[Chapter 4131: Ancient Starship](#)

Leave the hall.

Qin Chen was still a little confused.

Is this the end? I didn't say anything, I just let myself go back and follow the other party to the Tiangong headquarters, and the others got nothing.

"Humph."

At this moment, Venerable Ershi walked out of the main hall, staring at Qin Chen, and immediately snorted coldly.

"Venerable Ershi, what do you mean?" Qin Chen sneered.

"What do you mean?" Venerable Eshi snorted coldly: "Thanks to the good temper of the ancient craftsman Tianzun, how else would you allow you to run wild like this."

"Shut up." At this moment, the elder Tian Xing came out and saw Venerable Ershi still talking, he suddenly yelled, his expression unhappy. "If it weren't for Qin Chen this time, Gu Xu Dizun and Fenghui Venerable still don't know how long they will be lurking. Qin Chen is my daily work hero. I left before and said that he was going to track Elder Gu Xu. Qin Chen made great contributions to become an elder

What's your attitude? "

Elder Tianxing stared at Venerable Eshi with cold eyes, and Venerable Eshi immediately stopped speaking.

"It's not like Qin Chen apologize!" Tian Xing elder scolded.

"This..." Venerable Ershi's face flushed, but when the elder Tianxing stared at him, his face was ugly and said, "Qin Chen, sorry."

"No need."

Qin Chen didn't bother to pay attention to Venerable Ershi, turned and left.

In the palace of the elder Tianxing.

Venerable Ershi looked at the elder Tianxing with an ugly expression: "Elder Tianxing, why do you want me to apologize? This child has suddenly disappeared for a few days. You may not just seize this opportunity to slander him in front of the ancient craftsman Tianzun and let the headquarters confront him. Is he suspicious and jealous?" "Shut up, do you still think that you have not exposed fast enough?" Tian Xing elder said in a cold voice, "I always think that Qin Chen is a bit evil, and I immediately found out Fenghui Venerable and Elder Gu Xu's trouble, if you jump down again, I doubt he can really recognize

When we come, neither of you nor I will escape death. Besides, Qin Chen is right. People are obviously heroes. Why do you question the other party? Do you think that the Vice-Hall Master doesn't know? "

"Then let Qin Chen be safe?" Venerable Ershi said. "Otherwise?" Elder Tianxing looked ugly, "I suspect that there are other people lurking in my work camp, otherwise Elder Gu Xu will not escape, but I can't guess who that person is. Depart from the ancient craftsman Tianzun

Before, we'd better not make any noise. "

"Yes." Venerable Ershi said with an ugly expression.

On the other side, after returning to the palace of Venerable Mantra, Qin Chen frowned and thought.

"Senior Ancestral Dragon, Saint Ancestor of Blood River, Lord of Abyss Demon, do you see anything?" Qin Chen asked the three.

"My lord, the ancient craftsman Tianzun is a Tianzun figure, and should be a mid-term peak heavenly Lord, with extraordinary strength. I am in the chaotic world and dare not rush to investigate, otherwise it is very likely to be exposed." Wait for someone to reply.

If they were in their heyday, they might be able to snoop out some clues, but now they are all in the chaotic world, naturally they dare not perceive it rashly.

Qin Chen was also prepared and could only nod his head.

"Kid Qin Chen, do you see anything?" Honghuang Zulong asked.

"Not yet."

Qin Chen shook his head.

Since knowing that there were deputy hall master level spies in the work of heaven, Qin Chen had a skeptical attitude towards any deputy hall master.

Therefore, when he targeted Venerable Ershi in this way, he actually did it deliberately. Because Venerable Ershi is a spy thing, Qin Chen knew that if the ancient craftsman Tianzun was really the big tiger hidden in the work, he would not know the identity of Venerable Ershi, Qin Chen wanted to target Venerable Ershi came to spy on the ancient craftsman heaven

Zun's response.

Unfortunately, the ancient craftsman Tianzun did not respond to this.

This made Qin Chen frowned.

Because sometimes, no response is also a response.

"Then what are you going to do?"

"We can only continue to test."

Qin Chen muttered, a ray of light flashed in his eyes.

In the next few days, Qin Chen continued to retreat in this day's work camp, and did not disturb others. The ancient craftsman Tianzun did not come to see Qin Chen again.

However, Qin Chen used these days to let the Liger Demon Lord secretly escape from the mineral vein area, and directly allowed their cultivation base to break through to the realm of the noble. As for the Demon Lord of the Liger, it even reached the peak realm of the human. At the same time, Qin Chen also infiltrated some of the original power of the earthly respect and a trace of the aura of the heavenly respect in several people. With the improvement of the strength of the liger and demon masters, they will gradually realize the power of these respected earthly and heavenly ones. , As long as there are enough resources

, In the future, there is great hope to break through to the realm of earthly respect.

But Qin Chen could only do this. After all, the Lions, Tigers and Demon Lords have just broken through the realm of nobles. Although Qin Chen possesses treasures such as chaotic fruits and the origin of the heavens, they can force them to break through the realm of the nobles, but in this way, their future can only stop at the ground. Respect the pinnacle

, It will never be possible to achieve Tianzun again.

Naturally, Qin Chen would not do such things that uproot the seedlings.

A few days later.

Boom.

On this day, over the Vulcan Mountain, a vast spaceship suddenly appeared and appeared in front of everyone.

"It's the ancient starship!"

Many people are shocked.

The ancient starship, the top flying treasure, is a treasure of the Tianzun level. Once activated, it can enter the special particle space of the universe, flying at extremely fast and amazing speed. However, the ancient star ark belongs to the lost refining technique in the universe. Today, no one in the universe can refine it. All the ancient star arks have been passed down from the ancient times, even the founder of Tianjiao Shen Gong Tianzun. , Can only repair

Recovering the ancient Star Ark before, but unable to refine new ones.

This is a special flying treasure that only a top refiner force like Tianjiao possesses.

"Qin Chen, Zhenyan Dizun, Yaoguang, you guys, come back to the headquarters with me."

In the ancient starship, the roar of the ancient craftsman Tianzun was passed from it.

"Let's go!"

Qin Chen's eyes flashed, and he instantly entered the ancient starship.

"Send to Master Tianzun, the ancient craftsman."

Outside the Huoshenshan Palace, Elder Yehe brought many elders and venerables to salute.

After a while, the ancient starship instantly turned into a stream of light and disappeared.

"Immediately send the news that Master Tianzun, an ancient craftsman, has left the Tiangong camp on the battlefield of the Ten Thousand Races while driving the ancient starship, and is rushing back to the Tiangong headquarters with Qin Chen and others."

When he returned to his palace, the elder Tianxing immediately gave an order to Venerable Ershi, his eyes cold.

"Yes."

Venerable Ershi retreated instantly. In the ancient star ark, after Qin Chen entered the star ark, he was already startled by the structure of the star ark.

[Chapter 4132: A problem](#)

There are many terrible restrictions in the entire star boat, and each restriction is extremely complicated, that is, it is Qin Chen's current cultivation base, which can not be distinguished for a while, only feels extremely shocked.

Any prohibition contains the most complicated principle of formation.

"Haha, when I first entered the Ancient Star Ark, I was just like you."

The ancient craftsman Tianzun laughed when he saw Qin Chen's expression.

"It takes a full three months to go back to the headquarters. You can observe it carefully." The ancient craftsman Tianzun's voice fell, and he returned to his cab, which was the core of the ancient starship.

And Qin Chen continued to stay here to observe.

After a while, Qin Chen's heart suddenly moved.

A message has appeared in his communication treasure, that is, the news that Tian Xing elder has already sent them away to the Linyuan Chamber of Commerce in Tianyuan City.

This is the message passed to him by Yu Mo Di Zun. "In this way, the elders of my own whereabouts, Tian Xing, cannot be passed on at all. In this way, as long as we are attacked and killed on the way back, then it must be passed by the ancient master Tianzun, and it can also prove that the ancient master Tianzun is actually on

It is the chess piece of the demons. "

Qin Chen secretly said in his heart, nervous.

