

Valkyrie 2731

[Chapter 2731: Very heartache](#)

Master Konoha's heartache, boundless heartache. When he saw that Qin Chen actually refined the Heavenly Grade Saint Weapon, he was completely impressed by Qin Chen's talent. Who wouldn't appreciate such a arrogant talent? The half-step Celestial Saint Cultivation base actually refined the Celestial Saint Soldier, just take it back and train

It's not difficult to raise or even recommend to the headquarters.

But now, everything was ruined, and Qin Chen was too impulsive. He actually beheaded Yun Mengze, the second place in the assessment, under the eyes of the crowd and countless assessors.

This kind of behavior is too bad. If this can be forgiven, wouldn't it be possible that the champion who is assessed by the work day can slaughter any player below the champion?

How to bear it?

At this time, even Master Konoha could not bear the consequences of this pediatrics department.

At this moment, everyone shook their heads and sighed. Tian Xing Zhenren, Master Mu Gutian and others all watched this scene in pain. Why, why should Qin Chen be so reckless?

"Ah!" Seeing Yun Mengze squeezed and exploded by Qin Chen instantly, Yun Dongguang roared in pain, his eyes turned red instantly, and he roared: "Master Konoha, my son is the refining tool for your daily work. Normal University, but was brutally killed by this Qin Chen here, this

Is it the way you work everyday? I'm not convinced by Yun Dongguang. Today, Qin Chen is not dead. I must go to this lawsuit, go to Guanghan Mansion, and go to your daily work headquarters. "

boom!

Endless killing intent shot into the sky from him, Yun Dongguang held the heavenly axe in his hand, killing intent boiled, his whole person was like a demon god, uttering an unprecedented unwilling roar.

"You have worked so hard to commit crimes, and you watched my son die tragically. I will personally repay this hatred by Yun Dongguang."

Following the order of Yun Dongguang, whoosh whoosh, countless powerful auras rose up in Yunzhou Prefecture. It was the powerhouse of Yunzhou Prefecture's main mansion, mighty, and countless powerful people surrounded him. Encircled the entire square to nowhere.

Hum!

Above the sky, horrible arrays of light rose up, and the Yunzhou State City Array was all activated in an instant, blocking the entire square, preventing anyone from leaving.

"Ugh!"

Master Konoha sighed, and the next moment, he waved his hand, and suddenly, a terrifying aura appeared. It was the heavenly workers who surrounded the entire square.

"Lord Yunzhou, I am responsible for the death of Yun Mengze, and I will definitely give you an explanation. Someone will take down Qin Chen."

He sighed and said that countless masters of heavenly work, together with the powerhouses of Yunzhou Prefecture, surrounded Qin Chen.

Among them, Elder Chu Ye also fell down instantly, sighing at Qin Chen, "Qin Chen, just grab it with your hands, don't make unnecessary resistance."

Needless resistance?

Qin Chen gave a wry smile.

why?

Why are these people so blind? He just wants to play with peace of mind. Why are there so many villains who try their best to step on him, then Yun Mengze, is it not good to be a runner-up with peace of mind? Relying on being a state child, can you rush into life? I just want to be good in heaven

Good practice, fighting against foreign enemies, just looking for a lover.

"Master Konoha, Elder Chu Ye, you guys take a good look, why on earth Yun Mengze can refine the sage soldier of half-infantry, do you really think he is a worldly arrogant?!" Qin Chen said, sneered. , In the blood mist of Yunmengze, a group of soul power was suddenly activated. Suddenly, painful and ferocious old faces appeared in the blood mist soul, and seven faces were roaring in pain.

With.

"Yun Dongguang, you must die."

"Yun Mengze, you actually swallowed the strength of my waiting for the assessment. I hate it. The old man will never let you go."

"Yun Dongguang, you despicable villain, you deserve death."

"Ah!"

Countless screams echoed between the heavens and the earth, like howling a ghost, and suddenly the entire Yunzhou Prefecture seemed to have entered the purgatory in an instant, with wind and wind, like a ghost.

"What? This face is... Master Nangong Shadow."

"Nangong Ying, the queen master of the state lord mansion?"

"This is his soul, why is it here?"

"There are others, who were all master craftsmen in the prefecture..."

Seeing the scene on the court, everyone's expressions changed, and everyone was in an uproar.

Some bad associations came up in their minds.

"this is....."

The expressions of Master Konoha and Master Mu Gutian also changed, and the two stared at the seven stern soul phantoms beside Qin Chen, frightened one by one.

This turned out to be the afterimages of the souls of some master refining masters, how could there be so many master refining soul ghosts in Yun Mengze's body.

"Master Yundong Gwangju, what is going on?"

Master Konoha roared.

"Damn it!" Yun Dongguang's face changed, and when he saw this scene, he said in anger: "Everyone, this is a blind trick that Qin Chen deliberately set up to frame the old man, the brat, and die for me."

With spring thunder in his tongue, a wave of power that shook the world was brewing on the sky-opening axe in his hand, and an axe light that pierced the sky rose into the sky.

"Everyone, follow me to kill this son."

Boom! The terrifying axe light surrounds his body, and Yun Dongguang shouts loudly. He did not expect that after Qin Chen killed Yun Mengze, he would release the remnants of the seven refining masters bound in Yun Mengze's soul. Furious, the heavenly sage in the body

The force bloomed violently in an instant.

"Kill, kill, kill!"

"Kill this son and avenge Yunmengzezhouzi."

"Kill this villain."

Many Yunzhou prefecture powerhouses have violently killed.

"Huh, good coming." Qin Chen sneered. Facing Yun Dongguang's Heavenly Sage's might, he didn't move at all. Suddenly raised his hand, the world's fortune jade disc evolving from the thief cave appeared suddenly, bursting out infinite space. The strength slammed toward the cloud hole.

"Yun Dongguang, you presumptuously acted as the master of Yunzhou, but you framed me as an ordinary warrior. The crime is very heinous. Today, this young master is going to walk the way for the sky and return Yunzhou to a bright universe."

Qin Chen's voice fell, and the Ten Thousand Pirate Caves burst out with a dazzling light. This Heavenly Sacred Treasure, various runes appeared, as if it had evolved into a vast country, bringing everyone in the audience into this country. .

"This is...the Cave of Ten Thousand Thieves, no, it is a treasure transformed from the Cave of Ten Thousand Thieves!"

"It's so strong, I've seen the Ten Thousand Thieves Cavern, but it's far worse than the treasure Qin Chen displayed."

"Heaven-rank sacred treasure, Qin Chen has actually refined this Ten Thousand Thieves Caverns to this level in just one or two months. No wonder it is too strong to be able to refine the celestial sacred soldiers."

"There are such amazing people in this world." Everyone yelled like crazy, and the shock was about to explode.

[Chapter 2732: Array of Purgatory](#)

boom! Under the gaze of all eyes, everyone was shocked to see that the Ten Thousand Pirate Caves displayed by Qin Chen collided with Yun Dongguang's opening axe, and they erupted with an astonishing roar. All the sharp axe of Kaitian

They all resisted.

Like thunder, everyone was shaking, almost unable to stand firm, and then retreated.

boom!

Under this terrible force, Yun Dongguang retreated again and again, the blood in his body was surging, and his face retreated seven or eight steps before he stabilized his figure. On the other hand, Qin Chen did not move, like a mountain, standing tall and powerful. Yun Dongguang's complexion changed suddenly. He had a fight with Qin Chen not long ago. Although Qin Chen blocked his attack at that time, he was obviously still struggling. But this time, he actually felt Qin Chen. The breath on the body is actually better than

I don't know where it was strong at the beginning.

How long has it passed since, is this kid's strength improved?

how is this possible? "No, I must not let this kid continue to grow up. I won't kill him this time, and I will die next time. I hate it. If I knew it, I should just kill him when he first arrived in Yunzhou. Yes, why did the 13th National Congress

Pirate shots. "

Yun Dongguang's heart was full of regret and annoyance. If he had done it himself, Qin Chen would have died long ago, and there was so much trouble.

Fortunately, it is not too late to react.

"All the people in Yunzhou obey the order and kill this child for me."

When Yundongguang's voice fell, the countless powerhouses in the entire Yunzhou Prefecture's city and state main mansion all moved, turning into meteors one by one, rushing towards Qin Chen.

Moreover, the entire state city's large array was activated, rumbling, and the terrible array of light turned into a purgatory-like prison, covering the countless powerful people present.

Boom!

The terrifying light cover pressed down, forming a series of strangling power against the sky, swept towards Qin Chen, and stunned the countless powerful heavenly saints present.

