### [Chapter 3791: Death Crystal Stele](#)

But one character didn't mean anything, so Qin Chen went to study the second character.

Because of the accumulation of the first text, the second text only took half of Qin Chen's previous time.

Then there is the third one.

the fourth.

After arriving, Qin Chen researched faster and faster, and finally...

After spending some time, maybe a hundred years, but maybe a thousand years, ten thousand years, or even longer, Qin Chen finally understood the meaning of all the words.

Here, time and space have no meaning, only the eternal existence of profound meaning.

There were only a few thousand words in these words, and after clarifying these words, Qin Chen finally knew the name of this treasure.

"Neon Crystal Stele!"

And what is contained in this dying crystal stele is indeed another brand-new rule, the dark rule.

And this kind of rule is not a rule in this universe. As for where it came from, there is no record on it, and Qin Chen has never discovered it.

In addition, it also records a kind of exercise, a secret method similar to cultivation, which can improve the physical body.

Only by successfully cultivating this technique can it carry and operate this hidden Luotian rule.

"An Luotian rule? Not the rule of this universe?"

Qin Chen murmured, such a rule, I don't know the origin, even if Qin Chen really figured it out, it would not be of much use.

Because the so-called rules are the basis for the birth of a world, and at the same time the core of the world's operation. In the final analysis, the existence of rules is born to support the operation of a certain world.

Therefore, in general, a rule can only operate in the world where the rule exists, and in another world, it may be suppressed or even unable to operate at all.

However, this exercise method can be tried.

As long as it is a flesh and blood life, many body refining rules can be used, unless it is a different type of life.

The entire body training exercise is extremely difficult.

Moreover, this body training rule is divided into nine layers in total, some of which are incomplete.

"According to the information I have, I can only start from the first stage of the body-refining techniques currently contained in the Nether Crystal Stele."

Qin Chen carefully watched this body-refining technique, but the first time he watched it, it shocked Qin Chen, which was different from any secret technique Qin Chen had come into contact with.

Many body-refining exercises use various liquid medicines and other items to make the body stronger. Or, like the six reincarnation sword body, gather various powerful forces in the body. Yes, the body. Strength becomes stronger. But this secret method of rules is very magical. The method it uses is to make the body mutate from the inside out, mutate from the deepest places such as genes, cells, etc., so that every cell of the body will condense the rules and become the kingdom of God. , Implies independence

The power of the world.

This is a bit like the baptism of heaven and earth encountered when the fighter breaks through.

As the body evolves, the soul will evolve, and the physical strength will naturally become stronger and transformed. This is the natural birth of the martial artist after the breakthrough.

However, this secret method can allow life to elevate the level of life even when there is no breakthrough.

This is against the sky.

This secret method seems to be another brand new secret method.

On the starship, Qin Chen was excited and shocked like never before.

If this secret technique is spread out, I am afraid that the entire heaven will be a sensation, and all races will fight for it, right?

Which race is not excited about the secret body refining method that can directly change the life level?

For example, the Yaozu, an ordinary Yaozu master, no matter how he cultivates, his physical level will be restricted by his cultivation level. The demon saint is the flesh of the demon saint, the saint master is the flesh of the saint master, and the demon master is the demon master. Physical body.

This is affected by the genes that any race is born with.

This secret method allows the demon saint to transform to the level of the saint master when he is in the mortal saint. In the saint master, he suddenly changes to the sage. How abnormal is this?

Can you imagine how terrifying a mortal demon clan once possessed the body of a demon sovereign? Although his power is not enough, even the average demon clan holy master can't cause him fatal damage, right? Of course, this is only the best state of this secret method. If you really want to cultivate to this point, it is definitely not easy to do. The energy and resources required may be extremely huge, and it is even better to break through from the mortal sage. Holy Lord Realm Come

It's fast.

But no matter what, once this secret method is spread, the entire universe will be a sensation.

"Anyway, this secret method must not be revealed." Qin Chen secretly said.

This secret method.

Is jealous of the universe.

There are nine levels in total, and if each one fails, the body will collapse and the soul will be scattered.

Success means physical transformation.

Very strange practice exercises.

call!

Qin Chen opened his eyes and recovered from the endless insights.

"My lord, you finally wake up." Gu Limo hurriedly said.

"How long have I enlightened?"

Qin Chen put away the crystal stele of nirvana, put it in the jade disc of good fortune in the universe, looked at the endless galaxy, and asked.

"It's more than half a month, there is still half a month's journey from the black market." Gu Limo said.

Is it only half a month?

Qin Chen murmured, in that dying crystal stele, Qin Chen felt like he had experienced tens of thousands of years.

"My lord, what exactly is this slate?"

Gu Limo questioned.

Qin Chen glanced at him lightly.

"Ahem, when I didn't ask."

Gu Limo turned his head and left, hurriedly sat down cross-legged, and continued to fish. Anyway, there is still half a month to go back. It would be a waste of not fishing.

"Try the secret method."

Qin Chen hesitated for a while, his eyes became determined, and he sat cross-legged, and began to close his eyes to calm his mind.

"call!"

"Suck!"

Qin Chen took a deep breath, and a terrible gust of wind suddenly surged around him, and then Qin Chen passed the first layer of the mysterious secret method in his mind, and then began to gradually try to cultivate.

laugh!

laugh!

Strange powers began to form on Qin Chen's body, turning into a misty black light.

"My lord, this is..."

Gu Limo glanced at Qin Chen with a little fright. The breath on Qin Chen's body made him feel shocked in his soul, and he didn't even dare to look twice.

In Qin Chen's body, a series of invisible forces began to emerge, and then merged into all parts of the body.

boom! Every cell in Qin Chen's body fluctuated in an instant, and this power followed every cell in Qin Chen's body, quickly permeating Qin Chen's body, forming a perfect whole, and then in Qin Chen's body, following Breathe slowly

Circulate.

Hundreds of millions of breaths, endless power, and natural operation, this mysterious set of cultivation secrets is to simulate the universe into oneself, slowly promoting the changes of genes and origin. Every time genes and cells evolve, it is a big improvement in physical strength.

#### [Chapter 3792: First weight](#)

Therefore, the evolution of genes and cells is actually extremely slow, and one must be very cautious. A mistake will cause the collapse of the body.

"Sure enough, it's amazing, so shocking!"

Bits of energy, along with every cell in Qin Chen's body, began to promote some changes in genes, and these energies formed a perfect fusion in Qin Chen's cells. It seems that Qin Chen's physical body has become a universe, and each of his cells is every rule. Under the mysterious atmosphere of that secret law, the rules evolved by Qin Chen's endless cells are running, Maintaining the physical body

The universe is intact.

This is equivalent to the universe in motion.

The flesh becomes the universe.

"Crack!"

The musculoskeletal body of Qin Chen burst into a roar.

"This... is amazing!"

"It's extremely magical, it's wonderful." Qin Chen closed his eyes, shocked in his heart. Although his physical body is behind the six reincarnation sword body, although he is not a venerable, it has actually surpassed the average venerable, but the reason for this, It's because his body has been reshaped, and the five secrets and bones

Contains terrible power.

It was this power that made his physical body extremely strong.

But now, the power of this mysterious secret method starts with genes, turning his body into a regular universe. The stronger the rules, the stronger the universe naturally.

These are two very different methods.

Moreover, Qin Chen discovered that he had cultivated this secret method so that he was extremely comfortable, without the slightest sense of stagnation.

Hum!

In Qin Chen's body, the power of the \*\*\*\* emperor totem quietly appeared and merged with this power.

"It's the power of the \*\*\*\* emperor totem."

Qin Chen murmured.

The reason why I practiced this secret method is very comfortable, because his totem power seems to have some connection with this rule.

Time continues.

Qin Chen was completely immersed in the perfect cosmic cycle formed in his body, and this genetic evolution was automatically and slowly promoted in the continuous cycle of the universe.

one day.

Two days...

