[Chapter 3861: A piece of scale](#)

boom! boom! boom!

The masters of the three teams displayed their mighty attacks at the same time. The attacks released by each of these eight powerhouses were like meteorites falling to the ground, vast and boundless, and the bombardment made the river of sword energy violently shake.

But the river of sword energy has never been shattered. In Qin Chen's body, the true dragon's energy is running to the extreme, and the magical powers of various origins are instilled into the river of sword energy, so that although the river of sword energy fluctuates violently, it has never been directly destroyed. .

As long as they can't blast through the sword qi river at once, then Qin Chen can repair the spent sword qi river in the first place.

"Damn it!"

"Why is this guy's defense so strong?"

"We can't break through for a while together?"

The eight masters of the prison tribe, the Raksha tribe, the bone tribe, and the giant rock tribe were all shocked.

"Everyone urged the soul to attack together, and I won't believe it anymore."

The skeleton wolf of the Bone Race roared. They can perceive that if they keep attacking, Qin Chen's sword aura will inevitably be unable to hold on, but they don't have much time, and they must cut before Qin Chen gets the black armor pieces or another master arrives. Kill Qin

Dust, hide the treasure.

Hum! Suddenly, these masters roared, and their bodies surged with terrible soul fluctuations, rumbling, these soul fluctuations quickly condensed together, and then turned into a vast ocean, gathered together, and slammed towards Qin Chen. Seat

Roll out.

"Hmph, I don't believe that this guy can block the soul attacks of so many of us."

The skeleton wolf of the Bone Race roared.

boom! I felt this terrible soul attack, and suddenly blasted above the river of sword aura. The river of sword aura was a material attack. Although it could also block some soul attacks, it only consumed 10 or 20% of it. Most souls

The attack penetrated the river of sword energy, and fiercely bombarded Qin Chen.

"Haotian Divine Armor!" At the critical moment, Qin Chen urged the Haotian Divine Armor instantly. He must not allow the opponent to break through his own soul defense. Although he may not be able to kill

him, as long as Qin Chen stagnates for a moment, the sword will flow. Collapse, when the opponent's attack,

Then he could take the opportunity to penetrate and attack Qin Chen's body.

Boom! A fierce armor instantly filled Qin Chen's body. It was the Vast Sky Divine Armor. The Vast Sky Divine Armor was blocked by the long river of sword aura. Therefore, experts such as the Bone Race outside only felt a vast breath coming out, but they didn't know what happened. What they

The soul attack on display was instantly weakened by 90% after entering the Haotian Divine Armor.

As soon as the last 10% of the soul attack entered Qin Chen's soul sea, it was instantly annihilated by Qin Chen's soul power, and it did not cause him any harm.

"blocked?"

The Bone Race and others looked shocked.

how can that be? Their eight pinnacles failed to break Qin Chen's soul defense. Even if they did not break, as long as Qin Chen's soul was stagnated for a moment, and the control of Jian Qi Changhe made a momentary error, they could use material attacks. hurt

Harm Qin Chen.

But who had thought that after his soul attack hit Qin Chen, it was like a stone sinking into the sea, without any waves. When the eight pinnacles outside were jointly bombarded by Qin Chen, they couldn't help Qin Chen at all. At this moment, Qin Chen's eyes fell on the black armor piece, and saw that the black armor piece finally emerged from the ground, following directly. Suspended in the air, and scattered

Send out the aura of ancient times.

"This is... the scales of some kind of creature?"

Qin Chen was stunned. At this time, he was shocked to see what shield was the black armor, it turned out to be a scale.

This scale is obviously from some kind of ancient creature. As soon as it appeared, the chaotic breath of the sky surged, forming a vast wave in this heaven and earth, and then this scale was completely silent and turned into an extremely ordinary black armor. sheet.

"Chaos aura...Is this the scales of some kind of chaotic creature in ancient times?"

Qin Chen took a breath of cold air. If so, it would be terrifying. It was just a scale. After hundreds of millions of years, it still possessed the aura and power of the earth-sovereign level. Then what level was this ancient creature before his death?

Tianzun?

Or something else?

Hum!

Qin Chen urged the power of the soul and couldn't control so much. He roared, the power of the soul instantly poured into the black scales along with the power in his body, trying to imprint the mark of life in it.

A trace of Qin Chen's soul power quickly penetrated into the black scales, his life imprint was directly imprinted, and he succeeded in acknowledging the Lord.

"Huh? It really isn't some kind of refined earthly treasure."

Qin Chen's eyes condensed, because in the black scales, Qin Chen only felt the power of the incomparably strong chaos, but there was no message of this treasure.

It should be noted that under normal circumstances, once any unearthed treasure is sacrificed, information will inevitably be passed on from it, and there is no information transmitted by the black scales, so there are only two possibilities.

One is that this black scale is just a small part of a treasure, not the core, so there is no message in this black scale.

The other is that the black scale is just an ordinary scale, not a treasure made by sacrifice, and there will be no information left behind.

Qin Chen is more inclined to the second possibility.

"Boom!" "Boom!" "Boom!" "Boom!" "Boom!" "Boom!"

A total of eight pinnacles from those three teams were attacking frantically, bombarding Qin Chen's sword energy long river again and again, also interrupting Qin Chen's thinking.

Whoosh!

With a move of Qin Chen's mind, the black scales instantly shrank and merged into Qin Chen's body, turning into a scale covering Qin Chen's body.

It fits perfectly.

It seemed to have been transformed into the dragon scales that Qin Chen had originally grown, and the dragon scales on Qin Chen's body quickly filled with a layer of chaos.

Wow!

The sky full of sword aura converged, and Qin Chen stood on the sword aura in an instant, naturally revealing his figure, as well as the scene in the valley.

The eyes of the eight peak people who had besieged Qin Chen before all showed disappointment.

"Damn, the black armor was taken by that kid."

"I have already acknowledged the Lord."

"Damn it, after spending so long, I got nothing."

The eyes of the masters in the three teams were angry and unwilling, but also disappointed.

Before Qin Chen could put away the black armor piece, they were unable to break through Qin Chen's defense together. Now this kid has obtained the black armor piece treasure. If he wants to get the treasure, he must kill Qin Chen. .

This made the three teams feel a little desperate. It must be known that they had joined forces before and could not break Qin Chen's defenses for a while. It can be seen how terrifying Qin Chen's defenses are, and the other party wanted to escape, they couldn't stop them at all.

[Chapter 3862: Chaos Progenitor](#)

"This real dragon guy is really lucky."

The guys from the Bone Race and the Giant Rock Race gritted their teeth and said that they were only a little bit slower than Qin Chen, but they had lost the opportunity to get the treasure.

However, let them leave directly, they are also extremely unwilling.

"Trap him, just wait for more masters to come, this son will definitely not escape!"

The guys from the Bone Race and the Giant Rock Race quickly flew over, and the Prison Race and the Raksha Race obviously had the same mindset as the Bone Race and they quickly surrounded Qin Chen.

"Hmph, the treasure has already been obtained by me, so these guys still want to fight with me?"

Qin Chen's eyes were cold, and murderous intent surged in his heart. These guys had been attacking himself before. It was naturally impossible to say that Qin Chen didn't have anger in his heart.

Since they were looking for death, Qin Chen naturally didn't mind fulfilling them. The reason why he was besieged and beaten by these people before was only because he could not be distracted, but now, why is Qin Chen afraid of them?

Boom!

This mighty river of swords, like a sword dragon, circled Qin Chen continuously.

The eight pinnacles are all stunned. Does this real dragon guy want to fight one against the eight? Endless anger surged in their hearts instantly, and Qin Chen's actions looked down on them too much.

The eight masters burst out terrifying auras.

"Ok?!"

But at this moment, Qin Chen's expression suddenly changed, and he saw a terrifying breath flying across the sky in the distance.

"It's a master of earthly respect!"

The Eight Great Pinnacle Masters turned their heads in shock, and saw a magnificent figure in the distance approaching quickly. This was a tall figure, which quickly caught Qin Chen from a distance.

boom!

A big hand covering the sky was pressed down like a canopy.

