it to the deputy pavilion master Ge.

"Haha, Senior Mu? Which Senior Mu? The rules set above are useless even if the Lord of Yunzhou comes here!" Deputy Pavilion Master Ge sneered and took Qin Chen's jade card, although it was a questioning tone. There was already a trace of impatience in his tone. He naturally knew the greatness of Wangulou, and thought that Wangulou wanted to put pressure on Qige through some expert.

Some dissatisfaction, the disdain and coercion in the tone have already hit his face.

If it weren't for Ruorui's background, Deputy Pavilion Master Ge would even have to rush people.

Ruorui smiled slightly, and said calmly: "It's Senior Mu Gutian, the holy instrument."

"What? You mean Senior Mu Gutian? The honorary elder Mu of our Pavilion?"

Before this, Deputy Pavilion Master Ge, who had a trace of disdain and questioning in his tone, stood up Huo Di, his face became more cautious, and there was no more randomness. "Yes, I think in our Guanghan Mansion, there is only one Senior Mu Gutian who can have the title of Tool Saint. This Pavilion Master Qin has some connections with Senior Mu Gutian, so Senior Mu Gutian asked me to bring Pavilion Master Qin. Here to get the certification of the mixer, and then refer to

Plus day work assessment. "

Of course Ruori knew Mu Gutian's position in Qige's mind. She even said that Qin Chen was related to Mu Gutian, and it was Mu Gutian who asked them to come over, not the Mu Gutian they were looking for.

"You mean, Senior Mu Gutian is also in Yunzhou?" Deputy Pavilion Master Ge was taken aback, "Wait a minute, I can't be the master of this matter, so I have to ask Master Pavilion Master."

After Deputy Pavilion Master Ge finished speaking, he immediately sent out a message, and the whole person even felt fidgeting. Qin Chen secretly exclaimed. It seems that the heavens are the same as the Tianwu Continent. The so-called rules are just to see if your backstage is so hard to break the rules. In front of the real strong, there are no rules at all, because they are rules.

Sure enough, it is for strength, the strong is respected, not just talking, and this deputy pavilion master Ge does not even know that Mu Gutian is in Yunzhou, obviously his level is not enough.

It's only half the time.

boom!

A terrible breath suddenly descended, and an infinite holy spirit lingered between the heavens and the earth, and an old man who looked like 60 or 70 years old suddenly appeared in the room.

This person has a pale face and a ruddy complexion, and his body is surging with tyrannical holy energy fluctuations. As soon as he enters, he stares at Qin Chen, "Are you the refiner that Senior Mu called?" Qin Chen immediately understood that this should belong to the Yunzhou Pavilion. The pavilion owner said immediately: "It's the junior, Qin Chen, who wants to participate in the examination of Heavenly Work Refining Equipment, but he has not yet been certified by the Refining Master."

#### [Chapter 2645: Thirty breaths are enough](#)

This old man's cultivation has reached the realm of Heavenly Sage impressively, and the whole person is standing here, like a vast ocean, as if blending with this world.

Although Qin Chen knew that Yunzhou was like a cloud, he had seen several Heavenly Sage masters these days, and it was really extraordinary in a place like Zhoucheng. Only here can he see real masters.

While the old man was speaking, he had already received the jade medal for the first time, his eyes condensed, and he nodded and said: "This jade medal is indeed something of Senior Mu Gutian, and it has the exclusive imprint of Senior on it. It can't be wrong." The pavilion master of Qi Pavilion only said these words, and did not continue to ask Qin Chen about Senior Mu, but returned the jade medal to Qin Chen, saying: "Since Senior Mu arranged it, then naturally there is no problem. Do you want to recognize the local craftsman

certificate? I don't know what level of certification you are now? Fanpin peak? Or what level? "

"Junior hasn't been certified by any refiner yet." Qin Chen said.

"what?"

The Pavilion Master and Deputy Pavilion Master Ge were all stunned. They looked at Qin Chen in disbelief. They thought that since Qin Chen came to authenticate, at least it was from the late Mortal rank or the pinnacle. Who knew that even the refiner's identity No.

If it wasn't that the other party was recommended by Senior Mu, the Pavilion Master even had the urge to hack Qin Chen on the spot. Isn't this just playing tricks? He said in a deep voice: "Are you sure you want to be certified as a local craft refiner? Although you have the jade medal of Senior Mu, this pavilion master can certify for you, but it does not mean that you will pass, you have to think carefully. I mean, Senior Mu's

A favor is no small thing. If you don't have the strength of a local product, just to participate in the assessment of Tian's work, you take the liberty to come here, it would be too wasteful. "

Qin Chen said lightly: "Although the younger generation has not been certified as a refiner, the refiner of the ground grade is nothing, and there should be no problem."

After hearing this, the master of the Pavilion shook his head slightly. He was originally very curious about the young man recommended by Senior Mu, but when he heard this, he completely lost interest.

Crazy, too arrogant.

Although the appearance of a strong man in the holy realm can remain youthful forever, he can still feel Qin Chen's age from Qin Chen's breath of life.

It's a bit arrogant that such a young man arrogantly said that the place came from is actually nothing. "Well, in that case, the pavilion master won't say much, and don't go to the certification room. There is a Saint Soldier at the pinnacle of Mortal Product. You can use the materials in this room as you please. Need to put this mortal product on top within three days

The holy soldiers of the peak are promoted to the early stage of the land, even if you pass the assessment. "

"But if you can't do it, don't blame us for not giving a chance, let's get started."