Thirteen days passed in a blink of an eye.

Rumble!

Suddenly, a series of misty and terrible halos bloomed around Qin Chen's body, and endless waves surged over the entire Nether Star River.

The power of the ghost galaxy turned into a whirlpool and appeared around the starship where Qin Chen and the others were.

"this is....."

Gu Limo awakened in an instant, and looked over in horror.

I saw the endless Nether Star River zhenqi, like a rolling tide, instantly pouring into Qin Chen's body.

Qin Chen was filled with a power that made them palpitations from the source, one by one was shocked to the ground, and there was no power to even look up.

puff!

Qin Chen's eyes opened suddenly when the endless breath entered the body.

call!

Between heaven and earth, that amazing vision also disappeared.

"Good risk, finally succeeded!"

Qin Chen looked at his body with palpitations. Before, at the last moment of the first stage of cultivation, Qin Chen almost failed. Once he failed, it would be the result of his soul flying away.

Fortunately, at the last juncture, Qin Chen stabilized his strength.

At this moment, Qin Chen stared at his physical body, and saw that his physical body seemed to have transformed into a universe. The cells were perfectly fused together and had undergone some fundamental transformation.

However, Qin Chen couldn't say exactly where it changed. It was a genetic change.

As for the next second stage, Qin Chen didn't dare to practice for the time being.

First, he has not yet fully comprehended this second-level secret method.

Secondly, Qin Chen had a feeling that if he rushed to practice the second level, it would definitely be the result of the loss of soul.

"My lord, we are almost on the shore."

Stabbing Sky Qiong said suddenly.

Qin Chen raised his head and saw that the shore of the Nether Star River was looming in the distance.

"Go, back to the black market."

Qin Chen said lightly, after spending a whole year in this ghost galaxy, Qin Chen was also very eager to return to the black market.

Gu Limo and the others were also quite excited. This time they had gained a lot from this trip to the Netherworld. They could do some shopping in the black market.

Qin Chen and their star ship finally landed, and they jumped off the star ship. When their feet were on the ground, Gu Limo and the old dwarf could not help but breathe a sigh of relief, and then couldn't help but become excited about it.

"Hey, let's go to the black market and see what good things we can buy in the next trade." Gu Limo couldn't help but patted his own storage space, looking like a nouveau riche.

This can't be blamed on him. The number of Shenguang fish that no one of them owns is amazing. Even if some professional anglers in the black market have been fishing in the Nether Star River for hundreds of years, they don't have many Shenguang fish.

In the black market, they are indeed rich and can buy a lot of things they want. Of course, the prerequisite for buying good things still requires good opportunities and vision. Compared with Coulimo's upstart mentality, Stabbing Sky as a general can still calm down, and said in a deep voice: "Coulimo, the black market is not like being in the ghost galaxy. There are many masters in it, so you can't be reckless. , Expose the sacred light fish, no

It will bring a murderous disaster. "

The number of sacred light fish on Stabbing Sky Qiong is also amazing, but he is a general after all, and he can still maintain his composure.

The dwarf old man looked at Qin Chen beside him and said, "Where do you plan to go, your lord?"

"Didn't you say that there will be a trade fair next to the black market? Go directly to the trade fair."

"That's OK, the subordinates will take the adults to the place of the trade fair."

The dwarf old man respectfully said.

Following Qin Chen this time, he also gained a lot. In just over a year, he had gained more than he had gained in the black market for hundreds of years, making him full of admiration and respect for Qin Chen.

"My lord, let's go."

Qin Chen and his party immediately left the Nether Star River and swept towards the black market not far away.

"Huh? Aren't they those guys from the Wala clan?"

At this moment, a group of people in the distance saw Qin Chen and others, and their eyes suddenly brightened.

"They weren't dead?"

"In the Bermuda Death Triangle, very few people can come out alive, these guys didn't die in it?"

These are several venerables who have rented a starship before, and they are also one of the many starships that followed Qin Chen and the others. They are also planning to go to the black market before the start of the trade fair. Who knows it happened to see Qin leaving. Dust and others. "Boss, I heard that these guys have rainbow koi on their bodies, and they have also caught a lot of sacred light fish. In addition, they entered the Bermuda Death Triangle and left alive. They must have a lot of treasures..."  
One of the faces densely packed

The eyes of the numb-eyed guy suddenly showed greed. "This is the black market..." The eyes on the face of the leader were more, and they flashed at the same time, giving people a feeling of intensive phobia.

### [Chapter 3793: Thousand Eyes](#)

"What is the black market afraid of? It's not in the black market. There is still some distance from the black market here. If these guys enter the black market, then we might not be able to do anything, but outside this black market..."

The guy who spoke before said anxiously.

"Yes, boss, don't hesitate, the former Motian ghost tribe's Mo Yuntian also wanted to get the treasures from them. It's just a Zerg tribe. I am afraid that no one among the small races of the Zerg will come forward for them."

The other people responded in succession, showing greed one by one.

"In that case, go and follow."

This group of people quickly followed Qin Chen and his party.

"Ok?"

In the distance, Qin Chen, who was heading to the black market, instantly frowned, "Be careful, we are being watched."

As soon as he finished speaking, swish, a few streams of light swept over quickly, and quickly stopped Qin Chen and the others.

"How many do you mean by this?"

Qi Tianqiong's face sank, and the few people in front of him were all venerables. The aura of the leader among them was not inferior to him, and should be a master close to the peak of human veneration.

"Some of you should be friends of the Wala tribe? I'm waiting for people from the Thousand Eyes tribe. I've been looking forward to a few of them. Seeing them today is really extraordinary."

The leading master smiled, and many eyes on his face flashed at the same time, as if he could see through everything.

"My lord is a member of the Thousand Eyes tribe. The Thousand Eyes tribe is a medium-sized race in the universe. They are extremely powerful. Their most terrifying thing is the soul secret technique. The use of the thousand eyes secret technique can make people fall into an endless illusion, which is extremely terrifying. "

Thorn Sky Sky hurriedly explained.

In the universe, there are tens of thousands of races, and this thousand-eyed race does not really have a thousand eyes, but it means that there are very many eyes. Normally, if the number of eyes exceeds one hundred, it is a master of the venerable.

And the more eyes, the stronger the strength.

The fighting power of the thousand-eyed tribe is average, and what is truly powerful is their talented supernatural powers, the thousand-eye secret technique, once they are used, they can form a unique fantasy world, which warriors of the same level cannot resist.

"Everyone, I have never had any dealings with the Wala clan. I wait for something urgent, so I will leave first."

Stabbing Sky Qiong arched his hands and wanted to take Qin Chen and the others away.

The dwarf old man was also nervous on the side.

As soon as the thousand-eyed race came up, they blocked their way, and the positions where several of them stood, sealed off the world and the void, about to move around, making him not afraid.

Any expert here can easily kill him.

"Huh? Friends, don't you give me the face of Thousand Eyes?"

The voice of the master of the Thousand-Eyed Race became gloomy in an instant. His Thousand-Eyed Race is not a big clan in the universe, not comparable to races such as the Zerg, and can only be regarded as medium, but it is not stronger than a race like the Wala Zerg. Less.

Stabbing Sky Qiong's heart shuddered and said: "A few, I'm really in a hurry. If I want to make friends, when the black market is over, I will entertain a few of the Wala people, and invite a few to show their faces. As for now, I will invite a few more. excuse me."

"Hahaha, come here, just you Wala, are you worthy to entertain me?"

One of the thousand-eyed people sneered.

Stabbing Tianqiong's face sank, and said coldly, "What do those people want?"

If it were in his Wala Zerg camp, he would have done it directly, but this is a black market, and the opponent is a master of the Thousand Eyes. Once the opponent's talents and supernatural powers are used, it is rumored that they are unmatched in the same level, and his heart is naturally awe-inspiring. "In this way, I'm waiting to hear that you Wala Zerg caught a lot of Shenguang fish in the Nether Star River before, as well as alien species like rainbow koi. I also caught a rainbow koi near you before, but it was a pity that The fish ran away, we found

There is reason to suspect that the rainbow koi you caught is the one we ran away. "

"So, please take out the Rainbow Koi you caught and let me check it. If it is not the one we ran away, I will let you go naturally."

