[Chapter 3411: Seven Lore Array](#)

Many people didn't believe it at all, but the few masters who condemned the thief, the master, frowned, and there was horror in their eyes, because they finally felt something was wrong.

Because of the power of this formation, it is actually the masters of these major forces that linger.

"No, be careful everyone!"

The master who condemned the **** thief hurriedly roared, and a sharp roar of anger sounded.

boom!

But it was too late. At the moment they roared, the Buyi clan chief suddenly raised his head, and a terrifying burst of light burst out of his pupils.

"kill!"

A terrifying killing array was formed in an instant, like a meat grinder, covering the entire valley, and the terrifying array of light directed at the masters of several major forces, crazily crushed.

Puff puff!

Under such a terrifying array of murderous intent, many masters of the several major forces fell a lot in an instant, each of them was penetrated by the array, making a screaming roar.

And when the Buyi tribe's large array launched a fierce attack on the human race, the masters of the moon demon race also moved, rushing out one by one, making crazy shots towards the human race forces. In a flash of time, blood flowed, and the people of several power forces. In a rush, one by one fell one after another, extremely miserable.

"Patriarch Burka, what are you doing?"

The Sovereign of the King of War roared, his eyes were red, and he watched his disciples of the King of War continue to fall, a heart dripping with blood.

But the patriarch of the Buyi clan didn't say a word, just urging the big formation.

"Hahaha, what do you do? Don't you see it? This Buyi tribe has already taken refuge in our tribe, and even, I'm waiting to be here, thanks to the Buyi tribe, you still dream of this People from the Buyi tribe will take action against my tribe, thinking too much?"

The masters of the Moon Demon clan laughed. They had been defending before and finally started to attack. The entire valley seemed to be a massacre, and many warriors with weaker cultivation levels continued to fall.

"Damn it!"

Boom boom boom!

The people of several major forces roared and madly killed the Buyi tribe's great array. If they did not tear apart the Buyi tribe's great array and let the Buyi tribe and the demons unite, all of them would die here.

However, the Bouyei tribe's natural formation method, the formation method that took so long to deploy, could not be broken in a hurry.

With the constant fall of several powerful forces, the Sect Master and others were angry at the same time, they finally felt a trace of panic. If this continues, they may all die here.

"Patriarch Burka, why on earth is this?"

They were unwilling, their eyes were blood red, and they couldn't understand why the Buyi tribe would take refuge in the demons.

"Hahaha, why? In your human race, in the Void Tide Sea, the Buyi race is just a marginal race. Your human race will never put these small races in their eyes, and even the forces of your human races face the Buyi race. , You are born with a sense of superiority, you are the Human Race War King Sect, right?"

The master of the Demon Race that month coldly looked at the Sovereign of the War King: "A Holy Master power that is not even the top power in the Human Race has repeatedly scolded the Buyi patriarch. Why are you still asking?"

Everyone was silent and angry.

Is it because of this?

It is true that the former Sovereign of the Battle King and many Void Bandits did have a sense of superiority when they faced the Buyi tribe, but the Heavenly Realm powerhouse is respected. They have always done so. What did they do wrong?

"Buyi, do you think you can develop by taking refuge in the Demon Race? No, the Demon Race just treats you as pawns to be used. Looking back now, there is still a chance."

The Sovereign of the War King and many other masters roared that as long as the Buyi tribe turned their heads, they would have a chance to survive.

"Hahaha, since the Buyi tribe has taken refuge in our tribe, naturally they will not look back again. Indeed, my Moon Demon tribe will treat them as chess pieces, but what's wrong with it? Being able to be used as chess pieces shows that they are valuable, on the contrary Staying in your human race, staying in this void tide sea, can only survive in struggle, until the entire race is annihilated and disappeared, becoming a dust in the history of the heavens. Is such a thing rare in your human race?"

The Moon Demon Master said with a sneer.

"Damn it, kill it!"

Everyone is crazy, if they don't kill it now, they will fall here completely.

Boom boom boom!

Everyone is madly fighting together. At this moment, everyone has joined the battle. Wherever they go, people are constantly falling. Although there are several masters of the powers, under the madness of the human masters, the devil's There are also people falling rapidly in China.

The hatred has blinded everyone's eyes, and people are dying tragically at all times.

"War King Sect Master, I don't want to keep my hand, otherwise I will die here, just let me fight it, as long as I kill the leader of this demon clan, it will be solved."

The master condemning the thief gave a cold sigh, hum, in his body, a series of terrible holy yuans surged, like a vast ocean, with the masters of the king of war, the holy master of the dark bat, and crazy killing the leader of the moon demon clan .

Boom boom boom!

Pieces of sacred treasures were displayed by them. After a while, the world changed color, and the terrifying attacks turned into traces of avenues. The cover fell down, leaving almost no hands.

They know that only by beheading the leader of the Moon Demon Clan can there be a chance of life, otherwise, under the demon clan's obstruction, they will only be tied tighter and tighter by the Buyi people, and then none of them will survive. .

"The rest of you broke the Buyi tribe's large array for me. The Buyi tribe betrayed the heavens and betrayed the human race. The crime deserves ten thousand deaths." The men of several major forces trapped the Yuemozu master and shouted at other masters.

boom!

Terrible attack collision.

The late saint master and the late saint master fought each other, and other people also fought together. In just a moment, many masters lost their lives, and the pungent smell of blood was everywhere, and the scene was very tragic.

"Damn! These human races are really hard to deal with!" The leader of the moon demon clan brought several masters of the moon demon clan to fight with the warlord suzerain and others. It never expected that in this case, this human clan's The expert can even burst out such terrible power.

"Buyi, what do you keep? As far as I know, the strongest of your Buyi tribe should be the Seven Lore Array. Why don't you start the Seven Lore Array?" the master of the Moon Demon clan roared, showing a fierce expression. .

When the Bouyei people heard this, their expressions changed slightly.

The Seven Lore Array is the strongest killing array of their Buyi tribe, but this array needs to burn the lives of the Buyi tribe. They only have so many people left. Once the Seven Lore Array is displayed, it will Some people have fallen, and even because they consume too much life, the entire race loses its way forward.

[Chapter 3412: Fight with them](#)

The Yuemozu did this to force their Buyi tribe to a dead end.

As if knowing the Buyi people's hesitation, the master of the Moon Demon Clan shouted coldly:
"Patriarch Buka, what are you waiting for? I asked you to do this to save you Buyi people. You Buyi people have now taken refuge in my Moon Demon clan. Don't you still think half-hearted, don't forget, once your Buyi tribe betrays the human race, takes refuge in my demon race, and the news of several major forces spreads out, what will you face? Don't you fear that your Buyi tribe will be annihilated? ?"

"This....."

Patriarch Buka showed pain on his face.

He knew that from the moment he took refuge in the demons, he had already embarked on a road of no return.

"Fine, nothing." Patriarch Buka showed a trace of madness, gritted his teeth and said: "Open the seven lore array."

Accompanied by a violent shock, the entire valley seemed to be turned upside down. Many people with low cultivation levels could not even stand steady, and one staggered and fell to the ground.

Gradually, black rays of light rose up from the Buyi people. These black lights were connected together and spewed out in the valley floor. However, those who were contaminated by the black rays immediately screamed in pain on the ground. After a while The holy source burst in his body and died instantly.

This is the cruel and terrifying place of the Seven Killing Array. As long as it is contaminated by it, the Saint Yuan in the body will be violent, eventually causing the Saint Source to be shattered. Even some people with high cultivation levels must be careful to resist.

But again, the cost of using such a large array is extremely high. The Buyi people need to sacrifice their own life force and use their own life origin to trigger such a large array and disrupt the sacred elements and laws in many masters.

Want to use the seven kills array must pay a painful price.

With the activation of the Seven Lore Array, many masters of the major forces died tragically, and for a while, everyone was in panic, and everyone was avoiding the terrible black light.

"Haha, good! Good death! You big forces want to resist, and you can't escape death today." The master of the Moon Demon Race watched the corpses fall down, his complexion became a bit ruddy, and he shouted excitedly.

