

Valkyrie 361

Chapter 361

Xu Xiong and the others were completely dumbfounded. At this time, the crowd was surging, and many people rushed forward, waving various materials in their hands, and it was not easy to maintain order.

With the Xu family's manpower alone, it is simply not enough.

Fortunately, these people, in order to purchase Poxuan Pill and Concentration Pill, although they competed with each other, they only resisted physically, and there was no real conflict.

Seeing the hot scene in front of him, Qin Chen couldn't help taking a breath.

What he was shocked was not the enthusiasm of the crowd, but at the very beginning, someone was actually willing to come up with Tier 4 materials to buy these two kinds of medicine.

And it was the sky star grass.

This is the fourth-order sky star grass, even in the fourth-order elixir, it is also an extremely rare kind.

Moreover, the star grass is one of the main materials of the fourth-order star pill, plus two auxiliary materials and some other low-level elixir, it is completely capable of refining a furnace of star star pill.

The Sky Star Pill is a kind of pill that can condense the real power of a martial artist, and it will definitely come in handy when he wants to break through the fourth-order mysterious level in the future.

Regardless of the surprise, Qin Chen hurriedly said to Xu Xiong, "Patriarch Xu, first change Tier 4 Gypsophila."

The warrior who took out the sky star grass was selected, and was immediately excited, and hurried forward, took the fourth-order sky star grass, plus one hundred thousand silver coins, purchased a Po Xuan Pill and Concentration Pill, and then left happily.

His Tier 4 Heavenly Star Grass was discovered in a valley in the Xuanzhong Mountain Range not long ago. He almost died because of this Heavenly Star Grass.

After returning, he also checked the efficacy of Gypsophila paniculata, and knew that it was a very precious elixir.

However, Wucheng had very few third-tier pharmacists, let alone fourth-tier pharmacists. Here, the sky star grass could not be sold at a normal price.

In fact, if it hadn't been for Qin Chen's appearance, he had already decided to put the Tier 4 Gypsophila in a few days at the semi-annual medium-sized auction held by the Star Chamber of Commerce.

But now the appearance of Po Xuan Dan and Ning Xin Dan immediately made him change his mind.

With his cultivation base, with this Xuan-breaking Pill and Heart-Concentrating Pill, he might be able to increase his strength by one level again.

This is not comparable to the silver coins sold at auction.

Seeing that someone exchanged Tier 4 spirit medicine for two pills, some impatient warriors couldn't help but took out the Tier 4 spirit medicine they had.

Qin Chen was naturally overjoyed, and immediately ordered Xu Xiong to call up the martial artist who had taken out the Tier 4 elixir and materials to obtain the purchase qualification.

These warriors were very excited and didn't hesitate. Like the person before, both Po Xuan Pill and Ningxin Pill purchased one and left happily.

This time, it greatly stimulated other warriors who had not yet been purchased.

Today, on the street outside the first pill pavilion, there are at least thousands of people swarming, and these two bottles of pill, there are only ten pills in one bottle, and it will be half down in the blink of an eye, so that other people who want to buy these two pill Martial artist, suddenly anxious fire will come out.

What if these two bottles of medicine are sold out at once?

Although Qin Chen said, there will be pill for sale in the future, but what if there is no more?

No, you must buy it this time!

Thinking of this, the rest of the people, as long as they have Tier 4 materials, can no longer hide them privately, and take them all out, clamoring to obtain the purchase qualifications of Po Xuan Pill and Concentration Pill.

This scene made Qin Chen excited and dumbfounded.

It seems that the wealth of this martial artist is far beyond my imagination.

But think about it, who are the people living here? Those are all warriors who have lived a life of licking blood with the tip of a knife. Many of them are wanted criminals of the major forces in the five northwestern countries.

Many of the treasures on their bodies may have been snatched from somewhere, or some unclean channels.

For them, what Tier 4 elixir and Tier 4 treasures are nothing. Only when these treasures are replaced with pills and weapons that enhance their strength will they be truly valuable.

So when Qin Chen sold pills that could enhance their strength, almost no one could stand it.

In just a few moments, two bottles of twenty pills have been sold out.

However, Qin Chen already had ten more Tier 4 materials in his hands, of which six were elixir, and four were rare materials for refining tools and formations.

Seeing the two bottles of pill that were sold out so quickly, many people who hadn't bought the pill were sinking in their hearts.

This hasn't sold much yet? Are they all sold out?

With such a hot level, after the news spreads, more warriors will definitely come. At that time, even if the first pill pavilion continues to sell the pill, they may not be eligible to buy it.

For a while, everyone's heart is heavy.

And those warriors who later took out Tier 4 materials but did not obtain the qualification to purchase, even more eager to cry.

Just because the time to take out the Tier 4 elixir was a little late, it caused me to lose the qualification to buy it. How come I am such an idiot?

The hatred in their hearts, they knew this a long time ago. They must have taken out the materials in the first place, and they had to hide the Tier 4 materials. Now it's good, the medicine is gone. You use Tier 4 materials. Cooking?

Being annoyed, I heard Qin Chen's loud voice, and it sounded again, "Everyone, this young master really did not expect that this pill will be so popular, since it is with the intention of giving back to the vast martial arts warriors, I will not hide it. I'm holding it, there are still a few bottles of Profound Profound Pill and Heart Concentration Pill in this young master. They were originally prepared to practice by themselves, but now they are also sold out to relieve the urgent need."

As soon as he said this, all the warriors in the audience almost cried.

Benefactor, look at it, what is a good person? This is the real good person.

For these people, even their own cultivation pills were sold, and compared to the previous Liu Pavilion, they were all in the sky and one on the ground.

boom!

The audience detonated again in an instant, and countless people wielded high-level elixir, rushing up frantically, for fear that there would be no chance.

"Don't worry, everyone, come one by one."

Qin Chen immediately ordered Xu Xiong to exchange it, but his heart was extremely excited.

Why did he take out the pill for his cultivation, but saw that there were too many high-level materials on the field, and he was reluctant to let it go.

In less than a quarter of an hour, almost all the martial artists who can come up with Tier 4 materials have already been exchanged, and the remaining warriors who come up with better Tier 3 materials have also obtained the qualification for exchange.

Even so, there are still many people who watched the exchange of a few bottles of elixirs, and they were still not eligible.

The hatred in my heart, I secretly made up my mind that I must find a way to get some high-level materials when I go back.

"What are you doing, what are you doing here? Leave me all, leave me all."

At this moment, a loud shout of anger sounded, and the crowd on the outside spread out one after another, and a group of extraordinary warriors walked in aggressively.

The leader was the manager of the Zhu family, and on the order of the second master Zhu Hongjun, he came to take back Liu Pavilion and was ready to teach Qin Chen a lesson.

Chapter 362

As the four major forces in Wucheng, the Zhu family has always been accustomed to rampage. Seeing so many people surrounded by the gate of Liu Pavilion, they were too lazy to ask why, under the leadership of the Zhu family steward, they rushed in.

"What are you doing?"

"What a squeeze!"

"Do you understand the rules?"

"Do you know what it means to come first?"

The Zhu family was squeezed in the back, and the people in front were suddenly unhappy, and they yelled directly without seeing the person coming.

For them, the front position is very important, and they may be eligible for a conversion, so they are naturally unwilling to give in.

"Well, who are you talking about? One by one can't be reversed."

Manager Zhu's face suddenly became gloomy. As the manager of Zhu's family, when did someone say that? An icy breath instantly diffused out.

"Ok?"

Hearing the coldness contained in the voice and the terrifying aura, everyone turned their heads. After seeing the faces of the people coming, they turned pale with fright, their scalp numb, and they stepped back.

A huge empty space was immediately vacated.

Then everyone looked at Qin Chen nervously, knowing that the other party was in trouble.

Everyone knows where Qin Chen's first pill pavilion came from. It was the shop that he got after the Liu Pavilion was destroyed.

And Liu Ge is said to have a good relationship with the Zhu family. After the Zhu family gets the news, they will definitely come to help Liu Ge.

Unexpectedly, now Zhu Jia is really here.

One by one, they were very worried for Qin Chen.

In fact, people like them actually came here to watch the excitement, hoping that Zhu's house would appear.

But now, the situation is different.

Wucheng finally found a place where they could buy the third-grade pill. If it was destroyed by the Zhu family, where would they go to buy the pill in the future?

Isn't this killing them?

To be honest, at this moment, the many warriors present were even more nervous than Qin Chen.

