

Valkyrie 3431

[Chapter 3431: Kill the wrong one](#)

"What, Master, you have been invaded by a strange soul?" Mo Li was taken aback and looked at Chi Yan.

They were a little wary of the Fire Demon Pill Sage at first, because Moli had always speculated that the cold soul would seize the Fire Demon Pill Sage Master, but they didn't expect the Master to say it directly. Didn't the Master be robbed of him?

Venerable Soul Demon didn't seem to see the expressions of the two of them, and said bitterly: "Yes, that weird soul is very terrifying, and it will directly invade the mind of the teacher. Fortunately, the teacher is a pharmacist, possesses magic fire, and is a teacher even Planted Demon Race, the soul of my Planted Demon Race is different from the ordinary Demon Race. It is extremely difficult to seize the house. Even so, I was almost taken away by the opponent as a teacher, and finally resisted."

"That soul was extremely terrifying at the time, but after finding that I had no hope of seizing the house, I just fled away. After I was sober for the teacher, I immediately tried a way to leave the inheritance space, but appeared in a valley. People of the Moon Demon Clan, they said you two have already left first, Li Er, why don't you wait to become a teacher..."

Speaking of this, Venerable Soul Demon showed a hint of dissatisfaction on his face, and immediately said: "By the way, what did you encounter in that secret realm?"

"Master." Mo Li and Chi Yan looked at each other and said: "After the disciple entered the secret realm, he did not obey the master's orders, did not choose the test channel, but also chose the inheritance channel, but the disciple It also passed the inheritance test and entered a strange space, and was invaded by a cold force..."

what?

Venerable Soul Demon was immediately shocked, and he instinctively stepped back before saying: "Are you also invaded by that cold soul?"

"Yes." Moli smiled bitterly. "The disciple almost couldn't hold on at that time. Fortunately, the disciple once had a top inheritance in the Meteorite Demon Realm before he could hold on. At that time, the disciple immediately returned to the valley after escaping the seizure house, I wanted to dissuade the Yuemo people from leaving, but they didn't obey the disciple's words. The disciple thought that Master, you had been accidentally hit, so they left with Chi Yan first, Master, I'm sorry."

Mo Li looked bitter.

"It's okay, Master can understand you." Venerable Soul Demon shook his head: "No wonder you will leave first, but in fact, you were right to leave, and then you almost fell as a teacher."

"Master, what is going on? What's your injury?"

Mo Li asked immediately.

"After returning to the valley as a teacher, the people of the Moon Demon Race are fighting with the great powers of the Human Race. The people of the Moon Demon Race have almost killed all the major

forces of the Human Race, but suddenly one of them came. Top master, this is a young man, but his strength is extremely terrifying..."

"What, top expert, young man?" Mo Li and Chi Yan looked at each other, startled.

"What?" Venerable Soul Demon looked at the two in confusion.

"It's nothing, the disciple just accidentally accidentally made a human young man make you feel terrible, Master, later?" Mo Li said.

"Later, under the action of a young man, almost everyone who was a teacher and the Moon Demon Clan could not resist. That young man, too strong, possessed a powerful heritage, and even possessed the treasures of the Venerable. This was the first time he was a teacher. I saw such a terrifying Tianjiao among the human race."

Venerable Soul Demon palpitated, "At that time, we almost couldn't resist it. When we were about to leave, who would have thought that there was a sudden change in the valley, that cold soul should be the ancient power in this secret realm, he The trap has been arranged a long time ago to consume the power of all of us, especially the arrangement of the other party, which has a powerful effect on our demon race. The people of the moon demon race continue to fall, relying on the identity of the alchemist as a teacher. Persist to the end."

"At the last juncture, it was the young man in the human race who made the move. This person was still a master of formation and broke through the trap of formation in the valley. The teacher seized the opportunity at the moment and broke the ban in the valley. Escaped."

Speaking of this, the Venerable Soul Demon still has a fright on his face: "But it hasn't been long since the teacher left the secret realm, and I don't know what happened in the secret realm. Suddenly the entire secret realm exploded, and the teacher was seriously injured. After fled in panic, he escaped."

"Unfortunately, everything in that secret realm turned into nothingness under the explosion, and the people inside should have died. The teacher didn't dare to stay there for the first time. I walked away from the secret realm for the first time, and suddenly I felt the breath of you and Chi Yan, so I rushed over..."

"Master, is the young man you talking about very close to a beautiful woman in the valley?" Mo Li suddenly said.

"Hey, how do you know?" Venerable Soul Demon showed an unexpected look. He was really surprised, because as far as he knew, Mo Li had already left before the battle. After Mo Li left, Qin Chen When he appeared, he should not know Qin Chen's appearance and identity at all.

"Sure enough, that demon!"

Mo Li and Chi Yan looked at each other, and the two said together.

"Devil?" Venerable Soul Demon became even more suspicious: "Li'er, do you know that human young man?"

"Master, Disciple does know some news about the young man. Speaking of which, Disciple has had a lot of dealings with the young man, but that's what happened before." Mo Li shook his head and said: "Master, you are seriously injured now, so let's heal your injuries first."

As he said, a black pill appeared in Moli's hand and handed it to Venerable Soul Demon, saying: "Master, this is the holy healing medicine that the disciple got from a powerful ruin in the Meteorite Demon's Domain. Only by relying on this thing can you resist the invasion of the cold soul and repair the injury. Master, you should eat it quickly. If you eat it, the injury will heal quickly."

"Unexpectedly, you still have this kind of magic pill, you really are a good apprentice for the teacher!" The soul demon veteran took the pill and was obviously moved by his concern for magic, but he did not take it immediately, but rather Doubtfully said: "Li'er, I still don't understand. You are a member of the Holy Demon Race, born in the Demon Realm, how could you have dealt with the Human Race kid of that Realm?"

Mo Li smiled and said, "Master, although the young man is actually a human race, he was not born in the heavens, but in the lower planes... He is a human race from the source continent called the Tianwu continent!"

"What? Origin Continent?"

Venerable Soul Demon Race was taken aback. He was truly surprised when he heard the three words Origin Continent, but his astonishment hadn't fallen yet. Suddenly his expression changed drastically, and he said in anger, "Li'er, what are you doing? ?"

Because at the moment he was shocked, a flash of cold light suddenly flashed in the eyes of Mo Li's eyes, pouch, and a palm of both hands suddenly thrust into his chest.

[Chapter 3432: Magic Gu](#)

The black magic pill exudes a permeating aura, and it spreads quickly. It not only blends into the body of the soul demon sage, but also enters his soul. He has never felt it. , There is something in this world that can numb his soul.

"What the **** is this?"

Venerable Soul Demon was extremely furious. He was already very careful and didn't take the pill given to him by Demon Li at all, but he didn't expect that the potion could actively blend into his body.

"Hahaha, it is your blessing to die under this magic pill. This is the top treasure I have obtained from the ruins of the meteorite demon realm. You don't need to swallow it. If you need to get close, you won't be able to escape the paralysis of this magic pill. I was not willing to use such treasures when you seized me before you. If you don't expect you to come back, then don't blame me."

The demon's face is hideous and fierce. Although he has stopped the soul demon, he is still very vigilant. Who knows what methods this soul demon will have? Demon Venerable's methods, Mo Li doesn't need to think about it to know that it is absolutely terrifying, so he is very vigilant, even if he seems to have restrained the Spirit Demon Venerable, but still uses this one he had been in Meteor Demon Realm The most terrible magic pill I got.

It is said to be the magic pill, the strange black threads in this magic pill are permeated, as if there is life, even when the soul of the soul demon is all concentrated on the black thread, you will find that, These black threads turned out to be composed of tiny creatures.

"Devil Gu, you are not a Demon Pill, it is a Demon Gu, are you not afraid of backlash?"

Venerable Soul Demon's eyes were full of terror. This time, he was really scared. In fact, just as Mo Li had guessed, Mo Li thought he had trapped him, but he still had a way to escape. The dignified demon veteran, who has lived for tens of thousands of years, would not have any sense of guard.