"Purgatory Array, this Yundongguang is crazy..."

"Does this want to refine all of us here?"

"No, this Purgatory Array is aimed at that Qin Chen, but it also envelopes all of us in the light. Obviously, if we dare to make any changes, this cloud and hole light will even target us."

"Lunatic, this Yun Dongguang is simply a lunatic, but now, when he is being evaluated by the Heavenly Work Refining Division, he is even shrouded in people who work in Heaven. Is he crazy?" A sound of anger sounded. Countless martial artists and refiners on the scene watched this scene in amazement. Yun Dongguang was completely crazy. The Purgatory Array not only encased Qin Chen, but also encased countless days of work experts present. This

It clearly means that no matter who it is, once he disobeys him, he must be killed.

If he really offends Tian's work, can he afford it? Everyone didn't know that Yun Dongguang was truly put to death and resurrected. The vision on Yun Mengze's body had already aroused Tianjiao's suspicion. Now he must kill Qin Chen immediately. Otherwise, once you wait for Master Konoha and others

After verifying the truth of Yun Mengze, he could not escape punishment, and Guanghan Mansion would not come forward to protect him at that time.

As long as he kills Qin Chen and destroys all the evidence, there may be a glimmer of life.

"dead!"

The endless rainbow light on Yun Dongguang's body bloomed, and on the Sky Open Axe, a mighty breath that opened up the world lingered, bringing countless top powerhouses in Yunzhou City to kill Qin Chen brazenly.

"Yun Dongguang, what are you doing? Stop it?"

Master Konoha yelled angrily, he already felt something was wrong, and was extremely angry that Yun Dongguang used the Yunzhou State City Restriction Array to restrain them. "Master Konoha, don't you understand? This Yundong is just about to destroy the corpses, huh, it's so bold. He even let his son refine seven top crafting masters, depriving them of their experience and cultivation skills. , This kind of sorcery, my human race doesn't have any,

Only among the demons have this kind of evil art, this is your heavenly work, completely ignored. "

Master Mu Gutian snorted coldly.

"Master Mu Gutian, what are we going to do now?" What a character Konoha, naturally saw the clues of the matter in an instant, and said in anger: "This cloud and light, bold and brave, everyone, follow me and grab it. "

After that, Master Konoha will lead the powerhouse of Heavenly Work to take action.

"Hold on." Unexpectedly, Mu Gutian stopped him.

"Master Mu Gutian?" Mu Gutian looked at him faintly: "Master Konoha, you are the man who works in Tian, but Yun Dongguang is the lord of Yunzhou after all. Although Guanghan Mansion allows you to work in Yunzhou every day Perform assessment, but it doesn't mean that you work hard, you can deal with Guanghan recklessly

The government's internal affairs are out, and it's not your turn to act here. "

"But..." "It's nothing, this Yunzhou prefecture ban was set up by Guanghan Mansion back then to resist the invasion of demons and bandits from the outside world, not to suppress the righteous generation, so this The state and city prohibition is blocked by this seat. As for its

He, just leave it to Qin Chen and Chen Dige. This is a conflict between the Yunzhou forces and does not require any external forces to take action. Look at it, then Qin Chen, perhaps no other forces need to help him. . "Mu Gutian's voice fell, and his figure suddenly appeared in the sky, buzzing, a series of formation patterns blooming from his hands, unexpectedly formed an invisible halo, completely resisting the atmosphere of the purgatory formation. Came down, then indifferent

Looking down, there is no plan to make a move at all.

"hiss!"

"Master Mu Gutian is really powerful. This purgatory formation is a celestial formation. It is infinitely powerful. Even if the Heavenly Sage is shrouded, it will be in danger, but in the hands of Master Mu Gutian, it can be easily resisted. "Tian Xu ancestor, Tianlong real person, Tianhe old monster and other top powerhouses in Yunzhou, each sucked in air-conditioning. They are also the masters of heaven and heaven in Yunzhou, but the reason why they are so in awe of the state main mansion, Dare not be hostile, the reason is because of this purgatory

Array. Yun Dongguang, the lord of Yunzhou Prefecture, controls all the restrictions and formations in Yunzhou Prefecture. Although Yundongguang itself is not much stronger than them, the three of them can also fight against Yundongguang for countless years. A heavenly power dare to fight

Yun Dongguang is coveted as the state lord because of this.

Yun Dongguang, who controls the entire state and city forbidden formation, can kill several of them or even kill them if he wants to.

Thousands of years ago, there was a Heavenly Saint force who wanted to challenge the position of Yun Dongguang's state lord, and was urged by Yun Dongguang to kill and refine the purgatory formation, and the entire force was wiped out. But now, Master Mu Gutian instantly resisted the entire Yunzhou forbidden formation, so how could they not be shocked and shocked?

[Chapter 2733: Horror Kendo](#)

And the words of Master Mu Gutian made the eyelids of other local forces in Yunzhou present.

The conflict between the forces in Yunzhou.

These are the original words of Master Mu Gutian. Obviously he has defined the conflict between Yun Dongguang and Qin Chen as a conflict of forces in Yunzhou. This is to promote Qin Chen as the head of Yunzhou. ?

For a while, the eyes of the old monster Tianhe and others flickered, and various thoughts and thoughts surged in their hearts, but in the end, no one dared to move.

Who dares to move at this time?

Even the real person Tianxing didn't do anything. He was a member of Wangulou, and he didn't even move about Tianxue for the time being. If he interfered with the grievances between Chendi Pavilion and the State Lord's Mansion, then his nature would change.

In an instant, the scene turned out to be bizarre and weird, and none of the top forces present at the scene had any actions, and they were all quietly watching the changes.

"Little dust, let's help you."

When Yun Dongguang led the powerhouse of the prefecture to kill Qin Chen, a roar sounded, booming, and from the crowd below, a famous powerhouse suddenly appeared, and the leader was Ao. strong. Behind him are the masters of the Chendi Pavilion, such as Ao Qingling, Qin Tingting, and Ancient Medicine Master. Even, some of the top masters of the Ao family who were originally in the cities of Cangxuan City and Ancient Language City quietly came to the state. In the city, in Ao

Under the leadership of Lie, he killed towards the sky.

The terrifying rules of the Heavenly Sage bloomed on Ao Lie. He was like a **** of war, leading countless Chendi Pavilion powerhouses, and rushed into the powerhouse of the state main mansion.

boom!

The two sides suddenly had a terrifying battle.

"You...you have been prepared!"

Yun Dongguang said in fright, his eyes were red, and Chendi Pavilion did not know when it was in Yunzhou State City when so many powerful people had gathered. He, the Yunzhou State Lord, didn't realize it until now. "Did you know? It's too late, Yun Dongguang. As the lord of Yunzhou, you don't manage Yunzhou well. Instead, you frame Zhongliang and persecute the powerful in Yunzhou, colluding with the top gangsters of Guanghan Mansion and helping him to abuse him. , Today, the young man wants to travel for the sky

Road, except violence and Anliang. "

Qin Chen's body suddenly flashed and turned into countless afterimages. These afterimages condensed unparalleled demeanor, and at the same time played his original magical powers against Yun Dongguang.

"The origin of all things, the birth and death of the universe, the line of life and death, the aura survives."

Countless origin auras enveloped the world, and finally, these origin powers turned into infinite power, merged into the nameless sword refined in Qin Chen's hands, and turned into the simplest move, the origin sword.

Hum!

The sword light that contained Qin Chen's strongest blow, brazenly cut out.

At this moment, no one can describe the damage caused by Qin Chen's blow. The axe evolving from the axe of the sky-opening sky split by Yundongguang, an inch-by-inch explosion, the holy yuan was blown backwards, turned into a mass of chaos, bang, the sky axe light shattered, and the clothes on Yundongguang crashed Shattered, revealing the heavenly product inside

A, the inner armor roared fiercely, and under the bombardment of the holy yuan, infinite power penetrated the inner armor's defenses and rushed into Yundongguang's body.

Before Qin Chen's nameless sword hit his body, the terrifying sword aura had evaporated Yun Dongguang's robe. If it were not protected by the inner armor, he would be unclothed and exposed. Everyone was in sight.

"What kind of horrible kendo is this?" Yun Dongguang, a world-famous figure, finally showed fear. His body, between the Shengyuan back shock, began to crack, the Shengyuan defense outside the skin, layers of collapse, eyes, The nose and mouth are showing blood, and the seven orifices are bleeding.
kind.

Qin Chen's sword aura could penetrate his heavenly rank inner armor and directly attack his physical body, completely devoid of his previous domineering arrogance.

"Sword of Origin!"

