

Valkyrie 2701

[Chapter 2701: Shouldn't be like this](#)

After the expert's explanation, Qin Chen finally understood the principle of the twelfth heaven of the holy formation.

This sacred array twelfth heaven is an extremely magical treasure. It is specially used by Tiangong to assess the skill of the refiner's formation. As long as the refiner steps on the twelfth heaven of the sacred array, he will be affected by this. Many disturbances from the twelfth heaven of the Holy Array. And what the refiners need to do is to identify the array patterns exposed in the twelfth heaven of the holy array under the interference of the twelve heavens of the holy array, and engrave them, and only the interference will be correct. If you succeed in engraving the pattern, you can move

Go to the next step.

As the steps continue to rise, the difficulty will also increase.

No wonder these refiners are so solemn.

If you just simply engrave an array pattern, it will be much simpler. A refiner with a high level, a high level of cultivation, a strong soul, and a strong spiritual level will naturally be able to engrave a formation pattern with a higher level, and it will be easy to pass. Assessment. However, in the twelfth heaven of the holy formation, the interference given will be different according to your cultivation level, so that everyone is on the same starting line. In this way, some people will be useless even if they have a high cultivation level. Because the pressure you are under is itself

Will be bigger.

This assessment is entirely a refinement master's understanding of the battle path. Only by getting rid of the complexity and focusing on the essence, can you go to a higher level.

In short, what he assesses is a refiner's understanding of the nature of the formation, and the talent in the formation, other virtual ones, are completely useless.

"Well, what else do you not understand?"

After the expressionless explanation of the working master that day ended, he spoke to Qin Chen lightly.

"No, thank you for letting me know."

Qin Chen nodded. "What I said, it turns out that the Twelfth Heavenly Formation is similar to the formation roads of the heavens in ancient times, and it is also an assessment of the cultivation master's formation and the effect is similar. However, the Twelfth Heavenly Formation is after the shattering of the heavens. Because of the disappearance of the road, Tiangong

The treasures that were created to detect the talents of the array roads were created later to simulate the effect of the array roads. Naturally, there is no record in the materials of the Mending Temple. No wonder I have not heard of it. "

Ignoring the speechless expressions of everyone in the square, Qin Chen himself didn't feel embarrassed. He hadn't heard of it or hadn't heard of it. Why bother to put on garlic.

"It is said that the road is very magical, but unfortunately I didn't have a chance to see it. Since the Twelve Heavens is a simulated road, I can give it a try today."

Qin Chen was actually a little excited. "Well, the Twelfth Heaven of the Holy Array is the place for your first round of assessment. As long as any of you can step on the sixth step of the Twelfth Heaven of the Holy Array, it will be passed the first round of assessment. , And can't set foot on it is eliminated. Of course, you

We can continue to rush upwards. Although the higher the rush is not helpful for you to pass the assessment, the higher the rush in the twelfth heaven of the Holy Array, it will give you more understanding of the battle Dao and improve your formation. Taoism. "

"At the same time, each step of the twelfth heaven of the Holy Array has a time limit. A step can only stay for one stick of incense at most. If the engraving pattern cannot be completed within one stick of incense, it will be Double Heaven is eliminated directly."

"Now, the assessment begins. I wish you all pass the assessment!" Qin Chen has already understood that there are two assessments in the Twelve Heavens in this formation, one is to stand on the steps, and the other must be within a stick of incense. Comprehend the formation pattern of the step and engrave it. Both are indispensable to enter the next

Steps.

If the twelfth heaven of the holy formation was created by the corresponding formation path, then walking up the seventh step would be equivalent to stepping into the heavenly formation mage, equivalent to a heavenly holy formation mage, and this The sixth floor, it should be the late stage.

And all the craftsman masters have to do is to stand on the sixth floor, not to perfectly engrave the sixth layer of formation.

At first glance, this seems to be very simple, because there are many crafting masters in the late stage or even peak crafting masters, but in fact... it is not the case.

Because the twelfth heaven of the holy formation does not allow you to engrave the formation pattern of the later stage of the land you have mastered, but you need to understand, perceive the special formation pattern on this step, and then engrave it, and there are time limit. The first one is equivalent to letting a martial artist of the late Earth Sage display his own post-earth sage exercise technique, while the second one is to let a late Earth Sage warrior watch a new post-earth sage exercise technique, and then one Cultivate it in the incense

Success, show it.

The difficulty of the two is not above the same level at all.

Second, you need to have a perfect understanding of the realm of the later stage of the Earth Sage, and you also need a shocking talent and terrible talent, otherwise it is impossible to master the understanding within the prescribed time.

That's why the expressions of these refiners are so solemn.

However, fortunately, there is a full time for a stick of incense, a stick of incense, that is half an hour, if you just understand a pattern, the difficulty should not be too great, otherwise it is impossible for anyone to complete it.

Following the examiner's order, tens of thousands of refiners moved together, all stepping onto the first step, the first heaven of the twelfth heaven of the Holy Array. The twelfth heaven of this holy array is extremely vast and contains endless space power. Tens of thousands of people walked up together as if stepping into a folded space. The distance between everyone does not seem far, but the world is in two different spatial layers

Face, they will not affect each other at all.

The twelfth heaven of the Holy Array will adjust the pressure received according to each person's cultivation base to achieve absolute fairness.

Qin Chen also stepped onto this first step with other refiners. As soon as Qin Chen came up, he felt a strong thrust to push him down.

After feeling this thrust, Qin Chen was shocked. He was not afraid of this thrust, but thought that since the first step has such a thrust, doesn't it mean that the further the back, the greater the thrust?

According to the truth, this first heaven should only represent the realm of Mortal Product's initial stage, it shouldn't be so difficult, but the thrust that Qin Chen feels now is far more than this level. Could it be said that you need to resist this thrust while comprehending. If this is the case, then it is impossible for you to climb the third step, because the thrust of the first step is so terrible, the second and the third How much

terrible? It is estimated that they are more than ordinary heavenly saints, right?

No, it shouldn't be like this.

If this is the case, let alone yourself, no one in the room can pass the third stage. Qin Chen turned his head, and he saw that the expressions of other refiners were very relaxed, immersed in the twelve layers of heaven, and many people had already begun to understand the patterns.

[Chapter 2702: Perfect person](#)

There should be some kind of convention.

Qin Chen frowned and thought. He knew that if this terrible thrust was not resolved, even if he could sense the formation pattern of the first heaven at the fastest speed, it would not help. When he got to the back, he would definitely go to the sixth floor. A strange picture appeared. The tens of thousands of refiners on the first step of the Twelfth Heavenly Array, everyone else is feeling the pattern, and some people have even begun to try to draw the pattern that they feel. , But Qin Chen alone

It was standing with a frown, frowning, as if he didn't know where to start.

"What is he doing?"

Master Konoha really couldn't help asking. After he finished asking, he found that the expressions of other powerful men around him were the same as him. Obviously no one knew what Qin Chen was doing. The real person Tianxing in the Wangulou almost burst into cold sweat on his forehead. Is this Qin Chen really a refiner? That's not right. If he is not a refiner, how can he pass the appraisal of the Pavilion? Ruo Rui has said that Qin Chen is in the assessment

, Almost shocked the pavilion owner Wan Xinde of Qi Pavilion.

But now...

Zhen Xing Zhenren felt a little flustered. Elder Chu Ye's face is also hard to look, what is this Qin Chen doing? If he fails the appraisal of the refining division, for the dignity of the work of heaven, he will be killed on the spot. To be honest, he really can't bear to kill a person who breaks in

Tianjiao on the ninth floor of the ancient holy tower, even if the opponent is not willing to join the warrior clan. Pavilion Master Wan Xinde of the Qi Pavilion is also a bit speechless. He is the one who knows Qin Chen's refinement skills best. Although he does not know how strong he is, he is definitely a local refiner, and even the worst. The land refiner shouldn't even even the twelve holy array

Chong Tian can't pass the first step, right?

