

Valkyrie 3361

[Chapter 3361: Bouyei](#)

Hearing that, everyone present was shocked, and what the Lord of War Lord said was indeed very reasonable. In the Void Tide Sea, the most unbelievable thing for everyone is the promise. The so-called promise is broken.

In fact, even if the Lord of War really gave everyone a promise, everyone should doubt it or would not really believe it.

"I think you all understand what I mean, but here, I can still give you a promise. If you can really work together to break the ban, then this seat will never prevent you from entering this secret realm, the treasures inside, It also depends on what you need. As for whether you can get it, it depends on your own ability."

The Lord of War swept across the crowd and said.

The sword king Mu Zhifeng had been standing beside him silently, but now he nodded.

"My Lord War King, you are the Sovereign of the War King Sect. We naturally believe in your promise, but as you said, there are other forces such as the Eighteen Void Thieves. With just a word from you, how can we have nothing to worry about? ?" The erratic voice rang again.

"Humph."

Not far away, where the Void Bandit team was, a burly man with a scar on his face and a fierce look suddenly sneered, his eyes burst at a middle-aged man in the crowd, his bloodthirsty and cold eyes stared at him, and he sneered. : "If this friend can't believe me, then you can go. We will never force you."

In the crowd, the face of the middle-aged man who was stared at by the void bandit changed slightly, making it difficult to look instantly.

However, he was also a bachelor. Seeing that his whereabouts were exposed, he simply stopped hiding, but walked out and clasped his fists: "Excuse me, what I said just now is also to provide more protection."

"More protection, I still want more protection. Do you want us to promise that we will break the ban when you see the treasure and let you take it obediently? I think you are dreaming. If you can't believe it , Then you can roll now, if you believe it, you can stay. When the time comes, the prohibition breaks open, and each depends on his ability." The burly man sneered.

"you....."

The middle-aged man's face was pale.

"What am I? In a word, do you not get off?" The burly man showed a fierce face and swept everyone present. "There are also everyone present, who have opinions and don't want to participate. Leave now, I will not be held accountable. , But if you don't work hard at that time, and you're still awkward, I'm not

going to blame me for waiting for the Eighteenth Void Thieves to be rude. I don't even have the courage to be a whimsical one. No wonder it's still a waste."

The middle-aged man's face was as ugly as the bottom of a pot, uncertain.

"It seems that you are not going to roll? So, you have no opinion?" Seeing that the middle-aged man did not leave, the burly man said with a sneer.

"Excuse me, I just made a mistake. Since there is a guarantee from Lord Warlord Saint Lord and you, then I naturally believe you."

Now in this situation, the arm can't twist the thigh, facing the top forces such as King Zong, they have no other way. As for leaving, it's impossible to come here. With such an opportunity, how can you Just leave.

So the middle-aged man tried to judge the situation and quickly comprehend.

As if he knew that the middle-aged man's performance was average, the Lord of War smiled slightly and said: "Since you all have no doubts, then I will ask you all to follow my order and break the prohibition together. I need to remind you here. When breaking the ban, I hope everyone can work together and obey the command. If you act randomly or have selfish motives, don't blame this seat for being cruel."

Everyone didn't even dare to say.

"Okay, it shouldn't be too late, let's get ready to do it now." After finishing speaking, the Lord of the War King looked at an alien master with a face and ears like bat wings.

This alien master came up with a harsh voice and said in a condensed voice: "Now the old man will explain to you the characteristics of this prohibition. Later, you will cooperate with you and listen carefully. This secret realm is definitely above a venerable level. The masters of "left behind, this secret border, each has two seals of formation and prohibition. After countless years of corruption, the power of that formation has become a bit weak, and I can break through the Buyi people."

"The difficulty is the restriction after the formation. Although the old man has identified four to five out of ten, but if he wants to break it completely, I can only crack it by force."

"Fortunately, this prohibition has been consumed for thousands of years, and it has become a lot weaker. When I join forces, I can force it to open. By then, you will follow the orders of the old man. Don't you have any opinions?"

Qin Chen looked curiously at this ear with wings, his eyes were like copper bells, and the master glowing with cyan luster.

"Master, this is the Buyi tribe. The Buyi tribe is a small race in the Void Tide Sea. They have very keen perception and are good at arranging formations. They are natural formation mages." Mu Zhifeng immediately explained to the side.

Qin Chen nodded, there are many races in the heavens, and many of these races that can survive have their own skills.

"Since no one has an opinion, do it now."

The Bouyei master screamed.

As he spoke, the Buyi people behind him came out one after another, and their bodies began to glow with a misty blue light, quickly surrounding the strange formation restrictions in the void, surrounding the formation restrictions, standing in a row. .

Buzzing!

The misty array of lights lit up, connecting these Buyi people together, and forming a unique formation.

"With the body as a formation?" Qin Chen showed a look of surprise.

He had also heard of the magic of the Buyi tribe, but when he saw it with his own eyes, he was still a little shocked. These Buyi tribesmen turned themselves into the eyes of the formation. Every Buyi tribe is an eyes. Actually formed a big array.

This is much more convenient than the general array mage arranging array plates and array flags.

When the eyes of the general formation are arranged, it is extremely difficult to move, but the Buyi people, with their own eyes, can naturally move anytime and anywhere, and the evolution of the formation will naturally change rapidly. This transformation is far beyond ordinary humans. Array Master.

Even more frightening is that in the process of their movement, each person can adjust the sacred element and structure in the body to form a different formation.

It is worthy of the legendary formation family.

There is really nothing strange in the world.

boom!

When the breath of this group of Buyi tribes was completely connected, a misty light diffused out, shrouded the void in front, the originally stable void suddenly swayed, and a mighty array appeared. In front of everyone.

[Chapter 3362: Two-tier prohibition](#)

"Everyone, follow your own team and wait for me to break through."

At this time, the other top forces, such as the King of War Sect Master and the Void Bandits, dispersed. Qin Chen and the others belonged to the line of King War Sect, and naturally followed King King Sect's team quickly to the side of the big formation.

Qin Chen saw that after such a dispersion, the many casual cultivators present, the masters instantly divided into several camps, and landed in every corner of the void secret realm in front of them, orderly and logically.

"Awesome!"

Qin Chen couldn't help but complimented. I have to say that the major forces that organized this breakthrough cannot be underestimated. They actually used such a simple method to divide the casual

cultivators who occupy at least half of their power into several camps. Heed his orders, and there was no mess at all.

"Master, be careful when you break the formation. I always feel that something is wrong. These Void Bandits and the King of War Zong shouldn't be so easy to talk about, and these major forces have already investigated this formation, who knows Have you set any traps?" The voice of Mu Zhifeng, the sword king, suddenly entered Qin Chen's ears.

Qin Chen nodded calmly.

The strong people present are not fools. Naturally, many people also have concerns and doubts in this regard. However, at present, no one will risk offending the King Sect and other forces to put this issue on the table, and can only secretly speak to himself. Be vigilant and act by chance.

Qin Chen told the sword king Muzhifeng: "You will remember to protect Qianxue later. I'm fine here. Although the Buyi clan is strong, but wanting to pit himself in the formation, I think too much. The most important thing for us now is to find the Void Bandit who led me to wait and know which camp he is in."

The sword king Mu Zhifeng nodded and said: "What the young master said is, but this person's aura seems to be very well hidden, and he must come well prepared. It should not be difficult to find out."

"In fact, it's not as difficult as you think." Qin Chen looked at the location of the void bandit team, his eyes radiated light, and chuckled, "I already have a general goal."

At this time, a cold and stern shout of the Lord of the War King has echoed between heaven and earth.

"All the disciples of the King of War, do it!"

