[Chapter 3911: Space Origin Stone](#)

"Boss, we don't know those bugs, but I don't know why, the aura on them always feels familiar, as if they should know each other." Xiaoyi and Xiaohuo frowned.

Qin Chen's heart moved. Are these Void Devouring Insects and Little Ants and Little Huo really the same kind of strange spirit insects? It's no wonder that Qin Chen guessed that Xiaoyi and Xiaohuo were the strange spirit insects that black slaves had obtained in the Demon Ancestral Mountains in the past. They were later controlled by Qin Chen. Although Qin Chen's improvement, Xiaoyi and Xiaohuo's strengths are also in the rapid improvement, swallowed too many treasures

They are now afraid that they are enough to clash with ordinary earth sages, but Qin Chen always has doubts in his heart.

That is, the growth of Xiaoyi and Xiaohuo is too limitless. Although the reason why Xiaoyi and Xiaohuo have grown up to now is because they have swallowed countless treasures over the years, this growth rate still makes Qin Chen feel exaggerated. And pervert.

Qin Chen always felt that Xiaoyi and Xiaohuo definitely have extraordinary origins, otherwise it would not have been possible to grow to this point in so many short years.

However, Qin Chen didn't dare to use Little Ant and Little Huo to confront these Void Devouring Insects rashly, it would be bad if it caused trouble.

Whoosh!

Qin Chen swept toward the depths of the dragon's nest formed by the Shenlongmu, because the breath that attracted him was located in the depths of the dragon's nest.

As Qin Chen continued to deepen, those venerables who could not pick up the Shenlong Wood also entered the depths of the Dragon Nest and began to search for other treasures.

What surprised Qin Chen was that there were indeed many treasures in this dragon nest.

"That is....."

In the depths of Qin Chen's dragon's nest, he suddenly saw a piece of black lustre in the dragon's nest. When he picked it up, it turned out to be a piece of gold and iron, a precious material of the sacred class.

Not only Qin Chen, Qin Chen encountered some venerables along the way, and these venerables also found some special materials in this dragon nest.

"Ha, the essence of the wood, the emperor in the wood, this turned out to be the legendary emperor wood stone!" When Qin Chen passed a short dragon's nest, he saw a venerable clean the dragon's nest. He unexpectedly found a royal wood stone. "Hurry up, look for it, the emperor wood stone is like a mineral vein, it grows continuously, surely it hasn't been dug out yet." The other venerables in this dragon's nest saw someone dug the emperor wood stone, and couldn't help being jealous. , Immediately searched frantically,

Everyone wants to find another royal wood stone. Qin Chen passed by a misty area of spatial fluctuations in a dragon's nest again, and saw a group of venerables constantly piercing around in the misty area of this space. Seeing their appearance, they were obviously from the same race. Space fog area

It's not right, I'm willing to completely wipe out this foggy area of space. "Found it, found it, the patriarch, found a space origin stone!" Suddenly, a young venerable rushed out of the space fog area and said excitedly. He held a transparent stone in his hand, which seemed to contain the entire space. World one

Like.

"Space origin stone?" Qin Chen passing by was also shocked. He had heard that this space origin stone is a top-level space treasure. Once it is fused into the body, it can allow the owner to master the terrifying power of space, and even let the earth respect Level masters form a weak space

The field is a top treasure.

"Space Origin Stone?"

"There is also such a treasure, a fellow of the Luosha tribe."

"kill!"

Suddenly, several venerables who had been searching for treasures in the surrounding dragon nests immediately killed them, trying to plunder the space origin stone in the hands of the young venerable.

"Who would dare to **** the treasure of my Luosha tribe."

An angry roar sounded, and several sages rushed out from the misty area of the space, and they were fighting with this group of people. Suddenly, there was a roar, and the group of people slayed everywhere, and even attracted several lands. Respect the master.

Upon seeing this, Qin Chen ignored it and continued to go deeper.

It's not worth the loss to waste time here for a space origin stone.

It was too late for him to enter, and as Qin Chen deepened, the aura that attracted him became stronger and stronger, and there was even a billowing dragon agitated in Qin Chen's body, and that force was enough to make him abandon everything.

Qin Chen felt that in the depths of this dragon nest, the thing that attracted the blood and breath of the real dragon in his body was absolutely against the sky.

Qin Chen continued to deepen in the dragon's nest and saw that many venerables had gained.

This dragon's nest is simply a treasure.

"I don't know what treasures are in the other abandoned stars and mysterious places." Qin Chen imagined in his heart that this dragon nest is so amazing, and there may not be top treasures in other places.

I don't know what exactly this place is, it can give birth to so many good things.

Moreover, if he guessed right, the previous chaos tree should also be in this mysterious secret realm, but I don't know where it is.

"and also....."

In Qin Chen's mind, he thought of the demon girl that he saw outside the Vientiane God's Treasure. Is that you?

With the strength of the opponent, he will definitely be able to enter the depths of the Vientiane God's Hidden. If he learns the news here, he will definitely come as soon as possible. If there is no such breath that attracts Qin Chen's deepening, Qin Chen will definitely be the first. Time to find each other.

Along the way, Qin Chen saw that many venerables had gained.

Of course, this is not a safe place.

Some people broke into some special places in the dragon's nest, and were immediately surrounded by a group of Void Devouring Insects, their whole body was gnawed clean, screamed screaming, and fled everywhere.

In fact, in this dragon's nest, encountering danger is far more than simply eating worms. Here, there are even dangers that others don't know what they belong to. "Run, run away--" When Qin Chen passed a dragon's nest area, he saw a big figure of Earthly Sovereign rank rushing out of a bottomless middle tree hole, covered in blood, and he was still behind him. Following several sages, these sacreds

The person is also dripping with blood.

"That's the patriarch of the mixed light clan!" Seeing the earth-zun rushing out of the tree hole from a distance, the nobleman couldn't help but say in surprise.

"Ah!" Seeing that a few of them were about to escape from the tree hole, suddenly, a pitch-black tentacles in the tree hole rolled down like lightning, and the several sages behind the earthly statues all rolled in.

"No!" Even the strong man from the earth has not escaped a disaster, another black tentacles like lightning, instantly involved him in the tree hole, and his unwilling screams sounded in the hole.

Such a scene caused many venerables in this dragon nest to stop and dare not get close to this tree hole. There is a dark tree hole in this dragon's nest. From anyone's point of view, there must be a treasure in it, so the patriarch of the mixed light clan will enter with his subordinate masters, but the result is extremely tragic. Such a terrifying foreign body.

[Chapter 3912: A lake](#)

"The mixed light tribe is miserable this time, and several masters have been wiped out." A venerable in the distance of the dragon's nest saw this scene, and his face turned pale, and said: "I heard they found a piece in this tree hole. The stone book with scriptures, I want to kill with the power of the family

Going in to seize this stone book, I didn't expect the whole army to be wiped out. "

"What's the ghost inside, it's so terrible, even the earth-sovereign doesn't have the power to fight back?" The other senior could not help but shudder, far away from the tree hole.

"That thing carries a strong aura of chaos, and there is a kind of weird power at the beginning of the universe, as if all the creatures here have this kind of aura." Qin Chen was shocked and frowned.

In the situation just now, if he broke in, it would be dangerous. I don't know if he can run out alive.

But what puzzled Qin Chen the most was all the things here, like the black phantom, the Void Devourer, and the black tentacles, all carrying a strong aura of the initial chaos of the universe. This aura is basically in other places. Imperceptible.

