

Valkyrie 391

Chapter 391

He stared at Qin Chen coldly: "Sure enough, it didn't disappoint me. You brat had such a terrible attack on the true talisman. It should be the fifth-order true talisman. If it weren't for me, I had only used four points to deal with this. Break the formation method and use six points of attention to guard against you. I'm afraid you were almost seriously injured. And the mental shock just now, the person who spied me on the auction floor should be you too!"

The cloak man's eyes were cold, and Qin Chen could even feel the strong chill in it.

"Unfortunately, although your strength is not weak, your cultivation base is too low. As for the Tier 5 True Talisman, strong or strong, but unfortunately it is of the fire attribute. If you want to kill the old man, it is still far away. Hey, such a powerful alchemist. , I really make the old man look forward to it."

The man in the cloak was attacked by Qin Chen in such a sneaky way. Although he was a little injured and a little angry, there was not much anger in his tone, but a hint of excitement was faintly revealed.

What is he excited about?

Qin Chen's heart sank. The other party did something too weird. Although the black tentacles were fierce, Qin Chen could feel that the purpose of this person was not to kill himself and regain the strange fire of Qinglian. Grab yourself.

What does he want to do?

Seeing that Qin Chen's face was gloomy, the man in the cloak couldn't help but laughed strangely, and said, "Are you trying to figure out the purpose of the old man? Don't worry, the old man doesn't want to kill you. Just like the old man said, as long as you take that Mysterious fire refining, just let you go, the old man did what he said, but before that, you can't run around..."

After that, the cloaked man once again exploded dozens of black tentacles. Each of these black tentacles was twice as thick as before. The black tentacles were flying all over the sky, containing astonishing pressure, like a swarm of demons dancing around, frantically surrounding Qin Chen. Come.

On the other side, Zhu Hongzhi, Wu Lengfan and others, who urged the formation to resist the cloak man, stared blankly at Qin Chen and the cloak man, as well as the countless black tentacles wrapped towards Qin Chen. The cold sweat behind them was no longer dripping down. , But DC down.

It turned out that when the cloak man fought them, he didn't use his full strength. Now it is his full strength. With such overwhelming black tentacles, Zhu Hongzhi and the others felt cold when they looked at them, let alone resisted.

What shocked them even more was that the young man had been pretending to be a pig and eating a tiger. His true strength was so terrible that he was in vain. They thought that the opponent had relied on someone to kill Wu Liangyu in the first place. 'S strength was enough to easily kill Wu Liangyu.

Especially Zhu Hongjun, his legs trembled at this time, his whole body was cold, and his eyes were extremely scared. By now, if he didn't know that Qin Chen had injured his hands several times before, he wouldn't need to be confused.

The reason why the other party pretends to be injured and is unable to resist himself is that the goal is not to love himself, but for the man in the cloak. Otherwise, nothing else, just the terrifying power contained in the fifth-order true talisman he released just now. It was enough to kill him and his eldest brother and blast them to ashes.

From beginning to end, neither of these two people's goals were on their side, and the hearts of the Zhu Family and Wu Xiufu group had completely sank.

What a terrible kid, what a terrible man in the cloak, at this moment they all know that even Qin Chen can hardly escape under the attack of that cloak man, but even so, such a young man as Qin Chen has so many on him. The trump card still made them chill. It is ridiculous that they thought that the other party had to rely on the Sky Star Chamber of Commerce to survive.

call!

Black tentacles, densely packed, overwhelming the sky, completely sealed off the space around Qin Chen, and the cloaked person was relieved to see that Qin Chen was about to be captured by himself.

It has not been a day or two since he came to Wucheng. He has also heard of this first pill pavilion. Although he is not afraid of such a weird genius alchemist, he is also very vigilant. This is his always-on principle.

Ever since Qin Chen was tracked by the Zhu Family and Wu Xiu Mansion, he had already felt something was wrong, so he deliberately exposed his flaws and tricked Qin Chen into taking the bait. He didn't expect this kid to actually hide such a hand. It wasn't that he had prepared in advance. He might have been seriously injured by the fifth-order true talisman just now. Although he won't be killed by this group of ants, he will definitely encounter a lot of troubles, and maybe this kid will run away.

Now that the kid's hole card has been exposed, it is a wishful thinking that he wants to escape his palm even at this point.

But before capturing Qin Chen, the man in the cloak still did not dare to relax. He fully urged the black tentacles to imprison Qin Chen in the tentacles. As for the Zhu Family and Wu Xiu Mansion on the side, he had completely given them to him. Neglected.

"good chance."

Zhu Hongzhi and Wu Lengfan and other two powerful forces saw this scene. Although they were horrified and shocked, they knew that this was their only chance to escape. Boom, one by one, they fully urged the true power in the body to attack wildly.

At this moment, they no longer thought about **** the cloaked man and Qin Chen, all they thought was how to escape from the cloaked man.

Puff puff!

A mouthful of essence and blood spewed out from Zhu Hongzhi and other people. At this moment, the Zhu family and others were all crazy, their complexions flushed, frantically swallowing various amplitude elixirs, the strong medicinal power was stimulated, and every pore on the body was oozing out. Bloody water.

Aroused by them, with a bang, the four-in-one and five-element array was urged to the extreme, and the bright array of light all over the sky shone like an aurora, and like a fairy que, it turned into a steaming glow, and violently poured into the cloaked man.

Wu Lengfan and others in Wu Xiu Mansion were also violent, and the later stage of the Xuan-level cultivation base was spurred to the extreme, and the light of blood bloomed on each body, like Shura coming out of purgatory, swinging his sword and sending out a shocking blow.

Boom boom boom!

A large number of attacks fell on the cloaked man, shaking his body's true power shield, constantly bursting with bright rays of light.

"These **** guys."

With a cold snort in his heart, the man in the cloak showed a sharp look, and was indifferent to the attacks of Zhu Family and Wu Xiu Mansion. The sky attack could not break his defenses for a while, and he himself urged the black tentacles with all his strength and wanted to Qin Chen captured it first.

Qin Chen's cold hair was standing up, but now he has calmed down. At this critical moment of life and death, the more flustered, the more unable to solve the problem.

Qin Chen knew that he couldn't be caught by these black tentacles at all. Once he was caught, there would be no room for escape at all, but with his current cultivation base, he couldn't break through these black shots with amazing power.

Since it cannot be broken, don't break it.

At the juncture of the crisis, a large number of formations appeared in Qin Chen's hands instantly, and they were thrown out abruptly toward all directions of the four-in-five-element formation.

Chapter 392

Buzzing!

As soon as these formations fell, they immediately merged with the four-in-five-element formation originally arranged by the Zhu family, and embedded them in the eyes of the original formation.

"Huh? This is a formation, do you want to use formation to prevent the old man's capture? Too naive."

The man in the cloak sneered, and saw Qin Chen throw out the formation, not afraid at all.

In order to trap him, in addition to the fifth-order formation, even the fourth-order peak formation will not work. Qin Chen is so young and possesses such a cultivation level in refining medicine. In terms of formation, there will definitely be some Dabble, but it is obviously impossible to cultivate to how high it is.

With the strength of the three-legged cat's formation, trying to trap him is simply a dream, and he doesn't even have the ability to stop him.

But before the sneer at the corner of his mouth fell, the cloaked eyes suddenly solidified.

Boom boom boom boom!

There was a violent vibration from the entire array, and from the array that Qin Chen threw out, a series of blue sky beams were suddenly shot out. These beams of light, majestic and majestic, suppress everything, just like the sky-reaching pillar, towering into the sky in an instant.

The strong and magnificent cyan light beam, and the base of the four-in-one five-element array, are completely integrated, tightly stitched and perfectly fit.

At the moment when the formations were combined, Qin Chen squeezed his hand skills suddenly, crashing, and a cyan halo suddenly appeared on his body surface, containing the aura of defense, enveloping him.

In the next moment, countless black tentacles had already slapped fiercely on the mask, bang bang bang bang...The cyan halo shook violently, but under the slap of the black tentacles, they were firm and insisted perfectly. Down.

"what?"

The cloak man's eyes widened suddenly, how powerful his attack was, he didn't know, let alone a martial artist of Qin Chen, even a strong man at the peak of the late Xuan level, under this attack, He would also be severely injured, or even fall, but his crazy attack with so many black tentacles failed to explode the cyan mask in front of Qin Chen for a while.

He looked at Qin Chen in disbelief, pointed his finger at Qin Chen and said in a little shock, "You, you are still a master of formation..."

