

## Valkyrie 271

### Chapter 271

The Holy Land of Blood is the top force in the Great Qi Kingdom, and its chairman, status, is extraordinary.

Although he is also a first-grade pharmacist, he is not low in status in the Great Qi Country, but compared with the guild leader of the Holy Land of Blood, it is far behind.

"This....."

After breathing, the alchemist of this grade didn't know how to answer, sweating on his forehead, just saying: "Three, please wait a moment, I have sent someone to inform Lord Pavilion Master, I expect to come soon."

"Yeah." Nodded and looked at the many guards of the opposite Dan Pavilion. They were extremely nervous, and they clenched their weapon hands. They couldn't help but smile: "You don't need to be nervous. I just came here to meet Lord Xiao Ya, without any malice."

no offence?

As soon as he said this, the atmosphere on the court suddenly changed, and everyone looked at each other, wondering what kind of medicine was sold in Dongfang Qing Gourd.

Isn't the president of the Bloodline Holy Land the Dan Pavilion who came to denounce? If so, why does President Dongfangqing come forward in person?

It's just that the president of the dignified bloodline holy land speaks himself, so he won't deceive everyone, right?

The pharmacist of that grade was also taken aback.

Then he smiled bitterly.

If Dongfang Qing's purpose is to make trouble in the Dan Pavilion, can these guards stop him?

It is impossible to think about it. The strength of Dongfang Qing, the president of the Holy Land of Blood, is comparable to that of the Great Qi Kingdom's first master Lingwu King Xiao Zhan. Dealing with a few of them is as easy as cutting melons and vegetables.

"You...retreat!"

Thinking of this, the first-grade alchemist hesitated, and immediately a group of guards drank away.

"Where is President Dongfang?"

At this moment, a clear and beautiful voice suddenly sounded, and the crowd separated, and a stunning beauty walked over from behind the crowd.

It is Xiao Ya.

Behind him, Qin Chen and Liu Guang followed closely.

I saw that Xiao Ya looked very serious, like an iceberg beauty, and came to Dongfang Qing in a few steps.

"Pavilion Master."

The first-grade pharmacist, Dange steward and others hurriedly bowed and saluted.

With a wave of her hand, after the opponent stepped back, Xiao Ya stared at Dongfang Qing and was slightly alert.

She and Dongfang Qing didn't know each other, they had met each other several times, but the relationship was not so deep.

This time, for Qin Chen, she resolutely chose to offend the Holy Land of Bloodline. If she were not nervous, it would be impossible.

At this time, the president of the Holy Land of Blood came personally, and Xiao Ya's inner vigilance and dignity were unprecedented.

If it is not handled well this time, it will undoubtedly be a huge disaster for Dan Ge.

"President Dongfang, long time no see, don't come without problems."

Raising her spirits, Xiao Ya smiled and clawed her hands in response.

For today's plan, I can only see tricks, but I don't know how fierce the opponent's offense will be.

While guessing, Dongfang Qing smiled slightly, and said calmly, "Pavilion Master Xiao Ya, don't come here without problems."

Then, before Xiao Ya answered, his gaze fell on Qin Chen behind Xiao Ya, a smile appeared in his eyes, and he couldn't help but step forward.

call!

Thinking that Dongfang Qing was about to do it, Xiao Ya felt nervous, and the real power in her body instantly gathered and she was about to do it.

"Hahaha, little friend Qin Chen, long time no see."

At this moment, Dongfang Qing heard a hearty laugh and enthusiastically held Qin Chen's hand.

"President Dongfangqing, long time no see."

Seeing Dongfang Qing's enthusiasm, Qin Chen laughed, but his expression was twisted, pulling his hand from Dongfang Qing's hand forcefully, and the goose bumps on his body were almost getting up.

Brother, you are a big man, enthusiasm returns to enthusiasm, what's wrong with holding my hand desperately?

Seeing this scene, Xiao Ya and the others were completely stunned. Only then did they remember that Qin Chen possessed the Bloodline Holy Land token. Could it be that the relationship between him and Qin Chen was really extraordinary? The token before, really so easy to use?

But then I thought about it, but it was a little weird. If the relationship between the two is really that good, it will not be in the current scene. If you meet each other, you have to say something for a long time. This is obviously a kind of each other.

When I guessed wildly in my mind and didn't know the situation, I saw Dongfang Qing turned his head and looked over.

"Pavilion Master Xiao Ya, this time it is my bloodline holy land that has no way of discipline, which is causing you trouble."

A staggered, Xiao Ya almost fell.

Hastily waved his hand: "Where is it, Chairman Dongfangqing has said something seriously."

I thought that Dongfang Qing was here to ask the guilty teacher, and he was ready to tear his skin a long time ago. Who knows, he came directly to the sentence 'I'm causing you trouble'.

Brother, you are the president of the Holy Land Bloodline. Your own bloodline master is detained. Even if you are willing to reconcile, you don't need to be so humble, right?

Those who know know that you are the president of the Holy Land of Blood, and those who don't know think you are sweeping the floor on the street.

Not only Xiao Ya, but everyone else was dizzy, and couldn't figure out the situation.

"I didn't say anything seriously, the more lawless that paragraph, I dared to offend little friend Qin Chen, the crime deserves a thousand deaths, Lord Xiao Ya taught him for me, this is a great help to me."

Dongfang Qing was not talking nonsense. If Duan Yue broke the relationship between himself and Qin Chen, the matter would be serious.

Everyone was fainted, almost speechless.

Dan Pavilion has detained the bloodline master of your bloodline holy place. Not only do you not accuse me, but you also want to thank the other party for their help, brother, is there such a cheap one for you?

Although Xiao Ya couldn't figure out the situation, she also understood that the reason for President Dongfang Qing's attitude is still indistinguishable from Chen Shao.

"Our Dan Pavilion is also a bit reckless. We should not detain the bloodline masters in the Holy Land of Bloodlines at will. Please don't mind, President Dongfang Qing."

Since Dongfang Qing has shown face so much, Xiao Ya is not ignorant of human relations, and her attitude has been lowered a lot.

In this way, the two of them were very humble, saying that they were reckless and that the other had taught them well. Everyone who saw them was stunned, and all of them were dumbfounded.

Is this really the Lord Pill Pavilion and the president of the Bloodline Holy Land? This low posture makes people unbelievable.

Just when the two sides are polite to each other.

Lord Kang came with the imperial decree.

Hearing that the president of Dongfangqing, the holy place of blood, was also there, Lord Kang was very polite, first greeted Xiao Ya and Dongfangqing, and then turned his gaze to Qin Chen.

"Hahaha, there is little dust, it is really a hero who was born in a young age, and the Five Nations Grand Tournament is better than the first test, thank you for taking care of the little girl."

He stepped forward with enthusiasm in a kind tone: "Last time I told Liang Yu, when will I ask Chen Shao you out, and celebrate, but I am afraid that it will affect Shao Chen's cultivation, so I dare not interrupt."

Seeing Prince Kang's attitude towards Qin Chen, Xiao Ya was already immune.

Even the president of the dignified bloodline holy land is so passionate about Qin Chen, and it is rare for a prince.

Afterwards, Lord Kang directly read Zhao Gao's meaning, deprived of the position of director of Lv Yang Sifang, and handed Lv Yang and King Qi to the Dan Pavilion for handling, and he would not be held accountable.

As soon as it was read out, everyone present was dumbfounded and completely shocked.

Chapter 272

I thought that Dan Pavilion's seizure of King Qi, Lu Yang and Duan Yue would trigger a conflict between the three powers of Dan Pavilion, the Royal Family, and the Holy Land of Blood. The entire king was extremely nervous. Unexpectedly, things did not move in the direction that everyone expected. .

The president of the Holy Land of Blood came to Dan Pavilion in person and thanked Dan Pavilion for his seizure. The royal family Prince Kang pronounced his majesty's will. Instead of saving Lu Yang and King Qi, he told the Dan Pavilion to deal with it.

All of this completely subverted everyone's cognition.

When was Dan Ge so awesome?

When the news spread, all the people in the capital city who were waiting to see the excitement were all dumbfounded and dumbfounded.

After such a polite manner, Xiao Ya brought Dongfang Qing, King Kang and others to the reception room of Dan Pavilion and gave them a warm hospitality.

She knew very well in her heart that Qin Chen was the more important reason for the action of the Holy Land of Bloodline and the Royal Family, in addition to the strong Dan Pavilion itself.

