

Valkyrie 331

Chapter 331

In the next few days, the entire Daqi King was in turmoil.

After Qin Batian returned strongly, he immediately abolished the position of Qin Yuanxiong's acting patron, and then handed over the position of acting patriarch to Qin Yuanzhi.

As for Qin Yuanxiong, he was punished to take charge of some small affairs of the family, which was tantamount to losing his power.

Some of the elders of the Qin family have also changed their positions. Some elders of the same generation as Qin Yuanxiong are directly deprived of their elder positions and are no longer involved in any family affairs. They only need to grow grass and flowers every day.

In this regard, many Qin parents and elders were trembling and afraid to speak.

If it were Qin Batian in the past, these elders might still fight for it.

But now that Qin Yuanxiong is a half-step Wuzong, who would dare to talk nonsense?

Moreover, thinking back to Qin Yuechi's horror, thinking that he was himself at the beginning and agreed to expel Qin Yuechi, these elders were even more frightened for fear of revenge.

The only one who was not satisfied was Zhao Feng.

When she heard the news, a shrew usually rushed up, but was knocked to the ground by Qin Batian's anger. Zhao Feng was so angry that she threatened to return to her family.

Qin Batian said directly: "If you go back, don't come back."

While making Zhao Feng dumbfounded, he cried miserably, saying that the Qin family only recognizes Qin Chen and does not regard his son Qin Feng as Qin's family.

Everyone who saw it was agitated.

But his words made Qin Batian even more angry. If it weren't for Zhao Feng to make trouble, how could his grandson Qin Feng end up like this?

She was immediately furious and ordered her to be dragged out, not allowing her to go out.

After learning about this, Zhao Zhen hurriedly talked about love, but was rejected by Qin Batian lukewarm, and even more coldly said: "My old family, you should worry about yourself. This time you come to the capital Make trouble, deal with my grandson, Zhao Gao may not decide how to deal with you, and he has to take care of my affairs here, forgive me not to stay."

Then everyone in the Zhao family was driven out of the Qin Mansion by the Qin family's disciples.

The Zhao family in Lingnan was also the top wealthy in the capital city anyway, with a high status and extraordinary status, but being so swept out by the Qin family, his heart became angry.

However, they didn't dare to deal with the Qin family in the past, and now they know that Qin Batian is a half-step Wuzong strong, how dare to go wild? Had to suffocate and leave.

"Your Majesty, what should we do now?"

And the same undercurrent surging is the Imperial Palace of the Great Qi State.

Compared to the Qin Family's bold and resolute actions, Zhao Gao was sitting on the throne at this time, with a depressed expression and regretful intestines.

Qin Chen had such a talent, Qin Yuechi's cultivation base was so high, and Qin Batian actually broke through to half a step Wuzong.

Every time he thinks of this, Zhao Gao feels depressed and about to vomit blood.

Knowing that things would be like this, killing him, it is impossible to give up Qin Chen.

Now the Qin family is dissatisfied with themselves, and even made Zhao Gao panic in his heart.

Yes, just panic.

For so many years, the reason why Zhao Gao suppressed the Qin family was because Qin Batian's feats were too prominent.

And now, with Qin Yuechi's cultivation base so high, Qin Batian also broke through half of the Wuzong, and possessed a heavy weapon.

Under the combination of the two, even if it is to subvert the power of his Great Qi State, it is not impossible.

"What to do? What else can I do now?"

Zhao Gaopo was a little flustered, his face gloomy.

"Your Majesty, I actually persuaded you long ago."

Xiao Zhan sighed aside.

To be honest, when Zhao Gao was about to give up Qin Chen, his heart was extremely disappointed.

"Are you blaming me?"

Turning his head, Zhao Gao looked fierce and furious.

"His Majesty?"

Xiao Zhan was taken aback, but he didn't expect that Zhao Gao would speak to himself like this.

Zhao Gao also realized his attitude and couldn't help sighing: "Xiao Zhan, don't blame me, I am really, a little upset, if it's the Qin family... hey."

After half a day, Zhao Gao still didn't say the word 'rebellion'.

"In fact, Your Majesty, there is absolutely no need to worry so much." Xiao Zhan shook his head.

Zhao Gao frowned: "What do you mean?"

"Your Majesty, if the Qin family is going to rebel, shouldn't it still wait until today?" Xiao Zhan sighed and directly picked up the subject.

Seeing Zhao Gao's puzzled expression, Xiao Zhan said: "Dingwu King Qin Batian, controlling the three armies has long been a matter of a day or two. It has been more than ten years, but if you look at his actions over the years, it is not only guarding. The border never returns to the royal capital, so as not to arouse your suspicion. At the same time, the Qin family's children will return to the royal capital, be dismissed from important positions in the army, serve as civil servants, and even be disarmed and returned to the fields. This has already shown his intentions."

"Who knows, did he pretend to me on purpose." Zhao Gao worried.

"Your Majesty feels that it is necessary for Qin Batian to do this? If the Qin family wanted to rebel, it would have started a few years ago, how can it wait until now."

Seeing Zhao Gao like this, Xiao Zhan was a little speechless, and couldn't help saying: "Your Majesty, Qin Yuechi's cultivation level cannot be achieved overnight. According to subordinates' estimates, she was at least ten years ago. With the strength not weaker than that of a minister, if the Qin family really wants to do it, then it will definitely do it."

"Your Majesty, think about it. Ten years ago, your Majesty, not long after you ascended the throne, had control over the central government, and it was definitely not stable. At that time, several princes were still young and could not control the overall situation. In the past, the Great Wei State repeatedly violated our borders, which led to repeated wars on the border."

"If the Qin family wants to rebel, the Qin family only needs to allow Qin Yuechi to sneak into the palace, and attack your majesty. When the time comes, your majesty will be blamed for the Great State of Wei. By then, your majesty will fall, and the princes will not be able to control the overall situation. The ultimate task of saving the country will be it will still fall into the hands of Qin Batian, who controls the three armies. When the Qin family reigns first and then pro-government, no one can stop it."

"But the Qin family didn't do this. Instead, after your majesty became the throne, you repeatedly gave power. In the entire Qin family, except for Qin Batian who also controlled the three armies, the other clansmen, also Qin Yuanxiong, sought positions in the court. People have all become common people. These things happened only after your majesty became the throne. Qin Batian will show you his thoughts again."

"All these years have passed. I have a great country, the weather is smooth, the people's aspirations, your majesty has great prestige in the army and in the hearts of the people, not to mention that several princes have also been successful, how can the Qin family rebel? Your Majesty What do you think?"

Xiao Zhan looked at Zhao Gao and sighed inwardly.

He was a fan of the authorities, and he could never see the situation clearly, otherwise, with Zhao Gao's ingenuity, it would be impossible to see it.

Hearing this, Zhao Gao fell into deep thought, and gradually his eyes cleared up.

Being able to serve as the lord of a country, Zhao Gao is naturally not a mediocre person. After thinking about it carefully, he naturally understood that what Xiao Zhan said was indeed very reasonable.

If the Qin family really wants to rebel, they don't need to cut off their hands and feet like this in these years and show it to themselves.

On the contrary, it was himself, who had always been afraid of Qin Batian's military power, and fell into the horns, drilling tighter and tighter.

Chapter 332

"Xiao Zhan, why didn't you tell me these words earlier."

Zhao Gao was depressed. If he had figured out this earlier, he wouldn't have made it so.

"Your Majesty, it's not that I didn't want to tell you earlier. Before I was the minister, I didn't want to understand. In the past, the minister just thought that Qin Batian did not have a rebellious heart, but he was not sure enough. But this time I learned about Qin Yuechi. Only after his cultivation base was he truly affirmed."

Xiao Zhan explained.

"Right."

Zhao Gao nodded, if it hadn't been for this time that Qin Yuechi showed a cultivation level against the sky, he wouldn't be so panicked, and things wouldn't be so smooth.

"Then what should I do now?" Zhao Gao said anxiously.

"Your Majesty, your wisdom rests on your ministers. Your Majesty should be very clear about what to do."

Xiao Zhan did not answer Zhao Gao's words, but said with a smile.

Zhao Gao was taken aback, and immediately patted his head, "I am confused."

He untied his heart knot, and his mood immediately improved.

