

Valkyrie 3771

[Chapter 3771: Pluto fish](#)

Does this work?

The dwarf old man's eyes widened, Shengguang fish is vigilant, and it usually takes at least a long time to test the hook. It's only a moment, why did you get the bait?

Qin Chen grabbed it with his right hand, grabbed the sacred light fish, and put it neatly into a special bucket.

"Let me see." Gu Limo's message came to the bucket and looked at the sacred light fish in it in amazement. I saw that this fish was no different from an ordinary fish, but it was full of sacred light, which made people feel Very comfortable, like a flame swimming in a bucket

Moving. "Congratulations, this lord, this is a pure sacred light fish, one finger long, three doubles. If sold in the black market, it is generally worth three mid-term holy veins. It seems that the cost of the adults this time out of the galaxy is not only returned. This, but also earned some

. "The dwarf old man also said with a smile.

Although a pound-heavy Shengguang fish is worth a late-stage holy vein, the value of the Shengguang fish has a huge relationship with its body size. The larger the Shengguang fish, the higher the value, which is more than half a catty per step. It's another step.

Therefore, although this Shengguang fish has three or two, it is not worth one third of the Saint Lord's Saint Vein of the later period, and its value is much lower.

But no matter what, at least it will pay back.

"Haha, I am coming too."

When Gu Limo saw a fish bait, he was intrigued again, and hurriedly took the fishing rod and started fishing, his eyes staring brightly.

Qin Chen could catch the Shengguang Fish, indicating that there must be fish nearby.

Qin Chen smiled when he saw it, and his heart moved, it seemed that the death rule was indeed effective.

Thinking of this, Qin Chen flicked his pole again.

"This time it should be my turn."

Gu Limo thought happily in his heart.

As soon as Qin Chen's fishing rod was thrown down, the float actually moved again before he waited.

"Are there fish again?"

Everyone was stunned, looking over one by one, they saw the float swaying and swinging back and forth.

"My lord, be careful, this is Shenguangyu... it hasn't started biting!" The dwarf old man was afraid that Qin Chen would directly hold the pole as before and hurriedly reminded.

But his voice did not fall.

puff!

Qin Chen had already lifted the pole again, and suddenly, a fish glowing with divine light was pulled up, struggling vigorously.

"..."

The dwarf old man is speechless, is this all caught? He has been discussing life in this black market all the year round, and he knows too much about the characteristics of the Nether Star River and the Shenguang fish. This kind of fish is naturally vigilant and wants them to bite extremely hard. Some fish will try for a few days without biting. Yes, why did you get to Qin Chen?

Here, a reference is made.

Why does the fish bite so quickly? This is not in line with common sense!

Really... Damn it!

"Haha, General, the lord caught a half-catty Shenguang fish this time." Gu Limo excitedly said.

The Shenguang fish that Qin Chen caught this time weighed half a catty, which was nearly twice as heavy as the previous one, but its value was at least several times higher.

"Gu Limo, you should learn more from adults to learn the skills of fishing." Shi Tianqiong also said with a smile, Qin Chen has gained something, and he is naturally happy.

"Hey, then I will take a good look at the adults' fishing skills." Gu Limo scratched his head and said with a silly smile.

Ghost fishing skills!

The dwarf old man groaned inwardly, is this pure luck? He hadn't heard of anyone who caught two Shenguang fish in less than half an hour.

"Hehe, these two fish are good, I have fish soup tonight." Qin Chen smiled.

"Okay, okay." Gu Limo looked excited, he almost missed the halazi, it was the first time he saw such a magical fish.

The dwarf old man is dumb, the value of these two fish is not weak, whether it is refining or selling can get a lot of benefits, they are used to make fish soup to satisfy the appetite? Isn't this too extravagant?

Basically, all the people who fished the Shenguang fish from the Nether Star River would take it out to buy things or directly refine it, because it would be too wasteful to use it directly for cooking, and only a very small part of it can be absorbed.

"Two fish are not enough to make fish soup. I will catch two too."

Gu Limo looked excited.

How to eat two fish? This is not enough to cram teeth.

At this moment, Zibuman's float also moved. He waited for a long time, and suddenly pulled the fishing rod suddenly. A Shenguang fish about one and a half long and weighing about four or two was pulled out and was on the hook. Jumping up and down.

Zi Buman was silent along the way, but at this time he was extremely excited, and hurriedly took the fish down and put it into the bucket.

"Qibman has caught it. I have no reason not to."

Gu Limo muttered, his self-confidence was hit hard, and he started fishing. He hasn't gained anything yet.

The dwarf old man was also a little dazed. The luck of these guys is a bit good!

Qin Chen threw the hook into the Nether Star River again, sat there, staring at the float, he knew now that his own death rules were quite attractive to Shenguang Fish.

Just a moment later, the float moved again!

Fish again?

Qin Chen pulled the fishing rod abruptly. This time, Qin Chen clearly felt a sinking. The next moment, with a violent sound of breaking water, he saw a gray fish that was more than a foot long violently. Pulled up.

The whole body of this fish was gray, covered with a few dots of scales. Its eyes were fierce. It opened its mouth and its mouth was full of sharp teeth. It was slammed onto the starship by Qin Chen.

This fish was caught by the hook, but it was very fierce, and it was just a bite towards Gu Limo.

by!

Gu Limo yelled, punched it, and with a bang, the fish was beaten to death, and Gu Limo also touched his fist and sucked in pain.

This gray fish is too hard to defend, right?

what fish is this?

Gu Limo hurriedly looked at the dwarf old man.

The dwarf old man opened his eyes wide and stared at Qin Chen. Is this guy too lucky? It didn't take long to put the fish hook down, so I caught another one?

The piercing sky in the distance is also dumbfounded. The adult is too perverted. Why does the fish bite his hook?

"Old man, isn't this a sacred fish?" Gu Limo looked at the dwarf old man.

"This is a Pluto fish. It is a little more advanced than the Shenguang fish. It is of great value. Such a big one, I am afraid that it weighs three or four catties. It is worth at least ten late-stage holy veins." The dwarf old man is speechless, on experience He was the one who was present the most, but he looked at his float and was motionless on the water. Seeing Qin Chen fishing, how can there be any skills? It's really better than harvest, Qin Chen caught three of them

Up.

What a...

The competition is all luck.

The dwarf old man has been in the black market for so many tens of thousands of years, and he has received a lot of masters and powerhouses. Almost all have come to this Nether Star River to fish, but it is the first time for him to be as powerful as Qin Chen.

No matter how strong your fishing skills are, you can't match the luck of the sky.

"Pluto fish? Doesn't this fish taste fangs?" Gu Limo said suspiciously. This fish is too fierce. From the perspective of appearance, it makes people unable to speak.

[Chapter 3772: Talking at the bottom of the river](#)

The dwarf old man looked at Gu Limo speechlessly and said: "Although this Pluto fish looks ugly, it is actually very fleshy and extremely delicious...Bah, baah, what I said, in fact, such a fish. Pluto fish, nobody

Will be willing to use it to cook the soup, almost all people who get the Pluto fish either use it to refine the pill or directly refine it, feel the power in it, and use it to cook the soup, which is too wasteful. "

"This ugly fish is so delicious? Doesn't it look very similar?"

Although the dwarf old man said so, Gu Limo still frowned, and for a long time did not believe that such an ugly Pluto fish would be so awesome and so delicious.

Isn't it a lie?

Qin Chen was moved in his heart, can this fish make alchemy? That's right, he carefully sensed the fish in front of him, and they all contained amazing divine breath.

It may be due to the power of swallowing rules all year round. Every fish contains powerful power, which is comparable to some top holy medicines.

The most important thing is that the power of this kind of rule has a huge effect on the Venerable, and it is enough to make a lot of people move.

No wonder this Shenguang fish is very valuable in the black market.

"It's interesting." Qin Chen got interested and caught several fish in succession, and they were all different, giving Qin Chen a new understanding of the Nether Star River, perhaps from the fish caught from the Nether Star River. , We can see the true existence of this ghost galaxy

It may not be.

Thinking of this, Qin Chen stuffed the Pluto fish into the bucket, and then threw the rod again.

