[Chapter 3821: How many treasures](#)

At this moment, all the people of the Black Gold Zerg came to understand that the real stupid in the entire valley was actually their Black Gold Zerg, and they were very arrogant at the beginning to mock the Wala tribe. As everyone knows, the Wala tribe didn't take them to heart.

All the venerables of the Black-Gold Zerg have a bitter smile drawn out of their mouths, and their hearts are extremely sad and desolate. If they had known this long ago, where would they dare to ambush the Wala. It's just a pity that there is no if, they are over, not only they are over, but also a group of the Wala tribe. The people of the Motian ghost tribe have already seen through the conspiracy of the Wala tribe. It is ridiculous that the Wala tribe thought they could ambush to the skyscraper.

Ghost people.

boom!

The endless terrible black silk thread broke out, and the densely packed Qin Chen was completely swallowed in it. The black silk thread squirmed like the tentacles of an evil spirit, giving people a strong feeling of palpitation.

Camilla's heart was chilled. There were too many black threads, many times more than the black threads that attacked him. It's a pity that the kid, with a good mind, has been in ambush until now, but in the end he couldn't escape Mo Yuntian's poisonous hand. .

Boom boom boom! On the other side, the three of Stabbing Sky Qiong wanted to rush up frantically, but they were quickly stopped by the master of the Skyscraper. The master of the Skyscraper was extremely powerful. Between the shots, terrible black clouds filled, stabbed. They are basically

Unable to rush out.

Damn it. Stabbing Sky Sky and their anger, they have never felt so aggrieved in their hearts. If they were in their Wala clan camp, as long as they mobilized all the Wala clan masters to join hands, they would inevitably tear the defenses of these strong skyscrapers. Just in

Here, there are only three of them, but it is difficult even to barely protect themselves, let alone rush out to help Qin Chen.

"grown ups....."

Gu Limo and the others were worried. If Lord Demon Chen really died here, even if they returned to the camp alive, they would not be able to escape the punishment of Lord Tutian and Lord Tu Moyu, or even be exterminated.

"No, with the strength of an adult, how could he be beheaded so easily."

They stared at Qin Chen wrapped in countless black silk threads, with hope and expectation in their eyes.

"This guy is really a half-step venerable. It's ridiculous. With such a cultivation level, he dared to ambush this seat. It's just enough to let this seat take a look at who is this."

Mo Yuntian sneered, the black silk threads from the black cloud kept squirming, and the darkness of ghosts bloomed, and Qin Chen was about to be completely wiped out, but suddenly, Mo Yuntian's face changed suddenly.

"What?" He looked at Qin Chen in horror. In the black envelope, a series of terrifying auras were blooming crazily, and a flame-like aura gradually diffused from the black silk thread. And out, it's the flames of war burning

burn.

"Not good!" Mo Yuntian's eyes suddenly became extremely ferocious, and he uttered a low drink. He squeezed his fingerprints with both hands. Suddenly, more black clouds swept through his body, and one of these black clouds burst out continuously. Root of black silk thread wound around

On the black sphere that wrapped Qin Chen, he tried to stop Qin Chen's breakthrough.

Even among them, there are black silk threads like a sharp blade, piercing into the black sphere, trying to penetrate Qin Chen.

However, no matter how he urges those black threads, these black threads cannot penetrate the black sphere, as if there is something incomparably strong in the black sphere, unable to make any money. A burst of flames and war flames leaked out from the gap of the black sphere, and ignited the entire black sphere with a bang. No matter how Mo Yuntian increased the strength of the black silk thread, it could not stop this. Flame and

The emergence of Zhan Yan.

boom!

The next moment, the entire black ball burst open suddenly, and amidst an astonishing roar, a body full of flames and enveloped by war flames slowly walked out of the endlessly burning black silk flame.

"This is impossible....."

Mo Yuntian was frightened, and Camilla on the side was completely silly.

That kid was wrapped in so many black threads, and he was not dead? What kind of perversion is this?

But Stabbing Sky Sky and their hearts are ecstatic, they know that there will be nothing wrong with the adults.

At this moment, everyone's eyes in the entire valley were focused on Qin Chen in front of him, looking at the figure that was burning with war flames in horror.

I saw Qin Chen wearing a pitch-black armor all over, and on his right hand, there was a wristband. On the wristband, flames bloomed like a flame war god.

"Void Mirage Bracers!"

Seeing the wrist, Mo Yuntian and Camilla both took a breath of air. The one Qin Chen was wearing on his right hand turned out to be a phantom brace that was auctioned at the black market auction not long ago.

How many treasures are there on this kid? Normally, the more treasures on Qin Chen's body, the happier Mo Yuntian should be. After all, the greater his harvest, but for some reason, after seeing the many treasures on Qin Chen's body at this moment, Mo Yuntian's heart appeared inexplicably Came out a little

Shocked, a trace of heart palpitations, as if something bad is about to happen.

"This black silk thread is indeed extraordinary. It should contain the talents and supernatural powers of your ghost race? Unfortunately, it is too weak to deal with this seat." Qin Chen burned with war flames, the war spirit ring on his left hand and the evil spirit on his right hand. The sword rings were all urged, the flames on his body burned, and the sword intent was so fierce that he slammed into the sky with both hands. He suddenly grabbed a cluster of black silk threads in front of him, and boomed, the rapid spread of the black threads

The terrifying flames of war spread, and it burned all at once, and then was torn apart by Qin Chen under the eyes of everyone. Camilla watched this scene with palpitations, and his heart was filled with endless bitterness. At this moment, he had understood that this insignificant-looking boy of the Wala tribe was the most terrifying person. It is ridiculous that he still looks down on him, but he is actually

This person didn't put himself in the eyes at all, if the other party was willing, killing himself would definitely not consume too much effort.

"Huh, kid, don't be too mad."

Mo Yuntian roared, and in his pupils, horrible ghosts flashed, and his body suddenly filled with ghosts, spreading his teeth and claws, biting at Qin Chen frantically.

Bang bang bang!

These ghosts carried terrible auras, like ghosts crawling out of purgatory. They were ghostly, but they looked like substance. They banged on Qin Chen's body to tear him apart. Moreover, when this ghost hit Qin Chen's body, it also carried the screams of Dao Dao Senhan. These screams were accompanied by the gloomy ghost energy, constantly impacting Qin Chen's mind, making other people around him. In pain, he even attacked with soul.

[Chapter 3822: Step by step](#)

In the face of the attacks of these ghosts, Qin Chen stayed still, banging, letting these ghosts hit him, shattering on the spot, but calmly, and the shattered ghosts were still there. Qin Chen's flames of war burned, instantly turning

For the ash fly.

The endless ghosts dissipated, and Qin Chen remained motionless and unharmed.

"Impossible!" Mo Yuntian looked at Qin Chen in anger, his eyes almost bursting. This ghost attack is one of his unique skills. It is only stronger or weaker than the black silk thread before. The ghost atmosphere of the skyscraper ghost race, the most terrifying thing is the scary spirit

Soul attack.

As long as some people with unsteady minds are contaminated by ghosts, they will inevitably go crazy on the spot, and even break their souls and fall.

Even the pinnacle of human beings was seriously injured by this ghost, falling into the desperate purgatory of endless ghosts, unable to escape, but Qin Chen in front of him was unscathed, how could this be possible?

"What kind of armor are you wearing?" Mo Yuntian stared at the dark armor on Qin Chen's body. This armor was simple and impeccable, but it exuded a palpitation. Mo Yuntian didn't care too much at first, but Now he understands that Qin Chen can resist his ghost

The attack is bound to have nothing to do with this armor. However, even a pinnacle human jewel like his inner armor suit can only withstand 30% of the pinnacle's attack, and even if his ghost attack is only 70% of the power left, it can Cause damage to the pinnacle,

Could it be that the black armor on this kid's body turned out to be even more terrifying than his inner armor?

Earth Zun armor?

One possibility emerged, Moyuntian suddenly inhaled air-conditioning, his eyes blooming with faint cold light.

