

## Valkyrie 3701

### [Chapter 3701: Qualitative difference](#)

"You are the Qin Chen who colluded with the Demon Race in the land of the sword grave? Why, let's go with this seat?" Xidoruo stared at Qin Chen, said with a light smile, and at the same time glanced at Chaos Poison Venerable, he had already sensed it. , Chaos Poison Venerable is just an ordinary Venerable, and he has fought against him before, Chaos Poison Venerable seems to have a set of physical defenses.

But in terms of level, he was much worse than him, so he didn't take the other party to heart.

"Who is your Excellency, why did you attack my Guanghan Mansion?"

Qin Chen stared at the opponent and said in a deep voice, suppressing anger in his heart.

In fact, how could he not know the identity of Xidoro, guessing can guess it, but at this time, he can only say that. "Who am I?" Xidoruo smiled, "It's fine, it's okay to tell you, this seat is Xidoro, the palace lord, I want to take you back to the star palace and investigate some things. , Rest assured, our Star God Palace is the top power in the heavens,

It won't do anything to you. "

Hidoro? Qin Chen felt cold in his heart, what would he do to him? Just looking at the virtues of the Palace Lord of the Star God Palace in the land of the sword grave, he knew that it was not a good thing, and he sent a master of the highest peak to his Guanghan Palace to do it. If Qin Chen believed the other party, it would be hell.

.

"Sorry, the junior has nothing to explain to the Star God Palace." Qin Chen said coldly.

He feels upset, isn't it because he is not the venerable so he can bully? This bastard, if he really went to the Star God Palace, there would be no good things.

"Senior is the venerable of the Star God Palace, the top power in the celestial realm. Isn't he afraid of being punished if he acts on the powers of my four subordinates in the celestial realm?"

Qin Chen knew the purpose of the other party, so he didn't bother to think it was a snake with him. Ji Wuxue and others below instantly took out some live broadcast equipment to broadcast the situation here and pass it on.

The top forces in the heavens still need some reputation in the heavens, so naturally they can't do it at will, hoping to rely on this to deter the opponent.

"Hahaha, don't bother in vain. The void here has been blocked by the power of this black hole, and no signal can be transmitted."

Seeing Ji Wuxue and others at the bottom took out the monitoring array and other live broadcast equipment, Xidoruo suddenly sneered. These guys are really smart. Fortunately, they can block the void without being afraid.

Otherwise, you will really be at a loss.

"Hmph, it seems that your Excellency doesn't want to return to the Star God Palace with this constellation, but this is not for you."

A trace of disdain flashed in Xidoro's eyes, and he was too lazy to talk nonsense, and raised his hand to grab Qin Chen: "Be obediently follow this seat."

Seeing that the other party underestimated him, Qin Chen didn't know where to seize the opportunity.

When the mysterious rust sword was sacrificed, it immediately became an invisible totem power. The first shot is to fight with all strength, and at the same time, he used two kinds of magical powers, and there is no half of the hand. Qin Chen approached the half-step Venerable, Sheng Yuan had become a tumbling river, and the power of the mysterious rust sword was unparalleled. In addition, it was fully sacrificed. As soon as the mysterious rust sword was sacrificed, it aroused the sword in the sky. Light, these sword lights will be right instantly

Fang did not deliberately release the power of the black hole torn apart, and then turned into a reincarnation sword light thousands of feet long, slashing through the void.

Almost instantly, Xidoro knew he underestimated the enemy. "Puff..." The mysterious rust sword smashed the big hand of Xidoruo, and the power of the venerable suddenly exploded, rumbling and roaring continuously, the power of the terrifying six reincarnations, the power of the venerable to madly annihilate the opponent, and it was thrown on the gods in the sky In the rainbow, but the divine rainbow is not half

The easing of points still went on.

This kid is so strong.

Xidoruo's expression was darkly startled, his figure only flickered, and he completely broke free from the spatial constraints of the six reincarnation sword intent, but his venerable hand had been split in half.

boom!

At the same time, the Poisonous Chaos Venerable on the side also moved, banging and killing instantly, the chaotic aura permeated, and with a trace of poisonous power, it was about to erode Xidoruo.

"Get out!" Xidoro was furious, boomed, raised his hand and blasted out, and the chaotic energy exploded, but at the same time, the poisonous force was pouring into his body, making him furious. The breath of Zun pinnacle surged instantly, shattering that poisonous power, his face

The color is uncertain.

What is the rule of poison? It was just a trick. One of his own dignified pinnacles was broken and attacked by a half-step venerable, and he almost let a venerable count on it. While Xidoro was frightened, he was furious. When the force is running, the moment in the eyes

Two dark black holes appeared. The black holes rotated and merged into his hands. The endless black hole power turned into a dark war spear, which was pierced against the Chaos Poison Venerable.

boom!

Xidoruo stepped out, tall and tall, with eyes like an abyss, as if he could devour human souls, extremely frightening.

He gave people an unimaginable sense of oppression, stepping forward, condescending, looking down at Chaos Poison Venerable and Qin Chen, that kind of domineering, that kind of aggressive gaze, ordinary powerhouses simply couldn't bear it, and they would suffocate.

Above the black war spear, a suffocating light flickered.

"boom....."

The war spear exploded at Divine Rainbow, and quickly bombarded Chaos Poison Venerable, Chaos Poison Venerable couldn't avoid it. The whole person went backwards frantically, pouting, spouting blood, his face pale as golden paper, and the void on his side exploded directly.

Then, Xidoro's eyes were cold and he urged his war spear to blast towards Qin Chen like lightning. The black light of the war spear bloomed, and as soon as it was sacrificed, it hit Qin Chen's mysterious rust sword, and the sky full of sword intent disappeared instantly, as if swallowed by an invisible black hole, Qin Chen's surging sword intent was like a sword. The extinguished oil lamp is like

Falling in the void. The powerful Venerable backlash power came, Qin Chen spouted a mouthful of blood, and hurriedly retracted the mysterious rust sword in terror. At this time, the black hole in Xidoro's pupils shrouded in an instant, turning into a black hole field. Wrapped Qin Chen in it,

The power of the terrifying black hole swallowed everything, and the world in all directions was like a quagmire, restraining Qin Chen. Qin Chen immediately understood that Xidoro's strength was too strong, and the peak of human respect had reached an extremely terrifying point. He was only a half-step venerable, and could fight against ordinary venerables, but faced with the peak of human respect. Etc., the gap

It's too big, and it's by no means some unique knowledge can easily obliterate the gap.

The gap between the two has reached a qualitative difference.

At this moment, the power of the black hole quickly fell, and Qin Chen felt that his mind was completely enveloped in it, and he wanted to breathe into this terrible black hole.

At this moment, he couldn't care about anything else, and instantly released the terrifying void flame in his body.

boom! As soon as this emptiness flame appeared, the emptiness of the surrounding heavens vibrated, and there was an illusion that it would be burned to ashes on the spot.

[Chapter 3702: Visualization of the Great God and Demon Star](#)

boom!

Void flames bloomed in the void, bursting out a scorching flame aura, like a round of scorching sun suddenly introverted, forming the most dazzling point, and like thousands of karma fires gathered in one, merged into an endless extreme fire.

When this flame appeared completely, the void was burned out of nothingness, and the void on this side seemed to be distorted, disappearing out of thin air under the burning of the flame.

"Kaka..."

The void flame in Qin Chen's body had just been released, and the light of the black hole that contained Qin Chen creaked in an instant. In just a short time, the light that enveloped Qin Chen's black hole weakened. The light of this black hole can swallow all power, just like a real black hole, no energy can escape the swallowing power of the black hole, but when this void flame appears in the void, it is not swallowed by the power of the black hole at all.

Forever.

Qin Chen was also secretly surprised by the horror of this void flame, almost without any hesitation, Qin Chen directly urged the void flame, and instantly turned into a streamer and shot towards Xidoruo.

Hum!

Wherever the flame of emptiness passed, the light of the surrounding black hole was instantly burned into nothingness.

"What kind of flame is this?" Xidoruo was shocked immediately. Although he felt that he could easily kill Qin Chen, he couldn't imagine that Qin Chen was so terrifying that there was such a terrifying flower on his body. Flame, is this sky fire? No he has heard of

All of the sky fires can't describe the flame in front of me.

