

## Valkyrie 2691

### [Chapter 2691: Must kill him](#)

Zhen Xing Tian immediately stepped forward and said, "Qin Chen, brother, it's too late today. Since your Chendi Pavilion has been destroyed, it will take a few days to rebuild. It's better to stay in our Wangu Building for two days."

His eyes were hot, as if he had picked up a treasure.

Qin Chen's eyes flashed: "That's OK, so please trouble the host."

"No trouble, no trouble."

Zhen Xing Tianxiong laughed happily: "Elder Chu Ye, Brother Tianhe, Brother Tianlong, if you want, you can also come to my Wangu Building to sit down and I will welcome you by sweeping the couch."

"Haha, we won't join in the fun."

Old Monster Tianhe and the others laughed and left one after another.

The conflict was resolved, this group of bigwigs left, and the others naturally dispersed.

But the news here spread out at an alarming rate.

Such a major event is undoubtedly the thing that the strongest in the heavens want to see most. Even the strong in Yanzhou, Lingzhou and other places, who report urgently, send news and notify everywhere, are all in a mess. This is one thing. Amazing things.

"What? The thirteen thirteen thieves in our major states were killed? And it was the young man Qin Chen who broke into the ninth floor of the ancient sacred tower during the work assessment?"

Lingzhou State City.

The lord of Lingzhou was playing chess with a strong heavenly sage, and there were still a group of strong players around, and they were all shocked when they received the news.

"How is it possible? You mean the Qin Chen who was assessed by the work of heaven? I also received his information, but isn't that kid just a peerless sage? How can you kill the thirteen thieves?" "Thirteen thieves, for Curse our major states. Last time our major states joined forces, they were not wiped out, and they were unable to find their lair. How could Qin Chen find it and behead the thirteen thirteen thieves. The thirteen thirteen thieves each had their cultivation bases to reach the sky and joined forces.

Normally Heavenly Sages can kill, how did Qin Chen do it? "

"Is there something wrong with the intelligence? I really have this ability, then Qin Chen is probably a holy son and a holy woman of the level."

"In addition to the news that Qin Chen killed the Thirteen Thieves, there is another even more explosive news. That Qin Chen openly opposed Yun Dongguang and asserted that Yun Dongguang and the Thirteen Thieves were in collusion. Win or lose, and finally broke up?"

"Aren't we receiving false information?"

Those who can play chess with the lord of Lingzhou are naturally the top masters of Lingzhou. A group of people are stunned when they get the news.

But they knew that this was definitely not false news, because it was not obtained by one family, but by all major forces.

"Why do I think that Qin Chen's words seem to make sense? I remember that the thirteen thirteen thieves were the vanguard of Yunzhou the last time they encircled and suppressed, right? If there are inner ghosts in Yunzhou, they will naturally not be able to find the thirteen thirteen thieves' nest! "

"I feel a little weird when you say that. During the encirclement and suppression, Yun Dongguang was very active, unlike his personality."

"If this is the case, then this Yun Dongguang is damned, but Qin Chen can block Yun Dongguang undefeated, who is it?"

"I would like to meet Qin Chen, the nine-story ancient sacred tower, killing the thirteen thieves, and the enemy Yun Dongguang. Such a character is rare in thousands of years."

"This seat is also tempted, the world-famous Tianjiao, properly the world-famous Tianjiao."

The great figures in Lingzhou were so shocked that they even wanted to leave for Yunzhou to meet Qin Chen in person.

Not only Lingzhou, but at the same time, the owner of Yanzhou also received the news and was shocked.

"My lord, this is the news from the young master. There should be no mistake, and the young master judges that what Qin Chen said is very likely to be true. The young master also suspects that Yun Dongguang and the thirteen thieves are in collusion. ."

A subordinate respectfully said.

"Damn it, this cloud cave light, so courageous, no wonder we failed to encircle and suppress the thirteen thirteen thieves in several major states. Unexpectedly, the thirteen thirteen thirteen thieves have slaughtered more than ten top forces in Yanzhou over the years. , Damn it."

"My lord, I heard that Qin Chen and the lord of Yunzhou have completely fallen out, and the two sides even almost fought each other. If it weren't for the people who worked in the sky, I'm afraid it's already fighting, what should we do in Yanzhou?" The subordinate asked. The master of Yanzhou Prefecture flashed his eyes: "I remember that the real Muyue was in Yunzhou, right? Let Muyue represent us in Yanzhou, condolences to the Chendi Pavilion, first make a good relationship and then talk about it, no matter what Qin Chen's origin, he can break into the sky. Working on the ninth floor, competing with Yunzhou,

This kind of arrogant, I, Yanzhou, make friends early. There are only benefits, no harm. "

"Yes!"

The Lord of Yanzhou deeply knew the thirteen thieves, Qin Chen did not show the mountains, did not reveal the water, and actually beheaded in one fell swoop, coupled with his displayed talent, enough to attract anyone's attention.

Suddenly, what happened in Yunzhou spread wildly among the various states, causing a lot of noise.

Qin Chen's reputation spread across the prefecture of Guanghan Mansion in an instant, and Yun Dongguang's reputation suddenly stinks.

Collusion with the notorious thirteen thieves is unacceptable to any force.

Especially in Yunzhou Prefecture, the discussion is the hottest. Although no one dares to slander Yun Dongguang, the lord of the state, in the dark, no one does not despise or ridicule.

"Damn, this Qin Chen, this seat must kill him."

In the Yunzhou prefecture, Yun Dongguang exploded the entire hall, raging.

"Father, why don't you find an opportunity to directly assassinate that kid?" Yun Mengze gritted his teeth and said, his face was extremely ugly. Overnight, the entire Yunzhou only knew that there was Qin Chen, not his state. Yun Dongguang's face was cold, his eyes stopped flashing, his anger narrowed, he closed his eyes slightly, as if he was thinking about something. After a while, he opened his eyes and said coldly: "It's not working now, like working here today. And that Qin Chenjin

Entering the ninth floor of the ancient sacred tower, the Heavenly Work Martial Arts Department valued it very much, and it was very difficult to kill him. "

"Furthermore, now that Ao Lie is coming, I cannot guarantee that Qin Chen and the people from Wangulou will be able to kill them for the time being. For today's plan, you must successfully join the Heavenly Work Refiner Ministry." Yun Dongguang stared at Yun Mengze: "During the day's work, the refining division is far above the warrior division. As long as you become the champion of this refining division, then kill that Qin Chen for your father, Day work will not be hindered, even the Wangu Lou dare not intervene.

My father recently wanted to break through a supreme profound art, and after a while, when the profound art was completed and the golden light was cultivated, he could kill that Qin Chen and Ao Lie at will. "

"Of course, the premise is that you have to join the refining division, and the ranking is before that Qin Chen, are you... sure?"

"Father, the child must do everything possible to win the championship." Yun Mengze gritted his teeth, obviously hesitating.

For him to successfully join the Refining Division, he still has confidence, but if he wins the championship... to be honest, it is difficult!

[Chapter 2692: Seven Spirits Reincarnation Formation](#)

Yun Mengze is very aware of the difficulty of the appraisal of the refiner this time. The top refiners of several states near Yunzhou have all been informed about the number of refiners, and there are also many veteran refiners, Yunmeng. No matter how confident Ze is, he dare not say

I can win the championship.

"Are you not confident?" Yun Dongguang said coldly. "Father, there are too many veteran experts who participated in the appraisal of the refiner this time. The child got news, and even the sage expert came to sign up. Not to mention, just the Nangong shadow master who taught the child, this time he also participated. Refining Normal University

In comparison, Nangong Shadow Master is a veteran half-step celestial sage, and has even been able to refine a half-step celestial sage. "

"Although the child's talent is amazing, at most he can only refine the superb sage soldiers in the land, I am afraid..." Yun Mengze knows that his advantage is young, in terms of age, he is younger than many veteran warriors. , And the appraisal of the refiner is the same as the appraisal of the martial artist. Talent is the most important thing in the work of heaven. Therefore, Yun Mengze is not afraid of those old-style refiners.

Maker.

But the key is that there are too many old brand refiners, and Yun Mengze can't guarantee that he will definitely get the first place.

"Nangong Ying? You come with me." Yun Dongguang suddenly smiled coldly, an invisible force suddenly wrapped Yun Mengze, and quickly swept toward the depths of the state lord's mansion.

