

Valkyrie 2721

[Chapter 2721: Wuxu Ferro Tungsten](#)

If he were Qin Chen, he would definitely not choose this way. In the previous two rounds, Qin Chen won the championship, and then based on Qin Chen's age and cultivation base, as long as Qin Chen can use the materials of the late and mid-level land to refine the mid-level saint soldiers, he will pass the assessment Join the Tiangong Crafting Division

It's almost a certainty.

The key is that this operation will be very stable without any mistakes.

Pavilion Master Wan Xinde still admires Qin Chen quite a bit, and he also knows that Qin Chen's refining level demonstrated during the appraisal of the ground-grade refining master, there should be no problem in successfully refining the holy soldiers in the middle stage of the refining.

But now it's different.

Choosing the top-level materials such as the heavenly grade materials, Qin Chen wanted to pass the assessment, at least to refine the Saint Soldiers at the top of the ground grade, otherwise the score given by Appreciation Baoyi would never exceed 60 points.

This is playing with fire.

"This Qin Chen... is reckless!"

Wan Xinde shook his head and sighed again and again.

He can understand Qin Chen's thoughts, genius, always arrogant, and always confident, but when he can easily join the Tiangong Artifact Refining Division, he actually took the risk of refining the holy soldiers at the pinnacle of the land. Too reckless. It is true that Qin Chen is too young, and even just a few days ago, he may have just touched the realm of a half-step Heavenly Sage. It turned out to be like a holy weapon refining the pinnacle of terrain. If the master refiner of the pinnacle of terrain is really If you can succeed so easily, then

Well, the refiners present today are probably all refiners at the pinnacle of geography. Which refiner who can get to this point has no talent or ability when he was young? Otherwise, it's impossible to become a one-in-a-million craftsman, but tens of thousands or even tens of thousands of years have passed. Looking at the square, most of them are also

They are just master craftsmen in the early, middle and late stages of the land product.

The real pinnacle refiner is only about one-thousandth of all refiners, and Qin Chen, a young man who was a peerless plot sage not long ago, wanted to refine the pinnacle sage.

Arrogant, too arrogant.

Wan Xinde shook his head and sighed, but Master Konoha and the others were shocked, with excitement in their eyes.

"Could it be that Qin Chen is certain that he will be able to refine the holy soldiers of the pinnacle?" This is not impossible. If it is another young refiner, they will only feel that the other party is overconfident, but Qin Chen In the previous two rounds of performance, he has already shown his own strength, the first in the two rounds, is there really no such player

Brain confident?

I'm afraid not necessarily.

"What? Look, Bai Yutang has also selected heavenly materials."

At this moment, an exclamation sounded.

"Hey, not only Bai Yutang, but Yun Mengze also selected heavenly materials."

"Are they both crazy like Qin Chen?"

The crowd was shocked, and they all looked over the square in shock.

I saw that after a moment of contemplation, Bai Yutang and Yun Mengze also chose a kind of heavenly material, and, as if they had a tacit understanding, they all chose the black rock. "The Wuxu tungsten iron, a material of heavenly quality, originated from the Secret Realm of the 1st Movement of 1898. It is a unique top-level crafting material in the Secret Realm of the 1st Movement of 1898. It has good conductivity, hard material and strong penetrability. It is one of the most suitable materials for attacking saints. One, it seems that these three

With the same idea, they should all refine offensive holy soldiers. "

Master Konoha said in a deep voice.

Qin Chen and the three of them chose the same celestial material. It can be seen that the three heroes saw the same thing. They all saw that this Wuxu tungsten iron was the most suitable for attacking saints among the three materials.

Pavilion Master Wan Xinde listened, his mouth twitched.

He had also heard of this Wuxu tungsten iron. Even in his capacity, it is not easy to get a piece of Wuxu tungsten iron. It needs to be purchased in Guanghan Prefecture, and the price is amazing. But on this day's work, he directly took out a hundred pieces of Wuxu tungsten iron for the assessment. Although the work is very clear, the general craftsman dare not use the heavenly materials for the final round of refining, but just Take out so many Tianpin materials

It is enough to see the wealth of work.

It's no wonder that a refiner wants to join Heavenly Work.

Sure enough, apart from Qin Chen, no one chose the materials of the heavenly rank. Even the cultivators of the Heavenly Sage masters only chose the materials of the pinnacle of the earthly rank, not the materials of the heavenly rank.

Because most people have only one idea, and that is stability.

"This is interesting."

Pavilion Master Wan Xinde suddenly laughed.

"What do you say?" Elder Chu Ye and others looked at it. "This time, the three strongest people were the three of them in the assessment of the Tianzhu Refining Division. Originally, it was difficult to see which of the three had the strongest refining skills. After all, everyone selected the materials in the last round of training. The sages of the system are different and cannot be generalized

."

"But now, the three of them have actually chosen the same kind of heavenly material, and the three of them are half-step heavenly saints. Although the remaining auxiliary materials are different, in fact, the three of them have almost stood at the same starting point. on."

Lord Wanxinde's eyes condensed: "As long as anyone can surpass the other two in this final round, and pass the assessment, he will be the first one."

Everyone nodded, it is true, the same material, the difference in the level of the three can be seen.

"Humph." Master Konoha snorted and shook his head: "If the materials of the heavenly rank are so good for refining, there won't be so few heavenly refiners in this world, just melt the materials of the heavenly rank. It needs the original law of the Heavenly Sage

Only the real fire of smelting on the refining table can completely release the characteristics of the heavenly materials. "

"Now the three Qin Chen are just half-step heavenly saints. I want to see them and plan to smelt this Wuxu tungsten iron."

The materials of the celestial rank are extremely difficult to smelt. This is also the reason why Master Konoha is a little unhappy. In his opinion, Qin Chen and the three are a little too confident.

Refining tools is not a treat for dinner, it's not that easy, and it's not just talent.

But fortunately, let them suffer, and then they will understand the depth and vastness of the refining process.

Qin Chen naturally didn't know that Bai Yutang and Yun Mengze had also chosen the same Wuxu tungsten iron as himself, in fact, even if he knew it, he wouldn't take it to heart.

After selecting ten kinds of materials, he didn't refining it immediately, but took out a formation plate and began to engrave the formation pattern.

On the contrary, Bai Yutang and Yun Mengze all shot at the first time.

Hum!

The two of them activated the smelting pattern on the refining table, and suddenly, a thick flame of weapons rose into the sky from the refining table. However, both of their cultivation bases are only half-step Celestial Sage, so the activated weapon fire power is at most half-step Celestial Sage level. I am

afraid that this level of weapon fire can not be smelted for a month, and it will not be able to use Wuxu tungsten iron. Celestial materials are completely smelted, let alone refined.

[Chapter 2722: Secret Art of Refining Fire](#)

really.

The flames rising from the two people's refining table, when smelting Wuxu tungsten iron, the Wuxu iron tungsten was only slightly red, but the surface was smelted, and the impurities inside could not be removed.

In this case, refining is impossible.

But what should they do?

All the refiners on the field are staring at the two of them. Since they have actively chosen the materials of the heavenly grade, should they have a plan?

When everyone was puzzled, they saw Bai Yutang squeezing his hands one by one, and on his palm, a series of fire patterns appeared, and an astonishing breath merged into the fire pattern on the refining table. .

boom!

The fire from the refining table suddenly increased, and the original red flame actually began to turn white, and the interior even showed a cyan state, a terrible aura permeated from the position of the refining table. come out.

"Fire Refining Secret Technique?" All the refiners on the field were taken aback and exclaimed. This was clearly a fire refining secret technique, which made the weapon fire that originally only had a half-step Heavenly Sage level, suddenly approaching the Heavenly Sage level. , Suddenly, the Wuxu tungsten iron began to turn red, and the inside gradually

Turned red.

Dangdang!

Bai Yutang quickly moved the reddish Wuxu tungsten iron to the refining table, picked up the refining hammer that was standard on the refining table, and beat it hard.

The fire was everywhere, and the Wuxu tungsten iron was tempered, and the impurities in it were quickly smelted, and under the pattern of the refining table, began to change various shapes.