One of the thousand-eyed people said lightly.

"Which one you caught, I pooh, this fish in the Nether Star River, naturally, whoever caught it." Gu Limo listened for a long time, and couldn't help but cursed.

"So, how many are going to plunder my Thousand Eyes fish?"

The leading thousand-eyed clan master squinted his eyes and said, with bursts of cold light on his body.

Stabbing Sky Sky's expression was angry. At this moment, he had fully understood that the other party had just taken a fancy to the rainbow koi on their bodies and wanted to \*\*\*\* it. His face was suddenly ugly, and he was about to say something. Qin Chen waved his hand suddenly to stop the stabbing sky, he smiled, stood up, looked lazily at several members of the Thousand-Eyed Clan, and said, "Is it the Thousand-Eyed Clan?" This seat gives you two choices, either go out or just

Don't go, I killed you by myself. If you are savvy, roll as far as you can, otherwise it will anger me and destroy your whole clan! "Qin Chen's words immediately made Sting Sky Qiong dumbfounded. This is

too arrogant and domineering, right? Gu Limo's heart was full of enthusiasm, and the dwarf old man couldn't help but stunned, and his heart became nervous. The opponent is completely torn

Shameless.

He has been in the black market for so many years and has seen a lot of such things. He really wants to fight. If their side fails, his guide will never survive, and the other party will definitely kill people.

"Several people, this is a black market. Please also respect yourself."

The dwarf old man hurried forward and said.

For him, he is just a guide, and naturally does not want to fight and kill. It is not good for him whether he wins or loses here.

"Things that don't know whether to live or die, since you have to die, then you will be fulfilled..."

The people of the Thousand-Eyed Clan were so reprimanded by Qin Chen, the eyes suddenly burst into fierce light, and the few people of the Thousand-Eyed Clan looked at each other, and at the moment of anger, they all shot together.

Hum!

Suddenly, the eyeballs of these thousand-eyed tribes burst out with radiance. These rays of light quickly merged together and turned into an invisible force, like a barrier, covering this area. world.

Suddenly, in Qin Chen's soul perception, everything around them disappeared. They seemed to have come to an inexplicable space from outside the black market, surrounded by endless darkness and cold, without the slightest light or sound.

"My lord, be careful, this is the innate supernatural power of the Thousand Eyes tribe, the Qianmeng enchantment."

Stabbing Sky Qiong suddenly exclaimed, and at the same time, a ray of light suddenly burst from the center of his eyebrows, blasting a divine rainbow towards the endless dark world in front of him.

However, after this divine rainbow burst out, it seemed to be trapped in an endless black hole, without the slightest fluctuation, as if it hadn't hit anything at all.

"Not good." Stabbing Tianqiong's heart was suddenly shocked, the thousand-eyed people's thousand dream enchantment was as terrible as the rumors.

#### [Chapter 3794: Level your race](#)

"Hahaha, it's useless, in my race's thousand dreams barrier, you can't break free at all."

Chilling laughter sounded all around, and I didn't know where it came from. At the same time, Gu Limo and others felt their minds groggy, as if they were about to fall into an endless abyss.

"Really? Thousand Dreams Formation, really so terrible?"

Suddenly, in this void, a mocking sneer sounded.

It was Qin Chen. A set of dark armor suddenly appeared on his body. It was the Haotian Divine Armor. At the same time, a ring appeared on each of his hands.

The left hand is the war spirit \*\*\*\* ring, and the right hand is the sword ring of evil spirits. The strong evil spirit and battle energy spread across Qin Chen, one left and one right, blasting out in front of him.

boom!

The terrifying evil spirits and fighting spirits tore through the endless darkness, and the piercing sky and others saw that their eyes were flooded with dazzling light. The next moment, the darkness in front of them suddenly burst, and the light was restored.

"What? This is impossible!"

Between the world and the earth, there was a frightened voice from the master of the Thousand Eyes clan, the head of the Thousand Eyes clan chief looked furious, looked at Qin Chen in amazement, his face was pale.

The venerables of the other thousand-eyed races also looked at Qin Chen in horror, because of the shattering of the Qianmeng enchantment, each of them was vain.

"In my eyes, nothing is impossible."

Whoosh!

Qin Chen suddenly shot and grabbed the master of the thousand-eyed clan. The person's eyes were frightened and he hurriedly backed away. However, between the world and the earth, a terrifying spatial force restrained him, and kept him firmly locked in. Void.

"you....."

He opened his mouth in horror, but before he finished his words, he stopped abruptly with a hum. At this moment, he was already stuck in his neck by Qin Chen, and his whole person was lifted up by Qin Chen, like it is carrying a chicken.

Qin Chen's speed was too fast, everyone just saw Qin Chen suddenly make a move, and then the leader of the thousand-eyed clan was already carried in the void by Qin Chen.

"stop."

Seeing that the leader was in trouble, the thousand-eyed masters present were shocked. In an instant, several masters came to kill together. All these masters sacrificed their precious soldiers and killed Xiang Qin Chen.

Boom! Between the world and the earth, endless rays of light bloomed, covering Qin Chen, and in the eyes of these thousand-eyed masters, strange rays of light bloomed, and these rays of light turned into terrible soul attacks toward Qin Chen. Bursting quickly

.

This is the innate supernatural power of the Thousand Eyes, the endless soul light, turned into a series of weapons, such as knives, swords, and guns, bursting at Qin Chen.

"My lord, be careful."

Qi Tianqiong and others exclaimed.

"Break it for me!"

The leader of the Thousand-Eyed Clan was held in midair by Qin Chen, and he was shocked. He roared, and hundreds of eyes on his face opened all together, and dazzling rays of light shot out towards Qin Chen, bursting into flames. Come.

Puff puff puff puff!

The endless soul light, like a sharp blade, sank into Qin Chen's body one after another.

"Okay!" Seeing this scene, the masters of the Thousand Eyes tribe were overjoyed, their eyes bursting with gloomy meaning. This is their top killer move of the Thousand Eyes tribe. They were hit by the souls of so many people, even people. The master of the pinnacle will lose his mind in an instant

Zhi is the time for their counterattack.

However, just as these people rushed in front of Qin Chen and were about to hit Qin Chen, the corner of Qin Chen's mouth suddenly grinned, drawing a sneer.

"The souls of the Thousand Eyes attack, but so."

He sneered, his eyes filled with cold light, and at the same time, the war energy transformed by the war spirit ring in his left hand suddenly burned and turned into a terrifying war flame, bursting out of the sky, and instantly enveloped these masters of the Thousand Eyes tribe. .

"what!"

Zhan Yan contained a terrifying soul attack, and even the masters who pierced the sky, who were close to the peak of the human body, could not easily resist it. How could these masters of the Thousand Eyes resist? One by one screamed and fell to the ground in pain.

Moreover, the Thousand Eyes tribe lives by cultivating soul secrets, and the soul attack contained in this flame of war is aimed at the masters of the Thousand Eyes tribe, and each soul has a severe sting.

"dead!"

Qin Chen drank low, and the evil sword ring in his right hand suddenly turned into a sky full of evil spirit sword intent, instantly piercing through these thousand-eyed master masters and beheading them on the spot.

With a puff, these thousand-eyed veterans hadn't understood what was going on, they had all been pierced into the void by Qin Chen, and their origins began to collapse.

This sudden change stunned everyone, and the head of the Thousand Eyes tribe whose neck was caught by Qin Chen's face turned pale and his body trembled.

