[Chapter 2901: Man king](#)

"If you regard that kid as an ordinary saint, you would be very wrong."

Boom! At this moment, a terrifying aura came down, and under the eyes of everyone, a group of powerful saints flew down and suddenly came to the ranks of the Blood Sun Palace. The leader of them was a powerful man like a handsome young man. , On

The breath is like the ocean, giving people a strong sense of deterrence.

"Brother Ren Wang!"

Seeing this person, the saints of the blood sun palace showed solemn expressions, and the saints of blood also flashed his eyes and laughed.

"Brother Renwang seems to know the origin of this son?" The Blood Holy Son smiled lightly.

The person here is not someone else, but the saint son of the Royal Palace, the saint son of the immortal king! "Your news has fallen behind. Our King Ren Mansion has eyeliner in Guanghan Mansion. Before this trial of the heavens, we deliberately conducted inquiries. This person is named Qin Chen. He is the newly recruited and promoted son of Heaven. Xiang Wudi

, Although in the team this time, you may not know that this person was directly suppressed by Qin Chen because he offended that Qin Chen in the work of heaven, and he knelt down on the spot and has become a laughing stock. "

"what?"

Many Saints in Xueyang Mansion were shocked when they heard this news, showing a shocked expression: "With such a thing, what is the origin of Qin Chen? It is so powerful, and the Saint Son who can make Heaven work. Does Xiang Wudi kneel down?" "I don't know the origin of this son. My spies in the King's Mansion in Guanghan Mansion don't know. I only know that this person was newly recruited in the process of recruiting disciples from Heaven. However, a refiner also participated in the martial arts assessment.

In the assessment of the ancient sacred tower, he went directly to the ninth floor of the ancient sacred tower. He was a world-famous figure. He was also summoned by the minister of Guanghan Futian. Now he is in the limelight in Guanghan Futian work. "

"The ninth floor of the ancient holy tower?"

A lot of people were shocked. The ancient sacred tower of Heavenly Work was evaluated, and they naturally knew that those who could break into the eighth floor were already the heavenly arrogance, and those who could break into the ninth floor were placed in the entire celestial realm. , And it's rare.

It is no wonder that this son has shown such terrifying strength.

"Don't be surprised. Although Qin Chen broke into the ninth floor of the ancient sacred tower, it is currently rumored that his cultivation level is not high. I want to take advantage of this celestial trial to

gain opportunities and truly grow into a giant of the world." Ren Wang Shengzi smiled coldly, moved a white jade finger on his hand, and his eyes flashed coldly: "This person is also our target this time. As long as it is from Guanghan Mansion, we will all kill, then Qin Chen, Wei Siqing and Zhou Wusheng are the ones we will kill this time, and all the elites of Guanghan Mansion will be lost. After ten thousand years, Guanghan Mansion will surely die of talents and will not be able to bring much help to the human race. We will be benevolent. Wang Mansion and your Blood Sun Mansion can be

Ming Zhengda annexed it. "

"Hahaha, that's good!"

People in Xueyang Mansion and Renwang Mansion all laughed grimly. "Let's go, the people from Guanghan Mansion have already left, but they should be near this chaotic sea. We can't go anywhere. Let's find some helpers first. It's best to get a hit and not give Na Weisi. Any possible escape for Qing and Zhou Wusheng

. "

Whoosh whoosh!

This group of people rose up into the sky, wherever they passed, the crowd retreated.

Over the chaotic sea, Qin Chen and his party flew quickly, and the surrounding space was filled with powerful auras.

And in the chaotic sea below, a terrible aura was also rising. The appearance of Qin Chen and the others had already shocked the powerful existence in the chaotic sea, and an ancient and powerful beast was gradually gaining attributes.

Boom boom boom! Qin Chen and the others saw that countless saints were fighting, and there were battles in many places above the sea of chaos, and some saints sneaked into the sea of chaos, competing for treasures, looting monsters, and huge waves above the sea. Monstrous, produced everywhere

Destruction and destruction, at the same time, from the bottom of the sea, the aura of sacred veins rises to the sky, containing the power of Heavenly Sage.

They are the saint veins of some heavenly saints.

These holy veins contain the chaotic breath of the chaotic sea, which cannot be directly refined, but after being refined, they can be absorbed, but it takes a lot of time to get to the outside world, and they are also heavy treasures, which are enough to trigger a fight among the strong.

Many holy sons are fighting for wealth in the chaotic sea. The scene is extremely spectacular. Qin Chen felt the fighting here in the distance. His soul power swept out, and instantly enveloped the infinite sea. In the sea, in the seabed, countless big hands were grabbing everywhere, all of them were holy The children show up

The supernatural vision coming.

Some of the top saint sons, with a big hand, actually caught them directly, three, five ancient saint veins, and some saint sons with weaker cultivation bases. They are also hugged together, and they can get some benefits without losing the wind.

"It's really a hungry wolf culling, one by one is crazy."

Qin Chen sighed, these saints are top masters in all major forces, but now they are fighting against each other with the street rogue Poppi. Although these low-grade sacred veins on the bottom of the sea are very attractive and give Qin Chen the urge to plunder, he still resisted, and did not join them, but avoided the place of right and wrong here, anyway, this trial There are many treasures in the earth

, There is no shortage of some holy veins. After all, the ancient sacred veins here are all contaminated by the sea of chaos and need to be refined. A low-grade ancient sacred vein can be refined at most one third, and fifty to one hundred. The low-grade ancient holy veins of the bar can be redeemed

Change a middle-grade ancient holy vein.

In other words, don't look at the opponent's grasp of three or five low-grade ancient sacred veins, but if you really need to calculate it, at least more than one hundred can be harvested to be equal to one middle-grade ancient sacred vein.

And Qin Chen's Heavenly Sage Middle Grade Ancient Sacred Veins, together with those who blackmailed the Wangu Tower, were seven or eight, how could he waste time here?

Those who covet these ordinary ancient sacred veins so much are obviously only the saints of ordinary forces with a narrow vision. "Junior Brother Qin Chen, don't look, come with me. I got information once. I knew that there is a special place deep in this trial land. It is very likely to have powerful treasures, and even the ancient sacred top grade. Sacred Veins exist, we work every day

With a few people from joining hands, it is very likely that they will be able to break in and gain a lot. "

Zhou Wusheng said from the side. Beside Qin Chen, Zhou Wusheng and Xu Yue were always there. Dao Zhengzhi, Su Zheng and Sun Wujin also followed closely. In this chaos, everyone did not disperse, but Xiang Invincible, but disappeared and ran away. where.

[Chapter 2902: Chaos Storm](#)

Qin Chen didn't understand the place of trial, and his eyes condensed when he heard Zhou Wusheng say this.

The ancient holy veins of the Heavenly Sage High-grade, this is what he needs most now, if he gets one, his cultivation level will most likely be able to break through.

Anyway, there is no place to go now. Since Wu Sheng has information this week, it's better to follow along.

Qin Chen was not afraid of these people being cheating. With his strength, he was the only one who counted others, and there was no time when others counted him.

"Let's go!" A group of people immediately flew, rushing fast, and in the process of flying, Qin Chen perceives this square of heaven and earth carefully, and finds that this place of trial is very special. It

seems to be located in a mysterious place in the heavens, which is the same as the real heaven. Layer barrier, domain gate

When the Tao is not opened, it cannot go out at all, and can only be placed in it forever.

Zhou Wusheng has studied the place of trial quite well, and seems to be very familiar with it. The group of people leading the work of heaven flew all the way to the depths of the chaotic sea.

Along the way, they flew extremely fast, perceiving a lot of beast auras and holy veins below, but they did not linger, nor did they move to obtain treasures, but moved on. They are all worldly figures. They are not interested in these treasures and do not want to waste time. This is a race against time. If the blood sun palace and other forces are allowed to obtain the treasure first and break through the realm of the overlord, then this group of them

Everyone is in danger.

Their top priority is to fly out of this chaotic sea and reach the nearest continent to find that special place.

Oh oh oh oh oh oh...

At this moment, the sound of ghost crying and howling suddenly came out on the entire sea, and countless black clouds enveloped the entire sea area, layered space.

"No, this is a chaotic storm, a special annihilating storm on the sea of chaos, a terrorist killing intent. These are not ordinary storms. There are actually countless chaotic monsters in the storm. Please be careful."

