

## Valkyrie 3781

### [Chapter 3781: Cloudburst area](#)

On the periphery of the Bermuda Triangle, Qin Chen cross-legged on the starship, silently perceiving for a long time, and then opened his eyes.

"Those guys finally left."

Qin Chen said with a sneer, in his perception, the breath behind him had disappeared, and his heart was let go.

"My lord, then do we want to..."

The dwarf old man walked forward and said tremblingly, perceiving the dark surrounding world, and his heart was full of fear.

It is not hard for him to imagine that Qin Chen dared to let the starship enter the Bermuda Death Triangle. This is the most terrifying forbidden place in the Nether Star River, and Tianzun is not allowed to cross. A few of them come here to find death?

It is rumored that terrible hurricane waves are often formed in the Bermuda Death Triangle. Once swept by the huge waves here, no one can survive.

Rumble!

The dwarf old man looked around and saw the galaxy around here, constantly surging, dark and dark flowing, like the death tide in the purgatory, to swallow them.

Thorn Sky Qiong and Gu Limo also felt a little trembling around them. They could feel that once they were swept by the waves here, they would definitely fall on the spot, without even taking a breath.

"Don't worry." Qin Chen looked at the horrified dwarf old man and said with a smile: "I won't really enter the Bermuda Death Triangle. This is just the periphery of the Death Triangle. It's not too dangerous. You can rest assured. "Although the Skyscrapers and others who followed him have already left, Qin Chen suddenly became interested in the Bermuda Death Triangle. When he entered here before, his soul instantly felt a strong throbbing. This world

It seemed that there was something secret.

Hum! Inside Qin Chen, the galaxy pattern previously engraved on the Sky Patching hammer suddenly lit up, booming, Qin Chen felt as if he was integrated with the rules of the galaxy in this world, and vaguely felt the depths of the death triangle. Suffocating him

Breath of breath.

"What is the connection between the Nether Galaxy and the Sky Patching Palace? Why can the Sky Patching Hammer cause such a change?"

Qin Chen meditated, this nether galaxy was very peculiar and made him feel the endless secrets.

However, the reason why he can come here safely is not afraid of the huge waves of the Bermuda Triangle of Death, but it is because of Xiaolong. Xiaolong lives in the Nether Star River all year round and knows all the places in the Nether Star River. The Bermuda Death Triangle is a Jedi for the warriors of the ten thousand races in the black market, but it is nothing to the dragon. even

It is where it often plays.

"Go on."

Under Xiaolong's guidance, Qin Chen commanded the starship and sailed carefully into the Bermuda Death Triangle.

boom! boom! boom! In the distance and all around, huge waves crashed down. The huge waves are only a few feet high, but high, but they are hundreds of feet, even thousands of feet, really covering the sky and the sun. The whole Galaxy seems to be rioting, Qin Chen

The starship we were riding in was constantly shaking, and the eyes of each other would be overturned.

"My lord, I really can't go any further, it's the Jedi in the Bermuda Triangle of Death."

The dwarf elders grabbed the side of the star ship, let alone fishing, and didn't even dare to let go. Seeing Qin Chen, they would continue to move forward, and said in horror. "Before we were in the outer part of the Bermuda Triangle of Death, and further in, is the real Bermuda Triangle of Death. It is rumored that although the Bermuda Triangle is a Jedi, it has amazing treasures and even contains the secrets of the Nether Galaxy.

Many masters among the ten thousand races wanted to enter it to discover the secrets of the Nether Galaxy. "However, all the masters who entered it were not spared. Except for Tianzun, many of them were Earth-zun masters, not even a few. They were vast and mighty. For countless thousands of years, I don't know how many experts have entered it, but from No one is alive

Come out, your lord should stop. "

After passing through the area of huge waves, the galaxy sea surface has actually stabilized, and in front of this stable sea, a dark mist enveloped the galaxy.

Rumble!

In the mist, you can see a cloud-like burst of clouds above, and in that dark cloud, there is a rumbling roar, and you can see that the black lightning bolts are crazy connected to the surface of the galaxy, as if the end of the world is coming.

This thunderstorm is infinitely powerful, just approaching, and the whole body's cold hair is erected under this invisible force field, Qin Chen has a feeling that if he rushes into it, he must fall here. And Xiaolong also sent news from the Nether Galaxy, it can only bring Qin Chen here, and further down, is the most terrifying place in this galaxy, even it has never entered, because it In the memory of natural inheritance, this

Here is the forbidden area for all sea creatures in the Nether Star River, no creatures can enter it.

Unless the dragon can transform into a dragon, in its inheritance memory, only after it has transformed into a dragon can it be eligible to enter this death zone, otherwise, once it enters, it will undoubtedly die.

"The forbidden area for marine creatures in the Nether Star River?" Qin Chen muttered, and even marine creatures like Xiaolong cannot enter. This Bermuda Death Triangle is indeed mysterious. The key is that Xiaolong's inheritance memory is qualified as long as it transforms into a dragon. Into it, so it seems, this Bermuda death

There must be some special secrets in the triangle.

"My lord, let's go back quickly."

The dwarf old man's trembling body is almost crying, can't I pay you back the guide fee?

Qin Chen smiled and patted the dwarf old man on the shoulder, and said, "Don't worry, it's safe here. Come, let's go fishing."

Qin Chen sat down on the starship, picked up the fishing rod, and unexpectedly caught the fish leisurely.

The dwarf old man is going crazy.

Fishing in the Bermuda Death Triangle, what a special, really...

It was the first time that he had seen someone as big as Qin Chen, even if he was a pinnacle master of some top races, he was afraid that no one would dare to fish in the Bermuda Death Triangle.

"Come on, come on, what are you doing? Let's go fishing together, Xiaolong said, there are a lot of good things here."

Qin Chen greeted Gu Limo and the others. He is not an idiot. If it is dangerous here, Qin Chen will not make fun of his life. Instead, he learned from Xiaolong that it is indeed safe here, a safe zone in the Bermuda Death Triangle. What

What question.

What's more, they just came here through the regular area of the giant wave, the next giant wave will become chaotic, and it will take half a year for the next giant wave to return to regularity, and then Xiaolong can take them away safely. This is also the reason why Qin Chen did not go back the first time.

### [Chapter 3782: Double-sided magic fish](#)

Seeing Qin Chen patiently catch the fish, although the dwarf old man was depressed, he couldn't control Qin Chen's thoughts. He could only sit down with a bitter expression and began to catch the fish.

Fishing in the Bermuda Death Triangle and spreading it out, he is afraid that he will be the first guide of this black market.

Things you don't even want to dare.

Seeing that Qin Chen was so leisurely, Ci Tianqiong, Gu Limo and others started fishing.

However, this time, Qin Chen was not as lucky as before. After a long time, the fishing rod did not move.

"Huh? Xiaolong said, there will be many alien species living in this safe area, absorbing the breath of the Bermuda Death Triangle. Why haven't they been moving for a long time?"

Qin Chen was also puzzled, but his mentality was very good. Since no fish had taken the bait, Qin Chen was in the starship, feeling the power of the ghost galaxy and the breath of the Bermuda Triangle of Death, while consolidating his own cultivation. for.

Hum!

The sky-filling hammer in Qin Chen vibrated lightly, and there was an astonishing pattern of light on it. The dwarf elders did not notice that Qin Chen was slowly absorbing the power in this ghost galaxy.

A trace of galaxy aura slowly entered Qin Chen's body.

one day!

Two days!

Three days!

As time passed day by day, for three days in a row, Qin Chen and the others had nothing, and even Gu Limo became bored. On the third day, Qin Chen's float finally moved.

"Ok?"

Qin Chen suddenly opened his eyes.

He pulled the fishing rod suddenly, and suddenly, the rod shook violently, and a strong counter-pulling force came from the fishing rod.

Good things come up.

Qin Chen was overjoyed immediately, and Gu Limo and the others also noticed the changes in Qin Chen's place, and they all rushed forward.

"My lord, let's help you."