Everyone on the field watched this scene in shock, Bai Yutang, a half-step heavenly saint martial artist, was actually smelting heavenly materials!

And when Bai Yutang was smelting Wuxu tungsten iron, Yun Mengze also moved. His hands quickly intertwined and turned into phantoms. A trace of strange formation power quickly merged into the Wuxu iron tungsten.

He did not strengthen the weapon fire on the refining stage, but instead transformed the Wuxu tungsten iron.

Is this also OK?

Under the doubtful eyes of everyone, they saw that the Wuxu tungsten iron, which was originally only smelted on the surface, began to turn red after the strange power poured in.

"This is... the method of the weak weapon, the secret of Nangong Ying's unspoken." Pavilion Master Wan Xinde said in amazement. Nangong Ying is the only top crafting master in Yunzhou, and this weak weapon The method is also the ancient refining technique that Nangong Ying obtained from an ancient relic. It is said to use special power to weaken

The internal structure of the material makes the material better smelted. This kind of secret technique is too powerful for a refiner, but this kind of secret technique belongs to the unspoken secret of Nangong Ying. Many people have only heard of it, and have not even seen it. Although the Lord Wan Xinde has seen Nangong Ying perform it

Once, but never mastered it, how can I not be surprised when I see Yun Mengze show his performance? "Lord Yunzhou, your son's life is too good? Nangongying's weak weapon technique, but his secret secret, has now been taught to Yun Mengze, how much did you spend to let Nangongying promised to teach this secret method?

"

Wan Xinde knew that Nangong Ying was Yun Mengze's master craftsman, and thought it was Yun Dongguang that cost a lot of money, so that Yun Mengze taught by Nangong Ying could not help showing his envy.

He had coveted this secret method for a long time, but Nangongying never agreed to communicate with him, and unexpectedly taught it to Yun Mengze.

"Hehe, it may be that Master Nangong Ying saw the children's talents on the refining process, so love was eager to pass this secret technique to the children." Yun Dongguang laughed as if nothing had happened.

"is it?"

Wan Xinde thoughtfully, this is really possible. Anyone who has such talented disciples as Yun Mengze and Bai Yutang, I am afraid they will give them all.

"However, why didn't Nangongying come to participate in the evaluation of Tianjiao this time? I remember that he had told the old man before that he had already signed up and wanted to join Tianjiao."

Wan Xinde's personal relationship with Nangong Ying was pretty good, so she naturally knew about Nangong Ying's registration, but now she didn't see Nangong Ying in the square, and couldn't help but wonder. "I'm also very surprised. Master Nangong said a few days ago that he would have to retreat in order to participate in the Tianxue assessment, but later I didn't see him. It seems that something happened and I couldn't rush over. It is a pity." Yun Dongguang shook his head, regretting: "No

With the strength of Master Nangong, he will definitely be able to pass the assessment and join Tianwork with the child. "

Wan Xinde was only puzzled, but didn't think much, and continued to look at the square.

On the square, countless refiners were refining, and for a while, the scene was extremely magnificent.

I can only hear it jingle, all kinds of sounds are endless, every refiner is tempering the materials in front of him.

This is the first step of refining the material. The refining master needs to completely remove the impurities in the material and activate the characteristics of the material before starting to refine the holy soldiers.

This process is also the most tedious and time-consuming.

While everyone was working on the material, Qin Chen had been engraving the array. After a whole day, Qin Chen stopped engraving the array.

Happiness!

He quickly shot down the even number, and shot all the previously engraved formations into the mixing table.

"He is...rebuilding the formation of the refining platform?"

Many refiners have widened their eyes.

The array pattern of the refining table is universal in many cases, but some truly awesome refining masters have their own specific array patterns, and the refining table they use is specially made. But because of the assessment at this moment, and the five-day limit of the entire refining time, other refining masters have no time to modify the refining table, because once too much time is spent on it, the refining is extremely Might come

Can't finish.

But who would have thought that Qin Chen actually spent a full day transforming the refining platform.

This is no one.

Looking at the refining table after the transformation, Qin Chen smiled.

Sharpen the knife and chop wood by mistake.

A good refining table is equivalent to a sword in the hands of a swordsman. How can you exert the strongest strength if you don't even take advantage of the sword?

What's more, Qin Chen modified the refining table to cover the sky-repairing technique. Because the sky-repairing technique was too terrifying, Qin Chen was afraid of being spotted, so he deliberately changed the refining table so that he could refine it later. At the time, cover up your tactics.

Hum!

After the refining platform was completed, Qin Chen lit the fire for the first time.

A hot flame soared into the sky, attracting everyone's attention. Qin Chen and the three are the only ones who have chosen the heavenly grade materials among all the craftsmen. Now Bai Yutang and Yun Mengze have already displayed the method of smelting tungsten iron during the Wuxu period. Everyone wants to know what Qin Chen will do. do.

[Chapter 2723: Half infantry](#)

In full view, after Qin Chen ignited the Qihuo, he directly placed Wuxu tungsten iron over the Qihuo. at the same time.

boom!

Da Ri Jin Yan and Youkong Bingyan were released by Qin Chen all of a sudden, and that trace of power, through Qin Chen's previously refined array, was suddenly integrated into the weapon fire of the refining platform.

"Bang..." After the two flames entered the flame, the boiling fiery red flame on the mixing stage suddenly blasted out, and the tumbling fiery red flame instantly turned into a light blue color. In the middle of the light blue flame, there is

A hint of white flames. The temperature around the entire refining platform suddenly rose suddenly, a trace of heat raged in this space, and Qin Chen, who was standing in front of the refining platform, soon covered with a layer of sweat. His strength, under such flames,

Also felt a scorching heat.

call!

The flame burned, and even the formation that divided Qin Chen and other refiners burned out waves of waves.

"What flame was that before?"

Master Konoha was taken aback, even Master Mu Gutian's eyes condensed, revealing a shocking look.

The two kinds of flames Qin Chen displayed had terrifying auras. The most important thing was that after being merged into the weapon fire through the formation, they burst out with power comparable to the Heavenly Sage Flame. Who is not surprised?

The three top arrogances, each possessing a different technique, one by one is surprising.

"Finally started refining."

Qin Chen smiled slightly, a refining hammer already appeared in his hand, and violent breaths surged through his body, placing the red-burnt tungsten iron Wuxu on the refining table and slamming it.

On the refining hammer in Qin Chen's hand, a ray of light continued to flow, and the light followed the refining hammer into the Wuxu tungsten iron on the refining table.

Dangdang!

With repeated beatings, the Wuxu tungsten iron continued to change its shape under Qin Chen's tempering, and the impurities in it were continuously removed, and under Qin Chen's strength, subtle changes were made.

Refining tools is a very boring thing.

In the next two days, everyone was tempering the materials, and various types of materials began to become more refined under the tempering of various refiners, and by the third day, some refiners began to smelt materials. . Ten kinds of materials, each of which plays a different role in the process of refining. Some are used to integrate the entire Saint Weapon, some are used to stimulate the characteristics of the main material, and some are used to eliminate a defect in the Forming Saint Weapon , Vary

foot.

At this time, it is the time to test the accomplishments of each refiner. Even if it is the same material, the weapons produced by different refiners will be different, with different effects, not to mention that they are made of different materials. Holy soldiers.

More than three hundred crafting masters, all of them are fully absorbed, their spirits are highly concentrated, and they dare not be slack.

boom!

On the third day, a deep sound rang. A master refiner was building the Saint Soldier in front of him. Suddenly there was an explosion, and the Saint Soldier in front of the refiner burst into pieces. Countless pieces.

The master refiner was instantly stunned.

"Assessor No. 93, the refining failed because of the inclusion of waste materials.

An indifferent voice came, and the examiner appeared indifferently and declared.

This refining master showed regret on his face. He unexpectedly chose a piece of waste material. His face was bitter, but he also knew that he had been eliminated and he had no choice but to leave the square.

Such scenes also happen from time to time in other places.

Not every refiner can eliminate 21 kinds of waste materials. It would be okay if they were not selected. Once selected, the refining would fail in the middle, and naturally they would lose the opportunity to enter the heavenly work.

But none of them was wronged, and they couldn't even distinguish the quality of the materials, so naturally they couldn't be chosen by Heaven.

