

Valkyrie 3391

[Chapter 3391: Review talent](#)

"what?"

In that dark space, the cold voice couldn't help being shocked when he saw that the poison of invading Qin Chen's origin had no effect.

"What is this? There is a terrible power in this kid's body that I have never seen before. I really want to feel the origin of the heavens. What kind of treasure is this?"

This cold voice was extremely shocked and full of excitement.

"This son, the origin is absolutely extraordinary, the soul secret method of the venerable level, the tyrannical body, the powerful medicinal attainments, and the understanding of the battle path, as well as the terrible treasures contained in the body, are simply impeccable."

"Look at what this kid does next."

Hum!

A hundred breaths, saying that the length is not long, and that the short is not short. After a while, the endless poison array disappeared, Qin Chen felt a sense of space folding, and his figure disappeared into the stone room again.

When Qin Chen successfully passed the Poison Array Examination, the other half, the Fire Demon Pill Sage, also successfully passed the Poison Array Examination. As a planted demon clan, he was far more resistant to poison than ordinary human warriors, the planted demon clan. , The rumor is that when the world was opened up, an elixir became a demon, a race evolved.

With the dual characteristics of plants and demons, resistance to toxicity is naturally far more than anyone.

"puff!"

In another stone chamber, Mo Li opened his mouth and spouted a mouthful of blood, dying all over his body. Although he possessed the blood and power of the two races of human and demons, he was far inferior to Qin Chen and Fire Demon Pill Sage in terms of resistance to toxicity. Festering, dying.

But in his body, there is a powerful magical power that protects him and prevents him from being completely corroded.

"Huh? This son is only the initial peak Saint Master cultivation base, and actually resisted the erosion of the deity's Poison Array. Although it is far inferior to the human race kid, it has some merits, and there seems to be a powerful demon in this person. , Is it the descendant of any top powerhouse of the Demon Race?"

This cold voice murmured.

"Nevertheless, let him pass, and see how he performs below."

Hum!

The poison formation that had stopped after reaching a hundred breaths a long time ago suddenly lit up a ray of teleportation light, and Mo Li disappeared in this stone chamber.

Qin Chen was in the teleportation formation, and his eyes went dark. After he stabilized his figure again, he turned his head and looked around for a while, then shook his head speechlessly: "Come back."

This is actually another stone room.

How many levels does the inheritance of this pill Dao have to go through? Each of the three previous levels is extremely terrifying and can pose a threat to the saint master of the later period. If one is not careful, even Qin Chen will be dangerous. Are you really looking for a descendant? Instead of killing?

However, since he has come here, Qin Chen will naturally not retreat, and he has no way to retreat. He walked into the middle of the stone room in a few steps.

In the middle of this stone room, there is a stone platform. On the stone platform, three different medicinal materials are placed. Judging from the breath of the medicinal materials, they are all extremely poisonous medicinal materials, which are roughly equivalent to the middle-grade holy master. level.

The poisons of the middle-grade saint master level were not considered high grades, but the three medicinal plants were actually poisons, which surprised Qin Chen.

It seems that this alchemy power is very likely to enter the Tao with poison.

"Young man, congratulations on coming to the fourth level. The fourth level assesses the ability to condense medicinal liquids. You have also seen the three medicinal plants in front of you, all of which are toxic medicinal materials. These three medicinal materials must be condensed to 99 purity. The above, and the medicinal solution of the three medicinal plants is fused and placed in the groove of the stone platform in front of you. If the fusion is successful, the assessment will pass."

"Once the purity is not enough, or the fusion fails, these three toxic medicinal liquids will react, and the terrible toxins they produce will be hard to resist even for the late Saint Lord. Jie Jie Jie, young man, come on."

The cold voice subsided.

Actually want to condense the liquid medicine.

As long as the purity reaches a certain level and the three liquid medicines are merged, the teleportation circle in the stone chamber can be activated.

Condensing medicinal liquid is nothing to Qin Chen. He has done the work of condensing medicinal liquid countless times so far, and condensing medicinal liquid has a great test of soul power and spiritual consciousness. He has a heavenly soul. The secret method of forbidden technique has a soul far beyond the average pharmacist, and can more easily condense the liquid medicine and remove all kinds of impurities in the liquid medicine.

And for a medium-grade saint master-level medicinal material, it is not that difficult to condense the liquid.

The only trouble is that these three strains are all poisons, and if one is not careful, it will bite itself back.

But this is nothing to Qin Chen.

The only thing that made Qin Chen feel weird was that he always felt as if someone was staring at him since the third stage of the poison formation.

Could it be the consciousness of this alchemy?

That's right, after oneself is in the assessment, that consciousness selects heirs for the master of the previous life, and naturally it must be assessed.

At this point, Qin Chen no longer hesitated and urged his mental power to wrap one of the medicinal plants.

After a while, the medicinal plant turned into a drop of dark green liquid, and impurities continued to fly out of it, making the emerald green liquid more clear and insightful.

The smelting of the three poisons was nothing to Qin Chen. After half an hour, Qin Chen had completely smelted the three poisons into a liquid of extremely high purity. The only trouble was the fusion with each other, but in Qin Chen's eyes Here, it is not difficult.

Carefully fusing the three medicinal plants together, Qin Chen placed the medicinal liquid formed into the groove in the middle of the stone platform, and the familiar transmission array appeared again.

In the next time, Qin Chen spent the rest of the time in one stone room. I don't know how many of the inheritance channels are assessed. Moreover, the tests given in each stone room are different. , There are those who need to refine the poison pills, there are those who test the heat, and there are even those who test the strength of the soul...There are so many weird things.

There are even some tests that have been separated from the aspect of alchemy, but are testing the martial artist's own soul strength, perception level, physical strength and so on.

This Dan Dao is able to find a successor, and the assessment is too detailed.

Fortunately, after the initial experience, although the following assessments are also dangerous, the overall situation is not greater than the first three levels. As long as you are a top alchemist, you will basically not have too many problems.

When Qin Chen was accepting the inheritance.

In another mysterious space, You Qianxue is also being tested.

Her whole body is surrounded by terrible ring-like things, which carry a terrifying breath that makes the heart palpitating, and they continue to bloom with terrible laws.

And You Qianxue displayed the Moonlight Divine Body, constantly resisting this terrible force.

She has been inherited from the supreme lunar glaze, and is very familiar with this scene before her, because this test turns out to be a test of a person's understanding of the law, and a review of a person's aptitude and the power of one's own blood.

[Chapter 3392: Black breath](#)

This makes You Qianxue feel extremely curious. The other party is a great alchemy, and is not looking for an apprentice. Why should he review his blood, rules, and talents?

And the power released by the circles is getting more and more terrifying, and when it comes to the back, it has approached the level of the late Saint Lord.

And under this test, You Qianxue's perception of herself has also improved, and her body is gradually affected by the force of the law released during this test.

puff!

You Qianxue felt a shock in her body, and terrifying streams of water surfaced all over her body, which was the water of nine poles.

"It turned out to be Nine Extremes of Water."

When Nine Extremes of Water appeared around You Qianxue's body, the cold voice in the dark space immediately said in shock. The water of the nine extremes is the mother water that was created when the world was first born. It is extremely terrifying. Even a powerful person of the venerable level may not be qualified to own it. You Qianxue has also mastered the nine great ways of the Taiyin glazed glaze supreme, and cultivated into the ethereal sky. body

, After the soul is condensed into the colored glaze **** lotus, it can be mastered. And at the moment when the Nine Extremes of Water appeared, You Qianxue also felt the glazed lotus condensed by the soul in her mind suddenly shook, and even a trace of black law in her mind was shaken out, and then she was shaken out. The power of the water of the nine poles gives

Eliminated.

"What power is this? When did it appear in my mind?"

You Qianxue was taken aback, unknowingly, this power was directly imprinted in her body in the silent sound of her test. If it weren't for her inheritance of the supreme lunar glazed glaze, and her soul was cultivated into a glazed lotus, no dust and dirt, and no power could invade, she would not even feel it, and the Nine Extremes of Water had obviously sensed this power voluntarily. ,

She was protected.

