

Valkyrie 2821

[Chapter 2821: Grand Elder Hongyue](#)

This is urgent, if Qin Chen really answers maliciously, let alone Qin Chen will be expelled, he, the reception manager, will also be punished or even expelled!

However, Qin Chen, who was in the Fenbijishu book, seemed to have not heard him at all, and continued to write the answers quickly.

"It's over!" The steward's face suddenly turned pale!

He didn't believe that Qin Chen could answer so many questions so easily. If these questions were so easy to answer, he wouldn't stay at their work for so long.

Because for countless years, the questions in the task list have been refurbished many times. Many refiners were unable to answer the questions when they were young. Later, as their strength improved, they gradually solved some of them. .

There are also questions about the answers that many elders have come to watch after they are looking for inspiration.

Of course, there are some top crafting master Tianjiao who specialize in quests and earn contribution points. They will come to the quest hall for a certain period of time, soak in them, spy and understand, and constantly answer questions. Over time, the simpler tasks in all the tasks have almost been processed. The remaining ones are all truly top-level tasks. These tasks are extremely difficult, even if the core elders of the late stage of the sky come, short

It may not be able to answer within time, it needs to go through many trials and analysis.

But now, Qin Chen almost finished reading the question, and after a little thought, he wrote the answer, which made the manager think that Qin Chen was definitely writing indiscriminately.

"It's over, this time is completely over."

He was desperate and had no hope at all.

Huh huh! Qin Chen wrote quickly, his mind was completely turned at this moment, and various thoughts appeared in an endless stream. Every time he saw a topic, countless knowledge points appeared in his mind. This knowledge was originally stored in his book of origin. in,

He has control, but this control is not yet complete.

But now, in the rapid thinking, all kinds of knowledge in Qin Chen's mind are integrated, especially Qin Chen's sky patching technique. When he sees any problem, he can form a corresponding refining process in his mind. , Perform deduction.

This is terrifying.

If a normal refiner wants to confirm an operation, he must actually refining, but Qin Chen can use the sky patching technique to perform the same effect, which is equivalent to carrying out various difficult refining all the time. .

Countless knowledge points surging, Qin Chen is also quickly mastering various refining knowledge in the process of answering questions, and integrating this refining knowledge to form his own knowledge points.

Ten questions!

Twenty questions!

Thirty questions!

In just two hours of work, Qin Chen has solved more than 30 questions. At this speed, there is absolutely no one who has come before. If Qin Chen, who formed the Book of Origins before, had memorized all the knowledge in the Treasure Treasure Temple, now Qin Chen, in the process of answering other people's questions, his own refining skills are also fast Promote

All the refining techniques have become his real knowledge.

"What is Qin Chen doing?"

And Qin Chen's actions in the solution area quickly attracted the attention of many disciples in the hall. When Qin Chen kept answering questions left on the task book, many people suddenly showed a trace of disdain. What is the problem in the question answering area? That is the problem encountered by many refiners during the refining of the whole day's work. Many of the questions are directed to the origin of the refiner. They are extremely profound, and many of them are even natural.

The elder of the refiner who is the disciple instructing the middle may not be able to answer, otherwise he would not stay here. But what about Qin Chen? A refiner who has just joined Tianjiao, although his strength is amazing and his talent is extraordinary, he was promoted to a holy child as soon as he entered Tianjiao, but after all, he had just joined Tianjiao not long ago. I heard that he just refined it not long ago.

Saint soldiers of the world's inferior grade.

But the questions in the task area, but many of them are mid-level questions, can you answer them?

Especially when Qin Chen was answering questions quickly, almost without stopping, everyone was going crazy.

"This Qin Chen is not here to make trouble, right?"

"He is a disciple who has just joined Tianjiao, even if he becomes a holy son, he is also the most ordinary holy son, dare to go to the solution area to answer crazy questions?"

"It's not necessarily. The so-called art industry has specialization. Maybe this Qin Chen, in some refining aspects, and unique attainments, it is not impossible." "It can't be a shit, the art industry does have specialization. The methods used by the refiner are not all the same, but in general, they are roughly the same, but when you look at Qin Chen, you are actually answering the questions indiscriminately. You dare to say that he answers all the questions.

Know everything well? "

"Look, Qin Chen has already answered more than 30 questions, right?" At this moment, many of the disciples and refiners were as crazy as they looked at Qin Chen speechlessly. They were indeed Qin Chen's. The behavior is so crazy, even if it is the great elder who works in the sky, or even the minister, he dare not say that he can be like Qin Chen.

, Answer the questions crazy, right?

"This Qin Chen thinks he is a holy son, it is terrible. Doesn't he know that if he answers questions in the solution area randomly, will this cause severe punishment?"

Many people shook their heads speechlessly. At first, they felt that Qin Chen was a person, but now they doubt whether Qin Chen is an idiot with a problematic brain.

He answered the questions indiscriminately, and he would surely shock the senior executives, and he wouldn't even know how he died by then.

"What happened?"

Sure enough, not long after, an old man in charge of the mission area came over and sneered coldly.

This is a Taishang elder named Hongyue, who is specifically responsible for the release of the task of Tianzhu. Normally, no one can be seen, but the abnormality in the hall shocked him, and he came to the hall instantly.

"Elder Hui Hongyue, Qin Chen is answering questions in the answering area..."

A disciple said carefully.

"Solve the problem in the solution area?"

Elder Hongyue frowned, "What's all the fuss about?"

"But Hongyue Supreme Elder, then Qin Chen has already answered more than 30 questions..."

The disciple was speechless.

"More than thirty questions?"

Hongyue was taken aback, "Who is this Qin Chen? Why have I never heard of it? I answered more than 30 questions in the answering area. How long has he been here, are you sure?"

Answering more than 30 questions, no wonder it attracts so many people's attention. Even if he is immersed in doubts, Dingtian can only answer a dozen questions. Who is this Qin Chen? So awesome?

"Qin Chen is our newly promoted saint son of Tianzuo. It hasn't been long since joining Tianzuo, so you don't know the elder Hongyue. The key is that Qin Chen solved more than 30 questions in only two hours... "

[Chapter 2822: Level problem](#)

"Two hours? Impossible!"

Hongyue nodded in front, but at this time, he jumped up directly.

Answering more than 30 questions in two hours, what's the joke? This is simply impossible.

"what is the problem?"

Hong Yue's face was difficult to look.

"I...we don't know, but Qin Chen, who was received by Manager Liu Yue before, is still in the answering area. He must know!" The disciple hesitated for a while and said.

"Liu Yue? Call Liu Yue over!"

Hongyue's face was pale, and he gave an order, and the disciple who had something good suddenly called Liu Yue over excitedly.

The answering area is very sacred. When the disciples answer the questions in the answering area, even if he is the Supreme Elder, he can't directly destroy it. This is the most basic rule of heaven's work, so they can only call Liu Yue.

Liu Yue was in the answering area, also anxiously turning around. At this time, when he heard the elder Hongyue summoning himself, he walked over in tears, feeling despair in his heart.

"Say, what is going on with Qin Chen?" Hongyue was not angry.