For the first time, he felt a strong sense of crisis in his heart.

This flame can hurt him.

This was the first thought in his mind. Xidoruo did not hesitate anymore. Boom, the power of the peak of the human body in his body suddenly condensed to an extreme point. Om, the void around the sky and the earth converged to the extreme in an instant, and then burst out, and Qin Chen released the void flame

They collided together quickly.

Quiet!

There was silence. The entire universe of void suddenly entered silence, and then an endless roar resounded throughout the world, puff, and the void turned into turbulent currents, bursting madly, and black halos like coming from Nine Nether Purgatory, as if swallowed Endless in the world

The cold, billowing out.

This is the way of Xidoro, the way of the Lord!

The heavenly ways of the heavens were instantly squeezed out, and this venerable way, like a sharp blade with a handle, crazily shot into Qin Chen's body.

puff!

Qin Chen flew upside down in an instant, and the six reincarnation sword bones in his body rumbling and roaring, and the internal organs were shaking, and there was a roar of thunder. Swept.

And Xidoruo was not well, a layer of emptiness actually penetrated his Way of the Venerable, and instantly entangled his flesh.

"what!"

He let out a painful growl, the flame, like a tarsal maggot, spread quickly across his body, and began to burn his venerable power.

Chi Chi!

A scorching smell emerged from his body, and his body began to be burned, as if being poured by hot oil.

how can that be? He couldn't believe it. He was a master at the pinnacle of human respect, a real great figure in the heavens. Entering the four great heavens, it was definitely a crushing existence, let alone the flame of a half-step venerable, even a venerable master. Natal fire, also

It may not hurt him.

Unless it is a respectable figure.

But now, he was actually hurt by this emptiness fire released by Qin Chen, and the anger in his heart can be imagined. In his body, the terrifying black hole light bloomed crazily, trying to extinguish this emptiness flame. However, although the emptiness flame was very ethereal, it could not be extinguished easily. It started to burn the power of the venerable on him, and also Have

An invisible force penetrated into his body, carrying terrible toxins, to erode his origin and burn his soul.

What kind of flame is this?

Xidoruo was frightened and frightened, and he immediately ran his star visualization map of the Great God and Demon in the Star Palace.

boom! In Xidoruo's mind, a huge demon star pattern appeared. This is a figure sitting on a star to the sky, towering tall, and a pair of eyes are like the big sun. They are two real stars. Body contains

The mystery of the universe.

This is his top visualization of the Star Palace.

Hum!

As soon as the vision of the Great God and Demon stars appeared, Xidora's body immediately surged with a unique power of God and Demon. With a bang, a halo of mist surrounded him, finally resisting the invasion of this void flame.

He sucked in the air, and was already extremely shocked at this time, staring at Qin Chen with cold eyes. After Qin Chen withstood the power of his black hole, it was not easy for him, and his whole body flew out, dripping with blood, and was severely injured. Although Xidora felt that he could still kill Qin Chen, his gaze at Qin Chen had changed at this time. A Half-Step Venerable was so powerful that it was really hard for him to imagine when this happened. Terrible Half Step Venerable

?

It should be understood that the power of his black hole, ordinary venerables can't resist, but Qin Chen resisted it, and it seemed that there was no major problem.

Qin Chen in front of him is only half a step Venerable. How terrible will he be when he is truly promoted to Venerable? Where is his opponent? Even if he was an ordinary venerable, it is estimated that he could kill himself such a pinnacle.

This person must never stay! A cold murderous intent appeared in Xidoruo's heart. If Qin Chen were to run away today, he would definitely have endless troubles. At this moment, he finally understood why the Lord Palace Lord had asked himself to come to the Eastern Heaven Realm to investigate this person. This person is too weird. Everything is super

Out of the limit that normal evildoers can accommodate.

At the same time, Xidoruo had an unprecedented thought in his mind. If Qin Chen's secrets were obtained by him, how far would he be elevated?

Will it be expected to step into the realm of Earth Zun and truly become the top of the Star God Palace? The backbone of the human race?

His heart suddenly became enthusiastic.

Thinking of this, Xidoruo did not hesitate even more, and the pitch-black war spear in his hand turned into a black hole of pitch black to the extreme, slashing towards Qin Chen.

"Boom!" It was just that before the black war spear hit Qin Chen, Qin Chen's second round of void flames had already swept over. The first round of void flames was blocked by the opponent and consumed most of his power. Qin Chen was already when the second round of Void Flames spurred

After burning up the origin of the body.

He knew the horror of Xidoro, even more so that he dared not stay behind.

boom! An increasingly scorching flame swept out, and Xidoro felt it at this moment that there were multiple auras in this emptiness flame, and these auras merged together, as if they had peeped into the origin of the flame.

### [Chapter 3703: Exterminate the nine races](#)

This so-called road of flames is not the avenue of fire in the celestial realm, but the mother fire born out of nothingness when the heavens and the earth are opened up, and the existence of the source of all fires.

Is it the mother fire of all things?

Thinking of this possibility, Xidoro's eyes became even more scorching.

This person must be caught alive. There are too many secrets in his body, but even if he wants to catch Qin Chen alive, he also knows that this kind of flame must not be drawn up. Once it is drawn to himself, even the pinnacle of other people's respect will be affected. No more.

With the previous experience, the battle spear that Xidoro turned into a pitch black hole instantly stretched out, becoming a huge black sky curtain, blocking this second terrible flame that rushed toward the face. "Boom..." There was a loud noise, and the black sky curtain collided with Qin Chen's second void flame, causing a terrible black-and-white explosion. Just breathing time, Qin Chen's second void flame was destroyed. The dark sky is resisting

Living.

Xidoruo thought of moving the big \*\*\*\* and devil star visualization, and the power of the gods and devil stars circulated on his body, and the black hole of the black war spear instantly shot out countless black rays of light, which pierced Qin Chen like lightning. s position. And as these black rays of light pierced past, the space around Qin Chen was also shrinking sharply, just as the universe collapsed, the mass turned into a single point, and became a black hole. It seemed that when the space was contracted to a point, it was just as if by those black holes.

The light pierced. "Boom..." There was a muffled sound again, and Qin Chen's location was pierced by black light, forming a series of void ripples. These ripples did not break the void, but they were more terrifying than the void being broken, because these ripples Power on

After condensing the power of the black hole, Qin Chen was completely imprisoned.

Obviously, what Xidoro wanted was not Qin Chen's life, but to capture Qin Chen.

"dust!"

Below, countless people in Guanghan Mansion were extremely nervous when they saw this scene, but they were not qualified to intervene at all. They all knew that if they rushed out by themselves, not only would they not be able to save Qin Chen, but it would cause Qin Chen a huge trouble.

"Kill." At this time, Chaos Poison Venerable roared, and the power of Chaos surged from his body, and he was killing towards Xidoruo. He was burning his chaotic origin. This is for him who has just recovered from his wounds. Is definitely a dangerous move, but at this time he has

Can't take care of that much.

"Huh, ordinary people, get out of here!"

Xidoro yelled and boomed, a black hole's light exploded in front of him, and above his head, a statue of a \*\*\*\* and a demon star appeared, towering toweringly, bursting out an invisible light, colliding with the chaotic poisonous lord. .

With a bang, Chaos Poison Venerable was blasted out, covered in blood, his chest was swept by the light of the black hole, and pitted wounds were corroded instantly, severely injured on the spot, and vomited blood.

Strong as the body of chaos, it can't resist Xidoruo's attack.

After all, Xidoruo is a master at the pinnacle of Human Venerable, much higher than the realm of Chaos Poison Venerable.

"burst!"

But because of Chaos Poison Venerable's shot, Qin Chen seized the opportunity to cover his body with a layer of void flames, and with a bang, he directly exploded the void and broke free from Xidoro's restraint.

"Huh, huh, huh..."

In the void, Qin Chen panted violently, with a hideous face.

Failed. Unexpectedly that Void Flame would not be able to kill this Xidoro, a trace of despair emerged in Qin Chen's heart.

But also, if the master of the pinnacle of human respect is so easy to kill, it is too weak.

"Ok?"

Xidoruo frowned, this Qin Chen was really troublesome, the other party possessed that void flame, and it was really not easy to capture the other party.

Suddenly, Xidoro glanced at the Guanghan Mansion below his eyes, and a sneer formed at the corner of his mouth.