The Pavilion Master waved his hand and was too lazy to say anything to Qin Chen. He threw out a Saint Weapon at the pinnacle of the Mortal Grade, placed it on the refining platform, and then stepped aside.

Although Ruori brought Qin Chen here, she didn't know what Qin Chen's accomplishments in refining equipment was, and she couldn't help looking at Qin Chen nervously.

It is definitely not an easy task to build a holy weapon at the pinnacle of a mortal grade into a holy weapon in the early stage of the earth grade in three days, otherwise there will not be so many people outside who have not passed the earth grade refiner. The assessment has been made. Moreover, Ruo Rui knows very well that the normal evaluation of a ground-grade craftsman only needs to refine a ground-grade holy soldier. There is no time limit at all, and the assessment given to Qin Chen by the master of the pavilion is Within three days of the specified time, one handle

Van Pin Saint Soldiers were transformed into Land Grade Saint Soldiers.

It seems simple, but in fact it is much more difficult than the normal appraisal of the local craftsman. After all, everyone has their own field of expertise. Refining a brand new holy weapon can be compared to transforming others' holy soldiers. Much easier.

"My Lord Pavilion, after all, this person was recommended by Senior Mu. If we are like this, is it a bit too much? If Senior Mu knows about it, then..."

Deputy Pavilion Master Ge stood by the Pavilion Master Qi, and asked with some worry, he naturally saw the difficulty of the assessment. "Hmph, don't worry, Senior Mu will not be angry about this little thing. The purpose of this assessment is obviously to participate in the assessment of Tian's work. Although the questions presented by the master of the pavilion are somewhat difficult, they are more difficult than the assessment of Tian's work. Is too easy,

If he couldn't even do this, then it would be impossible to pass the assessment of Tianzhu, and Senior Mu would naturally not have any opinions. Young man, too mad, give him a little difficulty, so that he can know that the sky is thick. "

The master of Qige Pavilion said coldly.

Qin Chen naturally saw the meaning of the pavilion master, so did he have a little difficulty to see it? However, he didn't care at all, walked forward and picked up the mortal pinnacle holy soldier on the refining stage.

Just after a few glances, Qin Chen couldn't help shaking his head.

"What are you shaking?"

The Pavilion Master frowned.

"I see this saint soldier, there are too many faults, I am really sorry."

"Too many problems?" Pavilion Master Qige sneered in his heart, and couldn't help being even more disappointed. Qin Chen couldn't improve, did he say that on purpose?

How could Senior Mu recommend such a guy to come? He shook his head and said: "Young man, if you can't promote this holy soldier to a land grade, then just give up and don't waste time. But I hope you know that it is not the pavilion master who embarrassed you, but If you can't even do this,

It is impossible to pass the assessment of Tian's work. "

"Can't upgrade the ground?" Qin Chen smiled, Qiang. He held this holy soldier in his hand. It was a long sword with a length of three feet three and \*\*\*\* wide. The surface of the sword was like a mirror. The light can reflect people, shake lightly, there are dragons and cranes, the sound is clear, and it is even more compelling

The chill is blooming, touching, as if it can freeze people's hearts. "The main material of this long sword should be ten thousand years of stars and meteorite iron, combined with a thousand years of ice. These two materials are cold-attribute materials, and the two are combined to make a holy ice-attribute. Soldiers, it's a pity, the refining technique is rough, the formation

The engraving of the law was full of errors and omissions, so it was only the pinnacle level of the Mortal Product. "In fact, with the two materials of Ten Thousand Years Stars, Meteorite Iron and Thousand-Year Ice Apparitions, this Saint Soldier should be at least the mid-level, or even higher level. It's a pity that the refiner is in the process of refining, It may be because of insufficient cultivation level, so I joined Gu Dun

The stone neutralized the two materials. "

"In this way, although the difficulty of refining these two materials is lower, the characteristics of the materials are also destroyed, so only this kind of mortal peak holy soldier was refined. The defeated product is really a defeated product. ."

"If you want to upgrade it to a local grade, you don't need to do anything. You only need to refine and remove the ancient pier stone, and re-exhibit the characteristics of the ten thousand-year star meteorite iron and the thousand-year ice soul."

"Three days? Too long, thirty breaths, this young man can do it." Qin Chen's voice fell, his eyes burst with cold light, and he moved instantly.

#### [Chapter 2646: Ancient Artifact](#)

Boom!

He stretched out his hands, and immediately, this saint soldier appeared in his hands, and at the same time, Qin Chen had already displayed Youkong Bingyan.

Hum!

A breath of cold flame that permeated people's heart, suddenly diffused.

"Huh, what kind of flame is this?"

Pavilion Master Qi and Deputy Pavilion Master Ge felt the icy flame, and they were shocked, apparently they could not recognize the flame in Qin Chen's hand.

With their identities and status, they knew a lot about the flames of the heavens, but it was the first time that Youkong Bingyan saw it, and this kind of flame was familiar with both space and ice, which shocked both of them. There are some differences between the refiner and the alchemist. A good alchemist must have a strange kind of fire, because the effect of the fire is too important for the refining of the pill, but the refiner only needs to have a deeper knowledge in the formation. That's it, because a lot of practice

When using the device, there is not much difference between the effects of the strange fire and the powerful fire.

This also led to the fact that even in Yunzhou Qige, there were very few refiners with strange fires, and the young man in front of him was able to come up with such a terrifying flame, which was obviously beyond their expectations.

However, what Qin Chen said before made the faces of Pavilion Master Qige and Deputy Pavilion Master Ge even more ugly after shock.