"It's Jufeng Earth Zun!"

Qin Chen's eyes were cold, his luck was too bad, and he actually met this guy in such a place.

Regardless of attacking the Bone Race and other strong people, Qin Chen's figure shook, and directly turned into a streamer and flew towards the depths of the Vientiane God Hidden.

"Hmph, true dragon clan boy, where to escape, you pretend to be the Yalong clan, mix into my casual repair camp, and leave it to me!"

Jufeng Dizun shouted angrily, a big hand came to the top of Qin Chen's head and shot Qin Chen down. Under that big hand, Qin Chen suddenly lit up with misty black rays, and suddenly a chaotic aura lingered. Outside Qin Chen's body, a vacant black scale armor emerged. It was Qin Chen who had just received the black armor piece. Suspended in Qin Chen

Before you.

boom!

The palm cover of the Jufeng Earth Venerable fell, and it blasted on the black armor plate, and the black armor plate suddenly roared and rumbling, and even forcibly resisted the blow of the Jufeng Earth Zun, and then Qin Chen's figure shook and disappeared here. Fang Tiandi.

"what?"

Jufeng Dizun looked furious, Qin Chen actually blocked his attack?

Whoosh!

He shook his body, and he had already come into this valley.

Eight pinnacles, including the Bone Race, the Giant Rock Race, and the Prison Race, gathered together in an instant, looking at the Jufeng Divine Guard with a vigilant look.

Jufeng Dizun looked at the Bone Race and other masters with cold eyes, and said coldly: "What happened here just now?"

The faces of the experts such as the Bone Race changed slightly, and the strong man of the Giant Rock Race said: "A black armor supreme treasure appeared here just now, most likely it is the supreme treasure of the earth, but that supreme treasure was taken away by the kid of the true dragon race. "

"Black Armored Supreme Treasure? Could it be the previous Black Armored Phantom?" Jufeng Dizun was shocked, no wonder he was able to withstand his attack. It was astonishing to be the Divine Supreme Treasure. Yes, it must be the Earth Zun Supreme. s attack?

Whoosh!

Jufengdi respectfully couldn't say anything, his figure shook and disappeared suddenly, and he quickly followed the spot where Qin Chen had disappeared before.

Seeing Jufeng Dizun leaving, the expressions of the many powerhouses present eased.

"The black scale armor..."

At this time, a master of the prison clan frowned and thought, and suddenly, a shocked expression appeared in his eyes, "It's that thing, it looks very similar, yes, it's it..."

The prisoner master's eyes lit up. First, he used the power of the venerable to completely isolate the surroundings, and then said to the other two prisoner masters around him: "Venerable Jiu-hyun, did you see clearly just now? That black armor piece, yes Not like a scale armor?"

"Scaly armor?" One of the prison masters with many long beards on his chin pondered slightly, and nodded immediately: "It is indeed the appearance of a scale armor."

"It looks like a scale armor, and it also has a chaotic aura. I suspect that what the real dragon guy got before is most likely the scales of the chaotic ancestor beast in the Vientiane God Store." The prison master said in a deep voice.

Chaos ancestor?

The two prison clan masters next to him were taken aback, and their eyes suddenly became round.

Especially the beard of the long-bearded prison master suddenly flew: "The legendary chaotic ancestor?"

Chaos Ancestor Beast is a collective term that represents the powerful existence born from the chaos at the beginning of the opening of the universe.

Such as Zulong!

These powerful beings that were born from the chaos and possess the power of chaos are all called chaotic ancestors. The chaos ancestors once ruled the universe for a period of time when the universe was just opened in countless epochs.

But later, more and more races and powerhouses were born between heaven and earth, and many chaotic ancestors gradually disappeared between heaven and earth. Even after hundreds of millions of years, the treasures of chaotic ancestors are completely hard to find. Up.

However, this Vientiane God Treasure is an extremely perfect secret realm preserved in the universe. Here, there is a great possibility that the treasures left by the chaotic ancestors will appear.

Such as the scales of the Chaos Ancestor Beast. Because the Chaos Ancestor Beast was born in the chaos that opened up the universe, it is a treasure, even a hair, a bone, and a scale. It is a treasure in the outside world, not only because it is extremely powerful, but also because it contains the heaven and earth.

Pi, the artistic conception of the universe.

"That black armor is the scale of the Chaos Ancestor Beast?"

The masters of the prison clan glanced at each other and were shocked. This is indeed possible.

"Go, this news must be delivered to the adults in the clan as soon as possible."

The three masters of prisoners shook their bodies and quickly left here.

As soon as the prisoners left, the powerhouses of the Raksha, Bone and Giant Rock tribes frowned. They also discovered the abnormality of the previous prisoners.

"The prison clan seems to have recognized the origin of the black armor pieces that the true dragon clan got before."

"Is that black nail piece unusual?"

The masters of the Raksha, Bone, and Juyan all frowned in thought. Suddenly, they all thought of a possibility, and their eyes suddenly stared.

Qin Chen was fleeing quickly in the Vientiane God's possession.

"You must first find a place to break through the Venerable."

Qin Chen felt the Jufeng Divine Being constantly tracking behind him, his eyes cold. As long as he breaks through the earth, how can he be afraid of the great peak?

[Chapter 3863: Venerable Vortex](#)

In the void, Qin Chen flew madly, he knew that the Jufeng Earth Venerable would definitely follow him behind him, and he would never allow the Jufeng Earth Venerable to leave him behind.

Although Qin Chen was extremely confident of his own strength, he also knew that he was definitely not an opponent of the Earth Venerable now, all because he had not broken through the Venerable. The power in his body is still the power of the Holy Origin. Although Qin Chen already possesses the aura of a venerable because of his profound understanding of the artistic conception of transcending the heavenly realm, he will never be able to achieve harmony without stepping into the venerable and not completely surpassing the heavenly realm. Antagonism

.

Just the terrifying realm that the earth respect can form, in such an environment, he cannot win. Of course, it is also very difficult for a general respect to kill him. After all, Qin Chen's defense is absolutely abnormal, but in this Vientiane God Treasure, there are noble masters everywhere, if he is in other places, he still has to escape. Chance, but in this Vientiane God's possession, he

Once left by the Jufeng Earth Venerable, the fluctuation of the battle will immediately attract many Venerables.

Just like the previous treasures were born, there will be strong gatherings constantly, as long as Qin Chen is trapped, it will inevitably fall into the siege of the sage, even if it can withstand the attack of the Jufeng Earthzun, it will fall to others. Under the master of the earth.

Whoosh!

Qin Chen kept moving in, vaguely feeling a strong sense of threat behind him, his figure was like electricity, and a strong coercion kept falling on him.

This is because as Qin Chen entered and continuously entered the depths of the Vientiane God Treasure, the oppression of the Vientiane God Treasure became greater and greater.

"That Jufeng Earth Venerable, he still followed?"

Qin Chen kept moving inward, but although the sense of threat behind him had weakened, he could always follow him closely, so that Qin Chen did not have time to stop and practice retreat.

In the void behind Qin Chen, a terrible aura radiated from that Jufeng Earth Venerable, and an invisible force continued to diffuse out, covering the entire void.

"Huh, how do I see that kid escape this time?"

Jufeng Dizun's mouth outlines a sneer, and his eyes shine.

Although Qin Chen left the valley for the first time, with the speed of Jufeng Earth Venerable, coupled with his Void Peeping into the Sky, Qin Chen could be locked firmly. As long as Qin Chen could not escape his sight instantly, he would decide. Can't be lost by him. "I was chased by the Kryptonites in the black market, but I was able to escape safely and conceal my identity as a true dragon. I joined the Sanxiu camp as the Yalong Clan, and after leaving the Sanxiu camp, he could escape in such a short time. My nihilism is great

Fa, this child must have a big secret..."

Jufeng Dizun's eyes were faint and excited.

Not to mention, Qin Chen had also obtained a piece of earth-sovereign supreme treasure before, that emptiness of scale armor, phantom, can withstand his strong blow, if this thing is obtained by him, he will definitely be able to hide in this Vientiane God China's life-saving strength has improved a step.

