

Valkyrie 2651

[Chapter 2651: Ancient Santa](#)

The assessment of Tianjiao is very simple. Entering the nine-story pagoda, even if you pass the first three floors, you can become a martial artist in the military department.

Martial artist trainees are not formal personnel, but they can also enjoy some of the benefits of work day.

And the more layers of the tower, the better the results, the top ten, can directly join the Heavenly Work Martial Arts Department, this kind of treatment is amazing. There are almost no people below the Heavenly Sage in the Heavenly Work Martial Arts Department. Unless something unexpected happens, you shouldn't worry if you step into the Heavenly Sage. Once the training is over, you can sit on the side, just like the Tianxing of the Wangulou Louzhu. Real person

, No matter where you go, the status will be extraordinary.

In other words, as long as you enter the warrior department, no accident, you will surely become a god.

Here is the horror of Heavenly Work, and even a force like the Wangulou dare not say what assessments you can pass, and you will definitely become a Heavenly Saint.

The surrounding staff members who exuded the sacred atmosphere of the world were actually all martial artist trainees who came to maintain order.

"Is it just through the third floor? It's that simple."

"The nine-story pagoda, as long as you pass the first three floors, you can become Tianzuo's martial artist?"

"I knew I had signed up too. I couldn't make it to the top ten. Couldn't I even make it through the third floor?"

As soon as the rules came out, the entire square was in an uproar, and everyone was talking and unable to calm down.

The pagoda in front of you is divided into nine layers. This is clearly a pagoda used to test the talents of the martial artist. If the assessment regulations of Tiangong pass the fifth and sixth floors, then no one will feel relaxed.

But now it is only through the third floor, which naturally arouses the chagrin of many people.

On the third floor, maybe they can pass with one effort? The voice of this assessment was not only spread in the square, but even in every corner of the Yunzhou Prefecture, there were screens of formations, live broadcast of the assessment of work day, and many warriors who stayed at home to watch the assessment, all beat their chests and felt annoyed. Endless

.

"Master Chu Ye, it seems that these guys think that the ancient holy tower is easy to pass."

Above the sky, a group of elders sit upright, each lingering around the terrifying rules of the heavens, the breath of the heavenly saint is like the ocean, forming an independent small world. If Qin Chen were here, he would find that the real Tianxing of the Wangulou was also here. Those who can come here are the most terrifying Heavenly Sage masters in Yunzhou, and Yundongguang, the master of Yunzhou, is naturally among them. , A distinguished identity, sitting with Tiangong

By the old man Chu Ye who presided over the martial arts assessment.

The assessment of Tianjiao is a flourishing age for the Tianjiao in Yunzhou, and it is also an excellent opportunity for the top Tianjiao in Yunzhou to make friends with Tianjiao.

"The ancient sacred tower is an ancient treasure. It is extremely difficult. If these guys really think that the third floor is so easy to pass, it would be a little too ridiculous."

The other gods also laughed.

If Tianjiao's assessment is really so easy to pass, it won't be called Tianjiao.

In the middle of the crowd, the gray-bearded old man shook his head and sighed: "I hope that all of these people present can pass the assessment and become the martial artist of my daily work."

Everyone's eyes condensed. Could it be that the situation of the battle between the human race and the demons has become so severe?

"I can only say that I can't be optimistic." Chu Ye shook his head.

Everyone sighed too, but naturally they didn't need to worry about such things. The Lord Lords of the various houses and the top powerhouses in the heavens should consider it. "Don't talk about it, this time, the son of Dongguang Zhou will also participate in the Heavenly Work Assessment? And I heard that he has signed up for the martial arts assessment and the refining master assessment. Mengze is the number one pride of our Yunzhou. It's going to shine this time.

"An old man laughed.

Yun Dongguang, the master of Yunzhou Prefecture, was a brown and white mottled old man with a hooked nose and sunken eyes, as if it contained endless power, and stars were dying out.

He laughed and said: "You guys just laughed, but the child did sign up for two items. The reason for this is that he wants to make more contributions to our heavens. If the child has such revenge, the father can't scan him. Xing."

"By the way, the original poster of Tianxing, I heard that you have cooperated with Chendi Pavilion in Cangxuan City, and you also gave this Chendi Pavilion a Yunzhou shop. This Chendi Pavilion owner is said to be a young man. The origin is mysterious, does the original poster of Tianxing know its origin?"

Suddenly, Yundong talked about the wind and looked at the real person Tianxing.

"The Lord Yunzhou is talking about the Chendi Pavilion that extinguished the soul fire family?" "This force, I have also heard about it, seems to be in collusion with the Ao family, Ao Lie, the Ao family fell and left Yunzhou. It seems that I still don't give up. This time I heard that he got a certain treasure from nowhere.

Li Luo, who had killed the soul fire family, seemed to be unwilling to continue living in Cangxuan City. "

"This Chendi Pavilion is said to be a young man with extraordinary talent. Could it be that he has also come to participate in this time of the Heavenly Work Martial Arts assessment? This is to pay attention to, is it as powerful as blowing?"

"Lord Tianxing, you have the most information, and that Chendi Pavilion is also related to your Eternal Building. Tell me about it." Tianxing Zhenren's eyes flashed, knowing that this cloud cave light and many heavenly sages seem unintentional, but they are actually Intentionally inquiring, he smiled slightly and said: "You should know that I only do business in Wangulou. As for the origin, I never inquire about it. As for this Chendi Pavilion, I did a big business with me Wangulou and became me. The VIPs of the Wangu Tower, no matter how many old men, don't know much about it. However, as far as the old man knows, the master of the Chendi Pavilion did not participate in the martial arts assessment of the Heavenly Work, but signed up for the exercise.

Appraisal of the teacher. "

"What? Signed up for the refining master assessment? And didn't sign up for the martial arts assessment? This kid is so confident?"

"The appraisal of the refiner is extremely difficult. Even some veteran pinnacle refiners dare not say that they are sure to pass. This kid dares to sign up? Isn't he a bit arrogant." It's the battlefield of humans and demons. Earth Sages have little effect on the battlefield. Therefore, in the future, Tianjiagong will train all celestial refiners. Only those who have the hope of becoming a celestial refiner can hope to pass the assessment.

Boy, still too young. "

"Yunmeng Zezhouzi is the top talent in Yunzhou, and he is also a top-quality refiner. Even so, all of them have signed up for the martial arts assessment. I am afraid that the refiner will fail the assessment. Where does this kid come from? "Many strong people talked, but Tian Xing Zhenren didn't say a word, just smiled and was very calm.

[Chapter 2652: Show off](#)

The process of Qin Chen's certification as a refiner had already been learned from Ruorui by True Person Tian Xing, and that Senior Mu Gutian could give him personal affection. True Person Tian Xing had extremely high expectations for Qin Chen.

However, he would naturally not say such things.

"Huh, this old fox." The Yunzhou state lord looked at the real man Tian Xing and said nothing, he couldn't help but sneered in his heart, secretly angry.

The upper part was talking, and the lower part was naturally more noisy. Countless people were talking about each other, guessing who would get the top ten, and truly join the Tianjiao martial arts department.

But no matter how you guess it, the most optimistic one is naturally Yun Mengze.

He already has the title of Yunzhou's No. 1 Tianjiao, and coupled with his home court advantage, he has the greatest momentum.

In addition, Li Wanxue and others have also received great attention.

The top ten speculations are undoubtedly the arrogant talents among the top forces in Yunzhou and other surrounding states, which naturally attracted some people's dissatisfaction.

"Your vision is too narrow, right? Is there no genius besides the top power? In addition to the state city, there will also be many strong people, such as Wanfeng City, Muluo City and other big cities. Isn't the world's arrogant?"

"Hahahaha!" This caused many people to laugh. "You are really naive, do you know where the state city is? Gather the essence of a state! If nothing else, just say that the power of the heavenly sacred realm, where can you see other than the state city? The same is training For posterity, do you think the heavenly sacred realm will lose to the earthly sacred realm

? "That's right, the assessment standard of Tianjiao is almost the peerless earth sacred realm, and the city lord of those cities are often at this level. This is the accumulation of countless years. What can the disciples they cultivate? Promising?

