[Chapter 3811: Vientiane God Store](#)

"The Vientiane God is hidden, but the Vientiane God is hidden?"

"I heard that right, the woman in red in the black market is talking about the Vientiane God Store? Is the Vientiane God Store about to open?"

"This is a top-level ancient chaos mystery, where all races must fight, especially the monster race."

One by one, the exclamation was passed from each box, and even the restriction could not stop their voices. Obviously, this Vientiane God's news gave everyone an extremely huge shock.

"The Vientiane God Treasure is really true. This era is about to start again. It seems that this seat is coming at just the right time." Divine light burst into the eyes of the Shatian Clan's Divine Zun, and said in a deep voice.

"The news from the black market is indeed true." The master of the genocide also muttered.

"It's no wonder that there have been some fluctuations in certain places in the battlefield of the ten thousand races during this period.

In each box, a strong man who exuded a terrifying aura whispered, his eyes bursting with endless rainbows and rays of light.

In the box where Qin Chen was located, Qi Tianqiong and Gu Limo were also shocked, as if they were shocked by the news.

"Vanxiang Shenzang, what is that?" Qin Chen felt the fierce aura on the scene, and couldn't help but wonder, this seemed to be a great mystery?

"No, sir, you don't know that, are you not from that clan? Is it because you have sneaked into..." Gu Limo said in disbelief, half-talking, seeing the dwarf old man on the side, suddenly closed his mouth.

The news of Qin Chen sneaking into the Human Race is secret, so naturally, I can't talk nonsense. "My lord, Vientiane God Store is a secret realm on the battlefield of ten thousand races." Thorn Sky Qiong said from the side: "You know, my lord, the reason why this place can become a battlefield of ten thousand races is because this world was born in the beginning of the opening of the universe. Stage here

The world is extremely strong. "In the universe, every once in a while, there will be a great destruction, which is called an era. In each era, some new continents and planes will be born. Even the heavens will be destroyed, but this primitive The place where the chaotic universe opened up

, it is difficult to be broken, so it will be used for the war of all races. "And it is precisely because this piece of heaven and earth was born at the beginning of the opening of the universe, when everything was first divided, so it is not only the human alliance and the demons alliance of this era that will fight here, in fact, some eras before this era, some

Many of the top forces will be born here. "

Qin Chen nodded.

He understands this.

In fact, when the universe was first opened, the human race was not even born. In that era, some races born from chaos were the overlords of the universe. Later, the universe changed and countless races were born. Human races, monster races, demons, ghost races, zerg races and other races have grown up one by one, becoming the top races in the universe, and the ranking of the ten thousand races is also Time after time

Changes are in progress.

In this era, Human Race and Demon Race are the strongest, and this has formed the confrontation between Human Race Alliance and Demon Race Alliance. "However, although the Ten Thousand Races Battlefield was born from the creation of the universe, it is extremely solid, but after hundreds of millions of years of warfare, the chaotic universe on the Ten Thousand Races battlefield has been very thin, but the overall race is still stronger than the ordinary territories of each race. many.

For example, I heard that the rear celestial realm where the human race now lives, even the earth-sovereign is difficult to enter, it will cause damage to the heavens, and no top masters can be born. "In fact, it is not only the human race, but many races are also the same. Unless it is the primitive land retained by the various races, which may be extremely powerful, the ordinary world has been riddled with holes in this war between humans and demons. , Scarred, this also leads

The masters of the ten thousand races will come to the ten thousand race battlefield to try to get a breakthrough. "And this Vientiane God Treasure is as old as the ten thousand race battlefield, but it belongs to the small world secret realm on the ten thousand race battlefield. It can only be opened once in many years, and each time it is opened is not long, which also leads to The Vientiane God Store not only contains

There are many ancient treasures, and they also contain many ancient powers of the universe, and even, it is rumored that there is the power of chaos when the universe was opened. "

"And the last time the Vientiane God Treasure opened, it was 100,000 years ago." Stabbing Sky Sky sighed.

Hearing this, Qin Chen also understood what this Vientiane God Treasure was. This should be a place as old as the battlefield of ten thousand races. However, the battlefield of ten thousand races is open-ended. The treasures and powers in it are absorbed and passed away quickly. Except for some hidden places, there is almost no remaining ancient power. Up

, Has become a pure battlefield. And this Vientiane God Treasure is as old as the Ten Thousand Races Battlefield, but because it has been closed, it also contains the power of the ancient universe, and this power and aura are undoubtedly the most attractive to top masters. The place

. "It's a pity... This Vientiane God Treasure is too rare, and because it is only a small world, it cannot withstand too many powerful forces. Only the top geniuses of all races are qualified to enter, like me, even this Vientiane God Zang opened,

I am afraid that I am not qualified to enter. "

Gu Limo said depressed.

"Just you? Just let you in, do you dare?" Stabbing Sky White gave Gu Limo a glance.

"Ahem, what's not to dare to do, what if I get some treasures and break through?" Gu Limo replied.

"Getting treasures is so easy!"

"Is there any saying in this Vientiane God Treasure?"

Qin Chen looked over. Stabbing the sky said: "Because the people who can enter the Vientiane God's Treasury are selected by the strong, geniuses, so to speak, only the most elite figures of each ethnic group can enter, and their purpose of entering the Vientiane God's Treasury is naturally looking for treasures,

Allowing oneself to break through and enhance the strength of the ethnic group has also led to fierce competition in the Vientiane God Store under the current background of the 10,000 ethnic group. "

"As soon as the alliances of all races meet, they will try their best to kill the other's vital forces, because once the opponent gets the treasure from the Vientiane God's Treasury and lives, it will almost certainly grow into the backbone of the race in the future."

Speaking of this, Stabbing Sky Qiong sighed: "As far as I know, among the three newly promoted celestial masters of my Zerg in the past 100,000 years, two of them are rumored to be masters of celestial masters who came out of the battlefield of ten thousand races. ."

Qin Chen's heart was suddenly startled. Of the three newly promoted Heavenly Venerables among the Zerg races, two of them had actually entered the Vientiane God Treasury, so this Vientiane God Treasury was too terrifying, no wonder it caused such a sensation.

However, Qin Chen also keenly perceives another problem.

"This Vientiane God Tibetan Dizun can also enter?" He asked in a deep voice.

[Chapter 3812: One-time auction](#)

Stabbing Sky Qiong glanced at Qin Chen suspiciously. In his opinion, as Qin Chen, he shouldn't be ignorant of the Vientiane Divine Treasure. Perhaps it was an adult who sneaked into the human race early and didn't understand many things. Thorn Sky Qiong explained: "In the Vientiane God Treasury, the Earth Zun can indeed enter, but it will not work if it exceeds the realm of the Earth Zun. As for the downward, there is no requirement, but in the past, most of them are of the Venerable level, half-step Venerable. Are very rare, because in Vientiane

In the gods, the cultivation base is too low, which is undoubtedly a drag. Not only is it impossible to obtain the treasure, but it will be sent to death in it. It is impossible for all races to send such people into it. "Of course, people with weak cultivation bases only need to hide outside the Vientiane God Treasury and look for opportunities, but it will not be too dangerous. After all, the masters of the earth will enter the depths of the Vientiane God Treasury. Such opportunities will not be wasted. Kill while staying on the periphery

Above the genius of other races. "

Qin Chen nodded, stabbing Tianqiong's words really.

But even so, it is still extremely dangerous for the general Half-Step Venerable to enter it. After all, the master inside is like a cloud, and anyone can kill it. Who knows if they will encounter any trouble.

"Oh, it would be great if I could enter the Vientiane God Store. I don't dare to become the Celestial Venerable, but it will be easy to break through the Earthly Venerable in tens of thousands of years and improve my clan's status in the Insect Venerable." Gu Li magical reveries. , Looked envious.

"Go ahead and dream of your spring and autumn."

Stabbing Sky Qiong said speechlessly, this Gu Limo really can dream, how could he spread such a silly thing in his clan.

