

Valkyrie 3751

[Chapter 3751: In an ambush](#)

"Venerable Jueshan, you are really mean, Master Ben will fight you today."

Qin Chen roared and boomed, the vitality of the venerable in his body bloomed, lingering on the ancient cauldron, booming, filled the heavenly ding cauldron with a terrible aura, directly bombarding the venerable Jueshan in the sky.

Venerable Jueshan sneered, he urged the nine ancient sacred mountains, and suddenly, together with the ten sacred mountains above his head, they all bloomed with black halo, and countless black rays of light condensed and turned into a black sky pillar, facing Qin Chen. Burst shot.

"boom!"

The next moment, the violent roar resounded, the terrifying giant cauldron rumbling roared, and was blasted out in an instant, and Qin Chen's whole body also went backwards like crazy, spitting out his blood again.

Whoosh!

Taking advantage of the opportunity to retreat, Qin Chen's figure suddenly flashed, and he flew quickly towards the distant mountains.

His shot was fake, but his escape was real.

"Huh? Want to run? Play this trick in front of me." Venerable Jueshan sneered, but he was secretly surprised. Qin Chen had blocked his attack twice, and even Venerable had never reached this point, but now Show the strength, but it is more terrifying than the average venerable, no wonder the mountain master insists

Stay with him, there must be a big secret in him.

Huh!

The one big, nine small and ten sacred mountains of the ancient times revolved quickly, rushing toward Qin Chen.

"call out!"

Qin Chen sacrificed a mysterious rust sword in his hand, and immediately, a series of terrifying sword auras rose into the sky, turning into a sword light that reached the sky with the aura of ruining the sky, and slashed towards the ten ancient sacred mountains.

㗎!

With a terrifying roar, Qin Chen's sword aura blasted on the nine ancient sacred mountains, and it shattered in an instant. A terrible shock plunged into Qin Chen's body along the sword light, and Qin Chen immediately vomited blood. He was disheveled, looked very embarrassed, and madly resisted, but he could not stop the attacks of these ancient sacred mountains. He could only retreat frequently.

However, the black beams of light that burst out of the nine ancient sacred mountains could not kill Qin Chen.

Can push him back and forth continuously.

"how is this possible?"

"The annihilation power of my sacred mountain formation may not be easily resisted even by a master master. This son can't even reach the half step, so he can persist for so long?"

In the sky, Venerable Jueshan stared down, with an incredible look in his eyes.

"Damn it, burn the origin!"

After a fight, Qin Chen backed away again and again, his aura was weak, and he was obviously seriously injured. His expression was frightened, and he let out a sharp roar, his body suddenly surging with endless original aura. This original aura was actually burning.

"Is it true that you burned the original source so quickly without hitting it? It's a pity that even if you burn it again, it's useless."

Venerable Jueshan sneered and made up his mind to trap Qin Chen to death here.

"cut!"

Qin Chen shouted sharply and raised the mysterious rust sword. The endless sword energy within his body rose up, various sword intents condensed crazily, and finally formed a sword energy that exuded even Venerable Jueshan.

"what is this?"

Venerable Jueshan looked at this sword aura in shock, the power of this sword aura was too terrifying.

"The Great Formation of Jiujué Divine Mountain——Zang!"

Venerable Jueshan who controlled the battle in the distance whispered softly, and then laughed, "Although your sword is so powerful, but you want to break through my great formation of nine absolute mountains, it is really a dream."

Nine must-have mountains in the great formation.

When Qin Chen's sword energy swept to the edge to cut, suddenly a large number of black threads burst out in the black space, and countless black threads suddenly appeared, entangled at close range...Even Qin Chen could not dodge.

Buzzing!

Black silk threads crazily twisted towards Qin Chen, eliminating the power of Qin Chen's sword qi. Qin Chen could only cut a large amount of black silk threads. Just after flying, there were more black threads entwined.

"The Great Array of Nine Wonders God Mountain-Sleepy!"

At the same time, a cloud of dark auras entangled, turning into a canopy, surrounding them, trapping Qin Chen in it.

Once this shady scene formed, then Qin Chen was really trapped in it.

"Time rules!"

Seeing that the dark scene was about to merge successfully, Qin Chen's face suddenly became ugly, an invisible breath of time permeated, and instantly enveloped the world.

Hum!

The time of this side of heaven and earth stopped for a moment.

cut! The soul in Qin Chen's body was burning, his expression was terrifying, and the mysterious rust sword glowed with terrible divine light, and finally cut out suddenly. At this moment of stagnation, with a puff, above the besieged formation of Jiuque Divine Mountain, Split a small

The gap.

go!

Qin Chen's figure passed the entrance of the cave in an instant, and suddenly disappeared.

"what?"

Venerable Jueshan was only trapped by Qin Chen for a moment, and the thinking in his mind was just a stagnation, but Qin Chen seized the opportunity because of this stagnation, and even tore his great formation and fled. Get out.

I saw Qin Chen turned into a stream of light, rushing toward the depths of the mountains like lightning. Venerable Jueshan was immediately frightened. Under such circumstances, he actually let Qin Chen get out of trouble? He also knew that Qin Chen had time rules, but he didn't take it to heart, because with his cultivation base, the general time rules have no effect at all.

To him, even if it affects him, it must be extremely subtle.

But he never expected that the influence of Qin Chen's time rules was indeed extremely subtle, but he still seized the opportunity for the other party and fled here.

"Want to run?"

Venerable Jueshan yelled, swish, and quickly approached Qin Chen, rumbling, he quickly followed, and the large, nine small and ten sacred mountains of the ancient times, all came violently, approaching Qin Chen from all directions, to Qin The dust is trapped again.

boom! boom!

One after the other, two figures quickly penetrated into the mountains.

Moreover, the speed of the ten ancient sacred mountains was extremely fast, quickly approaching Qin Chen.

How can you run this time?

Venerable Jueshan controlled the ten ancient sacred mountains from a distance, and quickly gathered Qin Chen, when he was about to wrap Qin Chen in an instant.

Ok?

Suddenly, Venerable Jueshan was shocked, there was an inexplicable palpitation, and he looked around suddenly.

boom! boom! boom! boom! boom! Suddenly, terrible black lights burst out from the surrounding mountains, and the misty black lights quickly merged over the endless sky, forming a huge light curtain, enveloping both Qin Chen and Venerable Jueshan. Among them

.

how? Venerable Jueshan looked surprised and looked at the surrounding mountains. A terrifying aura rose up, and you saw that among the endless mountains, countless Zerg masters flew out densely, besieging this world, and each of the Vara Zerg masters has an extraordinary body, a hideous face, and a full body.

The thick carapace and the dark red hideous body exudes a palpitating breath.

More than ten million heads.

"An army of insects?"

Venerable Jueshan's face changed. He was surrounded by Zerg.

[Chapter 3752: Thousands of Zerg Army](#)

At the core of the entire Zerg army are several Zerg Venerables exuding a terrifying aura. These Zerg Venerables are scattered among the Zerg army, staring coldly here.

"Where did the Zerg army come from? How come I didn't notice it before, let alone this is not the camp of the Zerg army, how could these Zerg army hide here?"

Venerable Jueshan flashed an inexplicable color in his heart.

The appearance of these Zerg army is too weird. The only thing that made Venerable Jueshan breathe a sigh of relief was that the aura in these Zerg army was not very strong. Even the leading Zerg Venerables were just ordinary people, only the leader of the Zerg Venerable approached. To the pinnacle of human respect, compare to self

There are still many gaps.

"Friends of the Zerg race..." Venerable Jueshan rumbling out, a soaring aura erupted from his body, he wanted to communicate with these Zerg army, and at the same time, Jiuju Shenshan quickly entangled Qin Chen, wanting the first time To trap Qin Chen, as long as Qin Chen is captured, he will

Ben is not afraid of these zerg army, anyhow he is also the pinnacle of Daewoo Mountain.

However, Venerable Jueshan just spoke...

Hum! The tens of thousands of warriors raised their heads, stretched out their mouthparts, and a dazzling beam of light lit up between their eyebrows. These tens of thousands of warriors of the warriors seemed to have a spiritual heart, but in fact they were indeed releasing their unique spirit.
wave

Moving, under the leadership of several big insects like Stabbing Sky Qiong, the spirits are together with each other.

