Chapter 371 Spirit Power Breakthrough

The first pill pavilion was happily, and the Wucheng Zhu family was depressed at this time.

"This **** guy actually made a third-rank Chongxuan Pill and Condensed Pill. This time, he made a lot of money."

Zhu Hongjun flushed with anger and trembled all over.

"It seems that the origin of this child is really not simple, and I heard that he has actually refined the fourth-grade Qingxin Pill for the Blood Eagle Crazy Blade, which is really unexpected."

Zhu Hongzhi, the owner of the Zhu family, also had a solemn expression.

"Big brother, what should we do now? How about going directly to the door? No matter what his origins." Zhu Hongjun gritted his teeth.

"Not right!" Zhu Hongzhi shook his head.

"Then do we just forget it?"

Liu Ge was destroyed, Wu Liangyu was killed, their Zhu family ever suffered such a loss?

"Second brother, don't worry." Zhu Hongzhi sneered: "Even if we want to forget, the other major forces will probably not give up."

"Big brother, what do you mean?"

Zhu Hongzhi sneered, "Second brother, think about it, that kid, how many high-end materials and how many silver coins have been received today? There is a lot of this high-end material business, which has been monopolized by the Tianxing Chamber of Commerce. Now this kid Almost half of the business of the Star Chamber of Commerce was taken away. What do you think the Star Chamber of Commerce will do?"

"Big brother, do you mean to let them bite the dog?" Zhu Hongjun's eyes lit up.

Zhu Hongzhi sneered: "The Sky Star Chamber of Commerce is only one of them. The kid made such a big disturbance. Although it made many warriors in Wucheng cheaper, it was not just our Zhu family and the Tianxing Chamber of Commerce, but the whole Wucheng. , I don't know how many families and forces have been robbed of business by this kid. It's strange to be happy. Just watch it. It won't be long before this kid will be unlucky."

"Hey, big brother is smart."

Zhu Hongjun smiled coldly.

At this time, the Star Chamber of Commerce.

The atmosphere was very solemn, and a group of extraordinary people sat together, and the leader was the old man who said Qin Chen was very interesting.

"President, if this continues, the First Pill Pavilion will probably acquire all the high-end materials in Wucheng."

"If this continues, how will our Sky Star Chamber of Commerce do business in the future?"

"Yes, President, it's time to think of a way."

A senior member of the famous chamber of commerce, all looking anxious, said anxiously to the old man.

"Don't worry, everyone." The old man waved his hand, his expression calm.

Everyone below is almost crying. When is this, the guild leader is still so calm, burning eyebrows.

咚咚咚!

At this time, the middle-aged steward of the Tianxing Chamber of Commerce knocked on the door.

"What did Master Zhai Xu say?"

The old man opened his eyes and shot two sharp glows instantly.

"Returning to the chairman, Master Zhai Xu said that the pill we got today, which took no more than a day to refine, is indeed freshly refined." The middle-aged manager respectfully said.

"So, did that young man or someone behind him refine it?"

The old man had deep eyes and laughed: "It's really interesting."

Below, many senior executives of the Sky Star Chamber of Commerce looked at the old man speechlessly.

President, is this crazy? Our Star Chamber of Commerce is about to be pryed at the corner, and it is still interesting...

In the first pill pavilion, Qin Chen recovered his mental strength after resting for a full hour.

"There is less dust, this is the pill that the major powers in Wucheng need to customize."

Xu Xiong came up and took out the registration form.

"Wait, I'll look back, you put it here first, don't let anyone disturb me."

"Yes."

Xu Xiong retired respectfully.

Qin Chen sorted the materials in the storage ring, and looked at the hundreds of high-level materials inside, his face showed ecstasy.

After two days of acquisition, the main materials of Tier 4 Heart Lotus Pill were finally acquired. In addition, there were many unexpected gains.

"First refine the Heavenly Soul Pill."

Without hesitation, Qin Chen refined the pill on the spot.

The fire was ignited, and the strong high temperature filled the alchemy room, and various materials were poured into the alchemy furnace.

Heavenly Soul Pill is the simpler one of the four-rank pill. Although Qin Chen's mental power is only the third-tier peak, with the rich experience of his previous life, he has no difficulty in refining the Heavenly Soul Pill.

Half an hour later, a furnace of Heavenly Soul Pill had already appeared in his hand.

Sitting cross-legged, Qin Chen directly swallowed the first Fourth Stage Heavenly Soul Pill.

Heavenly Soul Pill, the whole body is pitch black, with weird patterns outlined on it, like a magic crystal, exuding the breath of heart palpitations.

But as soon as the Tianhun Pill entered the abdomen, a cold mental power filled it.

Qin Chen immediately urged Wan Shen Jue to bring a large amount of cold mental power into his mind.

Zi Zi Zi!

The cold mental power seemed to have encountered the ant in the oil pan, and it was quickly twisted, and then the powerful mental power was integrated into the soul of the mind.

On the soul sea, the waves are surging and full of vastness.

"Refining!"

Qin Chen urged the Ten Thousand Gods Art, the spiritual power of his third-tier peak instantly turned into an invisible whirlpool, twisting frantically, instantly integrating this spiritual power into the soul sea, and strengthening himself.

Unwilling to become a prey, this gloomy mental power tried to rush out of Qin Chen's soul sea.

At the same time, the cold mental power in the whole pill exploded at the same time, trying to destroy the **** of Qin Chen's soul sea.

Buzzing!

But under Qin Chen's powerful soul power, this cold mental power was unable to make effective resistance at all, and was instantly absorbed and became a part of Qin Chen's spiritual power.

It was obvious to the naked eye that Qin Chen's mental power had obviously improved a lot.

But it is not enough to break through.

Qin Chen took the second Heavenly Soul Pill again.

Within a moment, the second Heavenly Soul Pill was also refined.

Immediately after.

The third one.

The fourth one.

Fifth...

Qin Chen's mental power continued to grow.

When it came to the eighth, Qin Chen's mental power had reached a limit.

A sharp light flashed in his eyes, and Qin Chen was about to swallow the remaining four Heavenly Soul Pills at the same time.

boom!

A large amount of mental power was integrated into Qin Chen's mind at the same time, and Qin Chen's soul sea fluctuated violently, and a large amount of mental power crazily condensed like a huge storm on the dark sea.

These mental powers, constantly condensed together, eventually formed a transparent sword-like body, suspended in the sea of soul.

From the aura of emptiness to the sword-shaped mental power that almost turned into substance, although Qin Chen's mental power volume was reduced by 99%, its strength was more than doubled.

Huh!

Opening his eyes, a shocking sharp light shot out like an electric light.

"My mental power has finally broken through Tier 4."

Slowly exhaling a suffocating breath, Qin Chen's mouth formed a smile.

The temperament of the whole person has become completely different.

Chapter 372

"Although mental power is closely related to cultivation base, in fact, attachment is not cultivation base, but physical and soul strength. It should be equivalent to a carrier between physical body and soul power."

"My cultivation level, although it is only the mid-term peak of the Heavenly Rank, but after practicing the Immortal Eucharist, my physical strength has already reached Tier 4, which is stronger than most Xuan Rank martial artists. There is no barrier at all to break through Tier 4."

Qin Chen's eyes were gleaming, and the corner of his mouth was smiling.

Under normal circumstances, the mental power of the alchemist is completely controlled by the cultivation base.

For example, a third-order heavenly martial artist can only reach the third-order with the highest mental power. It is almost impossible to break through the fourth-order.

Not only the five northwestern countries, even in the Martial Domain, the spiritual power can surpass the level of cultivation, there is no one in the world.

But Qin Chen broke this shackle abruptly.

In his previous life, he was only an eighth-level martial emperor, and he could become a ninth-rank emperor-level pharmacist because of this.

"Mental power breaks through Tier 4, and I am now fully confident enough to refine the Heart Lotus Pill."

Qin Chen was confident.

The heart lotus pill is one of the four grades of pill that is more difficult to refine. The entire refining process is very complicated, and every step requires strong control.

Qin Chen didn't refine it before, not only because of the scarcity of materials, but also because of lack of complete assurance.

After all, there is only one colorful heart lotus, once the refining fails, then there is no second chance.

But now, Qin Chen had enough confidence.

After adjusting the state, Qin Chen immediately began refining.

Half an hour later, a strong medicinal fragrance filled the entire refining room.

"What kind of medicine is this?"

"It's so fragrant?"

"The true energy in my body is just about to move?"

This medicinal fragrance was too strong, and it spread from a distance, making Xu Xiong and others shocked.