"Hmph, I can't get in, that's okay, as an adult, I must be able to enter the Vientiane God's Hideout." Gu Limo affirmed.

The dwarf old man listened to his heart beating wildly.

Gu Limo actually said that Qin Chen would definitely be able to enter the Vientiane God Treasure. What kind of identity is this person? Could it be the inheritor of a great power of the Zerg.

As far as the dwarf old man knows, those who can enter the Vientiane God's Treasury among the ten thousand races are at least the inheritors of the top powers, and the so-called top powers are at least the heavenly powers.

"No." Suddenly, Gu Limo frowned.

"My lord, you are now hidden in that clan, will that clan give you a chance to enter the Vientiane God's Treasure?"

He remembered that Qin Chen is now hiding in the human race in the incarnation, and it seems that there is no big background, otherwise, how could the Lord Jueshan of the human race Dayu Shenshan chase and kill the adults? In this way, wouldn't the adults not be able to enter the Vientiane God Hideout?

This is a pity too.

Qin Chen knew in his heart how he could get into the Vientiane God Treasure. The so-called identity of the Abyssal Demon Clan is only for the Mengmengwala Clan. If he really ran to the Abyssal Demon Clan, it would be tantamount to seeking death, but Qin Mo didn't know how he was in the Demon Realm? If you break into a certain top demon force, maybe

Have the opportunity to enter the Vientiane God Store.

As for myself.

Qin Chen shook his head.

Unless you go to work, you may get an opportunity by relying on work, but it is only possible.

Moreover, for a force such as Tiangong, there are bound to be very many who want to enter the Vientiane God's Treasure, and it is extremely difficult.

I don't know if there is any other way. Qin Chen frowned and looked at the auction platform. At the end of the auction, why did this woman in red tell the news about the Vientiane God Store? Could it be that the things she auctioned next had something to do with the Vientiane God Store? Could it be obtained from Vientiane God Store?

treasure? At the auction, the woman in red looked at the noisy auction room with a smile and waited for a long time, until the boxes were completely quiet, then smiled again and said: "I think I will be the last treasure at the black market auction. , Some people's hearts

There should also be some speculations in China, yes, the last auction on the black market this time is related to the small world of the Vientiane God Store, which is a token to enter the Vientiane God Store.
"

boom!

As soon as this remark came out, the whole auction house boiled again.

Everyone was dumbfounded, even Qin Chen was dumbfounded, did he hear it right? What did the woman in red say? Want to auction tokens to enter the Vientiane God's possession?

This... also works?

"You heard me right. My black market is quite well-known in the universe. I have some places in the Vientiane God Hidden Small World. I also have some places in the black market. According to previous rules, I will use some places in the black market to auction."

The woman in red seemed very satisfied with the state of everyone, and smiled and said: "And in the last auction, I will auction six tokens on the black market, and the opening of the Vientiane God Treasure will be opened soon. You should hurry up."

"I don't know how these six tokens will be auctioned?"

At this time, an indifferent voice reverberated in the auction room. In a certain box, someone spoke directly with a breath of suffocation.

Earth Zun!

Qin Chen's eyes condensed, this is definitely a master of earthly respect. Qin Chen finally understood why so many masters had arrived at this auction, and those who were eligible to enter the Vientiane God Treasure were all the top powers in the universe. At least they had to be the Heavenly Venerable Realm forces, but the Vientiane God Treasure was the best.

What is attractive is the level of the respect of the earth, which also leads to the fact that many forces of the respect of the earth will try their best to get a token.

This competition will be extremely fierce.

Qin Chen's gaze became serious. Even if he guessed this, Qin Chen was still very determined in his heart. Even if he exhausted all his financial resources, he would grab one of these six tokens.

The Vientiane God Treasure, the top secret realm that contains the chaos of the universe, how can he let go of such a good opportunity?

The woman in red smiled and said: "With these six tokens, I will choose a one-time sale model on the black market. You can make an offer with your utmost sincerity. Finally, I will choose six quotations for the transaction on the black market."

The six were actually released together instead of being auctioned one by one.

Qin Chen's heart sank.

As a result, the competition became fierce, because it was a one-time transaction, and no one dared to quote the price too low. Otherwise, once the transaction was completed, there would be no chance to compete again.

This black market is really good at doing business.

"Now, the bidding starts, good luck to you all."

The woman in red smiled slightly, and then stepped aside.

"I give 1.5 billion merit points, two venerable holy veins, and a soul ball of ten thousand thoughts!"

"I give out 1.3 billion merit points, a holy vein of the venerable, plus a hundred divine light fish, and a bottle of divine essence pill!"

"I'm out..."

Quotations kept coming out one by one, Qin Chen was dumbfounded.

This is simply because the tokens hidden by the Vientiane God are desperate, and I saw that on the big screen, the quotations kept passing by. Obviously the number of quotations was extremely large. Even some people who have no treasures will make bids. What if the black market chooses them?

[Chapter 3813: Success](#)

Seeing these quotations, Qin Chen's heart sank.

There are not many treasures on his body. The merits of nearly two billion before, in the previous auction, he has already taken a lot of the seven-seven-eights, Shengguang fish, and also consumed a lot. As for the Venerable's Saint Veins, he has two of them from Jue. In the storage space of the mountain and the thousand-eyes strong

Arrived, but that was prepared for him to break through the Venerable next.

As for the Heavenly Dao Divine Pill, Qin Chen still has a lot of it, but he no longer dared to take it out. I have already traded ten Heavenly Dao Pills before. Others don't know which box he is in. But the auctioneer in the black market must know which box he is bidding on. He is already very risky to take out ten Heavenly Dao Pills. Come out one

These Heavenly Dao Divine Pills with different attributes are undoubtedly telling the people in the black market that there is a Heavenly Dao Divine Tree here.

As one of the ten source treasures of the heavens, if the news of the heavenly sacred tree is exposed, it will definitely attract countless people's coveting.

Even now, Qin Chen is a little worried. He has photographed several treasures in succession before, and they may have been targeted by people in the black market.

However, he must not obtain this token hidden by the Vientiane God.

That is the chaotic land opened up by the universe. As long as he enters the Vientiane God Treasure, he will definitely be able to break through the realm of the venerable. At that time, how much his strength will rise, Qin Chen himself is not sure.

"Three hundred million merit points, two venerable sacred veins, two hundred divine light fish, plus one sky ghost flint fish!"

After hesitating for a while, Qin Chen directly quoted a price.

As soon as this price came out, it naturally drew a lot of exclamations from the masters in the box.

who is this? Actually took out so many treasures?

It is actually another alien species in the ghost galaxy?

The quotation on the screen flashed extremely fast, but with the cultivation of the people present, even if it flashed by, the quotation could be clearly seen. After seeing the price, my heart sank.

Obviously, based on the urination before the black market, this quotation is afraid that a token has already been reserved.

Many people present not only participated in a black market auction, but knew that the black market favorite was the alien species in the ghost galaxy, otherwise the three-color thick armored crabs would not be so popular.

Who would have thought that there was another sky ghost flint fish.

Moreover, this time the price of the Deep-Sea Nether Electric Eel also appeared on the screen again, and I was afraid that it would also give a token by default.

In this way, wouldn't there be only four tokens left?

Many people who had bid before, after hesitating for a while, raised their prices one after another, adding everything they could hold up.

After all, a rough estimate, there are more than six masters of the earth who are there, if you hide and tuck them, you might as well stop quoting.

After Qin Chen paid the price, he completely let go of his heart, and then sat in the box with calm eyes.

This is the highest price he can currently offer. There are many alien species on him, such as serrated lantern fish, wancai sturgeon fish, rainbow koi, golden crayfish, nether giant-toothed squid, dark flame giant horn sea Spot and so on.

But it was impossible for Qin Chen to take it out again.

He has exposed a lot of treasures, the two great alien species, plus the Shengguang Fish King, are already extremely abnormal. If more alien species are exposed, Qin Chen is not sure how he will attract the attention of the black market.