Qin Chen stopped his desire to search for these treasures and continued to deepen.

suddenly.

The dragon's nest in front seemed to have come to an end, and what appeared in front of Qin Chen was a lake. There is a big lake in front of us, the water of the lake is rippling with blue waves, it looks like a piece of jasper, the breeze is coming, making people feel refreshed, there are many venerables on the shore of this big lake, they are on the edge of the lake, one by one, they are chained. Penetrated

In the lake, something seems to be fishing.

After seeing the sight in front of them, the unsuspecting person still didn't know that he was actually in the mysterious dragon nest hidden deep in the Vientiane God, and thought he was on the shore of a great lake in a peaceful place in the universe.

"Why is there a big lake here?"

Looking at the lake in front of him, Qin Chen was also in a daze, which was completely different from the scene deep in the dragon's nest he had imagined.

The blue water was rippling and sparkling, and people who didn't know thought it was a paradise. Who would have thought that it was in the depths of the dragon's nest that many people imagined to be dangerous.

At least in Qin Chen's imagination, the depths of this dragon's nest would at least resemble the sword-burial abyss of the sword mound, a dark and terrifying existence. He never imagined such a peaceful scene.

It was unexpected.

Whoosh!

Qin Chen came to the edge of the lake.

On the edge of the lake, some sages had already arrived, and their eyes condensed when Qin Chen arrived.

Qin Chen had already confirmed his strength before, and the general group was afraid that they would not dare to confront such a true dragon master.

"Huh? No!" When Qin Chen came to the edge of the lake, he realized that there was something wrong with the lake. The lake was sparkling. At first Qin Chen thought that the lake was some kind of special source water, but he came to the lake. On the edge, I discovered that the lake was unfathomable and the whole

The lake gave people an incomparably deep feeling. When the soul was detected, the soul light was completely absorbed.

This turned out to be a lake of soul power.

In addition, the power of the soul, with a strong aura of chaos, even gave Qin Chen a sense of the origin of the universe and the beginning of everything.

"Why, in this lake, I actually felt the origin of the birth of the universe, what exactly is this lake?"

Qin Chen was shocked.

From the soul aura of this lake, Qin Chen actually felt the origin of the universe. In his mind, the soul sea vibrated, and the Book of Origin quickly appeared, clattering. Qin Chen felt that everything around him had disappeared. There was only this lake in his eyes, and in the depths of Qin Chen's mind, the lake he saw had become a special existence. It seemed to others to be just a lake, but in Qin Chen's eyes Different, it involves

When it comes to the origin, the beginning... At this time, Qin Chen is completely immersed in it, because he saw something very extraordinary in this lake, and he couldn't tell what this extraordinary thing was, just I feel that this thing contains the origin of the opening of the universe

, Even contains the rules of the universe's operation, as well as the origin, eternal life, life and death... and even the universe, all living things in the world. Qin Chen's way of origin has already attained a certain degree, and he has a deep understanding of the origin, but when he saw this lake, Qin Chen suddenly discovered that he was on the path of origin. Just a small step

, Took the first step, really can only be regarded as a furry. Qin Chen was obsessed with this lake, his spiritual power was completely immersed in it, his soul seemed to be swallowed by a black hole, thinking hard, comprehending the essence of origin, and searching for the evolution of this road. If this one

The road can really be intact, it would be too scary, then what about the earthly respect, and how about the heavenly respect? !

This represents the true meaning of the origin of the universe.

Qin Chen, who was immersed in this evolution, seemed to be petrified, but his desperate calculations put him in a crisis.

Qin Chen didn't realize it at all, but this desperate calculation and insight was a great loss of his vitality and even the power of life. He was already immersed in it, even he didn't even know it.

Qin Chen's vitality and even his vitality were so depleted that his head began to turn white, as if he had grown tens or hundreds of years old in the blink of an eye.

But at this moment, the true dragon gas in Qin Chen's body suddenly appeared. In his mind, the origin of time was also activated. Even the magic tree of the ten thousand worlds in the jade plate of the Universe Fortune and Transformation also quietly operated, surging out endless power. . The surging power feeds back Qin Chen's soul, and the emptiness of karma and the origin of time in the soul also begin to guard Qin Chen's soul to stop Qin Chen's aging and prevent him from getting lost in the origin of heaven. To make up for his loss

Blood energy and vitality.

At this time, the rest of the venerables by the lake were stunned.

At this moment, Qin Chen's dragon spirit was rolling, and his black hair turned white and black, black and white, and so on.

This shocked the other venerables. They could also see how extraordinary the lake was, but there was absolutely no such thing as Qin Chen's reaction when he saw the lake.

The eyes of some of the surrounding venerables flashed light, could it be because Qin Chen was a real dragon expert?

It is very likely that this place is the depths of the dragon's nest, and perhaps this lake really has a special effect on the experts of the true dragon clan.

Due to Qin Chen's previous foul name, other people did not dare to rashly take action. If they knew that Qin Chen was in a crisis now and could not move at all, they would definitely regret it.

boom!

I don't know how long it took.

Qin Chen suddenly came to his senses. He opened his mouth and spurted out a mouthful of blood. After this mouthful of blood spurted out, Qin Chen felt better.

He looked at the lake in amazement. He could feel that the strong real dragon attraction was coming from the depths of this lake.

[Chapter 3913: Raw fruit](#)

"so close."

Qin Chen looked at the lake in front of him with palpitations, and endless fear and astonishment emerged in his heart.

Until now, he was completely awakened, knowing what a terrifying situation he had fallen into before.

If it wasn't for his special soul, and for treasures such as Time Origin and the Devil Tree of the Ten Thousand Worlds, he might have completely fallen into the power of this soul, and even turned himself into a part of this lake.

Moreover, this is still when he is completely unaware.

Thinking of this, Qin Chen had endless fears in his heart. He sat cross-legged on the ground, and suddenly, the blood surging in his body, as if a real dragon roared and hovered in his body, and began to slowly recover his previously damaged body.

Other people around saw Qin Chen suddenly spouting a mouthful of blood, and then sat on the ground with a pale face. Only then did they suddenly come to Qin Chen's situation before, and they were all annoyed.

If they knew that Qin Chen was in distress before, they would definitely not hesitate to kill Qin Chen and take away the treasures from him, but it was too late now.

Especially the one closest to Qin Chen's eyes flashed with a cold light, and a vague murderous aura radiated from him, watching Qin Chen closing his eyes and cultivating the spirit, there was an urge to try.

But in the end, he held it back.

The lesson for the dark traveler is ahead. Once he can't kill Qin Chen, then death will greet him. He finally came here, he didn't dare to take such a risk. In Qin Chen's body, the surging of the true dragon's aura resonated constantly in his body. Although the lake in front of him almost killed him, it also gave him a huge benefit. The origin of Qin Chen's body The book, more and more vast

Profound, billowing chaotic air surging, containing the breath of heaven and earth.

His book of origin actually has a kind of universe opening up, containing the original meaning of all things.

"Ugh!"

Suddenly, Qin Chen opened his eyes and sighed slightly. Although his book of origin has undergone some changes, this kind of artistic conception is very thin, which does not mean that he has truly mastered the origin of the universe and possesses this kind of artistic conception. Up.

If Qin Chen can hold on for a longer period of time, he may be able to feel more, but in this way, Qin Chen will also be more dangerous.

"Boom!" In Qin Chen's body, the surging force was surging, but the previous damage was so great that no matter how Qin Chen activated the blood in his body, he could not repair himself in a short time, especially that. The book of origin, blooming with a rainbow, swallowing wildly

Eat the chaos of the outside world.