Qin Chen's sword finally landed on him.

puff!

No words can describe it, and no inner armor can resist the penetration of Qin Chen's origin power.

"Ah!" Yun Dongguang screamed, under the shock of the sword aura, his whole body split open, blood spurted wildly from his mouth, and he was shocked to fly out. The terrifying sword aura even penetrated his The internal organs, crisscrossing his internal organs, strangling everything

.

A sword is just a sword.

Qin Chen made a tough shot and severely wounded Yun Dongguang, a top master of the world-class sage-level master Yun Dongguang.

The rules of origin, even the Heavenly Sage master, must be jealous.

No one dared to imagine what happened before him.

All the powerhouses present were stunned, especially the masters of Yunzhou such as Tianhe Boss, who could not believe their eyes.

They are deeply aware of the horror of Yundongguang, the master of the heavenly sage, with a cultivation base, comparable to the peak of the early days of the sage, and is well-deserved first among the local masters of Yunzhou. Moreover, as the head of Yunzhou, he has a strong background. He possesses the inner armor of the heavenly rank in defense, which can withstand the bombardment of ordinary heavenly sages. In terms of attack, he possesses the heavenly treasure of heavenly rank axe, and his own unique knowledge is unbeatable. Hit it out

The earth fissures, like the peerless overlord descending into the world, everything will surrender under that domineering domineering, and dare not be enemies.

This is another reason why Yundongguang has been standing as the lord of Yunzhou for countless years, and no one dares to challenge.

But now, in the hands of Qin Chen, the half-step Heavenly Sage, Yun Dongguang was severely wounded with a sword. This kind of strong impact drove the old Tianhe monster and other Yunzhou native Heavenly Sage powers crazy.

They all knew that Qin Chen was very strong, but they didn't expect it to be so strong. Is this really a half-step heavenly saint? Even the powerhouse at the peak of Tiansheng's early stage, is not as scary as he is?

Boom!

In other places, Ao Lie urged Noah's Ark, and brought Ao Qingling and other strong men, who were also invincible among the strong men in the main mansion.

He is a heavenly sage himself, and possesses the heavenly treasure Noah's Ark. He has no fear of any master below the heavenly sage. Even facing a real heavenly sage, he dares to fight and does not fall under any disadvantage.

"No, it's impossible. How can you be so strong in only half a step? I'm not reconciled, what kind of supernatural powers are you? The eternal melting pot, take me as the material, the heavenly pill, the fusion medicine power, the blood shadow is overwhelming, Invincible." Yun Dongguang was smashed out, let out a stern roar, he let out an unwilling voice, and at the same time, a pill appeared on his body, the pill was bloody, and when it came out, he was caught by Yundong. The light sacrifice refining, turned into a blood demon phantom, revealing

Out of the endless domineering aura, it turned out to be a heavenly pill.

Heavenly grade pill, that is the pill that is also extremely against the sky among the heavenly sages.

"This is... some kind of combat pill? Can it stimulate combat potential?" Qin Chen instantly sensed the efficacy of this pill.

[Chapter 2734: Transformation](#)

This kind of pill is similar to the body explosion pill, or some kind of pill that burns the holy yuan. Once swallowed, it will not only restore Yun Dongguang's injury in a short time, but even make his combat effectiveness skyrocket.

It is some kind of powerful celestial medicine. "Huh! It seems that you still don't give up, you want to take the pill to repair your injury, return to the peak state, and go further, how is it possible? I won't give you this opportunity, you are already a dead person, and you have refined this pill. Medicine is undoubtedly a violent thing

, This Heavenly Grade Pill also has some effects on me, enough to make me go further on the understanding of Heavenly Sage Law, so it's good to give it to me. "

"The holy cave of space, constraining the world and forming a world of its own, I am the country, transforming my shape and shadow, and the pill of heaven enters the body!" Qin Chen raised his hand, and suddenly the Universe Fortune Jade Disc erupted with a dazzling atmosphere of space, hum, and terrifying space. An invisible country was formed, and the cloud and hole light was suddenly wrapped in it. Suddenly, the invisible space power lingered down.

It was actually transferring the medicinal effect of this Heavenly Grade Sacred Pill.

Hum!

The aura that the **** pill exuded was continuously integrated into Qin Chen's body by the power transferred from the invisible space. The heavenly sacred pill contains the laws of the heavenly sage, and each grain is extremely precious. If you get one, an ordinary half-step heavenly sage can hope to peep into the legendary realm of the heavenly sage, but for Qin Chen, A heavenly pill is actually nothing.

But if it can be swallowed, it will still allow him to have a better understanding of the heavenly law.

With Qin Chen's talent, it is more than ten times more difficult than ordinary half-step Heavenly Saints to enter the realm of Heavenly Saints. The Heavenly Saint Laws that need to be absorbed are also extremely magnificent. He was shocked, and immediately, infinite medicinal power poured into his body, forming a medicinal power cycle in his body. The Heavenly Sage Law in the pill has evolved more Heavenly Sage Runes, entangled in his blood, Meridians, in the flesh, grow stronger

His breath and power. A raging flame burned out of his body. It was the Qinglian Demon Fire, the Great Sun Golden Flame, and the Youkong Ice Flame. The blood light aura released from the mad sacrifice alchemy medicine, the blood light contained an amazing violent aura, like blood. Devilish, but these violent

However, all the breath was refined by the flames, turned into the pure Heavenly Sage Law, swallowed by Qin Chen, his skill was deeper, and he went further.

The aura on Qin Chen's body became deeper in an instant, and between his eyes opened and closed, he was sharp and violent, able to penetrate the world.

"The Origin Sword just burned my essence to have such a power, which caused a slight loss of my previous energy and blood, but now, not only has the energy and blood been replenished perfectly, without the slightest consumption, it has gone further. "

Qin Chen was excited. Even though he seemed relaxed before, but in fact, Yun Dongguang's cultivation skills are not trivial, comparable to those of the peak power in the early days of the Heavenly Sage. Generally, the Heavenly Sage might be beheaded by him, and Qin Chen will seriously wound him and urge him. The power of the origin of movement needs to burn him

The purest origin, therefore, Qin Chen needs to constantly strengthen his origin, otherwise it would be a huge damage to himself if it was consumed several times.

"what!"

After being snatched away from the Heavenly Grade Sacred Pill, Yun Dongguang went mad in an instant, and his eyes were blood red, his blood burned, his body seemed to be unlocked, and a breath of forbidden technique suddenly diffused.

Hum!

The life span of his body was burning, and the blood rushed, the essence and blood in his body began to burn, and even the power of the original source was also burning, a dangerous breath was conveyed from his body, crazy.

He is desperate.

If you don't kill Qin Chen, he will die.

So he did it.

In an instant, the aura on Yun Dongguang's body soared.

boom!

Numerous runes on the Heaven-Opening Axe burst forth, and the light flickered, representing that the aura of the Celestial Saint Soldier was crazy to the extreme, vaguely, the heaven and the earth trembled under this breath, and the shadow of the axe soared into the sky, as if to The world is split apart.

This is an axe for opening the sky, an axe for chaos, an axe for the life and death of all things.

"Fucky boy, die to me!"

Yundongguang roared and slashed openly, the axe fell, and the rules of the heavens retreated one after another under the endless axe light, and everything retreated.

"Humph!" Qin Chen stayed still and sneered at the jade disc, "Yun Dongguang, no matter how you resist, you will not escape death. Your era is over. You stepped into the door of evil." From a moment, it has been ended, and from today,

I will replace you. "Qin Chen stepped out step by step, booming, the power of the Universe Jade Plate suddenly surged out, tied the cloud hole beam in it, and suddenly suppressed his breath to the extreme. In a moment, he actually felt in his body. The law of heaven, there are

This feeling of being strongly suppressed, the aura of opening a heavenly axe, was also suppressed under this spatial aura.

"How is it possible? I don't know this Ten Thousand Thieves Caverns. It is indeed extremely powerful, but apart from its super concealment effect, it is not as good as my Sky-Opening Axe. How can it be suppressed?"

Yun Dongguang roared wildly in his heart, and at this time, Qin Chen's original magical powers had been brewing on the Nameless Sword, slashing down with a single sword, and crashing on the Heavenly Opening Axe cut out by Yun Dongguang.

Boom!

Qin Chen's whole body was full of spirits, the wind and clouds rotated outside his body, the eternal change, the heavenly sacred aura swept through, he came to the world like a **** of war, like a **** who rules the world.

But the breath of Yun Dongguang's body was suppressed at once, bang, blood mist exploded everywhere on his body, and the whole person was like a trapped beast, in a desperate fight.