"In this way, you send me an order to reward Mr. Qin Batian. This time, we will solve the crisis of the ghost and immortal faction and the great Wei state. We have done many things to allow him to enter and leave the royal capital freely. There is no need to pass my order. Second, that Qin The family Qin Yuanzhi seems to have a good relationship with Qin Chen, and he gave him the title of honor, and the official worshiped Zhong Sima. As for the Lingnan Zhao family, dare to attack Qin Chen, it is a heinous crime, and I must be punished severely."

"The most important thing is the mother and son Qin Chen, who rewarded a mansion with countless treasures of all kinds. If you go to help this matter, you must let the Qin family see my sincerity."

"By the way, doesn't Qin Chen have a good relationship with Xun'er and Wei'er? Let the two of them also come to condolences."

"Also called King Kang together. I heard that the relationship between King Kang and the Qin family is very close. It should be easier with him."

I have to say that Zhao Gao is indeed quite courageous, and after thinking about it, he immediately issued a series of orders.

"I don't know if the Qin family will forgive me for this mistake."

Having said this, Zhao Gao couldn't help but shook his head depressed.

When Zhao Gao's reward came to Qin Family and Qin Chen, the whole king was shocked.

Especially those many people and powerful people who saw Qin Batian coldly scolding Zhao Gao, were even more dumbfounded.

Unexpectedly, instead of getting punished, the Qin family received a great reward.

And the magnitude of this reward is simply unprecedented.

But think about it carefully.

Everyone understood.

This time, the Qin family has made great achievements in repelling the masters of the Guixian faction, and even if the Qin family is so powerful, even if Zhao Gao wants to punish, he probably does not know how to punish.

Qin Chen didn't respond to these rewards.

At this time, he was having a headache how to clear the curse power in his body.

After these days, Qin Chen had a certain understanding of the characteristics of the "Hundred Ghosts Curse".

After being cursed by a hundred ghosts, Qin Chen's cultivation has stagnated to a certain extent.

And his spirit and energy are also in constant consumption.

of course.

Qin Chen also had a forbidden area cursed by a hundred ghosts, which was difficult to erode.

The first one is the Soul Sea.

The soul power formed by the gathering of souls does not have much effect on the Hundred Ghosts Curse, but it can cut off the erosion of the Hundred Ghosts Curse and stick to one side.

In fact, Qin Chen quite hoped that the Curse of Hundred Ghosts could invade the Soul Sea, so that he could observe whether the mysterious ancient book would appear and eliminate it.

It is a pity that this cursing force cannot even invade the soul sea, and naturally it cannot trigger the reaction of the mysterious ancient book.

The second is the source of blood.

At the core of Qin Chen's body, the Curse of Hundred Ghosts cannot be corroded either. Once it gets closer, it will be wiped out.

The last one is Qihai.

Although the Qi of the Nine Star God Emperor Jue cannot get rid of the Hundred Ghosts Curse, the power of the Hundred Ghosts Curse cannot penetrate into the sea of Qi, so although Qin Chen's cultivation has stagnated to a certain extent, it has been gradually improving. .

It can be said.

These are the three main restricted areas on Qin Chen.

In addition, Qin Chen cannot avoid every part of his body, even if it is the Immortal Eucharist, it's just that it has stronger resistance.

There is no way to go on like this. In the past few days, Qin Chen has been looking for a solution while accepting Qin Yuechi's instructions.

The key point is to find special monster fire, earth fire and sacred items.

In the end, from Dongfang Qing and the others, Qin Chen learned of a place-Wucheng!

Wucheng is a large city on the border of the five northwestern countries.

The five northwestern countries have very different relations with each other. Some countries are more friendly, while others are more tense.

For the trade between the parties, Wucheng was born.

For hundreds of years, Wucheng has served as a trading center for the warriors of the five northwestern countries, and has the largest auction house in the entire five northwestern countries.

It can be said that the most rare treasures of the entire five northwestern countries, in addition to being cherished by major forces, will eventually flow to Wucheng for trading.

It is said that as early as a few years ago, some special demon fires were auctioned in Wucheng, which caused a sensation.

"It seems that I have figured out a way to visit Wucheng."

Qin Chen frowned.

There will be more than half a month before the final competition of the Five Nations Grand Tournament.

However, the ancient southern capital is located in the center of the five northwestern countries, not very far from Wucheng, but on the way.

And two days later, Qin Yuechi finally left.

Although she didn't want to leave at this time in her heart, Qin Yuechi understood that the child was like a young eagle, who would never spread his wings and soar for nine days without experiencing wind and rain.

One day, he will leave alone to find his own world.

Although Qin Yuechi was heartbroken, he also understood that this was the best choice.

Moreover, for so many years, she has always guarded the Great Qi State for Qin Chen, guarding for more than ten years.

She didn't feel much before.

But after knowing that his son is no longer mediocre, a heart has long been released outside.

Seeing Qin Yuechi's departure, Qin Batian and the others were reluctant, but they all understood.

And the day after Qin Yuechi left, after Qin Chen left a letter, he also left the Great Qi State alone to go to the remote Wucheng.

Hundreds of miles outside the capital of King Daqi, there is a stretch of mountains.

Sunset over the mountains.

It is vast and boundless, covered with countless tall trees and vegetation, coupled with the rampant blood beasts, it is difficult to walk without strength.

And here is also the favorite adventure place for the warriors of the Great Qi State.

"Huh!"

In the depths of the sunset mountain range, where the warriors were most frightened, a figure passed by like lightning and landed on a big tree not far away.

This person is wearing a mysterious robe, looks handsome, it is Qin Chen.

"This is already deeper in the sunset mountains, and there should be birds and blood beasts!"

Looking around, there was a look of expectation on the boy's face.

Chapter 333

Wucheng is located in the central area of the five northwestern countries, very far away from Daqi.

To get there, the ordinary horse-drawn carriage would take too long, and it would not be possible to get there after a few months.

Even riding the Feilin blood pupil, it will take at least ten and a half days. At that time, the retests of the Five Nations Tournament have all started, and there is no time to catch up.

Therefore, Qin Chen thought of riding a bird and blood beast.

Flying birds and blood beasts are extremely fast, 10,000 miles a day, and relaxed, the most important thing is to fly over some mountains and rivers without detours, which can greatly reduce time.

The Sunset Mountain Range is the closest place to the royal capital where you can find the Flying Birds and Blood Beasts.

At the beginning, the blood-clawed blue eagle that Yuan Fengshou conquered was found in this sunset mountain range.

However, because it was the first time to enter the Sunset Mountain Range, Qin Chen didn't know where to find a faster bird and blood beast, so he swept all the way to the depths of the Sunset Mountain Range.

"Swish!"

Like this primitive jungle, with ancient trees towering to the sky, ordinary warriors would come in for the first time. If there were no guides, they would definitely get lost immediately, be completely trapped in it, and unable to leave.

However, although Qin Chen came here for the first time, he was very comfortable, as if walking in the back garden of his home, relaxed and free.

About half a day later, Qin Chen had already arrived at the core of the Sunset Mountain Range.

From here, most of the blood beasts that haunt are Tier 2 blood beasts, and even Tier 3 blood beasts will occasionally haunt them, which is extremely dangerous.

Those powerful adventure groups will be cautious even if they come here.

"Here, it should be almost done. Now, look for it seriously."

Qin Chen felt the blood beast breath that occasionally appeared around him, and couldn't help nodding.

Along the way, Qin Chen had also seen some flying birds and blood beasts, but they didn't take any action.

In fact, although there are many birds and blood beasts in the sunset mountains, it is not easy to find one that can carry people and has sufficient foot strength.

Some birds are fast, but they cannot travel long distances and lack endurance.

Some blood beasts have good speed and endurance, but they are too small and will become difficult once they are carried.

There are also blood beasts whose flying altitude is too low, and it is easy to provoke natural enemies.

Therefore, any bird and blood beast is very cherished, and it is by no means ordinary that can be conquered.

"Huh!"

In the mountains and forests, walking at will, Qin Chen is not in a hurry, and enjoys traveling.

Along the way, he also met a lot of adventurers, seeing Qin Chen only one person, he was curious.

"This little brother, here is the depths of the sunset mountains, and it is dangerous. Anyway, our team is not very large. Why don't we count you as one. If there is something to be gained, how about everyone's share?"

Along the way, I met a team, and several of the warriors flashed their eyes and moved closer.

Qin Chen didn't mean to stop, and said lightly: "Sorry, there is still something going on."