If it wasn't for Qin Chen's involvement at this time, it would be impossible to let the Bloodline Holy Land and the Royal Family put down so easily.

As a result, what to do with King Qi, Lu Yang, and Duan Yue ultimately fell on Qin Chen.

"Three people, don't look at me like that. How to deal with it, you can figure it out by yourself, I don't care."

To be honest, how to deal with the three of them, Qin Chen really has no interest, for him, how to make himself stronger is the most important thing.

Seeing that Qin Chen didn't care, Xiao Ya also had an idea in her heart.

Since the royal family and the Holy Land of Bloodline gave such a face, if she kept holding on to people, she would not do anything.

"Since both of you are here, take Duan Yue and King Qi back."

Before they were detained, it was just to teach them a lesson, not really to treat them, after all, King Qi and their identities are extraordinary, and the other party can't say that they kill Renzhen, they will really kill.

"no no....."

Unexpectedly, Dongfang Qing and King Kang waved his hands again and again.

"If they offend other people and Pavilion Master Xiao sells our face, we will accept it. But if they dare to offend Xiaochen, they must not be so cheap. In this way, our people will be imprisoned in Dan first. Give them a long memory for a while, and after a while, we will pick it up again and continue to punish them severely."

If King Qi and Duan Yue waited until this, they would probably cry to death.

Their people, not only weren't going to save them back, but also let Dan Ge teach them a lesson. There were such people in this world.

"There is little dust, what happened in Fangshi yesterday, and I have already understood it. Your majesty has decreed that the director of Sifang Lu Yang will be deprived of the position, and the king also decided to place the central office of Fangshi under Sifang. The store is transferred to Shao Chen as compensation for Shao Chen. I don't know what Shao Chen wants?"

"The shop in the center?" Qin Chen was taken aback.

"You mean, that one-size shop?"

Behind everyone, Liu Guang and Li Wenyu's eyes lit up and they spoke in surprise.

"Exactly." Lord Kang nodded.

what?

Both Liu Guang and Li Wenyu were dumbfounded and shocked, it turned out to be that shop.

Shops in Fangshi can be said to be very expensive, especially those in the central location. They cannot be bought with money at all. They are all monopolized by some big powers. Basically, no one will be sold for decades.

And the shop Wang Ye mentioned was located next to the Qidian, Dange, and the main store in Fangshi, the Holy Land of Bloodlines. In terms of location, it was even better.

Such a store can be described as priceless.

It can be said that any small family in the Great Qi country can become a wealthy existence if they have such a shop and have been in business for a hundred years.

After knowing the location of the store, Qin Chen wanted to refuse, but then accepted it again.

Even if he doesn't need it, he can lend it to the Zhang Family to operate and expand his influence.

The two parties chatted for a while, and after Chairman Dongfangqing and Lord Kang had an appointment with Qin Chen, they said goodbye to each other.

Qin Chen wanted to leave the pill pavilion a long time ago, but after the morning incident happened, he stayed again. Now that the matter was processed, he was also leaving the pill pavilion.

Qin Chen walked back all the way without going back for more than a day, for fear that his mother would be worried.

"Huh, Ge family?"

Walking through a luxurious street, a magnificent mansion, Qin Chen suddenly caught his eye, and wrote two characters: "Ge Family!"

That mansion, magnificent and magnificent, can be said to be very domineering, erected on this famous street of the royal capital, even in the middle of the magnificent mansions, it is still difficult to conceal its lavishness, with a sense of standing out from the crowd.

Worthy of the name of the rich.

"I remember, Gezhou, still owes me five million, right?"

I wanted to take the opportunity to go to the Ge family to ask for the account. I didn't expect that I happened to walk to the door of the Ge family mansion. I was too lazy to find time next time. Qin Chen didn't hesitate anymore and walked away. Past.

"Stop ahead, this is the wealthy Ge family, you have gone to the wrong place, retreat quickly, lest misfortunes are endless!"

Before reaching the door, the two guards on duty looked at Qin Chen coldly and uttered a low drink.

At this moment, Qin Chen was wearing an ordinary cyan gown, not so noble, and caused the two guards to squint, his eyes full of contempt.

They have seen a lot of people like this. They just want to get closer and pay homage to the appearance of a wealthy family. They don't take a \*\*\*\* and take photos. Can they come to this place?

"This should be the royal jade family, rich family Ge family, right?"

Qin Chen asked indifferently.

"Yes, since I know it, I don't leave quickly." The guard's eyes were even colder.

On the street, many people heard the movement here and couldn't help but seem to see a young man who dared to offend the wealthy Ge family, and couldn't help but squeeze a cold sweat for him.

This kid is looking for death.

Now that you know this is the Ge family, why don't you walk away obediently and block the door?

Just two days ago, a beggar smashed into the gate of Ge's house and was beaten to death by two guards on the spot. He was dying and almost killed.

"Haha, calm down the two of you, since it's the Ge family of the jade family, then I didn't go wrong." Qin Chen smiled slightly, disregarding the other's scolding.

"Did you go wrong?"

The two guards frowned: "What's the matter with you coming to our Ge family?"

Although Qin Chen wears ordinary clothes, since the other party has said so, if you don't ask clearly, it would be too inefficient.

The people on the side also breathed a sigh of relief. It turned out that this kid had something to do with the Ge family, and thought it was a rash collision.

It's just that, depending on his appearance, he is not a rich noble young master. What can I do with the Ge family?

Can't help but \*\*\*\* up his ears and listen carefully.

"You are like this..." Qin Chen smiled lightly and said with a faint smile: "Your young master Ge family owes me a sum of money, and I'm here to collect debts."

Chapter 273

Collect... debt collection?

When everyone heard this, they all fainted and looked at Qin Chen like a ghost.

Don't let this kid die, just like him, will the Ge Family Young Master owe him money? Doesn't he know what misfortune comes out of his mouth? Such a sentence is enough to kill him.

Sure enough, when the two guards heard this, they were furious and shouted: "Our young master will owe you money? Boy, you are here to make trouble, do you know what this place is? Dare to come here?"

With murderous intent all over, these two guards had terrifying faces, and they came along fiercely, ready to teach Qin Chen a lesson.

Qin Chen didn't rush, took out a piece of paper from his body, opened it, and said, "Look, two people, this is your young master's IOU, and there are pictures and black letters. You can't be fooled?"

"IOU?" The two looked at each other, then looked over.

Other people around were also digging their heads, trying to see what was written on the IOU, but they couldn't see clearly.

I couldn't help but wonder, wouldn't it be the young master of the Ge family who was out of the house and had no money for a while. He really owed someone else, right?

It's not impossible. Like these rich young masters, they often go out without a bank note. Sometimes they forget it. It's reasonable to write an IOU.

I just don't know how much I owe, but I want to come to a few hundred or several thousand silver coins.

As he was thinking about it, he saw the two guards, stared attentively for a while, and his eyes suddenly became round.

"Five million silver coins, are you kidding me, will my young master owe you five million silver coins?"

There are incredible colors on both of their faces.

The others around were also sluggish, and couldn't help taking a breath.

Five million silver coins, this is not a small sum, even a wealthy family, it may not be easy to take out, so what did Gezhou buy? Wouldn't it be buying a building, even a building may not be worth the price.

"Good boy, dare to entertain us and die."

Originally, these two guards were still skeptical, but after seeing the IOU, the doubts in their hearts completely disappeared, and they were too lazy to talk nonsense, and directly grabbed Qin Chen with a palm.

Frowning his brows, Qin Chen's face sank: "Your Excellency, I'm so nice to tell you that you still have to do it."

"Good words and good words, your sister, just take a note from Zhang and press A Mao A Gou Claw Ying and say it is our young master's IOU. Do you treat us as an idiot?"

The two guards were furious. This kid came over to make a fool of himself. He even dared to get angry. Really mean they have no temper?

With sharp claws, he grabbed Qin Chen's shoulder directly.

Moreover, above the five fingers, there is a release of zhenqi, if you grab it, half of Qin Chen's arm will probably be destroyed in an instant.

Qin Chen shook his head. Since it didn't make sense, he didn't bother to say anything and kicked it out.

boom!

The black shadow kicked the two guards who shot.

"scare!"

Qin Chen's legs were too fast, and he found the place where the two of them were flawed. The lightning kicked them. The two were shocked. They wanted to resist. It was too late. They only felt a pain in their

abdomen. He flew out in embarrassment and hit the door of Ge's house with a bang. From above, there was a huge roar.