Originally, he was actually going to go back to the work headquarters on his own, but in order to test the big tiger who worked out, Qin Chen hesitated for a long time, and finally decided to test the ancient craftsman Tianzun.

Of course, this would also risk his life. If it's just the ancient craftsman Tianzun, Qin Chen is not afraid. His only worry is that he will be attacked and killed by the strong sent by the ancestors of the deep demon. If there is another peak Tianzun like the devil Tianzun, no mother will come forward. Under the circumstances, Qin Chen

It's really troublesome.

"However, the news of the Tiangong camp has also been passed back to the Tiangong headquarters. If Shengong Tianzun gets the news, he will definitely do something, and it is impossible to let the demons carry out an ambush on him." The extraterritorial starry sky outside the battlefield of the race was that Xiaoyao Supreme had resisted the ancestors of the Abyssal Demon. Qin Chen knew very well that although he was stared at by the ancestors of the Abyssal Demon, he was also stared at by the top-level Supreme of the Human Race. Not so

Easy thing.

At least, to some extent, he is still safe.

call!

The ancient starship flew quickly across the starry sky, because the Tiangong Camp itself was located on the edge of the ten thousand race battlefield, so only a few days later, Qin Chen and the others had left the scope of the ten thousand race battlefield.

"The next few days will be the most dangerous."

Qin Chen mentioned it instantly.

In the battlefield of 10,000 races, the strong are like clouds. According to the rules, the supreme is inaccessible. Any bit of wind and grass can be detected. Therefore, the battlefield of 10,000 races is by no means an excellent ambush location.

On the contrary, it was the extremely dangerous period of time after leaving the power vacuum zone after the ten thousand race battlefield.

call!

I saw the ancient starship, the ancient carpenter Tianzun's driver, instantly entered a special particle void, and the speed was increased to the extreme.

Only one day later, Qin Chen and the others entered into a pitch-black void, and there was silence around them, without any life, not even the remains of stars.

"This is... Secret Realm of Brother Fa!"

Venerable Mantra looked at the dark void outside and couldn't help but said in surprise.

"Brother Fa Secret Realm?" Qin Chen wondered. "Yes." Venerable Mantra nodded, "Fa Ge Secret Realm is an extremely remote secret realm in the distant universe. It is one of the most dangerous secret realms in the universe. The degree of danger is almost the same as some of the top secret realms. Just fage

The scope of the secret realm is extremely huge. When we go to the headquarters, we can go through other paths. I don't know why the ancient craftsman Tianzun deliberately walked from the Fa Ge secret realm. "

Hearing this, Qin Chen couldn't help being surprised, could it be...

Huh!

At this moment, the ancient craftsman Tianzun appeared here instantly. "This is because it is extremely difficult to locate in the Fa Ge Secret Realm. If there is no ancient starship, it is easy to get lost. In the Fa Ge Secret Realm, although there will be more detours, but the same, it will not be discovered by the masters of the Demon League. If the people of the Demon League want

Looking for our trace, I am afraid that it will take a lot of moments, and at that time, we have entered the territory of human forces. "

Ancient craftsman Tianzun said lightly.

"So that's it." Venerable Mantra nodded, and had to say that the ancient craftsman Tianzun considered too much. However, Qin Chen was shocked, because although the Secret Realm of Fa Ge could make it extremely difficult to find the masters of the Demon Alliance, it is also extremely difficult for the masters of the human race to catch them. The Tiangong Headquarters wants to investigate in the future. Will also become difficult

.

Qin Chen was always vigilant.

one day.

Two days!

Ten days!

Qin Chen has been vigilant, but has never encountered danger.

Finally, after a month.

After spending more than a month of interstellar travel, Qin Chen and others finally left the secret realm of Fa Ge.

And Qin Chen and others also entered the territory of the human race.

Once in the territories of the human race, if the demons want to attack and kill them, the difficulty will increase even more.

"Hehe, don't worry, you will be much safer here."

Ancient Craftsman Tianzun said with a smile.

He looked at Qin Chen, "Do you know that this time I walked into the Secret Realm of Brother, everything is because of you, and your accomplishments have made my work more difficult."

"Difficult things?"

Qin Chen was puzzled. "In my days, anyone who breaks through the realm of the earthly respect can obtain the status of elder. Just like the mantra, you can follow me back to the heavenly work headquarters this time, and you will be granted the position of elder. There is no problem. As an elder, there is also a real authority

The old and non-real power elders, the non-real power elders are just a name, enjoy status, but do not have much power. "The ancient craftsman Tianzun said with a smile.

Qin Chen's heart moved, and it was really the case. For example, in the previous days of the work camp, Elders such as Yehe and Gu Xu all had real power. Like many others, they had no real power. "However, this time you have done a great job for my heavenly work and found out the spies of the Demon Race. After I arrived, I also investigated carefully. Gu Xu Dizun has been in this camp for hundreds of thousands of years. Caused my daily work camp to lose countless resources

, The crime is extremely heinous, if it weren't for you to find out, I still don't know how many resources will be lost. "The ancient craftsman Tianzun has cold eyes," And, in the past few days, I have also investigated. In addition to this day work camp, I work in several other camps on the battlefield of ten thousand races. It is also a little weird. Investigation, I'm afraid there will be a lot of resource damage Lost. "

"You have done a great job."

"According to my daily work, I am afraid that your position is a bit troublesome." Ancient craftsman Tianzun suddenly smiled.

[Chapter 4133: Fire Secret Realm](#)

When Venerable Mantra heard it, his heart moved. Ancient Craftsman Tianzun said so, could it be that the headquarter's reward to Qin Chen was not just an elder?

It's really possible.

Because Qin Chen himself is a disciple of Tianjiao, although he has never been to Tianjiao's headquarters to report on his work, in fact, Tianjiao has already heard of some of his deeds.

In the Void Tide Sea of the Sky, Qin Chen was chased by the Demon Venerable Demon Race. At that time, Qin Chen's cultivation base, but the little Saint Lord, brought the opponent into the void sea forbidden land in the Void Tide Sea, trapping and killing him.

Secondly, in the southern heaven realm, Qin Chen entered the forbidden area of the Tongtian sword pavilion, and finally escaped under many venerables, becoming the tianjiao who walked out of the forbidden ground of the Tongtian sword pavilion alive.

This incident caused Qin Chen to never return to Tianjiao, but in reality, it has already been paid attention to by many high-level employees.

This time, Qin Chen made such a contribution.

If Qin Chen is just an ordinary person, it is so easy to solve, just give a position, give some rewards, it is very easy.

However, Qin Chen is already the respected earth, and that will indeed become difficult.

Because, the weakest place is the elder, although Tianzuo is vast, but the status of a powerful elder is extraordinary, which is also a test for the top of Tianzuo.

When Qin Chen heard the words, he didn't care, and smiled slightly: "The ancient craftsman Tianzun has bothered, but the disciple doesn't really care about the position of Tian's work."

"Haha, interesting." Ancient Craftsman Tianzun looked at Qin Chen with a smile: "You won't say that then."

After speaking, the ancient craftsman Tianzun turned and left with a smile.

Qin Chen's heart moved.

What does this ancient craftsman Tianzun want to express?

In the following days, Qin Chen has been feeling the barriers of the formation pattern on the ancient starship, the more he feels, the more shocked he is. On the way to the formation, Qin Chen's talent was already extraordinary, but after seeing this ancient formation pattern, Qin Chen knew how complicated the interior of this ancient starship was. No wonder the entire day's work could not replicate this ancient time. Super flying treasure

.

Because, so far, even with the technique of patching the sky, Qin Chen hadn't even fully understood one of the formation patterns. Although this formation pattern seems simple, with Qin Chen's continuous in-depth understanding, he will find that every restriction here seems ordinary, but once deep in, each formation pattern seems to contain an entire universe, vast , Boundless

.

However, Qin Chen did not dare to be completely immersed in his sentiment.