Moreover, this Qin Chen was recommended by Master Mu Gutian for the appraisal of the refiner. He couldn't help but quietly glanced at Master Mu Gutian, only to find that Master Mu Gutian was calm and relaxed, as if he didn't care about the scene at all. Also, as the top refiner in Guanghan Mansion, there is almost nothing to move Master Mu Gutian. Don't look at the many refiners below, but it's safe to say that all these tens of thousands of refiners No matter how talented the teacher is

, I am afraid that countless years later, there may not be one who can reach the status of Master Mu Gutian today.

"Huh, I just said, this kid is just trying to get his reputation. Looking at it like this, it's clear that he didn't pay attention to the assessment of Tianjiao's craftsman. I now have reason to suspect that the other party may even have the qualifications for the assessment Tricky."

Yun Dongguang sneered. The most proud of it was him. He wished that Qin Chen was embarrassed and was even eliminated on the spot. Then he had a hundred reasons to kill Qin Chen.

A trace of cruel killing intent passed through his eyes quietly.

Even these top bosses are extremely puzzled, not to mention the countless warriors in the square.

At this moment, the entire square had long been talking about it, and it was quite quiet at first, but afterwards, everyone was a little unscrupulous.

Because Qin Chen's appearance is too surprising.

After all, this is the first step. If you hesitate so much on the first step, what else will be assessed? Just get down early.

"This Qin Chen...how does it feel that he doesn't understand the battle at all."

"Yeah, I didn't see him feeling it, and didn't draw anymore, just standing on the steps so stupidly, in a daze?"

"Look, the young master of Baoqitang is almost finished drawing."

"I can see, so fast, Yunzhou Yunmeng Zezhouzi is almost finished drawing the first layer, but Qin Chen... is still motionless."

"My god, didn't Qin Chen's qualifications for the assessment were bought? This one is too big..."

Everyone was speechless, and at first they were afraid of Qin Chen's dominance and strength, some surreptitiously, and very quietly talking, but afterwards, they had no scruples.

If Qin Chen really dared to make a joke about working in heaven, then he would be completely finished, no matter how Tianjiao was, it would be useless, and Wan Gu Tower could not save him.

This is not as simple as offending the head of Yunzhou, who is angry at work, and Guanghan Mansion will tremble and reduce the impact.

Among all the people, only Ao Lie and Ao Qingling believed in Qin Chen without any doubt. They believed that Qin Chen must have their own reasons for doing this.

"Hahaha, they all say that the twelve layers of the Array is the nightmare of the Array Mage. I don't think it's difficult, my little master?" At this moment, a cheerful voice of laughter came out. It was the white jade. Tang, I saw his hands flicking, a complex, never-before-seen array pattern appeared in the void, suddenly, the first step suddenly shined, and at the same time the Bai Yutang stepped gently.

, Has already embarked on the second step.

"Hey, I'm the first one, Xiaoye, I can't help it, how lonely is Invincible, Xiaoye, I'm so awesome."

The little fat man shook his bangs: "Oh, people are handsome, talented, and strong, but they are also so powerful. You say there are such perfect people in this world."

Bai Yutang was so narcissistic that everyone was speechless.

However, he was indeed terrifying, and it didn't take long for the assessment to begin, and he was the first to step on the second floor, which is enough to show that his talent is strong.

Hum!

At the moment when Bai Yutang's voice fell, a clear light lit up, and not far away, Yun Mengze also completed the outline of the first step, and stepped into the second step.

Only two or three breaths slower than Bai Yutang.

However, Yun Mengze's expression was extremely ugly. He was not the first to step onto the second step. He stared at Bai Yutang coldly, with an incomparable fighting spirit in his eyes.

The young master of Treasure Hall? Sure enough! However, it would be more refreshing if you could step on such a character, wouldn't it?

The fighting spirit in Yun Mengze's heart was boiling, and at the same time he turned his head and looked down. He wanted to find Qin Chen to see where Qin Chen was.

At this look, Yun Mengze couldn't help but stay in a daze.

What did he see? This Qin Chen was in a daze on the first step, and it seemed that he hadn't started to sketch.

Does this guy know nothing about Yan Wen?

Yun Mengze was still a little worried about whether Qin Chen could pass the examination of Tiangong's refining master, and even worried that Qin Chen's refining talents would be so awesome if he could pass the ancient sacred tower.

But now, Yun Mengze was completely speechless.

A scornful smile was drawn at the corner of his mouth, and he smiled sternly: "I thought this guy was a person, he turned out to be a fake, he really did not live, even God is helping my Yun family, this kid is dead this time. Up."

Yun Mengze turned his head and did not pay attention to Qin Chen anymore, but quickly realized the formation pattern on the second step. His goal is Bai Yutang, as long as he surpasses Bai Yutang, he will completely make a sensation in the major states, and even directly make a name in Guanghan Mansion.

[Chapter 2703: What a fool](#)

"What a fool came to the appraisal of the refiner who worked this day!"

Bai Yutang glanced at Qin Chen, and shook his head somewhat unexpectedly. Wasn't this kid very good at playing before? It turned out to be a soft-footed cargo.

He stopped paying attention to other people, and grasped the feeling.

How can he not feel Yun Mengze's fighting spirit, cut, a small state, who has just challenged your little master, your grandfather Bai must let you know what is a genius and what is a genius.

Along with the hard work of the two people, buzzing...One after another clear light lit up, Xiao Banzhuxiang passed, and many refiners have already begun to set foot on the second floor, first a few hundred, then a few thousand, and finally Tens of thousands.

Less than half a pillar of incense, most people have already stepped to the second step.

This is natural. At least the masters who can participate in the assessment are the masters of local craftsmanship. How can they not even pass the first step? It can be said that before the first three floors, almost no people will be eliminated.

But at this time Qin Chen still did not move, and the real person Tianxing above the sky was almost unable to sit still.

Even Ao Lie and the others are a little confused as to why Xiao Chen is still motionless until now.

"It's not that Young Chen doesn't know the assessment method of the twelfth heaven of the Holy Array, right?" Qin Tingting couldn't help but say something.

The ancient medicine master and others were surprised, is it possible? It seems that it is really possible, after all, there was little dust before, but even the twelfth heaven of the holy formation had never heard of it.

What can I do! Qin Chen frowned while resisting the thrust from the twelfth heaven of the holy formation, while wondering what was going on? In this environment, it is obviously impossible to perceive the formation pattern. If the whole body of Saint Yuan is used to resist the thrust of this step,

How can I feel the formation pattern? There must be something in it that I don't know.

But if you don't use Shengyuan to resist the thrust, what is it?

The refiner, the assessment is mental power. If the twelfth heaven of the holy formation simulates the formation path, is it using spiritual power? As soon as Qin Chen thought of this, his spiritual power immediately permeated out. Qin Chen was shocked to discover that he felt the pressure of the Saint Yuan but instantly dropped, and when he took back the resistance of the Saint Yuan, it did not happen. Pushed

Out of the Holy Array Twelve Heavens.

Really use mental power.

Qin Chen was speechless. Such a simple truth could only be figured out by himself now.

No, Qin Chen cannot be blamed at all, but Tian's work should be blamed. You must know that Qin Chen has only been in the heavens for more than a year, and he has never participated in any refining master assessment, and even his refining master's rank test was evaluated by the device pavilion not long ago. In the manufacture of refining

It was extremely terrifying, but that was because it had been inherited from the ancient Butian Palace.

But there is actually a generation gap between Butian Palace and the current heaven. Apart from other things, the way Qin Chen knows about the mending formation is actually not oppressed by the holy origin at all, and some are just assessments of spiritual power, and this kind of spiritual power assessment is not so direct, but is very vaguely integrated into the drawing formation. Patterned

In the process.