In this way, in the elimination one by one, a little bit of time passed.

Qin Chen was completely immersed in his own refining, abandoning everything from the outside, he heartily, he passed on the grand event of Cangxuan City inheritance, he used the things he mastered

from the Butian Palace inheritance, and used all kinds of refining techniques. Endlessly. Of course, Qin Chen also paid careful attention. When performing the sky patching technique, he used the array plates on the refining stage to cover, so that the effect that was often seen was as if these array plates were at work. Master Konoha

The masters are puzzled.

Because of Qin Chen's methods, even they didn't know much about it, but they were surprised by the ancient refining techniques that Qin Chen occasionally exposed.

In this way, it was the fifth day.

boom! boom! boom!

A strong breath rose to the sky, and many refiners completed their works one after another.

I saw the terrifying aura of saint soldiers in the sky above the square. Some saint soldiers were born with amazing aura, forming a dragon and tiger-like picture vision in the void.

There are mid-level plots, late-level plots, and even the sage soldiers at the peak of the plot.

This kind of picture is too shocking, the countless warriors on the square are shocked, so many top ground soldiers can be said to be priceless.

Boom!

And just when everyone was shocked, suddenly, there was a roar from the square, and a bright light exploded where the Baiyutang refining platform was located. The next moment, a battle axe was suspended in the air, bursting out astonishing. The world-shaking atmosphere.

"This breath... is it a Saint Soldier?"

Many people were shocked.

"wrong."

Suddenly, a refiner's body shook violently, but he saw that a beam of rays of light continued to rise above the battle axe. At a certain moment, it suddenly broke through the boundary of the peak of the land, and actually stepped into the half-step heavenly sage. .

The terrifying half-step heavenly sacred aura lingered in the void, exuding an aura that frightened eternity.

"Half-infantry!"

All exclaimed.

boom!

The audience was boiling.

Bai Yutang actually refined half-infantry soldiers, how is this possible?

He himself is only a half-step Celestial Saint, and he can refine a half-step Celestial Soldier. Could it be said that his attainments in the way of refining tools have reached the limit of his cultivation?

At this moment, everyone is discolored, and no one can remain calm.

And when everyone is shocked.

Boom!

Another horrible breath rose to the sky.

It was the position of Yun Mengze. On the mixing stage in front of Yun Mengze, a pitch-black war knife soared into the sky, bursting out an endless cold aura, and the terrifying aura continued to rise. He also stepped into half a step from the peak of the land. The position of the heavenly soldiers.

All kinds of different artistic conceptions haunted this holy soldier, and various different visions have evolved.

"It's another half-infantry soldier, my God!"

At this moment, no one is not shocked, no one is not shocked. Two and a half infantry heavenly soldiers, and they were refined from the two and a half-step heavenly sage's Geshi Tianjiao, this... simply shocked the world.

[Chapter 2724: Performance test](#)

On the field, the aura of endless holy soldiers rose, and the two and a half infantry soldiers refined by Bai Yutang and Yun Mengze shocked everyone at once.

"Awesome."

Master Konoha stood up suddenly, his face full of excitement.

Half infantry. Now Bai Yutang and Yun Mengze are only half-step Heavenly Sage level masters, and they can even produce half-step Heavenly Soldiers. What does this show? It shows that the two people's attainments in refining have reached the ultimate level of cultivation, and it is not refining that restricts them.

The improvement of device attainments is about cultivation.

As long as the two of them can step into the realm of Heavenly Sages, and with their half-step Heavenly Sages, they can refine the strength of half-infantry Heavenly Soldiers, how can they not refining Heavenly Sages?

This is not the most critical. More importantly, Bai Yutang and Yun Mengze are both heavenly arrogances, and they are already half-step heavenly saints at a young age. This kind of cultivation base and this kind of attainments rank in the forefront of the entire Guanghan Mansion. The cultivation of heaven

The world is even just their starting point.

If you give them enough resources and sufficient training, you may not be able to cultivate two top crafting masters who are not weaker than themselves, or even surpass them.

"Good, good!"

Master Konoha was pleasantly surprised, and even if none of the other masters in the Tianwork Refining Appraisal had passed the examination, the two of Bai Yutang and Yun Mengze alone were enough to make Konoha a great harvest.

"Master Yun, I didn't think you could cultivate such a good son. Haha, I didn't think Master Yun was a good father who cultivated talents."

Master Konoha even joked about Yun Dongguang. From the moment Yun Mengze produced half-infantry soldiers, Yun Mengze already had enough qualifications to enter the heavenly work. Although it was a half-infantry soldier made by using the heavenly materials of Wuxu tungsten iron, it was combined Yun Mengze's age and cultivation base

Su, Jian Baoyi's score will not be less than eighty points.

This is already an extremely amazing result. Compared with his achievements, Master Konoha better looks at Yun Mengze's future, because compared to the young master of the treasure hall of Bai Yutang, Yun Mengze was born in Yunzhou, whether it is knowledge or teaching him to be a master craftsman, it is impossible to be with the white

Compared with Yutang.

In this case, Yun Mengze actually answered a score that is not weaker than Bai Yutang. It can be seen that with the training of Tiangong, Master Konoha believes that Yun Mengze's cultivation and refinement skills will surely advance by leaps and bounds.

"Master Konoha is absurdly praised. It is his own efforts that the child can achieve today, and he has not done much to contribute." Yun Dongguang was surprised that Master Konoha personally said to himself. What does this mean? Master Konoha is obviously very optimistic about Yun Mengze, and even plans to focus on cultivating Yun Mengze in the future, otherwise an ordinary member of the refining division will not be able to let him

The old-fashioned Master Konoha joked directly with excitement.

"This Yundongguang is really bad luck." Tianxing Zhenren's face is a little ugly. He supports Qin Chen, because Qin Chen even has a gap with Yundongguang, even though the eternal life behind him Lou makes him not afraid of Yundongguang at all, but once Yunmengze joins Tianjiao, he becomes Tianjiao

The big man in China, then he, the sub-host of the Wangu Tower, will also have a lot of trouble.

"Little brother Qin Chen, you can't let me down."

Zhen Xing Zhenren prayed silently. The only hope he has now is Qin Chen. As long as Qin Chen can successfully join the Refining Division, I believe the main building will not have any opinion on him.

At this time, on the entire square, almost the vast majority of warriors had already refined their own saint soldiers, and only Qin Chen was still refining.

Klang Klang.

Qin Chen continued to smash the hammer, and the terrifying formations merged into the refined Saint Soldier under his beating.

Finally, it was about the end of the fifth day.

boom!

On the refining stage where Qin Chen was on, an astonishing holy light soared into the sky, roaring, sweeping across the world with patterns of heavenly holy atmosphere.

"This is... the breath of Heaven? Half-infantry soldier? Another half-infantry soldier?"

Everyone looked over in shock.

But because of the previous shocking performances of Bai Yutang and Yun Mengze, everyone was mentally prepared for Qin Chen's ability to refine half-infantry soldiers.

However, this half-infantry soldier refined by Qin Chen, after exploding with an astonishing aura, suddenly became introverted. It was a sharp sword, which looked unpretentious, and the aura pressure on his body gradually weakened and became Ordinary.

Compared with the Saint Soldiers refined by Bai Yutang and Yun Mengze, they were clearly one level weaker.

Could it be that what Qin Chen refined was only pinnacle ground soldiers, not half-infantry soldiers?

Everyone was puzzled.

The sage soldiers refined by Qin Chen only exploded with an astonishing heavenly sage aura at the moment of forming, but immediately, this aura disappeared, instead it became innocuous, somewhat similar to other land-grade sage soldiers.

On the contrary, the sage soldiers of Bai Yutang and Yun Mengze still bloomed with a terrifying aura, and they were so bright that they immediately suppressed Qin Chen's sage soldiers, fighting against each other.

With the successful refining of the Qin Chen Saint Soldier, all 313 refiners on the field completed the refining.

Whoosh!