But he never expected that the other party would have something like Demon Gu.

"Hahaha, what are you afraid of backlash? A treasure like Demon Gu, used on your ancient Demon Venerable Power, just complements each other. Even my Master Fire Demon Pill Sage is not qualified to enjoy it, otherwise you think he can live now? "

Mo Li climbed onto a trail of pitch-black black silk threads, these black threads actually wandered like snakes, extremely terrifying and hideous.

"You actually put the Devil Gu into your body, madman, you are really a madman."

Venerable Soul Demon stared at the black silk thread on Moli's body in amazement. At this moment, he had completely regarded Moli as a lunatic. He was definitely a lunatic. Otherwise, how could ordinary people plant the Devil Gu into his body? Even the Demon Lord dare not do this easily.

Demon Gu is a very terrifying thing in the Demon Realm. It can swallow everything in the world, treat the people of the Demon Race as its host, and madly absorb external power and demon energy.

This is like the iron nematode in insects. Once a person is parasitized by the iron nematode, the food intake will increase tenfold. In order to strengthen yourself, you can increase yourself crazy, and because of its characteristics, the host absorbs heaven and earth. The speed of power will also increase at an alarming rate.

And this magic gu has this characteristic, but it is ten times, a hundred times or even a thousand times more terrifying than normal parasites, and the speed of absorbing external forces will be increased by hundreds of times and thousands of times.

But the consequences are also extremely terrifying. Once the Demon Gu grows up, it will backfire the host. The stronger the Demon Gu, the more so, and the ancient Demon Gu on the guy in front of him can be paralyzed and swallowed by even his demon venerable It is because his current strength is inexhaustible, but it is not that ordinary demons can integrate into the body.

What is this not a lunatic?

Generally, people who integrate into this class of Demon Gu will die for a lifetime, no, even die for ten.

"I am a lunatic?" Mo Li's eyes were dark and savage: "That's right, I am a lunatic, I am not mad, how can I survive in this world where the weak and the strong eat? How can I live in this world where the strong is respected? Live..."

Mo Li let out a hysterical roar: "Do you think it's me and Lord Chiyan who are going crazy? No, this world forces us. We just want to survive, but in this cruel world, weak It's original sin, and we don't even have the qualifications to live. What can we do?"

Moli's face was distorted, his look was terrifying, tears rolled from his eyes, and he roared: "You, an ancient demon, the master of the soul demon clan, what do you know? Lord Chiyan and I came from the lower realm to this heaven. How much life and death has this demon world experienced? When we first came, it was just the mortal holy realm, an ant from the mortal holy realm, fell into the forbidden land of the meteorite demon realm that even the top demons dare not easily break into. Do you know what we have endured, what have happened?"

"We only have to be cruel, crueler than others, crueler than ourselves. Only in this way can we survive! It has only been a few years since we came to the Demon Realm, and we have broken through to the realm of the Holy Lord. In your opinion, we are talented and intelligent? Hahaha, talent, That's nothing, that's bullshit, it's just that we are more cruel, cruel to the enemy, more cruel to ourselves, even the devil can be integrated into the body, so our cultivation base can be thousands of miles, one year in the demon world, it is nothing For thousands of years of the Demon Race, otherwise, why should we get this far? What luck?"

Speaking of luck, Mo Li thought of Qin Chen, and his heart became even more angry. From the Venerable Soul Demon Clan, he also knew Qin Chen's current situation and his fearfulness.

Why, if he is also a human, then Qin Chen can be the son of luck in the Origin Continent of Tianwu Continent, he is just a loser?

He also came to the heavens, and it didn't take many years. What have he and Chi Yan experienced to grow to where they are today? Mo Li didn't dare to imagine that the pain he experienced would have been dead a hundred times, a thousand times.

But what about Demon Qin? Why are there beautiful women with me? Can it be so strong? Where is his magic power worse than others?

Is he not working hard enough?

No!

But why?

"You said I am a lunatic, yes, we are lunatics, but we just want to live well and stay together, why don't you give us such a simple thing!"

Mo Li roared crazy, roaring out the anger in his heart and the anger towards this world.

boom!

Tian Gong shook, and even Tian seemed to hear his dissatisfied roar, roaring.

Their purpose is just to survive, but in this sad world, they can only be mad, because only a madman can live.

It's so sad.

[Chapter 3433: You don't understand our feelings](#)

"Die to me!"

The demon roared, countless black threads poured into the body of the soul demon clan, and the soul demon clan screamed in agony. The strength of the body and the power of the soul were all absorbed by the demon clan and Chi Yan. Swallow, like a dying old man, watched as he walked towards the abyss of death, falling a little bit.

"Damn it, I hate, my dignified ancient demon venerable died in the hands of a lunatic like you."

The Venerable Soul Demon roared angrily, and suddenly, the soul in his body suddenly fluctuated, and an aura of destruction diffused from his body.

"Dakun Soul Magic Book!"

Venerable Soul Demon roared, the soul on his body fluctuated violently, and the terrifying power quickly accumulated, and he was going to die with Mo Li and Chi Yan.

"Hahaha, do you think you swallowed me? No, I'm dignified ancient demon, I would rather die than be swallowed by you lunatic, hahaha!"

The voice of Venerable Soul Demon was extremely stern, he knew that he could no longer survive, and he had the power to explode his soul.

This class of characters is simply terrifying, even in this situation, he still has the means to break free and explode, even Mo Li was surprised.

However, his eyes suddenly became crazier, and he roared: "You want to explode, have you asked me? I see how you exploded!"

boom!

Mo Li's body shook, and a weird and cold phantom figure rushed out of his body, and suddenly fell into the soul of the soul demon who was about to explode. At the same time, the red flame demon king suddenly rose up. A series of demon fires, these demon fires, suddenly wrapped the soul of the Venerable Soul Demon Race that had been integrated into the void, and they had a tacit understanding with each other. There was no communication between the two sides at all, as if their hearts were completely connected.

"You... the soul is out of the body..."

Venerable Soul Demon roared angrily. He did not expect that Mo Li would use his soul to prevent himself from exploding. Now the two soul powers merged together, plus the power of the Demon Gu, the violent fluctuations of the soul of the Venerable Soul Demon escaped. , Suddenly eased, and was madly swallowed by the soul of Mo Li.

"You... crazy, although you can stop me like this, aren't you afraid that that guy uses magic fire to refine your soul? You are like this, you put your life in the hands of others, as long as he wants, just a thought Can refine me and you and become the biggest winner!"

After the soul is separated from the body, it is much more fragile than in the physical body. In addition, the magic fire of Chi Yan envelops the magic Li and his soul, and the magic Li is not fortified at all. As long as the Chi Yan is willing, he The demon fire can quickly refine the souls of his Soul Demon Venerable and Demon Li, and neither of them can even resist.

Even, Venerable Soul Demon knew that he could not blew himself up, so he deliberately said so, hoping that Chi Yan would do this so that Mo Li would die with him, so that he would be stunned even if he died.

Hearing these words, an incomparably hideous aura spread from Moli's soul, taunting: "Look, this is you evil demons. Until death, you want to drag me to die together. Unfortunately, you I don't know the relationship between Lord Chi Yan and I. Lord Chi Yan wants to devour me, or I want to devour him, just speak, and all of us can dedicate ourselves. For him, I don't need anything. My body is His soul is his..."

"you....."

The dying Soul Demon glared his eyes, in disbelief, and roared: "How can you two lunatics trust so? No, there is no one who absolutely trusts in this world. In front of greed, no one can resist. ."

Mo Li murmured: "You don't understand, you don't know anything about the relationship between me and Lord Chi Yan..."

puff!

Finally, under the devouring of Mo Li and Chi Yan, the soul of Venerable Soul Demon was completely wiped out, and countless soul power and auras crazily poured into the bodies of the two of them, making the auras of the two of them even more profound. Get up, with an ancient smell.

boom!