The Twelfth Heaven of Heavenly Work's Holy Array simulates the path of the formation, but it does not have the powerful means of patching the heavens in the ancient times, so it simulates a four-dimension.

This caused Qin Chen to fall into a misunderstanding of thinking.

Thinking of this, Qin Chen himself was a little bit dumbfounded.

It turned out to be so! Using the Saint Yuan resistance thrust on the twelfth heaven of the Holy Array, it is estimated that everyone is not able to adhere to the third layer at all. Every examiner must resist with

spiritual power. As long as he resists with spiritual power, the oppression of this holy element will naturally be weakened.

It is an assessment of mental power. Because the stronger the cultivation base, the stronger the mental resistance required. If the cultivation base is low, the required mental resistance will be lower. Qin Chen laughed at himself. He estimated that among the refiners who came to participate in the assessment, he was the only one who did not understand this. No matter if other refiners are powerful or alone, they will not be ignorant of this type of assessment.

There is such a method in the cabinet. As soon as Qin Chen's spiritual power was displayed, the surrounding Saint Yuan's oppression instantly diminished, but after the Saint Yuan's oppression was reduced, Qin Chen heard countless mixed voices and countless mental shocks that interfered with his Mind, at the same time

, Qin Chen felt that on the first step, special formation patterns faintly appeared.

Examiners need to carefully distinguish the looming array pattern under these interferences, and finally perceive the entire array pattern, draw it out, and open the channel into the second layer.

This is too simple. Qin Chen shook his head speechlessly, and saw that the powerful mental power in his mind swept out suddenly, and all the interference around him was shielded from the outside world, and the looming formation pattern was completely reflected in just one glance. Qin

Dust mind, there is no difficulty at all.

Now as long as Qin Chen draws out this pattern thoroughly, he can pass the first layer. For Qin Chen, it is not easy.

But when Qin Chen was about to draw, he suddenly stopped.

Indeed, if he draws directly now, he can indeed enter the second level, but in this way, it loses the significance of the assessment. He can even rush to the sixth layer as fast as possible to end the first round of assessment. But after the end? His attainments in the formation method will not be improved at all, but he has passed an assessment. According to the previous examiner, it is obvious that the higher the sacred formation, the longer he persists, the longer he gets.

The greater the harvest.

"I understand!"

Suddenly, Qin Chen felt as if he had understood something.

He sat cross-legged suddenly, and instantly withdrew his terrifying mental power. Suddenly, a terrifying Sage Yuan coercion enveloped him, and then Qin Chen released a trace of spiritual power. As soon as this spiritual power was released, Qin Chen's Sage Yuan coercion suddenly weakened. What followed was like

Tide-like interference.

A wave of spirits resembling a magic sound kept roaring in Qin Chen's mind. Qin Chen's mind was chaotic. With only a trace of mental power, he could not see the formation on the first step. Traces.

But Qin Chen didn't have any urgency. He raised his perception to the extreme and tried his best to perceive this special formation pattern without raising his mental power.

At the beginning, Qin Chen's eyes were indeed blank, but gradually, under such extreme interference, Qin Chen actually began to see traces of formation patterns.

"I saw it!" Qin Chen couldn't help being surprised.

[Chapter 2704: Shit luck](#)

I guessed it right.

Even under extreme interference, you can actually perceive the special runes on this step, but the difficulty is extremely high, and it takes a huge amount of energy to completely perceive the runes.

But isn't this the secret of this assessment?

What's the point if the interference is completely resisted and the formation pattern is easily outlined? After an assessment, there will be no improvement at all.

But now it is different. In this kind of interference, Qin Chen can feel that he has a different understanding of spiritual power.

He raised his head and found that he was the only one left in the entire first floor at this moment. All the master craftsmen had stepped into the third floor, and even a considerable part of them had already reached the third floor. .

But Qin Chen didn't care. Qin Chen didn't worry about the limit of a stick of incense and the time when there was still a small stick of incense. Qin Chen sank his heart, but carefully sensed the vague formation pattern. At the beginning, this formation pattern was extremely vague, and only a glimpse could only be seen occasionally, but gradually, Qin Chen's perception began to become ethereal, and all interference in front of him became extremely clear in his perception. But the same, that one

Dao's special formation pattern also began to become clear.

Although it is still impossible to get the whole picture, it is much clearer than at the beginning.

This made Qin Chen feel extremely magical.

Moreover, Qin Chen still had a faint feeling that the interference around it seemed chaotic, but it seemed to have a vague connection with the pattern. This connection, Qin Chen could not capture the connection, it was just a kind of Qin Chen. intuition.

In this way, Qin Chen completely abandoned everything from the outside world, and felt completely immersed in the understanding of this pattern.

Hum!

Finally, when he was only a short time away from a stick of incense, Qin Chen could thoroughly see that special formation pattern in the most disturbing state. At this moment, in Qin Chen's perception, the pattern is exactly the same as what he saw after he first used mental power to wipe out the interference, but in essence, there is a strange difference, as if the pattern that I see now , Like owning

It's life in general.

"The time for a stick of incense is coming. Is this Qin Chen really going to be eliminated?"

"Yeah, there are still more than ten breaths, and it is about to reach the limit of a stick of incense. I really didn't expect that Qin Chen was not a refiner at all, and actually came to participate in the assessment of a refiner."

"Fraud, there must be fraud in it."

At this time on the square, everyone's attention was focused on Qin Chen, and no one even paid attention to Bai Yutang and Yun Mengze who had already reached the third floor.

The first step of the first round of assessment was eliminated. Once such a thing happens, Qin Chen will definitely become the laughing stock of the appraisal of the crafting master, and will definitely be designated as the head of the crafting division of the game. . At that time, it was no longer a bet between Qin Chen and Elder Chu Ye of the Tiangong Martial Arts Department. Even without this bet, the Tiangong Artifact Refining Division would never let him go, and would definitely kill him. Here, otherwise the face of the refiner who works

Where is the face?

"This Qin Chen is too speechless. Since he is not a craftsman, why should he come to participate in the examination of the craftsman of Heavenly Work? Isn't it good to join the martial arts department?"

"Hey, with his achievements in breaking into the ancient sacred tower, Elder Chu Ye of the Martial Arts Department is willing to make an exception for him, but he didn't even agree to it. It's all right now, and he will die directly."

"It's a pity. With this talent and ability to kill the thirteen thirteen thieves, as long as he doesn't die, he will definitely become a great figure in my Guanghan Mansion in the future. But now, if you offend the Heavenly Work Refining Division, no one can save him. Up."

There was a lot of discussion, there were sneers, ridicule, and the mentality of regret and watching the show.

Above the sky, Master Konoha's eyes were extremely gloomy, and a terrible anger was brewing in his body, while Elder Chu Ye sighed and shook his head with a helpless look.

"Hey, look... then Qin Chen has begun to draw formation patterns."

At this moment, a cry of exclamation sounded, attracting everyone's attention. On the first step, Qin Chen actually moved and began to draw patterns.

"In the end, there are only ten breaths left. Doesn't this kid feel hopeless and write randomly, wanting to pass the test?"

"What a joke, if the twelfth heaven of the holy formation can be passed by a single stroke, it will not be called the twelfth heaven of the holy formation."

"Hey, this pattern is very special, it doesn't seem to be a random outline!"

The crowd opened their eyes. On the first step, Qin Chen swiftly swept his right hand, and in a few strokes, he outlined the special pattern.

Hum!

The clear light bloomed, and the first step suddenly lit up. At the same time, when only a few breaths were left from the last moment of a stick of incense, Qin Chen stepped onto the second step.

"Success... succeeded?"

"Damn, am I dazzled?"

"Three breaths, when there are only three breaths left before the deadline for the last incense stick, did Qin Chen succeed?"

"Mamma Mia!"

The crowd was going crazy, some people pinched themselves and couldn't believe their eyes.

What is limit, what is thrill? This is too exciting.