The moment the Nine Extremes of Water appeared on You Qianxue's body, the ring instantly dimmed and disappeared.

In the void, a fruit exuding a delicate fragrance slowly appeared in front of You Qianxue's eyes.

"Congratulations, you have passed the test. This is the first time this deity has seen a younger generation who can possess the water of the Nine Extremes. Who is Taiyin Liuli Supreme?"

That cold voice resounded in the void, full of shock.

"That is to be a teacher."

Although You Qianxue felt something was wrong in her heart, she respectfully said.

"It's no wonder that Taiyin Liuli Supreme is your master. It's a pity that the deity is a pharmacist. Otherwise, I really want to accept you as a disciple. What a pity, what a pity."

"Never mind, this Yin Water System Heavenly Dao Origin Fruit should be able to give you many improvements on the inheritance of the Tai Yin Dao. This is the only thing the deity can give you."

The cold voice said with emotion, and when the voice fell, You Qianxue felt a flower in front of him, and the whole person had appeared in a cave.

This cave is extremely vast. In the center of the cave is a huge open space, like a valley. On this open space, many people have gathered. What shocked You Qianxue was that in addition to the Kings of War, the Void Bandits, and the Human Race masters who have been seen before, such as the Buyi tribe, there are actually a lot of demons here, and the two sides are facing each other coldly. Be careful

Watching.

Among them were the people who condemned the thief, and apparently these people had entered the test passage just like You Qianxue.

As soon as You Qianxue appeared, he attracted the attention of these people.

The falcon man who condemned the thief suddenly changed his face when he saw You Qianxue.

He obviously asked the second master and Huang Yun to deal with the people of this day Wudanpu, how come the people of this day Wudanpu still managed to break into the cave of this powerful alchemy?

On the contrary, there is no news from Huang Yunsou and the second boss. Could it be that what happened to the two of them?

The falcon man's eyes suddenly became extremely gloomy.

However, at this time, everyone is confronting the demon, and this person is naturally not good at showing anything.

"Young lady."

After You Qianxue appeared, an excited voice came, and You Qianxue looked over and found that it was the Wind of Sword King Mu.

"Mr Mu, have you passed the test?"

You Qianxue immediately stepped forward and asked, then frowned and looked at some of the Moon Demon masters on the opposite side and said, "What's the matter?" "Madam, I don't know the specific situation. After I entered the cave, I chose the test channel. Later, I passed the test and got a treasure, and then it was sent here. At the beginning, there were not many people here, mainly we

The human races are secretly fighting each other, wanting to fight, and even many people have died in the fight for treasures. "

"But when a major conflict was about to erupt, someone from the Demon Race suddenly entered here, and the Human Race that was fighting immediately united and confronted the Demon Race."

Sword King Mu Zhifeng hurriedly said.

"Where do these demons come from?" You Qianxue frowned and asked.

"No one knows this. According to the truth, when we opened the secret realm, there were no people from the demon race. Maybe..." The sword king Mu Zhifeng shook his head and guessed: "Young lady remember the passage we saw in the valley. ?"

"Could it be that....."

You Qianxue had also thought of the Demon Realm passage she and Qin Chen had seen at this time. Could it be that the other party came from the Demon Realm passage?

Seeing You Qianxue's thoughts, the sword king Mu Zhifeng immediately said: "Young lady, what shall we do now? In front of the demons, our human race will naturally unite."

"Don't worry." You Qianxue suddenly seemed to think of something, and immediately said: "Don't move." After the voice fell, You Qianxue immediately put his hand on the body of the knife king Mu Zhifeng, quietly, a nine-pole The water has entered his body. As soon as the water of the nine poles entered, there was a few lacquer in Mu Zhifeng's body.

The black aura rose up and was eliminated by the Nine Extremes Water.

"What is this?" The sword king Mu Zhifeng felt the changes in his body in amazement. How could he have these black auras on his body? He didn't feel anything before.

"really....."

You Qianxue's heart sank.

As she guessed, not only her, but all the warriors who passed the test had unknowingly left behind this weird dark power. In this case, everyone on the scene except for the demons also possessed them. Is this power?

She didn't know if the Demon Race had it, and she was just guessing.

What is the purpose of this great alchemy?

You Qianxue's heart became heavy inexplicably, thinking of Qin Chen who had entered the passage of inheritance, and her heart was inexplicably worried.

"Hehe, these human races are really overwhelming."

On the other side, the masters of the Moon Demon Race sneered and looked at the people in front of them, but they were not in a hurry. They were all waiting for the Fire Demon Pill Sage to pass the inheritance, otherwise they would have dealt with the human race in front of them. What the people of

that month demon clan didn't see was that when You Qianxue appeared, the red flames among them suddenly widened, and the eyes of You Qianxue were full of horror.

[Chapter 3393: It's him](#)

It turned out to be her, how could it be her, how could she be here?

Seeing You Qianxue appearing here, Chi Yan's heart was suddenly terrified, as if he had seen a ghost, and his body trembled involuntarily.

He looked at You Qianxue carefully and rubbed his eyes. At first he thought that he had made a mistake, but after reading it carefully several times, he found that he was not mistaken at all. The person in front of him was indeed You Qianxue. Chi Yan's face suddenly showed endless depression. It is really lingering. I actually met her here. What shocked Chi Yan is that the aura on You Qianxue is actually very terrifying, even though the aura is only in the mid-term Saint Lord realm. , Kechi

Yan instinctively shook.

Damn, this kind of guy's strength cannot be measured by common sense at all.

"Chi Yan, what's the matter with you?"

The master of the Demon Race of that month was very keen. When Chi Yan's heart fluctuated, he immediately felt the change, and couldn't help turning his head to ask.

"My lord, it's okay." Chi Yan hurriedly lowered his head. He was still too careless. Such a large fluctuation was revealed by the people of the Moon Demon Race.

But Chi Yan didn't blame herself at all. No matter who met You Qianxue, she couldn't calm down. She was the woman of the great demon. As a foreign demon race, Chi Yan was not afraid of the heavens and the earth when he was in the Tianwu Continent. When he was in the secret realm of the heavens, he relied on his own power to swallow the sky devil bottle and he was invincible in all directions. Not afraid of heaven, earth

Not afraid, but the only person who is afraid is You Qianxue's man, the devil named Qin Chen.

Chi Yan and Qin Chen didn't deal with each other once or twice. Whether in the secret realm of the heavenly devil, or in the ancient Yu realm, Misty Palace, as long as Qin Chen was there, he and Mo Li would have nothing to eat.

Chi Yan can be regarded as a master who has witnessed Qin Chen's growth from an ordinary person. Only those who have really experienced all of this will understand Qin Chen's horror. The Moon Demon Race naturally didn't know the fluctuations in Chi Yan's heart, so he coldly snorted: "Chi Yan, remember, you are just a Devil Dragon. In my Moon Demon Race, you are nothing, if not a Fire Demon. Master Dan Sheng's disciple Moli must take you through

Come on, you don't even have the qualifications to enter this place, don't make any noise, do your duty obediently, or this seat will destroy you first. "

The master of the demon clan that month said disdainfully, extremely contemptuous of the monster like Chi Yan.

In the eyes of the demons, the monsters are beasts, and they are not qualified to sit on an equal footing with them.

"Yes! The subordinate understands." Chi Yan said in a low voice, burying his head low, as if he did not dare to argue, but he did not take the warning from the master of the moon demon in his heart at all, just snorted in his heart Said: "The Moon Demon Race is just the third and fourth-rate race of the Demon Race.

garlic. "

He cursed angrily, but continued to stare at You Qianxue, his eyes fluttering around, as if he was looking for something. "With this woman, the demon must be nearby. No wonder I felt a familiar aura. It turned out to be that demon. I should have thought of it a long time ago. By the way, that demon is also a pharmacist. Won't be in the inheritance channel with Moli

Did you meet it? "

Chi Yan's heart suddenly became anxious. He knew that no matter who Moli met, he would not suffer. The only thing he could not encounter was Qin Chen's demon. Every time he met, he was prepared.