"Om!"

The light of the black hole bloomed on Xidoro. This was the power of the original burning, and the light of countless black holes instantly shot down towards the Guanghan Mansion below.

Rumble!

The entire Guanghan Mansion roared and roared, and the mask that guarded Guanghan Mansion shook violently and blasted.

This time, Xidoro shot with all his strength, even with You Qianxue's guardianship, the light of the shield trembled violently, making an overwhelming roar.

"Boy, be obedient and catch it, otherwise, everyone below will be buried with you." Xidoruo said with a grin, actually using the life and death of You Qianxue and others to threaten Qin Chen.

It's so mean.

Chaos Poison Venerable is mad, is this really a Human Venerable Master of the Human Race's top power Star God Palace? This kind of behavior is simply more evil than the demons.

"Dust, leave us alone."

You Qianxue and the others yelled frantically, poofed, vomiting blood one by one, and persisted hard under the attack of Xidoro.

"You are threatening me, despicable." Qin Chen stared at Xidoruo angrily, with unprecedented anger in his eyes.

Using the lives of countless people in Guanghan Prefecture and their relatives and friends to threaten oneself, the so-called top human force, makes people feel sick.

"Why? If you don't surrender yet, are you going to watch your relatives and friends die in front of you?" Xidoro hovered proudly in the sky, controlling the situation, and sneered at the corner of his mouth: "Here, there should be you. My lover? Well, there are so many confidantes, which makes me a little envious? It's a pity that these people will die because of you, but they are dying

Before, I will treat them well. "

Xidoro lewdly said.

"Shameless!"

Chaos Poison Sovereign shouted angrily.

"Hahaha, shameless? Yes, I am shameless? How do you think I returned alive in the battlefield of ten thousand races? How did I become the pinnacle of humanity? In this world where the strong are respected, people who are not shameless have long been already dead."

Xidoro grinned madly.

In order to become strong, what is shameless not shameless? Strength is everything.

"Hahaha."

Suddenly, Qin Chen laughed. The laughter was crazy, making Xidoruo startled. At this time, this kid could still laugh?

"I laugh that you are really naive, do you really think I am an idiot? If I surrender to you, I will really seek my own death. When that time, you will let the people of Guanghan Mansion go?" Qin Chen looked deeply at it. After looking at You Qianxue and the others, his eyes became extremely hideous and cold, "Xidoro, as you said, in a place like the heavens, people who are not shameless are already dead, so you are right. , In Guanghan Mansion, there are my love, relatives, and friends, but what? No one is more important than me. You kill, even if you kill, but from today, I Qin Chen will stare at you Xiduo Luo, as long as I don't die for one day, I, Qin Chen, will stay with you until I punish your Nine Clan, I Qin Chen swears."

#### [Chapter 3704: Qin Chen's changes](#)

"Chaotic Poison Sovereign, let's go!" Qin Chen's voice fell, without even knowing his head, and he snorted to the Chaos Poison Sovereign, and instantly threw out the formation flags, buzzing, and a

simple spatial teleportation formation formed, Qin Chen did not wait for Xidoruo to react, and he already carried Chaos Poison Venerable

Stepping into it, a ray of void light flickered, and Qin Chen instantly teleported towards the distant void, actually trying to escape from here.

"This....."

Xidoro himself was stunned.

This Qin Chen actually ignored the people in Guanghan Mansion, and left everyone here and ran away alone.

It's as human as he is.

"Dust him..."

In Guanghan Mansion, many people in Chendi Pavilion were also stunned.

But Ji Wuxue, and You Qianxue, Ji Ruyue, and Murong Bingyun all turned pale.

"This kid..." Murong Bingyun gritted his teeth, his eyes were a little red.

"hateful."

Xidoruo was furious. He attacked Guanghan Mansion before, just wanting to use Guanghan Mansion to threaten Qin Chen. Who knew Qin Chen didn't care about Guanghan Mansion and ran away by himself...

Is he really speechless.

When Qin Chen and Chaos Poison Sovereign left, Xidoro could indeed break through Guanghan Mansion in a very short time, beheading everyone in Guanghan Mansion, or capture them.

But what does he want to capture these people for? The reason why he acted on Guanghan Mansion was to force Qin Chen to come out. Now that Qin Chen has run away, even if he kills all the people in Guanghan Mansion, what is the use?

boom!

At the moment, Xidoruo could no longer take a shot at Guanghan Mansion, his figure flickered, and instantly escaped into the void, rushing towards the place where Qin Chen disappeared, and chasing him frantically.

"Boy, do you think you can escape the palm of this seat?"

Xidoro's eyes were crazy like never before.

Xidoro left, the endless void gradually recovered, and Guanghan Mansion instantly recovered calm.

"Qin Chen... is this leading Xidoro away?"

The heart of You Qianxue and others was raised instantly, with a worried expression. Perhaps others would doubt whether Qin Chen really abandoned them, but You Qianxue and the others are not sure.

Qin Chen's purpose in doing this is to use himself as a bait to lure Xidoro away, so as to give them a chance to survive. and

Already.

"This bastard, why did he run away alone."

Murong Bingyun scolded angrily, but she scolded, but her eyes were red.

"Okay, don't talk about it. It's not the time to talk about this. The most urgent thing is to think of a way to not let Qin Chen's sacrifices go to waste." Ji Wuxue said solemnly, his face pale.

At this time, it was too late to say anything, and Qin Chen made good intentions to attract Xidoro away. They couldn't just let Qin Chen's efforts in vain.

boom!

Void!

Under the leadership of Venerable Chaos Poison, the two urged the rules of space and the other urged the power of Venerable Chaos to flee madly.

Behind the two, a terrifying aura firmly locked them in and followed them strongly.

"This Xidoruo really caught up."

In the void, the face of Qin Chen, who was locked by Xidoro, instead of intersecting, was peaceful.

"Wuxue and the others... should be safe for now."

Qin Chen breathed a sigh of relief, as long as Xiduo Luo followed, then Guanghan Mansion would be absolutely safe.

"Master, where are we going now?" Chaos Duzun said with a pale face.

It was too exciting to be chased by a pinnacle master.

"Escape, escape from the Eastern Heaven Realm, how far you can escape, you take me to escape first, I will prepare something first."

Qin Chen's voice fell, and with a swish, he entered directly into the Universe Jade Plate.

"Oh my God....."

Chaos Poison Venerable is speechless, let him take Qin Chen away by himself, is this too high for him?

"Hmph, but I was on the battlefield of Ten Thousand Clan, and I was very knowledgeable, Xidoruo, just follow me."

Chaos Poison Sovereign lingers around the power of Chaos, and constantly shuttles in the void.

Although he could not completely get rid of Hidoror's chase, it was not easy for Hidoror to catch him in a short time.

boom!

The two great lords flew like crazy in the Eastern Heaven Realm.

"This kid can really run."

Xidoro felt the faint breath in the distance, his breath became furious.

Because the opponent was too able to hide, he thought he could easily catch up with the opponent, but he never thought that the opponent is extremely cunning and very tricky.

boom!

He turned into a dark light, walking in the Eastern Heaven Realm.

Heaven is rumbling and roaring, angry at his actions.

When Xidoro walked in the Eastern Celestial Realm, it caused a shocking vision. The weather was too extraordinary. These masters walked in the void and tried their best to capture. The sky was full of black lotus flowers, which were transformed, brilliant and crystal clear, blooming continuously. .

When he walked on the heavens and the earth, stepping on the sea of stars, the heavens roared, the stars trembled, and the rules of heaven and earth surrendered for him.

He seemed to be stepping on a divine rainbow, so gorgeous that people couldn't open his eyes, crossing the star sea and directly crossing the void!

This kind of scene is too scary. The top powerhouses of many forces in the Eastern Heaven Realm are shocked and their souls are shaking. What level of powerhouse is this? Passing the Eastern Heaven Realm.

The breath of the pinnacle of human respect, passing by any piece of heaven, gives people an unparalleled sense of oppression, making everyone tremble, creeping on the ground, and being strongly suppressed.

They could see the divine rainbow dazzling in the star sea beyond the heavens, the light and rain were flying, and the entire universe was billowing blazingly. The weather he brought was shocking and shocking.