Even now it is possible to be noticed by the black market. However, Qin Chen could only offer such a price for the tokens of the Vientiane God, otherwise it would not be competitive at all. As for the two hundred Shengguang fish, Qin Chen had exposed it before when he bid, and now he has it out again. Not surprising

.

This is the limit of his price. If the auction fails, Qin Chen can only find a way to get tokens from other places.

The entire quotation time took a whole stick of incense, and no new price appeared on the screen until after one stick of incense. "It seems that there are no new quotations. In that case, the auction is now over. Your previous quotations have already appeared in the backstage of my black market. Don't worry, which six friends will auction successfully. My black market will announce it as soon as possible. Please

Wait a moment. "

The woman in red said with a smile.

The whole scene was extremely tense, and everyone's breathing became rapid, staring at the big screen.

When the woman in red was waiting quietly on the stage, she seemed to see something, suddenly raised her head and glanced at a box in front of her.

In the box, Qin Chen's eyes condensed, and he stood up suddenly, his entire body erected.

"This woman in red gave me a look?"

Qin Chen's heart thumped, saliva secreted from his mouth, his mind buzzed, and his eyes became extremely solemn.

"Yes, she gave me a look."

Although the woman in red seemed to just look up at random, and there were several boxes in the place she looked towards, but Qin Chen keenly felt that the woman in red was definitely looking at their box.

"The black market has noticed me. That's right, every time I quote, the black market will know it. If so many alien species are taken out at once, it is difficult for the black market not to pay attention."

At this moment, Qin Chen was vaguely flustered, and even had an urge to leave directly.

But he still held back.

This is a black market. If the people in the black market are going to be against him, even if he leaves the auction house now, he still cannot avoid danger.

Taking a deep breath, Qin Chen suppressed his composure and sat down slowly. Now, what he can trust is the rules of the black market. After these days, Qin Chen has some understanding of the black market. This is a very rules-based place. If he always kills people because of some treasures, then the black market is early.

I can't do it anymore.

If you want to achieve such a large scale in the universe, you must have your own principles.

This is also where Qin Chen can only forcibly comfort himself.

"Congratulations to the six people on the big screen. I have already made a decision on the black market. Congratulations to these six people for taking the token of the Vientiane God Store."

After a while, the woman in red said with a smile, and as her voice fell, several quotations had appeared on the big screen.

Among them, there is a quotation from Qin Chen impressively.

And the quotation of the deep sea ghost electric eel is also impressive.

"Successful."

Qin Chen suppressed the ecstasy in his heart and stood up suddenly, his expression excited.

"My lord, you have photographed the token hidden in the Vientiane God."

Gu Limo couldn't believe it, and his expression was extremely excited, as if he was shooting himself.

The dwarf old man on the side also looked at Qin Chen in disbelief, and the shock in his heart couldn't hide. Outside, a few companies were happy and a little sad, and when they photographed the box of the Vientiane God Tibetan token, they were naturally ecstatic and excited, while those who did not photograph it were sighs.

[Chapter 3814: Leave the black market](#)

Under the arrangement of the black market, Qin Chen directly transmitted his offer to the auction stage.

At the same time, after a while, a token also appeared on the transmission platform.

This is an extremely ordinary wooden token, very simple, there is no special thing at all, no one would have thought that this extremely ordinary token is actually the entrance of the top secret realm of the Ten Thousand Races battlefield. Token.

"Everyone, my black market auction is finally over this time. Thank you for your support. At the same time, friends who have photographed the Vientiane God Treasure token, please also pay attention to the opening of the Vientiane God Treasure. If you miss it, I am not responsible for the black market. ."

"In addition, the token hidden by the Vientiane God is a bearer token. Please don't worry about your identity being exposed."

"I hope I can see you in the next auction."

After the woman in red finished speaking, she smiled and exited.

"go!"

In the box, Qin Chen put away the token, stood up suddenly, with a serious expression, and said to Gu Limo and others: "We will leave here now."

"My lord, what are you..."

Gu Limo looked at Qin Chen suspiciously. Why did the adults react so much?

Can it be big?

Qin Chen, who had obtained the Vientiane God Tibetan token, just wanted to leave the black market as soon as possible. As for other things, Qin Chen didn't want to care about it.

Outside the auction hall, it was the fair. Countless people left the auction hall. What happened at the auction hall before, like a gust of wind, spread quickly at this fair.

It attracted the amazement of the disciples of the ten thousand races.

Many warriors who were on the scene of the trade fair but did not have enough resources to enter the auction hall were also very upset after hearing the wonderful details of the auction, why they were so poor.

Especially after I heard that the token of Vientiane God Zang appeared in this trade fair, his expression of surprise changed.

This is destined to be a sensational auction in the nearby ten thousand battlefield.

"My lord, where are we going now?"

Leaving the auction room, Qin Chen led Gu Limo and others quickly to the outside of the trade fair, his expression hurried, aroused Gu Limo's curiosity.

"Leaving the black market." Qin Chen said solemnly, paying attention to his surroundings, and his energy was highly concentrated.

"So anxious, stop shopping?"

Gu Limo was a little depressed, sir, is this too anxious?

Qin Chen didn't bother to answer him, this idiot, couldn't even feel the danger? However, Qin Chen was relieved that he didn't seem to feel the special aura and pay attention to him.

wrong.

Breath stared at himself.

And more than one.

Qin Chen's expression remained unchanged, his soul power quietly turned his head and looked over, and he saw that not far away, several fellows of the Black Gold Zerg were standing in the crowd staring at him from a distance, with cold and cold eyes in his eyes.

In addition, in another corner, Mo Yuntian of the Sky Ghost Race also led a few people to stare at him coldly.

Compared with the Black Gold Zerg, the people of the Skyscraper Ghost concealed their figure very well, but Qin Chen felt it all at once.

What a shock to myself.

Qin Chen's face was ugly. He thought it was the people from the black market who were staring at him. It turned out that it was the Black Gold Zerg and the Sky Ghost Clan.

However, although Qin Chen did not perceive the people in the black market, it does not mean that the people in the black market did not follow him. With the strength of the black market, who knows what means he has to guard against!

As Qin Chen thought, he quickly walked out of the black market.

"My lord, someone is watching us."

At this time, Stabbing Sky Qiong also felt something was wrong, and said in a deep voice beside Qin Chen.

"A few guys from the Black Gold Zerg, are they too brazen?"

Gu Limo also saw a few people from the Black Gold Zerg. These guys didn't put Qin Chen in their eyes at all, and they didn't hide themselves very much. Idiots could see it.

"My lord, do you want me to drive them away? In places like the black market, do they dare to follow us and die!" Gu Limo said coldly.

In the black market, no hands are allowed at all, Gu Limo really wants to go up and give the Black Gold Zerg a mess.

"No, let them follow."

Qin Chen was also planning to drive away the Black Gold Zerg, but suddenly, his mind moved and changed his mind.

The people of the Black Gold Zerg will follow them, but it will actually make the people in the black market a little jealous. In case the black market wants to target themselves, they will not dare to be in full view, then the Black Gold Zerg is his own amulet. In addition, the better and better concealed Skyscrapers are also their own amulet. With these two waves of people following, they will not directly do it to themselves under their eyes when they want to come to the black market. This is instead given to them. Chance to leave

.

Thinking of this, Qin Chen felt happy instead.

"Go, we leave the black market."

Qin Chen was upright, followed the crowd and left the black market directly. At this moment, the trade fair is over. In addition to Qin Chen and others, many people from the powers have left. Nowadays, most people in the black market have come to participate in the auction and the trade fair. Now the auction and the trade fair are over. Will leave naturally

a lot of.

At the next trade fair, many people will gather here.

Qin Chen mixed in the crowd, directly entered the dark cosmic passage of the black market, and left here.

"Master Camilla, these Vala people have left the black market directly."

From behind, seeing Qin Chen and the others leave, a venerable black-gold zerg said solemnly. "This Wala guy is really an idiot. He dared to leave the black market so grandly. No wonder they haven't done much in the past few years. If they stay in the black market, we might not be able to use them. Since they left to seek death, it's no wonder.