At the words, the Lord of the War King rose into the sky, and countless disciples of the King War Sect also followed closely. In an instant, countless halos rose into the sky, as if forming a battle formation. The power of the countless disciples of the King War King, They were combined in an instant, and then entered into the body of the Lord of War.

boom!

The terrifying aura that shook the world and the earth suddenly surged from the Lord of War.

"What a powerful force."

Qin Chen changed his color slightly. This King of War Sect Master himself was the cultivation base of the veteran late-stage saint master. Now, with the strength of countless disciples of King of War King, the aura on his body is even more terrifying, and the world is constantly under his breath. Vibration, rumbling magnificence,

At the same time, in other positions, the masters of the many forces also shot together, one by one, they burst out with shocking power. These forces quickly merged together, and then merged into the Buyi tribe's big formation. .

"Follow my orders and break the big formation."

The leading expert of the Buyi clan screamed, and immediately the forces of the King Zong and other forces were gathered together by him. Under the influence of the large formation of the Buyi tribe, these forces blasted into all corners of the void ahead.

Boom!

The large formation that appeared in the void suddenly shook violently, and dazzling ripples broke out in various places.

That vast array finally completely appeared in front of Qin Chen's eyes, countless array patterns surging, and runes flickered. The Bouyei tribe's master drew the power of the tribe's great array and turned the attacks of the King Zong and other forces into The sharp blades of the handles were inserted into every corner of the large array in front of them, forming a peculiar division.

"The formation is boundless, break!"

Accompanied by the scream of the Bouyei master, the large array in front of him suddenly roared, and the place where it was pierced gradually broke open, and the power of the array collapsed little by little.

Qin Chen squinted his eyes and said, "This Buyi clan really has two sons."

Although he had just seen the big formation in front of him, in a flash, he had already used the sky patching technique to carefully understand the big formation in front of him, although in such a short period of time, he had never broken it down. The method of the big formation, but it can be seen that the place where the Buyi tribe drew everyone to attack is the weakest part of the big formation, which can also be said to be the position of the front.

This large formation in front of me is extremely vast, densely packed with runes, and with obscure power. It is obviously a top-level large formation. Even Qin Chen wants to use normal methods to crack this large formation, it will take a lot of energy. , It is extremely difficult to break open.

But after hundreds of millions of years, this large formation has actually become very broken, and this Buyi method is not cracked by the formation itself, but the use of the formation that has become weak as the years pass. , To carry out a strong offensive, thus completely breaking the big formation.

How strong are the major forces in this void tide sea? Rao is that this formation is extremely mighty, but under the influence of the Buyi clan, the entire formation trembles constantly, and in the next moment, countless cracks appear. After maintaining the tea kungfu, this formation suddenly burst to pieces.

And at the moment when this large array burst, a blue halo burst out of the eyes of the Bouyei masters. After seeing the large array, there was a deep ban. The banning flashing bright rays of light, how big The offensive launched by the forces severely blocked the outside world.

From the point of view of the power of restriction, the power of this second level of restriction is much stronger than that of the first layer of formation. The average warrior might think that this second level of restriction may be higher than the first one, but Qin Chen But it can be seen that the levels of the two are actually exactly the same.

The reason why the strength of the second layer of restraint is higher is because with the protection of the first layer of formation, the power of this second layer of restraint will dissipate much less over the long years, and this will produce a stronger resistance.

"Everyone, what are you waiting for?"

At this moment, the masters of the big forces turned their heads suddenly, looked at Qin Chen and other casual practitioners behind, and shouted loudly.

When these foreign warriors saw this, some of them immediately flew up, urging the momentum to join the phalanx that broke the formation.

Qin Chen glanced at each other, flew forward, and began to make a move, but at the beginning, they only displayed a small amount of power and did not make a full move.

In fact, there are very few other casual cultivators who are doing their best, and everyone has their own thoughts and hidden strength.

Boom boom boom!

With everyone's efforts, the second level of restriction suddenly swayed, but although the restriction kept swaying, there was no sign of being broken.

[Chapter 3363: Found this person](#)

People from the Buyi tribe couldn't help but look a little ugly when they saw this. They kept changing their hands for several tactics, and they couldn't break the second level of restriction for a while.

The situation was deadlocked.

What made the situation worse was that the disciple of the Zhan Wangzong suddenly shouted at this time: "Sect Master, the formation of the first layer is about to be repaired."

While talking, the first layer of formation that had been broken open unexpectedly appeared bright white light, and an invisible force in the void was attracted, and it was gradually starting to repair the already broken formation in front of me. Law comes.

The expert of the Buyi tribe's face changed slightly, and he immediately shouted in a low voice: "Everyone, work harder."

At this time, someone on the side of the Void Bandit saw it, his face suddenly darkened, and his mouth sternly shouted: "Everyone, success or failure depends on this. If we can't break this second level of restriction, I will never enter this venerable secret realm. , Do you still want to retain your strength? Don't you want to see what good things are in it?"

Sovereign Lord Zhan Wang also shouted sharply: "Everyone, please don't keep your hands. When the time comes, you will lose yourselves."

People from other forces also started to drink low.

"Hmph, if the ban cannot be broken this time, and let this seat know that one of you is not working hard, I should not blame the wind demon thief for being cruel and beheading you all here?"

A cold, stern shout sounded, it was a void bandit with pitch black lines on his face. The whole spirit was extremely fierce, and his body was surging with terrible law power, with a warning.

This is the famous Wind Demon Thief among the Eighteen Thieves of the Void. The master who died in his hands was unfamiliar and cruel.

As soon as he said this, everyone's expressions were horrified, and many people even became confused. Obviously, just as they said, the casual practitioners who cooperated with the major forces did not use their full strength and expected others to make changes. With a lot of strength, I can sit back and enjoy it.

If the second-tier prohibition is removed in one fell swoop, it is fortunate to say that no one will blame it, but now the second-tier prohibition has reached a stalemate in the cracking process, which makes some people in an embarrassing situation.

The King Sovereign said: "I don't know what you think, but I want to see what kind of treasures are in the King Zong! This kind of opportunity may not be met in a lifetime, if it's to keep Strength, don't you feel regretful?"

When the words fell, he burst into the power in his body, and a more ferocious aura surged forward from his body.

Someone in the crowd could not help shouting when seeing this, "Since the Lord of the War King and you are so close, what else can I hide? If I don't take action at this time, when will I wait!"

When this person spoke, he no longer hid his clumsiness, and tried his best to urge a Saint Yuan.

The rest of the people looked at each other, their eyes were firm, and they all cheered.

In a short time, the already terrifying Saint Yuan attack increased a lot, obviously because of more power infusion.

And such an increase made the Buyi tribe feel a little faintly uncontrollable. He couldn't help but change his face, and shouted: "Okay, with the help of everyone, the old man is fighting for his life and must break this restriction. !"

With a single mouth, he spouted a mouthful of cyan blood to the front, which turned into a mist of blood, permeating the Buyi tribe's large array.

In the large formation, countless Buyi experts also vomited blood one after another. These blood mists turned blue and turned into a misty halo, causing the strength of the formation to surge again.

boom!

Above the restriction, there was a sudden fluctuation, the force of the formation and the force of the restriction had a earth-shattering collision, and the vitality between the sky and the earth was suddenly chaotic.

However, this prohibition has not been broken, although it shakes, it is still extremely strong.

"Master, should we also try our best?"

In the crowd, the sword king Mu Zhifeng asked in a deep voice, if this continues, the formation can be formed again, and the previous work will be abandoned.

Qin Chen's expression remained unchanged, staring at the Bouyei tribe's formation and restrictions, and sneered after a while: "No, Elder Mu, you hide your strength and pretend to be an ordinary late-stage holy lord. Now the restrictions are broken. The strength is enough."