The mental powers of these tens of millions of Zerg army merged with each other, and immediately, every Zerg army was lit up with a dazzling aura. These auras merged together, and quickly formed an aura that could destroy the world.

Thousands of Zerg forces simultaneously urged their power, allowing their own power to use their talents and supernatural powers to fuse together. Although they cannot make attacks that contain laws, they can still be done with precision attacks.

"This is... the spiritual resonance of the Zerg, a combined attack."

"The weakest Zerg warriors here are the Heavenly Sages. The vast majority are the Early Sages, and there are countless mid-stage Sages, Peak Sages, Half-Step Sovereigns, and... several masters of Insect Sovereigns. The Zerg army united..."

"Damn it, no, get back to the defense!" The eyes of Venerable Jueshan who controlled the battle in the distance suddenly showed anger. Although the strength of these Zerg warriors is not very strong, under normal circumstances he can slap a group to death, but , The combined attack of millions of Zerg armies... that

It's already terrifying to the extreme.

Venerable Jueshan is also an old man in the battlefield of ten thousand races. He knows deeply that the most terrifying thing about the Zerg on the battlefield of ten thousand races is their summing technique, which no master is willing to face. Ordinary millions of holy masters can severely injure the noble masters with a single attack. Of course, the premise is that they can be bombarded. Those strong nobles are not fools, and all of them have strong dodge and escape capabilities... So the general threat effect of the Million Zerg Legion Okay, the army

The effect was good in wartime, but the real army of millions of Zerg races against a Venerable.

It's too hard to hit.

But no one can deny the power of its combined attack! And this is not an army of millions of Zerg races, it is a full tens of millions, and among them, there is also the guidance of the Zerg-class masters, and a combined attack, the power soars, it is dozens of times, hundreds of times stronger! Even the strongest person in the respect might have to be injured.

That is to say, even those who are strong in the respect of the pinnacle may fall.

This is the horror of the Zerg army, a single Zerg warrior is very ordinary, but once it has formed a scale, it is simply a nightmare on the battlefield of ten thousand races!

Of course the premise is... to hit. It is very difficult to bombard a pinnacle human being strong, but thousands of Zerg legions have been in ambush here for a long time, and the moment the opponent broke in, formed a unique combined attacking formation unique to the Zerg, and has blocked Venerable Jueshan. All the space, want to boom

This Venerable Jueshan is naturally extremely relaxed.

It's a pity that Venerable Jueshan had focused all his energy on Qin Chen because he had tracked Qin Chen before. Otherwise, no matter how well these Zerg army hid, he would surely find some clues because of his strength. "Just the entangled light of the Nine Wonders Mountain Array trapped those Zerg warriors? No, no, the energy bursting out of the tens of millions of Zerg army has exceeded the peak level of human respect. I can trap a million Zerg warriors in an instant. Not yet included

Master of Insects, but these millions of Zerg warriors have almost no effect on these tens of millions of Zerg Legions, this move is invalid! "

"Use the trapped formation to trap the tens of millions of troops, and then directly capture the thieves and kings, and kill the few insects?" "It's too late, if I prepare first, maybe it's okay, but now this Jiuju Shenshan The big formation was used by me to trap the little Qin Chen, and it would take time to transform the target, but the army of insects has already gathered directly.

It's too late to strike together. "

For a moment, Venerable Jueshan saw countless thoughts in his mind, and his eyes were full of anxiety.

He only found one plan-

Use the Jiuju Divine Mountain Array to defend yourself, and instantly enter the Zerg army, let these Zerg army throw rat terrors among each other, and then slay the leading insect masters, disintegrating the Zerg army's combined attack formation, which may be effective . It's a pity that the Jiuju Divine Mountain Array is not in his body and can be used directly, but he is urged to trap Qin Chen from afar. It will take some time to take back the Jiuju Divine Mountain, plus the need to rush. Join the legion and kill those insects

, Although the strength of these insects is definitely not as good as their own, this period of time is enough for the Zerg Legion to use a total of two. Although this plan is good, time is not allowed.

"give up!"

"You can only give up this Qin Chen first and use the Nine Jue Divine Mountain Array to protect yourself, otherwise you will definitely be in danger."

Venerable Jueshan made this decision unwillingly, "Qin Chen, if you are lucky this time, you were lucky enough to enter the army of the Zerg, and I was targeted by the army of Zerg. Damn it!"

The whole process is long, but in fact it is only a moment.

The moment the tens of thousands of Zerg army appeared, they had already launched a joint attack!

"attack!"

"Target Lord Jueshan!"

Stabbing the sky directly sent out an invisible mental roar.

"Boom!" "Boom!" "Boom!" "Boom!" "Boom!" "Boom!"...

Thousands of beams of light!

Instantly penetrate this side of the void. Each beam of light is fully displayed by the Zerg warriors. The combined power of thousands of Zerg warriors is enough to make any venerable look discolored. Faced with the oppression of such pure power that destroys the world, only dodge, even if Qin Chen owns it. The six-path reincarnation sword body did not dare to face such a terrifying energy impact, and the body would be completely shattered under such a terrifying and devastating attack.

[Chapter 3753: Collect sacred mountain](#)

Thousands of beams of light converge at one point in the distance!

Extremely accurate!

There is no error in any of the light beams, all of them are gathered at that point. If it is tens of thousands of human warriors, even if they train tens of thousands of times, they cannot succeed once. This is the advantage of the Zerg.

Get together a little!

Very subtle!

silence! The entire space of the mountains is quiet. To be precise, the sound has disappeared. The sound has completely disappeared, and the world has completely disappeared, leaving only the tiny light spots formed by the gathering of ten million beams of light. It seems that time has passed for a long time, but in fact it is an instant, then

The tiny spot of light burst out suddenly!

Booming...

The world boomed, and the silent world instantly became noisy. In the core area of the attack, a space crack was directly torn open. The torrent of countless space debris was also chaotic, and the world was torn apart.

The huge space of the Ten Thousand Races battlefield collapsed, and Qin Chen, who had anticipated this a long time ago, was also shocked. The space of the Ten Thousand Races battlefield was extremely solid, and it was the first time he saw this space torn apart.

Moreover, even though Qin Chen was far away from the center of the combined attack, the shock wave of the explosion surged over for the first time, instantly enveloping Qin Chen.

"Bu Tianding!"

boom! As soon as Qin Chen urged the Tianding Ding to protect himself, the light spot explosion in the distance had passed to Qin Chen. After the Tianding Ding and the weakening of the six reincarnation swords, that terrible power rushed into Qin Chen. In the body, Qin Chen still

He had to vomit blood, the source of the body was a little confused, and the body seemed to be split.

"too frightening!"

"I have a replenishing heavenly ding, the six sword body of reincarnation, not at the core of the attack, they are all hit hard."

"This... if it is a frontal hit, even with my physical strength, it will be difficult to survive, right?" Although Qin Chen knew this scene was strong, he still felt shocked and stunned when he saw it with his own eyes.

Regarding physical strength, he also fought with Xidora, naturally knowing that his physical body is only strong or weak compared to the peak of human respect, but still can't withstand the combined blow of the tens of millions of Zerg army. Of course, if these tens of millions of Zerg army really want to attack Qin Chen together, it will be different. Qin Chen who has the origin of time, as long as he activates the technique of time imprisonment, even if these Zerg armies surround Qin Chen, they will never think about it easily. Hit him

.

"Venerable Jueshan..."

Qin Chen suddenly turned his head to look.

Rumble! I saw the endless explosion roaring. It was extremely terrifying before, and all the ten Great Ancient God Mountain treasures that almost trapped Qin Chen were thrown away. One of them was just thrown to Qin Chen, and the black light on it flickered weakly. ,even

A faint crack appeared on the mountain.

At that last juncture, Venerable Jueshan had only time to surround the Jiuju Divine Mountain, and the attack had been reached, tearing his Jiuju Divine Mountain Formation in an instant.

This ancient sacred mountain had a weak aura. Obviously, the formation and runes on it had been violently attacked, and even severe internal damage had occurred. One of them was thrown directly towards Qin Chen.

"Wow!"

With a flicker, Qin Chen rushed towards the ancient sacred mountain like lightning.

Rumble! At the core of the explosion, a dark figure was looming. It was Venerable Jueshan. Under the previous attack, he did not die, but the whole person had become extremely embarrassed, his body was burnt and his hair was like a bird's nest.