"Impossible!" He said in horror. At the same level, no one can withstand the mysterious attack of their thousand-eyes soul. The same is true for the masters of the peak of humanity. This is where their confidence lies, even when facing the peak of humanity. Masters, even if the opponent has a report

They are also fearless by the means of fame. They possess the soul secret method, and they have enough ability to escape.

But now...

The soul secrets of their previous masters all attacked and hit Qin Chen clearly, but this person didn't even react at all. How could this be possible?

Is this person a master of the earth?

No, the breath on this person is not earthly respect at all, could it be...

The gaze of the leader of the Thousand Eyes clan suddenly fell on Qin Chen's Haotian Divine Armor.

It was this armor, absolutely so, it was this armor that had withstood their previous soul secret attacks, otherwise it would be impossible to explain.

"You, if you dare to be my Thousand-Eyed Clan as an enemy, my Thousand-Eyed Clan will never give up. There will be no place for you to stand on the battlefield of the Thousand-Eyed Clan." At this time, the leader of the Thousand-Eyed Clan trembled, and he was shocked. With guts, his scalp became numb and threatened. Qin Chen just glanced at him indifferently, and said leisurely: "You are an enemy of the Thousand-Eyed Clan? Your Thousand-Eyed Clan is nothing but a middle-level race in the universe, and you are not qualified to be an enemy of me! Besides, even if you are a thousand-eyed What about the Eye Race as the enemy? God

Block and kill the gods, and the Buddha blocks and kill the Buddha. If your thousand-eyed tribe dares to trouble this seat, this seat will flatten your thousand-eyed tribe, and let one less race among these ten thousand races. "

"you....."

The leader of the Thousand Eyes tribe was scared to death, but before he finished speaking, Qin Chen gathered his five fingers with a "poof," and thousands of war flames and evil spirit swords pierced into his body quickly, burning him into nothingness.

Boom!

Immediately, the origins of these thousand-eyed tribes were included in the jade disc of good fortune by Qin Chen.

"Clean up the battlefield, we will set off immediately, don't leave any clues."

Qin Chen said lightly to Stabbing Sky.

"Yes, my lord."

Stabbing Sky Qiong said something tremblingly, and looked at Qin Chen in amazement. This is a group of masters from the Thousand Eyes tribe. They were killed here by an adult's finger. It was terrifying.

"Do you know what to say, what not to say?" Qin Chen glanced at the dwarf old man lightly.

### [Chapter 3795: Brazen Earth Zun](#)

The dwarf old man only felt his scalp numb and he was sweating coldly, and he almost fell to the ground under Qin Chen's eyes. "Big... Your lord, I have been in this black market for tens of thousands of years, knowing the truth tightly, otherwise I would have been killed long ago, and I swear that everything here, if you dare to leak a tiny bit, the thunder from heaven will be wiped out on the spot. Soul flies

, Eternal life cannot be overborn. "

The old man was so frightened and trembling when he spoke, he almost kowtowed his head for mercy.

"It doesn't have to be this way, as long as you don't take the initiative to disclose it, Thousand Eyes Clan, heh." Qin Chen chuckled.

He now represents the Zerg, the fearful Thousand Eyes Clan, even if the Thousand-Eyed Clan learns the news, he should find the Zerg and Demon Clan troubles, and it is considered a contribution to the Human Race Alliance.

A ray of light flashed on Qin Chen's body, and the Haotian Divine Armor instantly sank into his body.

"This Haotian Divine Armor is really strong."

Qin Chen exclaimed, if it wasn't for the Haotian Divine Armor before, to kill those Thousand Eyes guys, he was afraid that he would have to use all the means, including the origin of time, to keep the opponent and kill him.

But now, after getting the Haotian Divine Armor, the War Spirit Divine Ring, etc., it suddenly became easier.

A trip to the Nether Star River increased Qin Chen's strength by at least ten times, as well as many more ways to protect his life.

After a while, Qi Tianqiong and the others cleared the battlefield, and Qin Chen and the others swept towards the black market in an instant.

On the next journey, Qin Chen and the others did not encounter any more trouble, and returned to the black market safely.

As soon as Qin Chen entered the black market, he found that the black market was much more lively than the last time they came.

"Why are there so many people in this black market?"

Qin Chen was puzzled.

"strange."

The dwarf old man also showed a trace of doubt in his eyes. He frowned and said: "My lord, there are so many masters in the black market. Normally, there is only one possibility, and that is to come to the trade fair." "However, this. It seems that a lot more people come to the trade fair at one time. This kind

of large trade fair is held every three years in the black market. Under normal circumstances, the number of people coming here is fixed, and many forces will not be patient. Experts are dispatched every time. Under normal circumstances, there will be a station here, and every trade fair will let a fixed person gather their merits and trade here, but this time there are too many people. , Is there any treasure in

Appear at the trade fair? "

The dwarf old man was also a bit suspicious. Before he entered the Nether Galaxy, he didn't seem to have heard of any heavy treasures here.

However, there are so many people in front of us, which is indeed at least several times more than the normal number of large-scale trade fairs held every three years. This is not normal.

boom!

Just when Qin Chen and the others were puzzled, suddenly, a terrible breath passed from the street, and not far away, a middle-aged man with terrifying breath was walking coldly.

This middle-aged man, who was three feet tall, was like a giant, beside him, followed by a few masters. These people were full of fierce and evil spirits, giving people a sense of endless oppression.

All the people on the street who were close by them all backed away in horror as they passed by, with tension in their eyes.

"It's the Sharan Earth Lord of the Shatian Clan!"

"Why did he come to the black market himself?"

When many people on the street saw this person, they breathed in air and exclaimed.

The dwarf old man also stared, a little unbelievable.

"Satian Clan? Master Earth Sovereign?"

Qin Chen looked at the other party with serious eyes.

Earth Zun is an existence that transcends Human Zun. Even among the top powers, he is a real middle and high-level executive. If it is placed on the battlefield of ten thousand races, it must be an entire army. Those in power. In the battlefield of ten thousand races, the supreme is invisible and cannot go off in person. It is the supreme leader of the top powers. As for Tianzun, he usually sits in the rear. It is the giant of each camp. Tianzun takes the shot. There are often several

The battle of the camp is over.

And those who truly occupy the absolute main leadership on the battlefield are often the earthly respect.

boom!

Qin Chen looked at the opponent, only to feel that the qi and blood in the opponent's body was swarming, and there was an illusion that the divine body would shatter.

Qin Chen hurriedly ran the nameless secret method, and suddenly, the gene power shook, and this feeling quietly escaped.

"Ok?"

At this moment, the Heavenly Clan's Instant Burning Earth Venerable seemed to feel something. He turned his head and looked around, his eyes sharp, like a divine blade, swept across Qin Chen's direction as if he could see through all the concealment.

Suddenly, all the masters in this area looked like cats that were shocked, their entire body erected, their bodies stiff, as if they were being stared at by natural enemies, and they dared not move.

"My lord, what's the matter?"

Seeing this, the several masters around Chaburn Dizun stepped forward in doubt.

"It's okay, it may be an illusion, let's go, first go to the station of my Shatian clan." Sharan Dizun said lightly, averted his eyes, and the group gradually walked away.

It wasn't until this instantaneous Dizun and others disappeared completely that a group of people in the area where Qin Chen was located heaved a sigh of relief, and their stiff body relaxed.

"Brake Burning Earth Venerable, so strong!"

Gu Limo swallowed, and said with some shock.

Others have the same feeling, just being glanced at by the other person, everyone has a feeling of escaping from the dead.

"Is this the master of earthly respect?"

Qin Chen also squinted his eyes, strong, indeed very strong, the oppression that the other party gave him was more than ten times, a hundred times stronger than that of Venerable Jueshan, Xidoruo and other top masters?

This is simply a transformation on another level of life.

Earth respect?

Is it so strong?