"Enough?" Mu Zhifeng was startled, looking at the posture, it seemed that it was not enough.

Qin Chen sneered and said: "You didn't see that this Bouyei people deliberately hid their strength. In the process of cracking the restriction, they should have done some tricks, otherwise the restriction should have been broken by this time."

Mu Zhifeng frowned and said, "But what is the purpose of the other party?"

"It is estimated that it is to find the masters in casual cultivating. These secret realms are so rare. Finding out the masters hidden in the crowd will naturally help them grasp the overall situation."

Sure enough, as soon as Qin Chen's voice fell, the Bouyei people shouted again and asked for help, and the Zhan King Sect Master and others also shouted again and again.

Suddenly, among the crowd, a few terrible auras immediately rose up. It was obviously a few late-stage holy masters who had hidden their strength before. Now that they see the constantly closed formation, they finally can't hold back, for fear that their previous achievements will be abandoned. One by one, he couldn't hide himself anymore and tried his best.

The Void Bandit and the Lord of War, and the others felt these breaths and looked grateful, but they all sneered in their hearts. These guys are really good intentions to hide so deeply. Fortunately, they were prepared, no matter how they hide, Can't hide from their design.

At this time, at the position of Eighteen Thieves in the Void, the burly man said to a man with a thin body, a gloomy face, and a falcon-like eye, and said, "The third child, are there any people from Wudan Shop that day? Have you found them yet?"

The eagle-eyed man inadvertently glanced at the location of Qin Chen's trio, and said with a sneer: "I found it a long time ago. I didn't expect the people from Wudanpu to be so bold this day. I really dare to come here. Humph, I guess it's at least dark. I have six original Heavenly Dao Divine Pills."

"Don't think about the original heavenly path **** pill, it is estimated that they have used it long ago, this kind of pill is hard to find."

"It doesn't matter if you use it, there is definitely still in this secret realm. The key is that this person was originally in Dongguang City, refining a lot of medicines, getting a lot of holy veins and materials, and it is rich and oily. , This person is still a top sacred pill master, if we get the source of the heavenly origin in this secret realm, if we can capture this person, we will specially refine the pill for us, hum, will we be able to integrate the entire void by then The bandits of Tidal Sea have become a top force in this celestial world?"

The falcon man sneered.

"Hey, this is a good idea. Capture him and let him refine alchemy for us for life and life." The burly man also sneered.

[Chapter 3364: Prohibit backlash](#)

When this burly man was communicating with the eagle-falcon man, his eyes fell on Qin Chen's three people, and he said in a deep voice, "Old third, are these three guys?"

"Yes, it's them."

"One late saint master and two mid-term saint masters? Haha, it's no wonder that there is a late saint guarding so bold. I'm afraid they think they can sit back and relax with a late saint master in the void tide sea, right?" The burly man grinned. He stopped, his eyes fell on You Qianxue, and he licked his tongue.

"This little Nizi is pretty good. Her skin is white and tender. It's not as fierce as our Void Tide Sea women, soft and weak. She actually brought it out, hehe, the pharmacist is the pharmacist, come out of the Void Tide Sea. I didn't forget to enjoy it. I turned around and captured them. This little Nizi Laozi must have a good time. It must be very cool."

The eyes of the burly man showed a wicked look.

"Second brother, don't get caught. The other party is a pharmacist. He might be very sensitive. My breath has completely changed. This person can't detect it at all. But if you keep staring at him, there will be Perceived." The hawk man reminded.

"Hey, the third one, don't worry, who is your second brother? These three guys are too naive to find your second brother, but you are right. You can't get rid of the bans now. Let's break the ban first. His grandma's, I can't think of this. After the secret realm is alarmed, formations and restrictions will actually be formed. I knew that I had thoroughly explored this secret realm last time, and now I can only pass on the news to attract other people. It is really unlucky."

"Second brother, don't worry. Third brother, I have entered this secret realm. Then I will lead the way. What kind of forces such as the war king can only eat ashes behind the ass. It is the person from Wudan shop that day. Make arrangements and don't let them run away."

"Don't worry, the elder brother also knows about this, and it has been arranged long ago."

The two secretly communicated, dismissing Qin Chen's trio.

What the two of them didn't know was that Qin Chen had already locked them in when they quietly left Qin Chen.

"It's these guys, they are really hidden, and the aura has become completely different. What kind of treasure is this? It's kind of interesting."

Qin Chen's consciousness quietly locked the eagle-falcon man.

The gloomy eyes of the eagle-falcon man had a deep impression on Qin Chen, but he couldn't expect that when he saw this person again now, the aura on this person had become completely different, and even the expression in his eyes was completely different.

"Master, are you sure it is them?" The sword king Mu Zhifeng also secretly locked them.

"That's right." Qin Chen sneered: "Although this person is hiding well and his aura has completely changed, he has forgotten one thing, no matter how he changes his aura, the origin of his body is the smell of Heavenly Dao Divine Pill. But there is no way to hide it."

That day, the Taoist Pill was refined by Qin Chen. As long as the other party had taken it, within a short period of time, he would have the smell of the Heavenly Taoist Pill, and he couldn't hide it.

"Huh?" Suddenly, Qin Chen raised his head, "Attention, they are about to break the restriction."

As Qin Chen's voice fell, the expert of the Buyi clan suddenly screamed, and the power of all the experts slammed against the restriction.

Click...

Finally, a soft sound came out, and everyone looked happy after hearing the reputation.

Because of the sturdy second level of restriction, a hole was finally opened.

The masters of the Buyi tribe once again changed their formations and acted like a tiger, condensing all their strength, and slashed again.

With a bang, the second level of restraint was instantly torn apart, like a shattered mirror, it fell apart like this.

At the moment when the second layer of prohibition was broken, the formation that was about to close at the periphery was finally shattered like rootless duckweed, and disappeared.

"It's done!" someone exclaimed.

What's more, he has already moved his body, ready to rush forward.

But at this moment, the Sovereign of the King of War, the Buyi tribe, the Void Bandits, and others suddenly did not advance and retreated. At the same time, the masters of the King of War and other forces also made the same actions. , All back.

And at the moment they retreated, Qin Chen seemed to see their actions. He was taken aback. The body that was going to rush forward also quickly retreated, reacting extremely quickly, bringing Mu Zhifeng and You Qianxue quickly back and forth for hundreds of miles. range.

But most of the other casual cultivators didn't react and rushed forward instinctively.

The eagle-falcon man quietly glanced at Qin Chen in the process of retreating, and found that Qin Chen actually reacted, and he couldn't help but sneered. The people at Wudan Shop didn't react slowly this day, and they deserved to be a top alchemist.

The next moment, with a bang, from the forbidden void that broke open, countless forbidden rays suddenly burst out, and the terrifying breath of the void burst out suddenly.

A dazzling beam of light shot out from the void in front, as dense as raindrops, and fell into the crowd.

"what is this!"

"No, hide!"

Screams and screams came. The unsuspecting masters of casual cultivators saw that the situation was not right, and naturally avoided again and again.

But the prohibition speed blasted out of the void was too fast, and it didn't even wait for these people to be guarded before it came close.

The next moment, screams sounded one after another.

The volleying masters of San Xiu shot blood, like dumplings, falling from a high altitude, the more powerful warriors directly exploded into a cloud of blood, with no bones left.

The warriors closest to the Void Secret Realm fell into the hundreds in an instant, blood flowed across, and blood mist was thrown, and they were extremely miserable, while those warriors in the rear were only spared because of obstacles, but there were many. The body was seriously injured, extremely miserable.

In an instant, the casual repair masters who had occupied an absolute number of people before lost an unknown amount.