"Going back to the elder Taishang, that Qin Chen is the newly promoted saint son of Tianzuo. He found his subordinates before and said that he would do a mission to earn contribution points. After choosing a few times, he chose to answer the mission. Get more contribution points and let your subordinates directly send messages to all refiners who have posted tasks, asking them to verify the answers within a day. Many people refused, but some refiners agreed. Now Qin Chen is answering the tasks of these people."

Manager Liu Yue shuddered, said.

"Just to earn contribution points?"

Hongyue looked dazed: "He is a newly promoted Saint Son, where does he have the ability to answer so many questions?"

"This... the subordinates don't know either." Liu Yue said with trepidation.

Hongyue frowned: "I remember it's not time to select the saint son, who specially approved Qin Chen's saint son status?"

"It's the Great Elder."

"Great Elder? Does this Qin Chen really have a super heaven-defying talent for refining tools, able to answer all doubts? Or is he a late-stage Tian-level refining master? Impossible..."

Hong Yue couldn't help saying, frowning, thinking carefully.

It is almost impossible to have an idiot who can join the work of Heaven, and that Qin Chen is also the saint son specially approved by the great elder himself, and he still believes in the eyes of the great elder.

Could it be said that Qin Chen was a craftsman at the late stage of the heavenly rank, so as soon as he joined the great elder, he was specially approved as a holy son? But even a late-day refiner can't solve more than 30 questions in two hours, right?

"Late Heavenly Stage?" Liu Yue's eyes turned black: "Return to the Supreme Elder, this Qin Chen joined through our Heavenly Work Assessment. He only broke through the early stage of Heavenly Sage not long ago, and he is not a crafting master in the late Heavenly Stage!"

"I just broke through the early days of Heavenly Sage not long ago?" Hongyue put a black line on his head and said, "It's a nonsense!"

He originally thought that Qin Chen was the top crafting master with special tricks, so he came to answer, who knows, he was just a disciple who had just broken through the heavenly sage. Although he was a holy child, he didn't even reach the middle of the heavenly grade in terms of craftsmanship .

Isn't this fooling around?

"Elder Hongyue, this Qin Chen is clearly making trouble, it is better to let the disciple pull him out."

Some disciples were eager to try, their eyes glowing.

It is a rare thing to be able to show your face in front of the elder Taishang. Normally, they would not dare to do anything to a saint son, but as long as the elder Hongyue ordered, they were fearless.

"inappropriate."

Hongyue frowned, but waved his hand.

Although Qin Chen was answering questions indiscriminately, he did not violate any rules after all. So far, there is no evidence that Qin Chen is making trouble.

He sits in the task hall and maintains the majesty and order of the heavenly work, so he naturally has to abide by the rules more and not betray the law privately.

"Who of you responded to Qin Chen's message?"

Elder Hongyue turned his head.

As soon as these words were said, everyone instantly understood the purpose of the elder Hongyue.

As long as it proves that Qin Chen is answering the question indiscriminately, then the elder Hongyue is qualified to intervene in Qin Chen's answer.

"Elder Hongyue, I!"

A refiner carefully raised his hand.

This is a mid-level Heavenly Sage powerhouse. It has been thousands of years since joining Heavenly Work, but his refining attainments have remained at the lowest rank of Heavenly Grade, and he has not broken through for many years.

If in the next thousand years, he still cannot break through, when the time comes, he will become a steward and deacon of Tianjiao to do basic work.

"Then Qin Chen answered your question?" Hongyue Supreme Elder asked.

"not yet."

The refiner spoke, before the voice fell off, he saw his disciple token light up, and immediately said: "It's answered, Qin Chen answered my question, just now."

"Well, you can verify your question."

Hongyue said solemnly, "Hurry up, many people have heard the news now. If Qin Chen is really fooling around, we must stop him as soon as possible, otherwise I will lose all the face of my work."

A holy son, in order to contribute points, randomly answer questions in the mission area and pass them out. No matter what,

"Yes."

The refiner did not dare to neglect. The question he asked was a problem he encountered many times during refining, and it was the key to his breakthrough in the middle-grade middle-grade refiner. Over the years, he has been looking for it. The answer, it's a pity that he couldn't solve it after countless refining and research, so he placed it in the mission area, trying to find the answer.

At the beginning, he only priced two thousand contribution points, but over the years, no one can answer. His price has also increased from two thousand contribution points to 8,000. But for thousands of years, he has been hanging on where there is no answer. .

Today, Qin Chen gave the answer.

And in such a short time, it is impossible to think about it.

Therefore, he didn't believe that Qin Chen had resolved it at all, but the elder Hongyue was watching, he did not dare to neglect, and immediately followed Qin Chen's answer, but proceeded.

"Hey, in the process of refining, the conflict of materials is fierce, causing the mental power to not be fully integrated into it, and it will form a fragmented state, making the refined holy soldiers uneven and unable to guarantee a fixed quality. Your problem is A problem that many refiners will encounter..."

Seeing this disciple's problem, the elder Hongyue couldn't help but sigh, this problem is level.

This is something that almost every refining master will encounter, but each refining master will use his own unique methods to overcome this difficulty according to his own cultivation methods and different levels of mastery of refining tools.

This is a question with no fixed answer.

It may take a lot of energy for him to answer it, and then it is possible to come up with a method, which may not be completely suitable for the other party.

For such a difficult problem, Qin Chen gave the answer in minutes?

Elder Hongyue's expression immediately became even more ugly.

[Chapter 2823: Hei Yaojing](#)

At this moment, the elder Hongyue had completely regarded Qin Chen as a fool.

"Too presumptuous, this Qin Chen, brave, just promoted to the holy son, he did such things, after he comes out, the old man will go to the great elder and say, our daily work will never tolerate anyone. Challenge the bottom line of the refiner."

Elder Hongyue's face became more and more ugly.

If Qin Chen caused something else, he could still see the great elder's face on the Internet, what is the answerable area? That is one of the most sacred places in the work of heaven.

As a refiner, you must first have a sense of reverence for refiners.

And what is stored in the answer area is the doubts of countless refiners for many years. How can they allow others to answer slanders so freely?

"Have you finished the verification?" Senior elder Hongyue looked at the disciple.

The more he thought about it, the more angry he was, and he couldn't wait to **** Qin Chen out of the solution area.

"Quickly, too elder, the disciple will verify that process soon."

Being stared at by countless refiners and Hong Yue, who is the Supreme Elder, the disciple of the verification made a slight sweat on his forehead, and his heart was tense.

Hum!

His hands flicked and he was fusing two materials, both of which were mid-level materials. During the previous fusion process, he could not grasp the degree of the fusion of the two, which made him unable to successfully refine The Saint Soldier of the middle rank of heavenly rank, and his question is about how to solve the material fusion.

"It's Red Moon Crystal and Black Yaotie!"