It was even more overflowing with blood, as for the clothes on his body, sparse and torn.

However, he still survived. With a finger cot on his right hand, he showed a terrifying aura and looked frightened.

"Ah, my Jiuju Divine Mountain Array..." Venerable Jueshan discovered through perception that the connection between his Jiuju Divine Mountain Array and himself has become very weak. Among them are the power of three Jiuju Divine Mountain. In order to weaken, apparently has been severely traumatized, even the core runes

It should have been destroyed.

If it wasn't for chasing Qin Chen, the previous Jiuju Divine Mountain Array was too far away from him, and he couldn't come back to form a defensive large formation first. Given the horror of his Jiuju Divine Mountain Array, he might not be so embarrassed.

But now, the great formation of the Jiuju Divine Mountain that can withstand the attack of this pinnacle, under the combined efforts of thousands of Zerg Legions...

Hit directly!

Because his Jiuju Divine Mountain Array just blocked the core explosion, which is the strongest power.

"Damn it, this is a big loss. It will definitely consume a lot of resources to repair the Jiuju Divine Mountain Formation. Fortunately, my core Divine Mountain has not been destroyed..."

The core of the Jiuju Divine Mountain Array is the largest sacred mountain, and it is also the most powerful. It belongs to the center of the entire large formation. As long as this sacred mountain is there, then the Jiuju Divine Mountain Array has the possibility of cohesion.

This is a blessing in misfortune. "Although the Zerg Legion can form a combined attack technique, they did not kill me with a single blow, so they gave me a chance. If I want to attack together again, it will never be so easy." Venerable Jueshan breathed a sigh of relief, his face Ferocious, but also to receive

Go back to the Jiuju Divine Mountain, continue to gather the big formation, and then kill the Zerg big formation for the first time.

As soon as Venerable Jueshan had such a thought in his heart, his eyes froze, and he roared angrily, "Qin Chen!!!"

In his perception, Qin Chen had not escaped when he faced the Zerg army's attack before, but had quickly approached one of his dilapidated mountains with nine absolutes. Qin Chen quickly came to this dilapidated Jiuju Mountain, with a hint of excitement in his eyes. This sacred mountain is an important part of the Jiuju Mountain of Venerable Jueshan. As long as one can be obtained, the Jiuju Mountain Absolutely God Mountain will not be able to

Perfectly formed, his strength will certainly be greatly lost.

"Come!" Qin Chen tried to bring this ancient sacred mountain into a jade disc.

"Huh?" Perceiving a sweep, Qin Chen found that the formation in the damaged Jiuju Mountain was still intact. Although it was damaged, it was not the core area. As a result, the entire Jiuju Mountain Array still existed, still in Jue. In the control of Mount Venerable, the root

This cannot be collected directly.

"Come!"

Venerable Jueshan also discovered that Qin Chen was about to plunder his Jiuju Sacred Mountain Parts, and he couldn't help being extremely furious, and immediately took back his Jiuju Sacred Mountain Formation.

"Humph."

Qin Chen's eyes flashed, and he immediately transmitted his voice: "Little Ant, Little Huo, you lead the gas-devouring ants and the fire-refining insects to completely cover this ancient mountain and swallow the power in it."

"Yes." I saw countless dense swarms of insects flying out of Qin Chen's body. It was the army of gas-eater ants and fire-refining insects led by Xiao ants and Xiao Huo. They were small and thin, like ghosts, all of them rushed in. On the damaged sacred mountain, don't look at them as thinner than their size, but their strongest is to swallow all kinds of power, and they can directly swallow the power in the sacred mountain, causing them to lose power in an instant.

[Chapter 3754: Listen to my orders](#)

"Rumble..."

This ancient sacred mountain itself was very dilapidated and could not be resisted at all.

At the same time, Qin Chen urged the sky-repairing technique, performed the heavenly soul forbidden technique, and quickly merged into the ancient sacred mountain, destroying the soul control of Venerable Jueshan.

"Qin Chen!"

An angry roar sounded in Qin Chen's ears. Qin Chen glanced in the distance and saw that Venerable Jueshan urged the remaining ancient sacred mountains to roar and rush towards him, his expression was crazy, he obviously wanted Snatch this damaged Taikoo Mountain.

"Boss, it has been successful."

"Good job." At this moment, Qin Chen also felt that the army led by Xiao Yi and Xiao Huo had quickly swallowed the spirit power in this ancient sacred mountain, with a smile on his face, sigh, this huge ancient sacred mountain The sacred mountain disappeared instantly, and was income by Qin Chen

In the jade disc of good fortune.

"Asshole!!!"

Venerable Jueshan in the distance immediately realized that he had one less control over the Jiuju Divine Mountain. There were only nine of the ten Jiuju Divine Mountains under his control, and the connection between the divine mountains instantly lost one piece.

"Damn it!" Venerable Jueshan was furious. Although Qin Chen only collected one nine sacred mountains, the other nine are still under his control, but the nine sacred mountains are formed by the combination of ten sacred mountains. The great formation, lost one of the links, Jiuju God

The mountain formation is no longer taking shape...

The power is greatly reduced by at least 50%.

Once the Zerg army continues to use the combined attack technique, he will lose the most powerful means of life-saving in an instant if he loses the Jiuju Divine Mountain Formation.

By doing this, Qin Chen was tantamount to stripping him naked before the Zerg army.

"Damn, my great formation of Jiuju Divine Mountain, my great formation, **** to Qin Chen, **** stinky brat!"

These nine sacred mountains are his most important treasure.

It was almost his entire life's hard work that he bought it from the Dayu Divine Mountain. It was invaluable, but now, Qin Chen took one away. Of course, he can go back to Daewoo Sacred Mountain and look for a new Taikoo Sacred Mountain to supplement. However, he will never be as harmonious as the original one. Not only will it be damaged in power, but he also needs to consume his huge wealth. Such as

Why not hate.

Qin Chen took one of the nine sacred mountains and couldn't help but feel relieved.

After being suppressed for so long, I finally fought back.

"Qin Chen!"

Whoosh!

Venerable Jueshan came to Qin Chen, staring at Qin Chen with cold eyes, because Qin Chen was also trapped in the encirclement of this zerg army, and did not leave, of course he could not leave.

"Venerable Jueshan, you have chased and killed me for so many days, and there is still today?" Qin Chen stood proudly in the void, sneered at Venerable Jueshan, his eyes glowing with cold light.

"Qin Chen, you think too much. The reason why I came here was just an accident." Venerable Jueshan said solemnly.

"Hahaha, accident, do you treat me as a fool?" Qin Chen sneered. This Venerable Jueshan treats him as an idiot, or is he an idiot? Even a three-year-old didn't believe this.

"Okay." Venerable Jueshan took a deep breath, narrowed his eyes and said solemnly: "Qin Chen, it's useless to say anything now, but Qin Chen, how about we make a deal?"

"transaction?"

Qin Chen said with a smile. "Now we are trapped in the zerg army. The reason why you didn't leave was because you couldn't break through the siege of this zerg army. You have never been to the battlefield

of ten thousand races, so you don't know how terrible this zerg is. The enemy of our human race, no matter what kind of grievances we have between us, they are all human races. At this time, we should unite. As long as you return my Jiuju Mountain to me, I can promise to take you to break through the encirclement of this zerg army. ,otherwise,

With your cultivation base, you will definitely die here. "

Venerable Jueshan said in a voice transmission.

"I must die here with my cultivation base?" Qin Chen said in a low voice. "Yes, you also see the combined attack power of this Zerg army. Even I am not an opponent. Can you resist? Now, only you and I join forces. You have time rules and you can imprison the opponent. When you imprison the opponent, I You can use Jiuju Shenshan

The formation broke through the enemy's encirclement, and even killed these insects. Venerable Jueshan squinted his eyes: "At that time, you and I will have made great military exploits. With the merits of these Zerg army, you can directly get amazing treatment in the Human Race Alliance. Of course, the premise is that you must return the Jiuju Shenshan parts to me now

, Otherwise, I have no way to take you away. When the time comes, I can risk my death to stand out, and you will definitely die here, how? "

The whole process is long, but in fact, the voice of Venerable Jueshan to Qin Chen only took a moment.

Hum~

In the distance, the armies of the Wala Zerg condensed energy once again, and the terrible Zerg aura instantly permeated.