Unless it is the armor of the earth, it is impossible to explain all of this in front of him.

but.....

Mo Yuntian suddenly frowned again.

Even if Qin Chen was wearing the armor of the earthly respect, it should not have the previous effect. Because with Qin Chen's current cultivation base, it's impossible to fully spur the armor of the earthly respect. To a certain extent, the most suitable for a person's respect is actually the treasure of the peak of the person's respect. Real power without

Such as the peak treasures of human respect.

What is going on here?

Mo Yuntian was frightened, but Qin Chen sighed that this Haotian Divine Armor was really easy to use.

Don't look at him now, everything is because of this Vast Sky Divine Armor. This Vast Sky Divine Armor can withstand nearly 90% of the power of the pinnacle, only 10% of the power is left, and it can't bring him the slightest. hurt.

Without this Haotian Divine Armor, even if Qin Chen could withstand Mo Yuntian's attack, he would spend a lot of energy.

"It was you before, now it's my turn."

Qin Chen squinted his eyes and scanned the valley, his eyes flashed quietly. "Hmph, even if you can block my attack? With your cultivation base, you can't hurt me at all. The previous sneak attack failed can explain everything. I come and go freely in this valley, the treasure of the earth, hahaha, just I will pass this message out

, Do you think your kid can get out of here alive? "

Mo Yuntian laughed. Although he was horrified, he did not have the slightest fear in his heart. No matter how strong the defense Qin Chen showed, he could not hurt himself with the opponent's cultivation base.

In other words, even if the opponent really has something to hurt his hole cards, he can easily escape from here, and he is inherently invincible.

"The sneak attack failed? Who said my sneak attack failed?"

Qin Chen chuckled, "My sneak attack, as long as it allows you to step into this valley completely, from the moment you completely retreat into this valley, you are already a dead person."

When the voice fell, Qin Chen suddenly threw dozens of formations in his hands.

Buzzing, buzzing...As soon as these dozens of arrays flew out, a shocking array of light burst out instantly, rumbling, and the entire valley was enveloped by endless arrays of light. The trapped array Qin Chen arranged here before , Swiftly rising up with terrible formation patterns, blocked

This side of the world.

Mo Yuntian was shocked, but immediately sneered, "Huh, it's just a formation that hasn't been completely arranged, how can it trap me?"

As he said this, while violently urging the black ancient bowl, a terrifying black halo instantly swept out of the ancient bowl and plunged into the body of the Black Gold Zerg Camilla.

With a puff, Camilla's furious eyes, under the black halo, his body suddenly stiffened, the next moment, countless black silk threads, instantly penetrated his head and nailed him to death in this valley. in.

"General!" The remaining several Black Gold Zerg clan screamed in anger, with grief and anger in their eyes. However, at the moment when their minds fluctuated, the masters of the skyscraper ghost clan seized the opportunity, and the sky black smoke instantly poured into them. , Beheaded them here

.

Whoosh whoosh!

These few masters of the Skyscraper Clan didn't even glance at the dead Black Gold Zerg Clan, and quickly surrounded the people in Stabbing Sky.

"Boy, I'll accompany you to have fun."

After Mo Yuntian killed Camilla, he was finally able to concentrate all his energy on Qin Chen, and he urged the black ancient bowl to quickly suppress Qin Chen.

As for the formation Qin Chen arranged, he didn't care at all. When Qin Chen arranged the formation secretly, he had already quietly hidden aside. The formation Qin Chen arranged in a hurry, he saw it's not worth mentioning. It's just that his black ancient bowl hasn't reached the top of Qin Chen's head. Suddenly, buzzing, waves of light swept in. This light carried an endless terrifying aura, and the runes quickly moved towards the black. Suppressing the ancient bowl, he actually wanted

Forbid the power on the black ancient bowl.

I saw the black ancient bowl trembling constantly, violently shaking and struggling in the void.

Mo Yuntian widened his eyes in fright, how could this be? While shocked in his heart, he hurriedly stared at the surroundings carefully. This look made his heart cold, as if being splashed from head to toe by a basin of ice water.

I saw a terrifying array of light blooming in this valley, and the mysterious array of light gave him a feeling of dizziness. This is a difficult array without a well-arranged foundation, and it is clearly a top-notch large array.

"Impossible, I have been watching the process of your arrangement. How do I think that such a large formation can be arranged in such a short time?" Mo Yuntian screamed, his Sky Ghost Race is also considered a second-tier race in the Ghost Race. No matter how strong the formation is, he naturally has his own unique understanding of the formation. No matter how strong the formation master is, it is impossible to use a simple and unfinished formation.

That kind of power comes. "No... your formation is not only the trapped formation you set up at the beginning, but also the kill formation you set up later when you fight with the Black Gold Zerg. No, the kill formation you set up later is just a blinding method, in fact it was set up at the beginning. Supplement to the sleepy array

? "Mo Yuntian glanced at the formations around him, and the horror in his heart was really like raging waves.

[Chapter 3823: So deep calculation](#)

He finally realized that the reason why Qin Chen activated the trapped formation has such a terrifying power, in addition to the formation at the beginning, the killing formation he tried to set up during the battle with the Black Gold Zerg was actually this. Part of the formation

At the moment the formation was activated, the two formations merged instantly and perfectly merged into one.

"What a deep calculation, what a cunning kid."

At this moment, Mo Yuntian's heart was filled with endless chill, and his back was soaked with cold sweat.

He has always had a great sense of superiority. He thought he had seen through Qin Chen's conspiracy from the beginning of the battle, but he never expected that this kid would still give himself a hand when fighting against the Black Gold Zerg. set.

One ring was linked to each other, and that meticulous thought made Mo Yuntian's heart completely cold.

Is that human being?

"Kill the Wala people first."

Mo Yuntian's calm heart was slightly flustered, and there was already an unpleasant feeling in his heart, and he immediately shouted at the masters of the Skyscrapers behind him.

As long as the three of the Wala Zerg were killed and the masters of the Sky Ghost Clan joined hands, he didn't believe that Qin Chen could not be dealt with.

It's just that he had just given the order, and the big array around him finally took shape. The terrifying light with endless killing intent, turned into a light storm, and quickly swept towards the master of the skyscraper. go with.

What Qin Chen arranged was not only a sleepy formation, but also a top-level killing formation.

"Yi Xiaohuo, those guys are handed over to you."

Qin Chen gave orders to the small ants and small fires in the jade plate of Universe Good Fortune. As soon as he raised his hand, a black cloud of fire worms and gas-eater ants swept out wildly and appeared beside Qin Chen. .

"Hey, boss, these guys are handed over to us, tusk, Venerable Ghost Race, we haven't eaten it yet, I don't know if it tastes good."

Xiaoyi and Xiaohuo brought their respective armies, and they were excited when they appeared. Two black clouds swept away quickly, and together with the formation method, they wrapped the master of the Sky Ghost Race.

Tsap Tianqiong, Gu Limo, and Qi Buman seized the opportunity and quickly shot, and the two quickly counterattacked.

Damn it. The masters of the Skyscraper Clan were furious, and at the same time, they wanted to kill the Venerable Oara clan. However, under Qin Chen's formation, their cultivation base was quickly suppressed, which made them even more frightened. It's the black ghostly cloud they released, actually

However, the worms pressed by the black quickly swallowed them.

Click! Click! The little ants and the little fire urged an army of gas-depleting ants and fire-refining insects. They gnawed wildly on many black ghost clouds, and saw that the ghost clouds that originally suppressed the sky stabbing them quickly melted. At this speed, you can see a few skyscrapers

The Venerable Ghost Clan's heart was chilling.

This is the gifted magical powers of their skyscrapers, with terrifying ghost power, capable of suppressing everything. Now they are actually eaten by this group of bugs as food. Are they crazy or the world crazy?

The Skyscraper Ghost Race master who had the upper hand quickly fell into the lower wind and retreated frequently.