"Mu Hong's question turned out to be these two materials. If I remember correctly, the red moon crystal is a fire attribute material, while the black yao iron is slightly overcast. The smelting of the two is very difficult. "

"You remember correctly, the red moon crystal is indeed a fire attribute and has a violent characteristic, while the black flares have a hint of yin attribute and are soft. It is extremely difficult to merge the two, especially the structure of the two materials is complete. It is not the same, it is difficult to combine them completely, but once combined, the Red Moon Crystal can completely release the characteristics of the black flares, forming an effect of one plus one greater than two."

"If it can be merged, the crude embryos produced will already have the effect of a middle-grade heavenly grade. It seems that Mu Hong wants to use this method to break through the realm of a middle-grade heavenly refiner."

"However, the fusion of these two materials is very difficult, and many mid-day refiners may not be able to succeed. Mu Hong chose to refine these two materials because he cultivated the magical powers of

the scorching sun and the red moon crystal. It has similar characteristics to the Black Lightning Iron, so it is the easiest to do."

"Unfortunately, the conflict between the two material structures has troubled him for countless years, making him still unable to enter the Heavenly Grade Middle Grade Mixer."

A master craftsman was watching and couldn't help but say again and again.

"If Qin Chen solves Mu Hong's problem, can we see it?"

There were also some refiners who were not as strong as Mu Hong, and couldn't help but ask.

"Yeah!" A master refiner in the crowd nodded.

"In fact, I want to see whether the fusion between the red moon crystal and the black flares is good or not. It is still very simple. The attributes of the two are different. The red moon crystal is red and the black flares are black. Iron has the upper hand, the color of the material will quickly become black, and if the red moon crystal has the upper hand, it will become red. Once these two situations occur, the fusion fails, and only the characteristics of each other are combined. When the material emits yellow light, it is considered that the real integration is successful! And...success is also divided into levels!

"level?"

"According to the success rate of the two materials being completely integrated, the level is also different, and the final effect is also very different. According to the effect, it can be divided into three levels: qualified, good and excellent. The material fusion degree reaches 60. Even if it is qualified, the material is Dark yellow, with a degree of integration of 70, which is good, showing a dark orange, and a degree of integration of more than eighty-five, it is considered excellent, and it will appear bright orange. I remember that there was a great elder in our daily work. In a class where the refining method was taught, the bright orange black brilliance was directly refined, which will be unforgettable for a lifetime..."

Thinking of the scene at the time, the man's face flushed with excitement.

The ability to refine the bright orange black brilliance crystal is a level that can only be reached by the level of the Supreme Elder who has anti-natural attainments on the refining device.

"Elder Too? Hey, these are the top refiners of our day's work, how can they refine bright orange?"

"It's no wonder that Mu Hong couldn't even pass the test. This is indeed a bit difficult."

"So, Mu Hong's problem can be regarded as the most common intractable disease encountered in refining tools. Although Qin Chen is a holy son, he wants to solve it? It's ridiculous."

"Look at it, everyone, Mu Hong's refining has reached a critical moment. It is estimated that the integration of the two will fail immediately. It will either become black or red. There will be no third possibility."

Everyone talked a lot.

Hum!

Before he finished his words, the two materials in front of Mu Hong had already been combined, and a strong breath of material surged out.

"It seems that Mu Hong has completed the fusion of the two materials, and the result appears. Once it fails, Qin Chen is probably in bad luck..."

After snorting, the master refiner sneered and looked at the material of Mu Hong's color. At this look, his eyes suddenly went round, his brain rang, and he froze in place.

The two materials that Muhong smelted suddenly shimmered, but it was not black or red, but...dark yellow!

"Why is it dark yellow? Did Mu Hong succeed in refining? This... how is it possible? Mu Hong has studied the fusion of Red Moon Crystal and Black Yao Iron for thousands of years and failed to succeed. Why did it suddenly succeed this time? ?"

The refiner rubbed his eyes vigorously, unable to believe what he saw.

"Mu Hong seems to have really succeeded in smelting. Although it is only dark yellow, it is also qualified... No, it is not qualified..." Someone in the crowd shouted.

Accompanied by his voice, the light of the material in front of Mu Hong's eyes continued to bloom, from the dark yellow at the beginning, it turned slowly to dark orange.

good!

Turns out to represent a good dark orange.

At this moment, everyone on the court was stunned. Even Mu Hong, who was refined by himself, and the elder Hongyue Taishang who watched from the side, had their eyes widened with a look of disbelief.

Mu Hong, the integration was successful?

Is it a coincidence? Still an accident?

But when everyone was unbelievable, the dark orange material changed again, from dark orange to bright orange.

Hum!

The bright bright orange light blooms in the hall, magnificent, just like the bright starry sky.

The dazzling orange light shone everywhere.

[Chapter 2825: Crazy Hall](#)

"Excellent, this is...excellent grade Black Yaojing..."

All the refiners were dumbfounded, their mouths could no longer close, and they were shaking and speechless.

Isn't it that Mu Hong has been unable to merge the two materials? How come the refining was successful in a big court and the crowd was in full view, and it was the excellent black brilliance crystal? Is this... surely not dreaming?

"Mu Hong, what the **** is going on?"

The elder Hongyue lost his voice.

Hei Yaojing, an excellent grade, may not be able to be refined at once.

He looked at Mu Hong, didn't he mean that you couldn't refine Black Yaojing?

Come and explain to me, what is going on?

"I....."

Mu Hong's body shook, and he was completely confused.

The expression was both excited and seemed to cry.

"Elder too, I don't know what happened..."

He looked dumbfounded and murmured: "Is it luck?"

"luck?"

Hongyue's face turned black all of a sudden. If you only refine the qualified Black Yaojing, you can still be considered luck. Now it is an excellent Black Yaojing. Tell me it is luck? Why didn't you see your luck in the past few thousand years?

At this time, Mu Hong also felt something was wrong. He looked at the identity token in his hand in shock, and muttered: "Could it be... because of the answering method Qin Chen gave?"

Hongyue's expression suffocated, his eyes lit up instantly, and he even anxiously said, "Quickly, how did Qin Chen make you refine it?"

Mu Hong didn't dare to neglect, and hurriedly informed Hong Yue of Qin Chen's answer.

"Hey, is it that simple? Use the most basic physical form to judge the process and degree of fusion?"

Upon hearing the method, Hongyue was taken aback, "You try again."

"Yes!"

Mu Hong did not dare to neglect, and refining again, and this time, Hong Yue watched his refining process carefully. The whole process is very simple, nothing special, but in the end...

Hum!

The bright orange light bloomed, and Mu Hong once again refined the excellent black brilliance crystal, which represented the crude embryo black brilliance crystal of the middle-grade material.

Cang!

The Hei Yaojing in Mu Hong's hand suddenly fell.

"I...I actually succeeded in refining it, and I also refined it twice... both of which were excellent grade Black Yaojing."

Mu Hong himself was stupid. For thousands of years, he couldn't do it so easily. The feeling made him completely confused.

"Qin Chen, it's Qin Chen... that Qin Chen's method is correct."

Finally, everyone thought of a possibility and looked at Qin Chen in amazement, revealing an extremely shocking color.

Although it only verified Mu Hong's answer, the implications of this shocked everyone present.

"Quickly, Liu Yue, go and gather the questions that Qin Chen answered, and verify immediately to see if the other disciples' questions he answered are correct."