On the third step, Yun Mengze subconsciously glanced at Qin Chen during the assessment, but was also stunned, almost spitting out a mouthful of old blood.

Qin Chen's **** luck is too good, right?

The last three breaths passed the first step... I have a sentence I don't know if I should say buying a horse.

Yun Mengze was too excited for a while, his spirit fluctuated, his body sank, and he almost rolled down the three steps, hurriedly stabilized his figure and continued the assessment.

How about going through the first floor, it took a whole stick of time to pass the first step, I don't believe you can pass the second floor.

Above the sky, Yun Dongguang almost vomited a mouthful of old blood. He was already waiting for Qin Chen to be eliminated, and he was about to attack directly, unexpectedly entering the second floor.

I will bear it, I will bear it again.

Yun Dongguang mobilized his cheeks, his face was blue, and he gritted his teeth secretly.

"Qin Chen, luck is really good."

The other top powerhouses are also speechless.

"Good luck?"

Mu Gutian murmured, he stared at the position of the special formation pattern outlined by Qin Chen, and a trace of doubt and shock quietly passed by in the depths of his eyes.

After entering the second layer, this time, Qin Chen did not directly shield all of his mental power from interference, but still only exuded a trace of mental power. Suddenly, a flood of interference that was more terrifying than the first layer flooded into Qin Chen's mind.

This second layer is more than twice as difficult as the first layer.

However, Qin Chen was not in a hurry, he was completely immersed in it, and under the greatest difficulty, he felt the faint traces of formation patterns. At the same time, Qin Chen's mental power was slowly improving with his perception.

[Chapter 2705: Failed works](#)

Qin Chen did not expect that the assessment of the twelfth heaven of the holy formation could actually increase his mental strength.

You must know that at the point of Qin Chen, it is not easy to improve even a little bit of spiritual power, and often only after the cultivation level is improved, the spiritual power can make a breakthrough.

But now, Qin Chen actually felt that his mental power was slowly improving.

This is not the most important thing. The most important thing is that in the process of perceiving this pattern, Qin Chen can clearly feel that his understanding of the pattern is also improving a little bit.

This feeling is really wonderful.

Especially the formation pattern on each step is very special and contains extraordinary things. If you observe more, you can understand the extraordinary.

What Qin Chen is doing now is not just to re-engrave the formation patterns on each step, but to fully understand the formation patterns on these steps and become his own. Qin Chen originally only needed to release his mental power to instantly see the formation pattern of the steps he was on, and re-engrave it, but he did not do this, but carefully perceives the formation of each formation pattern. And intention, wholeheartedly

Put into it.

But this fell in the eyes of others, but Qin Chen got stuck again.

"I just said that Qin Chen was out of **** luck. You saw this second step and didn't move."

"The Young Master Bai Yutang and Yun Mengze Zhouzi of the Treasure Tool Hall are still very powerful, and they have now reached the fourth floor." "Is it necessary to say, based on the talent of the Young Treasure Hall Master and Yun Mengze. It's easy for Zhouzi's strength to pass the six-level assessment, and even pass the assessment of the working equipment division on this day. The only problem is that he doesn't know him.

With what grades will we pass. "

The crowd talked a lot.

I have to say that Bai Yutang and Yun Mengze are extremely fast, almost the fastest to set foot on the fourth floor. The speed is simply shocking, and even many veteran masters are not as fast as them.

Time passed, just when Qin Chen had been on the second step for a long time and was about to be eliminated again, Qin Chen suddenly moved.

Huh!

His hands swiftly moved, and in an instant, an array pattern representing the second step appeared. At the same time, the clear light was on, and Qin Chen stepped onto the third step.

"Damn, this kid is so lucky?"

"Is it the next level with three breaths left?"

"I....."

Many people were speechless, they even thought that Qin Chen was going to be eliminated again. Unexpectedly, at the last moment, Qin Chen had once again completed the second level of assessment and suddenly entered the third level.

This made everyone's eyes fall to the ground.

"The third floor, I bet this kid will not be able to get through the third floor."

"Yes, no matter how lucky you are, if there are only three things, you should fail?"

"If you even pass the third floor, then God is really eyeless!"

Everyone talked a lot, and above the sky, Yun Dongguang couldn't help but snorted coldly: "Huh, this kid is really **** luck."

"Shit luck?"

Mu Gutian sneered and said, but he stopped talking, staring at Qin Chen's place with excitement in his eyes.

I am afraid that among everyone, he is the only one who can see that Qin Chen is feeling the twelfth heaven of the holy formation instead of delaying time on purpose. "This kid, deliberately left it until the end to engrave the formation pattern, in order to be able to get on every step of the twelfth heaven of the sacred formation and feel for a while. He is using the twelfth heaven of the holy formation to improve himself. Did he really see it? Or is it?

Fortunately? "

Mu Gutian's eyes widened. Only he is the one who knows best that the twelfth heaven of the Holy Array of Heavenly Work is actually not just an assessment tool. The twelfth heaven of the Holy Array created by the founder of Heavenly Work imitating the lost formations of the ancient heavens has the greatest effect. Is to let

The tool masters improve the formation of the formation path to understand the essence of formation pattern.

I just want to use the twelfth heaven of the holy formation to improve the strength of the formation. The difficulty is really too great. It is necessary to touch the essence of the formation under endless interference, even for some extremely talented refiners It is difficult to do this.

Apart from other things, even a master craftsman like Mu Gutian, it is difficult for him to use the twelfth heaven of the holy formation to improve his formation, because it is too difficult.

It can be said that the Twelfth Heaven of Holy Array is actually a failed work of the founder of Tianjiao.

This led to the fact that the Twelfth Heaven of the Holy Array gradually became a tool for simply assessing the refinement master's formation skills.

But now, Mu Gutian keenly felt that Qin Chen's state at the moment actually seemed to be using this holy formation twelfth heaven to improve himself.

Is this really ok?

"Master Mu Gutian, what do you mean?"

When Master Konoha heard Mu Gutian's words, he suddenly turned his head and stared at Qin Chen below. As the chief examiner for the examination of Tiangong's craftsman, he naturally knew more about the effect of the twelfth layer of the Holy Array than others. , I also heard of this rumor.

Could it be that Qin Chen...

He stared at Qin Chen, with a shock in the depths of his eyes, slowly rising up.

At this time, the assessment below is still continuing.

When Qin Chen stepped on the third floor, the strongest Bai Yutang and Yun Mengze had already stepped on the fifth floor.

At this point, some refiners have been gradually eliminated.

boom!

Lights lit up one after another, and a famous refiner was shaken out from the fourth floor. When it came to the fourth floor, the difficulty of drawing the pattern suddenly increased. Many refiners with weaker potential immediately lost the opportunity to continue to challenge. ability.

But Qin Chen is still the only one on the third floor.

"Hey, look, Young Master Bai Yutang of Baoqitang has stepped onto the sixth step."

At this moment, there was a tumult from the crowd, and finally the first person stepped onto the sixth step.

"Tsk tusk, it seems that the young master is still the first, hahaha, there is no way, the young master is so awesome, hey, I want to keep a low profile, but the strength is not allowed."

Standing on the sixth floor, Bai Yutang chuckles, it looks like as many as you owe you.

Bai Yutang's performance was arrogant, but no one dared to say the first half. In this world, the strong are always privileged, and Bai Yutang's talent naturally convinced everyone present.

"hateful."

Yun Mengze gritted his teeth with an ugly expression. After Bai Yutang stepped onto the sixth floor, he also stepped onto the sixth floor.

"The second one is Yunmeng Zezhouzi."

The crowd was sensational.

The two of them have been far ahead, biting very tightly, and they are really evenly matched. In comparison, Qin Chen was too weak, and the remaining craftsmen were either on the fourth or fifth floor. Only Qin Chen was still on the third floor.

[Chapter 2706: Catch up quickly](#)

Fortunately, Qin Chen didn't have any tension or panic on his face. He always looked calm, leaving people speechless and wondering where Qin Chen's confidence came from.