Puff!

A mouthful of blood spurted out, and the two looked at Qin Chen in amazement. This young man looked young, but his cultivation base was terrifying. Although the two of them were just guards at the gate, they were both powerful at the peak of the late pre-level stage. Can't stop one move?

"So strong, report it to Patriarch!"

The two of them were sweating, and immediately fled into the mansion, and ran away in the blink of an eye.

"It's not good, Patriarch, someone has come to mess up the place."

With panic on their faces, the two of them ran and yelled at the same time, causing the entire Ge family servants to turn their heads in amazement, each of them showing weird looks.

This is the residence of the royal royal family Ge family. Who would dare to smash the place, wouldn't it be these two guards who lost their minds?

Outside the mansion.

The onlookers were all frightened, their jaws dropped to the ground and their eyes burst.

They were not scared because of Qin Chen's strength, but because of Qin Chen's boldness.

Those two are the guards of the wealthy Ge family, this young man actually fights as soon as he wants to fight.

With all eyes in sight, Qin Chen adjusted his sleeves and walked into the open door.

"Hey, why did the boy look familiar just now?"

"I feel so too."

At this time, someone heard a look of surprise, frowning and thinking, always feeling that Qin Chen was very familiar.

Suddenly, his eyes condensed, as if thinking of something, his eyes suddenly opened, almost bursting.

"He... isn't he... Qin... Qin Chen..."

"Qin Chen, you mean that Qin Chen who made a big fuss in the Pill Pavilion?"

"It's really him."

"This....."

Everyone was stunned. They thought this kid was going to die, but now it seems that the Ge family is going to die.

Basically, he was provoked by Qin Chen's forces, and none of them was miserable without being rectified.

At this time, in the Ge family mansion.

Many powerful men and elders of the Ge family were awakened by the shouts, frowning and walking out one by one.

The Ge family has been standing in the King's Capital of Daqi for hundreds of years. From a small family, it has grown to the top giants of the entire Daqi Kingdom, monopolizing 80% of Daqi's jade business. It can be said that it is A tyrant in the territory of Daqi.

For hundreds of years, I have never heard of anyone coming to smash the scene. At this time, I was furious when I saw the two guards yelling.

"What do you have to do with a quarrel? What kind of demeanor is it? Take my Ge family mansion as a place, give me a hand!"

An elder Ge walked out of the backyard with a cold face, sipped his mouth, and looked very unhappy: "Where is our Ge family, how can anyone come to hit the ground? I don't know what to say."

The two guards looked bitter and said anxiously: "Elder Ge Xun, someone really came to hit the scene, and we both were injured by each other!"

"Ok?"

The elder swept the two of them, and he found that the other party had scars on his body, his expression condensed, and he sternly said: "Who dares to come to my Ge's family to make trouble?"

One of the guards had a weird face and said, "It's a teenager..."

"What? A teenager?"

The elder's face sank, and his whole body bloomed with murderous intent: "What are you playing with me? A young man will be your opponent? Are you pigs?"

The guard was almost crying: "Elder Ge Xun, although the opponent is only a young man, but his strength is very strong, we can't handle a single move in his hands!"

"one move?"

Elder Ge Xun's expression condensed. Although he was very unbelievable in his heart, from the expressions of the two guards, it could be seen that this matter was not foolish between the two.

"What the \*\*\*\* is this person's name?"

These two guards, their cultivation bases are both at the peak of the late stage of the earth, and the young man who can defeat him is definitely the top genius of the king, otherwise it would be impossible.

"I don't know what his name is!" The two guards lowered their heads.

Elder Ge Xun's face sank, and he was completely furious: "I don't even know the other party's name, so he ran back in a panic, it's a waste."

"Elder Ge Xun, the other party is here."

At this moment, a guard screamed, and everyone looked back and saw a young man walking in.

Chapter 274

This young man seemed to be only sixteen or seventeen years old, dressed in ordinary clothes, walking slowly, but he gave a strong sense of oppression.

"Someone, come to my Ge's family to go wild."

Several disciples of the Ge family sank and stepped forward.

Elder Ge Xun was surprised and suspicious. The boy opposite was too young, too young, and his aura at a young age was terrifying, so that he, a strong man at the late stage of the heavenly stage, felt a little pressure.

"Hehe, I was negligent when I didn't give my name just now. In Xia Qinchen, I came to visit Ge's house specially."

Qin Chen walked along the road, walking in the Ge family mansion, without any restraint, strolling leisurely in the courtyard, as if walking in his own garden.

His demeanor and behavior immediately aroused the anger of the Ge family disciples present, and all of them were full of murderous intent.

But Elder Ge Xun's pupils shrank and his heart sank suddenly.

"You are... Qin... Qin Chen!"

He was shocked and stepped back two steps.

If it is said that in the past two days, the whole king has the best reputation, except for Qin Chen, there is no second.

Whether it's the genius who led the Great Qi Kingdom into the finals of the Five Nations Grand Tournament, or yesterday's face-off of the Li family and Qin family in Fangshi, or even today, the seizure of King Qi and the Holy Land Yue in Dan Pavilion has caused all this A huge shock in the royal capital.

This kind of evil star is almost unknown to everyone in the entire capital.

How could Ge Xun not hear?

"Scared, is he Qin Chen?" The Ge family's children, who had originally looked rather arrogant, were all frightened and retreated.

Cold sweat oozes out of Ge Xun's forehead, and he stepped forward and said, "It turns out that it is Young Master Qin Chen, who is greeted by a long distance. In the next Ge family, Ge Xun, I don't know what Young Chen came to my Ge family.

He lowered his posture, no longer his previous domineering arrogance.

This was a person who even dared to detain King Qi and Master Yue from the Holy Land of Bloodlines. Basically, the entire king offended him, and few had good fruit.

For example, yesterday's pill giant Li family, how many years have been in business before it has reached such a position, unexpectedly, in minutes, the Dange canceled the qualification for cooperation, and fell into the world.

Although the Li family could not be compared with the Ge family at all for the same giants, Ge Xun couldn't help being frightened in the face of such a fiend.

"It turned out to be Elder Ge Xun." Qin Chen smiled and said, "I am here this time and there is nothing else to do. I am here to collect debts."

"Debt collection?"

Ge Xun was taken aback, not knowing why, "Your Excellency, what does this mean?"

At this moment, the two guards interrupted and said: "Elder Ge Xun, Qin Chen said that our young master Gezhou owes him money."

"Owed money? How is this possible?"

Ge Xun felt unbelievable. If Ge Zhou offended Qin Chen, he still believed that if Ge Zhou owed him money, it would be impossible. With the financial resources of the Ge family, how could he owe him?

"This is an IOU. There is a picture of your Ge Family Gezhou Young Master on it. With Elder Ge Xun's cultivation base, you should be able to tell the truth or not."

No nonsense, Qin Chen took out the IOU.

"Hi, five million silver coins?!" Ge Xun was startled, even if he was afraid of Qin Chen, he couldn't help but angry: "Qin Chen, are you kidding me? How could such a big IOU be Gezhou? What you owe?"

Five million silver coins, even for the Ge family, is a huge amount of money, let alone Gezhou, even the head of the Ge family cannot owe such debts.

Qin Chen smiled and said, "Elder Ge Xun, don't be impatient, take a closer look at it yourself, the pictures above are true."

Ge Xun looked at him in disbelief, but he looked at it carefully, and saw that the painting and the signature were indeed the writings of Young Master Gezhou. It did not seem to be a fake. The forehead suddenly oozes cold sweat and said: "If it's really an IOU, and I can't deal with it. You must report it to the Patriarch and ask Master Qin Chen to wait."

He didn't dare to neglect, Yanbi rushed into the inner courtyard and passed away in a flash.

Soon, there was a loud noise in the inner courtyard. At the same time, many people in the Ge Family Mansion heard the news, and they came in one after another. After a while, there were no more than a hundred people around, pointing and pointing not far away.

The cultivation bases of these people are very terrifying. They are worthy of the top wealthy in the capital. Even the young disciples are all above the earth-level cultivation base. Some older people are all heaven-level cultivation bases.

In the commotion, a group of people came out, and the leader was like a white jade. It was Ge Pu, the head of the Ge family. Behind him, surrounded by a group of strong Ge family, like Ge Xun, who were all at the peak of the late stage of heaven.