The elder Hongyue jumped up and shouted anxiously.

There was an incredible light flashing in his eyes, and he muttered: "No..."

A possibility appeared in his mind, but he did not dare to imagine it at all.

"Yes."

Liu Yue didn't dare to neglect, and hurriedly left, as a manager, to inquire about Qin Chen's answers, and send messages to those disciples who gave the questions to verify...

Holy Island Basilica.

This is the core hall of Tianwork, where Tianwork specializes in reporting, handing over tasks, allocating resources, redeeming contribution points and exchanging materials for Tianwork staff. As a craftsman in the work of heaven, most people usually work either on missions or practicing or refining in their own residences. They rarely hang out, but because of the importance of the core hall, they still There will be some

The disciple wandered here.

However, under normal circumstances, these disciples would wait and see in the mission area to see if there is a new mission that suits them, or exchange the materials they need in the material exchange area. As for other places, the number of disciples is very small.

Especially in places like the solution area, the flow of personnel is pitifully small, and often a day's work may not necessarily have a refiner enter.

But today, the solution area at this time is noisy, like a teahouse, everyone's faces are all showing excitement, from time to time someone is watching the identity token in their hands, as if waiting for something, full of anxious.

This scene starts with Liu Yue going to verify.

Because of Mu Hong's incident, the elder Hongyue Taishang began to take Qin Chen's answer seriously, so he tried his best to get Liu Yue to find several disciples who had already received Qin Chen's answer.

The disciples heard that their task was answered, and at first they didn't care, and they didn't even prepare to verify it on the spot, but because of the order of the elder Hongyue, they started to verify it immediately.

But the result stunned them.

Those refining that they had been unable to complete before, after using Qin Chen's answering method, they were all solved magically, even in the process of solving it was perfect, almost no problem was encountered.

This result shocked the elder Hongyue and everyone present.

Especially after everyone saw that a refiner put forward an answer to a basic puzzle that many refiners had encountered, everyone was shocked. Qin Chen's answer is in-depth and simple. It is interlinked. There is no need for these people to carry out refining and verification. In his mind, it is like a divine enlightenment. It suddenly confused this question. moment

Enlightened.

At this moment, the entire core hall burst instantly. Especially many disciples' problems have been solved one by one. By this time, if all the refiners present did not understand, they would not be worthy of becoming members of the Heavenly Work. Qin Chen, although he just became a holy son, Xiu For just the beginning

Pinnacle, but the attainments in the refining process are so enchanting, there is almost nothing he doesn't know. As a result, the entire day's work exploded in an instant, and all the refiners in the core hall were crazy. They came up one after another, temporarily submitted tasks, and wrote all the problems they encountered during the refinement process. , and

Moreover, both indicate that verification can be performed within one day.

Numerous questions were submitted one after another, and they all wanted Qin Chen's answer. All the refiners who submitted the questions were extremely worried. Qin Chen in the answering area naturally didn't know that the outside world was so lively. Although he discovered that there were a lot of questions suddenly, but he came to earn contribution points, so naturally it would not be too troublesome, and in the process of answering these tasks, he himself The forge

Achievements will also be significantly improved, and naturally answer them one by one without any worries. At this moment, the entire core hall went crazy in an instant.

[Chapter 2826: More than two million](#)

This spread out, it was shocking.

You know, although many questions are only in the middle of the sky level, in fact, even if a master crafting master in the latter stage of the sky level comes, they may not be able to answer them. After the refiner's rank reaches the heaven level, each refiner has its own set of theories and methods. Other refiners may not be able to understand, let alone give them answers in these aspects. This is also the solution to these problems

One of the important reasons why the answer zone has been hung up for a long time.

But in front of Qin Chen, although some questions were troublesome, they were only troublesome, and they were not impossible to answer. However, there were still some questions that Qin Chen gave up. Because these issues involve the most core part of the refining tool, although Qin Chen possesses countless knowledge, after all, he is only the refining master at the peak of the early days of Heavenly Sage. Of course, relying on the technique of patching the sky, he can even refine the heavenly level. The holy soldiers of the product come,

But it does not mean that he has no doubts.

And there are some answers to some questions that need to use some of the contents of the sky patching technique, but it is impossible to answer them with the knowledge of books in the treasure temple.

Naturally, Qin Chen wouldn't answer these questions. If he exposes his sky patching technique, it is very likely to cause a lot of trouble.

Although Qin Chen didn't know what was happening outside, seeing the countless high-score questions constantly appearing in the answering area, he naturally guessed something vaguely. In this way, Qin Chen was completely in the middle of answering the question. He did not deliberately pay attention to the contribution points, so he answered the questions tirelessly. At the beginning, he answered the questions for the contribution points, but later, he discovered that, here

The questions are all very representative, and there are many questions, which have given him a great inspiration for this newcomer to the heavenly crafting master.

From these questions, he was able to understand the ideas of many refiners. Each of these refiners was a master refiner above the heavenly level. Their ideas were precious wealth, and they were given to Qin. Incomparably great enlightenment.

Qin Chen had a brand new understanding of the knowledge in the Treasure Treasure Temple, and it became his own thing completely.

When Qin Chen recovered from the state of enthusiasm, it was already a day and a night.

call!

Qin Chen let out a long breath, and replied crazily day and night. Even with his soul strength, he couldn't bear it, and there were waves of weakness in his mind.

Constantly answering all kinds of esoteric refining questions is a serious waste of energy and energy.

After Qin Chen woke up, the first thing he did was to focus on the contribution point of the identity token. This look immediately made him startled.

Two thousand eight hundred and ninety-nine million contribution points, this number made his mind a little confused, and for a moment he almost thought that he had read it wrong.

He was stunned, only to realize that it was indeed 2.89 million. The answer day and night made him instantly from a pauper with the least contribution points to one of the people who contributed the most points in the entire day's work.

You must know that a most basic late-stage sage soldier only needs 100,000 points, and the points Qin Chen earned in one day and one night is enough to buy nearly thirty late-stage sage soldiers.

What is this concept?

What Qin Chen didn't know was that in addition to the two million-plus contribution points, he still had a considerable amount of contribution points, because the questioner hadn't confirmed it yet, so it didn't arrive. The huge number exceeded his expectations, and at the same time, it made Qin Chen exhale a big breath, and the concentration of answering one day and one night made his mind a little tired. Questions and thoughts turned in his mind.

When he moved, his thinking was a little confused for a while.

"Huh, now I finally have contribution points to buy time spar, and they can also buy all the defensive treasures that Sisi and the others need." Qin Chen stood up, this was the first thought in his mind at that time .

"Why didn't he answer Qin Chen?"

"What's the matter? My question is ranked third next, why didn't I answer it?"

"Continue to answer!"

Seeing Qin Chen put down the message pen in his hand and stood up, many of the craftsmen present couldn't help but scream.

At the same time, their hearts sank, Qin Chen didn't know how to answer it, right?

In annoyance, everyone saw that Qin Chen did not continue to answer, but walked out of the answering area.

"Why so many people?"