"Moli, you must be careful." Chiyan Demon Lord prayed silently in his heart. If it weren't for the fact that he had to wait for Moli, he would have managed to escape long ago. Anyway, he did not have the courage to fight You Qianxue and the others. , What treasure, what heritage? I knew Qin Chen

We are here, he is not willing to come over to death.

But now, he can only pray continuously and curse in his heart. Didn't he say that the heavens are vast and vast? How come they just came to the territory of the Celestial Human Race from the Devil Realm, and they met the devil group of people, God is too shameless!

"Ok?"

When Chi Yan stared at You Qianxue and felt anxious in her heart, You Qianxue seemed to feel something, and suddenly turned her head and looked at where the Moon Demon Clan was. Chi Yan hurriedly lowered her head in fright.

Damn.

so horrible!

Chi Yan only felt that his heart was beating, and a heart almost popped out of his throat.

"Madam, what's the matter?" Dao Wang Mu Zhifeng looked at You Qianxue suspiciously.

"It's nothing, I seemed to feel a familiar breath just now, it seems that someone is spying on me." You Qianxue's Taiyin void spirit body is extremely keen, and any snooping can attract her attention.

"Familiar breath?"

The sword king Mu Zhifeng glanced at the place You Qianxue looked at. Isn't that the place of the Moon Demon Race? Does the young lady have acquaintances in the Moon Demon Clan?

"Maybe I was wrong." You Qianxue shook her head, her mind was completely immersed in the black breath at this time, full of worries about Qin Chen, so she did not perceive the existence of Chi Yan.

Seeing You Qianxue's gaze turned his head, Chi Yan was so scared that his soul was almost gone. After returning to his senses, he found that his back was covered with cold sweat, almost all wet.

He didn't dare to look at You Qianxue anymore, hiding in the crowd of the Moon Demon Race, afraid of the slightest fluctuation.

And when You Qianxue worried about Qin Chen.

After a long test, Qin Chen was refining a poison pill in a certain stone room.

Countless kinds of poisons, in Qin Chen's hands, kept flying and turning into venoms, continuously fusing together.

This is an ancient poison pill with extremely terrifying power. One can even poison countless mid-term peak holy masters. If the late holy master accidentally consumes this poison pill, the laws of the body will collapse and die on the spot.

After passing the previous inheritance assessment, Qin Chen was already very familiar with the temperament of this alchemy. This person has a surly character, and is a master of poison, with unconstrained imagination. At least in the assessment of this inheritance channel, the various assessments Qin Chen has seen are simply weird. Not only are they assessing the fire system perception, but also assessing the attainments of the alchemy, but also the soul, the body, etc., and even the assessment of luck. All have

, Making Qin Chen speechless.

However, after a series of assessments, Qin Chen's knowledge in poisoning has increased a lot. The civilization poisoned by the Book of Origins in his body is also shining at this moment, which is many times stronger than when it was first formed. In the cold space, the cold consciousness carefully perceives the last three remaining people, Qin Chen, Fire Demon Pill Saint, and Mo Li. After hesitating for a long time, the gaze of this consciousness finally focused on Qin Chen.

[Chapter 3394: Corpse of the Venerable](#)

"That's him." Qin Chen, Fire Demon Pill Sage, and Demon Li are the most prominent. Among them, Fire Demon Pill Sage is a family of planting demons, who is born with a keen sense of elixir, and he is a demon. Clan, not only for the normal elixir, but even for the magical elixir,

It can also be easily refined.

Although the demons seldom have the birth of a pharmacist, if one really wants to appear, it will definitely surpass ordinary human pharmacists of the same level.

At this time, the identity of the demons is not only a hindrance, but an advantage.

Especially in the use of poison, the demons are inherently more resistant to poison attributes, so they have more advantages in mastering them. As for Moli, although the cultivation base, realm, and alchemy attainments are the lowest, this person is extremely tough. This is a man who is cruel to others

and more cruel to himself. He almost failed the assessment several times and fell here, but he didn't. I thought it was still hard

Sustained, and his understanding was extraordinary.

Moreover, he also seemed to have some kind of powerful magical inheritance in his body that could persist until now.

But when compared with Qin Chen, Mo Li seemed to be under-recognized. Whether in terms of alchemy, talent, soul, physical body, or even secret techniques, Qin Chen surpassed Mo Li.

Qin Chen who immediately set off was even more prominent.

"That's it."

The cold consciousness made a decision silently.

After a while, Qin Chen finally succeeded in refining the ancient poison pill, and at the same time placed this poison pill in the groove of the stone platform.

Rumble!

The entire stone platform revolved in an instant, a familiar feeling of teleportation struck, light flashed, and Qin Chen disappeared again.

After Qin Chen regained his vision and looked around for a while, he couldn't help being taken aback.

Because the place where I am now is finally not the kind of immutable stone room, but in a tunnel.

The hallway was extremely dry, and there was a faint wave of fluctuations and weird grunts in front of it, and the cold breath filled the surroundings, giving people the feeling of falling into a snake cave.

"Could it be that I successfully passed the inheritance?"

Qin Chen was taken aback. "Young man, congratulations. You passed this inheritance assessment. Your alchemy attainments and xinxing have been recognized by the deity. Unexpectedly, before my consciousness dissipated, I could still meet you as a heir. It is really true. God to me

Favor, young man, come in. "

The cold voice sounded again, but this time, it seemed much calmer and more stable, full of majesty and atmosphere, Qin Chen even felt a strong pressure during the fluctuation of the voice, which gave him a strong shock.

"Is this the power of Venerable? It is really different from Venerable Skyfire."

Qin Chen's heart was shocked, he urged his energy to protect himself, and walked towards the depths of the tunnel, where the sound originated.

After a while, Qin Chen entered a cave.

This cavern does not know how many feet it exists in the ground, there is no artificial trace, and it seems to have formed naturally. In front of that, black aura surging, Qin Chen squinted his eyes and found that

the black airflow turned out to be a black melt with a strong smell of corrosion. These dark green and pitch-black melts gathered together. From below from time to time

One or two bubbles came out, bursting, and splashing one piece.

It was like a swamp of death.

"Poisonous rules!"

Qin Chen felt the dark green liquid, and was startled. There was a strong smell of poison in this pool of melting flame.

The key is this poisonous smell, with a strong flame aura.

Qin Chen approached slightly, and immediately felt a trace of poisonous gas infiltrate his body, and the whole person felt groggy.

"What a terrible toxin." Qin Chen was secretly surprised. The area of the cave is large, but the most central position is occupied by the venom pool. Only above the venom pool, there are scattered stones paved with roads, but around this stone, there is poisonous gas everywhere. Pool

On the opposite side, there was something else vaguely. Qin Chen continued to approach the venom pool, trying to see exactly what was on the opposite side, before he had time to look at the opposite side carefully, he felt that the calamity in his body inherited from Venerable Skyfire, seemed to have encountered an opponent, and suddenly fluctuated.

Flames like Qinglian Demon Fire, Darijin Flame, Youkong Ice Flame, etc., are also quickly gaining momentum, as if they have encountered the same kind, full of a strong sense of vigilance.

The civilization poisoned by the Book of Origins also shines.

"Could it be that this venom turned out to be some kind of flame?!"

Qin Chen was shocked, is there a flame with toxins under the sky?

"Unexpectedly, after so many years have passed, someone has finally come here, young man, come in." The cold, ancient and desolate voice resounded again in the cave.

"Senior, are you on the opposite side of this molten flame pool?"

Qin Chen questioned.

"Yes, you can see me when you walk over." The cold voice sounded. Qin Chen got closer, and saw that there was a humanoid object sitting cross-legged on the opposite side of the poison pool. Qin Chen looked around and found that it was a dead bone, which was so dependent on the poison pool. Side, half body

The child has entered the poison pond. I don't know how many years have been soaked in this poison pond, but the dry bones are not half damaged.