"It turns out that it was Young Master Qin Chen who came here, he was greeted by a miss, haha, hahaha.

As soon as Ge Pu came up, he laughed, as if he had seen a close friend, he was extremely enthusiastic, "Master Qin Chen is coming, why don't you notify him earlier? Ge prepared well, went out to meet him, and greeted him by sweeping the couch."

He smiled, his true power fluctuating, although his figure was not very burly, but it was as thick and deep as a mountain, giving a feeling of being unsightly.

"This Ge Pu, is actually an early powerhouse of the Xuan-level?" Qin Chen's heart moved slightly and smiled: "How dare you to bother Patriarch Ge Pu, going down the door, but is going to ask for debts, Patriarch Ge Pu only needs to clear the debts, Qin So also left, it doesn't have to be so troublesome."

"debt?"

Ge Pu's eyes became fierce, and he waved his hand to the rear and shouted angrily: "Bring me that evildoer out."

"Yes!"

The crowd immediately gave way, and several Ge servants carried a young man up and threw it on the ground.

The young man was covered with blood, and he seemed to have been severely repaired. He looked rather miserable. It was Gezhou.

Ge Pu sighed: "Niezi is not sensible, so he angered Master Qin Chen and wrote a huge IOU, but this is his personal matter and should not be recorded on my Ge family. The old man has already repaired it severely. Pause, now it's up to Master Qin Chen to deal with it, and the old man will never frown."

"Father, save me, save me!"

Ge Zhou cried and heard that his father was going to hand over himself to Qin Chen, and he was so scared that he was almost gone.

"Huh, evil son, you still have a face to scream, how dare you get Master Qin Chen, isn't this looking for death, is that reasonable?" Ge Pu yelled coldly, his face sinking.

Earlier, he was shocked when he heard the news, and immediately called Ge Zhou, and learned that he and Lian Peng were dissatisfied with Qin Chen and actually ambushed each other. Instead of succeeding, they were beaten up and wrote IOUs. Call it one place.

Who is Qin Chen? Don't you know? It is simply a broomstick star.

Even if there were no things like these days, in the previous year-end exam at the Star Academy, this person dared to destroy the Qin Family Qin Yong's cultivation base, and the methods were harsh. The Qin Family who got it was depressed and unable to deal with it. What are you doing, because of a little favor Little resentment, dare to ambush the other party, do you want to drag the family into the water?

In particular, I heard that in order to save his life, Gezhou owed an IOU of 5 million silver coins.

I made up my mind to beat and deny this IOU.

Chapter 275

"Hehe, Patriarch Ge is really planning."

Seeing Ge Pu Lao Lai's appearance, Qin Chen chuckled and snorted coldly: "This IOU was drawn by the young master Gezhou himself. You beat him up and wanted to write it off. Isn't it too naive? Ambush the young man outside the Dan Pavilion, thanks to the high level of cultivation, he was lucky to survive, but he was also bruised and wounded badly. It took me more than half a month to lie down. You have a violent beating and you are finished?"

puff!

Ge Zhou listened and vomited blood directly.

Shameless, it was simply too shameless. Qin Chen was clearly unscathed at the beginning. On the contrary, he and Lian Peng still had many guards. They were dying of being beaten, and even their belongings were looted all over. Now they say that they are wounded all over. What is happening in this world? Is there such a shameless person?

Ge Zhou thought that he was regretful. He thought that Qin Chen didn't dare to come to the Ge family to ask for debts. He didn't expect that he really dared to come, and his father didn't dare to move. He knew that today, he didn't dare to go to kill him. Trouble with Qin Chen.

"Hmph, five million silver coins, Patriarch, this kid is actually blackmailing."

On the side, a Ge family genius couldn't see it, could not help but stare at him, and shouted angrily.

"Blackmail?" Qin Chen's eyes were cold, and he looked at the other party: "This Gezhou was going to kill Ben Shao at the beginning. Isn't Ben Shao's life worth 5 million silver coins? It seems that the Ge family is not going to talk about it. Huh?"

There was a cold light in his eyes, and the momentum on his body was compelling. The disciple was shocked and couldn't help but step back two steps.

"shut up!"

Ge Pu shouted angrily at that day, then turned his head to look at Qin Chen, frowning and said, "So what does Master Qin Chen think is good? This matter is just a child's ignorance. Let's not talk about how old the money is with my Ge family. Relationship, even if there is such a small connection, my Ge family

can't afford it. The money is owed by the child, and now the old man has already handed the child to your Excellency, you can find him if you want!"

Qin Chen's face sank: "You are a majestic and powerful family, how can you not even get five million silver coins? It seems that you don't want to give it, so that's okay, then take your Ge family as you said. Young Master's life is here!"

The storage ring flashed, he took out the mysterious rust sword, murderous intent filled his body, and the sword slowly pierced Ge Zhou's neck.

"No, father, save me."

Ge Zhou's eyes were full of fear, and his eyes were protruding. He was trembling so badly that he couldn't help screaming in panic.

He didn't expect that his father really didn't save himself. With this sword, he would be separated and he would definitely die and not die again.

The reason why he wrote the IOU at the beginning was because Qin Chen never dared to come to the door to ask for debts, and even thought of having a chance to get back.

However, after seeing Qin Chen's strength in Fangshi yesterday, and today hearing that Qin Chen had detained King Qi and Master Duan Yue in the Dan Pavilion, he was so frightened and uneasy that he didn't even dare to exit the gate.

Hope to be able to hide.

Unexpectedly, this afternoon, Qin Chen actually came to his Ge's house, and was so arrogant, coming alone, but his father didn't dare to move him, instead he beat himself up and handed it over to the other party.

At this moment, the instinct to survive suddenly occupied his mind.

"Qin Chen, no...no...less Chen, forgive me, I don't know the mountain, I have offended you, I must spare my life."

Ge Zhou was so frightened that tears flowed out and he kept begging.

He knew what his father's calculation was that Qin Chen didn't dare to kill himself, but after so many understandings of who the other party was, Ge Zhou had understood that this was a fearless and fearless residence. I heard that Lian Dawei The princes of the country dare to kill.

In case of a cruel heart, and a hand at him, then his life...

"Spare?" Qin Chen shook his head: "When you and Lian Peng assassinated me, I had already spared my life, but I didn't expect that the Ge family didn't want to pay you to redeem you, so there would be no way. Repay the debt. There is no money to pay for your life. It is justified. If you want to blame, blame your father. Don't find me."

A cold light flashed in his eyes, Qin Chen used a slight force, the sword energy on the mysterious rust sword skyrocketed, and he slashed towards Gezhou's neck.

With this sword, Gezhou must have fallen to the ground.

"what!"

The disciples of the Ge family all around exclaimed.

"Patriarch."

The other elders of Ge also exclaimed, and their eyes burst with angry light.

"Wait a minute."

Ge Pu did this, indeed as Ge Zhou thought, just holding Qin Chen's thoughts that he would not dare to do it, and went over blindly. He didn't expect that the other party would really dare to do it. Panicked, he hurriedly took a palm.

"when!"

The palm qi collided with the sword qi, making a violent roar, and the long sword in Qin Chen's hand almost scratched Ge Zhou's neck, and then slashed on the ground aside.

With a puff, the sword gas surged, and the hard Qinggangyan ground was instantly split with a sword mark that was nearly ten feet long, half a foot deep, like a hideous opening, very terrifying.

"Woo!"

Ge Zhou was so frightened that he yelled, and a foul smell came, and he was so frightened that he urinated his pants. At the same time, a blood streak appeared on his neck, and blood was gushing out.

Obviously, if Ge Pu didn't make a timely move, I'm afraid Ge Zhou's head would have fallen with this sword.

"Qin Chen, you really can do it."

The many elders of the Ge family were all angry, and fire burst into their eyes.

Ge Pu also had a gloomy expression. He didn't expect that Qin Chen really dared to do it, his face flushed, and he wanted to slap Qin Chen to death.

However, feeling the power of Qin Chen's previous sword, and thinking about what happened in Pill Pavilion today, he felt as if a basin of cold water was poured down in his heart, and he woke up instantly.

"Hey, didn't you let me kill Ren Yan? Why did you disagree at this time?"

Qin Chen looked suspicious.