"

"A small realm of martial arts is the same as the sky and the earth. The resources owned by the Zhoucheng family are beyond your imagination!"

"Although talent is important, there are so many treasures in the world that can improve physical fitness and combat power!"

"After all, background is the most important thing!"

"Hmm!"

Everyone nodded and agreed.

Talent can make up for background to a certain extent, but the problem is that people with background also have talent. How do you compare? It's useless to put in ten thousand times of effort, don't people work hard?

In a corner of the square, Qin Chen, Ao Qingling and Qin Tingting stood there, waiting for the assessment to begin.

"Little dust, that's Li Wanxue, and it really looks very impressive."

Ao Qingling and Qin Tingting looked at Li Wanxue. This woman had a beautiful face and a superb temperament. Standing among a group of arrogances, standing by the side of Mengze, she was as dazzling as a pearl.

"Really? It looks pretty ordinary."

Qin Chen glanced, but was extremely calm.

Qin Chen and the others paid attention to each other. Naturally, Li Wanxue was also paying attention to Qin Chen and the others. Seeing the three of them, they suddenly showed anger and whispered a few words in Yun Mengze's ear. Yun Mengze turned his head and looked at the same time. People stepped over.

The actions here naturally attracted the attention of others.

Yun Mengze is really too dazzling, like the same god, with amazing aura, surrounded by circles of divine light, like a son of a god.

"You are the people of Chendi Pavilion?"

Yunzhou Tianjiao coldly snorted and looked at the three Qin Chen mockingly. He heard a few words, knowing that the three in front of him were the people of the Chendi Pavilion who had destroyed the Soul Fire family, and even dared to go to Yunzhou to participate in the sky. Work evaluation is really arrogant.

Others also looked ridiculous. They were all the arrogances of many forces in Yunzhou, with extraordinary aura, like the ocean, sweeping and suppressing them, all wanting to see Qin Chen and the others embarrassed.

Yun Mengze didn't say a word, just smiled and watched Qin Chen's response.

"Where is the dog barking here?"

Qin Chen said lightly, not giving the opposite side at all.

"Boy, what do you mean?"

"Do you think it will be great if you eliminate the Soulfire Family?"

"Dare to offend Miss Li Wanxue, and come here to participate in the assessment. I think Chendi Pavilion is looking for death."

"Dare to run here and kneel down."

A group of elders suddenly clamored, furious, and Qin Chen's attitude made them all angry.

by! The other martial artists around were also stunned. This Chendi Pavilion guy was too arrogant. Do you know what you are talking about? This is a group of elder bullies in Yunzhou, and Yunmeng Zezhou is still there. Even some top forces in Yunzhou don't dare

contempt.

"Isn't it?" Qin Chen chuckled lightly, not caring. This is an assessment of the day's work. Are these guys really daring to do it? I'm afraid that when you do it, it must be a dead word. No background will work. Qin Chen is still eager for them to do it.

"you....."

A man of the dead was murderous and angry, and he couldn't help but shoot.

On the side, Li Wanxue's brows twitched, her hands clenched like jade, looking forward to this world's hand, but before that world's son was waiting, Yun Mengze raised his hand and stopped.

Li Wanxue's heart sank.

Yun Mengze squinted his eyes and looked at Qin Chen without speaking, but the chill caused many people around him to feel like they were covered with poisonous snakes.

Yun Mengze stared at Qin Chen. Suddenly, he smiled, suddenly like a spring breeze, all the coldness disappeared, and everyone seemed to be illuminated by the warm sun, no longer the previous coldness.

"Are you the pavilion master Qin Chen of the Chendi Pavilion? The man who united with City Master Ao Lie to kill the ancestor of the soul fire family Li Luo?"

Yun Mengze smiled lightly, his face was gentle, as if he had seen an old friend.

"I am." Qin Chen said flatly.

"In Xia Yun Mengze, Yunzhou Zhouzi, Your Excellency is really determined. It's been a long time since you saw such an interesting person. Make friends!" Yun Mengze stretched out his hand and smiled.

Everyone is dumbfounded, what's the situation? Is Yunmeng Zezhouzi making friends with each other?

Li Wanxue's face flushed and her heart was angry, but she didn't speak because she knew that Yun Mengze was the core of everyone.

Qin Chen glanced at Yun Mengze's hand and said lightly: "Sorry, I am not used to making friends with ordinary people."

rub!

Everyone is fainted, ordinary people, keep your eyes open and take a good look. This is Yunzhou Zhouzi, an ordinary person from Nima.

As Master Zhouzi, this kid is too mad if any force doesn't respect it.

Yun Mengze's eyes were cold, and his heart was also furious. He squinted his eyes, the feeling of coldness came back, and said coldly: "Friend, don't you think you are a little too crazy?"

The education he received since childhood was to gather all useful forces. Therefore, with a trace of knowing Qin Chen and putting Qin Chen under his command, he could think that Qin Chen was so arrogant that he would not give him a chance to solicit, and he was naturally angry. Therefore, he directly showed a fierce look.

[Chapter 2653: Let's start the assessment](#)

"Oh? Do you want to do it?" Qin Chen smiled, fighting against the realm, he really is not afraid of anyone, even if the outside world blows this Yunmengze through the sky, the number one arrogant of Yunzhou, a peerless sage, even in peerless land. Holy realm ability enemy half-step Tiansheng.

But in Qin Chen's eyes, this was a junior, and he wanted to talk to him, and it was almost the same for Yun Mengze's Laozi.

Who has time to play with your children?

"Mengze, this kid is too mad. It's better to let the master of the state and the person working in Tian say a word, cancel his qualifications for the assessment, and expel him." Li Wanxuehan said.

She is very clever and knows that she can't do anything here, but if the lord of the state can tell the people who work in heaven and drive Qin Chen out, everything will be fine. Yun Mengze glanced at Li Wanxue without speaking, then looked at Qin Chen coldly, and sneered: "You are cunning. This is the test site of the Heavenly Work Martial Artist. Who dares to be presumptuous here? However, when the test is over, I Will challenge you while

If you fail to pass the exam...you are dead! "

Qin Chen touched his chin and said with a smile: "I didn't sign up for the martial arts assessment, but if you want to die, this young man can do you a favor."

Everyone was taken aback.

This kid didn't even participate in the martial arts test?

"Ha, ha!" Yun Mengze laughed, "That's even better. It seems that you are dead today. Let's go."

He spoke harshly, turned and left, fearing that he couldn't help himself. He really did it. He was too impulsive to cause serious trouble.

Passing the Tiangong appraisal is the kingly way. When he passes the assessment and becomes a member of the Tiangong, coupled with the status of Yunzhou Zhouzi, he will teach a foreign boy. Who dares to dissuade?

A group of people came menacingly, and left dingy.

The people around were also aware of the grievances between Chendi Pavilion and the Soulfire Family, and they shook their heads and looked at Qin Chen's gazes as if they were looking at a few dead people.

"Little dust, are you okay?" Ao Qingling and Qin Tingting were a little nervous.

Qin Chen looked at the two with a smile, and said with a smile: "What can you do? As long as you two enter the top ten, give Yun Mengze ten courage, and dare not move you!"

Ao Qingling and Qin Tingting were startled, the top ten?

The two smiled bitterly. Their goal was to become a martial artist after breaking into the third floor. It was unexpected that Chen Shao's goal was the top ten.

how can that be? It should be understood that they broke through too fast. A year ago, they were not even the holy place. In their traditional concept, Yun Mengze, Li Wanxue, Xue Zifeng, these guys are all the top talents in Yunzhou. , They are listening to these people

Say grown up.

Even standing on the same stage, it feels like seeing a legendary character. This kind of self-confidence can't be achieved by just a few words of encouragement.

Seeing the expressions of the two men, Qin Chen didn't say anything. He just sighed and said lightly: "Qing Ling, Tingting, you know, what is the most important thing for a martial artist?"

The two of them blushed. This was the first time Qin Chen called them so affectionately, and their hearts couldn't help but bang.

"talent?"

"Resources?"

"background?"

The two replied doubtfully.

"No, neither." Qin Chen shook his head, his eyes revealed: "It's self-confidence."

confidence?

