### [Chapter 3761: Go to the black market](#)

This name, they had also heard of, seemed to be the Eastern Heaven Realm Tianjiao who entered the Tongtian Sword Pavilion and came out alive, inherited from the ancestors of the Tongtian Sword Pavilion.

However, even though that kid is strong, he is not even Venerable. How could he kill Venerable Jueshan?

"Do you think that kid can't kill Jueshan?" The mountain master of Dayu Shenshan snorted coldly, his eyes bloomed with faint cold light: "Although I don't know whether Lord Jueshan was killed by this person, I must be inseparable from this person. Interaction." "Moreover, this mountain master also got another news." The mountain master of Dayu Shenshan exudes a suffocating aura: "Xidoro of the Star God Palace was long before the arrival of Lord Jueshan and the demon golden scales. , Has descended to the Eastern Celestial Realm, and according to the main mountain

According to the news from the Star God Palace, the fire of Xidoro's life had also been extinguished and fell to the Eastern Heaven Realm. "

boom!

One stone stirred up a thousand waves.

In an instant, the whole hall could no longer boil, and everyone looked at each other in amazement.

Both Xidoro and Venerable Jueshan fell to the Eastern Heaven Realm, which made people feel deeply shocked.

"Master Shanzhu, what do you need me to wait for?"

Immediately, the venerable said respectfully, with a cold face.

No matter who killed Venerable Jueshan, his Daewoo Sacred Mountain must find out the truth and avenge him. The people of his Dayu Sacred Mountain can not be killed by anyone.

Hum!

The Daewoo Shenshan Mountain Master raised his hand, and a black light burst suddenly, turning into thousands of black threads, blasting into the eyebrows of all the venerables present. "This is the location where Venerable Jueshan contacted me for the last time before his fall. It is located near the Ten Thousand Monster Mountain camp on the edge of the battlefield of ten thousand races. If Venerable Jueshan falls nearby, as Venerable Jueshan, it will definitely not Will borrow the nameless, eliminate

The interest will definitely be passed on among the major camps. "

"What you need to do is to mobilize the forces of my Daewoo Sacred Mountain nearby, or the tens of thousands of forces that are friendly with my Daewoo Sacred Mountain, or even the forces in the Demon Alliance, to investigate the truth of the fall of Venerable Jueshan."

"This mountain master also doesn't believe it. It was the Venerable Jueshan that Qin Chen killed. No matter which force Qin Chen invited to move, it will leave clues."

The rumbling voice of the Lord of Dayu Shenshan echoed in the hall.

"Yes, Lord Shanzhu!"

Everyone bowed and saluted.

"Qin Chen!"

An icy voice came from the master of Daewoo Shenshan Mountain. The next moment, the body of Daewoo Shenshan Mountain Master burst into pieces and disappeared.

Naturally, Qin Chen didn't know that the people of Dayu Shenshan had completely stared at him.

Time passed, and in a blink of an eye, Qin Chen had already practiced for three months in the big camp of the Wala Zerg.

Rumble!

Qin Chen's body is surrounded by ten ancient sacred mountains. This ancient sacred mountain bursts out with a shocking aura, with the core of the ancient sacred mountain as the core, and the other nine sacred mountains as the auxiliary, rotating around Qin Chen's body. .

Buzzing...

Circles of black silk threads confine this void. Anything that enters this void will be entangled by these black threads.

"Master Demon Dust!"

Whoosh!

A figure entered Qin Chen's training ground. Suddenly, countless black silk threads seemed to be activated in an instant, turning into a dense net, entwining towards the figure.

"This is... the Jiuju Divine Mountain Array?"

The visitor was the Stabbing Sky of the Wala Zerg, who was entangled by countless black silk threads, and couldn't help being taken aback. He looked at Qin Chen in amazement, but he didn't dare to move even if he moved, for fear of causing Qin Chen's dissatisfaction.

"You don't need to be so restrained, you try to break free, I want to verify the power of this big formation." Qin Chen said.

"Yes!"

Stabbing Sky Qiong breathed a sigh of relief, as long as it wasn't Master Demon Dust that was dissatisfied with him, he wanted to kill himself, he immediately mobilized the power of Insect Sovereign, his hands were like sharp blades, and he slashed frantically at those black threads.

Rumble!

Countless black silk threads were exploded by the piercing sky, but he cut one, and immediately more silk threads entangled, and countless silk threads wrapped him like a cocoon, unable to break free.

Of course, Thorn Sky Sky certainly didn't use its full strength, but even so, it was already extraordinary.

"sleepy!"

Then, Qin Chen yelled again and banged, and the silk threads all over the sky turned into a black sky, shrouding towards the sky of stabbing sky in an instant.

Stabbing Sky Qiong only felt that his whole body sank, as if he had fallen into a dark quagmire, his figure could not move, and even the power of the insects in his body became solidified.

"Awesome!"

Qin Chen sighed lightly. The Nine Wonders Divine Mountain Formation is indeed extraordinary. It is not inferior to the Nebula Formation of Xidoro. It is a top-level formation. Even in the battle against the peak of the people, it can perform amazingly. power. "If I unite this Nebula Array with the Jiujuue Sacred Mountain Array, supplemented by the rules of time, even if I meet Venerable Jueshan again, er, the pinnacle of humans, even if I can't kill the other party, I can completely kill Trapped, calmly

Leave. "

Qin Chen smiled and fought several times. Although he still failed to break through the Venerable, he still had a big breakthrough in strength.

Putting away the Jiujuue Divine Mountain Formation, Qin Chen smiled and looked at Stabbing Sky Qiong and said, "What's the matter?" "Master Devil Chen, thanks to you this time, I was able to kill Venerable Jueshan and obtain amazing results. Battle exploits, these days, my subordinates have combined the exploits of the Wala Zerg together, ready to exchange for loot, I don't know if Lord Demon Chen has

What is needed, I Wala Zerg is willing to exchange it for you, Lord Demon Dust. "

"In exchange for the spoils? Are you going to the Demon League for exchange?" Qin Chen frowned.

"My lord, what's wrong?" Stabbing Sky Qiong wondered.

Qin Chen frowned and said, "Once you enter the Demon League to exchange it, and your merits are so high, will it reveal the news that the Wala Zerg killed Venerable Jueshan?"

"It should be, Lord Demon Chen, what do you mean?"

Qin Chen shook his head, "I remember you said before that no matter it is the merits of the Human Race or the Demon League, you can trade in the black market. If I were you, I would never go to the Demon League to exchange treasures." Venerable Mountain is the top master of the Daewoo Sacred Mountain. Although the news that your Vara Zerg killed Venerable Jueshan is exposed, it can greatly help your reputation of the Vara Zerg, but it will also expose you to the Vara Zerg. Daewoo

Under the sacred mountain. "

"Do you think your Wala Zerg can withstand Daewoo Shenshan's target?"

"This..." Shi Tianqiong's heart was suddenly startled, cold sweat broke out all over his body.

Indeed, the exchange in the Demon League will inevitably expose the source of his merits. At that time, his reputation of the Zerg clan will be famous, but I am afraid that it is not far from the end.

"Thank you, sir, for the point."

Stabbing Sky Qiong's heart was panicked. Fortunately, Qin Chen reminded him, otherwise he would be in danger of the Wala Zerg, and the adults really treated him with the Wala Clan.

"However, keeping so many meritorious deeds on your body is no way. Is there a black market around here? I can go with you."

Qin Chen stood up and said.

"The black market is spread all over the battlefields of ten thousand races, and the subordinates know that there is one nearby, but they have never been there." Stabbing Sky Road.

"Then let's go." Qin Chen didn't hesitate, and after making arrangements with Spike Sky Qiong, the group headed to the nearby black market.

#### [Chapter 3762: Destroy the storm](#)

In the void of the battlefield of ten thousand races, black turbulence surged.

Chi Chi Chi Chi!