As soon as Qin Chen walked out of the answering area, he saw countless pairs of fiery eyes, and he was almost startled.

"What's happening here?"

He just answered a question, as for so many people?

After looking around, I found Manager Liu Yue, and immediately walked over, "Manager Liu Yue, my answer is complete, I am a little tired, there should be no other procedures? Can I go?"

The contribution points are all in the account, there should be no problem, but Liu Yue as the task manager, Qin Chen still has to ask, if there is anything to deal with, he should deal with it in time.

"Oh, oh, no more, no more."

Manager Liu Yue said hurriedly, and then said to the elder Hongyue who was next to him: "Master Saint, this is Master Hongyue who is in charge of our mission hall."

"I have seen the elder Hongyue." Qin Chen saluted, "Is there anything wrong with the elder Hongyue?"

Qin Chen frowned. How could he answer the question by himself, so that he was shocked by a supreme elder. Could it be that the other party saw his own sky patching technique? Qin Chen's heart was stunned. After so many experiences, Qin Chen finally knew that the Heavenly Patching Palace was once powerful in the Celestial Realm. It was the top one among the Celestial Refining Powers, and even the birthplace of the ancient Heavenly Work. Carry

The inheritance of Mending Heaven Palace will definitely be coveted by countless refiners, and it is possible to kill people and make things worse.

Therefore, when he answered before, he answered at the highest level to the middle of the heavenly rank. It was not because he couldn't answer higher, just to hide himself. Why, he still alarmed the Supreme Elder?

"It's okay, I just heard that your Excellency answered many questions from the refiner here, and I came here admiringly." The elder Hongyue said, his tone was very gentle. "The great elder laughed. The questions answered by the disciple are not worth mentioning. They are just some of the early and mid-stage problems of the heavenly rank. You will also earn contribution points. You will be able to solve it easily if you become the elder too. , You praised it." Qin Chen

He shook his head and said.

Elder Hongyue's eyes twitched.

If it weren't for Qin Chen's character, he would think Qin Chen was mocking him.

Can it be solved easily? He couldn't answer this, and his old face was a little red.

"Since the elder Taishang has nothing to do, then the disciple retires first." Qin Chen didn't want to be watched by so many people, so he left.

[Chapter 2827: Samurai club](#)

"This..." Hong Yue smiled bitterly. It was the first time that he saw a disciple in front of him and was anxious to leave. Which refiner saw him and didn't want to fawn on him. This Qin Chen was indeed a strange flower.

But in the end, he didn't say anything. He was just ready to go to the Great Elder to have a good chat. This time, he really found a treasure for Tian's work. Moreover, he also needs to report to Your Excellency.

Under everyone's gaze, Qin Chen did not stop, and suddenly disappeared into the core hall with a sway.

Elder Hongyue also left after Qin Chen left.

As soon as he left, the whole hall suddenly burst into an uproar.

"This Qin Chen... really doesn't answer?"

"It's over, I just submitted the task, is this over?"

"I knew I would have contributed more points."

"Ugh....."

Amid the noise, the crowd quickly dispersed, and many people were very regretful. If their contribution points were set higher at that time, the questions that have troubled them for a long time have now been answered, but now...

Qin Chen's figure shuttled through the sky's work, and soon came to the Treasure Treasure Temple again.

When the guarding old man saw Qin Chen coming again, he suddenly showed a look of surprise. It didn't take long for Qin Chen to leave, right?

"Senior, the disciple is going to exchange a few things." Qin Chen respectfully said.

"If you want to exchange something, just go in. You have to take out your identity token and paste it on the treasure. If there are enough contribution points in it, it will be removed, and the treasure can be collected by you." The old man's eyelids lifted, said.

"The disciple understands."

Qin Chen nodded, once again entered the treasure holy hall, went directly to those treasures, and handed the Saint Child token to the starry sky Chanyi. Suddenly, 50,000 contribution points were deducted, and the starry sky Chanyi instantly fell into Qin Chen's hands.

Next, Qin Chen exchanged the Void Shield and Fengliu Yuyi again, and finally came to the time spar, and spent 880,000 contribution points to exchange the time spar in his hand.

"success."

Feeling the original breath of time surging in his mind, Qin Chen stored the time spar first, and the treasure hall is not a good place to absorb the time spar.

It cost Qin Chen more than 1 million contribution points to exchange these things, but that's the case, because the remaining contribution points are also credited, Qin Chen still has more than 2 million in his identity token. Contribution points, almost not too much.

Next, Qin Chen spent some contribution points to buy some Saint Soldiers for Ao Qingling and Qin Tingting, and then left. "Where did this kid come from so many contribution points? Even the time spar was exchanged by him? It's rich, it's really rich, no, let me find out, this kid has just become a holy son, where did it come from? More contribution points?"

"

After Qin Chen left, the old man who was guarding the treasure-storage temple felt the disappearing treasure in the temple, and his eyes suddenly became round.

Fengliu Yuyi and other things are nothing. The key is that the time spar worth 880,000 has disappeared. This is a heaven-defending treasure that ordinary elders cannot exchange?

Soon, after the old man sent the message, he learned the source of Qin Chen's contribution points, and was once again confused.

"Are young people now so crazy? You earn so many contribution points one day and one night?"

The old man's small eyes stared, completely dumbfounded. After a long time, he came back to his senses: "We are old, we are really old."

He picked up the transmission jade slip, punched in complex gestures, and began to transmit the message. Treasures such as the time spar were exchanged. As the guardian of the treasure temple, he naturally needs to report to the Minister.

However, after Qin Chen exchanged the time spar, he did not return to his cave, but quickly swept towards the direction of the Heavenly Work Martial Artist.

"Qingling and Tingting received only ordinary training in the warrior department. Although they are definitely stronger than in Yunzhou, they are only one of the many members of the heavenly work warrior department and will not enjoy the most. Distinguished resource."

"With my current status of working in Tian and my contribution points, Qingling and Tingting don't need to be trained by the Martial Arts Department at all. It is more advantageous to follow me." Qin Chen flew by while being in the void. Shuttle, the heavenly work is extremely vast, Qin Chen's refining division and the martial arts division are still some distance away, very far away, and the void is full of various restrictions, this is to prevent outsiders from breaking in.

Come to work in the day.

In the heavens, it is not safe. Even a big power like Tianjiao needs to put a lot of restrictions to stop the invasion by outside forces. Of course, Qin Chen possesses the Saint Child token and can freely shuttle in Heavenly Work. After all, the identity of the Holy Child already belongs to the middle and high level in Heavenly Work. It is higher than ordinary disciples, deacons, and stewards, but a little lower than elders. , But the son

The future is much brighter than that of stewardship.

Boom!

Qin Chen shuttled through the void, and after about half a column of incense, he finally came to a vast world. Buildings appeared in Qin Chen's line of sight, vast and mighty, standing among the endless space and mountains, incomparably The majestic.

"Qin Chen, this is the Heavenly Work Martial Arts Department?"

Chen Sisi's voice suddenly passed from the jade disc of good fortune in the universe.