It's us. "

Camilla sneered. "My lord is wise, this time we Black Gold Zerg not only bought a lot of good things, but also auctioned the Druid Heart to a good price. After returning, our clan's strength will definitely be greatly improved, and we will advance by leaps and bounds. When the time comes, we will be able to squeeze out the second nematode.

Family is not necessarily. "

"What is not necessarily, it must be no problem."

"Hahaha."

Several members of the Black Gold Zerg laughed loudly, and under the leadership of Camilla, quietly followed the direction Qin Chen and the others were leaving.

"Master Mo Yuntian, those guys have left, and there are a group of people behind him, and it seems that they will also be targeted."

After the people of the Black Gold Zerg race left, the people of the Sky Ghost Race also saw this scene and said in a deep voice.

"Hmph, although these people have changed their appearances, they should be the Black Gold Zerg guys who exposed the news in the Nether Galaxy."

Mo Yuntian smiled coldly.

"Follow up, eat both groups of people, dare to move the prey of my skyscraper ghost race, and seek death."

"Yes!"

Immediately afterwards, the people of the Sky Ghost Race also quietly followed Qin Chen and the others.

call!

Qin Chen and the others entered the dark universe passage, dizzy, and after a while, they once again appeared in the endless void of the battlefield of ten thousand races.

"Finally come out, let's go!" Qin Chen didn't pause at all, taking Master Stabbing Sky Qiong, quickly dived into the obliteration storm, and left quickly.

[Chapter 3815: Set an ambush](#)

call!

In the void, Qin Chen quickly flew towards the endless annihilation storm on the battlefield of Ten Thousand Races with Stabbing Sky Qiong, Gu Limo and others.

"My lord, the people of the Black Gold Zerg will inevitably come out. Why should we leave in such a hurry? Why stay here, seize the opportunity and kill the people of the Black Gold Zerg."

Gulimo said with cold light flashing in his eyes.

"Yes, my lord, Camilla of the Black Gold Zerg has almost the same strength as me. Although there are more sages around him than us, it is not impossible to solve them if you are an adult."

Thorn Sky is also eager to try.

"Don't worry." Qin Chen squinted before leaving here. What Qin Chen wanted to figure out was how many murders were tracking him. The Black Gold Zerg was not terrible. On the contrary, it was the people of the Sky Ghost Clan that were a bit more troublesome. The Sky Sky was extremely powerful. Although it was not a master of the earthly respect, it was also. Pinnacle respect, then

In addition, the strength of his gang is not weak, it is inevitable that there will be some if they really want to fight.

Of course, what Qin Chen worries most is the black market. As long as the black market doesn't send someone to follow him, then Qin Chen is not afraid at all. Below the respect, he will kill one by one.

What Qin Chen worried the most was that the master of the earth respect stared at him, so he was in trouble.

Qin Chen quickly flew across the void with Stabbing Sky and several people, and quietly dropped a number of cryptic space disks in the void during the flying.

This spatial array is a one-time item, hidden in the annihilation storm, it is difficult for ordinary people to notice.

This spatial array quietly monitored this world. Sure enough, when Qin Chen and the others left, the people of the Black Gold Zerg rushed out, and then took out a green leaf, this green leaf, with a natural aura, Camilla held the green leaf, and after i sensed it for a moment, suddenly Sneered, then

After that, they followed Qin Chen and the others quickly.

And not long after the people of the Black Gold Zerg left, a few more figures appeared here, it was the Moyuntian people of the Sky Ghost Clan.

However, the concealment techniques of these people were good, and the people of the Black Gold Zerg had no idea that they had been targeted by other people.

Qin Chen passed through the spatial array and observed for a while, until this one-time spatial array was extinguished in the extinguishing storm, Qin Chen did not perceive a new person appearing here.

"At least for the time being, only the people of the Black Gold Zerg and the Sky Ghost are tracking themselves."

Qin Chen breathed a sigh of relief. Although the space formation didn't last long, he only saw the people of the Black Gold Zerg and the Sky Ghost Clan, and there may be people behind, but it would take time for the other party to track him down.

"Regardless of whether anyone follows it, you must fight quickly." Qin Chen's eyes were cold, and at the same time he sneered. The people who followed the Skyscraper Clan later were obviously looking at him, but they were quietly following the Black Gold Zerg. , Maybe I still fancy something on the Black Gold Zerg, I want a stone

Two birds.

However, the concealment technique of the Motian Ghost Race is good, and the Black Gold Zerg did not realize that the other party actually stared at him.

You have to choose an ambush place. Thinking of this, Qin Chen did not choose the direction of the Wala clan camp, but flew to a valley not far away from the battlefield of the Ten Thousand Clan. When Qin Chen came along this line, he passed by once, and he knew the place tens of thousands of miles ahead. There is a secret

The valley is a good place to kill people.

The distance of tens of thousands of miles did not take much time for a strong like Qin Chen to arrive. After Qin Chen reached the valley, he immediately began to arrange the formation. When he was the Holy Lord, he was chased and killed by the Demon Sovereign of the Demon Race in the Void Tide Sea, and a large formation was secretly arranged. Now his strength has increased by a hundred or a thousand times, and he wants to arrange it here. A troubled formation is easy

.

While Qin Chen arranged the formation, he secretly ordered something to pierce the sky and the sky. They looked at Qin Chen in shock, obviously doubting Qin Chen's plan, but because of his strong belief in Qin Chen, they didn't do it. any question.

What Qin Chen arranged here was not a killing formation, but a trapped formation. What he wanted was to keep everyone behind and not let them escape.

However, even though Qin Chen arranged the formation quickly, it would be too difficult to set up the next formation that could trap the pinnacle of humanity before the Black Gold Zerg who followed immediately arrived.

Therefore, Qin Chen's trapped formation has not yet fully formed, Camilla of the Black Gold Zerg has already brought several Black Gold Zerg masters to this valley.

Seeing Qin Chen standing in the valley, and did not continue to escape, Camilla sneered and said, "Stabbing Sky, why didn't you guys escape? Aren't you very good in the black market? Why are you not now? Up?"

Qin Chen sneered and said, "General Camilla, did you see us running away?"

"Hahaha, Camilla, you don't know, dare to follow us, you Black Gold Zerg are looking for death."

Gu Limo also took a step forward, and said with a cold voice, a terrible murderous intent surged across his body.

Qi Tianqiong and Qi Buman also took a step forward, with lingering murderous intent surging over their bodies, coldly looking at the group of Black Gold Zerg.

Camilla and others stared at him, what's the matter? This script is different from what they imagined. Shouldn't the Wala people be terrified to see them? How so calm.

Is there any conspiracy in it?

Camilla's consciousness hurriedly searched around and found that there was no one else in the valley, he couldn't help but heaved a sigh of relief.

"Huh, pretending to be like this, thinking that this will be enough to get through, I have to say, piercing the sky, you are too naive." Camilla said in a deep voice.

"My lord, talk nonsense with them, take it directly, and take back all the treasures like rainbow koi and other treasures on them." "Yes, these guys have caught a lot of sacred fish in the Nether Star River before, maybe it was auctioned on the black market before. A certain treasure in the field was photographed by them. They took advantage of this opportunity to slaughter them to see how much good stuff they have.

oo. "

"Hahaha!"

The venerable Black Gold Zerg laughed wildly, and while sneered, he quietly surrounded Qin Chen and others in the valley.

They also paid attention to the entire auction on the auction floor, and did not see the rainbow koi appearing at all. Obviously Qin Chen and their rainbow koi were still on their own. This single rainbow koi alone was enough for them to gain a lot.

"Hehe, you are really right. We did auction one thing on the black market before."

Qin Chen smiled and took out a jade box.

"My lord, it is the heart of the druid." The people of the Black Gold Zerg became excited instantly.