These black hurricanes appear to be born out of nowhere in the void, appearing in any area of the world, and each of these hurricanes contains terrible cutting power, which is enough to cut gold and broken stones, and the power is infinite. Black hurricanes are big and small, and the small ones are only the size of a palm. But some \*\*\*\* hurricanes dance like giant pythons, and one black hurricane roars over 10,000 kilometers, just like dragons and pythons playing with each other. ,

Vertically and horizontally, the battlefield of thousands of races is empty. "Master Demon Dust, this is a void annihilation storm over the battlefield of ten thousand races. This storm can be seen everywhere on the battlefield of ten thousand races. It contains extremely powerful power. Ordinary annihilation storms can kill the master master, some powerful annihilation storms. Even

When the Venerable is involved, he will be wiped out on the spot. "

Stabbing Sky Qiong brought Gu Limo and another Chongzun horizontally and horizontally in this obliterating storm, and explained to Qin Chen.

This place is above the endless void of the battlefield of ten thousand races. Qin Chen and his party agreed to leave from the Wala Zerg, and it has been half a month since they went to this black market.

Although Thorn Sky Qiong said that there was a black market entrance near their base camp, the battlefield of Ten Thousand Races was too vast. Even the nearest black market entrance often took a long time to enter. Qin Chen sensed the emptiness of the extinguishing storm outside, and suddenly a gray snake-like extinguishing storm suddenly appeared beside him, and was grabbed by Qin Chen. This gray extinguishing storm was like a living grey snake, trying to break free from Qin Chen.

Palm of your hand.

"interesting!"

Qin Chen sensed this grey snake-like annihilation storm. In this annihilation storm, there was not only a destructive power, but also a trace of life spirit, as if the grey snake was really a living thing.

This is what it looks like to be born a true spirit. "Master Demon Dust, these annihilation storms contain true spirits. The senior officials of many top races such as the demons and human races have studied this annihilation storm, and believe that the true spirit of life in it should come from the countless era of the battlefield of ten thousand races. Come to fall

Countless strong people. "

"After those strong men fell, their origins returned to heaven and earth, their souls dissipated, and part of the true spirits were absorbed by the annihilating storm in the void of the battlefield of ten thousand races, and this state was formed."

Is it the true spirit of the many powerful men who have fallen on the battlefield?

It's really possible. Qin Chen raised his hand, grabbed a hundred-meter-sized annihilation storm, roaring, this annihilation storm roared frantically at Qin Chen, like a flood dragon being captured, trying to break free, but he couldn't break free from Qin Chen's capture at all. Like a small

Earthworms are generally taken by Qin Chen and held in his hands.

And in this obliterating storm, there is also a trace of true spirit.

Looking around, the number of such annihilating storms with the size of hundreds of meters is almost endless.

Qin Chen also randomly captured several obliteration storms, and came to a conclusion that the spirituality of these obliteration storms is not based on the size, and it is not that the larger the obliteration storm, the higher the spirituality, but it seems that they were born randomly.

Some large annihilation storms are spiritually muddled and unconscious, while some small annihilation storms are alive, like loach.

All things in the world have spirits, but it is obviously not easy to be able to give birth to so many spirits.

In the universe, there are also some true spirit races, which were born slowly over a long period of time, but they will never be born so many at once like this annihilating storm.

"Master Demon Dust, once there has been a powerful assertion, if this continues, maybe after a few epochs, a new ethnic group will be born on the battlefield of ten thousand races." Gu Limo smiled.

"maybe."

Qin Chen smiled. He didn't think so. It would be okay if this annihilating storm was born in another forbidden area, but in this ten thousand race battlefield, being stared at by so many top races in the universe, perhaps the moment they were born, it was their race. The beginning of tragedy

Right.

"How long is it from the black market?" Qin Chen asked.

"Master Hui Chen, the black market subordinates have never been there, but they should be nearby. According to the information obtained by the subordinates from the upper layers of the Zerg, we should not be far from the black market."

Stabbed Sky Qiong said.

"Will the black market be in such a place?"

Qin Chen was a little puzzled. In his imagination, the black market should be a city built in a certain neutral zone on the battlefield of ten thousand races. What is it to appear in the vanity storm of the battlefield of ten thousand races that swept hundreds of thousands of miles?

It should be known that this annihilation storm is extremely dangerous, and the most dangerous places can cause the Venerable to fall. In some extremely dangerous places, even Tianzun has to hold his breath.

Boom!

Qin Chen raised his head to look at the sky, and he saw an obliteration storm that traverses hundreds of millions of miles like a galaxy in the cosmic starry sky above his head. This is an absolute forbidden area, and no one can enter. what?

Perhaps the high-levels of Human Race and Demon Race know about it, but it has not been made public.

"Master Demon Dust, the universe is mysterious. I heard not long ago that someone from the Demon League saw someone practicing in this obliteration storm, absorbing the thousands of miles of obliteration storm, and wanted to break through the realm of the venerable." Gu Li Said the demon.

"Oh?"

Qin Chen was interested, this obliterating storm could make people break through the realm of the nobleman? "That's nonsense." Stabbing Sky Qiong glanced at Gu Limo said: "This 10,000-mile-long obliteration storm is already close to the realm of the Venerable. Once the Venerable Half-Step is wounded, he will be crushed to pieces, even if it is a Venerable like You. , I have to be careful when I'm afraid,

If the Venerable Half Step really dared to absorb the 10,000-mile-long annihilation storm, he would explode and die before he could absorb it successfully. "

"There are many rumors in the battlefield of ten thousand races, and many of them are just false news sent by those who are interested. Once someone is greedy and tries to try, they will inevitably fall."

Stabbed the sky in a deep voice.

"is it?"

Qin Chen's eyes flashed and saw the sky in the distance, a tens of thousands of miles long an obliterating storm was born.

The end of this annihilating storm is terrifying, booming, like a roaring angry dragon, blooming with a palpable aura of destruction, which is indeed not something that ordinary Half-Step Venerable can absorb.

Even ordinary insects like Gu Limo may not be able to despise them, and they will be hurt by accident.

However, with nothing to do, Qin Chen became interested.

Whoosh!

He soared into the sky and directly caught and photographed the 10,000-mile-long obliteration storm. The huge Saint Yuan's palm was like a pillar of heaven, and the 10,000-mile-long obliteration storm was captured and photographed.

"Master Mochen, be careful!" Shi Tianqiong's face changed slightly, and Gu Limo glared fiercely, and hurriedly rose into the sky.

### [Chapter 3763: Enter the black market](#)

Gu Limo also had a big head. He didn't expect that he would just say it casually. Qin Chen actually tried it, and rushed forward too.

"It's okay, all back." Qin Chen caught this obliteration storm, perceiving it carefully, and suddenly felt an extremely terrifying aura of destruction, and this obliteration storm was caught and captured by Qin Chen, and he roared instantly, as if Like an angry dragon, facing Qin Chen

Stop roaring.

Boom, Boom, Annihilation Storm twisted his huge body, and the destructive force continuously bombarded Qin Chen, trying to tear him apart. The smashed Qin Chen's flesh shook, but he was blocked by his six reincarnation sword. Unable to break the defense.

Gu Limo looked at his eyes and jumped.

The tens of thousands of miles of annihilation storm is extremely terrifying. In terms of power, it is close to the level of ordinary venerables. Even he has to be cautious, but Lord Demon Dust is not afraid at all.

The adults are worthy of being adults.

"Awesome!"

Qin Chen was also amazed. The destructive power of this extinguishing storm was indeed strong. If it were not for his terrifying strength, he would indeed be injured if he was replaced by an ordinary nobleman.

Whoosh!

Qin Chen carefully sensed it for a moment, and this annihilating storm immediately rose into the sky, like a quail that was startled, and instantly disappeared into the endless storm of hundreds of thousands of miles above his head.

"My lord, this kid Gu Limo is talking nonsense, please be careful in the future."

Stabbing Sky Qiong was so frightened that he was sweating all over his body, came to Qin Chen respectfully, and gave Gu Limo a vicious look.

"It's okay, I have a good idea, you don't have to panic."

Qin Chen said with a smile. There is indeed a terrible aura in this annihilation storm. If a Half-Step Venerable absorbs the power in it, it is really possible to break through to the Venerable Realm. Unfortunately, under normal circumstances, almost no Half-Step Venerable can resist the power in it. at least

It also needs to be at the level of Ji Wuxue.