If the demons would ambush on the road, right now, it will be the only chance.

Otherwise, it will be more difficult to get to the headquarters of TianWorks.

"Elder Tianxing and the others can't send out the news at all. The Linyuan Chamber of Commerce in Tianyuan City has also been under my control. If a strong man comes to me, it is very likely that it is the message passed by the ancient craftsman Tianzun."

Looking at the vast void of cosmic particles outside, Qin Chen said silently.

He was ready to be attacked and killed long ago.

one day!

Two days!

Ten days!

A month!

Two months!

For these two months, Qin Chen had been vigilant, but he did not encounter any danger. One day two months later, the ancient star ark suddenly shook and appeared in a mysterious universe.

"Qin Chen, Venerable Mantra, Holy Lord of Yaoguang, I have already reached the forbidden area outside the headquarters." The voice of the ancient craftsman Tianzun suddenly sounded in the ears of Qin Chen and others.

"Om!" In Xingzhou's living room, both Qin Chen and Venerable Mantra looked outside through the windows of Xingzhou. In front of Xingzhou...there were fire dragons like roaring dragons, one after another starlight. The roaring fire dragon covers hundreds of thousands of kilometers, like a Fire dragons are frolicking with each other, crisscrossing the starry sky.

Moreover, in the void, huge spatial vortices appeared irregularly everywhere.

This side of the void... is like a huge ocean with thousands of whirlpools, and only one space whirlpool can be seen, randomly distributed everywhere, at a glance, there is no end in sight.

The fire dragon qi flew out of the huge space vortex, and then disappeared in another space vortex.

"Fire Source Secret Realm."

Qin Chen stared at the vast flame void in front of him, and the feeling was a bit like entering the secret lotus fire.

"The legendary fire source secret realm." Qin Chen looked at the void in the distance.

"Qin Chen, this is where the headquarters of Tianjiao is located. As long as you enter the depths of the fire source secret realm, you will be able to see countless outer stars of Tianjiao." Holy Master Yaoguang said excitedly.

He was a disciple of Venerable Mantra, and naturally lived in the working headquarters on this day. Later, because of a mistake, he was punished to the Eastern Heaven Realm and asked Hantian Guanghan Mansion as the minister of the Heavenly Work Division.

For countless years, he has longed for returning to the Tiangong headquarters.

But today, he finally returned, returning as a venerable, how could he not be excited in his heart. "Qin Chen, the fire source secret realm is the outer secret realm of my work day. It is filled with terrible annihilation fires. These flames are born in the forbidden area of the core area of my Tian work headquarters. It protects my day work. Outsiders can easily fail. Break in, this is

One of the most dangerous secrets in the universe. "

Yaoguang Holy Lord proudly said.

"That's right... the fire source secret realm is indeed one of the most dangerous secret realms in the universe." Venerable Mantra also smiled, "It is comparable to the size of a realm, and the dangerous place is everywhere. Even if the Tianzun enters it carefully, it is difficult to survive."

The universe secret realm is also divided into different levels, and the scope of the area is also different. The headquarters of Tiangong is naturally extraordinary. In order to protect Tiangong, the headquarters of all major forces will be established in the most dangerous place, because that kind of place is also the safest, and Tiangong's backyard secret is the highest and most dangerous secret.

Danger can make ordinary venerables fall, and in some extremely dangerous places, even Tianzun has to hold his breath.

Moreover, it is very difficult to travel through the void here. If you don't know the route and the law of the spatial vortex, and you want to simply fly by and explore, it will take endless years for Tianzun.

What's more, who dares to fly like that in dangerous places?

Once an outside Tianzun enters, it will be immediately detected by Tiangong's detection methods here. mysterious!

Danger!

No entry!

This is synonymous with the source of fire secret realm. "It is said that the most common fire source secret is the 'Fire of Annihilation', but once a strong earthly person falls into the fire of annihilation, if it is a small fire of annihilation...I am afraid that it will hurt the earth, if it is a large stock of annihilation. The fire is enough to annihilate the earthly deity."

Sigh, "Qin Chen, far away in front of us is the fire of annihilation."

"There are more fire dragons behind." Qin Chen said. Venerable Mantra looked back... that far away, there was an endless flame of annihilation that ran through the starry sky without knowing how many kilometers wide. If the fire of annihilation in the front is a flood of dragons, then the terrible flame behind is a vast river with no end.

[Chapter 4134: Sky Tower Fire Pillar](#)

"Such a fire of annihilation, I am afraid that even the general Tianzun will be involved in it." Qin Chen squinted.

With his strength, he can naturally feel the terrifying fire of this annihilation.

"This is the confidence that my Tianwork Headquarters stands here. Generally, Tianzun can't cross it." Ancient craftsman Tianzun smiled.

Qin Chen glanced at the ancient craftsman Tianzun, with doubts in his eyes.

Isn't this ancient craftsman Tianzun a spy?

After all, they have never encountered danger along the way, and now they have entered the Secret Realm of the Source of Fire, I am afraid that almost no strong will dare to enter.

This is almost a death hunt.

"Let's go, let's enter the depths of the fire source secret realm first." The ancient craftsman Tianzun said, urging the ancient star boat, and actually entered the space vortex like the fire of annihilation.

Suddenly, the surrounding starry sky changed, magnificent and fantastic.

"If you want to enter the depths of the fire source secret realm, you must pass through these space vortices. However, most people don't know which space vortices are safe and which are threatening. This is also a barrier to our headquarters."

Ancient craftsman Tianzun explained to Qin Chen.

And after flying by for an unknown length of time.

Suddenly, Qin Chen's body was shaken.

As Qin Chen and the others flew across a spatial vortex, the scene in front of them instantly shocked Qin Chen. I saw that in the deepest part of the void filled with countless space vortices, there are huge planets. These planets are scattered in the depths of this void, and each of them is so huge that they are simply bigger than Qin Chen has ever seen before. Huge stars, all

A hundred times bigger, a thousand times bigger.

"This is the outer planet of my daily work headquarters." Holy Master Yaoguang suddenly became excited.

"Qin Chen, I was cultivating on such a planet back then, learning the art of refining tools." Holy Master Yaoguang's eyes beamed.

"Why are these planets so big?"

Qin Chen said in shock. There are many stars in the universe, but Qin Chen has also seen some huge planets, but those planets are not as huge as the planets in front of them. On these planets, there are countless buildings, and each planet On, both

There is something like a stove, absorbing the power of annihilation between the world and the earth, and exhaling a terrible breath. "Haha, Qin Chen, these planets are not formed naturally, but are the power of my work. For hundreds of millions of years, the planets refined by the core of the stars have been continuously collected. Each planet is a refining furnace. , Also a flight to treasure. "

Venerable Mantra laughed.

"Refining furnace? Flying treasure?"

As he flew near, Qin Chen stared at these stars, and finally saw that the stars in front of him were really huge furnaces, and there were countless workers working in them, working day and night. With mixing device.

"madman."

Qin Chen was speechless, refining the stars into refining furnaces one by one. This is especially true that only a madman can think of doing such a thing.

"Haha, that's right, my staff are all lunatics." The ancient craftsman Tianzun suddenly smiled at this time, his eyes burning. For him, the word lunatic is not irony or slander, but a kind of glory and a kind of pride.

He murmured: "The universe is in distress, the war between humans and demons, if it weren't for my daily work for countless years of continuous supply. God soldier, I'm afraid it's the ten thousand clan It's already gone. This is the destiny of my day job. "

"Master Tianzun, ancient craftsman, which star are we going to?" Qin Chen asked.

In front of me, there are countless stars and vast expanse.

"We are not going to any star, but the secret realm of the headquarters." Ancient craftsman Tianzun smiled slightly.

"Headquarters Secret Realm?"

The Holy Master of Yaoguang suddenly breathed quickly, and he had grown so big that he had never been to the secret realm of the headquarters.

"The stars here are the refining stars of my work, and the true core of my work is located in the secret realm of the headquarters. Those who can enter it are not the top tianjiao of my work, but the world-class powerhouse. ."

