

## Valkyrie 2981

### [Chapter 2981: Overlord Troll](#)

This is simply a monster world. Moreover, the space here is upside-down and very strange. Qin Chen and the others entered from the ground of a ruined treasure in the trial land of the human race, as if they had entered the depths of the earth, but in the perception of the monsters here, Qin Chen and the others

The ruins and treasures of the human races here may come from outside the sky, or they may also be under their ground.

The void is reversed, and the concept of upper and lower has been confused, because these are two separate spaces. "Dust, the devil qi here is very complicated. In addition to devil qi, there is evil qi, heaven and earth vitality. This should not be the depths of the demons' trial, but the place where our races meet, otherwise it would be impossible. It's a monster, but a pure demons

It's a monster. "

Chen Sisi said suddenly. She cultivated the way of the deep demon, and was particularly keen on the purity of demon energy. The demon energy here is not so pure, but mixed with the power of all races, and it is a middle place where all races gather, but it may be because it is closer. The land of the demons, causing this

The demon energy in it is stronger, and the bonus to the demon clan is also greater.

"Well, I also feel that this place should be the monster world. The \*\*\*\* according to the holy child has laid out the design here. It is very weird. Be careful. Some of the monsters around have already sensed us." Qin Chen and Sisi entered it. Many monsters felt it, nothing else, just because the aura on Qin Chen and Chen Sisi's body was too strong, it was like two rounds of scorching sun entering the dark place, how did the monsters feel here?

Not?

However, some weak monsters did not dare to attack at all.

However, some powerful monsters did not retreat, but regarded Qin Chen and Chen Sisi as delicious.

Hum! In the distance, among a tribe of demons close by, a huge demon claw with pitch-black scale armor and icy luster stretched out all at once, covering one side, like a sky curtain, from above. Next, directly capture the photo, then

Li Jiasen was cold, flashing black light, and there was a surging force of terrifying laws on it, with a chaotic atmosphere, and the magic power was overwhelming.

As soon as this demon claw came out, many of the demons who were under the grip of the demon claw were all flying in terror, but they could not avoid it at all. In the puff, they burst directly, turned into a blood mist, and blended into the claw. Has become its power.

"Humanity....."

Even a vague wave of thought swept across, this is a monster powerhouse who gave birth to wisdom.

"This is a troll!" Chen Sisi opened his eyes and saw that among the tribe, a troll with a height of 100 feet had taken the shot. Like a hill, he wanted to squeeze Qin Chen and Chen Sisi directly and entangle them there, and , The glow of this troll body that haunts the road turned out to be cultivation

Become a powerful monster of the overlord level.

And in that cave tribe, a demon vein of the heavenly saint's top grade was continuously absorbed by the opponent for cultivation.

Chen Sisi saw Qin Chen about to take action, smiled lightly, and said, "Chen, you will take action again along the way. Let me come this time. You only need to calculate the trace of the Shenzhao Son."

Before speaking, she went all over her robe hunting, rising up, and slammed with her right hand: "Illusory Slash!"

Puff!

A pitch-black waterfall pulled out like light, and the horrible magic claws that had been grabbed were slashed frontally. The power of the horrible magical magic killed several sharp claws on the claws.

Suddenly, the black magic energy boiled, a large amount of it diffused, and the entire huge magic claws exploded at once.

With a single blow, Sisi smashed the troll's claw attack.

Roar! The troll powerhouse living in the cave tribe also suffered unbearable pain. As soon as he flew out, he landed on the sky, the black light flickered, shrank quickly, and became a troll of ten meters in size, still extremely majestic, with a hideous face. , Blooming in the pupils

When the Demon Dao's light was released, its palm was chopped up, and the blood flowed horizontally. There was no tendency to stop, and its face twitched with pain. "It's useless, my magic slash is the avenue of my illusion demon sect. It contains the power of the unique phantom demon cave, which can restrain the power of the general demon clan. If you hit my trick, even if you are the overlord monster, Unable to stop the flow of power.

"Chen Sisi said lightly.

After Chen Sisi swallowed a sacred vein, although it was only the peak state of the mid-term Heavenly Sage, it was already possible to leapfrog and challenge the general overlord master. However, this is not enough for Chen Sisi to severely injure the overlord-level troll master with one move. What really allows Chen Sisi to burst out with astonishing strength is that she is also a top master of cultivating the magic way. In this land of monsters, other human experts are inside. of

Sheng Yuan will be suppressed, and 100% of the strength can only show 70% or 80%.

However, Chen Sisi was able to perform ten percent, or even twelve percent. Here, her home court, her strength will not be weakened, but will be improved.

"Human, what kind of magic do you know, die for me, and become the food of this troll. How many years hasn't this troll tasted human blood food?!"

With a hideous expression on the troll's face, he flew up, and suddenly the devilish energy was filled, and he turned directly into the Primordial God and Demon, who wanted to fight Chen Sisi.

"A devil?" Chen Sisi smiled. In her eyes, a weird light flowed out. In a short time, Chen Sisi's breath changed. She was full of long hair, all of a sudden flying all over the sky, and in her body, surging out It scared all the monsters around

power.

"this is....."

The troll also looked at Chen Sisi in horror. At this moment, it seemed to face the ancestors of the clan. From the soul, from the depths of the heart, it felt fear. This was a kind of oppression rooted in its soul.

But it is clearly a master of the troll family, how could it be afraid of the breath of a human giant.

"No, this is not the breath of Human Race."

The troll saw the black glow surging from Chen Sisi's body. The black glow was only an inch, but as soon as it escaped, it set off Chen Sisi like a dark scorching sun, and a desperate breath escaped.

"Dead!" Chen Sisi urged the way of the deep monster, his figure disappeared, and the next moment he appeared in front of the troll. The black light lingered, and every black light contained a deep magic power. The troll overlord was even affected by this magic power. Stunned, the blood in the body

It freezes, the magic is stagnant, and it can't move, as if it's frozen in the void.

puff!

Chen Sisi raised his hand, and the terrifying black light directly penetrated the head of the troll.

"The power of the Supreme Demon..."

The moment the troll's head exploded, there was a silent roar of fear, and a head blasted open. Before dying, it finally saw Chen Sisi's power clearly, that was the power of the Demon Race's supreme Abyss Demon, which shocked his soul.

### [Chapter 2982: Devouring Worlds](#)

Under the power of the deep demon, the troll was killed instantly, and even the power of the soul was directly dissipated. At the same time, a terrifying demon avenue aura rose up, like an eternal demon light.

This indestructible magic light is the source of the overlord of this troll.

A demon troll of the overlord level was killed by Chen Sisi, and the heavenly sage high-grade demon vein in the ancient tribe and the indestructible magic light of the troll's body were also picked up by Chen Sisi instantly and collected.

Buzzing!

The mysterious rust sword in Qin Chen's hand trembled, exuding cold power, swallowing the troll's scattered soul suddenly, and a trace of magic light surged above the rust sword.

"Dust, the Tao of the Abyss is really easy to use here."

Chen Sisi swiftly came to Qin Chen's side, regained his tenderness, and said with a smile.

The way of the deep demon is the avenue of the leader of the deep demon clan. It is easy to restrain all the power of the demon clan and kill the enemy by leapfrogging.

"Sisi, your power is indeed suitable here."

Qin Chen laughed. After entering this magic cave, Qin Chen felt the magic power in Sisi's body, gradually recovering, and even advancing by leaps and bounds.

He directly collected an ancient demon vein of the top grade of the heavenly sage, and incorporated the rule of hegemony, the immortal magic light into his body, Chen Sisi was radiant, and there was a taste of being promoted to the next realm at any time. Under normal circumstances, Tianjiao such as Wei Siqing and Zhou Wusheng swallowed a high-grade ancient holy vein of the heavenly sage, and can directly enter the realm of the late-stage Tiansheng overlord, but what Chen Sisi cultivates is the road of the abyss, the ancient holy veins he needs Than average

There are so many warriors, and one ancient demon vein is simply not enough for Sisi to directly enter the overlord realm of the late Heavenly Sage.

"Sisi, how's it going? How many ancient magic veins do you still need to enter the late Heavenly Sage Overlord Realm?" Qin Chen asked.