In the next moment, the body of the Fire Demon Pill Saint was also shattered, and countless lives, demon qi, and laws, including the power of the planting demon clan, were also swallowed by the two, thanks to the demon gu in their bodies. , Otherwise, how could it be so easy to swallow the soul and body of such a master.

boom!

A terrifying force impacted on Mo Li and Chi Yan, instantly shattering the robes on the two of them, and the two faced each other frankly.

But the two did not feel embarrassed, sitting cross-legged and facing each other.

The messages of countless Soul Demon Venerables flooded into Moli's mind like a torrent, and Moli grumbled in pain. The power of a Demon Venerable is not something he can fully bear now. It can be said that he now only Can withstand part of the soul power of the Venerable Soul Demon.

Suddenly, in this pain, Mo Li suddenly widened his eyes, and his eyes were filled with excitement.

"Soul liquid medicine, there are such miraculous liquid medicines in this world, Chi Yan-sama, that's great, your body can recover." Mo Li's excited body was trembling, and on the other side, Chi Yan obviously felt it too. At this message, I couldn't be more excited.

"Great! Great!"

The two eyes faced each other, excited, tears in their eyes.

They have never been so excited as they are now. The news that the spirit medicine liquid in the soul of Venerable Soul Demon can reshape the flesh is even more excited than when they got the power of the ancient demon clan from the Meteorite Demon Realm.

In this world, they can do nothing, as long as the two can be together, they can abandon everything.

For each other, they can be crushed.

"Go, Lord Chi Yan, we will immediately look for the material for the spirit liquid medicine. With my current alchemy strength, there is no problem in refining this spirit liquid medicine. The only thing that is lacking now is the material." Mo Li stood up excitedly. , His body was instantly covered with a robe.

"Okay, let's leave here to find the elixir."

Demon Chiyan also trembled with excitement, his eyes gleaming, at this moment, the two of them seemed to have found a new meaning in life.

"Quickly, otherwise Qin Chen's demon might be coming, this bastard, I will definitely be unlucky when he comes, so hurry up."

Mo Li and Chi Yan Demon Lord quickly held hands, slammed into the void and disappeared. They didn't even dare to do it for the time being to consolidate the cultivation base, because once Qin Chen came, the two of them would definitely be unlucky.

"Oh owe!"

Among the jade discs of good fortune in the universe, Qin Chen, who had used the Devil Tree of Ten Thousand Realms to plant soul aura in the bodies of the Sovereign of the King of War and the Great Master of the God-Scourge, sneezed sharply.

"Who is cursing me?"

Qin Chen squinted and rubbed his nose.

"Dust, are you okay?" You Qianxue looked over in doubt, how could he still sneeze when he reached Qin Chen's strength?

[Chapter 3434: Big crisis](#)

"It's okay."

Qin Chen waved his hand, his divine sense swept the periphery, his face suddenly showed joy, "The impact of the void outside the Universe Jade Plate is much smaller, we should be able to leave."

When the words fell, Qin Chen immediately used the technique of fate to calculate the position of the soul demon.

It's just that his expression changed suddenly.

"wrong!"

He couldn't help but said in surprise.

"Dust, what's the matter?" Qianxue asked in confusion.

Qin Chen's face was ugly, "Venerable Soul Demon's vitality seems to have disappeared."

"What?" You Qianxue's eyes widened, how could this be possible?

"The breath of life disappeared, is he dead?" Qin Chen's eyes were serious, and he continued to calculate, but no matter how he calculated, the vitality of the soul demon did disappear in the long river of fate, and this disappearance was not hidden. Get up, if it is hidden, Qin Chen can't capture the other party's existence at best, but now, Qin Chen clearly feels that the other party's vitality has disappeared.

There is only one such situation, that is, the soul demon is dead.

How could these characters be killed?

"Dust, is it the other party's fake death?" You Qianxue frowned, and the ancient demon dignified, maybe there is such a method.

"It's not clear at the moment, let's go and take a look."

Qin Chen's eyes were solemn, and he immediately appeared outside the Universe Good Fortune Jade Plate. The damage to him by the turbulent flow of the void was not too strong anymore, and he flew towards the place where the aura of Venerable Soul Demon disappeared.

An hour later, Qin Chen stood on top of a disused meteorite, and looked at the devilish energy around him that had not completely dissipated, his face completely sinking.

"Venerable Soul Demon is indeed dead, he died here." Qin Chen frowned with solemn eyes.

What he had been worried about before was that Venerable Soul Demon would expose his secrets, but now that the other person is dead, it is obviously impossible to spread the secrets, but who killed him? Those who can kill these characters are generally not able to be done by the saint masters of the later stage, is it the venerable?

But Qin Chen didn't sense the slightest power of the venerable here.

"Dust, can you figure out who killed Venerable Soul Demon?" You Qianxue frowned.

"If you are someone you don't know each other, you might have some trouble. Even if you can calculate it, you can only figure out some general auras, but I always feel that the aura here is very familiar. Let me try."

Qin Chen closed his eyes, and inside his body, the Book of Origin rose up, and the power of fate surged rapidly. In front of Qin Chen's eyes, the river of fate appeared, and Qin Chen looked for clues in it.

After a while, two blurred figures appeared in the long river of fate.

"This person who killed the soul demon is actually related to me, and has a connection in fate, who is it?"

Qin Chen couldn't help being surprised at how easy it was to calculate it, because the opponent and himself had an intersection in fate, which was equivalent to causality, so the calculation was clearer and faster, but who was it? In the heavens, there seems to be no one who has cause and effect with him, and can kill the soul demon, right?

Qin Chen opened his eyes wide, and carefully looked at the two figures.

After he saw it thoroughly, Qin Chen's mouth suddenly opened wide.

"Wipe, are they two?"

Qin Chen said in disbelief.

It was Mo Li and Chiyan Demon Lord who killed the Venerable Soul Demon.

Qin Chen: "..."

At this moment, You Qianxue also felt the two figures in the long river of fate, and his face also showed a silent color.

Are these Demon Li and Chiyan Demon Lord so strong?

Qin Chen meditated, "These two people should have used some special means to kill the soul demon venerable and seized his chance."

Inside Qin Chen, the Demon Tree of the Ten Thousand Worlds surged, able to sense the power of all the demons around him, and frowned slightly: "The strong aura of the demons in this Demon Li and Chi Yan seems to come from the ancient demon clan. They are both in the demon world. What inheritance has been gained in it? How can it be so powerful?"

Qin Chen sighed. Unexpectedly, Mo Li and Chi Yan were so suppressed by himself in the Tianwu Continent back then. In this heavenly realm, the second spring was actually glowing. Even the soul demon sacred died in the hands of the two, which made Qin Chen admire. .

"Dust, when I was in the valley before, Na Chi Yan reminded me, let me leave the valley and don't be ambushed by the Buyi people!" You Qianxue said, "Should they not be our enemies?"

Qin Chen smiled and said: "That would have to be done by them, but since these two people killed the Venerable Soul Demon Race, the old friends always saw it wrong."

In the distance, the scalp of the madly escaped Demon Li and the Red Flame Demon in the Void Tide Sea was numb, as if something bad was about to come, they couldn't help running faster.

Qin Chen closed his eyes and calculated, the river of fate was surging, and he wanted to calculate the positions of Mo Li and Chiyan Demon Lord. He prided himself on finding each other's existence through the causal connection between them.

However, just after the calculation, I instantly felt a strong murderous intent, and my scalp numb, and my body would explode.

Qin Chen was shocked, he vaguely felt a strong crisis coming, as if he would stay here and face a powerful life and death.

"go."

Qin Chen was horrified in his heart, brought You Qianxue, and instantly escaped into the void tide sea. Boom, his figure was like electricity, like a day, madly escaped into the void tide sea depth, and then urged the technique of space to escape into the layer Layer of void.

"Dust, what are you..." You Qianxue was shocked in the Universe Good Fortune Jade Disc. It was the first time she saw Qin Chen behave like this.

"There was a big crisis in that place just now. If you don't leave, it might be dangerous."

Qin Chen shouted sternly, and then asked the **** thief and others as to where there is a forbidden place in this Void Tide Sea to hide his body.