Holy Master Yaoguang said excitedly.

It is an honor to be able to enter the secret realm of the headquarters.

Whoosh!

The Xingzhou flew by, and after a while, Qin Chen and the others stopped in a certain void in the middle of the endless stars.

"Here." Ancient craftsman Tianzun smiled.

"Where?" Qin Chen raised his head. Here, there is an empty space, and there is no secret realm in sight.

"Wait." Ancient Craftsman Tianzun smiled.

Suddenly the peaceful void around them began to twist, and Qin Chen and Holy Master Yaoguang's complexion changed slightly, but the twisted space around them instantly swallowed them both like a whirlpool.

In front of him, a colorful vortex appeared.

"Space channel?"

This word instantly appeared in Qin Chen's mind, and the next moment, the colorful vortex swallowed the ancient starship where Qin Chen was.

In the next moment, Qin Chen and the others already appeared in a strange starry sky.

"this is?"

Qin Chen immediately felt an endless terrifying aura suppressed on him. Here, Qin Chen suddenly felt that his power could be suppressed infinitely, as if he had entered a small world of others. And in front of him, a colorful ray of light surged. This colorful ray of light pulsed like a flame, filled with a magical

power, and made people involuntarily attracted to stare at it. Qin Chen is a strong will. And immediately found this

Point to wake up.

"It's faster to be sober." Ancient Craftsman Tianzun said with a smile. Qin Chen turned his head abruptly, and then discovered that the ancient craftsman Tianzun had already put away the ancient starship, Qin Chen and the others were standing in a vast starry sky, and the mantra and the holy master were also nearby. Above, where the Lord of Light is completely immersed

Among the colorful rays of light, some were even unable to extricate themselves, as if they were completely taken away by the colorful rays of light.

"Yaoguang."

Venerable Mantra suddenly shouted.

Holy Master Yaoguang woke up immediately.

"Master..." He exhaled and said excitedly: "Is this the treasure of chaos in the legend of my work day-the pillar of fire in the sky?"

"Chaos Treasure?"

Qin Chen stared at the past, and instantly felt an extremely terrifying chaotic force from it. "Yes, here is the Pillar of Fire to the Sky." Venerable Mantra sighed: "This treasure is rumored to be made by ancient craftsmen as ancestors who collected the colorful chaotic flames in the universe. It was made by craftsmen as ancestor refiners. Treasure, but later destroyed by craftsmen

Destroyed, this sky-reaching pole fire pillar fell into the hands of Tianzun, my heavenly work, and became the chaotic treasure that guarded my heavenly work. "

"Even Tianzun can kill such flames. No matter how strong Tianzun is, he will not dare to break into the secret realm of my Tianzhu headquarters.

Venerable Mantra said proudly.

This is the top treasure of his day job that can stand among the top forces of the human race.

"Who?" And just as Venerable Mantra spoke, a vast aura suddenly descended.

[Chapter 4135: Condensing device embryo](#)

Whoosh whoosh!

Along with this high drink, several silhouettes passed by in the distance and landed here instantly.

A terrible breath swept across. Qin Chen, Venerable Mantra, and Holy Master of Yaoguang all turned their heads abruptly, and they saw a few of them exuding a terrible aura, each holding a strange primitive artifact, from that heavenly pole. The colorful rays of the pillar of fire fly by

Come. These people were wearing elder robes and looked at Qin Chen and his group intently, and Qin Chen also looked at each other, and felt the terrible flame aura exuding from them. Seeing that posture, they seemed to be from the colorful flames. Flying by, each breath

Extraordinary, all of them are earthly strong.

"It's the elder." Qin Chen was surprised, "These elders of the earth-sovereign, seem to have just flew out of the fire pillar of the sky-reaching pole, are they going to refining?"

Qin Chen looked at the embryos in the hands of several people in surprise, showing a shocked expression.

The air of chaotic flame exuded from this embryo, which was very similar to the aura of colorful chaotic fire in the pillar of fire.

"It's an ancient craftsman Tianzun!"

"I have seen the Vice-Hall Master Ancient Craftsman."

These elders of the earth-zun were curious at first, but after seeing the ancient craftsman Tianzun among them, they hurriedly saluted and looked respectful.

"Well, do you have the qualifications to enter the Fire Pillar of the Heavenly Pole to condense the artifacts?" The ancient craftsman Tianzun smiled: "How is the harvest?" "Back to the ancient craftsman Tianzun, I waited hard to accumulate some merits. I redeemed the qualification to enter the condensing tool embryo in the Tongtian Polar Fire Pillar, but the reward is great. The tool embryo condensed by the colorful chaotic fire is really better than our own smelting fire

The artifacts of Yan Condensed are too powerful, maybe, I may not be able to successfully refine the Divine Supreme Treasure this time. "

An old man in the lead said excitedly.

"Well, seize the opportunity. The artifacts that have been condensed by the Colorful Chaos Fire contain chaotic energy, and the impurities will be perfectly removed. Take good care of them." Ancient Craftsman Tianzun said with a smile.

"Yes, ancient master Tianzun, are you returning from the battlefield of ten thousand races? These few people, I am afraid that I was born on the battlefield of ten thousand races." The lead refiner said respectfully.

"Hey, Lord Mantra, it's you."

One of the refiners looked surprised when he saw Venerable Mantra.

"Mantra has met Elder Difang." Venerable Mantra saluted the refiner.

This elder Difang is also considered to be an elder who is a veteran of Tianzuo. He has once introduced Venerable Mantra.

"Haha, have you broken through the realm of Earthly Sovereign?" Elder Difang smiled in surprise, "Haha, it's no wonder that the Vice-Hallmaster of Ancient Craftsman will take you into the secret realm of the headquarters. It seems that Venerable Mantra you are going to be promoted to the position of elder."

"Ancient craftsman deputy hall master, I don't know if it is the deputy hall master coming, if you offend, please forgive me, and I will say goodbye."

"Farewell."

These refining elders saluted one after another, and then disappeared here.

"Ha ha."

Ancient craftsman Tianzun smiled slightly.

"Old Master Tianzun, who are these people?" Qin Chen wondered. "This is the refining elder of my daily work. As a refining elder, I can practice the art of refining weapons in the secret realm of the headquarters, and can exchange the contribution of my daily work headquarters by doing tasks and refining magic weapons. Point, and achieve a certain merit

After the value, it can be exchanged for the qualification to enter the condensing device embryo in the pole of fire. "The ancient craftsman Tianzun smiled and said: "This is almost the thing that many of the elders of the earth-sovereign desires most to stay in the secret realm of the headquarters, because the embryos condensed by the Tongtian extremely fire pillar are in excellent condition, and they even hope to be able to Created the treasure of the earth.

"

Qin Chen looked at this Tongtianji Fire Pillar in surprise. He thought that the Tongtianji Fire Pillar was used to guard the secret realm of the Tiangong Headquarters, but who knew it could even be used by the elders to refine weapons.

Venerable Mantra with fiery eyes on the side, refining the Earth Sovereign Treasure, this is undoubtedly a great temptation for him who has just become an Earth Sovereign elder.

"Follow me, we still have a lot to do."

Ancient craftsman Tianzun said with a smile, flying ahead, Qin Chen, Venerable Mantra and Holy Lord Yaoguang naturally followed.

"Have you seen that?" After flying by for a moment, the ancient craftsman Tianzun pointed to the endless rushing colorful dreamy flames.

Qin Chen, Venerable Mantra, and Holy Master Yaoguang nodded their heads.

"Take you to a closer look." As soon as the ancient craftsman Tianzun's voice fell, Qin Chen and the three people felt a illusion... had already teleported a certain distance, and came close to the endless and broad colorful light. "This is..." Qin Chen held his breath and got close. Qin Chen finally saw that the colorful rays of light are indeed flames. These flames are extremely mysterious, exuding a vast breath, and are constantly flowing. Seven colors of flame,

The endless flames condensed into this colorful light like the vast Tianhe.