Hum! The endless void is penetrated layer by layer, Yun Mengze only feels like he has entered the depths of an extremely secret cave. He looked around in amazement. This is the deepest part of the state lord's mansion. It should be a secret space for his father's retreat and practice. , Even if he

This is the first time to come here. In the endless void, it was cold and humid. Eventually, Yun Mengze sank his feet and found himself standing in a cave. In front of him, there was a dark gate. I don't know what was inside the gate. It was extremely cold, and there was a smell. concentrated

The gloomy \*\*\*\* air diffused out.

"Father, is this place?" Yun Mengze said in a bit of horror. With his talent and cultivation base, standing here, he felt a kind of creepy.

"Come with you as your father." Yun Dongguang took Yun Mengze forward and opened the door all at once.

"Yun Dongguang, let go of the old man."

"Yun Dongguang, you despicable villain, dare to frame me, you are not human."

"Yun Dongguang, you beast, I have worked so hard in your Yun family for so many years. I never thought you were such a beast." A roar came from behind the door, accompanied by a strong \*\*\*\* aura, Yun

Mengze looked in amazement. When I arrived, behind the gate, there were blood-colored pools of water, and in the pool water were soaking old men with gray beards, and their bodies scattered.

With a terrible aura, all of them are half-step heavenly saints, with a total of seven.

These old men were pierced by iron chains and imprisoned in this pool of blood, and the leader was one of Yun Mengze's master craftsmen in the prefecture, Nangong Ying.

The remaining six are all master craftsmen in Yunzhou. The weakest one is also the craftsman at the pinnacle of the terrain. Yun Mengze remembers that when he was a child, these masters taught him. Own teachers.

"Father, you are..."

Pedal! Yun Mengze backed away in horror, and almost sat down on the ground in horror. His father actually tied all his former refining masters in this blood pool. The blood pool was surrounded by terrible restrictions, and the blood was filled. Actually smelting these seven refiners

The breath and soul of the master.

"Yun Mengze..."

"My good disciple, let your father let us go."

"Yun Mengze, you little beast, I hate it. I hate you for believing in your Yun family. I'm really blind."

When these old men saw Yun Mengze, they roared one by one, especially the headed Nangong Ying, who roared at Yun Mengze: "Yun Mengze, let go as a teacher, you despicable villain." Yundong A cruel smile was sketched on her face: "Ze'er, these are the master craftsmen who have taught you craftsmen, and now I have been imprisoned in this seven spirit reincarnation formation. You are not worried about not getting the craftsmanship assessment. Champion? It's okay, this

The Seven Spirits Reincarnation Formation is capable of cultivating all the bodies and souls of these seven top crafting masters. As long as you sit on the high platform in the center and accept the power of the Seven Spirits Reincarnation Formation, you can absorb the power of these crafting masters. Soul and experience..." "Not only that, you are just a peerless earth sage. If you practice normally, even if you have enough resources, it will take at least decades to see the mystery of the heavenly sage, and step into the heavenly sage, even the heavenly sage. , But with this seven spirit reincarnation formation, you can

Before the appraisal of Tianzuo's refiner, he directly stepped into the realm of Heavenly Saint. "Of course, this method of violently improving your cultivation will have a certain impact on your future, but it will allow you to break through the half-step Heavenly Sage in the shortest possible time. As long as your cultivation is achieved, plus gaining The experience and strength of these seven masters

Quantity, are you afraid that you won't get the first place in the refining assessment? "

Yun Dongguang smiled grimly.

Yun Mengze was completely stunned, and his father used this method. It was amazing. It was like cheating. Among other things, his current master Nangong Ying is himself a well-known master

craftsman in Yunzhou, a half-step Tianban craftsman, in the way of craftsmanship, among all the examiners, it is definitely The top ten exist only because of age,

Therefore, it is difficult to say whether it will pass the assessment.

But now, he can gain all his experience and strength. This alone can ensure that Yun Mengze is in the top ten among all the refiners.

Not to mention, there were seven such top crafting masters.

"Father, you... are really generous." Yun Mengze was incredulous, his body trembling slightly: "However, this is cheating. If Tianjiao finds out, I will definitely cancel my grades." "Don't worry, no Some people have discovered that this kind of secret technique is obtained from a demon secret realm for the father. There is no such secret technique in the human race. Moreover, you are not directly swallowing the souls of these seven people. It is also based on your cultivation. Can't swallow, and

It is to seal a trace of the true spirit of these seven people in your mind, gain all their experience and methods, and all methods are under your control. "

"Combine the two, son, you will definitely be the champion of this refiner appraisal. At that time, Tianjiao will treat you as a treasure, and it will be easy to kill that Qin Chen for his father." Yundong looked up to Tianda. laugh it out.

"Father, I did it. Tell me how to do it quickly." Yun Mengze calmed down, and a cruel smile appeared in his eyes.

"Haha, worthy of being my son."

Along with Yun Dongguang's laughter, a scream and howl suddenly came from the cave.

"Yun Dongguang, Yun Mengze, we will not let you off if we are ghosts." The scream, like a resentful soul, echoed for a long time in this cave, unable to dissipate.

### [Chapter 2693: Assignments](#)

When Yun Dongguang tried his best to kill Qin Chen, Qin Chen and his team returned to the Wangu Tower. The Wangu host was very good at being a human being. Ruori also stood at the door early and waited.

Countless maids in the Wangulou stood at the door and greeted them personally. The scene was extremely magnificent.

The group greeted Qin Chen and the others, and sent them directly to the most noble room. In the room, a more top-level magic salivation incense burned, which made people refreshing.

This kind of room is no longer a night of 100,000 Saint Crystals, but it is difficult to change for a thousand dollars. It is not open to the outside world, and will only be opened to specific big people. "This... is the Wangu Building?" Walking in the Wangu Building, Ao Lie was shocked, "When my Ao family was still in Yunzhou Zhoucheng and was famous, I also cooperated with this Wangu Building, but didn't enter. After passing this place against the sky, this should be

The top place in Wangulou, right? In the legendary superior suite that is not open to the public, only the top and most noble characters can live in. "

Ao Lie entered the city like a soil bun. He looked left and right, his eyes were almost straight. As the lord of Cangxuan City, he has naturally been to Yunzhou Prefecture before, but with his previous status, he can only live in ordinary rooms, even the first-class rooms of one hundred thousand holy crystals for a night. Start, let alone the dignity in front of you

The suite is out.

Even if Ao Lie came alone, even as his Heavenly Sage, he might not be eligible to enter this exalted suite, and Qin Chen obviously brought all this. Wan Gu Building is not a charity, but one of the top forces in Guanghan Mansion. The average Heavenly Sage is not enough in their eyes, especially like Ao Lie, who spent endless years and finally managed to cross. The old brand

The strong, the future potential is very shallow.

Only Qin Chen, a talented arrogant with a bright and infinite future, is worth the great effort and great price of Wan Gu Lou.

Ao Lie came here, with warm and cold feelings, cold world, nothing experienced before, and naturally understood everything clearly.

Moreover, Ao Lie knew very well that Chen Shao was not from Guanghan Mansion, but he was able to establish such a cooperation with Wangu Tower in such a short period of time, which made Ao Lie admire and awe.

The people in Wangulou were also very acquainted. Knowing that Qin Chen and the others had something to say, after they came to say hello, they left each, leaving Qin Chen and his party behind. Qin Chen naturally became more relaxed when Ao Lie arrived, "Ao Lie, you finally came, but you came just right. Next, you will lead the ancient medicine masters and them to establish the Chendi Pavilion, and then cooperate with the Wangu Tower. Began to expand my Chendi Pavilion

Come. "In addition, you still have a big task. I killed the thirteen thieves and obtained their half-step heavenly origin. Next, I will thoroughly refine their origin and become the most basic force. Then teach them to Qingling so that Qingling

They touched the realm of Heavenly Sage faster. "However, I don't have much time to do this. You have to protect Qingling and the others, so as not to have any accidents when they feel it. If there is any trouble, you can also find Tian Xing Zhenren and Tian Gong Elder Chu Ye Help, want to come

Xingzhen should be very happy. As for Elder Chu Ye, Qingling and Tingting have already become members of the Heavenly Work Martial Arts Club, so I can't help without doing anything that day. "

Qin Chen began to assign tasks. "Little dust." Ao Lie frowned and said, "Our top priority is, should we first find a way to get rid of Yun Dongguang and others? Today, the Yun family must be very resentful of us. Yun Dongguang has been operating in Yunzhou for so many years. , Although I am not afraid,

But if the other party secretly targets us Chendi Pavilion, it will definitely have a great impact on our Chendi Pavilion. "

After all, Yun Dongguang is the lord of Yunzhou, and Ao Lie and others are still a little nervous when offending such a person. "You don't have to worry about this." Qin Chen waved his hand: "As for Yun Dongguang, Ben Shao has already thought of a way. You only need to do what Ben Shao ordered. Next, Ben Shao will enter the retreat. , All periods of Chendi Pavilion,

I will leave it to you. "

Qin Chen looked at everyone on the court.

