

## Valkyrie 3351

### [Chapter 3351: Should have heard](#)

She was still holding on to the desire to win over this breakthrough expert, but at this moment, let alone win over Qin Chen and the others, she even stammered nervously even talking to Qin Chen. "Hehe, don't rush to leave, Tiantong Chamber of Commerce, I have heard of it. I heard that it is the old chamber of commerce in Dongguang City. It has a lot of channels in the East Heaven Realm and other celestial realms, but it's a pity that the past few years have fallen. It's down, isn't it?"

"Qin Chen smiled lightly.

"Uh, it is..." Yang Yingying was stunned. She didn't know what Qin Chen meant by saying that, but she felt that Qin Chen didn't seem to have malicious intent, and her nervousness finally eased a little, and said cautiously. : "Senior did you have any orders,

Although my Tiantong Chamber of Commerce is not considered a top chamber of commerce in Dongguang City, as long as the seniors give orders, the juniors will do their best. "It's nothing, it's just that I was thinking of cooperating with some chambers of commerce in Dongguang City recently. I happened to meet you here at the Tiantong Chamber of Commerce. It's also a fate. If you come back to Dongguang City, you can cooperate with the Chamber of Commerce today. Click, broaden me

Our channels. Qin Chen faintly ordered.

"Yes!" Xingtianya saluted.

"what?"

Yang Yingying on the side was stunned at this moment.

Is there a problem with her ears? What did you hear? The other party wants to cooperate with her Tiantong Chamber of Commerce?

"Why, your Tiantong Chamber of Commerce is not happy?" Qin Chen frowned.

"Miss." Feng Lao hurriedly kicked Yang Yingying, feeling nervous.

"No, no! Thank you, seniors, I am willing to serve and cooperate with seniors, and promise to not disappoint seniors' hopes."

Only then did Yang Yingying react, an excited spirit, hurriedly spoke, her expression was extremely excited, for fear that her reaction would be slow, Qin Chen refused, and she was also very upset in her heart. What kind of reaction she had before, she was extremely nervous for a while.

"That's fine, those who come back to me will contact you and say goodbye."

Qin Chen arched his hands and stopped talking nonsense, smiled faintly at Yang Yingying, Feng Lao and the others, and turned away with Huo Lao and the others.

"Send you all seniors respectfully." Yang Yingying and several people hurriedly bowed, sweating nervously.

"That's right." Seeing that Qin Chen and the others were about to go far, Yang Yingying asked in a ghostly manner, "I don't know which power the senior is... When you look back, the junior can report to his father and be prepared!"

"Miss." Feng Lao hurriedly interrupted Yang Yingying's words, her face anxious, alas, the young lady is always shrewd, why is she fainted at this time, the other party did not say his own power, there must be his willingness, or so-called 'S cooperation is just casual

Said, or it is not easy to tell in person, the lady asked this, if it angered the other party, wouldn't it be unnecessary.

It's just that as soon as Feng Lao's warning fell, he heard a leisurely voice coming from a distance.

"Oh, I forgot to say, the shop I opened is called Tianwu Danpu, you should have heard of it."

Tianwu Danpu?

hiss!

It is really Tianwu Danpu.

Yang Yingying, Feng Lao and the others couldn't help but breathe in the air, each of them was shocked and dumbfounded. When they recovered and looked up again, Qin Chen and the others were already far away and disappeared.

The void on this side gradually returned to calm, as if nothing had happened, but only those who had experienced all that before would understand what terrible things had happened here before.

"Tianwu Danpu, miss, the other party said they were from Tianwu Danpu, I guessed it right, Tianwu Danpu wants to cooperate with our Tiantong Chamber of Commerce, my God!"

Feng Lao's excited beard was trembling.

"Hurry up and notify father."

"Yes, notify the president to go."

"This is Tianwu Pill Shop. If we can really cooperate with our Tiantong Chamber of Commerce, with the other side's medicine, our Tiantong Chamber of Commerce will surely rise again."

"Go, go back now."

Yang Yingying watched the reaction of Qin Chen and others leaving with excitement, tears surged, and she silently bowed, and then led Feng Lao and others, and flew towards Dongguang City for the first time.

She wants to tell her father the good news as soon as possible.

After many warriors dispersed, another void in the Void Tide Sea, a few days later, the figures of Qin Chen and others appeared again.

"Xiahouzun, Huo Lao, Xing Tianya, I will leave here, the three of you will go back to Dongguang City to host the Tianwu Danpu for me, and the person who has contacted Chendi Pavilion." Qin Chen ordered.

"Yes, master."

The eyes of the ghost array holy master and others are filled with dismay.

"Master, I am also a member of the Southern Heaven Realm, and I know a lot more than this sword king Mu Zhifeng, and you can also take me back to the Southern Heaven Realm." Xia Hou Zun said, apparently wanting to follow Qin Chen more. Qin Chen said lightly: "You have offended too many people in the Southern Heaven Realm. Besides, it is enough to have the wind of the sword king and Mu Zhifeng follow. Your talent should be used in the Eastern Heaven Realm to protect the Chendi Pavilion and Tianwu Dan for me. On, and then establish between the two

Space transmission channel. "

The Holy Master of the Ghost Array is a master of the formation, and is the most important link to the Chendi Pavilion. Anyone can bring it to the Southern Heaven Realm. Only the Holy Master of the Ghost Array must stay.

"Yes, master."

The ghost array holy master said bitterly. "And you two, Xingtianya, you will be the shopkeeper of Tianwu Danpu. In the storage space I gave you before, there are many elixirs that I previously refined in Dongguang City, and I have newly refined these days. The medicines made are all low-grade holy master and middle-grade

The Saint Lord level should be enough for you to manage Tianwu Danpu. "

"Yes, the subordinates must complete the task." "Yeah." Qin Chen nodded, "We have you in our Tianwu Dan shop, and there is an old man Sleeping Dream. Security is okay, but our channels have not been established yet. I have reached a cooperation agreement with the Chamber of Commerce that day for you before, see

Because the other person is pretty good, you can try to cooperate first. With the channels of the Tiantong Chamber of Commerce, you will definitely be able to develop Danpu better. "

"Of course, if the other party is not on the road very much, you can also find other chambers of commerce to cooperate, I believe you and Huo Lao will have no problems."

In the past few days, Qin Chen has been accelerating the refining of pill in the Universe Good Fortune Jade Plate. As long as the Tianwu Danpu can develop, he will continuously supply resources to the Chendi Pavilion, allowing Palace Lord Guanghan to grow rapidly.

This is what Qin Chen is most worried about.

As for heading to the Southern Heaven Realm, with Qin Chen's current strength, coupled with the Sword King Mu Zhifeng, the late saint master who knew the Southern Heaven Realm, Qin Chen was not so worried.

After that, Qin Chen gave a detailed order again, and only then did he sacrifice a flying holy treasure, and quickly swept toward the depths of the void tide sea with You Qianxue and the sword king Mu Zhifeng. The three of Xing Tianya, the Holy Master of Ghost Array, and Old Huo kept watching Qin

Chen's flying sacred treasure leave silently. They turned around and started to go back to Dongguang City to complete Qin Chen's instructions.

### [Chapter 3352: Void Tide Sea](#)

The void tide sea is an endless void. In the void, fragments of broken continents and void cracks are permeated, like a reef in the sea, with a murderous intent.

The first battle in the celestial world led to the formation of the void tidal sea. The entire void is vast and vast, dividing the four celestial regions. No one knows how vast it is, only knowing that they want to cross this void tidal sea. Even for some top chambers of commerce, it will take at least hundreds of years to mobilize warships at full speed.

There are also some special wormholes in this void tidal sea. These wormholes lead to various areas. No one knows what is behind the wormhole. It may be heaven or purgatory.

Some of these wormholes are fixed, and they may not change for hundreds, thousands, or even tens of thousands of years. Some void passages change all the time. They are still there in the last moment, and they disappear directly in the next moment.

Once a master from the Western Heaven Realm entered the Void Tide Sea and saw a brand new wormhole. He went in it out of curiosity. After coming out, he discovered that he had come directly to the Southern Heaven Realm.