It's a pity that although the chaos here is strong, it is still far inferior to the acquisition of the book of origin.

The change in Qin Chen's body also attracted the attention of others around him.

"This guy from the True Dragon Clan actually cultivates here?"

"Did he see something in this soul lake just now?"

"When we came here, we didn't see anyone staring at the lake for a long time like him, or even vomiting blood. This person is a true dragon clan, and here is the depths of the dragon nest. Could it be that he really got something?"

Many people are talking about it.

There is a dragon nest made of Shenlong Wood, and Qin Chen is the identity of the true dragon clan, which makes people unavoidable.

Only in the next moment, Qin Chen's actions made everyone even more speechless, and he saw a fruit suddenly appeared in Qin Chen's hand, and then he bit in his mouth like this and started to eat.

Damn, where did the sand sculptures come from? Actually eat fruit here?

wrong! At the next moment, everyone's eyes were rounded, because they could see that what Qin Chen was eating was the chaotic fruit. On the fruit, the billowing chaotic air permeated Qin Chen's body. To nourish his flesh

In addition, the book of origin in Qin Chen's body also surged with a trace of chaos.

"Is this guy crazy?"

Everyone looked at Qin Chen in amazement. Although the chaotic fruit is a treasure, it is definitely not something that can be swallowed directly. It contains special power that can even corrupt the body of the venerable. Just as those venerables expected, the chaotic fruit entered Qin Chen's body, and there was a terrible force in it, and it began to penetrate into Qin Chen's body. This is the terrifying power that the chaotic fruit was born for countless years during the growth of the chaotic fruit. Correct

The Venerable is harmful and useless.

What's more terrifying is that this power was born from the body of Chaos Fruit and evolved over infinite years.

"Huh, even the power that Demon Li and Chiyan Demon Lord can digest, this Young Master can't eliminate?" Qin Chen sneered, not worried at all. Om, no one saw it, there was a sudden surge in his body. A black totem power came out, the totem power exuded a mighty aura, and it crushed and powdered the special power in the chaotic fruit little by little.

Broken and dispelled, in the end, this force directly entered Qin Chen's dragon body and became a part of Qin Chen's physical power.

Finally, after absorbing a chaos fruit, the book of origin in Qin Chen's body was filled with the billowing chaos aura, becoming more profound and vast.

Qin Chen could feel that some changes had taken place in his book of origin, but he could not figure out the specific changes.

call!

Qin Chen let out a breath, opened his eyes, and stood up peacefully.

This surprised everyone. They all heard that the Chaos Fruit cannot be swallowed easily. Once swallowed, it will inevitably cause physical damage, but Qin Chen is unharmed. Could this Chaos Fruit have no effect on the True Dragon Race? Or what reason? When everyone was puzzled, Qin Chen had already arrived before the venerable person beside him. His hand revealed the chain of Dao Dao law and infiltrated the lake of soul. At this moment, seeing Qin Chen coming, this person was suddenly nervous. Stood up, surprised

"What do you want to do?" Qin Chen looked at each other with a smile, and said, "Don't be nervous, when you are here for the first time next time, it's not like seeing you all fishing in this lake. I want to ask what you are all doing? Come, take out your chain of laws and gods, let me see what it is

Going on. "

Qin Chen smiled, with a harmless appearance of humans and animals, and said with a smile, but in the eyes of the venerable, it was as terrible as the devil.

"Hmph, why let me pull up the chain of laws and gods, I tell you, I am a member of the Heavenly Ghost Clan, and my clan has great power to come here, if you dare to move me..."

Snapped! The Venerable Ghost Clan hadn't finished speaking that day, Qin Chen slapped his face directly with a cold look, grinning sharp teeth and said: "What nonsense, let you pull the law **** chain Pull up when you get up, haw, ask for death?

"

"you....."

This lord is going crazy. "What am I? Do you think I didn't see the killing intent in your eyes just now?" Qin Chen sneered, "If you don't want to die, just follow my instructions."

[Chapter 3914: Waterweed box](#)

With murderous aura, Qin Chen stared at the other party with cold eyes. The expression in his eyes didn't put the other party in his eyes at all. This made this person's heart angry, and he wanted to jump up and fight Qin Chen desperately.

However, he was still suppressed, because he knew that even if he jumped up and desperately, he couldn't be Qin Chen's opponent, and even Qin Chen could seriously hurt him with a slap.

He can only bear it.

"What am I?" Qin Chen glanced at the other person, his eyes looked like a cat or a dog, and said: "If you don't want to die, just take out your law chain and let me have a look!"

Qin Chen approached the opponent.

"Your Excellency, this is too much for you, right?"

At this time, there was a strong person on the side who said that he was an earthly respecter, his face was very gloomy, because being so arrogant here was not only humiliating the master of the ghost race that day, but also humiliating everyone present. "Excessive, why don't I think?" Qin Chen touched his

nose and looked at the other person: "Seeing that the road is not flat, draw your sword to help, don't you think that your Juque clan has a sense of justice? It's not like yours Juque clan, or Say, this person is your illegitimate child?"

"It's not right, how can your Juque clan give birth to the seed of the sky ghost clan? This taste is also a bit heavy. "

"You, the boy of the true dragon clan, you are strong, but this is not a place where you are alone."

This Juque clan's earthly respect was trembling with anger, and his beard was almost upturned, but the chain of the law in his hand still spread to the lake of soul, and he did not act rashly.

"Okay, don't talk about it." At this time, the other respecter said solemnly: "You just want to know what we are doing. The lake you are looking at now has treasures, just link your own laws and gods. Condensed into a rope, you can go deep into this soul lake, and then it is possible to get

To Chung Treasure, if you want to get a treasure, you can infiltrate it, there is no need to be so aggressive. "

"Oh? Fishing for Heavy Treasure?" Qin Chen's eyes flashed. He had seen these guys a bit weird. He didn't expect to be fishing for Heavy Treasures: "Then why don't you go directly into this soul lake to salvage treasures?" "Hmph, you did it on purpose? Still don't know? This soul lake is extremely weird. Anyone who enters will be wiped out instantly. Someone tried to sneak into this soul lake before, but the result was directly turned into nothingness, the soul was broken, let alone entering this

In the lake, even if you try to fish up this soul water, you will be killed on the spot. If you have confidence in your strength, you can give it a try. "

"So amazing?"

Qin Chen deliberately aimed so arrogantly at the ghost clan guy that day, just to find out some news from these people, now that he heard the magic of this soul lake, Qin Chen's heart was also slightly shocked. Even if an idiot comes here, you can feel that the soul water in this soul lake is extremely terrifying. It contains the power of the soul that is shocking to the sky. It is definitely a treasure. Most people who come here are afraid that it is the first thing. These souls

Keep the water away.

But now Qin Chen understands that it's not that these people don't want to accept this soul lake, but that this soul lake is very dangerous and cannot be picked up at all. This is a bit like Nether Galaxy.

Because the water in the Nether Star River can't be picked up at all, even the Venerable can corrupt it.

However, the Nether Galaxy is extremely vast after all, but this soul lake is much smaller than the Nether Galaxy.

"I'll try."

Qin Chen's eyes flashed and he immediately urged the power of the Universe's good fortune jade disc. Om, Qin Chen felt the Universe's good fortune jade disc shook suddenly. In a flash, the water in the soul lake in front of him was about to be captured by Qin Chen. come out.