Thirty breaths can do it. What does this kid think of a refiner? Although the promotion of the Saint Weapon of Mortal Pinnacle to Terra is nothing to some top level refiners, but even the pinnacle refiner like Deputy Pavilion Master Ge does not dare to say that he is here. Thirty breaths can hold a piece

The holy soldiers of the peak are promoted to the ground.

Qin Chen's arrogance made the two more unhappy.

Especially Qin Chen's refining at this moment, there is no way to speak, but the material in it.

Hum! The terrifying ice flames in the empty sky bloomed, and the road runes in the void were burnt out. The three of the pavilion masters immediately saw that dense dot-shaped holes appeared in the saint soldier long sword in Qin Chen's hand. This is because of the ancient piers inside

It's been refined. "This kid is really nonsense. Although the existence of the ancient pier stone will destroy the fusion of the 10,000-year star meteorite iron and the thousand-year ice appetite, its function is to fuse the two materials as a neutralizer. In this way, he completely removes the ancient pier stone. Refining, the structure of the Holy Soldier

There will be changes, the formation engraved on it will collapse, it will only destroy the holy soldiers and completely turn them into waste. How to improve the quality. "

The pavilion master of Qi Pavilion shook his head again and again, and he didn't even bother to watch Qin Chen continue refining.

It's just that he just finished speaking, those empty places have shed a terrible light, and a trace of invisible power has been born to fill these gaps.

"what is this?"

All of them were stunned. Are they dazzled?

No, this is the material of Ten Thousand Years Star Meteorite and Thousand-Year Ice Apparition that has been extended under a certain special force to supplement these empty places.

Boom boom boom!

I saw Qin Chen squeezing the tactics with both hands, and a wave of power kept pouring into the holy soldier, the aura of the holy soldier was increasing at an astonishing speed.

boom!

At a certain moment, the sword of the saint soldier glowed with radiance, and a saint soldier's breath that represented the land quality suddenly diffused.

Above the long sword, the rays of light swallowed and the aura was shocking, and it was obviously improved.

Thirty breaths, not long and continuous, just right.

Qin Chen tossed his hand and the holy soldier fell into the hands of the pavilion master of the pavilion, "Pavilion master, the junior refining is over, please check it out."

The pavilion master's eyes were already staring straight, looking at the Saint Soldier in his hand, this Saint Soldier, with a strong aura, had obviously entered the realm of ground grade, and was the peak realm of the initial stage of ground grade.

It only took 30 breaths to upgrade from the peak of the Mortal Grade to the peak of the Early Stage of the Earth Grade. If it weren't for the fact that he was holding this holy soldier at the moment, he would even think he was dazzled.

"This kind of structure, this kind of texture, is the ancient crafting technique!"

After all, the pavilion master of Qi Pavilion had extraordinary vision. After being shocked, he looked carefully and immediately saw the clue that Qin Chen used a technique for refining weapons that had been lost from ancient times.

It is indeed the person recommended by Senior Mu. I thought the other party was too arrogant before, but now it seems that I was too conservative.

"My Lord Pavilion, I don't know if the junior's refiner certification has passed?" Qin Chen bowed.

"Passed, naturally passed."

The master of the pavilion smiled bitterly, if this is not passed, who can pass. And he could feel that Qin Chen had not fully displayed his abilities, because what Qin Chen did was only to change the materials and structure of this holy weapon. In fact, the strength of a weapon, and Material related, structure has Guan is also related to formations and so on.

If Qin Chen changes the above formation, then maybe this Saint Weapon has already been upgraded to the middle stage. In other words, although Qin Chen is young, he is at least a mid-level crafting master, and he is also the best among the mid-level crafting masters, because it only costs God to improve the quality of this holy soldier. Thirty breaths

. It's no wonder that Senior Mu would recommend this person over. With his talent, not to mention that he will definitely pass the test of Tianzuo, but the hope is already great, even because of his age, compared to some late-stage craftsmen Master, I hope all

Not weak at all.

At this moment, the pavilion owner of the Pavilion of Qi was even a little looking forward to Qin Chen's next performance in the appraisal of the Tiangong Craftsman.

But at this moment, the communicator on the pavilion master of this device suddenly lit up. After the pavilion master of the device swept his consciousness, his eyes changed slightly. It was obvious that he had received some important information.

He immediately said to Qin Chen: "Young man, this pavilion master apologizes for what he said before, deputy pavilion master Ge, you will immediately help him obtain the certification of a local craft refiner so that he can participate in the heavenly work refiner. Registration for the assessment."

"Yes, Lord Pavilion." Deputy Pavilion Master Na Ge hurriedly bowed. The Pavilion Master looked at Qin Chen again and said: "Young man, you are indeed extraordinary. However, like a martial artist, it is best

to have a heart of awe, awe of the world, awe of the refiner, and everything around you. Go further, this is also the book

The advice of the pavilion master, young man, I am very optimistic about you, so I hope you can succeed in the assessment. "

The main voice of Qige Pavilion fell, and he disappeared as soon as he flashed around. Obviously, the previous news was somewhat important to him.

"Pavilion Master Qin, Director Ruo Rui, please come over and go through the formalities."

At this time, Deputy Pavilion Master Ge has no pretensions to Qin Chen. Such a young refiner, who is highly valued by Senior Mu, will also participate in the assessment of Tian's work. Who knows what the future will be, naturally he should say hello early. .

Ruo Rui looked at Qin Chen in shock. From the manners of the former master of the Pavilion Pavilion and Deputy Pavilion Master Ge, she also saw that Qin Chen's skills are not simple, and Qin Chen's skills in refining are probably even greater than her original phenomena. terrible. Ruo Rui can't help but admire the poster's foresight.