As for Qin Chen himself, he wanted to break through the Venerable not by absorbing some annihilation storm, the Venerable's holy veins would be able to achieve it. It was far more difficult for him to break through the Venerable than ordinary people, and he needed too many things.

What's more, the aura in this extinguishing storm is too violent. Maybe Qin Mo can come to absorb it, but his body will never absorb it.

After flying for another three full days, Qin Chen and the others finally arrived at the black market.

Rumble!

The obliteration storms here are extremely violent, and around a dozen thousands of miles-long obliteration storms dance frantically.

"Master Demon Dust, we have reached the coordinates of the black market." Stabbing the sky.

Qin Chen raised his head and looked around.

In the vast void, there are only countless extinguishing storms chasing each other in the distance.

Qin Chen, Stabbing Sky Qiong, Gu Limo, and Qi Buman stood in the void looking at each other.

"Where?" Qin Chen frowned. There was no black market in the surrounding area.

"Master Demon Dust, the black market should be here in the void, but we are here for the first time, so we need to wait. The subordinates don't know where it is, only know that the black market should be in the dark universe." Tao.

Dark universe?

With a move in Qin Chen's heart, suddenly the peaceful void around him began to twist, Qin Chen's color changed slightly, but the twisted space around him instantly swallowed them both as if a vortex.

"Space transmission? No, it seems to be a kind of shuttle channel."

This word instantly appeared in Qin Chen's mind, and everything became clear immediately after his eyes.

Qin Chen and his party appeared in a dark world, and a dark continent was suspended in the distance. On this continent, there were buildings, but above the mainland, the scenery in the distance was beautiful and breathtaking.

I saw the endless colorful river rushing and surging in the distance. The vastness of this colorful river was full of magical power, and people were attracted to stare at it involuntarily. Qin Chen's will was so strong that he immediately woke up.

Ci Tianqiong and others are also venerables, and naturally they returned to normal easily.

"It's fast to wake up." A cold voice sounded.

Qin Chen suddenly turned around to look.

Next to the void stood a rock \*\*\*\* about several feet high. He wore an armor with a black water surging on his dark surface. His whole body was glowing with dark green, which looked like dark green jade at first glance.

Qin Chen and Citianqiong distinguished from his appearance...This is the rock clan in the universe, a kind of rock life. The Rock Clan is a race of countless rock beings in the universe, but like Chongzun, there are also many races in the Rock Clan. Qin Chen doesn't know much about the Ten Thousand Clan, so apart from knowing that the other party comes from the big race of the Rock Clan, I don't know the others

.

The master of the rock clan in front of him, exuding a primitive aura, profound and profound, turned out to be a venerable.

"Your Excellency..." Stabbed the sky.

"Black market attractor...you do not have the atmosphere of this black market attracting. It should be the first time you have come here." The rock clan master squinted his eyes and stared at the few Qin Chen. You can get the black market access token."

Venerable Rock said lightly.

So expensive?

Qin Chen sucked in air.

A sacred vein of the late saint master, this can even give birth to a later saint master force, which is not a small fortune in the four heavens.

"By this way, you can enter any black market in the universe, not just the black market in the battlefield of ten thousand races." The Rock Master seemed to know Qin Chen's shock in their hearts, and said lightly.

Qin Chen keenly sensed the ambiguity in the words: "It is not limited to the black market on the battlefield of ten thousand races, is there a black market outside the battlefield of ten thousand races?"

"Nature." The rock life raised his head and glanced at Qin Chen: "The black market is everywhere in the universe. As long as there is a dark universe, there will be a black market."

Qin Chen's heart shuddered.

This black market is such a big power, and after seeing the life of this venerable rock clan, Qin Chen keenly felt that there was definitely someone behind this black market.

Terran? Or demons? Or something else?

The four late-stage holy main sacred veins are nothing to Qin Chen or the Wala Zerg. After Stabbing Sky Vault took out, immediately, four dark round stones fell into Qin Chen's hands.

"This is not a black market merit order?" Qin Chen frowned.

"The black market merit order requires you to redeem it after entering the black market. It is of extraordinary value. This referral token is just a pass to enter the black market. As for other things, you will naturally know about it after entering the black market."

After finishing talking about the life of the rock, he closed his eyes and sat in the void, as if it had turned into a rock.

Seeing that the other party didn't want to say anything, Qin Chen, Ci Tianqiong and others quickly swept towards the distant continent, and Qin Chen could hardly feel the existence of the universe.

Dark universe! Qin Chen thought that the black market was a city located in a certain neutral area on the battlefield of ten thousand races, but he did not expect it to be in this mysterious dark universe.

#### [Chapter 3764: Dark space](#)

The dark universe is rumored to be the other side of the universe, another piece of space in the universe. Qin Chen is also the first time seeing this dark universe, so he perceives the surroundings curiously.

In this dark universe, the surrounding laws of the heavens are obviously much weaker, as if the heavens were blocked all at once, very mysterious.

Whoosh!

The four Qin Chen quickly entered the continent ahead.

After Qin Chen's four left. The rock life suddenly opened his eyes: "Well, three of them are masters of the Zerg race. Although the aura is hidden, the noble one is undoubtedly, but the kid next to the Zong Zun is clearly not a person from the Zong Zun, but these three Ming Chong Zun treats him quite

Respectfully, as if that talent is the principal? Is it a master of the demons? I have never heard of any humanoid races in the Zerg. "

This rock life is a little curious about the respectful appearance of the three great insects in the sky stabbing sky. Fortunately, Qin Chen urged the evil sword ring, and after changing its shape, it shielded its breath, and it also carried a spirit that could shield the soul. Detective mask.

Otherwise, after seeing that Qin Chen is a human being, this rock being would be even more surprised.

"Forget it, don't worry about it, this time around the ten thousand race battlefield seems to have some changes, is it another ancient relic to be opened?"

The Rock Life murmured, falling asleep.

Whoosh!

After Qin Chen and the four landed on the continent, they saw an extremely magnificent city appearing in front of them. This city was so vast that it occupies the entire continent. Looking around, you can't see the side.

Qin Chen raised his head and saw that there were vast stars hanging above the colorful aurora above his head, and each star was extremely shining, with a special movement pattern, which was shocking.

"What a mysterious star!"

When Qin Chen saw these stars, endless sentiment surged in his mind, and his whole body thundered, as if standing here, his soul roared.

Hum!

In addition, the sky-supplement hammer in Qin Chen's body also vibrated, as if to project the star world evolved from the endless stars above his head into the sky-supplement hammer, causing a special vibration of the sky-supplement hammer.

Rumble!

On the sky-repairing hammer, rainbows bloomed, imprinting with a special breath.

I don't know how long it has been before, Qin Chen suddenly came to his senses.

"It should be the first time for a few of you to come to this black market?" A dwarf-like man stood in front of Qin Chen and said with a smile.

"You are..." Qin Chen showed a vigilant look, his heart stunned. When did this person appear next to him? I didn't even sense it for a while.

If the other party is malicious towards oneself, then the previous self is afraid of danger.

Qin Chen did not expect that the stars above the black market would give him such a strong shock, as if his soul had returned to its origin. "Don't worry, the old man is a member of the Bra tribe. I belong to the Bra tribe. I belong to a neutral race. I have never participated in the Celestial War for several epochs, and the old man has lived in this black market for more than 100,000 years. , Often by giving guidance to newcomers

Make money. "

The dwarf old man smiled and said: "Several people who are new to the black market have a lot of confusion about the black market. If you don't dislike it, the old man can be a guide and give some guidance to some people."

"How did you know that it was the first time we came to the black market?" Qin Chen frowned. "Haha, it's very simple. As soon as a few people come in, they are directly attracted by the nether galaxy above the black market. Only the newcomers who enter the black market for the first time will fall into the

mystery of the nether galaxy, and those who enter the black market for the second time, There would be no such

Realized. "

The old man smiled and said, "If you don't believe it, you can look up at the galaxy again."

Qin Chen raised his head, his face suddenly showed a strange color.

This time I went to look at the galaxy above my head again, and as the old man said, I couldn't perceive the slightest mystery at all, as if the galaxy was an ordinary star pattern, unremarkable.