"I want to see how you deal with the seven lore formations. Under these seven lore formations, you will undoubtedly die!" The Yuemozu master is extremely confident in the Buyi tribe's seven lore formations, combined with his Yuemozu masters. , He believes that this time the major forces of the human race will be wiped out and wiped out.

He even more believes that no one can break the Seven Killing Array, which is a large array formed by the Bouyei's sacrifice of life. The only way is to wait for the life force of the Bouyei's human body to run out, and by then he will no longer know that he will die. How many people have achieved his goal.

As for how many Bouyei people die by then, he doesn't care, because Bouyei people have no other way except to rely on him.

Being able to destroy several human forces is very satisfying to the masters of the Moon Demon Race. This is a great feat. When you return to the Demon Race, you will definitely be praised by the Abyss Demon Race and even be rewarded by the power of darkness.

"Damn! Patriarch Buka, quickly withdrew the Seven Killing Array, I promise, you Buyi people can live!" The Sect Master of the War King shouted with a grim expression.

This is equivalent to a compromise. If they could escape this time, they would definitely kill all the Buyi tribesmen who had betrayed, and they would never have trouble. However, due to the appearance of the Seven Lore Array, several major forces had to change their plans.

"Haha, can Buyi people survive?" The Yuemozu master laughed jokingly. "People of the human race, at this time, don't say these naive words anymore. From the moment the Buyi tribe takes refuge in our clan, they will find it's impossible to look back, just wait for death."

The Bouyei people were also silent, and it seemed that they had not listened to the conditions of the major forces at all, but burned their lives madly, and had to kill the major forces as soon as possible.

As the masters of the Moon Demon Race said, from the moment they betrayed, it was impossible to look back. If they looked back at this time, the Human Race would really spare them? They have betrayed once, and they cannot be betrayed again.

So they just kept silent, and frantically urged the Seven Killing Array, because only when the people of a few major forces died, or surrendered, they could stop the Seven Killing Array, and in this way, the Buyi people could die. Less.

"what!"

At this time, a master of the Buyi tribe suddenly burned, and the whole person instantly turned into ashes, and the life force was completely integrated into the seven lore array.

"Canan!"

Immediately someone from the Buyi tribe let out a painful roar. Kanan apparently fell because of the seven lore formations, which was exhausted. This was a side effect of the seven lore formations, but they had no way, even if it was. Death can only madly spur the seven lore array.

"Fight with them!"

Seeing this scene, the Sovereign of the War King and the others were shocked and gritted their teeth one by one. They all knew that the Buyi tribe could not urge the big battle unrestrictedly, as long as all the life force in the Buyi tribe was exhausted. , Then they have hope to survive.

But, can they really wait until then?

And when the Sovereign of the Battle King and the others were fighting frantically, You Qianxue and the Blade King Muzhifeng were also in crisis. The terrifying Seven Lore Array also brought them a lot of trouble, if it weren't for You Qianxue's terrible Spirit sense, I am afraid they have fallen here.

"Madam, you can't go on like this anymore." Dao Wang Muzhifeng said with a pale face. Nowadays, the people of several major forces are falling continuously. If they continue, they will all die here.

"It's almost impossible to escape now, Chen, where are you?"

You Qianxue lingered around the power of Yin, and all the members of the Moon Demon Clan could not bear the breath on her body, and it was safe for a while. She took advantage of the gap to look around, but her brows were frowned.

"Weird, why do I feel that the breath in this valley is constantly passing, as if it has gone to a certain place?"

You Qianxue was puzzled.

Many people have died in this valley, but the power of the law in the valley is not much, and even the blood is not strong, as if it is constantly passing by.

No one knows that when several major forces and people of the demon race were fighting frantically in the valley, in a cave near the valley, the 'Fire Demon Pill Saint' was sitting here cross-legged.

Under him, there is a weird large black formation, which continuously circulates, from which astonishing vitality and law power rise, and continuously merge into the body of the 'Fire Demon Pill Saint'.

"It's really comfortable, Jie Jie Jie, you kill, continue to kill, the more intense you kill, the more you can recover!"

There was a hideous laugh from the Holy Fire Demon Pill, this was the Venerable Soul Demon Race who took the "Fire Demon Pill Saint".

[Chapter 3413: Meet old acquaintances](#)

His soul was severely wounded, it can be said to be dying. Although he took the Fire Demon Pill Saint, he couldn't move at all in a short time. It just happened to be able to swallow the souls and blood of the fallen masters. They have the power of their laws to repair their own strength.

And when this sage demon clan was constantly devouring the blood in the valley, suddenly, his brows wrinkled, and a hideous color appeared in his eyes: "It's him, this **** fellow has actually come. "

In the far valley, a black figure rushed towards the valley suddenly.

"En? There is a breath coming, who is it?"

Just when the big forces were fighting wildly and struggling to survive, someone suddenly felt a breath coming here. This surprised the big forces and the people of the demon race, and one after another came towards that breath. Look around.

Because this valley is closed, there is no entrance or exit at all, but this breath is rapidly approaching, is there any passage near here?

And the opponent is only approaching now, is it a master who accepts the inheritance channel? Or, is it a certain method of the alchemy power remaining in this secret realm?

Thinking of this, the eyes of both sides are condensed, because the addition of this force at this time is likely to affect the change of the situation.

Several big forces prayed in their hearts. Ten million came from them. Even if it was just a casual cultivator, he could appear directly outside the Seven Lore Array when he appeared from outside the valley, so he might destroy Buyi. The tribe's seven lore arrays, as long as the seven lore arrays are broken, their major forces will have hope of life, and the demons alone cannot kill all of them.

But if the people of the Demon Race are coming, then it is over. The Demon Race has the upper hand. If there are demon masters coming, it will cause them to defeat faster.

For a time, the hearts of both parties were extremely disturbed.

Chi Yan, You Qianxue and others also looked at it nervously, and the sword king Muzhifeng muttered, "Is it the young master?"

wrong!

It's just that after this breath approached, the faces of the people of several major forces changed, because this breath was so cold, it was very similar to the Demon Race, and Mu Zhifeng, the sword king, also had a face that was difficult to look like: "It's not a master, there is no master at all. Soul breath."

You Qianxue's originally expected gaze also became disappointed, and her heart was full of anxiety.

In the Moon Demon Clan, Chi Yan's face showed ecstasy, and other Moon Demon Clan masters also showed smiles. They already felt the power of the powerful demon energy on the other side.

"Is it Master Fire Demon Pill Saint? Or Young Master Demon Li?"

Many Yue Mozu masters laughed lightly.

The next moment, outside the valley, a nihilistic passage appeared. Well, a man in black appeared in the valley, it was Mo Li.

"Haha, it's Master Demon Li."

"Young Master Mo Li actually came out safely through the inheritance channel."

"Don't you feel it, the aura on Young Master Devil Li seems to have changed, and even I feel the slightest heart palpitations, what happened to him in the passage of inheritance?"

Many masters of the Moon Demon Race were surprised, because the cultivation base of Demon Li had already broken through to the mid-term Saint Master realm. Before entering the passage, he was only the Saint Master at the initial peak.

That's all right, what surprised them most was that the magical power at this time gave them a very terrible feeling, and vaguely, they had a trace of oppression on their souls.

But how is this possible? Even if Moli had a breakthrough, it was only the mid-term Saint Lord, how could they give them such a strong sense of oppression?

It was in that inheritance space that the people who came to refine the soul power of the soul of the soul demon clan, the cultivation base got a breakthrough magic power.

Although his cultivation level only broke through to the mid-term saint master, he is still far behind some late saint masters in the valley, but he has obtained the inheritance of the meteorite demon domain and refined a trace of the soul of the soul demon master master. In these respects, it is far above the many people present.

Moreover, after refining a trace of the soul of the Venerable Soul Demon Race, he also knows some channels and mechanisms of the secret realm very well.