"Hurry up, otherwise I can only break through by myself and can't save you."

Venerable Jueshan roared.

"Well, a good idea!" Qin Chen nodded.

Venerable Jueshan hoped to look at Qin Chen with fiery eyes.

Qin Chen said with a smile: "However, I refuse."

"you....."

Venerable Jueshan looked at Qin Chen in anger. He couldn't understand why Qin Chen refused. Isn't he surrounded by Zerg and afraid of death?

A horrified thought faintly appeared in his heart, but this thought was so terrible, he didn't dare to think deeply.

"That's your own death."

Venerable Jueshan roared and banged, his figure swayed quickly, and rushed toward the side of the Zerg army. He had to escape, and it would be too late.

boom! One large, eight small and nine ancient sacred mountains quickly surrounded him, erupting with a terrifying roar. At the same time, a terrible evil aura suddenly exploded on the glove of Venerable Jueshan's right hand, which condensed into one. Like a sharp blade

Jian Shuo aimed at a corner of the Zerg army and blasted it.

On the field, the zerg worms are scattered in various parts, and the aura of the worms in that direction is obviously the weakest and the easiest to break through. This is the breakthrough point found by the Venerable Jueshan.

"aim!"

"attack!"

Buzzing and buzzing... On the Oala Zerg, countless light beams quickly merged together, and the rays of light gathered, quickly urging the combined attack technique, but they had just urged the combined attack technique. This method needs to be mobilized. A lot of power, naturally not

It can be easily released.

"Huh, it's too late, the Zerg army will fight together, it's not that easy."

Venerable Luoshan had a ferocious look in his eyes, and he wanted to attack before the Zerg combined attack technique succeeded.

"Huh? It seems too late!"

Qin Chen narrowed his eyes and saw the clue.

Whoosh!

He soared into the sky, and suddenly, an invisible force of time rules, quickly diffused out, and suddenly enveloped Venerable Jueshan.

"you....."

Venerable Jueshan's mind was suffocated, and he turned his head in anger. How could he never think that Qin Chen would dare to do something to him at this time?

Then he saw a scene that made him cold.

In the sky, Qin Chen stood proudly in the sky, and coldly said to the countless zerg army: "Listen to my orders, the Wala army, attack!"

boom! Countless rays of light, like honeycombs, quickly condensed into a pillar of light that cleared the sky, and slammed to Venerable Jueshan, alarming Eternal Sky!

[Chapter 3755: Mystery ring](#)

Hum! I saw the power of the tens of thousands of Zerg army quickly merged between the heavens and the earth, and the heads of each of the Zerg tribes were filled with light, and countless lights gathered together and gathered into a palpitating rainbow light. , Wanzu

The space of the battlefield was extremely fragile in front of this rainbow light, and it was faintly torn apart.

"Nine absolute sacred mountains!"

Rumble! Venerable Jueshan can no longer think about why Qin Chen can order the zerg army. His mind flashed, and he madly broke away from Qin Chen's time rules. At the same time, the nine sacred mountains were madly roared. package

Wrapped his body.

Venerable Jueshan was trapped by Qin Chen for only a moment, but it was too late after he reacted and broke away from Qin Chen's time rules.

The rainbow light that pierced the sky had already come before his eyes.

The distance is too close!

"Boom!" Venerable Jueshan madly urged nine sacred mountains, and in his body, lines of lines bloomed out, and his physical body seemed to have turned into a towering sacred mountain, blooming with pitch-black light, one after another. The evil spirit is concentrated in his right hand

On, he fisted out.

The dazzling rainbow light that made Qin Chen feel palpable, directly bombarded the nine ancient sacred mountains that Venerable Jueshan urged hastily.

Push and pull like rotten!

Lost a sacred mountain, the Jiuju sacred mountain array, whose power was greatly weakened by more than 50%, was blasted away suddenly, and the ancient sacred mountains trembled violently, like being hit by a high-speed beast, and they were knocked out.

With the continuous advance of that thick rainbow light, the energy is becoming more and more compressed...

After blasting through the nine ancient sacred mountains, the extremely compressed rainbow light finally collided with the fist blasted by Venerable Jueshan, and a shocking explosion occurred.

It's quiet first!

The world seems to be quiet!

follow closely--

"Boom!" The space where Venerable Jueshan was located was completely disintegrated, the high mountain rock directly turned into nothingness, and more rocks were directly involved in the interlayer of space with the turbulent flow of space debris, bang bang... Venerable Jueshan had a shocking explosion.

At this moment, an invisible evil force condensed and protected the body of Venerable Jueshan.

"Boom!" "Boom!" "Boom!"

After being stunned by powerful energy continuously, the terrible shock finally dissipated after countless blood was sprayed out.

puff! In the end, a mouthful of blood spurted out, and Venerable Jueshan was covered with blood, and finally stood proudly in the void. At this moment, Venerable Jueshan had almost no perfect appearance. The power of the peak of Human Venerable was constantly surrounding him, repairing By his body body.

"The power of the pinnacle in my body has been wiped out by 50%."

The two joint Zerg attacks have wiped out most of the power in Venerable Jueshan, the whole person was severely injured, and the breath of life dropped by a full half.

However, he is not dead!

"Huh?" Qin Chen frowned and looked at Venerable Jueshan. He did not expect that Venerable Jueshan's defensive power should be so terrible. He forcibly endured the suppression of an army of tens of millions of Zergs twice, but did not fall. Chen's eyes fell on the right hand of Venerable Jueshan

Above a ring. This ring is very peculiar. Before Venerable Jueshan had a boxing glove on his right hand, Qin Chen thought it was a precious boxing glove, but now he could see that it was actually transformed by this sword-shaped ring, exuding terrible The power of evil spirit, when attacking

Evolve a five-finger ring sleeve.

During the previous crisis, the terrible evil spirit that burst out of this sword-shaped ring, resisted the power of the vast majority of the warrior zerg army, so that Venerable Jueshan was not directly exploded.

This thing is extraordinary.

But that's it.

Huh!

Qin Chen's figure moved, and the mysterious rust sword appeared in his right hand. Suddenly, terrible sword intent rose to the sky, destroying sword intent, death sword intent, origin sword intent, eternal sword intent...

The sword intent of the heavens merged and turned into a sword qi to the sky, which was aimed at Venerable Jueshan and cut it down. At the same time, countless spatial rules entangled, sealing Venerable Jueshan's entire body and imprisoning him in Here.

Whoosh whoosh!

In the distance, all the tens of millions of armies of the Wala Zerg also moved. This time, the tens of millions of armies were instantly divided into ten parts, led by Gu Limo and many other worms, and surrounded.

After two consecutive attacks, these worms' army also consumed a lot of strength, unable to release a combined blow again in a short time, and could only disperse their actions, but this was enough.

Although Venerable Jueshan is still alive, he is seriously injured and dying, which is not justified.

"Qin Chen!!!" Venerable Jueshan looked at Qin Chen in anger, and uttered an unprecedented screaming roar. The sword-shaped ring in his right hand exploded with murderous aura, absorbing the surrounding attack power, and finally evolved into a fist sword. The sword intent Qin Chen split out collided with one another

Up.

puff!

The next moment, Venerable Jueshan flew out directly, covered in blood, and the sky full of sword aura turned into dense blades, madly penetrating Venerable Jueshan's body, rushing straight through his body.

"How could it be..." Venerable Jueshan was instantly stunned. He knew that Qin Chen's strength was extraordinary. Although he was not a Venerable, he was only strong or not weaker than ordinary Venerables, but he never expected it to be so strong. At this level, even if he is seriously injured, he is still at the pinnacle of human respect.

His hand was actually injured by that kid's attack?

Really a tiger fell into Pingyang and was bullied by a dog!

Venerable Jueshan smashed his teeth, and the anger in his heart could not be suppressed. If it were his heyday, how could he be so oppressed by Qin Chen.

"Venerable Jueshan, there is a way to heaven, you don't go, and there is no way to hell. You have to break in. Today is your death date."

Qin Chen stood proudly in the void and said coldly.