"Well, it should be, Sisi, why don't you continue to practice? I exchanged a phoenix feather robe for you before, and you can put it on when you turn around. It can more than double your defense."

Qin Chen said with a smile.

"Didn't I hear that you have taken a few female entourages in Guanghan Mansion? They have all joined the martial arts department of Tianjiao, so I want to see what kind of woman can you cultivate so carefully." Sisi Said with a smile.

"Khan!" Qin Chen was full of cold sweat: "Sisi, you have misunderstood. Ao Qingling and Qin Tingting are both very excellent women. I accept them, but I actually have no other idea, just to develop Chendi Pavilion, you too. Knowing that the heavens are dangerous, we first came to heaven

Realm, and enemies like Yaomie Mansion, want to gain a foothold in the Heaven Realm, they must develop their own power. "

"The desire to survive is very strong!" Sisi chuckled, chuckles, "Okay, okay, I was joking with you, but I have been cultivating in the jade plate of the universe for a long time, and I want to understand the heavenly work of this legend. ."

"That's good." Qin Chen breathed a sigh of relief, "Be careful, I'm going to enter the martial arts department. There are also strong men in the military department. Don't be spied by someone while transmitting the sound."

"Dust, don't worry, I have the secret technique of the predecessor of the nine-tailed fairy fox. Unless it is a master of the holy master, the powerhouse at the peak of the late Heavenly Sage may not be able to capture my voice transmission message." Sisi said.

"That's good."

Qin Chen nodded and had already entered the military department.

Suddenly, a strong sacred aura hits his face, which is much richer than Guanghan Mansion, but it is still a little bit worse than that of the Refining Division. Looking up, there are countless buildings and dojos in the distance, a bit like an outside country, and Qin Chen vaguely feels that in the more secret space, there are countless tyrannical auras hidden, and they are the top masters of the military department.

[Chapter 2828: Nine Sun God Xuanshan](#)

With a flash of Qin Chen's figure, he came to a street surrounded by buildings of all kinds.

"I don't know where Qingling and the others are."

Qin Chen looked around, frowning slightly, but he was not impatient, walking on this street, looking around.

This warrior department is really different from the refining division. The refining division is very classical. Although there are many buildings, most of them are functional buildings. They are places for work and training. But the warrior division is different. There are many shops.

Qin Chen walked on this wide street. The street was paved with white jade. On both sides were shops and restaurants. There was a feeling of being in the world. The only difference was that these business people were all heaven. The staff at work have different levels of strength.

These are all disciples of the Martial Arts Department in Tianzuo. The Martial Arts Department is much larger than the Refining Division, and has a lot of staff. It can be seen from the number of Martial Arts Division and Refining Division Disciples recruited in Yunzhou. , The difference in the number of people between each other, even tens of times.

Moreover, the Martial Arts Department is also more open. Tianjiao is so famous. Many top forces in Guanghan Mansion want to send their disciples to Tianjiao to practice. However, the Refining Division is the core of Tianjiao, and no one can enter. Go, but the warrior department is different, as long as they have enough connections, they can be sent to the warrior department to learn and practice.

This has also led to the fact that there are still many related households in the military department.

Compared with the refining division, the warrior division is more like a secular hodgepodge, and as a result, it has spawned many shops and businesses. People from all major powers will choose to open a shop in the day job as long as they have the conditions to make friends. Personal connections also earn a lot of holy crystals.

And doing business here is different from the outside world, it's a bit more calm and less disputes.

In the air, there was a wave of clear spirits, which was the most suitable for cultivation. The entire martial arts kingdom was running slowly, and the holy energy was filled with sacred air. It was a treasured place for cultivation.

Qin Chen was unfamiliar with the place where he was born in the military department, so he could not go directly to Ao Qingling and Qin Tingting, but he had notified Chimei in advance. What Qin Chen has to do now is to wait for Chimei to arrive and work with Chimei in the sky. For many years, finding Ao Qingling and Qin Tingting shouldn't be difficult.

Qin Chen walked into a restaurant at random and looked at the recipe. There were many weird delicacies on it, such as dragon velvet and phoenix liver, stir-fried demon heart, Qingluan tongue, braised Kirin brain... all kinds of dishes There are some fine wines that Yunzhou can't eat at all, and they are all brewed with holy water that is rare between heaven and earth.

Of course, the price of these drinks is not expensive. If you use the sacred crystal to settle, they are all worth the sky. There are some top dishes, and even worth a peculiar local vein. Of course, you can also use contribution points to settle, and the cheap ones only need a few contributions. Point, expensive is worth thousands of contribution points, most people simply cannot afford it.

Qin Chen randomly ordered a plate of steamed arowana, a stir-fried Kirin tendon, and a dish such as Tiansheng tea-marinated phoenix egg, and a small pot of Bixuejingxin Dragon Blood Wine. Observe the context of the entire warrior department, and sense tyrannical characters.

In this restaurant, there were also many warriors and disciples who talked and talked loudly, while Qin Chen was drinking a little wine, waiting for the arrival of Chimei, while also capturing the conversations of many guests in the restaurant.

At a table not far to the left of Qin Chen, there were a few men and women with extraordinary auras, with terrifying aura of laws surging in their bodies, which turned out to be the cultivation base of the early days of Heavenly Sage.

They are sitting in the seats by the window. There are various rare dishes on the table, which are of great value. Obviously they have a lot of background. Moreover, there are not many people close to them, so they are extraordinary.

At the moment they are talking to each other.

"Have you heard that this time, the training of the newly promoted disciples of the Heavenly Work Martial Arts Department is about to end. Soon, it will be the arrangement of the Dongfu. This is the most important arrangement for them in the future."

"Yes, I heard that among the disciples this time, there are a lot of disciples with good talents. It's a pity that in the martial arts department, it's not that talents are high and can arrange a good Dongfu. It needs a relationship."

"I remember that Nine Suns Shenxuan Mountain still has several caves. It is one of the best caves in our martial arts department. I don't know if any disciples are lucky enough to live this time. The cultivation environment of Nine Suns Shenxuan Mountain, it is much better than the nearby Jiufeng Mountain and Giant Mountain, and the cultivation speed is at least about 50% higher, but it is not ordinary difficult to get to such a cave."

"Don't even think about the newly promoted disciples of Nine Suns God Profound Mountain, why don't you have their turn, don't you know, there are not many cave houses in Nine Sun God Profound Mountain, they are all occupied." The youth sneered.

"Who? Who occupied it? With such a courage, how dare to occupy the cave house of Nine Sun God Profound Mountain?" Another man among them was surprised: "Don't the elders care?"

"It's Murongtian, the last newly promoted saint son of our martial arts department, you must have heard of it. Although this son has only joined our day work for less than a thousand years, he can be regarded as a newcomer, but his cultivation is unfathomable. With the fastest record, he became the saint son of our martial arts department. I am afraid that he is already a strong man in the middle of the heavenly sage, right? The strength is so strong that some old-brand powerhouses dare not make enemies."

"It turned out to be Senior Brother Murongtian."

The two women at this table both showed nympho-like expressions, with light in their eyes.