[Chapter 3816: Desperately](#)

The people of the Black Gold Zerg looked at the Druid Heart in Qin Chen's hands in shock, how could this kid have Druid Heart on him.

"In the black market auction, is the heart of the druid that you took away?"

A Venerable of the Black Gold Zerg suddenly thought of something, and said in shock.

"Hehe, it seems that you are not too dumb." Qin Chen said with a smile. "My lord, they are not too stupid. They have only realized it now. I think they are stupid enough. It just so happens, my lord, you can get back from these guys the one hundred and fifty sacred light fish that you spent before. It's a treasure for you

Thing out. "

Gu Limo laughed.

"I don't know whether to live or die." The people of the Black Gold Zerg sneered, and their eyes suddenly became hot. This druid heart is regarded as the most important treasure obtained by the Black Gold Zerg, but in exchange for the resources of the Black Gold Zerg development, there is no Way, only

Trade out.

But I never thought that the heart of the Druid was taken away by the people of the Wala tribe. It was really nowhere to look for it, and it didn't take much effort to get it.

Is there such a good thing? Originally, the people of the Black Gold Zerg stopped Stabbing Sky Sky and they just wanted to ambush this old opponent. As for whether they could succeed, they didn't care too much. Even if they only killed one or two of them and let some people escape back, they didn't. Not in meaning.

But now, their eyes were so fiery, they all stared at Qin Chen frantically, the Wala people must die.

"kill!"

boom! With a sharp shout, the people of the Black Gold Zerg moved instantly under the leadership of Camilla, and they saw the color of black gold surging quickly from their bodies. In an instant, these sages of the Black Gold Zerg were covered all over. A layer of black and gold armor

, A series of sharp thorns penetrated from their bodies, like a blade with a handle. Moreover, these blades burst out wildly from the body of the black gold zerg. This is a black gold blade that is as thin as a cicada's wing, glowing with the cold light, and above this black gold blade, it is still Mysterious and mysterious

The law of light.

These laws of light quickly merged together, and turned into a world of black gold, a sharp blade with a handle like a steel forest, quickly enclosing Qin Chen's group of people.

"Black Gold Profound Sky Formation?" Stabbing Sky Qiong's eyes were shocked, his face changed slightly, and he quickly brought Gu Limo and Qi Buman to Qin Chen's side. Several of them were surrounded by countless black gold blades, but their expressions disappeared. It was frivolous at first, but became extremely dignified

"Stabbing the sky, your Wala clan has fought against my Black Gold Zerg for so many years, do you not know the big formation of my Black Gold Zerg?" Camilla laughed haha.

"The Black Gold Profound Sky Formation requires at least ten nobles, or five nobles and a million fighters to form, how can you..." Stabbing Sky Qiong said in disbelief.

The Venerable Black Gold Zerg Race on the opposite side even joined Camilla, and there were only six together. How could this Black Gold Profound Sky Formation be formed?

"Hehe, this is the past. This time my Black Gold Zerg won a big victory, and my cards naturally became different. Kill." Camilla yelled, and immediately, countless black gold blades suspended in mid-air flowed quickly. Countless black gold blades were spinning frantically, which drove the killing potential of this world.

Turn, with the aura of cutting everything, finally merged together, and then madly beheaded Qin Chen and his party.

"Everyone shot together."

Stabbing the sky with a low cry, the rays of light burst from the center of the eyebrows, and bursts of light burst out crazily. These rays of light collided with the sky-filled black gold blade, causing an astonishing explosion.

Rumble! The entire world was flooded with this terrible explosion. The people of the Black Gold Zerg madly urged the Black Gold Profound Sky Array to kill Qin Chen and the others, while Stabbing Sky Qiong and others furiously resisted it, seeing countless rays of light blooming, the Black Gold Zerg Heijin Xuantian Formation

Suddenly, it was unable to break through the defenses of Stabbing Sky Qiong and others.

However, the people of the Black Gold Zerg are not at all anxious, just sneered at the corners of their mouths, because there are only four masters on the Wala clan, and they have six at all, so they don't worry that the other party can resist. .

Sure enough, under the urging of the Black Gold Zerg clan, the Black Gold Profound Sky Array quickly approached Qin Chen and the others, while the Wala clan's resistance to the light was gradually overwhelming. "Hahaha, piercing the sky, don't resist, it's useless for you to resist." Camilla sneered and said with a cold look. On his body, invisible rays of light burst out and blended into the black gold blades. Suddenly, There are a few sharp blades to wear

It penetrated the blockade of the Wala clan, and instantly slashed on Qin Chen and the others.

Chi Chi Chi Chi! This piece of sharp blade cuts Qin Chen and their bodies. Although a single piece of black gold blade cannot kill Qin Chen and the others, the continuous slaughter of advantageous blades still makes Qin Chen and the others groan constantly. It's even more squirting

With blood coming from his mouth, he was protected in the middle of the Wala clan, and his breath was wilting.

"grown ups!"

Ci Tianqiong and others looked at Qin Chen worriedly, their eyes full of anxiety. "Hahahaha, I thought you were so good, so you only have this ability, but also adults...stab the sky, if I remember correctly, your Wala clan and my Black-Gold Zerg clan belong to the same clan? But this person, But it's definitely not our refuge

For that clan, the general should take a good look at who your Wala clan is cheating on his back. "

Camilla looked at Stabbing Sky with disdain. Originally, he was worried that Qin Chen had hidden strength, but now it seems that this kid's strength is not scary at all.

"Damn it, sir, we **** you away."

When Thorn Sky Qiong heard Camilla's words, his face suddenly changed, and a trace of worry quietly appeared in his eyes, and he hurriedly shouted to Qin Chen.

At the same time, his hands turned into sharp blades, booming, the aura of the origin in his body bloomed, and he directly began to burn the origin, together with Gu Limo and others, flew away countless black gold sharp blades, escorting Qin Chen away.

"Huh? Desperate?" Camilla sneered. Under the urging of their Black Gold Zerg, countless black gold blades became more and more terrifying, turning into a storm, giving them no chance to leave.

"My lord." Stabbing Sky Qiong said in anger.

"Not afraid." Ignoring the blood at the corner of his mouth, Qin Chen quickly took out the formations one by one and threw them out into the void, actually planning to arrange the formation during the battle. "Hahaha, this kid is too naive. Under my Black Gold Profound Sky Formation, I actually want to set up a formation, idiotic dreaming." Camilla ignores Qin Chen's formation at all, and his Black Gold Zerg will naturally have some battle formations. In my own comprehension, I didn't believe that Qin Chen could arrange a big formation under this situation.

[Chapter 3817: Dare to think](#)

Sure enough, Qin Chen retreated under the black gold blade storm, unable to arrange the formation at all.

"My lord, run away first."

At this moment, Stabbing Sky Sky and their bodies were already very embarrassed, all of them were colored, and their eyes became savage.

Hum! I saw that under the leadership of Stabbing Sky Qiong, Gu Limo and Qi Buman burned the original source together. At the same time, a dazzling light burst out from the center of their eyebrows. The beams displayed by Skydome merge quickly

When they were together, the three beams of light fused together and slammed into a certain place in the Black Gold Blade Storm released by the Black Gold Zerg.

Rumble!

Countless black gold sharp blades were exploded, Camilla and the others snorted and saw that the originally formed black gold mysterious sky formation was quickly blasted through a small gap.

call out!

They didn't need to pierce the sky at all to speak, Qin Chen rushed out along the gap, directly out of the black gold zerg clan.

In the next moment, the storm of black gold blades healed again, and the three big worms of the Stabbing Sky Vault were once again surrounded, increasingly embarrassed.

"Damn!" Camilla's face was ugly. The Druid's Heart was in Qin Chen's hands before, and when the rainbow koi was caught that day, it was also put into the storage space by that kid. , If you let that kid run, even if they will

All members of the clan were killed, and they could only vent their anger, and could not get the treasure at all.

"Stop him."

Camilla immediately shouted sharply at a black gold zerg worm beside him.

"Yes, my lord."