He felt that he seemed to be stared at by something, and he couldn't easily get away.

This is definitely not the coercion that the Holy Master strong can bring to him. With his current strength, even if he is the peak Holy Master in the later stage, he will not have such a strong sense of crisis. At least he can fight, even if he is defeated. Can escape.

And now, there is a strong sense of suffocation in his mind, this is something that a master-level master can't bring him, at least a master-level master, can it be that a master-level master has come?

But soon after Qin Chen escaped quickly.

Boom!

In the depths of the endless void tide sea, a dark figure is an ancient demon god, escaped from the endless void and appeared on the meteorite.

The meteor is dead, like a dead sea of stars, with a sense of lifelessness, loneliness and desolation.

However, after the appearance of this dark figure, the void was also surging. The void of the heavens was trembling, and the infinite tide was like the ocean, surging crazily, shocking the nine heavens and ten earth, and it seemed to explode in an instant, boiling.

[Chapter 3435: Devil comes](#)

What a terrible figure this is, covered in devilish energy, shrouded in darkness, unable to see the appearance, but extremely large, like the big day, the eyes are open and closed, and the dark pupils seem to have everything sinking. Endless bodies piled up into mountains.

This scene is terrible.

Because many of the corpses piled up into mountains are as big as mountains, they seem to come from the celestial races, and some are human-like. However, every corpse exudes an ocean-like atmosphere, like the sky is soaring and a volcano erupts.

These corpses were actually top-level Saint Master level masters, and each one was as majestic as the sky. This kind of scene was too terrifying, enough to shock everyone.

As soon as this figure appeared here, the endless demonic energy soared into the sky, and he did not hide his figure in the slightest. The suppressed sky was trembling and lawless.

In the distance, some caravans of 100,000 miles, hundreds of thousands of miles, or even millions of miles away, the void pedestrians, all looked at the sky with horror. The infinite power that radiated, suppressed them bending down, and their souls were all there. Trembling.

"The Demon Race is a member of the Demon Race."

"Why do the demons appear in our void tide sea?"

"Who is this? Ah, the breath is too strong, my soul is cracked, and I seem to see myself as a corpse."

Some caravans and Void Travellers who were close to one hundred thousand li, covering their eyes in pain, the seven orifices were bleeding, unable to withstand the powerful aura of the other party, and even two late master masters could not help kneeling down. On the ground, pain screamed.

The other party was just the escaping breath, and it suppressed them to kneel down, unable to resist, the late Saint Lord, even difficult to resist, what kind of character is this?

"Well, some little **** of human race."

The slight figure sneered, with an indifferent smile, between the openings, the heavens and the earth roared, the avenue surging, the law collapsed, puff puff puff, countless void pedestrians burst directly, and an entire caravan exploded and turned into blood mist. Smash directly.

This kind of scene is too scary, like a doomsday.

After the two late-stage holy masters screamed, their spirits and souls were destroyed, and their two bodies floated slowly in the lonely void tide sea, and finally entered the twin pupils of the towering figure. Became his trophy.

Non-top masters do not even have the qualifications to become his trophy.

"what!"

Hundreds of thousands of miles away, even hundreds of miles away, many people watched this scene in horror. Their bodies were about to explode, but they couldn't move and were terrified.

Lord.

This is definitely a master of the venerable level, covering the eternity, in charge of the sky, and even the avenue of the sky can be overridden, giving them strong oppression.

Venerable Demon Race, descending on the Void Tide Sea, if this kind of news is passed out, it will definitely cause a sensation in the entire celestial realm and shake the universe.

"Well, the old ancestor asked me to come here to find a human kid and kill him. This person will affect the future destiny of my demons. According to the guidance of the ancestors, the breath of this son has clearly entered this void tide sea. , How can no one be found?"

This misty figure, like a walking corpse, walked out of the endless darkness, ignoring the many caravans and pedestrians in the void tide sea in the distance, just standing near the meteorite and muttering.

His eyes opened and closed, and the light of blood soared, like dripping blood, and in his pupils, the endless aura up and down, unexpectedly evolved Qin Chen's bewildered figure on this meteorite, as well as the soul of the demon. The breath of Mo Li and others was also looming.

It's just, it's not obvious. Obviously, the other party can't directly trace the time and space, directly find Qin Chen's location, can't spy on everything here, just vaguely search, only the corpse of the Fire Demon Pill Saint, and the screaming roar of the Soul Demon Lord, it is exceptionally clear.

"The Ancient Venerable of the Soul Demon Race, is it the old thing that attacked and killed the Sky Poison Pill Venerable? Hmm, I remembered that the dojo of the Sky Poison Pill Venerable back then seemed to be in this void of tides. Nearby, back then, my demon sent many masters of the soul demon clan to persuade this person, and then disappeared, seemingly all gone. Isn't the old soul demon clan dead?"

This body murmured, Venerable Soul Demon did not show any respect, but sneered: "That guy is really an idiot. Back then, my demon clan was not willing to trouble Sky Poison Pill Venerable. That ghost, but with poison masters, all races have sought him to refine the pill, and no one dares to provoke him. If the Poison Pill Venerable was so easy to kill that day, it would be the Soul Demon Clan's turn to invite you? The thing that doesn't need your mind should be the Sky Poison Pill Venerable. It was a pit, and there was only a remnant soul left, who wanted to resurrect, but unfortunately, he died here in the end. It was sad to be killed by several juniors."

This majestic figure seemed to have touched the truth of the matter in just an instant, Rumble said.

"Well, the young man of the human race seems to have just left here not long, huh, now that the deity has arrived, how can you let him escape? The deity finally escaped from the battlefield of ten thousand races and came here. Order, you will be punished by your ancestors after you go back, life and death are unpredictable."

boom!

This Void exploded directly, and this majestic figure found its direction and chased it down. Suddenly, the Tianhe River burst and the Void Tidal Sea vibrated.

He directly pursued and killed him, and his huge body like a star stretched out nearly ten thousand feet, rushing straight through the void and tidal sea, directly blasting the dead stars, like fireworks blooming, too rampant.

This kind of strong man also has such confidence that all obstructions along the way are directly crushed.

In the distance, the dying caravans and Voidwalkers who had been suppressed finally gasped, stood up in horror, and started sending messages.

Heaven, a demon veteran descended on the void tide sea, for some reason.

If this news is passed, the entire heaven will be a sensation, and the battle between the human race and the demons will definitely become more violent.

Although the Void Tide Sea is very vast and the Human Race is not in full control, it is not far from the Four Heaven Realms of the Human Race. If the position here is lost, it will be a strategic mistake for the Human Race.

In an instant, countless messages were transmitted, quickly spreading throughout the heavens.

The masters who walk in the sea of void tides are all people of many forces in the heavens. The news is so well informed that it spreads quickly and continues to spread.

boom!

The whole heaven is a sensation.

Many big forces that knew the news were shocked, as if their **** exploded, one by one soaring into the sky, and the news quickly passed to the top human forces.

For a time, the heavens rioted.

At this time, the towering figure of the demon was flying quickly, seeming to be tracking something, and the many masters who had been frightened before also recovered one by one. Someone was following from a distance, conducting a live broadcast, following the demon. Zun's movements.

Against the demons, everyone is responsible, and some people want to earn first-hand information and get benefits.

[Chapter 3436: Forbidden Land](#)

boom!

Countless people swarmed in.

In a certain void in the Void Tide Sea, a figure swiftly swept, exploded its scalp, and urged the whole body to the extreme, fleeing like crazy.

It was Qin Chen.

At this time, although Qin Chen didn't know what was going on, he had vaguely felt that someone was following him behind him, and his entire body was standing up.

He kept calculating, and finally felt that there was a monstrous demon energy locked in him, he was a master of the demon clan, and he was a demon.

"!***"

Qin Chen almost cursed, his heart frightened, like a frightened rabbit, his pupils contracted.