"What can be more important than life? Little brother, you should be the first time you have experienced it. It is easy for a person to come to a place as deep as the sunset mountain range. It is very easy to happen. It is different from us. With our strength, hunting The blood beasts at the later stage of the earth level are not a problem. You can experience and share the benefits, and your life is not in danger, so why not do it."

The headed warrior was thin, with a scar on his face, and was still very enthusiastic.

Qin Chen sneered: "Sorry, I'm not interested, I'm leaving."

Having said that, without looking back, his steps quickened, and he swept into the forest and disappeared among the big trees.

"Huh, this kid is very shrewd. It doesn't seem to be a first-time experience. He actually disagrees." The leading Scarlet man has an ugly face and cold eyes.

"Big brother, what did you do with so much talk with him just now? In my opinion, it's better to do it directly and get rid of him. He is so young and seems to be a disciple of some big family. Such people are often not worthy. Fei, one vote is enough for us to stay away for a long time."

"Yeah, maybe he still has many high-level martial arts cheats, enough to improve our strength."

The leading Scarlet man scolded: "What do you know, that kid has sharp eyes, a terrifying breath, and he is so old-fashioned. He is definitely not a good crop. Be careful not to capsize in the ditch."

Everyone was puzzled, and said: "Brother, you think too much, a teenager, too young, what is there to be afraid of?"

"Because he is too young, so you should pay more attention. You don't want to think that the other party is so young that he dared to enter the depths of the sunset mountains without a doorway. Do you have this courage? What's more, if this person comes from a large Power must be the key genius cultivated by the other party. If this kind of person enters the dangerous sunset mountains, will the other party's power be unprepared?"

"You mean, there are strong men secretly protecting him?"

Everyone was shocked.

"It's not possible to rule out this possibility." Scar man warned, "We can lick blood on the tip of the knife, and we can do anything, but we can't provoke people who shouldn't be offended. If we don't have full confidence, we would rather miss it than do it, Qian Don't joke about your life."

"It makes sense, he deserves to be a big brother, and thoughtful."

"Okay, don't flatter, let's go."

Several people adjusted their directions and proceeded in another direction.

In the distance, Qin Chen sneered in his heart.

The most dangerous thing in the mountain forest is not the vicious blood beast, but the black warrior.

This group of people must regard him as the kind of warrior who doesn't know the heights of the sky and wants to come out and make a break. Once they are in the same team, the other party will find ways to understand their own strength, and then in a hidden place, they will reveal their robber's true colors and kill people for money.

Qin Chen's experience of this kind of thing is much more sophisticated than them. If it weren't for the time, he might get interested and would play with them.

Now, forget it, not that time.

Next, Qin Chen continued to move forward, and found a few more flying birds and blood beasts, but from a distance, it was either no chance or dissatisfaction.

"Hey, there is a cliff in front. This is a good place."

Suddenly, Qin Chen's eyes lit up.

I saw a very high rock wall in the distance, with branches growing and very steep.

There are many birds and blood beasts who like to live on such cliffs, and they are bound to find the blood beasts they are satisfied with.

"go!"

The figure flickered and swept forward.

After a while, Qin Chen had already approached the cliff, and as expected, he found a huge nest on the extremely high part of the cliff.

"It should be the nest of some kind of eagle blood beast."

Just as Qin Chen was about to continue forward, he suddenly heard a squeaky voice from the front.

Looking up, there were several figures in front of them, carrying weapons, as if patrolling nearby.

The cultivation bases of these people are all in the late prefecture level, and their clothing is unified, and they should be from the same family or force.

"who?"

Qin Chen didn't deliberately hide his figure. When he saw the other party, the other party also found him, and immediately uttered a loud shout and surrounded him.

Chapter 334 Iron Feather Eagle

These people, with alert eyes, each holding weapons, came to Qin Chen one after another, surrounded him.

"very young."

Seeing Qin Chen's age, several people were obviously taken aback, but the vigilance in their eyes did not disappear.

"Who is your excellency?"

The leading warrior gave a low voice and asked.

"I'm just a passer-by, passing here by accident, and I have nothing to do with you." Qin Chen said.

It can be seen that this is a group of warriors who have experienced in the sunset mountains.

"Passerby?"

Several people frowned and looked at each other, all with some doubts.

"Don't worry, I have nothing to do with you. If there is nothing wrong, I will leave."

Shaking his hand, Qin Chen continued to walk forward.

"Stop, you can't go ahead!"

After only two steps, the expressions of these people changed drastically. Well, the weapons in their hands shot at the same time, pointing at Qin Chen, blocking Qin Chen's path.

"Can't go, is this your failure?" Qin Chen's expression sank.

When encountering a warrior in such a place, it is normal to be wary of each other. It is no big deal, and he can understand it.

But the other party wouldn't let him go forward, that would be too much.

The sunset mountains are not someone's private property. Anyone who wants to go will naturally go whatever they want. No one has the right to stop it.

What's more, the rock wall is in the front. If you don't move forward, can it be impossible to retreat?

I glanced over these few people, this group of people, the cultivation base is only in the later stage of the prefecture level, if you really want to make trouble, don't mind making a move, and teach them a lesson.

However, before he had time to say anything, he heard a cold drink.

"Whatever you do, stop me."

From the mountains and forests ahead, a few people came out again. Among them, the leader turned out to be a woman in her early twenties. She was quite good in length, and she had the demeanor of everyone.

Beside her, following an old man, wearing a gray robe, with extraordinary bearing, a pair of eyes opened and closed, with a gleaming light, it should be a heavenly cultivation base, and not weak.

It was this gray-robed old man who scolded just now.

"Miss, don't worry."

Seeing the visitors, these warriors put away their weapons and saluted one after another.

"what happened?"

Glancing lightly at several warriors, the young lady and the old man both looked at Qin Chen, their eyes flashed with astonishment, and they were obviously surprised at Qin Chen's age.

"Miss, Mr. Hu, when we patrolled here, we found this person sneaking up here. We told him that he couldn't go ahead, but he had to go, so..."

sneaking?

Qin Chen was speechless, he was so upright, the other party had to say it was sneaky.

Can't help but sneer.

I really want to be sneaky, these guys probably don't even have a chance to find themselves.

"Oh?"

The old man didn't say anything when he heard it. He handed over to Qin Chen and said, "You don't mind, we have no malice, we don't lie to each other. We are members of the Liu Family in Wenyun City and we are busy with important things here. If you don't mind, you Is it possible to take a detour? Here I thanked him first."

Wenyun City is a big city near the capital. The overall strength is not weak, with many influences and families.

"Sorry, I have important things to go ahead, so it is not convenient to detour."

The other party was polite, but Qin Chen was not aggressive either.

"Is something important? The front is a cliff, and it's still in the territory of the sky-level blood beast Iron Feather Eagle. There is no way to go. What important things you can do in the past is obviously because of ulterior motives."

Among the previous few people, one snorted coldly.

Qin Chen was startled, and then he realized why the other party was so hostile. From the other party's point of view, there was a cliff ahead and there was no way at all. He had to move forward, obviously because of ulterior motives.

But after a little startled, it was ecstasy again.

Iron Feather Eagle, I didn't expect that the nest was actually the Iron Feather Eagle's nest. Now the birds have fallen.

The iron feather eagle belongs to the sky-level blood beast. It not only has amazing strength, but also has extremely fast flight speed and excellent endurance. It can be said that it is a rare bird and blood beast among the sky-level blood beasts. It is faster than Yuanfeng. The bloodclaw blue eagle that the master conquered must be stronger.

"Since it is the territory of Tie Yuying, then I must go even more." Qin Chen said.

"Don't tell me, your kid wants to pay attention to Iron Yuying, right?"

Several people looked at Qin Chen with disdain.

What are you kidding about, Iron Feather Eagle is the background, it's a sky-level blood beast, and among the sky-level blood beasts, they are not weak.

For the warriors who enter the sunset mountains, the last thing they don't want to provoke is the blood beasts, because these blood beasts, once they can't beat them, can run away, they can't kill the opponent at all, and they can stare at themselves. Repeated attacks.

"Yes."

Who knows Qin Chen nodded unexpectedly.

"Miss, Hu Guanshi, did you see that, the other party clearly did this deliberately, as a young man, he actually said that he came for the iron feather eagle. Isn't this nonsense?"