The examiner who worked in the sky fell instantly. "Congratulations, you all, you have completed the third round of assessment of my heavenly work. If you can get to this point, you are all outstanding among the heavenly craftsmen. However, refining sacred soldiers does not necessarily mean that you can enter my heavenly work. , I will wait for all

The princely soldiers conduct the final test. "

As the examiner's voice fell, a huge instrument appeared on the square.

A special appraising instrument for Tiangong.

Suddenly, the breathing of all the warriors in the entire square began to panic.

Every refiner present who can reach this step is the outstanding one selected from countless refiners.

The 313 refiners who entered the third round finally produced 257 soldiers, and the remaining dozens of them failed due to various reasons and were eliminated.

And among the two hundred and fifty-seven people, as long as the refining Saint Soldier score is more than 60 points, they can successfully join the Heavenly Work, and the future will be bright.

"Now, please follow the order of successful refining, bring your own holy soldiers to the appraising instrument, put the holy soldiers on the appraising instrument, and put your hands on the test area above the appraising instrument for performance evaluation. ."

Accompanied by the examiner's order, the refining master who was the first to refine the Saint Weapon could not help but cautiously approached the Appreciation Treasure Yi.

"This is Master Long Shangyuan of Longguicheng, a half-step heavenly sage, the pinnacle refiner in the mid-level of the land. The weapon he refined seems to be the pinnacle level of the land. I don't know if it can pass the assessment." Every refiner in, has a loud voice, and as soon as the first person came up, the crowd secretly guessed nervously.

[Chapter 2725: Sixty-nine points](#)

I saw that Long Shangyuan was refining a war knife. Among other attacking sage soldiers, the saint weapon of the knife type was relatively easy, so it was the most refined.

He took a deep breath and placed the holy soldiers on the appraising instrument, and put his hands on the testing area above the appraising instrument.

Hum!

A ray of light simultaneously enveloped Long Shangyuan and the Saint Soldier below him.

The next moment, Jian Baoyi lit up, and a number appeared.

"Thirty-nine points!"

This...Everyone is dumbfounded, thirty-nine points? Is this too low? According to the regulations of the work of heaven, one must reach sixty points to pass the assessment. In the eyes of everyone, Master Long Shangyuan is able to refine the holy soldiers at the mid-level peak of the land.

It's amazing, no matter whether it is passed or not, it should be a big difference, but no one thought that it was only 39 points.

So what kind of holy soldiers must be refined to achieve 60 points?

"Thirty-nine points, sorry, you were not selected by our daily work, as for this holy soldier, it is my daily work to encourage you."

The examiner said in a deep voice.

Long Shangyuan showed a bit of bitterness on his face, but he dared not make any rebuttals, and turned away with the holy soldiers.

And Long Shangyuan's failure also made other refiners on the field nervous. Everyone understood that this third round of assessment is not to refine the Saints even if they succeed. The final performance assessment is far more than they thought. Be cruel.

With Long Shangyuan's first inspection, the craftsmen behind did not hesitate to step forward.

"Forty-five points, no pass!"

"Forty-seven points, no pass!"

"Forty-one points, no pass!"

"Fifty-three points, no pass!"

As a famous refiner stepped forward, the results of each refiner were also presented, but what was shocking was that after a dozen or so refiners were tested, not even one passed the assessment. .

The highest one is only fifty-seven points. This is a peerless earth saint-level refiner master, who has refined the saint soldiers of the later stage of the land, but it has not passed the assessment, which is unbelievable.

The reason was that the master craftsman who refined the late-stage Saint Weapon of the land grade selected materials from the pinnacle of the land grade.

This is too difficult.

Countless refiners have changed color.

A dozen people, none of them passed, the probability is too low.

"drop!"

At this moment, a voice sounded, and a number appeared on the treasure instrument.

"Sixty-five points!"

"It's Elder Yu Haoguang of the Yunzhou Pavilion." "Elder Yu Haoguang is a half-step celestial sage. This time he refined the sage soldier of the pinnacle of land quality. However, his sage soldier only used two land sages. There are eight kinds of materials at the pinnacle, all of which are materials of the late and mid-stage land grades. No wonder they have such high scores.

number. "

The crowd became excited.

This is the first passing score so far. It not only means that someone has passed the assessment of the day's work, but it also gives the following refiners a shot.

At least, Tianjiao's assessment can still pass, not fail.

"Congratulations, please step aside first. When the assessment is over, the elder Konoha of my refining division will meet you." The examiner laughed, with a gentle smile.

Passing the assessment means that everyone is the same disciple in the future, and naturally there will be no arrogance.

"Thank you."

Yu Haoguang was also very excited. His veteran half-step Heavenly Sage, his legs were trembling when he walked down.

Excited, so excited.

This is a day job. The reason why he signed up for the Tianzuo assessment is to know his limits. If he does not join Tianzuo, and relying on his own research and communication with the strong in the cabinet, I am afraid that he is already at the limit in his life, even if his cultivation level can have a chance to break through. day

In the holy realm, it is also difficult to reach the heavenly rank in the way of refining tools.

As the deputy chief of the Yizhou Pavilion, even the end.

But now, he has successfully joined Tianjiao, which means that in the future, he will have a great possibility of becoming a Tianpin refiner. How can he not be excited?

"congratulations."

"Elder Yu Haoguang, congratulations."

As soon as Yu Haoguang walked down, countless people's congratulations sounded one after another, and Yu Haoguang was also excited again and again.

Next, the assessment continues.

A top-notch master refiner stepped forward, all nervous.

Unfortunately, most of them are still eliminated.

Think about it, too, as a half-step celestial sage, Elder Yu Haoguang refined the holy soldiers of the pinnacle of geography, and only used two materials of pinnacle geography, and only sixty-five points, which shows that he wants to reach six. How difficult is it?

Of course, it is not completely passed.

After Yu Haoguang, some people passed the assessment one after another, basically with scores in their early sixties.

"Sixty-nine points!"

Suddenly, a high score appeared.

"Hey, he is the master of chanting of Tianhe Zhenzong."

"Master Qu Yueyong is a half-step celestial sage, a master craftsman at the pinnacle of geography. This time he refined the sage of the pinnacle of geography, but only used a material of the pinnacle of geography. No wonder he has such a high score. ."

"Awesome, this result is the highest in history."

"too strong."

Everyone was excited. Sixty-nine points, the highest score.

The Tianhe boss of the Tianhe Zhensect almost didn't jump up with excitement.

"Hahaha, this is the master refiner of my Tianhe Zhenzong." He laughed and said excitedly to the other powerful men beside him, his smile almost turned his face into a chrysanthemum.

The ability of Qu Yue Yong to join Tian Gong is of great significance to Tianhe Zhenzong.

The old monster Tianhe was excited, the face of the Tianxu ancestor of the ancient Xu family, and the real face of Tianlong at the Tianlong Temple were difficult to look at.

Tianhe Zhenzong was originally the number one sect in the realm of Yunzhou, and now there has been a master craftsman who joined Tianwork. This is definitely not good news for their other Yunzhou forces.

However, after the excitement, the old monster Tianhe became a little depressed.

Why is the son of Yundongguang, the lord of Yunzhou Prefecture, also a top crafting master? Moreover, he is also an enchanting refiner.

If Yun Mengze is not enchanting enough, he has Hequyue Rong in Tianhe Zhenzong, and he can even be equal to the lord of a state.

But now, I am afraid it is still so much worse.

The assessment continues.

Next, it was the turn of Wuzhou training and masters.

This is a strong heavenly saint, can be regarded as the top one among the many appraised refiners, his cultivation is extremely terrifying, even reaching the realm of heavenly saints, it is a heavenly saint.

In the final round, he succeeded in refining the Saint Soldier at the pinnacle of the terrain. The Saint Soldier's aura was terrifying, even second only to the few Tianjiao who refined half-infantry soldiers like Bai Yutang. The cultivable and the master are still very nervous.

[Chapter 2726: One is higher than one](#)

The cultivation and cultivation base restricts his future. He himself is a sage of the world, but he is only a holy soldier who refines the top of the land, and naturally appears weak.

Yitian's work is so powerful that he doesn't care about an ordinary Tiansheng early powerhouse. Only the top refiner Tianjiao can attract them.

Can I pass the assessment?

He carefully placed the Saint Soldier, and put his hands on the Appreciation Treasure.