Rumble! Stabbing Sky Qiong brought many Zerg armies and killed them forcefully. Although the overall attack of the tens of thousands of Zerg troops could not be shot for the time being, under the leadership of Sting Sky Qiong, millions of Zerg troops still turned into one by one. The little

The type of legion, constantly launched a fierce attack towards Venerable Jueshan. Pillars of light condensed. During the heyday of Venerable Jueshan, he was naturally not afraid to stab the sky and other insects, but at this moment, he was constantly parrying. Horrible eruption

The evil spirit has already been beheaded.

But even so, he was still in a panic and could only retreat frequently to resist.

"This is..." Qin Chen stared at the glove formed by the sword-shaped ring in the right hand of Venerable Jueshan, his eyes narrowed slightly. This treasure is so powerful that it can form a unique defense based on the attack displayed by the opponent. Venerable Jueshan persisted till now.

[Chapter 3756: Tongtian Channel](#)

"interesting."

Qin Chen sneered, and the Tianding Ding suddenly went out for actual combat, and a series of terrible sky fires filled Qin Chen's body, booming, this sky fire could burn the noble master, and instantly enveloped and entangled the noble mountain.

A strong sense of crisis suddenly emerged in Venerable Jueshan's heart, and immediately afterwards, he discovered that the Venerable Qi he had displayed had been rapidly burned up and consumed continuously.

Little ants and little fire swarmed out, madly devouring the breath displayed by Venerable Jueshan.

In an instant, Venerable Jueshan was plunged into endless danger.

"Qin Chen, as a human race, you have colluded with the Zerg race. You deserve to die." Venerable Jueshan roared. He was badly injured, and his strength was less than half of his peak period. The formation was broken, and half of his combat power was lost. In other words, the strength of Venerable Jueshan at this moment is more

In its heyday, only one to two percent.

How can you withstand so many attacks?

He glanced at Qin Chen bitterly, knowing that he couldn't kill the opponent today, and with a bang, the breath in his body exploded frantically, and he even ransacked toward the armies of the Wara Zerg.

"Where to go?!"

The masters such as Stabbing Sky Qiong were ecstatic, how could they not see that Venerable Jueshan had reached the end of the crossbow, and they did not give him a chance to escape. The terrible insect power was used desperately to kill him madly.

As long as it is killed, it is not weaker than the feat of destroying the army of the wolf clan in the Ten Thousand Demons Mountain Range, and it is even worse.

The pinnacle powerhouse will always be the existence with the most achievements on the battlefield of ten thousand races.

Rumble!

A terrifying battle unfolded between the heaven and the earth, and the entire sky turned into an exploding ocean in an instant, and the Zerg masters such as Stabbing Sky Vault also fought. The terrifying power of the worm and the energy of the sacred attack each other, and the sky and the earth broke in an instant.

Under the siege of many Zerg armies led by Assassin Sky Qiong, Venerable Jueshan was filled with fright and could only parry frequently.

If he is in a state of complete victory at this moment, there may be hope of breaking through, but now he is seriously injured and immediately plunged into crisis.

"Damn it!"

"The strong man in the world who wants to kill the old man does not know Fanji, how can the old man die here?"

After repeated battles, Venerable Jueshan became more and more difficult to support, he suddenly roared, and a horrible breath of the mountain was released from his body.

Buzzing buzzing...

The nine sacred mountains flickered and connected to each other. Although one was lost, it still turned into an extremely powerful formation, and a towering mountain shadow emerged in the void. This mountain shadow, as high as ten thousand meters, shrouded the void of the heaven and earth, bang, bang, piercing sky and other insects, were directly shocked by this mountain shadow, and you saw this group of phantom shadows, like a sky curtain, facing the surroundings. The emptiness swept out,

The misty black light enveloped the void within hundreds of miles.

In the void, the vitality of Venerable Jueshan was burning. These nine sacred mountains glowed, creating a mysterious connection with the void, and a faint void passage was born, leading to an unknown world.

"Tongtian Shenshan Passage!"

Venerable Jueshan roared, his figure was gradually attracted to that passageway, and he wanted to leave here.

"Not good!" The complexion of the masters such as Stabbing Sky Qiong changed, banging, madly displaying attacks one by one, trying to stop Venerable Jueshan, but to no avail, the figure of Venerable Jueshan was wrapped in the nine ancient sacred mountains, as long as this. The nine ancient sacred mountains were not bombed, then

Venerable Jueshan's departure will not be prevented.

This magical power is too amazing.

Although the Nine Jue Divine Mountain Formation is not complete enough, it is definitely not the piercing sky that they can break in a moment. If they are given enough time, they may be able to leave Venerable Jueshan, but now they lack the most. It's time. "Qin Chen, I didn't expect you to collude with the Zerg. It's hateful. Although you ambush me and hurt my vitality, your fate will be even more miserable. Monsters? God work? They dare to protect you, your secret is already Found by me as long as I

Returning to the Daewoo Mountain, you can order the entire Human Race Alliance to want you. By then, not only will you die, but you will be implicated in the demon race by working hard. "

Venerable Luoshan said fiercely.

"is it?"

Qin Chen looked at this scene without the slightest panic, "Do you think you can leave today?"

boom!

In his body, a terrible atmosphere of darkness filled out, the power of darkness.

Under the blessing of the power of darkness, the aura on Qin Chen's body quickly soared, and with a boom, the aura of the origin of time rose up, confining the world.

Suddenly, Venerable Jueshan's figure stagnated.

"The power of darkness... you really took refuge in the demons." Venerable Jueshan said in anger, his thoughts flashed, but there was no panic. Qin Chen's time rules are indeed terrifying, but they can only trap him for an instant. That's it, even the blessing with the power of darkness is the same, as long as the time limit is

In the past, he was able to break free and escape directly from here.

As long as his passage to the heavenly sacred mountain is not destroyed, then he is fearless. How could Qin Chen not understand the truth that Venerable Jueshan knew? His eyes were cold, and his thoughts moved. In his body, stars suddenly surging out, a total of nine hundred and ninety-nine star cores, suddenly flashed, turning into a large array of stars, and

And blended into the power of darkness, it slammed into the great ancient sacred mountain formed by Venerable Jueshan.

"The star core... isn't this the treasure of Xidoro in the Star God Palace? Why..."

Venerable Jueshan looked at Qin Chen in horror. This was a master at his level, a strong man at the pinnacle of human respect. It was extremely difficult to kill, but how could Xidoro's treasure appear on Qin Chen? Could it be...

next moment!

The gazes of Venerable Jueshan and Chongtianqiong, etc., turned round instantly!

With a click, a huge gap was exploded on the invisible mountain like a sacred mountain, as if the cloth was torn.

The power of the nine hundred and ninety-nine star cores, under the blessing of the power of darkness, combined with the technique of patching the sky and the origin of time, instantly tore the sacred mountain channel performed by the nine absolute sacred mountain array.

This passage was directly exploded and turned into nothingness and disappeared.

"impossible!"

Venerable Jueshan roared in anger.

Rumble!

Qin Chen urged the great formation of stars. The core of the stars alone could not destroy the great formation of Venerable Jueshan. However, under the technique of patching the sky and the origin of time, Venerable Jueshan's escape route was naturally destroyed and exposed again. In front of everyone. This time, after burning his life, his breath became more wilting.

[Chapter 3757: Evil Sword Ring](#)

call!

The great formation was forced, and the flames of the heavens instantly enveloped the figure of Venerable Jueshan.

Venerable Jueshan suddenly felt severe pain all over his body, and a dizziness came in his mind.

No, he was taken aback. An invisible poison mist rule penetrated his injured body and penetrated into his body. Wherever the poison rule passed, his meridians began to rot and his mind was dizzy.

Moreover, the terrible flames were burning his flesh.

Boom!

Above the sky in the distance, a series of attacks fell, Stabbing Sky Sky and other Insect Venerable masters, with rich combat experience, all seized the opportunity. The terrible rainbow light fell, and blasted on him under the horrified eyes of Venerable Jueshan. .

"Damn it, Daewoo Sacred Mountain, I will definitely avenge this seat!"

Venerable Jueshan roared frantically, and at the same time, knowing that he could not survive, he roared, his body suddenly swelled, and a force of ruining the world spread out.

"No, this guy is going to blew himself up!"

The general of the Wara Zerg tribe stabbed Tianqiong's complexion suddenly.

"The origin of time!"

Qin Chen also had cold eyes, and once again urged the origin of time. At one billionth of an instant, the void was confined. Then, he urged the mysterious rust sword, bursting out a dazzling sword rainbow, and brazenly struck Jueshan. Lord.