Gu Limo yelled, slammed hard, and heard a loud crash, and a huge sea prawn three feet long was slammed up by Qin Chen.

This sea prawn is three feet long and full of starlight. This starlight, one by one, like sunflower seeds, spreads all over the body of this sea prawn, beautiful and magnificent.

"jump!"

As soon as the sea prawn fell on the deck, it \*\*\*\* up, banging, Gu Limo hurriedly rushed to his body, but was bounced by the sea prawn and almost fell off the star ship, if it weren't for Stabbing Sky Vault hurriedly He has been shot off the starship to feed the fish.

"do not move!"

Qin Chen shouted coldly, and directly urged his Tianding Ding, buzzing, the huge furnace ding was spinning, suppressed, and the sound of banging suppressed the huge sea prawn on the deck.

boom!

Hehai Shrimp was still struggling violently under the roof of Bu Tianding.

I saw countless dense insects flying out of Qin Chen's body. It was the little ants and the little fire who took the gas-eater ants and the fire-refining worms, and they wrapped the sea prawn one after another, or consumed the power of the sea prawn .

Click! Click! Little ants and little fires can swallow almost anything. The power of the ghost galaxy on this sea prawn can also bite, and the effect is surprisingly good. The suppressed sea prawns, together with a large number of air-eaters and fire ants Insect, Qin Chen urged to dry instantly

Kun good luck jade disc was put away.

"My lord, where's the shrimp? Where did the shrimp go?"

Gu Limo hurriedly rushed forward and saw the sky above the starship, nothing left.

"I put it away."

Qin Chen said.

"Hehe, that's all right, I thought that big sea prawn ran away. Such a big sea prawn must be delicious."

Gu Limo flowed through Hara Zi.

"Eat, you know to eat."

Stabbing Sky gave Gu Limo a violent shudder, speechless.

Gu Limo touched his head and said aggrieved: "General, this sea prawn must have been delicious. By the way, you know what it was just now?"

Gu Limo hurriedly looked at the dwarf old man.

"It should be King Kwai Shrimp..."

The dwarf old man stood dumbly on the starship.

"What breed is this?"

Gu Limo questioned. The dwarf old man said dumbly: "The king's sunflower shrimp is a different species in this ghost galaxy. It is very rare. Their body is like a sunflower, densely covered with countless sunflower seeds. When they breathe, it looks like the sky is calling.

It \*\*\*\* the same, so it is called the king sunflower shrimp. "

"This kind of shrimp is extremely rare. Generally, it may not be possible to catch one in a thousand years. Every time it appears, it can cause a sensation. If it is auctioned on the black market, it is of extraordinary value."

"A big king sunflower shrimp as big as before, half of the Venerable Holy Vein should be worth it."

"It's only worth half of the Venerable's holy vein? It's a bit worse than the Rainbow Koi..." Gu Limo said in disappointment. The dwarf old man suddenly became speechless, "Treasures like rainbow koi are difficult to catch. Although the king's sunflower shrimp is not as valuable as the rainbow koi, it is already very exaggerated, and once the starlight in the king's shrimp is refined, Able to be in the body

Forming a starlight array is no small matter. "

Qin Chen didn't care about the value of this king's sunflower shrimp. He only cared about the galaxy rules contained in this king's sunflower shrimp. This was more concerned.

After re-adjusting his state, Qin Chen continued fishing.

This time, it was another long wait.

It was the fifth day.

Wow! A black fish with two faces on the front and back was caught by Qin Chen. As soon as the fish was caught, both faces exuded heart-pounding fluctuations. Suddenly, the dwarf old man and Gu Limo on the star ship stepped together. Man and Stabbing Sky are all stupid

In general, even Qin Chen had a pain in his mind, and then he woke up sober, and then saw that this devil-like fish on both sides was about to jump into the galaxy.

Qin Chen raised his hand, the Sky Patching Hammer and Little Ant Xiaohuo instantly displayed, trapping each other, and then once again the income was in the Universe Jade Plate.

Duh!

Qin Chen screamed at the stabbing sky and the others, and Gu Limo and the others woke up from the sluggishness, not knowing what was going on.

"Double-faced magic fish..."

The dwarf old man shocked.

This is another alien species in the Nether Galaxy. It contains strong mental attacks and rumors. It is the incarnation of the devil. Once refined, it will be of great benefit to the spirit and soul. It has not appeared in the black market for tens of thousands of years. pass.

The last time it appeared, it directly triggered a fierce trading competition, and it was unexpected that Qin Chen was caught.

This is simply...

The dwarf old man is going to be speechless. Where does this adult come from? This is too awesome, right?

"Sure enough, Xiaolong didn't lie to me, there are indeed many alien species in this place."

Qin Chen carefully sensed the double-faced magic fish in the jade dish of Universe Good Fortune, and immediately felt a strong soul shock from its body.

"Good baby." Qin Chen was interested. If he could stun the soul of the double-faced magic fish to the learned, this would definitely be another powerful skill.

### [Chapter 3783: Space artifact](#)

In the following days, Qin Chen suddenly became interested, while comprehending the breath of the ghost galaxy, mastering the avenue within it, and fishing.

In the Bermuda Death Triangle, there are not many marine life, so Qin Chen will spend a lot of time every time to catch something.

But every fish is a different species in the Nether Galaxy.

Qin Chen kept catching the same magical alien species.

What a serrated lantern fish!

Wancai Arowana!

Three-color thick armored crab!

Golden spiny lobster!

Nether Giant Tooth Squid!

Dark Flame Giant Horn Sea Spot!

Sky ghost flint fish!

Various rare species in the Nether Star River were caught by Qin Chen one after another.

The dwarf old man who looked at was stunned.

However, these fishes are also extraordinary in strength, like those three-color thick-armed crabs, if a pair of tongs caught people, thinking of curses like Gu Limo, I am afraid that you will be pinched in an instant. And that Nether Sawtooth Squid, as soon as it was caught, it spit out terrible black venom. If it weren't for Qin Chen's timely response, it would activate the rules of time and space, and confine the void, it would be the first time this thing was put on a jade dish of good fortune in the universe. By this

Poisoned by venom, in addition to Qin Chen who has mastered the Entropy Fire of Sky Poison, even strong people like Stabbing Sky Sky will be corroded into blood water.

Fortunately, this Nether Sawtooth Squid is only 30,000 years old. It is rumored that once it grows to a hundred thousand years, even the earthly statue can corrode. Even now, the venom it spit out can also seriously injure the high-level master of the statue, and it is easy to resist. .

Where is fishing, but fishing for life.

There were even a few times when Qin Chen and the others almost encountered danger. For example, a giant electric eel from the Dark Tooth jumped up and was shot out by thousands of thunder and lightning, and returned directly to the water, but was stopped by Xiaolong, and finally by Qin Chen. keep it.

However, as Qin Chen caught more and more fish, he learned more about the Nether Star River. Gradually, Qin Chen was completely immersed in it, and his fishing skills were also advancing by leaps and bounds.

A month!

Two months!

Three months!

In such a fun fishing, time passed quickly. In the past few months, Gu Limo and the others have also caught some fish, which are considered some more precious fish, but compared to what Qin Chen caught it's a thousand miles away.

Many fishes have been stored in Qin Chen Qiankun's good fortune jade dish, and it is even possible to open a sea clan pavilion.

Even Coulemo caught a lot of good things.

"Hey, these sacred light fishes, I have to take them back to the people and give them a taste for all the brothers." Gu Limo excitedly said. "My lord." The dwarf old man hurriedly stepped forward and said, "These fishes in the Nether Star River can't be preserved for long. Even in the storage space, they can only survive for a hundred years at most. If they exceed a hundred years, they will lose their lives and lose all of their bodies. Strength, so

When I returned to the black market, it is best to get rid of these fishes as soon as possible. Even if you want to take them back, you must hurry up. "

The dwarf old man reminded.

"Is there anything else?" Gu Limo's face was difficult to look.

Qin Chen also felt that the fishes he had caught, even in the jade disc of Universe Fortune, were not as active as they were at the beginning, and seemed to have lost some of their vitality.