Just because it might have been soaked in the venom melt for too long, the whole withered bones were black, with palpating lines. Qin Chen released his spiritual thoughts, and after some investigation, he

confirmed that there was no vitality or aura. It should have been a long time since I thought, and even the power of the years has been dimmed, but there is still a vicissitudes of life on this skeleton. Strength, let Qin

Chen felt all horrified.

Is this the corpse of the Venerable?

Qin Chen sighed inwardly, if he didn't guess wrong, this should be the corpse of the powerful alchemy.

Set his mind, Qin Chen didn't come close, just hugged his fists far away, bowed slightly and bowed.

Then, his gaze was attracted by what was behind the corpse. The great power of this alchemy should have been there forever before, and not far in front of him, it was placed in the shape of a blue alchemy furnace, which looked like ordinary people's incense. The pill furnace looks like but slightly bigger

One point, the whole body was blue-gold, it looked very ordinary and ordinary, and under the pill furnace, there was the flame of the heaven and earth that was attracted by the formation, burning under the pill furnace.

And in this pill furnace, there was actually a pot of thick medicinal soup boiled, not much, about only a bowl, covering the bottom of the furnace.

From time to time, a bubble appeared in the medicinal soup, and the bubble burst, emitting a colorful glow, and at the same time, a strange fragrance filled the cave. Smelling this scent, Qin Chen's expression moved.

[Chapter 3395: Qin Chen's doubts](#)

This scent is very familiar, it seems to be the colorful fluctuation and fragrance he felt outside the secret realm.

At that time, in the secret outside of the Void Tide Sea, so many warriors were attracted because of the vision that appeared in the secret realm, the colorful glow that burst out, the wonderful fragrance that filled the world, everything, everything was very similar to the present.

Qin Chen suddenly showed a thoughtful look.

From this point of view, the vision that appeared outside of the Secret is not because of the treasures of heaven and earth here, but because of this furnace of herbal soup.

However, isn't there a source of heaven and earth here? Why didn't I see one? Or is it in this dry bone storage space?

"Senior, are you still here?"

Qin Chen hurriedly spoke respectfully.

The void paused for a while, and the cold voice rang again, "I am."

"Senior, is this your corpse?"

The cold voice sighed, "Yes, this is my corpse before my death."

The voice paused, and said: "My consciousness has almost dissipated. For countless years, I have insisted that it is the limit now. I can find such a heir before it is completely wiped out. I will die without regret."

Qin Chen felt that the corpse's eyes seemed to be looking at him, and his hollow eyes were pitch black, giving Qin Chen a very uncomfortable feeling. "Young man, come here, I have only one last wish before I die, that is, I hope someone can condense the bones for the deity. As long as you condense the bones for the deity, my lifelong inheritance will be given to you. You see behind me Of this pot

Is there any decoction? This is a pot of soup medicine that the deity smelted before dying, but unfortunately the deity died unexpectedly that year, and this decoction is still being continuously smelted under the fire of the void. "After so many years, this pot of soup medicine contains the most terrifying power between the heavens and the earth, and it only takes a drop to make anyone undergo earth-shaking changes. The deity depends on your cultivation level and only the mid-term holy master, if you get the inheritance of the deity , Taking

With this pot of soup medicine, it is easy to step into the late saint master, and it is even hopeful to aspire to the realm of the noble one. "

The cold voice said with emotion.

"Senior, but how do the juniors come here?" Qin Chen stood in front of the venom pool, hesitatingly said, "This venom pool is too terrifying, I am afraid that the juniors cannot pass through this venom pool."

"If you were the one you were at the beginning, I am afraid that you will really not pass, but in the previous inheritance assessment, you have already obtained part of my Poison Dao inheritance. Under the protection of this seat, you don't have to worry about being hurt by this poison pool. To."

The cold voice said calmly.

"Yes, juniors try it." Qin Chen frowned and walked cautiously on the rocks in the venom pool. Suddenly, a terrible poisonous gas began to penetrate into Qin Chen's body, and the poisonous gas carried a strong melting flame. Qin Chen only felt the calamity and the fire in his body

He was eager to try, to repel the flame poisonous gas. Qin Chen did not display the disaster and underworld fire. Venerable Tianhuo's inheritance is one of his most powerful cards. Although the dry bone in front of him does not have any resistance, after experiencing this, Qin Chen will no longer be easy. Trust any one

people. Even though this withered bone only has a consciousness left, and said that he wants to pass on his inheritance to himself, but Qin Chen has too many inheritances, and the inheritance of Venerable Skyfire alone is enough to make him reach a tenth in alchemy. Amazing

, Some things, Qin Chen did not force it.

Therefore, Qin Chen did not release the disaster and underworld fire, but used the Wild Ancient Saint Body to resist this poisonous gas, and as Qin Chen deepened, the Wild Ancient Saint Body gradually became unable to resist the poisonous gas.

Qin Chen felt that his origin had begun to be poisoned.

"What a powerful poison gas power." Qin Chen took a breath of cold air, and the poison gas was infiltrating into his soul little by little. No wonder the disaster in his body would show such a strong hostility, once he was completely invaded by this poison gas. , Even if your cultivation is strong , Then it is hard to escape death.

wrong!

Suddenly Qin Chen was stunned. Everything in this cave should have been left over from the past life of this alchemy great power, and this terrifying poisonous gas melting flame was the same. According to the truth, since the other party still has a consciousness, he should be able to control the poisonous gas melting inflammation to protect himself from the slightest harm, and this poisonous gas has a strong fire sign, and even the disaster and the fire can feel the same kind. Qi

Obviously, this poisonous gas melting flame should be some kind of powerful flame, and it should be able to be controlled by the other party.

Thinking of this, Qin Chen immediately said, "Senior, isn't this poisonous gas melting flame the power you mastered in your previous life? Can't you let him withdraw a path?"

Qin Chen had a feeling that if he really passed through this poisonous gas melting inflammation, even if it succeeded, a lot of speed would accumulate in his body, and this toxin would even cause irreparable damage to his body.

Qin Chen said this casually, but Qin Chen clearly felt that after he had said this, the cold voice suddenly stopped, as if thinking about how to word it.

Qin Chen was shocked immediately and felt something wrong for the first time. The dry bone seemed to feel Qin Chen's hesitation, and sighed: "Everything here is indeed what I left behind, but the poisonous qi melting flame you are in is a kind of supreme refinement made by the deity back then. Of the poison, fail

The product of this place was originally a land of void melting flames, polluted by the venom refined by the deity, it became the appearance before your eyes. "

"If this poisonous gas melting flame is the deity's treasure, then the deity's consciousness can naturally disperse it easily. Unfortunately, this is not the deity's treasure, but the product of the deity's failure to refine."

The dry bone sighed.

"No, this guy is lying." Qin Chen suddenly became vigilant. If he were an ordinary person, he would definitely be deceived by the other party's words, but who he is, he is the heir of Tianhuo, and he also got the inheritance of Venerable Skyfire. , I felt it a long time ago, this poisonous melting inflammation seems to be

A venom pool actually contained the terrifying power of the sky fire. If Qin Chen hadn't guessed, it should have been formed by some kind of sky fire.

Combined with the fact that the other party is a powerful alchemy, then the answer is already ready to come out, this venom pool is very likely to be turned by some sky fire of the other party.

If so, then it is impossible for the other party to be unable to control his own skyfire. It's like Lord Skyfire, who has fallen for countless years, but even if it is a remnant soul, he can still control his Zixiao Palace and choose his heirs. As for the disaster in the Zixiao Palace, Even more so.

[Chapter 3396: Tianpo Danzun](#)

Even if the other party only has a consciousness left, it is reasonable to still be able to control the sky fire that once belonged to him.

However, the other party just told himself that this was transformed by the venom and void melting flame he refined, making Qin Chen immediately alert.

What is the purpose of the other party deceiving himself?