As for those who were fighting against Wangzong and other major forces, although some were injured because they were too late to escape, they were very few, just a few.

The scene was horrible instantly.

In the distance, Qin Chen's face couldn't help but his face was pale, and his eyes were cold and sharp.

In fact, they seemed to react when they saw the people of King Zong retreating. In fact, Qin Chen had already reminded them before the restriction was broken, just to confuse others.

As a master of formation, Qin Chen can naturally see the clues of this restriction, and there will be a backlash at the end, and the Bouyei people can naturally also see it, but no one has an outlet to remind the casual cultivators present. At the forefront are some of the top-level late-stage holy masters in the loose cultivation. Now these masters rely on their powerful cultivation bases, although they have not fallen, but everyone is injured.

There is even a late-stage holy lord who lacks an arm and is extremely embarrassed. I am afraid that he has lost at least 50% of his combat power.

Relying on the backlash of the prohibition alone, the forces of the King Sect and others would have compromised a fraction of the combat effectiveness of the loose repairs, and the opponent's calculations were too deep.

[Chapter 3365: Dark Bat Lord](#)

"After the prohibition is broken, there are indeed other traps." The Lord of the War King said in a deep voice with the master of the War King Zong.

The master on the side of the Void Bandit also glanced at the people around him, and found that although the casual practitioners around him suffered heavy losses, many of them were still intact, so he couldn't help but sneer.

The eagle-falcon man's eyes were always paying attention to Qin Chen's trio, and when they discovered that Qin Chen's trio had actually retreated behind them, and after they were safe and sound, his face also showed surprise.

"The third child, the people in Wudanpu had a quick reaction that day. They were able to react in such a short period of time, two times." The burly robber glanced at the three Qin Chen and said with a little surprise.

The falcon man sneered, "Second brother, that person is a top pharmacist. If he doesn't have this reaction ability, that's a strange one, but that's fine. If the three of them are injured, they don't dare to enter this secret realm. It's a headache."

"Hehe, that's what I said." The burly man laughed.

The scene was in a mess at this time, but the people from the several major forces were very calm, staring at each other in the secret realm ahead, the leader of the Buyi tribe frowned and said: "After this prohibition, there is indeed a backlash. The power is not weak. Fortunately I will be prepared early, otherwise I am afraid I will suffer."

While they were talking, many casual cultivators all around looked at the big powers one after another. When they saw that the big powers retreated for the first time, and after almost no injuries, they were filled with righteous indignation, with a look of anger on their faces.

The injured late-stage saint master in the crowd looked gloomy and angrily said: "Sect Master of the War King, your powers are too much, right? Knowing that there is still danger after this prohibition, he didn't remind me to wait, let me wait for injuries, What are your intentions?"

In his anger, he was so dizzy that he yelled directly.

As soon as this statement came out, it immediately drew the anger of the rest of the casual cultivators. From the performance of the major forces, everyone knows that these major forces have already known the danger after the prohibition, but they deliberately did not remind them. It's too much.

"Hey, what is it?"

At this moment, from the crowd of void bandits, an old man suddenly rushed out. He grinned and grabbed the late-stage holy master with one claw.

Boom!

Void trembling, the old man grabbed it with one claw, and terrible ripples appeared in the world instantly. The face of the late saint master who had broken his arm changed drastically, and he roared: "What do you mean?"

When the voice fell, he hurriedly raised his hand, and the power of the saint master in the later stage of the body rushed out, and the world was flooded by the terrible holy master's law for a short time, and

the two terrible powers bluntly collided, and he heard a bang. In the later stage, the saint spit out blood, his whole person kicked backwards, his face turned pale.

He was already seriously injured and had a broken arm. Now the injury has not healed. How can he resist a master of the same level? Suddenly the blood in his body surged, his injuries worsened again, and his heart sank suddenly.

"Hey, what do you mean? Don't look at your current situation, still chirping here, die for me."

The old man drank coldly, his eyes turned into eagles, and suddenly countless black bat phantoms flew across his body. These bat phantoms roared and turned into a black canopy, turning the late saint with the broken arm. The master master instantly shrouded in it.

"The Eighteen Void Thieves——The Dark Bat Lord?"

This person was furious and resisted again and again, trying to rush out of the shadow of the sky full of bats, but this person was already seriously injured, plus the previous injuries, how could he rush to kill? I heard a scream of screams from the bat phantom, the screams became weaker and weaker, and finally stopped abruptly.

Flop!

Countless bat phantoms ripped apart the origins of the holy master, swallowing the laws of the holy master, and finally returned to the old man's body with a storage ring in their mouths. The storage ring also fell into the old man's hands. In the later period, the place where the Holy Master was, was already empty, not even a single hair left.

This scene made the many casual martial artists present, one by one, they took a step back with fear in their hearts.

A late-stage holy lord was actually beheaded like this, with no bones left, is this dark bat holy lord too cruel? If you say something, you will do it, and it will not give others a chance to hesitate.

At this moment, many casual cultivators even retreated in their hearts.

"Jie Jie Jie." The Dark Bat Lord licked his tongue, and the scarlet eagle bird's eyes scanned the many casual cultivators present. It seemed that they felt the fear in everyone's hearts, and said with a grin: "Everyone is this void tide sea. The warriors also know that when going out, where is there no intrigue? Where is there no intrigue? I couldn't prevent myself, I was confused by the treasure, how can I blame others? The blame is to blame myself for not having more than one heart, still here Ask for justice, something that doesn't matter whether you live or die."

The Dark Bat Lord sneered, but did not continue to make a move. He shook his figure and instantly returned to the ranks of Void Bandits. When the Void Bandits saw this person, they all showed respect and gave way to some space. Among the Void Bandits, there is also quite a reputation.

"The Eighteen Void Thieves?" Qin Chen murmured.

"Young master, the eighteen thieves of the void refer to the eighteen top thieves who have been in this void tide sea for tens of thousands of years. In fact, it is not a force, and in today's Void Tide Sea, there are not only these eighteen thieves. Some thieves have been beheaded and fallen, and new thieves

have risen. The number eighteen is just a general reference. This dark bat saint master was one of these eighteen people back then, so it can be regarded as one of the eighteen thieves." Dao Wang Mu Zhifeng hurriedly explained.

Eighteen top thieves and eighteen late-stage holy masters can see the chaos of this void tide sea. When the old thieves fall, new ones will rise. It is no wonder that the void tide sea is the most chaotic in the heavens. One of the places.

"The bat supernatural power of the Dark Bat Holy Master can swallow others' holy sources to improve himself, which is interesting." Qin Chen nodded and sneered.

"Who else is dissatisfied now? Just ask, I will let him know what the rules are." Among the Void Bandits, someone sneered.

The audience was silent, and naturally no one spoke.

Before, even a late-stage saint master was beheaded. Where can they dare to do something? Especially in the presence of a few late-stage holy master-level casual cultivators, all of them looked pale and extremely ugly, but they did not say a word.

[Chapter 3366: Holy Master Medicine Field](#)

Because everyone knows that it's useless to say anything now. Although the big powers are not kind this time, as the Dark Bat Lord said, when going out, where is there no deception? I can't blame others for being inferior to others.

What's more, in the past, the saint master's lesson in the previous period, who would dare to talk nonsense, now the secret has been opened, if their casual cultivators dare to talk nonsense and accuse each other, they might really want to provoke several big forces to kill them.

No one would do such a stupid thing.

"Everyone, let me wait in."

The people of those big forces sneered and looked at the many casual cultivators present, and they looked at each other vigilantly, and suddenly took the masters of their respective forces, one after another, flew towards the secret realm.

Now that the secret realm has been opened, the major forces that were originally in a state of cooperation are naturally alert to each other.