The faces of several people became even more unhappy, showing murderous aura.

They are active in the vicinity all year round, and they are very familiar with Iron Feather Eagle.

Even a Xuan-level martial artist did not dare to deal with it easily. It was just this kid who said that he wanted to fight the iron feather eagle. It was obviously nonsense and had ulterior motives.

At this time, even the old man frowned and looked at Qin Chen deeply.

For a time, the atmosphere on the court became stagnant.

"Forget it, since the other party insists on going forward, we don't have the right to stop him, let him go."

Who knows that woman, suddenly waved her hand.

"Miss."

Several people suddenly became anxious.

"The Sunset Mountain Range is not our Liu family, and we don't have any right to stop anyone and let them go." The woman said coldly.

The woman looked like everybody was pretty, but she was vigorous and vigorous, and she was on her own. With that said, the other warriors suddenly stopped talking, but looked at Qin Chen with enthusiasm.

Qin Chen nodded and walked through the crowd.

"Miss!" the old man reminded from the side.

"Old Hu, we don't have a way to stop others, and I don't think this person looks like a bad person. Just stare at it." The woman said.

"That's OK."

The old man nodded, and a group of people followed Qin Chen with their eyes fixed on him.

After walking for a while, there was a strong medicinal fragrance in front of him. When he turned his head, he saw a clearing in the forest in front of him. There was a medicinal garden. Many warriors dressed in the same costumes as those before, guarded the surroundings.

In the pharmacy, there are also several figures dressed as pharmacists who are carefully collecting medicinal materials.

"It turns out that a medicine garden was found here, so I was not allowed in."

Qin Chen suddenly.

The warrior ventures in the mountains, and he is most afraid of revealing his wealth. In such a large medicinal garden, most of the medicinal materials in it are only second-order, but there are also some third-order herbal medicines. When converted, they are worth at least one hundred thousand silver coins. No wonder they will be so nervous.

Chapter 335 Zoysia Grass

"what!"

Suddenly, Qin Chen seemed to see something, and then he stepped towards the medicine field.

"What do you want to do?"

Several screams rang out, and the previous warriors rushed up towards Qin Chen one by one, with sharp eyes and angry expressions, and they almost didn't do anything directly.

That young lady and Hu Guanshi also even walked up.

Even the several pharmacists inside were alarmed and raised their heads.

"Miss, Mr. Hu, I just said that this kid is uneasy and kind, he said nicely, just borrowed it, and now you have all seen it, it is clearly coveting our medicine garden, in my opinion, it is better to take this kid down and torture him. , I suspect that besides him, there should be his associates nearby."

The warrior who had a very poor attitude towards Qin Chen before yelled and yelled.

"Don't talk nonsense."

The woman scolded, then stepped forward, looked at Qin Chen, and said, "Your Excellency, what are you..."

"That's Zoysia, I just want to buy some Zoysia."

Qin Chen pointed to the medicine field ahead.

"Your Excellency is also a pharmacist?"

The woman was taken aback.

Zoysiagrass is a very rare and rare medicinal material. The grade is only the first level. It has no value in the market. Even their families who deal in medicinal materials all year round may not know it, Qin Chen said suddenly She was surprised when she came out.

"The pharmacist didn't dare to be, but just happened to know him."

"A coincidence, how come I don't know such a coincidental thing?"

The warrior snorted coldly again, his eyes were very unfriendly.

"Tong San, shut up for me, if you talk again, you won't blame me for being impolite."

The girl's face sank, and she glanced at the warrior unhappy.

"Miss, I..."

Tong San opened his mouth, still wanting to say something, but seeing the woman's displeased expression, he closed his mouth and stared at Qin Chen viciously.

When the woman waved her hand, immediately, a pharmacist gave a handful of Zoysiagrass, "Since the son needs it, please take it."

"Thanks, here are one hundred silver coins, which counts as the purchase cost of Zoysiagrass."

Qin Chen took out one hundred silver coins.

"No, the son is too polite, this bit of Zoysia is not worth much." The woman waved her hand.

Anyway, Zoysiagrass is worthless. If you take it back, no one will buy it. If the other party wants it, give him some, so what?

He took out a hundred silver coins and threw them to the other party, Qin Chen turned and left regardless of whether the other party could pick it up or not.

"Miss, talk nonsense with him, look at him pretending to be a fool, not like a good person."

The warrior stepped forward at this time and snorted coldly.

"Tong San, it's not that I said you, I will be so reckless in the future, don't blame me for being polite."
The woman snorted coldly.

"Miss, I also think this person is a bit weird. Although Zoysiagrass is a medicinal material, it is useless. What does this person buy back?" Hu Guanshi frowned at this time.

"Look at it."

When everyone looked at it from a distance, they saw Qin Chen, who came to the nest under the cliff with a few steps, and looked up at something.

"This kid, won't you really come to see Tie Yuying?"

Several people were stunned.

I also felt a little unbelievable, how terrifying the Iron Feather Eagle was. With one claw down, this kid would probably be torn into pieces of meat.

"Don't worry about him, we will continue to collect medicinal materials, and instruct the people below to speed up the collection, and leave as soon as possible after the collection is completed."

The woman frowned. Although she didn't know what Qin Chen was doing, it was not a bad thing to leave as soon as possible.

"Yes."

Soon, the pharmacists below accelerated the collection speed.

"Miss, what the **** is that kid doing?"

Suddenly, the guard warrior whispered again.

Everyone looked up and saw Qin Chen throwing things around, because it was so far apart that it was not clear.

"It looks like a real stone!"

Only that Hu Guanshi, with the highest cultivation base, could not help but frown as he saw something.

"True Stone? Hu Guanshi, you are not mistaken, right?"

Those guards stared.

What a joke, real stone is a rare product in the Great Qi Kingdom. Even the worst real stone of low grade costs one hundred thousand silver coins. Moreover, this is only a superficial market price.

The kid earlier threw out a dozen or so, didn't he throw out millions?

Their Liu family can be regarded as a big family in Wenyun City, and their annual profit is only three to five million silver coins.

If you just throw away the profits of the Liu family for several years, it is impossible to believe who you are.

"It's also possible, I was wrong."

That Hu Guanshi was also a little uncertain.

"Hey, that kid, what are you burning?"

After throwing out more than ten white stones, Qin Chen squatted there again, burning something up.

A scent and strange smell floated over.

"It's like Zoysiagrass!"

"This guy bought such a pile of Zoysia for a hundred silver coins to burn?"

"This guy is crazy."

Everyone was dumbfounded, and they were going crazy.

They couldn't understand anything Qin Chen did.

While thinking about it, I heard a sharp chirping above my head.

Then I saw a huge shadow, covering the sky, and pounced downward.

Seeing the dark shadow above his head, everyone in the Liu family was stunned, each with a dull expression, almost stunned.

I saw the black shadow, which was several meters long, high above the sky, and every feather was shiny, like steel, with its wings spread out, like two swords, majestic and majestic.

Before landing, it gave people a huge sense of oppression.

Not Iron Feather Eagle or something?

"How come, at this time, when the Iron Feather Eagle is out hunting, how come back suddenly?"

"It's over. If Tie Yuying finds us, we will all die here."

"Hidden, hide quickly."

Everyone was almost frightened. They hid behind the rocks and bushes, their bodies trembling, and they looked up at the sky, not daring to breathe.

They are active here all year round, and the strength of the Iron Feather Eagle cannot be better understood. This kind of blood beast is really going to go crazy. There are so many of them, they can't stop it, and they are absolutely dead and injured.

It's just that they have been observing here for many days, knowing that this time, when the iron feathered eagle was out hunting, there was not an hour in the past and would not come back. Why did you come back so soon today?

Isn't it the boy who made the ghost?

While thinking about it, I saw the iron feather eagle, really rushing down towards the boy under the cliff.

As the iron feather eagle gets closer, the people feel more and more violent for the oppression on it.

The hideous eyes, streamlined body, and amazing power are all of the heavenly ranks. In a real battle, I am afraid that three or five warriors of the same rank are not opponents.

call out!

The speed of Tie Yuying was so fast, it flew down in the blink of an eye, it seemed to be angered, and the sharp claws directly tore Qin Chen's body under the violent roar.

"It's over."

Everyone closed their eyes, they knew that the young man was bound to die.

Chapter 336

call!

In the sky, a violent gust of wind howled, like a tenth-level wind.