"Boy, flying away, you can't escape the palm of this seat."

Jufeng Di Zunhan said with a faint voice.

"This Jufeng Earth Venerable is really difficult."

Qin Chen flew quickly under the gloomy barren sky, his expression ugly. He could feel that the Jufeng Divine Venerable has been locking himself in with a certain secret method, and there are many strong people in this Vientiane God Treasure. If he keeps running like this, not to mention being chased by the Jufeng Divine Venerable. Found by other masters and trapped

Into crisis.

"You have to think of a way."

Qin Chen's eyes were cold and his thoughts turned. He still had many methods, but once some methods were used, they would definitely be exposed when the body appeared, which also caused Qin Chen to think of no good methods for a while.

Fortunately, the pressure in this Vientiane God Treasury is extremely huge, and the strong earth-sovereign can only fly like this, unable to catch up to himself for a while.

"Huh? That's..."

Just as Qin Chen was anxiously thinking of a solution, suddenly, Qin Chen saw a strange wave of nothingness in front of him.

These void ripples, with strange auras, gave Qin Chen a vague feeling of seeing the river of time again.

"This is... the time flow area?"

Before entering, Qin Chen had also studied the Vientiane God Store. It is rumored that the Vientiane God Store is very peculiar. The flow of time in some places will be different from that of the outside world, suddenly and quickly. This also forms some special existences that contain the power of time. This kind of place is extremely dangerous. Even the masters of the earth will not dare to enter easily. After all, the power of time is extremely special. Some places seem ordinary, but they contain time vortex. Once you enter, the flow of time is countless times lower, and people will instantly

Experience birth, old age, sickness and death, five declines of heaven and man, and even fall on the spot.

Too many things like this happen.

But Qin Chen's eyes brightened after seeing the power of this time. "The power of time can conceal all power. No power can last forever under time. The Venerable Kyoho used the secret method to lock my position, but as long as I enter this area where the flow rate of time changes, his secret method will be complete. lose

effect. "

Whoosh!

Without hesitation, Qin Chen directly rushed into the area with a strange time flow in front of him.

In the next moment, Qin Chen immediately felt the years flowing through his body like running water, and he felt that he felt as if he was passing by from birth to growth, adulthood, old age... and even death.

Qin Chen was shocked, he didn't know if he would really die once he died in this place.

No wonder this place is extremely dangerous, and even the princes generally dare not enter easily. Qin Chen is always vigilant and urges the origin of time. This is his trump card and the confidence that he has just broken into this dangerous place. He who has the origin of time is safer than the place where he is. Once in danger, he Run the first time

Because of time, there may be a chance to escape.

Fortunately, when Qin Chen was frightened, a feeling of time recovery came. Qin Chen felt relieved. He knew that he had entered the time flow area and had not entered the dangerous time vortex.

Qin Chen's spiritual sense swept out immediately, and found that his spiritual sense could only sweep within a thousand miles at most in the time flow area.

Not only was he not surprised, but he was overjoyed. Under this situation of divine consciousness suppression, even if the Jufeng Earthzun followed in, it was impossible to find his location.

At this moment, he did not dare to stay in place. As soon as he entered the time flow area, Qin Chen swept toward the depths again, and Qin Chen also specifically swept toward some places where the time aura was more terrifying in the sense of time origin. . This is definitely a way of holding his head in his hands. Not to mention that this place itself is dangerous, and more importantly, the more terrifying the time aura, the more likely there is a time vortex. If Qin Chen accidentally breaks in, he will definitely die in nine deaths. .

[Chapter 3864: Retreat breakthrough](#)

Qin Chen had nothing to do. He knew that the Jufeng Earth Zun would definitely catch up, and ordinary places couldn't stop these powerful people.

Of course Qin Chen also has his own reliance. He believes that even if he falls into the time vortex, as long as he activates the source of time for the first time, and then enters the universe of good fortune jade disc, he should be safe and sound.

Moreover, after Qin Chen entered the time lapse area, he directly urged the Thousand-Year Light, and his body seemed to turn into a beam of light to shuttle through this area.

At first, Qin Chen did not urge the Thousand-Year Light, because he was afraid of being seen by Venerable Jufeng. After all, the other party kept staring at him with secret methods, but after entering the time flow area, Venerable Jufeng's secret method was immediately interrupted . After several successive flying and changing routes, an hour later, Qin Chen came to a relatively deep and dangerous place in the time lapse area, and then found a mountain forest, escaped into the soil under a huge ancient tree, local,

Qin Chen arranged a concealment prohibition, and then he began to sit cross-legged and began to practice hard in retreat.

In this time flow area, it is difficult for the divine consciousness to release a long distance. Unless the Venerable Kyoho comes to his retreat and finds his location, it is absolutely impossible to find his trace in a short time. .

When Qin Chen entered the deep underground retreat, Venerable Jufeng also quickly came to a certain place where Qin Chen turned in the last few turns in the area of the flow of time.

This place is only tens of thousands of miles away from Qin Chen's retreat.

Qin Chen didn't know that Venerable Jufeng had found a place so close to him. If he knew, he would definitely not dare to stay under the ancient tree, and would definitely continue to escape.

In Qin Chen's thoughts, the various time auras in the time flow area are vertical and horizontal, and the spatial fluctuations caused by his flying are extremely weak, even if it is the respect of the earth, it may not be found after a while.

But in fact, they found it, and the difference was only half the time. The spatial fluctuations caused by Qin Chen's thousand-year light flying flow are extremely subtle, and in this time flow area, it will completely disappear in a moment. After Venerable Jufeng chased a place tens of thousands of miles away from Qin Chen, he finally lost it completely. Qin Chen

Of the trail.

He has been standing here for a long time, and his spiritual sense even carefully searched the nearby underground? However, he did not find a trace of Qin Chen.

"Damn, I didn't expect a time lapse area to appear here. This kid is really brave. He dares to run rampant in such a place and go deep into dangerous places."

Venerable Jufeng's eyes were cold, and his heart was annoyed. If it were not for this time flow area, Qin Chen would have been captured by him.

"Hmph, this kid must be in a place not far from here. This place is so dangerous. Unless he wants to die, he will never enter the place with the most dangerous time flow. I don't believe you can escape."

After searching for a moment with the divine sense of Jufeng Dizun, he actually spotted a direction and chased it down again. The first time Qin Chen entered the ground, he checked his lifespan and physical condition. The moment he entered this time flow area, he felt as if his life was completely lost. Now he is stable, of course.

Check the first time.

After several inspections, Qin Chen was sure that his body had not suffered much damage, and even Shouyuan had not been damaged at all, and he was relieved.

It seems that the feeling of the passing of years is just the characteristic of this area, but in fact his life has not been lost because of it.

What surprised Qin Chen was that after staying here, he unexpectedly discovered that the origin of time in his mind was actually absorbing the power of time around him. The improvement of the origin of time is an extremely long process. Although Qin Chen has mastered the rules of time, but can use and control the origin of time, he has not improved much. He can only use time to imprison a moment.

.

This was not only because Qin Chen didn't have a deep grasp of time rules, but also because the time origin in Qin Chen's body was not strong enough.

But now, the origin of time is actually absorbing the power of time between heaven and earth, and it is increasing at a speed visible to the naked eye, which surprised Qin Chen's heart.

"This place is definitely an excellent place to improve the origin of time and practice time rules."

Qin Chen sighed, but now he does not have much time to understand the rules of time, but the first time he perceives the black scales in his body. I didn't feel it well before, but now Qin Chen is shocked to feel that these black scales are extremely extraordinary. In addition to their strong defenses, they also contain a trace of chaos. That's all, Qin Chen even felt an inexplicable universe.

power.

"This thing is extraordinary!"

Qin Chen took a deep breath. Although he didn't know what the black scale armor was, this thing definitely came from an extremely powerful existence, at least this thing was extremely terrifying during his lifetime.

It's a pity that Qin Chen doesn't have much time to study this black scale armor. The most important thing for him now is to break through the realm of the venerable.

Hum!