Seeing the battle in the valley, Mo Li's face changed slightly. He quickly glanced around the valley, a gloomy color flashed in his eyes, and, for a moment, he ignored the seven lore formations and entered directly into the valley. , Came to the Moon Demon Race.

"Hahaha, Young Master Demon Li, he is so talented that he has passed the inheritance of this ancient alchemy power. It seems that my Moon Demon Race will have to add another general."

The master of the Moon Demon clan suddenly laughed when he saw a strong player in his side.

However, among the several major forces, they saw that another master was added to the Demon Race, and he was a master who passed the inheritance channel, his complexion changed, and each of them was shocked and sank.

But You Qianxue couldn't help being taken aback after seeing Mo Li.

"Why is it him?"

You Qianxue exclaimed in disbelief.

She and Mo Li had crossed since they were in the Land of the Five Kingdoms, and they recognized Mo Li at a glance.

"Madam, do you know this Demon Clan person?" Dao Wang Mu Zhifeng asked in surprise.

You Qianxue nodded and frowned, but did not explain, she was surprised in her heart as to why Moli was here, but after Moli appeared and learned that he had also entered the inheritance channel, You Qianxue was surprised. But there was a hint of excitement and joy.

She was not excited by seeing Moli, but because if Moli could come back alive from the inheritance channel, then Qin Chen would definitely be able to.

Chen must be alive.

Huh!

After Mo Li entered the Moon Demon Clan, he did not answer the words of the Moon Demon Clan member, but came directly to Chi Yan.

"Moli!" Chi Yan said excitedly. He could feel that the aura on Moli's body had become much more terrifying, and he couldn't help being extremely excited.

"Is my master Fire Demon Pill Sage returned?" Mo Li's first sentence was to ask about the trace of Fire Demon Pill Sage, his expression was extremely serious and cold.

Chi Yan was stunned, shook his head and said, "Not yet."

Mo Li's brow furrowed deeper. He glanced at the entire valley, a haze flashed in his eyes, and immediately said to Chi Yan: "Get ready, leave here with me."

Then Mo Li turned to the human of the Moon Demon Race: "You also leave here as soon as possible."

The Moon Demon Clan members present were all stunned. One of the Moon Demon Clan masters frowned and said, "Mr. Devil Li, what are you doing? Now that the Fire Demon Pill Saint Master hasn't returned, I've already trapped these human masters. , Why bother to leave, as long as these human races are beheaded, this place will become a bridgehead for our demons to attack the human race, which is of great significance."

Mo Li shook his head and sneered: "Kill these human races? Do you think you really have a grasp of the situation?"

Mo Li sneered, and generally glanced at the Human Race. At this look, he suddenly saw a beautiful face, and he couldn't help but shiver.

"Why is she?"

Mo Li's eyes widened and he trembled involuntarily.

[Chapter 3414: Speak here](#)

Mo Li never expected that he would actually see You Qianxue in this valley.

Although he knew that after Qin Chen wiped out visitors from the heavens, Qin Chen and others from the Tianwu Continent should have entered the heavens long ago, but when he saw You Qianxue in the heavens, he was still taken aback for a while, his eyes A hint of fright flashed instinctively.

No way, the shadow that Qin Chen gave him was too big. When he was in Ancient Southern Capital, Qin Chen defeated him and won the golden parasitic seed of the Chaos Devil's Nest, and he only got the silver parasitic seed.

From then on, he took Qin Chen as the target and confronted Qin Chen everywhere, but who had thought that as long as he and Qin Chen were together, he would never win each other.

For a period of time, Mo Li even felt that he was a lone star, destined to be a bad luck.

But later he discovered that as long as Qin Chen was not there, he and Chi Yan had never been frustrated. Even when he accidentally entered the Demon Realm, he struggled to survive in the Meteorite Demon Realm, escaped several times, and even got inheritance and succession. After the treasure, he discovered that he could also become the protagonist.

Of course, the premise is that Qin Chen is not here...

So now seeing You Qianxue, his heart was instinctively covered with a layer of haze, and he couldn't help trembling in the depths of his soul.

After seeing Moli's weird behavior, the faces of the masters of the Moon Demon Race all showed doubts. They turned their heads, their eyes fell in the direction Moli was looking, and they immediately saw You Qianxue and the sword king Mu Zhifeng. The leading master of the Demon Race of that month frowned and said, "Master Demon Li, do you know that human woman?"

Not only were the masters of the Moon Demon Race wondering in their hearts, but the Sovereign of the King of War and the Void Bandits saw that the new master master of the Demon Race saw You Qianxue, and they trembled with fright, they also looked at You Qianxue suspiciously.

If it wasn't that they were in crisis, they would even come forward and ask You Qianxue what is going on?

"do not know."

Hearing the Yue Mozu's inquiry, Mo Li shook his head hurriedly, and looked at Chi Yan. A wry smile appeared on Chi Yan's face and the voice transmission said, "Mo Li, I was also taken aback by that You Qianxue before. I didn't think we could meet here. What I am most worried about right now is that Qin Chen is also here."

"Qin Chen?"

When Mo Li heard this name, a trace of terror flashed in his eyes instinctively, but suddenly, there seemed to be an electric light flashing in his mind, and the words of the Venerable Soul Demon Race who had taken away his home suddenly sounded.

"Damn it, if that kid hadn't hurt my soul just now, how could the deity fear you..."

The voice of the Venerable Soul Demon Race echoed clearly in Mo Li's mind. At that time, Mo Li was still wondering who could cause the Venerable Soul Demon Race to be injured and who he called that kid. At this time, he suddenly woke up. Isn't it Qin Chen what the Venerable Soul Demon Race said?

As soon as this thought came out, Mo Li's heart was instantly confirmed.

Damn, it's definitely him.

Except for Qin Chen, he couldn't think of any other young people who could frame the Venerable Demon Race, but if it were Qin Chen, Mo Li would feel normal in an instant.

Even if this evildoer eats that soul demon clan alive, he believes it.

I think that when he and Qin Chen were not even Wuzong, they were planted with parasitic seeds from the Primordial Chaos Demon Nest of the Alien Demon Race to control their souls.

And he relied on the soul of the demon race to withstand the invasion of the foreign demon race, but Qin Chen, who was just a human, actually refined the golden parasitic seed, and Mo Li couldn't figure it out later.

This was just one of them. After experiencing countless things, Mo Li felt speechless to Qin Chen, as if everything could be solved easily in front of Qin Chen.

If there is anyone who can reach that soul demon clan better than him, Qin Chen is definitely one of them.

"So, Qin Chen is also in this secret realm?"

Thinking of this possibility, Mo Li was shocked.

In the distance, after seeing Moli, You Qianxue's eyes flashed, he hesitated, and couldn't help but step forward.

Especially seeing Moli and Chi Yan standing together, You Qianxue also remembered for a moment. Whose voice was the incomparably familiar voice that transmitted to herself before and let her leave here, obviously it was the Chi Yan demon beside Mo Li. Jun's.

No wonder I feel so familiar, but I can't remember it.

Although You Qianxue and Moli haven't had much dealings, and even Moli and Chi Yan stayed with the people of the demon clan, but considering Qin Chen's safety, You Qianxue couldn't help but step forward. Go, I can't wait to ask Qin Chen's safety.

But who had thought that seeing You Qianxue coming up, Moli was shocked, his face turned green, and the corners of his eyes twitched.

"Go, Chi Yan, we will leave here immediately."

Mo Li spoke to Chi Yan, then turned to the master of the Moon Demon Race and said, "Everyone, I advise you to leave here immediately."

As the words fell, Mo Li immediately surged with a strange power. Hey, he raised his right hand, and the void in front of him was opened by a passage. Mo Li was about to enter this passage immediately with Chi Yan.

The master of the Demon Race of that month showed a look of surprise. Obviously there was some surprise that Moli was able to open the passage in this valley, but just hesitated, the master of the Demon Race of this month had appeared in front of Moli and stopped. He frowned and said: "Mr Devil, what are you doing? I will kill these human races soon, and completely control this place, but now I want us to leave. There must be some reason? And you respect the fire demon. Pill Saint hasn't come out yet, so leaving in such a hurry, aren't you afraid of your master's punishment?"