"At least six or seven or more are needed. If the Abyssal Demon Avenue is complete, I am afraid that more will be needed."

Sisi thought for a while.

Qin Chen nodded, this is the minimum, Yuanmo Dao, if it can easily break through, that would be strange.

But if you let other people hear it, you will definitely take a breath.

This is definitely more than ten times that of the general Geshi Tianjiao. Of course, compared with Qin Chen, it is a little worse. Qin Chen has a feeling that he needs at least five ancient sacred veins of the top grade of the heavenly sage to break through to the peak of the late heavenly sage. If he touches the realm of the overlord, I am afraid that he needs more. Ancient Saint Vein

. However, in this magic cave, there are countless powerful monsters in the world of monsters. Almost every powerful ancient monster tribe is in charge of an ancient magic vein of Heavenly Sage. You only need to kill the leader in it and plunder the magic vein.

.

It's just that Qin Chen wants to break through, and it's better to get the nine ancient sacred veins of the Shenzhao Son, that power is enough.

Therefore, Qin Chen kept calculating the whereabouts of Shengzhao Son. However, since entering this cave, the breath of the Son of God is looming, disappearing from time to time, and appearing again from time to time. It seems to be using a certain kind of magic power to mix with the breath of the cave, and merge into a ball, Qin Chen Can't now

Really lock his position.

This person is indeed a generation of heroes, it is very difficult to kill him, mainly because this person is the reincarnation of the ancient saint master, and possesses the saint master's treasures, can perform various ancient mysteries and escape pursuit.

"How about it, is it estimated that the aura of the son of Shengzhao?" Chen Sisi asked.

"The specifics are not yet there, but in general, I can still feel that this person should have used a certain secret method, and the aura of the magic cave is mixed." Qin Chen waved his hand, "I have a feeling that he is using a certain method. , Set up a conspiracy." "It doesn't matter." Chen Sisi said coldly: "This underground land of demons, I can't think of so many powerful demons, there really are ancient demonic veins of the heavenly sage, go! Let's kill all the way through. , Kill more monsters at the overlord level, as long as I suddenly

Breaking the realm of the overlord, he has nowhere to hide in this demon cave, and it will be easy to kill him when the time comes. "

Chen Sisi is full of confidence. Qin Chen also chuckled lightly and hugged Chen Sisi: "Sisi, I am afraid that this god-zhao son will not know. He escaped into this devil's cave. Not only did he have no way of life, but instead sent himself to a dead end, the demon here. Good for you, good for me

A great benefit, the Demon Tree of the Ten Thousand Worlds in my Universe Destiny Jade Plate also needs a lot of demon energy, which happens to be swallowed up here to nourish the Demon Tree of the Ten Thousand Worlds. "

Whoosh!

Qin Chen's body flew straight out and turned into a turbulent river, which continued to spread, forming many eddies. These vortices exude a strong suction force, sucking all the space into them. Wherever they flow, the space will disappear directly, and the demons cannot resist at all. They are drawn into the vortex and collected by Qin Chen into the universe. Of

In, directly swallowed.

On the ground, the intertwined magic veins of the terraces also flew up, all of them were thrown into the vortex, and the ordinary veins and magic veins were all sucked away by Qin Chen.

All of a sudden, hundreds of thousands of ancient demon veins flew up and were swallowed by Qin Chen. Qin Chen seemed to be a demon \*\*\*\* who swallowed everything. Everything would disappear wherever it went. "These dead veins on the ground are all contaminated with evil qi and devil qi. Any human warrior who forcibly inhales the body will be beneficial and harmless to the body. It must be purified. Even I can't absorb and swallow it so easily. The tree is the most demon

Bao can easily swallow all magic power without any effort at all. "Countless demonic veins entered the jade disc of good fortune in the universe, and they were all swallowed crazily by the demon tree of the ten thousand realms. The countless branches surged, like cheering and encouragement, and nourished in the jade disc of good fortune in the universe for so long. The Devil Tree of Ten Thousand Worlds has grown

More, become more vigorous and powerful.

Especially after feeling the aura of the demon cave from the outside world, after countless demon auras, the Demon Tree of the Ten Thousand Realms danced with excitement, and a terrifying force was transmitted from the jade disc of good fortune in the universe.

Rumble!

The terrifying demon aura of the ten thousand realms was faintly permeated. In the entire demon cave, countless demons seemed to feel a breath of heart palpitations, and felt endless fear. The vortex of Qin Chen's incarnation grew larger and more surging. The dead veins on the ground, demons, ghouls, ghouls, flying bats, and trolls on the ground could not escape Qin Chen's sweep. No, it should be said that it was swept by the magic tree of the ten thousand worlds,

All were thrown into the whirlpool.

Wherever Qin Chen's universe went to the jade disc vortex, there was nothing left.

Nothing will not be swallowed by the Ten Thousand World Demon Tree and become its nourishment. But so much demon energy, for the Ten Thousand World Demon Tree, is just a drop in the bucket. Although the demon energy on it is getting stronger and stronger and more and more crystal clear, it is not enough for the Ten Thousand World Demon Tree to grow rapidly.

### [Chapter 2983: Miserable](#)

In such an environment, Qin Chen and Chen Sisi's perception of the Dao of the Demon Race has also been amazingly improved.

Hum!

The terrifying power of the Demon Tree of the Ten Thousand Worlds surged, triggering a vision in the entire Demon Cavern. In the depths of this magic cave, many monsters retreated in horror when they saw the dark vortex, as if they had lost their minds, and left one by one in amazement. The horror of the breath, in their sense, seemed to be a monster. The saint of the clan came to this sky

The ground is average.

Boom!

At this time, in the infinite depths of this demon cave, a group of masters of the demon race were fighting frantically. This group of demon masters, each of them is a top-level arrogant, among them there are actually a few master-level masters, they are divided into several camps, between the fights, the devilish energy is overwhelming, some firstborn have double horns, some have dark eyes. Each cast a different magic

Dao breath is obviously from different demons tribe.

"what is that?"

Suddenly, this group of demons masters suddenly felt a breath of horror, and they all stopped and looked at a certain piece of sky in the distance.

Between this heaven and earth, they faintly felt a shocking power, as if the ants had seen the Shenlong and had an impulse to surrender.

"What power is that?"

All the masters of the Demon Race were shocked, their eyes frightened, and even stopped the fight, each of them showed a fiery light while fearing.

Such a terrifying power, could it be that the top treasure among the demon races, the demon master holy treasure, was born?

"Go, go, go!"

"There is the depths of the experience of our demons, and there are absolutely heaven-defying treasures born."

"Hurry up."

Boom boom boom!

This group of demons masters all stopped and turned into their respective camps, flying over to the place where the breath passed.

Not only them, but the many masters of the demon clan in the depths of the demon cave felt this power and were all startled. In the depths of this Demon Cave, there is a dark Demon Abyss. In the Demon Abyss, a wave of demon energy is surging. This is the Jedi in the Demon Realm. For countless years, any demon who broke into this place has never No one can get out alive, it's a demon

Forbidden land among the clan.

This piece of Demon Abyss was warned by the major races of the Demon Race that once they encounter this Demon Abyss in the trial land, they must leave far away and not enter.

However, because the land of the Demon Abyss changes and moves, there are still many masters of the Demon Race who fall into this Demon Abyss every year.

now.

No one noticed that this Demon Abyss, which the entire Demon Race called the Forbidden Land, suddenly surged after feeling the breath of the Demon Tree of the Ten Thousand Realms.

Rumble! The entire Demon Realm trial place was a violent sensation, and the demon energy burst into the sky, the earth split, terrifying spatial fluctuations, surging from the Demon Abyss, and in the deepest part of the Demon Abyss, a spatial channel appeared unexpectedly. , Very profound, I don't know

Where does the road lead.

And the abnormal movement here was also noticed by many masters of demons and demons. After seeing the forbidden place of the demons in the trial ground of the demons, the faces of all of them showed a light of shock, and they retreated. Dare to approach.

This place is like a piece of pure land, no one is approaching, and naturally no one has discovered the mysterious space passage that suddenly appeared.

Tianwu continent.

More than two years have passed since the Battle of the Heavenly Powerhouse.