The dragon scales on Qin Chen's body gradually dissipated. He condensed the energy of the Druid's heart and returned to the human state.

"let's start!"

Qin Chen first took a day to adjust his state, and waited until his state was adjusted to the extreme, he took a deep breath. Countless prohibitions began to be laid out in this underground. After a few days of work, a terrible forbidden formation was formed. Only then did Qin Chen take out the terrifying holy veins of the venerable from the jade disc of fortune in the universe. To this place

.

Rumble!

Each of the sacred veins of the venerable is like a giant dragon, exuding the terrifying aura of the venerable, but under the confinement of the current velocity area and the forbidden formation at this time, the terrible aura of these sacred veins of the venerable has not escaped at all. .

After that, Qin Chen began to take out one after another pill, swallowed it into his belly, and began to operate the Nine Star God Emperor Art, allowing himself to enter a state of enlightenment.

In Qin Chen's body, the gurgling half-step Venerable Peak's Saint Yuan flow, although like the Yangtze River, there is always an invisible barrier that restricts the promotion of this Saint Yuan, let alone a direct breakthrough.

Qin Chen knows very well that his Nine Star God Emperor Art is too terrifying. If he wants to break through, he is a hundred times, a thousand times, or even more than an ordinary half-step venerable. In addition, his accumulation is far inferior to those who practice countless numbers. The half-step Venerable of Wannian. Of course, Qin Chen was already far above those half-step venerables in terms of the venerable's perception, and even compared to some peak humans, he was not weak at all.

[Chapter 3865: Breakthrough Venerable](#)

Rumble! Between the world and the earth, a wave of chaotic air lingers in. Although the flow rate area is terrible at this time, the chaotic aura here has become more and more intense. Perhaps it is because almost few people enter here. The chaotic air here is particularly strong.

. In addition, Qin Chen also urged the black scales in his body. Above those black scales, the aura of chaos was permeated, a kind of universe opened up, and the breath of primitive chaos was surging, giving Qin Chen a feeling that this thing made him break through. Realm, there must be huge

s help.

Rumble! Qin Chen urged the Nine Stars Divine Emperor Art, and he swallowed the pills one by one into his body. For this day, Qin Chen waited for too long and too long, and he was also extremely prepared. Those surrounding the holy veins continued to Pour into his body and nourish Qin

Dust's body.

call! A large amount of Venerable Qi entered Qin Chen's body. The speed at which Qin Chen absorbed the Venerable's Holy Vein was simply too amazing. In just half an hour, a whole Venerable's Holy Vein seemed to have been evaporated by a fire. Furiously gather to Qin Chen

, Was directly absorbed into the body by Qin Chen. This speed of absorbing the saint veins of the Venerable is simply too abnormal. If other Venerables see it, it will be stunned. Although Qin Chen is not even the Venerable, the speed of absorbing the saint veins is faster than that of the pinnacle. Terrible, even compared to the average

The gods are only strong but not weak.

How could he contain so much energy in his small body?

Qin Chen's physical body has been transformed by the six reincarnation sword roads, and it has long since become extremely tough and tough, and with the genetic improvement of the Nether Crystal Stele, each of his cells contains endless space, which can swallow a large amount of the power of the venerable.

The hundreds of millions of cells in Qin Chen's body were like a hungry beggar, devouring a large amount of the power of the venerable madly. Gradually, after Qin Chen's physical body absorbed enough power of the venerable, a kind of transformation began to take place, and the power in Qin Chen's body also began to surge like the ocean, surging crazily, the breath of the venerable, Start in Qin Chen's body

Emerging from the body.

This is a feeling of being above the realm of heaven. Heavenly Dao is majestic and powerful, but at this moment Qin Chen feels like he is gradually standing on top of the heavenly path. The so-called heavenly path is a trace of the will of the heavens. It contains some rules of the universe, but it is not a complete universe. Yes

A slight manifestation of the origin of the universe on the level of rules.

The Venerable can transcend the realm of heaven, it is only the power of the rules in the heavens, not the **** of the entire universe.

If you really want to transcend the shackles of the universe, even the supreme can't do it. Only the existence of transcendence in the legend is possible.

But this is still far away from Qin Chen. Qin Chen slowly sunk into new insights. In his body, various civilizations appeared. These civilizations came from all over the universe and also came from various races in the universe. It also made Qin Chen's understanding of heaven deeper and gradually touched. To the Lord

That layer of barriers. When Qin Chen's cultivation base touched the barrier, before opening the barrier, Qin Chen suddenly shocked all over his body, and his spiritual consciousness formed waves of ripples around him, and then an elusive momentum was slow. Extend slowly to the periphery

Get out. This is the embryonic form of the Venerable Realm. Qin Chen immediately understood. He did not expect that he had touched the embryonic form of the Venerable Realm before he was promoted. This was much stronger than the space constraints he had felt before, Qin Dust is forgotten

In order to touch the estrangement of the Venerable's cultivation base, he concentrates on stretching his domain.

The venerable surpasses the heavenly realm and surpasses the heavenly realm, so it will naturally form its own rules. Although this kind of rule is above the heavenly realm, in fact, it is still under the operation of the universe.

Just like the human race, what is detached is the way of heaven.

The Demon Race, detached from the Demon Realm's way of heaven.

Nether Clan, what transcends is the heaven of Nether Realm.

But no matter which realm it is, it operates under the rules of the universe.

Even so, once you break through the Venerable, you can form your own way, even form your own rules, and evolve a world and a domain.

Basically, the level of human respect is just a little insight into this field, and few human respectable masters can release their own field. However, the masters of the earth will have a deeper understanding of the rules and the ways of the universe. At this level, it is very possible to display the field, such as the black-clothed man of the Krypura tribe in the black market. Space blockade is the knot

In accordance with the characteristics of their family, the spatial domain formed.

Once its own unique domain is formed, the strength in combat will naturally change astonishing.

This is also one of the reasons why the master of the earth respect can crush the master of the human respect.

Now, Qin Chen unexpectedly discovered that he had never broken through even the venerable, but his own domain was already about to be realized.

This made Qin Chen excited.

call!

In this field, various rules are surging.

In the domain, various rules can be operated, but any venerable person, in order to make his strength scary enough, the domain formed will be his strongest rule.

However, Qin Chen possessed several powerful rules.

Space field?

Time field?

Thunder field?

Or the realm of swords?

No matter what kind of field it is, once it takes shape, it will inevitably be invincible and terrifying.

boom!

Each pill was swallowed by Qin Chen, and the venerable sacred veins were absorbed by Qin Chen, and the divine light fish obtained in the Nether Star River were also refined by Qin Chen.

one day!

Five days!

A month!

Three months!

For several months, Qin Chen retreats under this ancient tree. His physical body has transformed and improved at an astonishing speed, and the power of the venerable in his body has continued to condense, finally...

One day, the strength in Qin Chen's body finally reached a critical point.

Click!

Qin Chen seemed to hear something broken in his body. The next moment, rumbling, the whole world shook, Qin Chen danced all of a sudden, and his long hair flew in the wind.

Wow! In this world, the power of infinite time was actually attracted, and it crazily entered Qin Chen's body, and within a radius of 10,000 miles, the power of the chaos in the sky was instantly absorbed by a trace, and it was quickly in Qin. Dust top formation

After a whirlpool, he crazily entered Qin Chen's body.

A breath that surpassed the heavens was completely released from Qin Chen's body.

boom!

The sky and the earth were shaking, and the power of time was permeating, Qin Chen's whole person was like a god, suspended in the ground, as if a behemoth had awakened.

Happiness!

In the surrounding forbidden formations, all the holy veins of the venerable were shattered, and the power of the venerable madly poured into Qin Chen's body, completely transforming the power of the venerable half-step inside Qin Chen into the power of the venerable , Flowing like a vast ocean.

Lord! After numerous hardships, finally broke through!

[Chapter 3866: Terror Thundercloud](#)

call! When Qin Chen broke through the Venerable, the entire Vientiane God Treasure shook in an instant, rumbling, in the sky of the Vientiane God Treasure, terrible chaotic auras lingered in the sky, these chaotic auras madly suspended in the sky. Above, like

A dark cloud was formed.