Not only is the training and the master nervous, but everyone else is equally nervous.

drop!

There was a flash of light on Jian Baoyi, and a number appeared.

"Sixty points!"

"I... I passed?"

For a moment, Yu Cheng and the master were dumbfounded, and he was a world-famous sage, and even almost cried out of excitement.

"Haha, I passed, I passed."

He was so excited that he couldn't get more excited.

"Congratulations."

The examiner also laughed. Although it was only sixty points, it was considered to have passed the examination. As a fellow in the future, he would naturally treat him equally.

"Thank you, thank you."

Nurturing and respectfully saluting to the examiner, quickly retreated excitedly.

So far, a total of nine people have passed the assessment.

The highest score was Qu Yue Yong's 69 points.

After everyone's discussion, it was finally Bai Yutang's turn to test.

"Hey, it's finally my turn, Xiaoye, let's see how many points Xiaoye my Saint Soldier can get?"

Bai Yutang walked forward very easily, put the half-infantry-level battle axe on the Appreciation Treasure, and then touched it with both hands.

Hum!

The light flashed, and Jian Baoyi suddenly heard a clear voice.

"Eighty-five points!"

A line of eye-catching characters appeared on Jian Baoyi.

Eighty-five points?

Is everyone dazzled?

The audience suddenly flew the pot, and countless comments were heard.

The previous highest score was only sixty-nine points. Bai Yutang suddenly improved his score so much, reaching 85 points. Many people couldn't believe their eyes.

Above the sky, Master Konoha smiled.

This score is expected.

Although Bai Yutang used materials from the Heavenly Grade, Jian Baoyi inspected not only the rank of the saint soldier, but also the cultivation base of the warrior.

If Bai Yutang uses the heavenly grade materials to refine only the holy soldiers at the peak of the earth grade, then I am afraid that the score will only be 70 points. Floating, not even passing.

But what he refined was a half-infantry soldier.

Jian Baoyi judged Bai Yutang's age and realm based on Bai Yutang's cultivation level. At his age and realm, he produced half-infantry soldiers, 85 points, and he deserved it.

As for whether the materials used are of the highest quality, it is not important anymore.

"Eighty-five points, so-so."

Bai Yutang proudly said.

"Bai Yutang, congratulations on passing the assessment."

The examiner also had a gentle face and a smile, and his eyes even looked at Bai Yutang with a hint of admiration.

In the heavens, the strong are respected, and Bai Yutang refined half-infantry soldiers based on the half-step heavenly sage cultivation. In the future, the position in the heavenly work will definitely be higher than him, and the attitude will naturally become respectful.

"Next, Yun Mengze."

Next, Yun Mengze stepped forward.

Everyone's breath is held.

Bai Yutang scored eighty-five points, so what about Yun Mengze?

Both are half-step heavenly saints, and half-step heavenly soldiers are also refined. Between the two, which is stronger and weaker?

drop!

On the appraising instrument, a light flashed, and a number suddenly appeared.

"Eighty-seven points."

hiss!

The sound of air-conditioning in the crowd came one after another.

Eighty-seven points, even two points higher than Bai Yutang.

"This is impossible....."

Bai Yutang's face suddenly became hard to look, his small eyes widened.

He was a little bit ahead of Yun Mengze in the first two rounds. Why is he not as good as Yun Mengze in the third round?

Although it was only a two-point gap, Jean gave Bai Yutang a heavy blow.

"Impossible, there is absolutely a problem here, how can a little Yunzhou Zhouzi surpass Xiaoye me in the way of refining tools?"

Bai Yutang frowned.

Even if he was surpassed by Yun Mengze in the first two rounds, he would not have this kind of performance. This third round is a whole process of refining. Yun Mengze's performance is actually higher than that of him. Doesn't that mean Yunmeng Ze's refining talent and attainments are better than him?

How can he accept it?

"Sorry, Hall Master Bai, the score represents everything."

Yun Mengze breathed a sigh of relief, turned his head and looked at Bai Yutang, smiling, as if two good friends were greeting each other.

"Humph."

Bai Yutang gave a cold snort and ignored it.

"What the **** is this Yun Mengze?"

He frowned and looked at Yun Mengze. He was not someone who could not afford to lose, but he always felt that Yun Mengze was weird. The results of Bai Yutang and Yun Mengze shocked everyone, and Yun Mengze's score of 87 points made countless Yunzhou martial artists excited. They Yunzhou Zhouzi surpassed Guanghan. How glorious is the young master of the Palace Museum

?

This is already the final assessment score, and there will be no further changes, determining who is the real first refiner genius.

The Yunmengze test is over, and only a few people have not tested it.

However, only one of the following people passed the assessment.

Only the last Qin Chen has not tested.

Since then, 255 of all 256 refiners have been tested, and a total of 12 have passed the assessment. This probability is too low and too low.

After all, the tens of thousands of refiners who came here to participate in the assessment are all from Yunzhou, as well as from the countless large states near Yunzhou. Among so many refiners, only twelve have passed the assessment. terror.

After a while, it was finally Qin Chen's turn.

Everyone's attention was once again attracted.

The three great arrogances.

Qin Chen was the last one, and Qin Chen won the first two rounds with absolute crushing attitude, so what about this last assessment?

Everyone was nervous. Qin Chen finally refined the aura of the saint soldier, which was comparable to a half-infantry soldier at first, but later, the saint soldier aura was restrained, so no one knows whether Qin Chen refined a half-infantry soldier or the pinnacle peak. Saint soldiers, but no matter which

, Passing the assessment is a sure thing. What everyone expects is how Qin Chen will pass the assessment.

Under the eyes of everyone, the Saint Soldier in Qin Chen's hands was finally placed on the Appreciation Treasure Yi, and at the same time his hands reached up.

Hum!

The light flashed, and Qin Chen was enveloped by Jian Baoyi's light.

Everyone held their breath.

I saw that Jian Baoyi calmed down for a while.

Soon.

Di di di di!

Appreciation Treasure Instrument, which had been dull without a trace of movement, suddenly burst out with a rapid tweet.

At the same time, rays of light continued to shine on the surface of Appreciation Appreciation. Under everyone's horrified eyes, a score was clearly presented above Appreciation Appreciation—

"One hundred points!" Full marks!

[Chapter 2727: I am not convinced](#)

"One hundred points!"

These three huge numbers, together with Jian Baoyi's special performance, twinkling light, instantly doubled everyone's eyes.

"Full score? This is impossible!"

"What's the matter, is there something wrong with Jian Baoyi?" "Even Qin Chen has refined half-infantry soldiers, at most it is the same as Bai Yutang and Yun Mengze, between eight and nine minutes, right? Now it has got a perfect score of 100 points, and the aura of a holy soldier refined by Qin Chen seems not as good as Bai Yu

Tang and Yunmengze's holy soldier's breath, right? "

The crowd was shaking, and everyone was going crazy.

Countless discussions and noises blasted from above this square, like the sound of rolling thunder, straight into the sky.

No one expected that Jian Baoyi's evaluation of Qin Chen would be such a result.

Seventy, eighty, or even ninety points.

These results are acceptable to everyone, the only unacceptable one is 100 points.

"One hundred points, this is the full score measured by the verification instrument. That is to say, this appraising instrument, whether in terms of age, cultivation base, material, refined sage soldier level, etc., thinks that Qin Chen has no flaws. And mistakes, how can this be possible?"

Even Master Konoha jumped up, unable to maintain his composure.

Because the value of one hundred points is theoretically impossible, it must be perfect in all aspects to have this number. Even if he, the elder of Guanghan Futian, came forward, it was impossible to get this Achievement.

Even Master Mu Gutian, who has been extremely calm from the beginning of the game to the present, suddenly stood up, frowning, and very puzzled.

This result is really exaggerated.

"This is impossible, something must be wrong, Jian Baoyi has a problem, yes, Jian Baoyi has a problem." Yundong Gwangju's lord also couldn't keep calm, angrily.

The entire game venue is noisy like a vegetable market.

"Master Konoha!"

Even the assessing examiner didn't know what to say, so he hurriedly raised his head and looked towards the sky.

Boom!