Qin Chen had gone through too many crises in his life, and the slightest abnormality of the other party made his vigilance unprecedented. As if feeling Qin Chen's doubts, the cold voice smiled bitterly: "Young man, are you doubting what the deity said? The deity can only say that you think too much. If the deity wants to harm you, there is something in the previous inheritance. Countless ways

Killing you, the last consciousness of the deity will not last long. The reason why you still stick to it here is just to find a descendant. "My Heavenly Poison Pill Venerable, which crossed the heavens back then, this void place was the dojo of the deity back then, and all races would come here to beg the deity to refine the pill, so the void land of the deity can also lead to the heavens. Clan, the deity back then, what is it

Glory? "

"It's a pity that the heavens were shattered back then, and the deity also fell accidentally, sad!"

"The deity really did not expect that the demon would do such things for his own selfish desires. If the deity knew the wolf's ambition of the demon clan, he would have used the art of ten thousand poisons and would take all the demon clan who came to the demon to refine the pill. Poisoned."

There was endless anger in this cold voice.

"Sky Poison Pill Venerable, this person turned out to be Sky Poison Pill Venerable."

Hearing what he said, Su Xiaoxiao from the jade disc of Qin Chen Qiankun's good fortune suddenly exclaimed.

"Why, there is Su Xiaoxiao, do you know this person?" Qin Chen said through voice transmission. "Of course I know, Heavenly Poison Pill Venerable, this is an extremely terrifying power in the heavens back then. Although his cultivation level is not very powerful in the ancient heavens, the ten thousand poisons he cultivated are extremely terrifying, melting all poisons in the world, even Can poison Xiuweiyuan

A strong person beyond himself, so few of the ten thousand races dare to offend this person. "However, this person is also a top alchemy power, so many people come to his dojo to find him to refine medicine, and this person has one of the top treasures in the heavens, this treasure. Is helpful to all races, so

Even if this person is very surly and moody, many races have been favored by him. "

"In general, even though this person is a powerful poison master, he is jealous of evil and has a very good reputation."

Su Xiaoxiao said.

"There is one of the top treasures in the heavens, which is helpful to all races?" Qin Chen was taken aback. What treasure is that? "I don't know exactly what that treasure is. I only know that many races in the monster race, including my nine-tailed fairy fox clan, have sought this person to refine the medicine. In the ancient world, there are actually many human alchemists. I'm not a good friend to the monster race,

But this day Poison Pill Venerable, it is not the case, so it has an excellent reputation in my Yaozu. "Su Xiaoxiao sighed: "Unexpectedly, this person also fell here. With his cultivation base, shouldn't he fall when the heavens are broken?" Could it be said that the terrifying void power generated when the heavens were broken and the void tide sea formed, caused him

Falling here? Or is there another reason? "

When Qin Chen heard Su Xiaoxiao's words, his vigilance was relaxed a little, and he shook his head and said, "Unexpectedly, it was Senior Sky Poison Pill Venerable. No wonder Senior's assessment is related to poison." "Huh? Have you heard of this deity." Unexpectedly, there are people in this world who have heard of the name taboo of the deity." In the cold voice of the Sky Poison Pill Venerable, there was a trace of emotion: "Originally, the deity thought that my inheritance and name taboo would meet in this heaven.

Completely dissipated, but fortunately, I finally met you. If you can get the inheritance of the deity, carry forward the inheritance of the deity, and resist the invasion of the demons, the deity will die without regret. "

"Senior, wait a minute. Juniors will see if they can pass this poisonous gas melting inflammation. As long as they can do it, they won't refuse."

After knowing the identity of the Sky Poison Pill Venerable, Qin Chen's eyes flashed and he continued to move forward.

Although he didn't know exactly what the Sky Poison Pill Venerable was, but since Su Xiaoxiao said so, and there are so many comments about him in the monster race, it must not be something a hypocritical person can get.

Qin Chen immediately walked towards the opposite side again, at this moment he was still a hundred meters away from the dry bone.

It's just that when he reached the middle part, it was already his limit. Every step Qin Chen took, he would endure extremely terrifying poisonous gas, and the calamity in his body contracted even more.

He walked half the distance again, and he felt that his whole brain was a little dizzy, and his whole body was trembling.

And he felt that the closer the poison gas in this poison gas melting flame was to the Heavenly Poison Pill Venerable, the stronger the poison gas, as if he had the attributes of poison gas in his body.

Qin Chen hurriedly stopped, but he was still about fifty meters away from the other side of the molten flame.

"Senior, junior can no longer move forward, the poison gas in front is too strong." Qin Chen said helplessly.

Although he wanted to get close to the bones, he was really powerless now, and if he moved forward a little bit, he might not even be able to guarantee his own life.

Now this poisonous gas has gathered in his body and is beginning to penetrate his origin, even, it is already affecting his soul power.

"It may be that the power of this poisonous gas has become extremely terrifying after a long time, but you have a soul secret method of the Venerable level, and it is impossible to pass it?" Sky Poison Pill Venerable wondered.

Qin Chen was taken aback for a moment, the Heavenly Poison Pill Sovereign was referring to the Heavenly Soul Forbidden Technique? But how does the Poison Pill Venerable know that he has a Venerable Soul secret method on his body this day?

The other party was a pharmacist, and he could see that his alchemy attainments were normal, but his Heavenly Soul Forbidden Technique was very well hidden, how did he know?

"Well, this gas?"

wrong!

Qin Chen was suddenly shocked. He walked too close and suddenly discovered that under this withered bone, there were waves of poisonous gas melting inflammation lingering in the lower body of this withered bone. Before, he could not see clearly from far away, but now Qin Chen saw that these poisonous gas melting flames, unexpectedly is refining this dry bone, to

Penetrate into this dry bone.

And it should have been cultivating countless years, causing the dead bones to form this kind of poisoned appearance.

But according to Qin Chen's guess, this poisonous gas melting inflammation should be a certain kind of sky fire controlled by the Sky Poison Pill Venerable. Why did Sky Poison Pill Venerable his own sky fire refining his corpse?

Qin Chen immediately broke out in cold sweat behind him.

Even if Qin Chen is idiot, he already feels something is wrong now. On this day, the Poison Pill Sovereign had absolutely lied when he was communicating with him. As for why he lied, Qin Chen knew that the other party must have his purpose without guessing, and this purpose was definitely not good.

[Chapter 3397: Gas awareness](#)

This bastard.

Qin Chen was already cursing in his heart, but fortunately, the poisonous gas melt was too terrifying. He stopped in time, otherwise he was really close to the withered bone, and he didn't know what accident would happen.

Qin Chen has no idea about the inheritance of the Heavenly Poison Pill. If it is a bit weird, it may be that he is over-hearted, but now there are one after another weird, and Qin Chen believes that this Heavenly Poison Pill will really have Ghost. Qin Chen immediately released a hint of cultivation base, and said, "Senior, although the junior has a fairly good soul secret technique, but the cultivation base is really too low. It seems that the junior has no chance to be inherited by the senior. Strength up

There are some, the juniors will come to accept the inheritance of seniors, seniors can rest assured, the juniors will come as soon as possible. "

After Qin Chen said this, he was about to turn around and leave. He didn't want to stay here any longer. This dry bone was absolutely uneasy and kind. "Your cultivation base is indeed too low." The Heavenly Poison Pill Venerable was silent for a moment. Seeing Qin Chen's intention to leave, he immediately said: "The cultivation base you think is really difficult to completely resist this poisonous gas melting flame. Mighty, but you don't have to rush to leave, I have

Other ways to get you over. "

"What way?" Qin Chen could only stop and ask.

Although he can't wait to leave here, he also knows that he must not panic at this time. Once the Poison Pill Venerable that day sees his thoughts, it will be dangerous.