Moreover, among the jade discs of good fortune in the universe, the top figures of the Void Tide Sea, such as the Sovereign of the King of War, the Master of the Condemned Pirates, and the Sage Lord of the Dark Bat, have also received some messages. Someone has passed the previous picture. It was handed over to Qin Chen, making Qin Chen hairy.

It was a body as huge as a star, extremely cruel, extremely cruel.

Although both are Demon Venerable, this person's power is much stronger than Soul Demon Venerable, and it is not on one level at all. This is the Demon Venerable in its heyday, and Soul Demon Venerable is just a remnant soul.

Qin Chen didn't understand why he was targeted by such a demon. Could it be that the friend of the soul demon came from him?

However, even if he was summoned by the Venerable Soul Demon, shouldn't he go after the Demon Li? What do you care about? It was not himself who killed the soul demon.

"Go, go, go!"

Silent in his heart, Qin Chen urged his body madly, he was just spitting out like this, but in fact, he had a feeling that the other party did not come for Venerable Soul Demon, but focused on himself, specifically for himself. Come.

Although I don't know where this feeling comes from, it is extremely clear.

Behind, in the depths of the cold starry sky, a pair of eyes opened, huge, indifferent and ruthless, a majestic body, rushing quickly, is the master of the demon.

"Well, the deity sensed that he is nearby. The human child has such a keen sense of spirit that he can perceive my killing intent, so he left first. No wonder Lord Demon Ancestor asked me to kill him personally. "

The Hong Liang's body was deeply affected, and the demon lord was whispering, his eyes flickering.

"This Void Tide Sea is not within the scope of the human race's top power. I also found such an opportunity to appear and behead it. If it is allowed to enter the human race realm, then even me, I would not dare to break in at will. This opportunity, it must be killed to complete the command of Lord Demon Ancestor."

He said, his gaze was playful.

"It's just a little ant, do you think you can escape in the hands of the deity?" The terrifying figure said, disdainful of Qin Chen's escape.

He felt that Qin Chen's cultivation base was only a mid-term Saint Lord. It was really too weak. On the battlefield of ten thousand races, such a character was not enough for him to see, and he didn't know how much accumulated in his body. The corpse of the Holy Lord is not even worthy to enter his core secret realm and be refined by him.

Because the origin of the mid-term Holy Lord is basically useless for his existence.

His whisper was very subtle, but it was caught by someone with a heart, which immediately caused an uproar.

This demon master turned out to be chasing and killing a human master, who could be chased by this demon master, and the opponent personally descended on the void tide sea, regardless of danger.

When this news spread back to the rear, many forces were shocked, in an uproar, and speculated.

Could it be that the inheritor of a certain top power of the human race came to the void tide sea? Otherwise, why does this Demon Lord appear here? However, even if the inheritors of some top powers appear, there is no need for such a demon to take action, right?

It should be noted that although the Void Tide Sea has not been completely controlled by the Human Race, it is also near the Human Race's territory. When he appears like this, he is not afraid of being targeted by the Human Race, directly beheaded and killed by the Demon Lord?

On the battlefield of Ten Thousand Races, the Venerable Masters are the main force, the real tycoon, the talker.

If you fall here because of this, it won't be worth the loss.

Because, after the top human forces get the news, they will definitely send masters as soon as possible.

Boom!

At this time, Qin Chen fled madly and opened the Dao Dao Space Formation. His various methods were displayed, his figure flickering in the void, like flying in a wormhole, desperate.

After a while.

Qin Chen's appearance appeared in a dark place, this is an endless dark place, quiet and terrible, a cosmic abyss traversed here, as if the entire universe was cut off, deadly silence.

Qin Chen rushed out of the space crack, arrived nearby, and dived into the dark faults nearby, because, according to the Dark Bat Lord and the others, this is the most terrifying forbidden place in the Void Tide Sea, the Void Sea!

There are too many legends about this place. In ancient times, this virtual sea has already existed, and many strong men have fallen here.

Qin Chen was near here, naturally not wanting to die. It is rumored that even a Venerable Master might fall into this forbidden area. Here, there is the great secret of this universe, which is related to the origin of the universe.

Of course, this is just a legend.

In the past, the top human forces sent the venerable to enter, but the people who entered, for some reason, eventually fell. Some were like stones sinking into the sea without a sound, and some came out alive, but they never knew whether there was something in this sea of void. What, I only know that there is darkness, nothingness, nothing, not even laws, roads, and nothingness.

What's peculiar is that these people who came out alive did not know why. After they came out, they all died suddenly and unexpectedly.

No one knows how they died, which is frightening.

Therefore, the Void Sea in the Void Tide Sea has also become one of the most terrifying forbidden places in the heavens, and no one dares to enter.

At this moment, Qin Chen approached this Xuanhai, lurking near Xuanhai, fleeing frantically. He wanted to use this Xuanhai to avoid the enemy's pursuit.

"En? Xuhai?"

boom!

Void trembling, that towering body like a star appeared, lingering devilish energy all over, like a chaotic demon god, too powerful, standing outside the void sea.

However, he also stopped and never rushed into the void.

In such places, even he didn't dare to break in at will, because there was great terror in the virtual sea.

"This kid really has the means to use the virtual sea to escape the deity's pursuit."

boom!

He opened his blood-colored pupils, really like two rounds of blood moons, soaring into a rainbow, endless chains of order lingering around him, as if he could see through everything in the world.

"Boy, I don't know why you attracted the attention of Master Demon Ancestor, but if you are targeted by the deity, you don't think you can live. The deity wants to kill the person who has never been unable to kill."

He came out majestic, walked near Xuhai, and followed Qin Chen's trail.

[Chapter 3437: Is the master](#)

Qin Chen's scalp became more numb, and he wanted to curse.

Day.

Who did he provoke? To be chased like this, it is too tragic. Is there a reason to be chased by a demon demon in the void tide sea? Is there a king?

What about the masters of the top forces in the heavens? Is it so slow to get news? Isn't it arrogant that this void tide sea is the territory of the human race? Why is he being chased by the demons and no one has come out now?

Are all the top forces in the heavens dead?

Qin Chen wanted to cry without tears.

Of course, he was just angry in his heart, and he didn't put hope on those people. People have to rely on themselves and others. That is the behavior of the weak.

His eyes were dignified, his pupils were cold, and he kept calculating, trying to find a chance.

Because he believes that man will conquer the sky, and the demon veteran is indeed strong, but he is not a friendly master, it is not so easy to kill him.

He counted the treasures on his body to see if there was any way to return to heaven.

However, Qin Chen was very depressed, because after sweeping it all over, he discovered that he had no means to fight the opponent.

Zixiao Dousizong is very strong and belongs to the treasure of the Venerable, but the opponent is a real master of the demon, and may not be able to resist it.

The mysterious rust sword is also extremely terrifying, but in the same way, facing a demon master, how much strength he can display, he dare not determine.

Among his jade discs of good fortune, the only thing that can resist is the two old people, the Skyfire Venerable and the Wanling Demon Venerable, but the remnants of the two are still asleep, there is the soul liquid, but there is no physical carrier. Resurrect the two.

Otherwise, even if the two elderly people can only use one and a half tricks, it will make him more life-saving and more confident.

After this crisis, I will definitely have to find some treasures to wake up the seniors and reshape their bodies, otherwise they will not be effective at all in the crisis.

After thinking about it, Qin Chen didn't have any means to return to heaven.

The demon is really too powerful. Some ordinary methods for these characters are completely ineffective. This is beyond the existence of the Great Dao of Heaven, and is truly superior to the Holy Lord. If it is so easy to target, it will not be called. For the supreme power.

boom!

Qin Chen gritted his teeth and flew by the edge of the virtual sea. He was very dangerous like this, like dancing on a steel knife, taking a risk, if he was not careful, if he fell into the virtual sea, the consequences would be unpredictable.

Qin Chen turned his head, the virtual sea was deep, like a black hole, swallowing everything, Qin Chen's divine consciousness, soul swept out, like a mud cow into the sea, without any movement, disappeared directly, lost from his perception.

No one can perceive things from the virtual sea, and standing on the virtual sea makes people have a deep-sea phobia, as if the soul is to be sucked in, to jump into it, and to know oneself.