It was as if hundreds of black suns that were burning had gathered together and became a halo that he radiated. He walked on that dark divine rainbow road, crossing the sky.

In addition, some people have captured some of the aura of Chaos Poison Venerable, which is the same mighty force, but it is more obscure, crossing the sky, one after the other, like chasing the stars and the moon.

This scene is too shocking and too scary.

Xidoruo stepped on the rules. Although Chaos Poison Venerable's body was very secretive and the methods were weird, he was still caught by him, locked by his celestial eye, unable to escape.

He is getting closer.

One day later.

boom!

The two came to a barren land in the Eastern Heaven Realm. It was already close to the edge of the Eastern Heaven Realm. It was very desolate, with dead stars circulating everywhere.

Void cracks flickered.

Rumor has it that this was once a place where the Eastern Heaven Realm was torn apart. There was a huge formation in ancient times. Although it is healed, it is still broken, with a misty and deadly atmosphere circulating, which is breathtaking.

"Master, I'm almost caught up."

Chaos Poison Venerable anxiously transmitted the sound, because, after a day and night of chasing, Xidora had completely locked him, and was approaching quickly, and would soon be caught up.

"Huh!"

Beside Chaos Poison Venerable, a figure appeared, it was Qin Chen, his eyes were cold, and his whole body exuded a cold breath. Chaos Poison Venerable felt that there seemed to be a certain change in Qin Chen in front of him, but he couldn't perceive the specific change for a while.

#### [Chapter 3705: Crazy swallow](#)

After Qin Chen appeared, he quickly threw out the formation flags. These formation flags, with an incomparably cold aura, formed a vast array of voids, leading directly to the endless depths of the void.

"this is....."

Chaos Poison Sovereign was taken aback, because he felt a hint of coldness from above this big formation. This kind of aura was somewhat similar to the power of the Demon Race and somewhat similar to the power of darkness.

"This is the space teleportation array, you go in, continue to escape, and buy time."

After the words fell, Qin Chen disappeared again and entered the jade disc of good fortune in the universe.

Chaos Poison Venerable was speechless. He had been running for a day and a night, and he had to run. However, at this time, he had no way to be beaten if he didn't run.

Hum!

One step out, after the Poison Chaos Venerable escaped into the void teleportation array, his body disappeared instantly.

After a while, a figure quickly appeared here?

"How did the breath of these two guys suddenly disappear?"

Xidora's eyes were cold, and he scanned the surroundings, and suddenly saw the teleportation formation nearby, and his face immediately showed a dignified meaning.

"The breath of the Demon Race? No, it is similar to the Demon Race and the power of darkness? But not exactly. Is this kid colluding with the Demon Race? Or, like Palace Master Yaomie, he has the power of darkness in cultivation?"

Xidoro felt like he had captured a big secret.

"This kid doesn't know where there are so many space teleportation arrays, huh, any space teleportation array will leave traces after it is teleported. Let's see how the kid escapes."

At the center of Xidoruo's eyebrows, he opened a star-like eye, captured the power of space, and continued to track it up. He was looking forward to Qin Chen more and more now.

In the jade disc of good fortune.

After Qin Chen re-entered, he quickly took out the Zixiao Dousili Palace and the Ten Thousand Dao Qingjin Pill Furnace, and began alchemy.

Because Qin Chen knew that he could not escape Xidoro's tracking at all, and he had to become stronger if he wanted to survive.

Qin Chen's current cultivation base is only a first half of the martial arts. Although Qin Chen knows very well that it is impossible for him to break through to the current sage, even if it is only a slight improvement, it will be helpful.

In the inheritance of Venerable Skyfire, Qin Chen knew a lot of top-level pill. Qin Chen had never thought of using pill to break through, but at this time, he could no longer manage that much.

After obtaining the treasures of the Qingxue family and the Zhuge family, Qin Chen has many top materials on his body, and he also has a heavenly tree. What Qin Chen could not think of was that under the passage of the days of the heavenly \*\*\*\* tree in the jade disc of good fortune of heaven and earth, the various sources of heavenly source fruit on it exudes the aura of heavenly way, and there is a feeling of maturity, even more mature than before. The Secret Realm of Poison Pill

The ones that grow in the middle are good.

Obviously, there is a certain kind of aura in this jade disc of good fortune, which can enhance the growth of the heavenly tree.

Isn't the Qiankun Good Fortune Jade Plate made by the many powerful people of the Tianwu Continent using the origin of the mainland? How can there be such an effect? Qin Chen felt that it was not easy to make jade discs in the universe, but it was not the time to consider these. Qin Chen quickly picked the next Heavenly Dao Origin Fruit, and the Void Flame was released by him, and he quickly licked the two big ones. Venerable Pill Furnace, open

Begin refining.

A variety of materials were quickly poured into the two great alchemy furnaces, and Qin Chen put many top-level materials into them without any hesitation, and proceeded with crazy refining.

Under the acceleration of the power of time, one after another pill was refined by Qin Chen, but Qin Chen continued to refine it frantically without any pause.

Because of Qin Chen's madness, the power of time has been accelerated to the extreme. In half a day, a whole month has passed in the jade dish of Universe Good Fortune, and Qin Chen has refined dozens of furnaces of medicine.

Various large medicines exuding terrifying aura were placed beside Qin Chen. The lowest-level of these large medicines were the peak sacred pill, and most of them were half-step venerable medicines, and each one exuded extremely terrifying breath.

If such a pill spread to the four great heaven realms, it would definitely cause a sensation. Any one of them was a heaven-shocking treasure, but now it was randomly placed around by Qin Chen. Immediately afterwards, Qin Chen quickly began to set up an array in the Universe Fortune Jade Plate. What he arranged was a spirit-inducing formation. He took out a series of top holy veins, all of which were high-grade holy veins, even from the Zhuge family. The half of the saint vein of the Venerable also

They were all placed around him. Originally, this Venerable Saint Vein was intended to nourish the universe, the jade disc and the magic tree of the ten thousand worlds, and even part of it for the people of Guanghan Mansion to break through, but at this time he has already taken care of it. Not so much. After doing all this, Qin Chen sat quietly in the middle of the formation. By his side, there were a lot of Heavenly Dao Divine Pills, as well as various top pill medicines, exuding a strong smell of pill. Breath, let any peak holy master smell it

Wen will break through the feeling of the half-step Venerable.

Little ants and Xiaohuo watched nervously from the side. They all knew that the owner was at a very critical juncture, but they could not help much. They were anxiously spinning around like ants on a hot pot.

Qin Chen picked up a pill bottle and placed it in his palm, and started to operate the Nine Star God Emperor Art, rushing to a higher realm, trying to break through the biggest barrier of cultivation.

The holy yuan in the body flows gurgingly, although it is like the Yangtze River, but it is still far from the barrier, not to mention the tearing and breaking through the barrier of cultivation, even if it is touched, it is completely invisible.

Qin Chen knew very well that although he could be regarded as a Half-Step Venerable, and he was more than ten times stronger than the average Half-Step Venerable, his breakthrough would be extremely difficult. Not to mention breaking through to become a Venerable, even if it is to reach the peak of the Half-Step Venerable, it is by no means easy. If other Half-Step Venerables are here, it will be much easier than him. Only a few such pills are needed. Medicine, plus some insights and holy veins,

He can reach the peak of the Half-Step Venerable, but Qin Chen is different. The resources consumed by each of his realms are more than a hundred times or more than that of ordinary warriors.

Qin Chen picked up the pill bottle in his hand. There were ten pills in the pill bottle, but Qin Chen poured it into his mouth, swallowing it like fried beans.

If someone sees this scene, they will be stunned. The Heavenly Dao Divine Pill is the pinnacle sacred pill. Even if it is taken by the Half-Step Venerable, it needs to be taken one by one, but Qin Chen swallowed ten in one mouthful. It was almost like Looking for death. However, it was not enough for Qin Chen to

swallow these ten pills. He picked up the second pill bottle, poured out all ten pills in it, and swallowed it in one mouthful.

#### [Chapter 3706: Half Step Venerable Peak](#)

One Heavenly Dao Origin Fruit can produce twelve Heavenly Dao Divine Pills, and Qin Chen swallowed all the remaining ten, except for two that could be given to Zi Xun in the future.

Click! Click!

Qin Chen chewed these pills, the infinite medicinal power quickly turned into a stream of heat, and it poured into Qin Chen's limbs and corpses hot.

boom!