With a chuckle, Venerable Jueshan, who had been severely injured, could no longer resist. With a roar, the ashes disappeared in an instant and he was chopped into powder.

"call!"

In the dark mountains and the endless cold wind blowing, Venerable Jueshan's body disappeared completely without a trace.

boom!

The Venerable's origin dissipated, like a rolling heavenly might, merged into the world of ten thousand races, and the nine ancient sacred mountains, a small world, a ring and other treasures were suspended in the void.

Below, Stabbing Sky Sky and other insects were completely stunned.

"My Wala Zerg actually killed a master of the pinnacle of human respect?"

Venerable Jueshan has a high level of cultivation, earth-shattering, and he comes from the top human race. Such powerful people have a lot of life-saving methods, and it is extremely difficult to kill.

At least, the Wala Zerg has never heard of it, anyone in a Zerg legion of their level has killed a pinnacle human master.

But this time, they did it.

The eyes of all the Zerg masters focused on Qin Chen, and they all knew that it was all thanks to Qin Chen.

If they were alone, it would be impossible to kill Venerable Jueshan. Even if an ambush is not good, it will be killed by the opponent, and the entire legion and race will be destroyed.

So that at this time, Stabbing Sky Sky and other insects are a little unbelievable.

Now even if Qin Chen didn't display the demon aura, they believed that Qin Chen was a member of their demon camp. Otherwise, how could the human camp help them kill the pinnacle of the human race.

"Venerable Jueshan is finally dead."

Qin Chen's heart also fluctuated slightly. This time, without the help of the Nine Life Demon Venerable, he did not even use the power of the Dark King's blood. Instead, relying on himself and the Wala Zerg, he killed Venerable Jueshan in one fell swoop.

When Venerable Jueshan died, the feeling of being stared at in Qin Chen's heart finally dissipated, making him completely relieved.

Venerable Jueshan fell, the original power in his body madly dissipated, and rumbling, Qin Chen came to the place where Venerable Jueshan fell, and felt this source of origin.

The origin of being a pinnacle master is of great benefit to the universe, and it also has a huge effect on Qin Chen Breakthrough.

The essence of Taoism entered Qin Chen's body, giving Qin Chen a deeper understanding of the venerable.

An extremely inflated breath of venerable emanated from Qin Chen's body.

"What a terrible aura, is this Lord Demon Chen going to break through?" The complexion of many worms such as Qi Tianqiong changed drastically, and they felt an extremely terrifying aura from Qin Chen's body, which seemed to directly affect their souls. , At this moment, the hearts of all the Zerg powerhouses including Stabbing Sky Vault are rising

There was an endless sense of fear, and the throbbing from the soul even made them feel like they wanted to submit to Qin Chen.

"I am a master close to the peak of Human Venerable. This Master Demon Dust has never reached even the Venerable. The breath that escapes can make my soul feel throbbing and even surrender? It's really scary."

Stabbed Tianqiong's heart in awe.

Hum!

At the critical moment, the aura in Qin Chen's body was restrained. Although Venerable Jueshan's original strength made him feel, it did not allow him to directly break through the realm of Venerable.

Even so, Qin Chen had a huge gain.

Whoosh!

Qin Chen raised his hand and put all the treasures of Venerable Jueshan in the Universe Good Fortune Jade Disc. The zerg masters such as Stabbing Sky Vault naturally did not have the slightest dissatisfaction.

"Master Demon Chen, where are we going next?"

Not long after, Stabbing Sky Qiong and other insects swept over with a shocked face.

"Go back to your Wala Zerg camp first."

Qin Chen said with a smile.

At the moment, the Wara Zerg army and Qin Chen set off one after another and returned to the camp.

In the process of flying by, Qin Chen could not help being curious, excited, and agitated. His divine consciousness had entered the jade disc of Universe Good Fortune, and he began to study the treasures he had obtained from Venerable Jueshan.

In a world of jade discs. Qin Chen's perception first fell on the nine ancient sacred mountains. These nine ancient sacred mountains exude a terrifying aura. Although they are a little broken, their core essence has not been damaged. Once they are repaired, they will be sacrificed by Qin Chen. become

Qin Chen's new treasure.

Of course, this kind of treasure is too characteristic of Daewoo Sacred Mountain. Under normal circumstances, it cannot be used easily. It is just like Xidoro's 999 star cores and can only be displayed on certain special occasions.

Then, Qin Chen's perception fell on that ring again. It was the sword-shaped ring before, which made Venerable Jueshan hold on for a long time, otherwise he would be attacked by the tens of millions of Zerg army in the second round. It should have almost fallen.

Qin Chen's divine consciousness penetrated directly.

boom!

Venerable Jueshan has long since died, and the soul mark on the sword-shaped ring is like water without a source.

Suddenly, a terrible evil spirit suddenly filled Qin Chen's mind.

Boom boom boom!

This evil aura constantly hit Qin Chen's mind and soul, making Qin Chen's mind feel the endless coldness.

Evil sword ring!

This name emerged in Qin Chen's mind, and suddenly, the various functions and special energy of this ring gradually came to Qin Chen's mind.

"Good baby!" Feeling the effect of this evil sword ring, Qin Chen was overjoyed. This turned out to be a treasure that could evolve fist and sword evil. Moreover, this thing is from a relic of Venerable Jueshan. Earnings not long ago would not reveal his identity, and he himself didn't even fully understand the effect.

[Chapter 3758: Identity Jade](#)

Evil sword ring!

There was ecstasy in Qin Chen's eyes, hum, his consciousness blended into this sword-shaped ring, and a terrifying suffocated suddenly surged.

Rumble!

This evil spirit echoed in Qin Chen's mind, and there was an effect that could temper his soul.

"Try refining first."

Qin Chen's powerful soul power penetrated into it, and he began to refine this evil sword ring. There were many restrictions in this evil sword ring. As soon as Qin Chen's soul power penetrated into it, he was hit by a powerful evil spirit.

This evil spirit kept hitting Qin Chen's soul, and there was a feeling that he wanted to stop Qin Chen from refining.

"interesting!"

Qin Chen chuckled, this evil spirit was extremely terrifying, even with the artistic conception of infinite sword energy cutting in the abyss of the funeral sword, ordinary venerables who want to stay awake in this evil spirit may not be able to do it easily.

But who is Qin Chen?

Perhaps, his cultivation is far inferior to some masters, but in terms of soul strength, Qin Chen is only strong or not weak compared to a pinnacle like Venerable Jueshan, and naturally he will not receive the restraint of this power. .

The heavenly soul forbidden technique was used, hum, Qin Chen's soul turned into sharp blades, entered the scarlet evil spirit, and then came to the forbidden place in this evil sword ring.

"This restriction..." Qin Chen was shocked instantly. The restriction in front of him was very complicated and extremely profound. Even Qin Chen had a sense of dazzling confusion. Looking at this restriction, Qin Chen seemed to see the movement of heaven. It's extremely fierce when it comes to heaven and earth

Killing intent, there is a deep shock.

It made him feel at a loss what to do, not knowing how to start refining.

"The Art of Patching the Sky!"

Qin Chen urged the sky-repairing technique, the sky-repairing technique, which was the most powerful refining technique in the ancient palace of replenishing the sky. Refining this evil sword ring.

Qin Chen's soul power gradually attached to the evil sword ring, and after a while, Qin Chen left a soul mark on the evil sword ring.

Hum!

A sword-shaped ring suddenly appeared on Qin Chen's right hand, who followed the Wara Zerg to the Zerg camp, and a suffocating air filled Qin Chen's body.

This horrible flow quickly formed a five-fingered glove-like weapon on Qin Chen's right hand.

"It is rumored that this thing can condense fist and sword evil, it's better to try it." Qin Chen thought, and the fist of Origin moved. Suddenly, Qin Chen's right fist began to explode fierce evil spirit, as if a stern roar came from the void. The sound, like Jiuyou rushing to the soul, an invisible force enveloped Qin Chen, the rules of heaven are in Qin

Dust began to gather on Chen's fist.

"Master Demon Dust..."

Stabbing Sky Qiong and other Chongzun masters were all shocked, and even turning his head, he saw Qin Chen's whole body covered by a **** evil spirit, and the hidden facial features were looming, like a demon **** coming out of purgatory.