Before standing far away, Qin Chen and the others only saw the colorful rays of light. When they got closer, they discovered that the rays of light were extremely vast and almost endless.

Qin Chen felt that this colorful chaotic fire was extremely terrifying, even more terrifying than all the flames Qin Chen had seen. Except for Qin Chen's own chaotic green lotus fire, it was almost comparable to the sea of fire in the Vientiane God Hidden Fire Realm.

"That is....."

Qin Chen stared at the past, and saw that there were some refiners sitting faintly in the flames. These refiners were not burned in the flames.

"They..." "They are all condensing tool embryos. Don't worry, although this colorful chaotic fire is extremely terrifying, any single flame can annihilate the master of the earth, and once the power bursts, it can severely hurt the heaven, it is the top in the universe. One of the treasures, unless the supreme master, no matter how strong Tianzun can easily withstand the power of the colorful chaotic fire. However, it will not attack the refiner who has obtained the opportunity to condense. As for you, I am the deputy master of Heavenly Work, you Follow me, naturally you won't be mixed

Chaos fire attack. "

The ancient craftsman Tianzun smiled and led Qin Chen into the colorful aurora instantly.

Rumble!

Each of this colorful chaotic flame aurora tumbling, exuding terrifying power, that mighty and unrivaled might can make the Venerable Mantra and the Holy Lord of the Light hold their breath, and the aura in the body is strongly suppressed.

But Qin Chen felt the chaotic green lotus in his mind move slightly, and felt the chaos aura pouring into his body in the void.

"this is....."

Qin Chen was shocked to find that the chaotic green lotus in his mind seemed to instinctively absorb the power in the colorful chaotic flames.

"Ok?"

The ancient craftsman Tianzun stopped, as if vaguely felt something, and stared.

Qin Chen hurriedly reduced the chaotic green lotus aura. "Master Tianzun, ancient craftsman, what's wrong?" Venerable Mantra asked in confusion.

[Chapter 4136: Origin of Flame](#)

"Nothing? I just felt that when we were passing by the colorful chaotic fire, the aura of the colorful chaotic fire seemed to weaken a little. I really want to be absorbed by some power." Ancient Craftsman Tianzun frowned and looked at Qin Chen.

"Not good!" Qin Chen was about to sweat behind him, this chaotic green lotus was really scary, and it would be troublesome if it was discovered by the ancient craftsman Tianzun.

"The colorful chaotic fire has absorbed power? This...impossible?" Venerable Mantra was a little dazed.

It is not the first time that he has come to the secret realm of the headquarters, and he still has some understanding of it. This is the Pillar of Heavenly Fire, the colorful chaotic fire in it, unless the Master of Tiangong Hall, Divine Worker Tianzun, can fully control it. This is the treasure of the secret realm of the Headquarters of Tiangong. Generally, the deputy hall master is not attacked, but he dare not say that he can control this Seven

Cai Chaohuo, how could it be absorbed by people.

If this spreads to the ears of many powerful people in Tiangong, it will definitely cause an uproar.

Qin Chen was also speechless, and Chaos Qinglian was too low-key. He hurriedly converged the chaotic Qinglian aura, making it quietly dormant in his mind.

The ancient craftsman Tianzun carefully perceived for a long time, but finally found nothing, shook his head in doubt, and wondered: "Maybe it's my perception wrong."

The ancient craftsman Tianzun did not continue to care about these, and led Qin Chen and the others through the colorful chaotic fire.

"Did you see, the secret realm of the headquarters is there." Ancient craftsman Tianzun pointed to the depths of the colorful chaotic fire.

Qin Chen looked hurriedly.

Suddenly, Qin Chen vaguely saw a floating island, which was suspended in the center of the colorful chaotic fire. As Qin Chen and the others got closer, the island also appeared to grow bigger and bigger.

On the surface, this is an island, but in fact, it is extremely vast and vast, invisible at a glance, like a vast continent, suspended between the heavens and the earth, larger than the huge stars Qin Chen saw many. "This is the Island of the God of Craftsman. This is one of the core places of my daily work. If you can live here for a long time, you must at least be at the level of the elders of the Earth Sovereign. Tianjiao of the realm, there is hope to enter this

Ground experience, hard cultivation, as for the Holy Master, it is difficult...Even the Peak Holy Master has rarely entered the Island of the God of Craftsman for countless years. "The ancient craftsman Tianzun said, and he has reached the Island of God of Craftsman.

The God of Craftsman Island, with a vast diameter of hundreds of millions of kilometers, suspended under the colorful chaotic fire, it can also be called the God of Craftsman Continent.

call out! call out! call out!

The four streams of light flew into it quickly and fell on the land of the craftsman god. It was the ancient craftsman Tianzun, Qin Chen, the mantra, and the **** of light. "Many palaces." Qin Chen saw that there were densely packed palaces on the land far away, as well as on some mountain ranges. There

were countless palaces of various styles. At the same time, many palaces had powerful auras. That powerful aura, obviously

Strong people live in these palaces.

This is the core place of Tianjiao. If it is ruined, then Tianjiao, a top-level power, will be destroyed. Tianjiao is a top power in ancient times. Its founder, Shen Gong Tianzun, is also a fire-burning boy under the ancestors of ancient craftsmen. For hundreds of millions of years, I don't know how many strong men have been cultivated. These strong men have a long and long time. Dormant

In this world, the one-hearted interrogator doesn't care about everything that happens outside.

This has also led to countless terrifying powerhouses hidden here, after all, they were born out of hundreds of millions of years, so extraordinary.

"Look at it." Ancient Craftsman Tianzun pointed to the sky.

Qin Chen and Venerable Mantra looked up.

"Huh?" Qin Chen looked at the sky, and there was a circle of flames covering the entire Island of the God of Craftsman. The circle of flames was expanding and disappearing to the edge, and a new flame was born in the center of the flame.

A flame covers a flame, just like ripples on the water surface.

Constantly filled the surroundings.

Annihilation, new life.

Annihilation, new life.

So endless... that each circle of flame is composed of countless flame laws silk threads, many flame laws surging, with the aura of the origin of the fire of heaven and earth, making every flame extremely perfect.

Qin Chen was completely immersed in it, it was too shocking, the cyclical disillusioned flame actually seemed to interpret all the flames in the universe.

"Several..." Ancient craftsman Tianzun shouted.

Qin Chen, Venerable Mantra, and Holy Master Yaoguang all woke up.

"This, this is..." Holy Master Yaoguang was surprised, "It's incredible, this is simply..." "This is the origin of a flame when the universe was born. It was captured by the ancestors of ancient craftsmen and contained the universe. The most fundamental flame power in the middle, precisely because of this flame origin, that colorful chaotic fire will always stay in this void,

Constantly arise and die, but will not dissipate. After all, since the craftsman's destruction, even for hundreds of millions of years, even the god-worker Tianzun I worked for, could not collect more chaotic flames from the universe. "The ancient craftsman Tianzun's eyes are like copper bells, and he looks up, "My work has been able to stand for so many years and become the number one refining force in the

universe today because of the origin of a primitive cosmic flame, which has not been known how many people think

To take or destroy the origin of this flame! "

Ancient craftsman Tianzun said solemnly, his eyes showing cold light. "Because as long as this flame origin is destroyed, the colorful chaotic sea of fire of my day job will gradually dissipate, and in the end it can only become a treasure of the gods and masters, and cannot protect the secret realm of our entire day job headquarters. At that time

Time, it is a disaster for my daily work, and even the human race. "

"Because, my daily work will not be able to continuously give birth to master refiners, unable to refine the treasures of the precious, human race will fall into a nightmare."

Qin Chen was shocked.

Is the origin of the law of flame that the universe was born so awesome?

"Let's go, I'll take you to the conference hall of the headquarters first."