Zhou Wusheng's expression changed and he roared.

At this moment, Qin Chen also saw the dark storm coming over. This storm swept over, and the world seemed to plunge into darkness in an instant. The sea below was rolling frantically, and countless whirlpools appeared and tornadoes appeared, and from the sea, monsters and beasts kept coming out and soaring. Horrible chaos

Violence has no effect on them, but it does huge damage to human warriors. Now, Qin Chen, Zhou Wusheng and a group of people who work in heaven have encountered such extremely bad storms, chaotic storms, such disasters, and even strong people like Zhou Wusheng will change their colors, because no one knows that in this storm Somehow

what. As if the black purgatory was coming, Qin Chen could see the sea, the sky above, the boundless storm enveloped, the hurricane rage everywhere, the sun and the moon were dark, and the water dragons rose into the sky, and in the dark whirlpool, there were Spooky Monster Void

shadow.

In the sea of chaos, there are countless ancient holy veins, which naturally gave birth to countless powerful ocean monsters.

Boom!

The storm is coming! Qin Chen and the others were immediately enveloped by an endless storm of chaos. At the same time, Qin Chen saw that there were countless black flying fishes in the storm. These flying fishes had sharp thorns all over, and they were dark and glowing with faint blue. Color, see

Qin Chen and the others screamed like ghosts and howling, which was breathtaking, and suddenly shot sharp thorns all over the body.

Whoosh whoosh!

These sharp thorns, extremely terrifying, came directly in front of Qin Chen and his group with terrifying power, like a pear blossom in a rainstorm, and these monster beasts were also slaughtered towards Qin Chen and the others.

Qin Chen and the group of people are all heavenly arrogances. The aura of Heavenly Sacred Law exuding from their body is like a bright lamp in the chaotic storm, attracting monsters like sharks smelling blood.

Even in the deep sea, some tyrannical monsters projected their thoughts.

Hum!

Densely dense flying fish, mixed in the storm, locusts are usually overwhelming, all kinds of magic, black light, and chaotic power, forming a large array of people, enough to kill people into meat cakes.

"The place of trial is really dangerous!" Qin Chen was under countless sharp thorns, did not change color at all, the ancient aura revolved, the ancient sacrament appeared, and then he blasted out, countless whirlpools appeared, and directly took those flying fish. The sharp thorn attack blasted through, and then the punch spread to all directions, tearing

Throughout the ages, thousands of black flying fish monster beasts were completely torn apart on the spot, and turned into monster beast auras, which were converged and absorbed by Qin Chen.

However, the aura of these monsters is very chaotic, for Qin Chen, it can only be regarded as a little help, and can not be greatly supplemented.

Qin Chen didn't want to improve himself by swallowing these monster beasts. He refined these powers, only to perceive this chaotic sea, to perceive the power of chaos, and to enhance his sense of heaven. Moreover, the cultivation base of these flying fishes is not high. Massive flying fishes were killed, refined by Qin Chen's sky-repairing technique, and sucked into the jade discs of heaven and earth. It was a drop in the bucket. No matter how many flying fish monsters were killed, Not comparable to a giant of refining

.

Qin Chen used more to perceive the way of heaven and exercise his supernatural powers.

Experts such as Zhou Wusheng were also not afraid of them. They shot again and again, each showing their shocking methods. Thousands of ocean monsters were beheaded and turned into black blood mist, constantly falling.

This group of sea monsters is also unlucky. If they encounter other holy children, combined with the chaotic storm, they may be able to kill each other and devour human blood.

It's a pity that they met Qin Chen and his party, who were the best among the Saints of the nearby mansions, and they could only return without success. Among the crowd, there is another person who is very excited, that is Dao Zhengzhi. He is rumored to have obtained the inheritance of the ancient chaotic saint, practicing the technique of chaos. In this chaotic sea, like a fish in the water, like a tiger with wings, boom and boom, every shot falls. ,

All beheaded a large number of ocean monsters.

During the battle, he looked at Qin Chen provocatively with his eyes flickering. If it weren't for Zhou Wusheng's side and watching him, he would have liked to fight Qin Chen again now to find his place.

Boom!

After fighting for about half an hour, these flying fish monsters finally knew to leave. They fluttered like flying birds and locusts, retreating crazily, and disappeared in the blink of an eye.

Qin Chen and the others have killed so many people for so long, and the number of black flying fish monster beasts killed was at least tens of millions, but for this flying fish monster army, it seemed that there was not much reduction.

No one knows how huge this flying fish monster beast is, like a sky screen. "Let's move on. Since we have entered the chaotic storm, there is nothing we can do. We can only move forward, hoping to get out as soon as possible, and there are still some treasures in this chaotic sea. If we can kill some special giant monsters. Beast, yes

We also have some uses. "Zhou Wusheng said loudly.

[Chapter 2903: Chaos Thunderbird](#)

"go!"

A group of people rose up and quickly entered the deeper part of the ocean, killing them all the way. The boundless storm of chaos enveloped everyone and kept sweeping, and the sea monsters that appeared in the sea of chaos became more and more powerful.

Some monsters even took advantage of the chaotic storm, cruising in the storm, hunting other monsters.

Roar!

Qin Chen saw with his own eyes a jet-black whale with a body of thousands of meters, rising from the chaotic sea, swallowing a large number of monsters, and turning into his own power.

"This is the Sky-Swallowing Devil Whale. Everyone is careful. If it is disturbed, it is a fierce battle."

Zhou Wusheng said with caution. Looking at this demon whale, Qin Chen also felt the terrifying demon energy in its body. This was obviously a sea monster that was close to the overlord level of the late Heavenly Sage. Dust has no effect at all

Yes, otherwise Qin Chen could not even fight a battle, behead it, absorb and refine.

It took a long time to fly this way. After half a day, Qin Chen and the others didn't know how much they had penetrated into the chaotic sea. They still couldn't see any land in front of them, and the sea below contained even more terrifying power.

"It seems that we are going deep into the sea of chaos, but it's okay. The sea of chaos has a limited range. I can feel that through this sea area, there should be a continent ahead."

Xu Yue's eyes flashed, and the Light Eucharist revolved, like a **** like a holy, as if communicating with the void in the dark, looking for the location of the mainland.

Hum!

At this moment, in this chaotic storm, countless shadows of thunder appeared.

Quack! The piercing roar sounded, rumbling, pitch-black chaotic storm, and there appeared a monster beast that was completely dark, but there were a lot of thundering lights on its body. These birds are tall and tall, and the key is to Back

Then a pair of thunder wings grew, exuding a tyrannical aura.

Actually the heads have the cultivation base of the mid-term giants of Tiansheng.

An army of monster beasts composed of these thunder birds. "Attention, this is Chaos Thunderbird, one of the more powerful monsters in the Sea of Chaos. They have the power of thunder, and they have a strong atmosphere of the sea of Chaos. They take advantage of the storm to kill everywhere and hunt other monsters. , Once met someone

Class, will also feed on humans. "

Zhou Wusheng immediately reminded him when he saw the thunderbird army appearing in the storm.

"Haha, the chaotic air in this chaotic thunderbird is good, it is of great benefit to me cultivating chaotic art, so I accept it!"

Dao Zhengzhi's eyes moved, and he leaped out excitedly, and a long river of chaos was shot out. Suddenly, the long river of terrifying chaos turned into a vast ocean, swept across the air and directly blasted into the army of chaotic Thunderbirds.

Quack! Suddenly countless chaotic thunderbirds yelled, revealing a fierce light, and a dense burst of thunder light broke out all over their body, which actually blocked Dao Zhengji's blow, although nearly ten chaotic thunderbirds were bombarded, and countless chaotic airs were detonated. Shoji chaos

The river swallowed, but compared to the army of chaotic Thunderbirds, it was a drop in the bucket.

"How is it possible? My attack only killed nearly ten Chaos Thunderbirds?"

Dao Zhengzhi was taken aback. His long river of chaos is so powerful, especially in this sea of chaos, that he is even more powerful. With a single blow, he can only kill such a little chaotic Thunderbird, so he is not shocked. "These chaotic thunderbirds have the power of thunder in their bodies. They are the chaotic thunders in this chaotic storm. They have the power of chaos. So your attack and damage to them are not strong. Dao Zhengzhi, you are too reckless. In this way, we

Will definitely be caught by these chaotic thunderbirds. "

Xu Yue said with an ugly expression.