Suppressing the anger in his heart, Ge Pu said solemnly: "Master Qin Chen is worthy of the talent of Tianzong, and the old man admires him for his high level of cultivation. However, the young master is just a rubbish, let alone killing Qin Chen. Master, it's impossible even if it's injured."

"Patriarch Ge meant I was pitting you?" Qin Chen's face sank.

"The old man didn't mean that, but the five million silver coins are too exaggerated, and it is impossible for our Ge family to get them out." Ge Pu's tone softened slightly.

"Then there's nothing to say." Qin Chen mentioned the sword: "The dignified Ge family, the king's top jade giant, can't even get five million silver coins. You are a lie."

After that, the long sword in his hand flashed with a cold light, and he was about to cut it down again.

Ge Pu said angrily: "Qin Chen, my Ge family is a good wealthy family, but this money is not something you can take out. Don't go too far!"

Qin Chen smiled slightly and said in surprise: "Patriarch Ge Pu, since you can't take it out, I didn't force it. Just take Gezhou's life to pay for it. I'm very open, don't mind."

"you....."

Ge Pu anxiously said, "Qin Chen, how can you let go of my Ge family? Five million silver coins are too much. Our Ge family can't get it out. We are very sincere. At least you have to show it. Be a little sincere."

"Then how much can you take out of the Ge family?"

"At most one million!" Ge Pu gritted his teeth.

Chapter 276 Ancestral Temple Forbidden Land

"Patriarch Ge, you are playing tricks on me!" Qin Chen narrowed his eyes and was too lazy to say any more, and slashed with a sword.

"you....."

Ge Pu was trembling with anger, the other party was obviously blackmailing, wouldn't he be satisfied with a million?

Moreover, he is not talking nonsense. Although the Ge family is a wealthy member of the Qi country, they do not always have so many silver coins. They took out five million at once, which is almost equivalent to their Ge family's profit for two or three years. At home, it also hurts the bones.

"Father, save me, even if you can't get the silver coins, our Ge family has so many treasures, can't you just get them out?"

After finally resurrecting from the dead, Ge Zhou was so frightened that he was so frightened that he would continue to do it, and hurriedly shouted.

Although the Ge family couldn't get five million silver coins at once, with the Ge family's family business, hundreds of years of savings, there are countless treasures in the family, and any point can be worth this number.

"Hehe, look, Young Master Gezhou is really thinking about solving the problem. Your Ge family has been operating in the royal capital for so many years, so you don't even have a treasure. I don't mind if you take it out for a few." Qin Chen said with a smile.

In fact, in terms of his knowledge and cultivation, silver coins are not important to him at all. If he really wants to make money, it is far more than five million to get the share from Dan Pavilion.

What he needs is all kinds of treasures, especially treasures that can improve strength and cultivation.

After hearing Qin Chen's words, Ge Pu almost vomited blood, feeling distressed: "Of course you don't mind, this is our Ge family's treasure."

However, in this case, Ge Zhou could not help but save him. After all, he was his only son, and he planned to let him inherit the position of the head of the Ge family.

Suddenly, his eyes flashed, as if thinking of something, he said, "We do have some of the Ge Family treasures. I don't mind giving it to Master Qin Chen. I just don't know if Master Qin Chen really has this ability?"

As soon as this remark came out, all the members of the Ge family were shocked.

Patriarch didn't really intend to hand over the treasures in the family treasury. These treasures did accumulate more than five million, but they were all the family's savings for so many years. It was too easy to hand them over.

"Patriarch..."

Several elders couldn't help but object.

When he waved his hand, Ge Pu looked cold and said: "You don't have to say, I have my own opinion on this matter."

Qin Chen frowned and said lightly: "I don't know if Patriarch Ge said that I am really capable, and what does it mean?"

How keen he was, and immediately felt that there seemed to be a reason for Ge Pu's decision.

"Hehe, it's like this. Although there are many treasures of my Ge family, there are not many of them worth five million silver coins. Only a few pieces of the Ge family heirlooms of my Ge family can be worthy, but these treasures They are all located in the forbidden area of my Ge family's ancestral shrine. Even if we wait, we can't enter it rashly. If Master Qin Chen is interested, we can give it a try."

"Ancestral Temple Forbidden Land? This..."

Hearing Ge Pu's words, many elders suddenly reacted. Among them, Ge Xun couldn't help but exclaimed and looked at each other.

The expressions on the faces of the other elders at this time were also very strange, some frowned, some weird, and some were shocked.

Qin Chen saw the expressions of everyone clearly, and said with a sneer: "Patriarch Ge Pu, looking at your expressions, it seems that there is something wrong with your proposal."

"Ahem."

Ge Pu coughed dryly, his face covered up very well, and said: "There are indeed some problems in this, and I will be confused for a while. It's better than Master Qin Chen, please follow me."

After all, the crowd gave up a passage. Although Qin Chen had doubts in his heart, he was fearless, and followed Ge Pu and others towards the inner courtyard of the Ge Family Mansion.

The Ge Family Mansion is located in a very prosperous place where the Kings of the Qi Dynasty are very prosperous. The family has inherited it for hundreds of years and covers a huge area.

In the backyard, there are countless courtyards and pavilions, and they are indeed a family of jade stones. The entire mansion is filled with jade stones, which is refreshing.

Everyone walked for a while and came to a lush place.

Here, some peculiar jade is piled up, it looks very old, even the road is covered with a layer of ancient moss, it looks like a long history, there is a lot of age.

In the middle of the woods, there is actually a jade-stacked building. In this modern building, it seems extraordinarily refined and detached.

Moreover, the whole woodland is filled with a magical atmosphere, giving people a strange feeling, as if they are in another world.

At the same time, Qin Chen felt that as soon as he entered this place, his soul seemed to fluctuate slightly, as if he drank a sip of cold water during the dog days, his heart was extremely comfortable, and all his pores were relaxed.

Qin Chen's pupils shrank, and said in a condensed voice, "Where is this place? It feels strange."

Ge Pu smiled slightly and said: "This is the place of the ancestral shrine of my Ge family, and it is also the forbidden place of my Ge family. Many of the jade here is collected by my Ge family for hundreds of years. They are very precious and cherished. There are many jade stones, they are very old and have a long history."

"Oh? Let me see."

Qin Chen froze for a moment, and looked at it intently, and saw that this woodland was full of jade, buried in moss soil, and even under his feet, there was a jade path leading directly to the jade-stacked building in front.

"This is...blue and white jade!" Qin Chen couldn't help blurting out while looking at the jade road under his feet.

Blue-and-white jade is a very rare jade named after its blue-and-white pattern. It has an ancient source and can engrave formation information very well, so it is often used in arrays and is of great value.

This kind of jade is hard to find in ordinary jade shops. I didn't expect that there would be such a path made of blue and white jade in the Ge family mansion.

"This piece is the eight gems of colored glaze!"

Then, Qin Chen's gaze fell on a corner not far from the mountain forest, where a piece of jade was placed. Although it was covered with moss, it could be seen that the interior was in the color of glazed glaze with eight patterns, which were obviously legendary. Colored glaze eight gems.

This kind of jade is even rarer. It is said to be produced in extremely hot places in the West. Because it is subjected to high temperatures all the year round, it will show the color of glazed glaze, and it has an excellent heat conduction effect. The fire weapon.

"That is...Chill Heart Jade!"

Finally, Qin Chen set his eyes on the jade-stacked building in the middle of the woodland.

Cold Heart Jade is a kind of precious jade that exudes a slightly cold attribute. This slightly cold attribute has no harm to the human body, but it can corrode the human spirit. Long-term wearing will affect the spirit to a certain extent, but it is used in the refinery. Cherish it very much.

These gems are very rare in any place in the five northwestern countries. Although they are not invaluable to the sky, they are also very rare. I did not expect that they would be placed here at random in the Ge family, which is shocking.

Chapter 277

"Hehe, I didn't expect Master Qin Chen to be a Master Jianyu, so I really admire him."

Ge Pu was taken aback, and immediately laughed, with a hint of consternation flashing in his eyes.

The other elders also looked shocked.

The gems and jade in the forbidden area of the ancestral temple are all left by the ancestors of the Ge family. They belong to a very rare type and are rarely seen on the market.

Moreover, after so many years of wind and rain, some of these jade stones have been covered and lost their original appearance. They did not expect Qin Chen to recognize it all at once, which really surprised them.

You know, even if they saw these jade for the first time, they didn't dare to say they could recognize them.