Being able to withstand his attack indicates that the cyan halo on Qin Chen's body has definitely reached the level of the fifth-order formation, and in such a short time, using a few formations, the Zhu family's formation was set. , From the original fourth-order peak, barely close to the fifth-order formation, directly broke through to the fifth-order, what is it if it is not a master of formation? And at least he is also an array master above Tier 4.

The man in the black cloak was shocked. He couldn't imagine how such a pervert and genius could be in a place like the Five Northwest Countries.

The man in the cloak was shocked, Zhu Hongzhi and Zhu Hongjun were even more shocked. As a family of formations, the Zhu family's skills in formations were naturally terrifying. All of a sudden, they felt that the formation that Qin Chen threw out was unexpected The broken fifth-order four-in-five element array handed down from their ancestors was almost completed.

What formation is this cultivation base?

For countless years, their Zhu family had served as the Patriarch, and they did not want to complete the fifth-order formation left by this ancestor, but after so long, no one has ever done it.

But Qin Chen, who was in the first pill pavilion first, did it, and it seemed so effortless that it gave them an unprecedented shock.

"Windy."

Qin Chen snorted coldly, with a calm expression, and quickly squeezed the formation with both hands.

Looking from a distance, Qin Chen's hands instantly seemed to have turned into shadows in the sky, forming primitive formations. These formations quickly flew out of his hands and merged into the big formation.

The obscurity and simplicity of the talisman made the Zhu family and the others dumbfounded. With their formation skills, let alone understand it, it was impossible to see Qin Chen's gestures clearly.

Rumble!

With the integration of a large number of formations, the momentum of the four-in-one and five-element formation instantly rose. If it turned out to be a big river, then in an instant, it turned into a vast ocean, terrifying momentum, like a swept tsunami, overwhelming. The man in the cloak pressed down, trying to trap him completely.

"What are you doing in a daze, do you want to die in this guy's hands? Don't take this opportunity to do it."

Qin Chen shouted at the dumbfounded Zhu Family and many powerful men in Wu Xiu Mansion.

Only then did the Zhu Family and the many powerful men in Wu Xiu Mansion react. They shot frantically at the moment and attacked the cloaked man. There was a sense of absurdity in their hearts. They wanted to ambush Qin Chen and kill him. Yes, I didn't expect to join hands with him now, it's really unpredictable.

"Huh, good boy, I didn't expect that I actually underestimated you, but with this formation, do you think you can kill me? Idiot!"

After the man in the cloak was shocked, he immediately recovered his calm. With his hands raised, a layer of black mist flew out of his hand.

These mists, without knowing what they were, formed like a group of small black dots, constantly wriggling, like locusts, rushing on the halo of that formation.

Click! Click!

It seemed that there was a sound of biting and chewing, and the four-in-one-five-element mask was immediately corroded by the black mist, as if it had disappeared out of thin air.

"Air-eater ants..."

After seeing the black mist, Qin Chen was shocked. These black mists were actually made up of pinpoint-sized ants like insects, and they were actually the legendary gas-eater ants.

The gas-eater ant is a very terrifying insect-like blood beast creature. This blood beast feeds on zhenqi and can swallow all zhenqi substances, but the attack by zhenqi on them is very limited.

And any formation can be activated because it contains a lot of true energy, but under this gas-eater ant, all formations will lose their effect, and the energy in it will be swallowed up by the gas-eater ant

little by little. When the energy that inspires the big formation disappears, no matter how subtle the formation is, it will lose its original effect.

"go!"

Qin Chen originally wanted to use this four-in-one five-element formation to compete with this cloaked man, but at this moment, he lost the mind to continue to stay. With this gas-biting ant, the cloaked man almost stood in front of him. In the defeated place, the formation method will not have much effect on him.

If the formation passed down by Zhu Family Ancestor is a killing formation, he might still fight it, but the four-in-five-element formation is just a kind of formation similar to a trapped formation. Killing this cloaked man and staying there is only a dead end.

Thinking of this, Qin Chen didn't hesitate anymore. He shook his figure and ran away from the formation. He ran away and rushed to the Xuanzhong mountain range not far away.

"Damn it, this kid is going to run." Upon seeing this, the cloak man looked terrifying. What he feared most was that Qin Chen ran away. With a wave of his hand, the black mist formed by the gas-eater ants was like a black screen, chasing Qin Chen into it. The Xuanzhong Mountain Range.

Chapter 393: All Fallen

Buzzing!

There were screams, and the black mist formed by the locusts in the sky, like a curtain of sky, covering the sky and obstructing the sun, chasing Qin Chen quickly, wherever it passes, the trees in the Xuanzhong Mountains are all being gnawed into nothingness, like a locust crossing the border, there is no grass.

As soon as Qin Chen left, the Zhu family and the people in Wu Xiu Mansion were shocked. Because of Qin Chen's presence before, they were able to reluctantly confront the cloaked man. Now Qin Chen has escaped. With their cultivation level, how can they be? Is this cloak escaped?

In the panic, the man in the cloak also looked furious. If the Zhu Family and Wu Xiu Mansion hadn't trapped him in a big battle, would he have let Qin Chen escape into the Xuanzhong Mountain Range? If Qin Chen did escape, his wouldn't all the pains be wasted?

"You all will die to me!"

With a roar, the man in the cloak burst into a terrifying black light, rumbling, and countless black tentacles swept wildly from him, constantly slamming on the four-in-five-element array. Every time he slammed, the lingering light on the formation would be bleak, and it looked shaky.

The previous air-eating ants had already bitten out a gap in the four-in-one five-element array, and with the cloak man's own strength, it was enough to smash this large array bit by bit.

With lashes again and again, the big array shook violently, Zhu Hongzhi and the others immediately overflowed with blood from the corners of their mouths, their eyes became extremely frightened, and their heart sank completely.

They deeply know that by now, they have lost the possibility of continuing to fight. Without Qin Chen, this four-in-one five-element formation is simply unable to mobilize its power to the extreme. Relying on their formations, they must before long, this great formation will be broken, and they will definitely be beheaded by this cloaked man.

"Your Excellency, you and I have never complained, how about letting me wait? As long as you speak, no matter what price you pay, you can discuss it."

In the formation, Zhu Hongzhi said hoarsely, covered in blood.

Up to now, if you want to survive, you can only beg this man in the cloak not to kill him. As the head of the Zhu family, Zhu Hongzhi has been up and down in Wucheng for so many years, and he is not clear about the reason why Zhu Hongzhi can bend and stretch.

"Yes, as long as your Excellency let me wait, no matter what your request, we will never refuse, why do we need to fight and kill." Wu Lengfan of Wu Xiu Palace also said nervously.

At this moment, his heart is full of regret and annoyance, hating himself, why did he promise the Zhu family that he had to find Qin Chen trouble, now it is all right, the advantage is not taken up, and he should offend such a powerful enemy, I am afraid the entire Wu Xiu Mansion, May be ruined because of this decision.

"Let you go?" The man in the cloak looked at Zhu Hongzhi and the others coldly, and said with a sneer, the tentacles in his hands did not stop at all.

"Yes, if you insist on fighting, I will die, but I am afraid that you will not take much advantage, but if you let me wait, I am willing to hand over a lot of treasures in exchange for my life." Zhu Hongzhi said anxiously while coughing up blood.

Now his condition has reached an extremely critical moment. A lot of consumption will cause the meridians in his body to be broken. If he continues to fight, even without a cloak, he will become a man because his true power is exhausted. Waste.

"Hahaha." The man in the cloak smiled coldly, his mouth blooming coldly: "Let the old man let you go? That's a dream."

Rumble!

It seems that knowing that the opponent has reached the end of the crossbow, the black tentacles suddenly danced more frantically, banging banging, slamming again and again, and cracks appeared on the large array instantly, and they wanted to burst at any time.

Zhu Hongzhi looked gloomy, and said angrily: "Your Excellency, why bother to kill the fish and break the net and burn the jade?"

"The fish die and the net breaks?" The man in the cloak sneered: "You look at yourself too highly, the fish will die, but the net won't break!"

Boom!

A black tentacles pulled down forcefully, the big formation suddenly split a crack, a large amount of infuriating vent in all directions, the power of the four-in-one and five-element formation began to decline in an instant.

"Brother, what shall we do now?" Zhu Hongjun, who was arrogant and domineering towards Qin Chen before, was almost crying at this time.

"Damn, I fought with you, second brother, you will take the tribe with you and leave immediately."

At the moment of the crisis, Zhu Hongzhi was also decisive, knowing that the great formation could not be held, and violently aroused the power of the great formation, rumbling, and countless arrays of light flowed, shrinking and bursting suddenly.

boom!