Tie Yuying's double claws were extremely large, like a big net, firmly blocking Qin Chen and grabbing it sharply.

Guanshi Hu and others, who have been adventuring around here all year round, naturally know the terrible iron feather eagle. With this claw, even the warrior at the peak of the late stage of the sky may not be able to escape. The boy in front of him is only 16 or 7 years old. Not to mention, absolutely will fall with one claw.

Just when everyone thought that Qin Chen would definitely die.

suddenly.....

Huh!

The boy on the opposite side suddenly made a strange movement, and in a flash, he was able to avoid the attack of Iron Feather Eagle.

"what?"

"Did you avoid it?"

The crowd exclaimed, one by one dumbfounded.

With such a fierce attack, and under the pressure of the terrifying aura of Iron Feather Eagle, it would be difficult for them to move even once. The other party escaped so easily?

Missing a blow, the rock below exploded, as if an earthquake had occurred.

Tie Yuying was also angry. He didn't expect such a small thing to dodge his own attack. With an angry roar, his wings spread out like a sharp blade and swept towards Qin Chen.

"Wow!"

The two-meter-long wings cut through the void, and the air suddenly became like water, splitting a long ripple. The dark iron feathers glowed like a sharp blade under the sun, full of fierceness. breath.

"It's over."

"Hey, even if you can escape it once, the iron feather eagle and the different blood beasts are amazing in strength. If this is the case, they are not still going to die."

The Liu Family Herbalist Team couldn't help shaking their heads one after another, showing pity one by one.

Unfortunately, before they had time to sigh, they saw Qin Chen on the opposite side and suddenly grinned.

Flop!

All of them fell down, and their eyes fell all over the place.

This guy, his brain is so stupid, it's time, he didn't know how to run, and he was still smiling.

What a laugh at your sister!

You think you are a beautiful woman. With such a smile, Tie Yuying's heart is rippling with your smile, won't you kill you? Your mind is flooded.

At first sight, Qin Chen was about to die under the wings of Tie Feather Eagle.

Buzzing!

At this moment, countless white lights suddenly lit up around Qin Chen. These white lights were like vines, quickly winding towards the iron feather eagle.

"Tweet!"

The iron feather eagle was shocked and hurriedly wanted to rise to the sky, but it was too late, countless white lights criss-crossed, and instantly bound the iron feather eagle firmly in place.

"Pump!"

The iron-feathered eagle, which had previously been flaunting its might and might, fell to the ground one end, **** like rice dumplings.

"What is this?"

"what happened?"

"Why is the Iron Feather Eagle tied up?"

Everyone was dumbfounded and shocked, so that their mouths almost couldn't close.

The young man before, who was about to fall, was beheaded by Iron Feather Eagle, how suddenly, the young man was fine, but the Iron Feather Eagle was tied up, shocking everyone's eyes.

"It's the formation."

Suddenly, Guanshi Hu narrowed his eyes and said in a deep voice.

Formation?

Everyone was stunned, and immediately came back to their senses.

Indeed, this white light contains strong waves of true power. It is not a formation, or something?

It's just that there was nothing before, and the young man threw more than a dozen white stones at random, forming a formation that could restrain even iron feathered eagles. How terrible was this?

You know, the Iron Feather Eagle is a third-order heavenly blood beast, and it can restrain it, at least with a third-order or higher formation.

"hiss!"

Can't help it, one after another took a breath.

Arbitrarily arrange this formation above the third rank, what is the origin of this young man?

On the opposite side, Qin Chen naturally didn't know the shock of these people, and even if he knew it, he wouldn't care about it.

"Finally bound the Iron Feather Eagle."

After tidying up his clothes, Qin Chen looked at the Tie Yuying in front of him in time.

The most troublesome thing about bird blood beasts is that they can fly. Once they are not opponents, they can easily escape. This is why many warriors dare not provoke them.

In order to catch this iron feather eagle, Qin Chen specially refined a trapped beast formation. This formation was specially used by beast trainers to restrain blood beasts, and the effect was amazing.

At the same time, in order to attract the arrival of Iron Feather Eagle, Qin Chen also ignited Zoysia.

Zoysiagrass contains a special kind of energy, which can help the wings of the iron feather eagle to evolve and become more rigid and metalized.

Therefore, Zoysia grass will exist near the residence of the iron feather eagle.

And the smell of Zoysiagrass is also iron feather eagle's favorite smell. Once it burns, it can quickly diffuse dozens of miles away, attracting iron feather eagles that go out hunting.

"Tsk, good, good."

Looking at the Tie Yuying in front of him, Qin Chen couldn't help but nod in satisfaction.

I saw this iron-feathered eagle with knotted muscles and shiny iron feathers. It should have just entered the young adult stage.

This type of iron feather eagle has the fastest flight speed and the longest endurance. It belongs to the strongest period and suits his requirements.

"Tweeted!"

Bounded by countless arrays of white light beams, the Iron Feather Eagle screamed in anger, his wings waved continuously, and the violent wind blew the surrounding sand and rocks. A tyrannical breath continued to strike Qin Chen.

From a distance, the members of the Liu Family Medicine Collection Team kept watching.

At this moment, they had long believed that Qin Chen had come here for Tie Yuying. They were just curious, what was the purpose of the other party for restraining Tie Yuying?

If you are so prepared, surely it won't be a target. Could it be the opponent's bloodline, which has similar attributes to the iron feathered eagle, so you want to hunt for its blood crystals and raise the level of your bloodline?

Well, it is very possible.

Everyone was guessing Qin Chen's purpose in searching for Tie Feather Eagle, when they heard the young man opposite, the frivolous voice faintly sounded.

"Little eagle, you should stop struggling. This is a trapped beast formation that deals specifically with blood beasts. No matter how hard you struggle, you can't escape. It's better to save energy."

Upon hearing this, everyone's body shook.

Is this kid brain-dead?

Since it was hunting the Iron Feather Eagle, it would be fine to take this opportunity to directly kill it. You are still talking nonsense, and you are not afraid of the Iron Feather Eagle breaking through the formation and killing you.

Sure enough, Tie Yuying struggled even more violently when he heard the boy's words. With that terrifying and violent aura, even if they stood so far away, they felt that they could not breathe well.

"Don't get excited, in fact, this time I came here, not to kill you, but to go to a place, the journey is far away, just let you send me a ride!"

Qin Chen was not rushed or impatient, and spoke again.

"what?"

Guanshi Hu and others almost fainted.

After doing it for a long time, dare you to tame this iron-feathered eagle, it's just that your tame method is a bit weird.

Several people looked at each other, each of them looked like an idiot.

Chapter 337 Beast Tamer

Although they are not animal trainers, they are also from a big family in Wenyun City, and they have some knowledge of animal training methods.

Generally, animal trainers have two ways to tame a blood beast.

The first is to cultivate cubs. After capturing the cubs of a blood beast, they are domesticated.

This kind of blood beasts have been with the trainer since they were young. Over time, the blood beast's fierceness will be wiped out, and they will gradually become dependent on the trainer, and finally become their pet.

The second is to use some emotions of the blood beast.

Such as temptation, suppression, gratitude, etc.

However, the premise of this method is to capture the blood beast, and only by capturing can various methods be adopted.

After all, blood beasts are also creatures, and they also have seven emotions and six desires.

Once it is afraid of you, or grateful to you, or wants to get any benefits from you, it will naturally obey you.

However, this method also takes a lot of time, and there are different methods for different blood beasts.

But it was the first time they heard of someone like Qin Chen who spoke directly to the blood beast.

Brother, do you treat this blood beast as a human?

Let it not get excited, let it take you, let it take you?

Are you funny?

But what everyone didn't expect was that Qin Chen's words fell, and the Iron Feather Eagle actually seemed to understand it, becoming a little calmer.

"By the way, don't worry, I won't hurt you, as long as you take me there, you will be indispensable."

Qin Chen spoke again.

Flop!

Can't help it anymore, a group of people all fell to the ground.

"Indispensable for your benefits?"

Why is this not like a tame animal, but like a weird bird, deceiving a child?

Are you so useful?

"Your Excellency, you can't tame the Iron Feather Eagle..."

Can't help it, the girl walked out from behind the bush and said silently.

Just before she finished speaking, I saw Tie Yuying let out a long cry, and Qin Chen suddenly laughed: "If you are like this, I will assume you have agreed."