Qin Chen's body seemed to be on fire for an instant, and the terrifying power of the pill could easily tear a half-step venerable and burst it on the spot. But Qin Chen possesses six reincarnation sword bodies, which combine infinite physiques such as the ancient sacred body, the prehistoric body, the body of the moon god, and so on. Even the six reincarnation sword paths cannot wipe out Qin Chen's body.

Although the medicinal properties of these medicines are terrible, But it's only in Qin Chen

The body surging crazily.

This was not enough. After swallowing a large amount of Heavenly Dao Divine Pill, Qin Chen began to swallow the remaining half-step Venerable Pill, and he swallowed the billowing pill one by one.

boom!

Qin Chen's body glowed, and the terrifying medicinal power swept out, and a huge storm quickly formed in the jade disc.

These medicinal powers diffused into some medicine fields in the distance, and the holy medicines Qin Chen planted in those medicinal fields grew crazily. It was indeed that the medicinal properties in this medicine were too strong.

Qin Chen refined almost all the top materials in the two great noble families into a pill, and swallowed it all at once.

boom! A violent roar resounded in Qin Chen's body. He finally stopped taking it after swallowing hundreds of top medicinal pills. The whole person turned into a stove, his face flushed, and his body burst out. With every auspicious atmosphere, every one

Aura contains amazing medicinal power.

When all this was done, Qin Chen began to mobilize the Nine-Star God Emperor Jue, and then drew the Spirit Array to absorb the power of the holy veins between the surrounding heaven and earth.

At this moment, the half of the venerable holy veins and countless high-grade holy master sacred veins are as if they were evaporated by the fire, frantically gathered towards Qin Chen, and were directly absorbed by Qin Chen into his body.

This speed of absorbing the holy energy of heaven and earth is a hundred times, thousand times, even ten thousand times stronger than ordinary warriors.

"what!"

Qin Chen let out a low growl, as strong as Qin Chen, and was also in pain at this time, and his muscles convulsed.

Because this medicinal power and the power of Saint Yuan are too strong, so powerful that even his body can easily resist it.

Rumble!

Qin Chen's body seemed to roar with thunder, the Book of Origin surged, various civilizations bloomed, and the breath of the venerable was permeated. Qin Chen transformed these medicinal powers and sacred essences into his own power, and quickly improved his own strength.

puff!

It was visible to the naked eye that Qin Chen's body was blood red, and even traces of blood ooze out in some places, and the whole person had become a \*\*\*\* person. If you don't hit the venerable, this kind of cultivation speed is death, the medicine and holy energy can't be quickly transformed into the holy yuan, and can only tear the body and meridian of the warrior. This is why many strong people are hitting the mark, once unsuccessful

, The reason for the decline of the cultivation base, so generally it cannot reach the critical point, and many people will not try to break through.

Like Ji Wuxue, Qingqiu Ziyi, and Liger Demon Lord, they have actually reached the pinnacle of the half-step venerable, but they have not rushed to the venerable realm, and even have to go to the battlefield of ten thousand races to experience.

Because, it is not a matter of course, once the impact fails, the damage to itself will be extremely huge.

And Qin Chen was doing such crazy things.

Even Qin Chen was sure that he could not break through to the realm of the venerable, but still did so, because he had no other way at the moment. He has just entered the Half-Step Venerable. He has never said that a person who has just entered the Half-Step Venerable can become the Venerable in an instant, unless it is like the Chaos Poison Venerable, who has obtained the opportunity to go against the sky and obtained the chaos. Fruit, but even so, it will

Leave huge hidden dangers and cause the foundation to be unstable.

What Qin Chen could do at this time was to frantically refine the power in his body.

A stream of blood shot out from his body, and Qin Chen's entire face was grim, really like a demon god.

Moreover, a trace of the Dark King's blood power in his body was also activated, making Qin Chen's face increasingly gloomy. When Chaos Poison Venerable and Qin Chen fled with him, Qin Chen did nothing

other than refine the formation flag. He just sat under the devil tree of the ten thousand worlds, and realized that the power of darkness, the power of darkness, can improve a strong person's actual power, in order to fight against Xidora, Qin Chen even used the power of darkness, so he will have the cold aura that shocked Chaos Poison Venerable.

As soon as the power of darkness came out, Qin Chen's unbearable medicinal power and Saint Yuan suddenly eased a lot and quickly integrated into his body.

A trace of blood spattered from Qin Chen's body.

"the host!"

Little Ants and Little Huo turned around anxiously, they could feel the harsh state in Qin Chen's body, and they were worried. Qin Chen snorted and waved his hand. Countless blood flew out of the formation and fell on Xiao Yi and Xiao Huo. He sneered, Xiao Yi and Xiao Huo immediately felt that they seemed to be on their bodies. Burning, and Qin Chen absorbed

Countless medicinal powers and the power of Saint Yuan also caused them to transform.

The moment the power of darkness was drawn, Qin Chen's eyes suddenly became pitch black, and the whole body exuded a palpitating dark aura.

The blood of the Dark King is too terrifying. At the beginning, Qin Chen exhausted his strength in the land of the sword tomb, and then restrained the power of the Dark King's blood. Now, actively activated, the terrible power of darkness will invade Qin Chen's mind in an instant. control.

"Huh, don't think about it."

Qin Chen roared, he had exhausted his mind at the beginning and restrained the blood of the Dark King. How could he be revived at this moment.

Hum!

A terrible flame of emptiness surged from Qin Chen's body, and this flame crazily wrapped around Qin Chen's body, actually refining Qin Chen.

At the same time, Qin Chen urged the Nine Star God Emperor Art, and a bright totem power appeared on Qin Chen's head and suppressed it.

In addition, the six sword bones in Qin Chen's body also glowed, and the flesh was as bright as glass and crystal clear like agate, the bones bloomed with a rainbow, and the blood was glowing, golden.

In the end, a ray of thunder light appeared in Qin Chen's body, like thunder, spreading all over Qin Chen's body, enabling Qin Chen to integrate the power of the Dark King's blood without being corroded by the Dark King's blood.

I don't know how long it took.

"boom!"

There was a tremor, Qin Chen felt his cultivation level improve rapidly, he had already touched the barrier heavily, but the barrier was too strong, and Qin Chen couldn't break it at all.

In the end, the endless sacred veins and medicinal power were completely integrated into Qin Chen's body. His eyes were pitch black, and his black hair was flying with the wind, Qin Chen stood up in the endless storm. Successfully break through the pinnacle of Half-Step Venerable!

### [Chapter 3707: Why didn't you run](#)

call!

Qin Chen's body was filled with cold aura surging, and the whole figure was like a demon god, extremely terrifying.

In the end, the endless power was restrained, and Qin Chen became restrained again, but inside his body, it was like a volcano about to erupt, surging with endless terrifying murderous intent.

Do everything, obey the fate!

Qin Chen's figure flickered, and suddenly appeared outside the Universe Good Fortune Jade Plate.

"Master, you finally figured it out."

Chaos Poison Sovereign was exhausted, almost vomiting blood.

He is too difficult. However, after he felt Qin Chen's breath, his face changed, because he could feel that Qin Chen seemed to have undergone a certain transformation, and his breath was surprisingly improved. He felt it too

Shocked.

"Master, did you break through?"

He said in shock.

wrong.

He carefully sensed the past and found that the aura on Qin Chen's body was still only the half-step noble state, but it seemed that he had reached the half-step noble peak, and there were still many gaps from the real noble state.

However, how could the aura of a nobleman be so terrifying that even he felt the slightest heart palpitations.

"Where are we?"

Qin Chenhan said, he could vaguely feel that Xidoruo was still tracking behind him, and he was getting closer.

"Master, we are currently in the most remote void ruins outside the Eastern Heaven Realm. When we go out, we will enter the chaos outside the Heaven Realm."

Chaos Poison Venerable said, the periphery of the four heavens is an infinite chaotic land, which is full of dangers. Even the Venerable cannot easily enter. If you want to leave the four heavens, there are specific areas and passages, so you can't simply leave. of.

Otherwise, the heavens are so vast, it is impossible for the human race to block them from invading the demons. It is precisely because of the vast chaos surrounding the four great heavens that the demons cannot enter.