This is also amazing.

The previous vibration on the soul and the abnormal movement of the sky-filling hammer made Qin Chen understand that the sky full of stars definitely has a lot of mystery, but now it looks ordinary and ordinary.

"Isn't it amazing?" The old man smiled and said, "No matter which race among the various races in the universe, the first time I saw this Nether Galaxy, it was in this state."

"Nether Galaxy?" Qin Chen's heart moved: "Isn't this the sky full of stars? Why is it called Nether Galaxy?"

The name is amazing.

Qin Chen looked at the three big insects of Stabbing Sky, and the three big insects of Stabbing Sky shook their heads, obviously not knowing the origin of the Nether Galaxy.

The old man's eyes flashed, and the three of them were Zerg masters. He could tell at a glance. Before vaguely guessing that Qin Chen was extraordinary, he did not expect that among the four, Qin Chen was the leader. "The origin of this Nether Galaxy is very extraordinary. The continent where several people are located is just one of the many black markets in the dark universe. Different black markets have different styles and even different rules, but several people should not know, no matter what. Is all

Everyone who enters that black market will see such a mysterious river of stars above the black market.  
"

Oh? Qin Chen was taken aback. He now understands that the black market is located in the dark universe, but it is not just a market, but there are several, but it is unexpected that there is such a river of stars above every black market in the dark universe. Just magic

Up. "There are rumors that this river of stars flows from the underworld, so it is called the nether galaxy. In addition, this nether galaxy has many other mysterious effects. There are even rumors that this galaxy is actually ancient time,

A top treasure. "

Top treasure? This galaxy?

Qin Chen's heart was shocked. This galaxy is vast and infinite, and I don't know how many light years it has spread. Xidoruo light is a nebula array refined with 999 star cores. It is already the most precious treasure of the peak of human respect. .

Then above this head, the number of stars in the river of stars that traverses many black markets is in the trillions. If this river is a treasure, how powerful would it be?

"I wonder if your Excellency is willing to hire the old man as a guide?" The old man looked at Qin Chen with a smile: "The old man bids very cheaply, and only needs a late-stage holy vein."

Is this still cheap?

Qin Chen was speechless, this black market was indeed a black market, and money was needed everywhere.

"Okay, then you can introduce it to me."

Qin Chen said directly that although the value of a late-stage Saint Lord Saint Vein is extraordinary, it is better than going around in the black market.

And when Qin Chen entered the black market and understood the rules here. Outside the extinguishing storm void that Qin Chen had entered before, two figures with devilish energy on their bodies held each other's hands, cuddled together, and came into this void.

#### [Chapter 3765: Take a bath together](#)

Rumble!

Just saw the terrible extinguishing storm aura surging on these two people, erupting a heart-palpitating breath.

Between the two of them, the destructive power of the terrible annihilation storms kept surging, as if the two men themselves were the annihilation storms.

"Master Chi Yan, today I finally absorbed that extinguishing storm completely."

If Qin Chen were here, he would definitely be able to recognize that these two people were the Demon Li and the Red Flame Demon Lord who had taken away the Venerable Soul Demon Race in the Void Tide Sea.

These two people also came to the battlefield of ten thousand races. At this moment, Chiyan Demon Lord said with emotion on his face: "Yes, Mo Li, you and I have worked hard for so long, and finally swallowed this annihilating storm. In fact, you have long been able to break through the Lord, but you have never made a breakthrough. Just to accompany me to swallow this

Suppress the storm, why bother? Mo Li looked at Demon Lord Chi Yan with a faint smile: "Sir Chi Yan, don't tell me, I actually never break through the realm of the venerable. In addition to cultivating with you, I also want to improve my strength. Because I know deeply that I

The current strength is far from enough. "

"You are not strong enough now?" Chiyan Demon sighed, "When you met me for the first time, you were just a small Wuzong in the mortal world. Now, you are already half-step venerable. , Even if you want to, you can break through the realm of the venerable at any time, this is only

It's the realm, and in terms of strength, ordinary venerables are not your opponents. Not long ago, the venerable of the ghost flame clan wanted to swallow me and waited, but was destroyed by my team and had a good meal. Is this strength not enough? "There was a sharp light flashing in Mo Li's eyes, "Who is going to compare this with, if it is compared with ordinary warriors in the universe, or ordinary warriors on the battlefield of ten thousand races, I can break through the realm of the nobleman at any time," Can be regarded as a strong one, and

That kid is better than..."

A cold light flashed in Mo Li's eyes suddenly. "You mean that Qin Chen?" Demon Lord Chiyan shook his head: "Moli, that kid is a metamorphosis at all and cannot be treated with common sense. Anyway, I don't want to meet him in my life. It's right that there is nothing good to meet him. , But if he is still four

In the case of the Great Heaven Realm, these years have passed, at most, it is only the Peak Holy Master, or the Half-Step Venerable, it should not be me waiting for the opponent. "This is inevitable. "Mo Li proudly said: "Who is my Mo Li?" It's destined to be the pride of heaven. If it weren't for that kid, I'm afraid I'd already be the number one genius in the heavens, but it's not too late. When I break through, I'll

Go to that kid, so that he knows that my magic is no worse than him, so that he regrets being an enemy of me over the years. "

Looking at Mo Li's confident appearance, Chi Yan Demon Lord showed an admiring expression on his face: "Li, do you know that, I just like how confident you are."

"Master Chi Yan." Mo Li held Demon Lord Chi Yan's hand and looked at him affectionately. Although they had found most of the materials for the spirit liquid medicine over the years, Demon Chi Yan hadn't been able to regain it yet. To shape the flesh, but they believe that

Shaping the flesh is not far away.

The most important thing is that after the Chiyan Demon breaks through the venerable, when the time comes, the soul will transform, and the reshaping of the flesh will be more natural.

"Let's go, let's go to the black market. Now that we have absorbed enough tens of thousands of miles of annihilation storm, we may be able to salvage it in the Nether Galaxy. Maybe we can catch a lot of Shenguang fish."

Hum!

While talking, Mo Li and Chi Yan Demon Lord came to the entrance of the black market. A black light lit up on both of them. With a touch, they entered the black market.

The rock life felt someone coming in, glanced at it, and after sensing the breath of the attracting token on the two of them, he closed his eyes again.

The Red Flame Demon Lord and Mo Li nodded to the rock life. The two of them were very familiar with the black market, as if they had lived here for many years, and they entered the black market directly. suddenly.

Mo Li frowned inexplicably.

"What's the matter?" Chiyan Demon Lord turned his head in confusion.

"I don't know why, I feel a bit of upset in my heart inexplicably, strange." Mo Li frowned and said, his heart was faintly upset, but he couldn't find the reason. "Perhaps it is because we have absorbed too much annihilation storm these days, so there is a trace of damage to the soul. Go back and take a bath together, take a good rest and it will be fine. When we look back, we will go to the Nether Galaxy to fish the Shengguang fish." Chi Yan Demon Lord

Said with a smile.

"go."

Mo Li was also interested, and swish, the two of them were covered with a vague aura, covering their faces, and quickly flew towards some buildings in the black market.

Under the leadership of the dwarf old man, Qin Chen and Thorn Sky Qiong entered the depths of the black market. I thought that the black market should be a city where everyone was cautious and hidden. But after really entering the streets, Qin Chen found that the black market here was almost the same as the big cities outside, and even better than some outside cities.

The pool is much more lively.

On the street, countless people walked up and down, very lively, these people, from all races in the heavens, were strangely shaped.

A giant with eight legs and a strange life with three eyes, of course, are more humanoid creatures, tall or short, big or small, walking on the streets, and people come and go. But the only thing these people have in common is that everyone uses various holy treasures to cover their face and body breath, some wear masks, some wear veils, and some people seem to have their faces exposed on the surface. But it's actually easy

Tolerable.

In addition, the breath of each other is also covered up, preventing others from snooping.

Now, everyone walking here doesn't want to be seen by others.

Suddenly, a group of people exuding a cold air came to face him. Although these people had covered a lot of their breath, Qin Chen could still feel a faint devilish air from the other side.