"Sure enough." Qin Chen was excited. At the beginning, the Nether Star River could not be captured by other people, but the Universe Destiny Jade Disc could be earned. This time the soul lake seems to be the same. Although the Universe Destiny Jade Disc is extremely difficult to pick up, But it can definitely be

The lake water in the middle of the world is collected into the space of the jade disc.

However, Qin Chen did not do so, and this secret cannot be revealed for the time being.

"Pull up your chain of laws and gods and have a look."

Qin Chen continued facing the venerable ghost clan that day.

"you....."

The venerable ghost clan was going crazy that day, why did Qin Chen stare at him?

"My little friend, do you know that to find treasure in this lake of souls, the first time to reach into the chain of laws and gods is the most effective. If you lift it up and enter again, the possibility of attracting treasures will be greatly reduced."

The Juque clan's earth respect said solemnly.

"Does this have anything to do with me?" Qin Chen smiled: "He can't attract the treasure. What does it have to do with me? I just want to see if what you say is true. What if you lie to me?"

The Ghost Race guys almost cried that day.

However, he did have the thought of doing something with Qin Chen before, but he was worried that he would return without success, so he held it back. Strictly speaking, he was not wronged.

Wow! Under the pressure of Qin Chen, the guys from the Tiangui tribe began to pull up the chain of their laws. Qin Chen stared at the soul lake. Unfortunately, although the soul lake is not particularly large, even if you open the sky eye, you can't see clearly

How deep is the soul lake.

And when the ghost clan pulled up the law chain that day, suddenly, his law chain sank, as if something had been hooked, and the other end seemed to be holding something.

On this day, the face of Venerable Ghost Race suddenly showed ecstasy.

This time, Qin Chen didn't need to speak, he himself quickly pulled up the law chain, crashing, and the law **** chain was constantly being pulled up. Suddenly, a simple waterweed box gradually emerged from the surface of the soul.

"Really caught the treasure."

"Good luck, it's a waterweed box. I don't know what this box contains." Everyone's eyes were staring, and fiery light burst out of their eyes. This box is intertwined with dense black waterweeds, like It's like small snakes. What makes the hair creepy is that this one

The thin water plants exudes black air, enveloping the entire water plant box. When the aquatic tank was pulled up, someone once opened his eyes, wanting to see what is in the aquatic tank, but no one can see through the aquatic tank, which seems to be shielded by an invisible force General,

Can't see what's inside.

Everyone knew that this waterweed box could only be opened after it was fished from the lake, but before it was opened, no one knew what would be inside.

"Wow..."

That day, the venerable ghost of the ghost clan suddenly pulled the law of the **** chain. When the water tank left the lake, suddenly, a wave of spray was raised under the lake. As the waves rose, from below the water plant tank, a fierce object sprang up. This fierce object was very similar to the black phantom, turned into a black gluttonous mouth, towards the Venerable Ghost Race that day It came from biting fiercely.

[Chapter 3915: Lake monster](#)

"Be careful!"

The others are all masters in unison.

The Venerable Ghost Race seemed to have prepared well that day, Qiang, a gloomy ghost wand appeared in his hand, and he slammed it at the gluttonous mouth. In the soul lake, as long as you catch a waterweed box, you will attract a certain evil thing under the soul lake. No one knows where this evil thing comes from, only that this evil thing contains a terrible chaotic atmosphere, like Is guarding the water plant tank one

In general, only by repelling this evil thing can you truly get the treasure chest of water plants.

boom! That day, the ghost clan masters were prepared, and they were extremely fast. At the moment that the murderous object was thrown out, he swung his stick and it blasted on the head of the murderous thing. However, this monster was extremely powerful. Under the rod, it instantly blasted into the lake,

But at the same time, one of its dark palms spread rapidly, directly grabbing the master of the ghost race that day on the shore, and slamming him towards the soul lake.

"No...Save me..."

The master of the Hetiangui tribe stretched out his hand to Qin Chen who was nearest to him in horror, but Qin Chen did not rescue him. Suddenly, the venerable man of the Tiangui tribe was pulled into the lake.

"Ah..." With a scream, the ghost clan master was dragged into the lake by the murderous thing that day, and he bubbled, his body instantly melted, and finally turned into ashes and disappeared.

In just an instant, the ghost clan masters that day disappeared, and there was no bones left, as if they had never appeared before.

"hiss!"

This horrible scene made everyone **** in air.

Qin Chen's gaze also condensed. This lake of soul is indeed terrifying. A venerable person fell into it and turned into ashes in an instant. Even if it was just a peak person, it was enough to scare people.

"Boy of the True Dragon Clan, before you could obviously extend a helping hand, and watched the Heavenly Ghost Clan being dragged into it, don't you have any mercy?"

The Earth Venerable of the Juque clan stared at Qin Chen, coldly hummed, his tone was very dissatisfied.

"Do you think I'm an idiot?" Qin Chen glanced at the other side mockingly: "Then why didn't you help before?"

"I'm far from him, only you can have time." The Juque clan's respected land snorted coldly.

"Really?" Qin Chen looked at the lake. The lake is not big, but everyone is sitting far away, separated from each other by a certain distance. They can't help but sneer: "If I guessed correctly, I would help. That day the ghost clan master, I was afraid that he would get in

Attack? "

After Qin Chen's words fell, the face of the Juque Clan's Dizun suddenly changed. "Is it right?" Qin Chen sneered, "All of you are separated from each other. If you are of different races, you can also explain the difference in power, for fear of being tricked, but even if you are of the same race, you are sitting. The location is also a certain distance

, Obviously does not conform to common sense, unless, fishing here, you can only do it yourself, other people can't help at all, and even once they help, it will cause more trouble. "

Suddenly, some other venerables on the court looked surprised and looked at Qin Chen.

They didn't expect that Qin Chen's observation was so subtle, that these clues could be seen only from the position. Indeed, fishing in this soul lake is absolutely impossible to help. If you do not intervene, you may repel the murderous creature and pull up the water tank, but once someone else intervenes, you will immediately encounter this soul lake. The entry of other

Attack, even if it is the pinnacle earth respect, will fall here.

This is the experience of having lost a lot of people in exchange for blood.

Naturally, no one wants to tell those who follow these experiences, unless they are familiar people, everyone else is anxious that their competitors will drown in this lake of souls.

When Qin Chen saw the expressions of these guys, he knew that he was right, and couldn't help sneer.

However, after passing by the ghost of the venerable that day, Qin Chen also understood that there were indeed good things in this soul lake, and it was indeed used to fish with the **** chain.

But how did this soul lake form? Also, what is the power that attracts yourself?

Qin Chen stared at the soul lake. If it was somewhere else, Qin Chen said that Chuang would break in, but Qin Chen did not dare to act rashly in this soul lake.

However, after verifying the effectiveness of the other party's method, Qin Chen also found a new position. Wow, the true dragon aura on his body was condensed and turned into a chain of Dao Dao laws, and quickly merged into the soul lake in front of him.

Qin Chen is cautious, since the breath that attracts him in this soul lake is related to the aura of true dragons, Qin Chen believes that using the laws of true dragons, there must be some gains.

boom!

And at this moment, Qin Chen also saw it, and someone in other places pulled up the water plant box, and suddenly all kinds of murderous things rushed out from the soul lake.

These fierce creatures, in different shapes, carry a strong chaotic aura, giving Qin Chen a strong feeling that these fierce creatures and the black phantom before them seem to be creatures from the same source.

"kill!"

These venerables all roared and performed the strongest faculty of their lives. The river was lifted up and the waves rolled.