Having been here for so long, it was the first time they smelled such a strong medicinal fragrance from the refining room. What made them even more surprised was that just by smelling the medicinal fragrance, they had a faint breakthrough in their cultivation. a feeling of.

It's just that this medicinal fragrance comes quickly, and it goes quickly. Before they can realize how much, it has disappeared completely, and it seems that it has never appeared.

However, the true energy surging in the body showed them that the fragrance just now was not fake.

One by one quickly sat cross-legged and started practicing, for fear of losing the sense of breakthrough.

In the refining room.

Looking at the colorful pills in his hand, Qin Chen also sat cross-legged, and began to operate the Nine Star God Emperor Art.

Again.

Twice.

Three times...

After nearly two hours, Qin Chen felt that his state had been adjusted to the best, so he quickly took out a heart lotus pill and swallowed it down.

boom!

As soon as the colorful heart lotus pills entered, a strong medicinal power was released in his body. The powerful medicinal power was like a river, flowing continuously in his body, and began to spread over his limbs.

This power, starting from the Dantian, gradually penetrated into the twelve meridians in his body, and transformed his physical body, condensing the true energy in his body.

Qin Chen knew very well that any breakthrough in any realm was the beginning of the meridian transformation. When all his twelve meridians were transformed by the heart lotus pills, it was the time for breakthrough.

At the same time, the medicinal effect of the Heart Lotus Pill was also rapidly condensing the zhen qi in Qin Chen's body, the already very restrained zhen qi, under the effect of the Heart Lotus Pill, continued to compress and continue to improve.

With the passage of time, the medicinal power of the Heart Lotus Pill gradually weakened.

After an hour, the medicinal power of the Heart Lotus Pill was about to disappear completely, but the zhenqi in his body still didn't feel like a breakthrough.

"what happened?"

Qin Chen frowned.

According to the truth, the medicinal power of a heart lotus pill is enough for any mid-level martial artist to make a breakthrough, and there will be no shortage of medicinal power. What's more, his heart lotus pill is still top-grade, let alone such a situation. .

You know, the heart lotus pill is a fourth-grade high-quality pill. In terms of efficacy, it completely surpasses the Chongxuan Pill and the Condensing Pill, and it is enough for the Xuan-level martial artist to make a breakthrough.

But now, after taking a heart lotus pill, he could not even break through a small level of the heavenly level.

"The Immortal Saint Body and the Nine-Star God Emperor Art that I cultivated are extremely heaven-defying techniques, making my physical strength and true energy in my body far superior to ordinary martial artists, even among ordinary Xuan-level martial artists. Above, it seems that the required energy is completely insufficient for a single heart lotus pill."

Qin Chen smiled bitterly.

His cultivation technique is extremely strong, which makes his cultivation far beyond ordinary martial artists, but also makes his breakthrough more difficult.

Otherwise, based on his knowledge of refining medicine, if ordinary pill is effective, now his cultivation base is far more than that of heavenly level.

With deep thoughts, Qin Chen took another heart lotus pill again.

Not long after, the medicinal effect of the second Heart Lotus Pill was also about to disappear.

The third one.

The fourth one.

The fifth one.

After taking the sixth heart lotus pill, the true energy in Qin Chen finally condensed to the extreme.

Boo!

As if something had been broken, a terrifying aura was released from Qin Chen's body.

"Finally broke through the late heavenly stage."

Qin Chen was overjoyed.

After working hard for so long, his cultivation level finally broke through again.

At the same time, a hungry feeling came, and Qin Chen felt that his whole body was in urgent need of a lot of true energy.

Qin Chen knew that this was the evolution of his own body that consumed a lot of energy and had not received timely replenishment.

For ordinary warriors, this may be a big problem, but for Qin Chen, it is nothing at all.

While running the Nine Star God Emperor Jue, he quickly took out the pill to replenish the true qi, swallowed it down, and at the same time appeared pieces of real stone in his hand for refining.

A large amount of true energy gathered in his body, transforming his physical body and strengthening his meridians.

In the past two hours, Qin Chen felt that the true energy in his body was finally absorbed to the limit and stopped.

Opening his eyes, an astonishing cold light burst out from it.

Standing up, the surging power of the whole body caused the air in the alchemy room to vibrate faintly.

"At the peak of the late heavenly rank, I actually broke through to the peak of the late heavenly rank!"

Feeling the strong power in his body, Qin Chen couldn't help but utter a surprise.

This result was something he hadn't expected before. But after counting the things he consumed, Qin Chen smiled bitterly.

In just half a night, he actually absorbed nearly a hundred low-grade real stones.

Can not help but stunned secretly.

Nearly a hundred low-grade real stones, just in terms of value, no less than ten million, not to mention that this is still a real stone with no market.

In addition, he also took a lot of pills and six heart lotus pills.

Breaking through the first level, the treasures consumed are enough to bankrupt a wealthy kingdom.

Chapter 373

This is just a breakthrough from the peak of the middle stage of the sky to the late stage of the sky. In this way, how many treasures will it consume to break from the late stage of the sky to the profound stage?

If it spreads out, everyone will be stunned and half-dead.

Qin Chen also smiled bitterly.

The nine-star divine emperor tactics and the immortal sacrament that he cultivated were strong or strong, but the resources consumed were amazing.

However, Qin Chen was quite satisfied when he thought of his strength from the mid-day peak of the heavenly rank, to the peak of the late heavenly rank in one fell swoop.

To Qin Chen now, any treasure is not as important as increased strength.

After the breakthrough in his cultivation, Qin Chen did not rush to leave, and began to quickly use his true energy after the breakthrough to get rid of the Hundred Ghosts curse in his mind.

Hum!

The powerful Nine Star God Emperor Jue's zhenqi circulated quickly in his body, touching the black curse power.

Sure enough, after the zhenqi breakthrough, the zhenqi, which had no effect on the power of the black curse, became stronger again and began to consume the power above.

However, when it was worn down to a certain level, the black curse power also found a way to fight the true energy of the Nine Star God Emperor Jue, and then the two sides would pay to restore the balance.

"call!"

"It seems that if you don't break through the profound level, you can make your true qi break through to true power. No matter how much you increase, you can't completely remove the power of the curse of the hundred ghosts."

Although this result had long been expected, Qin Chen couldn't help being disappointed.

"But it's not without effect. After the cultivation base breaks through the peak of the late stage of the sky, Zhen Qi's suppression of the Hundred Ghosts Curse is stronger."

Standing up, Qin Chen picked up the list of customized pills.

On this, there are densely packed materials and pills. After all, Wucheng finally came to a master alchemist, and no one would waste this opportunity.

Compared with those heavenly rank martial artists, the Xuan rank martial artists of Wucheng are not much better than them, or in other words, the powerhouses of the entire Northwestern Five Kingdoms are not much better than the Xuan rank martial artists of Wucheng.

Because in the five northwestern countries, Grade 4 alchemists are extremely rare, and not everyone can touch them.

Sweep away at a glance.

Many elixirs on the list are not even cultivation medicine.

Qin Chen understands this very well. Just like the blood eagle mad sword, if a martial artist of the Xuan rank cultivates to this level, there will be some problems more or less. For them, it is important to improve their cultivation level, but the problem is also solved. important.

Compared with the sky-level martial artist, the materials produced by the Xuan-level martial artist are more rare, but now that the heart lotus pill has been successfully refined, Qin Chen has no previous urgency.

What made Qin Chen regret was that none of the materials brought out by these Xuan-level martial artists was sacred.

"It seems that sacred materials are very scarce, and it is not an overnight thing to want to obtain."

He chose some material lists that he needed, and some pill lists that he might use in the future. As for the ones that were neither needed, Qin Chen didn't accept them.

The four-pin pill is extraordinary, unlike the third-pin pill, if too much is circulated on the market, it will cause extremely adverse effects.

What's more, if you can refine any four-grade pill, and spread it out, it will definitely attract the coveting of the four major forces of Wucheng, and your situation will definitely be dangerous.

Although he has now broken through to the peak of the late stage of the heavenly rank, it is still very dangerous if the top masters of the four major forces in Wucheng make a shot.

Early the next morning.

When Qin Chen walked out again, there was already a crowd of people outside the First Pill Pavilion.

After Qin Chen told Xu Xiong of the four-tier pill list he had chosen to pick up, Xu Xiong immediately brought in the strong man who could not wait to wait here, began to collect materials and fees, and told him to get the pill the next day.

Then, as usual, the first Dange began to sell again.

After yesterday's popularity, today's sales have become more frenzied. Not only has the number of people not decreased, but they have increased.

As for Qin Chen, everyone knew everything.

In the next few days, Qin Chen had been collecting materials, and the number of people had decreased slightly until the third day.