The ancient craftsman Tianzun said and strode forward, and Qin Chen, Venerable Mantra, and Holy Master Yaoguang followed. Walking on the Island of the God of Craftsman, looking at the palaces of various styles in the distance, you can also see some powerful men in the work of heaven, and Qin Chen felt that the whole continent of the God of Craftsman also contained terrible flames. Breath, even Qin Chen saw this

The mountains and rivers here have unique patterns.

"Should it be..." Qin Chen was startled. "Did you see? That's right, in fact, this is a top craftsmanship place, and the whole is a master craftsman Tianzun who spent hundreds of millions of years transforming it. Rumor has it that this island of craftsmanship, it was originally a refiner used by craftsmen as ancestors

The dojo, later the craftsman's work fell apart, and Master Tianzun Shengong spent hundreds of millions of years to build it into the headquarters of our daily work. "

"The craftsman is the ancestor's refining dojo?"

Qin Chen was speechless. Why is this place related to craftsmen?

[Chapter 4137: Headquarters restricted area](#)

As if he knew Qin Chen's doubts, Ancient Craftsman Tianzun smiled and said, "Otherwise, although Master Tianzun is strong, he is only Tianzun. How can he create such a terrifying secret realm? Is the ancient craftsman

The mysterious forbidden land, the secret realm of the headquarters built by Lord Shen Gong Tianzun on this basis. "

The ancient craftsman Tianzun said, taking Qin Chen and the others deep, along the way, countless palaces stood tall.

"How many residents are there on the Island of God of Craftsman?" Qin Chen asked curiously, because there are so many palaces, are there so many powerful people in Tianjiao? "There are many residents here." Ancient craftsman Tianzun said, "Except for the craftsman of the human race, anyone who is a craftsman in the human alliance can join the heavenly work. However, if foreign races enter this place, there will be many Restrictions. Unlike other craftsmen, they are obsessed with craftsmanship. For hundreds of millions of years, countless craftsmen have lived here in seclusion to contribute to the work of heaven. Therefore, the number here is by no means comparable to ordinary forces. It is also because of this. , The status of my day job

Driving above the top human forces such as the Star God Palace and the Void God Temple of the same level. "

"What you see here may be some of the elders and Tianjiao I work for, or you may encounter some old antiques, inherited from ancient times." "Once, there were more powerful people in the secret realm of my daily work headquarters, but I worked daily. In the endless years, I have been invaded by some forces such as the demons, trying to destroy my work. At that time, many people fell, and the secret of the headquarters was lucky.

Saved. "

"But until now, the Mozu has not lost the heart of destroying the secret realm of our Tiangong headquarters, and even sent spies to our Tiangong headquarters."

Ancient craftsman Tianzun said coldly.

"spy?"

Qin Chen was taken aback. "Yes, because it is extremely difficult to invade our headquarters from the outside world. Only when you attack from the inside can you destroy the origin of the flames in the secret realm of the headquarters. Several disasters in history have erupted from within. In fact, I used to be heavenly

The origin of the flame was stronger, but it was much weaker in the two disasters. "

The ancient craftsman Tianzun sighed: "This is also the reason why you made a great contribution this time. Fortunately, with the strength of Elder Gu Xu and the others, the origin of the flame can't be destroyed at all, otherwise, they are afraid they would have already done it."

While talking, the ancient craftsman Tianzun pointed to the surroundings and said: "You can take a good look. Looking back, you also have the hope to build a palace here, but the size and location of the palace are both particular, and someone will tell you later."

Qin Chen, Venerable Mantra, and Holy Master Yaoguang nodded. They all listened carefully and it could be seen that the ancient craftsman Tianzun did not directly take them to the headquarters hall, but introduced them to everything here.

Many things here are some information that the Venerable Mantra who had been here before did not know at all.

Qin Chen finally understood why even the ancient sacred tower knew that there were many spies in the work of heaven. It turned out that there had been several disasters here.

Because, Tianzuo gathered many craftsmen in the human alliance in the universe, that's all, many of them were not cultivated by Tianzuo since childhood.

For example, Qin Chen is the selection of Heavenly Work from Guanghan Mansion. Who knows if spies will get in?

Originally, the work of heaven was still very pure, but after the war between humans and demons, the Human Race Alliance had a huge demand for craftsmen, so the entry of Wanzu craftsmen was opened.

Qin Chen, Venerable Mantra, and Holy Master Yaoguang listened carefully.

"You follow me again." The ancient craftsman Tianzun continued to lead Qin Chen and the others. He not only brought Qin Chen and the others here for questioning, but also told Qin Chen and them some basic information.

This made Qin Chen frowned.

In this process, the ancient craftsman Tianzun did not act like a spy.

Could it be that the ancient craftsman Tianzun is not?

But sometimes, his behavior is very weird.

After a while.

A few people came to the highest mountain range in the whole island of Craftsman God. There was only a majestic palace on the mountain, which was tens of thousands of kilometers long.

Standing in the center of this island of God of Craftsman, it is extremely magnificent.

"Is this the palace of the Master of God's Work Tianzun?" Holy Master Yaoguang said excitedly.

Qin Chen also looked over.

Shengong Tianzun, he has heard too many legends of the other party, and helped Xiaoyao Supreme restore the peak Tianzun of the heavens, the hero of the human race. "No." The ancient craftsman Tianzun smiled and shook his head: "This is the conference hall of the Tiangong headquarters, not the palace of a certain individual. Several high-level officials should have gathered here and received the message from me. You will have a meeting later. Waiting in this palace

, I will go to the handover first, and inform everything that happened on the battlefield of the ten thousand races. After the results are discussed, you can wait for the notification. "

Qin Chen nodded, and the senior management of Tiangong would naturally not discuss it in front of them, and there would be a result before they were notified.

"As for the palace of Lord Hall..."

The ancient craftsman Tianzun suddenly smiled and pointed his head to the sky: "Look."

Qin Chen, Venerable Mantra, and Holy Master Yaoguang looked up.

"This is—" Qin Chen saw a very beautiful and incredible scene. Looking up from this position, he could actually see the depths of the colorful chaotic aurora, and there was a huge palace with extremely dazzling light in the palace with endless light. The void in the distance is still hanging

There are several palaces one size smaller floating around. "That is the real core of the secret of the headquarters." Ancient craftsman Tianzun pointed at a distance and smiled. "The largest palace is the palace master's palace! That is the place where Master Shen Gong Tianzun lives, and the others are one size smaller. The palace is the residence of the deputy hall master,

Scattered in different directions in the land of colorful aurora. "

"Currently, I have eight serving deputy hall masters in my daily work."

"Only the serving deputy hall master is eligible to live in the floating palace. Other than that, others can only live on the continent of the Artisan God."

The ancient craftsman Tianzun smiled because he was also one of the eight serving deputy masters.

"That is....."

Suddenly, Qin Chen raised his head and saw that there was a vast black tower above the palace owner's palace, but the tower was blocked by the palace and the endless colorful aurora, and the specific appearance could not be seen.

Qin Chen felt a strong suffocation just seeing the tall tower. The previous oppression that seemed to have entered a small world seemed to be transmitted by the dark tall tower.

"This is a forbidden area in the headquarters of my daily work. You will know when you look back. Okay, wait here. Someone will pick you up."

The ancient craftsman Tianzun's voice fell, and his figure flickered, and he instantly entered the depths of the conference hall and disappeared. Obviously went to discuss.

[Chapter 4138: Honorable puppet](#)

The ancient craftsman Tianzun disappeared, and Qin Chen and the three people stood in the hall. Naturally, a waiter came forward and took them aside.

"This is... a puppet?"

Qin Chen looked at the waiter leading them with a look of surprise.

Because this is actually a puppet, this puppet is a refining artifact from the ancient times, it is very simple, the whole body is made of a special metal, and it is impossible to see the secrets in it.

And the aura on this puppet is of the venerable level.

hiss!

Venerable puppet. Qin Chen sucked air-conditioning. Venerable is the top power in the universe. Regardless of the many Venerables on the battlefield of the ten thousand races, the Venerable is already

very impressive for some small races, and Tian Zuo, there is a Venerable. Grade puppet, how can Qin Chen not be shocked?