The entire array burst open quickly, and countless arrays swept wildly in all directions, turning into a hurricane vortex, and terrifying force, ploughing the entire ground, flying a large amount of turf debris, just like the world is cracking and the end of the world.

The big formation burst open, and Zhu Hongzhi and others vomited blood and flew upside down one by one. They were stunned by the force of the explosion. Many of the warriors with weaker cultivation bases and severe injuries made screams during the flight. They burst into blood mist one after another, leaving no bones.

"go!"

Zhu Hongzhi and the others were dripping with blood, but they still had a breath of support. After falling on the ground, they whispered and rushed towards Wucheng.

He knew very well that the other party's goal was more in Qin Chen, and they had to go to the opposite direction of the Xuanzhong Mountain Range Qin Chen was heading for, in order to have a glimmer of hope of escape.

Moreover, Zhu Hongzhi has already made a decision in his heart. After he will return to Wucheng, he will pack his things as soon as possible and move the entire Zhu family out of Wucheng. With the other party's cultivation, once they arrive at the Zhu family's residence, they still cannot resist. .

On the other side, the people in Wu Xiu Mansion were also running frantically.

The formation was where the earth was rumbling, and after the sky light dissipated, a black figure stood in the center of the formation, his robes shattered, but he didn't see how many injuries.

"Do these ants think they can escape in the hands of the old man?"

With a sneer, the figure in the cloak flew out suddenly, like a ghost, fast, like a flash of lightning, and caught up with Zhu Hongzhi and others in an instant.

"dead!"

The black tentacles waved and slapped down at Zhu Hongzhi and others.

"Do not!"

There was a screaming scream, Zhu Hongzhi and the others were unwilling, but unable to fight back. They could only watch the black tentacles, shattering the true power of their bodies, and then blasting them into an instant. The fragments.

Puff puff!

In the air, there seemed to be a puff of blood blooming, gorgeous and desolate.

"Smelly boy, still want to escape under the tracking of the old man's gas-eater ants? Overwhelmed."

With a beckon, a large number of storage rings fell into the hands of the cloak man, he didn't look at it, threw it into his storage ring, and then sneered, his figure shook, and he rushed towards the place where Qin Chen disappeared in a blink of an eye. A trace.

In the Xuanzhong Mountains.

Huh!

A figure flashed quickly and ran swiftly. Behind it, a dense black mist, like a black screen, kept approaching.

"Air-eater ants are good at tracking the fluctuations of true qi, and the speed is extremely fast. I can't escape the pursuit of the air-eater ants at all when I escape. It won't be long before the cloaked person will catch up."

Feeling the gas-eater ants behind him, Qin Chen's eyes were cold, and his heart was anxious.

Chapter 394

But he has nothing to do.

Qi Devouring Ants make a living by devouring True Qi. Any warrior's attack is essentially True Qi, and general attacks have no effect at all.

Huh!

A sword light flashed across the world, and the sharp sword aura contained an astonishing sword intent, slashing towards the rear.

With a bang, I felt the arrival of these sword lights. The black sky curtain composed of gas-eater ants separated from the middle in an instant, and immediately after the dazzling sword-qi, it was immediately surrounded by a large number of gas-eater ants, and in the next moment, it turned into nothingness. .

Except for the terrifying sword light that caused damage to a small number of gas-eater ants in a short period of time, the rest of the gas-eater ants, after swallowing the Nine Star God Emperor Ju Qi contained in the sword light, became stronger and their aura changed. It's more terrifying.

"No, the nine-star divine emperor tactic I cultivated, although the true energy is strong, but it also has no absolute killing effect on the gas-eater ants. In addition to the sword intent, it can also wipe out some gas-eater ants. Constant attacks will only strengthen the gas-eater ants. The power of ants."

Hum!

Immediately afterwards, Qin Chen used a mental storm again, but it was also useless. The mental structure of these gas-eater ants was very simple. Unlike humans and blood beasts, the impact of mental attacks on them was minimal.

Not only that, these gas-eater ants are also very tricky, staring at him, no matter where Qin Chen gets into any corner, he can follow him, clearly consciously tracking himself under the urging of the cloak man.

"I can't just wait and die like this. I don't believe that these gas-eater ants can absorb my true energy endlessly."

Unable to think of a good way, Qin Chen gritted his teeth and became fierce. The true energy in his body was energized to the extreme, and he continued to wave and kill towards the rear.

The densely packed sword auras turned into a sword river that pierced the sky, slashing into the dark curtain of the gas-eater ants, puff puff puff puff puff, each of these sharp sword auras contained Qin Chen's strongest attack, and With an amazing sword intent.

As soon as they fell into the darkness of the air-eater ants, some air-eater ants were immediately wiped out by the sword intent, but the next moment, more air-eater ants envelop these sword qi, envelop these swords in dense air, and then continue to swallow them. Empty.

A series of astonishing sword auras were quickly cut out and swallowed. Before these Qi Devouring ants had swallowed them, another batch of sword auras had already been cut out by Qin Chen again.

Although the gas devouring ant can continuously swallow the true energy to strengthen itself, the ability to swallow is not endless. It has a certain limit. Once a certain limit is reached, not only can it not swallow, but it will burst the body.

Qin Chen wanted to use such a method to hold these gas-eater ants to death.

Originally, Qin Chen's nine-star divine emperor tactic was terrifying, it might not be impossible to achieve this, but what Qin Chen did not expect was that these gas-eater ants became even more terrifying and faster after absorbing his true qi. , The black sky curtain turned into a black mist, and suddenly wrapped towards Qin Chen, trying to swallow Qin Chen completely.

"bring it on!"

Qin Chen was also cruel, and in an instant, his whole body was wrapped in endless gas-eater ants, and these gas-eater ants flew around him, wrapping him into a zongzi, constantly absorbing the true energy from him. , And Qin Chen frantically urged Zhen Qi.

The two sides quickly fell into a stalemate.

"Don't you want to devour it, give it to you, give it all to you."

Qin Chen urged the zhenqi in his body frantically, and even the power of the blood in his body was also urged away. A ray of thunder and blood, accompanied by the arousal of zhenqi, suddenly haunted his body surface.

A scene that Qin Chen hadn't expected happened. After these gas-devouring ants came into contact with Dao Qin Chen's thunderous blood, they suddenly retreated like they had seen something terrifying them.

Crackling!

The light of thunder was shining, visible to the naked eye, many of the gas-eater ants were quickly chopped into ashes under the power of the thunder's blood, and disappeared, but there were also some of the gas-eater ants, under the thunder's blood, they did not fall, but were entangled in the whole body. The thunder light turned faintly, as if drunk, and fell into a drowsy state.

"Thunder bloodline is actually so effective on gas-eater ants?"

Qin Chen was shocked. In his previous life, he had never heard that the power of blood can cause such a big lethality to the gas-eater ants.

Is it because of the Thunder attribute?

Although he didn't understand the reason, how could Qin Chen let go of such a good opportunity? The blood in his body became even more violent in an instant.

Zi Zi Zi.

The thunder light surged, and immediately there were a lot of gas-eater ants, which were chopped into ashes by the power of the thunder bloodline, but some of them also survived, as if they had undergone mutation.

In addition, Qin Chen felt faintly in his heart that the connection between these mutated breath-eating ants and the cloaked man seemed to be severed, but a mysterious connection had formed between them and himself.

Qin Chen was dumbfounded, still had this effect?

Under the awe of the thunder light, the remaining gas-eater ants never dared to approach Qin Chen anymore, but after they retreated a certain distance, they seemed to be attracted by the thunder light and blood on Qin Chen and refused to leave far away.

This feeling is extremely strange, Qin Chen can feel that these gas-eater ants are both fearful and full of great attraction to his thunder and blood. They circulate crazily by his side, no longer attack him, but the same is not willing to leave. go with.

"Maybe I can use the power of Thunder's bloodline to conquer these gas-eater ants!"

A thought came up in Qin Chen's mind.

Before, he didn't think about this possibility, but he knew very well that the cultivation of gas-eater ants is very difficult. It is necessary to communicate with them when they are eggs, and then incubate and cultivate them a little bit to create spirit between each other. Only by contact can you follow your own command, like an arm.

Unlike ordinary blood beasts, they can be tamed by using beast taming technique.

But now, his thunder bloodline actually has a transforming effect on these gas-eater ants, and Qin Chen's heart suddenly becomes active.

"The power of blood, burst!"