"You can rest assured that there is less dust. This matter is covered by us and will never affect you." Ancient Medicine Master and others promised.

"That's good." Qin Chen didn't talk nonsense. After arranging everything, he went directly to the training room inside the suite, and then, while shaking his hands, he punched ninety-nine and eighty-one prohibition seals, turning them into many regiments. Jing Mang, revolving around the training room, arranged as Li

The forbidden law of harm prevents any divine sense snooping.

After that, Qin Chen's figure shook, and he entered directly into the jade disc. "It won't be long before it's the assessment of the Tianzhu Craft Refining Division. With my current refining realm, it's no problem to be selected successfully. However, to be on the safe side, I must take advantage of the opportunity to improve my strength. At the same time, my refining device

The cultivation base has also been thoroughly upgraded to ensure that it is foolproof. "

Qin Chen urged time to accelerate among the jade discs of good fortune in the universe, silently contemplating.

Now that he and Yun Dongguang have torn his face, then Qin Chen is not ready to lie to the other party. As long as he has the opportunity, he will kill the other party with a stick. The key here is to successfully pass the Heavenly Work's Refining Division. Assessment. Although Tianjiao is not a force of Guanghan Mansion, it is one of the most terrifying forces in the entire celestial realm, and it is also closely related to Guanghan Mansion. Only with Tianjiao's support can it be eliminated after the Yun family is destroyed. Leave any hidden dangers

And trouble.

"Improving cultivation is very simple. The first thief used to be a strong heavenly sage. A sense of his power and heavenly sage law can bring me closer to the realm of heavenly sage. As for the way of refining tools, I have to practice. Up."

Hum!

In Qin Chen's hands, Ten Thousand Pirates' Cave suddenly appeared. "This Cave of Ten Thousand Thieves is the sacred treasure of heaven, and it has spatial effects, but I now have a jade disc of good fortune from the universe, and one more cave of Ten Thousand Thieves is not very effective. Maybe I can try , Into the universe of good fortune jade disc

In, not only can it strengthen the power of the jade disc of good fortune in the universe, but also make the jade disc of good fortune in the universe have a concealment technique, and it can even be disguised as a space treasure in the future and act outside. "

The more Qin Chen thought about it, the more subtle it became.

His Universe Jade Plate is too extraordinary. It contains a small world. Once it is known and noticed, it will definitely attract the coveting of countless powers in the heavens, and even the masters of the holy master will send out to kill themselves to win the treasure. But if it can be disguised as a treasure like Ten Thousand Thieves Cave, it will be much safer. Not only can it be taken out publicly, but it can also be used to escape the treasure without causing suspicion. After all, there are more than one or two masters in the heavens. One.

#### [Chapter 2694: God's Law](#)

And in the process of smelting Ten Thousand Thieves Cavern, Qin Chen's refining level can definitely improve by leaps and bounds. Although he has obtained the ancient sky patching technique, he still lacks a lot of refining experience. It takes time to fill the sky. Experience in the hammer and

The technique is thoroughly integrated.

This is simply wonderful.

"There is still a month to go before the appraisal of the refining master. Under the acceleration of fifty times, that is more than four years. It should be enough for me to understand the origin of the first thief, the cultivation base will be improved again, and the ten thousand thieves will be melted. Cave."

Qin Chen made a decision and his eyes suddenly became determined. With a wave of his big hand, the Devil Tree of Ten Thousand Realms surged, and the endless source of devil energy turned into a devil energy pill furnace, towering among the jade discs of good fortune. Afterwards, Qin Chen took out the Heavenly Sage origin of the first thief and the half-step Heavenly Sage origin of the other thieves. Four of them were left to Ao Qingling, Qin Tingting, Ancient Medicine Master, and Shang Gukong. Six half-step heavenly saint veins, Qin Chen is

Leave it to myself.

Under his urge, countless half-step Heavenly Saints and Heavenly Saints aura boiled, forming extremely terrifying power.

"The art of patching the sky."

Qin Chen urged the sky-replenishing technique, activated the sky-repairing hammer in his body, and transformed these sacred qi into a kind of natural replenishing energy.

In the end, Qin Chen took out the five ancient sacred veins he had obtained, and pointed them out. These ancient sacred veins exploded, and the astonishing sacred aura of heaven and earth suddenly diffused, the mighty sacred aura turned into the ocean, roaring. , Roaring.

"All things replenish the sky, smelt the sky and the earth."

Qin Chen's eyes were cold and suddenly stepped out.

Hum!

He entered this demon energy pill furnace, endless laws and holy energy lingered around him, Qin Chen used the sky-repairing technique, and began to comprehend the origins and laws of the heavenly saints.

He slowly absorbed these origins into his body to realize, refine, and comprehend, but Qin Chen did not directly swallow and absorb them. Because he has the art of patching the sky, although he can directly swallow and absorb it, it can directly improve Qin Chen's cultivation and strength, but if he really directly absorbs and swallows these heavenly saint rules and origins, then the laws and origins in his body ,  
There is

The traces of others, what Qin Chen wants is perception, and then he cultivates his own origin and laws.

boom!

A series of heavenly sacred laws appeared in Qin Chen's body, and he quickly realized and then understood. Qin Chen once again felt the power of the sky-repairing technique. With the sky-repairing technique, he could feel the essence of this world, the essence of all things, because everything can be supplemented and all things can be practiced, even if it is the law and origin. The same, plus

Qin Chen's terrifying soul power flashed in his mind one by one.

One rune appeared, and each rune represented the avenue of heaven and earth, representing the strongest power.

Time passed, countless thoughts, countless rules appeared in Qin Chen's body.

At the beginning, Qin Chen was just feeling, but later, Qin Chen began to practice. He waved his arm and punched out, and the power of origin began to emerge.

boom!

The void cracked, and a long river of nothingness was punched out by Qin Chen's fist. In the jade disc of good fortune in the universe, rumbled and blasted out power against the sky.

Once, twice! three times! ten times! A hundred times! Thousands of times!

A large amount of sacred vein vitality is burning, Qin Chen constantly perceives, simulates, and evolves these forces, and constantly makes moves, through the origin of supernatural powers, in actual combat to understand the rules of the heavens.

Within a few breaths, Qin Chen actually played thousands of times with Origin Supernatural Power.

collapse!

The Optimus Prime-like Earth Sage Origins in his body broke and exploded, turning into countless chains of terrifying Earth Sage Origins flying everywhere, Qin Chen's face was pale and almost fainted to death.

Thousands of consecutive use of Origin's magical powers is his limit.

woo woo woo woo!

This time it was used, and a whole ancient holy vein was completely burned.

Countless sacred crystals burst suddenly and turned into powder.

During the rehearsal, Qin Chen continued to consume the holy energy of heaven and earth, and the wealth he lost during a few breaths was equivalent to the savings of many peerless earth holy sages for countless years.

But Qin Chen didn't care.

He has a holy vein of the Holy Lord. The most important thing is that he has already touched the breath of Heavenly Sage. If he can really step into the realm of Heavenly Sage, all the losses are worthwhile, and he can easily earn it back.

Heavenly Sage, can accumulate and consume an astronomical number of holy energy in a single pass.

In this world, there are many people who are very saving, saving the sacred crystals, saving the spiritual veins, some ordinary people, some ordinary warriors, working hard, making money, earning spiritual veins, and wishing to break a copper plate in half and spend it. Get rich.

But what they don't know is that the real rich are spending big money, and wealth is never saved, but earned.

For some local tyrants, one consumption is an astronomical figure, which is more than ordinary people earn in a lifetime, but instead of becoming poor, they are getting richer.

There is gain if there is home, everything depends on the output ratio.

For Qin Chen now, breaking through the Heavenly Sage is the most important thing. As long as he becomes a Heavenly Sage, everything is worth it, and no matter how many treasures he can earn.