In today's Tianwu Continent, the Misty Palace is destroyed, and all major forces are thriving. The Tianwu Continent, which has fallen into deep waters because of the alien demons and the heavenly powerhouses, has become peaceful and prosperous under the development of Chendi Pavilion.

Especially after the Dark Abyss was destroyed, the Tianwu Continent was unified, and under the leadership of Chendi Pavilion, it had become an extremely terrifying top power, and even many sage masters had been born.

Today's Tianwu Continent, there are countless sage masters, but they are also everywhere, especially because of the restoration of the origin of Tianwu Continent and the development of the forbidden land, many masters have been born.

Even Qin Ying, the black slave, the old man of Great Compassion, etc., with the help of the Chendi Pavilion, entered the realm of the saint, and became a mortal sage, and a master at the peak of the sage.

Among them, the most terrifying is Qin Mo. In the forbidden land, he obtained a lot of resources and inheritance, and even stepped into the realm of the holy land and became a powerful man. However, everyone did not have any surprises in their hearts, because the crisis of Yaomie Mansion always fell on everyone, and everyone knew that Dong Yuyin, who came to Yaomie Mansion, was a top master in Yaomie Mansion. It's the Darkness of Yaomie Mansion

The leader who conquered all major planes of the heavenly realm, the top heavenly master.

Such a figure puts the pressure on everyone, it is like a big mountain, pressing firmly on everyone's heart.

Forbidden place.

After experiencing the Celestial War, everyone knew the horror of the God Forbidden Land, and also understood that this place was the place where the ancient masters of the Celestial Realm and the native masters of the Tianwu Continent fought each other. In its depths, the dead mountain and blood sea, and even There is the inheritance of the Holy Master. But now the periphery of the Forbidden Land is no longer the most terrifying Jedi in the Tianwu Continent. Because of the appearance of the Qin Demon, the Forbidden Land has been continuously developed, and many masters in the mainland have entered it to practice and make breakthroughs. , Experience, already

It has become an adventure place for many masters to explore.

However, the depths of the forbidden land is still the most terrifying forbidden land in the mainland.

At this time, outside the forbidden area of this continent, a group of top masters had gathered.

If anyone from Tianwu Continent sees these people, they will be surprised. Fu Qiankun, Mo Yuanbai, black slaves, the old man of great compassion, the skeleton demon king, Mokara... everyone is the top giant in the Tianwu Continent, even the weakest one, is also a master at the peak of Van Sage, among them even Got it in a forbidden place

Stunning Romance, a top powerhouse who has entered the realm of Earth Saint.

At this moment, everyone was staring at a dark magic cave ahead, with bitterness in their eyes. "Big black cat, is this your idea back then? Let Mo Qin first enter this mysterious demon cave to practice. Now more than two years have passed. Qin Mo has never left the pass, and will not leave the pass, watching Yao Mie Mansion. The powerhouse is coming, if I

If we can't find Qin Chen in the heaven in time, once the Yao Mie Mansion master arrives, the mainland will be in danger. "

In front of the crowd, a black cat was floating there, and beside it, Lao Yuan exuded a terrifying atmosphere of earthly sage, and said silently.

Everyone's eyes also fell on the \*\*\*\* cat. This time, they were really miserable by the \*\*\*\* cat.

#### [Chapter 2984: Qin Mo is gone](#)

"Huh, can this be blamed on this emperor? Besides that, you agreed to it, and you all know that if you don't increase your strength now in the forbidden land, once you enter the realm of heaven, it's actually hard to sense it. Where Qin Chen is

, Because the territory of the heavens is too vast, the layered space is divided into many provinces, separated by infinite planes. "The \*\*\*\* cat shook his head: "You still don't know the vastness of the heavens. This is not the distance between the two ends of a continent, but the gap between the infinite planes. Back then, Qin Chen entered the long river of years and finally ascended to the heavens. No one knew him. Will come out

The current realm, just a single realm, is enough for a Van Sage to be unable to traverse in his lifetime, not to mention that we don't know where the Heavenly Realm passage at the other end of the Blood God Sea leads. "That's why I let Mo Qin enter the demon cave of the forbidden land of Gods, so that the cultivation level can be improved as much as possible. In the ancient times, the land of the forbidden gods was the battlefield of the strong masters of the holy master, and the inheritance here is even in the heavens. The top powers may not be able to possess

, Who thought that Mo Qin had entered the devil's cave for two years without any reaction at all? "

The \*\*\*\* cat squinted.

"Big Black Cat, we don't blame you, but now we are seeing Yao Mie Mansion's team coming. If Qin Mo does not leave the customs, once the Yao Mie Mansion arrives, Wu Continent will really be over that day."

Lao Yuan said in a deep voice: "I personally think that we still have to find a way to enter this magic cave, find Qin Mo, and let Qin Mo leave as soon as possible."

"This..." Everyone looked at the \*\*\*\* cat in astonishment: "Didn't you say that this dark cave was the place of inheritance of a top demon saint in the heavens? Qin Mo got the inheritance of the master of the abyss, the abyss Only then can we enter into it to baptize and improve the cultivation level,

Anyone of us who enters it will be shattered on the spot, and there are no bones. How can we get in? "Yes, Mokara and I are members of the alien demon race. They are also masters of the demon race. They are just a branch of the demon race. When Mokara and I approached this dark demon cave, our bodies almost split apart. I've lost my soul, over the past two years, I

We absorb the devil qi escaping from the entrance of the devil's cave every day, and the cultivation base has also entered the realm of the earth sage, but still can only enter the devil's cave for less than ten feet. "The Skeleton Rudder Master also said.

At this time, the Skeleton Rudder Master was a handsome middle-aged man with a terrifying aura. He turned out to be an earth saint-level giant master and the top powerhouse in Tianwu Continent.

The Mokara beside him also dissipated a terrifying aura, and was so powerful that he stepped into the realm of the Earth Sage together like the Skeleton Rudder Master. All of this was thought to be because the two of them absorbed the power of this dark magic cave.

Even so, the two of them can only enter this dark demon cave within ten meters, and cannot go deeper. Once they rush in, there is a risk of their souls flying away, let alone the others.

Among them, apart from Qin Mo, no one can enter this dark magic cave.

"What else can I do? Only the emperor can go in."

The \*\*\*\* cat curled his lips.

"you?"

Everyone looked at the \*\*\*\* cat in surprise.

"That is....."

The \*\*\*\* cat said proudly: "This emperor is a nine-day, ten-day, sweeping, supreme, and invincible Lord Meow. Who else can enter besides this emperor?"

As the words fell, the \*\*\*\* cat suddenly burst into a weird forbidden light, and when he shook his figure, he entered the dark magic cave.

As soon as it entered, it went into the darkness, and its cold hair exploded. "His grandma's, this emperor's pot can only be carried by the emperor." The \*\*\*\* cat's cold hair stood up, and it felt chilly. The devilish energy lingered all over it, and the restraint on its body surged carefully. Without the arrogant look at the beginning,

Muttered: "Which fellow is the Demon Lord who fell here? The Void Lord of the Void Demon Race, or the Eight Winged Demon Lord of the Fallen Demon Race? Why can't I remember many things at all?" The black cat murmured, slowly entering the depths of the dark magic cave, a burst of magic light surging, dissolving the power of the \*\*\*\* cat, fortunately the \*\*\*\* cat's figure seemed to be integrated into the void , Between the real and the illusion, bear

The power of the magic cave is only equivalent to one percent of the normal person entering the magic cave before he can persist.

However, it is still making the \*\*\*\* cat heavy, and it will sink into the body by demon energy.

"Go away from the emperor. If it weren't for the emperor to be sealed, how could he be so embarrassed by the demons in this area? Fortunately, the emperor had just obtained a few treasures and lifted a few seals, otherwise it would not Dare to come in." The \*\*\*\* cat muttered. I don't know how long it took, the demon energy in front suddenly became rich, the \*\*\*\* cat finally entered the depths of the demon cave, only to see the bottom of the demon cave, there were countless terrible vigorous demon energy surging, the law of the Dao Dao Demon Race Agitated and formed

A magnificent picture, and in the center of the devilish energy, there is a whirlpool. In the whirlpool, the power of the space is dissipated, and there is no idea where it leads.

"This is... a spatial channel? How can a spatial channel appear in the depths of the dark magic cave? What about Qin Demon?"