I thought Qin Chen would be startled by the scene in front of him, but after he was astonished, he was disappointed: "I still think why the good things are just some ancient jade stones. Although these jade stones have some value, they are sparse. Normally, Patriarch Ge doesn't want to use these things to set off accounts, right?"

Puff!

After hearing Qin Chen's words, the shock on the faces of many elders turned into extreme dissatisfaction, and they almost vomited a mouthful of old blood.

Now that you recognize these jade stones, don't you know the value of these jade stones? Once it is available on the market, I am afraid that the entire five northwestern countries will be violent and swarmed by it.

It's sparse and ordinary, so big.

How did they know that Qin Chen had never seen any treasure in the previous life. In this life, although he was not deceived, he was only interested in some treasures that could enhance his strength.

The jade in front of him, although rare, did not improve his strength in the slightest, so he had to sell it, and it was not even as convenient as taking silver coins.

Ge Pu was taken aback, but immediately laughed: "Master Qin Chen is stunning, and he has a good relationship with the Dan Pavilion and the Holy Land of Bloodlines. If there are no treasures, he will naturally not care about these jade, but the treasures the old man said, It's not these jade stones, but the true treasure of the family in the ancestral shrine-concentrating jade!"

"Concentrating on jade?"

Qin Chen frowned, recalling the power that his soul felt, and he couldn't help but was taken aback. Could it be that the previous power was revealed by this concentrating jade?

Ge Pu smiled triumphantly and said, "I heard that Master Qin Chen is also a pharmacist, so he naturally knows the importance of spiritual power. This concentrating jade can condense the spiritual power of a martial artist. It can be worn on the body all the year round. The spiritual power of the martial artist is exceptionally solid. Master Qin Chen should also know that spiritual power is related to the martial artist's talent. Once the spiritual power is strong, it means that the martial artist's comprehension will become stronger. If these treasures are obtained by Master Qin Chen, they will be promoted in the future. The second-grade pharmacist, I'm afraid it's just around the corner, I don't know if these treasures can be worth five million silver coins?"

Ge Pu had a confident look, but the expressions of the other elders around him were very calm.

"Patriarch Ge is willing to hand over these treasures?" Qin Chen frowned, with doubts on his face.

Concentrated jade is indeed invaluable, not to mention in the five northwestern countries, even in the Martial Domain, it is quite rare.

After all, mental power is too important. Bloodline masters, pharmacists, refiners, alchemists...Almost any profession requires a strong mental power as a backing. Under innate conditions, if there is a treasure that can improve spiritual power. , It will indeed attract countless people's looting, can be described as a priceless treasure.

However, a guy like Ge Pu, who is reluctant to even take out five million silver coins, will obviously give out this concentrating jade?

"Why is it so reluctant?" Old Ge Pu smiled cunningly, pointing to the jade building in front of him, and said with a smile: "However, this concentrating jade is located in the forbidden area of my Ge Family Ancestral Temple. If you want to get it, you must first go through my Ge family. The assessment method established by the ancestors, otherwise even the old man would not have the right to receive it. In the past few hundred years, the genius disciples of my Ge family who have passed the assessment method, only a trivial three, each got a piece of concentrating jade. In the generation of the old man, no disciple has ever succeeded, but with Young Master Qin Chen's talent, it won't be a problem to think about it."

"Three people?" Qin Chen sneered, "Your Excellency meant that I would let me go through this assessment method. Once passed, the concentrating jade I got will belong to me. If it fails, the debt will be cancelled?"

"Haha, that's the case, Master Qin Chen won't lose the five million silver coins with Concentrated Jade? Now, it depends on Master Qin Chen's ability and courage."

Everyone in the Ge family stared at him, and the atmosphere suddenly calmed down.

Many of the elders showed playful expressions in their eyes, as if they expected Qin Chen would not pass.

And Ge Pu looked like he expected Qin Chen would definitely agree. He knew how attractive Concentrated Jade was to a pharmacist, as long as he was a pharmacist, he would not be willing to refuse.

"Patriarch Ge, since this assessment method is so difficult, I think I'll forget it." Qin Chen said with a smile under the eyes of everyone.

"Since I agree, then..."

Hearing Qin Chen's mouth, Ge Pu spoke with a smile, but after hearing the content clearly, he almost choked to death, his eyes widened, "What? Forget it?"

"Yeah." Qin Chen stretched his hands helplessly, "Since the difficulty is so high, I thought about it, it would be more cost-effective to take five million silver coins directly, and you see the expressions of your elders, Ge Patriarch, all of them expected me. They are all elders of Ge, and they must be very clear about this assessment. Since they are all expected to fail, then what else can I promise? Once they fail, they will return empty-handed. Thanks."

"you guys....."

Looking at the stunned elders behind him, Ge Pu was so angry that he almost vomited blood. Are these guys all pig brains, they don't even know how to act?

"Master Qin Chen, you think too much. As far as the old man knows, the three geniuses who passed the examination in the history of my Ge family can't be compared with Shao Chen in terms of cultivation." Ge Pu and Yan Yue.

The other elders learned well this time and nodded one after another.

"Forget it." Qin Chen shook his head with a firm expression: "Once I fail, there will be nothing. Thanks, I am not greedy. I only need Patriarch Ge to give me five million silver coins. It's better to give you the genius of the Ge family."

Ge Pu was almost mad, hesitated for a moment, gritted his teeth, and said: "That way, if Chen Shao agrees to participate in the assessment, I will give you one million silver coins regardless of whether it passes or not, but if you don't agree, then I There is no way, my Ge family really can't come up with so much money."

"Furthermore, for a peerless genius like you, Shao Chen, any improvement in strength is of great significance and must not be missed. Even if the probability is small, it is worth a try, isn't it?"

Ge Pu politely persuaded.

He thought that Qin Chen would hesitate, but unexpectedly heard this...

"Well, I agreed."

Qin Chen nodded directly, refreshingly.

Chapter 278 Bloodline Array

"what?"

Ge Pu was stunned for a moment, and when he tried to dissuade him, he stopped at his throat, his old face flushed, and he was very uncomfortable.

"Get one million silver coins here first." Qin Chen smiled as he stretched out his hand.

Staring at Qin Chen's eyes carefully, Ge Pu suddenly realized that he had been pitted by this kid. I'm afraid this kid had decided to agree long ago, and even said with a sincere heart.

Depressed, almost vomiting blood.

"Why, do you regret it again?" Qin Chen frowned when Ge Pu hadn't moved.

"Give it, I give it!"

Taking out a stack of silver bills from his body, Ge Pu was dying of pain.

This \*\*\*\* kid is too smart.

"Hehe, then I will go in, are there any precautions?" Qin Chen wanted to laugh after receiving the banknote

"No, just go straight along this jade road."

Ge Pu's expression was green, his face was as dark as the bottom of a pot.

Qin Chen nodded, and immediately followed the jade path towards the jade building.

Hum!

An invisible force filled his body instantly.

"what!"

Qin Chen was stunned. He didn't feel much at first. Now, when he takes a closer look, there is a very cryptic formation here. The jade scattered in the forest, including the jade trail under his feet, is actually part of this formation. .

However, this formation is not an attack formation, nor a defensive formation or a ecstasy formation, but a large formation similar to nourishing.

And the closer to the jade building, the stronger the power that nourishes the soul power.

"interesting."

Qin Chen moved in his heart and stepped into the jade building.

When Qin Chen's figure disappeared, the elders of the Ge family all sneered.

Ge Xun sneered: "This Qin Chen is too confident, do you really think he can pass my Ge family ancestor test?"

"Hehe, the method of assessment, it is impossible for the children of the Ge family to pass the assessment, and even if Qin Chen is highly talented, it is impossible to get Concentration Jade."

"It's really idiot."

A group of people restored their original expressions, their eyes filled with contempt.

"Enough, and there is a face to say, if you don't know how to hide, the old man doesn't even have to pay the one million silver coins."

Ge Pu couldn't help shouting angrily, his face turned black.

These guys don't know how to conceal it, otherwise, how could they be robbed of a million silver coins.

The elders were speechless, if it wasn't for your son to cause trouble, how could the Ge family be in such a trouble.

"Well, this guy should soon fail. Everyone should converge, and quickly send this person away."

With a wave of his hand, Ge Puyi was dispirited with a sad expression on his face.

Their Ge family had never encountered such a thing, but faced a guy who even had to come to apologize, the president of the blood holy land, Dongfang Qing, what could they do?

the other side.