Seeing this person stopping him, Mo Li frowned and said, "I won't say much else. I can only say that this secret is not as simple as you think. This is a trap, a trap of ancient power. The valley where it is located is a refining formation set by the great power. Now that great power may appear at any time. As for the master..."

Mo Li shook his head: "It's better for him not to appear. If he does appear, then I am afraid that I will not be able to leave. Okay, I can only say that. As for whether you believe it or not, I can't control it and leave. ."

Having said that, Mo Li was about to enter the passage while pulling Chi Yan's hand.

"The trap of the ancient mighty power, Young Master Moli, what are you talking about?"

The master of that month demon clan stopped Mo Li, frowned and said, with countless questions in his heart.

"Step aside!"

Mo Li is still in the mood to explain to him, he has already told the matter, and it can be regarded as repaying the demon clan's care in the demon world this month. As for other things, he does not need to tell the other party.

[Chapter 3415: Keep alive](#)

Mo Li yelled coldly and slapped it with a palm, and suddenly a strange force swept through. The face of the master of the Moon Demon Race changed, and he discovered that there was an inexplicable force in the valley that repelled him, and then looked at the Mo Li belt. With Chi Yan, he quickly entered the passage and disappeared.

The faces of the Moon Demon Clan people on the scene all showed anger.

This magic is too much.

Others also looked at their leader. Obviously they had heard what Moli had said before, and wanted to see what the leader said. At the same time, a large number of Moon Demon tribe members looked at the surrounding valleys vigilantly.

Mo Li said that this valley was a trap of some ancient power, but couldn't see anything at all?

But even though they didn't see anything, they could think of the strange black aura that suddenly appeared before, and the head of the Moon Demon Race still sank, and instinctively believed part of what Mo Li said.

However, he immediately glanced at the entire valley, the human forces trapped by the Buyi people.

Although he vaguely believes that what Mo Li said is true, it really made him give up and leave here at this time, and he was full of contradictions.

Among them, the Moon Demon Race can only be regarded as a race of the third and fourth lines. Now they have finally encountered such an opportunity to return their Moon Demon Race to the core stage of the Demon Race. Such an opportunity, the entire Moon Demon Race The clan even only once in a lifetime, let them give up now? How is it possible?

Moreover, the black aura before was terrible, but after so long, the black aura did not spread too much. Although it still affected their souls and origins, it was still bearable.

If it was because of this, he would give up this opportunity, he would probably never forgive himself in his life.

"Kill these human beings, make a quick fight, and capture that woman for me, and keep alive. I want to know why Mo Li showed that expression after seeing this woman..."

The leader of the Moon Demon Clan said coldly to the masters under his command. The demon's expression made him instinctively surprised. Combined with the fact that You Qianxue easily broke the power of the Moon Demon Clan before, he naturally had a strong heart for this. curious.

"Yes!"

In an instant, these masters of the demons became even more crazier against the people of several major forces, and slayed them one by one.

Puff puff!

Blood flowed across the river, a great master fell quickly, and people were constantly dying. Invisible forces penetrated into the valley and entered the mysterious space.

"Hmph, that kid almost broke the deity's major event."

In the mysterious space, the Venerable Soul Demon Race's eyes were cold, and he said with a cold voice. When Moli appeared just now and wanted to call everyone to leave, he was really shocked. If Moli really prevented the battle in the valley, How does he restore his strength?

Fortunately, these demons did not leave for profit.

"After the deity has refined all these people here, I will find that kid, behead him, and smelt his soul for generations to make him sink in pain."

Venerable Soul Demon Race said grimly.

He closed his eyes and began to quickly absorb the blood and life in the valley. Dao Dao power was integrated into his body. The more people died in the valley, the more terrifying his ability to repair naturally.

A series of terrible auras began to slowly form on his body surface, circling constantly, exuding a mighty aura.

But not long after he just closed his eyes, suddenly in his perception, another tyrannical aura quickly approached.

"No, that kid?"

Venerable Soul Demon Race's gaze suddenly shot out hideously, just sent one away, but another one came, which is really hateful.

Could it be that that kid has already gotten all the inheritance of Sky Poison Pill Venerable? Otherwise, why rush to leave the inheritance space? But some inheritance of Poison Pill Venerable that day, could he get it so soon?

Although Venerable Soul Demon Race was extremely disbelieved in his heart, he still showed anxiety. What should I do now?

Does it continue to refine?

No, with that kid's shrewdness and ability, he may not be able to find out the clues, and this person has also absorbed a lot of his own soul power. The previous half-human, half-devil kid can absorb part of his own soul power. Find a way to enter and leave the valley, let alone this kid.

"Anyway, the temporarily absorbed power is enough, hide it first."

Thinking of this, the soul demon master quickly paused his refining, but quickly absorbed the power that had been integrated into his body.

Although Qin Chen had destroyed his seizure before, in the eyes of Venerable Soul Demon Race, it was only because Qin Chen possessed many extremely terrifying treasures and cold devouring power in his body, as well as the help of Heavenly Poisonous Entropy Fire. In terms of strength, Qin Chen is only the mid-term Saint Lord, in the eyes of Venerable Soul Demon Race, it is nothing at all.

Thinking of this, he immediately concentrated on practicing and quickly recovered his strength.

"Hmph, wait until my cultivation base recovers a bit, then I will regain my own things ten times and one hundred times." A hideous murderous intent bloomed in the eyes of the Venerable Soul Demon Race.

In the valley.

After Venerable Soul Demon Race stopped absorbing, You Qianxue frowned suddenly, and said in surprise: "Huh?"

Hearing this sound, Dao Wang Mu Zhifeng couldn't help being surprised: "Young lady, are you injured?"

He stood in front of You Qianxue, constantly resisting the attacks of the masters of the Moon Demon Race, his face was pale, and his body strength had become very weak due to exhaustion.

But at this moment, hearing You Qianxue's suspicious sound, she couldn't help but feel shocked. Could it be that the young lady was injured? If the young lady is injured, then he will be blamed for death.

"It's okay, it's just that the aura in this valley seems to have changed just now, it doesn't seem that dangerous anymore." You Qianxue frowned and said.

Before, she had always felt a faint sense of crisis lingering in her heart. Later, her magical behavior made her more proof of this. But at this moment, this breath disappeared strangely, which made her quite surprised and shocked. .

However, although this crisis has disappeared, the situation on the court has worsened.

In the valley, there was a mess. The major forces of the human race had suffered heavy losses long ago. The entire War King Sect had suffered losses of more than 70%. As for the forces such as the Void Bandits, it was the same. Some warriors with weaker cultivation bases all died. After the Buyi tribe's seven kills array, many of the remaining masters were also beheaded by the Moon Demon tribe. They were truly capable of fighting, but the previous one or two.

Of course, the people of the Moon Demon have also suffered heavy losses, but compared to the major forces of the Human Race, they are far better.

"Hahaha, everyone, work harder to kill these human races as soon as possible!"

The leader of the Moon Demon Race sneered and said, this remark suddenly made the human race present even more desperate.

[Chapter 3416: Someone is coming again](#)

However, in the face of such a terrifying Demon Race people, they have no way, they can only watch the group of people around them fall here, there is no way.

The head of the Void Bandits also had a gloomy expression. It was really unwilling to think that people like them would die here.

He and the Sect Master and the others looked at each other, and there were desperate roars all around, and even they could only resist with difficulty, and under the attack of the demon race, they kept retreating.

"Damn it, it's all because of the Buyi tribe."

Their hearts are full of anger. If it weren't for the Seven Great Formations of the Buyi Clan, how could they be suppressed by the Demon Race? These masters of the Demon Race might not be able to suppress them.

"Hahaha, come, capture this human woman for me."

With the constant fall of the human masters, many masters of the Moon Demon Race finally freed their hands and killed You Qianxue.