What made Qin Chen's heart anxious was that after three days, the materials he had exchanged were already countless, but the sacred materials were still not found.

"Could it be that there is no sacred material in this Wucheng?"

Qin Chen's heart sank, he decided to wait two more days, and even, on the last day, specifically asked for instructions on finding sacred materials.

If he can't find the sacred materials anymore, he will leave Wucheng two days later and think of other ways, otherwise he will stay here, which is a waste of time.

On this day, after Qin Chen ended the sale, an old man came to the First Pill Pavilion.

With long gray hair and wearing a gray robe, although the whole person is not young, his body is full of amazing vitality.

After his mental strength broke through Tier 4, Qin Chen's eyes were even more venomous. At a glance, he could see that the opponent turned out to be a strong man of the late Heavenly rank, with a high level of cultivation, even no less than that of Zhao Zhen, the Patriarch of the Southern Zhao Family in the Great Qi Kingdom .

On the side, after Xu Xiong saw the old man, his eyes were shocked, and even his hands shook slightly.

Qin Chen frowned. After Xu Xiong had been with him for so long, Xuan-level martial artists had seen him a lot, and he had already looked down on a lot. It was the first time that he had acted like this in front of an old man, showing his identity. It's definitely not simple.

Seeing Qin Chen not speaking, the old man laughed and hugged Qin Chen's fist: "The old man, Tianxing Chamber of Commerce Duan Lingtian, has seen Master Qin."

"Sky Star Chamber of Commerce?" Qin Chen was taken aback. How could he not know that the Sky Star Chamber of Commerce is one of the four major forces in Wucheng, and it has a faint reputation as the first of the four major forces.

The largest auction house in Wucheng, the Tianxing Auction House, is owned by the Tianxing Chamber of Commerce, and the annual large-scale auction of the Tianxing Chamber of Commerce will even attract powerful players from the five northwestern countries.

No wonder Xu Xiong made this move. It turned out to be a member of the Sky Star Chamber of Commerce, and the status of this person in the Sky Star Chamber of Commerce is definitely not low. No wonder Xu Xiong was shocked.

As he was thinking, Xu Xiong's voice sounded in his ears, and he whispered: "Little dust, this person is the president of the Sky Star Chamber of Commerce."

Qin Chen felt even more shocked, the president of the Sky Star Chamber of Commerce? He immediately understood what this person meant in Wucheng. It can be said that in Wucheng, this person is already the one with the highest status, and there is no one who can surpass him.

"Qin has met President Duan. I don't know why President Duan came to my first pill pavilion?"

Qin Chen knew that his wanton purchase of materials in Wucheng would definitely attract people from the four major forces, but he did not expect that the first person to come would be the president of the Sky Star Chamber of Commerce.

Seeing that Qin Chen was so direct, Duan Lingyun laughed, but he didn't mind, and said with a smile: "Unexpectedly, Master Qin is not only an amazing cultivation base, he is the leading genius of the Great Qi Kingdom, and his talent in refining medicine is so high, even It is in the five northwestern countries, and it is second to none. The most powerful pharmacist in my Sky Star Chamber of Commerce is only a third-tier pharmacist. Master Qin has surpassed my Sky Star Chamber of Commerce at a young age. It is really good luck for the Great Qi State."

As soon as Duan Lingyun's voice fell, Qin Chen's pupils suddenly shrank.

Chapter 374

During this period of time, Ling Tian actually knew that he was from the Great Qi Kingdom?

Qin Chen was secretly shocked, and suddenly a trace of vigilance rose up.

But when I think about it carefully, I feel surprised.

I have made such a big disturbance in Wucheng. The top forces in Wucheng will definitely investigate. Local families in Wucheng such as the Zhu family and the Song family may not have many outlets, but the Tianxing Chamber of Commerce is the top chamber of commerce in the five northwestern countries. one.

His power is almost all over the five northwestern countries, and it is no surprise to be able to find out his origin.

After all, after experiencing the first test of the Five Nations Grand Tournament, I can be regarded as a celebrity in the five northwestern countries, and he is well known in Daqi.

With a faint smile, Qin Chen said: "Chairman Duan is polite, I think Chairman Duan is here today, isn't he here to chat with Qin?"

What if you know your identity?

The other party can find out his origin so quickly, I am afraid that what happened to the King of Daqi not long ago should also be clear. If you don't believe in the Sky Star Chamber of Commerce, you dare to do it against him.

Qin Chen's guess was correct.

Duan Lingtian not only found out the identity of Qin Chen, but also understood the fact that the overlord of the Guixian faction had fallen in the King of Daqi not long ago. He also understood clearly and was taken aback long ago.

No matter how strong the Sky Star Chamber of Commerce is, it cannot be as scary as the Guixian Sect. Now that even the Guixian Sect master has died in King Capital of Daqi, he is naturally extremely jealous.

Seeing his temptation seemed to hit the air with a punch, Duan Lingtian felt extremely uncomfortable, as if he hit the air with a punch, and said with a dry smile: "Master Qin is joking. I'm here this time, just because I feel Master Qin's strength in refining medicine. It is also second to none in the whole Wucheng. It is so handy in refining the third-grade pill. Compared with the medicine master of the Sky Star Chamber of Commerce, it is also slightly better. Maybe you can communicate with each other."

Qin Chen sneered in his heart, slightly better?

Stop bragging!

Didn't he never know the medicine market in Wucheng, if the alchemist of the Tianxing Chamber of Commerce is just a little worse than him, how can it be his turn to do this business?

The high-level materials he had exchanged before could be transported to any place in the five northwestern countries with the capabilities of the Star Chamber of Commerce. How could it be his turn to do it?

Without even thinking about it, the third-tier pharmacist of the Sky Star Chamber of Commerce is absolutely far behind him, and it is not even at the same level as Xiao Yabi, otherwise, why do people hang under the banner of your Sky Star Chamber of Commerce? Such a pharmacist, even if he could refine the third-grade pill, the types were relatively rare, and the rate of pill formation was very low.

As for the four-pin pill, you don't have to think about it.

Seeing that Qin Chen didn't speak, but just sneered, Duan Lingtian also knew that Qin Chen didn't pay attention to the alchemist of the Sky Star Chamber of Commerce.

In fact, the same is true. Compared with the alchemist of the Sky Star Chamber of Commerce and the Qin Chen in front of him, there is not a slight gap.

"Master Qin, with your level of refining medicine, let alone the five northwestern countries, even if you are outside the five countries, it is extremely against the sky. However, I heard that Master Qin will take part in the retest of the Five Kingdoms Competition soon. You know, the Great Contest of the Five Nations is a flourishing age among the geniuses in the northwest. The ancient southern capital, which was born every five years, has amazing opportunities. Every time Master Qin's cultivation base is improved, the opportunity affirmed in the ancient southern capital It will be more terrible, and future achievements will definitely be higher."

Duan Lingtian knew Qin Chen's identity, and naturally knew that he would take part in the retest of the Five Nations Grand Competition next.

But now.

It was only ten days before the retest of the Five Nations Grand Tournament. This Qin Chen was actually still purchasing medicinal materials in Wucheng. With Duan Lingtian's wisdom, he immediately guessed that Qin Chen came to Wucheng to improve his strength. Purchase medicinal materials.

Qin Chen smiled slightly: "President Duan, the journey of cultivation always takes time, don't worry too much."

Duan Lingtian shook his head and said: "I cannot agree with you, Master Qin, you should also know that the sooner the martial artist cultivates, the earlier the breakthrough is, the younger the age, the higher the potential and the greater the future achievements. If it is delayed for a long time If we fail, the energy in the body will be sharply reduced. This is why we often look at the achievements of a genius and often look at his age first."

After a pause, Duan Lingtian said again: "I know that Master Qin himself has an extraordinary cultivation level, otherwise he will not have such a result in the first test of the Five Nations Grand Competition. However, the retest of the Five Nations Grand Competition is not only conducted among the first testers. In the selection process, the geniuses of the major forces in the five northwestern countries will also join the competition to seek opportunities. It can be said that the higher Qin Chen Shaoxia's strength is before the retest, the greater the chance of obtaining the opportunity."

"Is there anything else?"

Qin Chen was taken aback, but he didn't know that there would be geniuses from the past to participate in the retest of the Five Nations Grand Tournament.

But if you think about it carefully, it's not impossible.

The opening time of the ancient southern capital is every five years, which is a long time.

In this process, not everyone has the opportunity to participate in the first test of the Five Nations Grand Tournament, and there are certainly many people who cannot participate in the first test due to various reasons.