People from these forces entered the secret realm one after another, and after a short while, they had already left completely.

Until then, there was a sound of cursing, but now these warriors can only have a hard time. Under the heavy casualties, many people have already retreated, especially those who were injured. Fan, also deeply knows that exploring this secret realm with these guys is tantamount to using life to find death, so naturally he dare not enter again.

But the vast majority of casual cultivators are naturally unwilling to give up the opportunity at this time, and finally came here, and opened the secret realm. Such an opportunity, I am afraid that it is rare for thousands of years to leave.

At this moment, a loud voice suddenly rang from the crowd.

"Everyone, everyone has seen the attitude of the forces such as the Void Bandits and the King of War before. These people rely on their strength and did not put us people in their eyes. I am all from all parts of the Void Tide Sea, even There are some people present, who are also top powers from various heaven realms, who came here inadvertently and learned the news, but they were not sufficiently prepared to compare with the forces such as the King of War."

This is a late-stage holy master with extraordinary aura and coldly said: "The treasures in this secret realm must be extraordinary, but if we wait for a piece of loose sand, I will definitely not be able to fight against the forces of the King of War, even if I enter the secret realm and see the treasure, It can only be slaughtered by others. Therefore, the old man proposed here that I wait for you to join forces and enter the secret realm together, and support each other. Only in this way, we can fight against the forces such as the King of War."

As soon as this remark came out, the court instantly became noisy. This idea immediately attracted everyone's approval.

They entered alone, and couldn't fight against forces such as the King of War at all, but if they joined forces, it was not necessarily the case. There were also several late-stage holy masters in the casual cultivator.

"good idea."

"When I join forces, I will not dare to insult me when measuring that war."

"Hmph, I am from the Longjiabao in the North Heaven Realm. If it weren't for the old man who led the team passing by here, and my fortress is not there, how can we allow the Dark Bat and others to be arrogant? They are fighting each other."

Many casual cultivators agree.

"But if I wait and see the treasure inside, how will I distribute it?"

At this time someone proposed.

The late Holy Master said: "Naturally it depends on strength, but I can promise that as long as any one of my team gets the treasure in this secret realm, this seat will never take any more looting."

The man said vowedly.

The crowd hesitated immediately.

At this time, the late saint master also began to send out invitations to the other late saint masters present. After all, in this secret realm, only the later saint master can draw enough people to fight against the forces such as King Sect.

As a late-stage holy lord, the sword king Mu Zhifeng was naturally targeted by others.

"Master."

The sword king Mu Zhifeng looked at Qin Chen and asked for advice.

Qin Chen glanced at those people and sneered: "Let's go, let's go in first."

Qin Chen has no interest at all to unite, and now the people of several major forces have entered for a while, and they are still wasting moments here, and the day lily is cold when the discussion comes out.

Moreover, there were already some solitary casual cultivators who were too lazy to unite, and had already entered them first, and Qin Chen did not want to waste time.

At the moment, Qin Chen and the three passed by the crowd, and immediately swept into the secret realm.

The entrance of Qin Chen and the others also attracted the attention of other people. It was as if the calm lake water was instantly broken. The crowd was noisy for an instant, and many casual practitioners could no longer hold back and rushed into the secret realm. .

Entering the secret realm, Qin Chen only felt as if his body had entered a passage of nothingness, and a feeling of weightlessness was transmitted. The next moment, a flower in front of him had already arrived in a valley. In the valley, there were everywhere. The mist was so full that Qin Chen was surprised that these mists were actually rich heaven and earth sacred aura, but they were too rich and turned into liquid.

And a rich fragrance lingers in the air.

"Master, look."

At this time, the sword king Mu Zhifeng came, and Qin Chen saw that there was a medicinal field in this valley, but the medicinal field had been plowed clean, a mess, and only some messy elixir was left. After being picked clean, the man even scoured all the land of this medicine field.

"Holy Master Medicine Field?"

Qin Chen felt the breath in the medicinal field, his eyes condensed, this turned out to be a holy master medicinal field, judging from the aura in the medicinal field, there were definitely a lot of holy master's elixir here before, but it was empty now.

"Master, it should have been picked by those big forces, but this mystery seems to be very vast, and everyone should be in different places after entering." Dao Wang Muzhifeng said after feeling around for a while.

"If you have something to say later, let's solve the immediate trouble first." Qin Chen smiled, and immediately looked into the depths of the valley.

I saw a few corpses lying in the deep part of the valley. It was just a few of the many casual martial artists who broke in first. In addition, there were also a few masters of the King Sect, with cold eyes. Looking at this side coldly, with a bad face.

These people are not weak in their auras, and each has a cultivation base close to that of the late saint master, which is equivalent to the old Huo and the sword king Mu Zhifeng who had never broken before. They guarded here, sneered with their eyes, and looked at Qin Chen with a smile. The three of them, although Qin Chen's three had masters of the late saint masters, they were not panicked at all.

"Hehe, there are so many people who have the courage in these casual cultivators, and they really dare to enter this secret realm. Do you really think that this secret realm can be let in and out?"

One of the leading elders sneered and said to Qin Chen and the three people: "If I were you, I would go back the same way now, and the province will find its own way."

[Chapter 3367: Hidden strength](#)

Seeing this, Sword King Mu Zhifeng frowned, naturally knowing that these people were left by the War King Sect to guard the entrance, in order to prevent loose repairs from entering this place.

On the surface, these big forces sounded good. Once the secret realm is broken, they will not be blocked, but in fact, I am afraid that the entrance channel of such a secret realm has already arranged manpower to prevent them and casual practitioners from entering.

Sword King Mu Zhifeng glanced at these people, frowned and arched his hands: "What do you mean?"

The old man sneered and said, "Don't you understand what you mean? Everyone is smart, so we don't need to say more? This secret is so rare, how can you really let you explore it at will? Three Now that I am here, the old man has two suggestions. Then return the same way, hello, me, everyone, but if you have to break in, then no wonder we are cruel and make you like the few people before. Same, lying here."

The old man glanced at the corpses next to them, the warning could not be more obvious.

"Your Excellency is too much. You have promised before that the Sect Master of Battle Kings, as long as I wait to break the restriction, I will never stop me from entering the Secret Realm, and the King Sect against you can be regarded as a famous sect in the Void Tide Sea, don't you be afraid of me When the news is spread out, will you ruin your reputation as the King of War?" You Qianxue said in a deep voice.

"Hehe, our Sovereign has not given you any promises, but the prohibition is broken and will not hinder you from entering the secret realm. He has said that, besides that, he only said that as long as you get the treasure, you will get what you need. The promise that Zong has fulfilled hasn't stopped you from entering?"

The old man smiled lightly: "Look at you, don't you already stand on this secret? I didn't stop it, did I?"

"you....."

You Qianxue laughed anxiously. Indeed, the King Sect of War did not stop them from entering the secret realm, but as soon as they entered the secret realm, they sent someone to stop here, and said that there was no stop, this word game was really good.

Sword King Mu Zhifeng said coldly: "If your Excellency said so, are you not going to let us pass by?"

The old man clasped his fists and said: "I dare not obey the command of the lord, and don't let my friends embarrass us. I know that you are a master of the late saint master, but since I am blocking here, I naturally have the confidence. I hope my friends will see In the past, we worked together to break the ban on the sentiment, and withdrew obediently, everyone is good."

If it is a friend who is a casual cultivator, the old man will kill if he says to kill, but Qin Chen and his team have the sword king Mu Zhifeng, the late-stage holy lord, although the old man is not afraid, but he does not want to be extravagant, just say a few more words.

"Do you think it's possible? Tудie Gou Pang, a good way for you big forces to play." Dao Wang Mu Zhifeng sneered: "If this seat insists on passing here?"