Qin Chen took a deep breath, which was a thousand miles worse than the average person and the pinnacle person. If Qin Chen is able to face Xidoruo, Venerable Jueshan, etc., he is not afraid, or even fights with them alone, and has certain hopes of defeating them, or even beheading them, then face the moment. Burning Earth Zun, he definitely did not

With the ability to confront, Qin Chen couldn't say whether he could escape.

After all, he has a lot of treasures on his body now, and he may not have the power to escape.

"The Shatian Clan is a second-tier race in the universe, much stronger than the Skyscraper Ghost Race. The Instantaneous Earth Venerable, who is also the top master of the Shatian Clan, actually appeared here?"

Stabbing the sky frowned.

Such a character is an absolute big man for him, and it is generally impossible to see it easily.

"Heavy treasure." The dwarf old man suddenly said.

Everyone looked at him immediately.

"My lord, usually such characters appear here, so it means that there will definitely be treasures in this trade fair." The dwarf old man took a deep breath, said solemnly, his eyes solemn.

### [Chapter 3796: The fair begins](#)

"Heavy Treasure?"

Qin Chen and others looked solemnly. "Yes, with my more than 100,000 years of experience in the black market, there must be a treasure here, and it must be an extraordinary treasure that can attract masters of the earth, but the specifics need to be carefully investigated and understood by subordinates. Some talent

Know. "

The dwarf old man affirmed.

"Furthermore, since the Chaburne Earth Venerable has appeared here, the top masters of other forces in the vicinity may also come. This time the black market will be surging." The dwarf old man explained.

Gu Limo showed excitement and said excitedly: "So, we are so lucky. The first time we came to the black market, we could actually see the heavy treasure."

"My lord, what do we do next?" Stabbing the sky, also came in interest.

"Go find an inn first!"

When Qin Chen and the others went to sea, they had already returned the original inn, and now naturally they had to stay in the inn again.

What made Qin Chen and the others speechless was that they had left several inns in a row, and there were no guest rooms.

This time the black market is really too lively.

Seeing that the sky is getting late, the dwarf old man said: "If several adults don't dislike it, they can live in the residence below, but the place where they live..." Qin Chen did not want to continue searching today, and immediately came to the dwarf old man's residence. , I have to say that the place of residence of the dwarf old man is very simple, located in a remote corner of the black market, and he just rented a part of this large yard.

A side house.

"You who have been in the black market for hundreds of thousands of years live in this kind of place?" Gu Limo glanced at the old man speechlessly.

"Ahem." The dwarf old man was embarrassed and said: "Small business, villain is just a small business."

Fortunately, this side room space is not bad, and Qin Chen and the others can stay.

After Qin Chen and others settled down, the dwarf old man immediately went out to find out the news.

After about a few hours, after the sky was completely dark, the dwarf old man finally returned with a hurried expression.

"My lord, as I expected, good things will appear at this trade fair."

The dwarf old man said excitedly when he came back.

"What's a good thing?" Gu Li stood up quickly and said in a hurry. "I don't know the details yet, but I got a message that on the day the trade fair ends this time, there will be a black market auction, and several heavy treasures will be auctioned. This news was only released on the black market nearly a year ago. Of that

We happened to be in the Nether Galaxy at that time, so we only got the news now. "

"Auction?" "Yes, the black market trade fair is actually like this. It is not a direct transaction on the black market, and it is not a day, but in a few days of three years, any power that has good things on it can choose to come. Centralized sales in the trading market.

As for races and forces with meritorious service, they can choose to purchase things in a unified manner these days. This is a two-way choice. "In addition, when the black market obtains some heavy treasures, an auction will be held at the end of a large-scale trade fair. There are generally not many treasures in this auction, but even the worst treasures. They are all amazingly valuable.

Therefore, such auctions are often held only once in hundreds of years, or even longer. "

"The reason why so many people can participate this time is precisely because an auction will be held after this trading conference."

The dwarf old man said excitedly.

"So that's it." Qin Chen nodded, no wonder there will be so many people here.

"Then you haven't been able to find out what treasures are there?" Gu Limo said.

The dwarf old man smiled bitterly and shook his head.

"Didn't you have been in this black market for hundreds of thousands of years? You can't find out this piece of news?" Gu Limo looked speechless, just this piece of news? Don't even know what the treasure is?

The dwarf old man looked a little embarrassed, and said: "Several adults, because this news was released not long ago by the black market, and the black market did not say what treasure it is, so..."

"Well, it won't be long before the fair is in anyway, so don't worry." Qin Chen said lightly, "What's more, this kind of treasure at the fair can attract masters of the earth, you think we are qualified to buy it.?"

As soon as he said this, Stabbing Sky Qiong suddenly smiled bitterly. Yeah, if there is really a treasure, this is a good thing that even the gods can attract, how can they be eligible to auction it?

Even if they were photographed by them, once the news spreads, it may not be the disaster of their Wala tribe.

"Even if it cannot be auctioned, it's good to have insights," Gu Limo said, scratching his head.

"Let's take a good rest. Go to the trading market in a few days and buy some things you need before talking." Qin Chen shook his head.

In the next few days, Qin Chen and the others started to sort out what they wanted to buy while looking for the inn.

Especially Stabbing Sky, carrying all the merits of their clan, just to buy something that can improve their clan at this trade fair.

Furthermore, Qin Chen and the others also caught a lot of Shengguang fish. These Shengguang fish were of great value. Which alien species Qin Chen would not easily trade, but so many Shengguang fish could be sold.

Of course, the premise is to have good things that can satisfy you.

The trade fair is located in the core area of the black market. It is very vast. Every time a large-scale trade fair starts, countless people will flock to them to set up stalls and sell them.

There are also some fixed booths, all of which are contracted by major forces.

Of course, if you have something to sell, you can also pay some fees, pack a stall yourself, and sell it.

If your treasure is consciously a rare treasure, you can go to the Appreciation Pavilion of the Black Market Fair to appraise the treasure. Once it is indeed a heavy treasure, the black market can help you auction it at the final auction, and the black market only needs to charge some handling fees. .

Knowing that there was a trade fair this time, many masters took out the treasures they had obtained over the past few hundred years, but they did not use them, and used them to identify them. Unfortunately, the treasures that can really be seen on the black market are extremely rare.

A few days later, the trade fair began, and Qin Chen and others arrived at the trade fair as soon as possible.

The entire trade fair is really crowded.

"Go, go in and take a look!"

Gu Limo and others ran in excitedly.

Qin Chen also followed the crowd, constantly checking. It has to be said that it is extremely lively here, there are crowds of people everywhere, and each stall is filled with many treasures, making Qin Chen dazzled to see, many of which are the first time Qin Chen has seen it.

[Chapter 3797: Black market enforcer](#)

The main reason is that there are too many races in the universe. Each race has its own unique treasures. There are thousands of species, and it is impossible for anyone to know everything.

"grown ups!"

As soon as he entered the trade fair, Stabbing Sky Sky hesitated.

"Go." Qin Chen waved his hand at Stabbing Sky Qiong. He knew what Stabbing Sky would say, so he waved his hand without waiting for the other party to speak.

"Free activities today, you all go to buy your own things, and then gather at the door at night." Qin Chen said: "Remember, you should be welcome, and don't spend money."

"Yes, thank you sir."

Ci Tianqiong and Gu Limo excitedly said, one by one entered the trading market, buying the treasures needed by the Wala tribe.

Each Zerg has its own characteristics, and the things that can enhance their strength are not the same. Qin Chen naturally won't be stingy enough to not allow them to buy things.

"You walk with me."

Qin Chen said to the dwarf old man.

"Yes, my lord."

The dwarf old man took the lead and took Qin Chen around in the trading market.

"Stop, the three-tailed sacred light fish is missing from the remuneration given by your Excellency. If you don't make up for it, I will not sell this magical bead.

Suddenly a voice sounded, and Qin Chen turned his head and saw in front of a stall, an ordinary veteran wearing a mask shouted at another burly figure with a hidden treasure.