Qin Chen kept making moves, collapsed and collapsed, and consumed a large amount of Saint Yuan, causing him to run out of oil and light, and the Earth Saint's source in his body was exhausted, almost becoming a corpse.

Suddenly, Qin Chen urged the ancient saint master-level sacred vein left by the Yama Sovereign. Boom, the ancient sacred vein suddenly filled with a terrifying aura of sacred origin and poured into Qin Chen's physical strength. If the ancient sacred vein of the land product before was a river, then this ancient sacred vein of the holy main level is a vast ocean, and immeasurable holy energy poured into Qin Chen's body. He used the technique of patching the sky, and the nine-star divine emperor tactic turned to Extreme, in the body

, The holy origin of that place condenses again, more solid, stronger, and deeper than before.

There was even a hint of heavenly sage.

After a single consumption, he actually touched the aura of the heavenly law, what kind of genius is this?

Boom.

The Earth Saint Origin in Qin Chen's body turned into two Optimus Pillars, one of which looked like a spine, supporting the entire body. The other one was twisted between his limbs.

After swallowing the activated Holy Master-class ancient sacred vein aura, Qin Chen once again urged Origin's supernatural powers to continue the exercise.

one day! Ten days! A month!

Qin Chen lived in seclusion on this jade plate of good fortune from heaven and earth without leaving home. Time and time again, the origin of the earth saint in the body was broken, and the ancient saint veins were used to condense and reconnect the path against the sky.

Every day, he has to go through life and death many times, and the lamp runs out. But every time he bathed in the ancient saint veins of the Saint Lord level, he would be reborn from the fire, gain Nirvana, and become stronger, every cell in the body became crystal clear, as if it contained a world. Like the ocean

. A breath of heavenly sacredness, mystery and laws began to appear in his body.

#### [Chapter 2695: Smelt the Cave of Ten Thousand Thieves](#)

In three years, a full three years, Qin Chen's body has been tempered for three years, and almost completely understands all the power of the Heavenly Sacred Law of the First Thieves and others, and completely understands them. All the gains in

化.

Qin Chen thought about it for a while, all kinds of martial arts profundity, heavenly sage rules rolled in, and the power of the origin of supernatural powers became more and more powerful.

boom!

An endless terrifying aura surged across his body. This was a half-step Heavenly Sage, which meant that Qin Chen had already begun to enter the realm of Heavenly Sage, and began to touch the most profound meaning of this heavenly realm. All this is due to the first thief. Although the strength of the first thief is average, he was originally a strong heavenly sage. Because of his secret skills, he burned his life and caused his realm to fall. Over the years, he has been plundering and collecting countless treasures. a little

Once again stood on the realm of Heavenly Sage.

Between this and the passing, the Heavenly Sage Law in his body was extremely clear, easy to understand, strong and weak, very clear. What Qin Chen needs most is to understand this most intuitive heavenly sage law, and the heavenly sage law in the first thieves is even more effective than the heavenly sage law of a heavenly sage master, after all, the heavenly sage in a heavenly sage master's body The law is incomparably complete

Yes, it is impossible for ordinary earth sages to comprehend easily, and even a Tianjiao like Qin Chen would take a lot of time.

However, this number one thief had laws in his body ranging from shallow to deep, at all levels, allowing Qin Chen to understand at a glance, so he could directly see the true meaning of Heavenly Sage in just three years. Of course, Qin Chen still only touched the power of the Heavenly Sage, and it was far from

truly entering the Heavenly Sage. After all, even in the heyday of the First Thief, he was no more than an ordinary Heavenly Sage. With Qin Chen's arrogant heavenly arrogant, even if

Swallowing ten ordinary heavenly saints may not allow him to step into the heavenly saint realm in one fell swoop, the energy he needs is terrible.

After these three years, Qin Chen consumed all the five ancient sacred veins and many sacred crystals, leaving only the ancient sacred vein of the Holy Master level. However, this ancient holy vein aura at the Saint Master level has not been significantly weakened. It is at the Saint Master level. Even if the seven or eighty eights consumed in the Yama Secret Realm, there is not much left, but the Saint Master Level is after all the Saint Master Level. , With Qin Chen's current cultivation base, yes

How can it be consumed.

Probably it was Qin Chen who reached the realm of Heavenly Sage, and could continue to use it.

After three years, all the holy energy in the jade plate of Qiankun's good fortune was completely consumed, and Qin Chen stopped practicing. "I have now understood a trace of the Heavenly Sage Law, called the Half-Step Heavenly Sage, but it is too difficult to truly enter the realm of the Heavenly Sage. It's okay to be the ancient holy energy. I have the Holy Master-level Saint Vein. Although it needs to be used to nourish the universe

Realm Demon Tree, but it is enough to take out a part to allow me to break through the realm of Heavenly Sage. The most important thing is the Law of Heavenly Sage. "I need too many heavenly sacred laws, one or two, ten or a hundred, or even thousands of them. I don't know how many years it will take to cultivate completely. Put time elsewhere, as for

Comprehend the heavenly law and keep it for later. "

Qin Chen's eyes flashed and he had already made a decision. In three years, he had integrated all the original mysteries of the Thirteen Thieves, and combined with his own laws, all the profound meanings lingered in his heart. His skin has been moisturized again, and with any movement of his limbs, he can see that there are hundreds of millions of chains hidden in the depth of his skin! His body moved a little and spread out, as if he could evolve a world that merged with the power of the celestial realm.

One, completely integrated together.

Heavenly Saint, Heavenly Saint, is the sage recognized by the heaven and the earth, adhering to the will of the heavens, the real big man.

Qin Chen now felt that between his own gestures, he could tear a strong man like the first thief, and he could challenge across realms.

"Hmph, if I encounter that cloud and cave light again, not only will I not fall under the wind, but I will also have the absolute upper hand. With one move, as long as one move, I can hurt him and even blow him up."

Qin Chen's eyes burst into the rainbow, murderous, extremely self-confident, and possessing the universe.

Now Qin Chen can kill an Earth Sage with a single breath, and with a flick of his finger, he can crush a peerless Earth Sage, and with a wave of his hand, he can kill a half-step Heaven Sage.

Even he himself didn't know how terrifying his power had reached. "It's a pity, it's a pity that my ancient sacred veins are not enough, and I don't have enough time to continue practicing. I must start to understand the art of patching up the sky and prepare for the master refiner. Although I am confident, I must be prepared. , Never fail

Above the general idea. "

Qin Chen's eyes flickered, even fighting the rabbit with all his strength. He is not in a hurry to break through the heavenly sage. It requires a lot of accumulation and level-by-step improvement. There are many half-step heavenly sages in the heavens. It is because they are too anxious and go crazy, leading to the final loss. The hope that hits the gods,

Eternal life stays in the realm of a half-step Heavenly Sage, unable to make any progress.

There are too many such examples.

In the remaining two years, Qin Chen was going to use it to comprehend the art of patching up the sky, and integrate the Cave of Ten Thousand Pirates into the jade disc.

"Thousand Pirates Cave."

Qin Chen raised his hand.

boom!

Suddenly, this terrifying space treasure appeared in Qin Chen's hands. Qin Chen urged the sky-repairing hammer to realize the sky-repairing technique. Under Qin Chen's perception, the Ten Thousand Thieves Cave was decomposed layer by layer, forming a treasure. Phantom.

More than a hundred.

hiss! Qin Chen sucked in the air. This cave of Ten Thousand Thieves was actually constructed from more than one hundred gems of unparalleled quality, each of which was of the rank of peerless land, and the core of the cave of Ten Thousand Thieves was a piece. There are thirty-three heavens in the heavenly treasures,

Layers upon layers, like a maze.

In addition, there are a total of eighteen half-step celestial treasures, one of which is like an armillary celestial sphere, which is constantly rotating. It is obviously the armillary sphere robbed of the Tianhe Zhenzong.

One celestial treasure, 18 half-step celestial treasures, and one hundred and thirty-six unrivaled treasures form this cave of ten thousand thieves.

Among them, the most important thing is this celestial-grade space treasure, which has evolved layer upon layer of restrictions, making the entire Ten Thousand Thieves Cave into one, without any flaws, hidden into the void, enough to shield the perception of the strong heavenly sage.