If it can only be raised for a hundred years, it will be troublesome.

Qin Chen also plans to raise these magical fishes for a while, and to understand the Nether Galaxy by sensing the power in these sea races.

"Is there no way for them to live longer?" Gu Limo asked with a frown.

The old man dwarf smiled bitterly and shook his head and said, "These creatures in the Nether Galaxy live in the Nether Galaxy all year round. They must be nourished by the water of the Nether Galaxy. No other water can keep them alive, so..."

"You need galaxy water to feed?" Gu Limo suddenly smiled: "Isn't it easy?"

When his voice fell, he directly took out a storage ring and took a sharp breath at the Nether Galaxy, and he wanted to absorb the galaxy water in the Nether Galaxy.

As long as you bring back some galaxy water, can't you raise it?

However, no matter how he absorbed it, the Nether Star River did not move at all, unable to absorb even a drop.

What's going on?

Gu Limo didn't believe it anymore and increased his urging, but no matter how he used his magical powers, the Nether Star River still couldn't be sucked up.

"My lord, this Nether Star River cannot be absorbed at all, otherwise there would be no such saying." The dwarf old man smiled bitterly.

"I don't believe in evil anymore." Gu Limo became fierce. He picked up a container and scooped it against the Nether Star River under the starship.

"So heavy!"

What Gu Limo held in his hand was a stone basin. This stone basin was actually a space artifact, capable of accommodating mountains and rivers, but it couldn't even be lifted just by scooping such a basin of galaxy water.

When the dwarf old man saw Gu Limo's behavior, he was shocked and hurriedly said, "My lord, let go."

Chi Chi Chi Chi!

I saw that the stone basin suddenly made a sneer, bang, and the space rules in it were suddenly shattered, and bang, the sky full of black galaxy water suddenly poured out.

"Careful!" Qin Chen yelled, violently urging the rules in his body. In an instant, Qin Chen felt the sky-filling hammer in his body vibrate, and an invisible force waved away, blocking the galaxy water. The sky full of galaxy water crashed into the river,

It was like a downpour.

"My lord, this galaxy water is extremely powerful, contains the rules of the heavens, and is extremely heavy, even if it is a space artifact, it can't be installed. If you rush to install it, the space artifact will collapse directly."

The dwarf old man said with cold sweat.

If Qin Chen hadn't reacted in time just now, I was afraid that all of them had been soaked by the galaxy water, and they had all died on the spot.

"So perverted?"

Gu Limo looked at the broken stone basin with only half left in his hand, and the space inside was completely destroyed, and there was some fear on his face.

The dwarf old man glanced at Qin Chen in shock. He thought he was bound to die just now. The galaxy water poured down. He had never heard of anyone who could stop it, but Qin Chen did it.

This adult is unfathomable!

The dwarf old man had more guesses about Qin Chen, that this person was definitely not a member of the Wala tribe, because even the patriarchs of some second-line tribes in the Zerg tribe could not say that they could stop the galaxy water.

However, the dwarf old man knew the truth of seeing no evil, and did not say anything.

"Hey, the galaxy water just now seems to be able to be mobilized."

Qin Chen was staring at the galaxy water below, and the previous vibration of the sky patch hammer gave him the illusion that he could control the galaxy water.

"I'll give it a try." Qin Chen squinted his eyes and looked at the galaxy water below. If he can't store some galaxy water, then the sea creatures in the jade plate of his universe will be all dead soon. Finished.

### [Chapter 3784: Treasure bait](#)

Qin Chen did it as soon as he thought of it. With a move of his mind, he directly urged the universe to make a jade disc. Suddenly, a galaxy water like a water dragon plunged into his body.

So heavy!

Although it was only a galaxy water, when Qin Chen drew it, it seemed as if it had drew a galaxy, and he felt an extremely difficult feeling.

This galaxy water, led by Qin Chen, instantly entered the jade disc of good fortune in the universe.

Rumble!

When this Wang Xinghe water entered the Universe Good Fortune Jade Disc, the entire Universe Good Fortune Jade Disc uttered a roar.

However, soon, the jade disc of good fortune in the universe stabilized, and the endless rules surged and calm was restored.

"Success?"

Qin Chen was shocked to perceive the jade disc of good fortune from the universe, and the power of the world permeated, stabilizing this space.

Never broken.

"The jade disc of good fortune in the universe is really extraordinary."

Although Qin Chen had already prepared, he was greatly excited to see that the Universe Good Fortune Jade Plate could actually collect the Nether Star River water.

In this way, the fish in the jade plate of his great fortune would not have to die.

However, such a little galaxy water is not enough.

Hum!

Qin Chen urged the universe to make a jade disc. Suddenly, a Nether Star River suddenly rose up from the galaxy like a long dragon, and suddenly entered Qin Chen's body.

On the side, the dwarf old man seemed to sense something and hurriedly turned their heads.

What did they see? Qin Chen is actually collecting water from the Nether Star River?

Are you dazzled?

The dwarf old man rubbed his eyes vigorously, but found that Qin Chen was standing there without moving, and the black shadow was gone.

"what happened?"

Qin Chen looked at each other suspiciously.

"No...nothing."

The dwarf old man shook his head and breathed a sigh of relief: "It seems that I have been in the Nether Galaxy for too long, and I'm dazzled."

Seeing that no one was paying attention to him, Qin Chen suddenly sat cross-legged, rumbling. This time, after absorbing such a murky star river, the Universe Jade Plate shook violently again.

Hold on!

Qin Chen snorted coldly.

Motivate the universe to make jade discs and stabilize the world.

Under Qin Chen's stability, the originally violently shaking Universe Fortune Jade Disc returned to calm once again.

After experiencing this experience, Qin Chen unexpectedly discovered that the aura of Qiankun's good fortune jade disc became deeper and deeper.

Although this Nether Star River can destroy the world structure in the Universe Good Fortune Jade Plate, at the same time, once it is stabilized, it can actually consolidate the Universe Good Fortune Jade Plate and make it deeper.

Next, Qin Chen continued to quietly absorb the water from the Nether Star River, but he also knew that this matter was too shocking, so he was only quietly absorbing it.

In the jade disc of good fortune.

The Nether Star River, which was originally just a pool of water, kept increasing, gradually turning into a small river, and it was still expanding.

In order to stabilize the universe and good fortune jade disc, Qin Chen even urged the Sky Patching Hammer, using the power of the Sky Patching Hammer to suppress the Nether Star River.

Click!

Finally, when the absorbed water of the Nether Star River turned into a vast lake, the Universe Jade Plate finally reached its limit, and the space structure inside shook violently again.

Qin Chen stopped absorbing the water from the Nether Star River.

Such a large lake is enough for the marine creatures in the Nether Galaxy to survive.

But all this is due to the Ten Thousand Realm Demon Tree, and the existence of the Ten Thousand Realm Demon Tree is also an amazing help in stabilizing the space of the universe and making the jade disc.

On this day, Qin Chen clearly felt that Xiaolong was swimming around under the starship.

"Xiaolong, ask you a question." Qin Chen suddenly sent a message.

Xiaolong stopped under the starship, sending a suspicious message.

"Xiaolong, you have lived in this ghost galaxy for so long, have you found any treasures in this galaxy?"

Qin Chen asked through the sound transmission. According to the dwarf old man, there are many treasures in the Nether Star River, but Qin Chen has never seen one in so many days.

treasure?

Qin Chen could feel Xiao Long's doubts, and obviously he still couldn't understand what the treasure was.

"It's something special."

Qin Chen said again.

"Something special?"

Xiaolong pondered for a moment, and suddenly passed an excited emotion, as if thinking of something.

"Sure enough, there are good things in the Nether Galaxy." Qin Chen moved in his heart and said to Xiaolong: "Little Dragon, can you salvage the good things in this Galaxy?" In fact, Qin Chen gave Xiaolong orders with his spiritual knowledge. , Xiaolong should still be able to execute it, but the place in the Nether Star River is a bit special, and Qin Chen's divine consciousness cannot penetrate the depths of the Nether Star River, so Qin Chen cannot guarantee that Xiaolong will listen.

my own.