Moreover, more and more chaotic auras condensed, and the dark clouds continued to circulate and rolled, forming a terrible vortex between the heaven and the earth.

This vortex was completely dark, slowly rotating, and constantly expanding, like an abyss of purgatory. In the end, it formed a terrifying vortex with a radius of 100,000 miles.

Click! Qin Chen was shocked. At this moment, Qin Chen felt as if he was locked in by an extremely terrifying aura. From the whirlpool, a pressure that shocked the world lingered, and this pressure directly fell on Qin Chen's body makes Qin Chen all over

There is a feeling that the soul is about to explode on the spot, and the soul is scattered.

"This is... Heavenly Tribulation?"

Qin Chen was shocked.

how can that be? Martial artist breaking through the venerable belongs to beyond the realm of heaven. If you break through from the outside world, under normal circumstances, you will be madly suppressed by the heaven. Qin Chen has already understood this. Only by truly holding the suppression of the heaven can it be regarded as real. ultra

Yuetiandao.

But in this Vientiane God Treasure, it belongs to the ancient land. The universe opened up where the heavens and the earth are at the beginning. It is difficult to pass in the power of ordinary heaven and earth. Here, the operation of heaven and earth is still in accordance with the laws of the original universe. Therefore, breaking through here, the oppression of the martial artist by the heavens will be extremely subtle. It can be said that any half-step venerable who can enter the Vientiane God, breaking through the realm of the venerable here, the difficulty will become extremely low. Ten Thousand Races Ten times easier.

Not to mention being able to absorb the primordial breath of the primitive universe, the Qi of Chaos. This has also led to the fact that the Vientiane God Store was supposed to be a place for some earthly statues to impact the realm of the heavenly statues, because the birth of a heavenly statue can bring tremendous help to a group of people, and even enhance the status of the group in the universe, so many

Once the race has a quota, it will allow the masters of the earth to enter the race, the purpose is to give them the opportunity to break through the realm of the sky.

But for some top races, such as the human race, demons, monster races and other forces, there are many places, so they will also specially set out some places for their half-step venerable Tianjiao. If it is said that the top half-step Venerable Tianjiao of these races may take thousands of years, or even tens

of thousands of years, to enter the realm of Venerables on the battlefield of ten thousand races, then once entering the Vientiane God Treasure, the time it takes will be A hundred times, a thousand years, Even ten thousand times.

But I have never heard that breaking through the Venerable in this Vientiane God Treasure will attract heavenly thunder?

Rumble!

Above Qin Chen's head, the terrifying power of chaos condensed, and the billowing thunder light surged. In the dark whirlpool, it seemed that there was lightning that destroys the world.

This thunder and lightning locked Qin Chen firmly, and directly blasted Qin Chen into nothingness.

"how come?"

Qin Chen was shocked. At this moment, his entire body was erected, and under the thunderous breath, he even had an illusion that he would be crushed on the spot and his soul exploded.

Qin Chen had a feeling that if the force of thunder fell, he would definitely die, and he would be crushed on the spot.

Boom!

Between the world, thunder and sensation, thunder blasted.

Almost at the moment of the explosion, the black vortex above his head surged violently, and Qin Chen faintly saw that in the black vortex, the endless thunder light bloomed, really like a sea of thunder, about to blast out from it.

However, this shocking power only appeared in the depths of the endless vortex, as if in another world, but did not blast down, unable to break through the barrier of the black vortex.

"No, these thunderous oceans are not in the Vientiane God Treasure at all, they seem to be outside the Vientiane God Treasure..."

This time Qin Chen saw clearly that the terrifying power of thunder was not formed in the Vientiane God Treasure, but inside the black vortex, the black vortex directly led to the Ten Thousand Races battlefield world outside the Vientiane God Treasure.

What Qin Chen didn't know was...

At this moment, the battlefield of all races outside the Vientiane God Tibet is already in chaos.

"what is that?"

In the battlefield of the ten thousand races outside the Vientiane God Tibet, the strong men of all races hide in the endless void. They are the leaders of all races, sitting here, waiting for the masters and geniuses of all races to come out after the completion of the Vientiane God hiding. For these top-level beings at the Celestial Level, it's a century or a thousand years, but it's just a matter of a few seconds.

Although the opening of the Vientiane God Treasure is long, for these giants, a time of retreat or yawn will end. They

It is necessary to ensure that the strong and geniuses of their own race will not be attacked and killed by the strong opponents of the race after the Vientiane God Treasure is closed.

This is a practice and a tradition that has continued for many years.

In addition, at the same time that the Vientiane Divine Reservoir is opened, a terrible secret realm will be formed in the world of the battlefield of ten thousand races. This secret realm will carry the powerful aura that escapes from the Vientiane Divine Reservoir and form a unique chaos. field.

The Vientiane God Treasure is very cherished, and the number of places is scarce. Among the ten thousand races, the number of Tianjiao who can enter it is limited. Therefore, the ten thousand races will let the rest of the genius of their own tribes enter the external secret realm formed by the Vientiane God Treasure for experience.

People in this secret realm have the opportunity to enter the Vientiane God's Treasure, and even if they can't enter, they can still get a lot of gains.

But at this moment, the world was shaking violently, and in the sky of the ten thousand races battlefield that had always been calm before, a series of terrifying black thunders appeared.

"what is that?"

The endless black thunder rolling, forming a vast world of thunder, rolling over the entrance of the vortex of hundreds of millions of miles formed by the Vientiane God Treasure, it seems that terrible thunder is about to fall at any time.

This is the first time such a thing has occurred in the countless years of the universe's history.

"Thunder Tribulation!"

At this time, a top expert among the ten thousand clan said that the terrifying power of thunder makes people have to think of thunder robbery.

It's just that, how could thunder robbery appear on the battlefield of ten thousand races. The so-called thunder tribulation generally only appears when the cultivation base is relatively weak. Legend has it that when some lower planes break through their own realm, the heaven and the earth will form a thunder tribulation test, and after reaching the holy realm, although the thunder tribulation will also appear, But

It's not fixed anymore.

Because the so-called thunder robbery is actually a kind of test of the martial artist by heaven.

But now, this terrible thunder tribulation appeared above the Myriad God Hidden Realm, which shocked and even surprised the great powers of these ten thousand races. The terrifying aura exuding the thunder, even their heart palpitations, there is an inexplicable sense of fear.

[Chapter 3867: Precious treasure](#)

"What power is this?"

They are all horrified.

This is by no means ordinary power of thunder. When they reach the realm of their cultivation, all power has been regularized. Even the heavens cannot suppress them. They have to be detached, suppressed, and even stepped under their feet. It is not the heavens that can suppress them, but the supremacy of the universe. regulation

then.

But now the terrifying thundercloud formed above the head, and the aura that it exudes, has shocked them, the top masters of the ten thousand races, how can they not be surprised?

How did this thunder robbery come into being?

For a while, the battlefield of the ten thousand races was in chaos, and the great abilities of the ten thousand races were speculating, trying to figure out the reason for the formation of this thunder tribulation, but they couldn't figure it out at all.

The appearance of this thunder robbery was without warning, as if in the mist, as strong as the top powers of the ten thousand races, they could not snoop out the slightest.

The only thing they can be sure of is that the formation of this thunder tribulation is absolutely related to the opening of the Vientiane God Store.

Most likely, something extraordinary happened in the Vientiane God Store.

At this moment, the many great abilities hidden in the void of the ten thousand races battlefield are all speculations, one by one passing news, communicating with each other one after another, staring at the power of the thundercloud on the endless sky.

"Thunder Tribulation..."

At this moment, in the chaos secret realm outside the Vientiane God Treasure, Ji Wuxue, Ji Ruyue, You Qianxue and others are cultivating in a chaotic atmosphere filled with the secret realm, and they are surrounded by the billowing venerable aura.

The power of endless thunder came, and they all opened their eyes in horror.

How could thunder robbery appear on the battlefield of ten thousand races?