"Get out of here!"

The sword king Mu Zhifeng roared and resisted one after another.

"Hmph, a mere holy lord of the late human race, dare to resist me, Buyi tribe, don't increase the formation."

At this moment, many of the Buyi people are extremely weak, but after hearing the orders of the Moon Demon, the Bukka chief of the Buyi tribe urges the Seven Lore Array even more frantically, because he also knows that they can only end the battle as soon as possible. People of the tribe can survive.

You Qianxue and Dao Wang Mu Zhifeng instantly felt a terrible force suppressed on the two of them, and the holy yuan in the two of them immediately stopped flowing.

"Nine-pole water!"

You Qianxue no longer dared to hide his clumsiness. The Nine Extremes of Water came out in an instant. This is the mother water of heaven and earth. The pressure on the two of them was reduced a lot in an instant, but they still felt the extremely heavy pressure. The young masters all gathered, the sword king Mu Zhifeng couldn't stand it, was invaded by a magical force, and suddenly spit out a mouthful of blood.

"Old Mu." You Qianxue exclaimed.

"Madam, I'm fine, I'll block them, you go!" The sword king Mu Zhifeng gritted his teeth and immediately blocked the moon demon masters around him, puff puff puff, the attacks of these masters continued to fall on him, immediately Several black wounds were added to his body.

In these wounds, a series of terrifying Demon Race rules constantly penetrated, and the face of the sword king Mu Zhifeng could not help but a black light appeared, and the soul was a little shaken.

"Elder Mu, you step back and let me come."

You Qianxue's eyes are cold, and she wants to leave here too, but where can she go? She would not run away before seeing Qin Chen.

"Jie Jie Jie!"

Those demon masters instantly surrounded them. Although You Qianxue possessed the inheritance of the supreme lunar glaze and also possessed top powers such as Nine Extremes Water, her cultivation level was only in the mid-term Saint Master, and she might face a demon master. Still not afraid, but under these seven great formations, being besieged by a few masters of the demon race, immediately fell into an extremely dangerous situation.

"Dust, where are you?"

You Qianxue murmured.

But at this moment, well, a figure suddenly appeared in the distant void.

"Huh? This is the Bouyei tribe's big formation? No, there are some demon masters here."

The person who came was Qin Chen. After he saw the situation in the valley, his face changed suddenly and he rushed up quickly. With only familiar effort, Qin Chen had already arrived in the valley.

"Someone is here again?"

And the moment Qin Chen appeared, the fluctuating aura that stirred up also instantly alarmed many masters in the valley.

After the people of the Demon Race of that month felt the breath, they immediately laughed, "It seems that the master of the fire demon pill has come out."

The expressions of the Zhan King Sect Master and the others changed drastically. The appearance of Demon Li had made them quite desperate, but they did not expect that there were still people in this secret realm in this Demon Race.

For a time, endless despair emerged in everyone's hearts.

Only the sword king Mu Zhifeng felt happy, "Young lady, it is the young master."

He said in surprise.

Everyone turned their heads and saw that the figure that appeared suddenly turned out to be a young man.

"What, it's not Master Fire Demon Pill, there are still humans living in this secret realm?"

The people of the Moon Demon Clan sank, but after seeing Qin Chen's cultivation base, they sneered and let their hearts go completely.

"It's just the mid-term holy master of a human race. It's really an idiot. If you don't go anywhere else, you have to come here to die."

After these people of the Moon Demon Clan knew Qin Chen's cultivation level, they didn't pay attention to Qin Chen.

And the forces such as the King of War and the Void Bandit, after seeing Qin Chen appear, in despair, they were first happy, but then after feeling Qin Chen's cultivation base, the sense of surprise once again disappeared.

How much help can a mid-term Saint Lord, even if it belong to their human race? No matter how strong it is, the casual cultivator is strong enough, right? It is enough to be equivalent to a late-stage holy master, but still can't bring much change to the battle.

Only the eagle-falcon man who condemned the thief blurted out, "Brother, I am the alchemist of Tianwu Danpu."

The master of condemning the thief was shocked. The alchemist in Wudanpu didn't die after entering the inheritance channel this day? Immediately turned his head and looked over.

And in the valley, You Qianxue, who was pale and fought against the demon clan, turned her head excitedly at this time, and looked outside the valley. Seeing the familiar figure suddenly appeared, You Qianxue's eyes were suddenly moist. My heart was filled with immense excitement.

Chen really was still alive, she knew that Chen would be fine.

It was just her distraction that was immediately caught by the Moon Demon Clan people. The few Moon Demon Clan masters saw this and instantly grinned and said: "Hmph, fight with me, but you dare to do it yourself and come over. "

Boom!

One of the masters of the Moon Demon Race seized the opportunity, and a pitch-black demon hand came out in an instant, aimed at You Qianxue fiercely, grabbing it down.

When the sword king Mu Zhifeng saw this, he immediately exclaimed, but he was also trapped by the master of the demon race, and there was no time to rescue him.

Seeing that You Qianxue was about to be hit by a master of the Demon Race.

When Qin Chen in the distance saw this scene, his eyes instantly became anxious and angry.

boom!

The power of the endless space flickered, Qin Chen saw that You Qianxue was in danger, and could not care about it anymore. The power in his body burst to the extreme in an instant, and the law of space was urged to the strongest point by him in an instant. , The whole figure seemed to have crossed the endless void in an instant, and rushed into the valley quickly.

"court death!"

A thunderous roar resounded through the world, and then, a terrifying to the extreme spatial force swept over. Everyone in the valley felt that the entire valley space seemed to sway at this moment. , And then saw a domineering figure, fiercely bombarding the master of the Moon Demon Race who was grabbing You Qianxue.

[Chapter 3417: Double flame](#)

"Fast speed!"

Everyone was stunned. Qin Chen was still outside the valley before, just blinking, no, not even blinking, for a thousandth of an instant, it was as if he had crossed the distance of space and came straight. When he arrived in the valley, he shot out with a punch at the master of the Moon Demon Race.

"Supernatural powers of heaven and earth!"

"Cracked Sky God Mark!"

"Fist of Slaughter!"

At this critical juncture, Qin Chen was frightened and directly displayed his most terrifying attack. The power of the top space lingered out, and You Qianxue felt that the void in front of him suddenly became immense, as if forming a An independent world.

And the master of the Moon Demon Clan who was grabbing and capturing You Qianxue felt like he was trapped in a quagmire, unable to move his whole body. The palm of his grasping towards You Qianxue became slower and slower, and his eyes suddenly Exuding a look of horror.

He came back to his senses and wanted to resist Qin Chen's attack, but what greeted him was only a terrifying fist shadow. This fist shadow contained endless killing intent and space-cutting power, like a vast ocean, instantly swallowed Up him.

puff!

Under the eyes of everyone, the master of the Moon Demon Race was annihilated by endless shadows. Everyone only heard a slight tearing sound, as if pouring water on Mars. There was a sneer, this master of the Moon Demon Race It disappeared completely and became a ash of nothingness, leaving only some demon energy to dissipate continuously under the agitation of the power of space.

"Qianxue."

Qin Chen hugged Qianxue in an instant, and felt the pale face and extremely weak aura of You Qianxue. Qin Chen couldn't help but feel very distressed, and his heart seemed to be pulled up.

"dust!"

The moment You Qianxue saw Qin Chen, she relaxed, lying in Qin Chen's arms, full of excitement.

It's just that her slackness is just a breath of blood. She has resisted so many masters of the Demon Race before, and has suffered some trauma, and it didn't break out until this time.

The blood was sprayed on Qin Chen, but Qin Chen did not evade or wipe it at all. The blood dripped down his body, like a knife pierced in his heart, making his heart more angry than ever.

Fortunately, he came back as soon as possible, otherwise if something happened to Qianxue, he would never forgive himself.

"Qianxue, what's the matter with you? Why did the Buyi people set up a killing array, and where did these demons come from?"

Qin Chen asked anxiously. Before You Qianxue could answer, Qin Chen had already taken out a pill and handed it to You Qianxue, saying, "You take the pill first."