Even with the strength of Qin Chen's soul, he was a little dizzy and couldn't help but want to jump in.

Qin Chen hurriedly bit the tip of his tongue to make himself more awake. After a while, he was afraid, and sweat dripped from his back.

This is terrible, this virtual sea seems to have magical powers, if you want people to enter it, staying here for a longer time, I am afraid that you will become a madman, and you don't need the Demon Lord to do it, and you will be crazy.

"Dust, let us help you, the big deal is to fight to the death, break into the void, and die together."

You Qianxue also knew the seriousness of the situation, and said in a cold voice among the jade disc of good fortune in the universe, that he must fight the enemy strongly.

Su Xiaoxiao also appeared. At this time, she was no longer arrogant, but nervously clenched her fists and prayed silently.

She knew what Qin Chen was facing, it was a life and death crisis.

Hum!

Qin Chen sneaked on the Void Sea, his mental power was highly concentrated, his soul power was urged to the extreme, the power of space was pervasive, he was cautiously hiding, and constantly evading.

"Idiot, can you escape?!"

In the star sea on the icy Void Sea, the towering and chaotic dark figure spoke indifferently, and the blood-colored pupils were like two rounds of blood moons, hanging in the sky, blooming with a divine rainbow, emitting a dazzling glow, and locking in the direction of Qin Chen. Capture his trajectory.

"In front of the deity, you can't escape with your wings. If you go to heaven and earth, you have to kill you. It's better to wait for death and end early!"

The majestic figure opened her mouth, her eyes locked on Qin Chen, and she vaguely saw a figure in the void, flashing on the Void Sea, and decisively pursued it.

"Oh my God, did you see that, under the blood moon, there really seems to be a human figure flickering. He is a human young man with no face, but he is very young, unlike an old antique, being hunted down."

"God, I have seen this too. This person is so calculating and wants to use the Xuanhai to escape and kill. Generally, the peak holy master will directly retreat when facing the Xuanhai. It is a pity that he encountered the Venerable Demon Race."

"The devil is attacking, chasing and killing the human race Tianjiao in the Void Sea, who is this? Who do you know?"

At this time, there were already a group of masters of various races in the Void Tide Sea approaching. These people did not dare to approach the Void Sea, let alone the Venerable Demon Race. They just stood on the periphery of the Void Sea and used treasures to observe and were caught by them. Some pictures.

A figure of a demon that reaches the sky, escapes into the void sea, chasing and killing a weak human race.

This picture is too shocking, like a lion catching a rabbit, giving people a strong horror and involuntarily pulling a heart.

"What kind of person is this? It can make the Demon Venerable Master not avoid the Void Sea and pursue and kill, my God, is he stealing the wife of this Demon Venerable? Has the hatred of killing his father? The hatred of stealing his wife? "

Someone said, making speculations.

"Are you a pig? Almost all the demon sages are tens of thousands of years, hundreds of thousands of years, or even more ancient antiques. You can try to win a wife from others."

Someone yelled at them. In order to attract attention and earn news fees, these people are talking nonsense and have no professional ethics.

In the heavens, there are naturally some intelligence organizations that will transmit information, and they can even directly pay a one-time payment to follow up and report on an event. In order to earn this kind of information fee, those intelligence organizations can do everything.

Everyone is nervous and keeps track of the situation.

At this time, Dongguang City had also received the news, and many people came to the street, discussed and passed the news to each other.

Someone directly showed the news screen over the city of Dongguang, which attracted the attention of many people.

Tianwu Danpu.

Ghost Array Saint Lord Xiahouzun, Xing Tianya, Huo Lao and others walked out one after another and looked up to see the picture above Dongguang City.

They also learned the news and didn't care about it at first, but after seeing the hazy back at this moment, the ghost array holy master and others were instantly shocked.

"It's the master!"

The cold hairs all over their bodies exploded, one by one in disbelief.

Why is the master being chased by the demon venerable?

They and Qin Chen had a unique feeling. Although the figure in the picture was very vague, they recognized Qin Chen at a glance.

"What should I do?"

Several people were instantly stunned.

[Chapter 3438: Close the city](#)

Several people were horrified, but they didn't know what to do. That's the demon venerable, let alone they can't make it at all now. The Void Sea is very far away. Starting from Dongguang City, it will take at least a few months with their strength. , Even if they arrived, they didn't have the strength and demon-class master hand.

At this moment, a figure walked out of Dongguang City's City Lord's Mansion. This figure was majestic and majestic, with deep eyes and a surging aura. By his side, there were two figures, very powerful, staring at the picture in the sky.

"It's Lord Dongguang, as well as the two vice-lords of Sleeping Dream Fairy who have also come out!"

"Sir, the Lord of the City, they want to take action to rescue that Human Race Tianjiao?"

Someone exclaimed.

Dongguang City Master, a master of the pinnacle of the Holy Master, enjoys a great reputation in Dongguang City. In recent years, he has rarely come out, and has been in retreat, cultivating the avenue.

It is rumored that City Lord Dongguang has already entered the pinnacle state of the late Holy Lord many years ago. He is one of the core powerhouses of a certain top power in the heavens and one of the heirs cultivated vigorously. He came to Dongguang City only to enter the basic level of gilding and feel the world. Various attitudes, impact the realm of the venerable.

Prior to this, Dongguang City Lord rarely appeared, and all the affairs of Dongguang City had always been handled by the Sleeping Dream Immortal and other Deputy City Lords. Now, the appearance of Dongguang City Lord immediately caused everyone's uproar and excitement.

Could it be that Dongguang City mainly rescued the human Tianjiao who was hunted down?

However, Dongguang City Lord did not leave, but his eyes were cold and stern, like a sharp sword, and he said coldly: "Everyone, the Venerable Demon Race appears in the Void Tide Sea. The situation is serious. Starting today, my Dongguang City has entered the martial law stage. Don't go in or out of Dongguang City for no reason. Dongguang City will begin to close the city immediately, and please keep order."

"What? Dongguang City is closing the city? Isn't it going to rescue the Human Race Tianjiao?"

"Our Dongguang City can be regarded as the border city of the Eastern Celestial Realm that is closest to the Void Tide Sea. The Dongguang City Lord doesn't make a move. Is this giving up that guy?"

"Blocking Dongguang City, what is this for?"

There was an uproar everywhere in Dongguang City, and everyone discussed it, causing shock.

Dongguang City Lord said in a deep voice: "The specific reason cannot be told, but if anyone violates the Dongguang City ban, it is tantamount to a traitor, no matter what!"

Endless killing intent permeated Dongguang City, suppressing countless powerful people. Suddenly, some chambers of commerce and the masters of various races hidden in Dongguang City, and even the late-stage holy master masters of Void Tide Sea, their minds were shocked, and they felt it. An endless pressure.

"So strong."

They were all amazed. City Lord Dongguang deserved to be a strong man from the top power of the human race. He was already a figure of the peak saint master level in the early years. The aura that escaped made them scared by the saint masters of the later stage, and there is a kind of fear that they dare not look at. The illusion, as if, once confronted, it would be instantly beheaded.

"Is this, is it close to the realm of the Venerable?"

Some people speculate.

But many people shook their heads, and if they really stepped into the realm of the nobleman, it would definitely not be this kind of aura. From the demon lord, it can be seen that once they break through the

nobleman, their own power will suppress the way of heaven and be incompatible with the way of this day.

It can be seen that City Lord Dongguang is definitely not a Venerable, but everyone has a feeling that City Lord Dongguang has already taken this step and is moving towards the realm of Venerable.

"City Lord Dongguang, we are from other heavenly realms. I just stay in Dongguang City temporarily. Since Dongguang City is going to be closed, I can't stay here for a long time. Please let me go."

At this time, a late-stage saint master spoke. He was a member of the Chamber of Commerce. I don't know where he was from another heaven. He brought a caravan under his command to leave the city urgently.

These caravans of them came from various forces in the heavens, and naturally it was impossible to stay in Dongguang City for a long time. At this moment, they heard about the closure of the city and immediately left.