The old man's face sank, his narrowed eyes lit up with coldness, and his tone was cold and cold: "If that's the case, then don't blame my brothers for being merciless."

"Wait!" At this moment, Qin Chen suddenly stretched out his hand and shouted.

The old man immediately turned his gaze to Qin Chen. He thought that Qin Chen was trying to say something, but he could see it, but a sword qi was like an arrow from the string.

The old man's face changed, and when he raised his hand, a series of flags fell, and with a bang, all lights rose up in the valley in an instant. The old man looked at the eagle and bird, raised his hand and there was a holy treasure, which was cut out by Qin Chen. Jian Qi blasted over.

boom!

When the two terrible forces collided, the old man's expression changed, and many masters behind him were also shocked, because under Qin Chen's sword, the light in front of them shook violently, and there was a feeling that they were about to explode on the spot.

How is this possible?

The reason why they are so confident in the face of the late-stage holy master's sword king Mu Zhifeng is because this large formation can resist the later-stage holy master masters. With their strength, the general late-stage holy masters cannot attack them at all, but Now, under one blow, their formations have been hit hard, so they are not shocked.

"Huh? The top team? No wonder you are so confident." Qin Chen sneered.

But when Qin Chen shot, the sword king Mu Zhifeng also moved, and a battle sword appeared in his hand, and the battle sword turned into a sword light that pierced the sky, and furiously shot towards the large array in front of him.

"Be careful, everyone, follow me to push the formation."

The old man shouted angrily, his expression was solemn, the holy source inside his body gushed, and suddenly poured into the formation, rumbling, he saw that the power of the array became stronger and stronger, and at the same time the sacred treasure in the old man's hand was covered with a light knife. Lily shouted: "The fighting spirit is high!"

A mighty holy light swept across, the blade light flickered, the terrifying holy yuan overflowed, and the streamer-like light collided with each other.

Rumble... a loud noise came.

The elder who fought against Wangzong drew the power of the formation technique, and actually resisted the attack of the wind of the sword king, and the power that was inspired seemed to break the entire valley.

At the same time, You Qianxue's figure flickered and she was about to attack. Before she could take a shot, Qin Chen's voice suddenly passed, "Qianxue, don't reveal your strength, don't worry about breaking through this big formation. "

Qian Xue was stunned. Although she didn't know why Qin Chen said to herself, she was extremely keen on her mind. The cold ice sword aura in her hand instantly turned into an ordinary mid-term peak holy master attack, and countless cold ice sword auras fell on her. Above that large formation, it was instantly annihilated by the terrifying light, which did not affect the entire large formation at all.

"Boom!"

On the other side, the sword king Mu Zhifeng also acted outrageously, and the terrifying sword aura continuously rushed out, slashing on the formation, the entire large formation roared and shook violently, but it resisted the attack of the sword king Mu Zhifeng layer by layer. Down.

"Dust, Elder Mu is also your ability to hide, right?"

You Qianxue frowned and spoke.

Although this formation is strong, You Qianxue can see it at a glance. The formation in front of her can trap ordinary late-stage holy masters, but it is impossible to trap Qin Chen and the wind of the sword king, especially Qin Chen, itself. Master Formation Dao, wanting to trap him, at least wait for the large formation at the peak of the late stage, but this great formation is simply not something that these few masters of the War King Zong who are not even the late Saint Master can arrange.

"Hehe, I ordered it."

"What are you?"

You Qianxue was puzzled, what strength did Qin Chen hide in front of a few young men?

But she had doubts in her heart, and those few fighting kingzong masters were shocked.

Although Qin Chen and the three of them had all hidden their strengths, seeing the large formation that was constantly shaking in front of them, that could break open at any time, the hearts of those few fighting kingsong masters were shocked.

Why are these three guys so perverted? It has exceeded their expectations.

"Hehe, it finally appeared."

And just when You Qianxue wondered why Qin Chen wanted to pretend, she heard Qin Chen suddenly chuckle.

[Chapter 3368: Huangyun old man](#)

What appeared?

Doubts emerged in You Qianxue's heart. The next moment, she saw the sky in the distance, whoosh, and suddenly a few figures flew over. These figures all exudes a terrifying aura and are extremely fierce. The leader is a master of the late saint master with a strong aura.

"what."

These people seemed to be passing by here, feeling the fluctuations here, and they flew in one after another, and instantly fell outside the valley.

"Ok?"

Seeing another person coming, the complexion of the few King Zong masters changed, especially after seeing these people flying from inside the secret realm, their expressions changed slightly.

"Young master, those few people seem to be the ones in the previous casual cultivators."

The sword king Mu Zhifeng suddenly said something. He recognized the leader. This late-stage holy master was a thin-faced old man. His aura was extremely powerful. He was one of the few late-stage holy masters who had been in the early days of cultivating. Because this person was very low-key before, the sword king Mu Zhifeng didn't care much before, but after all, this person was a master of the late saint master, so when he appeared, the sword king Mu Zhifeng still recognized the person.

"These few casual cultivators have actually entered the secret realm. Did they break in from another place?" You Qianxue asked in doubt. She turned to look at Qin Chen, even if these people broke in from another place. In the secret realm, why did Chen Xiao finally appear before?

Does Little Chen know they will come?

But these people have nothing to do with them. How did Young Chen know that they would appear?

"Okay, Mr. Mu, someone will be ready to shoot for us soon."

Qin Chen chuckled lightly, and the voice transmission said, before his words fell, the group of masters led by the skinny old man had already seen the battle in the valley, and after seeing the few people in the King Sect, the old man's eyes suddenly surged. There was a strong murderous intent.

"A few friends, the old man Huang Yun, a casual cultivator in the void tide sea, this war King Zong and other major forces pretended to let me wait to jointly open the restriction, let me wait in, in fact, put a dark hand in this secret realm, I wait Come and help your Excellency."

The skinny old man's voice fell, and his figure shook, and a black flying bowl appeared in his hand. As soon as the flying bowl appeared, it turned into a black streamer, and fell fiercely towards the battle king sect. .

"Old man Huang Yun, you are so brave to interfere with the affairs of our King Sect. Are you looking for death?"

The look of the old man who fought against Wangzong was frightened. They had already struggled to resist the Qin Chen trio. In addition, the Huangyun old man, the late saint master, was immediately shocked.

"Huh, Zong Wangzong, is it great? You have broken your promise. It's really hateful. The old man sees you and the void bandit are just the same thing. Go to death with the old man."

Boom boom boom!

The old man Huang Yun brought a lot of masters and made a strong move. In a short time, the flying bowl suddenly smashed the large array below, and with a bang, there were countless cracks in the entire large array. This flying bowl did not know what treasure it was. The flying bowl quickly split a gap.

"Friends, take action with me and kill these wicked men."

The old man shouted sharply and greeted the sword king Mu Zhifeng. The sword king Mu Zhifeng shook his figure. Taking advantage of the moment when the Huangyun old man split the formation, he cut out countless blade lights. In a short time, the blade light was like a cloud. , Spit out, smashed crazily on the big formation, and heard a bang. How could the big formation that had already broken open withstand the two great late stage masters' shots, it was instantly broken open, violently The roar almost overturned the entire valley.

"Haha, good friends, kill!"

The Huangyun old man roared and rushed into the big formation, poof, flying bowl flashed, and a fat master of Zong Wangzong's body was in a different place, and his whole body was divided into two by the flying bowl, which was extremely miserable. .

"You... **** it, go!"

Upon seeing this, the elder Zong Wangzong looked furious and screamed. With the few remaining masters of Zong Wangzong, he rose into the sky and wanted to leave here.

"Kill it."