Of course, Xu Xiong and others were also nervous, their legs softened, and there was panic in their eyes.

Having been in Wucheng for so many years, naturally, he wouldn't even know the steward of the Zhu family.

"Zhu Xun is in charge, what kind of wind is this blowing you?"

With a smile on his face, he couldn't help but ask.

At the same time, a voice was transmitted to Qin Chen: "Shao Chen, this person is called Zhu Xun, who is in charge of the Zhu family. It must be because of Liu Ge's affairs that we are in trouble. Don't be impulsive after a while."

"Huh, Xu Xiong, you are so brave, you dare to behave in Wucheng, wanton murder, not much nonsense, immediately close the Liu Pavilion, obediently confess your guilt, and walk with us to the jail."

Zhu Xun didn't mean anything, as soon as he came up, he said with a sneer, squinting at Qin Chen and Xu Xiong with disdain on his face.

"Hehe, Zhu Xun is in charge, why doesn't Xu understand what you are saying? Are you making a mistake?"

Xu Xiong smiled and explained: "This Liu Pavilion colluded with the Zhou family in order to seize the property of my Xu family, and secretly framed my Xu family. We were also forced to defend. It was really helpless, and besides our Xu family, Many warriors in my Wucheng have been pitted by this Liu Cheng, and we are also trying to get justice. But you can rest assured that although our Xu family has won the Liu Pavilion, the purpose is to give feedback to the many warriors in my Wucheng, and we should give it to the four. The taxes and fees paid by the big forces are certainly not small."

Zhu Xun's expression became cold: "What Liu Ge has done can be determined by your family's words? Xu Xiong, who is acquainted, will immediately follow us to the sky prison. If you find out the reason, it is as you said. Naturally I will let you out, and this kid, who is it? An outsider is also in my Wucheng. Come with us? Follow us obediently, or don't blame us for not giving face."

Hearing this, Xu Xiong's heart sank. It seems that the Zhu family had no plans to let them go, nor did they plan to follow normal procedures.

Where is Wucheng Tianja? It can be said that it is the private cell of the four major forces. Those who are taken in can have a good life? It is impossible to come out alive.

I was trying to say something in a hurry, but seeing Qin Chen's face sinking, he said coldly: "Patriarch Xu, where is the guy from here? What nonsense is there with them? Let them go immediately, don't affect us Yidange does business."

As soon as Qin Chen said this, the martial arts in the audience were all staggered.

One by one, his eyes were round and he was going crazy.

Xu Xiong almost cried.

Little dust, little dust, this is the Zhu family, one of the four major forces in Wucheng, is it really okay for you to speak like this?

It was okay, but you made things happen.

Sure enough, after hearing Qin Chen's words, Zhu Xun almost exploded with anger.

As the steward of the Zhu family, he usually goes out, no matter what force does not treat him respectfully, calling him Lord Zhu, this guy is not bad, it is so arrogant, it is simply the opposite.

If you don't give him a bit of color, I'm afraid this person doesn't know what the sky of Wucheng is like.

"Come here, take them down for me, if you resist, kill them."

With a loud shout, Zhu Xun was completely furious, looking at Qin Chen with cold eyes, full of murderous intent.

Behind him, a large group of warriors stepped forward together, and the sound of swords being unsheathed, one after another, gathered into an amazing breath, rising into the sky.

Knowing that Qin Chen's record was terrible, Zhu Xun brought five great late-stage heavenly peak masters when he came out this time. In addition, there were also many mid-stage heavenly masters. If you don't believe it, even this young man can't win.

Xu Xiong's face turned pale, and he was terrified: It's over, it's over.

He has been in Wucheng for many years, and he naturally knows that the strength of the Zhu family is more than what he sees.

The four powers have been in Wucheng for so many years, which power has no profound power? And there is definitely more than one, no matter how strong the dust is, how can it be the opponent of the Zhu family.

"Zhu Xun is in charge, if you have something to say."

Can't help stepping forward to explain.

"Xu Xiong, don't say it." Qin Chen snorted coldly, and then said to the people on the street: "Everyone, my first pill pavilion, I came to Wuwu with the purpose of fighting violence and giving back to the vast number of martial artists. From the city, since Wucheng doesn't welcome me, Qin, it's okay. There are a few **** in this area, and I can't stop Ben Shao, but unfortunately, my first Dange is about to close."

Speaking of this, Qin Chen showed a hint of helplessness on his face and sighed: "Originally, besides Po Xuan Pill and Concentration Pill, my first pill pavilion will also launch Chong Xuan Pill and Condensation Pill tomorrow. With enough materials, and even preparing to launch the fourth-grade Zhenli Dan, now it seems that there is no hope."

While talking, Qin Chen shook his head again and again, looking very regretful.

boom!

After hearing his words, the warriors on the whole street suddenly exploded like a ignited oil pan.

Chapter 363

"What? Chongxuan Pill? Condensing Pill?"

"There is also a fourth-grade true Qi Pill?"

"Is this all true?"

The crowd exploded completely, and the noisy roar went straight into the sky, shaking the clouds in the sky apart.

Everyone's eyes widened, their minds were shaking, and they couldn't calm down.

Chongxuan Pill and Ningli Pill, like Poxuan Pill and Ningxin Pill, are third-class pill, but the difference between the effects of the two is too far, not at the same level.

In fact, Poxuan Pill and Ningxin Pill can only be regarded as the middle-level medicine in the third-class medicine, or the medicine that barely enters the middle-level medicine.

But Chongxuan Pill and Condensing Pill are different, they are definitely the pinnacle pill among the third-grade pill, and they are even faintly called the half-step fourth-grade pill.

This can be clearly seen from the effectiveness of the two.

The effect of Xuan Xuan Pill and Heart Concentration Pill is to increase the breakthrough rate of the martial artist, and improve the martial artist's cultivation comprehension, but this effect is only for the martial artist below the peak of the late stage of the sky.

However, Chongxuan Pill is different from Ningli Pill, which can be seen from the name. The effect of the Chongxuan Pill is to make a martial artist of the late heavenly rank have a 20% chance of hitting the realm of the fourth-order mysterious rank, and this probability will not be reduced by the strength of the martial artist's own cultivation base. .

In other words, a late-day martial artist who does not have any probability of impacting the fourth-order Xuan-level, once he takes the Chong Xuan Pill, there will be a 20% probability that he can successfully impact, and a martial artist who has an 80% probability of impacting the Xuan-level. Once taken, the probability will directly soar to 100%, which is 100%.

This has a huge attraction to any warrior in the late stage of the sky, and it is almost like drugs.

The same is true of the Condensed Power Pill, its effect is to allow the martial artist of the late stage of the sky to have a certain chance to condense a bit of true power.

The most important thing for a martial artist to break through the profound level from the sky level is the transformation of the true energy within the body. This process is very complicated and difficult. Many people fail to hit the profound level because they are stuck in this level.

However, once in the late stage of the heavenly rank, a swell of true power is condensed in his body, not only will his combat power be greatly improved, but when he breaks through the mysterious rank in the future, he will also be familiar with the road, which increases the probability of successful breakthrough.

It can be said that as soon as these two kinds of pills come out, it is simply impossible for a Celestial Martial Artist to be unmoved.

And the fourth-rank real power pill, let alone, the fourth-rank pill, it is of great help to Xuan-level martial artists, even Xuan-level martial artists must be jealous.

Therefore, when Qin Chen said these three kinds of medicine, all the warriors on the street were crazy.

"Zhu Xun is in charge. Although the Zhu family is one of the four major forces in my Wucheng city, I have to say that I did too much in this matter today."

In the crowd, it was not just someone who suddenly shouted.

"Who? Stand up for me."

Zhu Xun turned his head and looked at the center of the crowd fiercely, showing murderous intent.

He didn't know what happened before, and naturally couldn't understand why the crowd on the court would be so restless after Qin Chen said those few words.

He hadn't heard of Chongxuan Pill and Condensing Pill, but the first pill pavilion said that he could sell such a pill, it was a joke.

Even the Star Chamber of Commerce, one of the four major forces in Wucheng, couldn't get this kind of medicine. Can it be sold by the Xu family and this young man alone? Great joke.

Therefore, in Zhu Xun's view, Qin Chen was just talking nonsense, trying to confuse his eyes and hearing, and linger.

However, what he didn't expect was that the reaction of the crowd on the court far exceeded his expectations.