#### [Chapter 2647: More confident](#)

Half an hour later, Qin Chen and Ruorui walked out of the Qi Pavilion, and saw that there were still in the Qi Pavilion hall there were successively coming to the Qi Pavilion to be certified as a local product refiner, but was driven away by the Qi Pavilion staff. The dust can't help feeling that there are still people who can do things well.

If it weren't for Mu Gutian, Qin Chen estimated that he would have no way to sign up.

"Pavilion Master Qin, the work refining appraisal and registration will be left to us in the next day."

After some experience, Ruo Rui was more polite to Qin Chen.

"Alright." Qin Chen nodded, took out the jade card and laughed: "I didn't expect Senior Mu's jade card to be so easy to use, but you can continue to use it next time."

Ruo Rui laughed suddenly after listening.

Just when Qin Chen was wondering why she was laughing, the jade card in Qin Chen's hand split instantly with a click, and in a blink of an eye it turned into a pile of ashes and disappeared.

by!

Qin Chen was speechless. It turned out that this jade brand was a one-time product, and he didn't even notice it, the master refiner. Seeing Qin Chen's deflated expression, Ruorui couldn't help but laughed. Only then did she feel the childishness from Qin Chen that was consistent with his age. Before, she felt it from Qin Chen. Only coercion and

Shocked, even thought this young man was an old monster reincarnated. After spending so much time, Qin Chen was finally qualified to carry out the refining assessment of Heavenly Work. Qin Chen did not

waste time and returned to the Wangu Building. However, this time, he did not practice, but began to conduct the entire Yunzhou survey

Next, Chendi Pavilion wants to establish its own stronghold in Yunzhou Prefecture, and naturally it must pay attention to the major forces in Yunzhou.

In the Wangu Building, as long as you have money, you can find any news. Qin Chen also learned a lot about the soul fire family that he had destroyed, and found that after the death of the ancestor, the soul fire family was also decisive, and some of the remaining family masters were only late on the first day of the soul fire family. Under the leadership of Xue, take refuge directly

The master of Yunzhou.

This Li Wanxue is very famous. He is Li Dongyu's sister, the top beauty and arrogant in Yunzhou.

In terms of talent and strength, Li Wanxue was much more terrifying than Li Dongyu. He had already broken through the earth sage cultivation base and was fully cultivated by the Soulfire family, and was the future heir of the Soulfire family.

Moreover, she had a deep heart, never rushing to get married, just to find a best place for herself, and eventually he found Yunmengze in Yunzhou Zhouzi. This time the ancestor of the Soulfire family has fallen. In order to improve her strength, she entered the ancestral land of the Soulfire family alone. After nine deaths, she directly stepped into the peerless land sage cultivation base. She has the hope of becoming the heavenly sage. She is now the true power of the Soulfire family. army head

I'm afraid this woman is itching for Cang Xuancheng and herself now. But Qin Chen didn't care much. No matter how strong this woman was, in Qin Chen's eyes, she was only a junior. She could even kill the ancestor of the Soulfire family, and was afraid of a younger generation of the Soulfire family? Not to mention the peerless earth saint, even if it's a half-step heaven saint, since

You can't kill yourself.

The only thing Qin Chen cared about was the Yunzhou Governor.

This is Yunzhou's true hegemon, giant, power-holder, and powerful. He has been a heavenly sage countless years ago. Over the years, he has been unfathomable and unfathomable.

This is a master who is countless times stronger than the ancestor Li Luo of the soul fire family, and should not be underestimated. Although Qin Chen was domineering, but always cautious, he would not think that he killed Li Luo and would be invincible in Yunzhou. The old monsters like the Lord of Yunzhou are just as unfathomable as the real person Tianxing, the Lord of Wangulou. People, even people as

The Lord of Yunzhou is more terrifying than the real person of Tianxing, otherwise how can he shock the many heavenly forces in Yunzhou?

Originally, there was no conflict between himself and the master of Yunzhou, but this time Li Wanxue actually had a marriage contract with Yunmengze, Zi Yunmen of Yunzhou.

Compared with Li Wanxue, Yun Mengze is even more famous in Yunzhou. He is the veritable first arrogant and the first to enter the realm of Peerless Divine Sage among the younger generation. Such characters, Peerless Divine Sage will never be him. The end of the world, Tiansheng is his goal. Now that the ancestors of the Soul Fire family have fallen, the Lord of Yunzhou doesn't really appreciate the remaining Soul Fire family disciples, but no matter what, Li Wanxue's talent is also one of the few in Yunzhou who is expected to impact the realm of Heavenly Sage. So her marriage contract with Yun Mengze

, is still there.

If the Yunzhou Governor targeted them at Chendi Pavilion for Li Wanxue, that would be what Qin Chen was more worried about. But fortunately, City Lord Ao Lie is also about to enter the realm of Heavenly Sage. In addition to himself, he is not afraid of anyone, and now he has reached a cooperation with Wangu Building. This Yunzhou Governor wants to make trouble, so he has to watch. , Don't accidentally break your tooth, then

Laughing and generous. Regardless of whether he is the head of the Yunzhou State, he is in charge of the entire Yunzhou, but there are some things that can not be done just by doing. The Chendi Pavilion is not a small force and has no full confidence. If he dares to do it, once he fails , I'm afraid it's a whole

All the forces in Yunzhou counterattack.

After all, no one would support a state owner who would kill the forces below Yunzhou at will.