Not far away, Mo Yuntian's heart was also completely frightened, and he couldn't believe what was happening in front of him.

"Kill!" Qin Chen won't give Mo Yuntian any chance to relax. He pretended to be so long before, and his purpose was to get rid of the people of the Motian Ghost Race and the Black Gold Zerg. There are too many secrets in him, and he must not give any People know and pass

Get out.

boom! On Qin Chen's body, a series of terrifying sword auras penetrated the sky, the sword intent evolved from the evil sword ring turned into an endless storm of sword intent, and the war spirit **** ring on Qin Chen's left hand also burst out terrible Zhanyan, this fight between Zhanyan and the Evil Sword

Together, it forms a great sword of war that reaches the sky.

"cut!"

boom! Qin Chen waved his sword intent and slashed down frantically. Mo Yuntian's expression changed drastically, and he hurriedly wanted to spur the black ancient bowl in the void, but the black ancient bowl was imprisoned by the formation method, and was extremely slow under his urge. , Didn't wait for Gu Bo to arrive in front of him,

Qin Chen's giant sword has already been cut down.

Amidst the fright, Mo Yuntian could only roar, and endless black clouds burst out of his body, and the black silk thread that filled the sky turned into a barrier, blocking him.

At the same time, Mo Yuntian's inner armor was also glowing, and he was urged to the extreme.

boom!

The next moment, the sky-shattering roar resounded, and the sword of war spurred by Qin Chen fell down, and the endless rules bloomed, tearing the black silk threads and black clouds in the sky instantly.

The terrifying evil aura and the aura of Zhan Yan contained in Zhan Yan blasted Mo Yuntian's body with a bang.

With a pop, Mo Yuntian's body was thrown away, and he opened his mouth to spit out a mouthful of dark blood, his face pale as a piece of white paper.

There was a clicking sound, and even the sound of broken bones from Mo Yuntian's chest could be heard clearly.

"You..." Mo Yuntian looked at Qin Chen in fright, his eyes were dull, he opened his mouth to say something, another mouthful of blood spurted out on the spot, and the pain in his mind was extremely painful, this Zhan Yan attacked with a terrifying soul. , Restrain his ghost soul, make his soul

There were bursts of intense pain.

The defense of this skyscraper is really strong! Qin Chen glanced at Mo Yuntian coldly. This person was no more than the peak human respect cultivation base. Although he was better than the thousand-eyed master who was killed by himself in the black market, he was still at the peak human respect level after all. Below, just re

hurt.

I am afraid that half of the credit is due to the ancient times of the inner armor. Qin Chen looked at Mo Yuntian's inner armor suit. After he took a shot before, he clearly felt that some of his power was blocked by the inner armor suit. Otherwise, even if he couldn't kill the opponent with a single sword, it would be enough to seriously injure the opponent. Only half left

Life, how can it be like now, the other party still has enough counterattack ability. Qin Chen felt regret, but Mo Yuntian was panicked. He stared blankly at the black silk that disappeared under the flames of war. He couldn't believe it for a long time, and let him lie in all directions for so many years, and use his own mind to cultivate the blackness for so many years. The silk thread is actually in this piece

He was beheaded in an instant, he didn't even react.

Mo Yuntian looked at Qin Chen with cold eyes, and even wished to swallow Qin Chen in one bite. This time his loss was too great. Tens of thousands of years of painstaking effort were lost in one go, and his heart was even bleeding.

He had never thought that there is such a terrible Half-Step Venerable Qin Chen, the other party is really Half-Step Venerable? Or did they hide their breath by special means? If the opponent is really a half-step venerable, once he breaks through to the venerable realm, where can one go against him? Don't talk about yourself, isn't an ordinary pinnacle person like killing a chicken in the eyes of the other party?

[Chapter 3824: You will regret this](#)

This son must be killed, but it is not him who will kill him. He knows that it is impossible to kill Qin Chen now. Even now, what he needs to do most is to escape from here, and then notify the master of his clan to come. Understand one's own mind

hate.

"You will regret it..." Mo Yuntian stared at Qin Chen with cold eyes, and there was endless resentment in those eyes.

Qin Chen snorted coldly: "It's not important not to regret later, at least you can't see it..."

Qin Chen's voice fell, and immediately urged the large formation in the valley, rumbling, and a terrifying array of light instantly swept towards Moyuntian like a vast ocean.

"Just because of you, you want to be able to trap me?" Mo Yuntian roared, and almost instantly, he activated the escape technique, but as soon as he activated the escape technique, he felt the void around him suddenly solidified. , And then he saw that in this big formation, a horrible mountain appeared,

These sacred mountains turned into a terrifying formation with a lofty aura, trapping themselves here.

Originally, if it were just a simple trap, he might not be able to trap himself, but as soon as these nine absolute mountains appeared, under the double pressure, the space around him was instantly confined like a mountain.

"This is... Taikoo Sacred Mountain? You are... from Human Dayu Sacred Mountain?" Mo Yuntian looked at Qin Chen in fright. He didn't expect that Qin Chen was from Human Dayu Sacred Mountain, which belonged to Dayu Sacred Mountain. Jiujue sacred mountain, Dayu sacred mountain is also quite prestigious in the human race, it is the power of heaven, the great ancient sacred mountain formation It is even more famous, how could he not recognize it.

It's just that, how can the people of the Wala tribe collude with the Daewoo Shenshan of the human tribe?

"Daewoo Sacred Mountain, is this a member of Star God Palace?"

Qin Chen sneered. At the moment when the Dayu Divine Mountain was mobilized, 999 star cores appeared in the body. These star cores revolved wildly and instantly turned into a nebula storm, blasting towards the sky.

And at the moment when the nebula storm spurred, Qin Chen violently used the heavenly soul forbidden technique, together with the terrible war flame power, directly into Mo Yuntian's mind.

"you....."

Although Mo Yuntian hurriedly released a black shield in front of him, when the nebula storm came, his shield was blasted out instantly, slamming into the mountain not far away with a bang, tearing it apart. Opened the earth.

But Qin Chen's battle flames and soul impact had already disappeared into Mo Yuntian's mind in an instant.

Mo Yuntian's figure suddenly stiffened!

"Six Reincarnation Life and Death Sword Art!"

A sword aura appeared in Qin Chen's right hand, and in an instant, it suddenly penetrated Mo Yuntian's forehead, piercing his soul.

"what!"

Qin Chen heard a scream of magical sound, Mo Yuntian's soul was dissipating, roaring, and there was a soul power that would rush out of Mo Yuntian's mind and escape here.

It is the remnant soul of Mo Yuntian.

Venerable ghosts are extremely difficult to kill, because their souls can not only exist in the form of souls, but can even turn into resentful souls.

"Huh, nihilism fire!"

Qin Chen snorted coldly, and the endless flame of smelting spewed out, instantly enveloping Mo Yuntian's body. Mo Yuntian's body instantly burned with a raging flame, and his soul screamed bitterly and resentfully. "Unexpectedly, my Mo Yuntian will be planted here all my life... I am so unwilling, I will never let you go. Even if I become a ghost, I will not let you go." Mo Yuntian said in his eyes. With endless resentment and unwillingness, the body

In an instant, the ashes flew out, leaving only the inner armor to fall down quickly, and Qin Chen was included in the jade disc.

"Hmph, I was not afraid of you when you were a ghost clan alive. After you become a resentful soul, I will still be afraid of you? What's more, in front of me, you don't even have a chance to become a resentful ghost."

Qin Chen said in a cold voice, the Void Karma fire burned quickly, burning the surrounding space all over.

The souls of the Sky Ghost Race can survive in many forms, and Qin Chen naturally will not give the opponent any chance to rebirth, even a trace of the remnant soul will be burnt and clean.

Finally, Qin Chen took out the black market order and instantly absorbed the breath of Mo Yuntian and Camilla.

The few remaining Sky Ghost Clan guys saw Mo Yuntian die in Qin Chen's hands, and their eyes showed horror, and said in anger, "You...you actually killed Lord Mo Yuntian."