For some reason, they had an inexplicable feeling that the power of the terrifying thunder calamity that day and earth was very similar to the sea of thunder in the Tianwu continent, but it was a magnification of the sea of thunder.

Vientiane God is in hiding.

Qin Chen naturally didn't know the strangeness on the battlefield of the ten thousand races outside, and the sensation it caused.

After he broke through the realm of the venerable, the power of time and the energy of chaos surged crazily into his body.

Happiness!

Many of the Venerable's Saint Veins around him exploded, and a large amount of Venerable's power crazily poured into his body, strengthening his power.

Qin Chen's body was too hungry.

Every cell was madly devouring a lot of power. After breaking through the realm of the venerable, the power in Qin Chen's body was madly improving.

His cultivation base climbed crazily, a terrifying power surged dozens of times stronger than before, and this power was still rising, even his divine consciousness began to spread crazily.

This feeling of rapid increase in strength made Qin Chen almost think that in his dream, he had experienced many promotion and ascension, but he had never felt so crazy and so clear this time.

The continuous chaotic air did not dissipate immediately after breaking the barrier between Qin Chen's venerable ones, but once again impacted Qin Chen's body-refining practice under Qin Chen's body-refining exercises. At this time, Qin Chen finally understood why the top races had to let the geniuses of their clan enter this Vientiane God Store to break through the Venerable, even if they were consuming quotas. Breaking through the Venerable here, the powerful chaotic aura would quickly promote the Venerable. The foundation

, So that he has unlimited possibilities in the future.

This is impossible to have anywhere else.

"The power of the thunder that day should be outside the Vientiane God Store. The Vientiane God Store is the chaos and secret realm of the primitive universe. It belongs to a unique world. That is to say, no matter how the external thunder is formed, it is impossible to burst into it. The God of Vientiane is hidden."

Qin Chen didn't know why such a terrifying thunder tribulation would form when he broke through the venerable, but as long as the thunder tribulation did not fall temporarily, then he still had hope.

Waiting for him to completely consolidate his cultivation and realm in this Vientiane God Treasure, when that time, he might be able to truly resist the power of this thunder.

Although this place of time where Qin Chen is located is dangerous, in addition to Qin Chen, some powerful people have also entered here.

Although the place of time is dangerous compared to other places in the Vientiane Gods, after all, it contains the power of time. If many venerables want to master the rules of time, they will come here to retreat and practice hard. What if they master the rules of time?

Therefore, although the movement aroused by Venerable Qin Chen's breakthrough was great, some people still felt it.

"What's happening here?"

The two pinnacles appeared in the power area of time, looked up at the pitch-black whirlpool with a radius of one hundred thousand miles, vaguely felt the power of the terrifying thunder light in the whirlpool, and said with horror in their eyes.

"Could it be that someone broke through here?" One of them said humanely.

"The Vientiane God Treasure, is it? A unique cosmic secret realm. Breaking through here cannot cause thunder disaster." Another person shook his head.

"Could it be that there are some shocking treasures unearthed in the Vientiane God Treasure?"

As soon as this thought came out, the breathing of the two men became sharp.

This is very likely. Once a vision of heaven and earth appears in the Vientiane God Treasure, there will be treasures born in all likelihood, but such a terrifying vision of heaven and earth must at least be the Supreme Treasure of Heaven, even if it is the Supreme Treasure of Earth, it is impossible to form this. Such a scary scene.

"How do I feel that this force seems to come from our time and place?" One of them said intently. This 100,000-li vortex is hanging high in the endless sky of the Vientiane God Store. It is almost difficult to detect the strange aura that caused it. Where, in this time zone, they vaguely felt a sense of almost perceptual

The unavailable breath seemed to come from the depths of this time zone, and it was that breath that caused the endless whirlpool above the head.

"go!"

The eyes of these two people suddenly lit up. If it is really the birth of the heavenly treasure, and they happen to be nearby, wouldn't it be a big profit?

At a distance of tens of thousands of miles from Qin Chen, Venerable Jufeng never left. At this moment, he was also attracted by the terrifying whirlpool vision that day and earth.

"There are treasures in this place of time."

There was endless excitement in his heart instantly.

Unexpectedly, when he came here to chase Qin Chen, he actually encountered the birth of a heavy treasure.

boom!

His speed increased to the extreme, and he quickly approached Qin Chen's location.

call!

At this moment, under the endless ground beneath the ancient tree, Qin Chen's body was absorbing the Qi of Chaos frantically, and it had reached the final juncture.

Click! A series of terrible auras surged from his body. At this time, all the holy veins of the venerable around Qin Chen had been absorbed by him, and even in the jade plate of his universe, all the divine light fish disappeared. 'S holy veins are transformed into venerables

The power is rolling in his body.

Although Qin Chen had just broken through the realm of human respect, in a short moment, his cultivation level had already approached the middle stage of human respect.

Even Qin Chen felt that this was not his bottom line. If it weren't for the fact that he didn't have enough treasures, he could even continue to consolidate, and even stepped to a higher level in one fell swoop.

It is a pity that Qin Chen does not have enough reserves.

"Ok?"

And just as Qin Chen condensed the endless aura crazily on his body, a stream of light suddenly appeared in this area.

"Why is it him?" The person here was Venerable Jufeng. He was shocked to perceive Qin Chen in the ground, and his eyes suddenly showed incredible feeling.

[Chapter 3868: Field collision](#)

Qin Chen's body, the rolling power condensed, all kinds of terrible auras vibrated, and a series of dragon scales loomed on Qin Chen's body.

In this Vientiane God Treasure, in the state of the dragon body, it can absorb more chaotic air, and the black scales also absorb the chaotic air around them, becoming deeper and more shiny.

This also caused Qin Chen to change into a human form when he broke through, but was still recognized by Venerable Jufeng.

Those dragon scales transformed between reality and illusion, giving Venerable Jufeng a strong shock.

"How is it possible? This kid turned out to be a human race? But what happened to the dragon scales on him?" Venerable Jufeng was almost stunned. At this time, Qin Chen's breath was clearly human, but he The many dragon scales, but the coercion of the real dragon exuded again, making Venerable Jufeng look dumbfounded, and did not understand how to respond.

thing?

What shocked him even more was that the aura on Qin Chen's body turned out to be only the sage, and he had not even reached the pinnacle.

This made him breathe in air.

But this is not the most terrifying. The most terrifying thing is that Qin Chen is breaking through here, and a terrifying aura lingers in his body, echoing the 100,000-li vortex floating above the head of the Vientiane God Hidden.

"Could it be that this kid is the realm of the Venerable who just broke through?"

Thinking of this possibility, Venerable Jufeng suddenly grabbed his heart and was horrified.

In other words, when Qin Chen resisted his blow before, he was not even the venerable.

A half-step venerable can actually block his strong blow from an earthly veteran, which is more surprising and shocking than the fantasy of the universe.

At this moment, after Venerable Jufeng saw Qin Chen, what came out of his heart was not surprise, but fear. Everything in front of him completely subverted his imagination. At this moment, Qin Chen was floating in the ground, and a terrible aura surged from his body. This made Venerable Jufeng shocked, and there was a vague feeling. Although the cultivation level of the person in front of him was only in the realm of human respect, it was comparable to some places he had seen. Lords, all are terrible a lot of.

Inexplicably, Venerable Jufeng had an urge to turn around to escape from here.

It was only in the short period of time that he hesitated, Qin Chen's aura converged, and he suddenly discovered the existence of Jufeng Earth Venerable, and his stern eyes looked indifferently.

Jufeng Dizun's face changed, and he wanted to escape subconsciously, but then he sacrificed a black spear and gave up his plan to escape. Even if the opponent is fierce, he has just been promoted to the respected person, but he is a master of the respect of the earth. The power of the respect of the earth has been honed for more than 100,000 years, and has formed a unique domain of the respect of the earth. ? Even fix

Respect martial artists for those who have no stability.

Whoosh!

Qin Chen's figure flickered, and he came to Jufeng Dizun, and looked at Jufeng Dizun with a sneer.

"You are very persevering. You have been chasing down here from the casual cultivator camp. Since you want to fight against the deity so much, the deity will accompany you in a fight today."