With a burst of shout, Qin Chen slammed the power of the blood in his body to the extreme. In an instant, his whole body was like the Thunder God descended from the world, and a burst of thunder bursts from him, sweeping across the large group of devourers. Air ants.

Zi Zi Zi!

A large number of gas-eater ants could not be avoided at all, and they were enveloped by the power of the thunder bloodline. This time, Qin Chen did not use much power, but just tried to use the power of the thunder bloodline to transform these gas-eater ants.

What shocked Qin Chen was that under his thunderous blood, the cloaked spirit imprints originally left on these gas-eater ants were instantly annihilated, and at the same time, a large number of gas-eater ants transformed under the power of the blood.

In just the blink of an eye, more than half of the gas-eater ants died, and about one-tenth of the gas-eater ants survived. Every surviving gas-eater ant has thunder surging on its body. The dust created an inexplicable connection.

"Come!"

With a wave of his sleeves, Qin Chen immediately put the surviving gas-eater ants into his storage ring, and then let out a long scream.

Yo!

In the distant sky, the Iron Feather Eagle suddenly appeared and landed in front of Qin Chen. Qin Chen immediately jumped up, urging the Iron Feather Eagle with mental power, and the Iron Feather Eagle immediately let out a long roar, spreading its wings and left.

Puff!

At this time, a few miles away from Qin Chen, the man in the cloak, who was flying by and tracking him, spouted a mouthful of blood, and looked up at the iron feather eagle flying high not far away, with a hint of anger in his eyes. .

Chapter 395

The black iron-feathered eagle, with its wings spread out, rises up into the sky like a fierce bird, bringing a large hurricane.

With naked eyes, there was a figure sitting cross-legged on Tie Yuying's back. Who else could it be if it wasn't Qin Chen?

"Damn it, how could this kid have a flying blood beast? Isn't he still an animal trainer? And why did the connection between me and the gas-eater ants disappear completely?"

The man in the cloak turned pale, and he vaguely felt something bad in his heart.

In the process of tracking just now, he suddenly found that the connection between himself and the gas-eater ants had disappeared, and his spirit was damaged, and he was wounded to vomit blood.

In a panic in his heart, he shook his figure, and instantly came to the place where the gas-eater ants disappeared.

A scorching smell filled the air. On the ground, a dense layer of black material was spread, like a handful of black sand, scattered on the ground. It was just some of the vitality that was wiped out by the thunder's blood, but failed to burn. The emptiness of the corpse of the gas-eater ant.

"Ah, this **** fuck, dare to kill the old man's gas-eater ants. If you don't kill this person, the old man will be a bloodworm human demon..."

Seeing the corpses of the air-eating ants all over the ground, the man in the cloak burst into anger and roared in anger.

"Does this kid think that this way can escape the old man's tracking? That Qinglian strange fire has the mark and aura left by the old man. As long as he tries to refine the Qinglian strange fire, he will eventually fall into the old man's hands."

There was a weird ray of light in the eyes of the cloaked man, as if thinking of something, he grinned and said: "Huh, after this son got the Qinglian fire, this kid should be extremely excited to come. When he refining, he will I know why the old man wants to auction off this Qinglian Alien Fire. With that kid's medicine cultivation, maybe he can evolve the Qinglian Alien Fire. All of this will be just making wedding clothes for the old man. ...Hehe, hehehe."

The evil laughter of the cloak man echoed in this world for a long time, shocking the surrounding blood beasts and fleeing in horror.

I felt it for a while, and the next moment, well, the figure of the cloak shook, and swept toward the depths of the profound mountain range where the iron feather eagle flew, and disappeared in the blink of an eye.

Qin Chen controlled the Iron Feather Eagle and kept flying towards the depths of the Xuanzhong Mountain Range. After flying for several hours, he controlled the Iron Feather Eagle and landed in a remote valley.

Touching Tie Yuying's head, Qin Chen fed a few pills of medicine to Tie Yuying, and his pores were relaxed. Tie Yuying immediately ran to the side to absorb the practice with excitement.

Qin Chen went to the depths of the valley and sat down cross-legged.

When he was on the back of Iron Feather Eagle, Qin Chen had been observing the status of the gas-eater ants in the storage ring. After being stimulated by the thunder's blood, these gas-eater ants were surrounded by electric light, and they all fell into a deep sleep. In the middle, the aura on his body also became deeper.

And on the originally dark backs of these gas-eater ants, there were two golden thunder patterns. With the breath of the gas-eater ants, the light and shade flickered, exuding a strange aura.

Qin Chen encountered such a situation for the first time.

"It is rumored that the air-eater ants can swallow all the true energy in the world. They rank very high on the list of strange spirit worms. These air-eater ants can easily swallow my sword-inspired sword energy. At the level, at least five Step, where did the cloak man get the gas-eater ants?"

It is extremely difficult to cultivate air-eating ants, especially to cultivate them to the fifth level. The materials and resources consumed are absolutely astronomical. At least Qin Chen does not think that in places like the five northwestern countries, someone can cultivate such The strong gas-eater ants come.

"What is the origin of that cloak man? Not only does he possess something like a gas-eater ant, he also has a green lotus demon fire on his body, but he also has such a keen sense of mental power. It seems that he is also an alchemist?"

Qin Chen thought for a long time, but didn't think of the origin of the cloak man. Such a master, who used to be in the entire northwest, had an unknown membership. Isn't it a person from the five northwestern countries?

I couldn't help but shudder, this is not impossible.

At least in places like the five northwestern countries, it is almost impossible to breed air-eating ants. Only in the wider outside world is there such a possibility.

After simply recovering his physical condition and adjusting his body to the peak, Qin Chen turned his attention away from the gas-chewing ant, and took out the green lotus fire in the storage ring.

This green lotus fire is almost in exchange for his life. If he is not a master of formation, or does not have the blood of Thunder, or does not have the restraint of Zhu Family and Wu Xiufu, and Tie Yuying has been in Xuan early. The support of the heavy mountain range... As long as any one of the conditions is missing, it will be extremely difficult for him to survive the cloaked man.

And all of this is to get this Qinglian strange fire and eliminate the curse of Hundred Ghosts in his body.

The only thing Qin Chen prays now is to not let himself down by this Qinglian strange fire.

After clearing up his mood, Qin Chen just opened the jade box, and a scorching flame suddenly filled out, and the temperature of the entire valley seemed to rise in an instant.

At this moment, the strange fire of this green lotus is in Qin Chen's hands, and Qin Chen can more clearly and intuitively feel the special nature of this strange fire. Although its aura is constantly changing, the original power of the flame aura, But it is very pure, by no means comparable to ordinary low-level demon fire.

Although I don't know if this Qinglian Fire is the legendary Qinglian Demon Fire, it must be an extraordinary **** fire, there is no doubt about it.

Without hesitation, Qin Chen immediately pulled this green lotus flame out of the jade box.

Before Qin Chen had time to refine this Qinglian strange fire, he felt a spiritual mark. This spiritual mark is located in the inner corner of the Qinglian Alien Fire Jade Box. It is very cryptic. If it weren't for the Qinglian Alien Fire to be drawn out, even Qin Chen's mental power would not have been perceived before.

With a cold snort, he directly eliminated the spiritual mark in the jade box. Qin Chen didn't hesitate to throw more than ten formations around him, set up the formation, and then the spiritual power penetrated into the strange fire of the green lotus.

The extremely terrifying heat passed over, and a breath of astonishing flame entered Qin Chen's body along his mental power. Qin Chen was shocked secretly in his heart. If he hadn't been very careful, even if his mental power had reached the fourth step, just now. , It is very likely that his mental power will be burned into nothingness, and his consciousness will be severely damaged.

What a terrible flame.

Qin Chen didn't dare to be careless, and what shocked him even more was that with the passage of time, the breath of this green lotus's strange fire was also constantly changing, and the damage to his mental power also changed with the change of breath. The same is changing.

When the strange fire aura of this green lotus fell to its lowest level, Qin Chen even felt that he could instantly refine the strange fire of this blue lotus.

"This is the time."

When the aura of the Qinglian Extraordinary Fire was reduced to its weakest, Qin Chen spurred his mental power to transform into a spiritual rune, plunged into the Qinglian Extraordinary Fire, and instantly refined.

Chapter 396

I thought it would take a lot of effort, but what Qin Chen didn't expect was that in just an instant, he had already refining the strange flame of the Qinglian.

Qin Chen faintly felt that something was wrong. This was too easy. Even when he was refining, it was the weakest time of the Qinglian Alien Fire, but the refining was too simple.