"Awesome!" Qin Chen praised. Although these thirteen thieves have caused misfortunes and burned, killed and robbed in these major states, they actually had such a clever idea to refine this cave of ten thousand thieves, and everything they snatched All the treasures will join hands and merge into this cave of ten thousand thieves, and finally, such a powerful treasure will be formed.

#### [Chapter 2696: Secret deliberations](#)

However, these are now cheaper than Qin Chen.

"The art of patching the sky."

Qin Chen quickly squeezed his tactics. If he wanted to smelt this cave of ten thousand thieves, he must first disassemble these treasures.

Buzzing!

With the power of tens of thousands of laws, it was directly integrated into the Cave of Ten Thousand Pirates, and suddenly the densely packed treasures of the space were interwoven into pieces of golden texture.

In his previous life, Qin Chen was a master craftsman and an elder of the craft pavilion. In the inheritance of Butiangong, he realized that the supreme craftsmanship is naturally easy to learn and mastered.

One after another, Qin Chen's expression was calm, and he watched the expansion and expansion of Wan Pirate Cave, an aura covering Zhou Tian permeated.

Boom! The Cave of Ten Thousand Pirates suddenly changed, exploded, and regrouped, and finally changed into a sphere of countless gems, half-step Tianbao, countless runes, stars, prohibitions, and formation patterns. Around, there are like Changhong

The halo surrounds.

Break it down easily. Qin Chen's hands have changed again. The arrays, the most central space treasure, have turned into magic runes. The magic runes actually present a three-dimensional prism with the words of space written on it. Is a space rune, four poles

Crystal.

Suddenly, a breath of space diffused out.

Of course, this is not the biggest change.

Qin Chen opened his eyes wide and looked at the space Tianbao at the core of the Ten Thousand Pirates Cave, and he found countless mysterious and vast ideas conveyed from it, forming an endless heavenly atmosphere on the space supreme treasure, flashing and disappearing.

As if presenting an alien space.

"Awesome!"

No wonder this cave is so powerful, capable of smelting so many treasures, this space core is absolutely extraordinary. But no matter how extraordinary it is, it can't compare to the jade disc of creation. This is constructed by the great power of the ancient human races on the Tianwu Continent. The specific source is no longer verifiable, but it is clear that this thing can communicate with the world and form a small world by itself. ,even if

The Holy Lord Zhibao may not be able to do this.

boom!

With the technique of patching the sky, this space core was immediately melted by Qin Chen into the jade disc.

Among the jade discs of good fortune in the universe, Qin Chen is the \*\*\*\* of this world, and the core treasure of this space has been refined by Qin Chen a little bit.

In the process of refining, Qin Chen also truly understood the technique of patching the sky, and had a deeper understanding of refining tools.

one day!

A month!

One year!

Qin Chen is not only simply smelting this space treasure, but also the core of understanding this space treasure, because this space treasure has also made Qin Chen's understanding of space amazingly improved.

In the end, this space supreme treasure was completely refined by the Universe Jade Plate, not only this space supreme treasure, the remaining 18 half-step heavenly treasures and more than one hundred unparalleled earth treasures were also thoroughly smelted.

In addition, Qin Chen incorporated many of the treasures and materials against the sky that he had previously captured into the jade disc of good fortune in the universe, forming a heavenly sacred treasure that was deeper than Wan Pirate Cave.

Originally, Qin Chen still had some materials and treasures on his body, but now it is really clean and tidy. Except for the thirty-odd Demon Race's Heavenly Treasures obtained from the Lord Yama had not been incorporated, all the others were incorporated.

Hum!

The breath of Qiankun's good fortune jade disc suddenly changed and became very mysterious.

With the power of the jade disc made by the universe, naturally these treasures will not change its shape. This was deliberately melted by Qin Chen to confuse outsiders.

Whoosh!

Qin Chen suddenly appeared outside the Universe Jade Plate.

In his hand, there was a simple, vast orb floating in the air, exuding the aura of the heavenly treasure. From the outside, it looked very similar to the Ten Thousand Thief Caverns, but it was more profound.

Qin Chen swept in with his mighty divine consciousness, and he could feel that there were layers of space in this treasure. It was a treasure in the celestial space, but he could not perceive the magic tree and ancient holy veins inside. The Ten Thousand Pirate Caves.

"Not bad."

Qin Chen was extremely satisfied and couldn't help laughing wildly. "Now, the jade discs of good fortune in the universe have been completely imitated by me to look like the Cave of Ten Thousand Thieves. Moreover, they use the technique of patching the sky and the method of supreme refining. I dare not take out the jade discs of good fortune in the past. I was spied out of the truth and discovered his identity in the small world, but it doesn't matter now. Everyone thinks that this is a remodeled Ten Thousand Thieves Cave. The truth about the jade discs that have passed, will be possible in the future

Take it out wantonly. "

This is undoubtedly a big gain for Qin Chen, he can display the jade disc of the Universe fortune at will, which excites him more than anything.

"Furthermore, if I get stronger materials in the future, I can continue to integrate into the Universe Fortune Jade Disc, so that the atmosphere of the Universe Fortune Jade Disc will continue to change, and the rank will continue to improve."

Qin Chen was very happy, and there was no need to worry about breaking this treasure.

Of course, the only scruples are not knowing whether the saint master can see through the disguise of the jade disc of good fortune.

However, Qin Chen is sure that as his cultivation level improves and the sky patching technique becomes more proficient, he can make the changes of the universe jade disc more mysterious, and one day, even the Holy Master will not be able to snoop.

In the next time, Qin Chen didn't waste any time. He continued to smelt the Universe Jade Plate under the acceleration of time. During the smelting process, he also improved the refinery.

When there were only three days left before the appraisal of the refiner, Qin Chen completely stopped his practice and walked out of the practice room.

In the past month, the Chendi Pavilion has been completely re-established. Under Ao Lie's leadership, the Chendi Pavilion is now soaring and the business is extremely prosperous.

Seeing Qin Chen coming out, Ao Lie and the others were naturally very excited. While reporting their results, they also gave a copy of the strong ones. "Little dust, this is the visits of the major forces during your retreat these days, some ordinary forces, I have received on your behalf, even some heavenly sage forces, I have solved them, but there are several forces. , I dare not call the shots

, Only when you come out with less dust. "

Ao Lie said.

"Oh?"

Qin Chen looked down and saw that the records above were all the forces of Lingzhou Prefecture, Yanzhou Prefecture, and Xuzhou Prefecture.

No wonder Ao Lie didn't dare to receive it at will. These top state capitals were definitely not as simple as visiting. Some of these decisions were beyond Qin Chen's plan.

"Let them all come over."

Qin Chen's eyes flashed. He would contact these forces sooner or later. Now that he has the opportunity, he would naturally not refuse.

In the next three days, Qin Chen received these forces in secret. After coming out, the expressions of the representatives of these forces were a little shocked, and no one knew what Qin Chen had discussed with them. At the same time, the day for the appraisal of Tianjiao's crafting master has finally arrived.

### [Chapter 2697: Li Wanxue's regret](#)

In the early morning, the bright sunshine shone in. This is the great day of the heavens, bursting with powerful rays of power all the time.

It is rumored that it is an extraterritorial star, extremely vast, the power of the heavens chasing the stars and taking the moon, can blow up the stars with one punch, but this round of the heavens has always stood outside the territory, and countless eras have not been blown up.

At the beginning of this day, the entire Yunzhou prefecture city was in a frenzy, and countless powerful men emerged in the center of the prefecture city.

Compared with the martial arts assessment, the number of participants in the refining master assessment is obviously much less, but compared with the fiery degree, it is more violent than the martial arts assessment. The top powerhouses of several major states, a respectable figure of the world, have gathered.

Because this is the assessment of the refiner of Heavenly Work. Once entered into the Heavenly Work, it means that the person's talent has the possibility of becoming a Heavenly Grade Crafter. How dazzling and powerful is this?

In the heavens, the most important force is the Heavenly Sage powerhouse. A Heavenly Crafting Master, even some of the Heavenly Sage's top powers in Guanghan Mansion City, must respectfully call him a master, with an extraordinary identity. If you can stand out in this assessment and leap over the dragon gate, then your status and status will instantly become different, even if it is just a small peerless earth saint, as long as it can be recognized by the Tianjiao, the heavenly saints of the major states We see, fear

Don't dare to put on airs if you are afraid, you must respectfully.

This is the power of the refiner.

Of course, the reason why the appraisal of the refiner can attract more top forces and ancestors than the martial artist appraisal is that the most important thing is that it can be missed.