Qin Chen suddenly felt that after breaking through the realm of the venerable, he was really very happy, and finally he could talk about it in front of other venerables.

"Are you a human race or a true dragon race?"

Jufeng Dizun had already reduced his mind at this time, no longer flustered, and his expression became extremely cold.

"Does this have anything to do with you?" Qin Chen looked at Jufeng Dizun with a sneer. "Hmph, no matter if you are a human race or a true dragon race, you must have a big secret in your body. As long as I preach it, no matter the human race or the true dragon race, they will come to trouble you. For the sake of your hard work, the deity will give it to you. A way to survive

Chances are, as long as you can hand over the black armor you got before, the deity will let you go, otherwise, even if the deity cannot kill you, as long as you pass your news, you will undoubtedly die.

"Jufeng Dizun said with a sneer.

In fact, Jufeng Earth Venerable already had some intention to retreat. Although his words threatened Qin Chen, he was already weak. At this moment, Qin Chen's aura was astonishing. The Venerable's aura hadn't completely condensed, and his sharp edge was revealed, which made him feel a little heartened shock.

"Hahaha, do you think you can leave alive today?" Qin Chen couldn't help laughing when he heard these words. Is this Jufeng Earth Venerable an idiot? At this time, he was still threatening him. When did Qin Chen fear threats? He was not even afraid of the Devil Ancestor chasing him back then, how would he care about being chased by others

kill?

boom!

Before the Jufeng Di Zun spoke again, Qin Chen already made a fist, and the evil sword ring appeared on his right hand, and the strong evil spirit and sword energy swept out of the fist.

Jufeng Dizun's expression was frightened, and he never thought that Qin Chen would not even give him a chance to negotiate, and he was not afraid of his threats, so he directly attacked him, really thinking he could keep himself? The Jufeng Divine Venerable was also angry, and Qin Chen's actions were too unsightly for him. The moment Qin Chen threw a punch, the Jufeng Divine Venerable also moved, and the black spear in his hand had been transformed into an instant. , In his impression, Qin Chen is really amazing

He is the body of a real dragon, releasing the state of the real dragon's coercion. How can he be afraid of the human state now? But the moment his black spear blasted out, he felt that something was wrong. This punch was not an ordinary fist attack at all. The terrifying fist and sword aura brought a killing force in the surrounding hundreds of miles. Formed a killing

swirl.

The killing force vortex was full of evil aura and destruction, which made him feel his heart trembling. The spear of Jufeng Earth Venerable did not stop half a minute, with a hundred feet long dark light piercing the gathered killing force vortex.

boom!

The terrible attack swept out, and at the same time, Jufeng Earth Venerable's body suddenly filled with an invisible binding force. This is his regular domain, with a strong Earth Venerable aura, blocking this side of the world.

This is also where he can stay here. Once his earthly respect domain is formed, even if it is not Qin Chen's opponent, he will be able to escape safely. Within the scope of his domain, a person respected wants to kill him. Different from the fantasy. But when his earthly respect domain had just been released, the face of Jufeng earthly respect changed, because he felt that his earthly respect domain was like it had hit an invisible wall. With a bang, he couldn't make an inch, let alone Said Qin Chenbao

Wrapped up.

And Qin Chen's body also released an invisible domain force, colliding with the domain released by the Jufeng Earth Venerable.

"Do you think that only you have a realm?" Qin Chen sneered. This is his spatial realm, and it contains a breath of time. When the surging spatial pressure comes, the Jufeng Divine Respect feels his own Divine Respect Realm. It was quickly compressed in an instant.

[Chapter 3869: Ground suicide](#)

Click!

The earthly respect domain he released was trembling violently, was quickly suppressed, and made a cracking sound like glass cracking. At this moment, he was even more horrified. He had gone through countless battles, and of course he understood that this was the realm that Qin Chen released. He had never thought that a person who had just entered the realm of the nobleman would be able to release the realm that the earth-zun could control. Come and yes

Fang's domain unexpectedly surpassed his domain.

If Qin Chen didn't have a domain, he boasted that he could still fight against the opponent, even if it was not Qin Chen's opponent, he could escape safely.

But now Qin Chen can not only release the domain, but even above his domain. Once he is wrapped in Qin Chen's domain, if he is not as good as Qin Chen in strength, not only will he not be able to kill Qin Chen, he will even run away. Become extravagant.

Thinking of this, Jufeng Dizun was shocked, and in an instant he planned to retreat.

"I don't believe this deity. This little Venerable who just broke through will be stronger than me." Jufeng Earth Zun has a ferocious look. At the moment when the domain of his body was strongly suppressed, Jufeng Earth Zun roared and urged his hands with all his strength. The black spear suddenly burst onto the spear, and it collided with Qin Chen's fist and sword spirit.

Together.

"boom....."

The fist with the vortex of destruction and killing and the black spear collided with each other, arousing the sky full of void fluctuations, and the surrounding area was immediately set off by the void ripples of hundreds of meters, and the surrounding void began to tremble, emitting a rumbling roar.

Hearing a click, the black spear aura inspired by the black spear in the hand of Jufeng Earth Lord was instantly exploded, and then a terrifying sword intent along the black spear poured into Jufeng. Zun's body.

"puff!"

Jufeng Divine Venerable spouted a mouthful of blood and flew out, but Qin Chen's destructive force of this fist was not completely offset by the black spear. After the Jufeng Divine retreated dozens of miles, it already swept over.

"Boom..."

At the moment when the body of Jufeng Dizun was about to be blasted apart, the power of the Dizun immediately burned to resist this terrible fist, and this impact was eliminated. However, Jufeng Earth Zun once again spouted a mouthful of blood. Because of the weakness caused by burning a large amount of Earth Zun's power, he was frightened. He never expected that he was not only suppressed by this guy in front of him in the field, but also in the Zun. Power

, Was also suppressed by the opponent.

The other party was just a person who respected the martial arts, and actually had to surpass him in the power of the venerable, which made Jufeng Di Zun almost crazy.

The realm of the respect of the earth should be completely above the respect of the person. This is an unchanging truth. Even the pinnacle of the respect, it is far impossible to fight the respect of the earth. But now, this truth has been broken.

Moreover, Jufeng Dizun also felt that Qin Chen should not be very familiar with the domain, otherwise the other party would not have given him a chance to exit his domain.

Qin Chen is not yet very familiar with the Venerable Realm. This requires an extremely deep control and understanding of the rules, but his combat experience is rich, and this match made him understand what's going on.

In the next moment, Qin Chen's space domain has been fully extended, taking this space into his own hands.

Rumble!

This space domain instantly wrapped towards the Jufeng Earth Zun, to enshroud him. Jufeng Dizun was suddenly furious. He knew that he would never be shrouded in Qin Chen's domain, because Qin Chen's domain was not only extremely terrifying, but also an extremely troublesome space domain. Once he was completely wrapped in Qin Chen's domain among them,

Then he is over, and if he wants to escape, the difficulty will increase several times. Thinking of this, Jufeng Dizun couldn't care about anything else anymore, and a talisman suddenly appeared in his hand. He had to activate the talisman in his hand for the first time, because he knew that he would not go now, and once he was wrapped in Qin Chen's space domain, then Never again

There is a chance to go.

Although it is extremely dangerous to urge the space escape talisman in this area of the power of the time of the Vientiane God, it will fall if one is not careful, but the Jufeng Divine has no other choice.

"Boy, just wait for the human race and the true dragon race to chase down."

Jufeng Dizun roared, and immediately lit the escape amulet.

"Huh, do you think you can run away?"

"Time rules!"

Qin Chen had been guarding the Jufeng Earth Zun for a long time. The first time he took out the Escape Talisman, he had already activated the origin of time. Suddenly, an invisible force of time spread out, covering the world. Jufeng Dizun immediately felt the flow of time around him, as if it had slowed down instantly, his thoughts could still run, and he wanted to urge the escape amulet in his hand in anger, but at this slow flow of time, no matter how furious and anxious he

, This process has become extremely long. At the same time, he heard a faint click again, and the face of Jufeng Dizun changed drastically. He knew that he was completely in the opponent's domain, and his own domain was almost melted away, a strong spatial constraint. moment

Contained him.