Above the sky, a terrifying breath descended, it was Master Konoha, and immediately, countless days of staff maintaining order saluted respectfully.

Master Konoha walked to Jian Baoyi and directly picked up the sword-shaped saint soldier refined by Qin Chen.

As soon as this Saint Soldier started, a cold feeling passed into his hands. The first thing that Master Konoha felt was Ling Li.

Qin Chen is a sage soldier, but the aura that it escapes is indeed only between the peak sage soldier to the half-infantry soldier, and it does not seem to be able to get full marks. The appraisal of the holy soldiers requires certain procedures. It is necessary to appraise the strength, toughness, destructive power, etc. of a holy soldier from various angles. Even Master Konoha can only understand the holy soldiers by simply sensing the breath of the holy soldiers. The rank of soldiers

Is there really something wrong with Jian Baoyi?

Master Konoha frowned and carefully checked the treasure rites.

"There is no problem with Jian Baoyi."

Then, he shook his head, and the treasure instrument was intact, without any problems.

This result made countless people who had thought that there was a problem with the Appreciation Device, staring at each other.

How is this possible?

If Appreciation Treasure is okay, is it possible that Qin Chen has really refined a Saint Soldier with a perfect score?

Everyone looked at the Saint Soldier in front of Qin Chen. This was a very simple and unpretentious Saint Soldier. Although it seemed not ordinary, the aura, the fixed amount, was the level of the Saint Soldier at the top of the land. How could it be so high? The score?

"I'm not convinced!" Suddenly there was a shout of anger on the square. Yun Mengze's face was flushed, and his face was unwilling to say: "The blood shadow crazy knife I refined is about form and power. , In terms of momentum, which one is not weaker than the weapon refined by Qin Chen? Why is mine?"

The Blood Shadow Knife had only eighty-seven points, but Qin Chen could actually get one hundred points? "

If the Saint Soldier refined by Qin Chen is indeed stronger than his, Yun Mengze will not be arrogant no matter how angry he is, but now, he is sure that his Saint Soldier is stronger. If the champion is given to Qin Chen, he will Everything was wasted.

He wants to fight hard and pull Qin Chen off his horse. Master Konoha frowned, glanced at Yun Mengze displeasably, and said lightly: "This third round of assessment is not evaluated by us, but tested by the appraiser. This appraiser is It's a special job for me, it's absolutely fair

Since Jian Baoyi gave this score, it makes sense. ""fair? "Yun Mengze was unwilling, with an excited expression: "Master Konoha, it's not that I want to get along with Qin Chen, but the saint soldiers refined by Qin Chen are far inferior to me in terms of form, breath, and pressure." But the grade given should be higher than me

, And still a ridiculous full score, in this way, how to convince the public? If it can't be proved clearly, wouldn't it be a joke to make Tianjiao's appraisal of the refiner? "This is not only unfair to me, unfair to Bai Yutang, but also unfair to the tens of thousands of other examiners present. I have reason to suspect that Qin Chen cheated, not only in this scene, but now it seems. , In the first and second rounds

Must have cheated too. "

Yun Mengze said angrily.

boom!

His words immediately drew the discussion from countless refiners.

Indeed, regardless of whether it is viewed from side to side, Yun Mengze's blood shadow crazy knife and Bai Yutang's battle axe are more powerful in aura than the sword-shaped saints refined by Qin Chen, and the heavenly holy laws linger, that breath , Forever.

But in the end, it was Qin Chen who got the highest score with a perfect score of one hundred. This indeed had a huge impact on the fairness of Tianwork's assessment.

The key is, if Qin Chen's last round of results has a problem, then his previous two rounds of results, is there no problem? "It is indeed a little strange. In the first round of assessment, Qin Chen was originally the last, but suddenly, the speed accelerated, from the last to the first, he thought that Qin Chen was Recharge your energy, watch now

Come on, will there be a real problem? "Not only the first round, but the second round is also very weird. Each of the twelve materials is extremely difficult. If you want to activate it, you can't do it easily. Even the young master Bai Yutang and Yun Mengzezhouzi can only be activated one by one. But Qin Chen,

At first, none of the materials were activated, but at the last moment, it suddenly broke out and activated all the twelve materials at once, which was too fake. "

"Could it be that he cheated in all three rounds?"

"Isn't it possible? If you cheat, wouldn't the examiners who work day see it?"

"Then how do you explain Qin Chen's full score in the third round?" "I thought of a possibility that Qin Chen's rumors were of unknown origin. They weren't from Yunzhou, but they suddenly shook the world in my Yunzhou. Where can the forces cultivate such a Tianjiao? No, this Qin Chen is actually a character cultivated by Tianjiao, so he deliberately set up such a hidden child and appointed the champion of the assessment by himself?"

[Chapter 2728: Nameless sword](#)

On the square, all kinds of discussions were endless. Even to the back, what Qin Chen had decided by Tianzuo, deliberately let him win the championship, it was Tianzuo to accumulate popularity, and the conspiracy theories for the annexation of Yunzhou and Guanghan Mansion came out. .

Master Konoha's face is ugly, Yun Mengze put the Tianjiao on the fire, and if it is not handled well, the reputation of Tianjiao will be greatly damaged.

"Then what do you want?"

He looked at Yun Mengze coldly.

Although Yun Mengze has amazing talents, his aggressive and questioning attitude of the game rules makes Master Konoha extremely unhappy.

"The disciple doesn't want to be so good, just to compare with Qin Chen to see whether the sacred soldiers refined by each other are strong and weak. Only in this way can we rectify the name of Tian Gong and all the refiners present."

Yun Mengze said coldly: "As long as the power of the Saint Soldier refined by Qin Chen is indeed above my Blood Shadow Mad Knife, no, as long as it's no different from my Blood Shadow Mad Knife, then there is nothing to say. , Ganbai downwind."

Everyone thought, this idea is not bad.

Master Konoha's face sank. Although this idea sounds good, once it is implemented, it clearly means that there may be loopholes. How can he agree?

As soon as he was about to refuse, he heard a laugh.

"Hahaha, Yunmengze, did you do everything possible to fight me? I agreed."

Qin Chen, who had not spoken, suddenly walked out at this moment.

Boom!

An aura of dominance in the world suddenly bloomed in him.

"Qin Chen..." Master Konoha's expression changed. "Master Konoha, step back. Now this matter is not only related to your daily work, but also to my reputation. What is this Yunmengze? Rubbish-like waste, and I dare to doubt my craftsmanship. Achievements, really do not live or die.

"

"What are you talking about?" Yun Mengze brows brows, murderous lingering, staring at Qin Chen. Qin Chen smiled coldly and seemed to be stating a simple fact: "Isn't it? What kind of blood shadow crazy knife of yours, but a half-infantry soldier, looks murderous and extraordinary, but in fact, it is shit. There are many loopholes in the refining process

Come out, if I can't match these flawed junk weapons, then just go home and take the kids. What kind of martial arts are you doing? "

"Full of loopholes? Junk weapons?" Yun Mengze's face was cold and frosty, "I've heard someone comment on my sage soldier, saying that it is full of loopholes. Very good, full of loopholes... ..I have refined a half-infantry soldier, but what about you?

Sword, what qualifications do I have to evaluate my refinement attainments? "Half-infantry, is it great?" In my opinion, the holy soldiers refined by Baiyutang are so-so, but they are more than ten times stronger than your holy soldiers. What are you not rubbish? Qin Chen shook his head: "Since you have offered to compete,

Then this young man has fulfilled your wish. How about you use your blood shadow crazy knife to kill me? I'll use the nameless sword in my hand to resist, and see if you can get me? "

Hum!

As soon as Qin Chen said these words, it immediately caused a sensation in the audience.

Everyone was excited, Yun Mengze used his own saint soldiers to kill Qin Chen, while Qin Chen used his own refined saint soldiers to resist. In the battle, the saint soldiers were strong and weak, naturally it was clear.

This is also the principle of the world, whether the sage soldier is strong or weak is not a statement, but a true comparison.

"Damn, you two are arguing, why did you get involved with me again?" Bai Yutang's eyes flickered, but he didn't say a word. It couldn't be better to sit on the mountain and watch the tigers fight. What's more, he also felt that Qin Chen's grades are a bit too much, and Yun Mengze's score is higher than him. He is also a little skeptical, just taking this opportunity to distinguish

true and false.