Stabbing Sky Qiong saw Qin Chen catch another fish, and he was a little sluggish. Lord Demon Chen's luck was not so good, but was it really just luck?

The dwarf old man is not clear, but Stabbing Sky is very clear. The origin of Lord Demon Chen is extremely mysterious. Although his cultivation level is not high, he must be the top group of demons, which is no small thing.

Therefore, although Lord Demon Dust came to the black market for the first time, he was able to catch fish one after another before, not necessarily just luck, maybe there are some unique tricks.

It was normal for someone like Lord Demon Chen to use some methods.

After Qin Chen threw the pole again, he waited patiently. This time, his body was surging, and more rules of death were diffused. On the fishing line submerged in the galaxy, the billowing breath of death surged. .

However, what is strange is that after the bait this time, the float did not move, as if all the fish had disappeared.

The dwarf old man and the others all stared at Qin Chen, for fear that fish would come up after Qin Chen got off the bait. They were a little nervous one by one, but after waiting for a while, they realized that there was no movement, and then they were slightly relieved.

Luck, it should have been luck before.

They thought in their hearts, but their eyes were still staring at Qin Chen.

Qin Chen sensed the gazes of a few people and couldn't help but looked at himself suspiciously. He raised his head and looked at the dwarf old man and the stabbing sky Qiong and the others and said, "Anyone, is there something wrong with me?"

"No, no." The dwarf old man waved his hand hurriedly, "My lord, you continue fishing, I just look around."

Citianqiong and Gu Limo both shook their heads, but their eyes were still fixed on Qin Chen, they all wanted to know how Qin Chen fished!

Qin Chen stopped paying attention to a few people, holding his breath and putting his soul into an ethereal realm, as if he had merged with the nether galaxy.

Hum!

The sky-filling hammer in Qin Chen's body moved quietly, and the sky full of stars appeared on it, blooming with a mysterious aura, as if it resonated with the ghost galaxy.

Vaguely, Qin Chen felt his soul as if he could see the inside of the Nether Galaxy. In this galaxy, there seemed to be a mysterious luster surging.

This luster is very mysterious, like a pattern engraved with runes flashing, but it is not clear what it is.

What made Qin Chen even more shocked was that in the dark bottom of the Nether Star River, there were whispering voices, as if someone was babbling in his ears, calling him to let him enter the bottom of the galaxy. .

This voice is very subtle, looming, seemingly true and illusory, making people confused whether it is reality or illusion.

A huge black shadow flashed across the bottom of this ghost galaxy, like a continent, too terrifying.

What is this?

Qin Chen woke up from the ethereal state, was taken aback, what did he see just now? Is it the sacred light fish in this ghost galaxy? Or something else?

Qin Chen held his breath and felt it again, but he couldn't enter the previous state anymore. The sky-filling hammer in his body also returned to calm, floating there quietly.

Is it an illusion?

Qin Chen frowned, this feeling only appeared for an instant and then disappeared, but Qin Chen felt a feeling in his heart. This was not an illusion.

There is definitely something in this ghost galaxy.

Qin Chen shook his head and looked at Nether Star River with a solemn expression. He is still too weak now. It is rumored that even Heavenly Venerate cannot cross Nether Star River. If he is too quiet in this Nether Star River, he might even know how to die.

On the starship, the dwarf old man and others stared at Qin Chen's float.

This has passed for a while, and the float hasn't moved. The dwarf old man breathed a sigh of relief and thought to himself that Qin Chen had caught three fishes before, and it really contained luck.

He was just about to turn his head, his gaze was about to leave Qin Chen's position, but he saw that the float moved again.

I am dizzy...

Has another fish been hooked?

Qin Chen was also surprised, because this time, he felt that the fish he caught was absolutely extraordinary.

This hasn't even begun to raise the pole, a terrible force is about to pull him into the Nether Galaxy.

What a powerful force?

Qin Chen lifted the fishing rod abruptly. Suddenly, this fishing rod made of dead meteorite gold iron completed a huge arc in an instant, and there was a crunching sound on the fishing rod.

Even the starship shook slightly.

The stone puppet's eyes flashed, and the starship immediately stabilized.

"What kind of fish did you catch?"

The dwarf old man was stunned, even the fishing rod was bent like this, and there was definitely a big fish hooked.

"My lord, let's help you."

Stabbing Sky Qiong gave a low cry, swish, he quickly swept over, and Gu Limo and Qi Buman also hurried over.

"No, get me up!"

Qin Chen gave a cold light in his eyes, gave a low voice, and slammed hard.

Wow!

Qin Chen heard a huge sound of breaking the water, and a big fish that was one meter long and glowing with divine light was suddenly lifted by Qin Chen.

"by!"

"Such a big Shengguang fish?"

When this big fish was lifted up, everyone felt that a scorching sun suddenly rose above the dark galaxy, and the dazzling light made them almost unable to open their eyes for a moment.

This sacred light fish left the water, immediately lost its strength, and fell onto the deck with a thump.

Gu Limo hurriedly rushed forward to catch this sacred light fish.

boom! Seeing this Shengguang fish landing on the deck, it flicked its tail suddenly, and Gu Limo was shocked to retreat again and again, surging with blood.

[Chapter 3773: Rainbow Koi](#)

This meter-long colorful fish flicked its tail and shook Gu Limo upside down.

Gu Limo, a master at the venerable level, was shocked by this fish to retreat on the starship.

Is the strength of this fish equivalent to that of a master master? Qin Chen also saw this big fish at this moment. The whole big fish was nearly one meter long and weighed several tens of kilograms. When it was pulled out from the Nether Galaxy, he only felt it dazzling, like a round of dazzling. The sun is so scorching, you can't tell the details

appearance. But now after it landed on the starship, the light immediately became dimmed, with multicolored divine rainbows blooming, and the scales on its body were extremely huge, especially the color of each scale was extremely different, colorful, like a rainbow same,

In addition, there were two long whiskers at the corner of the fish's mouth. After a violent earthquake on that deck, it was about to jump into the Nether Galaxy again.

"His grandma, where are you running, smelly fish, it makes your grandpa Coulimo really embarrassed."

Gu Limo yelled, stabilized his figure, and rushed forward.

The dwarf old man blankly watched Gu Limo pounce on the colorful fish, his eyes were dull, colorful scales, long beards, dozens of catties of big fish, my God, am I right?

He has acted as a guide for many powerful people in this black market, but the scene he saw at this moment is simply the most thrilling thing he has encountered in his life. Gu Limo roared, this time he was prepared, and the terrifying venerable aura on his body was filled, and suddenly, a roaring sound erupted. Before the colorful fish was about to fall into the Nether Galaxy, he punched It hit the star ship again

on.

"Hey, be good to me, don't move, if you hear it, don't let me beat you up, I'm very pity for Xiangxiyu, don't force me to do it." Gu Limo slammed on the colorful fish, The big fish was hit by Gu Limo's punch, but it was still alive and kicking. It was bouncing on the star ship, the huge fish tail kept slamming, and it had to break free several times. Gu Limo's body

The body is almost to be thrown out.

The power of this colorful fish is too great. Qi Tianqiong and Zi Buman reacted at this time, and quickly jumped to the sides, wanting to intervene, but Gu Limo had completely pounced on the big fish, fighting with the big fish, and they could only block it. Position on both sides, don't let this

Big fish jumped back into the galaxy, only occasionally making a move.

Bang bang bang!

Gu Limo's fist hit the big fish's head, just like hitting an iron plate. The big fish didn't know what the flesh was made of, it was extremely hard.

Seeing the big fish thumping, getting closer and closer to the side of the starship.

Stabbing Sky snorted coldly, and said, "Gu Limo, I'll come."

boom!

He blasted over with a punch.

Hearing the sound, Gu Limo immediately let go of the big fish, and saw the big fish leaping up abruptly and being hit by the back of a sickle-like blade stabbing the sky in midair.

With a bang, I saw the big fish bursting with colorful divine light, piercing the sky with a knife back, and it was as if it had been split on the gold and iron, making a harsh roar.