While Qin Chen was thinking about it, three days later, Ao Qingling, Qin Tingting, and ancient medicine masters had already arrived.

"I wait, I have seen less dust."

When they saw Qin Chen, they were extremely excited. They thought that they would not meet Qin Chen for a long time. They had only been up for a month, and they had met again.

"Huh? Are you breaking through the peerless land holy cultivation for?"

Qin Chen glanced at Ao Qingling and Qin Tingting unexpectedly. They had terrifying auras. Between their gestures, the terrifying Earth Sage Origins surged, and they had clearly entered the realm of peerless Earth Sage.

Although the origin of the escaped Earth Sage is not stable enough, it should have not been long since the breakthrough, but it is a real peerless Earth Sage.

"Very well, you two have made a breakthrough, and this young man is even more confident."

Qin Chen was overjoyed. He greeted everyone to come, and there was a reason to establish a stronghold in Chendi Pavilion, but the bigger reason was that he hoped that Ao Qingling and Qin Tingting would be able to pass the martial arts assessment of Tianwork. In this way, even if they were not there, they would have enough Resources,

Enter the realm of Heavenly Sage.

As for the ancient medicine master, Shang Gukong and some peerless earth sages of the other Ao family, Qin Chen didn't return hope, and he didn't even have the opportunity to sign up for them.

The information of the Wangulou clearly stated that the assessment of the martial artist of Tianzuo is not for combat power, but for martial arts talent, soul power and combat skills. Although Shang Gukong and the others are also peerless sages, they are already too old and exhausted their potential. Although their strength is even higher than that of Ao Qingling and Qin Tingting, their potential is far worse than these two young people. Far.

#### [Chapter 2648: Yunzhou Branch](#)

"There are two main purposes for calling you this time. The first is that Ao Qingling and Qin Tingting are about to participate in the martial arts assessment of Tianzuo in Yunzhou. As for the ancient medicine master, the old man, you and the Ao family Adults, you need to establish in Yunzhou

The branch of Dust House. "

Time is urgent, Qin Chen doesn't talk nonsense, and directly dispatches the task.

Hearing this, everyone was surprised.

"A martial artist who works in the sky?"

Ao Qingling and Qin Tingting were both taken aback. They were from Cangxuan City, and they didn't even know what department Tianzuo was. Qin Chen didn't talk nonsense, and directly gave them the information.

"hiss!"

Ao Qingling and Qin Tingting were all shocked when they saw the work materials recorded in the Wangulou.

This turned out to be a great force spreading across the entire heavenly realm, even more terrifying than the Guanghan Mansion where they were located, so they were not surprised.

"Little dust, I... can we?" Ao Qingling and Qin Tingting were a little nervous, feeling that they would never pass the assessment. Although they have become peerless sages, all these are brought about by little dust. , The moment is too short, they have not cultivated the kind

Confidence.

"Hmph, what's wrong with this." Qin Chen snorted coldly, "Remember, you two are the geniuses of my Chendi Pavilion. You are already peerless masters at the young age. Why can't you work through the sky? The assessment? You have to believe in yourself, not to mention that other talents in Yunzhou can

Participate, why can't you participate? Could it be that the people in Chendi Pavilion are worse than the other top Tianjiao in Yunzhou? "

"Furthermore, this time in the Tianxue martial arts assessment, the competition is not for combat power, but for the assessment of martial arts talent, soul power and combat skills. Do you know why?"

"Is it to find genius?" Ao Qingling and the others guessed. "Yes, in this Yunzhou world, there are countless peerless earth saints. Although the peerless earth saints represent the pinnacle of the earth saints, they also have strengths and weaknesses. The longer you stay in this realm, your combat power will always improve. But in the heavens, the most important

After all, it is the realm. Your martial arts talents and soul power determine your speed of cultivation in the holy realm, and fighting skills are the key to victory in the same level. "So, the whole Yunzhou, there is really hope to pass the assessment, only those who entered the Peerless Divine Sage early, this is why I only signed up for the two of you, everyone else signed up, others Participated, too

It is absolutely impossible to pass, but you two, you are not very old, so hope is naturally great. "

"If you two believe me, I can guarantee that as long as you work hard, you are not a question of whether you can or not, but a question of where to join."

Qin Chen looked at the two with scorching eyes.

really?

In Shao Chen's mind, he still has such a position?

Ao Qingling and Qin Tingting only felt that their faces were flushed, their hearts were boiling, and their confidence surged.

Yes.

Even Shao Chen believes in himself, so what is there to fear himself? What can't be done in front of Shao Chen?

In order to keep up with Chen Shao's footsteps, joining Heavenly Work is undoubtedly the best way.

"Less dust, we understand."

Ao Qingling and Qin Tingting made up their minds instantly and must pass the assessment.

For Qin Chen only allowed Ao Qingling and Qin Tingting to participate in the assessment of the Heavenly Work Martial Artist, the ancient medicine masters naturally did not have the slightest opinion, but the group of people was still worried when they established the branch of the Chendi Pavilion in Yunzhou.

First of all, the problem of the store is difficult to solve.

The stores in Yunzhou are not too expensive. The most important thing is that some of the top stores have been taken by many top forces, and the branch of Chendi Pavilion in Yunzhou cannot be opened in the cloud. A remote place in the state?

But after they learned that Qin Chen had already settled the shop from the Wangu Building, everyone was shocked.

Wan Gu Lou is a local force in Guanghan Mansion. Compared with Tian Zuo, they still have an understanding of Wan Gu Building. This is a top power in Guang Han Mansion, and its branches are spread across countless prefectures and cities in Guang Han Mansion.