The time for a stick of incense is fleeting in the blink of an eye, just when there are more than ten breaths left on the third floor.

Huh!

Everyone's eyes fixed on Qin Chen.

This is the third layer, Qin Chen shouldn't be lucky, right?

But at the moment when everyone's eyes turned to Qin Chen, they saw Qin Chen move suddenly.

His eyes suddenly opened, there was a divine rainbow skyrocketing, and his hands flicked. The formation patterns containing the ultimate breath were instantly outlined, forming a perfect formation pattern.

Hum!

When this array pattern lighted up, the third step flashed and Qin Chen stepped out, and after the last three breaths, he instantly stepped into the fourth step.

"Success again?"

Everyone looked at Qin Chen blankly.

If at this time, everyone has not realized that Qin Chen deliberately delayed it to the last moment, then it would be too idiotic.

"Is this Qin Chen unable to outline the pattern, but deliberately delayed until the last moment to pass the assessment?"

"It must be the case, otherwise it is impossible to explain why he was able to pass the assessment at the last minute three consecutive times."

"But what is his purpose for doing this?"

"Yes?"

Everyone was at a loss and couldn't figure it out.

"This kid, just fooled me!"

Yun Dongguang's heart was angry and his eyes were cold. He also understood that Qin Chen definitely waited until the last moment before passing the steps. As a result, everyone thought Qin Chen was out of **** luck at first.

Kakoka, this kid is so cheap.

When Qin Chen stepped into the fourth floor, this time, he did not continue to stop and feel, instead, he swept out mentally, directly dispelling the interference around him.

"When I was on the third floor, I felt that the formation pattern was already a little struggling, and I continued to feel it, and my spiritual power did not improve again. Obviously, my understanding of the twelve layers of the holy formation has reached its extreme." At the twelfth day of the Holy Array, my mental power increased by about 20%, and my understanding of the array pattern has also improved a lot. It should be a bottleneck. Before I break through, there will be no more. Sentiment

Up. "

Qin Chen shook his head.

He knows his state very well.

An increase of 20% has reached the limit. If you continue to feel it, you will not be able to increase it in a mere stick of incense, but you need to settle, and maybe you will continue to make progress next time.

"This time I have gained a lot, and I am insatiable. It's better not to become a fat man in one bite."

Don't underestimate the 20% improvement. It doesn't seem to be a lot. At Qin Chen's realm, any increase in mental power is extremely difficult, not to mention Qin Chen's attainments in the formation, and also has a brand new one. understanding.

Even some of his texture theories that he couldn't understand in the art of patching up the sky are still flashing at this moment, and he has a lot of understanding.

"Next, let's sprint as hard as possible."

Qin Chen raised his head, his eyes bloomed with brilliance, and the terrifying spiritual power permeated out. Suddenly, the formation pattern of the fourth layer clearly appeared in front of his eyes.

Qin Chen flicked his hands, and in a moment, he outlined the fourth layer of formation.

Hum!

With a flash of clear light, Qin Chen immediately stepped onto the fifth floor.

What...what?

As soon as everyone turned their heads, they saw that Qin Chen had skipped the fourth floor and directly entered the fifth floor. At this speed, everyone was shocked.

"I...I didn't get dazzled just now?"

"Then Qin Chen barely stayed on the fourth floor, and directly outlined the formation pattern of the fourth floor, and entered the fifth floor?"

"This speed is too fast, a dozen breaths, it outlines the fourth layer of formation, no, I must be dazzled."

If it were other refiners like this, everyone might not be too surprised, but Qin Chen's performance on the first three levels can be clearly seen. Now that Qin Chen has directly entered the fifth level, those other refiners The masters were secretly surprised. Even the fastest Bai Yutang and Yun Mengze before, stayed on the fourth floor longer than Qin Chen, about twice as long as Qin Chen, Qin Chen actually only spent Bai Yutang and Yun Mengze Passed through the fourth floor in half the time. Why?

may?

Just don't wait for their shock to fall.

Hum!

Above the fifth layer, a clear light was shining, and everyone saw that Qin Chen had once again outlined the formation pattern of the fifth layer during the moment they were shocked, and suddenly stepped into the sixth layer. Above.

Wow!

The audience suddenly boiled, and the endless noise rose into the sky like a tsunami, and everyone was almost stunned.

Rely on.

Before Qin Chen passed the first three floors, it took three sticks of incense time, but now, when Xiaobanzhu incense is not there, Qin Chen has crossed the fourth and fifth floors in succession, and entered the sixth floor in one fell swoop. .

The speed contrast before and after this makes everyone unable to understand.

It should be noted that from the assessment to the present, there are only a few hundred crafting masters who have stepped on the sixth floor. Qin Chen suddenly surpassed tens of thousands of people from the last place, and directly became the top hundreds. It's simply a fantasy.

And since Qin Chen has reached the sixth level, it means that he has passed the first round of assessment, but not long ago, everyone was not optimistic about Qin Chen's results.

"This kid..."

At this time, a few dozen people, including Bai Yutang and Yun Mengze, had already stepped onto the seventh floor. Feeling the restlessness behind them, they turned their heads and saw that Qin Chen had already reached the sixth floor. shock. In a short period of time, directly across two levels. Seeing this situation, Yun Mengze's heart sank. He already understood that Qin Chen has true abilities, above the twelfth heaven of the holy formation, It is absolutely impossible to cheat, obviously Qin Chen's

Really have the ability to challenge yourself.

But even so, in the twelfth heaven of the holy formation, it is absolutely impossible for him to win himself.

"If I devour the experience and power of the seven masters, will I still lose to you a stinky kid?"

Yun Mengze gritted his teeth and quickly realized the formation pattern of the seventh layer. Before his eyes, a vague formation pattern began to slowly show its shape.

On the sixth step, Qin Chen felt a terrifying pressure as soon as he went up, and even after he urged a trace of mental energy, the pressure was still very strong. Qin Chen instantly understood why the first round of assessment of Tiangong's craftsman would be set at this fifth level. As long as he stepped on the sixth level, he would pass, because the difficulty would suddenly increase when he reached the sixth level. On the sixth floor, there are probably very few who can pass through tens of thousands of refiners.

[Chapter 2707: Another idiot](#)

Of course, Qin Chen is absolutely impossible to be stumped by the sixth layer. His spiritual power permeated out, and endless interference struck. At the sixth level, even if Qin Chen urged his spiritual power with all his strength, he could not shield all the interference, but that was nothing, even if there was interference, Qin Chen Can still feel clearly

To the formation pattern of the sixth layer.

However, the difficulty of engraving the pattern of the sixth layer is much more difficult than the previous five layers, it is very complicated, and it is equivalent to a small array.

It's no wonder that after the assessment for so long, only a few dozen people have made it to the seventh level, and it is indeed difficult to pass the sixth level.

More than ninety-nine percent of the refiners will be stuck on this level.

But among these people, Qin Chen is definitely not included.

Hum!

Qin Chen raised his hand and began to outline the pattern stroke by stroke.

The pattern on the sixth layer is very complex, consisting of a dozen small patterns forming a large pattern, and unpredictable. Even if some top craftsmen do not interfere, it is difficult to outline, or even outline. Many times can be successful.

But Qin Chen was very careful with each stroke. Every stroke was like art without the slightest flaw. After a small half-zhu incense, a perfect pattern appeared on the sixth step.

The light lit up, Qin Chen smiled slightly and stepped onto the seventh floor. When Qin Chen stepped onto the seventh floor, he immediately greeted countless exclamations. Above the sky, Master Konoha and the others looked at each other, and they came to understand. After the assessment, Qin Chen knew only then that he could come up with his real skills.

In Xiaobanzhuxiang's time, he passed the sixth-level assessment, and his results were simply against the sky.