"The Zhu family is too overbearing, we are only telling the truth, why, is it going to kill all of us?"

The person who spoke before did not appear, but from another corner, a cold snort came out.

"That's right, the Liu Pavilion, the warriors who have been scoring our Wucheng over the years, finally Master Qin appeared to eliminate evil and promote good, not only destroying Liu Pavilion, but also bringing blessings to our Wucheng. Did you do this?"

"Hmph, I heard that Liu Ge and the Zhu family are very close. Maybe the Zhu family instigated everything Liu Ge did."

"It's very possible that the Liu family alone is not allowed to have such courage to frame so many forces and families?"

"What kind of shit, Zhu's family is a vampire at all. Today, we still want to murder the First Dan Pavilion. We will never agree."

"Yes, I don't agree."

The crowd exploded, and voices came from all parts of the crowd in anger, triggering everyone's emotions.

"What are you talking nonsense? Have the ability to stand up to the old man."

Zhu Xun was trembling with anger and led his subordinates to search around the crowd.

But those few people were very good at hiding. They said a word and kept silent, making it impossible to find the source.

"Why, is the Zhu family preparing to kill people? The so-called defense of people is better than Fangchuan. The Zhu family is powerful. You can stop our mouths, but can you stop all the martial artists in Wucheng? ?"

"As soon as I come up, I will take away Master Qin regardless of whether it is right or wrong. It can be seen that the Zhu family has long wanted to frame the First Dan Pavilion."

"Hmph, maybe it's the Zhu family, knowing that Master Qin seeks the welfare for our Wucheng martial artists, and wants to take Master Qin back, privately imprisoned him, and only serves his Zhu family. It's too despicable."

"How come there is such a power? It's shameless!"

Those few people spoke again, hiding in the crowd, stirring emotions.

But I have to admit that what they said is extremely reasonable, and the details are convincing.

All the people on the street looked at Zhu Xun and others with ugly expressions, and their eyes showed anger.

For so many years, Liu Ge has framed many forces in Wucheng, but the Zhu family has never appeared. Instead, they have colluded with each other and acted for the tiger.

Now that the first pill pavilion has finally appeared, selling the third-grade pill at such a low price, the Zhu family can't wait to jump out, regardless of the indiscriminateness, they will bring people back. The attitude in this is chilling.

One person stood up.

Ten people stood up.

A hundred people stood up.

Until the last thousand people stood up!

For a time, there was a loud voice on the street, and the many warriors present all spoke out in anger, accusing the Zhu family and looking furious.

Among the many warriors in Wucheng, which one did not live a life of licking blood and pin his head to the waistband? When I wake up in the morning, I don't even know if I can survive tomorrow.

As the four major forces, the Zhu family must have the courage to let them fight alone, but no one has the courage, but so many people speak out at once, but they all aroused the anger in their hearts.

"Get out of here."

"Today, if the Zhu family tries to use the first Dan Pavilion, we will level the Zhu family."

"The four major forces are basically a group of vampires."

In the crowd, there are many people who have been bullied by the four major forces. At this time, a wave of anger broke out.

Chapter 364

"You...you are so bold!"

In the face of everyone's accusations, Zhu Xun was trembling with anger, wishing to hack everyone to death here.

But when he raised his head and felt this monstrous anger, his face turned pale and his heart felt guilty.

There are really too many warriors in front of them. As things get worse, the flow of people here has exceeded thousands, which can be described as thousands.

So many warriors condemned together, that momentum is enough to make anyone's heart jump.

Entrance of the first Dan Pavilion.

Xu Xiong took a deep breath and glanced at Qin Chen in amazement.

He didn't expect Chen Shao's words to trigger such a scene.

It has only been less than a day for Shao Chen to come to Wucheng. This method of turning his hands into clouds and covering his hands into rain is really terrifying and amazing.

On the high platform, Qin Chen sneered in his heart.

The Zhu family wants to deal with him, how can they not pay a little price?

As for offending the Zhu family, he didn't care at all.

If you want to make money in a place like Wucheng, it's impossible for you to be honest and afraid of trouble. What's more, he also knows that only high-profile, high-profile, best things can come.

Although a high profile will lead to a murderous disaster, Qin Chen can't take care of that much. What he lacks is these rare materials. As long as he has enough materials and his strength is improved, how can Wucheng win him?

However, this time it was possible to achieve such a good result, thanks to them.

Qin Chen glanced at the few members of the Gale Expedition in the crowd.

Zhu Xun and the others were not able to find the person who was the first to make trouble, but with Qin Chen's soul power, naturally they would not fail to see that the first few people who spoke before were just a few of this gale expedition.

Qin Chen admired the other party's ability to repay his gratitude, even if he took risks.

"Are you all going back?"

Facing the angry eyes of so many people, Zhu Xun was about to explode with anger.

Zhu Erye finally gave him a task, and he made it so dead. After returning, let him explain.

"Chang!"

With the long sword in his hand unsheathed, Zhu Xun pointed at the people in front of him angrily, and roared: "A word of nonsense, believe it or not, I will take you all away and put all of you in the prison? Put to death one by one?"

It's okay for Zhu Xun not to say this. When he said this, it was like a heavy bomb was thrown out of the crowd and it exploded completely.

"Wucheng is not in the Zhu family's world, it is not what you do."

"There is a kind of you to try, so many of us, don't believe you can catch everyone."

"If he dares to do it, we will fight them."

"Damn, people are dead, who is afraid of whom."

If you ask where there are the most desperadoes in the five northwestern countries, Wucheng says it is second, and no one dares to claim to be the first.

Zhu Xun's arrogant words naturally aroused the anger in everyone's hearts.

One by one swarmed up.

"Bold!"

Seeing that the situation was urgent, the five late-stage peak powerhouses around Zhu Xun's manager hurriedly stood up, bursting into an astonishing aura, and crushed the group of warriors in the front.

The peak martial artist in the late stage of the five heavenly ranks, this is an astonishing force, and the tyrannical true energy combined to form a violent storm.

"Zhu Xun is in charge, enough. This first alchemy pavilion destroys the evil Liu pavilion, and is here to give back to the vast warriors of Wucheng. Everyone sees it. Although your Zhu family is powerful and can kill many people, you can never kill Kill everyone here, right?"

At this moment, an indifferent voice came, and then an old man wearing a black martial arts robe with a blood-colored eagle embroidered on his chest walked out of the crowd.

This person is skinny, with claws in both hands like eagle claws, a sword hanging from his waist, two eyes, deep in the sockets of the eye, there is a thunderous momentum that suppresses everything.

In front of him, the original imposing Zhu Family's five great late-stage peak powerhouses were flat and short.

"It's the Blood Eagle Mad Sabre Zhao Tianlen."

There was an exclamation from the crowd.

"Zhao Tianlian, do you want to intervene in this matter too?"

Zhu Xun's face sank and became very ugly.

Zhao Tianleng, the blood eagle wild sword, is one of the most famous martial artists in Wucheng.

He has a terrifying cultivation base, reaching the peak of the early stage of the Profound Level, and he is extraordinary with a blood eagle crazy sword.

Moreover, this person was cruel and extremely murderous. When he first came to Wucheng more than ten years ago, he clashed with a middle-class family in Wucheng because of a trivial matter.

That family is much stronger than the Xu family, and there are warriors in the early stage of the Xuan rank, and they have always acted arrogantly. It's cold.

Unexpectedly, Zhao Tianleng not only beheaded the more than a dozen strong members of the family who besieged him, but also broke into the other party's mansion alone, slaying the opponent's entire family, hundreds of people, all. None survived.

It caused a huge sensation.

And Zhao Tianlen's fierce and retributable character also made many families in Wucheng terrified. Even forces such as the four major forces would not provoke such a person at will.

After all, if you get caught up with such a person, if you can't kill the opponent in the first place, the top power among the four forces will naturally not matter, but the members of their own forces are probably in danger.

"Zhu Xun, I, Zhao, will naturally not be against the Zhu family, but Wucheng, after all, is the martial city of the four major forces, and it is also the city of all warriors. It is not what a certain force wants."

"you....."

After looking at Zhao Tianlen and the many warriors, and then viciously glanced at Qin Chen, Zhu Xun knew that it was almost impossible for him to want to touch each other today.

Rather than continue to lose face here, it is better to go back and figure out why these people are doing this before making a decision.

"let's go!"

With a wave of his hand, Manager Zhu Xun immediately took a group of masters from the Zhu family and left dingy.