The discovery of this void passage shocked instantly. So the powerhouses of the Western Heaven Realm and the Southern Heaven Realm, if there is such a connection between the two celestial realms, then it will be a great benefit for both the Southern Heaven Realm and the Western Heaven Realm. Improve the efficiency between the two heavens.

It's a pity that countless masters followed this person to search, only to find that the wormhole had completely disappeared, which was obviously a void passage in constant change.

Nevertheless, in order to connect the four heavens with each other, after the restoration of the heavens, many top forces in the human race have jointly explored this void tide sea, and opened some channels in this dangerous void tide sea, and found Some safe wormholes were opened, and some safe routes were also opened.

Through these lines, the caravans and masters of the various celestial realms can save tens of times, a hundred times the time to enter other celestial realms, and besides these routes, many void bandits will breed.

It's just that the Void Tide Sea is too vast, and until now, no strong person or force can thoroughly explore the Void Tide Sea.

At this moment, in this void tide sea, a cyan streamer tore through the void tide that opened the way, and constantly dipped into the depths of the void. It was the flying holy treasure that Qin Chen and the others controlled.

In the flying sacred treasure, Qin Chen and the three stood inside, watching the void trend in front of them.

"Lao Mu, when can we reach the Southern Heaven Realm?" Qin Chen asked when he glanced at the map of Void Tide Sea.

Sword King Mu Zhifeng hurriedly saluted: "Back to Master, the Void Tide Sea is too vast. Normally, even if we take the safest void passage, it will take us at least three years to reach the Southern Heaven Realm."

"Three years?"

Qin Chen nodded. This time is very short for a chamber of commerce, but for Qin Chen, it is still a bit long. However, after Qin Chen broke through the mid-term Saint Lord, he has not had time for insight and cultivation, but he can use this period of time. Time, practice well.

It didn't take long for him to ascend to the heavens, but his cultivation base was very fast. Although his every step was extremely practical, it was inevitable that he was still a little vain. This time was used to consolidate his cultivation.

Thinking of this, Qin Chen took out a map and said, "Mr Mu, then you see, how far is the location on this map from us now, do you want to make a detour?"

This map was given to him by the void bandit who asked him to refine the Origin Heavenly Dao Divine Pill. It records the location where he obtained the Heavenly Dao Origin Fruit. It is said that it is still a powerful alchemy cave. Qin Chen didn't believe this in his heart. A person would be so kind, and would give himself such a map, so he just asked casually.

If this place is close, he can take a look at it, if it is far away, then forget it.

"Master, the location recorded on this map is relatively remote. It is considered to be a place where the Void Tide Sea is deeper. It should be two months away from the normal Void Channel. Toss back and forth, it will be closer to half a year."

Half a year?

Qin Chen frowned. Originally, it would take three years to go to the Southern Heaven Realm. Adding the first half of the year, it would take even more time.

Qin Chen hesitated for a while.

"That's right." Suddenly Qin Chen seemed to have thought of something. As soon as he raised his hand, Lori appeared in the sacred treasure like Su Xiaoxi.

"People are sleeping to replenish their strength. Can you be gentle and don't just call them out." Su Xiaoxiao seemed to have just been sleeping, and was awakened at this time. He opened his hazy eyes and said with a gloomy mouth. But then she felt Qin Chen and Qian Xue's cultivation base, and she was shocked and said, "You have broken through?"

"That's how you treat your benefactor?" Qin Chen knocked on the head with a displeased expression on Su Xiao's head. This little thing, after saving her, sleeps all day long. It is called repairing strength. Isn't it a nine-tailed fairy fox? Does Mai love to sleep so much? A tool spirit, not a human being, is there to sleep.

Su Xiaoxiao was knocked violently, and her eyes were bursting with pain, but she was also familiar with Qin Chen's temper and said angrily: "You are not allowed to knock on my head again."

"Okay, then I won't knock anymore." Qin Chen shook his head, suddenly pinched Su Xiao's face, and instantly squeezed her face into a bulge. She screamed because of the pain. Xiao Xiao suddenly tried to scratch Qin Chen with his teeth and claws, but he couldn't do anything, his face flushed with anger.

"Okay Chen, don't tease her anymore."

It was You Qianxue who came over and rescued Su Xiaoxiao.

"Humph."

Su Xiaoxiao hugged You Qianxue and pouted. The two big beauties, one charming and enchanting, and the other like the goddess of the moon, complement each other.

Dao Wang Muzhifeng watched his nose, his nose watched his heart, silently, standing aside quietly, coughing cough, at this moment he wished he was an invisible person.

"Su Xiaoxiao, take a good look, how far is we from the Demon Race Wormhole you saw at the beginning?" Qin Chen asked.

"Hey, are you in the Void Tide Sea?" Su Xiaoxiao looked outside in surprise, only to realize that she was in the Void Tide Sea. She glanced at the flying chart on the Flying Sacred Treasure and frowned and said: "We are still far from that place here, eh..."

Su Xiaoxiao suddenly saw the map in Qin Chen's hand and said in surprise: "Why do you have this map in your hand?"

"Is there a problem?" Qin Chen asked in confusion.

Su Xiaoxiao said, "The location of the wormhole I mentioned earlier is very close to the location marked on your map, so I am curious, what is recorded on it?"

### [Chapter 3353: Feeling the Void](#)

Now it was Qin Chen's turn to be surprised.

He didn't answer Su Xiaoxiao's words, but thought about it.

This map was told to him by the Void Bandit, but judging from the signing of the soul contract, even if the other party has other purposes, this map should be true, but this person said that the place is an ancient alchemy. In the cave of Neng, Su Xiaoxiao now says that the place is very close to the wormhole of the Demon Race. Is there any connection between the two?

Or is it just a coincidence?

"Mr Mu, you can now control the flying sacred treasure to the position on this map." Qin Chen ordered.

No matter what.

Since the location of the cave mansion is close to the location of the Demon Clan Worm Cave, Qin Chen will go there anyway.

The distance to the map was far, extremely long, and it took at least a few months of effort. Qin Chen directly let the sword king Muzhifeng control the flying sacred treasure and proceed on his way.

The sword king Mu Zhifeng has been a strong man who has been famous for more than 10,000 years. A few years is nothing to him. Moreover, he has also traveled through the void of tides, knowing many things, and with him, Qin Chen can enter with confidence. Practice in the jade disc of good fortune.

Among the jade disc of good fortune in the universe, Qin Chen came under the Demon Tree of Ten Thousand Realms and sat cross-legged.

The Demon Tree of the Ten Thousand Realms is the most precious treasure of the Demon Race. It is rumored that it is the top treasure left by the ancient heavens when the world was opened up. Qin Chen sat under the Demon Tree of the Ten Thousand Realms and immediately felt a powerful Taoist rhyme.

Under Qin Chen's continuous nourishment and maintenance, the Devil Tree of the Ten Thousand Worlds has become more and more powerful. The aura of the Dao Dao Dao is permeated, and it outlines a mysterious Dao Yun aura, but this type of Demon Dao aura is not annoying, on the contrary. There is an artistic conception that blends into the world, which makes the jade disc of good fortune in the universe become more vast and unpredictable, as if a real world.

"Perhaps this is the true magic power?"

Qin Chen sighed that the so-called righteous path of the devil is not divided into righteousness and evil. It is also the avenue born of heaven and earth, representing the rules of the operation of heaven and earth, but afterwards the demon clan was deceived by the power of darkness and became slaves of the power of darkness. , Was intolerable by the way of heaven.

In addition to Qin Chen, Qin Mo, Lingyuan, Tu Moyu and others have been cultivating under the Demon Tree of the Ten Thousand Worlds. As members of the Demon Race, their absorption of the origin of the Demon Tree of the Ten Thousand Worlds is more pure, and it also makes A deep breath came out of them.

Although they have not broken through the realm of the Holy Master yet, Qin Chen knows that as long as they return to the Demon Race, they will be able to break through instantly, and they will surely advance by leaps and bounds. With sufficient resources, it is not impossible to directly enter the mid-term Holy Master.