"Hehe, don't you two like Murongtian too? You are really not afraid of death. To tell you the truth, Murongtian is a very romantic person. I don't know how many girls have been harmed. Many female talents in our martial arts department have been with him. There has been Wushan Yunyu, the Nine Profound Imperial Daughter Dafa he has practiced, the more women he has played, the more beautiful the women, and the deeper his practice. I don't know how many female disciples of our daily work have been harmed. In my fancy, that is the sheep entering the tiger's lair. As far as I know, many of our female disciples who work in the day have Yuan Yin, which was broken by him."

"What? Does the warrior ministry care about it?"

"Why do you care? You also know that what the warrior department wants is the strong, and the disciples have conflicts in order to improve themselves, especially those who can become saints. Who is not an incomparable figure, plus Murongtian does not force Others only use their looks and status to seduce those women. What's more, after practicing the Nine Profound Imperial Daughter Dafa, Murong Tian's cultivation level will improve, and the women around him will also have a lot of benefits. You are willing, as long as you don't make trouble. Things that are too big, I won't care about it. This time he

occupied the Nine Suns God Profound Mountain, and it is said that it was just to settle his beauties, so the upper head also opened one eye and closed one eye."

[Chapter 2829: Murong Tian](#)

"But even so, he, a newly promoted saint son of the martial arts department, who broke through only three hundred years ago in the middle of the heavenly saint, has openly occupied the cave for his beauty to live in. Whose courage depends on? Even if he is the saint son, upper head Wouldn't you tolerate him doing such a thing?" One of the men was surprised.

"Hmph, don't underestimate this Murongtian. This person has supreme fortune and possesses a supreme treasure of the Zixiao Dousui Palace. It is not an ordinary heavenly treasure, and it is infinitely powerful. He has accomplished many tasks over the years. , Got a lot of adventures, and has been promoted to become a high-ranking figure in the saint child of the warrior department. Not long ago, he and the old saint Fu Zixi had a fight because of a few women.

"What? He and Fu Zixi are evenly matched?"

Many warriors in the restaurant who heard this were all taken aback. Fu Zixi is a veteran saint, with an amazing reputation in the warrior department. He has practiced the secret technique of the Western Emperor and is rumored to be the descendant of the ancient powerful Western Emperor. Extremely scary.

What kind of luck does Murongtian have? How many adventures did you get? Can you even share with him?

Qin Chen listened to the side, his eyes flickering, and he couldn't think that this warrior department was as strong as a cloud, but it was normal to think about it. Those who can be selected into the warrior department are all geniuses who are against the sky. Over the years, many strong people will naturally emerge.

"By the way, he and Fu Zixi fought because of several women, what happened?" At this time, someone asked again.

"I don't know the details. It is rumored that this time the martial arts department recruited disciples and recruited many good women. Then Murong Tian had been cultivating the Nine Profound Imperial Daughter Dafa, and he had already focused on the most beautiful of them. The key was Fu Zixi. After seeing a few of them, I was shocked and decided to pursue them. Only then did both parties start their hands."

"Hey, what woman can make the two holy sons fight?"

"I don't know the specifics, but I heard that the three most talented people are actually from the same state under Guanghan Mansion. They seem to be Yunzhou, right? These three were trained in the Martial Arts Department. Having already touched the realm of Heavenly Sage, Murong Tian and Fu Zixi were interested in them at the same time before they started. Moreover, Murong Tian occupied the cave house of Jiuyang Shenxuan Mountain, it is said that it was to raise these three women in it."

"what did you say?"

As soon as this person's voice fell, he heard an indifferent voice. The next moment, a young man was already standing beside a few people, booming, a terrifying will, like a huge ocean, swept in instantly.

It was Qin Chen.

Before Qin Chen heard something interesting, but the more he listened, the more things went wrong, until after hearing Yunzhou, Qin Chen's face suddenly changed. The women these guys were talking about were Ao Qingling and Qin Tingting, right? As for three people, if you count Li Wanxue, wouldn't it be exactly three?

An invisible anger suddenly surged out of Qin Chen's body. What kind of saint child of the Martial Arts Department dared to hit his people.

"The three women you mentioned are definitely from Yunzhou? What are their names?"

Qin Chen stared at the table of people and said coldly.

Under Qin Chen's gaze, these men and women felt as if they were being stared at by a beast. A wave of fear surged from deep in their hearts, and their thinking was frozen.

"This senior, we are just hearsay, we don't know whether it is true or not."

The man who was still talking before that suddenly tremblingly said that he could feel the terrifying strength of Qin Chen, and he could pinch himself to death with one finger. Before these characters, he had no courage to resist.

However, he is also full of regret at this moment, hating himself for not talking nonsense, if he gets involved in the grievances between this person and the Son of Murong Tian, there will be endless troubles.

"Ok?"

Qin Chen's eyes were cold, and a murderous intent suddenly appeared. Puff, Qin Chen's hand had already pinched the man's neck and lifted it all at once.

"What do you want to do? This is the Heavenly Work Martial Arts Department. Regardless of your job status in Tian, you will violate the rules if you act on the Martial Arts Department disciples."

Everyone at this table stood up and said sharply, but their bodies were still a little trembling and their tone trembling.

"Hmph, your friends are sincere, get out!"

Qin Chen gave a cold drink, and a terrifying aura suddenly surged in his body. With a bang, these Tiansheng disciples were shocked and flew out. One by one, blood surged, almost spewing blood, and the strength in his body solidified, almost unable to move. .

"So strong!"

These disciples all looked at Qin Chen in horror. They were all masters in the early days of Heavenly Sage. Although they were not the top disciples in the martial arts department, they were also the outstanding ones in the previous session of joining the sky. In front of this young man, they didn't even

have the courage to resist. What kind of strength is this? Where did Tianjiao come from? Why have they never heard of it in the military department for thousands of years?

"Let's talk, tell me everything you know. If you can satisfy Ben Shao, Ben Shao can give you a great good fortune. But if you don't conceal the deception, you can no longer blame Ben Shao for being polite. Believe it or not, now Ben Shao If you don't waste you less, there won't be anyone from the Martial Arts Department who will stand up for you when you return." Qin Chen said coldly.

For Ao Qingling and the others, he can only adopt this method.

The young man was carried by Qin Chen, and he only felt that death was coming. He looked at Qin Chen's indifferent eyes and felt that this man absolutely did what he said. If he dares to deceive him, it will be an endless nightmare to meet him.

"This senior, the disciple is Lin An from the Martial Arts Department of the Heavenly Work Department, but the disciple does not know much. The disciple only knows that Saint Murong has taken a fancy to a few women in Yunzhou and wants to place them in the Nine Sun Shenxuan. In the mountains, as for the name, I really don't know. I just heard that one of the women's surname is Ao, and the other is Li, the third surname or something... The disciple really didn't hear it." Lin An looked terrified. .

"That's it."

Suddenly there was a terrifying rage erupting in Qin Chen's eyes, with murderous aura. He couldn't think of what Murongtian really liked Ao Qingling and the others, looking for death, this person is really looking for death.

"How can I find the three of them?" Qin Chenhan said.