After You Qianxue swallowed the pill, Qin Chen inspected You Qianxue carefully, and found that she was only consuming too much, and after suffering some minor injuries, he was relieved.

"Master, you came just right, otherwise, I'm afraid you won't see Madam Young and me." The sword king Mu Zhifeng also walked up excitedly at this time.

Qin Chen realized that Mu Zhifeng was also injured at this time, and immediately took out a pill, let Mu Zhifeng also take it, and then glanced coldly at the valley.

What a vision he could see in an instant, the valley is divided into two camps, one is the camp of the demon race, and the other is the camp of several major forces, and the Bouyei people, for some reason, actually took refuge in the demon people. Show the light, to trap the people of several big forces.

The people of several major forces are clearly in a weak position, while the Buyi and Mozu are in a strong position. Of course, this is also because of the betrayal of the Buyi people, otherwise the people of the major forces will never be so embarrassed.

At this time, everyone was shocked by the shock of Qin Chen's appearance, especially Qin Chen killed a master of the demon race with a punch, and it made everyone on the scene breathe in cold air, almost unable to believe his eyes. .

"It's a powerful attack. In the punch just now, there is a sense of endless killing, and there are terrible spatial magical powers. The strength of this child is stronger than that of the woman. Is this what you said that his strength is not strong? "

The black-clothed man who condemned the thief looked at Qin Chen in shock, and then said coldly to the falcon man.

He didn't need to think about it at all, he knew that the second master and Huangyun old man they had condemned the thief had definitely died in Qin Chen's hands.

"Brother, I..."

The Eagle Falcon man looked worried, and he didn't expect Qin Chen's strength to be so terrifying, but the aura on his body was clearly only the mid-term Saint Lord?

The people who condemned the **** thief were shocked, but the people from the forces such as the war kingzong were excited. Will the appearance of such a master as Qin Chen change the situation of the battle?

They are like drowning people, seeing a straw, thinking about catching it.

"Your good guts, dare to kill my people from the Moon Demon Race and look for death."

The major forces of the Human Race were nervous and excited here, while the Moon Demon Race was furious. The leader of the Moon Demon Race had a grim look and immediately shouted, "Kill this kid."

Actually, there is no need for him to speak, the few Moon Demon masters who previously besieged You Qianxue and Daowang Mu Zhifeng have already rushed forward viciously. These Moon Demon masters have a hideous face, and they have displayed their strongest against Qin Chen's attack.

Boom!

Endless devilish energy rushed into the sky, like a tsunami, covering the sky and the earth, instantly enveloping Qin Chen, and swallowing Qin Chen completely.

Qin Chen's eyes were cold. He looked at these people of the Demon Race. He didn't know where these people of the Demon Race came from. However, if he dared to act on his beloved woman, he must have the determination to fall.

Qin Chen didn't speak, or even asked, just sneered, a terrifying green flame suddenly appeared in his body.

As soon as this group of flames appeared, a dazzling green light suddenly burst out, a shocking poison rule swept out in an instant, and the attacks of the moon demons masters who rushed up were too late to fall. The poisonous flame was instantly enveloped.

Sky Poison Entropy Fire!

what!

These Moon Demon Clan members instantly uttered a screaming scream, and they rolled in the void one by one, unable to say a word in their mouths, and their bodies were exposed to the naked eye under this terrifying fire. The visible speed melted.

What kind of flame is this?

Everyone looked at this scene in horror, and never expected that the flames Qin Chen displayed could melt these moon demon masters.

In an instant, several Moon Demon masters with weaker cultivation bases were instantly melted into nothingness by the Sky Poison Entropy Fire, and turned into a series of demon energy to dissipate in the air, but there are also a few masters who are still resisting their cultivation. Because they are all at the level of the late saint master, the poison of Sky Poison Entropy Fire alone can't completely melt them.

Qin Chen's expression remained unchanged, and he looked at them coldly, and the next moment, another dark flame appeared.

As soon as this flame appeared, it turned into a black ocean, once again enveloping these masters of the Moon Demon Race,

It's a disaster!

what!

Under the double flames, these moon demon masters burst open in an instant, burning fiercely in the void one by one, incomparably shrill.

[Chapter 3418: Moon Demon Eclipse](#)

The two big flames of Calamity Underworld Fire and Sky Poison Entropy Fire burned crazily. Those few masters of the Moon Demon Race of the late Saint Master level felt that their bodies would soon be unable to withstand the terrifying heat. Nothing, screamed in horror: "Leader, save us!"

The leader of the Demon Race of that month looked at this scene in fright. He could feel the horror of Qin Chen's display of flames, one with a strong poisonous gas, and the other kind of restraint against the power of the Demon in their bodies, As if the flame is above them.

"People of Buyi tribe, what are you waiting for?"

The leader of the Moon Demon Clan screamed, never expecting Qin Chen to be so terrible. As soon as Qin Chen came over, he immediately caused his masters of the Moon Demon Clan to fall away.

The key is that they are almost already taking down the major forces of the human race, and the appearance of Qin Chen at this time has caused too much damage to their plan.

After the leader of the Moon Demon Clan roared, he immediately brought many masters of the Moon Demon Clan to kill him frantically.

"Die me!"

This month, the demon leader ignored other human masters, and directly stretched out his fist and smashed it towards Qin Chen. The terrifying force of the moon demon haunted him, and then turned into a fist on his fist. The shadow of the fist that seemed to be able to destroy the world suddenly fell towards Qin Chen.

Qin Chen has seen many treasures, but for the first time he saw someone dared to use his fist against him. When the fist of the leader of the Moon Demon Race was just smashed out, it was only the size of a normal fist, and it was the size of a gong in the blink of an eye. When that fist appeared on Qin Chen's head, it was already a huge hammer with a radius of several feet.

The surrounding space was squeezed by this fist for a while, and many warriors around Qin Chen retreated madly, and even You Qianxue and Daowang Muzhifeng could not resist this breath.

Even the Sovereign Lord of the War and the masters of several major forces looked at the huge fist in shock. Although the fist was only a few meters in radius, it seemed to destroy the world, exploding the power of the laws of the world. , This is a blow that has been integrated into many masters of the Moon Demon Race, and it was not until this time that the King of War Sect Masters knew that the strength of this month Demon Race leader was so powerful.

The leader of the demon clan this month is definitely not an ordinary master of the late stage saint master, he can even be called the saint master of the later stage peak, even if Qin Chen is not afraid of him, he will not underestimate it.

In an instant, the Saint Yuan in his body surged crazily, and the mighty Saint Yuan poured into the green demon sword that suddenly appeared in his hand, turning into a green sword light and smashing into the fist of the leader of the Moon Demon Race.

With a crisp "click", Qin Chen even thought that what his green demon sword hit was not a fist, but a holy treasure that was harder than his green demon sword.

The leader of the Moon Demon Race and Qin Chen flew upside down at the same time, Qin Chen Shengyuan surged, and he was secretly shocked that the strength of the Moon Demon Master was so strong.

No, it's not the leader of the moon demon clan that is strong, but this person can actually mobilize the power of the many moon demon clan masters present to attack himself.

But the leader of the Moon Demon Race was even more horrified than Qin Chen. He condensed so much power, even if he was a peak saint master, he thought he was not afraid, but he could not think that he had condensed the supreme magic power of many demon masters. Qin Chen didn't even take advantage of it, and even suffered a bit.

The leader of the Moon Demon Race took a look at a blood stain on his fist, and suddenly a black round bead was sacrificed, and then several magical powers shot out. The round bead was about the same as his fist just now, and it burst out in an instant.

"boom....."

The black beads that were soaring crazily tumbling suddenly, countless black smoke burst out instantly, covering the surrounding space in the blink of an eye.

At the same time, the Buyi Clan's Seven Killing Arrays also began to surge crazily, and Qin Chen was instantly wrapped in horrible arrays of light.