"Then stop, you have a rest, here are a few pills, you can swallow them, you can replenish your physical strength, whether you live or die, in one move."

Qin Chen took out a pill bottle and threw it to Chaos Poison Venerable. At the same time, countless array flags appeared in his hand, quickly placed in the void, and he didn't even care to hide anything.

Qin Chen knew that Primordial Chaos Poison Venerable couldn't escape Xidoro's tracking at all. Only a deadly battle would have a ray of life.

The formation flags fell, and Chaos Poison Venerable quickly took the pill in his hand. Suddenly, a strong medicinal power permeated, and Chaos Poison Venerable was shocked to feel that the physical strength he had consumed quickly before was repaired at a speed visible to the naked eye, although it may not be able to recover to the peak before Xidoruo arrived.

But it can definitely recover more than 80 to 90%.

What kind of medicine is this?

Chaos Poison Venerable looked at Qin Chen in shock. It was clear that this pill had only been successfully refined, and he did not expect that the master was such a terrifying pill master.

Qin Chen quickly arranged the formations, before he had finished all the formations.

boom!

In the distance, an empty black hole emerged, and amidst the rumbling roar, a magnificent figure descended.

It was Xidoro who had followed Qin Chen for two days and two nights.

"Boy, why don't you run away? Humph, really let the deity chase after."

Xidoro looked at Qin Chen and the others with eagle eyes, a lot of anger emerged in his heart.

For these two days and two nights, he didn't rest at all. In order to prevent Qin Chen and the others from escaping, he always used the Star Eyes to track Qin Chen's position.

Except when he was on the battlefield of ten thousand races, when did he struggle so hard?

These two guys are gophers, and they are a little too cunning. But he was also fortunate that this was the Eastern Heaven Realm, and there were no secrets and forbidden places that he feared. It was a place like the battlefield of tens of thousands of races, and there were danger-ridden areas everywhere. If Qin Chen could just find someone who could kill the Venerable Forbidden

Go, he really may not dare to break in at will.

"Why don't you run away? Go out again, it will be the chaotic ruins in the heavens. Just the two of you, as soon as you go out, you will wait for your body to be broken."

Xidoruo snorted, his eyes fell on Qin Chen, and he was startled, "How did your aura improve a lot? Did you break through?"

Xidoruo was taken aback. Compared with the time when he was in Guanghan Mansion, Qin Chen's aura has become much colder, and it has also improved a lot. He watched carefully, and he reached the peak of the half-step Venerable. realm.

This is only two days and two nights?

In Xidoruo's view, Venerable Half-Step was not enough, but Qin Chen was able to use the two days and nights to reach the peak of Venerable Half-Step, which shocked him.

If Qin Chen was given some more time, wouldn't this kid want to become a venerable?

Xidoruo's heart was instantly chilled.

With the terrifying strength that Qin Chen showed in Guanghan Mansion before, if he really allows him to break through to the realm of venerable, it is not certain whether he can hold it.

"Boy, die for me." Thinking of this, Xidoro couldn't care about nonsense anymore. Boom, directly above his head, a visual map of the great gods and demon stars appeared, and a terrible black hole bloomed, and the whole figure turned into Like a black hole, he madly bombarded Qin Chen

Come.

"Dazhen, get up!"

Qin Chen didn't mean nonsense, and instantly spurred the surrounding large formations, booming, and immediately, terrible arrays of light filled the world, turning into a terrible rainbow, erupting endless killing intent.

At the same time, a mysterious rust sword appeared in Qin Chen's hand, hum, a cold breath bloomed from the mysterious rust sword, and he slashed madly at Xidoro.

In addition, the emptiness of flames spread out, and with a bang, it turned into a vast ocean and rushed to Xidoro's body. In fact, after Qin Chen saw the power of the terrifying powerhouse in the mysterious rust sword in the sword mound, he had also transmitted a sound into the mysterious rust sword before, trying to get this mysterious master to take action, only after the trip to the sword mound, this mysterious The cold and strong in the rust sword

It was as if he had fallen into a deep sleep and couldn't wake up at all, which made Qin Chen so embarrassed.

Moreover, this powerful person must have a physical body occupied by him, just like the stone statue of an ancient master master in the sword mound, otherwise he can only seize Qin Chen, and Qin Chen has no physical body for the opponent to occupy.

Otherwise, relying on the strength of that strong man, he would not be afraid of Xidoro at all.

"Hmph!" Xidoruo snorted coldly. He knew Qin Chen's methods. Qin Chen made the move. The black hole on his body was instantly introverted. It turned into a pitch-black war spear, slashed out with violence, and visualized the billowing \*\*\*\* and demon star. The power of the picture envelopes himself, not to Qin Chen

Opportunity for sneak attack. In his impression, Qin Chen's most powerful thing was that the Void Flame attack could hurt him, and other attacks were not to be feared at all.

### [Chapter 3708: Hesitate](#)

But as soon as his pitch-black war spear turned out, he felt that something was wrong, because the countless void flames released by Qin Chen didn't blast at him at all, but blasted at his whole body, fusing with that formation.

And that terrifying formation was not an attack formation, but it brought up a killing force in the surrounding hundreds of miles, forming a killing force vortex.

The murderous vortex was full of the destruction of the terrifying void flames, and at the same time, there was endless sword intent surging, Qin Chen split out with a sword, and the sword light turned into an invisible sword formation, sealing the world.

"What is this kid going to do?" Xidoruo's eyes instantly condensed. What was Qin Chen's purpose for doing this? Although this kid's attacks such as the void flames are terrifying, but now he has a visualization of the big gods and devil stars, which can't break his defenses at all.

The law breaks the defense, even if you trap him, what can you do?

With his strength, he could easily break through this prison and kill him.

"Huh, inexplicable."

He sneered, ignoring Qin Chen's attack at all, the black war spear with a stream of destruction, to penetrate everything that Qin Chen blasted out, and then nail Qin Chen into the void and bring it directly back to the Star God Palace.

boom! The black war spear skyrocketed, and Xidoro looked confident, but when his black war spear entered Qin Chen's 100-mile range, a strange totem power suddenly surged out of Qin Chen's body, this totem. Power, incomparably clear

Clear, turned into a huge totem light, and instantly enveloped his pitch-black war spear.

"This is... the mighty supernatural power in the void?"

Xidoruo was taken aback. He naturally saw the scene of the ancestor of the demon corpse chasing and killing Qin Chen and then being beheaded by the mighty power in the virtual sea. The power of that totem made his heart palpitations, but he never expected Qin Chen to be Can also display these totem magical powers.

Although Qin Chen's totem power was much weaker than that mighty magical power, the meaning of this represented made Xidoro chill all over.

Although the power of this totem is weak, the breath that it exudes made him feel heart trembling. What kind of supernatural power is this?

Shocked in his heart, Xidoro's war spear did not stop halfway, with a hundred-foot-long black light piercing the gathered murderous vortex, and at the same time he knew that Qin Chen was staying here to wait for him. This was going to fight him desperately. Up.

"Many arm as a car!"

Xidoro snorted coldly. He admitted that Qin Chen's strength was extremely terrifying, even more enchanting than enchanting, but the level difference was here, he did not believe that Qin Chen would be his opponent.

boom! On the battle spear in Xidoro's hand, a terrifying black light bloomed, and with a pop, it penetrated the power of the totem displayed by Qin Chen, crunching, and the power of the totem made a piercing roar, even though the power of this totem Very weak, but hope

Doro has the illusion of being stuck in the mud.

His heart became more and more alarmed. Fortunately, Qin Chen never broke through the Venerable. If the other party is really the Venerable, and then use this totem power, he can't even imagine whether he can break through.

But now, it is not enough.

Xidoruo sneered. Although the war spear in his hand seemed to have penetrated into a solid object and was bound by the surging space pressure, it was still pierced a little bit, gradually approaching Qin Chen. The Great God and Demon visualizes the vastness of the stars, and the breath that it emits shocks the universe, and transforms into a \*\*\*\* and devil, staring at the Chaos Poison Venerable, without giving the Chaos Poison Venerable a chance at all. As long as Qin Chen is captured, the Chaos Poison Venerable is Venerable, Cho Gen

This doesn't matter.