Xiaolong shook his head suddenly, sending out a message.

Qin Chen understood. What Xiaolong said was that he couldn't move the things in the Nether Star River, and would be backlashed, and could only be moved under special circumstances.

That's when something attracts something underneath.

And this thing is often different for everyone.

As Xiaolong explained, he pulled Qin Chen's hook and quickly sank to the bottom of the Nether Star River.

"My lord, your float has moved, and something good has been hooked."

Seeing Qin Chen's fishing line shaking, Gu Limo suddenly shouted excitedly.

But Qin Chen remained unmoved, because he knew that this was the little dragon pulling his fishing line, and the little dragon was taking his hook into the depths of the Nether Star River.

After a while, Qin Chen felt that the dragon had stopped, and the dragon had already entered the deepest part of the Nether Star River at this moment, and even in Qin Chen's perception, the dragon almost disappeared.

To the place.

Qin Chen immediately closed his eyes, a trace of powerful origin and rules, and instantly swept along the fishing line towards the depths of the Nether Galaxy.

Vaguely, Qin Chen felt that there seemed to be something in the place where the fish hook was.

Qin Chen couldn't perceive what it was.

Is it attractive to use rules?

Qin Chen lowered his heart, entered an ethereal state, and began to attract the things under the Nether Galaxy.

However, no matter how Qin Chen operates the rules, the things beneath the Nether Star River are unmoved.

It doesn't seem to work!

Qin Chen frowned.

"Little dragon, change a place."

Qin Chen said in secret.

Fortunately, Xiaolong heard Qin Chen's message and began to wander around the bottom of the Nether Galaxy.

Vaguely, Qin Chen seemed to feel a lot of weird things, but no matter how he activated the rules, none of these things were moved.

Am I missing these treasures?

Qin Chen did not believe in evil, and a series of terrible auras suddenly surged from his body.

I don't know how long it took.

suddenly.

Hum!

In the depths of the Nether Star River, something seemed to sense Qin Chen's breath. When Qin Chen's fish hook passed by, he swished and hung directly on Qin Chen's fish hook.

Suddenly, Qin Chen's float suddenly sank.

A treasure has been hooked.

Qin Chen opened his eyes in surprise and pulled the fishing rod suddenly. So heavy!

### [Chapter 3785: Black and fall](#)

So heavy!

When Qin Chen pulled the fishing rod, the first thing he felt was that it was so heavy. He didn't know what treasure his hook had caught, but he had an extremely heavy feeling, as if he was fishing a big mountain.

Squeak!

I saw that the fishing rod in Qin Chen's hand quickly turned into a bow shape, and it was not bent properly, as if it was about to be broken at any time.

In addition, the entire starship also tilted slightly.

"Damn!" Gu Limo and the others saw the appearance of Qin Chen's bent fishing rod, and every one of his eyeballs was about to burst. This is too abnormal. The fishing rod here is made of dead metal. It's a venerable person like Gu Limo who wants to break it.

Measure energy and time.

Moreover, even the starship was tilted up, what good thing did the lord catch this time?

You know, no matter how Qin Chen fished before, he had never encountered a situation where the fishing rod was bent like this and even the starship would capsize.

Hum!

Above the star ship, the stone figure puppet ferryman burst into light and stabilized the star ship, while Gu Limo and others also jumped up excitedly, shouting: "My lord, I will help you."

Such a big good thing, you must not let it go.

"You all stand back and let me come alone."

Qin Chen shouted sharply, preventing Gu Limo from helping.

He knew that what he caught this time was not a fish, but a treasure under the Nether Star River. This treasure was purely attracted by his breath. Once Gu Limo and them came up to help, it might not be necessary for the treasure to decouple. .

Even, this is a test of the treasure for him, if he can't catch the treasure, then the treasure is not for him.

Although Gu Limo didn't know why Qin Chen didn't help, but after Qin Chen said so, they all stopped and stood beside Qin Chen, nervously cheering for Qin Chen.

Qin Chen squinted his eyes, a hint of shrewdness bloomed in his eyes, not only did he not panic at all, his heart also calmed down.

Hum!

Qin Chen's origins merged into the fishing line, tightly holding the fishing rod, and slowly lifting the thing up little by little.

This thing is really too heavy, it is really like an infinite sacred mountain, and this sacred mountain must be composed of the strongest neutron stars, white dwarfs, with extremely high density.

But Qin Chen didn't change his expression, his body and mind were completely integrated into it, and the six reincarnation sword bodies urged, pulling the treasure up little by little.

Qin Chen breathed a sigh of relief, this treasure hung firmly on the hook, and it didn't appear to be unhooked.

"My lord, come on!"

Gu Limo clenched his hands in excitement, he was even more nervous than Qin Chen. A heart was raised in his throat, and his eyes were so round that he was about to burst out. It was as weird as it was.

Above the surface of the Star River, the fishing line was pulled up little by little, and finally, with a clatter, a black thing was caught by Qin Chen and exposed the water.

Hum! As soon as this black thing appeared on the surface of the water, terrible storms suddenly appeared on the surface of the calm Nether Star River, rumbling, and the breath of the terrible Nether Star River condensed in the void and turned into a tornado. general,

A hurricane blasted through the sky on the calm sea outside the Bermuda Triangle.

Rumble!

In the distance, in the mist of the cloud burst area in the forbidden area of the Bermuda Triangle, there are vaguely roaring waves.

"what is this?"

Qi Tianqiong and the others looked at the thing that Qin Chen had caught in shock. It was dark, like a black stone, and looked extremely inconspicuous. With a swish of Qin Chen, it caught the starship.

Boom!

The entire starship swayed and almost was overturned.

"What the \*\*\*\* is this? It's not a fish, just such a small thing, so heavy just now?"

Gu Limo glared at the puzzled lie and muttered: "Is it some conch? But it's too small, right? It's not enough for me to take a bite."

This dark thing is only the size of a thumb, let alone a worm like Gu Limo, it is really not enough to cram between the teeth.

"I know to eat all day long."

Stabbing Sky was speechless, he gave Gu Limo a stern look, and looked at the dark thing curiously: "This thing doesn't seem to be a fish creature in the Nether Star River?"

"Treasure, it's the treasure in the Nether Galaxy..."

Not far away, the dwarf old man widened his eyes in amazement and said tremblingly.

He knew at a glance that this was not a fish or a conch at all, but a treasure in the Nether Galaxy.

hiss!

This guy... is there something reincarnated? This luck is too good, can you even catch the treasures in the Nether Galaxy?

It should be noted that although there are many treasures in the Nether Galaxy, there are not many people who can catch them. If you can still rely on luck to catch fish, then the treasures can only be caught by chance.

Treasures, those who are destined to know.

"Treasure? Is it so dark?" Gu Limo said he would go up and take a look, but was suddenly pulled by the dwarf old man. Feel free to touch, someone once caught one on a star ship

The divine weapon dagger, but when the others saw Cai's eyes open, they immediately went up and plundered it. As a result, the divine weapon dagger instantly cut the throat and fell dead on the spot. "

"Hi, so powerful?" Gu Limo was startled.

The dwarf old man looked solemn and said: "There are many speculations about the source of the treasures in the Nether Galaxy. Some people say that the treasures in the Nether Galaxy originate from the endless Styx and flow from the underworld."

"Some people also say that the treasures here are left by countless masters who have fallen here in ancient years."

"Some people say that there is a cornucopia that dominates all realms under the Nether Galaxy, and treasures can be born continuously." "Of course, these are all speculations. Of these rumors, the most widely spread and the most convinced by everyone is still The treasures here are all left by the strong men who once fell here, because someone once fished here once was here.

The most powerful treasure in the fall. "

"However, this should not be absolute, because some people have caught treasures here that shouldn't belong here at all. In short, the treasures in the Nether Galaxy are very special, and no one knows the origin and ability of the treasures inside." The dwarf old man explained to the crowd and looked at Qin Chen at the same time: "My lord, you caught this treasure. Only you can wash and pick it up. But also pay attention, because someone caught the treasure on the spot. Treasure Backlash

, Was directly swallowed blood. "

"In short, everything must be careful."