After all, they have been cultivating under the Demon Tree of the Ten Thousand Realms, and this thing contains the most supreme truth of the Demon Race, and can even clear the obstacles in the way of the noble for them and change the destiny of a race.

Otherwise, the Demon Lord of the Yama Demon Clan would not be willing to abandon his clan to steal the demon seed of the Ten Thousand Realms Demon Tree.

Qin Chen crossed his knees under the Ten Thousand Realms Demon Tree, feeling the rhyme of this magic way, and began to consolidate his body, time slowly passed, and the holy essence in Qin Chen's body became more and more solid.

I don't know how long it has passed. Qin Chen opened his eyes and scanned the outside world. The sword king Muzhifeng was still on his way, and Qin Chen didn't go out. He simply took out a space-based Heavenly Dao Divine Pill and began to realize it. The magic of space rules.

There are a total of six Space God Pills in Qin Chen's body. When he broke through, he spent one and took one for Qian Xue. The remaining four were mainly used by Qin Chen to improve his spatial attainments.

This kind of \*\*\*\* pill even cared about Senior Sleeping Dream Immortal, and naturally it would be a huge help to Qin Chen.

This space \*\*\*\* pill entered the body, and instantly the rhyme of space dao flowed in Qin Chen's body. The power of that vast elixir turned into space dao rhyme and lingered in Qin Chen's body, constantly flowing.

The Heavenly Dao Divine Pill of the Space System seems to be able to touch Qin Chen's perception, turning into a series of emptiness laws, and constantly blending with Qin Chen's spatial rules in Qin Chen's mind, and at the same time helping Qin Chen grasp those who want to touch. Untouchable rules of magical powers.

At this time, Qin Chen entered the epiphany again, completely no longer comprehending everything around him, and the whole person was completely immersed in the understanding of space.

The void is vast and boundless. There are countless void interfaces in the universe. The void is intangible because you can't touch the edge, and the void is visible. Because the level of cultivation reaches a certain level, you can tear one of the void interfaces into another.

That's why there are countless planes.

And the space of a realm is also endless. If you control the endless void of a realm, it is equivalent to controlling this realm.

Qin Chen's heart was enlightened. He suddenly thought that he had obtained the Divine Power Ripples Divine Mark in the Divine Forbidden Land. The Divine Rift Divine Mark was the supernatural power of the Space System and Qin Chen's assassin. However, after taking the Divine Pill of Space, Suddenly Qin Chen had a deeper insight into the cracked sky divine mark.

The Sky Splitting Divine Mark remained in the forbidden land for so many years, and it did not disperse, and even competed with a master for the origin of time. The Divine Power of this Sky Splitting Divine Mark was by no means as superficial as Qin Chen had previously displayed.

At this time, Qin Chen had a faint feeling that the cracked sky divine mark he had mastered was just fur, and he had only mastered a very small part of its power. At this moment, as Qin Chen's understanding of the laws of space improved, a new kind of space Divine breath began to linger in Qin Chen's mind.

Just as this supernatural power was about to be mastered, the aura of spatial rules on Qin Chen's body began to dissipate, this was the effect of the Heavenly Dao Divine Pill began to dissipate.

Without hesitation, Qin Chen swallowed a space \*\*\*\* pill once again.

Then came the third one.

The fourth one.

After Qin Chen had swallowed all the divine pill of space, Qin Chen suddenly realized that he opened his eyes and suddenly raised his hand to grab it, and the space in front of him suddenly turned into a void.

This side of emptiness is far from being counted as a world, and far from forming a world. But this empty space is already under his control.

This is not because of being in the jade disc of good fortune in the universe, but Qin Chen's understanding of the void has been more profoundly improved.

Qin Chen stood up suddenly. He did not try again. Just now he raised his hand to form a void. This void is different from the domain. If the opponent is in his void, the opponent's domain and Saint Yuan will be completely separated. , And this void, he is the master, he can sacrifice his new understanding of space at the moment when the opponent does not react, and kill the opponent in his void.

If he has controlled this void before, then he does not even need to break through the mid-term saint master to fight against the late saint master, and even make good use of it. It does not need to take action from the Sleeping Dream Immortal to severely wound the black master saint. Even beheaded.

#### [Chapter 3354: Void Crocodile Dragon](#)

Only now did Qin Chen understand that his mastery of the Sky Splitting Divine Mark was too weak. The power of the Sky Splitting Divine Mark was not due to his attack power, but the real Split Sky Divine Mark could ignore the space, but Qin Chen could not do it yet. , If Qin Chen can fully grasp this magical power, he can trap the opponent before he can react, and directly attack his origin.

Realizing this truth, Qin Chen didn't have much surprise. Let's not talk about the void he felt, because the cultivation base is limited, and the void space he grabs is also limited. Even if the space is doubled, can he envelop his opponent? Entering this side is nothing but two different things.

And this is not the most important thing. The most important thing is that he opened up this void in his universe jade dish, which consumes sacred essence and divine consciousness. If in the outside world, Qin Chen even doubts whether he can be Open up this void in the shortest time.

The Universe Jade Plate is his world, and the outside world is not his world. If he displays the void of one party, does he have the energy to use the remaining magical powers to kill the other party?

Qin Chen is an extremely simple person. Just when he wanted to go to the outside world to test his new supernatural powers, he felt the flying sacred treasure from the outside rumbling and trembling violently.

"what happened?"

Qin Chen's figure flickered, and he appeared in the Flying Sacred Treasure in an instant, and You Qianxue was also awakened from his feelings and appeared outside.

"Dust, what happened?" Qian Xue asked in surprise.

"I do not know either."

Qin Chen shook his head, looked outside, and immediately saw that the sword king Mu Zhifeng was actually fighting against something outside. By his side, there was a lot of red light, and some fishy smell swept over, and then spread it. There was a burst of low growl.

Qin Chen's heart shuddered, and he immediately knew that this was the Void Monster Beast. For the Void Monster Beast, Qin Chen had also read many similar introductions. The countless shining reds here should be a large group of Void Crocodile Dragons!

It was these things that blocked the flying sacred treasure, and the roaring sound was also the fluctuation caused by the fighting between the wind of the sword king and those void crocodile dragons.

The Void Crocodile Dragon lives in the Void Tide Sea. It lives in groups and can practice in the void. Moreover, this crocodile dragon has the flesh and blood of a martial artist. So once the warrior enters the void, as long as the distance is not too far, they can always find the warrior according to the taste of the warrior and surround it.

I don't know how many warriors are swallowed by them every year.

"Go out and take a look."

Qin Chen's figure shook, and He You Qianxue came to the outside world in an instant.

After going out, Qin Chen realized the terribleness of these void crocodile dragons, and a horrible breath of void air passed through. These void crocodile dragons felt the breath of human beings and became more and more crazy.

"Young master, young lady, why are you out?"

Sword King Mu Zhifeng slashed a void crocodile dragon into flight and said hurriedly.

Qin Chen frowned and said, "What's going on?"

Sword King Muzhifeng said: "Master, this route is usually very safe, but it may be that this group of Void Crocodile Dragons was just migrating, and was caught up by us, so it surrounded us, but don't worry, I can solve these Void Crocodile Dragons. Master and Madam, you only need to stay in the Flying Treasure."

Speaking of the sword king, Mu Zhifeng will continue to kill.

"No, let me come, Qian Xue, you and Elder Mu are guarding the flying treasure."

Qin Chen was worried that he had nothing to test his new void supernatural powers. Now when he encountered this group of void crocodile dragons, Qin Chen said casually, and immediately killed him.

"Roar!"

Feeling Qin Chen's killing, countless roars surrounded him, these void crocodile dragons seemed to be irritated by Qin Chen's actions, and instantly pounced towards Qin Chen.

Qin Chen snorted coldly, raised his hand and grabbed at the several void crocodile dragons that rushed forward. The original vast void seemed to have some lag under Qin Chen's grasp, and then one seemed to be in harmony. The out-of-space surrounding empty space suddenly appeared in front of Qin Chen.