Any refining of demon fire, earth fire, and sky fire is an extremely complicated process, requiring the gradual fusion of mental power and flame to reach a point of perfect resonance, in order to completely refining the different fire.

Refining like Tianhuo is even more difficult, because Tianhuo has an autonomous consciousness, and refining it is tantamount to enslaving or even extinguishing it. Therefore, the stronger the alien fire, the more difficult it is to refining.

But this Qinglian strange fire, just a breathing time, Qin Chen easily blended with it perfectly, and the spiritual power was completely integrated into it, it was too easy.

Even the first-order demon fire, I'm afraid it won't be so easy.

Despite the doubts in his heart, no matter how Qin Chen observes, this Qinglian demon fire has indeed been refined by him, and it feels like an arm-driven feeling, as if it is completely integrated.

Even with the increase in the power of Qinglian's different fire, the hot, as if it can scorch a person's feeling completely disappeared, gently jumping in the palm of his hand.

do not care.

If he didn't understand the reason, Qin Chen didn't think about it, and directly introduced the strange flame of the green lotus into his body.

call! The strong smell of demon fire immediately rose in Qin Chen's mind. Under Qin Chen's control, this green lotus fire appeared above Qin Chen's spirit sea, and the faint smell of fire made Qin Chen's entire soul sea. They all became comfortable, and there was a breath of life, rippling out from the strange fire, nourishing Qin Chen's soul sea.

Qin Chen was taken aback, what kind of flame was this? It contains such a pure life force?

"First refine the Hundred Ghost Curse, and see if this Qinglian strange fire is effective."

What Qin Chen didn't expect was that when he was about to spur this Qinglian strange fire to refine the aura of the Hundred Ghosts curse, a strong life and death crisis suddenly rose from the bottom of Qin Chen's heart, and this Qinglian strange fire never happened again. Without the docility before, a powerful and terrifying murderous intention suddenly burst out, instantly rushing towards the soul sea below.

Qin Chen was shocked in his heart, he had already refined this Qinglian Exceptional Fire, but this Qinglian Exceptional Fire could break free of his control and would launch an attack on his soul sea.

At this time, the breath of Qinglian's abnormal fire skyrocketed, and a scorching breath raged over his soul sea, causing his soul sea to fluctuate violently. It was obviously to be burnt into nothingness under this Qinglian's strange fire.

This Qinglian different fire basically wanted to annihilate his soul.

Moreover, the speed of this Qinglian strange fire was so fast that Qin Chen hadn't had time to react. The opponent had already reached the sky above the soul sea, and the power of the terrifying flame was about to explode.

"Do you really think I'm not prepared?"

Seeing that this Qinglian strange fire was about to explode Qin Chen's soul sea, the panic on Qin Chen's face instantly disappeared, and then it appeared extremely deep.

In the next moment, countless white lights appeared in the sky above the soul sea. These white lights crisscrossed and formed a net of heaven and earth in the blink of an eye, blocking the Qinglian fire.

At the same time, the dazzling long sword of nothingness transformed by the spiritual power of the soul over the sea moved in an instant, slamming on the strange fire of the green lotus.

boom!

The fourth-order mental strength sword collided with the Qinglian fire, and suddenly exploded and shot a terrible impact, raging in Qin Chen's soul sea. If Qin Chen had not been prepared for it, he had placed many restrictions on the soul sea. I am afraid that just this impact can greatly damage his soul sea.

Being chopped by the spiritual long sword in this way, this Qinglian strange fire kept wriggling, exuding bursts of angry and tyrannical aura, that fierce aura, like a purgatory demon, roaring in anger.

"I thought you were a little weird for a long time, but I didn't expect that your strange fire has already born the spiritual wisdom."

Qin Chen was shocked. His spiritual consciousness did not notice the wisdom in the Qinglian Fire, but the restless restlessness and violent murderous aura of Qinglian Fire was overflowing. How could Qin Chen not see this? Is there a problem in Alien?

"It's really amazing. I pretend that I don't have a spiritual intelligence, and I successfully refined it. I didn't expect that there is a spiritual intelligence in you, hidden in the deepest part of the flame, huh..."

Qin Chen sneered. This Lingzhi hiding in Qinglian Abnormal Fire must not be bad for good intentions. If it was a good intention, Qinglian Abnormal Fire would take the initiative to recognize the Lord, and he would have known the existence of Lingzhi. No wonder I was always uncomfortable when I was refining before, it turned out to be such a thing.

But what shocked Qin Chen was that in such a strange fire, there would be spiritual wisdom born. What kind of flame is this?

Anything that can give birth to spiritual wisdom is absolutely an incomparably sky-defying flame. As Qin Chen understands, it is impossible for the demon fire to give birth to spiritual wisdom between heaven and earth, because the demon fire itself is dependent on the survival of the blood beast, and it is a fire element. The original flame in the blood beast.

If you want your own demon fire to possess the wisdom, even the blood beast demon emperor can't do it.

Just like a human pharmacist, could it be a ninth-level emperor-level pharmacist, and it is impossible for the real fire he inspires to have spiritual wisdom, and for the same reason, the ninth-tier fire formation cannot give birth to spiritual wisdom.

Only some innate flames that are naturally raised can give birth to spiritual wisdom.

Among them, earth fire comes from various mysterious places between heaven and earth, and their birth often contains extremely terrifying energy, and they also do not give birth to spiritual wisdom.

The only thing that can give birth to spiritual wisdom is Sky Fire.

This kind of flame was born by the will of heaven and earth, so once it grows up successfully, it will have wisdom and become a creature of fire, spreading across heaven and earth.

It's just that the sky fire is very rare. Even in the Martial Domain in the previous life, Qin Chen had not heard of any alchemist who had conquered sky fire.

Is this Qinglian strange fire still a certain kind of sky fire?

This is the blood spirit fire aura on this Qinglian Mihuo body, it is very obvious, it is clearly a blood spirit fire, how could it be a sky fire?

Although Qin Chen had never seen Sky Fire in his previous life, he still couldn't make a mistake about the difference between Sky Fire and Blood Spirit Fire.

"Don't care about so much, let's talk about it after refining."

Qin Chen didn't know what exactly this Qinglian Alien Fire was, so he simply refined it.

Above the soul sea, countless spiritual powers have all turned into layers of shining light, once again engulfing the green lotus fire, densely packed spiritual runes, like layers of light film, quickly wrapped towards the blue lotus fire. To go, it must be abruptly refined.

This Qinglian strange fire also seemed to feel the danger. At the moment when it was wrapped in the spiritual rune, a violent killing intent raged in the blue flames, with a bang, Qin Chen displayed the spiritual rune Torn in an instant.

397 Devouring Consciousness

Qin Chen was shocked in his heart, this Qinglian strange fire was really terrifying, his fourth-order mental power did not even have a trace of resistance.

After shattering Qin Chen's spiritual power, the violent aura on this Qinglian alien fire became even more severe, crushing down towards the soul sea below.

The terrifying flame immediately collided with the prohibition on the soul sea, just like a comet hitting the planet, and the two sides immediately burst into terrible shocks, only a click sound was heard, the prohibition on the soul sea above the soul continued to flash, and white light bloomed. Out of the dazzling light, withstand the huge flame burning power.

Qin Chen's heart sank. Once the Qinglian Fire broke through the restriction on the Soul Sea, the terrifying flame power would immediately enter the Soul Sea. If the Soul Sea could not hold on, then he would be finished.

"Wan Shen Jue-Tian Yan Forbidden Technique!"

An astonishing spiritual storm swept through and turned into layers of restraint, constantly covering the sky above the Soul Sea, and Qin Chen's spiritual power instantly formed a spiritual vortex. The top of the vortex was like a sharp cone. Rotating frantically, trying to rush into Qinglian's strange fire.

Qin Chen knew very well that only by rushing his spiritual power into the alien fire and extinguishing his own mental intellect could he completely refine it.

Bang bang bang!

The two forces collided with each other, wrestling with each other, and immediately produced a huge storm over the sea of Qin Chen's soul. The mighty flame power swept through, and Qin Chen's fourth-tier mental power could not be resisted, under the burning of the flame. , Continuous ablation.

"how can that be?"

Qin Chen was horrified. At this time, after incorporating the Qinglian Fire into the Soul Sea, his soul power was able to perceive that although the Qinglian Fire was terrifying, it seemed to be in a

rudimentary stage, and it had not become a complete one. Body, so the breath is unstable and constantly changing.

But even with such an embryonic flame, his mental power can't refine the opponent, what kind of flame is this?

I don't believe it anymore.