"This speed is really breathtaking, Lord Wan Xinde, can you be sure to pass the sixth floor at the time of Xiaobanzhuxiang?" Master Konoha said in shock, and then looked at Wan Xinde. Pavilion Lord.

Wan Xinde smiled bitterly: "On the sixth floor, at a small half-zhuxiang time, even if I can do it, I am afraid it will never be much faster than Qin Chen."

"Yeah, this speed is no longer what an ordinary Array Dao master can achieve. It is Array Dao Tianjiao, no, it is even more terrifying than Tianjiao."

Master Konoha was shocked. It's not a big deal just to pass through the sixth layer. The hard part is time. To outline the formation pattern of the sixth layer in such a short time represents Qin Chen's mental power, his acuity, and perception against the formation pattern. In terms of understanding, they have reached an extreme

To the point of horror.

In short, Qin Chen is a world-famous genius who refines formation patterns. He is naturally sensitive to formation patterns. To put it in a more old-fashioned way, it is a natural formation.

Such a character is difficult to produce in thousands of years. Even in the midst of heavenly work, it is very rare and can be called abnormal.

"Hmph, even if he has a strong formation, it doesn't necessarily mean that he will pass the appraisal of the refiner." Yun Dongguang snorted coldly.

This is true.

Refining tools are not just engraving formations. A top-level refining master must be a powerful formation master, but a powerful formation master may not necessarily be a top-level refining master. The causal relationship between the two But it cannot be messed up. "Now, it depends on which level Qin Chen can reach? Being able to pass the sixth level in such a short time obviously represents his extraordinary talent in the formation, but if he is eliminated at the seventh level, then he can only Said he has enough room for future growth, research

Whether it can grow up depends on the future. "

"Yes, speed is important, but the final result is more important. The higher you can climb, the more possibilities you have in the future."

"Bai Yutang and Yun Mengze are also good. They fight steadily, and they may not be able to pass the seventh floor and enter the eighth floor."

"The eighth layer, this is in the Guanghan Mansion, and there are not many refiners Tianjiao that can reach the point."

Everyone talked a lot, staring down.

Above the square, the martial artist who watched the assessment finally understood what excitement is. Dare to love Qin Chen has been hiding his strength, until now it has completely erupted.

Now Qin Chen, Bai Yutang, and Yun Mengze, the three most eye-catching Tianjiao, are standing on the same level. Obviously, the stimulation has just begun.

Who can laugh at the end, there is no conclusion yet.

"Qin Chen, I didn't expect you to be so despicable. You are obviously not weak in the formation. At first, you deliberately pretended that your formation was not good. Humph, do you think this is very exciting?" , Yun Mengze stared at Qin Chen with cold eyes, and said grimly: "Even if you use some means to attract the attention of the assessors, it is just a crooked way. I will let you know that this round of formation assessment, I think dream

Ze is the number one, you only deserve to be stepped on by me. "

After Yun Mengze said these words, he devoted himself wholeheartedly to the perception of the seventh layer. He could already vaguely see the formation pattern of the seventh layer and began to outline it.

Was he called despicable when his assessment was slow at first? This Yun Mengze is too self-centered, right?

Qin Chen sneered, too lazy to pay attention to Yun Mengze, but he was a little puzzled about the weird aura on Yun Mengze, always feeling that Yun Mengze seemed weird.

As soon as Yun Mengze's words fell, Bai Yutang on the side also looked at Qin Chen.

"Boy, you're so good, you are so courageous to pretend to be a pig and eat a tiger in front of my little master." Bai Yutang looked at Qin Chen aloft, with his nostrils up to the sky, and said, "But what about you is better than that kid." Pleasing to the eye, I hope you can surpass that kid and become the second in this assessment. You will be eligible to join then.

Xiaoye, my treasure hall, let Xiaoye cover you. "

Another idiot.

Qin Chen was speechless, shook his head, too lazy to pay attention to the two, feeling the seventh step. "Cut, you dare to ignore the little master, boy, maybe you don't know what it means to reject the little master, little master, me, in the future, you will definitely become the top holy lord of the heavens. You follow me, and you can be regarded as opening the frontier. Tuotu, become the overlord of one party , Such a good opportunity, missed, you will regret it for life. "

Bai Yutang said proudly, like a holy lord, showing his domineering.

Seeing Qin Chen not speaking, Bai Yutang's face was a little ugly, "Huh, it seems that this kid doesn't know how good the little master is, so the little master will let him know what is the hero."

The three of them were all immersed in the perception of the seventh layer of formation pattern, and with each other's encouragement, they all raised a strong fighting spirit.

This left some veteran refiners next to them speechless.

Today's young people don't know how to respect the old and love the young, and they completely ignore them.

Hum! And at this moment, Bai Yutang was the first to move. When he was serious, the aura on his body turned out to be like Yuan Yu Yue Zhi, extremely vigorous, and formations began to appear from his hands, actually drawing the seventh The formation of layers.

[Chapter 2708: Too tragic](#)

In fact, Yun Mengze started to outline the formation earlier than Bai Yutang. However, Yun Mengze was only simulating and did not formally outline it, because he could not guarantee that he would be able to draw it in one shot.

But Bai Yutang, after a long time of careful identification, moved suddenly, like a rabbit, and directly sketched it. Lines of formations were sketched out of his hand. Each of these formations contained the supreme texture, with shocking power, incomparably graceful and perfect, and they looked like works of art, making people feel from the heart. I feel perfect in the depths

.

"Damn, this Bai Yutang turned out to be faster than me." Yun Mengze's face changed, and he moved swiftly, swishing, his hands flicking, the rays of light lingering rapidly, a complex pattern began to appear and take shape. .

Among the three, only Qin Chen did not move.

Qin Chen set foot on the seventh floor, it was about half a time later than Bai Yutang and Yun Mengze, and now he began to understand the formation pattern. Secondly, Qin Chen did not have much to do with this kind of fame and fortune. interest.

He was immersed in his own world, endless interference struck, but Qin Chen peeked straight into the essence, and the structure of the seventh layer of formation began to appear before his eyes.

If the sixth layer is composed of more than ten patterns, then the seventh layer is composed of more than thirty small patterns, which is much more difficult than the sixth layer.

But at this level, Qin Chen naturally couldn't help. Under Qin Chen's perception, this huge array pattern was quickly broken up. There were more than 30 small array patterns, each of which clearly showed Qin Chen. There is no blur in my mind.

Hum!

At this moment, there was a sudden uproar on the court.

Bai Yutang was the first to successfully outline the seventh layer of formation and stepped into the eighth layer in one fell swoop.

"The eighth floor."

Above the sky, Master Konoha stood up suddenly, with a hint of excitement on his face. In fact, in the twelfth heaven of the Holy Array, as long as it can step onto the sixth layer of the crafting master, it means that it is in the formation together and has the opportunity to become a heavenly formation master, which also means that it has become a heavenly sage. The foundation of the Grade Mixer, this is also a day job

Therefore, Tianjiao will set the first round of assessment results at the sixth level.

And once it can step into the seventh level, it means that under normal circumstances, it will inevitably become a master of formation at the sky level, and even above the sky level, there is a certain extension.

The eighth level is different. As long as he can step into the eighth level, it means that this person is only his starting point in the formation, and there is even hope that he will become a formation master in the later stage.

Once such a character grows up in the future, he can even become the mainstay of Heaven's work.

In Tiangong, more than 90% of the crafting masters are just doing the work at the bottom level. They are one of the countless screws. Only a very small number of crafting masters can become the mainstay of Tiangong, the true high-level. .

Of course, when entering the eighth level, just saying that there is hope does not mean that the other party will be able to achieve it, but hope is better than no hope.

Hum!

When Master Konoha was excited, another clear light came on, and Yun Mengze followed Bai Yutang into the eighth floor.

"Damn it, just a little bit again."

Yun Mengze was angry at the bottom of his heart, although it was only a little bit worse, but the difference was bad, and he was naturally upset.