This piece of space belonged to Qin Chen completely. It was a world he had captured in this vast and endless void. In this space, he could do whatever he wanted, although it was only a short time.

And those void crocodile dragons immediately seemed to be trapped in the mire and were a little unable to move. They roared angrily, trying to break free from Qin Chen's restraint. Qin Chen's face immediately turned pale, and he felt a strong backlash. .

"Cracked Sky God Mark!"

Qin Chen froze the void, raising his hand, and slashing out a few spatial scars, only to hear a chuckle, these void crocodile dragons were instantly beheaded by Qin Chen, and their heads were in a different place, and blood flew across.

After just a breath of time, Qin Chen released his hand, panting a little, and there was a hint of excitement on his face, because he found that his previous sense of space was indeed correct, and he could grab his own world from the void to form A space similar to Qiankun's good fortune jade disc, but his cultivation is too weak, far behind his comprehension.

The void he just grabbed can indeed do whatever he wants in a breath, but this space is not big, and the time for a breath is not long, these are not important, the important thing is to capture this void, The consumption of him is too great.

"It seems that my understanding of space is not enough, otherwise, even if the cultivation level is not enough, it will not be so laborious. This supernatural power will be called heaven and earth in the future, but it can only be used as a killer at present."

Qin Chen said to himself that if he only confronted an opponent, even if he could only trap the opponent in the world he grabbed for one breath, even a breath time would be enough for him.

However, Qin Chen felt that his comprehension of this trick was not enough, or tried several times, and there would be new improvements.

Thinking of this, Qin Chen once again slammed into the void crocodile dragon.

Ho Ho Ho!

These void crocodile dragons were irritated by Qin Chen's actions, and they rushed frantically. So many powerful void crocodile dragons immediately made Qin Chen feel a little strenuous.

The attacks of these Void Crocodile Dragons are actually not too powerful, at most they are at the level of a half-step late Saint Master. In terms of Qin Chen's current cultivation base, it is actually nothing, but their defenses are too abnormal. They are in the Void Tide Sea all year round. Life, being baptized by the void tides, caused each of their bodies to be at the level of the late Saint Lord.

Now Qin Chen also understood why the sword king Mu Zhifeng was so strenuous before. Even with his sword technique, if he wanted to kill the void crocodile dragon, he had to kill it head by head, which consumed time and energy.

But Qin Chen is now comprehending new supernatural powers, and the power of these void crocodile dragons has given Qin Chen a perfect target.

## [Chapter 3355: Shopping body](#)

Qin Chen instantly slammed into the void crocodile dragon, using heaven and earth magical powers to kill these void crocodile dragons consumes too much spiritual power and holy essence, and it is too wasteful to deal with the void crocodile dragon, Qin Chen has a green demon sword in his hand.

The demon sword cut out, bringing up a ray of green sword light.

And in this sword, Qin Chen did not use other magical powers, only integrated the rifted divine mark and space rules into it, and he wanted to use this to realize the true power of space magical powers.

The sword light is very light, but in this gray void, this light green color immediately sets the surrounding void crocodile dragons green, and the heads of void crocodile dragons appear against this green background. Extraordinarily hideous, countless red eyes were also demonized by the green sword light.

In order to maximize his spatial sword energy, Qin Chen didn't even use the Origin Supernatural Power.

The violent green sword gas turned into dozens of sword curtains with a width of tens of meters and a length of nearly a hundred meters and swept out like a dense rainstorm.

"puff....."

Flesh and blood fly.

Many void crocodile dragons with a low cultivation base could not save their lives under Qin Chen's space sword aura, but with this sword, Qin Chen killed dozens of void crocodile dragons.

However, Qin Chen's heart sank without any joy. He immediately found that most of the void crocodile dragons that he had killed with this sword were ordinary void crocodile dragons, and some void crocodile dragons equivalent to the later stage of the Holy Master level. It has not been killed all the time. After these Void Crocodile Dragons were hit by his sword aura, at most they only added a wound. Fortunately, there were not many Void Crocodile Dragons reaching the later stage of the Holy Master level, only a few dozen.

Moreover, Qin Chen felt that this was because his green demon sword was extremely special, it seemed that it had a special suppression of the demon beast, and he could not even achieve such an effect when he changed to another holy soldier.

The defenses of these void crocodile dragons are too strong. Before, he was able to kill several void crocodile dragons in one move because he displayed the magical powers of heaven and earth, imprisoning the void crocodile dragons in a void, and then directly killed them. But just urging the space rule sword energy, it is impossible to kill the top void crocodile dragon.

If you let others know Qin Chen's thoughts, I'm afraid they will go crazy with depression.

These void crocodile dragons live in the void tide sea all year round, and the defense power of each head is extremely terrifying, even the ordinary void crocodile dragon is also the defense of the late saint master level. With a single sword, Qin Chen killed a dozen heads. , Actually not satisfied.

It should be known that the previous sword king Mu Zhifeng is the real late-stage holy master, and the sword intent is through the sky, and it is just slaying the void crocodile dragon head by head.

Qin Chen slayed more than ten void crocodile dragons with a single sword. Before he could make another move, these void crocodile dragons were already violent, opening their huge mouths one by one, and in an instant countless horrible blades of void killing intent swept over them.

These void crocodile dragons live in the void tide sea all year round, and their mastery of void power has reached a perverted level. They can instinctively perform void killer moves. In an instant, countless void blades have shredded Qin Chen's sage. Yuan Protection smashed him crazy.

"Puff..."

Just like Qin Chen slaying the Void Crocodile Dragon just now, these Void Blades hit Qin Chen's body and immediately heard a deep sound, as if blasting against a thick piece of leather.

Qin Chen possesses the Moonlight Divine Body, the Ancient Saint Body, the Wild Body, and the physical strength is unparalleled. The attacks of ordinary void crocodile dragons have no effect on Qin Chen's body, and some powerful void crocodile dragons can only bring some traces. However, the void blades of those late-stage holy master-level void crocodile dragons were terrifying, and immediately cut Qin Chen's body several blood stains, oozing out a trace of blood.

And above the wound, a terrifying force of void destruction was constantly infiltrating into Qin Chen's body, destroying his body.

"dust?"

You Qianxue immediately shouted anxiously.

Qin Chen waved his hand to indicate that he did not need to worry, but his face was filled with joy, because after this vanity destruction force penetrated into his body, Qin Chen found that his perception of the void seemed to have improved a little.

These void crocodile dragons live in the void tide sea all the year round. They have multiplied for tens of thousands of years, hundreds of thousands of years, or even longer. Therefore, their understanding of the void has reached a very abnormal level, and their attacks are exactly what contains The most powerful place in the power of the void.

If Qin Chen urged Zi Xiaodou to defend with all his strength, he could indeed withstand these void crocodile dragons, but in this way, he would not be able to comprehend this void power.

After understanding this truth, Qin Chen directly let go of the Saint Yuan's defenses, only urging the horrible refinement such as the moonlight divine body of the flesh to the extreme, and at the same time, he slashed away with the sword qi of the rifting divine mark.

In just a short time, the surrounding area was completely filled with the sword aura of Qin Chen's Rift Kong Divine Mark Sword Aura, and the surrounding grey void space had formed a green vortex.

Heads of void crocodile dragons were continuously beheaded by Qin Chen, and the wounds on Qin Chen's body increased rapidly.

If people around you see this kind of fighting, and even think that two barbarians are fighting, you punch me and I punch you.

And Qin Chen's strategy is like this. What he uses is his powerful physical defenses to perceive the void rules of these void crocodile dragons, then improve his spatial comprehension, and display the spatial rules to fight against these void crocodile dragons.

Moreover, Qin Chen was also surprised to find that with his own body injury, his body training was actually slowly improving. Although this speed was very slow, it could increase his body training.

At Qin Chen's current state, it is extremely difficult to improve his body training. Without top treasures and special circumstances, it would be difficult to improve Qin Chen's physical defenses, but this void attack caused Qin Chen's The physical body is slowly absorbing the power of the void, enhancing its defense.