But the talents of this group of people are not necessarily weaker than those who have participated in the initial test.

Among them, there are even some geniuses who participated in the last five-nation competition. Five years ago, they were still young, but after five years, they are still less than 25. They can also participate in this competition.

For example, Qin Chen, who is only sixteen this year, five years later, and only twenty-one, he can also directly participate in the next competition instead of participating in the next preliminary test.

Duan Lingtian thought he had grasped Qin Chen's thoughts, and finally showed a smile: "Master Qin, the genius of the five northwestern countries, how many talents, no matter how high the talent of the master, how can it be more terrifying than all the geniuses in the northwest. ?"

"Just let me just say one. In the last big competition, the top genius of the Liang Kingdom, Yu Wenfeng, was only 18 years old. He was already a late-stage powerhouse at that time. I heard that he had already

entered the mysterious two years ago. Level field, these years have passed, and now I don't know how terrible it is. It's not easy for Master Qin to monopolize the leader."

"Yuwenfeng?" Qin Chen whispered.

The eighteen-year-old late Heavenly Stage is indeed terrifying. If you know that Qin Feng is also twenty years old, and he just entered the late Heavenly Stage, this Yuwenfeng is obviously more terrifying than Qin Feng.

Or like that Ling Tianzong's You Qianxue, who seems to be only eighteen or nineteen years old, is already a late-stage martial artist, in terms of talent, it is equally terrifying.

Duan Lingtian smiled and said: "I believe that Master Qin came here to improve his own strength. Only when his strength is up, can he gain a greater advantage in the competition. The old man came here to make a deal with Master Qin. The master refined some pills for my Sky Star Chamber of Commerce, and my Sky Star Chamber of Commerce gave Master Qin a Tier 4 Taixuan Zhu Guo as a reward, and promised that as long as Master Qin is in Wucheng, no one would dare to touch Master."

"Tai Xuan Zhu Guo?"

Qin Chen was taken aback for a moment.

Chapter 375 Blood Spirit Fire

"Yes, I don't know what Master Qin wants." Duan Lingtian said in his chest.

"Tai Xuan Zhu Guo is indeed a good thing." Qin Chen smiled.

He didn't expect that the Sky Star Chamber of Commerce would come up with such a good thing.

Taixuan Zhu Guo is an extremely terrifying kind of Tier 4 elixir. It contains amazing energy, and its function is to moisturize the meridians of the warrior and improve the cultivation of the warrior.

If Qin Chen hadn't obtained the Seven-Colored Heart Lotus before, he might be tempted by this Taixuan Zhu Guo, but now that he has obtained the Seven-Colored Heart Lotus and has broken through the late stage of the Heavenly Stage, he would not have much enthusiasm for Tai Xuan Zhu Guo Up.

"Although it is a good thing, I don't need it in particular now."

When Duan Lingtian smiled, Qin Chen said suddenly.

Duan Lingtian was stunned: "Master Qin, do you not want to get the Taixuan Zhuguo? With Master Qin's alchemy ability, Taixuan Zhuguo is enough to raise your cultivation level by at least one level."

"It's better to improve your cultivation level step by step. Why is it necessary to go so far?"

Qin Chen almost made Duan Lingtian vomit blood.

At this moment, he was a little confused.

Qin Chen's purpose in coming to Wucheng should be to collect materials to improve his strength, otherwise he wouldn't be here at this time, but now, he showed no interest in Tai Xuan Zhu Guo.

This is Tai Xuan Zhu Guo. With the opponent's current cultivation base, it should be the time when he needs it the most. How could he not be tempted at all?

Isn't it blaming me?

Suddenly, Duan Lingtian had such an idea.

But after thinking about it carefully, he found it impossible. What his eyes, from Qin Chen's expression, could tell that the other party did not catch a cold with Taixuan Zhu Guo, rather than pretending to be.

Seeing that Qin Chen is really not interested in Taixuan Zhu Guo, Duan Lingtian's heart suddenly sinks, his eyes are a little eager, but he still calmly said: "Master Qin, even if you don't need Tai Xuan Zhu Guo, do this in Wucheng. The First Dan Pavilion also needs a strong backstage. Even if our Star Chamber of Commerce has no objection to your Excellency, the other three powers may not be so. You know, Zhu Family, Song Family, and Wu Xiu Mansion are not like our Star Chamber of Commerce. So reasonable."

Unexpectedly, Qin Chen nodded and said, "Chairman Duan, what you said is very reasonable, so I decided that after tomorrow, this first Dange will no longer open. You know, I will participate in the retest of the Five Nations Grand Tournament. If I don't leave, I'm afraid it's too late. Now that I'm leaving, the Zhu Family, Song Family, and Wu Xiu Mansion you said want to trouble me, I'm afraid there's no reason."

Duan Lingtian was completely stunned. He was always calm and even dumbfounded.

He didn't expect that Qin Chen really decided not to open the business when he said that. Given the other party's age, shouldn't he be the age when he was not afraid of fear, young and frivolous?

How did he know that after two days, Qin Chen also discovered that his profit was really terrible. If you continue to exchange it, no matter how fearful the three major forces in Wucheng are, they will definitely start, even if they are not on the bright side, they will definitely do it. In secret.

The main purpose of his coming here is to remove the Hundred Ghosts curse on him. Since there is no way, it doesn't make much sense to waste time here.

"Master Qin, Wucheng is a huge market, did you really just give up like that?"

Duan Lingtian even began to persuade Qin Chen to come.

In the eyes of normal people, Qin Chen opened the first pill pavilion, it was basically stealing business from the Sky Star Chamber of Commerce, including the high-level members of the Sky Star Chamber of Commerce.

But Duan Lingtian didn't think so.

He looked farther than the others.

What does the Star Chamber of Commerce do? Chambers of commerce and auctions are their main business.

It is true that Qin Chen's appearance has robbed a large part of their material purchase business, but Qin Chen's status as a pharmacist has made his mind lively. With Qin Chen's strength, as long as he

cooperates with his Sky Star Chamber of Commerce, he will give him a large number of third-class products. Elixirs.

With the way of his Star Chamber of Commerce, these three-grade pill can be put for auction in any of the five northwestern countries. What will be the profit at that time?

What others saw was Qin Chen robbing their Wucheng market, but what he saw was the entire Northwest market.

But now if Qin Chen patted his **** and left, where would his Sky Star Chamber of Commerce find such a powerful alchemist?

As for the use of strength, Duan Lingtian didn't even think about what happened to the King of Daqi. What kind of cultivation would someone who can slap the dead ghost sect master, offend such a master, and destroy him. The Star Chamber of Commerce is also a matter of minutes.

"Master Qin, you are a pharmacist. Have you ever heard of Blood Spirit Fire?"

In order to reach cooperation with Qin Chen, Duan Lingtian finally revealed his biggest trump card.

"You mean demon fire?"

When Duan Lingtian's voice fell, Qin Chen's expression was finally moved.

"Yes, it is a kind of demon fire." Duan Lingtian nodded, and finally heaved a sigh of relief when Qin Chen's expression changed.

If Qin Chen is not even interested in the blood spirit fire, then he really has nothing to do.

"Master Qin, you are a pharmacist. Naturally, you know the importance of flame to a pharmacist. A powerful flame can even more than double the strength of a pharmacist."

"There are many types of flames. There are real fires extracted from the martial artist's own practice of the fire system, fires inspired by formations, and demon fires extracted from blood beasts, earth fires and sky fires that come from the world. "

"The demon fire is divided into beast fire and blood spirit fire. The beast fire comes from the body of the fire blood beast, and the blood spirit fire comes from the body of the mutated plant blood beast."

"You don't need to explain, I know." Qin Chen interrupted the other party directly.

There are actually different types of demon fire. Not only blood beasts have demon fire, but some plants also have demon fire, which is called blood spirit fire.

These plants are actually a kind of blood beasts, such as the sky star vine and the devil flower. They all have life and kill people invisible.

Compared with the demon fire of the blood beast, the demon fire of the plant is more rare.

After all, plants themselves are often of wood properties and are extremely incompatible with flames.

"What level and attribute is the blood spirit fire you said?" Qin Chen said without hesitation, asking directly about the key of things.

He just said so much.

In fact, it is not that he does not want to cooperate with the Sky Star Chamber of Commerce, but is ready to sell it. Qin Chen knows very well that the Sky Star Chamber of Commerce, as the largest chamber of commerce in Wucheng, must have a lot of treasures and materials, maybe there are sacred materials among them.

But if you agree directly, the other party will definitely not come up with good things, so he just wants to fight.

Now that he heard that the other party had blood spirit fire, he immediately asked in detail.