Then he raised his hand, sigh, sigh, the more than a dozen real stones that he had thrown around before, all came home like a swallow, and fell into his hand.

Lost the control of the formation, the white light disappeared in an instant, and the iron feather eagle completely broke free from the restraint.

"Miss, it's dangerous."

With a low cry, Guan Shi's complexion changed drastically, and he hurriedly pulled the girl back.

Then he looked at Qin Chen in horror and almost fainted.

Is this kid an idiot? This is the Iron Feather Eagle, one of the most brutal birds and blood beasts in the Sunset Mountains. If you say a few words to it, you will remove the formation. Really treat it as a three-year-old child, you can fool it at will?

It's over, it's over!

Before so easily restraining the Iron Feather Eagle, he thought it was a great character, but now it looks like an idiot.

This kind of IQ going out will definitely be killed every minute.

"Miss, after the Iron Feather Eagle kills that kid, you will definitely find us. Then you will run out of the Sunset Mountains as soon as possible. I will try my best to delay the Iron Feather Eagle and buy you time."

His face was tense, Hu Guanshi's lips trembled.

Once Tie Yuying got angry, he really had no bottom and could stop the opponent.

The other guards also turned pale, and their legs felt weak.

It was just that he had just finished speaking, when he saw the young lady of the Liu family, her eyes widened suddenly, she looked forward like a ghost, her eyes shone with astonishment.

"Miss, did you hear that, miss...huh?"

Seeing this expression, Guan Shi couldn't help being curious, and turned his head to look.

Suddenly, his eyes were almost falling to the ground.

Seeing that after the formation was withdrawn, the Iron Feather Eagle did not strike at the young man, but came to Qin Chen, bowed his head slightly, and lay down on the ground as if kneeling, his eyes showed expectation. color.

"This is... bending down to submit? Is this iron feather eagle really surrendering him?"

Although he is not an animal trainer, Hu Guanshi has seen other animal trainers tame animals.

Under normal circumstances, the blood beast bends down and kneels, which means that it is completely surrendered to the opponent, and wants to become the opponent's animal pet.

I just felt depressed in my chest and almost vomited blood.

What's all this, the boy just now didn't do anything, just say a few words casually, Tie Yuying actually surrendered?

And it is so natural to surrender.

Brother, you are Iron Feather Eagle, a heavenly blood beast, isn't it always cruel?

How come you surrender so quickly, not even a pug?

Guan Shi just felt dizzy from time to time, and his brain was not enough.

In fact, they didn't even know that Qin Chen used a very clever beast-taming method when talking to Tie Yuying.

The name is-'God's Word Controls Beast Art!'

This is an extremely terrifying beast taming secret technique, an ordinary beast taming technique in the supermarket.

The verbal notification is merely an expression of an effect, allowing the blood beast to understand its attitude from the tone and expression. The real confrontation is actually between the spirits of both parties.

Every time Qin Chen spoke, Qin Chen would release powerful mental power to control Iron Feather Eagle.

This kind of control is subtle and extremely clever.

When Qin Chen's spiritual power was not strong, he was able to communicate with the Bloodclaw Blue Eagle and attack Zhang Yi. Now his spiritual power has increased several times, and his soul power has reached the soul gathering form. At this point, controlling an iron feather eagle couldn't be easier.

Huh!

With a shock, Qin Chen instantly landed on Tie Yuying's back.

"set off!"

An invisible mental power fell into Tie Yuying's mind. Tie Yuying received the instruction and slapped his wings, and instantly rose into the sky. The fierce wind blew the surrounding mountains and forests and turned into soybeans in the blink of an eye. The size, disappearing into the sky.

"This this....."

Not far away, Guanshi Hu and others were all stunned, one by one, their jaws dropped, unbelievable.

"Miss, this... is this true? The kid flew away after taming the iron feather eagle?"

"I'm not dreaming, please hit me quickly and see if I am dreaming."

"This is so amazing."

Looking at each other, everyone was going crazy.

Even if I saw it with my own eyes, I felt incredible.

It is said that the animal trainer is one of the most difficult types among countless occupations. How can it be so easy now?

Just say a few words, you will completely surrender, is it true or not?

Shocked, I saw my young lady, staring blankly at the place where the other party had left, her eyes filled with regret and admiration.

"Just now, if you could get acquainted with each other, it would be great."

In full view, the girl sighed faintly.

Guanshi Hu's face blushed, and as for the bronze three, he was ashamed to wait to hide in the ground.

If it wasn't for them that they didn't believe in each other, they verbalized each other, and even almost started, maybe they would have known such an expert in the Liu family.

"Hey, don't think too much, this son is so terrible, it must be from an extraordinary origin. Although our Liu family is big, we are not on the same level as the other party after all."

Finally, Guanshi Hu sighed.

Everyone was silent, but they all agreed with it in their hearts.

Chapter 338 Three-Eyed Salamander

call!

Above the boundless sky, Qin Chen took the iron feather eagle and moved forward quickly.

On both sides, white clouds fluttered and the wind howled.

The huge body of the Iron Feather Eagle soared in the air, and the pressure of the sky level was released, and most of the flying beasts were afraid to come over.

Heaven-level blood beasts are already extremely terrifying blood beasts in places like the five northwestern countries.

On top of it, although there are still Profound-level blood beasts, their numbers are often very rare.

As for the clan-level blood beasts, it is said that with the exception of the Demon Ancestor Mountains, most of the mountains in the Northwestern Five Kingdoms are unlikely to appear.

Looking down at the endless wilderness below, Qin Chen sat on Tie Yuying's back, watching the surroundings while absorbing the true energy between heaven and earth.

The flying height of the Iron Feather Eagle is several thousand meters, and it belongs to the extremely high flying speed among the birds and blood beasts. This is why Qin Chen chose it.

If you ride on other Heavenly Blood Beasts, although the awe-inspiring power is still there, they will still be harassed by many other Flying Birds and Blood Beasts.

"The big river below is the Canglang River, after passing the Canglang River, it is the Xuanzhong Mountain Range, and Wucheng, on the plain outside the Xuanzhong Mountain Range, should be able to reach it in at most half a day."

Taking out the map, making gestures, Qin Chen smiled satisfied.

It took a total of two days from the sunset mountain range to approaching Wucheng. If you ride a horse, it will be impossible for two or three months.

This is the importance of flying birds and blood beasts.

While flying by, Qin Chen thought about how Wucheng should open up the situation.

Judging from the information obtained, Wucheng is a rather chaotic city.

After all, this place is not under the control of any force in the five countries. Many powerful people from the five northwestern countries gather here. Even the wanted criminals from some countries are hidden in Wucheng, although it is not lawless. Place, but secretly, there is a lot of chaos.

The purpose of Qin Chen's trip was to find something. In this case, it is often the easiest to directly contact a major force in Wucheng.

But the problem is that Qin Chen doesn't understand any of the forces in Wucheng, and it is not so easy to find a breakthrough.

"Enter Wucheng first, thinking of a way to have a general understanding of the forces of Wucheng, and finally find a way to find treasures."

After stroking his thoughts, Qin Chen could only decide on such a method at present.

Just thinking about it, Iron Feather Eagle had already passed the Canglang River and came to the sky above the Xuanzhong Mountain Range.

The entire mountain range stretches for thousands of kilometers, and the rocks on it seem to contain some kind of heavy metal substances. When viewed from above, the entire mountain range is black, giving people a heavy feeling.

Perhaps this is the origin of the name of the Xuanzhong Mountain Range.

The mountains are undulating, like a huge rock, embedded in the vast land.

After half a day, Qin Chen came to the other side of the Xuanzhong Mountain Range, a simple city, standing on the plain not far from the Xuanzhong Mountain Range, vicissitudes of life.

"This is Wucheng?"

It is said that Wucheng has a history of hundreds of years, even longer than the life span of many kingdoms in the northwest. From a distance, it does have an ancient feeling.

In terms of scale, the kings of Wucheng and Daqi are similar, or even slightly larger. After all, they are the largest trading centers in the center of the five northwestern countries.

"Leave the Iron Feather Eagle here at the outskirts of the Xuanzhong Mountain Range before entering Wucheng."

Wucheng is the trading center of the five northwestern countries, involving the interests of various countries, various conflict markets have erupted, and various battles are countless.