Qin Chen became fierce, and the mental power storm in his mind spurred to the extreme. In a short time, countless transparent virtual swords appeared in Qin Chen's mind. Each of these sword shadows contained extremely astonishing auras, and they slashed towards the Qinglian fire. Fall down.

Qiang Qiang! The sword light floats, makes a clanging sound, the sword aura is vertical and horizontal, and it has evolved into a monstrous sword formation, with endless sharp edges running through the ancient and modern, suppressing it.

It seems to know how powerful, the riot of the Qinglian Fire is even more terrifying. Boom, an astonishing violent aura that seems to have come from the opening of the world suddenly burst out of the flames, and the breath on the Qinglian Fire reached an unimaginable point in an instant. .

Boom, flames swept through the sky, blocking countless sword lights, and at the same time, the violent aura that could penetrate the soul instantly broke through the ban on Qin Chen's soul over the sea, khaka ka, the bans fell apart one after another under this breath. , The ashes disappeared.

The Soul Sea was completely exposed to the Qinglian Fire. The Qinglian Fire was like a beggar who had been hungry for several days, greedily looking at the soul sea below, and quickly impacted.

Qin Chen's cold hair stood up in an instant, and his cold sweat broke out. Under this violent aura, Qin Chen felt as if he was being stared at by an ancient beast. The green lotus flame did not seem to be a flame, but a wild one. The strange beast wanted to swallow him completely.

Seeing that the flame was about to rush into his soul sea, suddenly, the time of Qin Chen's soul over the sea suddenly stopped, and the mysterious ancient book that had been hidden in Qin Chen's mind seemed to be inspired. It suddenly appeared out of thin air, and the page opened. A dazzling white light seemed to penetrate the sky, shining suddenly on the Qinglian flame, suppressing the Qinglian flame.

The original fierce flames of Qinglian flames were instantly suppressed into a ball, as if a fierce beast had seen an ancient true dragon, and the suppression of that aura made it shiver.

"good chance."

Qin Chen was overjoyed, knowing that the opportunity was rare, a large amount of mental power immediately turned into a torrent, rushing into the flames of the green lotus that was firmly suppressed by the ancient book, and the violent aura on the surface of the flame was immediately extinguished by Qin Chen. Qin Chen's mental power rushed towards the deeper part of the Qinglian fire.

Click! Click!

As if to feel the danger, an extremely violent chaotic aura raged in the cyan flame, and the flame of Qinglian shook crazily, as if to break free from the shackles of the ancient book, rushed out of Qin Chen's mind.

But how could Qin Chen give the opponent a chance to escape, using the ancient book to suppress the opponent's violent aura, frantically mobilize his mental power, constantly impact the core area of the Qinglian flame, and madly engrave a large number of spiritual marks on it.

Finally, the incomparably violent killing intent and murderous aura on Qinglian flames, under Qin Chen's refining, turned into pure flames. Each of these flames is extremely strong, and it seems that each can be cut at will. Kill a Xuan-level martial artist.

"Boom!" In the end, the Qinglian flame trembled, and Qin Chen's mental power completely entered the Qinglian flame, engraving a mark on it, and at the same time Qin Chen dispersed a soul power into the Qinglian fire, Qinglian At this time, there was a conscious resistance to the different fire, as if instinctively threatened, to break away from Qin Chen's soul refining, but under the awe of the mysterious ancient book, Qinglian Flame was completely refining after only struggling for a while. .

When Qin Chen refined the Qinglian fire, a large amount of mottled and chaotic aura instantly rushed into Qin Chen's mind, almost overwhelming Qin Chen's soul sea.

These breaths are incomparably mixed, and they also contain a lot of information, including alchemy information, confidence in the exercises, all kinds of different information, all kinds of messy things.

Qin Chen was shocked, and hurriedly expelled the information from his mind. What a mess, if it weren't for his soul power to be very powerful, reaching the point of gathering souls, just the mixed breath just now. Can break his soul and become an idiot.

If he succeeded in refining the Qinglian Alien Fire, but in the end he was killed by the information contained in the Alien Fire, then he would be too wronged.

"I understand, this Qinglian Alien Fire is not born of spiritual wisdom, but instinctive swallowing consciousness."

At this time, Qin Chen also completely understood.

This green lotus fire does not know what mysterious flame it is. It has amazing spirituality. From the very beginning of its birth, it has produced a trace of consciousness. This thread of consciousness drives it to continuously devour the power that can make it grow. , And with the continuous growth of Qinglian's different fire, this consciousness will continue to rise, and in the end, real spiritual wisdom will be born.

Judging from the violent killing intent of this consciousness, it is unknown how many lives have been swallowed by this Qinglian fire. Once any alchemist tries to refine it, not only can he control it, but will be in this killing intent. Driven by this green lotus fire, instead, the spirit power and true energy will become part of the strength of this blue lotus fire and become the power for its growth.

And every time after swallowing the pharmacist, the spirit and true energy swallowed also gave birth to such a tyrannical killing intent in this Qinglian Alien Fire.

Chapter 398

All the alchemists who auctioned off the Qinglian Fire, thought that they had obtained an amazing flame that could improve their cultivation level after refining, but they didn't know that waiting for him was actually swallowed by the Qinglian Fire. .

If Qin Chen didn't own the mysterious ancient book, he might have been in danger just now, and he would most likely be reduced to ashes by this green lotus fire.

"This man in the cloak shouldn't know the origin of this green lotus fire, but accidentally discovered the fact that this blue lotus fire can swallow the alchemist, and with the swallowing, the power of this blue lotus fire will continue. Ascension, so he thought that this green lotus fire would continue to evolve as it was swallowed. In the end, after reaching the perfection level, it would be completely stabilized, so he kept putting it out for auction. Stop the evolution."

Qin Chen thought about why the man in the cloak wanted to take out the strange fire of the Qinglian lotus for auction, but he couldn't help but sneer after thinking about it.

Although he didn't know what this Qinglian strange fire was, the man in the cloak would actually think that the flame would eventually stabilize after being constantly swallowed, which was too idiotic.

If he guessed correctly, once the green lotus fire keeps devouring the life breath of the alchemist, in the end, this swallowing consciousness will completely become spiritual wisdom, and this spiritual wisdom will be full of violent killings. Meaning, swallow everything it can swallow.

At that time, let alone refining it, it may even become the entire Tianwu Continent, a terrifying disaster, and no one can cure it.

After Qinglian Alien Fire was refined, the mysterious ancient book instantly recovered calm and disappeared again.

And Qin Chen did not relax, and continued to refine the Qinglian Fire. Gradually, the original killing aura and the negative information on the Qinglian Fire were all refined and disappeared, turning into a layer of gray matter. After Qing Lian Di Huo lost this layer of gray aura, the cyan aura that it exudes was more radiant and looked extremely comfortable.

A splendid cyan lotus floats above Qin Chen's soul sea, gentle and bright.

And the aura of this Qinglian strange fire was also completely stabilized, no longer like the constant change at the beginning, and finally stabilized at the fifth-order level.

That scorching breath, even after refining, still made Qin Chen feel heart palpitations.

Qin Chen knew that although this Qinglian alien fire remained at the fifth level, it was definitely not just a fifth-level alien fire. As it continues to absorb and grow, it will continue to increase, as to how far it can grow. , Qin Chen himself is not clear.

"Since I don't know if you are the legendary Qinglian Fire, then I will call you Xiaoqing."

After taking a deep breath, Qin Chen immediately urged Xiaoqing to get closer to the curse of Hundred Ghosts after thoroughly refining the Qinglian Fire.

At this time, the Hundred Ghosts curse turned into a trace of black matter lingering around Qin Chen's body, forming an extremely deep level of energy, dormant in his body. During this period of time, it continued to corrode and affect Qin Chen's cultivation. It is extremely ingrained and cannot be eliminated.

But when Xiaoqing approached, the energy of the Hundred Ghosts curse suddenly seemed to have seen a cat and a mouse, with a trace of fear exuding all over Qin Chen's body, fleeing frantically.

Qin Chen immediately urged the Qinglian fire to chase and intercept, and saw the power of the Qinglian fire. As long as he came into contact with the curse of a hundred ghosts, the originally extremely stubborn black energy suddenly melted and disappeared like white snow under the scorching sun. Easy and effortless.

After half a stick of incense, the cursing power in Qin Chen's body completely disappeared, leaving no trace of it.

But when the last trace of curse power was removed, Qin Chen suddenly felt a sense of renewed ease, as if a person who had tied countless iron blocks to himself had removed all the iron blocks, suppressing him for many days. The haze was swept away in an instant.

boom!