"What's missing the three-tailed sacred light fish? Huh, the price is clearly marked. I have already given this maze, fifty-tailed sacred light fish. Do you still want to make a mistake?" The burly figure snorted coldly, and there was a person on his body. The breath of the peak.

The ordinary Venerable looked suffocated, but thought that this is a black market trading market, gritted his teeth and said: "What fifty-tailed sacred light fish, you obviously only gave forty-seven fish. give me back."

He looked at the burly man angrily, but he was obviously shocked by the other's breath and didn't dare to speak too loudly.

"baffling."

The burly man gave a cold snort, turned and left.

"You stop!"

The stall is mainly to pull each other.

"Do you really think I dare not touch you?"

A terrible murderous intent surged through the burly man, turning his head to look at the stall owner coldly.

"It should be the first time this burly man has come to the black market. If you really missed the three sacred light fish, I am afraid you will be unlucky." The dwarf old man glanced at it and shook his head.

"Oh?"

Qin Chen looked over and was about to ask questions.

suddenly.

Suddenly a man in black appeared on the field. The man in black was covered in a cloak, as if he appeared out of thin air, stronger than Qin Chen, he didn't even see how this person appeared.

The strange aura of laws surged in him, which was extremely similar to the nether aura on the nether galaxy.

"My lord black market law enforcer." The dwarf old man saw the other party and immediately looked serious.

"What's the matter, arguing on the black market?" The black-clothed man said coldly, his voice harsh, giving everyone the urge to cover their ears.

"grown ups....."

The stall owner hurriedly explained what had happened before. "This sir, I gave fifty sacred light fishes before, so how can I miss him three? It must be this person who put away the sacred light fishes underneath and wants to repay the debt." The burly man wanted to be tough, but felt After the unfathomable breath of the man in black,

Suddenly explained.

"In my black market, no one can lie." The man in black glanced coldly at the stall owner and the burly man, and said coldly: "Whoever lies and breaks the black market trading rules will die."

"My lord, I didn't lie. It was true that he missed three Shenguang fish. This is the storage space he gave me before." The stall owner tremblingly took out a storage space.

"Huh, who knows if you have taken away a few Shenguang fish in my storage space." The burly man snorted coldly, "My lord, money and goods are the eternal truth, presumably this black market is natural. Same thing."

The stall owner hesitated, looked at the man in black, and suddenly gritted his teeth, and said bitterly: "Forget it, I think it's unlucky for me to miss three points, no more."

In front of the black market law enforcers, he was also a little frustrated because of the three sacred light fish making such a big mess.

"No, no one can break the rules in my black market."

Huh!

A black crystal suddenly appeared in the hands of the man in black, and he stroked it with his right hand. The black crystal suddenly exuded a strange aura, bursting with true light.

After a while, the man in black put away the crystal and looked at the burly man coldly: "You are lying."

Even though the burly man was a treasure with a masking aura, everyone still obviously felt that the look behind his treasure was obviously panicked.

"My lord, I don't have any. Besides, what evidence do you have..." the burly man said.

"In the black market, what I said is the evidence, breaking the rules of the black market, and die!" The man in black stared coldly at the burly man.

"My lord, listen to me..."

This burly man wanted to explain, but suddenly, black flames burned up inexplicably on his body. The flames began to burn from the soles of his feet, and quickly spread to his whole body.

This scene shocked everyone present.

"Sir, stop, you listen to me... No, I was wrong, forgive me, I am willing to make up for the Shenguang fish, no, I am willing to use all my wealth to compensate the other party, my lord..."

The burly man said in horror, such a master of the pinnacle of humanity, at this moment, is like a puppet, burning black flames all over his body, roaring in horror, unable to move. "No, you can't kill me. I belong to the Shen Yi tribe. If you kill me, my Shen Yi tribe will definitely come here to ask for an explanation." Seeing that the man in black has not changed at all, the burly man suddenly put away his masking breath. Treasure, I saw his face with

Densely densely packed \*\*\*\* patterns, these \*\*\*\* patterns are light and dark, exuding a weird aura.

Shen Yi nationality.

Everyone on the court was shocked.

The Shenyi tribe is an extremely powerful race in the universe. It ranks very high among the ten thousand races. It belongs to the top 100 races, and ranks as high as 97 in the ten thousand races list of the ancient times.

Moreover, the Shenyi ethnic group is a neutral race, and the Mozu Alliance and the Human Race Alliance are striving for the participation of each other, their status is very detached.

"No matter what ethnicity, don't make trouble in my black market, offenders, die!" The man in black said lightly, Boom, the next moment, this? Shenyi people's eyes are full of endless fear, the whole person is wrapped in pitch black flame, black flame Dispersed, in the void, a faint divine substance dissipated, this Shen Yi person,

Turned into nothingness.

"This is your magic bead." The man in black picked up the magic bead and handed it to the stall owner, and then his figure quietly disappeared between the world.

### [Chapter 3798: Strict rules](#)

When the man in black left, there was an endless uproar on the court. A master of the pinnacle of humanity died in front of everyone like this. How could it not give people a strong shock?

"This Shen Yi people are really idiots. They dare to make trouble in the black market."

"The black market is extremely mysterious. Even the top demons and human races dare not go wild here. Although the \*\*\*\* Yi is strong, they don't look at their own weight."

"I'm afraid this is the first time this \*\*\*\* Yi came to the black market. I don't know the rules of the black market. Ha ha, if the \*\*\*\* Yi people are really angry and send a master to the black market to ask for justice, then it will be lively." "Shen Yi people are afraid. Wouldn't it be so stupid? This kid is an idiot. Is the Shenyi high-level idiot? Back then, the Tianzun of the Black Prison Demon was making trouble in the black market, but wasn't it still obliterated? In the end, the Demon didn't say anything. What

What. "

"Huh, some people say that behind this black market, there are big men of the human race and the demon race. Otherwise, how can the black market be used normally for the demon alliance's merits and the human race alliance's merits?"

All kinds of discussions were endless, and the crowd dispersed.

And the stall owner obviously didn't expect that the burly man before him would be a member of the Shenyi tribe, and he didn't expect that the black market law enforcers would even kill the master of the Shenyi tribe after he had the final say.

Although his justice was repaid, but he didn't dare to continue setting up a stall here anymore, put away his things, but left in a hurry.

"Black market enforcer?"

Qin Chen muttered, his eyes were solemn. At the moment when the black-clothed law enforcer used the black flame, Qin Chen vaguely felt that the entire black market was quietly moving.

"Are the rules of the black market?"

Qin Chen glanced around. If he hadn't guessed, there was definitely a top-notch big formation in the black market. The former Shenyi master fell because of the special power in this big formation, directly strangling him.

Otherwise, a master of the pinnacle of human respect, even if it is a strong master, it is impossible to take a look, the other party will burn himself directly, and even have the ability to resist?

"Furthermore, this person was able to discern who was lying before, and he should have used that black crystal ball to make the judgment by relying on the entire black market."

Qin Chen took a breath.

How strong will this black market be?

The Great Array?

Or is it, Tianzun Great Formation?

If even the demon's Tianzun really fell in the black market back then, then the rule-based formation in this black market would definitely not be lower than the Tianzun formation.

However, in the dark universe, there is more than one black market like this, and no one knows how many black markets there are.

If every black market has a Tianzun Array, how terrible will this black market be?

At this moment, Qin Chen has a deep understanding of the terrible and powerful black market. "My lord, it doesn't matter outside the black market, but in the black market, you must follow the rules. This is why many people are willing to come to the black market to trade. No matter how big your background is, you can never want to make trouble in the black market, even if it is a human or demons. Tianzun,

When you come here, you can't bully others. "

The dwarf old man smiled and said that he has lived in this black market for hundreds of thousands of years, and he has a certain sense of identity with the black market. Seeing this scene, he was proud of it from the depths of his heart.

Qin Chen smiled and said nothing.

Indeed, the black market is fair, but is it absolutely fair?