Suddenly, many other masters of the forces also spoke up one after another, asking City Lord Dongguang to open the city gate before closing the city to give them a chance to leave.

"From the moment this city lord issued the order, Dongguang City has been sealed off. No one is allowed to leave without authorization."

City Lord Dongguang said coldly.

"what?"

This immediately drew dissatisfaction from many people. Isn't this forcibly preventing them from leaving? Dongguang City is just a trading city, why do you do this?

"City Lord Dongguang, I belong to the Nanluo family of the Western Heaven Realm. I wonder if the Lord has heard of it? When I come to the Eastern Heaven Realm, I'm here to trade. I need to return to the Western Heaven Realm in time. Please let the Lord Dongguang allow me."

The man frowned and took out the token.

"Nan Luo family? Never heard of it. No one can leave without the order of the city lord." City lord Dongguang said.

"You..." The Nanluo family's face was ugly, "Then, my lord, how long will the city be sealed off?"

Other people also thought that if it was only half a day a day, or three or five days, it would be fine.

"I don't know the exact time, please be patient."

boom!

There was an uproar on the court, what is this? Forcibly prevent them from leaving?

"Master City Lord, Dongguang City has no right to wait for me." The Nan Luo family member said in a deep voice, after saying that, with all his subordinates, he will forcibly leave.

When people from other forces saw this, they all spoke, and if they wanted to leave, they couldn't be trapped in this Dongguang city.

"boom!"

However, as soon as the man moved, the City Lord of Dongguang shot, Boom, he kicked out, like a thunder, across the sky, making a huge sound, like a **** of the world, penetrating the world, the entire city of Dongguang All are sensational, constantly trembling.

The man's complexion changed drastically and he hurriedly avoided, but he failed several times and was kicked on him repeatedly. This is a late-stage holy master master, but he can't resist the kick of Dongguang City Lord.

With a puff, half of his body exploded and turned into a cloud of blood. He screamed and wailed, and the upper half of his body flew out, smashing into a void.

The audience was silent, everyone was horrified, and if they didn't agree with each other, they fought and wounded people directly. This was too much.

Everyone was shocked by the strength of City Lord Dongguang, but they were equally angry and fearful.

Dongguang City Lord stood proudly in the air, and said coldly: "I said that anyone who wants to leave Dongguang City is equivalent to judging the clan and should be killed."

His murderous aura lingered all over his body, and his murderous aura rushed into the sky, like a sharp sword clanking, surrounding the world.

"City Lord Dongguang, I belong to the Nan Luo family in the Western Heaven Realm, you can't kill me..."

The man was terrified, shouted loudly, already begging for mercy, but the City Lord Dongguang ignored it, and with a bang, he kicked it out again, suppressing the opponent below, forming an invisible space of murder.

The late saint master of the Nan Luo family had a flushed neck, blue veins appeared on his face, using the most powerful energy and assassin's skill, wanted to find a trace of life, but it didn't help, and couldn't break free.

[Chapter 3439: Traitor](#)

In the end, in the puff, he saw that he broke every inch, his bones and flesh and blood were melting, the severe pain made him unbearable, and there was boundless fear in his heart.

"Ah..." he wailed, yelling with endless pain.

However, in the end, he couldn't escape death, and he was completely destroyed.

"I said, no one can leave Dongguang City." Dongguang City Lord yelled coldly

In Dongguang City, there was no sound for a while, and everyone was silent.

The Nanluo family, a top family in the West Heaven Realm, is in charge of one of their caravans, and the city lord of Dongguang kills as soon as he says it is killed. It is really terrifying.

However, after this incident, no one on the scene dared to say to leave, all silent.

"Look, that Demon Venerable is about to chase down the Human Race Tianjiao."

Suddenly, someone exclaimed, drawing everyone's attention and causing a sensation.

On the screen above Dongguang City, in the Void Sea, the Demon Venerable had quickly approached the figure, causing everyone to clench their hands nervously.

"No, the master is in danger."

The ghost array holy master and the others were shocked, but helpless, because Dongguang City was already sealed off, and they couldn't leave if they wanted to, not to mention that even if they left, they would not be able to rush to Xuhai.

Above the city lord's mansion, the fairy sleeping dream also saw the figure, but the picture was too vague. Although he had dealt with Qin Chen a lot, he did not recognize the other party, frowning and said: "My lord, this person is dangerous. , Who on earth is he, actually attracted the demon venerable to chase and kill him desperately. The demon clan is determined to kill the opponent. Has the power behind us come yet?!"

"Xuhai, it's too far from here. I have passed the news back to the forces where I am, but I won't be so fast if I want to arrive..." City Lord Dongguang shook his head, his eyes were cold, and he sighed: "This person There must be a huge secret to be chased and killed by the Demon Venerable. It is a pity that I am waiting for the cultivation base and cannot make a move. That is the Demon Venerable. Even if I have vaguely spied the chance, but in front of the real Demon Venerable Not enough to see."

He sighed.

"Oh." The Sleeping Dream fairy also shook his head: "I hope our people will come sooner, otherwise..."

City Lord Dongguang said with an ugly expression: "This is not the most troublesome thing now, but how did the demons come to the Void Tide Sea? Although there are demon passages in the Void Tide Sea, these spatial passages were left over when the heavens were broken. Yes, it is very fragile, at most it can only pass the martial artist of the late peak Saint Lord level, the noble level, it is impossible to pass..."

"After receiving my news, the forces I belonged to immediately demanded the closure of Dongguang City. Obviously, there is a problem."

Sleeping Dream Fairy was surprised: "You mean, we have an insider here?"

"It must be so, but it's not here. It's not easy to say." City Master Dongguang shook his head: "If the opponent appears through the passage of the Void Tide Sea, that's fine, but if not, if the opponent wants to come here, he must pass through us. In the region of the Celestial Human Race, the four heavenly realms are all controlled by our top powers, and it is impossible to pass it easily. In other words, there must be something wrong with our Human Race."

hiss!

Immortal Sleeping Meng couldn't help but breathe in the air. No wonder City Lord Dongguang is so tough. This is indeed a big problem. If there is a **** in the human race, once the demons invade the human race, this will be a big trouble for the human race.

At this time, everyone's attention was focused on the location of the virtual sea.

In the screen, the Demon Venerable Demon Race is already close to the figure.

boom!

A huge palm came out, and the Demon Venerable made a move. Suddenly, the world was surging. People only saw a big dark hand, towering over the sky, it was too big, only the nails were comparable to the stars, coming from a broken void. , Landed towards that human figure.

The big hand's purpose was very obvious. It directly slapped the human figure, just like slapped an ant, its posture was too arrogant.

According to the speed, that human figure is at least the level of the top holy master, but in the eyes of the demon lord, it is like an ant, this posture is too arrogant.

It's over.

All the human masters in the heavens who watched all of this were sinking, because they knew how terrible it was that they were unable to return to the sky, and how terrible it was to be resisted by the Holy Lord, this was impossible.

But all of a sudden, everyone was shocked, because everyone saw that the big hand of the Demon Lord was sticking out, time seemed to have become stagnant, and the figure suddenly accelerated when the palm of the hand fell. Now, it can withstand the palm's attack.

boom!

The monstrous black palm fell on the void, and the entire void was bursting into pieces. A terrible energy impact swept out and shattered everything in the world. The tidal sea of void was directly blown up, and the void turbulence was hit, but, When the shock wave swept out and entered the virtual sea, it disappeared instantly, as if it had been silently swallowed, without any shock.

This shocked the world. The Void was terrible. It was the attack of the Demon Lord, and even the Void Tide Sea was bombarded, but the Void Sea did not move at all. No matter how terrible the impact swept in, it seemed like a stone sinking into the sea. Can not be surprised by the slightest waves.

However, more people focused on avoiding the figure.

"God, have you seen it? How did that person avoid the blow of the demon?"

Someone rubbed his eyes and couldn't believe what he saw, because with such a terrifying palm, everyone thought that Qin Chen could not avoid it, but at the last moment, Qin Chen could not hide it.