After all, there are too many types of demon fire, and even some human-level, earth-level, and sky-level fire blood beasts will give birth to demon fire.

But this level of demon fire is not even as powerful as his own condensed real fire, and it has no effect on the curse of Hundred Ghosts in his body.

So what Qin Chen must first determine is the level of the opponent's blood spirit fire.

Chapter 376

"To be honest, the old man is not very clear about the level of this blood, spirit and fire, and he can even say that he doesn't know."

"You don't know?" This blood spirit fire belonged to the other party's auction house, and the other party would not know that Qin Chen was really speechless.

"This fire is not obtained from a certain kind of blood beast, but it is rumored to come from an ancient relic. After it was sent to our Chamber of Commerce, the alchemist of our Star Chamber of Commerce also studied it, but because it exceeded our Star Chamber of Commerce. The decision level of the alchemist, so how high the level of the blood spirit fire is, our Star Chamber of Commerce did not know, even, at the beginning, our Star Chamber of Commerce doubted whether this flame was a blood spirit fire at all, because of the aura of this fire. , As time goes by, there will be changes, but after reaching a point, the spirit of the fire will become very obvious before it is judged as a blood spirit fire."

"There is such a flame?"

Qin Chen couldn't help being surprised.

The pharmacist of the Sky Star Chamber of Commerce has at least the third rank, and he must have reached a fairly high level in the defense of flames, but it is a bit weird that even a flame is almost indistinguishable.

"Your Chamber of Commerce intends to give me this **** fire?"

The more the Star Chamber of Commerce cannot distinguish, the more interested Qin Chen is. After all, flames that can be easily distinguished by a third-rank alchemist are generally not high-level flames. The more indistinguishable, the higher the flame level will be. .

The probability of lifting the curse of one hundred ghosts must be greater.

Duan Lingtian shook his head and said: "This flame is not my own treasure of the Sky Star Chamber of Commerce, but other sellers deposited it for auction at my Sky Star Chamber of Commerce. My Sky Star Chamber of Commerce is still unable to take the initiative and give it directly to Master Qin."

Qin Chen frowned. Since he can't send it, why do you say so much?

"Although my Sky Star Chamber of Commerce is unable to give this **** fire to you, this fire will be auctioned at the quarterly auction of my Sky Star Chamber of Commerce tomorrow. My Sky Star Chamber of Commerce is willing to take this **** fire regardless of the price. Give it to Master Qin." Duan Lingtian said proudly.

"Then I would like to thank President Duan, but if Ben Shao needs it, Ben Shao can auction it by himself, and Ben Shao is not short of money!" Qin Chen smiled.

"Hahaha, with the strength of Master Qin, naturally there will be no shortage of money, but for Master Qin, my Star Chamber of Commerce is definitely not without the value of cooperation. After all, Master Qin is still young, so he certainly does not want to spend too much energy and waste. In the matter of purchasing materials, if Master Qin trusts Duan, he can cooperate with my Sky Star Chamber of Commerce. My Sky Star Chamber of Commerce guarantees that as long as there are any treasures and high-end materials, they will definitely be reserved for Master Qin as soon as possible."

"Of course, the old man can't force this matter. Since Master Qin is interested in blood spirit fire, here is a VIP card from my Sky Star auction house. Master Qin can come directly to my Sky Star auction house tomorrow. The only thing I can guarantee. It's the sincerity of my Sky Star Chamber of Commerce."

Duan Lingtian was also a bachelor. Knowing that Qin Chen would not immediately agree, he arched his hands, turned and left the first pill pavilion.

After sending Duan Lingtian out of the First Pill Pavilion, Xu Xiong returned to Qin Chen.

"Little dust, are you really not planning to cooperate with the Sky Star Chamber of Commerce?"

The Tianxing Chamber of Commerce is the most dominant force in Wucheng, and it is also the most conflicting force with the First Dan Pavilion. Xu Xiong can't believe that Shao Chen will look like this in front of President Duan Lingtian. Look like.

What surprised Xu Xiong even more was Duan Lingtian's attitude towards Qin Chen. Although Duan Lingtian, the president of the Star Chamber of Commerce, heard that people were okay, being the number one force in Wucheng did not mean that they were not overbearing. They were once annexed by the Star Chamber of Commerce. There are countless forces, and some have even been bloodbathed, but in front of Shao Chen, Duan Lingtian's attitude is so equal.

And Xu Xiong faintly felt that President Duan Lingtian seemed to understand Shao Chen's identity, as if he came from the Great Qi State. This led to his attitude, but even the prince of Great Qi State might not let Duan Lingtian meet. Is that attitude long?

Xu Xiong couldn't understand at all.

Taking a look at Xu Xiong, Qin Chen smiled and said: "The cooperation with the Sky Star Chamber of Commerce must be carried out, but there is no need to rush to agree to them."

He can indeed ignore the Tianxing Chamber of Commerce and leave after the auction is over. However, the Xu family still has to survive in Wucheng. After he leaves, there is no backing, and the Xu family will definitely be the owner of the Zhu family. , Extinguished in minutes.

What's more, the Star Chamber of Commerce is the top-ranked chamber of commerce in the five northwestern countries. There are benefits and no harm in cooperating with them. At least, as Duan Lingtian said, if you need any high-end materials in the future, you can obtain it through the Chamber of Commerce. Don't bother so much.

The only thing that makes Qin Chen nervous right now is the level of the blood spirit fire that the Sky Star Chamber of Commerce said. If it really exceeds his expectations and can lift his Hundred Ghosts curse, then his trip is worth it.

"Anyway, after tomorrow's auction, whether I can get the sacred materials, whether the blood spirit fire can get rid of the curse of the Hundred Ghosts, I have to leave. Before that, I will improve my strength first. Believe that The Zhu family will never let me leave so safely."

"Prepare, I won't accept any pill customization today."

After giving orders to Xu Xiong, Qin Chen closed the door again.

Zhu family.

"What? Old man Duan went to the first pill pavilion alone, and then he came out soon after?" Zhu Hongzhi stood up suddenly, his expression gloomy: "What the **** is this old man doing?"

"Brother, what's the matter? Didn't the Sky Star Chamber of Commerce attack the First Pill Pavilion? It's impossible."

Zhu Hongjun also stood up in shock.

Zhu Hongzhi frowned, carrying his hands on his back, walking back and forth in the hall, frowning, as if he could not understand.

Zhu Hongjun said speechlessly: "How much business has been robbed of the Star Chamber of Commerce in the first Dan Pavilion these days, and the loss of high-level materials, old man Duan will not feel bad? According to old man Duan's previous virtues, he has already stripped him away. Now, this time it's so abnormal. He passed by alone and there was no movement at all. Which of these guys made a mistake? He is not profitable and early."

Hearing this, Zhu Hongzhi took a violent step.

Turning his head: "Second brother, what did you just say?"

Zhu Hongjun was taken aback, and said: "I mean, according to the old man Duan's previous virtue, he has already stripped the other party completely."

"No, it's the last sentence."

Zhu Hongjun thought for a while and said: "He is a person who is not profitable and can not afford to be early..."

Half-talking, his eyes glared suddenly, and he was surprised: "Brother, you said that this old man is not the other side's pill, right?"

Chapter 377 Illusory Prison

"Probably!"

Zhu Hongzhi's face was gloomy as if dripping water: "With the way of the Star Chamber of Commerce, as long as you can obtain the pill of the first pill pavilion, you will surely be able to sweep the entire Wucheng city, and even spread out, sweeping the entire five northwestern countries is not impossible, this old man Sure enough, it was an old treacherous and cunning man who made this idea."

He painstakingly waited for the Star Star Chamber of Commerce and the First Dan Pavilion to have a conflict, but he did not expect that after waiting for a long time, it turned out to be such a result.

"Brother, what shall we do now?" Zhu Hongjun was dumbfounded.

Once the Star Chamber of Commerce and the First Pill Pavilion are united, the difficulty of their Zhu Family's attempt to deal with Qin Chen will definitely increase greatly.

"Hmph, since the Sky Star Chamber of Commerce does not do anything, then we will do it ourselves. You will immediately go to Wu Xiu Mansion and let the people in Wu Xiu Mansion set a place, and we will meet in secret." Zhu Hongzhi squinted his eyes.

"Will the people of Wu Xiu Mansion agree?"

Zhu Hongzhi said coldly: "If only dealing with the first pill pavilion, Wu Xiu Mansion may not agree. After all, they rarely get involved in such matters, but since the Sky Star Chamber of Commerce wants to join forces with the first pill pavilion, they can't help but not agree."