The colorful rays of light bloomed, actually resisting the knife that pierced the sky, and even took advantage of the power of the piercing sky, to jump into the nether galaxy again.

not good! Qi Tianqiong's face suddenly changed. He was also worried that Qin Chen wanted to leave a living thing, so he only displayed a part of his power, and deliberately used the back of the sharp blade to chop and chop, just to stun the big fish, but left it again. Killed it, but didn't

I thought that this big fish had such magical powers.

If this allowed it to return to the Nether Star River, even if it was sold, he couldn't afford it.

Just when the big fish was about to jump into the Nether Star River...

Qin Chen moved suddenly.

boom!

He reached out with his big hand, like lightning, and instantly caught the big fish. Above his five fingers, the divine light surged, and the force of the rules swept across, and the big fish slammed on the deck.

This colorful fish was hit by this attack, and suddenly flopped twice weakly, and then passed out into a coma.

"hiss!"

The dwarf old man glanced at Qin Chen dumbfounded, shocked in his heart.

"This fish has a lot of strength, but it's finally stable."

Then Gu Limo got up from the ground, embarrassed and kicked the fish.

"Hurry up, don't freeze, Gu Limo, take the big bucket of water and clean the colorful fish once." Qin Chen said.

"Okay."

Gu Limo was so excited that he hurriedly brought clean Tianjing water and cleaned the colorful fish, because the fish had just come out of the Nether Galaxy, and he was still covered with the Nether Galaxy water, and it would corrode even a trace of it. Human skin. At this moment, Stabbing Sky Qiong and the others all gathered around, staring at this sacred fish dumbfounded. Although this sacred fish passed out, the scales on its body still shone with multicolored rays of light, which carried the mystery of the avenue, just like Order god

The chain flickered, bursting with a piercing light, and the colorful lights that reflected the entire star ship were too eye-catching.

"Old man, what kind of fish is this? Doesn't it look like a Shenguang fish?"

Gu Limo said suspiciously to the dwarf old man. "This is indeed not a sacred light fish with five colors and long beards. It seems to be a rainbow koi. It is said that this fish is very violent and powerful. The most important thing is that it contains extremely powerful rules. The terrifying power contained in this fish's body is just the five-color light on its body, which seems inconspicuous, but it can wash the human body, transform the rules of the body, and merge into the heavens. It was once in this black market thousands of years ago. A rainbow koi has been auctioned, and it's less than one meter.

The high price for a whole whole body of human respect. "

The dwarf old man said dumbly, looking at Qin Chen in disbelief, he could even catch the Rainbow Koi, what kind of freak is this?

"Just this fish, worth a holy vein?"

Coulimo sucked in air.

Don't even think that he is also a master of the Venerable, but a treasure such as Venerable's Saint Veins may not be a complete one if his value is hollowed out. This fish is too valuable.

Gu Limo's halazi are almost shed, this fish must taste extremely delicious.

"This lord, this thing is too extraordinary, you should put it away, if it is seen by other people, I am afraid..." the dwarf old man said hurriedly.

Qin Chen nodded, and a rainbow koi of less than one meter can sell for a high price for a Venerable's Holy Vein. His body is definitely more than one meter, and it is probably worth more. It can indeed attract other people's coveting.

As soon as Qin Chen raised his hand, he immediately included the Rainbow Koi into the Universe Jade Plate.

"It's a treasure--" Just when Qin Chen put this rainbow koi carp onto the jade dish, a sound rang from the galaxy, stabbing the sky and they looked up, and a star ship moved slowly from not far away. Come.

[Chapter 3774: Unable to use force](#)

"It's a member of the Black Gold Zerg."

When Stabbing Skydome saw the person on the starship, his face couldn't help changing. It was really Yuanjialuzhao. The person on the starship was not someone else, but the person from the Black Gold Zerg race he had encountered before.

It is definitely not a good thing to be seen by them just now.

"Is it you?"

Camilla of the Black Gold Zerg also saw Stabbing Sky Qiong and others at this time, and his eyes condensed instantly.

They are also the first time to come to this black market. They heard that there are so many treasures in the Nether Star River, so they came here to try their luck, but in the past month, they only caught a sacred light fish that could not reach their pinky, and nothing else. .

I was a little boring, who knew I suddenly saw a strange light above the galaxy in the distance before, so I drove the boat, and I did not expect to see Qin Chen and the others putting away the rainbow koi. A big fish with colorful lights and a beard shocked the hearts of Camilla and other masters of the Black Gold Zerg. Shenguang fish and they also caught one. Although it is small, it is definitely not the big one that Qin Chen put away before. Fish look, and so

The big fish, the colorful divine light blooms, let him instantly understand that this big fish is absolutely remarkable and of extraordinary value.

At this moment, Camilla of the Black Gold Zerg was instantly moved by this colorful fish.

"Stabbing the sky, don't come unharmed, I don't expect Brother Stabbing to come to the Nether Galaxy this time, there will be such a good harvest. It is gratifying and worth celebrating." Camilla drove the boat closer and said with a smile.

"Is there anything to celebrate, does it have anything to do with your Black Gold Zerg?" Gu Limo sneered disdainfully.

"Shut up." Stabbing Sky Qiong gave Gu Limo a fierce look, and then arched his hand at Camilla: "Brother Ka has passed the award, it's just normal."

He was stunned, and he was secretly wary. Will Camilla celebrate him? The other party is absolutely uneasy about what kind of intentions. "Brother Sir is too humble." Camilla didn't care about Gu Limo's ridicule at all, glanced at the sky, and then fell on Qin Chen: "My friend should be with the Wala clan, right? Your Excellency seems to have caught a colorful fish,

It looks very novel, I wonder if my friend can take it out and open my eyes. "

If it weren't for this black market, if he didn't want to grow out of it, if he encountered it on the battlefield of ten thousand races, his black gold zerg would have already started to grab this colorful fish.

"No." Qin Chen glanced at him too lazily. He didn't know what the other party was making, and refused. The smile on Camilla's face froze, but he still held up his smile and said with a smile: "Here is Camilla, the patriarch of the Black Gold Zerg. Since my friend is with the Wala clan, I should have heard of my Black Gold. My position of the black gold clan in the Zerg clan,

But it is much higher than the Wala clan. Perhaps you still don't know. The Wala clan has not gained anything in the battlefield of the ten thousand races for many years, and has been dissatisfied by the people who are waiting for me. "

Camilla stared at Qin Chen's eyes while talking.

"Does this have anything to do with me?" Qin Chen didn't bother to pay attention to the other party, and said to the dwarf old man, "Let's go, drive the boat, let's go and see elsewhere." "Hmph, I think your figure looks like It's the human race, piercing the sky, shouldn't you go to the human race for the Wala Zerg? Or, this person is with the Wala clan to inquire about the secrets of my Zerg? What a courage." At this time, Camilla was behind him.

One of the black gold insects of the clan shouted coldly. Seeing that Qin Chen ignored him, Camilla's expression sank, and he said solemnly, "Wait, one more friend, one more way, your Excellency is sneaking together with the Wala clan. I am a Zerg. I should know Wala. What is the clan

People are together, not to mention that this black market area is near the territory of my Zerg. Your Excellency looks like you are not from my Zerg. Isn't it afraid of being targeted by my Zerg? "

"Are you threatening me?" Qin Chen gave him a cold glance.

"I can't talk about threats, I just want to make friends with your Excellency." Camilla said coldly.

"Haha, how to make friends?" Qin Chen glanced at Camilla and said lazily. Camilla squinted his eyes and said, "I, the Black Gold Zerg and the Wala Clan, are both under the same demon clan, and they are

considered close relations. Your Excellency just caught a colorful fish. In this way, I have a mid-term Saint Lord's Holy Vein, Your Excellency. This colorful fish

How about selling it to the next? "

"A mid-term Saint Lord Saint Vein? Get off you."

Before Qin Chen could speak, Gu Limo cursed.

What is this guy daydreaming?

This is how to buy the sacred fish, this is simply to grab it, even the smallest sacred fish they caught, is more than this price, okay?

"A mid-term Saint Lord Saint Vein? It's really a big handwriting." Qin Chen also smiled, but his smile was very cold: "It's a pity, I don't want to make friends like this."