Sure enough, Dao Zhengzhi's attack caused the many chaotic Thunderbirds who had already been eyeing them, all of them broke out with violent murderous intent.

"Human warrior, kill!"

These chaotic thunderbirds let out a stern and stern roar, and there were even a lot of divine thoughts passed on. Suddenly, these thunderbirds formed an army and turned into a mighty thunder light toward Qin Chen and others. Swept over. The monster beasts in this trial land are very intelligent. They are not much different from human beings. They know how to use the formation method and become the power of thunder. Suddenly, the birds turned into a picture in the storm. Lei Guang's giant net, join hands, giant

The big thunder net pressed down towards the crowd.

"not good!"

Everyone was taken aback. The power of this thunder net was terrifying, and many thunder nets gathered together to exude a breath of suffocation.

"Everyone join forces to kill these thunderbirds."

Zhou Wusheng shouted.

Boom!

Before he could speak, Dao Zhengzhi had already taken action, and the chaotic river was constantly surging, and it was suddenly suppressed.

But this time, the thunderset was extremely terrifying, and it actually resisted his chaotic river attack. These thunderbirds have chaotic attributes themselves, and naturally they are not afraid of chaotic power attacks, and they squat and scream fiercely towards Daozhengji. Come.

"Funny!" Dao Zhengzhi sneered. A black bridge appeared in front of him. It was the Naihe Bridge, which suddenly traversed the sky. He stood on the high Naihe Bridge. The Chaos Thunderbird's attack could not get close to his body. But using the power of Naihe Bridge to wear

Through the layers of the void, the chaotic thunderbirds were continuously beheaded. Suddenly, the chaotic thunderbirds were continuously beheaded, and the chaotic power in their bodies was also absorbed by Dao Zhengzhi. Everyone clearly felt that the power in Dao Zhengzhi's body was slowly improving and was supplemented. Breath deeper

Excited.

"This Dao Zhengzhi is really powerful in the chaotic sea."

When other people saw this scene, their eyes flashed with cold light.

"We also do it."

Upon seeing this, Zhou Wusheng roared and came up with the killer. Qin Chen is naturally not polite. These chaotic Thunderbird monsters are under a lot of pressure, but to him, it is nothing. His killing fist is the best at fighting in this kind of army. Out, suddenly there are a dozen heads

The chaotic thunderbirds were beheaded and screamed. After these chaotic thunderbirds burst, they turned into waves of thunder. These thunders condensed into waves of thunder and were involved in Qin Chen's fist.

Actually make up!

"This thunder light is a bit interesting, with a chaotic aura, but it also has a punishing violent taste. It actually has some nourishment to my thunder power."

Qin Chen exclaimed and killed dozens of Chaos Thunderbirds with one punch. The power of thunder, the huge blood, and the chaotic atmosphere in it all swept into his body, and immediately there was a warm current in his body. Flowing in. Especially the power of thunder in Qin Chen's body has been greatly benefited.

[Chapter 2904: Don't blame it](#)

These chaotic thunderbirds, fighting for years in the chaotic storm, are born with the mood of killing, and combined with the two laws of chaos and thunder. Qin Chen now kills these chaotic thunderbirds, all of which are integrated into the body, and the benefits are obtained. very

Is vigorous.

"If I can absorb all these chaotic thunderbirds, my thunder power will surely be improved."

Qin Chen glanced around, there were thousands of chaotic thunderbirds densely packed, and his thoughts moved. The next moment, banging, Qin Chen suddenly killed his whole body. His body seemed to explode as if a round of thunder exploded. The countless pores of his body were sprayed with terrifying thunder light. In an instant, there was a thousand miles above the sea of chaos. Countless Chaos Thunder

The birds are all wrapped in this thunderous force, and the terrifying thunder force rushes into the bodies of these chaotic thunderbirds.

"Bang bang bang..." I heard a burst of bursts, and suddenly thousands of chaotic thunderbirds were torn apart by Qin Chen's thunder, and the blood and chaos after the death of these chaotic thunderbirds The power of Thunder was also absorbed by Qin Chen suddenly, booming,

It turned into a pitch-black ball of thunder light and slammed into his body.

Zi Zi Zi!

Above Qin Chen's body, thunder lights wandered, and the whole person seemed to have become a thunder devil.

"Quack!"

"Run away!"

"This human warrior is fierce!"

With a single blow, Qin Chen killed more than 10% of Chaos Thunderbirds, and the remaining Chaos Thunderbirds saw this scene, so scared that they all flew up and flew away frantically.

"Leave me wherever I flee." Qin Chen stood up and turned into thunder, and his whole person shuttled among the many chaotic thunderbirds. Suddenly, a large swath of chaotic thunderbirds was wiped out by Qin Chen, and then swallowed and absorbed into his body. In just a dozen breaths, the originally densely mixed

Chaos Thunderbirds were empty. Except for a small half of the original thousands of Chaos Thunderbirds who fled in a hurry, all the rest were killed and absorbed by Qin Chen and became the power in his own body.

Zi Zi Zi!

A terrifying thunderball formed in Qin Chen's body, giving him a terrifying sense of power.

"What supernatural power is this? So fierce?"

Zhou Wusheng and others were shocked. They also wanted to kill these chaotic thunderbirds to see if they had any gains. They did not expect that Qin Chen would kill and absorb most of these chaotic thunderbirds in an instant. In particular, Dao Zhengzhi was so angry that his forehead burst into blue veins, and his eyes exuded a fierce light. These chaotic thunderbirds were also of great benefit to him, but in such a short time, he had only time to kill and absorb hundreds of chaotic thunders. Bird leftover

The chaotic Thunderbird that was down was swallowed by Qin Chen, how not depressed and angry. However, he did not dare to do it, because according to general principles, even he could not slaughter so many chaotic thunderbirds in an instant. Even if there is no bridge, he still needs to be killed slowly, at least a few hours, Will all the thousands

Chaos Thunderbird beheaded clean.

But Qin Chen did this in an instant, showing how aggressive it was.

He wants to do it, now he can only find his own way, so he can only swallow his breath.

"The young man took a step first, brothers and sisters, don't you blame it? This group of chaotic thunderbirds are very helpful to Ben young's cultivating thunder supernatural powers, so there is no way but to do it."

Qin Chen swallowed all the Thunderbird power into his body, then opened his eyes and said loudly.

Zhou Wusheng twitched his mouth speechlessly, all this killing was killed, where do they have any comments? What's more, these Chaos Thunderbirds didn't help them much.

"Junior Brother Qin is polite, the place of trial, hunting for treasure, naturally those who can know that Junior Brother Qin's slaying method is extraordinary. I only have admiration for me. How can I blame it?" Zhou Wusheng laughed I stood up, "Anyway, there will be more ferocious monsters. There are many treasures in this trial land. If I knew this, Junior Brother Qin should remind me as soon as possible. I will wait for all these chaotic thunderbirds to be together. Siege, no

Let them run away and let Junior Brother Qin absorb them all. "

"That's not necessary. After killing so many Chaos Thunderbirds, Ben Shao has enough power to absorb."

Qin Chen said lightly.

Dao Zhengzhi was aside, his face pale, but he dared not say a word. After that, the crowd continued to move forward. In the chaotic storm, more and more terrifying monsters appeared. After Qin Chen and the others flew another stick of incense, a violent roar suddenly came from the front, and then they heard it. Roar and roar

.

Qin Chen and the others looked up, and they saw that in the distant storm, there were horrible flood dragons. Each flood dragon was a hundred meters long, covered with dark scales, exuding a terrifying chaotic atmosphere, in the sky. Flying in. Looking around, there are hundreds of densely packed flood dragons, each with the cultivation base of the peak giant in the middle of the sage, gathered together, the terrifying demon law condensed into a sky, combined with the chaotic storm, cover

Miles of the sky.

Ho Ho Ho!

At this moment, these flood dragons roared, attacking frantically at the center position, seeming to be besieging someone. "Be careful, this is the dark storm dragon in the sea of chaos. It is one of the most powerful monsters in the sea of chaos. It is far beyond the comparison of Chaos Thunderbird. In previous years, many saints fell in this dark storm. Under the attack of the dragon, this

Why do so many appear at once? "

Zhou Wusheng also had a dignified look on his face, and said in surprise.