The \*\*\*\* cat was dumbfounded, because the ground of the surrounding Demon Cave was empty and there was no trace of Qin Mo.

"Did Mo Qin enter this space channel?"

Hum!

Just when the \*\*\*\* cat was shocked, suddenly, in the whirlpool, a magic light burst out from the sky.

boom!

The next moment, the entire dark magic cave spit out a magnificent magic light, puff, the \*\*\*\* cat almost exploded all over, if it hadn't used the space magical power in time, the consequences would be disastrous.

Rumble!

A palpitating magic light burst out from the dark magic cave, and penetrated the forbidden land, traversing the sky above the entire Tianwu Continent.

Over the Tianwu Continent, an astonishing magical sky lingered, like a sky bridge across two worlds, towering majestically.

The only thing to be thankful for is that this magic light curtain does not have much attack power, otherwise, such a terrifying power is enough to destroy many areas of Tianwu Continent.

Fu Qiankun and Lao Yuan were also shocked. They backed in an instant, looked at the magic light sky curtain that traverses the forbidden land in shock, and then saw the \*\*\*\* cat suddenly flash out of the magic cave.

"Big Black Cat, what happened?"

Everyone said, looking at the somewhat embarrassed \*\*\*\* cat in surprise.

"Qin Mo is not in this cave."

The \*\*\*\* cat said with an ugly face.

"What?" Everyone was taken aback, what's the situation? The dark cave that Qin Mo Ming entered two years ago, everyone saw it with their own eyes, how could it not be in the cave?

### [Chapter 2985: Soared](#)

"In the depths of this dark cave, there is a whirlpool, and the whirlpool seems to be connected to a space channel, which seems to be connected to another piece of the world. When I entered the cave before, the magic light suddenly burst out from the space channel.

It became such a sight. "The \*\*\*\* cat said solemnly: "I suspect that Mo Qin has entered this space passage at some point. I will find a way to enter this passage and see what is behind the passage?" But the emperor has a feeling that this channel should be connected

It is a certain plane of higher demons. "

"Higher Demon Race Plane?" Everyone looked at each other, and no one expected such an accident.

"Senior Cat Sovereign, will it be Heaven?"

At this moment, the Skeleton Rudder Master suddenly spoke: "When this magic light appeared, I had an urge to ascend and enter a higher level plane."

"Yes, I have this feeling too." Mokara also said hurriedly. "What? You all have the feeling of ascending. Is it really the heaven after the magic light?" The \*\*\*\* cat was surprised. If there is a call of the dark, then any plane of the demons can be used, such as the skeleton rudder master and Mokara are all aliens

, If this is connected to the Continent of Different Demon, the Origin of the Continent of Different Demon will have a sense of summoning them, but now the two people are talking about ascension, it is extraordinary.

Those who can give the holy realm master a sense of ascension is generally only possible in the heavens.

"But Senior Cat Sovereign, isn't the heavens the domain of the human race? How come there is so much devilish energy, and if the heavens are behind this passage, why don't we feel like we want to ascend?"

Fu Qiankun and others said in disbelief. "It's hard to say that in ancient times, the human race was respected in the heavens, but it does not mean that the heavens are the masters of the human races, but a land of ten thousand races. The human race is just one of the top races. As for why there is only a skeleton rudder The Lord and Mokara have the feeling of ascension. This is easy to explain, because different areas of the heavens have different attractions for different races in the lower realms. The demons will ascend to the territory of the demons, and the demons will ascend to the territory of the demons. When it is complete,

Any race can feel the attraction of ascension, but if the heavens are not complete, then which tribe's territory is behind this passage, and which tribe can feel the ascension. "A top holy master of the Demon Race fell in this dark demon cave. It seems that the place where the Demon Abyss leads is most likely to

be a certain area of the Demon Race. In this way, the Skeleton Rudder Master and Demon Clan Feeling the ascension, as it should be.

"

The \*\*\*\* cat guessed.

"It turned out to be like this... So, Mo Qin has already soared into the territory of the Demon Race? Then..."

Fu Qiankun and the others were shocked. If this were the case, wouldn't Mo Qin be in danger? From everyone's point of view, the land of the Demon Race must be sinister and abnormal. If Mo Qin soared into the Demon Race, wouldn't it be inevitable to die? "All this is just speculation. In this way, since the Skeleton Rudder Master and Mokara feel the ascension, then you will ascend into this passage, and the emperor will follow you to enter, cross this space passage, and see the ascension. What happened

What a place, if it is really the land of the Demon Race, then it's okay. Qin Mo has cultivated the Tao of the Abyss, and there shouldn't be any problems. "

The \*\*\*\* cat knows the position of the way of the deep demon among the demon clan. Even if the Qin demon is among the demon clan, there will not be anyone who does not have the eyes of the demon clan who dare to do anything to Qin demon at will. When it comes to Terran, that is the danger.

Skeleton Rudder and Mokara heard that the \*\*\*\* cat actually made them soar. They were a little nervous and excited. They looked at each other and started to run the magic power in their bodies.

Fu Qiankun and others at the scene looked nervously at Skeleton Rudder and Mokara, wanting to see how the two of them soared up, they were also curious and nervous, but who knew that after watching for a long time, the two of them were moving at all. No.

"Master Skeleton, Mokara, what are you two doing?" The \*\*\*\* cat was speechless.

Skeleton Rudder and Mokara are also fierce and majestic figures in the Tianwu Continent. At this time, they showed a trace of embarrassment, and said: "Senior Cat Emperor, I don't know how to ascend."

"Halo." The \*\*\*\* cat was speechless, and a cat paw slapped them on the heads, and said directly, "You two don't need anything, you only need to follow the power of the traction and let yourself be absorbed into this magic. Just in the middle, Mozu Tiandi senses you

After the power, it will directly lead you over. "

It's that simple? Skeleton Rudder Lord and Mokara were a little stunned, and they dispersed their minds according to the request of the \*\*\*\* cat. Suddenly, there was a summoning in the magic light, and Skeleton Rudder Lord and Mokara immediately surged. After all the amazing magic lights, down

For a moment, the two of them flew up involuntarily, faster and faster, and then rushed into the magic light rising into the sky in the dark magic cave.

Everyone only felt a mysterious spatial fluctuation flashing past, and the Skull Rudder Master and Mokara had disappeared in the black magic light of the sky, and there was no news at all.

"Sure enough, it has risen." The terrifying power of the heavens that escaped before the two disappeared made the \*\*\*\* cat instantly shocked: "And how does this power resemble the demonic energy of the ancient heavens? It also carries a strong ancient evil spirit. Which place in the heaven is after the passage

area? "The \*\*\*\* cat thought for a while, and said to Fu Qiankun and the others: "You guys, all stay behind. After the space channel, it should be some ancient place of the Demon Race. If you rush in, you will definitely die, and with your strength, Can't go through

This devilish barrier, the emperor first went over to see if he could find Qin Mo and his way back. "

"Senior Cat King, you must be careful."

Fu Qiankun said they were worried, worried. "Don't worry too much, if the emperor is here, Qin Mo and the others will have nothing to do, but you..." The \*\*\*\* cat thought for a while and said, "If the master of the Heavenly Yaomie Mansion arrives, the emperor has not If you have time to come back, you will be the truth

Everyone in the pavilion moved to the Thunder City in the Thunder Sea, where there might be a glimmer of life, as for other places, they had to give up. "

When the voice fell, the \*\*\*\* cat shook his body and suddenly entered the black magic light canopy. The space fluctuated for a moment, and the \*\*\*\* cat had disappeared. "Let's go, all we can do is to improve our strength as soon as possible, and then there will be a fight to the death."

#### [Chapter 2986: Ancestor of Sword Sect](#)

Fu Qiankun, they looked at the \*\*\*\* cats that disappeared, and turned around and left. They have to prepare now. If the \*\*\*\* cats have not come back by then, it must be a battle for Tianwu Continent. The disaster of extinction.

At that time, they would send all the people in the Chendi Pavilion to Tianlei City near the Thunder Sea, but they themselves had to sacrifice their lives.

At the same time that Fu Qiankun and the others left, the scene of a magic light curtain across the Tianwu Continent also shocked all the powerhouses in the entire Tianwu Continent.