The appraisal of Tianzuo's craftsman is very cruel, and most of the appraisers will be eliminated. Among them, there will definitely be some extremely powerful masters who will be eliminated due to various reasons such as age, potential, defects, and so on. This kind of eliminated master cannot be appreciated by Tian Zuo, but for some of the top forces in the major states, each is a treasure. If the major forces present can dig one or two, or make friends with several of them Relationship, that pair of major trends

Strength must be of great help. On the square, crowded and overcrowded, countless warriors have flocked to the square. Fortunately, this square is huge, with layers of space folded, which can accommodate countless powerful people. If millions of people gather here, it will not appear too crowded.

.

Some warriors who don't like to come to the square have already flooded every corner of the state capital through various formation images.

"Look, that's Master Wu Xingsheng from Guxu City, the guest of the City Lord's Mansion, the old and peerless Di Sage, and the master craftsman in the late stage."

"What is the master crafting master in the later stage of the land product? Look at this one, the Supreme Master of Tianhe Zhenzong enshrines the master of Quyueyong. One of the top crafting masters in the state."

"Hey, this is not the elder Yu Haoguang, the first member of the Pavilion? Why is he here too?"

"What about the elders of Qige? As long as you can join Tianzuo, you can have a better future than Qige. Moreover, Tianzuo and Qige are idle organizations and do not restrict people's freedom. It doesn't matter if you join both. ."

Every refining master comes, will cause a sensation, these masters are not seen by many warriors, and now they are gathered together, and it is also one of the motivations for the crowd to come.

The arrival of a famous crafting master came from several nearby states, each of which has an amazing reputation and great influence.

But here, just an ordinary examiner.

"Yunmeng Zezhouzi is here."

The crowd shook, and Yun Mengze walked into the square in full view. Around him, many powerful men surrounded him with extraordinary aura.

Beside him, Li Wanxue stood aside respectfully holding a feather fan, gently shaking the fan like a maid.

A breath of dominance in the sky and the earth rose from Yun Mengze's body.

"Hi, why do I feel that the aura on Yunmeng Zezhouzi's body is getting more terrifying? Is it my dazzling?"

"You are not wrong, this is the heavenly sage aura, Yunmeng Zezhouzi has stepped into the realm of the heavenly sage."

"Half-step Heavenly Sage, hiss, how is it possible? How long has it been before you have stepped into Half-step Tianjiao."

"incredible."

The crowd shook, one by one was going crazy. It was only a month, and Yunmeng Zezhouzi had stepped into the realm of Heavenly Sage for half a step, and it became more and more terrifying.

Beside Yun Mengze, Li Wanxue was nervous and shook the fan carefully.

At this moment, her heart is full of regret, Yun Mengze is like a nightmare, filling her heart. With her status as a top ten martial artist in the Heavenly Work Assessment, she can completely get rid of the control of the Yun Family, but who knew that she had just proposed to leave the Yun Family with people from the Soul Fire Family, and was directly rejected by Yun Dongguang and Yun Mengze. Even using her family of souls

Some people's lives came to threaten her. Li Wanxue couldn't get rid of the Yun family at all, because once she left, all members of her soul-fire family would die. Moreover, Yun Mengze's performance in the Tianxue assessment was far above her, and Tianxue would not be because of her. One person, and the Yun family

destruction. If there is a chance to come back, Li Wanxue would rather not take revenge than join the Yun family. Unfortunately, it is too late. She used to not see Yun Mengze's true face at all. This person is a devil without any humanity, but Now again

It's too late to regret.

For the sake of her people, she can only stay at Yun's house in humiliation.

"I hope this Yun Mengze will definitely not join the Heavenly Work Refining Division. He must fail the assessment."

Li Wanxue kept praying that Yun Mengze could not join the Refining Division, so she still had hope. If Yun Mengze successfully passed the examination, then she would be completely over, and she would not be able to regain her freedom in this life.

But is this possible? Li Wanxue knew in her heart that this was simply a luxury.

"Then Qin Chen hasn't come yet?"

Yun Mengze stepped into the square, glanced around, high above, with a sneer at the corner of his mouth.

After swallowing seven master refining masters, Yun Mengze was more confident than ever. With a slight movement of his mind, various refining techniques emerged in an endless stream, and Zhizhu was in hand. It made him look forward to the next refining assessment, because no matter what the assessment, he could easily ravage Qin Chen. He looked forward to seeing Qin Chen's desperate eyes. Only he was the strongest genius in the world. As for that Qin Chen will eventually be

He stepped on his feet and then beheaded on the spot.

Qin Chen will become a stepping stone to his rise and become his victim.

Hum!

At this moment, a Luan car flew in the distance, and it turned out to be a four-headed flying dragon, and the whole Luan car was complicated in structure, with flashing lights, and it was a half-step Tianbao.

This person's appearance was too high-profile, and it attracted everyone's attention at once. However, I saw an ancient shield carved with a simple shape on the car.

### [Chapter 2698: Treasure Hall](#)

Seeing this sign, everyone on the court was shocked.

"This sign is from Baoqitang, why is someone from Baoqitang here?"

The Treasure Tool Hall is an extremely famous weapon refining force in Guanghan Mansion.

If all the body refining forces in Guanghan Mansion are ranked one number, then the Qi Pavilion that governs the entire Guanghan Mansion can be shot first, and this treasure hall is enough to be called second. In the entire Guanghan Mansion, at least one-fifth of the craftsmanship business is occupied by this treasure hall. This is an extremely large top power, similar to the Wangu Building, only a little bit worse than the Wangu Building. After all, Wangu Building to undertake various businesses

, And Baoqitang only conducts weapons business.

But even so, it was extremely terrifying. The people in Baoqitang were in Guanghan Mansion, they were rampant, and no one dared to provoke them.

Heavenly work, Qige, Baoqitang, it can be called the third.

"Haha, this time Xiaoye finally didn't come late, he should be caught up."

Boom!

As soon as the Luan car arrived in the square, a loud laughter came out, and then from the car, a little fat man with round cheeks, but wearing gold and silver, came out of the car. This little fat man looks kind and kind, but an extremely terrifying half-step heavenly sage breath erupted from his body. Amazing heavenly sage laws linger around him. This is actually a half-step heavenly sage strong. The other party's half-step heavenly breath

From the above point of view, the Heavenly Sage Law in this person's body has been melted to an astonishing level, only one step away from the Heavenly Sage realm.

Even a bit similar to the feeling of the first thief.

Where do young people come from, how terrible are they?

Everyone was taken aback, half-step Heavenly Sage is nothing, but the other side's age is terrifying, the fire of life on his body is extremely powerful, and it is in the stage of vigorous development. This is definitely a young sage. When the martial artist arrives at the holy realm, his appearance is nothing, and

he can almost make himself young through various methods, but most people will keep their normal appearance, and slowly grow old as the years go by, but Some people

, Will make oneself youthful forever and become very young.

It is impossible to tell the true age of the other party from the appearance. It must be observed from the fire of life. Regardless of the cultivation base of a strong person, the older the age, the older the fire of life, no matter how strong the cultivation base is, it cannot be changed. For example, some masters at the peak of Heavenly Sage have a long life and the energy of life soars, like Wang Yang, you can also pass

Many techniques make myself young.

But no matter how you change, the life fire of these old top powerhouses will carry a sense of vicissitudes of life. Through these traces of years, you can see the age of a powerhouse.

And this fat man who laughed and laughed, there was almost no trace of time on the fire of life, which means that he must be extremely young and a world-famous arrogant.

Who is it from Baoqitang? Is it so terrible? Such Tianjiao, even in Guanghan Mansion, is not easy to see.

"Young Master, you... why are you here..."

At this moment, a strong heavenly sage among the crowd flew out quickly. He was wearing a refining robes with extraordinary momentum and a goatee. He looked at the little fat man in surprise, with shock on his face. color.

"Hey, isn't this Hall Master Fan Hongsen of Yunzhou Treasure Hall? What did he call this little fat man just now? Young Master?"

"Damn, isn't this little fat guy the young master of Treasure Hall?"

"I heard that there is a young hall master named Bai Yutang in Baoqitang. It is said that he is extremely talented. In the way of refining tools, he can also be said to be against the sky. The key is his handsome appearance and extraordinary appearance. Could it be this kid..."

The crowd was sensational, and the pan was fried all at once.