"Thank you for your righteous words. Tomorrow, we will continue to open the door to the first pill. Of course, this young man's previous promise will naturally be fulfilled. Tomorrow will not only have the Po Xuan Pill and Concentration Pill, but also the Chong Xuan Pill and Ninglidan is for sale."

Facing the crowd, Qin Chen said with his hands folded, and at the same time nodded coldly to Zhao Tian, the Blood Eagle Mad Saber.

From Xu Xiong's mouth, he also knew the identity and origin of Zhao Tianlen, but he didn't expect that even a martial artist of the Xuan rank would also look at his shop.

"You just said that you can refine Fourth Grade True Power Pill?" Zhao Tianleng ignored Zhu Xun and others who had left, and walked directly to Qin Chen and asked indifferently.

As expected, Qin Chen thought that a Xuan-level martial artist would not take the initiative to help if he had no interest. Although his spiritual power is only the third-tier peak, relying on the control of the spiritual power by the Wanshen Jue, as well as the powerful soul power and the experience of previous lives, there is no problem at all in refining the fourth-rank real power pill.

Chapter 365 Blood Eagle Mad Knife

The Blood Shadow Mad Saber Zhao Tian Leng was a Xuan-level martial artist. He naturally had no demand for pills like Xuan Pill and Condensing Pill. What he was looking for was definitely a fourth-grade pill.

"Yes, I can refine the fourth-rank real power pill." Qin Chen said without hesitation, "but, I think your Excellency came, shouldn't it be for real power pill?"

"What do you mean?" Zhao Tianleng of the Blood Shadow Mad Saber condensed his eyes, and a fierce murderous intent burst out of his eyes, crushing Qin Chen severely.

This murderous intent was extremely terrifying, as if countless sharp blades, rotating around Qin Chen, could stab him at any time.

Qin Chen smiled faintly, his expression was calm and breezy. Under the suppression of this breath, he didn't feel anything.

A joke, he is a figure who can kill even the Xuan-level elders of the Ghost Immortal School, so naturally he will not be intimidated by the momentum of the Blood Shadow Mad Blade.

"interesting."

Seeing that Qin Chen didn't change his color under his gaze, Zhao Tianlen couldn't help being surprised. He withdrew his breath and said in a deep voice, "The old man wants to refine it is indeed not a real

power pill. I heard that you are the first pill pavilion. You can refine any pill that the other party wants to refine, so can you refine the fourth-rank Qingxin Pill?"

Qin Chen secretly said as expected.

As soon as the opponent came up, he keenly felt that the aura of this Blood Shadow Mad Sabre Zhao Tianlen was a bit wrong. It was obvious that when he was practicing, he was in a state of turmoil, causing the aura to be disordered and the meridians damaged.

Fortunately, the opponent's delusion is not very serious, so no special abnormality has been seen so far. However, if you ignore it, then with the invasion of the heart demon, the opponent's injury will become more and more serious. Lost consciousness, exploded and died.

The Fourth Stage Qingxin Pill is a kind of medicine that can get rid of the heart demon and purify the consciousness. This Blood Shadow Mad Blade Zhao Tianlen obviously wants to use the Fourth Stage Qingxin Pill to get rid of his own heart demon.

"I can indeed refine Qingxin Pill." Qin Chen said.

Hearing this, there was a trace of ecstasy on the face of the blood shadow crazy knife: "Are you serious?"

"Do I have to lie to you? But the Heart Clear Pill can be refined, but its materials are hard to find." Qin Chen said calmly.

The most important thing in refining the Fourth-Rank Qingxin Pill is the fourth-order Qingxin Flower, the main material, which is a fourth-order elixir that grows in a special environment, and the quantity is very rare.

If this blood eagle mad knife didn't have Qingxinhua, Qin Chen would have nothing to do. If the Qingxinhua was really taken out, it was not that he could not help the other party to refine a furnace.

The Blood Eagle Mad Saber didn't say anything. He took out a jade box and a pile of materials and placed it in front of Qin Chen, saying, "This is a Tier 4 Qingxin Flower, and there are other adjuvants for refining Qingxin Pill. I'll come tomorrow. Take the elixir."

Qin Chen opened the jade box and found that there was a pure heart flower inside. He immediately nodded and said: "No problem, but the rate of the Qingxin pill is relatively low. I will give you two at most tomorrow, and the fourth grade pill will be refined. The cost of the system is 300,000 silver coins, plus a Tier 4 material."

"No problem." The Blood Eagle Mad Knife immediately took out two jade boxes and a stack of silver tickets: "Here is 600,000 silver coins, plus two Tier 4 materials, but..."

When Qin Chen was working on things, the Blood Eagle Mad Saber looked at Qin Chen coldly: "If you can't refine the Qingxin Pill, just say it earlier, I will turn around and leave immediately, but if you take the old man's things, you will take it tomorrow. If you don't get the medicine, you should have the consequences."

"Come to get the medicine on time tomorrow morning."

After receiving the materials, Qin Chen said indifferently.

"it is good!"

Hearing what Qin Chen said, the Blood Eagle Mad Saber glanced at Qin Chen coldly, and after giving the things, he turned around and left. There was no nonsense, and he was obviously not afraid that Qin Chen took the things and ran away.

Qin Chen put away his things and sighed secretly in his heart, this Martial City really had many treasures, and he immediately obtained several Qingxin Pills, two Tier 4 materials, and 600,000 silver coins.

Although the Qingxin Pill has a low success rate, with his strength, at least six to nine Cheng Pills can be obtained in one furnace, which means that he can earn at least four Qingxin Pills.

In addition to the effect of removing the heart demon, the Fourth-Rank Qingxin Pill can also make the martial artist's thoughts more accessible. When practicing, it is more powerful and more agile, and it also has a great effect for him.

However, Qin Chen knew that he still had to be careful.

Since it can attract the blood eagle crazy knife, it will definitely attract other Xuan-level martial artists.

If it were a martial artist at the early stage of the Xuan rank, Qin Chen would naturally not be afraid, but once the martial artist at the middle stage of the Xuan rank was attracted, it would be a little troublesome.

What's more, places like Wucheng might even have late-stage Xuan-level martial artists. Once a late-stage Xuan-level martial artist wants to do something with him, there is no second possibility other than running.

After the blood eagle crazy knife left, Qin Chen closed the gate of the first pill pavilion and began to sort out today's harvest.

In just over an hour, he received more than three million silver coins. At the same time, there were more than 30 fourth-tier materials and nearly 20 third-tier materials, all of which were extremely rare in ordinary days.

On the side, the Xu family and the others were completely silly, how many years would it take for them to earn so many treasures? But in Shao Chen's hands, he did it in just an hour.

However, they also understood that Shao Chen had also paid more than forty third-grade pill as a price, which was not something that ordinary forces could take out.

Xu Xiong and the others were amazed, and Qin Chen was also quite excited. Among so many materials, several of them happened to be the adjuvants of Xinlian Pill. It can be said that there are only one or two medicines, the refining materials of Xinlian Pill, and it will be fast. Completely gathered.

The only thing that made him regret was that there was no sacred material in these materials that could get rid of the curse of the ghosts on him.

"There are some pills here, you can take them to practice."

After finishing packing the materials, Qin Chen took out some jade bottles and handed them to Xu Xiong.

"this is....."

With doubts on his face, Xu Xiong opened the jade bottle and was shocked.

In this jade bottle, there are the Poxuan Pill and Ningxin Pill that are sold today. Xu Xiong is very clear that the preciousness of these pills, any one, is almost sky-high.

Hastily waved his hands: "It's impossible to have less dust, this is really precious."

"If you let you accept it, you will accept it. Your current strength is too weak. It is best to improve your cultivation level as much as possible. Also, take some of the original pill from Liu Pavilion and send it to the Gale Expedition."

Qin Chen knows very well that he will leave Wucheng soon. He is making so many things now. If Xu Xiong and the others do not have enough strength, they will most likely be liquidated when they leave. Naturally, he will not be able to do so. Such a thing comes.

These pills were extremely precious to Xu Xiong and others, but to Qin Chen, they were nothing.

As for Liu Ge Liucheng's medicine, in Qin Chen's eyes, it was simply rubbish.

At this moment, as the crowd dispersed, what happened in the First Dan Pavilion swept like a gust of wind, and instantly spread throughout the entire Wucheng.