"what is that?"

A lot of holy realm masters have already been born throughout the Tianwu Continent. In the third heaven of the Martial Realm, on a sword mountain, the Sect Master of Sword Extinguisher is already a holy realm master. He looked up at the magic light sky curtain, revealing shock. color.

That strong magical aura made him feel a strong sense of oppression in this holy realm master.

Above the Sword Extinguishing Sect Mountain Gate below, there were also many kendo masters standing, looking up in shock.

This group of masters, each with extraordinary aura, there are actually dozens of masters of Emperor Wudi.

After the original source of Tianwu Continent was restored, the holy energy on the entire Tianwu Continent was restored. Although it was only a short period of more than two years, more powerful men have been born than those born in tens of thousands of years in history. The glory of ancient times.

Although Sword Destruction Sect possesses two holy realm masters, in the martial domain, it is still not the top sect power, it can only be regarded as medium.

"Master Sect Master, what exactly is the black sky curtain? Why is it that such a strong magic light aura is released? Could it be that the people of the alien demon race have come back?"

"What a terrifying magic light aura, looking at the direction that penetrates, it seems to be the forbidden land, what is happening in the forbidden land?"

"Could it be that there is another heavenly master in the forbidden land?"

Many masters who killed Sword Sect were all speculating, showing a shocked look.

Boom!

But at this moment, from the Sword Extinguishing Sect, a master flew out again. This is an old man, with a magnificent momentum, and he was also a holy realm master, falling beside Sect Master Sect Master.

This person is the supreme ancestor of Miejian Sect and one of the only two holy realm masters of Miejianzong.

"Huh? This force is too strong. Could it be that the people of Chendi Pavilion have discovered something against the sky in the forbidden land?"

As soon as this great ancestor appeared, he said in a deep voice.

In fact, not only the people who destroyed the Sword Sect, but the entire Martial Domain, and even the four lower domains, all the top experts also saw the devilish sky, and they all looked at the sky in shock.

Just when everyone was secretly guessing, when they didn't know why, a loud voice had instantly spread to every corner of the entire Tianwu Continent. "All the warriors of the Tianwu Continent listen, the old man Chendi Pavilion Fu Qiankun, the president of the bloodline holy land, now the magic light barrier that appears above the Tianwu Continent is the power of magic light escaping from a magic cave in the forbidden land. , Which contains amazing space power and magic power, leading to a certain demon race land, all the holy realm masters of the Tianwu continent, do not rashly touch this magic light sky curtain, otherwise they will be corroded by this magic light power, even if it is Fortunately, through the space channel, enter the magic

The land of the clan will also be beheaded, remember not to touch. "

The rumbling roar resounded through every corner of the Tianwu Continent, and also clearly spread to the ears of every holy realm master.

After the First World War, Chendi Pavilion used more than two years to arrange a total of 1.08 million communication formations on the Tianwu Continent, ensuring that the news will be spread to every one of the mainland in the shortest time. corner.

Hearing Fu Qiankun's words, many experts in Tianwu Continent were shocked and talked a lot. A mysterious passage leading to the land of the Demon Race was enough to make anyone want to get into trouble.

But out of trust in Chendi Pavilion, many holy realm masters also dispelled the temptation. "Huh, what a place of the Demon Race, this Chendi Pavilion occupies the forbidden land, now known as the Tianwu Continent Orthodox, according to the old man, this magic light canopy is definitely an adverse weather breath released by some of the top treasures of the Demon Dao, Chendi Pavilion Purpose, but not wanting

Let us plunder. "

When the ancestor of Sword Sect Master heard this, he sneered, "I want to see what the magic light barrier is."

When the voice fell, the ancestor of Sword Exterminating Sect directly rose into the sky.

"Ancestor!" Sect Master Miejian's expression changed, and he hurriedly tried to stop him. No one in the Tianwu Continent dared to rebel against Chendi Pavilion's orders. Moreover, Sect Master Miejian felt that the magic light sky curtain was a little weird and believed in Chendi. Ge is not the kind of person who deceives the world

.

But the ancestor of Miejianzong didn't believe in Chendi Pavilion, ignoring the obstruction of Miejian Sect Master, and instantly came to this magic light sky curtain. When he approached, the power of a mysterious summoning began to pass. come.

"It's the call of heaven."

The ancestor of Sword Exterminating Sect showed ecstasy.

Although he is not a member of the demon race, he is a master of the holy realm after all.

His words immediately drew the shock of Miejian Sect Master and many masters.

"Could it be that the heaven is behind this magic light curtain?"

Many experts in Destruction Sword Sect trembled with excitement. Heaven, this is the place that countless warriors in the mainland dream of.

"Hahaha, the old man said, that Chendi Pavilion is worthy of fame, this is obviously a passage to the heavens, and Chendi Pavilion is a wolf ambition. I don't want me to wait for the ascension to the heavens, and want me to live under their rule forever, hahaha, old man Go too."

The ancestor of Miejianzong laughed loudly, and shook his figure, suddenly rushing into the magic light sky.

Just when the other masters of Sword Destruction also wanted to follow along--

"Ah!" A screaming scream suddenly sounded, and then everyone saw that as soon as the ancestor of the sword sect was in contact with the magic light sky, the whole body was enveloped by an invisible magic light. , The magic light burns, and the sword sect will be destroyed in an instant

The ancestors of the Supreme Being burned out, and even their souls were burned directly into ashes.

"Ancestor!"

Many masters of the Heavenly Sword Sect watched this scene in horror, as if being splashed by a basin of cold water, each of them felt cold in their hearts and never dared to step forward. Only then did they understand what Fu Qiankun said. In fact, it's all for their good.

Not only Extinguish the Sword Sect, but in the entire Tianwu Continent, many of the Saint Realm powerhouses were a little skeptical after hearing the notice from Chendi Pavilion. Their fate was just like the ancestor of Sword Extinguishing Sect. They all died. Under the magic light curtain. This magic light canopy is indeed the call of the heavenly demons, but it is not something that ordinary holy realm masters can pass. As long as it is contaminated with a trace of magic light, it will fall on the spot, unless it can resist the magic light, or it is itself. Demon master, otherwise no one can pass.

#### [Chapter 2987: Enter the monster world](#)

Outside the Black Death Marsh in the Northern Heaven Territory, the land of a hundred dynasties, there is a barren mountain range.

In the mountains, it was extremely peaceful, but few people were there. Many top blood beasts did not dare to come near here.

This was the place where the people from the heavens and the masters of the alien demon race fought. Although more than two years have passed, there is still a trace of the breath here. For more than two years, no blood beast dared to break into this place. .

Rumble! But at this moment, this barren mountain range actually made a violent roar. A huge gap suddenly cracked in the mountain range, and the gap turned into an abyss, as if leading to the endless underground, and the underground , The infinite magic

Qi is surging, like a stream of flames burning and rising.

"How long? How long has this seat been asleep? What kind of power is this? Why does this seat feel a strong summoning mood, such a strong devilish energy, what is it?"

Boom!

In the demon abyss below, the endless black demon flame exploded, and a blood beast full of flames rose into the sky. This is like a ground dragon rat with scales, but the body of this ground dragon mouse is burning with a dark magic flame, a horrible magical aura escapes from the body of the ground dragon mouse, it turned out to be A sacred blood beast ground rat,

But it has the aura of a foreign demon.

This is exactly how the Red Flame Demon Lord, who was beheaded by a green-haired celestial master in order to save the devil, lived in the body of the Earth Dragon Rat after rebirth by using the Red Flame Demon Art and slept for two years.

In the past two years, it has not only recovered to the cultivation base of the Holy Realm, but the Chiyan Demon Art has also become more and more exquisite. It has directly entered the realm of the peak of the Heavenly Sage. If it had not been awakened by this mysterious force, it would have even still have to continue to fall asleep.

Demon Lord Chiyan looked at the magic light sky curtain in the sky in shock, smashed, the fragments of the Sky-Swallowing Devil Bottle scattered in the mountains surrounded one after another to form the armor on its body, and then instantly rose to the sky and rushed into it. In the magic light canopy.