Qin Chen chuckled lightly, his figure shook, and suddenly appeared above the void, blocking the front of a master of war kingzong.

"You..." The King Zong master roared, just about to take a shot at Qin Chen, suddenly a peculiar power emerged from his side. Once that power formed, it enveloped him like a cage for a moment. He only felt that the space around him suddenly became extremely sticky, and he felt like he had fallen into the swamp, and this power not only affected the flexibility of his body, but also affected the operation of the power in his body.

"The law of space!" The master of the war king lost his voice in horror.

The law of space is the most difficult to control among countless laws, but at the level of the Lord, in fact, everyone can more or less master some, but most people master the laws of space, at most, they can make them fly faster. , It's easier to travel through the void, and like Qin Chen, only urging the law of space can imprison him.

This son is not even the late saint master, why is the law of space so terrifying?

He was shocked, biting the tip of his tongue, spouting a mouthful of blood, and at the same time screamed wildly, desperately urging the Saint Yuan in his body, wanting to get rid of the shackles and suppression of this space law.

There was a clicking sound, and the sound of rubbing from the bones of the master of the king of war was heard, making people extremely sore in their ears.

Behind him, Qin Chen smiled leisurely when he saw this, a long sword leisurely appeared on the palm of his hand, his body power poured into the long sword, accompanied by the sound of a cracking sword, Qin Chen's body was wrapped in sword light. Turning into a whirlwind, the light on the tip of the sword flickered, and with a chuckle, it pierced into the heart of the master of war King Zong.

"Ah!" The figure of the Zong Zong master trembled and screamed. The small eyes that had been squinted suddenly became round, and he looked at the **** sword tip through his chest, as if he had seen a ghost in the day. The incredible color.

The light flashed, Qin Chen appeared in front of this person, the long sword in his hand had already been drawn out, the master of the battle king screamed, the life force in his body passed away and fell on the spot.

At the same time Qin Chen killed this person, the battle in the valley was over, and he lost the guardianship of the formation. How these masters of the King Sect were the opponents of such masters as Huang Yunshou, just a few breaths Only, several top masters have all fallen, becoming the same corpses of the warriors they had killed before.

"Haha, a few friends are really good at it. It seems that even if the old man doesn't make a move, a few friends should be able to kill this man who fought against King Sect."

The old man of Huangyun laughed and glanced at Qin Chen in amazement. It seemed that he was also shocked by the spatial power Qin Chen displayed. At the same time, he raised his hand and the storage rings of the disciples of the King of War had fallen into his hands.

But he did not put away the storage ring, but as soon as he raised his hand, a few storage rings swept towards Qin Chen, smiling: "These storage rings are supposed to be prizes for several people. , The old man will not take it, borrow flowers to offer Buddha, haha."

[Chapter 3369: Extra weird](#)

Qin Chen was not at all polite and took the storage ring directly, anyway, don't let it go.

After accepting the storage ring, Qin Chen directly said, "Thank you for your help. Now that the warlord who is blocking here is no longer there, I will leave, and hurry up and search for this secret realm is the right way. "

Qin Chen arched his hands and looked at each other with the sword king Mu Zhifeng and they were about to leave.

This Huangyun old man obviously did not expect that Qin Chen would put away the storage ring unceremoniously, and left as soon as he said, his expression changed, and he hurriedly said, "Wait!"

Qin Chen stopped, and turned around questioningly and asked, "Why, is there anything else for my friend?"

The old man Huang Yun laughed and said: "A few friends, this is the case, old man Huang Yun old man, and these few are some casual cultivators I brought in before. I think about the actions of several major forces. I also know that, the old man will not sell the key. I think a few of them have extraordinary skills and are also casual cultivators. Now the situation in this secret realm is unknown and it is very likely to be dangerous, so the old man suggested that I should wait to explore the secret realm together. At that time, no matter which one of the major forces encountered, at least there was a certain degree of self-protection."

"This, I'm afraid it's not so good." Qin Chen was stunned and frowned, "Who is the one who has encountered treasures? After all, the treasures here must be extraordinary. It's not that I can't trust you. If you don't want to take this risk, let's leave it alone for the time being."

Seeing that Qin Chen disagreed, he turned around and left. This Huangyun old man's eyes flashed with a cold light, but he quickly recovered his calmness, and said with a smile: "Your excellency thinks too much. Since the old man suggested so, naturally I won't do anything like that of swallowing treasures, so since your Excellency can't believe me, I'll show my sincerity here."

When the words fell, a storage space suddenly appeared in Old Man Huang's hand, and he threw it directly to Qin Chen.

what is this?

Qin Chen's divine consciousness penetrated into the storage space, and unexpectedly found five middle-grade holy veins in it, in addition to several top-grade pill, this pill is very powerful, even close to the top-grade holy master pill Medicine, contains endless principles of the Holy Lord, although it is not as good as the Heavenly Dao Divine Pill, it is not much different. It is a top-level pill.

"In order to show sincerity, here are the five middle-grade holy veins and a few sacred pill of the World War. I will give it to a few first. If the old man dares to swallow the treasure at that time, these things can be regarded as some compensation. , Of course, the old man is absolutely impossible to swallow, just to make you believe me, how?"

The old man Huang Yun looked at Qin Chen and the three with scorching eyes.

You Qianxue was stunned. This was the first time she saw that she took out the treasure at will in order to make herself trust him. How bold is this?

Qin Chen laughed directly, "Since your Excellency is so sincere, if I don't agree to the union anymore, I won't give face anymore. If that's the case, then I will agree on behalf of the three of us."

"It's so good." Huang Yun's old man suddenly expressed joy, "With three people joining, the team I'm waiting for has grown again this time."

He paused: "In that case, I will set off now. The old man has the ability to track the breath of others and track his deeds. Those major forces enter first, thinking that they can leave us waiting, but the old man can rely on Follow their breath."

The old man Huang Yun laughed.

"Oh? Is there such a magical power?" Qin Chen smiled and said, "What are you waiting for?"

At the moment, under the leadership of this Huangyun old man, Qin Chen and his group flew up and flew toward the depths of the secret realm.

"Dust, this Huangyun old man is a little weird, this person definitely has a problem."

During the flight, You Qianxue frowned and spoke, and the sword king Mu Zhifeng also looked over.

"Hehe, do you think I don't know? Don't be surprised, you two, this person should be a person from the Void Bandit." Qin Chen followed Huang Yunsou and said with a sneer.

"what?"

You Qianxue and Dao Wang Mu Zhifeng were taken aback, one of the Void Bandits? How is this possible? Was the opponent beheading the master of Zong Wangzong before?

"Although the Void Bandits and the people of the King of War have cooperated in the outside world, when they arrive in this secret realm, they all rely on their own abilities. It is human nature to dismantle each other, and if I am not wrong, this person should have let me The group of void bandits who refine the Heavenly Dao Divine Pill."

"I understand."

You Qianxue suddenly woke up, "Dust, the people of the void bandits know our identity. Since they know that I am waiting, they will definitely not let go of the opportunity to plunder us, but they are not easy to do in the outside world, so wait until we enter. At that time, they pretended to join forces, but in fact they wanted to plunder the treasures from me."

"Yes, you finally understand." Qin Chen smiled.

"But since you know that he is the Void Bandit, why did you agree to cooperate with him?" You Qianxue was puzzled again.

Qin Chen shook his head, Qian Xue was still too simple.

But the sword king Mu Zhifeng smiled and said: "Young lady, young master, this is going to catch it all in one go. This Huangyun old man must now take the place of the void bandit, and those void bandits are the ones who know this secret best. Master, this is Deliberately let the other party lead us."