Dark storm dragon!

Qin Chen had already noticed this dark dragon, walking back and forth in the chaotic storm, as if the storm was born of them, and they were the masters of this world.

Moreover, the terrifying Heavenly Sage Law exuded by these dark violent flood dragons is arranged in a formation, like an iron barrel, making it impossible for people to cross the thunder pond one step.

Even Qin Chen's strength was a little afraid. After all, there are too many of these dark violent flood dragons. If there is only one or ten, then Qin Chen can kill without fear, but now there are more than one hundred of them. What is this concept? Just rely on quantity to give people

Heap dead.

"There seems to be someone fighting among these dark violent flood dragons. How about, do we want to leave here and not get involved in this storm?"

Xu Yue frowned and said, with a retreat in his eyes.

It's not that they are afraid of these dark stormy dragons, but that they don't know who is working with these dark stormy dragons in this central place. If they rush in, it turns out that they are enemies and lead wolves into the room, which is more dangerous.

But at this moment, a series of familiar soft drinks came, Qin Chen and the others frowned, the voices were actually a little familiar.

"It's from Guanghan Palace." Zhou Wusheng blurted out.

[Chapter 2905: Power of Martial Saint](#)

at this time.

The endless dark violent dragons in front of you roared and slayed frantically, forming a boundless black purgatory. The black and oppressive dark violent dragons were flying everywhere, arranged in large arrays, roaring in the storm, and the sea of chaos stirred up. Thousands of feet of water and huge waves.

And in the center of the infinite dragon dance, a series of terrible holy yuans surged, and you could vaguely see a series of flashes of light, and a master's anger sounded, the voice was crisp, Qin Chen even heard that he had been with him The voice of the Wuling in the Guanghan Palace that had fought.

"It's from Guanghan Palace."

Everyone's eyes condensed, and they didn't expect that the people trapped in the center of the storm by the dark storm dragon were actually from Guanghan Palace, both from Guanghan Palace.

"Senior Brother Zhou, what should I do?"

The figures of Qin Chen who were planning to leave stopped suddenly.

Qin Chen also opened his eyes, and the terrifying soul power suddenly diffused out, and he saw the center of the dark storm flood dragon, in the black storm, stretched for countless spaces, and I don't know how many, countless powerful restrictions, holy treasure, Intertwine and dance in it.

Some fighting figures appeared in front of him. They were indeed from Guanghan Palace. In addition, there were also some holy sons from other forces in Guanghan Palace. At this time, they all formed a large formation. Resisting the erosion of the dark storm flood dragon, the blood rushed into the sky, and it was extremely clear in the dark storm.

But these dark violent flood dragons are very strong. So many dark violent flood dragons roar, display supernatural powers, restraint, and combine to form a large array to kill enemies. Even if some of the holy children of Guanghan Palace and Guanghan Mansion are the proud children of heaven, they are extremely impressive. The master is not an ordinary mid-Tiansheng peak giant master, but in the face of such a battle, he can only resist.

The dark storm dragon is equivalent to a small overlord force.

"No, why is there no figure of Wei Siqing among the disciples of Guanghan Palace? She is the great sister of Guanghan Palace and will definitely be in the team. If she is there, with her cultivation level, Guanghan Palace This force can definitely support it more easily and even kill it, but now, these people are just struggling to support it."

Qin Chen furrowed his brows and thought slightly, all kinds of thoughts surged in his mind, and aura flashed.

"Senior Brother Zhou, let's leave quickly. These dark violent flood dragons are very powerful. If we are surrounded, we will have troubles. Moreover, the people of Guanghan Palace have extraordinary cultivation bases and carry heavy treasures on them. I don't know why they are suffering. Don't leave, but if you want to break out, there will be absolutely no problem, and it's not a dead end.

Su Zheng said in a deep voice.

"Can't go."

Zhou Wusheng suddenly said something, and then everyone saw that these dark and violent flood dragons had already stared at them.

The human blood of Qin Chen and others are like torches in the dark, extremely bright in this dark storm. These dark violent flood dragons are here to prey, devour all kinds of monsters, and prey on powerful ones. Existing, as soon as Qin Chen and the others were discovered, these dark storm flood dragons immediately separated a part and rushed over.

"It's a human warrior."

"It's another group of human warriors."

"These human warriors came to our sea of chaos to kill us and rob us of our wealth. Unfortunately, every time they encounter us, they are seeking their own death."

"Kill them. Someone from the previous human race went to the bottom of the sea and tried to find the patriarch. It was a dead end. There is also a strong aura in the hands of this group of human race masters. Such a character must be the proud man among humans. , If beheaded and refined into puppets, we can understand more about humans."

"kill!"

Suddenly, countless bloody, wild, and violent powers and thoughts swept through the void. Immediately from that group, twenty or thirty dark violent flood dragons flew out. Each of them used their demon power to connect into a single piece, across the distant. Time and space, combined with the chaotic storm, enveloped Qin Chen and his party, giving people a strong shock.

"These dark and violent flood dragons dare to attack us on their own initiative. They are simply looking for death. Do you really think that we are ordinary human giants?"

Dao Zhengzhi cursed, when the Kou Naihe Bridge crossed out, he stood proudly on the bridge, and the chaotic river swept out, turning into seven or eight torrents, fiercely surging, banging... a dark violent dragon screamed suddenly. Continuously, the body was pierced, flesh and blood flew across, and the dark scales were torn apart and falling continuously.

However, this dark violent flood dragon was so wounded that it hadn't fallen yet. It roared, and the dark power surged in its body, wiping away the chaotic aura that Dao Zhengzhi had displayed. Then it roared and retreated, dying, crazy. Absorbing the power in the chaotic storm, he is actually repairing his injuries and restoring his strength.

"Ok?"

Dao Zhengzhi was taken aback. His Naihe Bridge hit did not even kill a dark storm flood dragon. The strength of this dark storm flood dragon far exceeded his expectations.

The others were also taken aback, their eyes revealed a solemn look, the power of the dark storm flood dragon was indeed shocking.

"Let me take a look, Wu Sheng Tian Jing, the emperor of heaven."

Zhou Wusheng yelled coldly, his body flew up, and the supreme martial sage aura surged on his body. With a wave of his big sleeves, the giant palm flew out and directly penetrated into the army of the dark storm dragon.

Qin Chen finally saw Martial Saint's move this week. The brilliance of heavenly power was like the arrival of Martial Saint, invincible. Under his palm, a dark violent flood dragon was swallowed by his palm and suppressed it. Under Zhou Wusheng's capture, the violent flood dragon exploded repeatedly in his body, screamed again and again, and his body exploded frantically. Zhou Wusheng's strength was condensed into a single point, essentially beheaded.

"Awesome, this is... the power of the martial sage, the power of directly extinguishing the dark chaos in this dark storm dragon."

Qin Chen's eyes flashed, and he already had a guess about Zhou Wusheng's power.

"No, this human warrior is powerful."

Many dark and stormy dragons roared, wandered around, and rushed forward.

"Go, go to the center of the big formation and meet the people in Guanghan Palace."

Qin Chen's eyes flashed, and did not make a move. Instead, his body flickered and he directly broke into the center of the dark violent flood dragon. The space circulated regularly, and his body flickered in the void.

"Go, let's go in too."

Zhou Wusheng also roared, and Xu Yue and others quickly broke into the dark storm dragon formation, and the two sides fought and a group of people entered.

"someone is coming."

"It's a master at work."

"I saw it, it was Zhou Wusheng and that Qin Chen... they were killing the dark storm dragon."

At this moment in the great formation, Guanghan Palace and many of the Saints of Guanghan Palace also felt Qin Chen and their movements, and they were all overjoyed, revealing surprises.

[Chapter 2906: Chaos Sea](#)

At this moment, it is impossible to describe the excitement in their hearts.

They experienced here, but suddenly encountered a chaotic storm, and was attacked and killed by the dark violent flood dragon. They were shocked and angry in their hearts. At this moment, they felt how excited they were when they came.

"No, stop them, you can't let these human warriors meet."

When many dark storm flood dragons saw Qin Chen's actions, they suddenly roared, and one of the dark storm flood dragons rushed towards Qin Chen, surrounded by terrifying dark power.