These venerables are inextricably strong and weak, some are respected, and some are respected to the earth, but the fierce thing is also different in strength. It will not be weaker because you are a human race, and it will not be stronger because you are the respected earth. It is always, without any rules.

Finally, one of these venerables was dragged into the lake of soul by the murderous thing and turned into ashes in an instant, while the others got a water tank for each. These venerables were on the edge of the lake and couldn't wait to open the water plant tank. After they cleaned the water plants, three of them got a shabby knife handle, and one got a dilapidated mirror. The third Then

A weed.

They were all rotten weapons, completely decayed and worthless at all.

Even a slight pinch, the handle broke directly.

The other two venerables are slightly better. One of them got a worn-out helmet, but the helmet is quite well preserved. With a light tap, there is a sound of echo from the helmet, there is a sound of the great road. Reverberating.

laugh!

The master of the earthly master condensed the power of the earthly master in his hands, pierced on the helmet, and the divine brilliance bloomed on the helmet. Although this brilliance is extremely weak and not very strong, it is obviously also a thing that can resist the attack of the earthly master. treasure. And the other person got a stone. This stone, like a pebble, looks very ordinary, but when he puts it in his heart, there is a kind of aura of great avenues, letting the Venerable in the person who got it. The power works more freely.

[Chapter 3916: Ear master](#)

Although I don't know what the specific role of this cobblestone is, but the cobblestone exudes a ray of divinity, it shows that it is a treasure, and can stimulate the power of the nobleman, at least it is a treasure of the nobleman level.

"Haha, worthy of this time."

The Venerable who had received the helmet and the pebbles couldn't help being overjoyed, and he immediately put it away excitedly.

This can be a treasure found in the soul lake deep in the dragon's nest, who knows if it has any special effects.

After fishing the waterweed box, whether it was the venerables who had obtained the broken copper and iron, or the two venerables who had obtained the treasure, they all put away the treasure for the first time, and then quickly left the soul lake. This made Qin Chen and some later people a little puzzled. Later, they heard other people explain that this soul lake is very peculiar. Basically, it is only the first time to catch a waterweed box. Once a waterweed box is caught, the second time is very difficult. Hard to fish again

The water tank is coming up.

Even if the Law of God Chain is easily lifted, it will have a certain impact on the fishing tank. Therefore, once these venerables catch the water weed box, they will leave no matter whether they have treasures or not. The tone is a waste of time here. It is better to go to other places. After all, the dragon's nest is only one of the strange and mysterious realms deep in the Vientiane God's hideout. one,

There are many other abandoned stars and treasures, maybe there are other good things.

After Qin Chen heard this, his heart sank, because he was convinced that the force that strongly attracted the true dragon aura in his body came from this soul lake, but Qin Chen was not sure that he would definitely Can catch things.

If he catches other things, it will be over completely. No matter how strong Qin Chen is, he cannot break into this soul lake to search for the treasure that attracts him.

Must be cautious and cautious.

Qin Chen infiltrated the soul lake into the law and chain of the Qi of the true dragon, and began to perceive the composition of the soul lake a little bit, trying to use his fishing experience in the Nether Star River to fish for the treasures in the soul lake.

Therefore, he did not feel the treasure at the bottom of the lake for the first time, but to perceive the formation of the lake and the breath of the water of the soul.

Hum!

Qin Chen's consciousness was completely immersed in it.

And while Qin Chen was making enlightenment, there were venerables coming continuously around this soul lake, and after they figured out the situation, they all started fishing.

Whenever a waterweed box was fished, some people succeeded in looting, and some people were dragged into the soul lake and died tragically in it. Once they died tragically in the soul lake, they would die without seeing the corpse and sink forever.

Qin Chen stayed here for a few days, and none of his laws and **** chains had penetrated into the depths of the lake, he just felt it here.

In the past few days, some people have got nothing, and some have got good things, but there are still no amazing treasures.

"Soul Lake, it's interesting."

On this day, while Qin Chen was still perceiving the soul lake, the sound of an urn sounded, and the sound of such an urn sound echoed around the lake, as if it rang in everyone's ears. Although this voice reverberates near the lake, the person who speaks is not seen. No one who is fishing here is a weak person. Now he only hears his voice but does not see him. Many people are shocked, knowing that the other person is a great one. The strong

.

With a swish, when many venerables looked back at the person who was speaking, there was a soft sound, and a figure appeared in the crowd. This was a slightly fat master with grunting eyes.

This person looks harmless to humans and animals, and is clearly a human race, but the aura that radiates from his body changes everyone's color, because a rolling coercion condenses, this is clearly a peak earthly respect.

Many people immediately looked alert.

Peak Earth Venerable, this is no trivial matter. People with this level of strength will not be the unknown generation, but what shocked everyone is that they did not even know this Human Race Peak Earth Venerable.

"Who is this person?"

"Does the Human Race have such a pinnacle?"

"There are many top powers of the human race, such as the Void Temple, the Star God Palace, the Dayu Mountain, the Heavenly Work, etc., but no matter which human race power they come from, such masters should not be silent. Why has this person not seen it before? "

Quite a few people talked and whispered in secret, and it was obvious that this person was very surprised.

It is no wonder that masters such as Wan Yu Di Zun have reached this level, almost all of them have been in the battlefield of ten thousand races or in the universe. It is rarely said that they will be unknown and unknown.

Unless, the other party hides his face.

Seeing this pinnacle **** came to the soul lake, he was thoughtful.

"Well, my lord said that this time in Vientiane, there will be amazing treasures that will be born. As expected, I have seen all these things."

This pinnacle earth respect looked at the lake in front of him, with shock in his eyes, as if he recognized the soul lake.

"It's a pity, it's a pity that I'm afraid it's no good for me."

This chubby Pinnacle Di Zun said with a sigh, with solemn and jealous expression in his eyes.

Then, he diffused a chain of laws and gods and quickly integrated into the lake.

"Strength of Martial Soul!" Qin Chen sensed the opponent's law chain, and his eyes condensed immediately, because he could see that there was a faint martial spirit power in the opponent's law aura. This power, Qin Chen I felt it in the ancestor of the martial soul of the Eastern Heaven Realm,

It shows that this person has ever practiced martial arts. Just like Qin Chen, from the Tianwu Continent, he has blood in his body. If he does not use the law of **** chain condensed by the true dragon's energy to fish the water plant box, but uses the law of the **** chain of the body, then it is very likely that he will have some blood power. Breath, this is

Engraved in their souls.

Although after breaking through the holy realm, this bloodline aura has completely integrated into his physical body, but if you perceive it carefully, you can still feel it.

Wow!

As soon as the person's law and **** chain entered the soul lake, the soul lake fluctuated rapidly.

"So fast?"

Everyone was surprised, this guy is too fast, right?

Many people came here and couldn't catch a water plant for a few days, but he was attracted to a water plant a moment ago, which is indeed shocking. There was a splash of water, and under everyone's eyes, the pinnacle earth statue pulled up the chain of the law, and everyone saw a waterweed box, and this waterweed box was more than twice as large as all the waterweed boxes before.

[Chapter 3917: Actually a living thing](#)

When this waterweed box appeared, the sound of "crashing" water sounded, and a few murderous creatures emerged from the soul lake, and the fat man was not afraid at all. He gave a low drink, raised his hand, and said. The streamer shot out from his hand instantly

, I heard the sound of "Puff, Puff, Puff", and the cold light fell.

In a short period of time, these murderous creatures were killed by him. He suddenly lifted the water plant box, and then under the eyes of everyone, he carried the water plant box and left instantly, and disappeared in a flash without knowing his water plants. Is there any treasure in the box?