Qin Chen has only been in Yunzhou Zhoucheng for more than half a month, and he has already been in a relationship with the Wangu Tower. How can ancient medicine masters not be shocked?

Moreover, Qin Chen also said that Chendi Pavilion will cooperate with Wangulou in the future, which almost made the ancient medicine masters and them crazy.

With this foundation, the ancient medicine masters immediately said that it only takes a few days for them to build the team of the Wangu Tower. Soon, under the hands of the ancient medicine masters, the stronghold of Chendi Pavilion was erected in Yunzhou. The shop given by Wangulou, located in the center of Yunzhou's power, appeared such a brand new force, which naturally attracted Many Yunzhou Peaks around

The attention of level forces.

Only one day later, the information of Chendi Pavilion was inquired by these top forces.

After discovering that Chendi Pavilion was actually a top power that had commanded the four major cities of Yunzhou including Cangxuan City, Tianyue City, Ancient Language City, and Fengyun City, these top Yunzhou powers were all taken aback.

When did Yunzhou silently emerge such a terrifying force?

What shocked them even more was that this Chendi Pavilion seemed to be dominated by the Ao family of Cangxuan City. Above this Ao family, there was also a Chendi Pavilion master, who was a very mysterious young man whose cultivation was said to be Tongtian. , An extraordinary identity.

The Ao family used to be the top power in Yunzhou, and it also had a huge territory in Yunzhou. Later, it declined and ended up in Cangxuan City, and some veteran forces naturally knew it.

But what happened to the pavilion master who suddenly appeared?

What made these forces even more shocking was that the sudden decline of another top power in Yunzhou, the Soulfire Family, was exactly what this Chendi Pavilion did. Li Luo, the ancestor of the Soulfire Family, was said to have died in Cangxuan City.

As soon as this news came out, many forces in Yunzhou naturally shook.

Moreover, the shop where Chendi Pavilion was located was originally the site of the Wangu Tower. When did the Ao family get in touch with the Wangu Tower again? These news have caused many forces in Yunzhou to talk and speculate in secret.

However, the assessment of the work of the day is about to be held in Yunzhou. In the face of such a major event, other forces naturally have no time to take care of the establishment of the Chendi Pavilion.

They will not pay attention to all things until Tianjiao's assessment. The most important thing in Yunzhou today is Tianjiao's assessment, and everything else must be sidelined.

But these Yunzhou forces don't care, and it doesn't mean that others don't care.

The main mansion of Yunzhou Prefecture.

"What? What are you talking about, that Chendi Pavilion opened the shop to Yunzhou, right in the center of Yunzhou?" A young woman wearing silk satin and lingering in the terrible rainbow light, her eyes burst into sharp light and a chill sounded. Said.

#### [Chapter 2649: Deserve to die](#)

"Yes, Wanxue, we have already inquired about it. This Chendi Pavilion is related to the Ao family in Cangxuan city where the ancestors and the others went, and it was even established by the Ao family."

The person who relayed the message, his eyes were cold and cold, and his body was full of terrible murderous intent. The eyes on the nose of a pair of eagle hooks were cold.

"This Ao family is so courageous to kill my ancestor of the soul fire family, and even dare to open the store to Yunzhou, just when my soul fire family is good to bully?"

The girl said in anger, her pretty face was full of cold light, and her whole body was murderous.

This woman is the current leader of the Ao family, Miss Ao family, Li Wanxue. After Li Luo's fall, the Soul Fire family was fragmented, and there were only two or three core figures left. After Li Wanxue knew the situation, she decisively contracted her power and brought many of the Li family's industries into the Yunzhou prefecture's Yun family. Under the fire world

A large number of foundations of the home.

Otherwise, the soul fire family will definitely be annexed by other top forces in Yunzhou. But although Li Wanxue joined the Yun family and was protected by the Yun family, the Yun family never mentioned the marriage contract between Li Wanxue and Yun Mengze at the beginning. Everyone acquiesced that Li Wanxue stayed at the Yun family. Facts, but no longer mention between the two

Marriage contract.

This made the souls of the soul fire family feel uneasy, but resented. As smart as Li Wanxue, he actually knew the Yun family's plan a long time ago. Without the ancestor of Li Luo, the Li family, who had lost many powerful people, is no longer qualified to discuss marriage with the Yun family, but the Yun family is absolutely absent. Won't let the spirit fire family's industry and Li Wan

Snow is cheap to anyone. Therefore, he has been hanging on the Li family, and one day, all the properties of the Li family will fall into the hands of the Yun family. As for Li Wanxue, the Yun family will naturally not give up, but without the Li Wanxue's Li Wanxue, it must be impossible to become Yunmengze's right

Room, marrying into the Yun family in a fair manner, can only become a concubine.

And all this was brought by Chendi Pavilion.

"boom!"

The terrifying power of the soul and fire exploded from Li Wanxue's body, her eyes were cold and murderous, and she was about to rush out.

"Wan Xue, you're not going to find the Chendi Pavilion? Don't do anything stupid." A figure stopped Li Wanxue, who was the only remaining sage in the Li family. He was once Li Wanxue's uncle. He survived because he stayed in Yunzhou. He anxiously said: "Wan Xue, that Chendi Pavilion can kill even the ancestors, if you break in

However, you are the only hope of our Li family now, but there can be no more troubles. Even if you want revenge, you must go through the Lord Governor. "

"Uncle, don't worry, I won't do stupid things. I'm going to find Yun Mengze now and let Mengze help me out."