"Humph."

Qin Chen snorted coldly, grabbed his palm, and displayed the magical powers of Origin, which evolved an astonishing picture of the coming of the gods.

This time, it was even more subtle than Zhou Wusheng's Wusheng Tianjing. Under his fist strength, this dark violent flood dragon was captured by Qin Chen on the spot. The next moment, Qin Chen secretly activated the sky-repairing technique, this dark violent flood dragon. The screams were directly refined and transformed into the purest darkness and chaotic power, as well as the terrifying demon sky holy law.

"Swallow me!"

Qin Chen snorted coldly, and immediately punched the demon race's heavenly sage law into his body. Under his powerful sky-repairing technique, the demon race's heavenly sage law began to transform into the power of the human race's heavenly sage law.

Every dark violent flood dragon is a giant at the peak of the mid-Tian Sage. It has cultivated a variety of chaotic and dark magical powers in its body, and its blood is tyrannical, especially the dark power that is born with it. It is now all by Qin Chen. Swallowing has also caused the Book of Origin to be upgraded again, not only containing the history of the human race, but also the chapter of the monster race.

However, although the power of these dark violent flood dragons is strong, after transformation, they have become much weaker. From the perspective of the swallowed Heavenly Sage Law, they are not even as good as an ordinary Human Race Heavenly Sage mid-term giant, and it is more difficult to kill many. .

The only benefit is that the dark chaotic power in the dark storm flood dragon can enable Qin Chen to have a deeper understanding of the avenue of the heavens.

"Awesome!"

Seeing that Qin Chen killed a dark violent flood dragon with his fingers, many of the Guanghan Mansion Saints, Dao Zhengzhi and others had their eyelids jumping wildly. From this, they could tell that Qin Chen was strong. , Has been compared with the big sister Wei Siqing of Guanghan Palace and Zhou Wusheng, big brother of Tiangong.

Of course, because of his age, everyone still had some doubts about Qin Chen's strength, thinking that he was slightly inferior to Zhou Wusheng and Wei Siqing, but there was not much difference.

Qin Chen and Zhou Wusheng showed great power, and Xu Yue and the others were all masters. A group of people was overwhelmed with thorns and thorns, and finally joined the sages of Guanghan Mansion.

"Thank you guys from God for your help."

The few female saints from Guanghan Palace flew up and said, and the many saints from other forces in Guanghan Palace were even more excited.

"Where is your big sister Wei Siqing?"

Qin Chen glanced at the field, and there were many saints standing there, but Wei Siqing was missing, and even Murong Bingyun was not there, frowning slightly.

If it weren't for Wei Siqing's absence, the saints and sons of Guanghan Palace and Guanghan Palace would not be so embarrassed.

"Before we encountered the dark storm flood dragons and we couldn't kill them all the time. Sister Wei Siqing discovered that these dark storm flood dragons were actually controlled by a certain leader in the chaos sea, so she entered the chaos sea with Murong Bingyun and killed them. The leader of the dark storm dragon is gone, as long as they kill their leader, the crisis will naturally be resolved."

Said a saint of Guanghan Palace.

"leader?"

Dao Zhengzhi and the others couldn't help changing their colors. This ordinary dark violent flood dragon was so terrifying, so how terrifying would their leader be? Wei Siqing took a saint from Guanghan Palace, dare to break in?

"Murong Bingyun also went in?"

Qin Chen frowned even more. He fought against Murong Bingyun. Naturally, he knew that although Murong Bingyun's strength was strong, he still had some gaps with Guanghan Palace master sister Wei Siqing, and was at best a little better than Dao Zhengzhi and the others. , Rushing into the depths of the chaotic sea, Variant couldn't help Wei Siqing too much, but instead added chaos.

"No, it's not that simple."

This thought came to Qin Chen's mind for the first time.

"How long have they been down?" Qin Chen asked quickly.

His actions made the many saints of Guanghan Palace more aware. They all said that the Master Palace Master's closed disciple had some relationship with this Qin Chen, and the two seemed to be lovers. It seems that this is indeed the case. As soon as he came up, he asked Murong Bingyun, and he looked like he was in love.

"Master sisters have been down for about half an hour." Wu Ling said hurriedly. She knew Qin Chen was great. Although Qin Chen was very upset, her concern for the master sister made her temporarily forget everything.

"Half an hour?"

Qin Chen's gaze condensed. According to the truth, there should have been movement for such a long time, but now, although the bottom of the Chaos Sea is turbulent, there is no fierce battle fluctuations. Isn't their purpose of entering the Chaos Sea? So simple?

"This dark storm flood dragon is a race. They are so powerful, and there must be a huge seabed holy vein running in it, and it must be the best among the ancient holy veins. As long as you seize the seabed holy vein of this race, you can definitely make My cultivation level has improved."

"Could it be that Murong Bingyun and the others are looking for the sacred vein of this dark storm dragon?"

A divine thought suddenly flickered in Qin Chen's heart, and his eyes suddenly brightened.

"possible!"

Boom!

Qin Chen shot directly, grabbed a dark violent flood dragon, used the heavenly soul forbidden technique, and began to plunder their soul memory. As expected, from the messy soul memory of the other party, he found the dark violent flood dragon deep in the distant seabed. In his lair, there is a huge sea vein, and that vein is a dilapidated Heavenly Saint High Grade Saint vein, called Chaos Sea Vein!

This chaotic sea vein is very dilapidated. It used to be a real high-grade Saint vein of the ancient heavenly sage, but it has been absorbed by the dark storm dragon for countless years, coupled with the erosion of the heavens over the years, it has been very broken, probably only left. About one-tenth of a normal Heavenly Saint High Grade Saint Vein.

Although these years, the dark storm dragon clan has been plundering some other monsters and beast clan, and human powerhouses, to supplement the power of the chaotic sea vein, but it can only keep this high-grade holy vein to continue to exist, and it has not collapsed.

However, even if there is only one tenth of the Heavenly Sage High-Rank Saint Vein that is about to collapse, it is an indescribable wealth for Qin Chen.

"One Heavenly Saint High Grade Saint Vein is equal to fifty to hundreds of Heavenly Saint Middle Grade Saint veins. Even if only one tenth remains, it is also five to ten Heavenly Saint Middle Grade Saint veins."

Qin Chen calculated.

[Chapter 2907: Salivating](#)

"However, the number is not a big deal. The most important thing is the ancient sacred veins of the Heavenly Sage High-Rank. Its essence is a full level higher than the ancient sacred veins of the Heavenly Sage Middle-Rank. My cultivation level has improved a bit, and it has broken through to the mid-sage stage and is closer."

"It's no wonder that Wei Siqing and Murong Bingyun want to go deep into the sea, not only to kill the leader of the dark storm dragon, but also to plunder the wealth of the dark storm dragon race."

Qin Chen's thoughts jumped and he was slightly excited. He must seize this holy vein. At all costs, although it is dangerous, with his strength, he has great certainty to carry out this wealth plunder.

"Then Wei Siqing and the others have entered more than half an hour, I have to hurry up."

Thinking of this, Qin Chen immediately yelled: "Senior Brother Zhou, that Murong Bingyun is my friend. The so-called capture the thieves and the king, I will also kill the leader of the dark and violent dragon, and leave."

Suddenly, with a long roar, Qin Chen rushed into the chaotic sea below and was about to beheaded.

In fact, he is not beheading, but to use space movement, find the huge nest of the dark storm dragon on the seabed, and grab the holy vein.

"Senior Brother Zhou, that Qin Chen went to the bottom of the chaotic sea by himself, and wanted to help Grand Han Gong beheading and kill the leader among them. Should we follow or something?"

Seeing Qin Chen howl and culling into the depths of the chaotic sea, Xu Yue was immediately taken aback.

Qin Chen was too reckless. The bottom of the chaotic sea was even more terrifying than the chaotic sea and sky. Few human warriors dared to go deep into the bottom of the earth. In doing so, Qin Chen wanted to kill himself.

"Huh, who Qin Chen thinks he is, and also wants to behead the big sister of Guanghan Palace, it's ridiculous, but he has something to do with the saint of Guanghan Palace, why don't I know?"

Dao Zhengzhi and others had their eyes flickering and cold.

He was not as fierce as Qin Chen, and naturally did not dare to break into the seabed.