Qin Chen shook his head, "In these days, any **** race has come to dare to make friends with me, go away, it is your Zerg royal family who has come and annoys me, afraid that they will be thrown directly into the Nether Star River as bait. Let's go!"

Qin Chen said lightly to the puppet stone statue.

Stabbing Sky Qiong also screamed refreshingly on the side, and he also knew that Qin Chen dared to say so, and he naturally had his confidence, just because the other party could make the demon master of the dead demon clan respectfully call his Royal Highness, the royal clan of their zerg clan would have to be afraid. Weigh it.

When Qin Chen said such words, Camilla of the Black Gold Zerg's face suddenly became cold, and the other Black Gold Zerg's Worm Sovereigns also had cold eyes.

Arrogant, this kid is simply too arrogant. "Things that do not live or die, relying on your words, I have a reason to teach you instead of the Zerg." Camilla was furious, and the power of the Venerable rushed like a big wave. He didn't need to take action. The force is crushed to Qin Chen, wanting to rely

The mighty power of the venerable knelt down Qin Chen on the spot.

boom!

The billowing Venerable's air soared to the sky.

Camilla suddenly shot, Sting Tianqiong's face suddenly sank, and Qin Chen squinted his eyes slightly.

"Don't fight on my starship." At this moment, the stone puppet on the starship suddenly spoke.

Although the words of the stone puppet ferryman were extremely low, Camilla's face changed as soon as he spoke, and he immediately withdrew the power of the sage that had crushed Qin Chen.

In the black market, no one dares to be enemies in the black market, even if the ship ferryman is just a puppet.

The black market is incomparably mysterious and has stood in the dark universe for countless years. Even if it is the demon and the top powers of the human race, they dare not do anything in the black market. Once the rules of the black market are broken, it is not easy to leave alive.

This is a clear rule for all races. "Hmph, let's spare your life for the time being." Camilla snorted coldly. Although he couldn't swallow that breath in his heart, he didn't want to offend the ship ferryman.

[Chapter 3775: Delicious](#)

Qin Chen didn't bother to look at him. The stone puppet urged the starship to disappear above the Nether Galaxy, while Camilla, standing on the bow of the starship, watched Qin Chen and them disappear coldly.

"My lord, just let them go like this?" said an insect Zunhan behind Camilla.

"Hmph, do you think I really wanted to do it? I tried several times, and the piercing sky remained calm, even headed by that guy, the identity of this person must be extraordinary." Camilla said coldly.

"My lord, you mean... the other party is a member of the Demon Race? That's why the Wala Race is confident?"

"It's hard to tell, but it doesn't matter whether it is a member of the Demon Race or not. If you offend me, I will die." Camilla snorted coldly, her eyes showing terrible murderous intent.

"My lord, if we act on the people of the Demon Race, we are afraid..." The Worm Sovereign who was still clamoring before, was a little frightened at this moment.

"Who said I'm going to do it myself?"

Camilla sneered coldly: "The colorful fish before, looks extraordinary, it is very likely to be a foreign treasure, as long as we spread the news of that kid's arrival in the foreign treasure, hehe..."

"But this treasure can't be..." "It can destroy the Wala tribe and that kid, what is a fish? I am waiting for such a great achievement this time, if the general of the Wala tribe stabbed the sky and died in this black market, the Nawala tribe Of the camp and ethnic group, the upper part will definitely be taken over by me.

Taking care of the Wala tribe army, isn't it more than a fish? ! Camilla sneered.

"My lord is wise!"

The eyes of the other insects suddenly lit up. Indeed, compared to a group of divine fish, it was definitely not as good as that.

Qin Chen was on their starship.

"My lord, I waited to get my lord into trouble." Stabbing Sky Qiong said with a wry smile.

"It's okay." Qin Chen waved his hand.

"My lord, the Black Gold Zerg has always been insidious, I'm afraid it won't be so easy to give up."

"Insidious? It is indeed a little bit." Qin Chen sneered, how could he not see Camilla's temptation before, but he didn't bother to entangle with the other party.

"Stabbing Sky, do you want to swallow the Black Gold Zerg?" Qin Chen said with a smile.

Stabbing Sky Qiong was shocked, "My lord, what do you mean?"

He was shocked in his heart, faintly but a little excited. He knew Qin Chen's identity and knew that the Black Gold Zerg had provoked people who shouldn't be provoked at all. He couldn't help but get excited when he thought of what Qin Chen said.

"Think about how to receive the Black Gold Zerg when you look back." Qin Chen patted Sky Qiong on the shoulder.

If this Zerg clan was obedient, Qin Chen wouldn't mind cultivating a force of his own among the zerg.

It's a pity that Qin Chen knew that he couldn't do anything on the starship, and Camilla was just a test before, otherwise Qin Chen would have thrown Camilla into the Nether Star River to feed the fish.

"Come on, start cooking fish."

The sky gradually darkened, and Qin Chen did not continue fishing, but began to take out the stove to cook the fish.

A burst of fragrance immediately drifted out above the galaxy.

Qin Chen didn't know that Camilla was extremely insidious, and the news that Qin Chen had caught a big fish was passed on the first time.

"Five-color fish, is it Rainbow Koi?"

"Hi, someone catches Rainbow Koi again?"

"Wala? This should be an ordinary race among the Zerg, is it so lucky?"

Camilla and the others said when they met, many people who were fishing in the Nether Star River knew the news, and they drove towards the place where Qin Chen and the others had fished before.

At the moment on a lake in the Nether Galaxy.

A star ship swims by.

Two figures are fishing on the bow of this star ship.

Wow!

Suddenly, one of them slammed a pole, and suddenly, a palm-sized Shengguang fish quickly flew up and fell into that person's hands instantly.

"Hahaha, it's another sacred fish, magical, it seems that the harvest this time should be not small."

An excited voice sounded, it was Red Flame Demon Lord, and the one who caught the Shengguang fish around him was Moli.

"Hmph, those people don't even know that different rules attract different light fish in the Nether Star River, and my magical aura is the most attractive to these light fish."

Mo Li said proudly.

"Hey, the proud son of heaven is the proud son of heaven. Even if you come to this black market, you can still encounter endless opportunities."

Mo Li looked confident.

When they first entered the black market, they came to this ghost galaxy, and Mo Li was shocked to find that the Shenguang fish, which many people had difficulty catching, was extremely simple for him.

And relying on the sacred light fish that he had caught, Mo Li had obtained enough resources in this black market, and could break through the realm of the venerable at any time.

"Master Chi Yan, it is estimated that in this black market, no one can be better than me in catching Shenguang fish."

Mo Li said proudly.

"Quickly, someone caught a rainbow koi just now."

"Go, go over and take a look."

At this moment, the two starships quickly passed by the two of them, and at the same time the voices came over.

Rainbow Koi?

Mo Li and Chi Yan Demon Lord looked at each other, and their eyes were a little surprised. This was an extremely valuable fish in the Nether Star River that was actually caught.

Mo Li's face suddenly became embarrassed. Before he said that no one is better than him, why suddenly someone caught the Rainbow Koi?

Go, take a look!

The two immediately put away the fishing rods, and swiftly drove the boat towards the place where the others were driving.

"It's delicious."

At this moment, after more than a month of sailing, Qin Chen and the others had already penetrated into the extremely deep place in the Nether Star River. On the starship, several people were drinking fish soup, all showing a cheerful expression.

Even the dwarf old man was given a small bowl.

But his expression was dull, and his heart was broken.

Someone actually cooked the fish caught in the Nether Star River. This is too speechless, right?

The prodigal is simply too prodigal.

He didn't know how to complain.

This is a Pluto fish, if you get it in the black market, you can definitely sell it at a good price.

Naturally, Qin Chen didn't care about this. He had to say that this fish soup was very delicious. When he drank it into his body, the surging force made people feel like they had entered the cloud.

It is a pity that Kisaragi and Qianxue are not there.

Qin Chen thought with some regret that although the two of them were not there, he could catch more of them and keep them in the jade dish of Heaven and Earth.

Qin Chen ate the whole fish in a big pot and made it as soon as he thought of it. After Qin Chen finished eating the fish, he immediately started fishing again.