In addition, Qin Chen's right fist exuded an aura that made their hearts palpating, and the soul seemed to be falling into this bloodthirsty killing intent, about to collapse.

"Good baby." Qin Chen was agitated. Once this object was activated, the condensed fist-gang evil aura could not only increase his own strength a lot, but more powerfully, this object could conceal the caster's own power attributes and breath, making The other party cannot recognize the user's original

The attributes of this.

Immediately afterwards, Qin Chen's heart moved to transform his fist into sword energy. Suddenly, on Qin Chen's right hand, a sharp sword of evil spirit filled the void, cutting the void.

"Sure enough, not only is it effective on fist intent, but also on sword intent. In this way, if I perform some moves, I won't be afraid of being thrown out." Qin Chen continued to study this evil spirit. Sword Ring, found another effect, this thing can not only improve the strength of the caster, when encountering an external attack, it can also form a unique killing according to the strength of the external attack.

Qi defense, to leverage strength to fight.

"Stab the sky, you will shoot at me now."

Qin Chen said suddenly.

"what?"

Thorn Sky Qiong looked at Qin Chen in astonishment, with a look of horror on his face, and said nervously: "Master Demon Chen, did your subordinates do something wrong? If Master Demon Chen has any dissatisfaction, please feel free to punish him."

"What or what, I just want to verify the power of this thing, you just shot me." Qin Chen said lightly.

Stabbing Sky Qiong then reacted, "The subordinate will do it."

Hum!

At the center of the eyebrows, a terrible rainbow light condensed into a circular energy vortex. The next moment, a bright rainbow light burst out of the energy vortex, and instantly blasted towards Qin Chen.

Rumble!

When this force was about to hit Qin Chen, the evil spirit in the evil sword ring sensed the external attack, and it surged in an instant, forming a evil spirit barrier, blocking the sky-piercing attack.

Qin Chen's body shook, and this terrifying force penetrated the barrier, trying to tear his body, but it was resisted by Qin Chen's six reincarnation swords. "Awesome, Stabbing Sky is a master close to the pinnacle of human respect. Under normal circumstances, even if he didn't use his full strength, this blow was enough to injure an ordinary nobleman, or even seriously, but this force just hit me When, but Wei It's much weaker, and the damage to me is extremely slight. "

"This Evil Sword Ring, at least blocked 50% of the power of the previous strike that pierced the sky."

"Hiss!" Qin Chen was excited and was able to withstand 50% of the attacks from the piercing sky. This kind of treasure is much stronger than armor or other treasures. Generally, even a Venerable-level armor can only be used. Weaken 30% of such masters

The power is already very good.

"Previously, Venerable Jueshan was able to block the second attack of the tens of thousands of armies of the Wara Zerg. It should be the effect of this evil sword ring."

Next, Qin Chen began to search for the remaining treasures.

The Jiuju Divine Mountain Array is definitely one of the most powerful treasures of Venerable Jueshan, and it is also a set of Venerable's objects. Although it is a bit broken now, with Qin Chen's skills in refining, it will definitely be able to be repaired. One more hole card.

It's just that these trump cards cannot be easily displayed.

At least he couldn't use it as Qin Chen.

"Huh, what is this?"

Suddenly, Qin Chen found a white jade plaque from the storage space of Venerable Jueshan.

This jade medal had a special aura, it appeared in his hand instantly, and there was also a trace of Daewoo Shenshan on it.

"Master Demon Dust, this is the identity token of your Human Race Alliance."

Stabbed Sky Qiong said suddenly.

"Identity token?" "Yes, Lord Demon Dust, don't you?" Stabbing Sky Qiong looked at it with some confusion," On the battlefield of Ten Thousand Races, no matter which force it comes from, there are identity tokens, like this white one. , Is the identity token of your Human Race Alliance, and our Demon Race Alliance is black."

[Chapter 3759: Black market order](#)

As the voice fell, a black token suddenly appeared in the hands of Stabbing Sky Qiong. On top of this black token, there was a special atmosphere of Zerg.

Whoosh!

Qi Tianqiong handed this black token to Qin Chen's hand.

Comparing the two tokens, Qin Chen did perceive completely different auras from the two tokens, one with a gloomy aura, and the other with a cold aura, which can be easily distinguished. Come out different from each other. "This token is owned by everyone who enters the battlefield of ten thousand races. Even a fighter will have such a token, and each token is made of special materials and consists of two major The alliance is specially refined, not

Can be imitated. "

Qin Chen infiltrated the two tokens, and was surprised to find that the materials of the two tokens could not even be imitated by him. They looked like gold but not gold, like iron and not iron, like stone but not stone, Wood is not wood.

Moreover, it contained a special restriction, even Qin Chen could not easily see through this restriction.

"hiss!"

Such a sophisticated refining technique.

Qin Chen was surprised, this was just a token, so mysterious?

"Master Demon Chen, don't you have a token? This is the first thing every soldier must get after entering the battlefield of Ten Thousand Races." Qi Tianqiong looked at Qin Chen with some surprise.

"What's the use of this token?" Qin Chen wondered.

"The effect is extraordinary." Stabbed the sky. "First of all, this token is a status symbol for everyone. There are too many ethnic groups on the battlefield of ten thousand races, and there are more than tens of thousands, such as human race, monster race, zerg race, demons and other races. Their camps are like some special ethnic groups, such as Nashi, Kuoyi and other minorities. It is difficult to identify

each other's camp. In this case, authentication tokens are needed. Through identity tokens, they can be distinguished. Which camp does it belong to, a friend, or

Is the enemy. "

"In addition, these tokens contain the merits of everyone."

The words of the stabbing sky fell, hum, and suddenly, on top of the black token in Qin Chen's hand, a number appeared, "137.5 million!"

"Master Demon Dust, this is my merit. These merits will only be promoted after killing the opponent's camp. According to the merit value, you can exchange the various treasures you need in their respective camps. Dharma, a secret book." "Like this one hundred and thirty-five million, three and seventy-five million were possessed before the next, and this one hundred million meritorious deeds were obtained by killing Venerable Jueshan Yes, with more than one hundred million merits, I can win the Wala Zerg in the Demon League

Take all the resources we need. "

Thoroughly explained in detail.

"So, Venerable Jueshan is worth 100 million points?" Qin Chen asked. Stabbing Sky Qiong shook his head, he finally realized that Qin Chen should not know anything, and explained in detail: "The points of the Human Alliance and our Demon Alliance are the same. A person who respects a strong person has 100 million points, and Jueshan The Venerable is the pinnacle,

So up to one billion points. "

"It's just that these one billion points were shared by the tens of millions of our Wala Zerg army before. I and Gu Limo and other insects have gone by 500 million. The remaining 500 million will be divided by other troops."

"One billion points is enough for us to redeem a treasure in the exchange city of the Demon Alliance."

Stabbed Sky Sky excitedly.

This is the first time that they have won one billion points at a time.

"Then how is this feat calculated?" Qin Chen was puzzled.

For example, he did not have an identity token, which also led to the fact that even if Venerable Jueshan was beheaded by him, the merits were still counted on the Wala Zerg. "The subordinates don't know the specific calculation method. The subordinates only know that this calculation method is very special and does not need to be specially allocated. In the dark, it has its own heavenly movement and can record each other's feats. We don't have our magic

The identity token of the Clan Alliance, so you will not be assigned merit points. "

"If I wait and don't take action, it's only Master Qin Chen that you kill the Venerable Jueshan alone. As a strong man in the Human Alliance, you will not get merit points if you kill the people in your own camp."

Thorny Sky explained in detail.

Gradually, Qin Chen also understood the effect of this token.

First of all, this token represents each other's identities. People in different camps have different tokens and have their own unique tokens on them, which cannot be forged.

Moreover, in the same ethnic group, the level of the tokens obtained is different, and the tokens of the ordinary Wala Zerg are far less advanced than those of the worms like Stabbing Sky, but they are also unforgeable.

Secondly, as long as the bearer's own identity token kills the strong from other camps, it will automatically generate merit points based on the battle exploits.

"So, in this token, there should also be points earned by Venerable Jueshan?"

Qin Chen took the token of Venerable Jueshan and fought for a long time, but could not show the merits.

"Master Devil Dust, it's useless, in order to prevent people from each other's races from fighting each other and gaining the merits in the other's token, so the merit value in any identity token can only be unlocked by the person, and outsiders can't unlock it at all. "

Qin Chen looked speechless, so he got a waste?