"So comfortable." Chiyan Demon Lord only felt as if he was wandering in his mother's placenta, full of warmth. The power of the demon race poured into its body, not only quickly transforming its body, but also making it. The breath quickly soared, and suddenly stepped into the realm of the holy

World. Under this power, the aura of the space around Chiyan Demon suddenly flashed, and then after seeing that space, there was a vast world of monsters. The next moment, Chiyan Demon's figure flashed, and he couldn't help entering. That space channel,

Soared into the distant world of demons.

"Not good, magic!"

The Chiyan Demon Lord only woke up at this time, and he actually soared directly, but he just woke up, and he didn't even know whether Demon Li was alive or dead, and whether he survived.

"No, magic!"

The Chiyan Demon screamed in horror, wanting to return to the Tianwu Continent, but how could it be possible? His figure suddenly disappeared on the Tianwu Continent, soaring disappeared, and only its screams echoed in the sky above this piece of heaven and earth. : "Magic!"

"Who!"

"Who is calling me?"

In the mysterious underground palace in the Black Death Swamp, a figure that seemed to have been sleeping for thousands of years, covered in dust, moved abruptly, and was awakened by the shout.

"Master Chi Yan, it's Master Chi Yan!"

Mo Li suddenly woke up, and his whole body rose into the sky. In the past, Red Flame Demon Lord died for him, and in order to avoid the pursuit of the master Xiu Chengze, he used parasitic seeds to block the space and even shut down his six senses, leaving his breath of life completely silent and falling into life. dead person's

status. If it is only to block the magic power and close the six senses, it will not bring much damage to the magic, but in the despair of the Red Flame Demon Lord dying to save himself, the magic completely seals his heart, causing him to become A living dead, no

There is a mentality, no life, and no breathing.

He completely enclosed himself in the palace grounds.

For more than two years, in this state, Mo Li's previously impetuous heart has completely calmed down, his heart has been transformed, and his realm has reached the legendary state of no void and no magic.

He is a living and dead demon, and his attainments in the magic way have also advanced by leaps and bounds.

Until this moment, he was awakened by the familiar voice.

boom!

Mo Li's body, the dusty dust exploded all at once, and the entire underground palace burst apart. He stepped out in one step and came to the sky above the barren mountain range, feeling the familiar breath excitedly.

"Master Chi Yan, it's Master Chi Yan."

Moli's eye sockets were moistened, tears rolled down all of a sudden. He, the demon of the world, who had reached the legendary state of no void and no magic, was actually panicked and worried. He searched everywhere. Finally, he looked up and saw the monster. Light sky curtain.

"This is... terrible power of the Demon Race, and behind this sky curtain, there is a strong summoning aura. Is this magic light sky curtain connected to the heavens?"

Demon Li's emptiness and no demon realm allowed him to pry into the power of the Demon Race, more direct to the essence than Mokara and Red Flame Demon Lord, and at the same time sensed the disappearance of Red Flame Demon Lord.

"Master Chiyan Demon Lord, did you enter this mysterious Demon Race space?"

Mo Li's excited body trembled.

He couldn't imagine that Lord Chiyan Demon was not dead.

Although he didn't know why Lord Chiyan hadn't searched for him for more than two years, he knew very well that Lord Chiyan would never forget him, nor would he forget the two lingering daytime.

"Master Chiyan Demon Lord, you are waiting for me!"

Mo Li soared into the sky and stepped into the magic light curtain. Suddenly, the endless magic light began to merge into his body. The next moment, the magic Li directly disappeared, entered the channel, and disappeared suddenly.

A place of trials in the heavens.

In the Demon Abyss in the depths of the Demon Realm, the space fluctuated, and in the whirlpool passage, three streams of light suddenly rushed out.

"Pump!"

Two of the streamers directly smashed a dog on the hard surface of the monster world, with a few broken bones, while the other streamer flashed in the void and instantly fell to the ground, but it was also a little embarrassed.

These three streamers are the Skeleton Rudder Master, Mokara, and Big Black Cat.

Skeleton Rudder Master and Mokara felt a strong demon energy and evil spirit in this monster world, and they all looked around in shock and ecstasy.

The breath here is really too strong. The magic energy that flows into the two people's bodies every moment makes the strength of the two people's bodies increase rapidly, and the physical bodies are also rapidly transformed, and there is even a kind of continuous breakthrough and improvement. a feeling of.

Rumble!

The next moment, the two actually started a breakthrough, just breathing the aura here, absorbing the magic energy between the heavens and the earth, allowing them to break directly from the early stage of the earth sage to the middle stage of the earth sage in a short moment, and it is still slowly The promotion.

"Senior Cat King, where is this place?"

Skeleton Rudder Master and Mokara said tremblingly, both a little dumbfounded. Is this the heaven? The breakthrough speed is too fast, right?

#### [Chapter 2988: One World](#)

"This is... the heaven, but the ancient heaven." The \*\*\*\* cat felt the aura around him, and his face became solemn.

"Ancient heaven? What do you mean?"

Both Skeleton Rudder Master and Mokara are a little confused, the heaven is the heaven, why is there an ancient heaven? "The meaning of the ancient celestial realm is that the power of the celestial realm here is very old, and it still retains the state of the ancient times. Moreover, you feel the power around you. The devil here is very rich. If the emperor is right, it should be from the celestial realm. certain

An ancient mystery, but a demonic mystery. "The \*\*\*\* cat looked around carefully. Although they flew out of the Demon Abyss, they did not dare to approach the Demon Abyss at all. The horrible feeling of dissipating in the Demon Abyss made them extremely vigilant. Once close, it will fall on the spot

The feeling of falling.

"Senior Cat Sovereign, do you mean we have entered the secret realm of a demon race?"

Skeleton Rudder and Mokara were so scared that their scalps were numb, and they dared not move.

"It's hard to say what the specific situation is. Let's go, we have to find a place to find out!" The \*\*\*\* cat's eyes flashed, and a series of strange restrictions appeared on its body. In this heavenly realm, it

was especially obvious. , You can see with the naked eye, the \*\*\*\* cat is frantically devouring all the breath around it, whether it is

Devil energy, evil energy, or ancient heavenly holy energy, were all swallowed into the son of the body, like a black hole that could never be filled.

"You two follow me closely. Be careful."

The \*\*\*\* cat shook his body and carefully left the Demon Abyss with the Skeleton Rudder Master and Mokara. Not long after the \*\*\*\* cat and three people left, huh, a figure flew out of the demon abyss. It was the Red Flame Demon Lord. It felt the aura of the demon world and was shocked, but soon, it passed away. Turn into a streamer and disappear instantly

In the other direction. After Demon Chiyan left, the magic power also appeared, shocked to feel the terrifying magic power around, but he didn't care about these rich demon energy, just carefully perceive the breath of Demon Chiyan, and then Follow Chi Yan

Demon Lord's figure also left.

This piece of Demon Abyss restored calmness.

On the wasteland outside the Demon Abyss, the three \*\*\*\* cats were cautious. After moving away from the Demon Abyss, they finally saw the scene of the Demon Realm in this trial land.

Ho Ho Ho!

Above the sky in the distance, a group of terrifying monsters roared into the sky, and the aura that burst out, like a vast ocean, shocked the ages, giving people a strong sense of destruction.

Moreover, these monsters are retreating frantically, it seems that at the end of that distant monster world, there is something terrifying, forcing them to flee in all directions.

"This... what is this?"

The Skeleton Rudder Master and Mokara were shocked. They had already broken through to the mid-earth peak, but just feeling the figures of the monsters in the distance, there was a feeling of soul collapse and the body about to collapse on the spot.

"Heaven Sage monster, this is the Sky Sage monster, and it is also the giant monster at the peak of the Heaven Sage mid-stage. No, there are also the overlord monsters of the late Sky Sage stage, my god..."

The \*\*\*\* cat was also shocked when he saw these monsters, and his heart was extremely shocked. What kind of secret is here? There are so many monsters at the peak of the mid-celestial sage, and there are monsters at the overlord level.

"The peak giant in the middle of the sage and the overlord monster of the late sage?"

The Skeleton Rudder Master and Mokara were also stunned, such a terrifying monster, I am afraid that they can destroy them with a single breath.

"Did we come to a core secret realm of the Demon Race, a secret realm that only the top prince of the Demon Race can enter?"