For a while, almost everyone knew that in the original Liu Pavilion, there was a force called the First Pill Pavilion, which sold third-rank pill medicines, and could even refine fourth-rank pill medicines.

This news instantly caused a huge sensation in Wucheng.

Chapter 366

Sipin pill, this is the first time in the history of Wucheng.

Even at the auction of the Star Chamber of Commerce, it has been rare for several years.

How to make people not shocked?

After all, Xiao Ya, the patron of the Great Qi State Pill Pavilion, one of the five powers in the Northwest, was only able to refine the fourth-rank pill at the peak of the third rank. This shows the scarcity of the fourth-rank pill in the five northwestern countries.

This is also in Wucheng, spreading in a small area, once spread throughout the entire five northwestern countries, even the entire five northwestern countries will be crazy about it.

Qin Chen also knew that there would be a huge risk of exposing the fourth-grade pill, but for the present, in order to eliminate the Hundred Ghosts curse, he had no other way. After a while, the more damage to his body would be. The more energy needed to recover.

So he can't take care of that much.

In order to prevent any accidents, after Qin Chen closed the first pill pavilion, he did not go to refine the pill for the first time, but reorganized the formation in the first pill pavilion.

The original formation of the first pill pavilion was arranged by the Zhu family, in which the entire main formation was at the peak of Tier 3, and there was still a little gap from Tier 4.

Qin Chen quickly changed the formation of the entire main formation, and expanded the original formation again, turning it into a fourth-order formation.

A sharp light flashed in Qin Chen's eyes, and he secretly said: "In this way, it is almost the same, even if the fourth-order formation is coming, it will not escape death even if it is a Xuan-level martial artist."

After setting up the formation, Qin Chen entered Liu Cheng's refining room, refining a large number of pills for tomorrow.

At this time, what happened in the first Dan Pavilion quickly spread to the four major forces.

Headquarters of the Star Chamber of Commerce.

"Oh? Our Wucheng, unexpectedly a fourth-rank alchemy master came?"

It was an old man wearing a golden robe. His face was full of wrinkles and was very old, but his eyes flashed sharply, giving people a strong sense of shock.

"Yes, this person sold the third-rank Poxuan Pill and Ningxin Pill today, and said that he would sell the Chongxuan Pill and Ningli Pill tomorrow, and the blood eagle wild sword Zhao Tianleng also asked him to customize the fourth-rank Qingxin Pill. Dan, that person is next." A middle-aged man, kneeling down, respectfully, his head drooping.

"Haha, it's interesting, so young is a four-tier alchemist master, it is really strange, not to mention, these masters, the old man in the five northwestern countries, has never heard of it, interesting and interesting!" The old man smiled and looked in his eyes. , Flashing a wise color.

"Chairman Duan, do you want to send someone from your subordinates to get in touch with the other party? I heard that the Zhu family has already sent someone to find the door today. As a result, many angry martial artists were driven out of the first pill pavilion."

"No." The old man waved his hand with a hint of sarcasm on his face: "The idiots of the Zhu family thought that the little thing between Liu Cheng and Liu Cheng was unknown to others? They dared to go to the door. But that boy, he was able to. It's kind of interesting to use the martial artist of Wucheng to drive the Zhu family away."

The old man's eyes were deep, and this was the second time he said it was interesting today.

"In this way, you will go to Master Zhai Xu later and ask him to come to the Chamber of Commerce headquarters early tomorrow morning. Then, you will send someone to the first pill pavilion tomorrow morning. Be sure to buy a pill back as quickly as possible. Send it here and give it to Master Zhai Xu for identification. We don't have to do anything else, understand?"

"Yes, the subordinate understands."

The middle-aged man nodded and immediately walked out.

After the other party left, the old man raised his head, his eyes shone, and he muttered to himself: "Fourth-rank alchemist, in my five northwestern countries, but it is extremely difficult to see what the **** is that kid? Interesting, interesting!"

Not only the Tianxing Chamber of Commerce, the Zhu Family and the Wuxiu Mansion, they also heard the news and were shocked.

And the most irritated was the Zhu family.

"Presumptuous, that kid really said that today?"

In the lobby of Zhu's family, a group of powerful men sat around, looking angry.

Zhu Xun knelt down, his head drooping: "Going home, the subordinate's sentence is true, that kid didn't put our Zhu family in his eyes at all."

Zhu Hongjun, the second master of the Zhu family, said with a gloomy expression: "Big Brother, everyone knows that Liu Cheng belongs to my Zhu family. That kid and Xu family dared to destroy Liu Pavilion directly and slander my Zhu family. Put our Zhu family in your eyes, if you don't give them a little color, how can my Zhu family stand in Wucheng in the future, and where do you put your face?"

The head of the Zhu family, named Zhu Hongzhi, is a man with a red mole on his left eyebrow. He is a burly man with sharp eyes. He waved his hand and said solemnly: "Don't act rashly for now."

Zhu Hongjun suddenly anxiously said: "Big brother?"

Zhu Hongzhi said solemnly: "This person can kill the three great masters of Liu Cheng and Liu Ge so gently. The origin must be extraordinary. The key point is that this person is able to produce so many third-grade pill, I suspect that there are other people behind him."

"Big brother, what do you mean?"

Zhu Hongzhi sneered: "If this person is so young, if you say that he is extremely talented and has an extraordinary cultivation base, I still believe it, but if he is a third-tier pharmacist, how can it be possible? If it is so easy to become a pharmacist, wouldn't it be the world Everyone is a pharmacist? Behind him, there must be a powerful pharmacist sitting here. This person hasn't appeared yet. We don't know what their purpose is, and we must not act rashly."

"But eldest brother, Liu Ge's guards have already said that apart from the Xu family and that kid, there is no one else who broke into Liu Ge and did it. Besides, did we just let them go?"

Zhu Hongzhi smiled coldly: "It's naturally impossible to let them go. Although our Zhu family can't act rashly, it's easy to find someone to try it out and call Wu Liangyu."

"Yes!"

Soon, from outside the hall, a man walked up, wearing a black robe, his appearance hidden under the cloak, like a ghost.

"Patriarch, do you call me?"

Wu Liangyu came to the hall and saluted Zhu Hongzhi respectfully.

He is not a member of the Zhu family, but is a Keqing elder secretly supported by the Zhu family.

In many cases, Zhu's family can't come forward to resolve matters.

Zhu Hongzhi said: "Elder Wu, you should have heard about the Liu Pavilion. Tonight, you spied on Liu Pavilion to find out who is pretending to be in it, and against my Zhu family."

"Patriarch rest assured, Wu will definitely live up to his mission."

With a hand over, Wu Liangyu sneered at the corner of his mouth.

Late at night.

Wucheng, who had been restless for a day, also gradually recovered its tranquility.

Outside the Willow Pavilion.

Several silhouettes approached quietly.

"Elder Wu, this is Liu Pavilion."

Zhu Xun and several people brought Wu Liangyu to the outside of Liu Pavilion and said cautiously.

"Relax, you are waiting here. Elder Ben will come as soon as he goes."

With a cold smile, Wu Liangyu's figure shook, and quietly disappeared into the darkness, then turned into a streamer, and instantly swept into the Liu Pavilion, disappearing.

Chapter 367: Assassination

Seeing Wu Liangyu's figure invisible into the darkness, disappearing like a shadow, Zhu Xun and the others all showed expressions of wonder.

"Elder Wu's shadow magic is getting more and more terrifying."

"Hey, there is no need to say, I heard that before Elder Wu came to Wucheng, he was the leader of a killer organization in the Great Zhao Kingdom. He only offended the Zhao Kingdom, the organization was exposed, all the bases were destroyed, and he had to flee to Wucheng. "

"Elder Wu made the shot. This time the kid is dead. Elder Wu's assassination skill is so strong, but even the Patriarch admires it extremely."

"Hehehe, wait for the good news."

Zhu Xun smiled sternly at the corner of his mouth.

In the refining room, Qin Chen closed the fire, banged, and the furnace lid opened, and more than ten pills of medicine rose into the sky and fell into Qin Chen's hands.

"call!"

With a long breath, Qin Chen put the medicine in a jade bottle.

"This is already the fifth pot of elixir. True Qi consumes a lot, so let's restore it first."

Sitting cross-legged, Qin Chen used the Nine Star God Emperor Art to restore his true energy.

In the dark corner of the Liu Pavilion, a shadow shrank like a ghost, shrank in the darkness, flowing quickly.