For a moment, the scene was extremely bloody, and Qin Chen slammed into the void crocodile dragon, fighting them melee.

This can no longer be regarded as a fight, it can only be regarded as a fierce fight against each other. Those void crocodile dragons were \*\*\*\* spurred by the demon nature, and they rushed into the green vortex madly, not caring that they would be killed as long as they entered.

In order to prevent the Saint Yuan from not being insufficient, Qin Chen constantly swallowed the pills, and constantly sacrificed the rifting divine mark sword qi. At this moment, he had become a blood man, and those blood had him, and there were also Void Crocodile Dragon.

This kind of fighting, without the pill, Qin Chen would have long been unable to stand it, and as some void crocodile dragons were killed by him one after another, the balance of victory had fallen to Qin Chen's side.

Seeing Qin Chen's tragic appearance, the sword king Muzhifeng and You Qianxue were shocked. The two of them are not idiots. Naturally, it can be seen that Qin Chen is not trying to kill these void crocodile dragons, but is using these void crocodile dragons to improve. Own, what a terrible practice is this?

#### [Chapter 3356: To the place](#)

These void crocodile dragons have many late-stage saint master-level attacks. When they are replaced by the wind of the sword king, he can only shoot with all his strength. If one is not careful, he may fall, but Qin Chen dances on this danger, like the tip of a knife. The dance is average.

The Void Crocodile Dragon is definitely a very crazy type of Void Monster Beast, but under Qin Chen's more frenzied fight for life, these crocodile dragons are constantly being chopped and killed by Qin Chen, and their bodies are piled up. In the void, some were taken away by the void turbulence in the blink of an eye.

And as Qin Chen's perception of the void increased, the attacks released by the green demon sword in Qin Chen's hand became more terrifying, and as Qin Chen's physical body absorbed enough void power, in addition to the consumption of Saint Yuan Apart from being too big, Qin Chen became more and more relaxed instead.

A few more Void Crocodile Dragons at the later stage of the Saint Master level were beheaded by Qin Chen. The Void Blade on Qin Chen's body has become less and less, and the remaining top void

crocodile dragons who have been standing behind also felt something wrong. If this continues, the hundreds of Void Crocodile Dragons here will probably fall.

Originally, their team had two to three hundred, but now, there are only one hundred left.

Just as the remaining top void crocodile dragon was considering whether to retreat or launch another fierce attack, a dull sword aura swept through the void, and Qin Chen's mind suddenly opened up, as if he had mastered a certain void. The mystery of Raising his hand is just a few swords.

These sword auras carry the misty laws of the void, and the mighty space power turns into a terrifying blade, and falls among this group of void crocodile dragons. In an instant, nearly ten void crocodile dragons are beheaded, and there are even two late stage saints. The main-level void crocodile dragon was also split in half by a sword, and blood flowed.

From the very beginning, it took several swords to kill a late-stage holy master-level void crocodile dragon. Now that it is killed with one sword, Qin Chen's strength has actually improved in this short fight.

"Roar....."

The void crocodile dragons finally knew how powerful Qin Chen was, and they felt fear for the first time. The remaining few late stage holy master void crocodile dragons howled, and the remaining nearly 100 void crocodile dragons immediately retreated, leaving the void behind. The countless corpses floating in the sky disappeared from the void in a blink of an eye.

"Dust, are you okay?"

You Qianxue and Dao Wang Muzhifeng hurriedly flew up and asked nervously, at this moment Qin Chen was covered in blood and looked extremely embarrassed.

"What can I do?"

Qin Chen smiled and quickly took out a few healing sacred pills and swallowed them down. The gain this time was really great, making him take another step in the perception of space rules.

"Go, let's continue." Qin Chen ordered, and You Qianxue returned to the flying sacred treasure, while the sword king Mu Zhifeng processed all the void crocodile dragon corpses, and after ingesting the original inner alchemy in their bodies, they also restarted Back on top of the Flying Sacred Treasure, we set off again.

Among the jade disc of good fortune in the universe, Qin Chen took off his clothes, his body was full of blood, he washed it, and the blood on his body disappeared, but after fighting the Void Crocodile Dragon for a whole day, Qin Chen could not see that there was any injury. The place is gone, there are bloodstains and scars everywhere.

Qin Chen himself was not worried. He knew that his shape looked terrifying. In fact, the real wounds were left by those late-stage void crocodile dragons. As for ordinary void crocodile dragons, although they were powerful, the wounds left behind were very shallow. Under the treatment of the elixir, it has begun to heal.

I am afraid that in a few days, there will be no traces on his body.

But You Qianxue saw these scars, but she felt an inexplicable pain in her heart. She hugged Qin Chen from behind and stroked the wounds with her hands. Although these wounds were on Qin Chen's body, they hurt in his heart.

"Qianxue, I'm fine." Qin Chen smiled. He now knows why Void Tide Sea is so dangerous, and he also knows why those caravans are walking in groups, not just Void Bandits, but Void Monster Beasts here. It was extremely terrifying. He was too strong in his flesh. These Void Crocodile Dragons had nothing to do with him. They were replaced by other chambers of commerce. Even if there was a late-stage Holy Lord sitting in town, he might be in danger.

"Dust, promise me, don't try so hard in the future."

Even though You Qianxue knew that Qin Chen's injuries were not serious, she still felt pain in her heart as she stroked Qin Chen's scarred body.

"If our children knew that you worked so hard, it would definitely feel distressed." You Qianxue murmured.

Qin Chen smiled suddenly, "Qianxue, do you want a child?"

You Qianxue lowered her head, her face flushed instantly, and she remained silent for a long time.

"It's okay here anyway, why don't you..." Qin Chen smiled, turned around, hugged You Qianxue hard, and the two suddenly fell heavily.

Time passed, and years passed by.

On this day, Qin Chen and You Qianxue cuddled together, Su Xiaoxiao suddenly ran over in a hurry and said: "Qin Chen, I will inform you..."

Before she finished her words, she turned her head with a blushing face, and said angrily: "Bah, I said, Qin Chen, can you put on your clothes and be naked, not ashamed..."

Qin Chen said speechlessly: "What embarrassment you have caused by being a fool?"

He stood up, came behind You Su Xiaoxiao, patted her on the shoulder, and said, "Okay, turn around."

Su Xiaoxiao blocked his eyes with his hand, turned his head slightly, and saw that Qin Chen had put on his clothes, he was relieved, and said, "Huh, shameless, not ashamed."

"Okay, what are you looking for?"

"I feel it, I should be almost there, let me know."

"Almost there?"

Qin Chen's eyes condensed, and He Qianxue instantly came to the flying sacred treasure. After several months of flying, they had already penetrated into the depths of the Void Tide Sea. After that, they encountered Void Monster Beasts several times. solved.

The place they came at the moment was a chaotic void, and there was a turbulent flow of void everywhere in front of them.

"Lao Mu, are you here?" Qin Chen asked when he came up.

"Master, it's almost there. According to the location shown on the map, we have at most half a day before we reach the location shown above." Mu Zhifeng replied.

"Well, the Flying Sacred Treasure, let me urge you to regain your strength."

A few months of flying is nothing to Dao Wang Muzhifen, but it will be exhausting.

"No, Master, I'm fine, let me come."

"No, I always think that treasure map is a bit weird. That person should not be so kind. There may be some situation later. It is better for you to get back to good condition."

Hearing Qin Chen's words, Mu Zhifeng came to the side to recover.

### [Chapter 3357: King of War](#)

Qin Chen controlled the flying sacred treasure and quickly approached the position on the map.

After half a day, a strange wave suddenly came from the distant void, making Qin Chen's heart startled.

"Could that be the location of the Dandao Da Neng Dongfu?"

Qin Chen looked at it intently, and saw that in the distant void, looming waves of tyrannical void were transmitted.

Leisurely, Qin Chen frowned and looked forward intently.

At the same time, You Qianxue also suspiciously said: "Dust, there seems to be a lot of Saint Yuan there, it seems to be very lively."