Skeleton Rudder and Mokara said tremblingly. "No." The \*\*\*\* cat shook his head, with a faint light in his eyes: "These demons are not demons of the demons, but demons. They are some kind of demons that combine the blood of various demons and monsters, so to speak. , This ancient mystery is not only It is the secret realm of the demons, it is very likely a secret realm where the two demons meet. "

"However, under normal circumstances, there are very few secret realms in the heavens where there are only two races of the demons and the demons, unless, here is a terrifying ancient secret realm that can be entered by all races in the world, and this is the demons realm formed in the center of this secret realm. "

I have to say that the \*\*\*\* cat has a very old-fashioned vision. Although he can't fully tell where this place is, he can tell the situation of this heavenly trial place clearly in a few words. "You two, stay here, this emperor feels that there is an ancient demon vein of the middle grade of the sage in the ground, and it seems that there is no guardian of the demon. You two will practice in retreat here and swallow these two ancient demon veins. Make your strength more

To strengthen, the emperor went out to find out. "The \*\*\*\* cat said solemnly.

"Senior Cat King, will you be in trouble if you go out alone?"

Skeleton Rudder and Mokara said anxiously.

"Bringing you is the trouble." The \*\*\*\* cat glanced at the two of them. It also had a headache. He didn't expect to enter such a terrifying place in the heavens as soon as he entered this passage. It was in purgatory mode. "Don't worry, you two, this emperor will have nothing to do. Although the strength of this emperor has not been restored, it is not the opponent of these heavenly holy monsters, but it is not easy for these heavenly holy monsters to deal with this emperor. It is you two. One, be careful,

Once there is danger, go to the place of the previous Demon Abyss, which seems to be a forbidden place, and no demons dare to break into it. "The voice fell, and the \*\*\*\* cat flickered and disappeared, but it did not go in the direction of the group of demons fleeing, because looking at the appearance of those demons, it is obvious that there is a more terrifying existence in that location.

Will go to die. The Skeleton Rudder Master and Mokara looked at each other. In desperation, they had to enter the ground, and found an ancient magic vein of the middle grade of the sage. The power contained in this ancient magic vein was enough to cause the two to explode 10,000 times. More than just in the sky

How could Wu Dalu dare not imagine.

The two of them stopped hesitating immediately, and refined.

But what the \*\*\*\* cat didn't know was that at the end of the demon world, which was extremely far away from them, it was Qin Chen who had caused countless demons in the demon world to flee.

Boom!

Qin Chen entered the world of monsters and used the magic trees of the worlds, and the magic light vortex madly swallowed everything around. The world in this monster cave was completely destroyed. Wherever the power of the magic trees of the worlds was rolled, it turned into ruins.

Countless demons have long lost their bones. The power released by the Demon Tree of the Ten Thousand Worlds was simply not something these demons could resist.

#### [Chapter 2989: Devilish Tribulation Cloud](#)

Rumble! Qin Chen flew all the way to the depths of the monster world. As long as the infinite monsters are located between the world, they will be swallowed and absorbed by the demon tree of the ten thousand worlds. Moreover, in the underground, there are hundreds of ancient veins and monsters. Veins, constantly swallowed by the magic tree of the ten thousand world

Eat, absorb, and turn into its power.

"Dust is actually absorbing the power of these magic veins?"

Chen Sisi followed Qin Chen closely, and the magic light lingered around her, setting off her like a demon god, with infinite demonic energy lingering around her, and quickly absorbing the power of these magic energy. "These sacred veins are all contaminated with evil aura and devil aura. For other human warriors, they are extremely dangerous things. If they are absorbed rashly, they will surely fall. But the magic tree of the ten thousand worlds in the jade disc is The treasure of the demons can be cleaned

It transforms all demon energy into the purest power, but with this Ten Thousand World Demon Tree, Chen can swallow all the ancient demon veins in this demon world without fear of affecting itself. "Chen Sisi was shocked. The speed at which Qin Chen absorbed the infinite demon energy and power between the world and the earth was far more terrifying than her successor to the Abyssal Demon Avenue. Even if a master of the Abyssal Demon Clan came here, it was far away. Not comparable to Qin Chen swallowing

Devilish speed.

This is natural. The Demon Tree of the Ten Thousand Realms is the top treasure of the Demon Race. There is no demon energy that can withstand the absorption of the Demon Tree of the Ten Thousand Realms. If Chen Sisi is in the jade disc of the universe at this moment, he will find that with Qin Chen Absorb a lot of magic, then

The Ten Thousand Worlds Demon Tree is also gradually growing. Although the growth rate is very slow, the speed visible to the naked eye is still extremely terrifying.

In the world of demons, the Devil Tree of Ten Thousand Realms is the king here.

The devilish vortex in Qin Chen's incarnation grew larger and more surging, and the dead veins and demons on the ground could not escape his sweep, and they all plunged into the whirlpool.

Wherever Qin Chen whirlpool went, nothing could be left behind. Nothing can't be swallowed by him, even if a master of the demon race came here, it would not have this effect, because the rules of cultivation of different demon race masters are also different, it is impossible to have such unscrupulous swallowing All devilish

effect.

In the process of swallowing, the vortex not only had no evil spirit pollution, but became more and more radiant. One of the pure power of the holy veins continuously entered Qin Chen's body.

This is after the Ten Thousand Realms Demon Tree refining the Demon Veins and Jue Veins, it fed back one of the pure holy veins power to Qin Chen.

The aura on Qin Chen's body gradually became stronger and stronger.

"Dust is using the power of the Demon Tree of the Ten Thousand Realms to improve his own strength. If it continues at this absorption rate, I am afraid that it will not be long before Chen can break through."

Chen Sisi said excitedly. After a full hour, Qin Chen seemed to have swept across the plain as a hurricane, riddled with holes, and all life was being destroyed. On the vast plain, there were hundreds of thousands of deadly veins and demon veins that were incorporated into his body. , Some monsters who can't escape

Races have also been swallowed. Many of these Juvenile Veins and Demon Veins are ordinary lower-grade Saint Veins of the Heavenly Sage, and there are not many middle-grade Sacred Veins. As for the upper-grade Sacred Veins, there are very few. There is still a large part of them. Can't reach it, it's just the holy vein

, But it couldn't stand the large number, and the sacred vein aura lingering around Qin Chen became more and more intense.

Boom!

Finally, all of a sudden, a terrifying aura rose in Qin Chen's body, and one could see with the naked eye that in Qin Chen's body, rays of light flickered, and he stepped into the realm of the mid-term peak of Heavenly Sage in one fell swoop. Originally, Qin Chen truly stepped into the mid-term peak of the Heavenly Sage, and at least needed a few high-grade ancient Heavenly Sage veins, but the Ten Thousand Realm Demon Tree, after devouring so many demon energy, monsters, dead veins, and veins, returned back Heavenly Saint High Grade Saint Yuan Breath

, Qin Chen directly stepped into the peak realm of the mid-term Heavenly Sage.

This is simply an unexpected surprise.

"It seems that this demon world is too right. Only if you pay, you can gain. This is a good point."

Qin Chen was also excited. In order to nourish this Ten Thousand Worlds Demon Tree, he has completely depleted the body of the Yama Sage Lord of the Yama Demon Clan, as well as a Saint Master level ancient sacred vein. He must stay in the Universe Demon Tree to nourish the Ten Thousand Worlds Demon Tree. Otherwise, he swallowed that one himself

The ancient sacred veins of the Saint Lord level can also be completely broken through, and it is even expected to directly enter the overlord realm of the late Heavenly Saint.

But now, all this has paid off.

"I have to thank the Son of God Zhao, if it weren't for him to bring me into this underground monster world, it would take a lot of effort for me to find this place."

Qin Chen continued to devour it while consolidating the strength in his body.

Suddenly, Qin Chen raised his head suddenly, and saw that a cloud of magic cloud began to appear above his head.

In this magic cloud, there was a frightening magic light flickering, with the aura of the dark Mozu thunder, this turned out to be a robbery cloud.

"This is... the devilish robbery!"

Chen Sisi was taken aback.

Qin Chen's breakthrough unexpectedly attracted a cloud of demonic energy.

"Hmph, Demon Tribe Jieyun, is this because I swallowed too much demon energy and attracted the whole demon world to resist?"