Qin Chen didn't believe that there was absolute fairness in this world. The so-called fairness was nothing more than a lack of strength. Indeed, the demon tribe's deity cannot be arrogant in the black market, but what about the supreme?

The so-called rules are just to restrain ordinary people like them.

However, seeing this scene also made Qin Chen feel relieved about this black market transaction. At least, with his current strength and treasures, he would not let the black market disrupt billions of years of rules and target him.

To some extent, it is really in a place with strict rules. The weaker you are, the more secure you will be.

Right now, Qin Chen continued to wander in the trading market.

I have to say that there are too many good things in this trading market, and Qin Chen is dazzled to see. There are many treasures in it, all of which are not trivial. There are even treasures like Jiuju Shenshan and nine hundred and ninety-nine star cores.

But Qin Chen already had such things as the Haotian Divine Armor, and he was not at all cold with such treasures. If it weren't for the previous trip to the Nether Galaxy, Qin Chen would really have to buy some self-defense treasures.

On the contrary, some special materials and elixir made Qin Chen's eyes shine. Venerable Wanpo, as the top alchemy master of all races in the universe, came to request the refining of pill. On the way of alchemy, he naturally reached the peak. Not only could he refine the pill of human race, but also the materials and spirits of all races. Medicines, and elixirs are not small

Accomplishments and understanding.

Now that Qin Chen has received the inheritance of Venerable Ten Thousand Poisons, he was naturally delighted to see these Ten Thousand Clan materials.

Many of these elixir and materials, once refined into a pill, can be taken when oneself breaks through the realm of the Venerable in the future, which can consolidate the cultivation as soon as possible.

In addition, there are some materials that can be used to refine formation flags, and Qin Chen naturally did not hesitate to buy them one by one. Fortunately, although the prices of these materials and elixir are not cheap, Qin Chen has a lot of holy veins and treasures, and he has also received 170 million black market merits from Venerable Jueshan. Most importantly, Qin Chen The sacred light fish in the jade dish of good fortune in the universe caught

A lot, this is where Qin Chen's confidence lies.

On this day, Qin Chen was shopping wildly, bought a lot of materials and elixir, and returned with a rewarding experience.

When it was night, Qin Chen and Shi Tianqiong joined together, and both of them were excited to go back and come back the next day.

On the second day, Qin Chen and the others once again came to the trading market. Compared with the first day, the trading market on the second day was equally hot, and even some special treasures were displayed one by one.

The first day is just an appetizer, and the next day is the real feast.

Qin Chen and others went shopping again. It is a pity that although there are many treasures in the black market trading market, the truly top treasures rarely appear. With Qin Chen's current strength, the ordinary treasures of the Venerable cannot attract his attention at all, only some truly top treasures. ,only

Let Qin Chen care.

But such treasures are too rare.

In the blink of an eye to the third day, almost all the treasures that the Wala wanted to buy had been purchased.

"My lord, should we go to the auction to take a look?" Gu Limo said with staring eyes, looking forward to it.

After the third day of the trade fair is over, it will be the black market auction. This is the real highlight, and it is also the most important purpose of many experts who come here. Gu Limo made such a suggestion, and saw Thorn Sky Qiong and others look over with fiery eyes.

## [Chapter 3799: Black Market Auction](#)

"Well, just go take a look."

Qin Chen perceives the many divine light fishes on the jade plate of his own universe, and smiles. Although he bought a lot of things in the past three days, but this time the harvest in the Nether Star River was so much that Qin Chen did not consume too many treasures, even the one hundred and seventy thousand in the black market order of Venerable Jueshan Ten thousand merits, all merits It took half.

After all, in this trading market, most individuals are seldom willing to collect merit points, but want to exchange treasures for Shengguang fish, holy veins or other treasures.

Although Qin Chen was curious about the auction, he was still afraid of it, but after attending the trading conference these days, he found that the black market fair was lively but the rules were strict, and he was relieved.

"Haha, go, go to the auction."

Gu Limo said excitedly, and a group of people immediately walked towards the auction.

At this moment, the location of the auction was already crowded with many people, and many people were crowded at the door of the auction, but they couldn't get in at all.

"this is....."

Qin Chen frowned. The dwarf old man explained: "My lord, if you want to participate in the auction, there is no threshold. It is either a guest invited by the black market, or someone who has treasures to be auctioned at this auction. In addition, you want to To enter, must pay

It is only necessary to purchase a box at a huge cost. "

"Huge cost? How big is it?"

Gu Limo has fished a lot of Shengguang fish, and has also been shopping a lot these days, which is considered to be rich, and suddenly said proudly.

"The cost of the box is thirty one-jin-heavy Shengguang fish, or one-third of the sacred veins of the Venerable, or 50 million merit points."

The dwarf old man said.

"hiss!"

As soon as he said this, Gu Limo immediately sucked in air-conditioning, even Qin Chen was speechless.

This black market is too dark, right?

I thought it would be enough for a few late-stage holy veins, but who would have thought it was so expensive.

Each of these three conditions is extremely amazing.

Fifty million merit points. Killing a venerable is only 100 million merit points. If it is a black market order, it is 50 million merit points.

In other words, killing a venerable is enough for an entrance fee.

In addition, one-third of the saint veins of the Venerable are also sky-high.

As for the thirty one-pound Shenguang fish, let alone, if it weren't for Qin Chen, let Gu Limo go fishing on the Nether Galaxy by themselves, deducting the cost of renting a star boat, I'm afraid it would take at least one to two thousand years to fish. Enough? This is a conservative calculation.

"There are people who are willing to spend money to enter the auction room?"

Coulee was dumbfounded.

Because although there are many people who surround the auction house to watch the excitement, there are also many people who enter, and people have been entering one after another.

"Can this pay back?"

Gu Limo didn't understand it. I heard that there were not many treasures in this auction. One-third of the Venerable's Holy Veins were directly taken out. If no good things were auctioned, wouldn't it be a big loss?

The dwarf old man smiled and said: "This is the charm of the black market, because the black market can guarantee that the treasures that enter his auction are all treasures. Maybe you didn't get what you wanted once, or twice, but five. Times, ten times?"

"In the black market, there has always been a saying that even if you participate in ten auctions, as long as you shoot your favorite treasure once, you will never lose."

"So awesome?" Gu Limo was speechless. Is this old man bragging?

In ten auctions, the cost of closing is almost close to the three holy veins of the Venerable. What good thing do you do that can make you worth the ticket price in addition to the auction price?

"Haha, interesting, let's go and set up a box."

Qin Chen had just come here to take a look, but now that he heard this, he became interested.

He didn't doubt the dwarf old man's statement, although there must be exaggerations, but there must be some truth. Although one-third of the Venerable's Holy Veins is of extraordinary value, it must be worth the money. Otherwise, the black market has existed for so many years, and it will not be an auction. So many masters have come, even the masters of the Earth Zun Also come, naturally

His unique place.

Qin Chen and the others came to the side and quickly handled the box, but many people who watched it were eager.

After getting the box token, Qin Chen and the others entered from the front door again.

This auction was extremely lively, and there were several long queues at the front door, and Gu Limo was eager to watch.

This black market is too profitable, the entrance fee alone is enough to drive the average race crazy.

Qin Chen and the others were naturally in the line. Even Qin Chen felt that there was an eagle-faced expert in the team, who exuded a terrifying aura of dignity. He also stood in the line, and he did not jump in the line.

In the black market, everyone must abide by the rules.

Everyone entered the arena one after another.

"Huh? Are you? You didn't die in the Nether Galaxy?"

Suddenly, a surprised voice sounded, and Qin Chen and the others turned their heads and saw that Camilla and others of the Black Gold Zerg were also here in the next team.

"Camilla?"

The eyes that pierced the sky suddenly condensed, and the breath of the other party and they could not be more familiar with each other, even with the mask of hidden breath, they could not cover it, and they could clearly recognize each other.

"Huh, it seems that they have gained a lot from the Nether Galaxy?"