"It's no wonder Chen you said that you finally came. So you had expected that the other party would come. Also, even if the average person is sincere, it is impossible to directly give others the five middle-grade holy veins in order to gain trust. The pill for you." You Qianxue laughed.

"Do you think they are very sincere? The Holy Lord's Sacred Veins has long laid a secret forbidden law. If it weren't for me, I wouldn't be able to discover it!" Qin Chen sneered again and again, "Moreover, the pill is also arranged in the same way. There is a restriction so that even if we are separated from each other, they can also know where we are."

Qin Chen had been guarding against the other party a long time ago. He had carefully checked the pill before and immediately discovered that there was a secret method hidden in it, an ordinary Holy Master couldn't find it.

But who is Qin Chen? The art of patching the sky reached its peak, and he could discover even the subtlest restriction.

Moreover, according to calculations, Qin Chen discovered that this is an extremely vicious forbidden method. As long as he swallows the pill or absorbs the holy energy of the holy veins of the holy master, he can hide in his body, attack and transform at any time. Be a vicious seed and restrain yourself.

But Qin Chen didn't show it, he wanted to see where this Huang Yun old man would take him to run.

Right now, they shuttled in this secret realm.

This secret realm is very weird, like a small world, but the power of the law in it is extremely rich, giving people a particularly weird feeling.

[Chapter 3370: No need to install](#)

"Master, there seems to be something wrong with this secret."

Suddenly, the sword king Mu Zhifeng frowned and said to Qin Chen.

"You feel it too?" Qin Chen glanced at him.

"Dust, this secret realm seems to be able to affect our holy master origin." You Qianxue said solemnly.

In fact, without their reminders, Qin Chen felt it too. As they stayed longer in this secret realm, Qin Chen vaguely felt that the origin in his body seemed to become stagnant. This stagnation was very cryptic, but Qin Chen How sensitive the two of You Qianxue and You Qianxue immediately clearly felt that a force in this secret realm was affecting their origin and assimilating their power.

This is also why both he and Qian Xue are top arrogances, and Qian Xue is even a descendant of the Supreme Lunar Glaze. Most people, even masters of the later stage holy masters like Sword King Mu Zhifeng, just feel that something is wrong, but they don't know the specific reason.

"Mur, this world can assimilate our origin. If we stay in this secret realm for too long, our origin will be assimilated and become a part of this world." Qin Chen said.

The sword king Mu Zhifeng couldn't help being shocked, it was too terrifying to be able to assimilate their origins.

"Then how long can we stay?" Dao Wang Muzhifeng asked in shock.

"Don't worry, this process of assimilation is very slow. According to the current speed, it will take at least one month for our origin to be completely assimilated. As long as we leave here during this month, it will do, but it is only temporary. I don't know if the speed of this later assimilation will change."

Qin Chen frowned and looked at the Huangyun old man in front of him.

Judging from the performance of Huangyunsou and others, it seems that Huangyunsou and others are not aware of the special features of this secret realm.

Along the way, even though Qin Chen and the others had followed behind several major forces, Qin Chen and the others had found a lot of holy master elixir along the way, and they were all high-quality holy master elixir with sufficient years.

In order to show justice, this old man was completely unmoved in the face of these holy master spirit medicines, and asked Qin Chen to pick them first, and the casual cultivators around him also expressed no opinion.

Qin Chen sneered in his heart. Since the other party wants to continue the performance, Qin Chen will naturally not expose it. He is also not polite, nor does he collect these holy master's elixir, but directly moves this place up and loses everything. In the jade dish.

Seeing that Qin Chen was so lavish, Huang Yunsou even smiled and didn't mind at all. It was obvious to him that Qin Chen was just taking care of him temporarily.

The more Qin Chen went inside, the more pleasantly surprised he was. This trip is really worth it. There are so many elixir here, not only the ordinary holy master spirit buds, but even some top holy master spirit medicines. There have been quite a few, and the grades of these elixir are very high, and the age is very good, which is almost hard to find in the outside world.

After half a day, the Holy Medicine Garden in the Qin Chen Qiankun's Good Fortune Jade Plate has a radius of several miles, and they are all top-level Holy Master's Holy Veins. The key is that these Holy Master's Holy Veins can continue to grow in Qin Chen's Universe Fortune Jade Disk. , Just wait for Qin Chen to pick it directly when he needs it.

And as Qin Chen and the others entered, a valley suddenly appeared in front of them.

"Hey, there are valleys, maybe there are good things in them."

The old man Huang Yun said something, and flew towards the valley.

Whoosh whoosh!

The three Qin Chen followed closely, and naturally entered the valley.

The valley was very calm, and the holy energy was extremely rich. On the ground, some spiritual grasses were growing, but there was no magic medicine.

And in the depths of the valley, there is a place shrouded in mist, where there are waves of holy energy, as if some treasure is about to be born.

"There must be some kind of treasure in this valley."

The old man Huang Yun showed excitement on his face, looked at the three Qin Chen, and said in a deep voice: "Three, there must be treasures in this valley, but this place is very strange. I'll be more careful when I wait. It's better to join hands to explore. How? It's good to have an answer."

Qin Chen sighed suddenly.

"Oh, I thought you would take me to find the place Dao Yuanguo found that day, but I didn't expect you to only bring us here. It really disappointed me."

"What did you say? What kind of heavenly origin fruit?"

A hint of surprise flashed in Huang Yun's eyes, and he even spoke.

"At this time, I still want to pretend to be? The ones hiding in the valley should be yours. Come out, hiding in sneaky like a sneak attack?"

Qin Chen shook his head and said.

"Hehe, your excellency joked, what is our person? Your excellency seems to have misunderstood the old man, and the old man doesn't understand what you are talking about." Huang Yun said puzzledly, seemingly puzzled by Qin Chen's words.

"Still talking nonsense? It seems that you still want to continue to pretend, forget it, Elder Mu and Qianxue, you stop this valley, don't let these guys run away, this young man will take this Huang Yun old down first and watch him How to install it."

Qin Chen's voice fell, no longer talking nonsense, and even directly reached out his big hand and grabbed and photographed Huang Yun.

This old man Huang Yun did not expect that Qin Chen said he would do it, his face suddenly angrily said: "Your Excellency is too much, right? My old man Huang Yun has taken care of you all the way, you are actually suspecting me, if you don't give it to the old man today An explanation, the old man will definitely not give up."

He seemed to have been wronged, and his expression of anger was extremely angry, as if he couldn't bear it at all, the flying bowl in his hand was already sacrificed.

"boom!"

A violent roar emanated from the pitch-black flying bowl, and at the same time countless black rays of light shot out from the cymbals. These black rays of light were intertwined, and did not directly shoot at Qin Chen, but spread out around and slowly formed It left a trapped space, and after the black cymbal flew out, it immediately divided into two round wheels.

These two round wheels were covered by countless black light spaces, and they were clipped to Qin Chen like an electric light, as if they wanted Qin Chen to be trapped in this flying bowl.

The booming sound became sharper as the speed of the cymbals became faster, making Qin Chen feel dizzy, and even caused people to rush out of this cymbal immediately, don't stay in the middle of the cymbals. The impulse, otherwise this voice will also disturb the soul sea.

This flying bowl actually carried a trace of mental attack.

Ordinary warriors can't bear this kind of mental attack at all, and even the late saint masters such as Sword King Muzhifeng will be attacked by this kind of mental attack, disturbing the mind, and Qin Chen's eyes become dull under the influence of this mental attack.

Huang Yun's face suddenly showed a smile. Qin Chen was so bold that he attacked him directly. He was a little worried about the wind of the sword king, but Qin Chen shot it alone. Once he was caught instantly, the opponent would Completely cast the rat avoidance device, there is no need to fight.

Thinking of this, Huang Yun's heart was completely let go.