Qin Chen was submerged in the light and black mist at the same time. The experts from the surrounding powers all hurriedly backed away in horror. They didn't help Qin Chen to do it together, but took out the pills one after another. At this time, they were anxious. Recovering his strength and strength, his eyes are always vigilantly watching the surroundings, obviously to see if there is a chance to escape here.

"Who is this guy? Such a strong strength, but too arrogant. He didn't even evade. He was directly swallowed by the black mist of the Moon Demon Race. This black mist is so terrible, with a strong sense of corrosion, plus The killing array of the Shang Buyi tribe, he must be over."

Sect Master Zhanwang's eyes flickered and muttered.

The big master who condemned the thief also frowned: "With this person's strength, he won't even have the opportunity to resist, and he will be swallowed by the black mist. It seems that he is too high to see himself, and he didn't know how to avoid it before. It seems that if we want to escape, we can only rely on ourselves."

The endless magical energy in the black mist is surging, and it seems that anyone who enters it will be directly swallowed and submerged, and these black mist not only have the effect of a strong swallowing law, but also a powerful corrosion effect.

Not to mention that the Buyi tribe's Seven Killing Arrays were directly targeted, and they might fall in a moment if they were here as the Sovereign of the Battle King.

In the black mist, Qin Chen was not afraid, and there was a terrible light around him, and he helped You Qianxue and the sword king Muzhifeng resist the attack of the black mist.

Qin Chen has the Devil Tree of the Ten Thousand Worlds in his body. How can he care about the corrosion of the devil energy? These black mists can only be used as the nourishment of the Demon Tree of the Ten Thousand Worlds. It's okay for this dot matrix method to bring him some trouble, but it is impossible to trap him.

"Dust, what shall we do now?"

You Qianxue and Daowang Muzhifeng were shrouded in light, and said in shock.

"Hmph, this month the demons are not to be afraid. The real trouble is others, but I have to figure out the origins of these people first." Qin Chen frowned. He felt the little ants and the little fires in his body eager to move. Without hesitation, he summoned the little ants and little fire.

As soon as the little ants and the little fire appeared in the black mist, they immediately flew with excitement. They opened their mouths and quickly absorbed the surrounding black mist like a vacuum cleaner.

But Qin Chen quickly displayed the formation flags in the black mist, blending into the surrounding void, and these array flags were continuously connected together and turned into a mighty formation.

Seeing Qin Chen being swallowed by the black mist, the leader of the Moon Demon Race sneered, "Arrogant boy, under the eclipse of the Moon Demon of my Moon Demon Race, no matter how strong you are, you will be corroded and strangled..."

It was just that before his words fell, he saw that the black mist in front of him was rapidly diminishing, and then he saw a group of weird insects flying around Qin Chen, absorbing the moon devil's eclipse of their moon demon madly.

[Chapter 3419: Soul Search Demon](#)

"how is this possible?"

He watched this scene in disbelief. The Moon Demon's Eclipse of their Moon Demon Race can corrode the soul and the holy origin, even if it is extremely terrifying among the Demon Race, what kind of ghost are these insects that can absorb their Moon Demon Race's eclipse. Eclipse of the Moon Demon.

In the shock of the leader of the Moon Demon Clan, Qin Chen had already arranged a large formation, and the sky patching technique suddenly urged.

Boom!

A series of terrifying lights flooded out, and these lights quickly merged together, engulfing part of the Moon Demon's Eclipse, and with a bang, it suddenly spread out towards the outskirts of the valley.

what?

In the horrified eyes of everyone, this terrifying force immediately swept out, and instantly poured into the body of the Buyi master outside the valley.

Puff puff!

The Buyi masters who were consuming a large amount of life force and displayed the Seven Lore Array were hit by this force, and immediately spit out a mouthful of blood, Boom, the Seven Lore Array that was being displayed burst into pieces, and countless Buyi people violently shattered. They flew out and fell to the ground one by one, embarrassed.

They had already consumed a large amount of essence and blood, and now they were backlashed by the formation that Qin Chen displayed, each fell to the ground, one by one in embarrassment, and there was no power to fight again.

"Buyi..." The leader of the Moon Demon clan suddenly screamed when he saw that the seven lore formations laid by the Buyi clan were destroyed by Qin Chen in the blink of an eye.

After the several major forces on the scene felt the power of the formation that had suddenly disappeared, their faces all showed ecstasy. They didn't wait for Qin Chen to speak, and even ignored the battle between Qin Chen and the Moon Demon. The Sect Master and others burst into the sky, one by one, they were going crazy to tear the void and escape from here.

They finally didn't get trapped by the formation and didn't want to stay here at all.

"These guys."

You Qianxue and Dao Wang Mu Zhifeng saw these guys in such a hurry and were about to leave, and their hearts were frightened. If it weren't for Qin Chen, they were still trapped in the big formation, and now Qin Chen had managed to let them escape. No one of them had the intention to help Qin Chen, and they all couldn't wait to leave here.

There are such ungrateful people in this world.

Qin Chen saw that these guys couldn't wait to leave here, but he sneered and didn't do anything, because he knew that these guys couldn't escape the valley at all.

Sure enough, the Zhanwang Sect Master and others urged the power of space and tried to leave here, but no matter how they used the law of space, the space of this valley was still closed here, and there was no way for them to leave.

What exactly is going on?

Sovereign Warlord and the others immediately showed a look of anger. They had clearly seen the devil's tearing space leave here before, so how could it be their turn?

Seeing this scene, You Qianxue also looked a little surprised, and said in doubt: "Why can't they tear the space? Before, the magic and power were clearly torn into the space."

"Magic Li?" Qin Chen frowned immediately, and looked at You Qianxue suspiciously, "What magical Li?"

You Qianxue hurriedly told Qin Chen what had happened before.

what?

Mo Li was here before, what is the origin of these people of the Demon Race?

"It seems that we have to understand the origins of these guys."

Qin Chen condensed in his heart, and said to You Qianxue and Dao Wang Muzhi: "You two stay here, Little Ant and Little Huo, you protect them, and devour these Moon Demon Eclipses earlier, don't drag on. ."

When the words fell, Qin Chen immediately fixed his eyes on the Moon Demon Clan in front of him.

boom!

A terrifying sky fire rose instantly from Qin Chen's body, calamity underworld fire, sky poison entropy fire, green lotus demon fire, Youkong ice flame, Yin and Yang soul fire, big sun golden flame, purple ignorance real fire...

Many terrifying skyfires rose up at the same time, and instantly enveloped many Moon Demon masters present.

"what!"

So many flames were released by Qin Chen, and the power of the terrifying flames even enveloped the entire valley. In a short time, the masters of the Moon Demon Race in the valley, some of the lower cultivation bases screamed. The master turned into nothingness directly under the flame.

The remaining masters of the Moon Demon Race were horrified to discover that after losing the Buyi clan's great formation, this valley had become Qin Chen's territory. Whoever he wanted to die would have to die.

For a while, the scene became silent. After seeing that they couldn't leave, Sect Master Zhan Wang and others stayed in the valley, watched Qin Chen vigilantly, displayed Saint Yuan, and resisted the flame.

Qin Chen seemed to have not seen all this. Whoever wanted to leave, he didn't let others stay, but those who wanted to leave couldn't leave the valley because he knew that the valley was a Jedi.

Qin Chen just madly spurred the power of the flames, constantly burning the masters of the Moon Demon Race, and suddenly a person of the Moon Demon Race screamed in pain, and even the head of the Moon Demon Race roared in anger, together with a few moons. The powerful demon race quickly gathered together to form a whole, resisting Qin Chen's attack with difficulty.

"You dare to kill my moon demon clan member, no matter who you are, you can't escape death..." the moon demon clan leader roared in anger.

One of the masters of the Moon Demon Race gritted his teeth, rushed towards Qin Chen, and roared: "I can't live anymore, die for me!"

boom!

This month the Demon Master finished speaking, his whole body soared, and he was obviously about to explode.