The young master of Treasure Equipment Hall, this is a real big man. In terms of identity, he is even above the master of Yunzhou. Who would dare to offend such a talented arrogant who came to their Yunzhou?

"Hey, my friend, what you said is right. I am the one with extraordinary talent and cultivation base. The most important thing is the handsome, handsome, handsome Bai Yutang." This fat man has very sharp ears and caught The conversation in the crowd, hehe laughed, with a very low smile: "Unexpectedly, in this land of Yunzhou, some people have heard of Ben Shao's name, hehe, it seems that the fact that the Hall Master Ben Shao is handsome has been heard everywhere. entire

Guanghan Mansion is here. "

Bai Yutang smiled triumphantly and stroked the bangs on his forehead, looking like a handsome dumb man.

Everyone was speechless.

If it weren't for this son to be the young master of the Treasure Hall, everyone would feel sad, and I'm afraid they would have cursed directly.

Fatty, how handsome are you just like you?

"Young Hall Master, you, why did you come to Yunzhou? Hall Master, does he know?"

Fan Hongsen's branch master asked cautiously, he hadn't received any news at all.

"Why, don't you welcome the Master of the Young Master?" Bai Yutang glared at him, "The old things have been forcing me to practice, forcing me to refine tools. This cultivation is too boring, and the tools are boring. The hall master sneaked out to play for a while, originally thinking that after breaking through the heavenly sage realm, the old things won't be angry. Who knows that this day's sacred realm is so difficult to break through, this young hall master hides in a secret realm and practices. It's still a little bit worse in a year. Didn't you hear that Tiangong was evaluated in Yunzhou? I thought if he could be admitted to Tiangong

As a refining division, the old thing shouldn't scold me when I go back. This is here. "Hush, let me tell you, you can't tell the old thing about this. After I join Tianjiao, you will report to him. Hey, master, I will be a Tianjiao person by then. If the old thing dares to teach me, Xiaoye, I just let Tian work

He demolished his shop, hehe, hehe. "

Bai Yutang felt that his idea was wonderful and proud.

Fan Hongsen's face was black, completely dumbfounded.

The warriors in the other squares were also dumbfounded. In order to fear that their father would be angry, they ran over to be admitted to the Heavenly Work Refining Division, and asked the Heavenly Work Refining Division to demolish his father's treasure hall.

This.....

Is there such a prodigal in this world? What makes people speechless is that this Bai Yutang has extraordinary talents at first glance, and was born in the treasure hall since childhood. It is said to be a genius for craftsmanship. For others, it does not seem to be too much to enter the Heavenly Work Craftsmanship Division. Difficult things, this person and person

How can the gap be so big?

"Hahaha, everyone, don't admire my handsome face, and admire my defying talent for craftsmanship." Feeling the silent gazes around, Bai Yutang was not ashamed, but triumphant: "Anyway, I am here. This time, it's okay to be admitted to the Refining Division. It's probably easy to get the first place, but don't worry, there is no quota for the refining division. You won't get the first place. Those who have the ability to join will still join. I won't take up your place, so you just treat me as if I don't exist."

[Chapter 2699: What a mess](#)

This Bai Yutang walked aside, relaxed and relaxed, but his eyes flicked in the crowd. Seeing the amazing eyes of some beautiful women, his heart was extremely proud and cheerful.

Hey, beauties, are all surprised by my heroic appearance.

This kind of gaze that makes others envy and shocking is his favorite thing.

As soon as he turned his eyes, he saw Li Wanxue in the crowd, and his eyes brightened.

Hiss, this woman is superb!

Not bad, on punctuality. Compared with the beauties in Fucheng, it is not weak at all. Can the state city below have such top quality?

He stared at Li Wanxue with fiery eyes, and the next moment he felt a strong hostility.

"Huh, arrogant."

Seeing Bai Yutang's fanatical gaze, Yun Mengze couldn't help but snorted coldly. In his eyes, there were terrible stars rotating, and a horrible aura swept out all of a sudden, vying with that Bai Yutang.

"Hey, who is this guy? Half-step Tiansheng, his breath is not weak, does he seem to be very upset with Xiaoye?" Bai Yutang frowned, and said uncomfortably.

It was too much for that guy to let such a beauty serve him. I didn't get such a treatment, Master.

"Young Hall Master, that is Yunmengze, Zi Yunzhou of Yunzhou. He broke into the seventh tower during the assessment of the ancient sacred tower of Tiangong, and he is also a refiner, the first among the younger generation of Yunzhou. people."

Fan Hongsen wiped his cold sweat and said speechlessly, this young hall master is simply a troublemaker.

"Oh, what kind of state is it? No wonder it is so arrogant, huh, half-step Tiansheng, it seems not bad, but what kind of refining genius, I am very upset, no matter how genius, can I have my genius? "

"This... this is naturally incomparable to you, Hallmaster Young." Fan Hongsen smiled bitterly: "But Hallmaster Young, this is Yunzhou. It's better for Hallmaster Young to keep a low profile. Don't cause any conflict, just Trouble."

"You guys, are you afraid of things, what are you afraid of, and you are also afraid that my strong dragon can't control the snake?"

Bai Yutang said with disdain.

"Yes, yes, ah no, no, Young Hall Master, you are a handsome martial artist. There is no need to be familiar with the people below."

Fan Hongsen was sweating and didn't know what to say.

Naturally, his treasure hall is not afraid of a state lord, but this is Yunzhou, and the young hall lord came here alone, if something happens, he will die.

"Okay, okay, I won't make you embarrassed anymore. It's a bit interesting to have a strong opponent, otherwise, how strong it is to sweep directly, but I don't know if this kid is a strong opponent." Bai Yutang glanced at his mouth and said. Above the sky, a series of magnificent figures have arrived at this moment. One of them is floating in the forefront position, but it is an old man wearing a refining master's robe, with a terrible breath surging from his body, and it is a heavenly sage. , His chest

Engraved with the symbol of Heaven's Work, he is the leader of the appraisal of the refiner.

By his side, Elder Chu Ye and others were also there, but stood aside respectfully. In addition, the master of Yunzhou Pavilion, the master of Yundong Guangzhou and other persons with identities were also nearby.

Seeing this Bai Yutang bluffing in the crowd, Yun Dongguang's face was gloomy, a little unsightly.

He didn't worry about whether Yun Mengze could pass the assessment. The goal of the refiner's assessment was to make Yun Mengze the champion of the assessment, but now there is a Bai Yutang, but it is a little troublesome. However, he still has confidence in Yun Mengze. Yun Mengze himself is a top refiner Tianjiao, and now he has swallowed the experience and strength of seven top refiners. Whatever the talent of Bai Yutang, it will definitely be Yun Mengze cut to the assessment

in.

"This Bai Yutang is really a mess."

Master Konoha saw this scene, and shook his head.

He has naturally heard of Bai Yutang. When he was stationed in Guanghan Fucheng, he also knew this genius for refining. Such Tianjiao would naturally be okay to join his daily work. As long as there is no major incident, he is also Too lazy to manage.

At this moment, there was a sudden uproar among the people below.

Qin Chen arrived.

I saw the crowds on both sides of the square dispersed. No matter where Qin Chen went, the crowd would naturally spread out a passage. Everyone looked at Qin Chen with awe, hostility, and admiration in their eyes, and various emotions were mixed. And foot.

"Huh? Who is this kid? When he arrived, he was even more popular than me?"

Bai Yutang stared at Qin Chen. The aura on Qin Chen's body was plain and unremarkable. He could not see any clues, but he could feel a terrible breath from Qin Chen's body.

This son is a personal thing. "Young Hall Master, this person is the head of our Yunzhou Chendi Pavilion." Fan Hongsen hurriedly explained, fearing that Bai Yutang would be fine to provoke Qin Chen, and immediately said what Qin Chen did in Yunzhou: "This People are harsh, overbearing and arrogant, the lord of Lianyunzhou

You dare to confront openly, Young Hall Master, you should be more careful. "

"Even the master of Yunzhou dare to scold? And he killed the thirteen thirteen bandits in several states near Yunzhou alone? It's interesting!"

Bai Yutang showed curiosity.

"Is this Qin Chen who broke into the ninth floor of the ancient holy tower?"

Master Konoha had also heard of Qin Chen, staring down, he could feel the terrifying power in Qin Chen's body, but the refining tool was not a battle, it was useful if it was not strong.