Since he had come to the place where the Poison Pill Venerable was inherited, and this mighty power had set up such a terrifying secret realm in this void tide sea, Qin Chen was not sure if he had any other way to deal with him. "I am called the Heavenly Poison Pill Venerable. Naturally, there is a method of resisting and cultivating all kinds of poisons. This method is called the technique of all kinds of poisons. I can teach it to you now. With your understanding, you can only practice a little Adapt to the poisonous melting inflammation here, and resist

You will be able to come over when the time comes. "

"What? The technique of ten thousand poisons can absorb the power of poisonous gas? To resist the ten thousand poisons of the world?"

"Yes, this technique is the foundation of the deity's traversing the world. It was originally intended to be taught to you after you pass it and apprentice the teacher, but now it seems that it can only be taught to you first."

Without waiting for Qin Chen to speak again, a gloomy force came, and a strange and obscure technique suddenly appeared in Qin Chen's mind.

Qin Chen's heart was cold, the other party was able to directly present the exercises in his mind. This is a bit terrifying, is it really just a consciousness that can do it? In this way, wouldn't it be easy for the other party to deal with him?

What shocked Qin Chen even more was that this was the first time that Qin Chen had come into contact with the opponent's consciousness, but when the two merged, Qin Chen instantly sensed the opponent's consciousness, and there was a hint of darkness. It's just that this trace of power is so thin that most people can't detect it at all, but Qin Chen has had too many dealings with the power of darkness, and the book of origin is also a civilization with a trace of power of darkness, so he can sense this. Incomparable

Faint breath of dark power.

How could there be dark power in the Poison Pill Venerable this day?

Didn't this person fall when the heavens were broken?

Qin Chen's heart was completely cold. He had already made up his mind. No matter what the other party's purpose was, he obviously wanted to bring himself to the skeleton.

The other party hasn't used his own means until now, it is very likely that he will not be able to do it before the bones.

In that case, his practice is very likely to be really effective.

Qin Chen immediately analyzed the techniques of this Heavenly Poison Pill Venerable.

The Book of Origins burst into light instantly, quickly decomposing the art of ten thousand poisons.

After only half of the incense, the book of origin in Qin Chen's body had already broken down the magic of ten thousand poisons, forming a brand new civilization and blending it into the poisonous civilization.

This is also thanks to the many tests that the Heavenly Poison Pill Venerable gave Qin Chen so many tests, so that Qin Chen had an amazing understanding of the civilization of poison, and was able to integrate the art of ten thousand poisons into the book of origin so quickly.

When Qin Chen realized this poisonous civilization, Qin Chen's face was already shocked.

"There is such a terrible magic trick in this world."

The formula given by Heavenly Poison Pill Venerable is really terrifying. It is so vast that it can smelt all the poisons in the world, and even Qin Chen has not found a supernatural power comparable to it in the inheritance of Heavenly Fire Venerable.

But this technique of ten thousand poisons is cultivated to the extreme, and supernatural powers of ten thousand poisons can be cultivated. As long as it is the poison in this world, there will be nothing that can hurt him.

It is no wonder that the Poison Pill Venerable was able to use this supernatural power to become the top power in the heavens.

Moreover, this technique of ten thousand poisons is extremely difficult to cultivate. It is impossible for ordinary people to master it without a long period of time. Fortunately, Qin Chen possesses the Book of Origins and can form his own civilization with supernatural powers and instantly master it.

When a new poisonous civilization was formed in the Book of Origins, Qin Chen immediately felt that the poisonous gas in the poisonous gas melting flame no longer had too much influence on him, and the poisonous gas melting flame actually weakened his hostility. A lot.

"Huh?" And Qin Chen was shocked to discover that when he used the art of ten thousand poisons, the poison gas in the poison gas melted flames not only showed no hostility to him, but even became kind, and Qin Chen could even feel it. In the depths of this poisonous gas melt, there is a

The stock consciousness is approaching himself vigilantly, and it seems that he wants to be close to himself, and is a little wary.

And when this consciousness approached Qin Chen, the calamity flames and other flames in Qin Chen's body also jumped, as if communicating with the other party.

"It's the consciousness born of the poisonous sky fire."

Qin Chen understood in an instant that the sky fire is a natural treasure, but when the sky fire is strong to a certain extent, consciousness will naturally be born. Although this consciousness is very hazy, it has its own happiness and anger.

If you guessed correctly, isn't this poisonous gas melting flame the sky fire of the Sky Poison Pill Venerable? Why do you feel close to yourself? Qin Chen looked up at the dry bone, he could feel it, but when he was communicating with the poison gas melting inflammation, the dry bone didn't even notice it, even when Qin Chen looked at the dry bone, the consciousness in the poison gas melting inflammation, instinctively produces one

Silk anger and hatred consciousness.

Isn't this withered bone the corpse of Sky Poison Pill Venerable?

Qin Chen immediately thought of a possibility in his heart. Otherwise, why would this poisonous gas melt so much hatred for this dry bone?

This is totally unreasonable. Qin Chen's heart quickly turned, and he changed the operation of the technique of ten thousand poisons, communicated with this poisonous gas melting inflammation, and slowly absorbed the poisonous gas melting inflammation, while pretending that he was practicing the technique of ten thousand poisons, he was actually thinking of a solution.

[Chapter 3398: Soul Demon](#)

Qin Chen pretended to start to use the magic of ten thousand poisons, and immediately felt that the poisonous gas around him gradually dissipated.

"Senior, junior seems to be able to withstand this poisonous gas melting." Qin Chen said in surprise, with a look of excitement on his face, but his words have not yet fallen.

Puff!

Qin Chen's complexion suddenly changed, and he spit out a breath of poisonous blood, his body retreated again and again, his face was extremely pale and his body was shaking.

"What's the matter with you?" The dry bone asked nervously.

Qin Chen said with an ugly expression: "Senior, the previous junior has absorbed too much poison gas, which has affected the origin of the junior."

"Wow!"

After saying this, Qin Chen immediately spewed out a bit of poisonous blood, and the Saint Yuan on his body also became confused.

"Senior, the juniors are not good enough, wait until the juniors retreat some more and come back after recovering from their injuries."

Qin Chen said anxiously, and as he said, he hurriedly backed away.

"How could this be?" The withered bone's voice was a little anxious, and then continued: "Don't worry, I have a way to recover your injuries."

"No, the origin of the junior can't hold on anymore. The poisonous gas in this place is too terrifying, and you must retreat a little."

Qin Chen didn't care about Withered Bones' words at all, and now he had stepped back a lot, and when he looked back, he was an idiot.

Qin Chen turned around and left where the withered bones were at an astonishing speed.

This dead bone finally found something wrong at this time.

"Young man, what are you doing so far away from the deity, and how will the deity pass it on to you? Let you accept the deity's heaven-defying alchemy and treasures?" The hoarse voice rang.

Qin Chen sneered in his heart, ignoring the other party at all, just stepping back.

"Good boy, you dare to play with me."

This withered bone finally felt something was wrong, knowing that Qin Chen had seen through his tricks, a harsh and sharp anger sounded.

Wow!

Qin Chen was shocked to see that this dry bone suddenly stood up amidst the poisonous gas melting flame, two demon fires lit up in the dark eyes, and at the same time a powerful soul impact instantly rushed into Qin Chen's mind.

This is an incomparably cold soul power, carrying a heart-palpating devilish aura into Qin Chen's mind.

This **** really wants to do something to me.

Even if Qin Chen had been prepared, he felt a dizziness instantly, and his whole mind was instantly confused.

Boom boom boom!

A trace of strange black power formed, and came to Qin Chen's mind in an instant, swallowing his soul. This speed was too fast. Although Qin Chen had already prepared, he was caught off guard.

What makes Qin Chen even more shocked is this feeling of embezzlement, pervasive, you must know how powerful his soul power is, and ordinary people can't penetrate into his soul at all, but this cold soul power unexpectedly entered his mind in an instant .

"Jie Jie Jie, kid, I didn't expect your reaction so fast that you could actually perceive the purpose of the deity. It's a pity, as long as the deity is admired, it is impossible to escape the palm of the deity."

The cold voice sounded in Qin Chen's mind. At this moment, the voice became extremely evil, and there was no longer any concealment. Rumble, with a terrifying soul murderous, madness filled Qin Chen's mind. To occupy Qin Chen's mind.