They looked frightened, one by one, they didn't have the slightest sense of resistance anymore, and those who were mad in fright were about to flee here.

Unfortunately, how could Qin Chen give them a chance to escape? Boom, a sword aura swept along with the flames of war, instantly beheading several masters of the Sky Ghost Clan and turning them into ashes.

"grown ups."

Stabbing Sky, they flew over in surprise, and their eyes were filled with incredible expressions.

What did they do? ? Killed all the people of the Skyscrapers and the Black Gold Zerg here?

This was something they couldn't imagine before.

"Don't talk nonsense, clean up the battlefield immediately."

Qin Chen snorted with a solemn expression. He did not let up because of killing Mo Yuntian. He displayed the fire of nihilism, and quickly burned all the space in this valley without leaving anything behind. Traces and breath. At the same time, Qin Chen took out the black market order and quickly

collected all the merits of all the masters of the Motian Ghost and the Black Gold Zerg, and put away the storage space and other things on the Moyuntian, including the black ancient bowl. Qin Chen earned In the jade disc of good fortune.

Poor Mo Yuntian encountered Qin Chen, and even his strongest treasure, the black ancient bowl, could not even be used, and he was killed by Qin Chen. It must be said that it was very tragic and miserable.

After clearing the battlefield, Qin Chen hurriedly collected the formations, turned around and left without leaving for a moment.

call!

In the endless void, Qin Chen quickly fled here with Stabbing Sky Qiong and others.

"My lord, the people of the Black Gold Zerg and the Sky Ghost are all dead, don't you need to be so worried?"

Gu Limo said with doubt in his eyes.

The people of the Black Gold Zerg and the Sky Ghost are all dead. Why does the adult look so worried?

"Don't talk." Qin Chen's eyes were extremely solemn, and his heart sank completely, because when he killed Moyuntian and the others and cleared the battlefield, Qin Chen had an inexplicable sense of crisis in his heart, like Is it being stared at by something?

.

Qin Chen, who mastered the way of fate and believed in his own intuition, instantly understood that he should be targeted by someone. And the other party is definitely an extremely terrifying existence, otherwise he wouldn't have the feeling of palpitations in his heart.

[Chapter 3825: This is an order](#)

Who on earth is staring at me?

Qin Chen's heart was extremely cold, and what he was most worried about finally happened.

Is it the people of the black market?

Qin Chen secretly urged his destiny, but could not calculate the origin of the other party, but vaguely felt that this person was quickly approaching him.

"We will go separately, and you will go directly to the camp of the Hui clan, but remember, don't go back in a straight line. Make a circle around this ten thousand clan battlefield, and you must hide your whereabouts."

Qin Chen solemnly said to the three of Stabbing Sky Qiong with a stern expression.

The three people at Stabbing Sky Qiong also felt something was wrong at this moment. Seeing Qin Chen's serious expression, their expressions became serious.

"My lord, what happened?"

Qi Tianqiong looked at Qin Chen nervously, Gu Limo stopped joking, his face became serious.

"We were stared at, and the other party is most likely a master of the earthly respect." Qin Chen said solemnly.

Earth respect?

hiss!

Suddenly, the eyes of the three people of Stabbing Sky Qiong showed endless horror, and there was an earthly master staring at them?

The hearts of the three of them were completely cold, the earth-sovereign, this kind of existence far surpassed their coping ability, this kind of master, let alone beheaded them, even directly broke into their camp, they may not be able to How can I get each other.

Of course, their Zerg camps are all connected to each other. Under normal circumstances, a single earth-zun dare not rush into the camp of a certain clan. If one is not careful, he will be surrounded and fall into it. Up.

"Who is the other party?"

Stabbed the sky tremblingly.

How could they be stared at by the earthly respect?

"I don't know, but I have the feeling that the other party should be watching me. You should go first, change directions, and go directly to Daying."

What Qin Chen could guess right now was that the other party was from the black market, but naturally there was no need to talk to Stabbing Sky Qiong about such things.

"No, if you do this, you will be in danger, my lord, let us go first."

Spike Sky Qiong hurriedly said.

If Qin Chen died, even if they survived, they would not escape the punishment of the dead Demon Race Master Tu Moyu, they would die.

"Listen to me, you go first. If I stay, everyone may still have a way of life, but if you stay, you will die." Qin Chenhan said, "This is an order."

Feeling Qin Chen's stern gaze, the hearts of Stabbing Sky Qiong were both moved and panic.

Qin Chen's position is clearly above them, and he should be able to order them to go to the Palace of Death and give him a chance to survive, but the other party has not done so, but is willing to attract the master of the earth. This kind of mind...

At this moment, they even had an impulse willing to die for Qin Chen. This impulse was not because of Qin Chen's status, or because of fear of being punished by the dead demons, but an impulse from the heart. And moved.

"Don't mother-in-law, go right away, get out!"

Qin Chen shouted sharply. He didn't really want to abandon himself and let the Stabbing Sky and the others survive, but Stabbing the Heavens and the others to stay. On the contrary, it was a trouble, dragging him back. Instead of this, let them go first, and Qin Chen could do better. Seize the opportunity to escape

Here.

"My lord, take care!"

They looked at Qin Chen moved, their hearts throbbed, and finally, after gritting their teeth, they turned and left here quickly.

In a moment, the three figures disappeared into the void. After seeing the three people leave, Qin Chen breathed a sigh of relief. With the concealment ability of the Wala clan in the sky, as long as the opponent is given enough time, he will definitely be able to return to the camp safely. The concealment ability of the Zerg has always been for all races. Among the top,

Otherwise, he wouldn't ambush Venerable Jueshan anymore.

"The black market?"

Qin Chen stood in the void, pondered for a moment, quietly arranged some things here, and then quickly left here.

Not long after Qin Chen left, a black-clothed man in a cloak suddenly appeared here.

boom!

A terrible aura bloomed on his body, like a god, standing proudly in the void, with cold eyes, a black ball appeared in his hand, and strange auras flowed above the ball, sensing Qin Chen's direction.

"Huh? How many guys from the Wala clan have separated?"

The black-clothed man frowned. On his crystal ball, the aura from here before diverged in this place and went in two completely different directions.

Neither of these two directions is where the Wala camp is located.

"Did you find me?" The black-clothed man sneered: "This Wala guy really has some tricks. There are traces of formations and battles in the valley, but the Black Gold Zerg and Sky Ghost Clan who followed them before The people have disappeared, for fear they have already swallowed them

Right? Now even the deity can find it, no wonder that one will let me follow it up, it seems that this favor is not easy to pay back! "

The expression in the black clothed man's eyes bloomed coldly, he urged the crystal ball, and after a while, he had already locked the two breaths of leaving separately.

"This one should be where the Wala Zerg master left, and this one should be the direction where the fellow followed by the Wala Clan left..."

The black-clothed man's tracking method was extremely extraordinary, and he found out the direction in which Qin Chen and the Wala Zerg were leaving.

"The Nawara tribe is just an ordinary race among the Zerg. There is nothing worth tracking. The key to this team should be the mysterious guy who is not the Wara Zerg."

The man in black sneered, put away the crystal ball, and immediately followed Qin Chen in the direction where he left.

Suddenly, he stopped and raised his hand. From the void not far away, he actually took out a black formation.

"Monitoring the array?"

The black-clothed man's eyes condensed, and then he saw the black disc exploded in his hand with a bang at the moment he took it out, and the ashes disappeared.

The black-clothed man's eyes suddenly became cold, and the corners of his mouth immediately sneered.

"Interesting, really interesting, it seems that this guy did find my tracking, and also set up a monitoring array, even I couldn't find out the first time."

"It's really getting more and more interesting."

The black-clothed man sneered at the corner of his mouth, shook his figure, and quickly rushed towards the place where Qin Chen had left.

He wanted to catch Qin Chen more and more now, and take a good look at who this mysterious guy was, and it would interest that one, which is not common.