At this time, the sword king Mu Zhifeng also came over, and said in doubt: "Master, there are indeed a lot of Saint Yuan fluctuations there, and it seems that there are many people there."

Qin Chen also nodded, with his eyesight, even if there was a distance of tens of thousands of miles, he could see a lot of people moving there, and from time to time, there were one or two streamers flying up and down, which seemed quite lively.

If it is really a place of a powerful cave mansion, it should be very hidden. How can it be so lively? Qin Chen just remembered that when the person gave him the map before, he had told him that the news had already spread. Could it be that a lot of powers are eyeing this Da Neng Dongfu?

If this is the case, then the cave mansion of this alchemy power is still there? Could it have been evacuated?

Thinking of this, Qin Chen couldn't help but cursed inwardly. No wonder that guy was willing to give him the map. If it was really emptied, wouldn't he have gone for nothing?

Qin Chen was puzzled, and at this moment, a rainbow light flew toward him. In the rainbow light, there was a figure standing blurred, and straightly greeted several people.

Qin Chen's face changed, and he quickly stopped controlling his flying artifact.

After a while, the rainbow light flew to the front, the light dissipated, revealing the figure of a person. This person looks young, but has a cultivation level close to that of the late saint master. On the clothes he wears, there is a "king" on the chest. The words are quite eye-catching.

"A strong man in the battle against King Sect!" The sword king Mu Zhifeng was startled, turned his head to look at Qin Chen, and said, "Master, this battle king is a force in the sea of void tides, but the land of Zongmen should be far from here. There is some distance, how can it appear here."

Qin Chen slowly shook his head, beckoning him to stay calm.

At this moment, the warlord king in front of you shouted: "This place has been taken over by my warlord king. I don't know who your Excellency is, please show up."

Qin Chen frowned, and after hesitating for a moment, looked at each other with the sword king Muzhifeng and You Qianxue, and then the figure shook, and the three of them put away the flying sacred treasure and showed their figures together.

The power of the opponent's warlord king swept away the power, and found that the breath of the sword king Muzhifeng was still above him, and You Qianxue's temperament made him look high, and his face didn't mean the slightest panic. Immediately clasped his fist and said, "Dare to ask three friends, but I came for this alchemy power cave."

Qin Chen couldn't help feeling speechless when he heard this. He thought this place was a secret, but now the other party actually asked them like that. Obviously, they had found a way out.

The sword king Mu Zhifeng immediately took the conversation and said, "Yes."

"Since it's all for the Alchemy Dao Da Neng Dongfu, then let me do it." Hearing the words, the strong man who was fighting Wangzong was not surprised at all. Instead, he waved at the three of them and flew towards the void ahead. .

The three Qin Chen glanced at each other, and they were all confused.

But this is the end of the matter, you can only settle for what you have come, and take one step at a time.

"Master, we..."

"Go, go over and take a look."

Qin Chen pondered for a moment, and the three of them immediately followed behind the disciple of King Zong and flew towards the void.

The void of tens of thousands of miles has already flown in a short while.

Qin Chen saw that there was a weird place in the void, and there had gathered a lot of masters, not only the human race, but also the masters of other races.

At this moment those people are busy outside that void, not knowing what they are doing.

Before the group of four people fell down, a roar suddenly came from inside the void, as if a muffled thunder rolled over the void, deafening.

The expressions of the three Qin Chen all changed, subconsciously urging the power in the body to prevent any accidents.

The warlord who led the way in front of him was not surprised, not only stopped his pace, but also looked up with interest.

Following his gaze, Qin Chen also raised his head and looked around.

The sound of muffled thunder rolling by continued, from the inside out, as if something was about to rush out of the void.

After a while, there was a loud noise.

From the emptiness, a piece of sunlight was sprayed out like a substance, and the sunlight spread out like ripples in circles and layers, and gradually disappeared.

At the same time, Qin Chen couldn't help taking a deep breath, showing surprise on his face.

"It's so fragrant, what is this?" The sword king Mu Zhifeng looked surprised, and slammed into the void. At this moment, the void was filled with a rich fragrance, which made the \*\*\*\* of smell refreshing.

This was heard by the leader of the war king Zongqiang who led the way, and looked back at the sword king Mu Zhifeng, and said: "Aren't the three people attracted by the news of the birth of a vision here in the Void Bazaar? ?"

Qin Chen was taken aback, and suddenly smiled: "That's right, we did hear the news of the birth of a vision here in the Void Bazaar, but I don't know why this vision was born?"

"Hehe, what exactly caused this vision, I don't know, I just heard Lord Sovereign say that this should be a sign that the strange treasure is about to be born."

After the words fell, Qin Chen and the others had already arrived at the location of the void.

As soon as Qin Chen approached, he felt a terrible force of the void transmitted. In the void, there were a lot of restrictions and formation patterns, exuding an aura that made Qin Chen feel palpitation.

"This powerful forbidden aura, this cave is extraordinary!"

Qin Chen's face changed slightly, because of this formation and restriction, even he felt extremely complicated, absolutely not a normal formation and restriction.

"Oh? Bringing new people here again?"

As soon as Qin Chen and the others fell, a few figures flew over. These figures came from various races, and one of them had a human face with an eagle-like face, and there was actually a skull engraved on his body.

"Void Bandit."

Mu Zhifeng's face changed.

This is a unique mark of the Void Bandits, this group of people are actually Void Bandits?

"Ha ha."

The eagle man laughed gloomily when he heard the words. He glanced at Wang Muzhifeng and felt the terrifying aura of the late Saint Lord on his body. He only slightly converged, but the sneer at the corner of his mouth still existed.

"This friend, this person is indeed a void bandit. They are all attracted by this vision. The few present are representatives of the many forces that have been attracted to me. Please don't be too nervous about the three."

The master who fought against Wangzong seemed to have guessed this situation a long time ago, and explained with a slight smile.

### [Chapter 3358: King of War Sovereign](#)

Qin Chen glanced over this group of people and couldn't help but feel awe-inspiring. This group of people had extraordinary strengths, and they were all masters of the late Saint Master.

When are there so many late stage saints in this void tide sea? It should be known that such masters are rare even in Dongguang City, but here, Qin Chen saw a few at a glance, and there were even some in the distance.

What puzzled Qin Chen was that there were people of other races here.

Of course, what made Qin Chen most curious was that the King of War was the top power in the Void Tide Sea, similar to the Fire Fortress, and would actually be with the Void Bandits.

As if understanding Qin Chen's doubts, Sword King Muzhifeng explained by voice transmission: "Master, this is the depths of the Void Tide Sea. The rules of the heavens are difficult to penetrate, and this is also the territory of Void Bandits. Many forces are themselves. They have the background of Void Bandits, such as the King Sect of War, and the Fire Fortress. They are forces in the celestial realm, and they can trade with several big celestial realms. At the same time, they will also become the Void Bandit and plunder resources when needed. In this sea of void tides, if you see some void bandits with other forces, you don't really need to care too much."

"This is pretty good here. In this void tide sea, there will be some void bazaars. These bazaars are located on the continent suspended in the void tide sea. The annual transaction volume is amazing. Many top chambers of commerce in the sky will gather in the void. Buy and trade treasures in the market, and then bring them to places like Dongguang City for sale. There are countless number of void bandits in that place. The resources they plundered from some forces are sold in the void market. Account."

"In fact, in the Void Bazaar, you can see that half of it has the background of Void Bandits, and the other half, even if they are not Void Bandits, will secretly cooperate with Void Bandits."

You Qianxue wondered: "If this is the case, wouldn't the top forces in the realm of that day be suppressed? Wouldn't it be possible to eliminate more than half of the void bandits in the Void Tide Sea by simply giving these void markets to a pot? "

The sword king Mu Zhifeng smiled: "Madam, what you said is naturally feasible. In fact, as long as the top forces of the heavens make a strong move and destroy all the void bazaars in the void tide sea, it can indeed destroy more than half of the void bandits. It's not in their interest."