"People of the Demon Race."

Qin Chen's heart shuddered.

At the same time, Qin Chen saw another group of people coming from another direction. These people had holy treasures covering their faces, but they could still see that these people were definitely from a certain force of the human race.

Human race and demons actually met in this black market.

Qin Chen's heart was shocked in an instant, these two rival races, once they met, they would inevitably fight.

Just when Qin Chen was highly vigilant, the next moment Qin Chen was dumbfounded, only seeing the two groups of people passing by, passing by each other, and both sides looked at each other, as if they hadn't seen each other, and left indifferently. .

This.....

Qin Chen was dumbfounded and couldn't help but wonder. "In this black market, there are no hostile forces. Those who come to the black market are people who have hidden their traces. Let alone the Human Race and the Demon Race, they won't be able to do anything when they meet, and they even sit down and drink tea while trading. , Not without

can. "The dwarf old man said with a smile.

#### [Chapter 3766: Shenguang fish](#)

There is such a thing?

Qin Chen was speechless. In the universe, the Human Race and the Demon Race were clearly rivals. They had fought for countless thousands of years, and they even continued to fight fiercely on the battlefield of 10,000 races.

But in this black market, even if the two sides met, they didn't even have the slightest intention to do anything. They could even sit down and talk about the treasure.

This made Qin Chen somewhat unacceptable for a while. The dwarf old man saw Qin Chen sinking into thought, and couldn't help but smile and said: "There is nothing to understand. From the perspective of the old man, all races are fighting for each other's benefit, whether it is Human, Demon, or Monster. , Zerg, or

All the other races do not want their own race to become the number one race in this universe. "

"Even if there is no invasion by the dark forces, this battle is already there, but it may not be the human race and the demons, it may be the demons and the demons, the demons and the zerg, etc. As long as there is interest, the universe will always be there. It's impossible to be peaceful." "This is from the perspective of race, and from another perspective, unless it is the oppressed races that can only unite and work hard, these races can abandon their personal interests for the sake of ethnic interests, but for some top In terms of race,

Regardless of whether it is the demons or the human race, or the monsters, insects, sea races, etc., they will also be divided into many forces. "

"Each force will fight for their own interests, against other forces in order to strengthen themselves, even regardless of the interests of their own ethnic group."

"This is still between forces."

"And even within the same force, there will be competition. Who is the boss, who is the first, must fight for life and death. This is a crony dispute."

"The black market is a neutral force, so people who enter the black market represent themselves and individuals. Therefore, it is normal to see the peaceful coexistence between hostile forces here."

The dwarf old man said lightly, but it made Qin Chen sigh with emotion.

indeed!

He was only accustomed to the war between humans and demons, and ignored this. The world is full of benefits, and the world's hustle and bustle are all benefits. From different angles, different positions can be seen.

In this way, the coexistence of the human race and the demons in this black market is also clear. Apart from other things, such as the Star Palace and the Dayu Mountain, they are clearly human forces, and they are also quite famous top forces in the human forces, but they can for their own interests, regardless of the interests of the ethnic group, there is such a group of people, What else

What can't happen?

"Teached." Qin Chen said with a smile.

"Your excellency is serious. The old man has only stayed in this black market for a long time, and he has seen so many times, so that he has such emotions. It makes you laugh."

The old man hurriedly smiled.

A group of people walked on the street. The street was extremely wide. Around the street, there were some vendors shouting and selling things. "The soul-seeking stone, you can find the soul. If a loved one is beheaded, you can find the soul within a few days. Unless the soul is scattered, you can find a trace of the soul of your loved one. There is only one piece. "There is a body illusory, imitating

The Buddha does not exist. Normal aliens are suspended in the void, shouting.

"How much?"

Someone immediately stepped forward and asked: "Ten late-stage holy veins, or nine-tailed and one-jin Shenguang fish, or 15 million general merit points, either!"

Said the alien suspended in midair.

"So expensive?"

The man said.

"Oh, this soul-seeking stone is very rare, but it is transformed from the origin of my race, and its natural value is extraordinary." This alien said.

Then? The person shook his head, but finally did not buy, and turned away.

"Heavenly Gu Water, you can condense the energy of the Gu God in your body, one drop of the sacred light fish with more than five or two tails, come buy it, and don't miss it when you pass by."

"The Escape Shuttle, the treasure of the venerable, is only broken. It can penetrate the bottom of the battlefield of tens of thousands of races. It is the only magic weapon to escape and save your life. It is sold out with tears. It only needs 30 sacred light fish weighing a catty. Or 50 million general merit points." On both sides of the street, there are many vendors shouting, lively and people come and go. When standing in such a city, people who don't know think they are here. In a certain prosperous city, who would have thought that this is Anyu

A black market in the universe.

Qin Chen looked at some of the treasures around, and he could see that there were a lot of treasures here, and many of them were very peculiar. Qin Chen had never seen them.

There are also some specific treasures dedicated to other races, such as the sacred liquid that can make your own wings stronger, and the silk clothes that make your weight lighter and not subject to wind rules.

These should be treasures that are more suitable for the Wing Clan, with a wide variety and extremely lively.

Although Qin Chen had crossed the East Heaven Realm and the South Heaven Realm before, when he stepped into this black market, he was also attracted by the excitement around him, like Grandma Liu entering the Grand View Garden, constantly watching.

However, what made Qin Chen curious was that the vendors who were selling here were not the first to ask for merit, nor were they holy veins and the like. They were looking for something called Shenguangyu.

"Shenguangyu, what is this?"

There was no need for Qin Chen to ask, the four Great Insects of the Sky Stabbing Sky also showed doubts on their faces and asked. "Shenguang fish, this is a unique species produced in the Nether Star River, and it is also the most common currency in the black market. It is rarer than the holy vein and merit value. In fact, many of the warriors you have seen, except for some come to the black market for trading. Besides, its

There are still a large part of the people in the black market for the unique Shenguang fish. "This kind of fish is very special. It lives by devouring the rules of the universe. Therefore, they contain a lot of rules and the power of the origin of the universe. Once refined, they can even improve the rules and origins of the masters. It is the most treasured in the dark universe. Of the treasures

One. "

The dwarf old man explained.

"So amazing?"

Qin Chen and the others were shocked. Even the cultivation base of the venerable can be improved, no wonder it is so rare. "Of course, Shengguang fish is only one of the nether galaxy. In addition, there are many species such as strong sun fish, cuttlefish, and star fish in the nether galaxy. However, Shengguang fish is the most common, so when it is sold, They all use Shengguang fish as the unit of measurement

Selling, for example, a Fiery Sun fish of the same weight is worth ten Shengguang fish. "

"This Shengguang fish can be caught by anyone?" Qin Chen wondered. If it is so easy to catch, wouldn't everyone go fishing crazy. After all, a strong sun fish is worth ten Shengguang fish. One is equal to ten Saint Master Saint Veins of the later period, what could be more convenient than this

Good thing?

"Anyone who enters the black market can enter the Nether Galaxy to catch the fishes as long as they rent a starship, but how easy is it to catch the Divine Light Fish in the Nether Galaxy?" The dwarf old man laughed.

### [Chapter 3767: Tianzun Zhibao](#)

From the dwarf old man's mouth, Qin Chen also knew that it was extremely difficult to catch the Shengguang fish. Many people entered the Nether Star River, and it took hundreds of years to catch even a Shengguang fish. .

What's more, it took thousands of years to go fishing and found nothing, so it's better to work hard to practice and experience yourself.

Of course, there are also lucky people who can get a lot from the beginning.

In short, everything depends on luck.

"General, let's go fishing for that sacred light fish in the Nether Star River?"

After Gu Limo listened, his eyes lit up and he became excited.

If others can't catch it, doesn't it mean that they can't catch it. What if their luck is good? What's more, this Shengguang fish is so rare, they naturally want to go.

Thorn Sky Qiong coldly glanced at Gu Limo, and said solemnly: "Listen to the lord." "Hehe." The dwarf old man looked at Qin Chen. As expected, this person was the head of the four, he smiled and said, "Actually, Netherworld In the galaxy, there are not only sacred light fish, but also various rare and exotic treasures. Someone once fished the heavenly treasure from this nether galaxy

. "

what?