"Not dead yet?"

Qin Chen's eyes were cold. The Heavenly Grade armor was indeed strong. When he was an ordinary person, he had been bombarded by Qin Chen, but because of the Heavenly Grade armor, this cloud hole light was still struggling.

Qin Chen suddenly surging with countless lightning rays, this is the law of lightning, and a breath of cracking air lingers, it is the scar of cracking air.

The two forces merged together, and Qin Chen flipped it over with a big hand, and blasted Yun Dongguang's body with a fierce punch.

Bang!

Yun Dongguang's entire body burst in an instant, and turned into a mass of flesh and blood, with only one head left, sinking and floating in the flesh and blood, and it was not dead yet. The strong heavenly sage, if the soul does not die, will not fall, and can even be taken. Give up rebirth and be a man again.

The head was full of hatred, staring at Qin Chen, an invisible soul wave rose up into the sky, turning into a shadow of nothingness, the soul of Yun Dongguang, who wanted to escape here.

In Qin Chen's eyebrows, the heavenly soul forbidden technique was used, and a terrifying soul impact suddenly swept out, instantly blasting the soul of Yundongguang into the head, and then Qin Chen reached out with his big hand, and the terrifying skyfire bombarded it in. . Yun Dongguang's head and bursting flesh were shrouded in endless flames, crazily refined, without any mercy.

[Chapter 2735: Take over by me](#)

"Ah, Qin Chen, if you kill me, Guanghan Mansion will not spare you. I am the lord of Yunzhou and Guanghan Mansion will definitely avenge me." Yun Dongguang shouted. "Huh, Yunzhou Prefecture, the one who is able to live here, you are very sinful, colluding with the bandits in Guanghan Mansion, and ruining the evaluation of the Heavenly Work Refiner, destroying the reputation of Guanghan Mansion, I killed you, it is for the Heavenly Path, Guanghan Mansion Rather than avenge you, it will reward you

I. "Qin Chen squeezed Yun Dongguang's head and exploded it. Then he punched countless seals with his hands, and sealed all Yun Dongguang's thoughts, magical powers, laws, essence, blood, and origin, and then received them instantly. The Universe Jade Plate

In, let it be slowly refined later.

Hum!

Qin Chen put away the aura of the cloud cave light, and put away the heavenly axe and the cloud cave light inner armor, and finally converged into the body together with the jade disc of great fortune.

The invincible state lord of Yunzhou, Heavenly Sage, was just assassinated by Qin Chen, and all his treasures, including storage rings and all accumulations, were ultimately cheaper for Qin Chen. On the other side of the battlefield, Ao Lie brought the masters of Chendi Pavilion and suppressed many of the experts in the prefecture. He saw that the master of Yundong Guangzhou was beheaded by Qin Chen, and all the masters of the prefecture were lost. Kneeling down one by one

On the ground.

Sealing the cloud cave light, Qin Chen turned around fiercely, facing Master Konoha, handed over the nameless sword in his hand: "Master Konoha, the appraisal of Tianzuo's craftsman is not over yet, please let Master Konoha decide. ."

Everyone on the field watched this scene in horror, and none of them recovered from the fact that the light of the clouds fell.

The dignified state lord of Yunzhou, just died like this?

Everyone looked at Qin Chen in amazement, with deep fear and shock in their hearts.

"Master Konoha, it's time to announce the result!" A rumbling voice echoed above the square, and it was Master Mu Gutian who reminded him. Only then did Master Konoha come back to his senses, and immediately said: "Yes, Yunzhou Yunmengze used the means of refining seven refiners to cheat during the appraisal of the refiner, and the results were invalidated. In addition, Yunzhou Qin Chen refined the nameless sword of the heavenly rank holy soldier, with

With a full score, he won the first place in the appraisal of the refiner, and Baoqitang Baiyutang won the second place. There were 13 other refiners who passed the appraisal. "

"In addition, Yundongguang, the lord of Yunzhou Prefecture, secretly undermined the assessment of my work in Tiananmen. Although people died, the old man would report to the Tianan Work Headquarters of Guanghan Fu and the senior officials of Guanghan Fu. ."

"Today's assessment is over!"

After finishing this sentence with a complicated expression, Master Konoha looked at Qin Chen's gaze filled with shock.

Such a arrogant person, if he really joins his daily work, it will be an honor for his daily work.

"Young Hall Master, are you okay?"

As soon as the assessment was over, Fan Hongsen, the branch master of Treasure Tool Hall, rushed up and looked at Bai Yutang in a hurry.

"It's okay, I'm okay." Bai Yutang shook his head, his face turned pale, and looked at Qin Chen shockedly.

"My father kept telling me that there are people outside the world, and there are days outside the world. I finally understand now that it is cruel and too cruel. Is this Qin Chen still a human? Xiaoye, I will take it."

Bai Yutang muttered to himself.

With his talent, although he can also fight against the general heavenly sage, and even fight for hundreds of rounds, it is only against the general heavenly sage master.

If it was Yun Dongguang, who was comparable to the early peak of Heavenly Sage, and was a powerhouse of a state lord, I am afraid that he would not be able to stick to the ten moves, and he would flee in embarrassment, or even stop killing.

Heavenly Sage and Half-Step Heavenly Sage, although they are only a small level, they are two completely different realms. There is a world of difference, not to mention that they are the peak powerhouses in the early days of Heavenly Sage.

But Qin Chen, like himself, was only a half-step celestial sage, but under the gaze of everyone, he killed the cloud hole light. This method gave him an extremely strong shock.

Not only him, but at this moment, the entire state city is making a sensation. The death of the Yunzhou Governor is a major event.

The assessment was over, but no one left in the entire square. Because the Lord Yunzhou was dead, not only did it not mean that the matter was over, but that it had just begun.

This is the land of a state. Now that the dragons have no leader, which force in Yunzhou is not interested? Even the state cities such as Yanzhou and Lingzhou outside Yunzhou will look at Yunzhou and even annex it.

Such things happen at all times in Guanghan Mansion and in all corners of the heavens. The weak and the strong eat the strong. The next Yunzhou will usher in a moment of turmoil. When the time comes, killing will become sexual and blood will flow into a river. The entire Yunzhou will be caught in the flames of war.

Every force is terrified, thinking about their own future.

"Everyone!" When everyone was uneasy, Qin Chen suddenly shouted: "Since the master of Yundong Guangzhou colluded with bandits and sabotaged the work of the sky, he has been killed by the young master, so this young master serves as the master of Yundong. The righteous man of Lord Gwangju, now officially

It is reported that starting today, Yunzhou Prefecture will be taken over by our Chendi Pavilion, and no forces, organizations, or individuals will be allowed to cause trouble in the city. Offenders will be executed. "

boom!

The audience was in an uproar, all shocked to look at Qin Chen in the sky.

Damn, is this Qin Chen too ugly? To openly take over the city of Yunzhou, is this the rhythm of becoming the lord of Yunzhou? Although Chendi Pavilion's strength is indeed terrifying, killing the Lord of Yundong Guangzhou, but in Yunzhou, there are more than one or two Heavenly Sage forces, and the outside world, Yanzhou, Lingzhou, Wuzhou and other forces will certainly look forward to it. He is a new rising truth

Ge, openly occupying Yunzhou, are you not afraid of being squeezed out by the major forces?

For a while, everyone's eyes fell on the top local forces in Yunzhou such as the ancient Xu family, Tianlong Temple, and Tianhe Zhenzong.

The forces such as Wangulou and Tiangong are all external forces. The reason why they can walk in Guanghan Mansion and their power is spread across all major states of Guanghan Mansion is because they have an agreement with the high level of Guanghan Mansion and will not seize local control. .

Therefore, these forces cannot compete for Tiyun State at all, so the only thing left is the Heavenly Sage Forces in Yunzhou and the Heavenly Sage Forces in other states. As long as they seize Yunzhou and let Yunzhou settle down, Guanghan Mansion will also Will not interfere.

And among these forces, the most powerful are undoubtedly such forces as Tianhe Zhenzong.

Qin Chen's words, if one is not good, will cause the entire Yunzhou to merge with fire and blood will flow into a river.

And this possibility is possible, because Qin Chen's strength is strong, but after all, his rise time is too short. How can He De, be able to occupy the position of Yunzhou Prefecture, how can external forces such as Tianhe Zhenzong and Yanzhou convince him?

"Hahaha, the old man agrees with Pavilion Master Qin's words." At this moment, a loud laugh sounded, and the ancestor of Tianhe True Sect Old Monster Tianhe walked out of the crowd and said loudly.