Hum!

This time, after taking the fish soup, Qin Chen seemed to have a new understanding of the Nether Galaxy, and he entered the state instantly.

suddenly! Qin Chen's float moved violently, and the whole starship was pulled up in an instant.

[Chapter 3776: Mysterious alien](#)

boom!

The whole starship seemed to be dragged by an incomparably huge force, shaking violently, and was about to be pulled out.

what happened?

The dwarf old man and others looked up in horror, and saw that the fishing rod in Qin Chen's hand had been broken straight, and the fishing line was also broken tightly, making a crunching sound.

Qin Chen held the fishing rod in both hands and did not let the fishing rod go. This caused even the starship to be driven.

My goodness, what did this catch? The dwarf old man's gaze was dull, and his eyes were almost bursting. He has been in this black market for countless years. He has experienced too much and seen too much, but it was the first time he saw someone fishing in the Nether Star River. , Even the fishing rod is stretched straight

.

No, don't say it's the first time I heard it, even the first time I heard it. Qin Chen was also shocked. Through the rules, he clearly felt that his fish hook had caught an extremely terrifying existence. The aura was incredibly flaming, and the power was amazing, even Qin Chen almost couldn't manage it for a while. Hold on, fishing rod

Like to get out.

"Quickly, hold the starship!"

Qin Chen gave a low voice, and a divine light burst into his eyes, which was clearly a good thing.

"My lord, I'll help you." Without Qin Chen speaking, at the moment Qin Chen's fishing rod was stretched straight, Gu Limo, Qi Buman and Stabbing Sky Qiong all rushed forward. Gu Limo was the fastest. A handful of them grabbed the front end of the fishing rod for Qin Chen and pulled it vigorously with a look of excitement.

And excited.

Damn, is there another big fish coming up? Could it be that he has a good fortune this time?

Immediately, Gu Limo exerted all his energy, pulling the fishing rod forcefully.

Hum!

The stone puppet was also alarmed, and his body lightened slightly. Suddenly, the starship that was being pulled to move stabilized suddenly, as if it were full of stars, and stopped firmly on the galaxy. , Stood still.

"it is good!"

Qin Chen was overjoyed. What he was most worried about was that the starship could not bear the pull of the big fish. Now the starship was stable, obviously more stable than he had imagined, and he was instantly settled.

As long as the star ship doesn't lose its chain, then this big fish will definitely not get away.

Terrible rules surged in Qin Chen's body, rumbling, like thunder roaring in his body.

"Gu Limo, get out of the way, my lord, I'll help you."

Stabbing Sky Qiong watched Gu Limo's upper half of the angel unable to exert his strength, and immediately uttered a low voice, asking Gu Limo to retreat, and he did it himself.

"it is good!"

Gu Limo hurriedly let go of his hand and gave way to Sting Sky Vault.

"No, look at me, get up for me!" Qin Chen suddenly let out a burst of drink, drinking like thunder, and at the same time he slammed a fishing rod and boomed, the terrifying power contained in the six reincarnation swords was madly displayed. There was a thunderous sound of breaking water, and a dazzling red light came from

The bottom of the sea rose suddenly.

This red light is too dazzling, with terrible road rules, everyone who shines can hardly open their eyes.

"Red rays, this is not a sacred light fish, nor is it a rainbow koi!" Gu Limo exclaimed excitedly. The sacred light fish is a dazzling divine light, like the scorching sun, and the rainbow koi is also a colorful light, as for Pluto. Fish, it was pitch black, but this time the fish caught by the adults turned out to be red

, Obviously different from the species caught before.

What is it this time? The dwarf old man and the others also hurriedly looked over, and saw the red light blooming, and fell on the starship with a bang. This thing was red in color, curled up into a ball, like a coral, in the starlight of the Nether Galaxy. Underneath like treasure

Shine like a stone.

A good thing was caught again, and the dwarf old man couldn't help but jump in his heart. He didn't seem to have seen this thing, what kind of fish it was this time.

"My lord, I'll catch it."

Gu Limo yelled, and before Qin Chen could speak, he could not wait to rush forward, clinging to the mass, and raising his fist to give it a punch.

But the next moment, Gu Limo let out a stern roar, and his fist was caught tightly by a red pincer. At this time everyone can see clearly, where Qin Chen caught what fish was, it turned out to be a crimson lobster. With a beating, Gu Limo's other fist slammed the lobster's tongs. Above, the terrifying venerable spirit blooms

With the help of the force of the counter shock, he broke free from the clamp, and the green blood dripped from his arm, and the injury was not light.

If he hadn't reacted in time, I was afraid that this hand would be pinched off. And after the lobster was punched by Coulee, there was no trace on the armor, but it was dancing with its two huge tongs, holding it in a panic, two black pearl-like eyeballs, watching vigilantly. Qin Chen and others around,

Poor, as if about to cry.

"It's actually a crayfish. Damn, it hurts me so much. What kind of crayfish is too abnormal, is it so powerful?"

Gu Limo sucked in cold air and urged the power of the venerable inside to repair the wound on his arm. The wound squirmed and healed quickly, but he still grinned in pain.

"I don't believe it, I can't even hold a crayfish."

Gu Limo's face was blue and ugly. He was injured by a crayfish and passed out. This is a real joke. He rushed up. Suddenly, the Venerable's power was filled and he wanted to subdue the little lobster, but the little dragon danced with two huge tongs, bang bang bang, and Gu Limo's attack was completely blocked by him, even though Some attacks fell on it

He couldn't attack the crayfish's shell at all.

Moreover, this little lobster waved its huge tongs, and boomed, there was a wave of dragon energy rising, making Gu Limo afraid to get too close.

The crayfish born in the Nether Galaxy are so strong. Qin Chen watched from the side and was a little dumbfounded. He naturally knew that Gu Limo had not exerted his full strength in the previous attack, but Gu Limo was also a master of insects, and he couldn't even hold a crayfish for a long time. Really makes people

Somewhat speechless.

Moreover, being blasted on the body by the Venerable Gu Limo, there was nothing at all. The defense of this lobster was too amazing.

What surprised Qin Chen most was the anthropomorphic expression of this little lobster, as if he possessed intelligence, and there seemed to be a trace of dragon aura on this thing.

Qin Chen's heart moved, did this lobster give birth to wisdom, or was it some kind of alien? His divine consciousness swept away, he submerged in the body of the lobster, and suddenly he felt a flaming aura condensing, containing terrifying principles, but the structure of this lobster was no different from ordinary lobsters, how could it be so strong ?

[Chapter 3777: Nether Giant Claw Red Dragon](#)

"What is this lobster, and what kind?"

Qin Chen looked at the dwarf old man.

"Yes, what kind of crayfish is this? With such a hard shell, it is not easy to steam it, right?"

Gu Limo also hurriedly asked, Harazi was almost flowing down.

Stabbing Sky Qiong glared at Gu Limo. He really regretted bringing Gu Limo out. This guy is a foodie. If he knew this, even the Kone Mo who offended an adult would be better than this kid.

"My lord, this lobster is afraid that it is a strange creature born in this ghost galaxy." The dwarf old man hurriedly said, "I have to check what it is!"

The dwarf old man hurriedly took out an old shabby book and searched it.

"Can you find out what it is?" Gu Limo asked.

"This crayfish is red all over, like agate coral. It is extremely hard and indestructible. Is it the legendary nether giant red dragon?" The dwarf old man pointed to an illustration of an old book in shock and said, "Ancient rumors, In the Nether Star River, there is the Nether Giant Claw Red Dragon. Its life is long. It is said that it can live for millions of years and can even swim into the Nether. The Nether Giant Claw Red Dragon multiplies

It is extremely difficult and extremely rare. Once they are born, they will be the size of a mountain. Every 30,000 years, they will shed their shells and their body will shrink by one circle. After 300,000 years, they will shrink to the size of a wooden barrel. "

"After that, it will fall into a maturity period. The maturity period can be long or short, ranging from hundreds of thousands of years to tens of thousands of years. The last time it metamorphoses, it can turn into a dragon and make waves and become the overlord on the Nether Galaxy." It is also recorded above that this object cannot be refined for consumption during the mature period. Once consumed, it contains highly poisonous, the Venerable will also turn into blood. After turning into a red dragon, the decayed shell is a treasure of heaven and earth. Eat at this time, enough to prolong life

Years, contains unpredictable effects. "

The dwarf old man murmured. Looking at this bucket-sized crayfish, Gu Limo said speechlessly: "Huh? You said this is a dragon? Do you think I am a three-year-old child? The dragon clan, in the ancient times, was a line of the monster clan, and then became independent, although there are not many, but it is powerful in the universe

The clan, and the dragon clan is egg-born, born from the egg, when did the lobster metamorphose? "

"Lobster Lobster, this is a shrimp, I really thought it was a dragon!"