Just when Xidoro's war spear was about to stab Qin Chen, Qin Chen suddenly snorted and banged. In his body, a series of terrifying black tentacles burst out, as fast as lightning, and instantly moved towards Xi. Doro burst out.

boom! Each black tentacles surging through the sky and destroying the universe, the infinite magic light flickers above, the original aura of the demon surging, and with a cold power, penetrates the infinite void, instantly Crashed and landed on Xidoro

Above the visual map of the big gods and devil stars.

Cang Dang!

The vision of the Great God and Demon Star displayed by Xidoruo trembled violently, and there was a feeling that he should not explode.

"What the \*\*\*\* is this?"

Xidoro was shocked, from the black tentacles, he felt a strong heart palpitations, and a strong atmosphere of demons.

"Is it a treasure of the Demon Race? Why is there a breath of darkness?"

Xidoro was extremely frightened. The Demon Tree of the Ten Thousand Worlds is not only the treasure of the Demon Race. After absorbing the blood of the Dark King, it also brings a trace of the Dark Race aura. To block the Devil Tree of Ten Thousand Realms.

The aura of the dark royal family is a huge harm to the heavens of the heavens, is a heresy, and must be rejected.

"You really are in collusion with the Demon Race." Xidoruo stared at Qin Chen in anger. At this moment, he was sure that Qin Chen and the Demon Race were in collusion. Otherwise, how could Qin Chen possess the treasure of the Demon Race and even motivate the demon. The treasure of the race, at least, he has never heard of it. The master of the race can spur

The treasure of the demons.

"Nebula storm!" Xidoro yelled, and in an instant, countless little stars appeared in his body, which turned out to be stars, condensed into the size of a fist, countless stars, reduced, and then turned into a piece The mighty nebula, suspended in Greece

Doro's side.

This is the treasure he has condensed through countless years on the battlefield of ten thousand races. A total of nine hundred and ninety-nine stars are condensed, forming a terrible nebula storm. It is his assassin, enough to withstand all attacks.

"boom!"

The terrifying stars bloomed with infinite star power, and actually resisted the invasion of the Devil Tree of Ten Thousand Realms.

"Boy, you are in collusion with the Demon Race, and you don't let me go to the Star God Palace. Please explain clearly."

Xidoruo laughed, his eyes blazing, if he had figured out the secret of Qin Chen's power in the cultivation of the demon and obtained the treasures of Qin Chen, he would not even dare to imagine how far he would rise.

There is also the power of the \*\*\*\* emperor totem, the void flame, and every treasure is enough to make him mad.

"Master!" Chaos Poison Venerable yelled and killed him frantically. However, Xidoro drove the nebula storm, and countless stars rotated, and Chaos Poison Venerable could not kill at all. Although his chaotic power was terrifying, his realm was more Xidoro is so bad, there is no

The true power of Fa to exert the power of chaos can only be blocked by the outside world.

"Is it clear?"

Qin Chen's eyes were crazy, and at this moment, he suddenly aroused the blood of the Dark King in his body.

Suddenly, Qin Chen's eyes became pitch black, and the power of darkness exploded, and Qin Chen's strength increased at an astonishing speed.

"The power of darkness, you have the power of darkness in your cultivation?"

Xidoro exasperated.

"Boom!"

But when the power of darkness on Qin Chen's body appeared, Heavenly Dao shook violently, and it seemed that there was a slight hesitation, not knowing whether to suppress Qin Chen. Heaven is hesitating!

#### [Chapter 3709: Fall short](#)

According to the truth, the way of heaven is extremely repulsive to the power of darkness, and they are inherently two powers, opposing each other, and there should be no hesitation.

But the actual situation now is that Heaven is hesitating whether to suppress Qin Chen.

What's happening here?

"The Devil Tree of Ten Thousand Realms, destroy it for me!" Qin Chen did not change in the unexpected realm. At this moment, he did not have time to think about it. He directly let out a fierce roar, and the power of the thunder in his body also surged, crackling, this thunder of thunder Power is the force that restrains the darkness in your body

Use, but when the power of thunder emerged, Tiandao finally retreated and no longer suppressed Qin Chen.

And the Ten Thousand Worlds Demon Tree, blessed by the power of darkness, its aura skyrocketed, and its tentacles surged in an instant, bursting out.

"Don't think about it."

Xidoro roared, the nebula storm urged to the extreme, turning into a vast ocean, splashing water did not enter, there were no loopholes, even the magic tree of the ten thousand worlds could not penetrate.

The nine hundred and ninety-nine star cores, the refined nebula storm, and the terrifying array formed under the power of the black hole venerable, are so powerful that they can't be broken open, as if even the void is sealed together.

"Time rules!"

At this critical moment, Qin Chen suddenly screamed, hum, in his mind, the origin of time suddenly moved, a force of the origin of time diffused out in an instant, and was urged to the maximum by Qin Chen.

In an instant, the world seemed to have stagnated.

Everything in the void was solidified, and the nine hundred and ninety-nine star cores that crazily rotated and turned into nebula vortexes were all stuck in the air.

Xidoruo's eyes widened, feeling the terrifying power of time emanating from Qin Chen's body in anger, and his heart screamed in anger. It was the origin of time, and there was a treasure like the origin of time in this kid. With the strength that Venerable Qin Chen does not reach, even if he masters the rules of time, it is impossible to freeze the time around him, the peak powerhouse, but the origin of time is different. It was born from the chaos when the same heaven was born. A trace of

The origin can be said to be a trace of the origin left by the time rules of the heavens.

This thread of origin only needs enough strength to freeze all time.

At this moment, between the world and the earth, all time has stagnated. Xidoruo can clearly perceive everything and his thoughts can move, but he can't move at all. He can only madly stimulate the power of the black hole in his body to break through the constraints of the origin of this time.

puff!

In just a breath of time, Xidoruo broke through the shackles of Qin Chen's origin of time, booming, the time that was originally still, passing by again.

The opposite Qin Chen spit out a mouthful of blood, his face was pale, even if he urged the origin of time, he could only confine the breath of such masters as Xidoruo.

However, if the strong fight against each other, the difference can be thousands of miles away, and life and death can be decided in an instant.

Boom boom boom...

In that breath of stagnant time, the sky full of tentacles bursting out of Qin Chen's body finally penetrated the nebula storm formed by the nine hundred and ninety-nine stars, and came to Xidoro in a flash.

"The big \*\*\*\* and devil star visualization map, block it for me!"

Xidoruo roared with ferocious eyes, and a towering phantom stood on top of his head, suppressed, to resist the tentacle invasion of the Demon Tree of Ten Thousand Worlds.

"Hahaha, break it for me!"

Qin Chen also knew that at the most critical moment, he spit out blood and sprayed it directly on the Ten Thousand Realms Demon Tree. The power of the dark royal family's blood was instantly moved to the extreme.

"Ah!" Qin Chen roared, his eyes dark, his mind rumbled, and the blood of the Dark King almost broke his soul. If it weren't for the suppression of the Heavenly Soul Forbidden Technique, he would have been fascinated, but the Dark King's blood Power, but it also makes ten thousand world demons

The power of the tentacles shot by the tree burst instantly increased.

Puff puff! The black tentacles, lingering with the black dark aura, collided with the phantom of the \*\*\*\* and devil formed by the visualization of the big \*\*\*\* and devil star, and instantly penetrated the phantom of the \*\*\*\* and devil, and then rooted in Xido. Luo, and want to pierce him

body.

"Impossible, you are only a half-step venerable, even if you have the power of darkness, it is impossible to penetrate my vision of the gods and demons!"

Xidoro roared, his eyes rounded, revealing endless disbelief and anger.

He has experienced many confrontations with demons in the battlefield of ten thousand races all the year round, and the power of darkness is not unknown.

It is true that the power of darkness can greatly enhance the strength of the demons and any race, but it is by no means omnipotent. In the face of an absolute difference in cultivation level, it is also powerless.

But he couldn't think of how the power of darkness that Qin Chen displayed could penetrate the power of his vision of the gods and demons, which made him not surprised.

Qin Chen's face was ferocious, he laughed wildly, and the corners of his mouth were overflowing with blood.

If it were ordinary power of darkness, it would indeed not be able to harm Xidoruo, but the power of darkness on his body, but the ancestor of the Heavenly Sword Pavilion used the power of the entire Heavenly Sword Pavilion to seal the power of the dark royal family for countless years.