"Yes, it is self-confidence." Qin Chen said solemnly: "The prejudice in people's hearts is like a mountain, no matter how hard you try, you can't move it, but all the martial artist does is to go against the sky and refuse to admit his fate. The life of our martial artist, so don't ever think it's impossible,

Always have to be confident, my fate is my destiny, whether it is a devil or a fairy, only we have the final say. "

"If you don't admit your fate, is our martial artist's fate?"

"I control my own life?"

"A devil or an immortal, only we have the final say?"

Ao Qingling and Qin Tingting murmured. Although Qin Chen's voice was not loud, the self-confidence, domineering, and arrogant aura completely shocked them.

At this moment, they finally came to understand why Young Chen could be so strong, and why he always had an aura different from ordinary people.

It is this kind of self-confidence, reluctant temperament.

"I think you can. If you also think you can, then you must be." Qin Chen looked at the two and said.

The eye sockets of Ao Qingling and Qin Tingting suddenly became wet.

Shao Chen thinks we can?

Along the way, Qin Chen never regarded the two of them as subordinates, but as friends. In an instant, a certain deep shackle in Ao Qingling and Qin Tingting's hearts seemed to be opened.

"Little dust, don't worry, we will definitely break into the top ten, let the world take a look at the power of our Chendi Pavilion." The two gritted their teeth.

"Then I wait for you to shine." Qin Chen laughed, and he could feel that Ao Qingling and Qin Tingting beside him had changed.

Although the two people in the past were not weak in their cultivation, they were like two thin soldiers in armor. Their strength was only their cultivation and appearance. Now, the two of them are like victorious soldiers. In their hearts.

"let's start."

On the steps, a strong man said indifferently, behind him there are lingering laws of Heavenly Sage, indicating that he has touched the threshold of Heavenly Sage, which can be called Half-Step Heavenly Sage.

Moreover, the law and aura of the Heavenly Sage on his body are very stable. Obviously it is not the kind of person who forcibly enters the Heavenly Sage for half a step and can no longer make an inch, but the kind of top level who can truly enter the Heavenly Sage one day in the future. Master.

Although he has not completely entered the realm of Heavenly Sage, such a strong man is enough to make everyone in Yunzhou admire and admire him.

He opened his mouth, everyone was silent, and he didn't even dare to pant loudly. Even though many people here have a lot of background, but respect for the strong is the most basic quality, and only the dude will fight. Family background acts arrogantly.

Didn't you dare to be arrogant in this kind of occasion without seeing Lian Yunzhou Zhouzi?

"The ancient sacred pagoda can accommodate 10,000 people at the same time, and they will queue up one after another. When the people are full, they will naturally be blocked." The half-step Heavenly Sage master said: "Hurry up and try to complete everyone's assessment today."

"Yes!"

Everyone nodded involuntarily. Under the influence of the strong man's aura, their emotions were involuntarily affected.

Everyone lined up and entered the nine-story pagoda one after another. This is obviously a holy artifact with independent space, otherwise it would never be possible for 10,000 people to be assessed at the same time.

Everyone opened their eyes and watched, looking forward to the result.

Unexpectedly, the speed of this assessment is really fast. Before all 10,000 people entered, some people came out one after another, and they even caught up with the speed of entry.

Is the difficulty of this assessment so high?

Everyone has changed color. I was eliminated as soon as I entered. This is too exaggerated. You must know that those who can sign up are at least confident in their own strength. At least at a glance, it is almost impossible to see some ordinary sage martial artists in the early and mid-term of Earth Sage. .

[Chapter 2654: King class](#)

But now, many people have been eliminated as soon as they entered.

But soon everyone realized that those who were eliminated at once were all those who were over-aged.

Tianjiao's main assessment is talent. These people who are over the age have exhausted their potential. It is almost impossible for anyone to pass the assessment. They are a waste of time when they enter.

"No, after these people came out, why did they feel a little sluggish?"

"Really, is it because the assessment failed and the heart was lost?"

"No, the Saint Yuan aura on them seems to have weakened a bit."

Discussions were everywhere on the square, all showing surprise.

Because these people who were eliminated, they were still in good spirits when they entered, but after they came out, they seemed to have been drawn with a trace of energy and became depressed.

"Everyone, entering the ancient sacred tower assessment is not without conditions. If you pass the assessment, you can get the strength of the ancient sacred tower, but if you fail the assessment, the ancient sacred tower will extract a bit of strength from the other party as the ancient sacred tower power. Supplement

."

That half-step Heavenly Sage master said in a deep voice: "But you don't have to worry too much. The power drawn is not a lot. Normal cultivation, depending on the talent, only needs a hundred years to replenish it, and it will not affect the foundation."

what?

Is there such a thing?

Everyone was stunned.

Damn, many people have heard that as long as the martial artist with a cultivation level is above the earth sage, they can participate in the heavenly work martial arts assessment. This has also caused a lot of people to come to register, but they did not expect that if they fail the assessment, they will lose Part of the power.

Although it was only a century-old cultivation base, no one knew if there were hidden dangers.

Suddenly, there was an uproar on the court.

"quiet."

The half-step Tian Sheng of the work day coldly snorted: "This is the price you must pay to participate in the assessment. If you have any opinions, you can withdraw from the assessment. I will never hold it for work every day. I will make no noise and severely punish it."

The terrifying aura lingered down, and immediately the silence on the court was restored again. Although many people were uneasy on their faces, none of them withdrew from the assessment.

This is natural. Many warriors have a hard time encountering such an opportunity in their lives. Who wants to give up? But the cultivation base of a hundred years is only, many people can afford it.

As the assessment progressed, the ancient sacred tower continued to bloom with light.

Whenever someone passes the assessment of one level of tower, the ancient tower will light up that level accordingly, and the results will be recorded by the spirit, no one can cheat-if you can really fool this artifact, it is actually better than Passing through the nine-story tower is even more difficult.

Those who are interested in hitting good grades all stayed behind, wanting to make their final appearance. After a while, the assessment of the first ten thousand people was almost over. There were people coming in and out constantly, and those who were eliminated have exceeded the ten thousand teams, of which 90% did not even enter the first level of the tower. Out of ten percent, only

Ten percent broke through the first-story tower and entered the second-story tower.

This is already one percent probability.

However, the rate of entry into the three-story tower from the second-story tower is still 10%.

In other words, when 10,000 examiners entered the ancient sacred tower, only one-thousandth, or about ten people, actually entered the third floor.

And among the ten people who can really pass the third level, there is still a 10% probability.

In other words, when 10,000 people entered the ancient holy tower, there was only about one who could really break through the third floor and become a martial artist, and sometimes there was not even one.

What kind of probability is this?

One in 10,000.

Everyone is discolored, knowing that the assessment of Tian'an is difficult, but they didn't expect it to be so difficult. Fortunately, there are enough examiners on the field. At the beginning, it was just the grand event inheritance of Cangxuan City, which attracted millions of inheritors. For example, the martial artist who works today is assessed in Yunzhou, attracting countless people from Yunzhou and nearby states. The strong, the number is naturally

To be far above the inheritance of Cangxuancheng grand meeting.

An hour later, almost hundreds of thousands of warriors have undergone the assessment, and only more than 20 people passed the assessment, and they were eliminated after passing the third level.

And those twenty-odd passers, indeed, as the working half-step Tiansheng master said that day, after they came out, they were all extraordinary, as if they had received some nourishment in the ancient holy tower, and the aura on their bodies became extraordinary.

"It seems that this ancient sacred tower assessment can indeed bring a slight spiritual change to the warriors. It should be the assessment in the ancient sacred tower, allowing them to pry into the truth of a certain heaven. This change is from the inside out. Same as usual."

Qin Chen looked at these twenty-odd people carefully, thoughtfully, he had long since known this effect, he wanted to enter the assessment. However, this change should consume some energy of the ancient sacred tower, but in comparison, the harvest of the ancient sacred tower is undoubtedly greater. For a

failed warrior, the ancient sacred tower can absorb his century-old cultivation base, so much The examiners add up, this ancient

How much energy does the holy tower absorb?

If it weren't for those who passed the assessment, Qin Chen almost thought that the purpose of the assessment on this day was to devour the essence of the world martial artist. After such a step, it is estimated that a holy master treasure can be eaten. Right.

suddenly.