?

If such a puppet is placed in some small clans, it may make some small clans crazy. "This is an ancient puppet of heavenly work, and it is also a product of ancient craftsmen. Although the aura is only a nobleman, in actual combat, it has the highest combat power of the human race. After all, the puppet is not afraid of death." Secretary of Work Headquarters

Circumstances, naturally know a little about this.

Qin Chen and Holy Master Yaoguang both nodded. Indeed, once something like a puppet fights for its life, it is much crazier than the real ten thousand races, because the puppet does not feel pain. As long as the energy core is present, as long as the formation can still operate, he can fight. Fight desperately, with

The kind of death.

And even if the ten thousand people are crazy, facing death, they will still have fear instinctively.

What's more, a puppet is not a body of flesh and blood, nor does it have a sea of souls. The methods of the powerhouses of the general ten thousand races are ineffective against puppets and make puppets more terrifying.

"It would be good if I had a constant supply of energy to produce this puppet during my daily work, so how would I worry about the war among the ten thousand races?"

Holy Master Yaoguang sighed, if there is a puppet of tens of millions, hundreds of millions, what demons are you afraid of? The venerable puppet army can crush them to death.

"That is natural, otherwise the demons would not stare at the ancient craftsmen."

Venerable Mantra sighed: "Do you know that in the ancient times, the demons first launched a war of all races, which force was attacking?"

"Which?"

"Craftsmanship!" said the Venerable Mantra: "Craftsmanship is the holy place of many refining forces in the ancient universe. All refining forces in the world are attached to the side of the craftsman's work, forming an alliance, and this Venerable puppet The method of refining is also owned by craftsmen

, Therefore, the first thing the Mozu starts the war of all races is to destroy the craftsmanship. "In that battle, the demons launched a vast army and attacked forcefully. Although the craftsmen were strong, they still suffered heavy losses when they were caught off guard. The craftsmen died in battle, and many treasures were lost, just like the refining of this puppet. The origin is

This battle was destroyed by the demons. "

"Venerable puppet refining requires a lot of sources. After all, the power that can spur the power of the Venerable is extremely rare. The craftsman has such a source, which is the key target of the demon. Ruined."

"This also led to the fact that after the outbreak of the war, the craftsmen were unable to refine too many puppets of the venerable. Many of the puppets of the venerable were destroyed, and only a few of them were left. Your lord found it."

"For countless years, Lord Shen Gong Tianzun has been trying to find a way to re-refine the puppet of the nobleman, but he has never succeeded."

Venerable Mantra sighed and said: "Otherwise, if there are more puppets like this, how can my human race fall to this level, and the battle of the ten thousand races will not cause the heavens to collapse."

"Master, can't we still make this ancient puppet?" Holy Master Yaoguang asked. "Of course it can't be made." Venerable Mantra said bitterly: "I still retain this ancient general puppet technology, but I still keep it, but many ancient refining techniques have been lost, and the core of refining this ancient general puppet Technology has also been lost

, Otherwise, if countless ancient puppets were put on the battlefield of ten thousand races, what else would the Demon League use to fight our human race? "

Qin Chen nodded.

Really, if an army of Venerable puppets can be created, any demon army might be unable to resist it.

However, Qin Chen knew that the puppet of the Venerable could only change the results on the local battlefield, not the results of normal wars.

After all, it is the top powerhouse that really determines the outcome of the war, the supreme level.

At the supreme realm, these venerable puppet army can't be destroyed, no matter how much it comes, it is not enough to see.

Venerable Mantra and Qin Chen were talking about it. At this moment, the puppet suddenly came to Qin Chen's three people and smiled and said: "Three, several deputy hall masters let you in."

It should be the end of the negotiation.

Qin Chen felt astonished, but this speed was also quite fast, and it hadn't been long since Ancient Craftsman Tianzun entered.

What made Qin Chen frown, was that the puppet said several deputy hall masters to let himself in, isn't the founder of Tianjiao not there?

Doubtful, Qin Chen and Venerable Mantra entered. After a while, the three people came to the center of the main hall. Above the main hall, there were tall thrones. At this moment, there was no one on the most central throne. Instead, there were a few thrones around, sitting four people. Craftsman Tianzun is one of them

One.

Ancient craftsman Tianzun looked at Qin Chen with a smile.

The other three also exude a terrifying aura, deep and deep.

Is the strong man of heaven.

The gazes of the three Tianzun condensed on Qin Chen.

"This should be the three deputy hall masters of Tianwork."

Qin Chen frowned, because he thought he would have the opportunity to meet Tianzun Shengong, the founder of Tianjiao, who knew that he was only three deputy hall masters.

"I'll wait, I've seen a few adults."

Venerable Mantra hurriedly pulled the Holy Master Yaoguang to bow, and Qin Chen also bowed his hand.

It is a place where the refiners gather, and there are not so many rules.

However, Qin Chen's calm temperament made one of the deputy hall masters slightly frowned.

This palace master was black and strong like an iron tower, completely indistinguishable from the appearance of a refiner.

"Let me introduce them. These three are all my current incumbent deputy hall masters. This is the Absolute Weapon Tianzun, this is the Journey Tianzun, and this is the aspiring Tianzun."

The ancient craftsman Tianzun introduced one by one.

Venerable Mantra hurriedly saluted again.

"Okay, you will be exempted from saluting. The Lord of Heavenly Master of God has already known your deeds and has made a special order."

Speaking of this, the eyes of the deputy hall masters all fell on Qin Chen, and there was something inexplicable in their eyes.

"Venerable Mantra."

"The disciple is here."

"You break through the realm of the earthly respect, and break the conspiracy of the demons on the battlefield of the ten thousand races. You are specially granted the status of the elder holding the weapon. You can go to the treasure hall to find a treasure of your own earthly treasure for reward." Ancient craftsman Tianzun said. Tao.

[Chapter 4139: Acting Deputy Master](#)

"Thank you, the hall master, thank you all the deputy hall masters."

Venerable Mantra was extremely excited.

The elder holding a weapon is one of the many elders in Tianzhuo with quite a status. In terms of status, it is probably not inferior. Elder Yehe, who is commanded by a large camp on the battlefield of ten thousand races, has a higher status than Elder Gu Xu and Elder Xingtian.

It can be said that if Venerable Mantra returns to the battlefield of ten thousand races, he can directly serve as the commander of a heavenly work camp.

It's just that Venerable Mantra has just broken through the realm of Earth Zun, and his strength is not enough. Generally, he will cultivate hard in the secret realm of the headquarters for many years. Until he can't improve and his refining skills can't break through, he will send out missions.

This is the tradition of day work.

And what makes Venerable Mantra even more excited is that he can choose an earthly treasure. Although Heavenly Work is the top crafting force of the Human Race, treasures such as Earthly Sovereign Treasures are extraordinary. Generally, it takes countless years for Earthly Sovereigns to obtain an Earthly Sovereign Treasure. Once he breaks through, he can Enter the treasure hall for selection

, What a glory this is.

"Holy Lord of Yaoguang."

"The disciple is here."

"You break through the realm of the nobleman, see through the conspiracy of the demons, grant you the identity of the deacon of the headquarters, and stay in the secret realm of the headquarters to practice for thousands of years, and you can go to the treasure hall to choose a person of honor."

"Disciple respect order."

Holy Master Yaoguang was also shaking with excitement.

"Qin Chen!"

In the end, the four ancient craftsman Tianzun looked at Qin Chen with complicated eyes.

Qin Chen moved in his heart and said respectfully: "The disciple is here."

"As a disciple of my Tiangong, you have made a great contribution to my Tiangong. Now you are appointed as the deputy head of my Tiangong, and you have given this order card. You can enter and exit all the forbidden lands and secrets of Tiangong within a thousand years."

Ancient Craftsman Tianzun looked at Qin Chen in amazement, and said, the other deputy hall masters also looked at Qin Chen with complicated eyes.

"Acting Deputy Hall Master? His..."