[Chapter 2736: The old man also agrees](#)

Sure enough, when he heard the old monster of Tianhe coming out and screaming, everyone's heart was condensed. This Tianhe Zhenzong really couldn't see the Chendi Pavilion occupying Yunzhou, and he wanted to jump out and fight against Chendi Pavilion.

Think about it, this is the vast Yunzhou land, so quietly seized by this Qin Chen, who can bear it? What's more, even though Qin Chen passed the examination of Tiangong's craftsmanship division and became a master craftsman in Tiangong, there was work support behind him, and no one dared to provoke him, but this was just above ordinary grievances. Yunzhou belongs to this way

The big question is, once Tianhe Zhenzong and Chendi Pavilion really get together, Tianjiao will not be able to intervene.

Because this is the internal affairs of Guanghan Mansion, and external forces such as Tianjiao cannot intervene at all. Otherwise, with Tianjiao's strength and supporting some top powerhouses and forces, wouldn't it be able to swallow up the entire Guanghan Mansion? ?

Therefore, as soon as Old Monster Tianhe came out, he didn't even consider what he said. Everyone's heart sank and subconsciously thought that Old Monster Tianhe was going to refute Qin Chen and compete with Chendi Pavilion for Yunzhou's ownership.

But when they heard what the old monster Tianhe said, all the warriors in the audience were instantly confused.

"I... I heard you right? What did the Tianhe ancestor of Tianhe Zhenzong say just now? Agree with Pavilion Master Qin?"

"I... I seem to hear this too."

"So, what did the ancestors of Tianhe mean that Zhenzong Tianhe agreed that Yunzhou should be temporarily taken over by Chendi Pavilion?"

"Tianhe Zhenzong is the top sect in our Yunzhou. It is fully capable of competing with Chendi Pavilion for the ownership of Yunzhou. Couldn't it be Tianhe ancestor who was excited and said something wrong?"

Everyone rubbed their ears desperately, unable to believe what they heard. "Haha, little friend Qin Chen can kill Yun Dongguang and see through this person's sinister intentions. The old man is also very impressed. Now Yunzhou has no leader, and anyone who temporarily takes over the city of Yunzhou will be dissatisfied, only little friend Qin Chen Chendi Pavilion takes over, old

The husband never dissatisfied at all, but sincerely agrees. "

The old monster Tianhe laughed, very hearty, "Don't say anything else, just because little friend Qin Chen saw through Yun Dongguang's collusion with the thirteen thieves, he made a great contribution to Yunzhou and other places. The old man admires me. It's very."

This time, everyone heard clearly, and the old monster Tianhe was indeed in favor of Chendi Pavilion taking over Yunzhou.

Could it be that the ancestor Tianhe had a convulsion in his brain?

This is completely different from a normal script!

"Brother Tianhe is right. The master of Yundong Gwangju told me that Chendi Pavilion will temporarily take over Yunzhou, and the old man agrees."

The Tianxu ancestor of the Gu Xu family also walked out and said with a smile.

"Haha, the old man agrees too."

The real Tianlong also came out.

Many Yunzhou's top powerhouses opened their mouths one after another, making all the powerhouses present look stupid.

I thought that the major forces would not understand Qin Chen, and they would launch a series of troubles. The unexpected result was a surprise to everyone. Instead of starting a war, the major forces in Yunzhou did not start a war, but stood for Qin Chen.

Is the world changing too fast or are these big guys taking the wrong medicine? In the heavens, the strong is respected, and if you want to become the strong, resources are the most important. The major forces have secretly fought against each other, but now they are facing such a huge temptation in Yunzhou. A little bit of power

There was no plan to fight against Chendi Pavilion, making everyone dizzy and feeling like a dream.

Could it be said that these top forces are deliberately paralyzing Qin Chen?

Yes, it must be so, otherwise there is no other possibility. Everyone nodded, feeling that they had found a reasonable explanation. The strong men of the major forces must have seen Qin Chen get the first place in the assessment of Tiangong's craftsman, so they had to say a few good things on the bright side. Once the assessment is over,

After everyone has dispersed, riots will surely occur and each other will compete for territory.

No wonder these top powerhouses are so easy to talk, the intrigues on the battlefield, these old guys are too proficient, who can play with them?

But with the opening of Tianhe ancestors and others, no other forces in Yunzhou naturally dared to argue, so Chendi Pavilion immediately temporarily became the recognized controller of Yunzhou.

As for whether Chendi Pavilion can control Yunzhou, it depends on Chendi Pavilion's methods.

All in all, Yunzhou is about to start chaos.

Thinking of this, the many forces present couldn't help but left in the first place. The flow of people on the original lively square decreased rapidly in a moment. Under this circumstance, which force does not want to gain more territory, and Qin Chen said, inside the state city, no forces can cause trouble, but what about outside the state city? Some cities that have been blessed by the state capital are now lost, just like lambs to be slaughtered

Like a sheep, who doesn't want to take a bite?

And now it is naturally an excellent opportunity.

Suddenly, all kinds of news spread out, spreading throughout Yunzhou, and countless top forces in Yunzhou secretly began to move. Qin Chen watched many forces leave, but did not stop him. Instead, he deliberately came to Master Konoha, thanked Master Konoha and other judges, and then bowed his hand to Mu Gutian: "Thank you, senior, for helping me before. , Blocked the cloud

The state, state and city formation, the younger generations will keep in mind. "

If it hadn't been for Mu Gutian to resist the purgatory barrier pattern of Zhoucheng, Qin Chen would never have that easy to kill Yundongguang, and the aura that escaped from Mu Gutian's body also shocked Qin Chen. Even if Qin Chen broke through the Heavenly Sage for half a step, he still felt a strong sense of shock. This Mu Gutian is definitely a strong person above the mid-term level of the Heavenly

Sage, and even stronger. It is no wonder that Tianxing Zhenren and Konoha Master and others treat him so respectfully

.

Think about it, too, would it be that simple to serve as an adviser to the sage soldiers of the Guanghan Mansion, an honorary elder of the Pavilion of the Guanghan Mansion, and an enshrinement at the Wangulou headquarters?

Mu Gutian waved his hand and smiled at Qin Chen, "Don't thank me, remember, you owe me two favors."

Qin Chen wanted to ask why Mu Gutian wanted to help him, but when Mu Gutian appeared, the person was gone.

"I will send someone to give you the specific matters of the Heavenly Work Refining Division. You should have a lot of things to do. I won't bother you for now."

Master Muye took a deep look at Qin Chen and knew that Qin Chen's most important thing now was to control Yunzhou. He was too lazy to intervene, and immediately left with Elder Chu Ye and the many powerful people who worked with Tian.

"Let's go, let's go to the prefecture's mansion first!" At this time, many powerful people wanted to come up and say hello to Qin Chen, but Qin Chen ignored him, and after speaking to Ao Lie, he immediately brought a group of Chendi Pavilion. The man quickly flew to the state capital.

[Chapter 2737: What else](#)

At this moment, the state lord's mansion was already in a mess. The Yunzhou state lord's mansion was very deep, formed by countless layers of space. As soon as Qin Chen entered it, he felt countless people running around.

These people are the masters left behind by the Yun family and some experts in the state government's mansion. They have long learned about what happened on the square and are ready to search for the state's capital before fleeing here.

But who knew that Qin Chen came so soon.

"Hurry up!" Feeling the arrival of Qin Chen and his party, the rest of the powerhouses in the governor's mansion were all scared to death. Can the other top forces in Yunzhou look down on Yunzhou? Why is there no conflict, leaving behind the people of Chendi Pavilion? Instead let the truth

The people from the court rushed to the state capital so soon.

They were frightened and hurried to flee here.

"Stop them for me."

Qin Chen said coldly, and instructed Ao Lie and the others, "All the people of the Yun family will be killed. If the others surrender, they can still be killed. If they dare to resist, they will kill them."

"You, you are such a demon!"

A Yun family master roared, "Everyone rushed out with me."

boom!

As soon as his voice fell, the whole person was beaten to pieces, like five horses divided into corpses. The corpses were scattered on the ground, and there were no bones.

It's Qin Chen! "Devil, huh, what is a devil?" Qin Chen smiled coldly: "The Yun family colluded with the thirteen thieves, slaughtered the Yunzhou family, and even dared to cheat on the evaluation of heavenly work. Each of your Yun family is sinful and sinful. Forgive me, as an agent

The state lord, will walk the way for the sky and cut down your Yun family! "

What kindness, what tolerance.

None of them existed. Qin Chen knew deeply that cutting the grass would not remove the roots, and the spring breeze would regenerate. Since Yun Dongguang was killed, the entire Yun family would be destroyed. Under the covering nest, how could there be eggs?