Because of the picture, many people can't see the specific passage, and they are staring at it.

Some people even replayed the picture. Vaguely, everyone saw that at the moment the palm fell, the void seemed to stagnate, and the figure of the person suddenly accelerated, only to avoid a blow.

That kind of strong sense of separation makes many people very uncomfortable.

Is that... Space rules? Or what magical powers?

"Time rules!"

Suddenly, someone whispered as if thinking of something, causing an uproar.

In a word, many people were surprised, indeed, this is too much like the rules of time. Only the rules of time can possess such terrifying magical powers, which affects the noble-level characters.

by!

Does this Terran young Tianjiao actually master the rules of time?

The whole heaven was in an uproar.

In the Void Sea, Qin Chen coughed up blood and felt embarrassed. Many scars appeared on his body, almost cracking.

Before that Demon Venerable took action. At the critical moment, Qin Chen drew a blow from the origin of time and triggered the rules of time, but even so, he was still injured because the opponent's attack was too terrifying, even if it was just a little bruise. Qin Chen's body almost cracked.

If it hadn't been for him to have an ancient sacred body, he would have been torn apart if he was replaced by an ordinary Holy Lord here.

"hateful!"

Qin Chen gritted his teeth, wiped off the blood from the corners of his mouth, his eyes were cold, and he calculated frantically. Even Xuhai couldn't stop the opponent from tracking. If this continued, he would definitely die.

[Chapter 3440: Scarlet Spear](#)

What should I do?

Qin Chen's mind was running wildly, constantly thinking that he couldn't die here, he hadn't found Ru Yue, Sisi, how could he die here in vain.

However, under the pursuit of such a demon, how can he escape? It was too difficult, endless crises lingered, causing Qin Chen's cold hair to stand up, as if he had fallen into purgatory.

This feeling is like entering the most desperate world, with no light at all.

This is almost one of the most dangerous moments in Qin Chen's life. Being chased by such a strong man, so embarrassed, he is the first time he has come to the heaven.

puff!

An invisible force surged in, Qin Chen spit out blood again, the skin on his body collapsed, the blood dripping, and the body of the road seemed to shatter.

The opponent's attack was too strong, surpassing the limits of the heavens, above the rules, and even the barren ancient sacrament could not resist, it was about to be crushed.

"Wow!"

Qin Chen went mad, swiftly swiftly, and desperately burned the source, because he knew that he could no longer withstand a blow, as long as he was rubbed by the opponent, he was afraid that his body would break directly.

This is life and death.

"Ok?"

Qin Chen was on the run, but the Demon Clan Demon Lord showed horror, a pair of blood-colored pupils like a blood moon, flashing in the void, hanging high in the sky, but with shock.

"It's just an ant, it escaped the palm of the deity. That is, the time rule..."

Unlike the human masters who spy from the outside through the screen, this demon demon master clearly felt the power released by Qin Chen, and easily avoided his own attack, which shocked him, it turned out to be the rule of time.

It should be noted that the time rules are very peculiar, which override ordinary rules and are hardly controlled by others.

Of course, although the time rule is extremely difficult, in the heavens, and even among the demons, there are occasionally Tianjiao who can hunt and master some of them. However, they are just fur. Maybe in the same level of battle, they can It has a miraculous effect, but for him, such a venerable person who has transcended the rules of the heavens, it can be regarded as bells and whistles.

But now, the Human Race Tianjiao in front of him used the time rule to escape his blow, which made his mind excited, and the black magic energy was floating and roaring like a vast ocean.

"What this child masters is definitely not the ordinary time rules, nor the fur of the time rules, but the origin of time...otherwise, it would be impossible to avoid the deity's blow."

The Venerable Demon Race spoke, his heart trembling, his pupils bursting into the void, and the scene was terrifying.

His mind was stirring.

"The origin of time, it's no wonder that Lord Demon Ancestor wants to kill this little human kid. This is the supreme origin of the heavens. Even the venerable may not be able to grasp it. It appeared on a young man. What is the origin of this young man?"

He was shocked and ecstatic. He didn't expect to come to the Void Tide Sea this time and he would have such a reward.

"Boy, don't run away. Even if you master the origin of time, you can't escape the deity's pursuit."

He sneered, did not shout, only a mental wave that was never caught by outsiders, and then reached out with his big hands, the huge clutches seemed to come out of the nether, and wanted to capture everything.

boom!

The towering palms reach the sky, and this time, on the big hand with the magic light flashing, the chains of order and gods bloom, becoming more and more magnificent, covering Qin Chen.

"Look, that Demon Venerable made another shot."

Everyone's eyes widened, staring attentively, their minds excited.

"The origin of time!"

Qin Chen roared in his heart, moving the magic tree of the ten thousand worlds, capturing the other party's intentions, and the moment the demon master shot, he had already activated the source of time, buzzed, time stagnated, and the flow of time around was like it calmed down, Qin Chen rushed out for the first time, as fast as lightning, using the fastest speed in his life!

Behind him, the huge palm of his hand fell down, majestic and terrifying, exuding monstrous devilish energy, enough to crush the stars.

Compared to many mountains and rivers, the sun and the moon are not much smaller, this palm is too big.

If Qin Chen hadn't urged the origin of time for the first time, and had escaped before the opponent shot, he would have been slapped by this palm. Given that his body is now full of cracks, he would probably explode on the spot.

Even so, Qin Chen was swept away by the demon energy, and his body shook wildly, coughing up blood, his body was about to explode, and he was about to shatter.

This force is too terrifying, even if it's just swept, it can't bear it.

At the critical moment, Qin Chen urged the Demon Tree of Ten Thousand Realms, absorbed this force, and annihilated everything.

However, he didn't dare to move too much, for fear of being noticed by the other party, he could feel that this Demon Lord did not know that he had the Demon Tree of the Ten Thousand Worlds. Once the news of the Demon Tree of the Ten Thousand Worlds came out, the situation would be even worse. At that time, not only the Demon Race will hunt him down, but the top human race forces will stare at him. He can't explain it.

boom!

Qin Chen fled out, his figure more embarrassed, as if he was walking in circles near Xuhai.

"Sure enough, it is the time rule!"

But this time, many people stared at it, and the heavens shook.

They all saw clearly that at the moment the Demon Sovereign took action, the time in that area did seem to have stagnated. This was the top-level time supernatural power, which could affect the time flow rate of the Demon Sovereign level.

this is too scary.

From ancient times to the present, there are not many masters who can truly master the magical powers of time, all of them are the great powers in the long river, the giants in charge of one party, the real heavenly gods, and the existence of the horizontal and horizontal era.

But now, I saw it in a young man.

Although it was only a rudimentary form, it was enough to shock people, and the heavens were in an uproar.

"Boy, you can't escape!"

The Demon Zun's eyes were gloomy and his voice rumbled.

He couldn't hold on to his face. In his capacity, he did not take the Human Race kid twice, and he did make some mistakes.

"Huh, my deity sees how many times you can resist it."

He snorted coldly and strode forward. This time, a magic spear appeared in his hand, booming, the magic spear bloomed with a rainbow, and the spear head bloomed with scarlet blood, as if dripping blood, extremely terrifying, piercing the void and bursting out. The trembling divine light was about to penetrate through Qin Chen in an instant.

"God, this is... the treasure of the venerable, is this demon venerable crazy? It doesn't count to chase and kill a junior of the human race, but it still displays the treasure of the venerable."

Many people shook violently, and many masters of various races close to the virtual sea caught this scene with the Heavenly God Mirror, and they were a little crazy.

Many people think that this demon is too much, too little to talk about methods, to bully the small.

In the screen, this **** magic spear shines with magic light, piercing eyes, and its aura is too strong. Who can stop it, even if it is a master of the same level, I am afraid to be careful, let alone a junior holy master?

Moreover, once these precious treasures of the Venerable are exploded, even the time magical powers may not be able to interfere, because Qin Chen's cultivation base is too low to interfere with everything.

Doesn't it necessarily die?