"Senior...I don't know. Now that the training of the Martial Arts Department is over, everyone is divided into different things. The disciple doesn't know a few people in Yunzhou, how can I find it?" Lin An said tremblingly, he only dared to say so much. Going on, even if Qin Chen let him go, Murong Tian would not let him go, and he could not escape the disaster.

"Don't you know?" Qin Chen sneered and looked at each other with a slight pressure on his palms. Suddenly, a breath that suffocated Lin An, enveloped his whole body, giving him the despair of facing death.

He didn't believe that the other party was the Tianjiao of the military department, and would not know how to find Ao Qingling and the others.

[Chapter 2830: Commitment](#)

"I said, I said..."

Lin An said with horror: "Now the training of the Martial Arts Department is over, the next step is to allocate the Dongfu. As long as you can find the steward for the Dongfu, you can know where the Yunzhou disciples are assigned. As for more, I really don't understand."

"Senior, I have said everything I can say, and please let me down, Senior." Lin An said in pain.

"Don't worry, as long as you haven't lied, I will naturally let you go, and I will give you a great good fortune, but now, you have to lead the way and take me to find the manager who assigns Dongfu to the newcomer of the warrior department." Qin Chen coldly put Na Lin An down, but stared at Lin An, as long as the other party had any changes, he would be captured.

Facing Qin Chen's icy gaze, Lin An was trembling, but helpless, so he smiled bitterly: "Senior, the disciple promised to take you there, but there is only so much the disciple can do. I hope that seniors can keep their promises when they get there."

He knew that he would not give up if he didn't lead Qin Chen, and immediately led the way.

Qin Chen ignored him and said coldly to the waiter at the restaurant behind him: "If someone comes to see Ben Shao in the future, you can tell him where Ben Shao is and let him follow him."

When the voice fell, he had already followed Lin An, out of the restaurant, and quickly swept into the void.

The void of the Martial Arts Department was very vast, and there was even a teleportation formation. Qin Chen allowed the opponent to take it and entered the teleportation formation to go deeper into the Martial Arts Department.

As soon as he entered the teleportation formation, Qin Chen felt the changes in space, but his soul knew everything about it and controlled everything at any time. Lin An took a peek at Qin Chen and found that this person was calm and free, and he walked on the ground wherever he arrived. He couldn't help but secretly admired: "This is the temperament of a big man. This person suppresses me with just a few fingers. I don't know where Tianjiao is, why have I never heard of it in the Martial Arts Department? And why is he so excited when he heard about the women in Yunzhou? Is it related to the women in Yunzhou?"

He was worried and worried, no matter what the origin of the other party, but he was clearly hostile to the Son of Murong Tian. Once the two sides fought against each other, regardless of the outcome, he would be caught in the middle, extremely uncomfortable.

Now I can only go one step at a time. I hope that a few of my friends can act by chance and save myself.

When Qin Chen rushed to the depths of the warrior department, the restaurant was noisy. Such an amazing thing happened and everyone was not surprised.

Many people are discussing and guessing, what is the origin of the young man who captured Lin An before? I dare to be wild in the warrior department, so brave, even seemingly to find Murong Tian trouble.

However, no matter what the other party's background is, they can't provoke them. Moreover, although Qin Chen is strong, he is facing Saint Murong Tian from the Martial Arts Department. It is rumored that Saint Murong Tian could grow so fast, and there are big people behind him. , If the young man rashly offended Murong Tian, the consequences would be very miserable.

Huh!

Just as everyone was talking about it, a golden red gleamed in the empty space on the distant street, like a flame of light coming from the heavens, piercing the sky and directly impacting here. Before the flames arrived, the whole restaurant began to tremble, and everyone felt that their minds were swaying and couldn't be alone.

What is an expert? Come so strong?

Boom!

Like a meteor falling to the ground, the street outside the restaurant, the streamer fell, all the red light shot out in all directions, and bursts of flame runes were conveyed in the void, and the crimson light carried the aura of burning everything, terrifying.

Then an old man appeared in the crimson light. The old man was wearing a crimson robe with red eyebrows. He was neat and tidy. He had an extraordinary breath. In his eyes, there seemed to be endless flames spinning, burning, and forging everything in the world. , Exudes a breathtaking atmosphere.

"Gao Huo Xuan Tong, red eyebrows and golden eyes, is Senior Brother Red eyebrows!"

Seeing this old man with a terrifying breath, many people on the street were shocked, with respect and fear in their eyes.

The person here is the famous red eyebrow in the warrior department.

"I heard that Senior Brother Chimei killed the Yinyang Langjun in Yinyanghai not long ago and got a big gain. Why did he suddenly come here?"

The crowd was extremely shaken, and then under the eyes of everyone, he walked into the restaurant with red eyebrows, with an extremely respectful look, as if he was seeing someone, and went straight to the dining area on the second floor.

Suddenly, the audience was silent. No one knew what Chimei was doing here. They didn't dare to speak. They were terrified. He just sent away a evil star. Unexpectedly, Brother Chimei came again and offended Chimei, all of them. It is definitely difficult for people to move in the warrior department.

"Ok?"

Chimei came to the second floor, his gaze swept away, and his respectful expression suddenly condensed, revealing a look of doubt.

With red eyebrows, it is natural to see that this restaurant seems to have had a fight before.

"What's going on here? Has anyone fought against each other?"

Chimei grabbed and photographed a waiter in the restaurant, and immediately shouted coldly. According to the message he got, Shao Chen was waiting for him in this restaurant. How could Shao Chen not be there when he arrived, and there were even fights in the restaurant. His heart was immediately shocked.

"Senior Brother Chimei, there was indeed someone fighting just now."

The attendant was trembling, and immediately said the previous thing.

"what?"

Chimei was shocked, and in just a moment, he understood that the person who did it before was Qin Chen. According to his inquiries, Qin Chen seemed to be from Yunzhou, the head of Yunzhou.

"It's looking for death, what the Son of Murong Tian dared to offend Xiao Chen, I don't know whether to live or die."

A thick flame suddenly appeared on Chimei's body, and with a bang, he rose into the sky, and when he shook his figure, he had disappeared into the void and followed Qin Chen away.

"Young Chen? Did you hear that? What did Brother Chimei call that young man just now? Young Chen?"

"What kind of person is that young man, even Senior Brother Red Eyebrow, should he call him respectfully?"

"hiss!"

There were all kinds of air-conditioning sounds in the audience, and everyone was dumbfounded with a dull expression.

In the void, Qin Chen kept flying, and under the leadership of Na Lin An, through the teleportation formation, he suddenly came to a space with beautiful scenery and amazing holy energy.

This space is filled with flowing holy energy. Obviously, there are people with vast magical powers. The holy energy here is activated and dispersed into the air, which also makes the disciples' cultivation base diligently improved.

"Senior, the main hall on the mountain in front is the main hall where our martial arts department allocates Dongfu, and the Dongfu distribution of new disciples is all controlled by the inside."

Lin An pointed to a mountain in front of him. Qin Chen had spotted the mountain long ago. There was a magnificent palace on top of the mountain.