What's more, the Yun family has controlled Yunzhou for so many years, and there is no good thing at all.

"kill!"

There is no need for Qin Chen to do anything. Ao Lie has already taken countless strong men out to kill. Ao Lie is a Heavenly Sage strong and owns Noah's Ark. Now Yun Dongguang is dead, and no one in the entire prefecture is his opponent.

"dead!"

puff!

He shot strongly, and wherever he went, countless Yun Family experts fell one after another, and their flesh and blood splashed. Ao Lie gave a long roar, very refreshing. Back then, his Ao family was also the top family in Yunzhou. As a result, because of the decline of certain things, he was forced to leave the city and occupy Cangxuan city. Naturally, there was also a former governor. A credit to the Yun family, Natural means are brutal, like a **** of evil, suffocating.

In the distance, countless powerful men watched, and their legs trembled with horror. This Chendi Pavilion was really ferocious enough to directly destroy the Yun Family. It seemed that the Yun Family was completely finished.

These powerhouses could not help turning their heads and looking towards the sky.

There, a few vigorous auras surged, and it was the ancestors of Tianhe and others, all in the sky, watching the actions of Chendi Pavilion.

The state lord mansion is the most important place in the entire Yunzhou state city. Among them, there is a center that controls the entire Yunzhou prohibition. If the Tianhe ancestors and others want to compete for the position of the state lord, then the state lord mansion is a must. Therefore, everyone is looking forward to the fact that although Tianhe ancestors and other heavenly sages expressed their approval of Chendi Pavilion's move, but that is just talking, everything depends on the action, and it

depends on whether the Tianhe Zhenzong and other forces will attack the state lord. The government takes over,

This is the most important.

What puzzled everyone was that above the sky, the breath of the heavenly saints remained unmoving, and there was no attitude of competing with Chendi Pavilion for the state capital.

Is it true that the Tianhe Zhenzong and other forces are really willing to let Yunzhou out?

When everyone was wondering, the face of the real Tianlong also showed hesitation above the sky. "Tian Xu, Tianhe, you guys said what Qin Chen said, will it come true? If we don't join The battle for the state owner allowed him to obtain the state owner's mansion and control the entire Yunzhou ban. When the time comes, the promise he made at the beginning will not be fulfilled.

Then don't we just do a dowry for others? "

Madam Tianlong touched his bald head, with a hint of hesitation on his arrogant face.

If there are warriors in Yunzhou who hear this, they will be surprised. Could it be that the top forces in Yunzhou have already cooperated with Chendi Pavilion? The old monster Tianhe chuckled and glanced at the real Tianlong: "The real Tianlong, don't think I don't know what you are thinking. Do you think we are not interested in the huge Yunzhou? But in this situation, we only believe Na Qin Chen

Apart from fulfilling the treaty, is there any other way? Can you still kill him? "

The old monster Tianhe sneered.

Real Person Tianlong looked ugly, yes, could they still kill Qin Chen?

In fact, Qin Chen had already seen all the major forces in Yunzhou before the Tiangong refining master's assessment, and said that after the refining master's assessment, Chendi Pavilion would fight the Yun family and promised to give them all Power interests.

At that time, Old Monster Tianhe and others didn't take Qin Chen's words too seriously. After all, Qin Chen didn't even pass the appraisal of the refiner. He thought about starting a war with the Yun family and annexing Yunzhou. Too little look at the cloud hole light.

But because Qin Chen passed the ninth-story ancient sacred pagoda of the Heavenly Work Martial Artist's assessment, they did not deny Qin Chen's proposal, and only verbally agreed on the spot.

But he didn't expect that Qin Chen actually did something to the Yun Family, and he did it directly to the Yun Family during the Tianxue assessment.

These are nothing, especially Qin Chen actually killed Yun Dongguang, and also won the championship in the examination of the Tianzhu Refining Division.

This is incredible. Although Tianjiao will not participate in the struggle of the major forces in the heavens, it is just not actively participating. If they want to fight for Yunzhou and want to kill Qin Chen, it is absolutely impossible, even if they succeed. Killed Qin Chen,

Then there will be sanctions imposed by Tianjiao, and even Guanghan Mansion will not help them.

In other words, from the moment Qin Chen became the champion of the Tiangong's refining division, he already had an immortal golden body, no matter how the Tianhe bosses were, it was impossible to kill Qin Chen.

In this way, what else is going on?

Yes, the joint forces of several of them may be able to suppress Qin Chen and take control of Yunzhou from Qin Chen's hands, so what's next?

They can't kill Qin Chen, but Qin Chen can abandon Yunzhou, take Chendi Pavilion and leave with the powerhouse of Tianzuo, and enter Tianzuo for further study.

With the power of Tian's work, coupled with Qin Chen's terrifying talent, I am afraid that for a hundred years, or even less than a hundred years, Qin Chen can become a world-famous heavenly sage and a famous heavenly sage refiner in Guanghan Palace. At that time, Qin Chen would use his personal grievances to target them. How could they resist Qin Chen's revenge?

[Chapter 2738: Hard on](#)

So after some weighing, they will make such a decision in the previous square. Who doesn't want the position of Yunzhou state lord? But even if they get it, they won't be able to sit still for a hundred years at most, and in exchange, it's very likely that their entire power will be destroyed. Such things, they are all refined characters, who is willing to do it.

?

"What we can do now is to pray that Qin Chen keeps his word and will not tear up the things he promised before, otherwise, we can only admit it."

Tianxu ancestor also sighed and shook his head. "However, Qin Chen may be able to destroy the Yun family soon, but if you want to control the entire Yunzhou state city formation, it is impossible to do it without a certain amount of time, and before that, he still needs us to control the entire state city. , Not to mention Chendi Gemu

The former forces are still very small and need to rely on us to manage the entire Yunzhou, otherwise, they would not have given us the conditions. "

Old Monster Tianhe said confidently.

As long as he still has some role in Qin Chen's eyes, then their Tianhe Zhenzong will not be abandoned.

Moreover, their Tianhe Zhenzong was not a vegetarian. When Yun Dongguang controlled Yunzhou, they had no choice but to win their Tianhe Zhenzong, even if Qin Chen was in power.

Thinking of this, they immediately sent orders to their commanders to allow people from all major forces to control all parts of Yunzhou. Yunzhou Prefecture is particularly important and no unrest is allowed.

In fact, just as the old monsters of Tianhe had expected, within a few hours after the news of Yundongguang's fall was spread along Zhoucheng.

The entire Yunzhou has already begun to mess up.

Between the big and middle-level forces, it was like a ignited gunpowder barrel that exploded in an instant, and riots and chaos began to occur in the major cities of Yunzhou.

Even in Yunzhou Prefecture, chaos began.

However, when the chaos was just beginning, the masters of Yunzhou's top forces, such as Tianhe Zhenzong, Tianlong Temple, and Tianxu Family, had already received orders, and they took action to put all the riots in the flames.

At this time, Qin Chen had already entered the depths of Yunzhou Prefecture's main mansion, entered the core of the state city, and also the hub of the state city.

A strong ancient holy energy suddenly filled his whole body.

At the same time, what appeared in front of Qin Chen's eyes was a vast forbidden sphere, which was the core of the Zhoucheng's forbidden formation. Only by controlling this can you truly control Yunzhou Zhoucheng in your own hands. "Well, really here, this is the core of the formation, it is vast? If I am not mistaken, this should be the ultimate formation at the peak of the initial stage of the heavenly rank. Once it is fully urged, it is even the strongest of the early peaks of the heavenly rank. Those who don't want to break into

Come. "

Qin Chen looked at the countless runes surging in front of him, his eyes flickering, and he continued to look into the depths of the formation core. In the deepest part of the core, he saw a huge ancient holy vein, hidden deep in Yunzhou. The depths of the mud under the state city.

This ancient sacred vein, like an ancient dragon, rests underground, and its whole body is shining brightly, showing violent power. It seems that after a short breath, Yunzhou Prefecture is about to explode, and it soars out.

In the body of this ancient sacred vein, various forbidden methods are blessed everywhere, and the will of countless ancient powerhouses is imprisoned, suppressing this ancient sacred vein, and providing Yunzhou state city formation and the entire city. Powerful energy. "This should be the most powerful ancient sacred vein in Yunzhou. It is an ancient sacred vein at the heavenly rank. This ancient sacred vein should have been laid by the ancient powerhouse who established the city of Yunzhou in ancient times. , Yun Dongguang is in control of this

The ancient sacred vein can control the entire state and city prohibition, and if I want to control the entire Yunzhou, I must first control this ancient sacred vein. "Qin Chen took a deep breath. At this moment, he knew the horror of Yunzhou's formation method. Fortunately, Master Mu Gutian blocked the purgatory formation for himself, otherwise Yun Dongguang would fight his life. , With the blessing of this ancient celestial vein

, Who will be the winner is still unknown.