"Another stepped into the eighth floor."

Master Konoha was excited.

"This Baiyutang is the young master of the Treasure Hall. It is understandable to enter the eighth floor. But this Yunmengze is a person from Yunzhou, and he can also enter the eighth floor. Haha, it seems that this time I'm right on the trip to the state."

Master Konoha is very happy.

As long as there is one refiner who can reach the eighth level, he will be worth it this time. Now that two of them suddenly appear, they are naturally very happy.

Bang bang bang! There were roars, and at this time, on the twelfth heaven of the holy formation, a famous refiner was continuously eliminated. Except for Bai Yutang and Yun Mengze, none of the other veteran refiners could Those who entered the eighth floor were scooped

Eliminate.

"Look, Qin Chen moved."

At this time, an exclamation came from the crowd, and everyone's eyes were focused on Qin Chen. Qin Chen, who was standing still, once again began to draw the formation pattern. "It's so fast. Then Qin Chen stepped on the seventh step later than Bai Yutang and Yun Mengze? It was only after the time of Xiaobanzhuxiang, he started to draw, wouldn't it? When he was on the seventh floor, there was only white jade

Half of Tang and Yunmengze? "

"That's true. In only half of the time, can Qin Chen draw the seventh-layer array pattern?"

"impossible?"

"Not necessarily, it is Qin Chen who broke into the ninth floor of the ancient holy tower. Who knows if he will create any miracles?"

At this moment, no one dared to underestimate Qin Chen easily. Qin Chen's several face-slaps let everyone know that he should never underestimate him until the last moment. This is a character who can create miracles.

Hum!

Sure enough, Qin Chen's strokes were extremely accurate, and in a short moment, he drew the pattern of the seventh layer, the light was bright, and he stepped onto the steps of the eighth layer.

"The eighth floor, another eighth floor." Master Konoha's happy mouth almost opened. There are three eighth-level crafting masters, and they are all young Tianjiao. This is infinite potential. If all three of them are If he can pass the final assessment, join the Refining Division, and return to Guanghan Mansion, he will definitely get

Go to the award above.

"Damn it, why is this Qin Chen so strong in formation?"

Yun Mengze's face was ugly, he was the eighth floor that could only step on after swallowing the seven top crafting masters, but why Qin Chen?

At this time, on the twelfth heaven of the holy formation, a famous refiner was eliminated, and only three of them were left.

The vast majority of the refiners failed at the fourth and fifth levels, and there were only more than 3,000 people who actually set foot on the sixth level.

In other words, among the tens of thousands, only less than one-tenth of them passed the first round of the array assessment, and the remaining tens of thousands were eliminated.

Tragic, it is too tragic.

The eliminated refiners shook their heads and sighed, feeling bitter. Most of them are not because of lack of strength, but because of their talents and future potential. There are many veteran craftsmen who have a life span of tens of thousands of years, relying on continuous learning and hard work, and even continuous failure experience. ,only

Gradually improve his refinement attainments.

Such a refiner can join any refinement organization, but it is absolutely impossible to join Tianjiao, because Tianjiao, facing the entire celestial realm, only recruits the genius refiners who will have a huge effect on the human race in the future. I have to say that reality is extremely cruel, but reality is reality, no matter how bitter it is, everyone can only swallow it.

[Chapter 2709: Still failed](#)

Among the more than 3,000 crafting masters, more than 90% were only on the sixth floor, and only a hundred people stepped on the seventh floor.

Among the more than one hundred people, Qin Chen was the only one who stepped onto the eighth floor.

The probability of one in ten thousand is even more than that.

Everyone was shocked and looked at the three Qin Chen who were still above the eighth floor, extremely envious.

This is life. What glory will the eyes of hundreds of millions of people be? It is highly anticipated, and it is crazy pursuit by any warrior.

"Now it's up to the three of them to see if anyone has stepped into the ninth floor." "It's impossible. Look at the ratio. Only about one-thirtieth of the sixth floor has entered the seventh floor. It's one forty-fifth that the seventh floor enters the eighth floor. Then the eighth floor enters the ninth floor, and the difficulty will also be higher. Among the three people, fear

I am afraid that none of them can enter the ninth floor. "

"It makes sense to say so."

The crowd talked and commented on each other.

Not only them, but above the sky, Master Konoha also shook his head.

Even he can't imagine the meaning of the ninth floor. Even if the entire Guanghan Mansion is evaluated, only one or two can enter the ninth floor. In Yunzhou, it is probably impossible to see it. .

Even Master Konoha himself couldn't make it to the ninth level. Among all the crafting masters present, only Master Mu Gutian was there when he was young, right?

In fact, as soon as Qin Chen and the three set foot on the eighth floor, they felt that the eighth floor was not simple.

Even if Bai Yutang and Yun Mengze were energized by their spiritual power, they could only vaguely see the formation pattern of the eighth layer. Moreover, the formation pattern of the seventh layer is

composed of more than 30 small formation patterns, but the formation pattern of the eighth layer is composed of more than one hundred small formation patterns, and one formation pattern is superimposed with another formation pattern. , Dazzling, hardly see its specific structure.

too difficult. Both Bai Yutang and Yun Mengze looked dignified, they didn't even have the thought of competing with each other, because they all knew that this eighth layer requires their best efforts to achieve a glimmer of hope. As long as there is any gap, they will definitely lose.

Undoubtedly defeated.

In this case, naturally no one will joke.

Qin Chen was like this, so naturally he wouldn't chat with them at this time, and his mental power sank into the eighth step.

The formation pattern of the eighth layer appeared clearly in Qin Chen's eyes.

If anyone knew that Qin Chen could still see the formation pattern of the eighth step in this situation, he would be surprised.

Whether it is Bai Yutang or Yun Mengze, they only see the structure of the formation pattern vaguely, but Qin Chen can clearly see the entire formation pattern. The structure of the formation pattern should be layered in Qin Chen's mind. Very complicated.

"so perfect."

Qin Chen showed a look of wonder. This pattern can be so perfect. More than a hundred patterns are like works of art. They are stitched together and blended perfectly to form a brand new pattern. Every place where the pattern is connected is just right, as if it is Most in the world

The perfect thing.

This pattern also gave Qin Chen a lot of inspiration.

Qin Chen didn't copy it for the first time, but carefully perceives every structure of this pattern, but comprehended, studied, and turned it into his own knowledge.

As time goes by, a stick of incense will last for a long time or not for a short time.

Bai Yutang and Yun Mengze entered the eighth floor earlier and reached the time limit earlier. Seeing that the time for a stick of incense was about to end, Bai Yutang and Yun Mengze moved at the same time.

Array patterns began to appear in their hands.

"Hi, are they drawing the eighth layer of formation?"

The crowd couldn't keep calm anymore. They stepped onto the eighth floor and were already extremely perverted, but Bai Yutang and Yun Mengze are now drawing the formation of the eighth floor. Is this going against the sky to enter the ninth floor?

wrong!

People finally discovered that something was wrong. This time, both Bai Yutang and Yun Mengze did not have the smoothness of the previous seven layers. When the two of them painted the formation pattern, they stopped and seemed a little hesitant.

In the end, the time for a stick of incense was over, bang bang, almost two times in succession, and the two of them were shaken off together and fell from the twelfth heaven of the holy formation.

"It still failed."

Bai Yutang shook his head. He had worked extremely hard, but he could only see most of the formation patterns. In the end, only 80% of the whole formation patterns were engraved.

As for Yun Mengze, he was a bit worse than Bai Yutang, only outlined about 60%.

"It's amazing, it can engrave 80% and 60% of the formation pattern. If they are given a few more opportunities, they may not be able to pass through the eighth floor and enter the ninth floor."

Master Konoha exclaimed.

This result is already extremely terrifying. Some masters in the changing day of work went up, and in the first case, it may not be possible for two of them to do well.

Now it's up to Qin Chen.