When Li Wanxue's voice fell, he disappeared. Li Wanxue entered the interior of the main mansion all the way, and everyone in the main mansion was already accustomed to her existence. She lived here for a while, and was familiar with the road. The people in the main mansion also recognized her and saluted her in secret. Talking

.

"This is the Miss Soulfire family who has made a marriage contract with Master Zhouzi? She has a good length and is said to be very talented, but she puts on a bad face all day long."

"I heard that the ancestors of the soul fire family were all annihilated. She was forced to join our state lord's mansion. Can you not make a bad face?"

"I don't care what the reason is. Now that the soul fire family is destroyed, even her natal family is gone, she doesn't look at where she came from to qualify as an eldest lady. If I were Lord Zhouzi, I would definitely not take her to heart. "

"Hey, haven't you heard of it? Lord Zhouzi is hanging out their soul-fire family. After accepting the industry of the soul-fire family, let her be a concubine. After all, this female talent is still good."

"Really? From the regular wife to the concubine, hey, woman, you still have to have a backstage, but ah, it's because the ancestor of the soul fire family is dead, it should be dead, otherwise Li Wanxue doesn't know how arrogant it is. . "

"Hush, be quiet, you don't want to die, even the concubine is the master, don't let people hear it, I will trouble you in the future."

Everyone talked a lot. If she changed the usual times, Li Wanxue would not be relieved. She was used to it, but now she was furious. She slapped a woman's face with a slap, and saw that her face appeared instantly. Five bloodstains, dripping with blood

It's shocking.

"Who do you think deserves to die?" She said abruptly, with the urge to kill.

Suddenly, everyone was silent and dare not say anything.

"Wan Xue, why do you have such a big temper?" A gentle voice sounded, and a young man walked out, with extraordinary momentum, a jade face and plump crown, and a few boys and girls around him, each

with extraordinary momentum and amazing backgrounds. There are two women, graceful, obviously big and small

Sister-like character, looking at the young man's face with admiration.

It was Yunmengze, Zi Yunmenze of Yunzhou Prefecture, who was around him, and also some Tianjiao figures in Yunzhou and nearby, who came to assess the work of heaven.

"Mengze, these women said that my grandfather deserved to die." Li Wanxue said in a cold voice, "Isn't it punished?"

"Is there such a thing?"

Yun Mengze scanned a few women.

"Master."

Puff through.

These women knelt down.

"If you want to criticize yourself, let me drag it on, and I will blame it for a hundred, and then expel from the house." Yun Mengze said coldly.

"Master, no, no."

Several women screamed and were dragged out.

"Sir Zhouzi is really kind, and someone who doesn't understand the rules like this, in our house, has long been killed with a rod and dragged out to feed the dog."

"Brother Liu, how can you compare with Lord Zhouzi? Lord Zhouzi is the number one arrogant in Yunzhou. I will inherit the status of the lord of the state in the future."

"That is, that is."

Several people laughed.

"This is Miss Li Wanxue from the Li family, she is indeed a beauty in Yunzhou, but it is a pity that I heard that the Soulfire family was destroyed not long ago."

"Yeah, a good girl, but became a homeless person. She can only live in the state lord's mansion. She has a thick skin."

The two women laughed lightly and looked at Li Wanxue contemptuously, faintly provocative.

"Mengze, the Chendi Pavilion has appeared in Yunzhou, you have to be the master for me."

Naturally, Li Wanxue wouldn't care about her provocation, Chu Chu said pitifully, becoming extremely delicate.

"What? That Chendi Pavilion is so arrogant, don't worry, Miss Snow, Master Zhou will definitely help you."

I have to say that Li Wanxue has a beautiful appearance. Under Chu Chu's pity, the young people who followed Yun Mengze were filled with righteous indignation and clamored to avenge Li Wanxue. "Wan Xue, I already know about the Chendi Pavilion, and I even found my father." Yun Mengze stepped forward, hugged Li Wanxue, bowed his head softly and said, "But my father said, now is the crucial moment. People who work in the sky are in Yunzhou, so they must not make any trouble, and the shop in the Chendi Pavilion is still in the Wangu Building. My father strictly forbids me to go out. These days, I only allow me to practice well and prepare for the assessment in a few days."

#### [Chapter 2650: Nine-story pagoda](#)

"So, are you not going to help me?" Li Wanxue said angrily.

"Wan Xue, it's not that I won't help you, but wait a few more days, don't worry, when I pass the examination of Tian'an work, I will definitely seek justice for you, I promise."

Yun Mengze put his arms around Li Wanxue, comforting.

"Okay, I'll wait." Li Wanxue bit her lip and turned to leave.

"Is it gone?" Everyone was stunned.

"Leave her alone, everyone, let's keep talking."

Yun Mengze shook his head, turned and entered the room.

After Li Wanxue went back, his murderous aura was even worse. The former Yun Mengze wouldn't be so perfunctory at all. He didn't expect that even Yun Mengze would be like this after his ancestor died.

Perhaps in Yun Mengze's eyes, he has no other way out except relying on him?

"Just let the Chendi Pavilion survive for a while. Yes, Tianjiao. Only by joining Tianjiao can I get rid of everything."

Li Wanxue gritted his teeth and swore secretly.

Naturally, Qin Chen wouldn't pay attention to these, time passed, and the day of the Heavenly Work Martial Artist's assessment was in the blink of an eye.

The assessment of the work of the day is divided into two sessions, with the martial artist's assessment first and the refiner's assessment later.