"In that case, just do it directly, so as not to have many dreams at night."

With a thought of Qin Chen, he went directly to the depths of Yunzhou Prefecture.

Boom!

Countless powerful handprints were quickly punched by Qin Chen, countless half-step Heavenly Sacred Laws went deep into the ground and began to seal the ancient holy veins. The earth was trembling, and the entire Yunzhou prefecture was roaring. Was alarmed.

"Is this Qin Chen refining the underground celestial vein of Yunzhou Prefecture?"

The eyes of countless powerhouses gathered to the state main mansion, revealing the color of greed.

Heaven-ranked Saint Veins, there are not many in Yunzhou. Perhaps several top-level Heavenly Saints forces also have Heaven-ranked Saint Veins, but they are all half-dangling Heavenly-Rank Saint Veins, which are incomplete and incomplete. Only in the depths of the state main mansion, the one that controls the entire state city, is the truly complete ancient heavenly rank and the greatest wealth in the entire state main mansion. I have obtained this ancient heavenly rank. , Enough to create a top

Level forces come.

However, although everyone was jealous, no one dared to come forward to fight. Didn't you see that even the top powers in Yunzhou were watching? He is even maintaining the order of Yunzhou Prefecture for Chendi Pavilion. Who dares to move at this time?

"But this Qin Chen is only a half-step Celestial Sage. If he wants to conquer the ancient Celestial Veins and control the forbidden formation of the prefecture city, can he do it?" It is extremely difficult to conquer the Celestial Vessels. It takes a long time to conquer easily, and now the ruthless man Qin Chen doesn't do anything, he just begins to conquer. It's best to induce a backlash from the formation and seriously hurt him.

It's good only if you want him.

Even Real Man Tianlong and the others had such thoughts in their hearts. If Qin Chen's own refining of the Saint Veins and formations were backlashed, it would not be counted as they had acted, and there might be a chance to get a share of the pie.

Under the attention of everyone, Qin Chen reached out with his big hands, and the powerful power lingered. He kept squeezing the tactics with both hands to forcefully collect this powerful holy vein.

by!

Is this going to be hard?

Everyone was shocked by Qin Chen's harsh methods.

The Saint Veins is energetic and very irritable. Even the veteran Tian Sage masters like Old Monster Tianhe would not dare to directly collect it like this. It is impossible to do so. Qin Chen dares to suppress it so forcefully and has to make people speechless.

Boom! Sure enough, the ancient sacred vein of the heavenly rank felt Qin Chen's power, and the terrifying power suddenly rose into the sky, and the space was shattered everywhere. The ground collapsed, and the ground around the governor's mansion sprayed out the divine light like a rainbow.

The power of the holy veins spurted out, and each of these powers was equivalent to an attack by a Heavenly Sage master. This is the rebellious power of the ancient heavenly veins.

[Chapter 2739: This son is extraordinary](#)

Moreover, the fluctuation of the ancient holy veins also aroused the resistance of the core hub of the forbidden formation. A horrible array of light enveloped the state lord mansion, covering all the world in it.

The terrifying power forced Old Monster Tianhe and the others to retreat again and again, and Ao Lie led Chendi Pavilion's masters also withdrew from the scope of the main mansion.

That violent power is enough to easily kill a strong Heavenly Sage for half a step, even if it is a mighty Heavenly Sage, it will be shocked, and it will even be bombarded by a steady stream of power.

But Qin Chen didn't fear at all, and didn't back down. Although he is only a half-step Celestial Sage, the source of the Celestial Sage in his body is as strong as any ordinary Celestial Sage. What's more, when he was in the Yama Secret Realm, he had even collected the ancient holy veins of the Holy Master level, and he was afraid The ancient celestial veins in this district

?

He saw the power of the Heavenly Grade Ancient Saint Vein's resistance, and he suddenly snorted, using the light to cover all external forces, urging the Ten Thousand Realm Demon Tree and the Saint Master Grade Ancient Saint Vein in the Universe Good Fortune Jade Plate.

Suddenly, a trace of misty power rushed into this ancient celestial vein along Qin Chen's hands.

Oh oh oh!

Originally arrogant and domineering, like a tiger coming out of its box, the violent ancient holy vein of the dragon from the abyss felt this breath, and it suddenly seemed to have seen a cat and mouse, and suddenly fell silent, the ancient holy vein shivered, and instantly became well-behaved Extremely.

by!

Everyone was dizzy.

what happened?

The ancient sacred vein before, still broke out with a violent aura, blasting everyone who wanted to conquer it, but suddenly, it turned out to be so well-behaved, what did Qin Chen do?

At this time, almost all the powerhouses in the state city saw a god-like figure, covered in golden light, like the scorching sun in the heavens, reaching out their big hands, and terrifying power suddenly poured into the depths of Yunzhou.

Roar!

As if a real dragon roared, the ancient sacred vein under Yunzhou Prefecture suddenly calmed down and became calm, apparently being completely suppressed and subdued by Qin Chen.

"Come!"

At the same time, Qin Chen's eyes burst into the rainbow, and the heavenly soul forbidden technique was used at once, and the powerful soul power suddenly fell into the center of the formation.

Hum! The entire formation center burst out with terrible light, it seemed to be resisting, but it was useless, how terrifying Qin Chen's formation skills? When I was in the Secret Realm of the Abyssal Demon in the Tianwu Continent, I had seen the top Saint-level formation in the town boundary beads.

How can the ancient formation of Zhouzhou City be rare to hold him?

Seeing a flash of light, the center of the Yunzhou Formation Formation calmed down. The next moment, an invisible barrier formed over the entire Yunzhou State City, enveloping the entire Yunzhou State City.

Yunzhou Prefecture City's banning formation was once again activated, and everyone felt that the formation ban at this moment was even stronger than when Yundong Gwangju master controlled it! This is natural. Although Yun Dongguang controls the Yunzhou State City formation, it is controlled by water milling and hard work. He is not a refiner, not an alchemist, or even a formation mage. , How can Yunzhou's

Array prohibition urged to the extreme?

But Qin Chen is different. Qin Chen himself is a master of formation. If he is fully urged, the formation restriction he can create is definitely more than twice that of Yun Dongguang.

After doing all this, all vitality fluctuations in the sky, streets, earth, and void stopped.

The entire Yunzhou prefecture was peaceful again, and powerful spatial forces emerged in various places, even stronger than when Yun Dongguang controlled it. "The entire Yunzhou people are all obeyed. Now the Yunzhou formation law prohibits the state lord's mansion, which has been controlled by my Chendi Pavilion. No one can act recklessly in the state city. Otherwise, I will be killed. Chendi Pavilion, today will unify Yunzhou Prefecture

, All the members of the Yun family have been beheaded by my Chendi Pavilion. From today onwards, the Yun Family has become history, and the overlord of Yunzhou will be my Chendi Pavilion. "Ao Lie's rumbling voice came from Yunzhou Prefecture. This is the power that Qin Chen gave him. The owner of Yunzhou Prefecture, Qin Chen naturally has no interest. He will not always guard Yunzhou in the future. To Ao Lie, establish Ao Lie's majesty,

Is the most important.

With Ao Lie's strength to cover the world's heavenly sage, and assisting Enochia's Ark Supreme Treasure, it is also enough to deter any powerful in Yunzhou.

"It seems that Qin Chen doesn't want to be the lord of Yunzhou, he wants to give the position of the lord of Yunzhou to Ao Lie."

Hearing Ao Lie's voice, the strong men of all major forces were shocked.

At this time, it should be when Qin Chen spoke prestigiously, but he handed it to Ao Lie, which was obviously going to retreat behind the scenes and let Ao Lie stand on the front desk.

Oh shit.

This Ao Lie is lucky too, right?

Envy and envy emerged in many hearts. You must know that two years ago, Ao Lie was only the City Lord of Cangxuan City. This time, he had to control Yunzhou. This luck was so good.

"Now, we invite all the local Heavenly Saint forces in Yunzhou to come to the main mansion for a meeting."

Ao Lie Longlong said.

The old monster Tianhe and the others looked at each other, their eyes fixed, they knew that the main event was coming, this meeting would determine the future of Yunzhou, and they could not help but rush towards the city lord mansion.

"Qin Chen does have some means."