This shadow seemed to merge with the dark night. Several warriors from the Xu family patrolled the Liu Pavilion. It was obvious that the shadow was standing near them, but they didn't notice at all, like air.

"Huh, figure out what that kid is doing first, and then solve these problems."

For these warriors of the Xu family, Wu Liangyu has no interest in taking action. He wants to do it, and he can definitely kill the two in an instant, but in this way, the target may be exposed, and the gain may not be worth the loss.

"Let you live for a while."

The figure melted into the darkness, Wu Liangyu searched towards the cabinet.

Not long after, he came to the outside of the refining room.

Through the window edge, Qin Chen was practicing cross-legged.

"In the entire Liu Pavilion, apart from the Xu family, there seems to be only this kid. There is no such master as the Patriarch said."

Hidden in the corner, Wu Liangyu thought to himself: "If that's the case, take this kid back first and let the owner to torture him. Naturally, the truth will come to light."

After shaking his body, Wu Liangyu came to a window edge.

call!

A gust of wind blew by, and the window clicked and shook, as if it was shaken by the wind.

A shadow has quietly entered the refining room, hiding under the shadow on the edge of the window.

"Ok?"

Qin Chen who was cultivating opened his eyes and said to himself: "Why is there such a strong wind here? Strange?"

Stand up, come to the window, and close the window.

"call out!"

At this moment, Wu Liangyu rushed out of the shadows, raised his hand, and the black tentacles formed by the three true Qis threw out, twisting towards Qin Chen from a tricky angle.

Taking a step back slowly and quickly, Qin Chen turned around and sneered. I don't know when, the mysterious rust sword was already out of its sheath.

"I have been waiting for you, cut!"

A sword was slashed out, and a bright sword light emerged. In a short time, a sword intent capable of smashing everything filled the refining room and swept towards Wu Liangyu.

Boom!

The sword light flashed, and the three dark tentacles split into two, disappearing invisible.

"What? I discovered my existence?"

Wu Liangyu was shocked in his heart, but his eyes were unprecedentedly indifferent. The black glow on his body was full, and his hands danced sharply. A huge dark tentacle appeared around Qin Chen out of thin air. Under the shock, it shrank suddenly to trap Qin Chen. Die in it.

"Darkness entangled!"

The black tentacles are like a giant snake, crazily twisted, with strong real power, blocking the surrounding air, quickly closing, forming a sealed can.

And Qin Chen is located in the center of the can, and outside the can, there is a black air entangled by the black tentacles, which is inevitable.

"broken!"

Qin Chen's figure shook, holding a sword in both hands, the sword light soared into the sky, cutting a gap in the air that was about to be blocked, and his figure was shaking. He had already broken through the encirclement and appeared beside Wu Liangyu. There is a bright sword light, brightening the void.

"Fast speed!"

Wu Liangyu was horrified, arranging a series of true power barriers in front of him, and in the center of the barrier, there was a surge of invisible black energy, forming layers of defensive shields, constantly circulating.

Puff puff!

The Zhenli shield was like paper paste, under Qin Chen's sword, it was cut off layer by layer, and finally, it was held by Wu Liangyu's arms.

However, holding back to holding back, a terrifying sword intent rushed into Wu Liangyu's body firmly, and the intense sword mood shocked him and flew out suddenly.

With a bang, the wall broke, and Wu Liangyu was shocked to the open space outside the refining room. Wow, a mouthful of blood spurted out of his mouth.

Qin Chen's sword had already hurt his meridians.

"Huh!"

After shaking his body, Qin Chen appeared in the clearing.

"How is it possible, how can this kid be so strong?"

Wu Liangyu was horrified. He clearly felt that Qin Chen's cultivation was only in the middle stage of the heavenly rank, and what he possessed in his body was only true energy. The attacking power that could be displayed was unprecedented, even far beyond the ordinary early stage of the profound stage. Martial artist is more terrifying than true power.

Is this guy an evildoer?

The roar from the refining room spread out in the silent night, and immediately awakened Xu Xiong and the others who were cultivating. They were all shocked, no, someone broke in. Don't make any accidents.

Huh huh!

One after another, they swept over at extreme speed.

"Huh? Fight inside?"

In the corner outside Liu Pavilion, Zhu Xun and the others also raised their brows when they heard the low roar from inside.

"Hehe, it seems that Elder Wu has been killing him in it." Zhu Xun sneered.

"Zhu Xun is in charge, should we rush in and help?" someone asked.

"No, with the strength of the Uzbek elders, we can't help much if we go in, and if we encounter any danger, we can easily escape with the elder Uzbek's means. We will only cause trouble if we go in."

Zhu Xun said decisively.

The task he received was to assist Wu Liangyu, and he absolutely couldn't take the action personally. In this way, even if there was any mistake, it would not involve the Zhu family.

On the Willow Pavilion.

"Boy, there are two tricks, but do you think you are your opponent based on these?"

Wiping off the blood from the corners of his mouth, Wu Liangyu looked ferocious.

Now that it has been exposed, then I don't bother to hide it and just grab this kid directly.

boom!

A terrible breath awakened in Wu Liangyu's body. On top of his head, a black emptiness snake and a pair of blood-colored eye pupils gradually appeared to Qin Chen. In an instant, Wu Liangyu's breath rose sharply. .

With his hands dancing, the black giant snake twisted crazily, combined with Wu Liangyu, and madly attacked Qin Chen.

"Huh? The blood is condensed, is it the blood of the shadow snake?"

Qin Chen sneered.

The cultivation base at the peak of the early stage of the Xuan rank, coupled with the amplitude of the bloodline formation, is indeed terrifying, but unfortunately, the opponent should not, absolutely should not, enter his home court.

Fighting it head-on is the most inferior method.

Step on your feet!

boom!

An invisible force instantly soared into the sky, and countless bright white lights lit up around the open space, enveloping Qin Chen and Wu Liangyu in an instant.

The big formation starts!

Chapter 368

In order to prevent people from taking risks, Qin Chen had long re-arranged the big formation in the Liu Pavilion, forming a very terrible formation. Now the big formation was opened and immediately wrapped him and Wu Liangyu in it.

"Hahaha, want to use the formation to control me? Thinking too much?"

Shrouded in the white light of the formation, Wu Liangyu's face didn't have any shocking expression. He quickly took out a black iron plate from his body and threw it violently toward the front.

"Om!"

The profound iron formation vibrated, and an invisible force filled Wu Liangyu's white light. It shook suddenly and gradually dispersed, revealing Qin Chen's figure again.

"dead!"

Black light emerged, and an astonishing dark atmosphere swept across it, turning into an invisible wave, once again enveloping Qin Chen, suppressing it swiftly, and accompanying him like a shadow.

The Zhu family, originally from a family of formations, naturally knew that there were formations in the Liu Pavilion, and from the news that came back during the day, the young man who killed Liu Cheng was not only a famous alchemist, but also in terms of formations. Also has a lot of accomplishments.

Therefore, to prevent the formation from being used by the opponent, when the Zhu family sent Wu Liangyu, they also gave him such a formation, telling him that once the opponent controls the formation, they only need to throw the formation and it can be resolved.

Now it really comes in handy.

Boom!

The black aura swept down, and before Wu Liangyu smiled, his expression suddenly solidified.

Seeing that his attack was about to fall on Qin Chen, an astonishing force of formation was suddenly formed invisibly, forming an invisible barrier in front of the opponent, and his attack was instantly instantaneous.

"how come?"

Wu Liangyu was horrified and could hardly believe his eyes. When the Zhu family gave him the profound iron formation, he clearly told him that any formation would fail under this formation. Why did the young man in front of him still have formations? Guardian of the power of law?

"Hey, it turned out to be a broken formation. It seems that your Excellency has been prepared. Unfortunately, this broken formation has too low technical content. It is still too far to break the big formation that Ben Shao has rearranged."

The wrist shook, an invisible suction force was born, and the profound iron formation was drawn into his hand. Qin Chen glanced at it and sneered and shook his head.

"Damn it!"

Wu Liangyu couldn't imagine that the lineup given to him by the Zhu family would actually lose its effect.

You should know that the Zhu family is the first formation family in Wucheng. In terms of formation skills, the entire Northwestern Five Kingdoms are very few.

But by this young man, he casually defeated the effect.

My heart was suddenly shocked, and I faintly felt bad.

"Before you have been doing it, now it's my turn to do it."

As soon as it stepped on the ground, countless white lights circulated, turning into sharp blades in the sky, spinning like a blade of iron forest, sweeping.