Gu Limo looked suspiciously, what else is inedible, this guy, isn't he lying?

"This is indeed the record." The dwarf old man's forehead was full of cold sweat, and he didn't know what to say. Qin Chen took this ancient book. It did record some species in the Nether Star River. There are hundreds of different species, and there are thousands of them. There is indeed a record of the Nether Giant Claw Red Dragon on it. Crayfish are indeed somewhat similar,

It should not be fabricated.

However, the little lobster in front of him was actually a dragon, which Qin Chen felt incredible.

The universe is wonderful, but not all dragons are born of dragons. If a carp jumps over a dragon gate, it can be transformed into a dragon. Nature takes the role of good fortune and a lobster becomes a dragon.

It is that this thing cannot be eaten now, which makes Qin Chen a little disappointed.

This is what he finally caught, crayfish, what a delicious thing. Qin Chen continued to look at the ancient books. It was recorded that the Nether Giant Claw Red Dragon possesses strong self-protection ability because it is difficult to reproduce. Their bodies are extremely hard, and they are not afraid of any sharp weapons. The giant Claws are also comparable to the top treasures. , Extremely front

Li, can easily tear the enemy in the Nether Galaxy.

In this ghost galaxy, any fish that sees it will avoid it far away.

This nether giant red dragon will become extremely terrible until hundreds of thousands of years after it has transformed into a dragon. By then, some giant fish in the nether galaxy will be its food, and the armor after its last metamorphosis will be difficult for Tianzun. broken. Qin Chen's gaze fell on this crayfish. He didn't expect such a small crayfish to become so strong after its metamorphosis. However, it would be a very long time for hundreds of thousands of years. I don't know where I am

Out.

But to let the crayfish go, Qin Chen was naturally not reconciled.

This nether giant pliers red dragon seems to have a certain degree of wisdom, although it is recorded that it can only give birth to complete spiritual wisdom after it transforms into a flood dragon, I don't know if it can be conquered now.

Qin Chen's heart moved, and immediately, Qin Chen used the Heavenly Soul Forbidden Technique, and an invisible soul power filled the body of this ghostly giant red dragon. Qin Chen immediately felt a strong resistance. Power.

Sure enough, there is a certain sense of wisdom.

Qin Chen became interested, and instantly grabbed the crayfish with his right hand.

"My lord, be careful." Gu Limo and Qi Tianqiong hurriedly shouted, this crayfish has too strong offensive power, and it will be troublesome if one of them gets caught.

I saw Qin Chen grabbing the crayfish's big tongs and restraining it from moving, but its countless calves immediately squeezed towards Qin Chen, making waves of gold and iron, but could not break Qin. Dust defense.

"Magic Tree of Ten Thousand Worlds!"

Qin Chen urged the Ten Thousand Realms Demon Tree in his body, and an invisible demon origin power surged out and merged into the body of the crayfish, leaving a mark in the body of the crayfish.

Immediately, Qin Chen sensed the consciousness of the crayfish, extremely immature, like a five-year-old child, with a panic.

"Don't be afraid, don't be afraid, I won't hurt you."

Qin Chen comforted and said that a wave of soul fluctuations slowly penetrated, and the ghost giant red dragon felt Qin Chen's emotions, and it became stable.

Qin Chen placed it on top of the starship. The crayfish looked left and right. It didn't panic at all, and under Qin Chen's command, it walked back and forth on this deck.

"My lord, what are you..."

Ci Tianqiong and the others looked at Qin Chen dumbfounded, why this crayfish became quiet all of a sudden.

"I actually enslaved a crayfish."

Qin Chen himself felt a little dreamy. According to the records in this ancient book, the netherworld giant red pliers red dragon would only give birth to wisdom when it was about to transform into a flood dragon. From this point of view, it might not be long before this thing was transformed.

"This thing has already born wisdom, so I communicated with him, he will not attack people anymore." Qin Chen said to Gu Limo and others.

"What?"

Gu Limo and others were dumbfounded, what did the adults say? Is he communicating with this crayfish? The adult's mind shouldn't be...

"I'll call you Xiaolong from now on." Qin Chen didn't bother to pay attention to other people's thoughts and gave the little lobster a name.

Under the eyes of everyone, Qin Chen began to communicate with Xiaolong, but the wisdom of this dragon was only the size of a five or six-year-old child, so it was still difficult for the two parties to communicate.

"Xiaolong, you live in this Nether Star River all year round. Do you know where the Shengguang fish are the most?" Qin Chen asked.

[Chapter 3778: Great harvest](#)

The others are a little speechless, and the adult is actually asking where this crayfish has the most Shengguang fish.

Isn't your head really a bit silly?

Who knew that as soon as Qin Chen said this, the little lobster nodded heavily.

Damn, really responded.

Gu Limo only felt that his head was a little big, and he couldn't turn around quickly. The dwarf old man was also dumbfounded. He was also well-informed, but what he saw today was more magical than his whole life combined.

"Quickly, you command."

Qin Chen had just asked casually, but now he suddenly came to his mind, and threw the little dragon into the Nether Galaxy with a pounce.

"grown ups....."

Gu Limo hurriedly shouted, but it was too late, the crayfish had been thrown into the Nether Galaxy. He was immediately annoyed, the adults are really too stupid, will they not be fooled by this crayfish? Can this crayfish really know where there are so many sacred fish in the Nether Galaxy? Even if they knew that they were all creatures in the Nether Galaxy, they would not tell

Sir, are you?

Qin Chen sat cross-legged on the bow and quickly got in touch with Crayfish.

"Listen to my command."

Under Qin Chen's order, the starship swiftly sailed to another direction of the Nether Galaxy. After half a day, the starship stopped under Qin Chen's order.

"My lord, do you mean there will be more Shengguang fish here?" Gu Limo looked suspicious.

The galaxy here is pitch black, you can't see what's inside, it's exactly the same as other places, there is no difference, are there really many sacred fish here?

"It's here, take a break, and start fishing in half an hour."

After half an hour passed, Qin Chen opened his eyes instantly, picked up his fishing rod and threw it down.

Seeing Qin Chen's actions, Gu Limo and the others also quickly threw their faith and doubts down the fishing rod.

As soon as Qin Chen's fishing rod fell, his float suddenly began to swing.

A fish is hooked.

Qin Chen's eyes lit up and hurriedly closed the hook, and suddenly, with a clatter, everyone couldn't open their eyes because of the glare.

This is a Shengguang fish weighing a full catty, which was thrown up by Qin Chen.

by!

There are really fish.

Everyone was stunned. As soon as Qin Chen took the bait, he caught one. Is this too fast?

Qin Chen was very fast, and immediately took the Shengguang fish from the hook and put it into the bucket on the side to prevent the Shengguang fish from escaping.

Then, Qin Chen took the bait again.

Wow!

After just a few breaths, Qin Chen caught another Shengguang fish on his hook.

Then comes the third.

Article 4.

...

Only a moment later, Qin Chen caught ten sacred light fish, and they were all not light in weight. The smallest ones weighed half a catty, and the largest ones even weighed two catties.

This is too exaggerated.

"No, my hook also moved."

Suddenly, Gu Limo yelled, his face showed ecstasy, and his float moved. In his excitement, he immediately threw the hook, and he caught a half-catty Shengguang fish.

"Hahaha, I caught it, I caught it."

Gu Limo showed ecstasy on his face, and his excitement was overwhelming. He hurriedly collected the sacred light fish.