"Stop..." Jufeng Dizun cried frantically, but he only uttered two words. On Qin Chen's left hand, the war spirit ring appeared, and a terrible flame of war had already been blasted by Qin Chen. , This war flame instantly envelops the Jufeng Earth Zun, and penetrates

To the depths of his soul.

There was a look of despair in the eyes of Jufeng Earth Sovereign. He was a magnificent Earth Sovereign master who was killed by a guy who had just been promoted to the Exalted.

"Blow me!"

Under the endless shame, the madness of Jufeng Dizun urged the origin in the body and caused the body to explode.

Ok?

Qin Chen's face changed slightly, and a sense of danger lingered in an instant. He didn't expect that this Jufeng Earth Vener would be so decisive and cruel. Under this situation, it directly detonated the origin in his body.

"Boy, you die with me."

Jufeng Dizun roared, his eyes were ferocious and crazily, and he was going to take Qin Chen away when he died.

Qin Chen's eyes were cold. At the moment when Jufeng Dizun detonated the origin, ninety-nine star cores and ten ancient sacred mountains were released at the same time, rumbling, forming a terrible formation, and sealing the void.

In addition, the Haotian Divine Armor appeared on Qin Chen, and a dark scale was also suspended in front of him, blocking all shocks.

"The core of the stars? The Primordial Mountain? The Star Palace? Or the Daewoo Mountain?" Before Jufeng Dizun was dying, there was only such a thought in his mind. The next moment, his body burst, rumbling, and a terrible shock wave instantly swept out in time, annihilating everything.

[Chapter 3870: Wanli Aurora](#)

How terrible is the power of a master to explode?

Indescribable.

boom!

This heaven and the earth were all flooded with the power of the rolling earth-sovereign origin, and the void violently oscillated and roared violently, forming a terrifying sea of impact in this area of the void for thousands of miles.

A wave of shocks violently hit Qin Chen, swallowing Qin Chen completely.

After a long time, this shock wave completely dissipated.

There was a mess in the void, and the power of time here was shattered a lot, and a figure slowly emerged.

It's Qin Chen.

The Haotian battle armor on his body converged, the hideous battle armor disappeared, and the whole person was safe and sound.

"Huh, blew himself up."

With cold eyes, Qin Chen raised his hand, and the broken spear and storage ring in the void were taken by Qin Chen to the Universe Jade Plate.

"The current me has broken through the sage, but it is not the mine I used to be. Is it that easy to injure me by self-destruction?"

Qin Chen sneered. The previous self-detonation of Jufeng Earth Venerable is indeed terrible, but his black scale armor can withstand most terrible impacts. In addition, the Vast Sky Armor is able to withstand the Earth Venerable under the urge of Qin Chen now. About 80% of level masters s attack.

Under the two layers of weakening, plus the inner armor and Qin Chen's own six reincarnation sword bodies, the shock wave that hit Qin Chen's body was only one-tenth of the normal.

This shock might be able to kill the original Qin Chen, but as far as Qin Chen is concerned, it cannot cause enough damage to Qin Chen.

call!

Between heaven and earth, after Qin Chen completely broke through the realm of the venerable, the terrifying black vortex phantom in the distant sky gradually disappeared.

"Lei Jie disappeared?"

"No, it should be hidden."

Although the black vortex disappeared, Qin Chen still vaguely felt that the power of the thunder tribulation had not completely dissipated, but was hidden. Maybe when he left the Vientiane God Treasure and entered the void of the ten thousand race battlefield, he would again Appear.

"No matter what, get out of here first."

Qin Chen's figure shook, and suddenly disappeared here. The movement here was too shocking. Qin Chen didn't know if there were any other masters hiding in the power of time zone. It would be troublesome if he was discovered by others.

But not long after Qin Chen left, two figures appeared nearby.

"What a terrifying aura, Master Earth Sovereign, there was definitely an Earth Sovereign master fighting here just now."

"Did you feel it? The terrible vortex in the Vientiane God Treasure before, should have been attracted by a strong person here before, and the place of origin is definitely here."

"Hey, is there a pinnacle earth-zun here that breaks through the sky-zun?"

These two people are the two pinnacles who have felt the aura before and rushed there for the first time.

In fact, they had already come here long after Jufeng Dizun blew himself up, but the shock wave of Jufeng Dizun's self-detonation made them dare not approach at all.

After the breath here completely dissipated, he dared to approach here.

"Essential aura? The original aura of an earthly respect."

Immediately, they came to the place where Jufeng Dizun blew himself up, and after sensing it for a moment, they were shocked in their hearts. Generally, this kind of original aura can only be left after the Venerable blew himself up.

Could it be that there has just been a deity here blew himself up here?

"Go, get out of here quickly."

The two pinnacles palpitated, and they didn't dare to stay here anymore, and suddenly disappeared here.

One month later.

In the power of time area, a human master with the breath of real dragon walked out of it. After he left the power of time area, he immediately sacrificed a flying treasure and left quickly.

This is exactly what Qin Chen has consolidated his cultivation base. After breaking through the realm of venerable Qin Chen, Qin Chen's strength has greatly increased. The next place he is going is the depths of this Vientiane God, looking for more resources.

With his strength, in the future, to break through the realm of the earthly respect, the resources needed to consume are absolutely heavenly level. The Vientiane God Store has only been opened once for many years, so naturally you cannot miss it. After slaying the Jufeng Earth Zun, he got a good pitch-black spear. The spear was pitch-black and had good attack and defense capabilities. There is also a Venerable Flying ship, but the storage space of Venerable Kyoho is a bit ordinary.

In addition to a large number of elixir materials, there are also some holy veins of the Venerable.

It is a pity that after Qin Chen's sacred veins of these venerables were completely swallowed up, it only allowed him to consolidate the cultivation base of the mid-term human beings, and he was still far from the peak human beings.

This caused Qin Chen to have a headache again. With his current cultivation base, the resources needed for each promotion are probably astronomical numbers. This will be his most distressing place next.

In addition, there are also some top-level materials that have been harvested. These materials have surprised Qin Chen. They can be used to arrange high-level formation flags, or arrange teleportation formations, which are of great value.

At the same time, what surprised Qin Chen was the origin of time in his own mind. In this area of power of time, he got a lot of improvement. This was the only way to slow down the flow of time when he used the domain before.

It is equivalent to one more top killer.

Whoosh!

Qin Chen steered the flying treasure and went deep into the Vientiane God's Hidden.

Rumble!

And when Qin Chen quickly entered the depths of the Vientiane God's Hidden.

On a wasteland in the extreme depths of the Vientiane Gods, here is a dilapidated ruin. I don't know what it was hundreds of millions of years ago. There are ruins and ruins everywhere.

But now over this piece of ruins, a misty halo blooms, like a mirage, forming a psychedelic curtain of aurora over the ruins.

The dazzling light of this mirage, the constant illusion, the constant surging, has attracted many powerful people of the ten thousand races here.

In a short while, this mirage has surrounded a dozen people, and people continue to come over.

These dozens of people were all surrounded by the nearby ruins. There were human races, demons, Zerg races, sea races and other races, all of them exuding a terrible aura, many of them were masters of the earthly respect.

At this moment, they all looked at the vision of heaven and earth in front of them with fiery eyes, and they were all excited.

treasure!

It is definitely a top treasure!

In this Vientiane God Treasure, the visions caused by the unearthed treasures are different, and the strength of the treasures is also different.

And this gorgeous aurora curtain of thousands of miles, obviously represents that under this ruin, there is definitely an amazing treasure to be unearthed.

However, all the people who came here first just stared at the gorgeous curtain, but no one was the first to do it.

There are many treasures in the Vientiane God's Treasure, but they are equally dangerous. Before the treasure is unearthed, it is never possible to obtain the treasure. This is an axiom. If you forcibly plunder the unearthed treasure, it is easy to encounter inexplicable danger. So everyone is waiting quietly.