"Okay, okay, Master Konoha, you heard it too, it's Qin Chen who wants to compete with me. Today, I'm going to see what kind of ghost he refined, and he can get 100 points."

Yun Mengze was full of murderous intent, hum, the blood shadow mad knife in his hand trembled slightly, and the terrible blood flooded out.

"Stop it." Master Konoha said coldly, how could he agree to such a thing.

"Let them compare."

At this moment, an indifferent voice came from the sky and spread across the square in an instant.

It's Mu Gutian.

Hearing this voice, Master Konoha who was about to do it was stunned for a moment, glanced at the sky, and stepped aside.

"Hmph, since you both want to compare, then do it." Master Konoha suppressed his anger.

"Who was talking just now? Even Master Konoha nodded?"

"In one sentence, it changed Master Konoha's decision. Is it the top executive of Tianjiao?"

"Which person has such authority?"

"Stop talking, look at it, Qin Chen and Yun Mengze are about to meet."

In the center of the venue, an invisible murderous aura filled the air, the air almost solidified, and everyone felt a sense of suffocation. Qin Chen sneered and looked at Yun Mengze, as if a terrifying battle would erupt immediately. "Okay, very good. Qin Chen, although the things you refine are very ordinary, but you have a lot of courage, no matter what, I will give you a knife today, let you see if it is my holy weapon that is full of loopholes, or The holy soldiers you refined are vulnerable. And,

In the martial arts competition, there will always be a miss. If I miss you and kill you, don't complain. If you want to blame, blame you for not knowing what is good or bad. "

Yun Mengze put the Blood Shadow Knife Sword across his chest, and the clothes all over his body were windless, and the hunting sounded. The sky above his head was slightly gloomy, and a terrible cold ****

aura suddenly filled, above the blood shadow crazy knife, **** rays bloomed, and the terrifying half-infantry aura suddenly erupted, endless aura. Condensed in madness

. Everyone knows that the next blow will definitely be earth-shattering, killing the eternal, Yunmengzezhouzi is originally the number one arrogant of Yunzhou. When he was peerless, he could fight the half-step heavenly sage, and now break through the half-step heavenly sage. After that, use this blood

Shadow Crazy Knife, how terrible is the cut? No one dared to predict, I am afraid that even the Heavenly Sage would not dare to resist directly. "The novel is nonsense. You are just taking this opportunity to do something to me. Do you think I can't read it? Well, anyway, Ben Shao is with your Yun family, immortal, do it early, see if it's your blood shadow crazy knife chopping The nameless sword that broke me is still mine

The nameless sword accidentally chopped off your head. "Qin Chen waved his hand, his tone was very impatient, and a cold light flashed in his eyes. Yun Mengze thought he had grasped his loopholes. He would not know that his recklessness had already sent him to hell. the road.

[Chapter 2729: Pick me up](#)

"Very well, then take me a knife." The power in Yun Mengze's body condensed crazily, and around the blood shadow crazy knife, a series of terrible blood flashes, birth and death, death and birth, in the **** light, An astonishing hostility erupted, and an invisible sword aura rose into the sky.

Numerous cracks were cut into the ground of the square.

Yun Mengze's whole person seemed to be integrated with this sword, merged with the heavens and the heavens, and he himself was the sky and the sword.

Boom!

Suddenly, the whole world was dark. Yun Mengze finally came out of the sword, and on the blood shadow crazy knife, an astonishing suffocation rushed into the sky, covering all the directions where Qin Chen was located. In this moment, everyone felt that the surrounding world had disappeared. In front of me, only Yun Mengze was afraid

With a terrifying knife, all the other five senses disappeared.

"It's a terrifying knife." Everyone is shocked. They all know that this is not the darkness of the world, but the knife that Yun Mengze used to seal off everyone's five senses and incorporate endless murderous aura into it. The lamb under this sword lost five

Feeling that everyone is ignorant of their presence, as if being banished into eternal nothingness.

Fortunately, it is not himself who is fighting against Yun Mengze.

At this moment, everyone had horrifying thoughts in their minds, and even many half-step Heavenly Sages were shocked. They had a feeling that under this knife, they had no resistance. Ashes are gone.

Not only them, but even some heavenly sages are shocked. This knife can definitely hurt them. How could Yunzhou Zhouzi be so strong?

Even they felt strenuous and fearful, what about Qin Chen? Can you stop it?

boom!

In the endless darkness, the battle sword fell and came to Qin Chen's head in an instant. This knife could almost split the world, as if to completely shatter Qin Chen into endless dust.

"This is the power of your Blood Shadow Mad Blade?"

At this moment, in the endless darkness, a cold sneer sounded.

It's Qin Chen!

The moment when the sword was about to strike Qin Chen completely.

when!

The Nameless Sword in Qin Chen's hand finally moved, and it appeared on his forehead like a sharp one, and suddenly stopped the Blood Shadow Mad Sabre.

Boom boom boom! The horrible explosion awakened everyone from the endless darkness, and then everyone saw an unforgettable horror scene. Yun Mengze urged the blood shadow crazy knife, and only saw the void, which seemed to be able to bring the entire Yunzhou prefecture Terrifying blood

The shadow of the knife swept down like a wave, constantly blasting towards Qin Chen.

But Qin Chen didn't move.

He was holding the nameless sword, and on the nameless sword, all rays of light bloomed, forming an eternal capital. All the attacks of the blood shadow crazy sword poured into that kingdom, exploding continuously, but could not shake Qin Chen.

"Impossible!" Yun Mengze roared, all kinds of weird powers in his body were continuously released, and immediately, the blood shadow crazy knife soared to the sky, urging the half-infantry force to the extreme, on the blade, one by one. Dharma rune is activated, blood is as light as ocean, swallow

Nothing.

But on Qin Chen's Nameless Sword, there was also a flash of light, no matter how the Blood Shadow Mad Sword surged, it remained motionless without any damage.

Half-infantry! Everyone was shocked, they all saw that the reason why Qin Chen was able to stop Yun Mengze's attack was not only because of Qin Chen's own strength, but also because the nameless sword in Qin Chen's hand was actually half a handle. Infantry, inside

After the array talisman was activated, an unprecedented breath of weather erupted immediately.

"Yun Mengze, this is the half-infantry soldier you refined. It's too ridiculous and too disappointing. That's right, trash is trash. Can you expect trash to have any surprises?"

Qin Chen said with a sneer.

"Qin Chen, don't be crazy, yes, you have also refined half-infantry soldiers, but that's all, how can you be better than the half-infantry soldiers I refined?"

At this time, Yun Mengze still did not admit defeat.

"Haha, half-infantry soldier? Now let you know why Jian Baoyi gave me 100 points."

Qin Chen held the sword in both hands and roared swiftly: "The nameless sword, 卍jie!"

boom! The nameless sword in Qin Chen's hand instantly shined brightly, and endless sword aura soared into the sky. Sky-defying runes floated from the body of the sword. The aura of the nameless sword that was originally just a half-infantry rose sharply. Turned into a tongtian

The giant sword shakes the mighty sky.

"Holy Soldier!"

Everyone raised their heads in horror and went backwards crazy under the terrifying pressure of the Nameless Sword.

The vigor of the nameless sword swept across, and a heavy explosion occurred in the void around Qin Chen, and some of the warriors who were close back crazily retreated, hurt by the sword aura, and vomited blood.

"Holy Soldier."

"Such pressure is definitely a holy soldier of heaven."

Everyone was shocked to see Qin Chen, who was urging the horrible sword light, and his body and mind were hit by an unprecedented shock.

Wow!

Under the eyes of everyone, the blood shadow mad knife in Yun Mengze's hand trembled crazily under the momentum of the nameless sword, and the next moment, cracks filled the blood shadow mad knife.

"No, it's impossible, how can you refine the Heavenly Grade Saint Weapon."

Yun Mengze's eyes were blood red, and he shouted frantically.

boom!

What responded to him was the explosion of the Blood Shadow Mad Blade. Under the breath of the Nameless Sword, the Blood Shadow Mad Blade couldn't hold on anymore. It exploded in an instant, and countless blade fragments splashed around.