The tower on the fourth floor was completely lit up, and someone completely passed the fourth floor and entered the fifth floor.

"Finally, the first one to pass the fourth-tier master appeared."

"Who is it? Who passed the fourth level assessment?"

People were eagerly waiting and saw an outstanding Tianjiao walking out of it.

"It's Young Master Xue Wujin from the Xue family in Yuezhou."

"It's him, no wonder."

"The Xue family is a heavenly power in Yuezhou, and Xue Wujin is also a top talent in Yuezhou. No wonder he can pass the fourth level assessment. Unfortunately, he was eliminated as soon as he entered the fifth level."

"If he can stand firm on the fifth floor and pass the five towers, he will become a king-level genius."

"Hey, there is such a saying?" "Of course, otherwise, what do you think this assessment is for? I heard that, but I heard that this ancient sacred tower is an ancient treasure, used to test the potential of the future. , Can be called a king-level genius through the five towers, the six towers are the royal level, and the seven towers are

The emperor class, the eight towers are the holy class, the nine towers...the world class! "

"Of course, this is just a potential, not necessarily, it depends on your own efforts."

"Damn, it turned out to be so, what do these statements mean?"

"I just heard that it is said that if you can basically reach the king level, then the heavenly sage realm will definitely be able to reach it, and once you reach the emperor or emperor level, it means that this person also has extraordinary potential in the heavenly sage realm. "

"Hi!" Everyone sucked in air-conditioning, and this ancient sacred tower was a bit too powerful.

[Chapter 2655: Six Towers Genius](#)

"Although Xue Wujin has not been able to stabilize in the five towers, he can enter the five towers, and he is estimated to be 70% to 80% sure of entering the realm of Heavenly Saint.

There is a strong judge.

This made everyone look at Xue Wujin more envy, this must be a future heavenly saint.

However, thinking that the first person to enter the Five Towers was from Yuezhou, some Tianjiaos in Yunzhou were dissatisfied.

"You guys, go in for the assessment."

Yunmeng Zezhouzi snorted coldly, and said to some of the City Lord Fu Tianjiao behind him.

"Yes."

These Tianjiao people stepped into the ancient sacred tower one after another, and with their dispatch, the other Tianjiao from Yunzhou and the surrounding forces also dispatched one after another.

These people are all the talents of the younger generation, the weakest in cultivation, and they are also in the late Earth Sage. A few are peerless Earth Sage cultivation, attracting attention.

This group of people entered, and suddenly, the light on the ancient holy tower flickered, and in the blink of an eye, more than 20 people passed the third layer test.

"Awesome."

Everyone was amazed, and at this moment, Om, the tower on the fourth floor was completely lit up, and someone entered the fifth floor.

Moreover, the tower on the fourth floor kept lighting up, and there was more than one breaking into the fifth floor.

"Damn, who is so fierce?"

"Who else, haven't you seen a group of Tianjiao from the state lord's mansion just now?"

"Hey, it turned out to be them. No wonder if they can pass through the fourth layer, I don't know if the fifth layer can also shine."

"A bit difficult, but not impossible!"

Just as everyone was talking, the fifth floor tower lit up.

Suddenly, the crowd became a sensation.

Five towers!

A king-level genius, a figure who must become a heavenly sage, is even expected to reach the peak of the heavenly sage's initial stage and become the overlord of a state.

In the realm of Heavenly Sage, a small level is a great heaven, representing an extraordinary status.

Under the eyes of everyone, a young man walked out, came to Yun Mengze, knelted on one knee, and respectfully said: "Zhou Zi, Sheng Feiyang is fortunate to live up to the mission."

"It's Sheng Feiyang."

"Sheng Feiyang from the state lord's mansion, Yunmeng Zezhouzi's close companion."

"Damn, a companion is already a king-level genius, what about Yunmengzezhouzi?"

"my God!"

Everyone exclaimed, shock, admiration, and admiration. This is the best result so far.

The point is that it was only a companion of the state lord's mansion, so isn't Yunmengze Zhouzi a royal genius? This is a man who is expected to impact the mid-term of Heavenly Sage.

The appearance of Sheng Feiyang immediately stimulated countless Tianjiao people, and suddenly, some Tianjiao people no longer hesitated and entered one after another.

With the emergence of these geniuses, a few king-level geniuses appeared, but not many, very few. After all, it is very difficult to gain a foothold on the fifth floor.

As for those who have a firm foothold on the sixth floor, there are currently none.

Everyone is paying attention to Xiang Yunmeng Zezhouzi, and I am afraid that it is Master Zhouzi who has hope to light up the sixth floor.

"Mengze, let me do the assessment first."

Feeling everyone's gaze, finally, Li Wanxue was also ready for the assessment, Yun Mengze nodded and watched her walk straight into the ancient holy tower.

"It's Li Wanxue from the soul fire family!"

"Yunzhou's top arrogant, peerless beauty."

"She has a marriage contract with Yunmengze Shizi. It is rumored that she has amazing talent and is known as the number one beauty in Yunzhou. What is her grade?"

Everyone was excited.

Although there are experts entering every moment, but a arrogant talent like Li Wanxue will still attract the attention of countless people.

I saw that the ancient holy tower was constantly lit.

level one.

Second floor.

the third floor.

The fourth floor.

Soon, the fifth floor was also lit up.

"King class, another king class."

"It's definitely Li Wanxue."

"Except for her, no one can pass the first few floors so quickly."

The crowd was shaking, and he deserved to be the top talent in Yunzhou. This talent was amazing.

"You said, is it possible for Li Wanxue to go one step further and break into the sixth tower and become a royal genius?"

"difficult!"

"There is a small difference between the king-level and the royal-level. It is said that such a genius is difficult to produce in a thousand years!"

"It's hard to say that Li Wanxue is the top arrogant of our Yunzhou. It may not be impossible."

"Look!"

Everyone was staring at the ancient sacred tower. At this moment, the sixth floor of the ancient sacred tower suddenly lit up slightly, and someone stood firm on the sixth floor.

Royal class!

boom!

The whole square is boiling, the royal genius, what concept is this, so far, countless martial arts assessments, it is the first to appear.

Although it only allowed the sixth layer to glow slightly, it already represented that this person was stabilized in the sixth layer.

I just don't know if I can go further. When it comes to the sixth floor, it's not just a matter of lighting up. After the sixth floor, there are many levels on each floor.

If the opponent can completely pass the sixth floor and enter the seventh floor, it will be unprecedented, representing huge potential, and is expected to hit the emperor level.

Even above the sky, the eyes of countless Heavenly Sage powerhouses also paid attention.

But after a long time, the sixth-story tower body was not completely lit up, but Li Wanxue walked out of the tower.

She failed to pass the assessment of the sixth floor and entered the seventh floor. This made Chu Ye, who worked in Heaven, a bit regretful. He was very optimistic about this young man, but after all, Li Wanxue failed to create a miracle and entered the seventh floor. Once he entered the seventh floor, based on his experience, he would definitely receive Huge days of work

Cultivated.

Because, even in Guanghan Mansion, there are not many days to enter the seventh floor. Being able to enter the seventh floor represents a genius at the middle mansion level in the heavens, which is very rare.

Unfortunately, it's a bit short.

Of course it's not bad now, but in comparison, it's a bit worse.

But this is also normal, the emperor-level genius is too rare after all.

Moreover, it is not impossible for Li Wanxue to go further in the future and become an emperor-level genius. Of course, it is also possible that he can't even reach the king-level. After all, this test is only potential, and only when the potential is displayed can he truly become strength. "Very good. I just asked Master Qi Ling. Although Li Wanxue failed to pass the sixth floor, he still completed the first two levels of the sixth floor. This result is very good. It can be entered in other states. The top five, the top ten are basically all set

Yes, even the top three are not necessarily expected. "

"Hehe, I finally received a good seed."

Some senior officials of Tianjiao said one after another, and they were finally relieved that the more outstanding the students they received, the higher the status of Guanghan Futian Work Division, and the more naturally they can be proud of it.

There is no competition within Tianjia. With Li Wanxue's dazzling brilliance, other geniuses couldn't sit still, and they entered the tower for assessment. Suddenly many more talents from the five towers came, but only Li Wan could stand firm in the six towers. Snow alone.