"Sure enough, the masters followed me."

In the void hundreds of thousands of miles from here, a screen appeared in front of Qin Chen's eyes. The screen was the last picture captured before the surveillance array blew up. Qin Chen's eyes suddenly became cold.

[Chapter 3826: Find a way](#)

This master of the earthly respect is covered by a black cloak, and it is impossible to tell which clan he is from, but the aura on his body undoubtedly indicates that this person is an out-and-out master of the earthly respect.

"that one?"

Qin Chen frowned. From the murmur of the man in the black cloak before, Qin Chen heard that the other party should have followed someone's instructions before following him, in order to return the other party's favor.

Are they in the black market?

Qin Chen had some doubts. According to the truth, if the people of the black market follow oneself, with the power of the black market, there is no need to ask anyone at all. It is by no means trivial that the black market can establish such a terrifying power in the dark universe. One

When Tianzun came, Qin Chen would not be surprised at all.

It's just that because Tianzun rarely appears in the battlefield of ten thousand races, it is extremely difficult to see it.

But the person in front of him was shrouded in a cloak, but relying on the information transmitted by the monitoring array, Qin Chen had some doubts whether the opponent was sent by the black market.

But if it was not sent by the black market, who sent it?

Qin Chen thought in his heart, but couldn't guess the true identity of the other party for a while.

"It doesn't matter, whether this person is sent from the black market or not, to follow me secretly, and also to discover the situation in the valley before, this person is absolutely uneasy and kind."

Qin Chen didn't care to think too much, his figure fled into the void, and quickly swept toward the depths of the ten thousand race battlefield.

His heart was extremely cold, and various methods appeared in his mind, thinking about how to avoid the other party's tracking. Now Qin Chen, the Wala clan's camp must never go. First of all, the other party knows the identity of the Wala clan. If he returns to the Wala clan, this person will inevitably take the risk and break into the camp to capture himself. , The current Yiwala

Strength, even if the whole army is dispatched, it can't resist a master of earthly respect. Although there are other zerg camps around, the zergs are not so friendly after all. In fact, there is fierce competition between the zergs. When the other zergs receive the news and report to the high-level officials, they may decide to come to rescue.

This person had already killed the Wara tribe army and suppressed himself.

The Zerg camp cannot go, and for other ethnic groups, Qin Chen does not have any identity tokens of any ethnic group. Once he rushes in, he will definitely be arrested as a spy.

Unless you break into the Human Race camp and expose your Human Race identity. But in this way, his identity was completely exposed. At present, I don't know what this person's identity is. When he knows that Qin Chen is a human race, but can deceive the Wala tribe, he can naturally guess something. The important thing is that

Once the news reached the ears of the Demon Ancestor, Qin Chen would be really dangerous. In the four heavens, there is still the rear of the human race. It is not easy for the Demon Ancestor to kill him, but once the Demon Ancestor knows that he has come to the battlefield of the Ten Thousand Races, send a master of the Demon Race to surround him, unless Qin Chen can stay there. Work in Heaven and other top human race

In the strong camp, otherwise it is impossible to escape death.

Therefore, the Human Race camp is absolutely not allowed, and Qin Chen absolutely cannot reveal his Human Race identity.

Is there any other way?

Hiding in the jade disc of good fortune in the universe?

The Universe Jade Plate is a small world, one dust and one world, one leaf and one bodhi.

Although Qin Chen could enter the Universe Jade Plate and hide in the void of this world, he still didn't know what the role of the black crystal ball in the opponent's hand was, and how to lock himself in.

Once oneself hides in the universe of good fortune jade disc and hides in a certain void, but the other party can still lock his position, it will be troublesome. Qin Chen was not sure whether he could discover the mystery of the Universe's Good Fortune Jade Disc with the strength of the other party's Earth Venerable. If he searched the void bit by bit, he found the location of the Universe's Good Fortune Jade Disc. Na Qin Chen

It's really over.

Qin Chen couldn't be sure how terrible a small world containing a unique world would appeal to a master in this universe. Naturally, he could not take such a risk.

For a while, various thoughts flashed in Qin Chen's mind, trying to find a solution, but all kinds of methods passed, but there was no perfect solution. Qin Chen's heart suddenly became anxious. In his mind, the feeling of danger was always looming. It could be seen that the other party was following him all the time, and quickly approaching, Qin Chen was not sure when the other party could track it.

On yourself.

"Let me think about it, calm down and don't panic."

Qin Chen squinted his eyes, forced himself to calm down, and his heart sank into silence.

"First of all, with my current strength, although it may not be an opponent of the earthly respect, it is not completely without a trace of resistance."

Qin Chen took a deep breath.

Although the master of the earth is terrifying, the current Qin Chen possesses the mysterious physical technique of the Haotian Divine Armor, the inner armor, the six reincarnation sword bodies, and the nirvana crystal stele. It is not easy for any master to kill him. .

What's more, Qin Chen also has time rules and other means. It's just that a method like the time rule cannot be used easily. After all, although Qin Chen is not the only one who masters the time rule in this universe, after all, the number is not all, the more exposed, the easier it will be for others to think of himself.

.

There are only a few ways to escape the chase of masters under normal circumstances.

I have to say that Qin Chen is the kind of person who encounters a crisis, not only will not have any panic, but will become more and more calm.

The more critical the situation, the more calm he became, and his mind was sharper and more empty than ever.

"The first one is to find strong support."

This is the easiest and most direct way to be hunted down.

As long as there is a master to help stop the incoming enemy, the crisis will naturally be solved.

It is a pity that after Qin Chen pondered carefully, he gave a wry smile. In this vast battlefield of ten thousand races, he could not find the slightest support.

Qin Chen thought of the three of them at the moment if he could resist the master of the earthly respect for him.

One is the **** cat, this guy is so fascinating, there may not be a way for him to escape the chase of the earth.

But the **** cat didn't know where it was now. He came to Qin Chen every time, and Qin Chen couldn't find him.

The second one is Lord Jinlin of the Monster Race. This is the kind of help Qin Chen can find. Although Qin Chen and Jinlin are only one side, he has a feeling that Jinlin is definitely the kind of person who is willing to help himself. .

However, that Jinlin was a master of the monster clan, and he didn't know where he went after leaving the Eastern Heaven Realm. Even on the battlefield of ten thousand clan, Qin Chen could not find him.

The third is the work day. This is the most suitable method. It is a pity that the camp where he worked that day was extremely far away, not to mention that Qin Chen didn't have a direct means of contacting heaven for work. Even if he had it, distant water could not quench his thirst.

[Chapter 3827: Casual repair camp](#)

Therefore, this method was directly eliminated by Qin Chen.

With Qin Chen's current situation, it is difficult to find strong support!

Then, we can only use other methods.

And there are many other ways, such as breaking into some dangerous forbidden land, similar to the void sea of the Void Tide Sea, making the other party jealous and afraid to break in. This method often carries a big crisis, because although entering the forbidden land can get rid of these masters, but the forbidden land that the masters of the earthly masters dare not enter, how can ordinary people easily survive? This is a way to put the dead and live after , Nine deaths

lifetime.

After all, it's not that every time I am lucky, I will be as good as in the virtual sea.

Qin Chen swiftly scanned the jade slips on the jade disc of good fortune in the universe. This jade slip recorded some forbidden grounds and camp maps near the battlefield of the ten thousand races, which Qin Chen bought from the Wala tribe and the black market.

"Forbidden area, is there any forbidden area..."

Qin Chen scanned the jade slip map, but his heart sank. There are many dangerous places in the battlefield of ten thousand races, and there are naturally some nearby.

However, either the location is extremely far away, or it is not enough to make the masters of the earth respectable jealous, but will put oneself in a desperate place.

Naturally, this method is not acceptable.

"Ok?"

Suddenly, Qin Chen saw a mark on this map.

"That's... the mark of the camp."

Qin Chen pondered. He remembered that when he got this map, Thorn Sky Qiong had said that there was a casual repair camp of the Human Race Alliance here.