Iron Feather Eagle, at any rate, is also a Heavenly Blood Beast, with a huge body. Once it enters Wucheng, it will definitely become the object of everyone's attention.

In terms of strength, even though Qin Chen might not be afraid of even Xuan-level martial artists, he was not invincible after all.

Moreover, in a chaotic place where forces like Wucheng are intricate, it is better to keep a low profile.

"Snapped!"

With a shot of Iron Feather Eagle's head, Qin Chen issued a mental command, and Iron Feather Eagle immediately got the order and swept towards the profound mountain range below.

After falling down outside the Xuanzhong Mountain Range, Qin Chen ordered Tie Yuying not to run around, and then swept towards the Xuanzhong Mountain Range.

puff!

The sword light flashed, and a silver-white Wolf King was severed in two with a sword. After the corpse was separated, it rushed out dozens of meters away before falling heavily and blood flying across.

"Ah!"

Seeing that the wolf king was dead, the other Xiaoyue wolves around them screamed, their faces frightened, and fled.

"This profound mountain range is not simple. In such a periphery, there is actually a blood beast of the late stage peak of the Xiaoyue Wolf King."

The mysterious rust sword was sheathed, Qin Chen shook his head and continued forward.

In a mountain forest.

There were green moss all around, dark brown mucus everywhere, very cold and humid.

There is a clearing nearby. In this area, the rocks are gray-brown and lifeless. There is not even a single tree.

At this moment, a group of people are gathering here in a clearing in the forest. Opposite them is a huge lizard monster that is more than two meters high. This huge lizard is colorful and has three eyes and a lot of mucus. , Secreted from it, it makes people feel very sick.

"Miss, go quickly, let's stop this brute!"

The leader was a middle-aged man, his robe was broken and he was quite embarrassed, but his face was determined, and he repeatedly said to a red-clothed girl behind him.

Beside him, there were also a group of guards wearing armor, all of them pale, and their hands holding weapons could not stop shaking.

"No, Uncle Zhang, how can I run alone, stay together, and walk together."

Although the red-clothed girl's face was pale, her eyes were extremely firm, and she said with difficulty.

Holding a pair of cicada wing knives in her hands, a touch of real energy lingered.

Hearing that, a young man in Tsing Yi beside the girl showed anxious expression: "Swallow, the three-eyed salamander is a heavenly blood beast, and it has sensitive perception and speed. You can't help you stay here. It's better to go back first. , Otherwise none of us can leave."

"Mingzheng, don't stay, and go back with the young lady."

The leading middle-aged man's face sank, and he said in a low voice, the anxiety in his eyes became more and more intense.

The youth's face showed determination, "I will not leave you alone."

"Don't you even listen to me?"

The middle-aged man was trembling with anger. At this time, what is he doing?

"If you stay, who will take the young lady back, we won't be able to leave at that time, listen to me and leave immediately."

The middle-aged man gave the order to die.

"father!"

There was pain in the youth's eyes. One was his father and the other was his favorite young lady. He didn't want to give up either.

"Gurulu!"

At this time, the three-eyed salamander seized the opportunity, leaping forward with a huge roar in his stomach.

"what!"

With a scream, one of the guards couldn't dodge, and was instantly caught by the tongue of the three-eyed salamander, swallowed it, no trace.

Chapter 339

Most of this group of warriors are ground-level cultivation bases. How can they withstand the sky-level blood beasts, they can't resist it in one round, and they have become the food under the mouth of the three-eyed salamander.

"This **** beast!"

The middle-aged man held the saber, his muscles knotted, and burst out with an astonishing force, slashing at the three-eyed salamander.

call out!

A sharp blade of light, like a curtain of sky, rushed out, straight to the three-eyed salamander.

The blade light contains an astonishing true energy, at least it is a heavenly cultivation base, if it is slashed, at least the three-eyed salamander can be injured.

But these three-eyed salamanders are extremely fast and have long been guarding against each other. At the moment the middle-aged man moved his hands, his limbs swayed like a phantom, evading the attack of the sword light, and then facing the other two guards. The tongue spit out quickly.

call out!

The bright red tongue was more than two meters long, and with a snorted sound, it penetrated a guard's head and pierced his head, causing blood and brain plasma to gush out instantly.

"what!"

The middle-aged man roared angrily, his body lit up with a yellowish halo, his hand was powerful, and the powerful blade light swept out like a wave, and rolled up the monstrous waves in the forest.

But it was useless. He couldn't touch the body of the three-eyed salamander at all. He could only watch the other side kill his guards one after another.

"The three-eyed salamander, despite its huge size, is extremely fast. It is not easy for a warrior at the mid-level peak of the sky to injure the opponent, not to mention that this guy is only repaired by the peak of the early sky level."

On a big tree not far away, a figure appeared, looking at the secret path below.

The person here is Qin Chen.

He was planning to cross the Xuanzhong Mountain Range and enter Wucheng, but he heard the sound of fighting nearby from a distance. Only then did he follow the sound and saw this scene.

Three-eyed salamander, a blood beast, is very rare, but it is full of treasures. Various organs in the body can be used for medicinal purposes. As for its third eye, it has special medical value and can treat many diseases. , Very cherish.

Unexpectedly, these guys could find a three-eyed salamander.

Unfortunately, the strength is not enough, even if you find the treasure, you can't get it back, but will die under greed.

Hululu!

Surrounded by nearly ten guards, the three-eyed salamander is constantly wandering. At the same time, it has a thin tongue that is more than two meters long. It is long and thin, so fast that the naked eye can't catch it. In addition, it is flexible. The tail is simply invincible.

Puff puff!

In the blink of an eye, three more guards screamed and died under its long tongue and huge tail.

"Damn it!"

The embarrassed middle-aged man roared again and again, and shot frantically, but he couldn't help the opponent at all. Apart from smashing the entire mountain forest, he did not cause much harm to the three-eyed salamander.

Even if it hit the opponent occasionally, it only left a few small wounds, which can only be regarded as minor injuries, and it can't stop the action of the three-eyed salamander.

Whoosh!

After the three-eyed salamander killed several frightened guards, his weird eyeballs rolled, and he stared at the red-clothed girl not far away. She shook her body and slammed into it.

"Get out of here!"

Upon seeing this, the young man in Tsing Yi changed his face and hurriedly stopped in front of the girl in red and stabbed it with a sword.

This person has a good cultivation base. He is more than 20 years old, and he actually has the cultivation base of the post-earth-level peak. On the long sword, a faint qi lingers, making a sharp burst of air.

But no matter how fast he was, he couldn't be faster than the speed of the three-eyed newt. There was a flower in front of him. The three-eyed newt didn't know when he had come to his side. When he hit his body, the whole person flew out like a ruined burden. Spouting blood.

"hiss!"

With a long tongue like a snake's letter, the three-eyed salamander stared at the girl in red with three weird eyes, and leaped forward.

"Miss!"

Everyone present exclaimed and rushed forward desperately.

Especially the middle-aged man called Uncle Zhang, seeing that the girl is in danger, he suddenly appeared in panic and went forward frantically.

But as soon as he came closer, the three-eyed newt seemed to have expected it, and the giant tail swept away, sweeping on his chest like a phantom.

boom!

The body guard's true energy was instantly shattered, and a piece of the middle-aged man's breastplate was sunken, and he flew out in the air.

Without the middle-aged man's obstruction, the other guards couldn't get into the body of the three-eyed salamander. The whole person lifted it, and pulled the huge mouth open to it.

"Do not!"

"Miss!"

"Swallow!"

Everyone screamed in anger, each of them violently and painfully, but they were powerless.

If something happens to the lady, even if they are alive, how can they explain to the Patriarch.

"You run away!"

Before she died, the girl in red yelled, her voice sad.

Seeing to fall!

suddenly--

laugh!

A sword gas flashed past, and the tongue of the three-eyed salamander was cut off by the air.

The girl fell to the ground and fell into a daze. She escaped from the dead, not knowing what happened, and quickly stepped back.

"Miss, are you okay?"

The middle-aged man, Tsing Yi youth, and many guards all rushed up, all in a panic, and even the blood from the corners of their mouths was too late to wipe.

"I'm fine!"

The girl in red was in shock. The calmness she had before dying was just a decision she knew she was going to die. After she really escaped from the dead, she couldn't help being afraid and her legs became weak.

"Who was making the shot just now?"