[Chapter 2656: Jealous](#)

Returning to Yun Mengze from the ancient holy tower, Li Wanxue's aura became extraordinary, and his eyes became more confident.

Emperor Tianjiao.

She stood beside Yun Mengze, and countless lights gathered. It was no longer Yun Mengze alone, but Li Wanxue.

"Late Xue, congratulations."

Yun Mengze smiled slightly.

"Thank you."

Li Wanxue said flatly, naturally there was a different kind of arrogance, she was sure that she would definitely be able to join the Heavenly Work Martial Arts Department.

"Grandpa Grandpa, have you seen it? Wan Xue will definitely avenge you."

She stared at the three of Qin Chen, her eyes bursting with cold light. She knows that Ao Qingling and the others still have to be assessed, and only if the other party fails the assessment, then she has the qualifications to do it, because she is a royal-level arrogant. Won't say anything at all, even

Until, I will avenge her.

Qin Chen ignored Li Wanxue's gaze, frowning in thought.

Because, he felt that after everyone came out, as long as they passed the assessment, then the aura became extraordinary. Is this ancient holy tower really effective?

"How about, do you feel the pressure?" Qin Chen smiled and looked at Ao Qingling and Qin Tingting. The expressions of the two seemed a little nervous, but their tone was unusually relaxed, "There is pressure, but it's okay, but only six towers. This Li Wanxue dares to look at you like this. We must make her look good and let her know, six towers. , Nothing at all, not just her

One person can reach it. "

"Just want this momentum, well, you guys go in too."

Qin Chen smiled at Ao Qingling and Qin Tingting, "Remember, don't be impatient, but believe in yourself."

"Yes."

Ao Qingling and Qin Tingting looked at each other and walked towards the ancient holy tower together.

boom!

The eyes of the two were firm, and their bodies had amazing auras, like two gods.

"what."

Everyone was surprised.

"Who are these two people, so terrible aura!"

"I know that it is Ao Qingling and Qin Tingting from the Chendi Pavilion. That Ao Qingling was originally the daughter of City Lord Ao Lie of Cangxuan City. As for the woman next to her, it seems to be a young man named Gu Zhongpai outside Cangxuan City. School disciple."

"What, a little disciple and the daughter of the city lord have such a perverted aura? I am afraid that this aura is a king-level figure?"

"Look at the aura on them, they are all peerless earthly saints."

"The Peerless Di Sage Tianjiao has become a Chinese cabbage? Even in the next city?"

Everyone was dumbfounded.

People in Yunzhou, who don't know about Cangxuan City, and have heard of the Ao family, but isn't this family declining? When did these two abnormalities appear?

Such a Tianjiao, even those Tiansheng-level forces in the prefecture may not be able to cultivate it?

Ao Qingling and Qin Tingting walked all the way, everyone gave way, and only a few people could withstand his oppression.

Even the big guys in the sky nod frequently, these two women are very impressive and amazing.

The master of Yundong Gwangju's eyes condensed. Has this Ao family been developed to this level? Take out two disciples at random? Are all king-level peerless earth sages? What is the treasure that Ao Lie got? So perverted?

"These two people are required to pass the assessment. They just don't know where they can go and whether they can compare with Li Wanxue."

"Look at the eldest lady of the Ao family, she seems to be no worse than Li Wanxue in terms of appearance?"

"What is the name of the person next to her? Isn't Qin Tingting? She is also very temperamental."

After the transformation of Ao Qingling and Qin Tingting, their aura was so extraordinary, they attracted the attention of countless people before they entered the ancient holy tower.

"hateful."

Li Wanxue clenched her fingers tightly, her eyes cold.

Under the eyes of everyone, the two entered the ancient sacred tower together, and soon the first three floors of the tower lit up.

In just a moment, the fourth-story tower also lit up.

"Can you reach the level of the five tower king?"

Everyone is curious. Although it does not look weak on the outside, the aura is not within the assessment range of the ancient sacred tower. Whether there is truly a talent for the king class, the ancient sacred tower looks at the essence.

Before everyone had waited long, at this moment, the fifth floor of the ancient holy tower glowed.

King class.

Everyone was surprised, and they were two king-level geniuses at once. Sure enough, they were both king-level geniuses.

Suddenly, the crowd became a sensation.

This means that both of them have the qualifications to become heavenly saints, even a certain thing.

By the way, what forces do they come from? Chendi Pavilion? Damn, such a force that had never heard of before suddenly appeared two future heavenly saints.

Everyone was a little dizzy, and the ranking of the top power in Yunzhou might have changed.

In the crowd, Li Wanxue's face was ugly, and Ao Qingling and Qin Tingting both passed the assessment, and they were both kings. Although they were worse than her, it also meant that she could no longer do anything with them at will.

"what."

"Why haven't Ao Qingling and Qin Tingting come out yet?"

It was just after the shocking discussion, everyone held back, because Ao Qingling and Qin Tingting had not been eliminated after passing the fifth floor, and they were still being assessed.

by.

Are they going to light up the sixth floor?

When this idea came out, everyone almost went crazy.

This.....

impossible?

So far, only Li Wanxue has lighted the sixth floor. If Ao Qingling and Qin Tingting can also light up, it would be too abnormal.

Is it just possible?

Everyone stared at the ancient sacred tower.

"Come on, I believe you can!"

Qin Chen said silently.

At this moment, the entire square boiled, and endless exclamations sounded.

After Li Wanxue, the sixth-story tower was lit up again.

"Damn, the sixth-story tower is really bright!"

"Oh my God!"

"Am I dazzled?"

"It seemed to be lit up twice just now. Could it be that these two people have gained a firm foothold on the sixth floor?"

"Hi, my God, how is this possible?"

Everyone was shocked. The two six-tower geniuses were all from the same power. At this time, everyone was not concerned about the ancient holy tower, but Qin Chen.

They saw Ao Qingling and Qin Tingting standing beside this man just now. Who is this man? There are actually two royal-level arrogances next to him, is this too happy?

It must be a servant, yes, this man must be the servant of the previous two women.

Some people who don't know the origin of Chendi Pavilion are guessing this way, otherwise they cannot bear it in their hearts, but there are still many people who know the deeds of Chendi Pavilion and also know that Qin Chen is the pavilion master of Chendi Pavilion.

And Ao Qingling and Qin Tingting are just women beside him.

I'm so jealous. Many Tianjiao people squeezed their fists into chuckles. Who can bear such a comparison? God is so unfair.

[Chapter 2657: Forgive us](#)

The two big six towers Tianjiao accompany him, and even Yunmengzezhouzi does not have the treatment.

Not far away, Yun Mengze's face was pale. That's right, Li Wanxue was the only emperor arrogant beside him, but Qin Chen followed two, which was too much.

Li Wanxue was even more hit hard, how could it be possible, how could those two **** be like him, they are also the royal-level arrogances.

Fortunately, Ao Qingling and Qin Tingting did not further attack others, and soon walked out of the tower.

They failed in the fifth level on the sixth floor, which is even more than the last two levels of Li Wanxue. This is already the final level on the sixth floor. After passing, they can completely light up the sixth floor and enter the seventh floor. In the end, they failed.

However, this does not affect the fact that the two detonated the entire scene.

boom! Countless people boiled, the whole square was noisy, everyone looked at Ao Qingling and Qin Tingting in shock. This was already the best place among all the examiners present. In other words, if no one surpassed the two in the ranking, two People will get

Top one or two.

In the sky, Heavenly Sage Chu Ye was also delighted.

Emperor-level geniuses, as long as they are trained in Heavenly Work, they may not be able to enter the Emperor-level or even the Saint-level.

The more Tianjiao he finds in Yunzhou, the more face he will naturally become after returning.

"Haha, good, good."

He smiled.

The Lord Guangzhou of Yundong, Yunzhou, his face was a little green.

The little Chendi Pavilion actually has two imperial-level Tianjiaos. This is troublesome. If he wants to work on Chendi Pavilion, it is difficult to guarantee that he will not interfere in the work.

"Awesome, I can't think that the two women around Qin Chen are also royal-level arrogances. It's incredible."

Zhen Xing Zhen also stood up in shock, and immediately laughed, unable to hide his joy.