Not only Gu Limo, but also Stabbing Sky Qiong and others have harvested one after another, and one by one, Shengguang fish have begun to be hooked.

I saw people coming and going one after another, one for you, one for me, catching the bait constantly. Among them, Qin Chen is the fastest, one is almost instantaneous, and the weight of each is not light.

Although Gu Limo and others are not interrupted, they are much slower than Qin Chen, often Qin Chen I caught seven, eight, ten,

They can catch one.

But even so, several people are still excited and almost can't restrain their emotions.

After several hours of effort, Qin Chen and the others didn't know how many they caught.

Wow!

Suddenly, Qin Chen lifted his pole abruptly, and a Shengguang fish weighing ten catties was caught by Qin Chen, and it rolled on the deck.

This scene shocked the dwarf elders and they couldn't speak, and Gu Limo opened his mouth wide and couldn't close it for a long time. Their gains in a few hours were simply more than the gains of others in hundreds of years.

When Qin Chen caught this ten-jin Shengguang fish, everyone finally started to gain nothing.

"Hurry up and put these fish away." Stabbing Sky Sky reacted fastest, and immediately said to Gu Limo. They immediately took out their space artifacts and put the Shengguang fish in the bucket into the space artifacts.

Counting the sacred light fish, Gu Limo was so excited that they could not express their excitement. This time they had harvested too much, which made them unable to believe it.

"Here's Shengguang Fish!"

When Gu Limo finally put the Shengguangyu into the space artifact, starships suddenly approached in the distance. These starships approached, and when they saw Qin Chen's harvest, these people suddenly became excited.

Among these starships, there is a starship, Qin Chen, who are not unfamiliar with them, who are their old enemy, the Black Gold Zerg.

"Get the hook."

Camilla of the Black Gold Zerg saw that Qin Chen and them all had something to gain, and immediately ordered the insects on the boat. All of a sudden, these insects shot out and threw the hooks out, and even the people on the other starships started to take the hooks. .

It's just that they collected the hooks one after another, but they didn't catch a sacred light fish, and they all got nothing.

"It's late."

Seeing so many people hooking, but no one was able to catch the sacred light fish, Camilla of the Black Gold Zerg couldn't help stomping his feet severely.

"Huh, Camilla, you are late." Gu Limo saw that the Black Gold Zerg had no gain, and his heart was particularly refreshing. He laughed and said, "The Shengguang fish here has already run away."

They had been fishing here for a long time before, and they must have ran away long ago when they learned that something was wrong.

"Continue fishing."

Camilla didn't believe in evil, shouted loudly, with a cold light in his eyes, and once again hooked with the other worms, trying to catch the Shenguang fish, but they hooked several times in a row, but nothing was gained.

Camilla didn't believe in evil anymore. Just now, he saw with his own eyes that they caught the sacred light fish here. He also caught the rainbow koi before. He continued to throw his rod and hook until he caught the sacred light fish! "Let's go." Qin Chen was too lazy to see Camilla and the others. He had learned from Xiaolong's message that they had harvested too many sacred light fish before and even caught the other's fish boss. , The Shenguang fish clan who originally lived here

The group has left, and there will be no Shenguang fish in this place for a long time.

"Wait, this friend, I heard that you caught a rainbow koi before. I don't know if you are willing to sell it. The old man is willing to buy it at a high price." At this time, a gloomy voice rang and reached Qin Chen's starship. Above, a starship that was twice the size of Qin Chen and the others approached, and on the bow stood a shadow covered in a black cloak.

[Chapter 3779: Sky Ghost Race](#)

Ok?

Qin Chen looked up, and instantly felt a strong sense of oppression suppressed.

So strong!

Qin Chen squinted his eyes and looked at the other party. This person was in the cloak, covered in shadows, just standing here, there was a suffocating breath permeating.

"It's Lord Moyuntian from the Sky Ghost Clan."

Someone spoke and sucked in air-conditioning.

"Moyuntian? Is that ruthless man of the Skyscraper Ghost? The powerful man among the Skyscraper Ghost? It is said that he is cruel by nature and is an extremely terrifying ruthless man in this area of the battlefield of ten thousand races."

"Ghost tribe is also a big clan in the universe, and among the ghost tribes, the skyscraper ghost tribe is also regarded as a strong clan in the second line. The most important thing is that Mo Yuntian is the elder of the skyscraper ghost tribe with an extraordinary identity, so it is extremely domineering. "

Many people stared at the movement here, their expressions solemn.

"Hey, the news of Rainbow Koi really caused Stabbing Sky and the others in trouble." Camilla from the Black Gold Zerg looked over with a smile.

"grown ups."

Stabbing Sky Sky and their hearts were shocked, and they even looked at Qin Chen. In the universe, the status of the ghost race and the zerg race are actually very close, and they are both big clans under the demon race. However, the status of the Sky Ghost Race in the battlefield of the Ten Thousand Races is much stronger than that of the Wala Clan. The Wala Clan does not even have a master at the pinnacle of human respect, but the patriarch of the Sky Ghost Clan is a master in the Divine Realm. Second-tier race, overriding

Above them Wala.

"Sorry, not interested, let's go."

Qin Chen ignored Mo Yuntian's words, and directly said to the stone figure puppet controlling the starship.

"You won't listen to the old quotes?"

Mo Yuntian didn't expect Qin Chen to refuse him without saying a word. Suddenly, a cold breath spread over the Nether Galaxy, and some of the star ships that had originally wanted to approach had stepped back.

Mo Yuntian is a ruthless person, who offends him, it is difficult to get better in the battlefield of ten thousand races.

"No matter what your quotation is, I won't sell it. Why, do you still want to do something against this constellation on the Nether Galaxy?" Qin Chen sneered. Mo Yuntian's eyes suddenly burst into cold light, and a face with a cold killing intent appeared in front of Qin Chen. This is a pale face with a strong killing intent lingering, those pale white faces Eyes make people seem to see

In the purgatory, there are endless ghosts crawling out, dragging themselves into the endless abyss. "Okay, very good." Mo Yuntian smiled gloomily: "Your Excellency is so arrogant only by relying on the rules of not being able to do anything on the Nether Galaxy. The little Wara Zerg, you want to see it. Out of this ghost galaxy, you still

Is there such confidence. "

The shadow didn't get angry, but looked at Qin Chen and his party indifferently, as if looking at a group of dead people.

"These guys of the Wala clan are really looking for death..."

"Wala tribe, a weak race among the Zerg tribe, they dare to rebel against the ruthless Moyuntian."

"If Mo Yuntian killed the Wala people in the black market, the Zerg wouldn't say anything?" Many people around shook their heads, but they didn't mean the slightest pity. Instead, they looked at Mo Yuntian. Envy, they all saw that Qin Chen had caught some Shenguang fish before. It seemed that these Shenguang fish would eventually fall.

Into Mo Yuntian's hands.

Hands are not allowed in the Nether Galaxy and the black market, but there is still a way to go from the Nether Galaxy to the black market. Unless the other party can avoid the Moyuntian, this period of road may be the death of the Wala clan.

"let's go."

Qin Chen looked at the Mo Yuntian coldly, trying to trouble him, and then he would see who laughed last.

Qin Chen said coldly, and immediately commanded the starship to continue sailing towards the depths of the Nether Star River.

"Follow up."

Not long after Qin Chen left, Mo Yuntian said coldly, and suddenly, this huge starship drove slowly in the direction Qin Chen left.

"Go, let's follow and take a look."

Some other star ships also followed one after another. Some were curious to see the fight between Mo Yuntian and Qin Chen, and some knew that after Qin Chen had caught a lot of Shengguang fish, they wanted to follow Qin Chen for some benefits.

Each has a ghost.

"Moli, did you perceive it just now?"

At the back of all the star ships, Chi Yan couldn't help but shudder, his body shivered, and a trace of fear flashed in his eyes.

"It's that guy, I can recognize it when it turns into ashes. I can never admit it wrong." Mo Li's expression was also a little embarrassed.

Damn, how come this evil star has also come to the black market, and this ghost galaxy?