"You are not the Sky Poison Pill Venerable, who are you?"

Qin Chen said in fright, instantly mobilizing soul power to resist the swallowing of this force. Moreover, in Qin Chen's body, disasters and disasters burst out in an instant, erupting endless terrifying power to resist the invasion of this cold soul. .

boom!

Two terrifying forces collided in Qin Chen's mind. The rumored disaster was the flame of the supreme disaster of the ancient demon race, and it was released now, immediately emitting a heart-palpitating power.

"Huh? Calamity? Where did your kid get this flame?"

This cold power revealed the sound of horror, as if seeing something unbelievable, it became extremely furious, booming, this black soul power, and the disaster in Qin Chen's mind Fight together quickly.

"Huh? No, your calamity and underworld fire can't exert their full power at all, and are not under your complete control? And you are still in a weak state!"

The cold voice was startled at first, but then it showed ecstasy.

"Jie Jie Jie, kid, I can't think of you as a mid-term holy lord. Not only is the soul power extremely powerful, he possesses the noble soul secret method, but also has the disaster supreme calamity fire, hahahaha, the deity really did not expect it, countless years of waiting , After waiting for such a result, it is true that the deity chose you, it is destined in the dark, and even God wants to see me resurrected again."

"Hahaha, although this disaster is powerful, it can't resist the deity's seizure."

boom!

With the cold voice falling, the power of the black soul in Qin Chen's mind turned into a dark figure in an instant. This figure was eloquent, and the power of the dark soul quickly filled with strange power. With the palpable demonic law, he actually broke the resistance of the calamity and underworld fire a little bit and entered Qin Chen's soul.

"The Law of the Demon Race, it seems that you are a member of the Demon Race?"

"Jie Jie Jie, kid, you guessed it, the deity is not the Venerable Wanpo, but the Demon Venerable of the Demon Race, Jie Jie!"

"But why are you here!"

Qin Chen's face became paler and uglier, and the soul power in his mind was slightly invaded by the other party, and the soul sea violently churned.

"Why? Jie Jie Jie, because the Heavenly Poison Pill Venerable was one of the top alchemy sages in the heavens back then. My demons want to occupy the entire celestial realm. Naturally, such masters are indispensable. Unfortunately, this Heavenly Poison Pill Venerable, no I was willing to surrender to my demon clan, but even dared to resist, but I was besieged here by the strong soul demon clan led by me."

"For tens of thousands of years, the Poison Pill Venerable has been entangled with my Soul Demon Race this day. Naturally, I am not willing to continue to consume it. My soul demon Clan's major demon lords have broken through this day poison in their soul state. Dan Zun's secret realm formation has finally entered this core place."

"But this day Poison Pill Venerable, the sin deserves ten thousand deaths, actually set a trap long ago, using the technique of ten thousand poisons, to poison me and wait here."

"Fortunately, my soul demon clan is soul-oriented. Although this ten thousand poisonous art is powerful, it still failed to completely kill me. In the end, several major demon lords of my clan broke into it after paying the price of severe damage. In the body of Poison Pill Venerable this day."

"But this day, the Poison Pill Venerable, seeking a dead end..."

[Chapter 3399: Sky Poison Entropy Fire](#)

Speaking of this, the cold voice was filled with endless anger: "This day the Poison Pill Venerable knew that he could not withstand the invasion of my Soul Demon Race. He actually used himself as a cage to trap me and the great masters of the Soul Demon Race. In his flesh."

"Before he died, he also portrayed the Array of Ten Thousand Poisons, using his poisonous sky fire to continuously refine his corpse and flesh, to kill all of us here."

"How many years have it been? For countless years, I have all wanted to kill, but this guy is too cruel. Relying on his understanding of my soul and demons, he used his soul and flesh as a cage, and at the cost of life, he waited for me. Being stuck here is just to be equal to me and die."

"In the past year, all the other members of our clan have been completely refined under his poisonous gas array. Fortunately, the deity's insights for countless years have finally mastered the magic of this Heavenly Poison Pill Venerable. Maybe he doesn't I know that my soul demon clan has extraordinary attainments in soul, even if it is trapped in his soul sea, he can still read his soul power."

"Over the years, the deity has learned countless poison elixir knowledge, but has become a new poisonous deity. Unfortunately, when the deity finally unlocks his soul cage, the deity's soul consciousness is only left with an extremely weak trace. Hahaha..."

"And at this time, you are finally attracted by the spirit of the liquid medicine deliberately created by the deity."

"Now, as long as you are taken away, the deity can not only gain your physical body and strength, take away everything from you, but also become the second Heavenly Poison Pill Venerable, hahaha."

With this cold voice laughing, Qin Chen finally figured out the ins and outs of the matter.

"Soul Demon Race, are you actually the Soul Demon Race among the Demon Race?"

Qin Chen furiously said that the Soul Demon Race is an extremely powerful race in the Sky Demon Race, similar to the Dead Demon Race and the Holy Demon Race, it is the second-tier race among the Demon Race, second only to the top-level Abyss Demon Race.

And this soul demon clan is the same as the holy demon clan. The most powerful thing is not the other, but their soul attainments. Unlike the souls of the holy demon clan, they follow pure principles and can imitate countless souls in the world. The human race masters pretended by the demons, and even some of the top human race experts, may not be able to perceive them from the soul level.

This soul demon race is walking the endless cold soul road. They rely on the soul that constantly devours foreign objects to strengthen themselves. Therefore, their soul attainments are extremely terrifying, and it is no wonder that they can quickly enter their own. In my mind.

A master of the Soul Demon Race, once it displays a soul attack, even the sage of the Human Race may not be able to easily resist it. How can Qin Chen, a mid-term Saint Master, be able to resist it?

"Jie Jie Jie, why, have you heard of the deity's name taboo? Unexpectedly, my clan's name taboo is spread in the heavens?"

This cold soul was a little surprised.

Back then, many of the top masters of their clan were sent to deal with this Heavenly Poison Pill Venerable, but later all the great Venerables fell here. According to the truth, their clan suffered heavy losses and would not be so famous. ?

"Soul Demon Race, I have naturally heard that, if I hadn't guessed, your companions who were trapped together were not killed under the poison array? I am afraid you should have swallowed them."

Qin Chen coldly snorted, people of the Soul Demon Race like to swallow all souls, and it is not impossible to swallow each other.

"Jie Jie Jie, young man, you don't understand. In order to survive, even if they were swallowed by me? They did not die, but lived with the deity. As long as you take you, you can regain it. Guangming, have you seen it? That pot of spirit liquid medicine is used to shape their bodies!"

Having said this, the master of the soul demon clan seems to have lost Qin Chen's desire to continue talking, and said in a gloomy cold voice: "Okay, now that you know everything you should know, now, just take the body Hand it over completely."

boom!

Suddenly, on this weird soul phantom, a series of weird soul phantoms were emitted. These soul phantoms evolved countless soul tentacles, and began to insert into Qin Chen's soul one by one. Qin Chen's soul was completely integrated.

Once the ghost of this person and Qin Chen's soul are completely fused, then Qin Chen's soul will be completely swallowed and absorbed by him.

At this moment, Qin Chen's mind was dizzy and he was about to faint at any time.

However, on his face, there was no surprise and amazement at the beginning, but a sneer was outlined.

"Do you think you are determined?"

Qin Chen suddenly smiled coldly and banged. In his mind, the disaster and the underworld fire suddenly surged. The terrifying demon flame quickly surrounded Qin Chen's soul. At the same time, Qinglian demon fire Several sky fires such as Rijin Flame, Youkong Bingyan, Yin and Yang Soul Fire, and Zi Mei Real Fire also quickly appeared in Qin Chen's mind.

"What? So many skyfires?"

The master of the Soul Demon Race was taken aback, showing a look of astonishment.

Boom boom boom!