Camilla squinted her eyes, her heart hot.

They are very aware of the cost of entering the auction. People from the Wala tribe not only survived from the Nether Galaxy, but also participated in the auction. What does this show? It shows that the other party has gained a lot in the Nether Galaxy.

At least, it was replaced by their Black Gold Zerg, and under normal circumstances would not come to participate in the auction. With this little money, it might as well be used to enhance the strength of the group.

But this time, their Black Gold Zerg had something to auction, so they got the qualification to enter the auction for free.

"My lord, I didn't expect the Black Gold Zerg people to be here. It's troublesome now." The Qi Tianqiong looked ugly: "According to the truth, it is impossible for the Black Gold Zerg to waste money to participate in the auction. How could it..."

Stabbing the sky can not understand.

What he was even more worried about was that when the other party saw them entering the auction room, they would definitely become greedy. Here, because of the rules of the black market, they wouldn't do anything, but what about the black market?

The Black Gold Zerg knows where they Wala are!

"It's okay." Qin Chen said lightly.

Stabbing Sky Qiong and Camilla looked at each other a few times, and both sides had a tacit understanding without saying much.

It is unwise to expose their identities here.

"My lord, it seems like the Zerg guys who entered the Bermuda Death Triangle."

Not far away, a few cold men in cloaks noticed Qin Chen and his party.

"These guys are not dead yet?"

The leader suddenly narrowed his eyes and stared at Qin Chen.

Qin Chen thoughtfully turned his head and collided with the opponent's eyes.

"Ghost guy?"

Qin Chen felt cold. It was a coincidence that the two sides actually met again at the entrance of this auction house.

The people of the Sky Ghost Race had changed their costumes and appearances, but Qin Chen had such a keen perception that he could see through their disguise at a glance.

"I hope some people don't want to die."

Qin Chen thought silently in his heart. And then, finally lined up with Qin Chen's party and entered the auction house.

### [Chapter 3800: Inner armor](#)

Entering the auction, someone naturally took Qin Chen and the others into their own box.

The auction room on the black market is very secretive. Even the people who come in together will not know what box the other people are in. It can be said that the security is very high.

"Just this box is almost one-third of the Venerable's Holy Vessel?" Gu Limo said in a speechless voice. Qin Chen and the others also entered the box. The entire box was very simple, and the overall environment was just like that. At most, there were some more restrictions. As for the size of the area and the entertainment on the sacred fruit, it was just average, and ordinary auctions. Almost nothing

What is the difference.

This is the first time Qin Chen has seen the box worth one-third of the Venerable's Saint Veins. At first glance, it is indeed quite disappointing. This dwarf old man has also come in for the first time and looked around curiously. However, Qin Chen knew that what was really expensive in this box was definitely not the box itself, but the treasure to be auctioned in the auction house. For a city as large as the black market, the maintenance cost was absolutely staggering, and there were also top masters.

Sit down, these are expenses. So Qin Chen didn't care much about the box itself. Not to mention that there were sacred fruit and wine in the box. Even without Qin Chen, he wouldn't care. The first thing he did after entering the box was to constantly arrange various Prohibition, anyway, he is

He would never let other people's consciousness sweep into his box.

The auction house is very large, almost all of them are located in separate boxes. They are located in the void of this auction house. Anyone outside the box is strictly prohibited, and it is impossible to see the situation in other boxes.

All those who come to the auction can only see one place, and that is the auction house in the middle of the auction house.

In addition, there is a big screen above the auction table.

As soon as Gu Limo came in, he began to pour the wine and taste the sacred fruit, such an expensive auction box, it is only necessary to eat something to get back to the original. After Qin Chen arranged the prohibition, he just sat for less than a quarter of an hour, and a woman in red appeared in the middle of the auction floor. She was plump and wearing a veil, giving people a very capable and full of temperament feeling. Separated by prohibition,

Qin Chen could also feel that this woman was a pinnacle.

Even the people who preside over the auction are the pinnacles. It can be seen that the things at this auction will not be simple, and the black market is also extremely difficult. The woman in red stood on the round stage in the middle of the auction house and made a blessing to the surroundings. Then she said: "Dear fellow daoists invited, everyone who can come here knows that the black market auctions are all kinds of rare treasures. This auction was divided into two times.

For the first time, three kinds of treasures will be auctioned to warm up. After warming up, they will enter the real auction. There are ten items in total, and each of them is a sensational treasure. "

As soon as this woman came up, she did a simple combined search.

I heard that there were only 13 treasures in total in this auction, and three of them were used for warm-ups. There was a loud noise from each box.

Gu Limo was also stunned, is this too little? Even Qin Chen was the first to hear that there were only a dozen treasures in total. "I won't say more nonsense. Now let's take a picture of the three treasures that warm up. The first one is the treasure of the venerable at the pinnacle of the human being, the inner armor and inner armor. Refined from scales, everyone has heard of Tianhe fish

, Very cherished, extremely difficult to catch, its juvenile scales are very soft, but extremely resistant, not only can withstand material attacks, but also withstand the impact of souls. "This treasure can weaken the attack of the pinnacle person by about 30%, whether it is material or soul." This item was taken out by me on the black market, so the reserve price is 100 million meritorious value, and each increase in price shall not be less than 10 million. It can be exchanged with the same treasure.

Home is free to bid. "

The woman in red gave a brief introduction and stepped aside.

It can withstand the power of 30% of the strongest human beings. As soon as this introduction came out, there was a commotion on the court.

Many of those who can come to participate in the auction are experts in the respect of the people, because the respect of the earth is extremely rare, and even the main players present are the masters of the peak of the people.

As soon as this inner armor appeared, it immediately attracted everyone's attention. Qin Chen also looked at the armor on the stage in amazement. What he sighed was that the armor that was enough for the pinnacle to compete for was actually only the first three treasures for the hot spot. Seeing this armor, Qin Chen is already looking forward to the auction

Up.

"One hundred and twenty million."

"One hundred and fifty million."

"180 million!"

"Two hundred million!"

Suddenly, after the auction started, many people began to bid frantically. For the masters of the pinnacle of human respect, this armor is definitely a life-saving thing.

Think about it, in a battle, two pinnacles of equal strength, one without armor, and the other can withstand 30% of the opponent's attack, how can they fight?

On the battlefield, this is what determines the key to occupy.

"Sir, do we want to take a photo?" Gu Limo looked at Qin Chen hopefully.

"Yes, sir, we have about 800 million merit points left on us. If you need it, you can take all of it."

Qi Tianqiong took out his identity token.

"Eight billion left? You just spent so little?"

Qin Chen looked over in a little astonishment.

After stabbing the sky and they killed Venerable Jueshan, they got a total of 1 billion merit points. In addition, they have also accumulated about 6.7 billion merit points over the years, and the entire Wala tribe has a total of about 1.7 billion merit points. The merit value.

In Qin Chen's view, since the sky piercing and the others would spend all of these merits in order to improve the strength of the group, they did not expect that there would be 800 million left. "My lord, it's enough." Assassin's Sky Qiong laughed: "Among these merits, what you get from killing that person is that you are the lord and you take the most part. What's more, following the lord, we also got a lot of divine light. Fish, exchange it with Shenguang fish

A lot of resources. "

Qin Chen shook his head, and had to say that piercing the sky is really saving. Unfortunately, merit points can only be accumulated in places like the battlefield of ten thousand races. In this dark universe,

or beheading hostile forces outside the battlefield of ten thousand races, there is no merit value. In addition, the previous thousand eyes race is a neutral force. , Even in the outside world

Killing will not accumulate merit points.

However, there is a black market order in the storage ring of the Thousand Eyes tribe. The black market order, killing any force in the battlefield of the ten thousand races, can get half of the merits. On the black market order of the Thousand Eyes tribe, Qin Chen also saw it. 800 million black market feats. In this way, Qin Chen had nearly two billion feats.