At the temporary residence of Tiangong, Master Konoha witnessed the whole process with his own eyes, and couldn't help but sigh.

He is also observing Qin Chen's overall outlook. What Tianjiao needs is not only martial artists and refiners, as a top power all over the heavens, the wrist to control others is more than necessary. Otherwise, even if you become a top refiner, you will eventually be just a refiner. ,only

Can serve others. In a short moment, Qin Chen suppressed the ancient celestial veins and gained the control of the forbidden formation of Yunzhou Prefecture. These methods are simply fantastic, even he may not be able to do it, Qin Chen did it and shocked the cloud because of it

The major forces in the state.

This has already shocked Master Konoha. However, if you want to completely control Yunzhou, you can do more than pacify the major forces in Yunzhou. In addition to Yunzhou and beyond, the greater threat actually comes from Yunzhou. How can other states near Yunzhou be willing? Such a piece of fat, from Slip in your mouth?

Therefore, Qin Chen was only pacing the major forces in Yunzhou, and he was only carefree.

Just when Konoha master thought so.

Just listen to Qin Chen's loud voice resounding again.

"Yanzhou Prefecture, Lingzhou Prefecture, Wuzhou Prefecture, Xuzhou Prefecture, and Xuzhou Prefecture. Since several adults are here, why don't they join the state government."

In the rumbling roar, a few terrifying heavenly sage aura suddenly rose from Yunzhou.

These are several powerful heavenly saints. One of them is accompanied by Yanzhou Ziyang Jiutian, who is the special envoy of Yanzhou Prefecture's main mansion, Muyue Zhenren, and the others are also special envoys of the major state capitals. Has arrived in Yunzhou.

"Haha, Pavilion Master Qin Chen invited, how can I refuse it."

Several people laughed and entered the governor's mansion together.

Master Konoha touched his nose, his eyes were shocked, and he smiled bitterly. It turned out that Qin Chen was ready for a long time, but he still felt that he was short-sighted. He had already walked ahead of him.

This son is extraordinary! Master Muye's evaluation of Qin Chen has greatly improved.

[Chapter 2740: Big ambition](#)

This group of powerful men have entered the state lord mansion one after another, and they disappeared after a flash.

At this moment, countless auras in the entire Yunzhou State City gathered near the main mansion, waiting for the result of the discussion, because everyone knew that this meeting would determine the future of the major forces in Yunzhou.

The hall of the main mansion is a very vast hall, mysterious and vast, and very vast.

Especially the tables and chairs in the hall are made of unique materials from the heavens, and they have a majestic and domineering atmosphere that accommodates everything.

The hall is a kind of ancient stone, exuding a long history, and an ancient atmosphere is circulating in this ancient hall.

At the top of the hall, Qin Chen sat there, and under Qin Chen was Ao Lie, and the other Chendi Pavilion masters stood around like guards.

On both sides of the hall, there are rows of seats, and masters of various forces sit on them.

There are powerful men like Tianhe Boss in Yunzhou, as well as special envoys sent by state cities such as Yanzhou and Lingzhou. Each of them is a heavenly saint and exudes a heart-palpating atmosphere.

"Congratulations to Pavilion Master Qin, who won the champion of the Tiangong Tool Refining Master's assessment. With Pavilion Master Qin's talent, he will reach the peak in the future. It is just around the corner."

"Qin Pavilion's major is to pass the sky, kill the cloud and cave light, and eliminate harm for the people. I am impressed."

"Unexpectedly, in Yunzhou, there should be a arrogant such as Pavilion Master Qin, which is respectable and admirable."

As soon as this group of masters came in, they all smiled and folded their hands. They are all intertwined with the texture of the law of heaven, and they are eternal and comfortable. Among them, there are several heavenly saints whose breath has evolved into various knives, guns, tripods, and bells. Looks like.

Obviously, this has begun to shape the understanding of the avenue, and the heaven and earth avenue has begun to evolve into various concrete objects.

These are not magic weapons, but the manifestation of heaven.

When you reach the realm of Heavenly Sage, if you want to improve your cultivation, you need to have a deeper understanding of the way of heaven, thoroughly integrate the rules of the way of heaven into your body, turn it into an entity, and form your own body's power.

But the aura of heaven is illusory and has no body at all. How can we go further? Into entity?

Therefore, many masters of Heavenly Sages, through their own understanding of the way of heaven, combined with their own cultivation methods, evolved into various entities. Some people understand it as a tower, others as a sword, and others as A tripod... each is different.

"Thank you for coming. I think you all know the purpose of this meeting. This young man will not be nonsense. From today onwards, Yunzhou will be ruled by the Chendi Pavilion. Of course, what I discussed with you, Ben young I will not break my promise, now is to fulfill the agreement, to control Yunzhou and make a comprehensive arrangement."

Qin Chen's voice fell, and the expressions of everyone present immediately became serious.

Qin Chen said lightly: "According to the agreement at the time, as soon as Yundongguang dies, Yunzhou will become the territory of my Chendi Pavilion. However, my Chendi Pavilion will not occupy the entire Yunzhou, because our Chendi Pavilion is a neutral one. The power does not develop territories, but only expands business. Therefore, some cities in Yunzhou can be assigned to you according to your territories distribution. Of course, nominally, they are still ruled by our Chendi Pavilion."

That's right, Qin Chen secretly received special envoys from several major states and masters of several major forces in Yunzhou before the start of the Tiangong Refining Master's assessment, and discussed this with them. At the time, people from several major states and top forces All were shocked.

After all, Yun Dongguang hadn't died at that time, and everyone didn't take this matter to heart. But who would have expected that Qin Chen would kill Yun Dongguang directly on top of the Heavenly Work Refiner's assessment, and let everyone The big forces were taken aback.

Therefore, the old monster Tianhe will support Qin Chen on the square. In addition to being afraid of Qin Chen's strength and future, it is also because there have been some agreements as early as the beginning.

Now, Qin Chen directly pointed out that all the major forces are blinking, calculating the gains and losses.

Based on previous exchanges with Qin Chen, Qin Chen clearly stated that Chendi Pavilion is a peaceful force. This force will resemble the Eternal House, work in heaven, and does not develop its own territory. It is only in the form of a chamber of commerce throughout Guangzhou. Hanfu expanded and established branches.

That's why Chendi Pavilion agreed to assign many territories in Yunzhou to them. Chendi Pavilion only needs nominal power, but in fact, the real rulers of these territories are their major forces.

But in the same way, their major forces must also agree that any future business related to Chendi Pavilion must cooperate with Chendi Pavilion, and Yanzhou, Lingzhou, Wuzhou, Xuzhou and other forces also need to cooperate in their respective A branch of Chendi Pavilion was established in the state city of Beijing, allowing Chendi Pavilion's business to spread to countless surrounding states.

"This Chendige is so ambitious."

Mutsuki and the others were dark in their hearts.

Although Chendi Pavilion paid some price for the territory of Yunzhou, what he got was to spread the tentacles of Chendi Pavilion in the surrounding major cities, and because of the cooperation with Chendi Pavilion, their major states The state capitals must also ensure the safety of Chendi Pavilion in their respective state cities.

In other words, Chendi Pavilion used some territories to spread its tentacles to several large states outside Yunzhou in an instant, and its power expanded several times.

However, this proposal is what their major forces most want to see, and it can be regarded as a win-win situation.

"Although our major states have the strength and qualifications to compete for Yunzhou, it is almost impossible to monopolize Yunzhou. Xuzhou, Wuzhou, Lingzhou and other states are not very desirable, and it is impossible to give us The chance of occupying Yunzhou, when a big battle is over, countless casualties are not counted. If the war can't be resolved in a short period of time, Guanghan Mansion, and even other far-away big states, will get in."

"That's not to say, Tianhe Zhenzong and other local forces in Yunzhou will secretly mobilize their own power to compete for Yunzhou. It is very likely that after a battle, after countless deaths and injuries, the territory we obtained is not as good as Chendi Pavilion. Big."

Real Muyuki was calculating the gains and losses in his heart, his eyes looked at the other forces on the field, everyone's eyes flickered, obviously thinking sharply.

It is almost impossible to monopolize Yunzhou.

"But if you agree to the distribution of Chendi Pavilion, it will be different." Muyue's eyes flashed.

"First of all, we in Yanzhou will get a huge territory bordering Yanzhou without any loss, so that our entire territory and strength of Yanzhou will directly increase by about 20%."

"Secondly, let Chendi Pavilion settle in our Yanzhou. With Qin Chentian's identity and talent, he will surely grow into a top-notch man in the work of Heaven in the future. When we need all kinds of holy soldiers and resources, naturally Can be easily obtained."