The so-called casual repair camp is the camp that accommodates many casual repair personnel of the Human Race Alliance.

On the battlefield of ten thousand races, forces like Tianzhu, the Star God Palace, and the ten thousand demons mountain range of the Yao race naturally all have their own camps. They unite together to fight on the battlefield of ten thousand races. But in addition, there are some ordinary forces in the Human Race Alliance, ordinary races, such as Zhuge Family, Yaomei Mansion, etc., or races like Buyi tribe. These forces and races often do not have top masters, and the strongest ones are no more. Is half step

Person, or an ordinary Venerable.

After they came to the battlefield of ten thousand races, naturally they could not form an army on their own.

Therefore, they generally have two choices.

The first one is to join a certain top power and become a vassal of that top power. For example, Ji Wuxue and other masters of Chendi Pavilion joined Tianwork and fight under Tianwork's system. This has one advantage, that is, safety, but there is also another disadvantage, that is, it is not free and not taken seriously. , The most bitter

Tired work will always be theirs. Chendi Pavilion is okay. Although it does not belong to Tiangong, it has a good relationship with Tiangong. It will not be sent to be cannon fodder. But other forces may not. No matter which top force these loose repair forces rely on, they basically Will be

As cannon fodder, you will suffer, and I will take credit.

Unless you have experienced countless tens of thousands of years, and gain a foothold among the top powers, changes will be possible.

This has also caused many forces to be unwilling to join these top forces, so they have a second way out, which is the casual repair alliance.

All race forces can join the camp of the Human Race Sanxiu Alliance. Here, there is no absolute ruler. All forces are equal. They can act freely or collectively. The exploits obtained will naturally belong to them, which is equivalent to forming a large plate of scattered sand.

military.

The disadvantage of this kind of camp is that the degree of unified command is not high, and it is even strong from many races such as human, monster, wing, giant.

But the advantage is that everyone is relatively free, and there are also masters.

Although it is a casual repair alliance, it is also a member of the human race alliance. Naturally, the human race alliance will not allow any of them to fall easily, and will send some masters to take the seat.

The personnel in these camps are extremely mixed, and they don't even know each other. The tokens they hold are also tokens issued by the Random Repair Alliance, not tokens of various races.

Like the Lions, Tigers and Demon Lords when they came to the battlefield of ten thousand races, they wanted to join this kind of casual repair alliance.

"This is it."

Qin Chen's eyes condensed, revealing a hint of joy, as long as he enters this casual repair camp, he might have a ray of life.

However, the Sanxiu Alliance still has a long way to go from its current position. The top priority is how to safely reach the Sanxiu Alliance.

In addition, to join the Sanxiu Alliance, you must also have an identity. Although the identity of the human race is fine, it is easy to expose yourself.

"Monster!"

Suddenly, Qin Chen glanced at the heart of the druid in the jade disc of good fortune in the universe, and his eyes were clear.

As long as you refine the heart of the druid yourself, you might be able to evolve the monster race and blend into the team of the monster race. At that time, no one would ever want to connect with Qin Chen.

As soon as he thought of it, Qin Chen immediately took out the heart of the druid. A terrifying force of nature slowly penetrated into Qin Chen's body. Boom, Qin Chen felt that he and the world seemed to merge into one. A natural breath is surging. "No, in this way, the natural aura is too strong. If the opponent is a person in the black market, he will naturally know that I have sold Druid Heart. Once I feel the natural aura, I will disguise my identity as a monster. A slight flaw.

"

Qin Chen frowned and looked up at the sky.

"Yes!"

boom!

Qin Chen was in the shape of electricity, and directly plunged into the annihilation storm above the void of the ten thousand race battlefield.

Rumble!

Between heaven and earth, terrible storms of annihilation turned into thousands of mile-long angry dragons, roaring and raging frantically, and the atmosphere of destruction was shaking the earth.

"Refining the heart of the druid in this annihilating storm, the endless power of destruction can easily wipe out any breath on my body, not only can make it difficult for the other party to track, but also can easily wipe out the natural breath on my body. "

With surprise in Qin Chen's heart, he was instantly submerged in the annihilation storm, and he kept flying towards the sky, entering the more terrifying depths of the storm.

Ho Ho Ho!

One after another, huge extinguishing storms roared and roared, really like the end of the day.

This kind of place is already in the depths of the obliteration storm, and even the pinnacle of the people dare not break into it easily. Once it is caught by some top obliteration storm, it is not necessary to be seriously injured.

But Qin Chen was not afraid. He directly urged the Haotian Divine Armor and submerged in the obliterating storm. The endless storm washed over him, but was blocked by the Haotian Divine Armor by 90% of its power.

Finally, when the extinguishing storm that Qin Chen penetrated deep into this place was enough to bring a slight threat to him, Qin Chen stopped and flashed at such a height.

"I don't believe it. The earth-sovereign who chased me could also ignore the annihilation storm here." Qin Chen's eyes were cold, and the remaining 10% of the might, although it made him a little troublesome, could not stop him from flying by.

[Chapter 3828: Analyze nature](#)

Whoosh!

In the void of the endless extinguishing storm, a figure quickly flew by, it was Qin Chen.

He held the heart of the druid in his hand and felt the power in it, and the natural mood continuously poured into his body.

What a unique feeling?

Qin Chen was shocked.

This druid's heart is very peculiar. When Qin Chen is completely integrated into it, it seems to be integrated with nature, a sense of heaven, naturally manifesting in his mind.

This is the process of understanding nature.

At this moment, Qin Chen seemed to be in a vast natural world. Between the sky and the earth, there were vines spreading. On the ground, there was endless green grass. In the center of this world, an ancient tree that stretched to the sky rose into the sky.

This is a natural world.

"where is this place?"

Qin Chen was shocked, this place gave him an extremely beautiful feeling, making him even have an urge to stay here and never leave.

wrong!

I am feeling the heart of the druid.

Suddenly, Qin Chen seemed to have something in his mind, rumbling, and the world began to shake.

All natural scenes are beginning to fall apart.

call!

Only then did Qin Chen wake up, and he was still swiftly moving in the annihilating storm.

so close!

Qin Chen was shocked. At that moment, he was completely immersed in the natural breath of the Druid's Heart and fell into an epiphany. If he can't break free, then he will be nourished by the natural breath in his epiphany, and he will have new insights and progress in the perception of heaven and earth, but he will never be able to integrate the heart of the druid into the body and get a natural transformation. of

Features.

"If you want to master the natural transformation, you must refine and absorb the heart of the druid, rather than simply consume it."

"break down!"

Qin Chen took a deep breath and urged the Book of Origin in his body, booming, and suddenly, the Book of Origin began to shine, decomposing the structure of the Druid's Heart.

Qin Chen's mind was extremely nervous.

The heart of a druid is very peculiar, it is the treasure of the druid family, how can it be so easily broken down.

This is also one of the reasons why the former Demon Race could not gain the ability to transform into the Demon Race after getting the Druid Heart.

"It must be successful."

Qin Chen clenched his hands tightly, extremely nervous.

A trace of the power of origin merged with the heart of the druid, rumbling, Qin Chen's book of origin vibrated, and the pages of the book began to shine, and the endless power of origin flowed in it.

However, in this book of origin, there is no natural civilization at all.

"No way?"

Qin Chen's eyes were unwilling. Couldn't even the Book of Origins dissolve the civilization of Druid's Heart?

It should not be.

No matter how strong the heart of the druid is, it is only the treasure of the druids. The book of origin of the year, even the dark power of the dark civilization can resolve part, will it not be able to decompose the heart of the druid.

"I was too anxious."

Qin Chen took a deep breath. After all, the Druid's heart is extraordinary. If he wants to analyze it thoroughly, it may not succeed naturally, and he must proceed gradually.

what can we do about it?

Qin Chen pondered for a moment, suddenly his eyes brightened.

"There is a way."

Qin Chen took a deep breath, a green leaf and a green talisman suddenly appeared in his hand.