This black gold zerg veteran left the team and swiftly attacked and killed Qin Chen. Hey, a sharp black gold blade turned into a sharp blade that reached the sky, and it fell towards Qin Chen. Camilla breathed a sigh of relief. According to previous battles, although this mysterious kid has a high status, his strength is very weak. Moreover, the vaguely radiated aura from the opponent turned out to be only half a step in the realm of the venerable. While shocked

, And increasingly believe that Qin Chen is the world's arrogant arrogant of a new race that the Wala tribe depends on.

Such a Tianjiao has a high status, but only one person needs to be sent out to stop it easily.

But what Camilla didn't expect was that when the sharp blade he sent under his command was about to hit Qin Chen, suddenly the void suddenly twisted.

With a bang, he saw the entire valley tumbling on the ground that was bombarded by a blow under his command, and the dust waves rolled, but Qin Chen twisted the void at the moment when the sharp blade fell, avoiding the attack, Rushing away outside the valley.

Under Qin Chen's feet, the void disappeared, and in the blink of an eye, Qin Chen was about to escape from this valley.

"Space magic!"

Camilla was extremely frightened, and never thought that Qin Chen's combat effectiveness was not strong, but his escape ability was so strong, he had mastered a certain special space magical power, and even his subordinates could not stay. What made Camilla even more nervous was that Qin Chen was rushing towards the valley exit, a series of formations appeared in his hand, and these formations were quickly thrown out by him. The next moment, these formations quickly lit up. After all the light, a fuzzy

The space channel appeared at the exit of the valley.

"Space Teleportation Array!" Camilla is going crazy. If Qin Chen is only allowed to escape from the valley, then he may be tracked up below him, but if Qin Chen uses the Space Teleportation Array to teleport to an unknown place to hide, Then this vast battlefield of thousands of races,

Where did he find Qin Chen's trace?

This is not the base camp of their Black Gold Zerg. He doesn't even know much about the terrain here.

At the moment, he didn't care about continuing to deal with Assassin's Qiong and others, with a bang, he rushed towards Qin Chen frantically, trying to stop him before Qin Chen teleported away.

But Qin Chen's movements were too fast, and the spatial transmission burst had already been activated, and even if the movements were fast, Camilla could not stop Qin Chen.

"Damn it."

Camilla's heart was extremely furious, and the treasures such as the Druid's Heart and Rainbow Koi were all on Qin Chen's body. If Qin Chen ran away, what was the point even if he killed everyone in the Wala tribe?

Seeing that Qin Chen was about to enter the space channel and leave here.

Just at this time.....

"Ugh....."

A sigh sounded in the ears of everyone in the valley.

Camilla and the others were shocked, and instantly understood that someone had come near the valley. I saw a hidden void on the edge of the valley. Several figures appeared quietly. One of them looked at Qin Chen with cold eyes, and suddenly displayed a black ancient bowl against Qin Chen. The ancient bowl bloomed. The black breath facing Qin Chen

The space teleportation array where it was located was suddenly withheld.

"Kacha!" As soon as a crisp crackling sound was heard, the spatial teleportation array Qin Chen had just established instantly appeared cracks, and the next moment, with a bang, Qin Chen just escaped into the void like a figure Caught in the turbulence, from

The void rushed out and fell back into the valley.

puff!

Qin Chen spouted a mouthful of blood, and looked at the phantom shadows in front of him in fright, his eyes showed anger and horror.

He looked frightened, but he sneered in his heart. Seeing that he was about to leave, the people of this skyscraper couldn't help it.

The few people who came out of the void were not other people, they were the Moyuntian masters of the Motian Ghost Clan.

"Sure enough, it is the upstart of the Zerg, a group of waste, even a fellow who is not a Venerable can stop him, almost let him run away." Mo Yuntian glanced at the Black Gold Zerg's Camilla and others with disdain, then He glanced at Qin Chen again, and sneered: "You guy dare to think about it. I thought it was a character, not even the venerable person, and dare to set up a trapped formation in this valley.

It's a pity that you want to kill the Black Gold Zerg with the trapped formation, the extraordinary trapped formation has not been completed, and even you have been left here. I really don't know if you dare to think or are you an idiot! "

Mo Yuntian walked out of the void and glanced at the people in the valley faintly. At the same time, behind him, a group of masters of the skyscraper ghost race quickly entered the valley and surrounded the people of the Black Gold Zerg and Wala tribe as well as Qin Chen. stand up.

Qin Chen looked at Mo Yuntian in fright and anger. His expression obviously did not anticipate that he had not escaped successfully, and his eyes showed anger.

"People from the Sky Ghost Race?" Camilla's face also changed. He didn't expect that there were other people in this valley, and according to the meaning of the other party's words, it was obvious that this group of people just before they arrived. Already eyeing Qin Chen, they had never noticed it before.

[Chapter 3818: Black ancient bowl](#)

Thinking of this, Camilla's heart sank instantly.

People from the Sky Ghost Race have appeared here long ago, but they have been silent, hiding in the void. What are you going to do?

"It turns out to be Lord Mo Yuntian of the Sky Ghost Clan, and a few friends, Nether Galaxy, don't come here unharmed." Camilla's heart was gloomy, but he arched his hand at Mo Yuntian, and said with a respectful expression. The few masters around Yuntian Eyes are generally better than their Black Gold Zerg. If you don't know how to show weakness, I'm afraid you can't be good.

Up.

What makes Camilla most depressed is that the people of the Skyscrapers are also eyeing Qin Chen. In this way, the good things on this kid must be shared with the people of the Skyscrapers, otherwise how could the other party give up? ? At this moment, Camilla was very depressed. He knew the situation

today. When he was in the Nether Galaxy, he shouldn't have sent out the news that Qin Chen and the others had caught the Rainbow Koi in order to target the Oara tribe, which caused many people later.

I have seen many sacred light fish caught by people from the Wala tribe.

It is estimated that the people of the skyscraper ghost tribe were the Wala tribe and the kid who were eyeing at that time, and they have been following them until now.

"Haha, my friend, who is your friend of the Black Gold Zerg?" Mo Yuntian glanced at Camilla and said with a sneer. Camilla's face suddenly looked ugly, and a black gold zerg venerable face changed behind him, and he was about to rush up, but Camilla stopped in front of him, looking at Mo Yuntian with a gloomy face: "Master Moyuntian, you are also a member of my Demon Alliance. You should know that I have always had beams for the Black Gold Zerg and the Wala Clan. Today, it is the time when my Black Gold Zerg is dealing with the enemy. I hope Master Moyuntian can make it easier. The Zerg is not to be bullied

in. "Mo Yuntian suddenly sneered and said: "Why is it convenient?" Are you also worthy of the Black Gold Zerg? Moreover, although we are from the same camp, the same camp does not mean that I am going to give you face. You Black Gold Zerg are not here to take the same Zerg

Everyone has to do it? Besides, what is the face of your Black Gold Zerg. "Camilla's face became more gloomy, and the group of masters of the Black Gold Zerg around him were also murderous, "So, do you have to go against my Black Gold Zerg? Your Excellency, don't forget, the top of my Black Gold Zerg is the Dead Demon.

I, the Black Gold Zerg, killed the army of the Druids not long ago and got the award from the Dead Demon. Do you want to make trouble with the adults of the Dead Demon? "Hahaha." "Mo Yuntian suddenly sneered, his eyes filled with mocking sneers: "Take the dead demons to press me?" I am here to kill you, how do people from the dead demons know? Besides, you got the treasure but kept it from the dead demons

People come to the black market for auction, do you think that the dead demons will stand out for you? The little black gold zerg is nothing but ants in my eyes. "

"You are presumptuous..."

At this time, the Venerable Black Gold Zerg who had intercepted Qin Chen suddenly said in anger. Mo Yuntian glanced at him coldly, and suddenly raised his hand, and he saw that the black ancient bowl was like a black halo, suddenly suspended on the head of the black gold zerg master, before the black gold zerg expert had any reaction. This black ancient bowl has

Then it shrouded him.