He was optimistic about Qin Chen, but he did not expect that the Chendi Pavilion was so extraordinary. There were two emperor ranks in one fell swoop, and he was even expected to take the top two of the working martial artist that day, which surprised him. Happy again.

After all, he had always advocated a good relationship with Qin Chen, and he was just doing it casually, and he didn't expect to have such an unexpected gain. In fact, with the status and status of Wangulou, the two imperial-level geniuses are not so excited. After all, Wangulou is one of the top forces in Guanghan Mansion, and the masters of Tiansheng Peak are all in charge. , Naturally don't care about hope

The imperial arrogant who impacted the midst of Heavenly Sage. However, there are top-level powerhouses in the Wangu Tower, which does not mean that Tianxing Zhenren himself is. If the Chendi Pavilion really develops in the future, and his relationship with Chendi Pavilion is unusual, then his position will be completely stable and will no longer be necessary. Worry about internal

Kind of intrigue and crowded out.

"Less dust."

Under the excited eyes of everyone, Ao Qingling and Qin Tingting came to Qin Chen, with a hint of anxiety and anxiety on their faces.

"There is little dust, sorry, we actually wanted to hit the seventh tower, but the difficulty was too great, so we didn't succeed..."

The two lowered their heads, as if they had done something wrong.

puff!

Hearing this, someone nearby suddenly vomited a mouthful of old blood.

What do you want? You have already reached the sixth tower, lighting up the light of the sixth tower, and it seems that the test failed to pass the test. How do you let other people live?

"It's okay. The performance of the two of you is already pretty good. Although you didn't make it to the seventh floor, it was a bit unexpected, but you two don't have to worry too much about it. Just keep working hard in the future." Qin Chen smiled and comforted.

Wow wow!

Some warriors on the side couldn't help it at all, wishing to fall to the ground, faceless to see people.

Heaven.

The earth.

Forgive us.

Light up the light of the six towers. You told me that it was an accident. This result can only be considered good. What the **** would you tell me to get a good result? Seven or eight floors?

If fighting is allowed on the court, it is estimated that millions of people want to jump forward and hack Qin Chen to death.

Yunmengze of Yunzhou Prefecture couldn't listen anymore. He was afraid that he could not control it and would hack Qin Chen to death with a knife. His face was pale, and he went straight to the ancient holy tower.

"Master Zhouzi is going to be assessed."

"Hey, I don't know how Mr. Zhouzi's grades are and whether he can regain the top spot."

"Does this need to be asked? With the strength of Lord Zhouzi, it is absolutely no problem to light up the six towers, but I don't know if I can surpass the two of the Chendi Pavilion."

"It must be no problem."

Seeing Yun Mengze approaching, the square boiled again.

Yun Mengze is really too famous.

Since the birth of Yun Mengze, no one in Yunzhou has dared to call him an arrogant talent anymore. This is the first arrogant recognized by countless powerful people in Yunzhou. The talent displayed is unprecedented.

There are rumors that Yunmengze will be the most brilliant figure in Yunzhou's history, leading Yunzhou to become one of the most powerful state capitals in Guanghan Prefecture.

Moreover, Yunmengze's strength is not only manifested in martial arts talents, but also talents such as refining weapons. It is rumored that Yunmengzezhouzi will not only participate in the martial arts assessment of Tianwork, but also participate in the assessment of Tianwork's refiner.

Both martial arts and dual cultivation, unparalleled in the world, shock the world.

His every move can cause a sensation in Yunzhou.

Hum!

He stepped, stepped out, and all the strong along the way couldn't help but disperse, unable to withstand his terrible aura.

"I am the real genius of Yunzhou."

Yun Mengze was proud, he turned his head and glanced at Qin Chen proudly, with a pretentious attitude.

He sneered in his heart and saw that, no matter what kind of achievements you have, as long as I move, you are the king of the world, and you, after all, are like ants and abandoned.

He is proud and confident in his heart.

Whoops!

The next moment, Yun Mengze staggered, almost standing unsteadily, and saw that Qin Chen and all three of them turned their backs to the ancient sacred pagoda. They didn't even look at him at all. He had put in a posture that had worked so hard for so long.

"Boy, I will make you regret it. When I walk out of the ancient sacred tower, you will know what is dazzling, what is king over the world, and Wanchao surrenders. I want you to kneel at my feet and surrender to me. Serve as a slave."

Yun Mengze's eyes were cold and his body was cold. He turned around and walked proudly into the ancient holy tower, disappearing.

At this moment, Qin Chen had no intention of paying attention to Yun Mengze, nor was he too lazy to know what Yun Mengze was thinking. Qin Chen's gaze fell completely on Ao Qingling and Qin Tingting.

"Unbelievable, you two have such a change in your temperament."

Qin Chen was shocked. After coming out of the ancient sacred tower, Ao Qingling and Qin Tingting did not make any progress in their cultivation, but their temperaments have become completely different. This is a temperament that radiates from the inside out, as if being affected Baptism is average, in

To some extent, there has been an amazing transformation. Is the assessment of this ancient sacred tower so magical?

[Chapter 2658: Premised](#)

At this moment, Qin Chen had a heartbeat. Originally, he had no interest in the martial arts assessment of Heavenly Work, but now, he has some interest.

"This ancient holy tower is interesting."

He turned around and looked at the ancient sacred tower, his eyes flickering, quite agitated.

"Little dust, do you want to participate in the assessment?"

Ao Qingling and Qin Tingting became excited. If Shao Chen entered the ancient holy tower, they would be able to easily break their records.

"Have this idea."

Qin Chen shook his head, "But I didn't sign up, and I don't know if it's feasible, so let's try it."

With a thought, Qin Chen was fearless, and jumped up, skimming the half-step Heavenly Sage who worked that day.

"Stop, what do you mean by this? Go on quickly."

During that half-step Tiansheng's eyes condensed, and he directly stopped Qin Chen, and the terrifying Holy Yuan surged over his body to stop Qin Chen.

"Huh, what is this kid doing?"

"Why did you go to the staff of Tianjiao? To participate in the assessment, just climb the steps and enter the ancient holy tower?"

"This person is called Qin Chen. It seems that he is the pavilion owner of the Chendi Pavilion. When talking to Yunmeng Zezhouzi before, he made it clear that he did not sign up for the martial arts assessment."

"Then what is he going to do? Is he going to die?"

Qin Chen's actions immediately attracted the attention of countless warriors in the square, and they began to discuss them in an instant.

Not only because Ao Qingling and Qin Tingting, but also because Qin Chen was the only warrior who dared to fly into the sky.

"My lord, I want to participate in the ancient sacred tower test."

Under all eyes, Qin Chen saluted the half-step Heavenly Sage who worked that day.

"Participate in the assessment? Just enter the ancient sacred tower, why come here? Get out quickly, this is not a place for you to come, think of your first offense, don't care, if you don't leave, you can kill it."

That half-step Tiansheng strong frowned, said with a cold voice.

Qin Chen was unmoved, took out the registration token, and said indifferently: "This lord, I also want to go directly in for the assessment, but I only signed up for the refiner assessment, not for the martial arts assessment, so I could not enter the ancient sacred tower. ."

To enter the ancient sacred tower, an assessment token is required. Qin Chen didn't register, so naturally he was not qualified.

As soon as this statement came out, there was an uproar on the court.

Damn, this kid actually signed up for Tianzuo's appraisal as a refiner. Is he a refiner?

That's all, the most speechless thing is that Qin Chen didn't sign up for the martial arts assessment, and actually wanted to enter the ancient holy tower, isn't this a joke? What do you think of the assessment of Tian'an?

Sure enough, that half-step Tiansheng's face sank, and a vast murderous intent suddenly erupted from him.

"Boy, if you want to enter the ancient sacred tower, you must sign up for the martial arts assessment. You didn't sign up, but you want to enter halfway through. What do you think is the martial arts assessment that I work for? What do you think the ancient sacred tower is?"

At that half-step, the Heavenly Saint Strong body was chilly, and his eyes were cold: "Nian, because you signed up for the appraisal of the refiner, quickly retreat, otherwise, I will kill you regardless of your status."

Boom!

A terrible aura, like a vast ocean, bombarded Qin Chen's body all at once.