The Star Chamber of Commerce is the first force in Wucheng. The other three forces that were originally suppressed have less room for survival. If they join hands with the first Dange, their third force will definitely be more and more difficult in the future.

Wu Xiu Mansion is extremely powerful, so naturally he wouldn't sit idly by at this time.

As for why it is not called the Song family, the Zhu family and the Song family have always been wrong. To deal with such a good thing as the First Pill Pavilion, naturally, there is no need to share it with others and join forces with Wu Xiu Mansion, only because the Tianxing Chamber of Commerce has joined.

"Brother, should we send someone to monitor the First Dan Pavilion and the Star Chamber of Commerce? If the two of them really unite, the Star Chamber of Commerce will definitely send a master to protect the First Dan Pavilion. Moreover, that kid is an outsider, no one I don't know when he will leave."

"Don't worry about this. Tomorrow is the quarterly auction of the Star Chamber of Commerce. Since the kid wants materials, he will naturally not leave before the auction. But what you said is not unreasonable. Send someone to stare at the First Dan Pavilion. , And the entrances and exits of Wucheng, you must not let that kid just leave like this."

"Yes!"

Zhu Hongjun showed excitement and immediately set out.

In the hall, Zhu Hongzhi coldly snorted: "An outsider stirred up the wind and rain in my Wucheng, and killed my Zhu family disciple. If you really let you leave alive, why will my Zhu family stay in Wucheng in the future? Blame, you don't know good or bad, you offend us."

A fierce murderous intent lingers in the hall.

The first pill refining room.

Sitting cross-legged, Qin Chen kept running the Nine Star God Emperor Art, adjusting the breath of the whole person to the level of profound and profound.

Then, he began to mobilize the mental power in his mind, and began to condense the spiritual runes in a very strange way of operation.

Hum!

The transparent spirit sword in his mind trembles gently, and a stream of invisible mental power, like a transparent silk thread, constantly escapes, forming a series of unpredictable spiritual lines above the sea of mind.

What Qin Chen is practicing now is the second form of Wan Shen Jue.

The Wanshen Art is an extremely terrifying secret technique for spiritual cultivation. With this secret technique in the previous life, Qin Chen can make himself a ninth-rank emperor-level pharmacist in the realm of the eighth-rank martial emperor, breaking through the ninth-rank spiritual power.

There are five styles in total.

The first type, mental storm, uses powerful mental power to shock the martial artist's mind, causing him to fall into sluggishness.

The second type, called the phantom forbidden cage, uses powerful mental power to form a phantom forbidden space to attack the enemy on a spiritual level.

Compared with the mental storm, the magic imprisonment cage is much more terrifying. After all, the mental storm is just a simple mental shock, and the purpose is to make the enemy lose the will in a short time.

But the magic imprisonment cage directly strikes the enemy at the spiritual level, causing damage.

It's just that the cultivation of the magic imprisoned cage is extremely difficult, and one of them is that the spiritual power must enter the fourth stage and become the essence.

Secondly, the difficulty of cultivation is extremely high. Any mistake will lead to mental confusion and even become an idiot.

But for Qin Chen, who had already practiced the Illusion Prisoner in the previous life, it was not difficult.

While taking the pill that enhances spiritual power, while practicing the method slowly according to the mental method of Wan Shen Jue.

After half a day, Qin Chen's warm forehead and the center of his eyebrows suddenly emitted a layer of bright blue light.

This blue light was like a misty halo, flowing on his forehead, and when he looked carefully, it was like a stream of flexible air flow wandering, hazy and very mysterious.

Two more hours passed, the blue light on Qin Chen's eyebrows became more and more prosperous, and finally it seemed that a vertical eye appeared across Qin Chen's eyebrows.

A torrent of mental energy lingered around Qin Chen's body, and finally gathered at the center of his eyebrows, forming a strong magnetic field.

time flies.

Two more hours passed.

The cyan halo at the center of the brow suddenly split, as if a pair of cyan eyes suddenly opened.

Huh!

An invisible mental force suddenly shot out, covering the entire First Pill Pavilion.

In an instant.

The quiet night sky became darker and plunged into an endless abyss.

All the warriors in the first alchemy pavilion, whether they are asleep or awake, seem to touch a deep cold pool-like pupil in front of their eyes, extending their vision continuously, and then engulfing the entire world.

Huh!

next moment.

Every warrior, no matter whether he is awake or asleep, he seems to be in a cold and deep space.

As far as he could see, it was pitch black, and the silent panic was shocking.

"where is this place?"

"This is..."

Everyone is in an independent space, cold and without a sense of security.

His breathing seemed to be strangled, it was extremely difficult, and his whole body was stiff and unable to move.

I want to shout, but I can't make any sound.

Just when they were frightened and desperate.

call!

The silent space disappeared.

Everyone woke up together, gasping for breath.

"It was... a nightmare?"

Xu Xiong stretched out his hands, his face was pale, his whole body was sweating profusely, and the cold wind blew his whole body cold.

"It seems that I am too tired these days, too nervous."

After a long time, he was relieved from this feeling and fell asleep again.

Others also felt like they had dreamed, and they all smiled bitterly.

"The second type of magic imprisonment cage of the Wanshen Jue was finally practiced."

Opening his eyes, Qin Chen grinned.

He just performed it at will, without actually attacking, otherwise Xu Xiong and the others would not just feel as simple as having a dream. People with weaker mental power would even instantly become idiots or become idiots in their sleep. Vegetative.

With this secret technique, although Qin Chen's cultivation base did not improve, his combat effectiveness and lethality were greatly improved.

"Some people ambush outside, are they the spies of the Zhu family?"

Qin Chen smiled coldly, and the random release of the magic imprisonment cage also made him feel a lot of things.

Regarding this, Qin Chen didn't take it seriously, anyway, tomorrow, he will leave, no matter how the Zhu family stares at him, it is impossible to keep an eye on him.

Soon, it dawned.

The quarterly auction of the Star Chamber of Commerce has finally begun.

Chapter 378 Mysterious Wuzong

The auction house of the Star Chamber of Commerce is located in the most prosperous place in Wucheng. Qin Chen brought Xu Xiong and others to the Chamber of Commerce early.

"Hehe, Master Qin, you are here!"

The staff of the Star Chamber of Commerce received the notice early, and when they saw Qin Chen and others, they immediately stepped forward to greet them with a respectful attitude.

"Did you see, this is Master Qin from the First Pill Pavilion."

"I heard that this person is a pharmacist at the pinnacle of the third rank."

"What is a third-rank pharmacist? It is said to be a fourth-rank pharmacist, otherwise how to refine a fourth-rank pill?"

"I heard that it seems that there is an expert behind him, helping him refine, otherwise this person is so young, he is already a fourth-rank alchemist, how is it possible."

"Yeah, I also think that there must be strong support behind it. I didn't expect the Xu family to be so lucky that they could rely on such a master alchemist."

In a few days, Qin Chen has become the most famous celebrity in Wucheng, and no matter where he goes, there are people talking and secretly pointing.

In the face of everyone's discussion, Qin Chen naturally wouldn't mind, and under the leadership of the Sky Star Chamber of Commerce personnel, stepped into the auction house.

Walking into the auction venue, it was not as lively as imagined, and even a little deserted.

But if you underestimated the Tianxing auction for this, you would be wrong.

The reason for the small number of people is that the quarterly auctions of the Sky Star Chamber of Commerce are of very high grade, and the general entry fee requires 100,000 silver coins, which excludes most of the lively warriors.

Those who can come in are those with certain financial ability.

After all, quarterly auctions are different from ordinary small-scale auctions. The treasures that appear in it are all of the boutique level. When placed in any ordinary auction, they are at the finale level.

After a while.

Qin Chen and Xu Xiong were taken to the VIP room area inside the auction house.

There are not many VIP rooms in the auction house. The higher the level, the smaller the number.

There are only four five-star boxes, ten four-star boxes, and dozens of three-star boxes.

Just like the hierarchy of the ancient martial arts, the higher the place, the fewer the number, and it is at the top of the pyramid.

Moreover, the five-star boxes can only be settled by the top forces of the five northwestern countries, and they are usually closed directly.

Want to enter, at least at the level of the five powers, the ghost fairy faction.

It is said that in a super-large auction held by the Tianxing Chamber of Commerce in Wucheng three years ago, the royal families of the five northwestern countries all participated.

As for the three major families of Wucheng Zhu Family, Wu Xiu Mansion, and Song Family, they usually enter the four-star VIP room, and they will even be downgraded to three stars during the super-large auction.

But today, the five-star private room that has been closed for a long time is opened again.