"So strong!"

When the pinnacle Earth Venerable who claimed to be Ear Lord disappeared, the other Venerables present couldn't help but breathe a sigh of relief. No one wanted to stay with such a master. It was too dangerous.

"Master Er, how come this name feels a bit familiar." A earthly respector murmured.

"Have you heard of this person?"

Suddenly, many people looked at the old man who spoke. After all, such a master is not recognized by anyone present, which is really weird.

What's more, if the opponent is some hidden powerful race, it would be nice to say, for example, in Qin Chen's True Dragon clan, there are few powerful people in the outside world that are rarely known, but such a master of human clan should not be borrowed from unknown.

"Have you ever heard of the Profound Sky Continent?" the old man said solemnly.

"You are talking about the Profound Sky Continent from which the Xiaoyao Supreme who restored the heavens back then?" Someone fell silent. "Yes, the Profound Sky Continent is a continent that cultivates martial arts. I have heard that after Xiaoyao Supreme ascended back then, there were a group of masters under his command who also soared. One of them was called Master Ear. It's Tianer Wuhun , It's amazing, but I just heard it, never seen it. "

"Xiaoyao Supreme's subordinate?"

Everyone sucked in air-conditioning, this was definitely a super giant in the human race. Among the top powerhouses of the human race today, Xiaoyao Zhizun, although the age is not long, but his rise is definitely a legendary process for the human race. From a small holy realm to the top supreme, and now even more human of

One of the helms, such a figure is a legend even for the venerables present.

Even the countless masters of other races present have a solemn expression. This is definitely one of the top masters in this universe, and it is not something they can afford to offend.

"Xiaoyao Supreme?" Qin Chen also murmured. He had heard of this name too many times. It can be said that the Human Race had reached an extremely difficult time, and it was Xiaoyao Supreme's birth that made the Human Race find a chance to breathe. , And repaired the human heaven,

The Jinlin Tianzun who had saved himself in the Eastern Heaven Realm was under his command.

"If there is a chance in the future, I can see the helm of this human race."

Qin Chen sighed with emotion.

Next, the sages kept coming, and the sages kept leaving.

Qin Chen constantly felt this lake of souls, he ran the sky soul forbidden technique, and suddenly, the power of the soul in this lake gradually became clear in Qin Chen's mind. Different soul powers have different attributes. Qin Chen's Celestial Soul Forbidden Technique is extremely powerful and can decompose most of the soul power in the world. However, the Celestial Soul Forbidden Technique cannot decompose the soul power in this soul lake. , Although unable

Decompose, but simple analysis is still no problem.

And with Qin Chen's feelings, Qin Chen increasingly discovered the terrible soul lake.

"impossible."

When Qin Chen's Heavenly Soul Forbidden Technique combined with the Law God Chain completely penetrated into this soul lake, Qin Chen was shocked.

The strength of the soul contained in every drop of water in this soul lake was unparalleled, and even shocked Qin Chen.

The reason why this soul lake cannot be taken is precisely because the soul power contained in this soul lake is too powerful, even so powerful that the Venerable cannot easily take it.

"How is this possible?" It should be noted that Qin Chen, as a strong human being, and even a strong earth being present, are the top masters in the universe, but Qin Chen and their soul power are even in this soul lake. A drop of water can't be compared, how about this soul lake

Forming? "No wonder, I can't take it at all. This soul lake seems ordinary, but in fact, the mass contained in every drop of water is extremely heavy, and it also contains an astonishing primitive atmosphere of chaos and immortality, and it contains amazing laws.

Take it away, but we can't take it at all. "

It's like, Qin Chen and the others' holding is like reaching for something, but a drop of water in this soul lake is as heavy as a neutron star, so naturally it is impossible to pick it up easily.

"wrong!"

Qin Chen's eyes twinkled with brilliance.

"Even if I can't take it with my current strength, but the Heavenly Soul Forbidden Technique and the Ten Thousand Realm Demon Tree may not be unable to absorb it." Qin Chen's Heavenly Soul Forbidden Technique is extremely magical, and it can absorb the power of the soul from outside, no matter how strong it is. Part of the power of the soul can be absorbed. Secondly, the magic tree of the ten thousand worlds can also absorb the power of the soul, and even the power of the soul is huge to the magic tree of the ten thousand worlds.

The nourishing effect.

"Maybe, the Heavenly Soul Forbidden Technique and the Ten Thousand Realm Demon Tree can absorb the power in the soul lake."

Do what you think.

Qin Chen used the true dragon aura to cover him, and at the same time quietly operated the power of the Heavenly Soul Forbidden Technique and the Ten Thousand Realm Demon Tree, and began to slowly absorb the power of the soul lake.

"Even if I can't take this soul power into the Universe Jade Plate, but using the Heavenly Soul Forbidden Technique and the Ten Thousand Realm Demon Tree to absorb part of it, there will always be no problem, right?"

But when Qin Chen tried to absorb the power of the soul in this soul lake by using the heavenly soul forbidden technique and the Ten Thousand Realm Demon Tree, hum, in this soul lake, a mysterious force surged, actually preventing Qin Chen's heavenly soul forbidden. Absorption of magic and magic tree of the world.

This is impossible!

Qin Chen's eyes were surprised.

The soul is a special thing. When it is in the mind, it is a living thing. For example, if someone tries to absorb or seize Qin Chen's soul, Qin Chen can naturally urge the power of the soul to resist.

But the soul lake in front of me, according to the truth, should be a kind of dead thing, a special soul pool formed in this void after countless years.

But now, this lake of soul was preventing Qin Chen's Heavenly Soul Forbidden Technique and the devil tree from being absorbed and swallowed, which shocked Qin Chen.

"Could it be that....."

Qin Chen's eyes suddenly rounded.

There is only one possibility, that is, this soul lake has consciousness, so it can resist Qin Chen's absorption.

hiss!

Is this lake of souls a living thing? At this moment, Qin Chen was frightened and looked at the lake in disbelief.

[Chapter 3918: A way](#)

He couldn't imagine that this soul lake was a living thing.

In an instant, Qin Chen's scalp was numb, his hair was terrified, and there was an urge to turn around to run.

If the soul lake is a living thing, it means that the soul lake is the soul of a certain strong man. If so, how terrible is this existence?

Tianzun?

Supreme?

Still stronger?

Qin Chen couldn't imagine it at all.

After all, a drop of water in this soul lake is comparable to the strength of his soul. How can such a big lake be owned by a strong person?

Once the other party wants to attack them, or even swallow them, wouldn't it be possible to do it with a single thought?

When Qin Chen resisted the panic and turned around to escape, Qin Chen suddenly came to his senses and stopped.

No, if this lake of souls were living creatures and could easily swallow them, it would have been done a long time ago, would it wait until now? After all, there are countless strong people who have left here before.

And before, in this lake, a lot of water tanks were also salvaged. What happened?

Qin Chen resisted the fear, frowning, knowing that he must have missed something.

What exactly is it?

Qin Chen frowned, thinking hard.

Qin Chen's law chain penetrated into this soul lake, and he discovered that this soul lake was absorbing the breath of his law chain.

It seems that different laws and breaths can attract different things.

This is a bit like the Nether Galaxy. Whether treasures can appear during the fishing process, everything is random. It depends on whether one's own breath can attract the treasures of the Nether Galaxy.

However, the aura in the depths of the soul lake clearly attracted the aura of the true dragon, and it has always attracted itself, but the special power that attracted itself has never responded.