This is the aura of Half-Step Tiansheng, this half-step Tiansheng master who worked at Tiantian was furious, although he did not kill Qin Chen, he wanted to teach a lesson.

But the next moment, his gaze condensed, because after his aura bombarded Qin Chen, it felt like he had plunged into an endless ocean, like a rock sinking into the sea, motionless.

what?

The Heavenly Sage Master was shocked during this half-step, and looking at Qin Chen in disbelief, raging waves appeared in his heart.

"No way?"

Qin Chen shook his head slightly.

He just gave it a try, but since Tian Jiao did not agree, Qin Chen would naturally not break in. After all, Tian Jiao also followed the rules.

"If that's the case, then I will leave."

Qin Chen shook his head helplessly, and turned around to leave.

"Wait a minute."

Suddenly, a majestic voice came from Skyrim.

"grown ups."

For half a step, the Heavenly Sage Master was staring at Qin Chen with a cold glow, and when he heard this voice, he turned around and saluted, his expression respectful.

"Young man, do you want to enter the ancient sacred tower test?"

Above the sky, the majestic voice came.

"It's the Lord Tiansheng evaluated by the director of Tianxing."

"The adult who worked in heaven actually had a conversation with that kid."

"Damn, what kind of luck is this?"

Countless strong people below are stunned, all of them are dumbfounded.

A big man who works in heaven, his status is noble, and the dragon sees the head but not the end. Even if today is the day of the assessment, he has been standing proudly in the sky from the beginning of the assessment to the present.

Unexpectedly, they would talk to Qin Chen now, and everyone would not be surprised and jealous. In their opinion, the reason why the Master Tianshen who worked this day would like Qin Chen is definitely because of Ao Qingling and Qin Tingting.

Damn, a guy who relies on women and eats soft food is so lucky, so good that it makes people jealous.

"I really want to enter the ancient holy tower experience." Qin Chen said to the majestic voice in the sky.

"Oh? Didn't you sign up for the martial arts assessment? Why do you want to enter the ancient sacred tower again? Could it be that you changed your mind and want to enter the martial arts department of my day job?" The majestic voice said with a smile. "Not so." Qin Chen explained: "I want to enter the ancient sacred tower assessment. I just see the ancient sacred tower. I want to know about it. I don't want to join the martial arts department. The juniors will participate in the refining tool of Heavenly Work. Teacher assessment, the future will enter

Please forgive me, Senior. "

"You... presumptuous, can you enter the ancient sacred tower if you want to?"

That half-step Heavenly Sage master couldn't help but furious, and said angrily at the sky: "Master, let me take action and teach this kid."

boom!

Murderous intent surged all over him, covering Qin Chen.

Qin Chen wanted to enter the ancient sacred pagoda for the purpose of getting to know the ancient sacred pagoda. He also proudly said that he didn't want to join the martial arts department. How could he not be angry in his mind as a disciple of the martial arts department?

"Okay, Gu Feixing, stop."

A terrifying power of Heavenly Sage descended from the sky, blocking the half-step Heavenly Sage master.

"Interesting, really interesting, no matter what, since you want to enter the ancient holy tower, the old man will give you a chance."

Hum!

Above the sky, a token fell, and what fell at the same time was a cold voice that contained chills.

"But... this has a prerequisite!"

"The reason why the old man gave you the token is to see that you will participate in the refining master assessment next. If you can pass the assessment and enter the refining division, you will be regarded as the same door of my daily work, so enter the ancient sage Tower, naturally it should be." "But if you fail the appraisal of the refiner, you are not considered to be the same as my daily work. In this way, letting you enter the ancient sacred tower will violate my daily work rules, and the old man will naturally not allow it. Such things happen."

[Chapter 2659: Conduct assessment](#)

The majestic voice said indifferently, "So, the old man gives you two choices. One, accept the token and enter the ancient sacred tower. In your appraisal

When you fail, kill you on the spot. "

"Second, if you give up entering the ancient holy tower and just withdraw, the old lady will assume that nothing happens."

"Which one do you choose?"

The sound of abuse came from the sky, giving people a strong sense of oppression.

hiss!

From below, everyone took a breath.

This...too cruel.

After receiving the token, you can enter the ancient holy tower, but you must pass the examination of Tianjiao's refiner, or you will die.

This is simply not giving people a way to survive?

There are many abnormalities in the assessment of the refiner of Tianjiao. Although everyone has not participated in it, they have heard of it. It is an assessment that is countless times more difficult than the assessment of martial arts.

Even some veteran master craftsmen of some local products may not be able to pass, how can this kid pass?

Therefore, the Heavenly Saint powerhouse who seemed to work in heaven gave Qin Chen two choices, but in fact, he wanted Qin Chen to retreat and leave directly.

Qin Chen looked at the token floating in front of him, but smiled slightly. He stretched out his hand, grabbed the token instantly, and said with a chuckle: "I choose to enter the ancient holy tower."

Whoosh!

He stood tall, and instantly fell in front of the ancient holy tower, with a light posture.

This kid actually accepted the token, he was looking for death.

On the square below, everyone was stunned, unable to believe that Qin Chen had chosen to enter the ancient holy tower.

This is a decision made in full view. If he holds the idea that the other party is just talking, it would be too naive.

Mr. Tianzhu Tiansheng, what a superb status, the promise made under the eyes of everyone will definitely not repent or break his promise. As long as Qin Chen fails to pass the appraisal of the refiner, he will surely kill Qin Chen on the spot. This kid is too crazy. Up.

"Less dust."

Ao Qingling and Qin Tingting both clenched their fists.

Qin Chen didn't care about it. Will he fail the appraisal of the refiner? Jokes, holding the token, Qin Chen stepped into the ancient holy tower.

At this time, there are very few people who have not yet participated in the assessment, and Qin Chen is almost the last batch of players.

Those who did not pass the assessment were directly excluded from the periphery of the square, while those who passed stood in the center of the square, which added up to not more than two hundred. Compared with the number of people who came to sign up, this number was pitiful.

However, Qin Chen and Yun Mengze were the two most concerned about the rest.

Yun Mengze had entered the ancient holy tower before, and now the fifth tower has been lit, and he is currently rushing towards the sixth tower, so how many towers can this kid break into? Five towers or six towers?

Qin Chen walked into the tower, and the people around him immediately disappeared, and all the noise was inaudible.

He entered an independent space.

Something appeared abruptly in front, only a simple stone table, and a jade card on the stone table.

"The first level is to assess comprehension."

A voice sounded, so indifferent that no emotional fluctuations could be heard.

The spirit of the ancient holy tower.

This ancient sacred tower is indeed extraordinary, and the spirit that was born should be evaluating ten thousand people at the same time.

Qin Chen looked around. Inside the ancient sacred tower, there was a void, without knowing the depth. There were only stone tables and jade tiles in front of him. This should be a void space.

"How to test?" "This jade tablet records a section of exercises, which is divided into five layers. You have time to perceive and decipher the incense sticks. If you can decipher one layer, it is a level. If Xiangnei deciphers all five layers, it is considered a pass, and the more time

The shorter the score, the higher the ranking. "

Qi Ling said coldly, without any feelings, it incarnates tens of thousands, and is even communicating and evaluating with tens of thousands of people at this moment.

"Ranking?" Qin Chen couldn't help frowning, wondering: "There is still a ranking. Is there any record that can be broken? Are there any rewards after breaking?"

"There are records to be broken, but there is no reward. It will only leave your name in this ancient holy tower for future generations to admire."

Qi Ling said, hum, and suddenly, in the void in front of Qin Chen's eyes, a stone monument that stretched to the sky appeared. On the stone monument, there were ten Dou Da names, shining brightly.

"This is the ten people with the shortest time since the start of the assessment of the ancient sacred tower, and there are only ten. If there are latecomers, they will be replaced." Qi Ling said.

Qin Chen looked up, but saw these ten names, none of them knew, whether it was Qin Tingting, Ao Qingling, Li Wanxue, or even Yun Mengze. Qin Chen's heart moved. It seems that this record should be all the warriors who have participated in the assessment in the ancient sacred tower for countless years. The assessment of Tiangong is not only in Yunzhou, but also not only in Guanghan. Mengze they enter not

In the top ten, it is also normal.