Everyone was shocked.

Tianzun Zhibao, this is too exaggerated, right? Can you even catch the heavenly treasure? "Don't believe it, this is well known in the world, and it's in the black market in the battlefield of ten thousand races not far away. About 200,000 years ago, it caused a huge sensation. It was a snow The lucky one of the shadow clan, later dedicated to

The patriarch of the Xueying clan, this heavenly treasure, directly increased the ranking of the Xueying clan among the ten thousand clan. "

"This is only the heavenly treasure. In ancient times, even the supreme things were fished. It is rumored that there are endless treasures in the world in the nether galaxy, and those who can get it."

Everyone was dumbfounded.

"Venerable Supreme Treasure? How did you catch this?" Gu Limo murmured.

If he gets a supreme supreme treasure, he is afraid that the Wala clan can directly become the royal family of the Zerg, and a supreme supreme treasure will be passed down through the ages. "Fishing in the Nether Star River does not rely on strength. No one knows how to catch it. Strength is not directly proportional to the harvest. Once there was a master of heaven fishing in the Nether Star River in this black market for thousands of years. Catch one

These are not too big and not too small, but none of the treasures are available, and you may have an extraordinary harvest. "

The dwarf old man was seductive.

"My lord, General, when shall we go to the Nether Galaxy and fish for a treasure?" Gu Limo was fascinated by Harazi.

Anyone feels that he will be a different person. For example, after entering a casino, everyone imagines that he is lucky enough to win a big victory, but the ending is often very sad.

But how do you know if you don't try? What if you are the lucky one?

Qin Chen glanced at the dwarf old man and said, "You recommend it so hard, I'm afraid there are many benefits, right?" "Master Mingjian, the old man recommends you to go fishing in the Nether Star River. There are indeed some benefits, but not many, just from you. Renting a boat or renting fishing gear is just a few commissions. I recommend it to you. It is indeed a kind introduction

, Because almost people who came to the black market for the first time would go to the Nether Galaxy to try to fish for Shenguang fish. They had never been to the Nether Galaxy before, which was equivalent to having never been to the black market. "

"The first stop for many people to come to the black market is to go to Nether Galaxy."

The dwarf old man smiled.

"Let's learn about other things first, as to whether to go to Nether Galaxy, look back again." Qin Chen said.

"That's right."

The old man was not angry, and still introduced with a smile.

From the introduction of the old man, Qin Chen learned some rules of the black market, as well as some of the black market.

Many people who came to the black market did so to go to the Nether Star River to fish for sacred light fish, and of course, many people had gained merit and wanted to exchange treasures here. However, the treasures on the streets of the black market are very ordinary, belonging to ordinary types, and the black market will hold a large-scale trade fair every three years. Only at large-scale trade fairs will there be better treasures. Many people also would choose there

Time to buy treasures.

Qin Chen couldn't help nodding.

No wonder the treasures sold on the street he saw along the way, there was almost nothing that would interest him.

And the most recent trading conference was about a year later. For experts who can enter the black market, a simple retreat may have passed in one year.

Qi Tianqiong also nodded. He also heard about the black market trading conference. He came here this time to participate in the trade fair. If the merit value that he finally obtained was used to exchange some ordinary items, he would inevitably be a bit unwilling. .

In the next few days, the dwarf old man of the Bra tribe took Qin Chen to stroll around the black market, and Qin Chen also had a general understanding of the black market.

In addition, the black market merit tokens that Qin Chen needed had also been purchased. This was made by a special organization in the black market, and it also consumed Qin Chen's later Saint Lord Saint Vein.

"It's a robbery."

Qin Chen was speechless. This black market was too profitable. Just by attracting tokens and merit tokens, Qin Chen spent two late-stage holy veins. I am afraid that there are countless thousands of masters who have entered the black market over the years. How much did you make?

I'm afraid it is impossible to calculate.

But these days, Gu Limo kept talking about going to the Nether Galaxy, Qin Chen saw that there was still some time left for the trade conference, but he agreed.

These days, Qin Chen has also learned about it himself, and found that many of the masters who enter the black market will indeed choose Nether Galaxy as the first stop.

Especially some people who come to the trading conference, for a few months, a year or two, can only simply retreat, it is better to go to the Nether Galaxy to see their luck.

"Haha, go, go fishing in the Nether Galaxy."

Gu Limo laughed excitedly. Under the leadership of the dwarf old man, a group of people went directly to the Nether Galaxy.

The tone of the Nether Galaxy is a river, rather than a vast sea of stars. It is located in the outer void of the black market. It is vast and boundless, deep and deep, and it is pitch black. In the galaxy, stars are floating in the sky.

When standing in front of the Nether Milky Way, many people will be terrified. The river in front of you is pitch black. Standing on the edge of the star river and looking into the distance, it gives people a gloomy atmosphere, as if leading to the nether hell. Once you enter it, the soul will be sinking into the illusion. This vast sea of stars seems to be always Can swallow people

bite.

Coming to the edge of the Nether Star River, there are many people fishing by the river, one by one performing various magical powers, holding a fishing rod in their hands, one head deep into the galaxy, sitting cross-legged, showing their own breath. It's spectacular.

### [Chapter 3768: Black Gold Zerg](#)

"Haha, Nether Galaxy, I'm here." When Gu Limoxing saw the Nether Galaxy, he was not afraid, but was extremely excited, especially Gu Limo, who was fine when he was in the Wara clan camp, and quite calm. People, after arriving in the black market, seem to have let themselves go, becoming

I was so excited that I could not wait to jump directly into the Nether Galaxy to catch fish.

Stabbing the sky in a cold sweat, he knew that Gu Limo had such a personality, so he left him in the camp. He was very good in the camp before. Why did he get here so unsteadily?

Qi Tianqiong looked at Qin Chen cautiously, for fear of angering Qin Chen, and he was relieved to see that Qin Chen did not look unpleasant.

"Hold on." The dwarf old man of the Bra clan saw Gu Limo excitedly and immediately wanted to jump into the galaxy. He hurriedly stopped him and said in a deep voice: "Everyone, this Nether galaxy is dangerous, and you must not enter it physically. , Step into the galaxy together, and never leave again

If you don't come, there is no place to die. "

Hearing the old man's words, Gu Limo was shocked, and hurriedly stopped, and his hair was horrified. The other insect Zun Qi Buman said in shock: "Really?" "Netherworld Galaxy is a dangerous danger. I don't know what your strengths are, but as far as I know, even Tianzun can't directly enter it. You must take a starship to enter the galaxy and go fishing.

The deity will sink and drown here. "The old man looked serious, warning and admonishing.

Because this cannot be neglected.

"Then what are you waiting for? Hurry up and rent a starship." Gu Limo said.

"What about these people?"

Zi Buman looked at the people who were fishing by the Star River.

The old man glanced at and shook his head and said, "It takes a lot of holy veins to rent and sell starships. These people are unwilling to enter the Galaxy and want to try their luck on the edge of the Galaxy. However, on the edge of the Galaxy, almost nothing There will be sacred light fish."

Qin Chen has been observing for a long time, and indeed since they came here, so far, he has not seen a Shenguang fish hooked.

"Is that a starship?"

Gu Limo suddenly shouted, and immediately saw a small boat parked by the galaxy, but before they could react, a group of people boarded the small boat and entered the vast galaxy. "The starships here are very popular, and many of them are reserved, but the old man has his own way. If you want to go to sea, the old man can find a star ship for some of you, and the fishing tackle and other items on it are also available. Complete, and the price will be

You can find it for yourself, it's not much difference. "The dwarf old man said.

Qin Chen nodded and asked the old man to find him directly. He must have his own way in this black market all the year round.

The old man asked a few people to wait, then turned and left.

"My lord, what should I do if this person pits me? It's better to ask your subordinates to ask."

Stabbing Sky Qiong is always worried that this old man will cheat them.

"General, let me ask." Gu Limo walked directly to the star ships by the galaxy.