"You..." The Black Gold Zerg Race looked at Mo Yuntian in anger, with black gold blades bursting out of his body, trying to break free from the suppression of this ancient bowl, but this ancient bowl exudes black stripes. The halo, together with the black blade, suppressed

Under the ancient bowl, circles of black halo quickly merged into the body of the Black Gold Zerg Race. The eyes of the Venerable Black Gold Zerg who had been arrogantly blocking Qin Chen before showed

endless horror. The next moment, his body suddenly spewed a mist of blood, which was strangled into a chain under the halo of this ancient bowl. Blood mist, the whole person turned into

Nothingness.

A venerable master was killed in an instant, not to mention Camilla, who couldn't believe it, even Qin Chen was a little surprised. He already overestimated the Moyuntian of the Skyscraper, but the truth is that he is even more than he thought Be more powerful.

Qin Chen saw Mo Yuntian's attack very clearly. When the black ancient bowl was suppressed, it seemed to contain a space, which could confine all the power in this space and weaken the opponent's attack.

That's why the black gold blade of the Venerable Black Gold Zerg Race before is so trivial, otherwise, even if the Moyuntian is stronger, a Venerable's attack would not even fail to lift a single wave.

"This black ancient bowl should also be a treasure." Qin Chen squinted his eyes, and his heart was dark. However, although this treasure was strong, Qin Chen had already estimated it when he attacked his spatial teleportation formation before and was trapped. Camilla and Stabbing Sky are okay, but wanting to be trapped is no different from a fool

dream.

"Mo Yuntian, do you dare to kill me from the Black Gold Zerg." Camilla hadn't been able to make a move before. When he reacted, his master was already dead, and his heart was immediately furious, and he shouted.

Mo Yuntian didn't seem to hear Camilla's stern drink at all. He saw him quietly take out a black market order and aimed it at the Black Gold Zerg Venerable who was beheaded by him.

Suddenly, a force from the underworld poured into the black market order. After the black market order absorbed the breath of the black gold zerg veteran, a series of numbers appeared on it instantly, which was the merit of killing this black gold zerg veteran. .

"Sixty-eight million, really rubbish."

Mo Yuntian said disdainfully. It should be noted that the merit value of a weakest venerable is 100 million, but when the black market order kills a master of the same alliance, it is only half of the normal merit value, so Mo Yuntian only got 68 million merit value. Is this black gold zerg

The true merit of the person is only 136 million.

This is almost the ranks of the most ordinary venerables, no wonder Mo Yuntian is extremely disdainful.

You must know that a pinnacle person like Venerable Jueshan has merits as high as one billion.

"You..." Camilla's eyes immediately burst into flames when he saw this scene. The Moyuntian of the Motian ghost tribe not only killed his master of the Black Gold Zerg in front of him, but also in front of him. The masters of his Black Gold Zerg have absorbed merit points, this

The attitude of not putting him in the eyes at all, undoubtedly gave him endless humiliation.

"My lord, talk nonsense with him, kill him."

A Venerable Black Gold Zerg race around Camilla roared, crashing, and countless black gold blades surrounded him, turning into a storm, and they were about to be killed towards Mo Yuntian. "Hold on." But Camilla stopped him, and saw Camilla's eyes red and angrily looking at Mo Yuntian, but the murderous aura on him was restrained.

[Chapter 3819: Bear the burden](#)

"Master Mo Yuntian is a good method. Today, I'm the Black Gold Zerg. Don't pass it." After Camilla stopped her subordinates, she actually endured her anger and agreed to leave, without even intending to avenge her subordinates.

"grown ups?"

The master of the Black Gold Zerg who was stopped by Camilla before that, and the remaining Venerable Black Gold Zerg looked at Camilla in disbelief, their tribe was killed, but the general is going to leave?

"To bear the humiliation? Camilla, I underestimated you at this point, but I have already started, do you think you will leave safely?" Mo Yuntian sneered, with a mocking expression on his face.

"Do it!"

Mo Yuntian sneered and waved his hand, and suddenly the masters of the Sky Ghost Race turned into terrifying clouds and floated towards Camilla and the others of the Black Gold Zerg.

"Kill!" Camilla's heart sank. This is the scene he least wants to see, but he is also a decisive person. After listening to Mo Yuntian, he knew that no matter what, Mo Yuntian would not let them go. of. The remaining four venerables of the Black Gold Zerg are not idiots. After hearing the word kill, they can no longer take care of the injured Stabbing Sky and others. The previous incredible moments turned into terrible murderous auras, and the black gold blades transformed into the sky. Black gold

Blade Storm blasted towards that Mo Yuntian and others.

At the same time, Camilla of the Black Gold Zerg even appeared in the hand of a talisman. This talisman was blooming with a green halo and had a natural aura. It was excited in a very short period of time and then shrouded in the sky. Come.

This is also the treasure they got from the druids. This talisman is equivalent to the pinnacle level of human respect. Although it can't be treated like Mo Yuntian, it is enough to delay the opponent for a while.

And as long as Mo Yuntian can have such an instant delay, they have a chance to kill.

For a time, a storm of black gold blades filled the sky, and the green talisman flashed, and the momentum was extremely astonishing.

boom!

Camilla's body burst out with black gold blades, covering the four directions, combined with the breath of green talisman, whistling towards Moyuntian, and at the same time a black bead appeared in his hand. This black bead Qin Chen knew that it was recorded in the inheritance of the Heavenly Poison Pill.

It was named 'Blood Poison Bead'. It was refined with the life and blood of countless fallen masters. It contained strong toxins and lethality. According to the strength of the condensed fallen masters,

Same, the power is also different.

And the blood poison bead released by Camilla, I am afraid that at least it also has the power of peak respect.

I have to say that although this Camilla is a bit arrogant and despicable, there is almost no hesitation when encountering danger. The green talisman and the blood poison bead are displayed at the same time, just to be able to control the sky for a moment.

If it can kill the opponent, it's best. Even if it can't, they can stop the opponent, and they can take advantage of this time to escape from here, without putting their lives in danger.

However, Qin Chen saw that Mo Yuntian had a sneer at the corner of his mouth after seeing Camilla releasing his hole cards one after another.

Seeing this sneer, Qin Chen instantly knew that even if the Black Gold Zerg's Camilla had all the means, it was probably not Mo Yuntian's opponent. Since the opponent dared to come so arrogantly, he must have his own hole cards.

boom!

Sure enough, at the moment when countless black gold blade storms were swept down with blood poison beads and green talisman, Mo Yuntian once again urged the black ancient bowl behind him. With a sudden sound, the black ancient bowl exuded a misty breath, and Mo Yuntian himself quickly filled with a dark cloud, which was like a mist, and instantly enveloped the people including Camilla. A bunch of black gold

The master of the Zerg. Camilla just felt dizzy in his mind, and the next moment a fierce explosion sounded. The black gold blade storm displayed by the people of the Black Gold Zerg immediately made a violent roar after being submerged in the dark cloud, and the few black gold Zerg

The venerable was suddenly hit by the black silk thread swept out of the cloud, and he vomited blood and flew out.

Whoosh whoosh! After the venerables of the Black Gold Zerg flew out, they were immediately surrounded by the masters of the Motian ghost clan that Mo Yuntian was carrying, and a cloud of ghosts swept over these venerables instantly. , Cage them all at once

Covered in the valley.

"Ah!" There was a screaming scream from the valley. These venerable Black Gold Zerg tribes were surrounded by the masters of the Sky Ghost tribe, and each one began to corrode wounds, and the whole person was covered by black roots. Silk thread penetrates the body, struggling with pain and anger

Roaring, one by one was seriously injured.