At this moment, Qin Chen's Baihui Point shook slightly, and his thoughts were as sparkling as jade, extremely accessible, as if he had experienced a rebirth.

"Huh, the Hundred Ghosts Curse that has troubled me for many days is finally cleared."

Qin Chen couldn't express his ease. When the Hundred Ghosts curse was cleared, his will became more solidified and his mental power was sublimated.

At the same time, he was also shocked secretly in his heart. This Qinglian Misfire was even more terrifying in his imagination. The Curse of the Hundred Ghosts is a very special curse. It didn't take so much effort before, and it was impossible to get rid of it.

But before this green lotus fire, the fragile ones looked like ants, no, even ants were inferior, which greatly exceeded Qin Chen's expectations.

"There are not many days left before the final competition. Although these five northwestern countries are remote, they have many relics from before the dark age, and there are so many special treasures. In the ancient times, With a very special status, the ancient southern capital has been preserved since ancient times. It is the core of this northwestern relic. There should be a lot of information left, but you must not miss it."

With a long howl, he swept up the Iron Feather Eagle, Qin Chen urged the Iron Feather Eagle to gallop towards the ancient southern capital.

Qin Chen didn't have much interest in the Five Nations Grand Competition, but Qin Chen was curious about this ancient relic of the ancient southern capital, and naturally he couldn't miss it.

Deep in the Xuanzhong Mountains.

A black figure was flying quickly in the mountains.

"Roar!"

Suddenly, a terrifying roar came, and a huge blood beast rushed out from the side. This blood beast was covered with blood-colored scales and covered with sharp thorns. The blood basin opened wide and turned towards the black figure. The ground bite down, the smelly demon wind swept across, and the sound shook ten miles.

The peak blood sickle beast of the late Xuan rank!

The black figure didn't seem to have time to react. Seeing the huge mouth of the blood sickle beast, he was about to swallow it, suddenly--

Puff!

A black silk thread flashed across, and the blood sickle beast's body split into two instantly, hitting the ground heavily, and the blood spilled on the ground like a fountain.

The man in black stopped his figure, smiled coldly, glanced at the blood sickle beast disdainfully, just about to say something, suddenly, his breath changed drastically.

"What? Why did the breath of Qinglian's strange fire disappear? How could it be possible?"

An angry and trembling sound came from the cloaked population. The cloaked man's eyes were shocked and he kept perceiving, only to discover that the Qinglian fire that could have been vaguely sensed had completely disappeared from his perception.

impossible?

The man in the cloak murmured, from obtaining the Qinglian Alien Fire to retrieving the Qinglian Alien Fire, there were at least a dozen alchemists swallowed by the Alien Fire, and this was the first time this happened.

Losing the perception of Qinglian's strange fire, how could he retrieve the Qinglian's strange fire in this vast and profound mountain range?

"Qinglian Yihuo will not destroy the mark I left by herself. It must be that kid, that **** kid."

The man in the cloak roared, hoarse, and the terrifying voice echoed between the heaven and the earth, shaking the mountains and the wild.

Chapter 399: Meeting You Qianxue Again

Above the boundless sky, a black shadow kept thousands of meters high in the sky, flying by at extreme speed.

"Gu Nandu is tens of thousands of miles away from Wucheng, bypassing the brown rock mountain range in front, and almost reaching the ancient city of Tian."

It has been three days since he left the Xuanzhong Mountain Range. During these three days, Qin Chen has been familiar with the abnormal fire in his body, and finally tempered the Qinglian strange fire like a fire and innocent.

This time, the place of assessment for the final exam of the Five Kingdoms Grand Tournament, although it is the ancient southern capital, but because the ancient southern capital generally only appears on the

day of the assessment, the meeting place that Qin Chen and Lingwu King Xiao Zhan agreed upon was in the sky. Ancient city.

Tiangucheng, like Wucheng, is a city located on the border of the five countries. This city is located near the ancient southern capital. Every five years, the Five Kingdoms Grand Tour attracts a large number of people and becomes a holy land.

Not long after, the brown rock mountain range was left behind, and there was an endless plain ahead.

On the plain, a primitive city appeared at the end of the line of sight, towering on the plain like a diamond inlaid.

It is the ancient city of Tian.

"Yo!"

Approaching the ancient city of Heaven, Tie Yuying suddenly roared restlessly, as if he had felt something extremely terrifying, no matter how Qin Chen urged him, he was unwilling to move forward.

"I heard that within a thousand miles of the ancient Nandu, no blood beast can approach it. Instinctively there is a kind of fear, which is actually true."

Qin Chen was shocked. It was rumored that no blood beast could get close to the ancient southern capital. Qin Chen thought it was just an exaggeration, but now it seems to be the case.

In this air, there seemed to be a mysterious power to prevent any blood beasts from approaching.

"What on earth is this ancient southern capital?"

In the end, Qin Chen fell from the iron feather eagle's back and allowed the iron feather eagle to forage for food on his own near the brown rock mountain range. Only then did Qin Chen head to the distant ancient city by himself.

On the ground, weeds are as high as one person, and mottled rocks and gravels are piled everywhere, full of desolate feeling.

Suddenly, a sound of gold and iron crossed with the wind and entered Qin Chen's ears.

"Is there a robber?" Qin Chen suddenly raised his head and looked into the distance.

It is said that the borders of the five countries are full of warriors and bandits, especially in the wilderness near the ancient city on this day. Whenever the five-year Northwest Great Tournament opens, there will be a large number of wandering warriors and caravans seeking business opportunities.

, Come in a stream.

At this time, it is often the time when bandits are most rampant.

However, Qin Chen had never encountered it because he was riding on the Iron Feather Eagle. Unexpectedly, it was not long after he got off the back of the Iron Feather Eagle, he actually encountered it?

Can't help moving forward.

"what!"

"It's actually her, You Qianxue!"

Curiously flying by and approaching, a few miles away, a group of people came into Qin Chen's eyes, fighting.

Among them were a group of fierce robbers who attacked from the outside, one by one with murderous aura, armed with sabers, and fierce.

Surrounded by them, there were two young men. One was a young man in a silver robe, with extraordinary aura, with a silver crown on his head and a silver fan in his hand. His face was extremely handsome, giving a handsome boy-like beauty. feel.

But in Qin Chen's opinion, the dressing up was a bit of a damsel, and the eyebrows were raised and the corners of his eyes were slender, giving people a feeling of femininity and coldness, which made people look very uncomfortable.

However, his cultivation is extremely terrifying. He has obviously reached the realm of half-step profound level. The zhenqi in his body has even evolved into real power. It is quite terrifying and amazing. The silver fan in his hand is like a tossing and soaring. The silver dragon, easily tore the body of the besieging people, those who besieged him, under the silver fan dancing, almost had no resistance, and they were sealed by a throat.

"The peak cultivation base in the late stage of the heavenly ranks is close to half a profound level, but it can cultivate to this level, and the true energy is extremely strong, not even weaker than the general early stage of the profound level warriors. When did the five northwestern countries appear such a genius? The strong?"

If he guessed correctly, the other party's cultivation technique was at least a profound technique, which was rarely seen in the five northwestern countries.

Moreover, he is only about twenty years old, and he is a warrior at the peak of the late stage of the heavenly rank. Why has he never heard of it before?

Shifting his gaze, Qin Chen focused his attention on the beautiful woman next to the silver crown youth, still wearing a white gauze dress that looked like an immortal, with bright eyes, bright teeth, and red lips, not You Qianxue but who?

I haven't seen you during this period of time. I don't know if it's Qin Chen's illusion. You Qianxue's temperament is more dusty, and her appearance is more and more beautiful. If the previous You Qianxue already has the temperament of an immortal, now she has a kind of return. Go, come back to the fairy posture of Yaotai.

And not long afterwards, You Qianxue's cultivation has reached the peak of the late stage of heaven, and he is not weaker than the silver crown youth.

Slightly surprised, Qin Chen was not particularly surprised. After being baptized in the blood spirit pool, Qin Feng and these You Qianxue had already broken through to the middle stage of the heavenly stage. After this time passed, the blood spirit fluid energy integrated into the body, They have completely

transformed their bodies, and their talents will also be amazingly improved. It is also a matter of course to break through the peak of the late stage of heaven.

"Sure enough, it's an ant from the Five Kingdoms, and my eyes are not long, so I dare to rob me and Qianxue."

The silver-crowned youth is very affectionate to You Qianxue's name, and seems to want to show it in front of the other party. He is in the shape of electricity, walking among the crowd, waving a silver fan with his right hand, and a fan-shaped glow spread out, like The storm swept through, and all the people in the entrapment vomited blood back, bursting into blood fog.