After a while, Gu Limo came back dejectedly. Indeed, many of the starships here have already been booked, and only a few of them have not been booked. He has searched for several ships in a row, but they were all preempted and rented out.

It seems that the starship here is indeed difficult to rent.

Everyone was too lazy to waste time, waiting for the old man here.

After a while, the old man returned.

"Sexual mission."

The old man brought Qin Chen and his party to the Star River. After a while, a rickety starship sailed from the Xinghai, like a leaf boat, but very stable, and stopped right in front of Qin Chen's party. "I am a star ship ferryman. A star ship costs one mid-term Saint Lord's holy vein per year. I can go on it as long as I want. Less than a year is counted as a year." This ferryman is a stone puppet. The breath of life, but facing Qin Chen and the others

Said lightly.

hiss!

Gu Limo sucked in air-conditioning. The price was too expensive. One year was a mid-term Saint Lord's line. If they fished for a hundred years, wouldn't it mean that another late-term Saint Master's line would disappear?

When they came to this black market, they didn't feel anything else, they just felt that the black market was really black, and it was very profitable.

However, Qin Chen and the others have also learned about the market, and they are usually at this price.

Anyway, a year is not long, and a few people agreed and just prepared to board the starship...

"Wait, we want this starship."

Suddenly, a cold sound sounded, gloomy, extremely piercing, and it sounded very uncomfortable. Immediately afterwards, seven or eight tall figures exuding a cold atmosphere came over. These were a group of powerful men who looked like they were wearing jet black armor. Each of them exuded the atmosphere of Zerg. The armor was the hard shell of the body. Metallic light

Ze blooms, wandering the power of the rules, at first glance it is extremely hard.

"Black Gold Zerg? Camilla?"

Sting Tianqiong's eyes condensed, and he said in a deep voice, although the other party concealed his appearance, the familiar breath was still recognized by Sting Tianqiong at a glance.

"A group of hillbillies of the Wala Zerg, this black market is where you come from?" The leader of the Black Gold Zerg sneered, taunting: "Why, stabbing the sky, you also want to come to this black market to try your luck? I killed the Black Gold Zerg recently. I got a lot of merits from a druid army, and then I came to this black market and got ready

It's good to buy something. Why, I heard that your Wala clan ambushed the Legion in the Ten Thousand Demons Mountain Range not long ago, but you let the other party all run away, just because of your merits, come here too? I'm afraid that you won't be able to return your referral tokens for entering the black market, right? "

"Hahaha!"

The master behind the Black Gold Zerg laughed loudly, his tone full of mockery.

"General Camilla, in my opinion, this Wala clan will be removed directly and merged into my Black Gold clan. My Black Gold clan eats meat and can also let them drink some soup."

"Hey, drink the soup of Lao Tzu's foot bath?"

"Hahaha!"

A group of Black Gold Zerg masters laughed.

Stabbing Tianqiong's face was blue, but he didn't say a word, but said to Qin Chen: "My lord, let's get on the boat."

Qin Chen nodded. It turned out to be someone he knew. He was curious before that in this black market, someone dared to be so arrogant. It was no wonder that the other party recognized Stabbing Sky and was an acquaintance.

"My lord? Who is this person?"

Hearing the words stabbing the sky, Camilla of the Black Gold Zerg was startled and looked at Qin Chen.

However, he couldn't see Qin Chen's breath at all, and his heart sank even more.

"Let's go."

Qin Chen didn't bother to blend in with the grievances of the Zerg race, and went straight to the starship.

The black-gold Zerg Zong's faces were unhappy. Just before they were about to step forward, the dwarf old man of the Bra tribe sneered and said to a few people: "Several adults, we have already taken care of this star ship. Trouble in this black market?"

"Hmph, Stabbing Sky, you are lucky today." Camilla stared at Stabbing Sky, snorted coldly, but didn't dare to actually do it, turned and left.

#### [Chapter 3769: Mysterious Galaxy](#)

"General Camilla, did we just let the Nawara kid go?"

After the black gold zerg group left, one of the worms gritted their teeth and said.

"Yeah, I finally met here. There is such a chance, just to show them some color." "We don't have to do anything. The subordinates have just carefully perceived the guy by the piercing sky, the appearance of this person. He Qi doesn't seem to be a member of the Dead Demon Race. Could it be that this Wara Zerg family has taken refuge in another family?"

It's a taboo. As long as we spread the news to the dead demon, the adults of the dead demon will definitely kill them. "

Several insects said with cold voice. "Shut up." Camilla of the Black Gold Zerg's eyes sank: "Don't forget the purpose of our trip. This time, our Black Gold Zerg has harvested a lot. Don't get out of knots. When we find the opportunity, we will ask the Nawala kid. Good-looking, before that, first

Low-key, after all, this is the first time I have come to this black market. Don't make trouble. "

Camilla squinted.

Their Black Gold Zerg came to this black market for the first time, this time after they destroyed a druid legion, they got a lot of feats, and also got a few treasures, including even a druid Heavy treasure.

If it is just meritorious service, they can exchange it directly within the Demon League, but they don't want to exchange these treasures to the Demon League, or even let the dead demon master above them know.

Because they know that once the news of this treasure is out, it will definitely not be their turn, so they will come to this black market and want to use the black market trading meeting to sell the treasure in this black market.

Before they came up, they also recognized the thorny sky of the old opponent, the Wala clan at a glance, so they came up deliberately to respond. If they really wanted to do something on the black market, they would never dare.

"My lord, I just showed you a joke."

On the starship, the stone statue ferryman shook the oars, and the starship immediately left the shore and sailed into the endless galaxy.

"It's okay."

Qin Chen waved his hand, his perception was completely silent in the ghost galaxy.

If you don't enter the Nether Galaxy, you will never know the vastness of this galaxy, the endless dark power surging, and the cold air, there is really an illusion of being in the \*\*\*\* of Yama. Qin Chen has the rules of death and is extremely keen on the power of death. He clearly feels that there are stars floating and sinking in this ghost galaxy, and in the sea under the stars, there is a breath of death through the sky. Diffuse, chill

Sensen, making his soul seem to be frozen.

This is indeed like the power transmitted from the underworld.

At this time, Qin Chen finally knew why this ship was called a star ship. The starship swayed like a leaf boat, blooming with starlight. These starlights are dotted and conspicuous in the dark galaxy. The power of the starlights enveloped Qin Chen and others, so that Qin Chen and his party would not be affected by this. Nether

The breath of death in the galaxy invaded too much.

Otherwise, the cold death air alone would be enough to freeze the soul of Qin Chen and his party.

No wonder even Tianzun can't cross here.

Qin Chen has seen many mysterious places, but this Netherworld Galaxy can definitely rank in the top three, comparable to the Void Sea in the Void Tide Sea, only strong but not weak.

"There are fishing tools here, some of you can do it."

When the starship sailed into the middle of the Nether Galaxy, the dwarf old man took out some fishing tools from the cabin.

I saw some fishing gear, hats, gloves, etc. "Everyone, the water in the Nether Star River is very dangerous, with strong void and corrosive aura. Once touched, it will instantly burn the flesh, so you must not touch the water in the Nether Star River. And these hats, gloves, is used

It is made by the golden thread of the star \*\*\*\* silk, which is not afraid of the corrosion of the ghost galaxy, and this fishing rod is forged with dead metal iron, soft and tough, is a valuable treasure, and is made by the black market with great effort. "

The dwarf old man introduced, putting on a hat and gloves to prevent it from being corroded by the sea water in the Nether Star River.

Qin Chen and others also put on this special fishing equipment one after another.

"This is the first time for you all to come to this Nether Star River, and it is also the first time to fish. I will teach you how to fish first." The dwarf old man demonstrated to everyone.

"What's so difficult about fishing."

Gu Limo said with some doubts.

Who can not fish? Afraid to be an idiot, right? Still need to teach?

The dwarf old man smiled slightly without explaining, in front of everyone, holding the fishing rod, he threw it out suddenly.

call out!

The fishing line took the pendant, quickly tossed out, and fell into the Nether Galaxy with a bang.

"Isn't there any bait?"

Gu Limo said in astonishment.

Qin Chen also looked over. The dwarf old man did not hang bait before.