"Several people, this is a five-star private room in our auction house. Please wait patiently for several people. The auction will begin soon."

He is in charge, smiling and respectful.

"Wow!"

At this time, in the VIP room area, other major forces in Wucheng also arrived one after another. Seeing the five-star box open, they immediately took a breath of air-conditioning.

One of them was flushed, and his eyes were even colder.

"Brother, this person is Qin Chen."

In the four-star box area, this person secretly transmits a voice, revealing a cold color in his eyes. It is Zhu Hongjun of the Zhu family.

"Hmph, a pharmacist, the Star Chamber of Commerce actually arranged him in a five-star VIP room, and the Star Chamber of Commerce really can look down on this person." Zhu Hongzhi's face was also very ugly.

Their Zhu family, who has worked so hard in Wucheng for so many years, can only enter the four-star VIP room.

Under normal circumstances, being suppressed by top forces such as the five great powers is nothing to say, but being directly suppressed by this young boy who has just been here just makes Zhu Hongzhi quite unhappy.

"Palace Master Wu Lengfan, you should have seen the attitude of the Heavenly Star Chamber of Commerce to the First Dan Pavilion. Do you still think that what the old man said yesterday was nonsense? The old man can guarantee that next, the First Dan Pavilion and the Heavenly Star Chamber of Commerce, we will cooperate soon. By then, the living space of our two major forces will definitely be greatly compressed. I believe that Palace Master Wu doesn't want to see this happen, right?"

Turning his head, Zhu Hongzhi looked at a thin man beside him.

This person has a sullen brow, and his whole body is cold, like purgatory Shura, which makes people feel scared when they look at it.

It was the palace lord of Wucheng Wuxiu Mansion, a powerhouse of the late Xuan level.

"Patriarch Zhu, please rest assured, what I promised you yesterday, I will naturally not break my promise. I have already laid a net around Wucheng. No matter when that kid leaves Wucheng, he will not escape the palm of my hand."

The thin man smiled coldly.

When the two touched, they separated from each other, just like ordinary communication.

Qin Chen saw this scene in his eyes.

"Little Chen, one of the two is the head of the Zhu Family, and the other is the head of the Wu Xiu Mansion."

Seeing Qin Chen look at it, Xu Xiong explained immediately.

I couldn't help feeling that once, I was able to stand in such a position and overlook the two giants Zhu Family and Wu Xiu Mansion.

Qin Chen nodded, but sneered in his heart. How terrible his soul power is. He keenly caught the subtle communication between Zhu Hongzhi and Wu Lengfan.

"It seems that the Zhu Family and Wu Xiu Mansion have already decided to do it on themselves."

Expressionless, Qin Chen stepped into the VIP room.

The entire VIP room is extremely luxurious and can accommodate at least twenty people.

And it is located above the auction house and can overlook the entire auction house.

Time passed, and more and more people were on the auction floor.

"Wucheng's overall strength is really not easy to underestimate."

The mental power was slightly swept away, and at a glance, almost all of the entire auction floor was strong above the sky level, and there were very few strong at the earth level.

As for the Xuan-level powerhouses, at a glance, there are as many as a hundred people, and there are only very few Xuan-level late-stage martial artists.

"Well, this is..."

Qin Chen swept across a three-star room below, suddenly his heart jumped.

This is a man wearing a black cloak, his body is extremely cold, as if from the **** of the sun.

The cloak on his body seemed to be a real treasure, capable of shielding perception and making people unable to see his face, but after Qin Chen's mental power swept through, he clearly felt a chilling force that made the heart palpitating.

"Wu Zong powerhouse is definitely a powerhouse above Tier 5 Wuzong, how can there be a Wu Zong powerhouse in this Wucheng?"

Suddenly standing up, Qin Chen was shocked.

You know, there is no Tier 5 Wuzong strong in the entire Northwestern Five Kingdoms. In this Wucheng, a Tier 5 Wuzong suddenly appeared, and it was at such an auction, which is completely unreasonable.

There will be a week or so before the finals of the Five Nations Grand Tournament. It can be said that the major forces of the five countries and the powerful people with good looks have basically gone to the ancient southern capital. Such powerful people should not appear here at all.

Chapter 379 Ice Marrow Body Tempering Liquid

"Ok?"

In the Samsung VIP room, the man in the cloak seemed to perceive something and looked up slightly, looking sideways.

At the same time, a gloomy power followed Qin Chen's mental power and quickly searched.

"not good!"

Qin Chen hurriedly converged his mental power and quickly erased the path of the spiritual path.

The other party lost the target and frowned slightly.

"It seems that someone was spying on me just now? Is this a strong man in Wucheng? Interesting? Can actually avoid the old man's perception."

The man in the cloak looked up at the four-star or even five-star VIP room above, with a sneer at the corner of his mouth.

In the VIP room, Qin Chen frowned.

"Little dust, what's wrong with you?"

Seeing Qin Chen standing up suddenly, Xu Xiong couldn't help but wonder.

"I'm fine." Shaking his head, Qin Chen said to Xu Xiong, "Let the person in charge of the auction of the Sky Star Chamber of Commerce come to see me."

at this time.

After a long wait, the auction officially began.

On the auction stage in front, a brown-haired old man in a mysterious robe walked out, and there was a graceful beauty in a long robe beside him, with an elegant body and holding a silver plate.

"Ahem, old man Shizhen, the chief auctioneer of the Star Chamber of Commerce, I must be very familiar with the old man, so I won't introduce more. You've been waiting for a long time, and you've been enthusiastic about coming. The quarterly auction officially begins."

"Now please watch the first auction item."

The old man in Xuanpao had a kind face, and there was an affinity in his voice.

A few sentences have already mobilized the atmosphere of the scene.

The curvaceous beauty beside her opened the silk cloth, and a piece of blue-green jade suddenly appeared on the silver plate.

A chill was quietly released on the auction stage.

The cold charm jade is produced in the polar ice valley in the cold northwestern region. It contains astonishing cold air and is generally worth one hundred thousand silver coins.

However, what is being sold now is not the Hanmei Jade itself, but a small azure blue liquid sealed in the Hanmei Jade.

"Ice Marrow Body Tempering Liquid comes from the deepest part of the Extreme Ice Valley. It has the ability to improve physique. It can transform the body of any warrior below the profound level to a small level. The most amazing thing is that, in addition to the cold attribute physique warrior, Martial artists

with other attributes also have a certain power to improve, allowing them to increase a certain degree of antibodies against ice attribute attacks."

Xuanpao old man Shi Zhen introduced.

The ice marrow body quenching fluid comes from the Extreme Ice Valley, which is an extremely dangerous relic. If a Xuan-level martial artist enters it, his life will be in danger, and he will often fall.

Therefore, it is extremely difficult to obtain a bottle of ice cream body quenching fluid.

The first lot immediately caused a stir on the court.

It is definitely an extremely rare treasure to be able to make any warrior below the profound level and cultivate the ice attribute to unconditionally improve his body to one level.

You know, it is extremely difficult to improve the physique of a martial artist, and any level of improvement requires a lot of energy.

What's more, even if it is not a warrior with the ice attribute, the ice marrow body quenching fluid can make it more resistant to ice attribute attacks.

Such a treasure is enough to fascinate most people.

Qin Chen also nodded secretly.

"This ice marrow body quenching fluid is similar to the spiritual marrow fluid in the blood spirit pool, but the effect is much worse than that of the spiritual marrow fluid. After all, this ice marrow body quenching fluid only improves the physique of the martial artist, and the spiritual marrow fluid changes But it is martial artist's physical talent, these are two completely different concepts."

The talent of a martial artist is changed, and it may not only improve the first-level physique, but also other aspects such as potential.

"Ice Marrow Body Tempering Liquid, the price starts at 200,000 silver coins, and each increase in price shall not be less than 10,000."

The old man in Xuanpao smiled slightly.

As soon as the voice fell, Li immediately started to increase prices frantically.

"I give out two hundred and thirty thousand."

"Two hundred fifty thousand."

"Two hundred eighty thousand"

The shouting of prices, one after another.

This kind of national treasure is often the most popular.

And this time.

The manager who had received Qin Chen before came to the VIP room again.

"Master Qin, are you looking for me?"

The other side bowed slightly, respectfully.

President Duan has already explained to him that he must meet Qin Chen with the highest standards.

"Who is in this VIP room No. 3?" Qin Chen pointed to the VIP room in front of him.

"This one....."

Manager hesitated.

Although President Duan had explained to him that Qin Chen would try his best to satisfy the other party no matter what Qin Chen requested, but Qin Chen's request had already touched the bottom line of the Sky Star Chamber of Commerce.