Everyone's eyes fell on Qin Chen, and they all wanted to know how many percent of Qin Chen's formation patterns could be engraved in the end.

Forty percent? fifty? Or more? Or maybe you can't even engrave 10%?

Before it's over, everything is possible.

Under the endless gaze, Qin Chen was extremely calm. He was completely immersed in it. After more than half of the time for a stick of incense, Qin Chen finally understood the entire eighth layer of formation and began to move. .

Huh!

He passed his hands, and a small formation pattern appeared perfectly in front of everyone.

"Fast speed."

Some master craftsmen on the field were surprised. The layman watched the excitement and the expert watched the doorway. Qin Chen's first small formation pattern was completed in one go. In terms of technique, it was much more perfect than Bai Yutang and Yun Mengze.

However, the following scenes shocked these master refiners even more, and all of them opened their mouths wide.

Swishw...the small formation patterns flowed out of Qin Chen's hands quickly, without any pause, and they were perfect in one go. After these small formation patterns flew out, they were quickly spliced together, finally, one hundred and zero Eight small array patterns are perfectly combined,

Form a large, mysterious and complex pattern.

This pattern is so perfect that all master refiners were obsessed with it. When they recovered, Qin Chen had already stepped onto the ninth floor.

The ninth floor!

boom!

The audience is boiling!

This is an unprecedented achievement that shocked everyone.

"The ninth floor."

Master Konoha stood up again with excitement, his face flushed, and his whole body trembling. On the ninth floor, he unexpectedly showed him a ninth-floor Array Dao Tianjiao. God, is he dazzled?

On the side, Master Mu Gutian couldn't keep calm, an excited smile was drawn at the corner of his mouth.

Sure enough, I did not read this kid wrong. Such a result, even if you were in the past, you may not be able to achieve it, right?

[Chapter 2710: Engraved Holy Array](#)

On the ninth step, Qin Chen didn't know the sensation from the outside world. He used his mental power to realize the tenth layer of formation once again.

If the formation pattern of the eighth layer is extremely complicated and mysterious, then the formation pattern of the ninth layer will shock more than ten times.

In front of Qin Chen's eyes, the dense small array patterns merged. The number of these array patterns was extremely large, and it was three times more than the eighth layer. There were three hundred and sixty ways. What shocked Qin Chen the most was that the tenth layer of array patterns was not on the same space. Layers of array patterns blended together to form a three-dimensional array structure, as if the spaces were in each other. Cascade to form a complete

Beautiful artwork.

"The formation pattern can be constructed in this way. Is this the space stacking formation pattern?"

Qin Chen murmured. If the pattern of the first eight layers is a perfect pattern drawn on a piece of paper, then the pattern of the ninth layer is no longer a pattern, but a perfect space similar to a honeycomb. Structure, layer upon layer,

Each pattern seems to be not in the same space.

"Awesome!"

Qin Chen sat cross-legged, completely immersed in this spatial formation.

Integrating the space into the formation pattern, the formation pattern of the ninth layer is already so terrible, so what about the tenth, first, or even twelfth layer behind? Is it possible to get to the twelfth floor, to integrate all time and space into the formation?

Qin Chen didn't know and didn't dare to think about it.

He only knew that in the inheritance of Mending Heaven Palace, the real formation path came to an end, forming formations with a single thought. At that point, the array mage will no longer be entangled with materials or concepts such as space. The world can be an array, the sky is an array, the earth is an array, and even the human body can be an array. Space, time, and everything are an array. That's the real formation

Dao Dacheng.

But Qin Chen knew his situation very well. He was far from this level now, and he needed to learn a lot.

And what he has to do now is to start with space as an array. If he can learn this method, then he can open up countless array patterns in a small weapon and engrave on a weapon. Numerous large arrays. Imagine that the same refiner can refine the same holy soldier. One can only engrave one formation on this holy soldier, while the other can engrave three, ten, or even a hundred. Then Which is stronger and weaker, there is no need to compare

Reflected.

Qin Chen was completely immersed in it, three hundred and sixty small array patterns, rotating in Qin Chen's mind, every structure was perfectly presented, and he was learning a little bit. This is because he controls the laws of space, possesses the sacrament of space, and has reached an extremely defiant position in the way of space. If he is replaced by another master refiner, even if he can see these three hundred and sixty arrays clearly Pattern, it may not be able to

Understand it.

Time passed, and the audience was silent. Everyone looked at Qin Chen in shock and became the only one in everyone's eyes.

"Less dust!"

Ao Lie and others watched this scene excitedly. Is this the person they follow? No matter where you go, it is like the core of the world, the only one in the world, how amazing this is.

Even Li Wanxue stared at Qin Chen on the ninth step in a daze. At this moment, she had no hatred for Qin Chen inexplicably. She only felt that such a man was so beautiful, so beautiful that her heart shook.

If... if what Qin Chen met was how good it would be. Suddenly, Li Wanxue had a terrifying thought in her mind, and she didn't even know how this thought came up. Qin Chen is her enemy, and it has wiped out her family of souls. What's your enemy?

Can you be so unpromising?

But she just couldn't help it.

Entrusted not to be human! She looked at her face not far away, her face was gloomy, and the depths of her eyes seemed to contain endless darkness and murderous Yun Mengze. Then she looked at the ninth step, sitting cross-legged on the ninth step, with a gentle face and a faint smile at the corners of her mouth, just like a naked child. Qin Chen in my heart

That piece is soft, but it can't be eliminated.

God, it's too unfair to her, why should such a tragic fate be imposed on her?

Li Wanxue glanced at Ao Qingling and Qin Tingting, and even bone-chewing jealousy emerged in her heart. Why are other women so good for life, but she has to endure the cruelest tragedy in the world.

why?

On the ninth step, after the half-zhuxiang, Qin Chen has completely seen the structure of the ninth layer of space array patterns. If he wants to, he can even engrave the ninth layer of array patterns now and step into the first Ten floors.

But he didn't do it.

Because he clearly understood that he could only re-engrave the ninth layer of formation patterns, but he did not fully understand the ninth layer of formation patterns.

He can imagine that the ninth floor is so terrible, and the tenth floor is bound to be even more terrifying, even with a deeper change on the level of space. At that time, can he engrave it again?

Qin Chen didn't know, and didn't want to think about it.

He only knew that he participated in the work refiner assessment this day to improve himself, not to achieve what kind of results.

Achievements are all imaginary, and only the knowledge and strength that you really master are yours.

Qin Chen understood this when he was in Tianwu Continent.

He has the inheritance of Mending Heaven Palace, and will never stop on the way of refining tools, but if he does not understand this spatial pattern, he will rush to learn more in-depth patterns, and he can only be greedy. Hold yourself to death.

If you don't learn how to walk, learn to run first. It's never the right approach.

When Qin Chen was completely immersed in the twelfth heaven of the holy formation.

Hum!

The sky patching hammer in Qin Chen's body moved quietly, and an invisible force swept out of the sky patching hammer, and suddenly fell into the twelfth heaven of the holy formation at Qin Chen's feet.

At the same time, the phantom of the twelve steps of the Holy Array began to appear in the Sky Mending Hammer. In an instant, the Sky Mending Hammer copied the twelve layers of the Holy Array into it.

Qin Chen immediately awakened from his sentiment, and felt the change of Sky Patching Hammer, and was startled.

This sky patching hammer actually copied the twelfth heaven of the holy formation.

Doesn't this mean that I can continue to comprehend the power of the twelfth heaven of the holy formation on the Sky Patching Hammer in the future?

Qin Chen couldn't help being ecstatic. He was still thinking about whether or not to step up to the tenth step at the last moment to take a look, but now, there is no need for this.

He let go of his heart and felt the formation pattern of the ninth layer with all his heart.

"You... have you seen the twelfth heaven of the Holy Array move a bit?" Above the sky, Elder Chu Ye frowned and muttered.