What is the strength of the ancestor of the Heavenly Sword Pavilion? Even such a powerful person will consume his own life and life, but the dark royal family that is suppressed can compare with ordinary darkness?

Puff puff!

The black tentacles instantly wrapped Xidoro, and then began to frantically devour the power of Xidoro.

boom!

A stream of the power of the venerable representing the peak of the human sage, along the black tentacles, slowly entered into the Ten Thousand Worlds Demon Tree, and through the Ten Thousand Worlds Demon Tree, entered Qin Chen's body.

"Boy, do you think this will trap me?"

Xidoro's eyes were crazy, hum, in his body, the light of black holes surged out, and the whole person was about to turn into a black hole and swallow it in the opposite direction.

Rumble!

Moreover, nine hundred and ninety-nine stars revolve crazily, turning into a terrifying star force field, blocking the world, crushing everything, and exploding the magic tree of the ten thousand worlds.

"Humph."

Qin Chen's expression was also hideous. At this point, if Xidoruo succeeded in being swallowed in the opposite direction, then he would be completely defeated.

The two swallowed each other crazily, all kinds of \*\*\*\* patterns flickered, and the entire sky roared, and there was a feeling of evenly matched.

"Damn it."

Qin Chen was crazy, his eyes were dark, and at the same time he was maddened with blood red. At this moment, under the continuous urging of the blood of the Dark King, he had already suffered an extremely strong backlash, dizzy in his mind, and his soul came. The sense of tearing.

But at this moment, there is no room for him to turn around. Either Hido died or he died.

"Master, I will help you."

Not far away, Chaos Poison Venerable drank coldly, blasted, and killed him, but his attack was unable to penetrate the 999 nebula storms at all, and could only bring some trouble to Xidoro, but could not reverse the battle. He has the power of chaos, but he can't display it, and he is extremely unwilling.

[Chapter 3710: I don't believe it](#)

Rumble!

Between the sky and the earth, countless stars collided with the dark power of darkness, and Qin Chen and Xidoruo were frantically trying to kill each other. Gradually, the aura on Qin Chen's body became gloomy and cold, and his mind rumbled. Although he had already suppressed the blood of the King of Darkness after he had cultivated the sword body of six reincarnations, but as he activated the blood of the King of Darkness The longer,

The more he was bitten by the blood of the Dark King.

In the end, it may even be shrouded and assimilated by the power of darkness again.

"Hahaha, kid, you can't hold on anymore, right?"

Xidoro laughed, blood was flowing across his body, and he was also embarrassed, but he was also clenching his teeth and holding on, the stars flickered, and he was fighting hard.

The two sides are in a stalemate.

"Can't you kill the opponent like this?"

Qin Chen was crazy.

"I don't believe it anymore."

boom!

Qin Chen aroused the blood of thunder in his body.

Click!

I saw the shocking thunder light surging, this piece of emptiness was like a sea of thunder, and the infinite thunder light swept toward Xidoruo with the emptiness flame.

"The power of thunder? Hahaha, boy, are you all right? At this level of this seat, even the heavens can't suppress it. What is the power of thunder?" Xidoruo sneered, thunder, although it is Zhiyangzhi The power of Gang can suppress all evils, even the main power of the Thunder Tribulation, but that is only for the masters below the venerable. At his level, ordinary Thunder power has no power at all.

Fa broke through his defenses, let alone hurt him.

However, he also wondered that Qin Chen obviously possessed the power of darkness, and actually also possessed the power of thunder. Normally, these two powers are completely opposite, and it is difficult to survive at the same time.

The endless thunder light poured out, merged with the flames of nothingness, and instantly descended on Xidora.

laugh! An unbelievable scene happened, Xidoruo unexpectedly burst into blue smoke, pure void flames and the power of thunder can hardly hurt him, but when these two powers merged, these two powers , Burned instantly

Xidoro.

effective!

Qin Chen was immediately ecstatic.

"Impossible." And Xidoro roared in rage, so incredibly angry, the light of stars and the terrible black hole flashed wildly on him, and he wanted to resist this force. What kind of thunder is this? ? Actually hurt his body, and

, With a supreme aura, made Xidoro feel shocked.

If it wasn't for Qin Chen's cultivation base to be too weak, otherwise this thunderous force alone would be enough to hurt him.

How many hole cards does this kid have?

Xidoro was going crazy.

He had never imagined that the Half-Step Venerable of a Human Race would be so difficult to kill, even those Demon Venerables of the Demon Race on the battlefield of the Ten Thousand Races, they were not as tricky as Qin Chen.

"Come again!"

Seeing that the power of thunder worked, Qin Chen also tried his best, releasing the strange spirit insects such as the little ants and the little fire from the jade disc of good fortune in the universe.

Isn't Xidoruo strong in defense? Nebula storms resist everything, and the power of the black hole is extremely terrifying, and the little ants and the little fire both have the ability to swallow all the souls of the world. The big deal is if everyone is better than others.

"Boss, you finally released us, we are all in a hurry."

As soon as the little ants and the small fire came out, they buzzed and screamed. They looked anxiously in the jade plate of the Universe Good Fortune. Once Qin Chen died, they would not be able to live. They were already anxious like ants on a hot pot. .

Now Qin Chen released them, and immediately took countless troops, shouting: "Brothers, follow me, and teach this \*\*\*\* for the boss."

Buzzing!

The sky-eater ants and fire-refining worms spread all over the sky, really like dense locusts, and instantly wrapped Xidolo tightly.

Click! Click!

Little Ant and Little Huo brought countless people, madly biting the power of the black hole on Xidoro's body, the power of the big \*\*\*\* and demon's star visualization, and the power of the nebula storm.

"What the \*\*\*\* is this?" Xidoruo was going crazy, Qin Chen's trump cards were almost endless, and he could feel that these little things were actually devouring the power of the nobleman he released, even though the speed of swallowing them It's very slow, but dripping through the stone, I've been eating like this

, It will inevitably bring him huge trouble.

The embankment of a thousand miles was destroyed in an ant nest!

In the battle, no detail can be ignored.

"Kill me!"

boom!

Xidoro roared, the power of the Venerable in his body surged wildly, and the light of the infinite black hole shot on the densely packed gas-eater ants and fire-refining insects.

puff!

Suddenly, thousands of air-eating ants and fire-refining worms fell down in an instant, falling down like layers of ashes, then dissipating into nothingness.

Every moment, a large number of strange spirit worms die. However, the number of small ants and small fires is really too many, it is almost infinite, they are constantly gnawing, and some of the gas-eater ants and fire-refining worms are suddenly blown up and destroyed. , But there are more

Air-eater ants and fire-refining insects surrounded them.

"Give me to eat, eat hard, and you can't stop eating until you die. It's time to fight for the boss, otherwise, what is the difference between us and the rice bucket."

Little Ant and Little Huo roared, click, they bit on the light of the black hole heavily, and suddenly the light of the black hole was swallowed up.

"good chance."

Chaos Poison Sovereign seized the opportunity, blasted, and instantly blasted out a chaotic force, and that chaotic force smashed into Xidoro's body instantly through the gap that was gnawed by the little ants and little fire.

puff!

Xidoro spit out a mouthful of blood on the spot, mad with anger, wishing to smash the corpse of Chaos Poison Venerable, but he was just about to make a move, and the swallowing power of the Devil Tree of the Ten Thousand Worlds made him unmovable and could only resist fiercely.

Fear finally emerged in Xidoro's heart. When he was fighting Qin Chen alone before, he could still have the upper hand, but now, countless attacks fell on him, instantly causing him to fall into a dilemma.

He felt that the power in his body was fading quickly, some of them were swallowed by the Devil Tree of the Ten Thousand Worlds, and some were swallowed by the dense air-eater ants and fire worms. Moreover, after swallowing the power of Xidoro, the surviving air-chewing ants and fire-refining insects also seemed to adapt to the aura of the venerable person at the peak of Xidoro, and the light of stars and black holes emerged from their bodies. Become fearless

Luo's power is gone.

Xidoro finally panicked.

On the contrary, excitement emerged in Qin Chen's heart.

Just when Qin Chen was excited and joyful, his face suddenly changed.

boom! The sky in the distance suddenly boiled, and in Qin Chen's perception, an extremely terrifying aura was quickly approaching here, approaching the battlefield between him and Xidoro.