Everyone raised their heads and looked in the direction where the sword energy was swept.

At this look, he couldn't help showing amazement.

I saw the man who shot, but he was sixteen or seventeen years old, and he looked a little green, holding a rusty sword, very inconspicuous.

But no one dared to underestimate the other party, the power of the previous sword was extremely terrifying, easily severing the tongue of the three-eyed salamander, at least it has the cultivation base of the mid-day level.

Is this still not human?

A different color flashed across the middle-aged man's face, and he hurriedly said, "Thank you, Shaoxia, for your help, Zhang Han is not forgettable."

Although he was also shocked, at least everyone has the most experience in Jianghu. He knows that some of the top talents in the five northwestern countries have the strength not weaker than those of the older generation at a young age. It seems that the young man in front of him should be this type of person. .

Huh!

After shaking his body, he came directly in front of everyone, Qin Chen said lightly: "It's not enough to raise your hand."

"No, if it wasn't for the young man, our lady might have been in danger just now."

The middle-aged man shook his head with a solemn expression.

Qin Chen said it was a matter of polite words, he didn't dare to think so.

However, he has been in Wucheng for decades, and he has never heard of such a character in Wucheng. He should be a genius from outside.

Just about to ask about Qin Chen's origins, his face suddenly changed, staring at Qin Chen's back, and exclaimed, "Be careful!"

Behind Qin Chen, the three-eyed salamander did not die after the tongue was cut off. Instead, Wu became more violent. The three eye pupils also turned scarlet red, and the body bulged in an instant, slamming towards Qin Chen. Pounced.

Chapter 340

At this time, Qin Chen was facing the middle-aged man and others, and couldn't see the situation behind.

The eyes of the red-clothed girl and the middle-aged man went round in an instant, showing panic.

Want to shoot, but it is too late.

Seeing that the three-eyed newt was about to pounce on Qin Chen.

call out!

Qin Chen turned around as if he had eyes behind him, and a sharp sword light flew out, hitting the head of the three-eyed salamander.

Puff!

The three-eyed salamander uttered a dull cry, the skull was cut into a wound that was several feet long, blue-green blood spurted desperately, its huge body turned upside down, smashed countless rocks and trees, and made a rumbling roar.

"dead!"

The defensive power of the three-eyed salamander was amazing. The fat on his body was more than that of a normal blood beast. Qin Chen couldn't kill it with a single sword, so he didn't want to waste time and stab it out in the air with a single sword.

With this sword, Qin Chen exerted a slight force.

Puff!

A sword beam of thin hair lit up in the void and disappeared in a flash, sinking into the head of the three-eyed salamander.

Under the third eye of the three-eyed salamander's forehead, a sword hole with the thickness of a thumb appeared, and the sword energy went into the brain, twisting its brain into a paste. After the body twitched, its vitality dissipated and completely died.

Shit!

Another sword cut out, and a gap appeared on the three-eyed salamander.

Cang!

Putting the sword into its sheath, Qin Chen grabbed it with five fingers, and the blood crystals of the three-eyed salamander burst out of the chamber and volleyed into his hands.

"His, so strong!"

"One sword killed the three-eyed salamander, how can this son be so terrifying."

"The three-eyed salamander is a heavenly blood beast. Even if the Patriarch takes action, it may not be able to do so, right?"

"It's terrible!"

The guards who survived were all stunned and couldn't help but breathe in air.

Previously, they tried their best and were not the opponents of the three-eyed salamanders. Unexpectedly, this young man would kill so many invincible three-eyed salamanders with a single sword. How could there be such a terrifying genius in this world? ?

"Shao Xia, the little girl Xu Yan, these are the guards of my Xu family. I would like to thank Shaoxia for his help before, so that we can survive."

The red-clothed girl's eyes showed admiration, and her heart lingered.

The young man in Tsing Yi saw the admiration of the girl in red, with a trace of sadness on his face. He looked at Qin Chen, with both envy and admiration in his eyes. He clasped his fist and said, "Next, Zhang Mingzheng, I don't know the name of the young man?"

"In Xia Qin Chen, passing by accidentally, you don't have to worry about it."

Qin Chen smiled, and immediately said in doubt: "Why do you guys fight with these three-eyed salamanders?"

The place where the three-eyed salamander lives is rare in woods and full of moss. It is obviously different from other places. If most people feel something wrong, they will leave early.

But this group of people obviously came prepared, and as a result, the cultivation base was not enough, and many people died in vain.

"The young man knows something. We came to the Xuanzhong Mountain Range this time to hunt down these three-eyed salamanders. Who knows the strength of the three-eyed salamanders is far beyond our imagination, alas..." The red-clothed girl sighed .

Looking around, there were a lot of corpses lying on the ground. It can be seen that when they came, there were a total of 20 people. Now, nearly one-third of them have died, and the others are almost all injured.

Sadness appeared on his face.

"Subordinates of Qin Chen, there is an unrelenting request."

Having said that, Xu Yan, a girl in red, suddenly expected to speak.

"Please speak!"

"We came to hunt this three-eyed newt this time because of its third eye, but this three-eyed newt was killed by your Excellency... Therefore..." The red-clothed girl was rather ashamed.

The other party saved their lives, and he still wanted the spoils, and he couldn't help feeling a bit too much.

Seeing the expectant gazes of the surrounding middle-aged man Zhang Han and others, Qin Chen instantly understood that the other party should be intending to hunt down these three-eyed salamanders. Knowing that it would be dangerous, he rashly took action. Obviously for them, three The material on the eye salamander is very important.

"You are free."

Qin Chen smiled. He hadn't planned to ask for the other materials on the three-eyed salamander. Although it was valuable, it didn't work much for him, on the contrary it was very disgusting.

"Then thank you Shaoxia."

The red-clothed woman and the others suddenly showed joy, their eyes were grateful, and it was obvious that they had become more and more fond of Qin Chen.

Soon, a group of the red-clothed girls dissected the three-eyed salamander, so all the materials were taken away. As for the third eye, it was carefully wrapped and placed in a red sandalwood box.

"Everyone, bury the corpse capital of the brothers, all the dead brothers, the family subsidizes 30,000 silver coins, and the others, 10,000 each."

"Thank you, Miss."

The guard who survived showed gratitude.

The host is so kind, they are naturally willing to give up their lives.

"We are going back to Wucheng. I don't know where Young Xia is going? If it's convenient, it's not like walking on the road."

Then, the red-clothed girl sent an invitation to Qin Chen, looking forward to it.

Qin Chen saw that the other party was all injured. If he encounters a more powerful blood beast, he is afraid that he will not be able to get out of the profound mountain range. He said: "I happen to be going to Wucheng too, depending on your state. Go out."

"Then thank you Shaoxia."

Everyone was grateful, and they liked Qin Chen even more.

Along the way, Qin Chen also learned about the situation of several people and their purpose in hunting down the three-eyed salamander.

It turned out that they were from the Xu family in Wucheng, and this Xu Yan was a young lady from the Xu family.

The Xu family is a middle power in Wucheng, and Xu Yan's father, Xu Xiong, is a warrior at the peak of the mid-sky rank.

The Xu family is in Wucheng. It is not too big or small. It runs a few shops and has some influence. The life is pretty good.

But not long ago, Xu Yan's father, Xu Xiong, was injured. He was not healed for a long time. He found many pharmacists and was helpless.

Later, I learned that Master Liu Cheng of Wucheng was able to heal his father's problems.

This Liu Cheng was the second-tier pinnacle pharmacist. After learning the news, the Xu family immediately asked for it.

Liu Cheng didn't turn the door out, but told the Xu family that he was about to refine a pot of pill, and he still lacked the compound eyes of the three-eyed salamander. If he could find it, he agreed to take action for Xu family and heal Xu Xiong. .

The Xu family knew that three-eyed salamanders were powerful, so naturally they did not dare to agree at will.

Unexpectedly, Liu Cheng gave the Xu family another potion, telling Xu family that they only need to sprinkle this potion on the mouth of the three-eyed salamander. After the three-eyed salamander smells it, it will only have less than half of its combat power.

Under the heart, the Xu family finally gritted their teeth and agreed.

Unexpectedly, after they sprayed the potion outside the cave of the three-eyed salamander, the three-eyed salamander did not weaken at all, but became more violent, and almost killed their entire army.

"Does the potion still exist? Show me some."

Qin Chen said suddenly.