The dwarf old man looked nervous. Staying in the black market for a long time, knowing more things, and awe of the world and everything.

### [Chapter 3786: God of War Ring](#)

"Damn, so dangerous?"

Coulimo was shocked. "This is nature." The dwarf old man looked solemnly: "And adults, any treasures must be cleaned with pure water after they are caught, because these treasures have been sunk in the Nether Galaxy for countless years and have stained the bottom of the Nether Galaxy. s things , It must not be touched directly before cleaning. "

Qin Chen squinted his eyes, picked up the Tian Jing water in the bucket on the side, came to the dark thing and poured it gently.

Wow! The clear water fell, as the dwarf old man said, this dark thing under the pure water of the sky, even a little bit of black dirt faded away, and after the dirt was washed away, it immediately turned into a black air current Ascend, in the starship

The Shang turned into a cloud of grimace, directly dissipating in the void.

When the grimace dissipated, Qin Chen and the others only felt cold all over, as if they heard the harsh devil's cry in their ears, which was creepy.

The black dirt faded, and a touch of blue luster was exposed, which was actually a ring.

"It turned out to be a ring."

Everyone looked at this ring in astonishment, but they didn't expect this ring to be so heavy.

Qin Chen picked up this ring, and saw that this ring was extremely simple, with complex patterns engraved on it, which made people feel dazzling.

Rumble!

When Qin Chen picked up this ring, a rumbling roar echoed in Qin Chen's mind.

Moreover, a terrible battle spirit rose to the sky, covering Qin Chen.

"this is....."

Qin Chen infiltrated the ring with his own spiritual sense.

Suddenly, countless messages emerged in Qin Chen's mind, and a terrifying battle atmosphere completely wrapped Qin Chen.

"It's terrible battle spirit." The Qi Tianqiong and the others looked at Qin Chen in horror. This battle spirit gave them a strong coercion, as if Qin Chen in front of them turned into a peerless war god, giving people a strong feeling. Deterrence.

"War Spirit God Ring!"

Qin Chen murmured.

He put the ring on his left hand, and immediately, Qin Chen's battle aura that passed through the sky turned into a terrifying flame.

This is not a real flame, but a flame of war transformed from a spirit of war.

"General, you resist with all your strength, take my move."

"Huh!" Qin Chen slammed a fist at Sting Sky Qiong. Suddenly, an invisible flame of war swept out. Sting Tian Qiong felt a terrifying shadow exploding in front of him, and his whole soul was almost shattered on the spot. Full of panic, his forehead crawled instantly

Full of cold sweat, he hurriedly resisted the moment Qin Chen's attack arrived.

boom!

He retreated in stature, retreated repeatedly in the starship, desperate.

"My lord..." Stabbing Sky Qiong tremblingly said.

He looked at Qin Chen in horror, Qin Chen's previous blow had an illusion that he would tear him apart in an instant, making him hardly courageous to resist.

"Soul attack."

Qin Chen was overjoyed. As expected, this war spirit ring was able to directly attack the souls of other masters, containing terrible soul attacks, as he expected.

Moreover, this war spirit ring definitely contains other functions, but Qin Chen only explored this point.

This alone was enough to make Qin Chen's strength rise surprisingly.

"This war spirit \*\*\*\* ring combined with the heavenly soul forbidden technique can definitely explode with amazing power. In addition, combined with the evil sword ring, one soul, one substance, two major attacks merge, my strength has at least increased by a few times."

Qin Chen's heart was excited, he was worthy of being a treasure in the Nether Star River. Just a ring has increased his strength so much, and Qin Chen still has a feeling that he hasn't fully understood this war spirit ring. For the sake of.

Today's self, this should be a very subtle part of the function of mastering this war spirit \*\*\*\* ring.

"Continue fishing!"

After obtaining the Ring of War Spirit, Qin Chen immediately became interested, and once again threw the hook into the galaxy and continued fishing.

"General, you just..."

Gu Limo looked towards the piercing sky.

"Your lord's ring is too terrifying, it can directly attack the soul." Stabbing Sky Qiong's heart had a lingering fear.

"Soul ring?"

Gu Limo also took a breath. Although he didn't know much, he also knew that in the heavens, any treasures related to the soul were no small thing. The dwarf old man also looked at Qin Chen, and was shocked in his heart: "The treasure caught in the Nether Star River, no matter how weak, is at least the treasure of the venerable, and this soul treasure can shock the general of the Wala clan. At least it's the pinnacle treasure

, It may even be the Dizun Lingbao..."

Thinking of the second possibility, the eyes of the dwarf old man showed endless astonishment in an instant. If it were an earth-zun spirit treasure, it would be terrifying.

The spirit treasure of the soul system, this is definitely a treasure against the sky, even some top races and strong people must compete for it.

"Several, this adult got the news of the treasure here, you must not pass it on, otherwise it will lead to killing." The dwarf old man hurriedly reminded.

"Don't worry, I won't say much when I wait." Qi Tianqiong said with a smile, and then lightly glanced at the dwarf old man.

The dwarf old man was shocked, his whole body was erected instantly, he hurriedly raised his hand, and then opened his mouth to spit out a mouthful of blood, which instantly formed a contract pattern in the void.

The dwarf old man swears to heaven and earth: "You will never say anything about what happened in the black market. If you dare to divulge your news, the old man will be frightened and drowned in the nether galaxy, which is beyond the universe."

Boom!

Between the sky and the earth, it seemed that a thunderbolt flashed across, and then calm was restored, and the essence and blood contract disappeared in the void.

"Blood soul appointment?"

The gaze of Stabbing Sky watching the dwarf old man eased slightly. The blood soul covenant uses one's own essence, blood and soul, as well as one's own avenue, to merge with the heaven and the earth, and the final oath formed. Once violated, it will be backlashed by the heavenly realm. Moreover, this kind of contract often fits with the own avenue. Once the contract is breached,

It will also cause damage to its own avenue, ranging from ignorance to devilishness, or to fall into death.

It is an extremely serious restriction method, and generally strong people will not easily issue it.

To be honest, Qin Chen's previous performance in the Nether Star River was too amazing. If the dwarf old man didn't say anything, even if Qin Chen didn't say it, Stabbing Sky Qiong would deal with some troubles for Qin Chen.

But since the dwarf old man had issued the Blood Soul Covenant, Stabbing Sky also reduced the killing intent deep in his heart. But Qin Chen completely ignored these, his attention was all focused on the fish hook, sinking into the Nether Galaxy.

## [Chapter 3787: Broken Battlegear](#)

In Qin Chen's perception, the underground content of the Nether Galaxy contains many mysterious things, but it is a pity that no matter how Qin Chen urges, most of the treasures in it are not interested in Qin Chen.

Qin Chen was not annoyed, the whole person was extremely calm, completely immersed in sentiment.

one day!

Two days!

Three days!

Qin Chen was not in a hurry. He did not go fishing for the fish here anymore, but was completely immersed in his perception of Nether Galaxy.

He clearly knew that this Netherworld Galaxy was extremely extraordinary, and if he could understand the profound meaning in it, it would be of great benefit to him. Compared with the war spirits and other things, this Netherworld Galaxy was the real treasure.

Of course, with Qin Chen's current strength, he could only snoop out some fur.

About half a month later, Qin Chen didn't catch anything. On the contrary, Gu Limo could catch one or two Shenguang fishes occasionally.

Qin Chen saw a faint divine light flowing all over his body, as if he was completely integrated with the world, and the laws were natural.

Someday.

Hum!

When Qin Chen was completely immersed in Nether Star River's perception, there was almost no fluctuation, suddenly, the fishing rod in his hand sank.

Qin Chen's eyes opened suddenly, and a divine rainbow burst out.

He felt it, and another treasure was hooked.