Early in the morning, the entire Yunzhou prefecture was moved, and the mighty crowd, countless Tianjiao, all flocked to the center of the prefecture, the place of assessment.

Qin Chen also took Qin Tingting, Ao Qingling and others to the center of the prefecture.

"Less dust."

On the way, Ao Qingling and Qin Tingting were still a little worried, and soon the group came to the center of the state capital.

The venue for the martial artist's assessment is extremely vast. It is a square in the sky, with stone steps leading to the clouds. In the sky, a few big characters appear in the sky, which is extremely vast. At this

moment, in front of the huge square, there are many warriors, large and small, there are mortal saints, earth saints, and even strong heaven saints. Of course, the most are the masters of earth saints. Among these people, they are truly qualified. Not many people participated in the assessment

Few, the real assessment is a peerless holy land like Ao Qingling.

They all wanted to join the Heavenly Work, only a few of them were casual cultivators, and most of them were disciples from big families and powerful forces.

For example, the top powers of the Yunzhou Spirit Fire Clan, as long as they have the opportunity, they will definitely send their children to the heavenly top powers to practice.

Standing in front of the big characters of Tianjiao, Qin Chen just looked at the big characters, and he felt the vastness and the difficulty of this power. However, Qin Chen is different from other warriors. He does not participate in the martial arts assessment at all. He has only one purpose, and that is to join the Tianzuo's refining division. Compared with the martial arts assessment, the refining master assessment is ten times more difficult. More than

The position is also much higher.

He stood here quietly, sensing all the breath of the heavens.

The crowd was raging, and among the bustling crowd, Qin Chen felt extremely quiet in his heart. A lot of breath, like a tide, he can almost grasp the mentality of every warrior present.

"There are so many people today." "Look, not only are our masters in Yunzhou, but people from Yuezhou have also come. This is the young master of the Xue family of Yuezhou. If he wants to enter the heavenly work, he is already a peerless land. The saint master, one step up to the next step, is the heavenly saint, who must be sent to heaven to find opportunities

Fate, make a breakthrough. "

"That's natural, Heavenly Sage is not so easy to support, even some big power disciples, they are not sure, I am afraid that only people like Yunmeng Zezhouzi can be sure of becoming a Heavenly Sage."

"I heard that Master Zhouzi will also come to participate in the assessment this time. With the strength of Master Zhouzi, once you enter Tianjiao, it will be like a duck. If I can become a high-level Tianjiao in the future, I will definitely be stronger in Yunzhou."

"That's for sure, Lord Zhouzi can't get into a day job, so what qualifications do other people have to get into."

"Look, this time for these places, I am afraid the warriors in Yunzhou and nearby states will have to grab their heads."

"Look, Lord Zhouzi is here." Qin Chen heard a lot of comments, his eyes looked over, and he saw that from Yunzhou City, there are eight peerless holy sages, carrying a sedan chair, sitting in the sedan chair. There is a young man who looks still, this young man, holding a jade pendant in his hand

, I was playing with it, my breath was calm, the breath on my body was actually hazy, making people unclear.

This is obviously Yun Mengze, the young master of Yunzhou, who has the name of the first arrogant of Yunzhou.

Behind this Yun Mengze, there are some sedan chairs. Sitting in the front is a woman, who is extremely stunning and has the breath of a peerless earth.

"That is Miss Li Wanxue from the Soulfire family, and also the top arrogant of my Yunzhou."

"Behind should be the other arrogances of the state lord mansion."

The crowd discusses.

Such ostentation is really scary.

The mighty and mighty, just a state main mansion, there are many talents to participate in the assessment.

"Li Wanxue? He does have some talent."

Qin Chen glanced at him without paying attention. He swept his gaze and found that among the crowd, there were still many such geniuses. They were all top geniuses with extraordinary auras. They were all in the late Earth Sage, even Peerless land holy realm.

The aura of some people is even more terrifying than the lord of several big cities such as Tianyue City.

when! While watching, suddenly a bell rang from the sky, and on the steps, countless powerful men flew down. Among them, many peerless sages flew in the sky, and after standing still, they shouted loudly: "Everyone who came for the assessment, follow the instructions.

Order, line up, and prepare to accept the assessment! "

This is a day-to-day staff, each breath is extraordinary, exuding a fierce aura.

Hum!

Above the endless sky, there was a terrible force pressing down at the same time. This is the heavenly sage, in the void, prying underneath, it is obviously the upper level of the sky work.

A stream of terrifying divine thoughts swept over countless warriors below, and it was suddenly chilly, everyone was silent, and even divine thoughts did not dare to emit.

This is a heavenly sage, and Qin Chen's heart jumped. The breath of the heavenly sage was so terrifying that he almost saw himself, but Qin Chen's power was urged to cover up the secret, so that the other party couldn't detect his own power.

boom!

At this moment, above the steps in the sky, a terrible breath suddenly passed.

Qin Chen looked up.

I saw a pagoda, towering up, standing on top of the steps.

It is a nine-story pagoda.

"Nine-story pagoda, isn't this the martial artist's assessment of Heavenly Work?"

Qin Chen's eyes flashed, this pagoda appeared, definitely not without purpose. Obviously, this pagoda was specially used to evaluate the countless powerhouses present. "Everyone, the assessment of our daily work is extremely simple. You have all seen the pagoda in front of you. Anyone can pass the test as long as they climb three floors. They can become a member of the daily work, and the higher the climb, the better the grades. , Can receive cultivation

The more, the top ten, can directly join the Heavenly Work Martial Arts Department. "A rumbling voice resounded.