These two treasures were obtained by Qin Chen from the Black Gold Zerg before. They both came from the Druids, but they were much weaker than the Druid's heart, so they were left for their own use, but now they just fall into In Qin Chen's hands.

"First, I feel two things, let the book of origin first analyze the civilization in it, step by step, and finally break down the heart of the druid."

Qin Chen did what he said, and his mental energy quickly merged into the green leaves.

Hum!

An invisible force of nature began to flow around Qin Chen.

At the same time, Qin Chen urged the book of origin and began to feel the natural mood in it.

A stick of incense.

Two sticks of incense.

Three sticks of incense.

Gradually, green lines began to appear in the book of origin.

A trace of nature remains in the book of origin.

"Success?"

Qin Chen was agitated, and his breathing swiftly rose instantly. The Book of Origins was analyzing the structure of the green leaf at this moment, and began to leave natural civilization on it.

As long as the natural aura on the green leaves can be completely decomposed to form a natural civilization, then oneself will have the opportunity to deeply analyze the power of this druid's heart, and finally, gain the ability to transform naturally.

Qin Chen immediately settled, and while fleeing quickly, he felt the breath of the green leaves.

When Qin Chen fled quickly.

In the endless storm of annihilation.

Whoosh!

A black figure exuding a sense of coldness suddenly appeared in the void.

"This kid, actually entered the annihilation storm?"

Perceiving the power of annihilating the storm around, the eyes of the man in black were scornful, as well as cold.

"It's ridiculous, do you think you can avoid being tracked by this seat by hiding in this extinguishing storm?"

A black ball suddenly appeared in the hands of the man in black. Above that ball, a halo of mist surged, and obscure lines and aura appeared.

"Hmph, no matter where you run, you never want to get rid of this seat's tracking. It's kind of interesting. It's a bit interesting to be able to survive in the annihilating storm. Now this seat is more and more interested in you. I don't know which race is it? Demon race? Or another race?" The black-clothed man put away the black crystal, and with a bang, his figure was directly submerged in the endless annihilation storm. One of the thousands of miles-long annihilation storm surged towards the black-clothed man. Yiren sneered and blasted out a punch directly

The storm of annihilation burst into nothingness.

Boom boom boom!

He was in the shape of electricity, shuttled through the extinguishing storm, and quickly approached Qin Chen.

Hum!

I don't know how long it took, the green leaf in Qin Chen's hand suddenly disappeared and turned into nothingness.

In the book of origin in Qin Chen, a page of natural civilization began to emerge, but it was not very obvious. This green leaf can capture the natural breath, and it can be regarded as a treasure of the venerable. The Black Gold Zerg relied on this thing to easily track them up to the sky, but now it is completely absorbed by Qin Chen and directly turned into ashes. And where

The rules of the book are turned into civilizations in the book of origin.

A piece of precious treasure just disappeared, but Qin Chen had no regrets in his heart.

"carry on!"

Qin Chen took out the green talisman, and suddenly, on top of the green talisman, aura appeared and began to blend into Qin Chen's body.

In the book of origin, natural civilization becomes clearer.

I don't know how long it took, this green talisman was completely absorbed by Qin Chen.

call!

The natural aura surging in Qin Chen's body, and the natural civilization in the Book of Origins is almost completely taking shape.

"Now, it's time to analyze the heart of refining druids." Qin Chen took a deep breath, his eyes revealed the spirits, and began to refining the heart of druids again.

[Chapter 3829: True Dragon's Might](#)

Refining the heart of the druid again, Qin Chen did not have the slightest worry or tension in his heart.

In the book of origin in his body, a page of natural civilization has been born. Therefore, when Qin Chen felt the heart of the druid again, just touching the heart of the druid, Qin Chen already had a kind of heart in his heart. Inexplicable Ming Wu.

"Transform nature, evolve and transform."

Qin Chen murmured, he urged the origin in his body, booming, the vast origin in Qin Chen's body was still surging, entwining the heart of this druid, a misty natural breath that directly connected to the origin of the universe, once again enveloped Qin Chen.

Entering this state again, Qin Chen did not have the urge to fall into the epiphany at the beginning. In his perception, the natural aura in the Druid's heart was very profound, giving him a kind of face to endless The sense of nature.

A trace of natural breath continued to melt into Qin Chen's body.

Bang bang bang!

Qin Chen's heart kept beating, and after this power was incorporated, the natural breath began to penetrate every corner of Qin Chen's body.

The Magic Tree of Ten Thousand Worlds!

God tree! Qin Chen urged the two great treasures in the Universe Good Fortune Jade Plate at the same time. The Ten Thousand Worlds Demon Tree is the tree of origin of the demons, and the Heavenly Dao Divine Tree is one of the ten source treasures of the heavens. Both of these treasures are trees The form also contains the nature of heaven and earth

source.

The combination of the three makes the heart of the druid in Qin Chen's hand more radiant.

call out!

In the end, the Druid's heart slowly penetrated into Qin Chen's body, and then turned into a green trickle, flowing into every cell of Qin Chen's body.

Rumble!

At the place of Qin Chen's dantian, the Book of Origins quickly read, and a green light bloomed, and the chapter about natural civilization finally took shape.

"This druid's heart has been refined, but what about natural transformation?"

Qin Chen's eyes condensed, and his heart sank.

Did it fail?

Or?

Qin Chen suddenly sensed that this natural aura was flowing throughout his body, but there was no sign of him turning into a monster race.

Could it be that after being absorbed by the outsider of the Druid's heart, there is no natural transformation effect?

Qin Chen's heart sank completely.

"impossible!"

Soon Qin Chen shook his head, his eyes blooming. If it's just an ordinary treasure, it may be interpreted incorrectly, but this is the heart of the druid, a treasure that went on a black market auction, and even the demon has used this item, that is to say in the demon. In the eyes of the black market, this thing is indeed

It has the effect of natural transformation.

As for the demons and the black market, one is the top race in the universe in this era, and the other is one of the top forces in the universe today.

How could something that these two major forces admit were false?

Is there another reason?

Wow!

At this moment, in Qin Chen's body, the Book of Origins quickly flipped through, and various civilizations were surging, but when the Book of Origins flashed to a certain civilization, Qin Chen's body of natural aura had an impulse.

This impulse was very weak, but Qin Chen felt it keenly.

"this is....."

Qin Chen's gaze condensed, his eyes lit up suddenly.

"True Dragon Civilization..."

There was a flash of light in Qin Chen's mind, as if he had understood something in an instant. When he was in the Tianwu Continent, he had a sense of dragon energy. Later, in the heaven trial ground, he killed countless dark and violent flood dragons and evolved the civilization of flood dragons. Later, in the east heaven, he refined the dragon king island master. , Got the ancient dragon

The blood has evolved a true dragon civilization.

This also caused Qin Chen to have a faint dragon aura in his body. There was a faint dragon aura in his body. Although it was extremely subtle, it did exist.

But at this moment, this dragon aura actually resonated with the natural aura formed by the druid's heart.

"The dragon clan was one of the monster clan in ancient times. In fact, it is understandable to call the dragon clan a monster clan."

Qin Chen's eyes flickered, "It's just that the Dragon Race was too strong and formed a unique race, standing proudly outside the Demon Race, and becoming a top race in the universe."

"But no matter what, the dragon clan is a branch of the demon clan, which was supposed to be in the ancient times. At the beginning of the universe, the dragon clan was the leader of the demon clan."

"Could it be that if you want to get the incarnation of nature, you must have the blood of the monster race in your body, so that this is possible?"

The more Qin Chen thought about it, the brighter his eyes became, and the more likely it was.

"If I say that, if I want to incarnate nature and gain the ability to transform, I must combine the true dragon civilization with this natural civilization, and use the natural breath of the Druid's heart to evolve the true dragon aura?"

Do what you think.