The difference between the blood shadow mad knife and the nameless sword.

puff!

Yun Mengze spouted blood, and his figure retreated wildly in the void.

"If you want to retire, where to retire!"

Qin Chen's eyes were cold, his figure shook, and he ran after him like lightning, and blasted Yun Mengze with a punch.

fast! fast! fast!

Incredibly fast.

Qin Chen's fist was faster than Yun Mengze's retreat. In an instant, he appeared in front of Yun Mengze, showing an overwhelming advantage. His whole body was radiant, and his palms containing infinite power smashed. Fell down.

"you wanna die."

Yun Mengze roared, his hands surged with runes, and a fist slammed fiercely. On his body, countless qi appeared to protect himself, and a strong fist burst toward Qin Chen.

Qin Chen didn't move, letting Yun Mengze's attack hit, and his strength smashed down with his right hand.

boom!

Yun Mengze shook in the air, his whole body's qi disintegrated in an instant, and the power of his fists burst into pieces, fragile and vulnerable. At this moment, the half-step Heavenly Sage's original law in his body couldn't work. a feeling of.

"How can Qin Chen's strength be so strong?" His eyes were full of horror. His life was glorious, and he killed the enemy by leapfrogging. He has always only crushed others. He has never encountered such a tyrannical aura to oppress and be killed. Suppressed by death, the body can hardly move.

[Chapter 2730: Too violent](#)

"I surrender."

He yelled, and did not dare to neglect in the wild roar, his palms changed into countless palm shadows, and the vast fists were thousands of thousands, and they shot out in a row, like the ancient gods and demons, ruining the world, and the entire square shook violently. Numerous cracks appeared on the ground.

But Qin Chen sneered, the endless power in his body was working, and a wave of power brewed, exploded, and climbed in it.

Between the lightning and flint, Qin Chen waved the nameless sword in his right hand, and with a pop, the shadow of the sky full of fists displayed by Yun Mengze was instantly cut.

In an instant, Qin Chen just punched.

Boom!

With this punch, it was as if the **** of war came from the heavens, the world collapsed and fell into eternal darkness.

After that, everyone saw Yun Mengze's body, volleyed and scrapped, blood spurted in his mouth, his hands were broken, his limbs were severed, blood was dripping, and he was completely inhuman.

Huh!

A figure flashed, it was Qin Chen, holding Yun Mengze's head, and carrying it like a dead fish.

The whole process was long, but in fact, it was only a moment when the weapon that Yun Mengze refined exploded, and even the whole person was maimed, like a dead dog, carried by Qin Chen in his hands, and the blood kept dripping.

This brutal scene stunned everyone.

At the appraisal meeting of the refiner who was working on this day, Qin Chen was so cruel, he forcibly defeated a Zhouzi Tianjiao, too mad and arrogant.

"Qin Chen, stop!"

Master Konoha spoke in anger. He did not expect that things would come to this point. Although he was very upset with Yun Mengze's questioning Tian Zuo, how could the other party also be Yun Zhou Zhou Zi, and he was the examiner of Tian Zuo, and it was the second place in the whole assessment. First name if

Letting him be killed by Qin Chen here, the work of heaven will never end.

"Qin Chen, let go of Yun Mengze."

Master Konoha said angrily.

"Qin Chen, let go of my son."

Above the sky, a roar sounded, rumbling, it was the light of the cloud hole, rushed down, hum, the sky-opening axe appeared in his hand, he stared at Qin Chen in anger, the killing intent on his body was almost falling Even the water of the Tianhe River cannot be washed.

"Qin Chen, don't be reckless!"

"I have something to discuss."

"Let go of Yunmengze first."

In the sky, Zhen Xing Tian, Elder Chu Ye, Pavilion Master Wan Xinde and others also appeared, all pale, to discourage Qin Chen.

They were not afraid that Qin Chen would offend Yun Dongguang, but directly killed the second place in the evaluation meeting of Tianwork. Even if Qin Chen was the champion, he could not extinguish the anger of Tianwork's refining division. At that time, no one can save him.

It's not necessary at all.

"Master Konoha, everyone, this Yun Mengze must die today, not because he questioned me, but because he was the one who really cheated."

In the face of so many celestial sages, Qin Chen remained calm, calm as a mountain, and a strong killing intent suddenly flashed in his eyes.

"not good!"

Yun Dongguang's pupils shrank suddenly.

"dead!"

Qin Chen's eyebrows were cold, and he pinched Yun Mengze's head with his left hand, and was about to pinch Yun Mengze to death.

"stop."

Boom!

Yun Dongguang roared, his voice carrying arrogant power, an incomparable axe light penetrated.

It was the axe of the sky, he had been in power for a long time, and for this thunderous blow, he rescued Yun Mengze.

"Qin Chen, stop quickly!"

Others also yelled, even Real Person Tian Xing did not help Qin Chen, because even he did not want to see Qin Chen kill Yun Mengze. On this occasion, Qin Chen really wanted to kill Yun Mengze, a god. Can't save him.

They would rather Yun Dongguang rescue Yun Mengze, so everyone did not move.

But who knew that Qin Chen didn't move in the face of Yun Dongguang's attack.

"Just by you? Yun Dongguang, no one can stop this young man who wants to kill, and neither can you!" Qin Chen didn't even turn his head. On the nameless sword in his right hand, lawless aura leaked out, origin supernatural power, origin The sword of the sword was thrown out, and suddenly, above the sword light, it radiated radiantly, carrying the origin of the universe, and collided with the sky-opening axe.

together.

boom!

Yundongguang's Sky-Opening Axe smashed on the Unnamed Sword, and the Unnamed Sword trembled violently, but immediately, the Daluo texture on it gave out a solid divine light, which actually resisted the bombardment of the Open-Sky Axe without being All of a sudden.

The Heavenly Saint Soldier is irrefutable. "Who would dare to say that the holy soldiers refined by Ben Shao are not eligible to get full marks?" Qin Chen sneered: "Even my nameless sword can't be destroyed, and I want to stop me from killing people. Yun Dongguang, you are simply A joke, don't worry, wait for you

After Ziyun Mengze died, it was your turn immediately. "

After speaking, Qin Chen squeezed his left hand sharply and clicked, Yun Mengze was directly pinched and his body exploded, turning into a cloud of **** mist. Numerous half-step heavenly origin laws, all kinds of magical powers are in the blood mist. Central surrender, shocking.

Too cruel!

Too violent!

Everyone was stunned by this tragic scene, trembling all over, with round eyes.

"How could this happen? Then Qin Chen really killed Yunmeng Zezhouzi? Am I dreaming?"

"My god, that Qin Chen is too cruel. In the assessment of the work of heaven, killing Yun Mengze is lawless. It is really lawless."

"God, how dare this Qin Chen take the hand? Tianxue, this is a behemoth that Guanghan Mansion dare not offend. If he does this, he will die just like Yun Mengze." The countless refiners present, Heavenly Sage, Many warriors, all went crazy, with their superb cultivation, the depth of the top powerhouse, even "My God!" was called out. It can be seen that the shock at this time has given their minds.

The shock was left behind, and he became an ordinary person in an instant.

Zhen Xing Zhen almost fainted.

He originally thought that he had picked up a treasure to support Qin Chen and had a bright future, but he did not expect that this Qin Chen turned out to be a madman. He became crazy, and regardless of the occasion, he would kill like this and pierce the sky. Up.

When you associate with this kind of person, you have to worry about it every day, and you will lose at least 10,000 years of life.

The most angry person is still Konoha Master. "Qin Chen, you are lawless, too lawless. There is no way. I can't tolerate you. We can't tolerate you in our daily work. You are brave enough to openly kill the second place in the examination of Tiangong's crafting master. I can't help it. No way

Now, what can you do for me! "

He stared at Qin Chen in anger, trembling with anger, a good Tianjiao, the champion who was evaluated by the refiner, this time, all was ruined. Now, how can I still tolerate him? Even in heavenly work, he couldn't tolerate him. No matter how awesome Tianjiao was, he would even condemn himself because he had messed up the appraisal of the refiner.