Puff puff!

The void trembles and makes a sharp whine, like a ghost crying.

"Dark snake cage!"

Wu Liangyu's scalp was numb, and a strong crisis arose in his heart. Under the death crisis, his whole body was energized to the extreme, condensed into a black snake outside the body, the big snakes entangled with each other, head and tail connected, forming a black snake formation.

Still worrying about this, Wu Liangyu's body shook, and a layer of light black halo emerged through the body, forming a light mask arc on the body surface with many runes flowing on it. It was a unique body he had cultivated. Gongfa.

After doing all this, Wu Liangyu's heart was set a little bit. He knew that Liu Ge's formation was only the third-tier peak formation. No matter how powerful this formation was, it would be impossible to break through his two-layer defense. I am already invincible.

Click!

The first white light shattered his thoughts. The white light was cut down, containing unprecedented terrifying power. It cut a gap of several inches in his black snake defense. It was just a white light. Looking up, the void it was flooded with countless white awns, thousands of them.

Boom boom boom boom!

White light fell, like a torrential rain. The black defensive snake formation immediately collapsed and burst, and then, the rune mask on Wu Liangyu's body also shook violently, trying to break at any time.

"No, run away!"

His brows jumped wildly, and Wu Liangyu was so scared that his soul flew away. He didn't expect that the attack of this formation would be so strong that it could not be achieved by the formation of the third-order peak.

After shaking his body, he was about to flee towards the formation.

"Can you escape?"

Qin Chen sneered and narrowed his eyes.

"Spirit Storm!"

call out!

An invisible mental shock instantly disappeared into his mind, causing Wu Liangyu's figure to suddenly stagnate.

"Do not!"

With a screaming scream, the rune mask on Wu Liangyu's body was shattered, and blood was sprayed everywhere in his body, like a thousand swords.

next moment!

Huh!

The sword light sounded, and Wu Liangyu lifted up into the sky with a furious head, blood splashing three feet away.

Hum!

The array converged, and the open space immediately returned to calm. In the silent night, nothing seemed to have happened, only a headless corpse, telling the previous tragedy.

"Less dust, what happened?"

"what happened?"

The whole process was long, but in fact it was only an instant. When Xu Xiong and the others arrived, the battle was over. Only Qin Chen was dressed in blue, standing on the clearing.

"It's nothing, someone rushed into my alchemy room at night, but I had already killed him."

Qin Chen's tone was calm.

Everyone saw Wu Liangyu's body on the ground and his head rolling down in the corner.

Above that head, Wu Liangyu waited with frightened eyes, as if he couldn't believe that he would die here.

"Isn't this Wu Liangyu?"

Xu Xiong and the others were shocked, their eyes widened.

Wu Liangyu, at any rate, was also a powerhouse at the peak of the early stage of the Xuan rank. In the city of Wu, he was famous for his cultivation, and he was hardly under the blood eagle crazy knife.

Was he killed by Young Master Chen?

Everyone just felt dizzy and unbelievable.

"Clean up here, then hang this person's head outside the door."

Without asking Xu Xiong about the other party's origin, he just thought with his feet that Qin Chen also knew who sent him.

"Yes."

Trembling, Xu Xiong and the others retreated.

But Qin Chen returned to the alchemy room again and began to refine the pill that will be sold tomorrow.

Outside the first pill pavilion, Zhu Xun and the others calmed down when they heard the movement inside, and said with a grin: "It looks like Elder Wu succeeded!"

"Manage Zhu, should we go in now?"

"Wait!"

Zhu Xun pressed his right hand virtually: "Wait for the news from Elder Uganda."

At this moment, the door of the First Dan Pavilion opened with a creak, everyone frowned, and hurriedly shrank in the corner. They heard a few footsteps sounding, as if staying at the door for a while, then closed the door and returned to the Dan Pavilion.

"What's the matter? Didn't Elder Wu succeed?"

Frowning, Zhu Xun and several people stuck their heads.

The next moment, a few people's eyes were round, and they sat down on the ground, their faces suddenly pale!

Chapter 369

After solving Wu Liangyu, Qin Chen didn't take it to heart, but retreated and refined again.

At this stage, one more third-class pill is equivalent to one more fourth-order elixir. For Qin Chen, this transaction is really a bargain.

Because of the lack of pharmacists, Wucheng is located at the border of the five countries, with a large flow of people and numerous merchants.

Coupled with the proximity to the Xuanzhong Mountain Range and the vast land and resources, many powerful warriors have a lot of elixir in their hands, but there is no way to get them.

Even if it can be sold, it cannot be sold at a good price, leading to the hoarding of many treasures.

For Qin Chen, this is a huge business opportunity.

It was also the purpose of his effort to come to this Wucheng.

the next day.

When Xu Xiong opened the door of the First Dan Pavilion, he found that the door was already full of people.

From a distance, the dense crowd, like a sea of people, meanders to the end of the line of sight, shocking Xu Xiong.

After operating in Wucheng for so many years, he has never seen such a majestic scene, even if it is a large-scale auction held by the Tianxing Chamber of Commerce every three years, I am afraid that will be the case.

Xu Yan and others behind Xu Xiong were also dumbfounded. The crowds in front of them were crowded together, and it was impossible to count how many people there were.

Xu Xiong walked out with dry tongue and sweaty palms.

Seeing Xu Xiong and others walking out, the crowd at the entrance of the First Dan Pavilion immediately separated and voluntarily gave up an open space.

Although the entire crowd was large in number, it was very orderly, and there was no turmoil at all.

Many of them looked at Wu Liangyu's head at the door of the first Dange.

Wu Liangyu, at the peak of the early stage of his cultivation, was considered to be one of the celebrities in Wucheng. There are naturally a lot of people who know him.

Although everyone doesn't know why Wu Liangyu's head hangs here, none of the people who can come here are idiots. Even if they think about it with their feet, they all know that it must be Wu Liangyu's coveted pill of the first alchemy. , A night attack came late at night, but the sneak attack failed, but was killed.

Yesterday, although Qin Chen and the others destroyed Liu Cheng and the others in Liu Pavilion, no matter how Liu Cheng and others were, their cultivation level was only at the peak of the late stage of the heavens, and they were not truly top powerhouses.

Now that even Wu Liangyu died here, making everyone wake up instantly, the strength of this first pill pavilion is by no means as weak as they seem on the surface.

At first, many desperadoes even made up their minds. If the first pill pavilion can really take out the Chongxuan Pill and the Condensing Pill today, maybe they will break in tonight and do something.

But at this moment, these people are all cold in their hearts, with cold sweats on their backs, secretly thanking that they didn't do anything because they were jealous last night, otherwise they might be their own heads hanging here now.

After Xu Xiong and the others came out, a high platform was immediately erected at the entrance of the First Dan Pavilion.

The entire high platform, about three to four meters high, allows the people on it to clearly see the crowd on the entire street.

When the high platform was just set up, Qin Chen just walked out of the first pill pavilion.

"Do you really have Chongxuan Pill and Condensing Pill today?"

"How do I know, I hope he has it, so nervous."

"Master Qin is out, everyone is quiet."

"Stop talking, Master Qin is here."

Before Xu Xiong could speak, someone had already taken the initiative to remind the noisy crowd around him, and even Qin Chen's name had been inquired clearly.

Qin Chen was shocked when he saw so many people on the street, but he was more excited.

And after seeing the look of expectation on the faces of most people, I knew right away that I was going to make a big deal today.

Even Qin Chen's soul power sensed more than one profound level powerhouse, and these powerhouses were all standing in the crowd, waiting seriously.

With so many Xuan-level martial artists, Qin Chen didn't worry much.

He believed that after yesterday's events and Wu Liangyu's head at the door, these Xuan-level martial artists did not dare to do anything lightly.

Of course, even if he did, standing within the protection of the formation, he was not afraid at all.

"Is the Qingxin Pill ready?"

The Blood Eagle Mad Saber stood at the front of the crowd, Qin Chen immediately stepped forward and asked anxiously as soon as he appeared.

Although his tone is still indifferent, he obviously has no longer the dominance and strength of yesterday, and some are just a hint of anxiety.

Obviously, after seeing Wu Liangyu's head, he understood very well that the first pill pavilion was not afraid of him, a warrior at the peak of the early stage of the profound stage.

Although his frontal strength is stronger than Wu Liangyu, it is also limited, and Wu Liangyu's ability in assassination must definitely throw him down.