"The fish in the Nether Star River do not eat any bait, only the rules and origins. The origin and the power of rules in your body are the best bait."

As the dwarf old man said, he instilled the power of the source on the fishing rod. Suddenly, a rule source belonging to the old dwarf man followed the fishing rod and fishing line and quickly penetrated onto the pendant at the bottom.

"When your source of power enters the galaxy, you can feel the depth of the ghost galaxy. Next, you only need to wait patiently and use your source to attract those fishes."

Can you fish like this?

Ci Tianqiong and the others looked at each other and couldn't help but stunned.

This is also amazing.

The stone puppet ferryman was expressionless, obviously he saw too many scenes like this.

"Haha, it's that simple, I'll do it."

Gu Limo laughed, came to the side of the starship, took his fishing rod, and threw the fishing line out. Then, he quickly integrated the original power of his body into the bait in front of him.

Qin Chen also threw the fishing line out according to the dwarf old man's statement.

Moreover, Qin Chen quietly urged his power and blended it into the fishing line. Suddenly, Qin Chen felt his soul as if he had entered a mysterious starry sky, and felt a mysterious and vast power from the bottom of the galaxy.

As if there was something terrifying in this galaxy abyss.

What a magical galaxy. Qin Chen tried to extend the soul into the galaxy, wanting to see the scene in the galaxy, but his soul just approached the river surface, he felt a strong burning pain, looked into the river, Xinghe There is chaos in it,

Like an endless abyss, you can't see it at all.

Divine Soul cannot enter this galaxy at all.

Qin Chen's heart was slightly startled, this Nether Galaxy took it seriously!

Only a trace of origin along the fishing line can feel the vastness of this galaxy.

Qin Chen didn't study it carefully, but settled down and started fishing.

However, a stick of incense passed.

An hour passed.

One day passed. Qin Chen and the five of them did not catch a Shenguang fish.

### [Chapter 3770: Fish bait](#)

In one day, everyone got nothing.

"There isn't even a sacred light fish. Is there really any fish in this Nether Star River?"

The next day, everyone changed a few more places, but they still didn't catch a sacred light fish. It had been almost two days, but they didn't even see a single fish. Gu Limo of the Wara Zerg couldn't hold back his temper. Up.

If it weren't for this Nether Galaxy that couldn't enter, he would have jumped directly into this galaxy to catch fish.

Compared with Gu Limo, Ci Tianqiong and Qi Buman are much more peaceful. Ci Tianqiong gave Gu Limo a fierce look and said, "Come down and don't affect the adults." The dwarf old man also said with a smile: " You should be patient. It is so easy to catch Shenguang fish. Shenguang fish is the common currency of the entire black market. If you can catch it casually, then you can change a lot in the black market.

Many people catch a few months of fishing. Without this patience, it would be difficult to gain a reward in the black market. "

The dwarf old man smiled and looked at Gu Limo. This person should also be a venerable of the Zerg, and he could not hold back his temper.

Qin Chen also shook his head. This Gu Limo was still very stable when he was in the Wala Zerg camp. When he came out, he jumped off like this, as if he had let go.

However, as the dwarf old man said, a pound-heavy Shenguang fish is worth a late-stage holy vein. If the Shenguang fish is so easy to catch, I am afraid that the entire Ten Thousand Races battlefield will stop fighting and all will come. The black market is ready to catch Shenguang fish.

With such a value, it is normal that no one is caught even in the past year.

Qin Chen had been prepared for a long time, but he was not too anxious. Moreover, his mind was not completely immersed in fishing, but immersed in this ghost galaxy.

Qin Chen's spirit followed the fishing line into the Nether Galaxy, and ran various rules to understand the depth of the Nether Galaxy.

This galaxy was vast and boundless and contained a lot of mystery. Even just perceiving a breath of it was enough to shock Qin Chen, as if he had seen a whole new world.

The vast universe is really too mysterious, and too mysterious.

Moreover, the breath of death escaping from the Nether Star River was also of great benefit to Qin Chen, allowing him to have more understanding of the rules of death.

It is not so much that Qin Chen came to fish in the Nether Star River, it is better to say that he is here to practice. The Nether Star River is very vast, but along the way, Qin Chen and the others also met some people who came out on the starship to fish like them. Like Qin Chen and the others, the other party had nothing to gain, and even Gu Limo wanted to see it.

Shenguang fish, there is no chance.

In a blink of an eye, it has been almost a month since Qin Chen and the others came to Nether Star River.

For a month, Qin Chen and the others did not catch a Shenguang fish, and they only heard from other starships that someone had caught one or two Shenguang fish from other places, but the other party had already fished here. It has been several years.

"This is too boring, old man, are you sure you are not pitting us? I suspect that there are no fish in this galaxy. This must be a deliberate scam created by the black market."

One month later, Gu Limo couldn't hold back again, and said impatiently.

Although one month is not a big deal to the Venerable, facing this dark and deep purgatory like galaxy every day, some people will inevitably feel a little impetuous. "This adult can't talk nonsense. Fishing is actually the same as cultivating the mind. You must concentrate your mind and body into the heavens and the earth in order to be able to harvest. Moreover, different origins and rules have different attraction to Shenguang fish. I heard some

The essence cultivated by the race has a special attraction to the Shenguang fish, so the effect will be very good. Maybe the original aura I am waiting for, this Shenguang fish does not like it very much, not to mention it is still early. "

The dwarf old man said with a wry smile.

He proposed to come to the Nether Star River to fish, and it was spent on the starship. In case the guests can't catch a sacred fish in a year, his face will not look good, and he will be treated as a scam.

Naturally it has to be explained.

"According to you, I am a Zerg. Shouldn't this fish like to eat insects the most?"

Coulimo pouted.

The dwarf old man suddenly became speechless, unable to refute.

After a long time, he said: "This, ordinary fish like to eat insects. That is the rule of the world. The fish that can survive in the Nether Galaxy are naturally different. Besides, your lord, you are a Zerg master...this..."

The dwarf old man barely said that Coulimo was not a bug.

"Okay, Gu Limo, if you are impatient, please practice on this star ship. Anyway, one year will pass quickly."

Qin Chen said lightly.

At the same time, his heart moved slightly. According to the dwarf old man, different rules and auras attract the sacred light fish differently. These sacred light fishes live in this ghost galaxy all year round. Would they be more interested in the rules of death?

Thinking of this, Qin Chen immediately transformed the regular aura that had been instilled on the fish sinker, and a death rule quietly merged into the fishing line.

"My lord's lesson is that the subordinate is anxious."

Qin Chen spoke, Gu Limo naturally didn't dare to talk nonsense anymore, hurriedly picked up the fishing rod once again, threw it into the Nether Galaxy, and turned his head to prepare to say something.

When he saw the fishing rod in Qin Chen's hand, his expression suddenly became excited.

"My lord, your float has moved, there must be a Shenguang fish hooked."

Gu Limo said excitedly.

The dwarf old man also hurriedly looked over and found that Qin Chen's float was really moving.

"Be careful, adults, this may be because the fish is testing the hook. Shenguang fish is vigilant and won't bite easily, so once you have to calm down, wait until the fish really bites the hook before taking the rod."

The dwarf old man hurriedly reminded, while holding his breath, he was extremely nervous, and he must be calm.

Qin Chen's eyes were deep, staring at the float for a moment, then suddenly pulled the fishing rod.

"No, it's too fast, Shenguangyu is clearly still trying."

The dwarf old man sighed and his eyes were full of disappointment. The adult was still too impatient, so he lifted the rod so quickly, the fish hadn't bitten the hook yet.

call out!

I saw Qin Chen's fishing line quickly lifted, and immediately afterwards, with a bang, a dazzling light was suddenly lifted from the galaxy, and it bounced continuously at the fish drop, as if it had caught a flame.

"Haha, I'm on the fish, I'm on the fish, you deserve to be an adult, come quickly."

Gu Limo was even more excited than Qin Chen, and immediately jumped into a dance. The dwarf old man on the side was also stunned, and saw that Qin Chen's hook was alive and kicking. It was clearly a sacred fish with one finger or so, probably only three or two.