Qin Chen's eyes were sharp, and he saw at a glance that deep in the void, above the endless void of the demon world, the billowing clouds were condensing, and it was his calamity. The appearance of the calamity was not because Qin Chen broke through. Under heaven and earth, no one has ever attracted the cloud from breaking through the mid-term summit summit of the Heavenly Sage. The real reason is that Qin Chen swallowed too much demon energy and cut. Kill too many demons, lead

Here comes the attention and hostility of this monster world.

If Qin Chen is a member of the Demon Race, the key is that he is a Human Race, opposed to the demon aura, and will naturally attract a reaction from the Dao of Demon Realm.

This does not mean that this monster world has autonomous consciousness and origin, but a natural manifestation of the Great Dao of Heaven and Earth.

Just like when Qin Chen broke through in the mysterious realm of heavenly demon in the land of a hundred dynasties, because that secret realm was the battlefield of the different demons, the power of the different demons was strong, and Qin Chen's breakthrough also attracted the attention of the different demons. , Resulting in thunder robbery.

Only those who feel threatened by Heaven and Earth Avenue can cause such a scene to attract them.

Qin Chen felt the end of himself, opened his eyebrows and his soul eyes, and saw the depths of the alien space in the sky, the law of the magic way was brewing, as if a sharp sword hanging above his head, would come down at any time and kill him. "My calamity is very powerful, and now I can only suppress the aura, and prevent the magical law from falling down in advance, because I haven't collected enough sacred vein energy, and I just stepped into the mid-term peak of the heavenly sage. When it comes down, then I will be in danger. Although there is a Demon Tree of Ten Thousand Worlds, it will not hurt the root, but it will be a blow to my future breakthrough."

### [Chapter 2990: Demon Kingdom](#)

Qin Chen immediately circulated his own realm of heaven and earth in secret, suppressing the boiling Saint Yuan in his body.

He must completely consolidate his cultivation base, and even touch the overlord realm of the late Heavenly Sage, before he can be confident enough to resist this devil's calamity.

However, to touch this realm, the holy energy of heaven and earth that Qin Chen needs will be an astronomical number.

"At least ten or more Heavenly Sage high-grade ancient sacred veins are needed before I can consolidate my realm and try to touch the realm of the late Heavenly Sage overlord."

Qin Chen secretly calculated and calculated everything.

"But that's okay, under the devil's calamity thundercloud, any cover method is empty. I can feel the traces of the Son of Shenzhao more clearly and find his hiding place."

Qin Chen's eyes flashed, he began to suppress the aura in his body, and secretly urged the power of the Demon Tree of the Ten Thousand Realms, so that the number of calamities formed by the law of the magic way temporarily fell. So Chen Sisi and the many monsters in the distance saw a strange scene. Above the magic vortex of Qin Chen's incarnation, the magic cloud was densely covered with thunder and lightning, and countless magical lights shuttled back and forth, like an army. , But just

Unable to land.

"Dust is suppressing the punishment of the Demon Dao Law of the Demon Realm? Choose a better time?"

Chen Sisi was taken aback. This method was amazing, she had also learned from the inheritance of the Abyssal Demon clan, but it was the first time she had seen it. Is this still a human?

Even Yijie Dadao can deceive. This can be called a deception.

Rumble! However, Qin Chen also has disadvantages in doing so, that is, more and more devilish tribulation clouds are slowly increasing, and the power of smelting among them is getting more and more terrifying. When the time comes to the extreme, once it comes down, I am afraid that Fangyuan will count Thousands of miles

All will be turned into ruins within.

If this kind of calamity comes down, the overlord master of the demon clan will also become a ash fly on the spot and fall directly.

At this moment, in the infinite distance from here in the void, a master of the demon race, also gathered, they looked at this place from a distance, all of them showed shocked eyes.

"Have you seen, who the \*\*\*\* is that the demon Jieyun that has attracted you, my god, is this one of our demons, how could it be so terrifying?" "Impossible, we are already He is the best among the major demons, the top supreme arrogant, and in this celestial trial, he also broke through to the realm of hegemony, but he did not say that he was so terrifying. No matter how strong he is, is he stronger than us of

many? "There is nothing impossible. Existence is reasonable. We think it is impossible, but it may not be possible for no one to do it. You and my race, among the demons, are only in the middle of the ranking. If it is the holy demons, the heavenly demons, and the dead Demon, even the adults of the Abyss Demon

It may not be impossible to arrive. "

"Huh, what about these races? This demon doesn't believe me, I will be worse than them. I am invincible. No one can let me lower my head and go. Let's go over and see who this is."

"No! The breath on this child is too terrifying. I have a feeling that if we rush closer, we will die. Let's look at it again." "Yes, I can feel that there is something born from the depths of the soul." The trembling aura of, is it really an adult of the Yuanmo tribe? If we destroy the experience of the Yuanmo tribe, when the trial is over and return to the clan, the Lord Lord may be

He personally beheaded me to extinguish the anger of the Abyss Demon Race. "

"Look, did the devilish vortex break into the tribe of the ancient demon Sky-Splitting Demon?"

As this group of Demon Race Tianjiao spoke, the devilish vortex of Qin Chen's incarnation flooded the world, wherever he went, no grass grew, and no breath was left behind.

In the distance, another city like the Primordial Demon City was directly rolled up by Qin Chen, and then shattered. One of the sky-splitting demon and the demon appeared, with a towering figure, like a heavenly monster, roaring again and again. This is an overlord demon with power. The sky.

However, Qin Chen's black magic vortex was swept up, and it was drowned out, and he suffered a catastrophe. The sky-splitting devil's body burst out with devilish energy, and was stunned by the power of the demon tree of the ten thousand worlds. The masters of the demon clan Tianjiao saw that the sky-splitting devil was sluggish after being swept, and then was directly shattered. , Turned into the blood

The fog, caught in the black magic vortex, disappeared.

It is unbelievable that a top-level monster of the overlord level was beheaded in this way.

The Lair of the Sky Splitting Demon also shook open, and one of the Heavenly Sage High-Rank Demon Veins flew out, like a blue dragon, shuttled in the whirlpool, and was swallowed all at once.

Huhuhu!

The Ten Thousand Worlds Demon Tree swallowed this demon vein, most of its power was introduced into the Universe Jade Plate, and some of its power was directly swallowed by it. As for a small part, it formed the purest sacred vein breath, which gave it back. Qin Chen.

Qin Chen absorbed these forces, and Chen Sisi, who was not far away, also received some benefits. However, in the eyes of those Demon Race Tianjiao in the distance, because the distance is too far, they can't see much at all. They only saw the terrifying magic vortex swallowing violently, not only swallowing the overlord-level Skycracker, but also swallowing it. A whole piece of Heavenly Sage High Grade Demon

Pulses, this kind of magical pulses, even if they are, cost a lot of money and energy to absorb.

But they were swallowed by the magic vortex all at once, and everyone was scared into cold sweat, one by one frightened.

This is simply too domineering.

Along the way, on the ground, more evil spirits and demon veins also flew up and entered the devil energy vortex. After a little roll, all the evil energy was washed away and merged into Qin Chen's body.

In a short while, the Ten Thousand Realms Demon Tree once again swallowed countless demon veins, with hundreds of thousands of them, and finally formed a large number of top heavenly sage top grade ancient sacred veins, which merged into Qin Chen's body.

"it is good!"

Qin Chen shouted, so much of the power of the Saint Vein made him truly feel the overlord aura of the late Heavenly Sage.

He kept calculating that the Book of Origins and various domineering auras echoed in his mind, feeling this feeling, in the dark, he had touched a threshold of the overlord realm of the late Heavenly Sage.

"Dust, there are a lot of succubuses in front."

Suddenly, Chen Sisi exclaimed. A huge city of monsters appeared in front of him. This city of monsters was actually made up of dense enchanting female demons, suppressing all Primordial Demon City.

Many succubus succubuses flew out of this monster city.

Around this city of demons, there are also some caves and caves, which are the lairs of other demons. This seems to be a country of demons.

"My God, how many demonic veins are there in this demon kingdom?" Chen Sisi was shocked, and the Dao of the Abyss felt that there are many demon veins in this demon kingdom, spreading like vines, the top of them There are several demon veins of the Heavenly Sage.