It is the saints of Guanghan Palace who know everything. They have all heard about Qin Chen's entry into the 33rd Heavenly Fantasy Realm in Guanghan Palace, and they know that Qin Chen even dares to enter Guanghan Palace for his beloved woman. Now that Murong Bingyun and Sister Sister are on the bottom of the sea, it would be strange if Qin Chen didn't go to support them immediately.

"Senior Brother Zhou Wusheng, we are a little struggling to resist here, and I also ask Senior Brother Zhou Wusheng to take you to help us resist the attack of the dark storm dragon. I am so grateful."

Seeing Zhou Wusheng and the others intentionally moved and wanted to enter the ground, the saints of Guanghan Palace were suddenly anxious. When the master sisters left before, they also thought that they could resist the army of dark and violent dragons, but they frequently encountered danger. Many people have already been injured, and they are afraid to fall into such a predicament again.

"Also ask Senior Brother Zhou for help."

The other saints of Guanghan Mansion also shouted anxiously.

If Zhou Wusheng and the others are gone, then they will fall into their own dangerous situation again.

Zhou Wusheng hesitated for a while, and finally sighed: "Junior Brother Qin is too reckless. I originally intended to go to the bottom of the sea and kill the leader of the Dark Storm Dragon together with Wei

Siqing and Junior Brother Qin. Stay, otherwise the rest of us in Guanghan Mansion will be unable to hold on."

"it is good."

Xu Yue pondered for a while and nodded: "With the strength of Junior Brother Qin, even if he is lost, he should have a chance to escape. At that time, he and the people in Guanghan Palace will bring out the leader of the dark storm dragon. We will just join forces to kill."

Zhou Wusheng and Xu Yue made a decision and immediately joined the Guanghan Mansion team on the field. With their addition, the pressure on the entire Guanghan Mansion team was immediately reduced.

At this time, the three of Dao Zhengzhi also gathered together and stayed in the team.

"Then Qin Chen is so courageous, who knows what's going on in the chaotic sea. How difficult is it for him to break into it like this and want to kill the leader of the Dark Storm Flood Dragon? Really think he is invincible?" Su Zheng sneered. "We don't go to this muddy water, just kill it here. You know, this is the monster attack on the sea. We entered the sea of chaos, and there were more powerful monsters. At that time, This is the real battlefield."

"Yes, the monster beasts in this chaotic sea are extremely difficult for the team. We have to stay here to save the energy of the holy origin. With Zhou Wusheng, we only need to simply join hands. Don't consume too much power. "

"Hey, let Qin Chen go to death. It's best. He is in danger in the sea of chaos. It is better to die in it." Dao Zhengzhi grinned, "Even if he is not dead, as long as he is seriously injured, it is for us. It's a great opportunity."

"Sun Wujin, you are willing to join hands with us."

Suddenly, Dao Zhengzhi looked at Sun Wujin, "Then Qin Chen, I think he is very unpleasant, but it is because Senior Brother Zhou is there and he has tolerated him a bit, but now, I can't bear it anymore, as long as Qin Chen is injured later. , Seizing the opportunity, I will take a strong shot and kill that Qin Chen, even if he is punished by Senior Brother Zhou, the person is already dead, Senior Brother Zhou has nothing to do."

"Furthermore, we can also do it in secret, without knowing it, so that people can't see how to do it. All this requires a few of us to join hands, Sun Wujin, if you join us, then Qin Chen's body You have a copy of the treasure."

Dao Zhengzhi and Su Zheng stared at Sun Wujin.

"This....."

Sun Wujin hesitated.

"Hmph, Sun Wujin, can you let a newcomer kid crawl on your head?"

Dao Zhengzhi and Su Zheng looked faintly, exuding cold gazes, they seemed to know that Sun Wujin said nothing, they had to do it directly.

"I...I do!"

Sun Wujin lowered his head, and there was a hint of coldness in his eyes.

"Haha, very good, very good! This time, the three of us will join forces. After we kill that Qin Chen, we will share the treasures on his body, and we will get his magical powers. Our strength will definitely advance by leaps and bounds, and we will work every day. The big brothers are the three of us. Even Zhou Wusheng and Xu Yue must obey our orders. Hey, Senior Sister Xu Yue has a great body, and it keeps making me salivate. When the time comes, will we let the three of us play? Hehehe !"

The three of Dao Zhengzhi hid in the corner, and they all smiled yinly.

The three of them approached Zhou Wusheng and Xu Yue, together with the experts in Guanghan Mansion, slaying these dark violent flood dragons, swallowing and absorbing their power, strengthening themselves, dormant secretly, without showing a slight expression.

"Senior Brother Zhou, the Qin Chen you recruited is powerful, just too agitated and reckless. He went solo into the depths of the chaotic sea. Even if Wei Siqing and the others open the way, it may not be smooth, and it may fall!" On the other side, Xu Yue frowned, her expression a little dissatisfied.

[Chapter 2908: Half-step overlord](#)

"Xu Yue, don't underestimate our junior, he must have his own plan." Zhou Wusheng's eyes flickered, revealing deep meaning: "I think that Qin Chen is a man of courage and strategy. Many people who underestimate him have become The defeat of his men, this man

It seems reckless, but in fact it is thick and thin. On the surface, it is to kill the leader of the dark storm dragon and rescue his girlfriend. In fact, he should have his own plan and calculation. "

"Oh?" Xu Yue thoughtfully, Zhou Wusheng's evaluation of Qin Chen made her think carefully and found that Qin Chen was indeed like a mystery, which made her a little bit unable to see now. Generally, a master of the same level, she can see through the other's mind and understand the whole person very thoroughly, but even if Qin Chen gets along for a period of time, it will always be a mystery, like a deep abyss. in the end

.

"Since you said so, brother, I will believe in Qin Chen first, but Dao Zhengzhi three people, I feel that there are some problems, these three are sneaky, I am afraid they have their own calculations, they have to guard against." Xu Yue said again. "Don't worry, I've seen it a long time ago. These three people are very ambitious and have their own abacus, but now they have done nothing wrong, and my brother is not too much to say. Next, if you dare to play tricks in front of me, I Be a big brother

I'm afraid I'm forced to clean up the door. "

Zhou Wusheng glanced at the three of Dao Zhengzhi, his eyes flashing coldly.

At this moment, deep under the sea.

Qin Chen turned into a ray of shadowless divine light, shuttled, the power of the space lingering around his body, the whole person turned into a space sacrament, ignoring all space resistance, fast shuttle,

almost a moment is thousands of miles. Qin Chen is not very proficient in the water system, but he is not at all worried. He has space rules that can make Qin Chen on the bottom of the sea as if walking on the ground, and the law of thunder that Qin Chen has is in the sea. Like a tiger with wings,

The power released is even greater.

Qin Chen entered the bottom of the sea, and immediately felt countless dormant auras of terror, many powerful underwater monsters, but under Qin Chen's spatial rules, these underwater monsters could not catch Qin Chen's trace.

What's more, Qin Chen is in danger, once incarnate Thunder, unless he is a top master among the overlords, he can't stop him at all.

"Huh! Dao Zhengzhi's group of people thought I was really stupid to break into the bottom of the chaotic sea, and use the power of the origin to kill the monster beasts on the bottom of the sea, let them take advantage?"

As soon as Qin Chen flew into the deep sea, he began to look for the dark storm dragon's lair based on the memory he had searched, but he sneered in his heart, but the use of Sheng Yuan did not stop at all.

The body flickered again and again, the use of space rules reached its limit, and it urged the universe to make a jade disc, hide itself, shuttle through countless areas under the sea, fold the space, and find the breath of the ancient holy vein. In the depths of the ocean, it is extremely subtle, and countless broken spaces hide cave mansions and lairs, and some tyrannical monsters live in them. Ordinary Son, go deep into it, no matter how good it is to hide, powerful blood, origin, spirit

The fluctuations will also attract the attention of countless monsters, and then they will swarm up and tear them into pieces.

But the jade disc of good fortune is different.

This treasure was silent and silent, passing through countless space fragments, no one could detect any clues, even a master like Wei Siqing who touched a trace of the overlord realm.

"In this seabed, there are holy veins everywhere, but many of them are ordinary heavenly holy middle-grade holy veins. It is not worth collecting to collect, and it is quite troublesome. It will disturb many existences on the seabed, and the gain is not worth the loss.