Any auction house must put the customer's information first. After all, the customer's reputation is the most important thing. This is also the foundation of the auction.

"If you can't be the lord, call your president."

Qin Chen knew that the other party was in charge and might not be able to call the shots.

"Please also Master Qin wait a moment."

The steward immediately retired. He really couldn't rashly agree to such a thing.

After a while.

"Hahaha, Master Qin, don't come here unharmed." Duan Lingtian smiled and walked in.

"President..."

Duan Lingtian waved his hand and said, "Go back."

"I heard that Master Qin wants to know the origin of the guests in the VIP room on the 49th?" After the steward left, Duan Lingtian smiled bitterly: "Master Qin, you should know that as the leading chamber of commerce in the five northwestern countries, the greatest purpose of our Tianxing Chamber of Commerce is reputation. , Master Qin, you are like this..."

"From today, my No.1 Dange will cooperate with your Tianxing Chamber of Commerce to supply one third-class pill every month, the quantity is ten bottles, if it is a fourth-class pill, once a year."

Qin Chen interrupted Duan Lingtian directly and said without hesitation.

"Master Qin, are you agreeing to cooperate with my No. 1 Dan Pavilion?" Duan Lingtian was taken aback.

"Isn't this what you hoped for?" Qin Chen said coldly, "Because I will leave Wucheng soon, the Xu family will act as an intermediary to complete the business between the first Dange and me. As for contact , The Xu family can directly transfer to Xiao Ya, the master of the Great Qi State Pill Pavilion, and all the medicines are also obtained from the Great Qi State Pill Pavilion. Of course, I can give you the ten

bottles of medicine for the first month, I can guarantee The thing is, every third-rank pill is an extremely rare third-rank peak pill on the market, at least one level of Chongxuan Pill."

After Qin Chen finished speaking, he directly took out eleven bottles of pills from his body.

"This is..." Taking the medicine bottle, Duan Lingtian opened the cork, and his expression immediately became extremely shocked when he heard it directly.

"Chongxuan Pill, Pulse Transforming Pill, Awakening God Pill... There are also fourth-grade Zhenli Pills...hiss!"

As the president of the Tianxing Chamber of Commerce, Duan Lingtian's understanding of the pill is naturally terrifying, and he can tell at a glance that each of the ten bottles of pill that Qin Chen took out is the best among the third-class pill. Elixirs.

And the efficacy of each pill is completely different, covering almost the vast majority of martial artists on the market.

Chapter 380

The fourth-grade pill, although it is an extremely ordinary Zhenli pill, but because there are few fourth-grade alchemists in the five northwestern countries, every fourth-grade pill is a treasure, and its value is far greater than that of the third-grade pill. on.

As soon as these eleven bottles of elixirs were released, the Tianxing Chamber of Commerce was able to hold a large-scale auction at the same time in the major northwestern countries.

It can be said that even a character like Duan Lingtian could not help being shocked by the scene in front of him.

So many pills are invaluable, and if you take them out, Qin Chen is really a big hand.

Duan Lingtian's awe of Qin Chen was even worse.

"Now you can say it?" Qin Chen said coldly.

For some reason, his eyelids throbbed, and there was a faint feeling that the mysterious cloaked man might have some connection with him.

"Hahaha." Duan Lingtian smiled, his attitude immediately became extremely enthusiastic, and his smile opened: "Since Master Qin has reached a cooperation with the Tianxing Chamber of Commerce, then even if it is a partner, not an outsider, the news that Master Qin wants to know, naturally I can give it to you."

"Master Qin, the guest in VIP room No. 30 you want to know, the old man actually doesn't know him, and this person is not my martial artist, but a foreign warrior. However, he had a deal with our Tianxing Chamber of Commerce. Master Qin, the blood and spirit fire you want, this person brought it out for consignment."

"What? He brought out the **** fire on consignment?"

Qin Chen frowned suddenly.

He originally felt very uncomfortable in his heart, but now this uncomfortable feeling is more obvious, because although he felt a cold breath from the other party just now, but also faintly felt a breath of flame.

Treasures like Yaohuo are not only needed by pharmacists.

If a pharmacist obtains the demon fire, his alchemy ability will be greatly improved, but the refining master, the formation mage, etc. can also refine the demon fire, and even the martial artist can refine the demon fire, especially some fighters who have practiced the fire system. Once there is demon fire in the refining, the cultivation level will even be greatly improved.

And this man in black clearly practiced the use of the fire element, why would he be willing to put the blood spirit fire out for auction?

The cold sweat behind Qin Chen came out all of a sudden. If the opponent is just a heaven-rank martial artist, auctioning the blood spirit fire is nothing. After all, according to Duan Lingtian before, the level of the blood spirit fire is not low. If the opponent cannot refine it by himself, it is reasonable to put it out for auction.

Even if the opponent is a Xuan-level martial artist, he can barely understand it.

But now, the opponent is clearly a Wuzong above the fifth-order sect level, and he can refine this blood spirit fire by himself, but why did he get it to auction at this auction house? Is he short of money?

Seeing Qin Chen's face ugly, Duan Lingtian wondered: "Master Qin, do you know this person?"

Qin Chen shook his head and said, "I don't know, but I just saw it by accident. I just think that the person's aura is a bit weird. That's it, that person's cultivation base does not seem weak, and I don't know why he wants to auction this **** fire. Instead of refining it yourself?"

Duan Lingtian smiled and said: "Master Qin, you think too much. Although that person's cultivation is not weak, he has just entered the Profound level. Maybe he can't refine it by himself, but the old man has heard of something weird. A month ago, in a large auction house in Daliang State, it seemed that someone had sold such a mysterious blood spirit fire."

"What, it was also auctioned in Daliang State?" Qin Chen was surprised.

"Actually, this news is not necessarily certain. I also deliberately investigated after learning that Master Qin you are very interested in the blood spirit fire, but it was just heard, not the exact news."

But at this time Qin Chen's heart had completely sunk.

He was sure that the blood spirit fire that was auctioned off in the beam country must be the blood spirit fire that will be auctioned today. Don't ask him why he knew it, he felt that way.

But the other party had already been auctioned before, how could it be auctioned in this Wucheng again, Qin Chen immediately felt a taste of conspiracy.

If it wasn't because of the Hundred Ghosts Curse that it had to use a different fire, Qin Chen would definitely give up the auction of this blood and spirit fire immediately, but now, before the hope of lifting the Hundred Ghosts Curse, he would never do so.

"No matter who this person is, if this blood spirit fire can really lift my Hundred Ghosts curse, then I will get it. As for the other party's conspiracy, just come."

Set his attention, Qin Chen smiled coldly in his heart.

Duan Lingtian said at this time: "Master Qin, I will take these pills first, as for the reward..."

"I need high-level materials. The higher-level materials are better. As a prepayment, you can pay the auction money directly to my silver card after the auction ends."

Duan Lingtian took a long breath and said, "Master Qin, don't worry, I will immediately bring all the high-level material sheets from the current warehouse of the Sky Star Chamber of Commerce."

If Qin Chen asked the Sky Star Chamber of Commerce to pay all the expenses in advance, he might not be able to take out so many pills for a while.

Not long after, Duan Lingtian personally took out the material list of the Tianxing Chamber of Commerce.

It has to be said that the Star Chamber of Commerce, as the top power in Wucheng, the leading chamber of commerce in the five northwestern countries, is indeed wealthy. There are many high-level elixir, and there are even two types of Tier 5 materials.

However, many of the materials in it were of little use to Qin Chen.

On the contrary, those Tier 5 materials still have some value to Qin Chen, so they directly marked it.

After receiving Qin Chen's order, Duan Lingtian was about to vomit blood in pain. The materials Qin Chen chose were all the treasures of his Tianxing Chamber of Commerce, and they were the most precious treasures.

But he still endured the pain and handed the materials to Qin Chen himself.

After all, the materials are just materials. No matter how precious they are, they cannot be used directly. Therefore, for the auction house, it can only be used as the finale, not much profit.

But once cooperated with Qin Chen, the profits almost came in endlessly.

Duan Lingtian would not understand this stake.

During the exchanges between the two sides, the previous ice marrow body quenching fluid had already been bought for 450,000 yuan.

The next second and third auction items are all rare treasures. Although they don't have the surprise of the ice quenching liquid, they are at least the third-order treasures, and many of them have reached the fourth-order.

"Hey, everyone will be interested in the auction item to be auctioned next. This item is often the most expensive item of the same level..."

Halfway through the auction, the old man in Xuanpao deliberately sold it.

The most expensive of the same level of treasures?

There was a wave of waves in the auction.