In Yunzhou, Yunmengze and their talents are amazing, but if they are placed in Guanghan Mansion, it is nothing, they may not be in the top ten, not to mention that this ancient sacred pagoda records countless years, the top geniuses in the heavens. Up.

If you can leave a name here, how dazzling is it? I am afraid it can cause a sensation in the work of heaven.

But Qin Chen shook his head. He is a pragmatist. He doesn't have any rewards except for engraving his name. Then the record is not broken. Will the name be worshipped here?

"You can start." Qi Ling said lightly.

If this were to be replaced by a top-level powerhouse, Qin Chen asked about it to estimate that he was going to hit someone impatiently, but it was stubborn, without the slightest mood swing.

Qin Chen came to the stone table and sat on the ground. Then he picked up the jade card and poured it into it with divine consciousness. Suddenly, primitive characters jumped out and churned in his sea of knowledge.

The inheritance of this kind of exercise goes straight into the sea of knowledge. It cannot be expressed in words or characters. Only when you really understand it can you give a general idea, decipher it, and describe it.

Note that what Qin Chen has to do is to decipher the exercise itself, not to cultivate the successful method. If he wants to practice the successful method, then it is definitely not something Yizhuxiang can do. Qin Chen closed his eyes slightly, put the jade card down, and said, "This is an inner yuan technique, a technique that integrates the sacred yuan and the physical body. The first layer is condensed inner yuan, and the second layer is Rongyuan. Entering the body, the third layer is Huayuan entering the veins, the fourth layer is Lianyuan entering

Marrow, the fifth level is to change the element into blood, but what is recorded here is only the description and effects of the exercise, and there is no real exercise diagram. "But... this technique should have flaws. For example, the second and third levels of Rong Yuan Entering Body and Hua Yuan Entering Channels are too radical. There should be a buffer between the physical body and the meridians. For example, adding a layer of sinking yuan into the viscera, sinking the internal yuan from the muscles into the internal organs, and then from the internal organs to the meridians, the difficulty will be reduced by half and the effect will be improved. "

[Chapter 2660: Magic weapon](#)

"There is also a gap between the third layer of Hua Yuan entering the veins and the fourth layer of Lian Yuan entering the marrow. It is too presumptuous. If you add a virtual element to the bone, the inner element enters the bone with the veins and the bone enters the marrow, which will be more natural and effective. ."

"This exercise should be a local-level exercise. If it can be cultivated, the effect should be good. Unfortunately, it is not top-notch, it can only be considered careless..."

Qin Chen raised his hand, hum, an inner yuan lingering in his palm, unexpectedly showed the breath of this technique.

Of course, this is what he used his own exercise technique Nine Star God Emperor Jue to force, not the exercise method itself, it is not difficult for Qin Chen to force the operation diagram of this exercise method, but it is costly. Time is too much. Qi Ling was silent for a moment, and then said: "Yes, this is a local inner yuan cultivation method, produced in ancient times, but it is not low-end, you said that the sinking yuan into the entrails and the virtual yuan into the bones, in fact, Are real, but simplified,

Originally, there were eight layers of this exercise. "

"Eighth floor?"

Qin Chen frowned, "Which layer did I miss?" "The eighth layer." Qi Ling said: "After the seventh layer is replaced with blood, there is still an eighth layer of scattered elements entering the soul, but this technique Since it was created in ancient times, the eighth level has never been successfully cultivated. Therefore, what you said about seven

The level is not incorrect, but because of this flaw, this practice has been eliminated and has no meaning for cultivation, so it is used for assessment. "

This tool spirit actually explained surprisingly much.

"Does the scattered element enter the soul?"

Qin Chen frowned and fell into a dullness suddenly, like a stone statue.

He faintly felt that he seemed to have touched something extraordinary, but what it was was like a mirrored picture, and he couldn't touch it.

what exactly is it?

This kind of faint feeling, but not knowing what it is, is extremely uncomfortable.

Disperse the element into the soul and integrate the sacred element into the soul. The sacred element and the soul are two completely different powers. How to merge?

But if you really want to be able to integrate?

How should it be integrated?

Qin Chen couldn't figure it out, but there was a faint feeling in his heart that it was not impossible to realize the eighth level of this inner yuan exercise. At this time, Qi Ling broke Qin Chen's contemplation, "You have a very high level of understanding, and you are the first person in countless years to complete the seventh level in such a short time. However, the completion technique is not within the scope of the assessment. Inside, according to your perception of the time it takes

He can be ranked 21st, but he cannot be named. "

This device is very well-mannered. If you calculate the time for Qin Chen's completion technique, then Qin Chen will definitely be able to enter the top ten, or even higher, but the content of the assessment does not include this, so Qin Chen's completion can only be regarded as useless. .

Huh?

Qin Chen had no interest in breaking records, but when he heard that his speed could only be ranked 21st, he couldn't help showing his fighting spirit. But you can borrow this place to compare with the ancients. The place where the ancient sacred tower has been is by no means the same place in Yunzhou, and even experienced countless prefectures. How many Tianjiao have participated in the assessment? It's not an exaggeration to say that there are many, many of them are

Is like the top master at work today.

It is very likely that the first person to perform the assessment has given birth to a master-level master.

Qin Chen was full of fighting spirit.

"You can go to the second floor."

Qi Ling said, a passage suddenly appeared in the void ahead.

Qin Chen walked in, and saw another void at the end of the passage. In the void, countless stars flickered, forming a star map. "Each star map in front of you represents an acupuncture point of the human body. I will designate several acupuncture points. You need to connect these star map acupuncture points in front of you to form a meridian movement diagram of the local power method. A total of five acupoints will be illuminated,

One success means passing one level, and all five are successful, and the assessment is passed. "

"The shorter the time, the higher the score. If a stick of incense fails to succeed, the assessment will fail."

Qi Ling's voice fell, and suddenly, the star map in front of it lighted up, and some complicated star maps glowed. This is the designated hole. This level tests the ability to create and draw inferences from one another. Qi Ling has formulated a star map for acupuncture points, so the examiner cannot directly apply any of the exercises he has practiced. The examiner needs to use the exercises he has practiced in the past. Knot again

In accordance with my own understanding of the acupuncture points, I created a map of the cultivation meridian movement of local products.

This is difficult to say, and easy to say.

After all, it is only necessary for the examiner to create a meridian movement diagram, not to create an exercise method. It is just a meridian movement diagram that truly talented people should be able to do.

Qin Chen's eyes flashed, and a star map had been subconsciously formed in his mind, enough to complete the task, but when he was ready to take action, there was a flash of inspiration.

No, if you change your thinking and construct it in this way, the formed meridian movement diagram will improve its quality.

He pondered for a while, modified the previous structure, and then immediately shot.

Huh!

In a few strokes, several lit star maps were connected.

Hum!

The meridian diagram in front of me burst into bright light, and all the five star diagrams were wrapped in it, and the sequence was exactly the same as the previous process of luminescence, which was perfect.

"Congratulations, you passed the second level of assessment, and your time is ranked 13th in the historical ranking."

This time, he improved by eight places and broke into thirteen.

"Only thirteen?"

Qin Chen shook his head. In the process of thinking, he wasted some time in order to keep improving. If he used the meridian movement diagram that he thought of subconsciously at the beginning, it would take at least half of the time, and he would surely be in the top ten.

But Qin Chen didn't have the slightest regret. He didn't enter the ancient holy tower to break the record, so why bother with it. His only purpose is to get some cultivation gains here.

"You can go to the third floor." Qi Ling said, and another passage appeared in the void ahead.

Qin Chen walked in and saw that there was also a ten table at the end of the passage, and there was a jade card on the stone table.

However, this time the space around the jade card is very strange, like there are countless space wormholes, and this jade card is located in the middle of the space wormhole.

"Huh, what kind of assessment is this? Is it through the spatial wormhole to understand the techniques on the jade tiles?" Qin Chen wondered.

"You have up to three chances to crush this jade card in front of you with the aura of Saint Yuan within a stick of incense."

The voice of Qi Ling rang.

This time, what was tested was not perception, but Sheng Yuan's strength and resilience, and ability to control. For a warrior who can enter the third floor, it is not a problem to break a jade card, but it is difficult to destroy this jade card by using only the aura of the holy origin to pass through countless space wormholes.