Qin Chen frowned. In his perception, he could vaguely perceive the breath of many ancient sacred veins, but they were all the ordinary sacred veins that other palaces and powers were fighting for. They didn't help Qin Chen much and were naturally interested. General.

"The dark storm dragon's lair, in a mysterious country, all I searched for was a vague location. There are many space fragments in this underground, layered on top of each other. How long will it take to find it like this?"

Qin Chen thought, soul power had poured into the Universe Good Fortune Jade Plate, and suddenly, a fist-sized bug flew out. It was Qin Chen's soul-seeking bug.

This spirit-seeking worm is very sensitive to the treasures of the heavens and the earth, but after entering the heavens, one falls into a deep sleep. Now, under the nourishment of the Holy Veins of Qin

Chen, the devil tree of the ten thousand worlds, and the power of the years, it has finally recovered. It came in handy.

"Boss, in front."

The spirit-seeking bug guided Qin Chen, combined with the memories Qin Chen had searched for himself, and did not know how long he had flown, how many layers of space he had traveled, Qin Chen suddenly felt the strong monster energy and violent fluctuations, and looked up to the distant seabed .

Boom! Countless stretches of submarine mountain ranges appeared in front of him. In the seabed, it turned out to be a city, in an independent space, but this city is not like a human city, but a sea clan city, which is extremely vast. ,Xu

Many sea monsters are cruising here.

At this time, above the city, a huge battle was taking place. A group of masters were fighting with a dark stormy dragon with black and gold patterns throughout. Behind the dark stormy dragon, there were many monsters, forming a big formation. .

"Human kid, you dare to break into my dark and violent flood dragon clan land, hahaha, today I want you to come, and I can't return."

The black and gold dark storm dragon roared again and again, and the sea surging violently, there was a smell of doom.

"Half-step overlord!"

Qin Chen could see through at a glance. The strength of this dark storm flood dragon was close to the level of the overlord. It had already condensed a trace of overlord power. The power was so powerful that it was earth-shattering, especially leading the army of monsters, like a king, on the battlefield.

This is the patriarch of the dark storm dragon clan. The dark violent flood dragon itself is physically strong, and it is an extremely terrifying existence in the sea of chaotic sea monsters, and their patriarch obviously has a trace of black gold power, and their flesh has begun to transform. Once they break through the realm of the overlord, they can immediately

Become the overlord of this sea, fierce and powerful.

Now seeing the human race attacking, he was immediately furious, led many masters under his command, besieged each other, and wanted to devour the blood, flesh and blood of the human race Tianjiao, so that he could get a breakthrough. "Hahaha, you little human dolls, as long as you swallow you, this seat will be able to feel a trace of the profound meaning of the human race, combined with your own strength, will become the overlord by then, and you will be the human disciples who come from a different space. Cut all

Killed all. "This dark violent flood dragon is thousands of feet long, and when it dances, the sky is shaken and the sky is broken.

[Chapter 2909: Hand over the Holy Vein](#)

"Ice Chiron!"

And above this dark storm dragon, many human masters also formed a large formation. Among them, Wei Siqing was in it, and the law of ice surged all over his body, and immediately a series of ice dragons crisscrossed the seabed. Shocking power broke out.

In addition to Wei Siqing, there are many human masters here. At first glance, they are the Tianjiao of other forces. They are also playing the abacus of this dark and violent dragon family land. Together with Wei Siqing and others, they trapped this group of sea monsters. beast. Qin Chen took a few glances, but didn't care about it. He secretly passed his divine thoughts out, and saw that there was a huge dark vein in the bottom of the city in the depths of the distant kingdom. It was the chaotic sea vein, the whole sea vein. , Exudes an amazing breath, like

A giant dragon, lying on the bottom of the ocean, emits a sacred heaven and earth holy energy, penetrates outward, and nourishes the countless monsters in the city to learn and practice.

That huge sea vein is obviously the saint vein chaotic sea vein on which the entire dark storm flood dragon family depends.

"Sky Soul Forbidden Technique!" Qin Chen operated the Sky Soul Forbidden Technique and observed the space power of the jade disc that urged the universe to make a fortune. He saw that this chaotic sea vein was indeed extremely vast, although it was far inferior to the Holy Lord Sage he had obtained. Veins, but also the holy veins of the heavenly sage, even if it is broken,

It was also more than ten times the perfect Heavenly Saint Middle Grade Saint Vein he got from the Wangu Tower.

Moreover, in this holy vein, there are many intricate holy vein auras. I don't know how many ordinary holy veins the Dark Storm Flood Dragon has plundered from this ocean group to integrate into it, forming the scale it is today.

If it was just a broken Heavenly Sage High-grade Saint Vein, it would not be able to provide so many dark storm flood dragons for cultivation. Moreover, Qin Chen also discovered that in this chaotic sea vein, there are several powerful existences, all masters of the dark storm flood dragon, a little bit worse than the black gold flood dragon clan leader who is making waves, but compared to the chaotic storm outside the world. Looting and hunting

The dark violent flood dragon was a little stronger, and when counted, it was somewhat similar to the elders in this tribe.

Even when the dark storm dragons were attacked by the human race, these dark storm dragons were still guarding the saint veins and staying in step.

"Well, this chaotic sea vein, I want to collect it at all costs, with this holy vein, it is enough to make my cultivation level rise again." Qin Chen secretly marveled in his heart.

"Dust, this is the place of trial?" At this time, Sisi's voice came from Qin Chen's Universe Fortune Jade Disc. This time in the Celestial Trial, Sisi was hidden in Qin Chen's Universe Fortune Jade Disc. I was also brought here together. Today's jade discs of good fortune can cover the secrets of heaven,

The holy master master can't detect it. Of course, this is also because Sisi's cultivation level is not in the realm of the overlord. Otherwise, once her breath leaks out, she will be rejected by the passage when she enters the passage of the trial place. This way, it will inevitably be Master of the Holy Master

find. "Dust, what kind of sacred vein is this, such a powerful aura." Sisi also felt everything here, and was shocked. "This seems to be an ocean race, Chen, are you going to seize this sacred vein? Very good, I Can come out to help and help you

Block the enemy. "

Sisi said. "Sisi, it's okay, now Guanghan Palace and other forces are holding the patriarch of the dark storm flood dragon, as long as there is no overlord level existence, I don't care. There is no complete heavenly sage high-grade holy vein, so it is difficult to be born. Come out overlord

Master, other roles, in my opinion, it doesn't matter, you can't come out for the time being, once exposed, there will be risks. If you are in danger and need your help, let's talk about it. "Qin Chen said in a low voice, urging the universe for good fortune jade discs again and again, silently, avoiding the battle over the city, taking advantage of the opportunity of the energy of both parties to be restrained, all the way into the depths of the ancient city, sneaking into the ground and approaching The chaos

Sea veins.

In fact, in the dark storm dragon city and the underground near the chaotic sea, there are strong prohibitions to prevent outsiders from infiltrating and lurking in.

Before Wei Siqing and Murong Bingyun were in the process of sneaking in, they were discovered by the dark storm dragon, which caused a battle.

It's a pity that Qin Chen is making the shot. Under the operation of the Universe Jade Plate and Sky Patching Technique, no restrictions are placed in Qin Chen's eyes. Unless it is the Holy Lord's formation, ordinary restrictions are in Qin Chen's eyes. , That is no man's land.

Huh! He silently entered into the place close to the chaotic sea vein. Using the sky patching technique, he secretly calculated that the huge structure of the chaotic sea vein suddenly appeared in Qin Chen's mind, and Qin Chen's heaven soul forbidden technique was operating. , Around the chaotic sea vein

Qin Chen's several powerful existences were also captured one by one.

Once Qin Chen took action, he would startle the dark violent flood dragon above the city. He had to calculate everything, fierceness did not mean recklessness, and foolproof preparation was the necessary factor for success.

After a while, Qin Chen had already calculated everything.

Whoosh!

With a flash of his figure, he directly entered the sky above the Chaos Sea Vein, with his big hand sticking out, and suddenly, the terrifying Saint Yuan force burst out and grabbed the Chaos Sea Vein below.

Boom boom boom!