"Is it possible that the power in this soul lake has a strong attraction to my true dragon qi, but the true dragon qi in my body does not have the slightest attraction to it?"

Qin Chen's eyes flashed.

This is really possible, otherwise, the chain of laws condensed by one's true dragon law has been deep into this soul lake for a long time, why there is always no movement in this soul lake, this is obviously not in line with common sense.

"Do you want to change the power of the law?"

Qin Chen's eyes flashed.

He mobilized the power of other laws in his body, and immediately, the chain of laws in Qin Chen's hands bloomed with divine light, and a power representing other laws slowly entered the lake of souls along the chain of laws.

Wow!

Qin Chen immediately felt that in the depths of the soul lake, the water plants were surging, and his law chain seemed to touch a water plant box. As long as he wanted to, he could lift the water plant box at any time.

"It's not the treasure that attracts my true dragon spirit." Qin Chen frowned. Although he can directly pick up a waterweed box now, this is not what he needs. The treasure in the waterweed box is simply unpredictable, who knows What a ghost, even a piece of waste rock, some broken copper and broken iron

It is possible that Qin Chen does not lack treasures at all now, only the power that attracts the true dragon energy in his body is the goal of his trip.

Qin Chen did not mention the law chain, but the power of constantly transforming the law chain, still unable to perceive the special existence that attracted him.

"It won't work like this."

Qin Chen frowned. The things in this soul lake were attractive to the power of the true dragon, so what else in his body had something to do with the true dragon clan? Only in this way can it be possible to find that special existence in this soul lake.

"correct!"

Suddenly, Qin Chen's eyes lit up, and he finally thought of an existence related to the True Dragon Clan.

Xiaolong!

The Nether Giant Claw Red Dragon who fished from the Nether Star River and was then enslaved by himself! The little dragon is a product of the Nether Star River. Although it is only a crayfish, it is a real dragon. Once transformed, it will become a dragon. The so-called dragon here is not the Yalong of the monster, but the real dragon. Red scale dragon,

One of the true dragons.

Even in comparison, Xiaolong is the real dragon, and Qin Chen is actually just a fake.

"Perhaps, let Xiaolong enter this soul lake, it is possible to find that special existence."

This is not impossible.

The little dragon can survive in the Nether Galaxy. Even the Heavenly Lord cannot cross the Nether Galaxy. If you enter it, you will fall. Although this soul lake is strong, the little dragon may not be unable to resist it.

If the little dragon can enter this soul lake, maybe he can find the existence in this soul lake.

In an instant, Qin Chen's breathing became rapid.

This is definitely a difficult choice, because although Xiaolong may survive in this soul lake to a certain extent, it may also be annihilated directly, which Qin Chen cannot accept.

"Wow!"

Qin Chen's consciousness directly entered the Universe Jade Plate, before the Nether Star River Lake, and then Qin Chen sent out a divine thought towards the lake, and suddenly, a lobster covered in red glow came out.

It is the Nether Giant Claw Red Dragon.

"Little Dragon, can you perceive the soul lake outside?"

Qin Chen let go of the breath of the Universe Good Fortune Jade Disc, allowing the dragon to perceive the existence of the soul lake in the Universe Good Fortune Jade Disc.

Seeing the lake, Xiaolong suddenly showed a very excited expression, crawling constantly, there was an urge to rush into it.

Qin Chen's eyes flashed: "Sure enough, Xiaolong can not only feel the breath of this soul lake, but also the strong attraction in this soul lake."

Xiaolong is also a true dragon, and can naturally perceive what Qin Chen perceives. "Little dragon, there is the power in this soul lake that can transform the true dragon tribe, I think you have also felt it, but now that thing has been hidden in the soul lake, and neither I nor soul power can enter it to find it, I don't know. Would you

Willing to enter this soul lake and find it for me..."

Qin Chen said the terrible soul lake. "Once you enter it, there are two possibilities. The first is that you will be instantly annihilated by the soul lake. The second is that if you can stop the erosion of the soul lake, you will definitely find the special existence that attracts us. You can only Need to change my law

Then bring the chain of gods there, and then you can come out. No matter what crisis you encounter, you can leave the rest to me. "

Qin Chen looked at Xiaolong solemnly, "If you want, I will put you in. Of course, if you don't want to, I won't force you, but this is likely to be a huge good for us." Qin Chen did not. Forcing Xiaolong to ask for his opinion, although he can order Xiaolong, this kind of thing obviously needs Xiaolong himself to be willing.

[Chapter 3919: Enter the lake](#)

Xiaolong hesitated for a moment, and obviously understood Qin Chen's words. It stared at the soul lake. After hesitating for a long time, in the end, resolute rays of light burst into its small eyes, and then nodded.

Obviously, it is willing to enter this soul lake.

Because it perceives that this will be an opportunity for it, an opportunity to change its destiny.

"it is good."

Qin Chen took a deep breath.

Since Xiaolong is willing, there is nothing to say.

"Since you are willing, as long as you come out of it, no matter what the result is, you will be my Qin Chen's partner." Qin Chen said solemnly, and then, when he lifted his hand, a fruit appeared in his hand.

It is another chaotic fruit.

Qin Chen had obtained two chaotic fruits before, one was swallowed by himself and he understood the power of chaos and the book of evolution origin, the other one was useless, and the only chaotic fruit left, Qin Chen Nature cherishes it very much.

"Little dragon, this soul lake contains an astonishing aura of chaos. Although you can survive in the Nether Galaxy, you may not be able to withstand such a terrifying chaotic aura. You must take this chaotic fruit first."

Qin Chen said to Xiaolong.

"Boss, it's too wasteful for you to give this chaotic fruit to this little lobster?" Little Ant and Xiao Huo hovered around Qin Chen, saying in disbelief, this was a treatment that neither of them had.

Let alone them, if someone sees what Qin Chen is doing, he will definitely go crazy. The chaotic fruit, that is a treasure that the venerables are so coveted. For a chaotic fruit, the masters of the earth-sovereign will fight hard, but now, Qin Chen actually gave his last chaotic fruit to a small lobster. This is simply Too dead

Rationale.

Even if it is obtained on the black market auction, the price of a Chaos Fruit will definitely not be lower than that of Xiaolong, a heterogeneous creature in the ghost galaxy.

It's okay now, Qin Chen directly let Xiaolong swallow the Chaos Fruit, it was a tortoise chewing barley, spoiling it!

"Boss, this, this, this, this is too prodigal, right? What good stuff, Xiaohuo and I can do it too." Xiaoyi looked at Xiaolong holding the Chaos Fruit, and couldn't help but said with envy. The fruit must be delicious. Right?

"Okay, if you have this Chaos Fruit again in the future, I will definitely give it to you all, but now Xiaolong is going to perform the mission and must eat the Chaos Fruit." Qin Chen said with a wry smile. The group of foodies saw what they were eating. I'm not calm.

Qin Chen knew very well that in order to enter the soul lake, the little dragon had to swallow the chaotic fruit to stimulate its potential and obtain the protection of the chaotic power, otherwise, it would not be possible to enter that place.

Xiaolong also knew that this was a good thing. Two large tongs clamped the chaotic fruit, and then he ate the chaotic fruit without even wasting the skin. The little ant and the little fire were drooling.

There was a "hum". When the little dragon swallowed the chaotic fruit, the chaotic aura on its body instantly increased several times, and the real dragon order **** chain appeared in its body, intertwined in an instant, as if intertwined into a fairy chapter.