Boom boom boom! They frantically urged the black gold blade storm, trying to cut off the black silk thread displayed by these few skyscraper ghost masters, but to no avail, their black gold blade storm could not cut these black threads at all, it was just on the black silk thread

The gaps were cut out, and just for a moment, these black threads were shrouded in black smoke, which quickly made up for it. The fall is only a matter of time. Not only were these venerables of the Black Gold Zerg trapped with black silk threads by the masters of the Skyscrapers, Camilla on the other side was also unhappy. He was covered in blood, the green talisman and blood poison beads that had been mobilized before. By countless black threads

Surrounded, and the black ancient bowl was also suspended in mid-air, the black halo of continuous blooming debut enveloped Camilla.

Under the black halo diffused from this black ancient bowl, the green talisman and blood poison beads released by Camilla could not be excited at all.

Those black silk threads are increasing, with the power of the gloomy ghost race, crazily entwining towards Camilla, and Camilla can only madly spur his black gold blade storm and bombard Mo Yuntian. . However, Mo Yuntian appeared on his body with a piece of scaly armor. Camilla's black gold blade storm blasted on the armor, only making a clanging sound, leaving scars on the armor. Can't break Moyun

The flesh of heaven.

"? The inner armor on the black market auction? It actually fell into your hands."

Camilla looked at Mo Yuntian in fright. The armor on Mo Yuntian turned out to be the first inner armor of the three warm-up treasures at the previous black market auction.

Not only Camilla was furious, but Qin Chen on the side was also a little surprised. He didn't expect that this inner armor was actually taken away by Mo Yuntian of the Sky Ghost Clan. No wonder this person was so confident. The anger in Camilla's heart at this moment can be imagined. Under the bombardment of his black gold blade storm, Mo Yuntian's clothes and hair were a little messy, but his expression was extremely calm. Obviously, it was not brought by Camilla's black gold blade storm. What a hurt. "

[Chapter 3820: Pretend to be a pig and eat a tiger](#)

Camilla's face was pale, the big beads of sweat fell drop by drop, and his heart was completely desperate.

No wonder Mo Yuntian is so confident to leave himself behind. This inner armor can withstand 30% of the attacks of the pinnacle human, and he has not even reached the peak of the human cultivation base, which means that the inner armor can resist. Live his 50% attack.

In addition, Mo Yuntian's own cultivation base and strength are above him, how can he fight the opponent?

At this moment Camilla has been wrapped in countless black silk threads, and the black ancient bowl emits a black halo, which firmly traps him, and freezes his green talisman and blood poison beads, making him immobile.

Moreover, a black cloud of smoke with a piece of black silk thread in front of his eyes was slowly approaching towards the soul of his eyebrows. Camillamin knew that as long as the black thread got close to his soul, he would definitely die, but there was no way to stop it. Although he tried his best to agitate his whole body, he could only stop the black thread from advancing slowly.

That's it.

It was just a moment's effort, all the Black Gold Zerg masters who were still very arrogant before were in crisis, and their lives were unknown.

Not far away, Qin Chen's eyes flashed. He knew that Moyuntian was not weak, but he didn't expect the opponent to be so strong.

He was originally prepared to wait for the people of the Skyscraper and the Black Gold Zerg to suffer both losses, and to profit from the fisherman, but now it seems that if he does not take action, he is afraid that the Black Gold Zerg will all die.

Qin Chen flashed in his heart and made a decision in an instant. He was an extremely decisive person, and naturally knew that this was the time for a sneak attack. Otherwise, after Mo Yuntian solved Camilla, the effect of the sneak attack would be lost. At the moment Qin Chen decided to take a shot, the evil sword ring suddenly appeared on his right hand, and a vast sword aura appeared in his hand. At the same time, the whole person who had been lying down there suddenly leapt to face Mo Yun Tianyi.

Sword Madness

Come here.

call out!

A fierce sword aura suddenly appeared between the heavens and the earth, with endless terrifying murderous intent, evolved a vast divine might, and slashed down at Mo Yuntian. At the moment Qin Chen made his move, a sneer suddenly appeared on the corners of Mo Yuntian's mouth, as if he knew that Qin Chen would attack him. At the moment Qin Chen's evil sword intent struck him, Mo Yuntian suddenly turned around. An invisible ghost

Yanyun suddenly appeared in front of him, emitting a gloomy weird smile. With a bang, Qin Chen induced the terrifying sword intent formed by the evil sword ring, and slammed on the ghost smoke cloud displayed by Mo Yuntian, and the ghost smoke cloud was smashed, and the terrible sword intent unexpectedly carried Endless murderous, falling again

On Mo Yuntian's body. He heard a puff, a trace appeared on Mo Yuntian's inner armor suit, and the whole person stepped back a few steps, but it was nothing more than that. After experiencing the resistance of ghost smoke and inner armor suit After that, Qin Chen not only did not cut

Killing Mo Yuntian didn't even bring him the slightest serious injury.

This sudden scene stunned everyone in the room including Camilla.

what happened? How could that kid of the Wala clan who was severely injured by his commander suddenly burst out with such terrible fighting power?

"Huh, I can't bear it anymore? When do you think you can bear it?"

Mo Yuntian suppressed Camilla with a black ancient bowl, and snorted, a trace of blood spilled from the corner of his mouth, obviously suffering from a dark loss, but he immediately sneered, looking at Qin Chen miserably, everything in the corner of his eyes The color of mockery.

"Do you know I will shoot?"

Qin Chen didn't pretend anymore, squinted at Mo Yuntian, and said with a chuckle, not the slightest frustration at all because of his failure in the sneak attack.

He didn't expect this Moyuntian to be so shrewd. He knew he was disguising. When did he see through? Or do you mean that the other party has never believed in yourself? "Hmph, I have been suspicious from the time you were directly seriously injured by a member of the Black Gold Zerg. No matter what, you are an adult treated respectfully by the Great General of the Wara tribe. Why are you so weak? If you haven't seen your ability. It's fine, but

At the time, in the Nether Galaxy, your starship could escape safely after breaking into the Bermuda Death Triangle. I knew you were not easy. "

Mo Yuntian sneered: "To blame, I blame you for acting too much, I really can't believe it."

"But you didn't let me down. I used four points of strength to suppress Camilla of the Black Gold Zerg, and used six points of energy to pay attention to you all the time. It could hurt me, but even so, you Die to me..." Mo Yuntian just uttered a word of death, and dense black threads burst out of a cloud of smoke that was already close to Qin Chen's chest. The countless black threads were almost more than those trapping Camilla. Several times more, the palpating black

The silk thread immediately surrounded Qin Chen in the middle.

"grown ups!"

In the valley, Stabbing Sky Qiong and others, who had been trapped to death by the Black Gold Zerg, also suddenly became energetic, all of them furious. Camilla, who had escaped because of Qin Chen, stared blankly at Qin Chen and Mo Yuntian, as well as the countless black threads surrounding Qin Chen, as well as the Vara tribe who was still sluggish before, but now lives and lives. The cold sweat behind has been

It does not come out drop by drop, but flows straight down.

It turned out that when Mo Yuntian fought with them, he hadn't tried his best. Now it was his full power. With this overwhelming terrifying black thread, Camilla felt cold all over, let alone resisted.

What shocked him even more was that the guy who seemed to be only Half-Step Venerable had been pretending to be a pig and eating a tiger. He was injured in the hands of his Black Gold Zerg just by pretending. It was a pig at this time, and Camilla also understood that the reason why people pretended to be injured was not to deal with him, but to Moyuntian. From this it is obvious that the people of the Wala tribe have long discovered the traces of the Motian ghost tribe. only myself

, And stupidly regarded the other party as prey.

From beginning to end, neither of their goals were on their own side, and Camilla's heart had sunk. What a cunning Oara tribe, the Black Gold Zerg tribe was cold all over, although he knew that Qin Chen

could not hide this, but a warrior who didn't even have the breath of a nobleman was so powerful, let alone seeing it, just what he heard before Didn't listen

Having said that, it is ridiculous that he thought the other party was an idiot, but he didn't know that it was himself who was really an idiot. Several other venerables of the Black Gold Zerg clan who were still breathing on one side also looked at Qin Chen and the Wala clan in shock, and they didn't expect that they would be played around by both sides.