"How does this guy stay with the Zerg people? Isn't he from the human camp?" Chiyan Demon Lord frowned.

"How do I know this?" Mo Li snorted coldly: "With this guy's means, let alone being with Zerg people, even if I get into the Demon Race, I am not surprised."

"I heard that this kid is being chased by the Demon Ancestor of the Demon Race, then should we secretly tell the Demon Race... so that the Demon Race people..." "Hush, silence, the name of the Demon Ancestor, must not be easily said. , Otherwise, with that mighty strength, blessing to the soul, maybe it will be able to lock us through the aura in the dark, and there will be gods three feet up, and some names must not be said nonsense.

"Mo Li hurriedly said.

The Chiyan Demon immediately closed his mouth, knowing that he was speaking nonsense.

That kind of existence, it is really possible to perceive that some of the hundreds of millions of planes call its real name, but fortunately, I just call it casually. "Huh, why tell the demon? The demon is not a good thing, let's go, we leave here, the kid is not that easy to die, but I didn't expect that the aura on his body should be so strong, and he is only afraid of it. One step away

."

Mo Li squinted his eyes, "I only hope to suppress him before he breaks through the noble one."

Thinking of this, Mo Li could no longer hold back.

"Go, let's go back now. Over the years, we have prepared all the materials. Go directly to Breakthrough Venerable, and Master Chiyan, you can finally recover your own physical body."

Mo Li immediately drove towards the black market with Chiyan Demon Lord.

As for Qin Chen's comfort, they were not worried at all.

Above the Nether Galaxy, Qin Chen and others kept driving toward the depths of the Nether Galaxy.

On the road, several people were calculating their previous gains and couldn't help but communicate.

Gu Limo said: "I just caught fifteen Shenguang fish, how about you?"

"Seventeen tails." Qi Buman counted his Yeyang fish and said excitedly. Many strong men have caught a dozen sacred light fish for hundreds of years, and they have more than a dozen per day. How can this not make them so excited.

[Chapter 3780: Bermuda Triangle](#)

"Hehe, I have twenty-three tails." Stabbing Sky Qiong was also quite happy. He was the one who caught the most before.

"This lord, I also caught nineteen Shenguang fish before, this fish..."

The dwarf old man came to Qin Chen with a worried expression. He had caught nineteen sacred light fish before. This was equivalent to what he had gained in the black market for many years, so he was not worried in his heart.

He knew very well that it was not his own ability to catch these Shenguang fish, but Qin Chen. Without Qin Chen, he would never have caught so many Shenguang fish.

"Since you caught it yourself, you can put it away by yourself."

Qin Chen glanced at him and smiled.

There were more than a dozen Shenguang fishes, he did not take it to heart yet, thinking that in the previous wave of harvest, he had caught more than 100 Shenguang fishes, and each Shenguang fish was bigger than them. A lot.

In terms of harvest, he is the most.

However, the trouble also arises.

"My lord, those guys are still following."

Stabbing Sky Qiong glanced at the surface of the dark galaxy, and said in a condensed voice, although he could not see much, he still felt the breath of countless star ships faintly following behind him. Qin Chen frowned. Although he was not afraid of those guys, but he kept letting those people follow, and he had no chance to fish. Otherwise, if it was too easy to catch Shenguang fish, once it spread to the black market, it would inevitably not be offended. More people's attention

That guy from the Sky Ghost Race is okay, if it attracts some great power from the black market, Qin Chen may not be able to remain calm.

"Do you know if there are any Jedi in this Nether Galaxy?"

Qin Chen suddenly looked at the dwarf old man?

Jedi?

The dwarf old man was startled, suddenly startled, what is Qin Chen going to do?

Above the Nether Galaxy, a large group of mighty starships followed Qin Chen's starship, and continued to penetrate into the Nether Galaxy.

"What does it mean that this kid doesn't stop to fish and keeps running in? I think he can escape the old man's tracking like this?"

Mo Yuntian frowned, showing a sneer, and said: "It's so naive, my star ship is a higher grade than his star ship, no matter how he shakes it, it is impossible to leave us."

"My lord, do we want to catch up directly?" someone asked.

"No." Mo Yuntian shook his head, "If they follow directly, they will stop fishing if they are afraid of it. I really want to see if it is rumored that they can fish very well. Is it true? Just follow it secretly."

"Yes!"

The starships of the Skyscrapers are constantly moving inward. In addition, besides the Skyscrapers of the Skyscrapers, there are also starships, which are obviously starships of other forces.

"No, there seems to be something wrong in this direction."

"How do I feel that the river here has become turbulent?"

There are also some masters on these starships who have been fishing in the Nether Galaxy all the year round. As they walked, they suddenly showed a hint of doubt.

"This direction seems to be the Bermuda Death Triangle!"

Suddenly, someone seemed to have thought of something and let out a sudden exclamation.

As soon as this statement came out, everyone on the court was instantly stunned.

Many people have come up with a galaxy map, because the ghost galaxy changes year-round, like the stars in the sky, and it is by no means static, so you must rely on the star map to locate your position.

With this positioning, many people suddenly changed their colors.

"It's really the Bermuda Triangle of Death."

Someone said in horror.

Is this kid looking for death? Running to the Bermuda Death Triangle is the most dangerous position in the galaxy near this black market.

The Bermuda Death Triangle is an extremely terrifying forbidden area in the Nether Galaxy. No one dares to enter it, because all those who enter it have never been able to come out alive.

Even Tianzun could not peek into the real mystery. There used to be a **** who wanted to explore the mystery, but as soon as he entered the depths of the death triangle, someone heard a screaming scream, and then the sky and the earth shook, the avenue skyrocketed, and the **** of heaven fell on the spot.

The thunder was rolling, and it rained blood.

"What Bermuda Death Triangle." Mo Yuntian sneered and looked at the star map. "The direction this child is leading is only the outer periphery of the Bermuda Death Triangle. That place is a forbidden place for death. Even Tianzun dare not enter. How dare that kid enter. He just wants to use the reputation of the death triangle to scare me away. , I am more

I appreciate this kid more and more. "

"Follow up."

Mo Yuntian said coldly.

His voice has not fallen yet.

suddenly!

boom!

The river below suddenly rioted, and a huge wave suddenly formed in the distance and slammed.

"No, go back."

Mo Yuntian's complexion changed drastically, and he hurriedly shouted that the star ship they were riding in was extremely fast and hurried back.

The bow turned into the stern and quickly moved back.

But the other starships might not be able to retreat so quickly. Boom, the huge wave crashed down, and several of the starships were overturned instantly.

"what!"

As soon as the screams screamed, the masters on these starships would be corroded instantly as soon as they touched the huge waves in the galaxy, and the entire human flesh and blood would be annihilated and instantly turned into nothingness.

"Ah, block it!"

Some masters roared and banged, their body was filled with the venerable aura, and they madly displayed their precious treasures. Suddenly, the various venerable treasures turned into a shocking defensive shield, blooming with a terrifying aura, Survive under this huge wave.

But it was useless. Under the huge black water waves of the sky full of stars, these precious treasures of the venerable were unable to resist even one round.

"Do not!"

These venerable masters opened their eyes wide, and their hearts were filled with fear and despair. In the end, they all turned into bones and sank into the Nether Galaxy.

Gurgle!

One after another corpses sank, not even a single wave was lifted.

After the huge wave passed, the dozens of star ships that had followed Qin Chen only escaped seven or eight, all of them staying on the calm river in the distance in horror, feeling horrified.

In the distance, Mo Yuntian was also in a cold sweat. If it weren't for the size of their starship and retreating fast, they might have already stepped in the footsteps of those guys. The huge waves dissipated, and the starships that had been overturned before came out again, but there was no living person on them, only a dull stone puppet, urging the starships, according to the established plan The program heads back to black

City shore.

"Master Moyuntian, can't we follow?" On the starship, a venerable skyscraper ghost said tremblingly.

"Tell you a big-headed ghost, with such a big wave, that kid would have died long ago. Maybe one of these starships is the one they took before. What else, go back."

Mo Yuntian hit the guy with a hammer and said angrily. The star ships, with endless chill, retreated and left, never daring to stay at all.