"Hmph, this Qin Chen, arrogant and arrogant, broke through the ancient holy tower, but is unwilling to join Heavenly Work, it is really arrogant." Yun Dongguang sneered.

"Yun Dongguang, this is because little friend Qin Chen is confident, and he prides himself that he will be able to pass the examination of Tianzuo's craftsman." The host of Wan Gu retorted. "Really? I have already inquired that he is not only very strong, but also a local alchemist. You won't tell me that besides the alchemist, he also has amazing accomplishments in refining, right? Really have such a strong talent, in

Can you reach the peak in every field?" Yun Dongguang sneered.

Master Konoha frowned slightly. If Qin Chen is still an alchemist, then this kid is really a bit arrogant, any arrogant, energy is limited, then Qin Chen can break into the ninth floor of the ancient sacred tower, martial arts talent must be very strong, it will inevitably cost a lot Time, plus him

Still an alchemist, how much time can I spend on the refiner?

On the side, the Master of the Pavilion of Qi chuckled. He had seen Qin Chen refining tools, and naturally knew that Qin Chen was not as simple as Yun Dongguang said, but was recommended by Master Mu Gutian.

He was about to speak.

A terrible breath fell instantly.

"Master Mu Gutian."

Suddenly, all the heavenly masters, including Master Konoha, stood up instantly.

The visitor was Mu Gutian. He glanced at the crowd and nodded slightly to Master Konoha: "Old man, I just came to see, Master Konoha, you don't care about me."

"That's good." Master Konoha nodded. Seeing that the time is up, he immediately rumbling towards the bottom: "Now we will start the appraisal of the craftsman of our day's work. Now please enter the competition area for the participating craftsmen, and the unrelated personnel will do it now. Exit."

[Chapter 2700: Holy Array Twelfth Heaven](#)

Hum!

I saw an invisible light shrouded, and an empty space was instantly vacated above the square, forming a very large circular area.

A number of well-known refiners who participated in the assessment stepped into the open space, and the warriors who did not participate in the assessment, even the Heavenly Sage masters, could only retreat and stay away from the assessment area.

What is surprising is that there are not many test players who enter the open space, and there are only about 20,000 or 30,000 people who are full of calculations.

It's incomparable to the fact that there are millions of people, or even tens of millions of people, in the martial arts assessment. However, this is also very normal. After all, the assessment of Tianzuo is extraordinary. The conditions for registration are very strict. Only a local craftsman is eligible to participate, and how many craftsmen are there in the world? It must also be above the local product, even

There is even a certain potential.

Therefore, the surrounding large states united, and only such a few people passed.

Among them, even the weakest one was the master craftsman in the early stage of the land grade. When placed in a city like Cangxuancheng, they were all master-class figures with a prominent status.

It is the first time that Qin Chen has participated in this kind of refining master assessment in Heaven, and he is also very curious about how it will proceed.

Normally, the most direct way to assess the refiner is to compare the refiner. For example, the certification of the refiner's profession will directly allow the refiner to refine the strongest level of holy soldiers that he can refine. According to the holy soldiers The grade is under review.

But Qin Chen knew that it would definitely not be that simple. Because Tianjiao needs a talented refiner, not the most powerful refiner, it is more difficult to identify the potential of a refiner, and some special methods are bound to be used, such as The ancient sacred tower is generally, not

It is a simple battle between warriors.

When Qin Chen was pondering, Qin Chen suddenly felt a cold breath. He turned his head and saw Yun Mengze staring at him gloomily, with a cruel smile at the corner of his mouth, and killing intent surged over his body.

"Why is the breath of Yunmengze a little weird?"

Qin Chen frowned. For the opponent to break through the half-step Heavenly Sage, Qin Chen didn't have any surprises. If he could break through, others could naturally break through, and the opponent was the Lord of Yunzhou. Who hasn't ordered a treasure to enhance his strength? What he cares about is the breath of Yun Mengze, and when he met in front of the ancient holy tower not long ago, there was a subtle change, but this change is very subtle, even Qin Chen just feels a little weird, and can't See specific changes

.

"Everyone, this time the appraisal of the refining division of my day job is divided into three rounds. All refining masters who can pass the three rounds of assessment can enter our refining division and obtain the cultivation of our refining division."

Rumble said a strong man from the Heavenly Work Refining Division flew to the sky.

Three rounds of assessment? Everyone showed a solemn color. The more rounds of the assessment, the more it means that the assessment is not simple, like the martial arts assessment, which only needs to pass the third floor of the ancient sacred tower, which is simple and clear, and the three rounds represent the assessment of a refiner. The qualifications of the teacher in all aspects,

There is no such thing as a fluke.

"Don't talk nonsense, now the first round of assessment, the first round of assessment is formation assessment."

"Everyone knows that if you want to become a top crafting master, you must be familiar with various formations, because a powerful formation and forbidden engraving can make the profound meaning of a holy soldier exert its true power. "

When the strong man's voice fell, he saw the sky above, and suddenly flew down a high platform.

During the process of falling, this high platform rapidly rotated and became larger. After it finally fell, an extremely wide twelve-level step was formed on the square.

"The Twelfth Heaven of the Holy Array!"

Bai Yutang's eyes condensed and said in a deep voice.

There were also other refiners who looked solemnly and clearly saw the origin of this thing. Only Qin Chen had a dull expression because he didn't even know what this thing was in front of him.

After receiving the Butian Palace inheritance, Qin Chen also had a lot of knowledge about the refining techniques of the Heaven Realm, but this was the first time he heard of this twelfth heavenly formation, and there was no record in the Butian Palace.

Countless people below were shockingly watching the twelfth heaven of the holy formation, they were also observing the performance of the players on the field, and they found that everyone's expression was quite solemn.

The first round of assessment is the twelfth heaven of the Holy Array. It seems that the assessment of the refiner who works on this day is not simple.

what!

But at this moment, many people saw Qin Chen's expression one after another. Instead of being solemn, Qin Chen's face revealed deep doubts.

"This expression... Doesn't Qin Chen even know what the twelfth heaven is?"

"Look at his expression, it's kind of like that."

"Not so? He and the person who is going to participate in the assessment of the refining master, how can it be possible that he has not even heard of the twelfth heaven of the holy formation that I, a martial artist, have heard of?"

"Could it be that this guy is not a refiner at all?"

"What are you kidding about, if he is not a refiner, how can he pass the registration?"

Everyone couldn't help but talk, and they were suddenly excited.

You must know that Qin Chen is the one with the greatest pressure among all the refiners present. He must pass the examination of Tianjiao's refiner. If he fails, he will be mercilessly beheaded by Elder Chu Ye.

The most important thing is that even if Elder Chu Ye didn't kill him, Yunzhou Yundong Guangzhou Lord would not let him go.

"Everyone knows what the twelfth heaven of the holy formation is, so I won't explain it much..." The master worker said that day: "You..."

"Wait!"

At this moment, a voice interrupted him.

When everyone saw it, it was Qin Chen.

"Master Ben has never heard of the twelfth heaven of the holy formation, I hope you can explain it." Qin Chen raised his head and said.

What?

Explain the twelfth heaven of the Holy Array?

Qin Chen has never heard of the twelfth heaven of the holy formation?

Everyone was stunned.

Brother, didn't you come to be funny? You don't even know the Twelfth Heaven of the Holy Array, so you dare to participate in the appraisal of the refiner?

"what happened?"

Master Konoha's face suddenly sank, and a person who didn't understand the twelfth heaven of the holy formation came to the test?

He turned his head to look at the master of the Yunzhou Qige Pavilion: "Master Wan Xinde, the identity verification of the craftsman of this child is issued by your Yunzhou Qige. Are you sure that this child is a craftsman?"

Pavilion Master Wan Xinde was also a little speechless, and hurriedly explained: "Master Konoha, I don't know what's going on here, but this child is indeed a master craftsman of the land grade."

"Then he was sincere to make trouble?" Master Konoha looked cold.

"I haven't heard of the twelfth heaven of the Holy Array, and it may not be a mess?" Master Mu Gutian said lightly: "Moreover, since it is an assessment, there is nothing wrong with explaining clearly."

Seeing Mu Gutian speak, Master Konoha's face suddenly eased, and the sound was transmitted immediately. The master below received the sound transmission and was stunned for a moment. Then he said: "Since this player is not clear, then the old man will explain, this sacred formation twelfth heaven is specially researched and evaluated by our heavenly work to assess the cultivation of formations. ..."