You Qianxue frowned and said nothing.

"I actually met her."

After seeing You Qianxue, Qin Chen was speechless, and the thief was too wicked. If you asked the entire Northwestern five countries, who was the last person Qin Chen wanted to see, this was You Qianxue.

In the blood spirit pool, he unintentionally looked at the opponent's body, and the opponent hated him a long time ago. Every time he meets, there is inevitably a battle.

Now if you see it here, it must be another trouble.

Lowering his head, Qin Chen turned and left.

"retreat!"

Seeing that the two were so young and their cultivation bases were so terrifying, the leading robber was so depressed, he almost vomited blood, had already felt the heart to retreat, and decisively ordered.

Whoosh whoosh!

The people in the siege had long been unwilling to fight. Hearing the order, where would they continue to stay, one by one, they fought their fate and turned their anger and fled outside.

What made Qin Chen depressed was that the other party was so immortal that he actually rushed in his direction.

"Go away!"

The leading robber was **** and fierce. Seeing someone in front of him, he didn't hesitate to stab Qin Chen with a big sword, trying to cut him off.

"Hehe, this kid is so bad luck, to appear here, really seeking his own death."

The silver-crowned youth originally wanted to chase him, but when he saw this scene, he couldn't help but stop his figure, embracing his arms, his mouth was drawn with a leisurely smile, like a smile but not a smile.

Chapter 400

"It's him?" You Qianxue also saw Qin Chen at this time, and her eyes were surprised.

At this time, the battle knife in the hands of the robber leader had already come to Qin Chen's head. Before the battle knife fell, the sharp blade had turned into a terrifying wave, completely wrapping Qin Chen.

The sword energy is vertical and horizontal, let alone a living person, even if it is a piece of iron stone, it will be cut in two.

Qin Chen was depressed. He didn't provoke this guy. It's okay to run to his own side, and even kill himself, really treat himself as a lamb?

A sharp light flashed in his eyes, well, a sword light flashed in the void.

The next moment, the leading robber stagnated, his eyes widened in anger, and he stared at his chest in amazement. A thin thread had already been cut out from his coat robe, and a trace of blood leaked from the thin thread, and immediately, His body was divided into two, separated up and down, and flew out ten meters away.

When the other robbers saw this, they dared to approach Qin Chen and fled in fright.

"Huh, I'm not dead!"

The smile on the silver crown youth's face solidified, his eyes turned gloomy, and he gave a cold snort.

Turning his head, he found that You Qianxue was also looking at each other, with a strange expression in her eyes.

"Qianxue, do you know him?" The silver-crowned youth instinctively began to hostile Qin Chen.

You Qianxue ignored the other party, but rushed towards Qin Chen, frowning and said: "You actually acted alone and didn't go with the team of the Great Qi Kingdom?"

Qin Chen saw that the other party had discovered him, and he took the initiative to speak. He turned around and ran. He was really stingy and had to stop his steps. Hehe laughed, "You are not the same."

"Qianxue, who is he?"

The silver-crowned youth came to the front and looked at Qin Chen coldly, his expression slightly changed.

He and You Qianxue are not old acquaintances, but they only met when they followed the teacher to Ling Tianzong this time. When they first saw a beautiful woman, they were immediately squinted by You Qianxue. As a genius of Liuxianzong, there are so many women who admire him. But those women were nothing compared to You Qianxue.

He could hardly imagine how such a celestial being would emerge from such a small place as the northwest. After learning that You Qianxue would go to the ancient city of Heaven, he proposed to go out with her to practice. You Qianxue originally refused, but Under the command of Sect Master Ling Tian, he finally agreed.

In the eyes of the silver crown youth, with his own cultivation and talent, he only needs to show a little bit in the process of experience, what kind of woman will not be dumped by him, but what he did not

expect is that he is quiet along the way. Qianxue was always cold and cold towards him, making him extremely uncomfortable. Finally, a group of robbers appeared, and they were ready to show off and touch the heart of the other party. Who knew that such a young man would come out.

It happened that You Qianxue looked at anyone on weekdays, and was extremely indifferent. Only when he saw the young man, a strange light flashed through his eyes, which made the silver crown young man feel like a big enemy in his heart, and developed a strong hostility towards Qin Chen.

You Qianxue's eyes flashed, and she smiled faintly: "He is a friend of mine, Qin Chen, who will also participate in the Grand Tournament of Ancient Southern Capital."

"friend?"

The silver-crowned youth snorted coldly. There is no genius in the land of Pill Pills like Five Kingdoms. He didn't put Qin Chen's strength in his eyes at all, but You Qianxue saw the strange gaze and smile on his face. It made him very uncomfortable and couldn't help but snorted.

Qin Chen also looked at You Qianxue like a ghost. This time when You Qianxue saw him not shouting and screaming, she actually introduced herself to others as his friend. What a joke, not to mention the enemy is already thank God.

Looking suspiciously at the silver-crowned youth, Qin Chen seemed to understand something in his heart, feeling the hostile aura on his body and the faint smile outlined by You Qianxue's mouth.

He immediately laughed: "Hehe, You Qianxue, who is this? Why don't you introduce it?"

You Qianxue said lightly: "This is Li Kunyun, a genius disciple of Liuxianzong!"

Stay in Xianzong? Is there such a sect in the five countries?

Can not help but stunned: "Liu Xianzong, what sect is that?"

You Qianxue saw that Qin Chen's expression did not seem to be fake, and she couldn't help but said in amazement: "Don't you know?"

"what do you know?"

You Qianxue said silently: "It seems that you really don't know. Ancient Southern Capital has always been the secret of my five northwestern countries, because my five northwestern countries rarely communicate with the outside world, so it was only spread in our five countries before, but not long ago, I don't know who has spread the news of the ancient southern capital outside the five countries. Outside of our five countries, there is an extremely mighty Dawei Dynasty. This Liuxianzong is an extremely powerful sect in the Dawei Dynasty, very close to our five countries. This time the Five Nations Grand Tournament, not only will there be geniuses from the five northwestern countries, but in addition, there are also many forces from outside the five countries who want to explore the legendary ancient southern capital and stay in the fairy sect. It's just one of them."

Hearing this, Qin Chen was stunned, and even these things happened, and couldn't help but say: "Does the five congresses agree with them..."

Half-talking, Qin Chen couldn't help but smile. He really asked more about it. The powers of the five countries would definitely not be willing to own their own interests and be occupied by others.

However, this world relies on fists to speak after all. With the strength of the five nations, the invasion of the Dawei Dynasty cannot be prevented at all. It can only swallow the sound, deal with it, and divide the benefits as much as possible.

Moreover, since Gunan is already known to the outside world, then from now on, the place of the blood spirit pool will definitely be known to the outside world and get a share of it.

Li Kunyun squinted at Qin Chen, smiled at the corner of his mouth, and said faintly: "Your Excellency was born in a remote place in the northwest of the project. It is not clear to me that I stayed in Xianzong. In fact, you don't know how big and vast the Tianwu Continent is. The forgotten corners are actually like ants, and the so-called geniuses in the northwest are also vulnerable. They are only the weakest when they are released to the outside world. Not to mention, the ancient southern capital alone, the northwestern capital for so many years, We haven't studied it clearly. This time we stayed with Xianzong to come here because we wanted to thoroughly investigate and understand the relics of the ancient southern capital and serve the world's geniuses."

In the words, a kind of lofty posture was revealed.

The appearance of this tugging twenty-eight-five makes Qin Chen too lazy to look at each other. Isn't it awesome to stay in Xianzong? Don't talk about staying in Xianzong, even the Dawei Dynasty, he has never heard of it in his previous life, obviously it is not a great power, and I don't know where the confidence comes from.

Li Kunyun's face turned gloomy. If You Qianxue were not present, he wouldn't mind teaching the other party a bit, letting him know what the world is.

"Qin Chen, are you going to the ancient city?" You Qianxue said suddenly.

"Not bad."

Qin Chen nodded, his face was stunned, wouldn't this girl want to be on the same road with him? Do you want this Li Kunyun to deal with himself?

Li Kunyun saw that the situation was not right. This Qin Chen seemed to be on the road with them. Originally, he and You Qianxue had a lot of opportunities to be alone. Now that Qin Chen comes in, it will definitely affect his plan, and he can't help but feel gloomy. : "Brother Qin, you are alone, there should be some important things, right?"

In his eyes, a sharp warning fell on Qin Chen.