Many sky fires exude powerful flame power to resist the invasion of soul demon masters. Sky fire, masculine and strong, can exert a strong restraint on the soul itself. So many sky fires are released together and immediately formed in Qin Chen's soul sea. A new barrier.

That's not counting.

Wow!

I saw the poisonous gas melting flame at Qin Chen's feet suddenly boiling, and a green flame rose under the poisonous gas melting flame. This was the Heavenly Poison Entropy Fire of the Heavenly Poison Pill, and it suddenly enveloped Qin. Chen, but it did not launch an attack on Qin Chen, but with an angry will, it quickly entangled the soul demon clan master in Qin Chen's body to refine the soul power of the soul demon clan.

"Even the Sky Fire of the Sky Poison Pill Venerable is under your control? What is going on?"

This soul demon master was shocked, and everything in front of him made him a little dazed.

However, he quickly calmed down and said angrily: "Boy, do you think you can resist the deity with these sky fires? It's too whimsical. The methods of my Soul Demon Race are far beyond your imagination."

Hum!

Qin Chen saw that the soul power of the soul demon clan had become nothingness, and began to break through the barrier of these sky fires and continue to invade Qin Chen.

"Who said the fire can stop you these days?"

Qin Chen sneered. He didn't put hope above these sky fires. Qin Chen knew very well that many sky fires could resist the robbing of ordinary powerhouses. However, in the face of master-level masters, especially this soul demon clan who specializes in soul The top masters who make a living, even if it is just a trace of the power of the soul, cannot be completely resisted by these sky fires.

Because Qin Chen's current cultivation base is too low, too far from the other side.

[Chapter 3400: Be prepared](#)

"These sky fires are just used by the deity to prevent you from invading. The real killer move is here."

Qin Chen slammed the Heaven Soul Forbidden Technique.

In a short time, Qin Chen's originally suppressed soul sea suddenly rose up with terrifying soul lights. These soul lights actually formed soul charms, which evolved into a vast array of formations over Qin Chen's sea of mind.

"this is....."

The soul demon master was startled, because Qin Chen didn't directly act on him, but just arranged a formation, which seemed to prevent him from escaping.

The soul demon master felt a sense of anxiety inexplicably, and vaguely felt that he seemed to have made an extremely wrong decision.

Sure enough, at the moment that big formation was formed.

suddenly--

boom!

Above Qin Chen's body, a misty black phantom emerged. This phantom was actually a vast magic tree, and countless black tentacles surged around the magic tree.

At this moment, these black tentacles turned into lightning, and quickly entangled towards the soul demon master.

"What the hell?"

The soul demon master was shocked first, and he immediately felt an incomparable sense of horror in his heart. These black tentacles phantoms actually made him, the venerable master of the soul demon clan, feel the terrifying majesty from deep in his heart.

Wow!

These tentacles quickly entangled the master of the Soul Demon Race.

"It's the Devil Tree of Ten Thousand Realms! How come you have Devil Tree of Ten Thousand Realms on your body?"

When these tentacles wrapped him, the soul demon master was finally frightened. How could this be the highest tree of their demon race appear on a human race.

"No, the soul demonizes the essence, devour everything!"

The soul demon master finally felt the crisis, and roared, his soul power became more nihilistic, and he was about to break free from the shackles of the ten thousand worlds demon tree, turned into countless soul lights, and merged into Qin Chen's soul sea , Take Qin Chen away.

As long as he robbed Qin Chen's soul, everything would be over, and everything Qin Chen possessed would become his trophy and his strength.

The stronger Qin Chen is and the more treasures he has, the brighter his future will be.

"Huh? Even the Ten Thousand Realm Devil Tree can't easily restrain the opponent?"

Qin Chen frowned and felt the trouble for the first time. The power of the master of the soul demon clan was more terrifying than he had imagined.

But it is also true. Back then, this soul demon clan master was able to kill even Ten Thousand Poison Pills. Under such a terrifying poison array, he survived for countless tens of thousands of years. If he was killed so easily, he would not live until now. It has been refined by the poisonous formation of the Sky Poison Pill Venerable.

However, even at this time, Qin Chen still had no panic in his heart.

"Old friend, I haven't seen you for a long time, come out."

Qin Chen sneered, his hand flashed, and suddenly, the mysterious rust sword originally in the Universe Fortune Jade Disc appeared in Qin Chen's hand.

As soon as this mysterious rust sword appeared, the surrounding void instantly became extremely gloomy, even colder than when this soul demon clan powerhouse appeared.

Qin Chen urged the mysterious rust sword, buzzing, and the mysterious rust sword immediately emitted a black light. Under the guidance of Qin Chen, a cold force appeared in Qin Chen's mind instantly.

"Jie Jie Jie..."

This cold force was constantly rotating in Qin Chen's mind, and he felt Qin Chen actively pulling himself into his soul. This cold force was extremely excited, and a momentary moment surged with a strong sense of swallowing. At the same time, he also felt After reaching the power of the Soul Demon Race Soul in Qin Chen's mind, he finally understood the reason why Qin Chen summoned himself out of the ordinary.

"Quack!"

The cold voices were transmitted from the cold power. The black cold power exuded from this mysterious rust sword turned into a human figure, like the same black **** of war, with a pair of black eyes that are extremely deep, just like endless mysterious. The starry sky was full of black flames.

What makes people feel more palpitations is the black hole in his chest. The black hole swirls constantly, turning into a singularity at the deepest point, as if it contains the stars of the universe and everything in the world. It is shocking when people see it.

boom!

After this cold power turned into a human form, the swallowing power of the black hole in the chest instantly increased, and instantly fell on the emptiness of the soul demon master master in Qin Chen's mind.

"No, **** bastard, what the **** is this?"

The master of the soul demon clan roared in anger and furiously resisted, but it was useless. Under the suppression of the two terrifying forces of the Ten Thousand Realm Demon Tree and the mysterious Rust Sword...

Wow!

A large number of the void light spots of the Soul Demon Race's soul were quickly swallowed up by the cold power, and even the power that had infected part of Qin Chen's soul was all sucked into the body and turned into its purest original power.

A part of the power was swallowed by the Demon Tree of Ten Thousand Realms.

The power of the soul demon master quickly weakened, and finally became panicked.

"go!"

At the moment of crisis, this soul demon master can no longer take Qin Chen away, because he can feel that before he completely takes Qin Chen away, his whole person is probably completely swallowed by the power Qin Chen produced. Now, he can only escape.

But how could Qin Chen leave him easily? At the moment when the master of the soul demon clan wanted to leave, the sky fire in Qin Chen's mind, the soul formation transformed by the sky soul forbidden technique, quickly lit up, and continued to suppress it. , To prevent the departure of this soul demon clan.

"Huh, don't you think that Young Master Ben knows you are going to take me? In front of you, unless you kill you, even if Young Master leaves this cave, I'm afraid he may not be able to escape this secret realm. Only by introducing you in can I escape? Once and for all."

Qin Chen sneered.

This soul demon master was even more furious. He often didn't expect that Qin Chen would have seen him through. He was actually acting in everything. He thought he had deceived Qin Chen and obtained a physical body. As everyone knows, Qin Chen had already counted him, the purpose was to kill him.

In this inheritance, Qin Chen never dared to say that he would be able to confront a fallen Venerable Master Remnant Soul. Even if it was the Remnant Soul, he was a Venerable Master.

But in Qin Chen's mind, that was his main battlefield, and Qin Chen could dominate everything.

boom!

The terrible power was suppressed, and the power of the soul demon master continued to weaken, and the power disappeared little by little.

"Ah! Blew yourself!"

At the moment of crisis, the soul of the soul demon master roared, and it blew his soul with a boom. A terrifying soul impact quickly swept through Qin Chen's mind. Qin Chen's expression changed, and he never thought of this soul demon. The clan master was willing to explode his soul, and with a bang, a gap was quickly torn apart on the barrier formed by the sky fire and the sky soul forbidden technique.

Huh!

Qin Chen felt that there was an extremely weak soul power, following the torn gap, quickly rushing out of his soul sea.