This time, Qin Chen, who had experience, suddenly mentioned it, but without any rush, an extremely heavy force was transmitted, and the fishing rod became bent again.

Are the treasures in the Nether Star River so heavy?

Qin Chen was speechless.

Even the treasures he caught this time are much heavier than the previous war spirit rings.

Qin Chen gritted his teeth and pulled the fishing rod with all his strength, rumbling, endless rules surging on his body, he raised the fishing line little by little.

"What did the adults catch again?" Gu Limo and the others also looked over again, each with their eyes wide open, as if every thing an adult caught was very magical. After seeing the adults this time seemed to be heavier, They also want to know if the adults caught it again

Something.

"My lord, I'll help you."

Gu Limo rushed up again excitedly.

"Stay back and I will do it myself."

Qin Chen said solemnly.

Do you want to come by yourself again?

Gu Limo's expression was stunned. Generally, adults would not refuse other people's help when they caught a fish. Only the last time they caught the ring treasure did they stop him from helping.

Could it be that.....

Gu Limo's eyes are about to stare out, damn, did the lord catch the treasure again?

The dwarf old man also looked over nervously.

Under the eyes of everyone, Qin Chen took the fishing line a little bit, and it took more than an hour to finally catch this thing from the Nether Star River.

Wow!

This is a pitch-black thing that fell on the starship with a thud, and the whole starship shook.

It's really a treasure... Gu Limo has no power to complain. It is said that the treasures in the Nether Star River are extremely rare and extremely rare every time. It is by no means easy for ordinary people to catch it, but adults, this has already been caught second. Pieces, they have become wholesale markets

.

"Hurry up, my lord, clean it up and see what it is."

Gu Limo couldn't wait to step up, and the dark treasure he caught this time was much larger than the previous war spirit ring.

Wow!

Tian Jingshui fell, and this dark thing finally revealed its original features, but it was a battle armor that was nearly a meter high.

"It's armor!"

Gu Limo excitedly said. This armor is bronze-colored, with complex runes and patterns engraved on it. This pattern is very primitive, even Qin Chen can't tell what the pattern is, but it gives people an endless mystery. And a sense of rules

feel.

The whole armor is very complete, but there is a crack on the chest, which seems to be pierced by some sharp weapon.

"This armor has been broken."

Seeing the crack, Gu Limo said in disappointment.

War armor is definitely the most precious of all weapons in the universe. The treasures in the universe are actually divided into many types, which are offensive, such as sharp swords and magic weapons. These treasures can enhance the strength of the owner.

There are also some auxiliary treasures, such as aircraft and so on.

In addition, there are some defensive treasures, such as shields, armors, etc., and among them, in terms of price, battle armor is definitely the highest.

Because a decisive battle armor can even determine the life and death of a person. At the level of the venerable, the real key is to save your life, especially on the battlefield of ten thousand races, among the army, your attack is strong or weak, in fact, it does not affect the overall situation too much. Under the sky of battle, who can save your life? Who can have the last laugh

.

For example, the Venerable Jueshan of Dayu Divine Mountain, if he did not have the Jiujué Divine Mountain Formation, he would not be able to withstand the attack of the Wala Zerg at all, and he would have died without Qin Chen's action.

It is precisely because of the Jiujué Divine Mountain Array that he has blocked the joint attacks of the Wala Zerg several times.

However, the Jiujué Divine Mountain Great Formation also had defects. After all, it was just a great formation, which was very troublesome to mobilize. If it were replaced with a battle armor, the result might be very different. Among other things, if Venerable Jueshan possesses a close-fitting armor that is equivalent to the defense of the Jiujué Divine Mountain Array, then with this armor, he might be able to rush out of the encirclement of the Wala Zerg. Will not be taken away by Qin Chen

The components of the sacred mountain array have greatly weakened the defense.

Therefore, Qin Chen fished a battle armor from the Nether Star River, and Gu Limo was extremely excited in an instant.

It's a pity that the armor that Qin Chen caught was actually incomplete.

This is a headache.

In general, the most powerful armor is his defensive power, but a broken armor that has been bombed will inevitably weaken its defensive power, and its cherishment will be greatly reduced.

Qin Chen didn't lose the slightest bit. His eyes were completely immersed in this armor. Just looking at it, he seemed to see a dark world with unpredictable mysteries surging.

Qin Chen grabbed the armor and blended his divine sense into it for refining.

Hum!

An invisible force entered the armor, and Qin Chen saw that there were endless complex textures inside the armor. He could only simply leave his own breath on the surface of these textures.

It is another top treasure of the Venerable.

Although Qin Chen didn't know what level the armor was in front of him, just relying on this mysterious pattern, it was definitely not a treasure of human respect. If it was a treasure of human respect, with Qin Chen's current strength, he could easily control it completely. .

Wow! When Qin Chen's soul brand was engraved on this armor, the armor instantly glowed, and then quickly set on Qin Chen's body, and at the same time, a stream of terrible messages instantly rushed into Qin Chen's mind.

[Chapter 3788: Close](#)

"Haotian Divine Armor?"

"And this armor turned out to be a set, I just caught the armor part in it."

Qin Chen's eyes flashed.

This armor, called the Haotian Divine Armor, is a suit of armor, once a complete set of armor, it can resist all soul and material attacks.

If it was just one part of the armor, although it also had amazing defenses, it was more than ten thousand times weaker than the armor.

"Stab the sky, try your best to attack me."

Qin Chen faced the Stabbing Sky Road.

The information he got was only the name of this armor, the real defense, but he didn't know it.

"Yes!"

Stabbing Sky Qiong knew that he could not hurt Qin Chen, and did not hesitate, hum, a light burst out from the center of his eyebrows, like a sharp blade bursting out, slashing at Qin Chen's body.

Cang!

The light bloomed, and the light flashed and then extinguished instantly, and Qin Chen stepped back two steps, frowning slightly.

"My lord, how is it?"

Seeing Qin Chen frown, Stabbing Sky Qiong couldn't help but asked in anxious tone.

"I want you to do your best, what do you keep your hands for." Qin Chen frowned.

Keep your hands?

"My lord, I don't have one!"

Stabbing the sky dome.

Qin Chen was startled, "You mean, you attacked with all your strength before?"

"Yes, sir." Stabbed the sky.

"You continue to attack with all your strength, don't stop if I don't stop, there are Gu Limo, Qi Buman, you also shot."

Qin Chen's eyes shot out a hint of light.

"Yes!"

Stabbing Sky Qiong's expression was serious, Gu Limo and the others looked at each other, and the center of their eyebrows also bloomed, and the attack belonging to his Wala clan burst out again.

Shoo!

The three light beams merged together instantly, and slammed on Qin Chen fiercely.

Bang bang bang!

Moreover, they didn't stop piercing the sky, they attacked frantically, beams of light beams were like lasers, bombarding Qin Chen's armor frantically, making a sonorous sound.

Qin Chen stepped back again and again, but his eyes became brighter and brighter.

"Okay, stop!"

Qin Chen said solemnly.

They immediately stopped shooting.

"My lord, how?"

"Yes, very good."

Qin Chen grinned. With his current defense, he can indeed not be afraid of the attack of Stabbing Sky. However, Stabbing Sky is somehow a strong man close to the peak of the human respect. Even if he cannot kill him, the attack of Stabbing Sky will cause Qin Chen to be injured and injured. , But can't

Qin Chen only caused heavy injuries.

But just now, when Qin Chen urged this armor, the sky-piercing attack fell on him, just like the attack of an ordinary venerable, not to mention it brought him trauma, even slightly injured him. There is no chance.

Only the place where the battle armor was broken would see some attacks infiltrate, but this attack had been greatly weakened, and it was impossible for Qin Chen to cause any harm.

All in all, after wearing this armor, Qin Chen's attack by the piercing sky was weakened ten times.

Ten times!

If Qin Chen had this armor before, would he be afraid of Venerable Jueshan? There is no need to escape at all, because with the strength of Venerable Jueshan, although it can suppress him, it is absolutely impossible to break the defense of this armor and kill him.

Baby, absolute baby.