In the blink of an eye, all the chains of order of the dragon were intertwined into a shield of chaos, and its body was covered with a breath of chaos, as if it had turned into a chaotic creature.

After swallowing the Chaos Fruit, Qin Chen was still a little worried.

He waved at the Ten Thousand World Demon Tree.

Suddenly.

A twig from the Ten Thousand Worlds Demon Tree floated over, and instantly fell into Qin Chen's hands.

"Little dragon, this is the twig of the Demon Tree of the Ten Thousand Worlds. The Demon Tree of the Ten Thousand Worlds can swallow all the power of the soul. If you eat this twig of the Demon Tree of the Ten Thousand Worlds, you can protect you from the invasion of the soul power. At least, Can make you hold on for a while."

The little dragon nodded, and ate the twig of the Ten Thousand Realm Demon Tree into the space in his body.

"Xiaolong, what else do you need to prepare, just say." Qin Chen said again.

The dragon turned around and took a sharp breath at the lake of the Nether Galaxy. Suddenly, a stream of Nether Galaxy-like water was instantly sucked into the body space by the dragon. Then, the dragon nodded to Qin Chen, indicating that he was ready. Up.

"it is good!"

By the soul lake, Qin Chen's closed eyes suddenly opened, and then, sitting by the lake, he took out the dragon in full view.

As soon as the little dragon took it out, it suddenly felt like a leaping red flame.

"what is that?"

As soon as the Nether Giant Red Dragon appeared in Qin Chen's hands, that breath instantly attracted the attention of other venerables around him.

After seeing Xiaolong, everyone was shocked.

"This...a crayfish?"

"This seems to be a foreign species in the Nether Galaxy, do you feel it, this crayfish has the breath of the Nether Galaxy."

"You are talking about the Nether Galaxy in the black market?"

"It's true that the aura on this crayfish is very similar to the Shengguang fish in the Nether Galaxy, isn't it really fished from the Nether Galaxy?"

Many people were dumbfounded, a little unbelievable, not knowing what Qin Chen did with a crayfish. Moreover, there are crayfish in the Nether Galaxy? Everyone on the battlefield of the Ten Thousand Races knows that the most common species in the Nether Star River is Shengguang fish, and of course

there are other species, but for millions of years, no one has ever heard of anyone fishing crayfish in the Nether Star River.

.

Now that Qin Chen took out the little dragon, even anyone who didn't understand the market would know that this little lobster was extremely dangerous.

"Does this true dragon guy want to release the crayfish caught from the Nether Star River in this soul lake?"

"Isn't this... nonsense?"

"Destroy the ecological environment!"

Many people are speechless.

"Xiaolong, it's all up to you."

Qin Chen ignored the comments and gazes of other venerables around him, and a chain of laws and gods spread out from his body, connected with the dragon, and instantly entangled the dragon and combined with it.

boom!

The law of the **** chain shines, and the dragon is like a true god. Xiaolong is just leading the way. No one can enter without the soul lake of Xiaolong. Even if he enters, it is only a dead end. However, Xiaolong may not be impossible, but it is not impossible for Xiaolong to get the things inside. need

Qin Chen himself.

With a swish, Qin Chen instantly put the dragon on the shore of the soul lake after using the law and **** chain to wind the dragon.

The dragon climbed directly into the lake without hesitation.

Hum!

When the little dragon entered the lake water, a terrible divine flame burst out from the little dragon's body, and it felt like a little dragon was burning.

"Is this guy crazy? Even the peak of the soul lake can't enter. As soon as this crayfish enters, it will be wiped out directly, right?"

"Mad, really crazy!"

The other sages all mocked.

But Qin Chen was surprised to find that Qin Chen didn't directly turn into ashes when he entered it like the other venerables. It burned with a terrible chaotic aura, but it did not fall. In the blink of an eye, the dragon disappeared into the lake.

[Chapter 3920: Black beads](#)

Qin Chen felt that Xiaolong had entered the soul lake.

He sat quietly on the edge of the soul lake and looked at the water. Although his expression was calm, he knew that he was very solemn from the look of his gaze.

"This guy, his expression is too serious."

"He doesn't really think that this crayfish can enter the soul lake?"

"Hmph, let me say that this crayfish has already turned into nothingness. It's a pity. Such a crayfish must taste so delicious, it's so wasted."

Many people were talking on the side, but they didn't dare to speak loudly. They just whispered to Qin Chen.

Obviously these guys don't think that the little dragon can survive in this soul lake.

Qin Chen's eyes were solemn, and he ignored the discussions of others around him. Instead, his mental power was completely concentrated in the soul lake. In his perception, the little dragon was sneaking into the depth of the soul lake little by little.

boom! If someone of this person can enter the soul lake with the little dragon, he will be able to see that in this soul lake, a little lobster is burning with red flames, slowly entering the depths of the lake, his body, Taoism God The light blooms endlessly,

Vaguely, there was a ghost of a real dragon surrounding it.

This soul lake is very peculiar and contains special golden power. Just as the little dragon enters it, the dragon energy on his body is amazingly nourished, and there is even an illusion that he wants to be a real dragon.

The little dragon drew the chain of laws and gods, and according to his perception, he penetrated into the depths of the soul lake little by little, and kept getting closer to the place that had a strong attraction to him.

Qin Chen's perception was attached to Xiaolong's body, and he stared into the depths of the lake. Gradually, the little dragon came to the bottom of the lake, and the soul suppression became stronger and stronger. The chain of order and immortal chapters on the little dragon bloomed with divine light, and it was under tremendous pressure, if it weren't for the chaotic fruit and the magic tree of the world. Power, plus

The strong water of the Upper Nether Star River, light entering here with the body of a small dragon, is afraid that it will disappear in an instant.

As the dragon came to the bottom of the lake, the terrifying flames on the dragon's body also faintly illuminated the bottom of the soul lake, causing Qin Chen to breathe in air.

At the bottom of this soul lake, there are actually dense boxes of aquatic plants, and countless souls of aquatic plants are rippling like women's long hair, floating on the bottom of the lake. When the dragon approached the range of the water plants, suddenly, the water plants seemed to perceive the invasion

of outsiders, and quickly entangled the dragon, swishing, and the roots of the water plants actually wanted to tie the dragon here, Xun

Quickly wrapped around Xiaolong's body.

The little dragon immediately swung out the big tongs and cut quickly towards the water plants. He heard the clicking sound constantly. The soul water plants were quickly cut short by the little dragon, but the little dragon did not dare to stay here. before.

The entire soul lake fluctuated, and the water surface rippled, as if something shook the entire lake.

Many Venerables by the lake were shocked. What happened? Why does this lake of soul suddenly fluctuate?

There is a strong attraction.

It is a very simple black bead.

This black bead is suspended at the bottom of this soul lake. It is very ordinary. However, such a black bead suspended in such a soul lake gives people a strong sense of strangeness.

What it is?

The other things are wrapped in aquatic plants to form a water plant box, but this black bead is suspended at the bottom of the soul lake, but no water plants approach it, and even no evil creature dared to approach here.

This is a huge dragon-shaped phantom with a height of more than ten meters. It is covered with scales and has two long horns on its head. The dragon's whiskers are floating. The scales on the body carry a chaotic purple gas, flickering with terrible aura.

Its dragon claws seem to be able to control the Galaxy of Ten Thousand Realms, and the world collapses and the Ten Thousand Realms perish in one move.

A real dragon! Qin Chen sucked in air, and the shadow of the real dragon in front of him was towering and terrifying, exuding an aura of heaven, as if he could be wiped out with a single thought.