"Huh, what is this?"

Suddenly, Qin Chen said in a puzzled voice, sigh, a gray token appeared in his hand.

The shape of this token is very similar to the identity tokens of the Human Race and the Demon Race, but it does not have the unique flavor of its camp, which is very strange.

"This is... the black market order!"

Stabbed Sky Qiong said in shock.

"What is the black market order?" "The black market order is issued in the black market on the battlefield of ten thousand races. This token can not only kill foreign races to gain merit, but also kill the same race to gain merit... And this kind of merit can be used in the black market. Used in, but compared to their respective camp's identity order

The accumulative feats of this black market command are only half of the identity token. "

Qin Chen was surprised, there is still such a thing?

"Is this the camp of the Human Alliance or the Demon Alliance in this black market?" Qin Chen wondered. "Master Demon Dust, the black market does not belong to the Human Alliance, nor does it belong to the Demon Alliance. In that black market, people from the two major alliances can enter... Moreover, generally, those with a black market order are intended to be secret. Kill the masters of your own faction

, To obtain meritorious benefits. "

Qi Tianqiang looked strange and said: "There is no black market order under his subordinates."

"What do you mean..." Qin Chen's eyes flashed and he instantly understood. Indeed, if you kill a strong alien, your identity token can accumulate merits. Why do you need a black market order? After all, the merits gained by stimulating the black market order are only half of their own identity tokens, and generally only those who want to kill the strong in their own camp.

People will have this kind of black market order. In that case, Venerable Jueshan has been secretly killing the masters of the Human Race Alliance?

[Chapter 3760: 100 million meritorious service](#)

Thinking of this possibility, Qin Chen's eyes suddenly became cold, and there was a lot of cold light.

This Venerable Jueshan, what a despicable means.

Rage surged in Qin Chen's heart. For meritorious deeds, in exchange for treasures, Venerable Jueshan could kill even people in his own camp, so what else could he not do?

Of course, it is also possible that he has wronged the other party. Although Venerable Luoshan has a black market order, he may not have really killed anyone in the human camp.

But thinking of Venerable Luoshan's cruel means of chasing and killing himself, Qin Chen felt that he was afraid that the possibility of wronging him was very small.

"Master Demon Dust, the black market order, has no identity imprint, and it is anonymous. Anyone only needs to enter the divine consciousness into it, then they can show the merits and use it." Stabbing the sky.

Hearing that, Qin Chen was about to infiltrate his own divine consciousness, and as expected, with Qin Chen's refining skills, he immediately felt that the structure of the black market order and the identity token of the human race itself were quite different.

At the same time, a line of numbers was displayed on the black market order.

"170 million meritorious deeds!"

hiss!

This time, not only Qin Chen was shocked, but also several big worms, such as the Sting Sky Qiong of the Wala Zerg, took a breath of air.

This value is simply too high. It should be understood that the black market order can only get half of the normal merits, and the merits of killing a Venerable is 100 million. If doubled, it will be more than 300 million merits. In other words, the Venerable Jueshan once killed Kill at least three people of the Human Alliance Venerable Gao

hand.

This is just his merit in the black market order at this moment. Qin Chen does not believe that Venerable Jueshan has not consumed the merits in the black market order. If this is counted, how many Venerable Jueshan has killed in this ten thousand race battlefield A master of the Human Alliance?

Daewoo Sacred Mountain!

Qin Chen's heart was cold and killing intent surging, is this the so-called top Human Race power? Although Qin Chen still doesn't know the black market order of Venerable Jueshan, it's just his personal behavior, or the practice in Daewoo Sacred Mountain. That at least shows that Daewoo's sacred mountain may not be as clean as it is rumored.

The ground did not know what male thieves and female prostitutes had done.

"Huh!"

Putting away this black market order, Qin Chen's eyes became increasingly cold.

After listening to Stabbing Sky Qiong explaining these three tokens in detail, for some reason, Qin Chen was born with a feeling, as if the appearance of these three tokens seemed to be manipulated.

It's just that Qin Chen has too little contact now, so he can't see any clues at all.

At this moment, Qin Chen and his entourage had returned to the army camp of the Wala Zerg.

Qin Chen did not stop, and continued to search the storage world of Venerable Jueshan.

Hum!

An ancient mirror appeared in Qin Chen's hands.

"Venerable Jueshan used this ancient mirror to keep me locked in."

Qin Chen perceives the prohibition in this ancient mirror, and gradually refines it.

After a while, Qin Chen also understood the principle of this ancient mirror. This object, called the tracking mirror, can lock the opponent's position based on the aura remaining in the void, even if a warrior leaves the void for several months, as long as it has passed through here, this tracking mirror can find the other party to leave

Direction.

"No wonder Venerable Jueshan has been able to lock me in."

This ancient mirror was obtained from a certain ancient relic of Dayu Shenshan, and was a product of ancient craftsmanship. It was extraordinary, even among the top human race forces, it was rare.

"Venerable Jueshan is really a gift boy."

Putting away this tracking mirror, Qin Chen sneered.

Then, Qin Chen continued to search the small world of Venerable Jueshan's storage. From it, Qin Chen found a complete Venerable's holy vein, as well as many holy veins, as well as many refining materials and elixir. There are more than ten Venerable Elixir.

I have to say that compared to Xidoruo, this Venerable Jueshan is even richer.

For the next period of time, Qin Chen did not leave the Oala Zerg rashly, but practiced in the Oala Zerg camp.

When Qin Chen was in the Wala Zerg camp, he was practicing hard.

Among the mountains of Daewoo.

boom!

A terrifying figure suddenly descended in the hall of Dayu Shenshan.

Suddenly, the terrifying aura surging through the entire Daewoo Divine Mountain, and the rumbling roar unconsciously shook all the strong men who were in retreat in Dayu Divine Mountain.

"Master Mountain Lord!"

Perceiving this breath, deep in the endless space of Dayu Shenshan, many retreat masters opened their eyes one after another, and the horror that showed in their pupils saluted respectfully.

At this moment, the mountain lord of Dayu Shenshan is full of anger, the endless aura of destruction is violent, and with mighty anger, it is the first time that many powerful people of Dayu Shenshan feel such anger from the lord of the mountain.

What happened?

Could it be that their Daewoo Sacred Mountain's legion on the battlefield of ten thousand races was hit hard, or was there something wrong with Lord Shan's cultivation?

"Venerable Jueshan has fallen."

Daewoo Shenshan Mountain Master said coldly.

"What? Didn't Venerable Jueshan go to the Eastern Heaven Realm to find out about Palace Master Yaomie and that Qin Chen? How could it fall?"

"Could it be that the Jinlin of the Demon Race was killed? There was news before that the Jinlin under the command of Xiaoyao Supreme came to the Eastern Heaven Realm and asked the people of all major forces to leave the four great heavens. Could it be the hands of the Jinlin of the Demon Race?" Too much, that Jinlin is a member of the monster race. If it were not for Xiaoyao Supreme, how could the human races like me let him go wild in the four heavens? As far as I know, the only one who fell at that time was the Venerable Dunkong, I Venerable Daewoo Shenshan Jueshan first time

He immediately withdrew from the Eastern Celestial Realm, why did Jinlin do it? "

"Venerable Jueshan is a pinnacle master. If not, who else in the four heavens can kill him?"

"For this matter, we must tell the major forces of our human race to severely punish the golden scales."

For a time, all kinds of discussions were endless, and the whole Daewoo Shenshan Hall was full of noises.

Daewoo Shenshan's many masters are all angry.

A pinnacle human-respected master, even a top human race force like Dayu Shenshan can't take it lightly and can't ignore it.

"Venerable Jueshan should not have fallen into the hands of that Jinlin, but someone else."

Daewoo Shenshan Mountain Master said coldly.

"Who is that?"

Everyone was shocked.

Apart from the golden scales, who else can kill Venerable Jueshan?

"Venerable Jueshan fell on the battlefield of ten thousand races. The command given to him by this mountain master was to follow Qin Chen and capture that Qin Chen back to Dayu Shenshan. Therefore, although the master of this mountain does not know who killed him, it is certain. Can't get rid of that Qin Chen."

Qin Chen? At this time, the Daewoo Shenshan Hall became more noisy.