Everywhere in the Chaos Sea Vein burst out terrifying spirits, and Qin Chen's big hands, like the sky, directly grasped this Chaos Sea Vein.

"Who, dare to move my dark and stormy dragon family sacred vein."

The roars came out one after another, and the several dark violent flood dragons guarding the chaotic sea veins instantly reacted. They roared one by one and rose into the sky, aiming at Qin Chen, roaring over.

The movement here immediately stunned the dark violent dragon patriarch above the city, and the golden eye pupils the size of a house were furious.

"Human beings are too despicable. They actually restrained me and broke into the sacred veins of my dark and stormy dragon clan. This seat will crush you all into pieces."

The patriarch of this dark and violent flood dragon roared again and again, so angry.

"what?"

Those masters who fought against the Dark Storm Flood Dragon were all shocked, and then they saw Qin Chen, who had captured the sacred veins of the Dark Storm Flood Dragon with a large hand, and they were all shocked.

"Qin Chen!"

Wei Siqing and Murong Bingyun recognized Qin Chen, and they were very furious. They fought **** it. They didn't expect Qin Chen to sneak in at any time. All their hard work became Qin Chen's wedding clothes. .

boom!

Qin Chen gave a strong mention of the horrible seabed, and instantly included the chaotic sea veins on the jade disc of good fortune in the universe. The infinite holy energy of heaven and earth was empty. In the next moment, several powerful dark storm dragons had surrounded Qin Chen.

"Human, hand over the Holy Vein."

"Steal my family's sacred veins and seek death!"

"Huge waves, stormy waves!" These dark and violent dragons roared together and spurred a lore array to kill Qin Chen in the array for the first time and regain the holy vein.

[Chapter 2910: Start to loosen](#)

"Humph!"

Facing the attack of the big formation, Qin Chen calmly snorted, and the sky patching technique quietly operated. He found the key point of the formation in an instant. The space was regular and his figure swayed, and he appeared directly in the darkness. In front of Elder Storm Dragon.

"Origin's magical power!" Qin Chen blasted out with a fist, and the dark storm elder had no time to react. Qin Chen's origin magic fist hit its head with a pop, the dark storm elder's head Exploded like rotten watermelon, no

Qin Chen's power was absorbed into his body instantly.

"what?"

The remaining few dark storm dragon elders were all shocked and inexplicable, and almost lost their minds in an instant. This human being is too strong, and in a flash, he rushed out of the large array they had laid, which was simply sensational.

How did they know that before Qin Chen made his move, he had already sensed the forbidden formation near the Chaos Sea Vein, calculated all the key points, and launched a thunderous blow.

Hum!

At the same time, the dark violent flood dragon patriarch had already given up on Wei Siqing and the others, killing him frantically, and the force of terror fell strongly.

"Okay, we will hold this human race boy in check and wait for the arrival of the patriarch."

These elders of the dark storm flood dragons all roared, as long as they stop Qin Chen, when the patriarch arrives, they can kill this kid and regain the chaotic sea vein.

"Ok?"

Qin Chen's eyes flashed and he was fierce.

"Die all to me!"

Boom! At this moment, Qin Chen mobilized the strongest combat power. Among the jade discs of great fortune in the universe, a middle-grade sacred vein of Heavenly Sage burned up. He evolved into a body of ridiculous ancient times, and his original magical powers operated, aiming at the remaining few. Venerable dark violent dragon elder, just a punch

.

At this moment, no one can imagine the violent. With Qin Chen's fist, the entire underwater giant city was roaring. The terrifying power erupted by Qin Chen's burning Saint Vein not only incorporated the Origin's supernatural powers, but also added the Rippling Sky Divine Mark, the killing fist, and other moods, which instantly enveloped him. Those few dark storm scorpions

Elder Long.

Boom boom boom boom...

The faces of several dark violent dragon elders were still stuck in the anger that wanted to stop Qin Chen, but all the expressions were frozen at this moment. Qin Chen exploded with the strongest peerless power, and with one blow, everything was destroyed.

Their bodies exploded, and even the fragments of their souls and their will were beaten into chaos, and their thoughts couldn't work.

Qin Chen's supernatural powers, power, and a few powerful dark violent dragon elders were completely shattered without leaving any residue. At the same time, the entire huge wave burst into a burst.

But the powerful aura of the dark violent flood dragon patriarch had already landed and suppressed Qin Chen's body. Qin Chen immediately felt an incomparably terrifying force sweeping over him, and the power in his body felt oppressed.

"Human kid, I want to smash you into pieces."

The dark storm dragon clan chief had red eyes, and his body burned with dark golden rainbow light. He was so angry that he was mad, and that terrifying power continuously blasted into Qin Chen's body.

"Humph!" Qin Chen snorted coldly, feeling the horror of this power. This dark storm dragon patriarch is already a half-step overlord, possessing the power of overlord in his body, plus it is at home, combined with its powerful body, Will definitely bring some to Qin Chen

trouble. "This dark violent flood dragon is about to become a refined dragon. If I fight it hard, I can also kill it, but maybe I will also be injured. Then the people of Guanghan Palace and the masters of other forces will sit back. Isn't it just asking for trouble. Now the treasure

When you get it, it's better to leave it first, absorb this holy vein, and let your strength go further. "

Qin Chen's mind flashed, and he sucked violently. In the void, countless heavenly sacred laws all entered his body, and the phantoms of the elders of the dark and stormy dragon screamed and turned into dragon shadows!

Several elders of the Dark Storm Flood Dragon were all refined by Qin Chen, integrated into the body, and then the laws of the few Dark Storm Flood Dragon elders were gathered together and turned into their own. Qin Chen once swallowed the exquisite true dragon pill, and he had the aura of the true dragon in his body. Although this dark violent flood dragon was not a true dragon, it belonged to the dragon clan. After Qin Chen absorbed their power, he immediately transferred it to himself. The power of Qin Chen's body

A hint of darkness and chaos faintly emerged on the top.

"go!"

Then, Qin Chen's body shook, it turned into a thunder light, and the space circulated in a regular manner. The whole person broke through the blockade of the dark storm dragon patriarch, and in a flash, it had disappeared.

"What? What about humans?"

Upon seeing this scene, the patriarch of the Dark Storm Flood Dragon was so angry that his scalp was numb, and his terrifying spiritual thoughts radiated, he found that within a radius of thousands of miles, Qin Chen's figure had completely disappeared, and he did not know where he had gone.

"what!"

Suddenly, the patriarch of the dark violent flood dragon went mad and lost Qin Chen's trace. It rushed to Wei Siqing and many other human masters madly.

"Not good." Wei Siqing and the others were frightened and flew away one by one. They cursed Qin Chen with blood in their hearts. Wei Siqing looked at Murong Bingyun coldly and said coldly. "Murong Bingyun, why did Qin Chen find here? Is it you?"

Informed? Where did the others go? He took away the Holy Vein, but instead blamed us. "

Murong Bingyun's heart was also extremely depressed. When she was in the square before, she pretended to be very familiar with Qin Chen, but now she couldn't explain it clearly, and her heart tickled with anger.

"This bastard, give it to me every time." The two of them exchanged and flew away. The dark violent flood patriarch had gone crazy and tried desperately, but Wei Siqing and the others were not completely invincible. But they came this time to pillage the chaotic sea of the dark storm dragon clan

Veins, now that the saint Veins are taken away, if they fight against the dark violent flood dragon patriarch and lose both ends, they will be depressed.

When Wei Siqing and the others flew around.

In the space somewhere on the seabed, Qin Chen hid in a secret place, arranged tens of millions of prohibitions, and then the whole person had entered the universe jade dish.

"boom!"

As soon as he entered the universe of good fortune jade disc, Qin Chen felt a strong sacred vein aura. It was the chaotic sea veins and the rich aura that made Qin Chen's pores relax.

"Dust, are you all right."

Sisi said nervously.

"Hey, what can I do? It is Wei Siqing and the others, Sisi, come, let's practice together!"

Qin Chen chuckled, without a second word, he immediately urged the time of the Universe's Fortune Jade Disk to accelerate, and the power of the years was permeated, and Qin Chen's technique of patching the sky began to consume the terrifying power of the chaotic sea vein.

Boom! Suddenly, Qin Chen had already reached the peak of the early stage peak realm of Heavenly Sage, and began to loosen a little.