"It's not in the interest?" You Qianxue was even more puzzled. The top power in the heavens is to maintain peace in the heavens. Now these void bandits are angry and complain in Dongguang City. As long as they are killed and everyone applauds, what is not in the interest?

"I understand."

Qin Chen nodded at this moment, already understanding everything, Qian Xue was still a little too naive.

He was only a little surprised before, but after he came back to his senses, he instantly understood that the so-called Void Bandit is just a name. The most important thing in the heavens is benefit. As long as there is benefit, let alone a bandit, even an enemy can do it. Become a loved one.

"Perhaps, the existence of this void bandit also has a certain effect on certain top forces in the heavens." Qin Chen said lightly.

"Exactly." The sword king Mu Zhifeng smiled: "Master, let alone other things, you have also seen that there are strong people of other races among these people. In fact, there are not only humans in this void tide sea, but also some other people. If the Void Bandits in the Void Tide Sea are wiped clean, I am afraid that this vast void of the Tide Sea will fall into the hands of other races. This is not in the consistent interest of the Human Race, let alone many people. They all suspect that some of the top forces in the heavens also have some kind of interest in this void tide sea."

"This....."

You Qianxue was shocked. It was the first time she heard of such a thing. Shouldn't the top forces in the heavens stand from the perspective of justice and maintain peace in the heavens?

"The top forces in the heavens are naturally defending, but they also have their own selfishness. In fact, there are struggles in the places where there are people. The top forces in the heavens are not monolithic. Otherwise, I would not stop going to the work headquarters that day."

This is the struggle of power.

Although the sword king Mu Zhifeng didn't say much, Qin Chen already understood the situation in this void tide sea.

"Hehe, since these people were brought by your warrior's people, they should be temporarily maintained by your warrior's people."

This group of guys glanced at Qin Chen and the three of them, smiled, and left here in an instant.

"Several, come with me to see the lord of my battle king sect."

"War King Sect Master?"

Qin Chen followed the person's gaze towards the void, and quickly locked on a towering figure not far away. This person exuded an extremely terrifying aura, and just standing there made people unable to ignore it.

"Young Master, that is the Sovereign Lord of the War King Sect. It is rumored that this person has broken through the realm of the late saint master more than 10,000 years ago. He is a veteran master of the late saint master, and his strength is extraordinary." Quietly explained.

Qin Chen nodded, and followed the master of King Zong to fly towards the Lord of King.

At this time, the vision between that day and the earth had disappeared, and the rich fragrance also disappeared.

"Master Sect Master, there are three more people attracted by the vision here." The master of the Battle King Sect came to the front of the Battle King Sect Master and bowed to salute.

Hearing his report, the saint master of the war king nodded, and the divine thought swept across Qin Chen, You Qianxue and the sword king Mu Zhifeng, feeling the cultivation of the saint master in the later stage of the sword king Mu Zhifeng, his eyes condensed and nodded: "Here is another late-stage holy lord. Your Excellency is very face-to-face. I haven't seen it before. I don't know who is your Excellency?"

"Haha." The sword king Mu Zhifeng immediately stepped forward, "The old man is just a casual repair, not enough, but the prestigious name of the master of the war king, the old man has known it for a long time, and when I saw it today, it was extraordinary."

The Lord of War, the Holy Master laughed and said faintly: "A casual cultivator, hehe, how many cultivators have broken through to the later stage of the Holy Master these years, even if you don't want to say it, after all, this void tide sea is dangerous, and the old man can also I understand, but this place has been controlled by our major forces in the Void Tide Sea. Since you are here, it is better to stand aside and wait for the arrangement. If there are any treasures here, you will naturally not be missing."

There are not so many casual cultivators these days, and the Lord of War is too lazy to guess the origin of the sword king Muzhifeng. I am afraid it is also a high-level caravan or force, but even the most powerful force reaches his Void Tide Sea. He had to listen to their orders, as long as he didn't make moths, he didn't bother to care.

"Zou Feng, you take them down and wait on the sidelines." The Lord of War King said lightly.

### [Chapter 3359: Grudge](#)

"Yes." The master who fought against Wangzong responded, leading Qin Chen and the others to the side, saying: "The three of you are waiting here, don't go to other places, this is the place under our control of Wangzong. If you go to another area and be beheaded by other forces and others, don't blame us. If there is action, you will be notified later."

Qin Chen looked at it, and there were already a lot of people gathered here, and each of them had a fierce aura and extraordinary strength. They seemed to be casual cultivators in twos and threes.

"Wait a minute." The sword king Mu Zhifeng stopped him quickly.

"What else?" The master of the war king looked at Mu Zhifeng.

Mu Zhifeng grinned, a pill bottle appeared in his hand, stuffed into his hand, and whispered: "It's such a friend, I want to ask, what's the situation now, if it's convenient, can you explain it to us? "

The master of Zong Zong glanced at the pill bottle and found that it was a bottle of middle-grade holy master pill. Then he smiled with satisfaction and said: "What else is going on, let's be honest. Knowing what happened, some special visions actually occurred. Later, they were discovered, thinking it was a treasure, and wanted to break into it. Who knew that there was an extremely terrible forbidden formation outside the void, and he didn't succeed. I guess I also wanted to conceal it, but who ever thought that the news was spread to the nearby void market. It immediately attracted many nearby forces."

"Our King Sect is also one of them. In addition, you have also seen that there are other races and void bandits and other forces. At first, some people wanted to monopolize this place, but they found that they couldn't break this restriction. With more and more people coming, naturally no power has the ability to monopolize this place, so after the major powers have discussed it, they unite and gather warriors like you who have heard the news, ready to break the ban and explore together. The treasure in this secret realm."

"These are all the news."

"Even such a terrifying force as you fight against Wangzong can't break this restriction? Is it because of the ancient secret realm that is against the sky?" Qin Chen gasped in shock, pretending to be shocked.

The master warrior king heard this and whispered, "Our suzerain has discussed with several major forces. After initial exploration, everyone has a consensus that this place is an ancient place that should exist before the heavens are broken. The secret realm, and this secret realm is definitely not small, and from the perspective of void fluctuations, this secret realm is definitely of the venerable level, otherwise it is impossible for us to join forces to break through."

"Venerable Inheritance!" Qin Chen showed a look of surprise, "Then no one has ever entered this secret realm?"

"Nonsense." The master of the war king sneered: "You are also a saint master character, how can you be so naive, if you can break the ban, someone has entered, and it is your turn to be here? You casual cultivators might have been caught long ago. Our major forces have cleared the field, that is, now, we need everyone to work together to break the prohibition together, so that you have a chance to stay here."

Hearing what he said, Qin Chen suddenly showed a clear expression: "So it is!"

On the side, You Qianxue and Dao Wang Muzhifeng frowned, apparently a little surprised. They also knew the process by which Qin Chen got the treasure map. If this secret realm had never been opened, then the original source of the Heavenly Dao Genguo was originally used. Where did the Void Bandit come from? And how could the other party know that this is a certain alchemy cave house?

Qin Chen asked again: "Since I stay here and want to take action together, I naturally have no objection, but if the restriction is really broken, how should the contents be distributed?"

The master of the war king shook his head when he heard the words and said: "I don't know this. This is the result of joint deliberations by several major forces. It is also a matter for the suzerain to worry about. Okay, do it all. Friends, don't worry. Right."

When the words fell, this person walked away without any explanation, and didn't give Qin Chen a chance to question any more.

After this person left, the three Qin Chen looked at each other, and the three of them walked aside tacitly, their expressions a little ugly.

"Dust, this is not right, according to what the other party said, this Void Secret Realm was discovered not long ago, but when the Void Bandit gave you the treasure map, it was a few months ago." You Qianxue frowned.

"There is indeed a weirdness in this, but what the person who fought against Wangzong said before does not seem to be a fake." Qin Chen frowned.

The sword king Mu Zhifeng looked around and said, "Master, there are indeed some casual cultivators in the Void Tide Sea nearby. You see, the Saint Yuan on them all carry the unique power of the Void Tide Sea. These people live all year round. In the Void Tide Sea, it doesn't look like a fake, it seems to be attracted by the news here in the Void Bazaar."