When Qin Chen stepped into the jade building, he immediately felt a sense of coldness, and he seemed to be poured with cold water.

At the same time, the soul is more comfortable, as if coming to a warm place where the soul can be cultivated.

"Hey, this feeling... Concentrated jade can only condense mental power, but I haven't heard of what nourishment the soul is? Could it be that there is some kind of treasure that can nourish the soul?"

Spiritual power is spiritual power, and soul power is soul power. The two are completely different. The warriors of the five northwestern countries may not know it, but Qin Chen understands it very well.

Suspicious, Qin Chen continued to walk inside.

Soon, he came to the interior of the building, and a milky white mask appeared in front of him, blocking the way.

Qin Chen observed for a while, and found that the layout here was very peculiar, with an ancient meaning, as if it had gone through an unknown number of years.

"This jade quality?"

Touching the surface of the jade building, Qin Chen lost his senses. The smell of this ancient jade did not seem to be established hundreds of years ago. It seemed to have gone through endless years, at least thousands of years old.

Moreover, under normal circumstances, the cold heart jade will have a certain impact on the human spirit, but now Qin Chen is in the whole building made of cold heart jade, and instead of being uncomfortable, he feels very refreshing.

"This is not cold heart jade, but... cold soul jade!"

Mental power slightly penetrated into the building. Suddenly, Qin Chen opened his eyes wide and suddenly lost his voice.

Rumor has it that there is a cold soul jade in the far north that can carry the soul.

In ancient times, some people were seriously injured and their lives were about to disappear. His relatives and friends would use Han Po jade to make jade coffins to stabilize the soul of the other person, and then find a way to treat them.

This kind of jade is very cherished, and it is rarely seen even in Wuyu. I did not expect that a small family in this remote place in the northwest would have such a large piece.

"hiss!"

Unable to take a breath of air, Qin Chen was secretly shocked. Now he doesn't believe that this jade building was set up by the ancestor of the Ge family hundreds of years ago, and the other party has no such ability.

"It's a pity that these cold soul jade has gone through too long, and the soul-preserving material has almost disappeared. No wonder I mistakenly thought of cold heart jade."

After carefully perceiving the entire jade, Qin Chen sighed and shook his head.

Originally, if it were a brand-new cold soul jade, even if it was obtained in the Martial Domain, it was also worthless, but this cold soul jade, in which the energy material has almost disappeared, has no value.

"It doesn't matter, this should be the assessment Ge Pu said. Enter and see what's going on?"

Stepping into the white halo, all white halo suddenly lit up with white rays of light, these rays of light poured into Qin Chen's body, and instantly turned into threads of silk, penetrating Qin Chen's body, as if What is being explored.

Every time a thread penetrates Qin Chen's body, Qin Chen feels a slight resistance.

As he continued to enter, the resistance grew stronger and stronger.

The scene inside the jade building also became clearer and clearer. It seemed to be a high platform. Around the high platform, there were pieces of jade tiles floating around, constantly circulating.

"That's...concentrating jade?"

Qin Chen was surprised when he saw the jade tiles floating around. These jade tiles were really concentrating jade.

And on the high platform, there seemed to be a jade card, but it was hard to see what it was.

Just as Qin Chen was about to get closer to see a little bit, hum, suddenly, the light on the white halo seemed to sense something, and it shook suddenly, and countless red threads appeared, turning into a strange formation. Repel Qin Chen out.

"This is... the bloodline? Ge Pu's bastard."

Seeing this formation, Qin Chen couldn't help yelling.

He finally understood why Ge Pu was willing to let himself in. It turned out that this so-called assessment is restricted by blood. It must be a disciple of the Ge family to pass this white light curtain. Otherwise, once entered, even if it is talented High, will be rejected because of blood.

The general martial artist can't see the origin of this formation at all, and will only think that he is not talented enough, so he failed the assessment.

It was expected that Ge Pu had such an abacus.

Chapter 279 Dragon Soul Jade

"Hehe, Ge Pu's bastard, he can only be considered unlucky when he meets himself."

Qin Chen sneered, he didn't rush, his hands quickly on the pattern, clicked and counted, only heard a buzzing sound, an invisible force permeated, and those \*\*\*\* threads disappeared instantly.

"This formation is so rough, now I am a little believe that it was set by the ancestors of the Ge family."

Qin Chen forcefully moved forward and immediately opened the white mask and entered inside.

The verification formation on this white mask is clearly not the formation in ancient times, but has been engraved in the past hundreds of years. I think it should have been set by the ancestors of the Ge family.

Entering the light shield, Qin Chen looked at it intently and found that there was an altar-like place in front of him. Around the altar, there were six condensed jade suspended, and in the center of the altar, there was a black dragon-shaped precious jade.

This dragon-shaped jewel is very magical, as if it has life. It is constantly circulating, as if a life is blinking.

"Could this be... the legendary dragon soul jade?!"

Qin Chen exclaimed.

Dragon soul jade is a legend in ancient times. According to legend, it is a kind of precious jade produced in the lair of the dragon family, perennially infiltrated with the breath and blood of the real dragon, and absorbed the soul of the real dragon.

This kind of precious jade can nourish the soul of human beings. Once refined, it can make a warrior's soul power reach an unprecedented realm, and even become concentrating.

You know, the warrior can only cultivate spiritual power in the early stage, and will nourish the soul power until after the seventh rank.

However, even the Emperor Wu could not do it if he wanted to achieve the concentrating form, only the legendary holy realm could achieve this.

But this dragon soul jade is said to be able to make people do this in advance, which is a metamorphosis.

This rumor has been circulated in Wuyu for so many years, but it has never been heard that anyone has actually obtained a dragon soul jade. Now the gem in front of you, like a real dragon, exudes a palpable soul breath, and let Qin Chen's soul felt extremely comfortable, but it was very similar to the legendary dragon soul jade.

Thinking of this, Qin Chen couldn't help his tongue dry, and sweat came out of his palms.

"If you want to surpass the previous life and defeat Shangguan Xier and Feng Shaoyu, cultivation alone is not enough. You must have some adventures. If this dragon-shaped jade is really a dragon soul jade, then I want to surpass the previous life in this life. At least half of it has been successful."

Qin Chen felt excited when he thought about it. Soul power is so important to a strong person. Once the soul is transformed, it can surpass the previous life whether it is in cultivation, medicine or refining.

In shock.

"Huh!"

Feeling the qi, suddenly a piece of floating concentration jade swept over and fell into Qin Chen's hands.

A piece of information also passed into Qin Chen's mind.

Sure enough, this mysterious building was not built by the ancestors of the Ge family.

Hundreds of years ago, the Ge family used to have a very strong master with a natural jade body. This physique, the sensitivity and identification of jade, is far beyond ordinary people.

Taking advantage of this physique, the ancestor of the Ge family traveled all over the mountains and rivers of Daze, managed the jade business, and established a huge Ge family.

At the time when the Ge family was at its peak, it was known as the top family in the five northwestern countries.

Later, the ancestor of the Ge family discovered this magical jade building during an experience in the secret realm of Saint Luo, and also discovered this piece of jade that looked like a real dragon.

He wanted to win this precious jade, but found that there were primitive restrictions around the altar. No matter what he thought of, he couldn't break these restrictions.

Therefore, he took advantage of the space treasure to bring this magical jade building back to Daqi State, and placed it in the backyard of his mansion.

For the next ten years, he lived in seclusion in the mansion, not in the world, his purpose was to eliminate the restrictions and figure out what this gem was.

It wasn't until he was about to die of old age that he regretted to discover that to break this restriction, he must be before the age of twenty, and his mental power must reach level three or more.

In the end, before dying, he set up this method of assessment, and set up nearly ten concentrating jade around the jade building in the secret realm of Shengluo outside of this altar for future generations to conduct assessment.

Once passed the assessment, it means that you have the talent for spiritual cultivation, and you will get a jade of concentration.

And as long as you cultivate your mental power to the third level or above before the age of twenty, you can enter the outside of the altar and collect this dragon-shaped gem.

However, it is a pity that even though the Ge family had three disciples who passed the examination and obtained the concentrating jade, none of them broke through to the third rank or above before the age of twenty.

On the contrary, Qin Chen directly undermined the assessment formation set by the ancestors of the Ge Family and broke into the periphery of the altar.