How could Qin Chen let a powerful Moon Demon clan expert of the late Saint Master level explode in front of him, Sheng Yuan's big hand had already been stretched over, and directly carried the Master Moon Demon clan in front of him like a chicken, with his hands already covered On the top of the head of that month demon clan, began to search for the soul.

It can be said that the holy master master wants to search for the holy master master, and it is still the soul of the demon race, it is simply nonsense.

Unless you don't die, the soul power of a powerful demon can flood into the sea of knowledge of the holy master of the human race, and you can make the powerful master inferior, not to mention that the search is still the soul and memory of the late demon master. It is choking to search for ordinary demons.

Therefore, seeing Qin Chen searching for the soul of the saint master of the late demon clan for a month, the surrounding martial artists couldn't believe it.

They are all the best in the human race, and naturally they know a lot, but even if they knew that Qin Chen could not search for the soul of a demon saint master, no one dared to make a sound, and even the battle king master and others flickered. He seemed to be waiting for Qin Chen to have an accident.

Of course Qin Chen wouldn't care about this. Although it was a bit troublesome for him to find the soul-searching demons, he would not be harmed. He possessed the Demon Tree of the Ten Thousand Realms, and those demon powers flooded into his mind, and he could easily be taken by the Demon of the Ten Thousand Realms. The tree absorbs.

However, under normal circumstances, Qin Chen would not search for the soul demon clan. This method is not honourable, and it is not good for him if he uses it more frequently.

In just a few dozen breaths, Qin Chen displayed a ball of flames and turned this demon master into fly ashes. At the same time, he closed his eyes and swallowed all the messy demon auras in his mind with the Devil Tree of Ten Thousand Worlds, leaving only After sending out the soul message he wanted, he sighed.

[Chapter 3420: mob](#)

Qin Chen learned a lot from the souls of the masters of the demon clan of this month. It turns out that these demon clan people came from the demon clan of the demon world, and they were brought here by the Buyi clan, and the souls in this secret realm. Venerable Demon has nothing to do.

Qin Chen's only worry was whether the people of the Moon Demon Race were traps set by the Venerable Soul Demon Race. Now that he knew that the Moon Demon Race people had nothing to do with the master of the Soul Demon Race, his heart was completely released. Down.

And from the soul of the master of the Moon Demon Race, Qin Chen also learned the news of Demon Li.

Unexpectedly, after Mo Li arrived in the Demon Realm, he got so many adventures and became a demon alchemist, and he was worshipped by a planted demon alchemist named Fire Demon Pill Saint.

But as long as the other party didn't come to provoke him, Qin Chen would be too lazy to look for that magic.

After seeing that the Moon Demon Race has nothing to do with the Venerable Soul Demon Race, Qin Chen breathed a sigh of relief, and stared at the Moon Demon Race people with cold eyes. The terrifying flames continued to linger down under the power of this flame. , These moon demons roared in pain, but they were still resisting.

In the valley, countless people of the Moon Demon Race were roaring as if they had fallen into hell, while Qin Chen, like a god, towered in the sky. Above his head, endless flames lingered, like a statue. Deity in general.

The people of the major forces present were all stunned by this scene.

Masters such as the Sovereign of the King of War and the Great Master of the Condemned God Pirates all looked at Qin Chen's master of slaughtering the Moon Demon in shock, and his heart was full of unprecedented shock.

Is this the master of the demons?

They had fought with the Moon Demon Clan before, and they naturally knew how terrible these Demon Clan people were, but now, these Demon Clan people, who had made them want to live before, almost fell, are in Qin Chen's hands like ants, struggling in pain. And the scream, this kind of violent contrast shocked everyone present and filled with disbelief.

How could this son be so strong? Who is he?

Previously, he had planned to condemn the master of the **** thief, and his eyes were extremely solemn, showing a shocking color.

Boom boom boom!

Terrible flames continued to descend, the leader of the moon demon clan and some of the remaining masters of the demon clan were completely suppressed in a tiny corner, but the power of the moon demon on them was united. Actually resisted Qin Chen Flame's invasion!

Seeing this scene, the Sect Master and others on the scene could not help but feel a little better. If Qin Chen raised his hand, he would directly kill the Moon Demon Clan who had made them embarrassed and almost destroyed the entire army, without leaving a trace. If they do, then they might go crazy one by one.

"These people of the Moon Demon Clan, there are two of them." Qin Chen frowned and violently activated the Universe Jade Plate in his body. The next moment, above his head, a simple and mighty palace suddenly appeared.

As soon as this palace appeared, the world was filled with a strong flame aura, a force that suppressed the ages, as if the terrifying pressure that would tear the laws of the heavens came down in an instant.

It is Zixiao who is going to rate the palace.

When the Zixiao Douluo Palace appeared, Zhanwang Sect Master and others all looked at the huge palace above the valley in horror. What kind of palace is this? Why did they have a shivering sense of collapse when this palace appeared?

"The Venerable Treasure is a Venerable Treasure. Only the Venerable Treasure has this kind of coercion over the laws of heaven!"

"This child actually has a treasure of the venerable, is he a person of some top power in the heavens?"

Many strong survivors in the valley said in shock.

哇!

Zixiaodou led the palace exuding mighty coercion, rumbling down, and the sky was trembling. The remaining masters of the Moon Demon Race were shocked by the shock. Many people's bodies were split, demonic energy overflowed, and screams were made. ll.

"Well, these guys are still resisting?"

It has to be said that the demons are extremely terrifying this month, and under the suppression of Zixiao Dousiligong, they are still madly resisting and insisting.

"Hmph, I see how long you can hold on."

Qin Chen sneered, and the formation flags quickly appeared in his hand, whoosh, these array flags were quickly thrown out by him, and they landed around the valley.

"Your Excellency, what are you doing?" Sect Master Zhan Wang and the others immediately changed their expressions and said to Qin Chen, their tone a little nervous.

Qin Chen has clearly suppressed the people of the Moon Demon Clan, but is still arranging formations in this valley. Does he want to target the people of their powers?

Thinking of this, the faces of Zhanwang Sect Master and others suddenly changed.

No wonder they think this way. This scene is really weird. Qin Chen has clearly suppressed the people of the Moon Demon Clan, but he is still setting up a formation. What is this going to do?

Qin Chen coldly glanced at Zhan Wangzong and other major forces, and sneered: "Do I still use formations against you?"

What Qin Chen said was very natural, but the faces of Zhanwang Sect Master and others were red and white.

The Dark Bat Lord's eyes were gloomy. At this time, his injuries had recovered a lot, and he said in a deep voice: "Then what are you doing? If you want to kill the Moon Demon Clan, I can help, but this Formation..."

Before they were trapped by the Buyi tribe's Seven Killing Arrays so miserable that they now jumped at the sight of the array, thinking that if they were trapped by Qin Chen's large array, then...

Although Qin Chen looked very young and didn't seem to be a master of formation at all, the scene of Qin Chen breaking through the Buyi tribe's seven lore formations before they are still vividly visible, and they can't help but worry.

Vaguely, the King of War Sect Master and others, as well as the Void Bandits and other major forces, once again secretly cooperated, and it was Qin Chen that was targeted.

"Huh, the mob."

Qin Chen snorted coldly, but did not look at the Zhan Wangzong and others. Instead, he kept laying down a large array. Suddenly, a series of terrifying formation patterns slowly lingered in the valley, and the complex formation patterns continued to spread, everyone In an instant, I felt like I had fallen into a new realm.

"If you don't stop, don't blame us for being impolite. Your Excellency saved me and waited. I'm very grateful for waiting, but it doesn't mean that I can leave it to your disposal."

The Dark Bat Lord suddenly said coldly.

Qin Chen frowned, just about to speak, but suddenly his face changed and he suddenly looked at a certain direction of the valley.

"boom!"

At the moment Qin Chen turned his head, from that location, a dark streamer suddenly surged, turning into a cold and poisonous snake, and quickly enveloping Qin Chen's body.

The cold black light was just a stream of light at first, but when it was in front of Qin Chen, it had already turned into a black cloud, covering Qin Chen completely.