It's a pity that this armor is broken, but it proves the terrible nature of the Haotian Divine armor. Just a broken armor has such a defensive power. How strong would it be if it were a complete armor?

This is just a battle armor, how terrible is the complete Haotian Divine Armor?

Qin Chen urged the battle armor, he saw this battle armor's fine light flash, instantly merged into Qin Chen's body, and disappeared.

"Hey!"

Qin Chen, who had obtained this armor, was in a good mood. There was still a month before he left the Bermuda Death Triangle. Qin Chen did not waste any time and continued fishing.

Although I have already got two treasures, what if I catch them again?

No one too few good things.

Seeing Qin Chen continue fishing, Gu Limo was also stimulated.

"My lord is so powerful, and I can catch another treasure."

Gu Limo puffed his mouth and fished it hum.

one day.

Ten days!

Twenty days!

In the blink of an eye, it was the regular period of the Bermuda Triangle Wave, which was also the day when Qin Chen and the others left.

Qin Chen and the others must take advantage of the regular area of the Bermuda Triangle to leave here, otherwise they would miss the message this time, Xiaolong sent, and the next time they might have to wait for a while.

The most important thing is that after the regular period has passed this time, this area that originally belonged to the peaceful area outside the Bermuda Death Triangle will also be drawn into the mist, and Xiaolong will not be able to find a complete way to leave.

Therefore, this time Qin Chen must leave.

But in this month, Gu Limo and the others did not catch any treasure.

Seeing Qin Chen and the others are about to leave.

suddenly!

Qin Chen's hook sank, as if he had caught something.

Qin Chen pulled abruptly!

The fishing rod did not move at all.

What the \*\*\*\* is this catch?

Qin Chen was shocked suddenly, with his strength, the treasures underneath actually did not move.

Qin Chen didn't believe in evil, and immediately urged all his strength, pulling it violently.

Crunch!

The fishing rod made of death meteorite made a harsh sound.

No way!

It's going to be broken in this way.

boom!

In the distance, endless waves finally began to surging, and the regular tidal period of the Bermuda Death Triangle finally arrived.

How to do?

Do you want to give up?

Qin Chen lowered his heart. How could he be willing to give up such a treasure?

However, since this thing got on his hook, it was absolutely impossible to catch it anyway, it should be that he didn't use the right way.

Qin Chen meditated and began to transform various forces.

Various rules, origins, and perceptions surged in Qin Chen's body, trying to attract the treasure on the hook, but the fishing rod remained still.

Do you really want to give up?

Qin Chen looked at the hurricane waves surging in the distance and the misty cloud burst area that was gradually expanding, with a slightly anxious expression.

Try again one last time.

Boom!

This time, Qin Chen urged his origin, and the endless rules in his body were all surging, and even the power of the totem of the Nine Star God Emperor Jue and the power of the thunder bloodline in his body also surging.

Wow!

The treasure underneath moved lightly.

It seems to work!

Qin Chen was overjoyed, constantly urging his own source, and the power of each road continuously infiltrated into the seabed. At this moment, he did not care about what power attracted the treasure below.

The treasure was pulled up by Qin Chen little by little.

And the foggy area in the distance gradually filled over.

Gu Limo and the others watched this scene nervously, feeling that the cloud burst area was getting closer and closer, gradually engulfing them, one by one nervously sweating.

But they didn't dare to urge Qin Chen, they just cheered Qin Chen secretly.

The treasure was pulled up little by little.

Seeing that the misty area was only a few meters away from them, with a bang, Qin Chen's fishing rod was finally thrown up, a black object fell on the starship with a clang, and Qin Chen sat on his back with exhaustion. On the ground.

"Go, set off, leave here."

Regardless of checking what the fish was, Qin Chen hurriedly shouted.

Whoosh! The star ship Qin Chen and the others were riding in suddenly swished and left, drove into the hurricane wave, and departed.

#### [Chapter 3789: Mysterious Slate](#)

Wow!

Qin Chen and his starship finally entered the area of hurricane waves at the moment when the dark mist shrouded that calm area.

Boom boom boom!

One by one, thousands of feet high, hurricane waves rushing to the sky, and then smashed down fiercely, to smash everything on the Nether Galaxy.

The starship Qin Chen and the others were in was like a flat boat on the sea under the storm, drifting away like duckweed.

"It was very risky just now."

Qin Chen looked at the calm sea area shrouded in the black mist area with fear in his heart. Fortunately, he entered the hurricane wave area at the last juncture, otherwise once they were shrouded in this mist, Qin Chen and the others would undoubtedly die.

At least, with Qin Chen's current strength, it is impossible to survive in the fog area.

"Go, go in this direction."

However, even though they escaped from the misty area, it does not mean that Qin Chen and the others are already safe. This hurricane wave area is also extremely dangerous. Once shot by the hurricane wave, even if Qin Chen has the Haotian \*\*\*\* armor on his body, he will still be afraid. Bone to pieces.

Under the guidance of the little dragon in the galaxy, Qin Chen and the others were walking through the hurricane waves. The danger was so alarming that people squeezed a cold sweat.

For a full half day, Qin Chen had the courage and did not dare to relax in the slightest, and then he drove out of the Hurricane Wave area.

What caught Qin Chen's eyes was a dark, ink-like nether galaxy, exuding a palpable breath.

This Nether Star River was originally very depressing, but at this moment Qin Chen and the others saw that a heart was completely at ease. Comparing the hurricane wave area and the Bermuda Death Triangle, the peaceful Nether Star River gave them an endless sense of security.

"My lord, come and see what you caught before."

Gu Limo immediately walked up with excitement. After so much effort, everyone almost died in the Bermuda Death Triangle before catching it. What good thing is it?

Qin Chen also looked at the black object.

This object was flat, completely dark, with countless dirt, making it hard for people to tell what it was. Qin Chen picked up the clean water and washed it on it. Suddenly, countless silt and dark air were washed away. It was actually a pure black stone slab with a simple pattern on the surface. It was very old and vicissitudes. A glance, brain

An endless abyss appeared in the sea.

"what!"

Gu Limo suddenly screamed, and blood dripped from his pupils.

Pedal!

Qi Buman also turned pale and spit out a mouthful of blood.

As for the dwarf old man, he was even more unbearable. He fell to the ground with his ass, spitting blood at the mouth, and his eyes lost.

"No, my lord, you can't see more of this stone tablet." Stabbing Sky Qiong said in horror, blood overflowing from the corner of his mouth, and he turned his head quickly, dizzy for a while.

He was a master who was close to the pinnacle of human respect, and he was a little unsteady in his standing for a while, and he was shocked.

This stone stele was terrible. He just looked at it a few more times and almost shattered his soul. What is this? But Qin Chen, who pierced the sky, could not hear it anymore. He saw Qin Chen staring at the stone slab in front of him with dull eyes. The countless patterns on the stone slab were spinning like a kaleidoscope at this moment, turning Qin Chen's The soul must be swallowed

Into it.

"what!"

Qin Chen let out a low roar. If anyone sees Qin Chen at this moment, he can find that Qin Chen's pupils have become pitch black, and his soul has become a little dull, it seems that the stone tablet has completely absorbed his mind.

The soul aura and life aura on Qin Chen's body were rapidly weakening, as if being drawn away by the void.

Above this dark stone stele, profound auras flowed, and countless patterns contained supreme meaning, which wanted to assimilate Qin Chen.

"grown ups."

"Sir, can you hear me?"

Thorn Sky Qiong heard Qin Chen's low roar, and then there was deathly silence. His heart suddenly became flustered and hurriedly shouted, but no matter how he shouted, there was no sound from the outside world, and Qin Chen did not answer.

Stabbing Sky Qiong could only keep shouting like this, he didn't dare to turn his head, because he was afraid that when he turned his head, he would see the stone monument and his soul would be shattered on the spot.

This thing is terrible, what is it? It was terrifying that the soul of a master who was close to the pinnacle of human respect could be shattered with just a glance.