"Unexpectedly, there was a person born with a jade body in the Ge family. If this kind of innate physique grows in the martial domain, it is not impossible to become a martial emperor in the future. It is a pity that the achievements in these five northwestern countries are extremely limited. "

Shaking his head, Qin Chen raised his hand to collect the remaining five concentrating jade.

Hum!

The five concentrating jade released a force of resistance, and at the same time a formation faintly emerged.

"Haha, broken!"

With a soft drink, Qin Chen's hands swiftly circulated, his mental strength swept out, and the formation was immediately rushed, leaving five pieces of condensed jade into Qin Chen's hands.

Qin Chen went to observe the altar carefully.

Sure enough, there was a mysterious restriction around the altar, and that dragon soul jade was located within this restriction.

What shocked Qin Chen even more was that this restriction was very familiar, and it was similar to the many true charms he obtained from Qin Feng.

"It seems that the true talisman on Qin Feng's body may have been obtained from the Saint Luo secret realm in the Demon Ancestral Mountain Range."

Qin Chen couldn't help thinking. The mysterious rust sword on his body and the jade building were discovered from the secret realm of Saint Luo. What kind of secret realm is that secret realm of Saint Luo?

Normally, in a remote place like the northwest, it is impossible for a high-level secret realm to appear, but from all the clues, it can be seen that this Saint Luo secret realm is by no means ordinary.

Moreover, he originally thought that this dragon soul jade was formed naturally. Now that he knows the origin, based on the description of the ancestors of the Ge family and the restrictions on the altar, it is very likely that this dragon soul jade was deliberately left here.

But he couldn't imagine, if this black dragon-shaped jade pendant was really the legendary dragon soul jade, who would have received such a treasure and would not absorb it by himself, but put it here instead? Set a ban and let people break?

Many thoughts flashed through Qin Chen's mind, and then he gritted his teeth.

No matter what this dragon-shaped gem is, since he saw it, he would naturally not miss it.

Chapter 280 Lingnan King

When Qin Chen carefully observed the altar restriction, he was immediately shocked.

The above prohibition is very obscure, obviously belonging to the prohibition of ancient times, at first glance, it actually gave him a dizzy feeling.

"What a terrible prohibition!"

Qin Chen was stunned secretly, he released his spiritual power and carefully observed.

Qin Chen was a master of formation in his previous life. He also had amazing accomplishments in prohibition. Coupled with the nine-star divine emperor tactic he cultivated in this life, his acuity of true energy surpassed his previous life, and his perception of prohibition became even stronger. .

This is also the reason why he was able to break through the many true talisman restrictions on Qin Feng's body when his cultivation was insufficient.

And when Qin Chen broke the ban.

Outside the jade building, Ge Pu and others are still waiting.

"Patriarch, Qin Chen will almost have a scent after entering. According to the truth, the assessment should have failed, why hasn't it come out?"

"Yeah, that Qin Chen does not have my Ge family bloodline. Normally, he will be eliminated in a short time. Why hasn't anyone seen him yet?"

"This son won't really pass the test of the ancestors, right?"

Seeing Qin Chen entered, Ban Zhuxiang hadn't come out yet, and several elders couldn't sit still.

"Don't worry." Ge Pu sneered: "This place is the forbidden place of our Ge Family Ancestor Temple. So even if Qin Chen is a genius, he would never want to pass the ancestral test. The reason why he didn't come out was that he had just started the test, or he had failed the test. Lai refused to go inside, and wanted to get something back. However, the jade building in the forbidden area of Gejiazu Temple is a whole body, so even if Qin Chen racked his brain and exhausted his methods, he would never want to pry down a piece of jade."

"Furthermore, if the ancestors set up the assessment method, if they find that non-my tribe members enter the assessment, they will counterattack and cause hidden harm to the assessors. Then Qin Chen will definitely pay for it."

Speaking of this, Ge Pu showed a cold smile on his face.

It is not so easy to blackmail his Ge family.

At this time, the King of Qi was outside.

A group of several people has already come outside the city gate.

"Master, this is the royal capital."

One of them respectfully said to the leading old man.

"The royal capital, hehe, the royal capital!"

The old man's beard was gray, his face was wrinkled, but his eyes shone with brilliance, there was a kind of unspeakable domineering and strong.

He chuckled and muttered to himself, there was something unspeakable in his eyes.

Behind him, there are several middle-aged men, each with extraordinary aura, just standing there, there is a feeling of a deep mountain, like a high mountain, which makes people look up.

Obviously they are extremely top powerhouses.

"Let's go."

Several people in this group swaggered towards the passage in the middle of the royal city gate.

"Who? Stop to be checked."

Several city guards who were investigating the team frowned and immediately stepped forward.

"Go away!"

A servant like a housekeeper frowned when someone came up, and immediately drank coldly.

"Bold, you know what this place is, and it's not subject to inspection!"

Several city guards were furious, but here is the capital of the king of Daqi, the political center of the country.

These city guards, although their status is humble, but guarding the gate of the royal capital can be said to be in control.

Normally, a member of the party who came from another place had to be checked obediently. Unexpectedly, these people were so bold and lawless.

"Humph!"

Seeing the arrogant attitude of the city guard and about to come up with a weapon, a middle-aged man behind the old man snorted, his eyes burst out with a sharp light, and immediately an astonishing pressure, like a mountain, was severely suppressed. On the famous city guard.

These city guards only felt that their feet were sinking, and their legs seemed to be sinking into the cement, making it difficult to move, and the whole person could hardly breathe.

"Who? Dare to make trouble at the gate of the city."

The movement here also attracted the attention of other city guards not far away, and they poured in.

"Huh!"

The man who resembled a housekeeper raised his hand and immediately revealed a token. The leader of the city guard saw his face pale, and cold sweat oozes from his back.

"Release."

He waved his hand in a hurry and immediately stepped aside. When other city guards saw this, they had to step back and bow their heads in fear.

The person who can make his captain so scared must be a prominent person in the Great Qi Kingdom, and they must not be offended by these city guards.

When the opponent left, one of the city guards courageously asked in a low voice: "Captain, who was that person just now?"

"A member of the Zhao family in Lingnan."

"Lingnan Zhao Family?"

The surrounding city guards looked suffocated, and they were shocked.

Lingnan is one of the most prosperous counties in Daqi, and the Zhao family of Lingnan, rumored to be a relative of the emperor, was later distributed to the land of Lingnan and named Lingnan king.

This sitting here is for hundreds of years.

According to reports, in Lingnan, people only know that there is a Lingnan King, but they do not know that there is a Majesty today.

Later, the royal family of the Zhao family gradually became thinner, and the royal family withdrew the throne of the Lingnan king, and dispatched its senior officials to sit in the town.

However, no matter what the senior officials' wrists, Lingnan is still firmly in the hands of Lingnan Zhao's family.

This Lingnan Zhao family did not openly confront the imperial majesty, and obeyed all the requirements of the imperial family, but secretly controlled most of Lingnan's things.

It is the emperor of Fang Tu.

In addition, his position in the center of the dynasty was very deep, and he was married to the Qin family of Dingwu King of the Great Qi State.

Once offended the other party, it can be said that these city guards will be beaten up in minutes, like ants.

"Captain, you said that the Lingnan Zhao family came to the capital, what is the so-called?" A city guard looked puzzled.

The size of the Lingnan Zhao family would definitely make the royal family jealous. Therefore, although the Lingnan Zhao family also has branches in the royal capital, there are very few big names coming.

But now, it's unusual for so many masters to come from the Zhao family in Lingnan.

"Zhao family? Could it be because of the Qin family?"

Suddenly, another city guard seemed to think of something and couldn't help but exclaim.

The marriage between the Zhao family and the Qin family in Lingnan was almost unknown to the entire king. Twenty years ago, it caused a huge sensation in the king's capital.

Now that the Zhao family came, these city guards immediately contacted the Qin family.

The two sons of Ms. Zhao of the Qin family, one was abolished, and the other had a broken arm. As the maiden family of Lingnan Zhao's family, this is for trouble.

Taking a breath of air, everyone was shocked.

"Guess what, don't give me a good watch." The captain of the city guard sank, his face unhappy.

But his eyes are also extremely solemn.

In any case, the Zhao family in Lingnan is a giant of the Great Qi Kingdom. This kind of matter must be reported to the superior, and then his Majesty today.

"Show me the watchman, I'll be back when I go."

At the moment, the captain of the city guard quickened his pace and went to report.