"Okay, here is it, you check it."

Qin Chen threw out a jade bottle casually.

The blood eagle crazy knife took the jade bottle, hurriedly opened the cork, and poured it into his hand.

Two rounded elixirs immediately appeared in his hands, the whole body was pale green, and two clear elixirs appeared on them, exuding a refreshing fragrance.

When the surrounding martial artists smelled the fragrance, they immediately felt their minds clear, their pores were relaxed, and their spirits refreshed.

"It's really a fourth-grade Qingxin Pill."

"Oh my god, is this young man really a fourth-rank alchemist?"

"too frightening."

The crowd was restless, all shocked, and their faces showed excitement.

Seeing the pill in his hand, the blood eagle crazy knife made his face extremely excited.

"Sure enough, it is a fourth-grade Qingxin Pill, thank you very much." As the blood eagle crazy knife said, he quickly and carefully collected the pill, and then disappeared in the crowd in an instant, leaving only an enviable back.

Seeing the blood eagle crazy knife leaving, Qin Chen clasped his fist and said, "Friends of Wucheng, my first pill pavilion is going to sell today. There are a total of 20 third-grade true Qi pill and 20 third-grade Po Xuan. Pills, 20 third-rank Ningxin Pills, 20 third-rank Chongxuan Pills, and 20 third-rank Ningli Pills, a total of 100 pill, and each pill is a high-quality pill with pill pattern ...I hope you can buy as much as you want, and the standards are still the same as yesterday. All kinds of high-level materials are eligible for one purchase."

"At the same time, our first pill pavilion also undertakes the customized project of pill. For any pill, you only need to come up with suitable high-level materials and the elixir for refining the pill itself. Our first pill pavilion can undertake it. Of course everyone I also know that because it takes a lot of energy to refine the pill, so in terms of customizing the pill, the projects I undertake are limited, so please be sure."

As soon as Qin Chen's voice fell, the scene suddenly became a sensation.

Especially Chongxuan Pill and Condensing Pill, for the martial artist of the heaven level, this is almost the same as drugs.

For the vast majority of warriors present, these medicines must be purchased even if they are desperate for their lives.

Not to mention, the other party can also customize the fourth-grade pill. This is a fourth-grade pill. If you change it to any alchemist, everyone will sneer.

But before, everyone had seen the blood eagle crazy knife took away the customized Qingxin Pill. In terms of ability, no one doubted Qin Chen anymore.

Chapter 370

In an instant, the whole scene became agitated, and the crowd began to squeeze crazily.

In particular, some warriors on the periphery were even more eager to rush in. After all, a hundred pills seemed to be too many, but for the crowd of tens of thousands on the scene, that was nothing.

"Dear friends, don't squeeze. I hope you can tell your treasures and the pill to be exchanged. I will decide the order of exchange based on the materials you bring out, even if it is all the hundred pill. After the exchange is over, all friends still have a chance next, I hope all friends stay calm."

Looking at the scene that was about to lose control, Qin Chen had to stand up and say.

"As for friends who want to customize, don't worry. Customized projects will only be carried out after these pills are sold. Please keep your demeanor first."

If you want these warriors to expose good things, they will definitely be missed, but Qin Chen can't manage so much. He is an outsider who collects so many high-level materials, and it is easier to be targeted by others, but this is impossible. .

Since he wanted to improve his strength in a short time and find what he wanted, he had to do so.

Originally, everyone was unwilling to let everyone expose their good things, but after Qin Chen said this, there was no confusion on the court, and even everyone couldn't wait to take out their own treasures for fear of their own. The treasure Qin Chen didn't know.

"Master Qin, I have a blood bodhi and want to buy a Chongxuan Pill!"

"I have Soul Heart Grass and Purple Jade, and I want to buy Chongxuan Pill and Condensing Pill..."

"I only have black pomegranate, and I want to exchange it for the Concentration Pill, but I can't even use the Concentration Pill..."

All kinds of voices rang frantically for a while, and almost all the materials that everyone brought out were Tier 4 materials, and Tier 3 materials were rare, and many of them were the best of Tier 4.

Moreover, what people want to exchange more is Chongxuan Pill and Condensing Pill, which can make one break through from the heaven level to the profound level.

Various voices sounded in his ears, and Qin Chen was more surprised as he listened. The materials today are generally better than yesterday. He wanted almost everything, and he was reluctant to give up.

Immediately said to Xu Xiong: "Xu Xiong, first change the soul and heart grass!"

Soul Heart Grass is a Tier 4 superior elixir and the main material of Tianhun Pill. Tianhun Pill appears to be an elixir that enhances the strength of the soul. In fact, its function is to enhance the spiritual power of the martial artist.

Now Qin Chen's mental power is stuck at the third-order peak, it is extremely difficult to break through, after all, his cultivation is only at the heaven level.

But as long as he can refine the Heavenly Soul Pill, he has a certain probability that he can break through to Tier 4 mental power in a short period of time. At that time, it will be easier to refine the Tier 4 Pill, and it will even be easy to come by. It will be as inefficient as it is now.

Xu Xiong and the others immediately followed Qin Chen's instructions and called them up.

The man was called, as if he had won the lottery. He was so excited that he walked up with a flushed face and couldn't wait to exchange for a pill.

Plants of elixir and materials were continuously being collected, but fewer and fewer people came in crowds, but more and more.

When the hundred pills were sold out, only a small number of people were exchanged on the spot.

Seeing that the last pill had been exchanged, the crowd was very restless. They hadn't exchanged it yet, and the pill was gone.

"Everyone, if you are not afraid to wait, you can wait for a while. I will refine some pills and exchange them in the afternoon."

In less than an hour, one hundred pills would be exchanged, and every one exchanged was an amazing material.

Qin Chen had no choice but to go back to the scene to refine.

These warriors have heard that there will be pills for sale, and no one wants to leave, all of them wait patiently.

In this way, Qin Chen refining and exchanging, as long as there are still top Tier 4 materials that have not been exchanged, he will not refuse to come.

In the evening, Qin Chen finally exchanged all the top-level materials, and even if his mental power was strong, he was already exhausted at this time and his mind was confused.

If you continue to refine, I am afraid that you will be exhausted, and you have to stop the exchange, and even the custom project is too late to accept, so you can only arrange for Xu Xiong to register.

After this day, the fame of the first pill pavilion completely started in Wucheng. The whole Wucheng knew that there was a medicine shop selling third-grade pill, and the pavilion owner was even a fourth-grade alchemy master.

One day passed, and no one knew about the First Dan Pavilion.

Some people who have not exchanged for the pill, know that there is no point in staying outside the first pill pavilion, and they have tried their best to find the best materials, because they all know that the appetite of the first pill pavilion has already gone. The bigger it gets, the ordinary Tier 4 material people may not care.

Although Qin Chen's method of selling is not an auction, it is actually not much worse than an auction. If you want to buy the pill of the first pill pavilion, you don't need to produce good materials, you must also produce good materials. Basically, better than others' materials.

Seeing the gradually dispersing crowd, Xu Xiong breathed a sigh of relief. In just one day, these people in their Xu family were tired and weak.

But after careful calculation, Xu Xiong was almost shocked when he found that nearly three hundred pills were sold today, and he received tens of millions of silver coins.

This money-gathering speed is almost faster than robbery, and the income of the four major forces in Wucheng for a year is not worth the income of a day of dust.

However, Xu Xiong and the others can't be idle now, because there are still many warriors who need to be customized at the door, and they are still waiting.

"Is Master Qin free now?"

These strong men waited here for a day, and at this time they were all a little anxious.

The vast majority of those who want to customize the fourth-rank pill are Xuan-level martial artists. To them, the Chongxuan Pill and the Condensing Pill are useless.

"Shao Chen is too tired today and has taken a break. You only need to write down the medicines that each other needs to customize, as well as the materials taken out, and register them. After Shao Chen has finished resting, he will naturally decide whether to proceed. Customized, everyone will come back tomorrow morning and wait for the result."

The people in front of them were all Wucheng's profound level powerhouses, each of whom was quite famous. Before Xu Xiong saw them, he didn't even dare to breathe, but now he looks comfortable.

"Well."

These powerhouses were very depressed, but they didn't dare to have the slightest temper. They registered one after another. Who made them want to ask now?

After half a day's work, they all understood that even though they are the veteran powerhouses in Wucheng, the first pill pavilion is of extraordinary origin, and they can't be beaten at all.