Qin Chen's eyes flashed, "I'm sure that the void bandit with the origin of the Heavenly Dao Origin Fruit has indeed entered this void secret realm, because the strange fragrance before was a mixture of some kind of pill and holy medicine. As usual, this place is very likely to be a powerful cave mansion with alchemy, there is no doubt about this."

The sword king Mu Zhifeng asked in doubt: "But there is a forbidden seal here? How did he get in?"

"There is only one explanation, and that is that the person did enter before, but for some reason, a forbidden formation appeared here again, preventing him from entering, so that it can explain why he knows that this is a powerful alchemy cave."

"But what is his purpose for giving us the treasure map?" You Qianxue asked suspiciously.

"Does he give it to us, is there any difference?" Qin Chen glanced around and smiled.

You Qianxue was stunned. Indeed, given them, there were only three of them, but now there are so many powerful people, and even top forces such as the King of War, not more than three of them. It's nothing at all, the other party just made a favor.

"Master, if that person did enter this place, and later couldn't enter because of the forbidden formation, then he would pass the message out and attract so many experts to come, this person is very likely to be among the crowd." Sword King Mu Zhifeng said suddenly.

"I understand."

Qin Chen sneered suddenly, and immediately attracted the eyes of the sword king Mu Zhifeng and You Qianxue.

Qin Chen sneered: "This person's purpose for giving us the treasure map is probably to attract us over and want to get treasures from us? Before this person gave me the Origin Element Heavenly Path Origin Fruit for me to refine. Blackmailing and threatening me, but I was cured, and I must have a grudge in my heart. The purpose of attracting us is to take away the medicine from me."

#### [Chapter 3360: Eighteen thieves of the void](#)

Qin Chen sneered: "This person also knows that I must have a lot of pills. He knows that as long as I am attracted by this treasure map, I will definitely come here. Then if he is really a member of a gang of void bandits. , As long as you hide in this crowd and eat us secretly, you can get all the materials and pills of Tianwu Danpu, which is a deep calculation."

"Master, aren't we dangerous?" Dao Wang Mu Zhifeng's heart sank, looking around, but he couldn't find the masked man who came to Tianwu Danpu in the first place.

"Danger? Not for the time being. Think about it. First of all, this person is absolutely afraid to do anything to us before the restriction is broken, because when he does it, he will expose himself, and once the restriction is broken, do you think he has ever What will people who have entered here do?" Qin Chen laughed.

Sword King Mu Zhifeng frowned: "That must be to find a way to enter the depths of this secret realm, and get the rest of the treasures in the cave mansion of that alchemy."

"Yes, this person has entered here before, but he has the resources in his hands that other people don't possess. That is the situation in the secret realm. Since there is a source of heavenly fruit in it, there will naturally be other top things. For them, the most The important thing is to get the inheritance of the great power of the alchemy first. After all, this is a strong cave mansion above the venerable level in the ancient times."

Qin Chen smiled coldly: "He will only act on us after he gets the inheritance here, and he may not know it yet, we have penetrated his plan, as long as we find the opportunity, find this person, and follow this person into the Deep in the cave, huh..."

Qin Chen grinned, and it was still unclear where the winning balance should fall.

"Master, I understand, it really is a good plan." The sword king Mu Zhifeng suddenly exclaimed. Indeed, when the person came to Tianwu Danpu, Qin Chen and him hadn't made a breakthrough at all. The other party felt that Qin Chen and the others had originally. Naturally, Qin Chen and the others weren't taken into consideration.

But he never expected what kind of monsters he would attract.

Thinking of this, the sword king Mu Zhifeng and You Qianxue were also settled, and the three of them looked at each other, and they both closed their eyes and sat quietly, waiting.

With the passage of time, more and more warriors were attracted and rushed to this void. However, the strength of these warriors is indeed mixed. There are many holy masters in the early stage, but each is relatively fierce, and it is obvious that they are all in this void tide. People who have eaten the sea for many years.

To walk in the void tide sea, boldness and fierceness is the most necessary ability.

In addition to the warriors who have gathered here before, the number is extremely large.

Two days later, the masters of King Zong Zong and other major forces looked at each other, and the Holy Master of King Zhan nodded gently and said: "We are almost there, let's start."

The person on the side of the Void Bandit also nodded and said, "Ye Changmeng, it's time to do it."

Only the masters near this Void Bazaar are getting news, but if you continue to wait, even the top forces from other places in the Void Tide Sea are coming, then none of them can take the initiative.

At the end of the speech, several top figures of major forces stood up at the same time.

As soon as these people moved, the warriors who gathered here opened their eyes one after another and looked towards them.

The Sovereign Lord of the War King swept his eyes down and said: "Everyone should be attracted by the vision of this place. You have been waiting here for such a long time. In the next battle, the Lord of the King Zong and the Lord, I think many people will recognize it."

"The name of the Lord of the War King, I will naturally know it, but the Lord of the War King, I dare to ask you what is going on when we gather here, what is the name inside this void?" An impatient warrior immediately asked below.

Sovereign Lord Warlord heard the words and smiled slightly: "This friend asked you a good question. This is what I want to explain to you. I don't really know what is inside this void. I have only conducted inquiries and speculations, and only know that there is a top secret realm in it, and it seems that it is still a secret realm left by a certain Celestial Venerable or higher master before the broken heaven!"

"The cave house of the venerable powerhouse?"

"Inside this void?"

"It used to be a desolate place. I have passed by this place many times. How come I didn't expect to explore it? Hey, it's a real loss."

Suddenly, there was a rush of noise, some people were extremely upset, some were extremely excited, and some had changed expressions.

The Sovereign Lord of the Battle King smiled and said: "I have explored this mystery before several major forces, and everyone has seen that there is a forbidden formation guardian here. I have also joined forces to break through before several major forces, but they have not been able to break through. It's forbidden by the opener, so I'm waiting for everyone here to join hands to break this restriction. I hope that you will be able to break this restriction with me later, and enter this venerable secret realm to search for it and see what's inside. What treasures are there!"

"Lian Zhan King Sect Master, you can't break open, can I wait?" Someone wondered.

Sovereign Lord Warlord smiled lightly and said: "You don't need to worry about this. Several of our forces have already checked. This prohibition distance has been broken by our waiters. In fact, it is only

a little bit close. As long as you are willing to work together, you will definitely be able to break it in one fell swoop. "

"There is something in the secret realm of a Venerable Powerful. Everyone should know what it is. From the visions that have just been generated, there must be good things in it. If there is a legacy of a Venerable, or let you break through The opportunity of the Venerable Realm, I don't think anyone is unmoved, right?"

Break through the chance of the Venerable?

Many people's hearts jumped wildly.

Everyone has seen the previous vision, and it is indeed extraordinary.

"My Lord Sovereign Warlord, I would like to ask, if the ban is broken, how will the contents be distributed? There are strong ones among your major powers. If you really want to \*\*\*\* it, I won't have any chance to succeed, and, There are many Void Bandits here, even the well-known Void Eighteen Thieves, as well as masters of other races. How can you be sure to trust them?"

Among the crowd, a sharp voice suddenly came, and it was erratic, making it hard to figure out the source of the sound.

As soon as this remark came out, everyone was silent, and their eyes looked towards the King of War Saint Lord. Obviously everyone was very concerned about this issue, and it was also a place of concern for everyone.

The Lord of War did not mean the slightest irritation when he heard the words. Instead, he smiled and said: "You can understand your worries, and I can't give you any guarantees here. In fact, I have the same concerns. I see, there is not only one great power in my battle against Wangzong. In case there is only one copy of the Lord's inheritance, is it from me and Wangzong? Or is it from the Eighteenth Void Thieves? Or is it from other forces?"

"You guys want to get any promise from me and King Zong. I can give you a promise at will, but you all know that Void Tide Sea, if you don't believe in the promise, you have scheming and strength to grab treasures here. That treasure is yours. Relying on the promise of others is nothing more than self-deception."