Qin Chen immediately surged the true dragon energy in his body.

boom! A misty real dragon breath began to surge on Qin Chen's body, and at the moment when this real dragon breath appeared, the terrifying natural force in Qin Chen's body quickly changed, and, This force began to change

The Saint Yuan aura in Qin Chen's body.

Roar! The singing of a real dragon appeared in Qin Chen's body, and then Qin Chen was shocked to see that on his body, solid scales began to emerge, exuding a metallic luster, and the original aura in the whole body unexpectedly slowly Turned into reality

The breath of dragon, a breath of dragon clan overflowed from Qin Chen.

"Sure enough."

Qin Chen's eyes were shining, and at this moment he finally understood why the Demon Race could not transform into a Demon Race by using the Druid's Heart. Because this druid heart cannot evolve a person without the aura of a monster into a monster at all. It can only allow a foreign race with even a trace of a monster or natural aura to transform this breath. Then highlight

The characteristics of the family.

Qin Chen urged the Druid's heart. On his body, scaly armor appeared, and his claws became extremely sharp, and dragon horns appeared above his head.

"Unfortunately, I am just a pseudo-dragon clan, not a real dragon."

Qin Chen's heart sank.

The real dragon is the real dragon. The most obvious difference between him and some of the monster dragons of the monster is the real dragon.

This druid's heart can only transform Qin Chen's own Saint Yuan into the power of the dragon, but Qin Chen is not a dragon, but only absorbs the blood of the real dragon, unable to evolve the real dragon.

This is a flaw.

"Ok?"

But suddenly, Qin Chen was shocked to discover that a faint dragon power radiated from his origin.

this is.....

Qin Chen looked over with excitement, and immediately discovered that a faint dragon might emanate from every cell of his own, and true dragon aura surging from the essence of genes.

"It's the gene power transformed by the cultivation technique on the Nine Destruction Crystal Tablet. This gene power gave birth to the real Longwei." Qin Chen felt intently, his eyes shocked.

[Chapter 3830: Void Blockade](#)

At this moment, Qin Chen's body was filled with the power of real dragons, and the whole figure was like a real dragon.

Long Wei, this is indeed Long Wei.

Qin Chen's eyes were shocked.

According to the truth, he is actually not a real dragon. The dragon aura in him is all the civilization power he gained after absorbing the blood of countless dragons and true dragons.

Even if the true dragon essence and blood were truly integrated into his body, as long as his ancestors did not combine with true dragons, it would be impossible to evolve the dragon power that true dragons can also possess.

Because this dragon power represents the true identity of a true dragon, and can be distinguished from the monster coercion of those flood dragons and Yalong.

But now, Qin Chen really showed the dragon power of the real dragon, which made him not shocked.

"Nanjing Crystal Stele, what kind of treasure is this thing, can it evolve into a real dragon?"

Qin Chen stared at his body carefully, and immediately discovered that every cell and every gene in his body radiated a faint real dragon, and it was the change in this gene that made him completely evolve into a real dragon. identity of.

Roar!

Qin Chen roared, and suddenly, the heavens and the earth's dragons roared, Qin Chen felt that he was covered with dragon clan scales, and his whole person had completely transformed into the appearance of a dragon.

Take the sword bone as the basis and become a real dragon with claws.

Qin Chen urged the six reincarnation sword bones in his body. Suddenly, above his sharp claws, a terrifying sword aura rushed into the sky. This was six swords auras, blending into the sharp claws, emitting endless and terrifying sword light and aura.

Even Qin Chen felt that his physical body had a deeper release in the process of transforming into a dragon, even stronger than that of his own body.

"The body of the dragon race is more suitable for combat. In terms of defense, the weakest monster race is far more terrifying than ordinary human warriors of the same level."

This is the natural truth of the heavens and the earth. The monster race is far inferior to the human race in the sense of profound meaning, but in the flesh, it generally surpasses the human race.

Qin Chen was excited, stimulating the civilization and sword energy in his body. Suddenly, on his scales, the laws of swordsmanship filled out. Each dragon scale of Qin Chen represented a sword of swordsmanship, making him scale. Jia all uttered a sonorous sword cry.

"puff!"

Qin Chen waved his hand, and immediately, the dragon claws slammed into the sky, and directly blasted a 10,000-mile-long obliteration storm not far in front of him into nothingness.

"Good, good!"

Qin Chen was excited, and his heart was full of joy. Now he can turn into a real dragon, can't he go there? Even if he directly broke into the Yaozu camp, he would not be suspected.

Even if he could, he could constrain the dragon's might, pretending to be an ordinary flood dragon, and lie in ambush among the demon clan more deeply. Harmony is also something that many real dragons like to do. Real dragons belong to the dragon race. This is a special race in the universe. It kills in number but is extremely powerful. This also causes many races to be interested in the dragon race and want to absorb their essence. Blood, force

the amount.

When many real dragons are walking in the universe, they will incarnate as ordinary monster dragons, with the goal of not being too eye-catching.

Close!

The aura in Qin Chen's body converged, and immediately, heavy dragon power was absorbed into his body. Immediately after that, the dragon scales and dragon claws on Qin Chen's body disappeared, and the whole person once again changed into the appearance of a human race.

The power of nature in his body is lurking in every cell and gene. As long as Qin Chen is willing, he can directly incarnate into the dragon clan at any time.

"go!"

boom!

With excitement in Qin Chen's heart, he shot directly towards the casual repair camp not far away.

"Ok?"

It was just that he had just left this area of annihilation storm, and suddenly, Qin Chen's face changed drastically.

"That is....."

Qin Chen looked up.

Buzzing buzzing...I saw that in the endless world in front of me, bright rays of light spread rapidly, endless bright rays of light burst out continuously in the void, intertwined with a large dense web, These rays divide into two, divide into four, divide into four

Infinity, in an instant, it wrapped the tens of thousands of miles in the void.

"No, it's a void blockade!"

Qin Chen's heart sank, and suddenly, Qin Chen's body seemed to be plunged into the mud, and he felt as if he was struggling.

A strong sense of crisis suddenly emerged in Qin Chen's mind.

"boom!"

In the endless void, a figure walked coldly across the endless world.

"Boy, are you a mouse? You run really fast, but unfortunately, no matter how you run, it is impossible to escape from the palm of your hand."

A rumbling sound reverberated between the sky and the earth, like a landslide and a tsunami, and the entire area of the annihilated storm was rumbling and trembling.

"It's the one who chased me down."

Qin Chen's heart sank. He never thought that this earthly master could be so strong that he could even catch up with him in the world containing this endless storm of destruction.

The strength of this person is simply unfathomable.

"go!"

Qin Chen's eyes were cold, and the rules of the space moved, swish, his body was like a swimming fish, flying quickly towards the endless light.

Chi Chi Chi Chi!

Qin Chen's body saw the needles, flying crazily in the dense bright light, and wanted to escape before the light closed.

"Quick, fast!" At this moment, Qin Chen's mind was quieter than ever, and his will was highly concentrated. Although he had never used the rules of time, the rays of crazy healing in front of him seemed to slow down in his sight. Generally, the blockade of space,

There are cracks and gaps.

Space blockade is not an easy task. When you reach the master's cultivation base, you have an amazing understanding of the mastery of space. It is actually extremely difficult to completely block a master's escape route.

Under normal circumstances, people will use sea tactics and formations to blockade.

Just like when Qin Chen and the Wala tribe dealt with Venerable Jueshan, they used the vast array of voids to encrypt and densely squeeze them. More than tens of millions of the Zerg tribe army blocked all parts of the world.

And when he slaughtered the Black Gold Zerg and the Sky Ghost in the valley before, Qin Chen also secretly set up the Void Array, and after several arrangements, it took shape.

Now, although this man in black is extremely powerful, it is almost impossible to block the world in an instant, unless his attainments in space reach an astonishing level.

Otherwise, he can only use the countless rays of light to continuously block the void until the entire void is blocked. As for Qin Chen, he must escape from here before this endless light is completely formed, otherwise once he is trapped in the opponent's space blockade, it will be completely over.