At this moment, Qin Chen's mind was completely attracted by this stone monument. The breath of life and soul on his body were constantly weakened, and his whole figure seemed to be petrified.

Just when this force was about to completely assimilate Qin Chen, suddenly...

Hum!

The ancient book that had been hidden in Qin Chen's mind appeared. This ancient book had rarely appeared since Qin Chen came to the heavens, but this time, when Qin Chen was in danger, the ancient book reappeared.

A dazzling white light burst out from the ancient book, and on the ancient book, a few dazzling characters appeared, but these words were very vague, Qin Chen couldn't see clearly.

boom!

The ancient book bloomed with terrifying white light, and it instantly touched the dark aura on the stone tablet, rumbling, Qin Chen's mind seemed to be rolled up with a stormy sea.

Click!

On this stone tablet, the escaping sense of truth and righteousness was instantly introverted, turned into a simple stone slab, and completely calmed down.

And at the moment when this breath dissipated, the ancient book also faded into Qin Chen's mind again, as if it had never appeared before.

Flop!

Qin Chen fell heavily to the ground, wheezing with a rough air.

so close!

Qin Chen was covered with cold sweat, as if he had been fished out of the water, with endless horror and astonishment in his eyes.

Too dangerous! Although he was completely stunned by the mysterious aura before, Qin Chen's subconscious was still there. He knew deeply that he was in danger, but he could not get rid of it until the ancient book appeared. Break free

Come.

If it weren't for the ancient books, his soul and life would be assimilated by the mysterious mystery, and would be completely integrated into the world and the slate.

What is this? Qin Chen looked at the stone slab. At this moment, the stone slab was calm, like a very ordinary slate, but Qin Chen did not dare to underestimate it. The aura that the stone slab exudes before, Qin Chen even has a Feel, able to suppress

One world.

This thing is definitely some kind of treasure.

Qin Chen looked at the stone tablet. For some reason, Qin Chen felt vaguely that the stone tablet would no longer cause harm to himself. He cautiously stepped forward and picked up the stone tablet.

To his surprise, the weight of the stele was so light.

And this material was also very special, it was not any kind of stone that Qin Chen knew.

"Let me try it." Qin Chen held the two ends of the slate and broke it hard, but the slate did not move at all.

[Chapter 3790: Rule](#)

What a hard slate.

With Qin Chen's current strength, even if it was dead gold and iron, it would break under his full strength, but this stone slab was still too hard.

Mysterious, extremely mysterious.

Qin Chen stared at the stone slab in front of him. This object could activate the mysterious ancient book. Obviously, the level of this object was extremely high.

baby.

Definitely baby.

"But the lines on this stone slab are very ordinary now."

Qin Chen stared at the stone slab. After losing that mysterious mysterious power, the stone slab became extremely ordinary. If it were thrown on the battlefield of ten thousand races, almost no one would take a second look, just as it was an ordinary slate. .

"Sir." At this time, the sound of trembling stabbing the sky came.

Qin Chen just recovered from the research.

"It's okay."

Qin Chen said to Stabbing Sky and the others. When Stabbing Sky heard Qin Chen's voice, they all breathed a sigh of relief and sat cross-legged. After a long time, they finally opened their eyes.

"My lord, what exactly is this slate?"

Gu Limo let out a sigh of horror and glanced at the stone slab in Qin Chen's hand with horror. Although the terrifying power on the stone slab had disappeared, Gu Limo did not dare to look at it after a glance. It is terrible.

If it hadn't been for them to look away for the first time, they would have disappeared and died on the spot.

"I don't know what this thing is. You drive the starship back to the black market, and I will study it."

Qin Chen carefully looked at the stone slab in front of him, and with Qin Chen's eyesight, even a piece of gravel could reveal an extremely fine structure, but no matter how much he looked at this stone slab, he couldn't see any clues.

Moreover, Qin Chen could not recognize the specific material of the slate.

With the inheritance of Venerable Tianhuo and Venerable Wanpo, Qin Chen was considered the top in the heavens in terms of materials, and the materials that he could not distinguish were very scarce.

"You can't see it with the naked eye, try it with your soul, and you can be more careful in divine sense exploration." Qin Chen thought.

Chi Chi!

A trace of invisible, colorless, and extremely slender soul power instantly fell on the black slate, and Qin Chen's soul power also slowly penetrated.

His movements were very slight, for fear of causing any abnormality. At the same time, Qin Chen urged the Heavenly Soul Forbidden Technique, and if any danger arises, he will immediately retreat.

"Huh?" Qin Chen's expression changed, and immediately revealed a pleasant surprise.

"Haha, it turned out to be so, it's really special."

A light of surprise burst into Qin Chen's eyes. When he controlled the divine consciousness to sweep the black slate, the divine consciousness did not touch the black slate at all, as if the black slate was air, there was nothing in his hand, but when his soul fell on the black slate Time, but directly

Penetrated into the black slate.

In this black slate, there seemed to be a black abyss, unfathomable.

"There is something in this black slate, and only the soul can detect it."

Qin Chen took a deep breath, his expression hesitant.

The previous experience was terrible. Qin Chen didn't dare to let his soul enter the black world inside the black slate, but if he didn't enter, then Qin Chen would never know what the black slate was.

Try or not?

Qin Chen hesitated for a while, and immediately became determined.

This black slate was caught by himself, and even though he had previous experience, Qin Chen felt that this black slate was not something evil.

This should be an item, but in the previous situation, Qin Chen was accidentally attacked by the power in the slate.

call!

Qin Chen urged the heavenly soul forbidden technique, and the power of his soul, like a breeze, quietly merged into the black slate.

Qin Chen's soul suffered a slight obstacle, when he penetrated this obstacle.

Hum!

Qin Chen felt that his soul had entered another world, and what caught his eyes was endless darkness. This kind of black is not black in color, but the kind of 'black' that all power, rules, and light are swallowed. Everything that enters it will be swallowed, like a black hole, but Qin Chen's soul Suspended in this quiet

In the black hole, the five senses have completely disappeared, there is no sound, no change, and even time and space seem to have stopped.

"What the \*\*\*\* is this black slate?"

The whole world has become the only pole of silence, time and space are stopped, and the only thing that can communicate is Qin Chen's thinking.

"I don't believe it, Heavenly Soul Forbidden Technique!"

boom!

Qin Chen urged the heavenly soul forbidden technique to perceive the world with all his strength. What surprised Qin Chen was that when he tried to look at it, things suddenly began to appear in this dark, nothing-free world.

It is a series of weird textures, these textures, constantly circulating, become a series of rules, and then evolve into a series of words, like a kaleidoscope, constantly rotating.

"what is this?"

Qin Chen's eyes widened, and the endless mystery circulated before his eyes. He didn't know how long it had passed, a moment, or ten thousand years.

In short, as this endless mystery surged, Qin Chen gradually saw some of the things circulating, which seemed to be very similar to the \*\*\*\* emperor totem that Qin Chen had obtained in the void.

This is another kind of writing, another kind of profound meaning, not the power of heaven.

Nor is it the power of the demons.

Is a brand new rule and meaning,

If Qin Chen had not mastered some of the rules of the \*\*\*\* emperor, Qin Chen would never understand the meaning of everything in front of him.

Is it another rule of heaven? Or is it the rule of this dark universe?

Qin Chen's mind was muddled.

wrong!

Although the dark universe is on the other side of the universe, in fact, the universe in which the dark universe and Qin Chen were originally located is one and the same rules should be used, but why...

Qin Chen was confused.

Leave it alone.

Qin Chen kept gazing at the pitch black void in front of him. In front of his eyes, the endless circulation of runes gradually evolved into words.

These words are too complicated, Qin Chen has never seen such words before, like totems, and can't understand the meaning.

I don't believe it anymore.

Qin Chen was completely immersed in this dark world, he urged the book of origin to operate the power of origin.

In his body, he has the origin of everything, and he began to study the true meaning of these words.

Each of these words contained amazing mysteries, which made Qin Chen fascinated and completely immersed in it.

I don't know how long it has passed. Qin Chen finally understood the meaning of the first text.