Venerable Rao Shizhengyan and Holy Master Yaoguang had been psychologically prepared for a long time, knowing that Qin Chen's contribution was far greater than himself, but he never expected that Qin Chen would give such a job.

Acting deputy hall master?

This...I don't know how much higher than the elders.

How many elders do a day work? It took how many years to become an elder, but Qin Chen was so good that he became the acting deputy hall master directly.

Venerable Mantra suddenly felt dizzy.

This is already a real high-level figure in Tianjiao, but you must know that Qin Chen has never been to Tianjiao, and it is the first time he came to Tianjiao's headquarters.

Feeling the shock of Venerable Mantra and Qin Chen's doubts.

Ancient Craftsman Tianzun suddenly smiled and said: "Don't ask me, the acting deputy hall master is not something we can decide. This is the order of Master Shen Gong Tianzun. As for why he let you be the acting deputy hall master, I don't know. Reason." After speaking, the ancient craftsman Tianzun directly took out a token, swiped it, walked down from the throne, came to Qin Chen, and solemnly handed it to Qin Chen: "This is your command card, take it. , The imprint enters the imprint of life, you can record your information, and then

After Master Tianzun's approval, this order card will be opened. With this token, you can enter all the forbidden and treasure lands in the secret realm of my headquarters. It's really..."

The ancient craftsman Tianzun showed envy in his eyes. It should be noted that although they are deputy hall masters, they are not accessible to all the secret realms of the headquarters. For example, if they are close to the source of the flame, they must obtain permission from the gods and gods. Otherwise, they will be exposed to the colorful chaotic fire. Kill, but Qin Chen

With this token, you can get close to the origin of the flame and perceive the rules of flame in the universe. Even the Vice-Hall Masters such as Ancient Craftsman Tianzun are envious.

"Thank you, Senior Old Master Tianzun."

Qin Chen took the token. "You don't have to be polite, you don't have to thank me. To be honest, I don't know that the Lord Hallmaster will give this order. I didn't expect to see you for a moment. You are also the acting Deputy Hallmaster, basically becoming the acting Deputy Hallmaster. Ten Eight or nine can be the vice hall

the Lord. "The ancient craftsman Tianzun said with a smile.

"Well, as for the specific inheritance of the headquarters of our work, the treasure hall, etc., there are tokens, but the first thing you need to do now is to build your own residence." "Elder Mantra, Yao Deacon Guang, you can build in the open space of God of Craftsman Island. As for Qin Chen, you...Because you are only acting as the deputy head of the palace, you cannot build palaces on the Pillars of Fire of the Heavenly Pole. The same can only be built on God of Craftsman Island, but it can be occupied. Ground

The area can be ten times the size of an ordinary elder's palace. At present, there are a few good locations here. You can find one. "

The ancient craftsman Tianzun took out a jade slip.

"Okay, you go first. Regarding your appointment, you will be notified of the entire day's work as soon as possible."

"Yes."

Venerable Mantra and the others left one after another, and Qin Chen still had many questions to ask, but it was obviously not the time now, and he immediately retired.

When Qin Chen and the others left, the tower-like Heavenly Weapon snorted and said in a deep voice, "I don't know what the lord of the hall thinks, but I directly appointed this Qin Chen as the deputy hall lord." Yes, the deputy hall master must be Tianzun. Although Qin Chen has made great achievements and saw through the demon clan's conspiracy against us in the battlefield of ten thousand races, he is still young after all, and he has never returned to me. Days work, it is rumored that he

Before, it was only the half-step Venerable who directly bestowed the acting deputy hall master, which is unique in the history of my work. "

"In my opinion, one elder is enough, but who knows..."

Coming Tianzun, and aspiring Tianzun also frowned.

Because, this order is so weird that they can't accept them, the deputy hall masters.

"This is an order from the lord, what can we do?" Ancient Craftsman Tianzun said with a smile.

In the work of heaven, God-worked Tianzun is the absolute authority, and it exists in every word. "The key point is that Master Tianzun actually gave him the right to enter and leave the forbidden land in the secret realm of my daily work headquarters. My daily work is somewhat forbidden, and it is important. This person has not been cultivated by my daily work since he was a child. Although he has seen through the conspiracy of the demons, But if it is

The devil's bitter tricks deliberately arranged him to work in heaven, then..."

Absolute Qi Tianzun said suddenly.

Xing Jiang Tianzun and Wending Tianzun looked at each other, and there was a solemn expression in their eyes.

"Master Tianzun, you should have your own decision. The only thing I worry about now is that even if we accept it, many elders and Tianjiao in my daily work are afraid..."

Thinking of this, several deputy hall masters felt an incomparable headache.

"Forget it, let Qin Chen face it by himself."

Ancient craftsman Tianzun smiled bitterly.

And with the passing of this order, the entire Craftsman God Island was instantly in an uproar.

As expected by several deputy hall masters, after learning of this order, everyone was shocked, and many elders and old guys who were retired with one heart were shocked.

Vice-Hall Master, this is the real high-level of Tianjiao, and only the strong Tianzun can serve.

Although Qin Chen had brought the word agency, his duties were almost the same as that of the deputy hall master, so how could it not be shocked.

Let a disciple who has been working at the headquarters from the future to directly serve as the acting deputy hall master, this... are the high-levels crazy? This is the first thought of many days working elders.

[Chapter 4140: Secret Realm uproar](#)

Acting deputy hall master.

Because of the special nature of the work of heaven, many powerhouses do not need to fight for the human race on the battlefield of ten thousand races in order to obtain extraordinary status and resources.

This is the privilege of their craftsman. This has also led to the fact that many elders in the secret realm of Tiangong Headquarters have cultivated here for countless tens of thousands, tens of thousands, and 100,000 years. They are all young. Some elders with a long history have even practiced here. Millions of years, even more

Long.

In particular, there are many ancient powerhouses sleeping here, and their life span is unknown.

For them, the older generation of powerhouses, a lot of glory is no longer worth fighting for. The only thing that can make them care about is glory and status. This is the same as in many places, many old things, because they live for too long, they have no desire for some things, because everyone should have them, but they will pay more attention to some false names and compare their views on others. Look

weight.

For example, identity.

The deacons, elders, and deputy hall masters, one after another, represent the different identities of each person.

Among the deacons, there are also many types. There are external deacons, internal deacons, some who are responsible for refining tools, and some who are responsible for management, and more are just a name.

The same is true for the elders, the gap is huge.

And in this secret realm of the headquarters, all elders have the same dream, that is to become the deputy head of the palace. This is the glory and pursuit of countless people. They have survived for millions of years, or even longer, and tirelessly. desire.

Historically, there were many elders in the secret realm of the Tiangong headquarters, but the number of deputy hall masters has always been scarce.

For example, in today's day job, there are only eight deputy hall masters.

For the refiners who have continued for hundreds of millions of years and have a low mortality rate, this number is not too much.

But considering some of the elders who have made many contributions to the Heavenly Work but are unable to break through the Tianzun, Tianwork has another honor, that is, the Honorary Sub-Hallmaster.

This honorary sub-temple master is just a title, but it is something that countless elders of the peak earth and half-step heaven are chasing wildly. In addition, there are actually some Tianzun masters in the heavenly work, but these Tianzun masters have lived too long, and almost all of their lives have come to an end, or they have retreated from the position of deputy hall master. life

Yuan is not much, so he can only be forced to seal himself and sleep in the endless void.

Will be awarded the title of Honorary Vice-Hall Master.

However, neither the Honorary Sub-Hallmaster nor the Honorary Vice-Hallmaster can compare to the position of the acting Vice-Hallmaster.

The position of the acting deputy hall master in Tiangong is second only to Tianzhu, the founder of Tiangong, Shen Gong Tianzun, and the eight serving deputy masters.

It can be said that the acting deputy hall master is almost the same as the serving deputy hall master, except that one is only acting and the other is formal.

This position is almost extremely rare in the history of heavenly work. For hundreds of millions of years, it has been only three or two.

Each of them has made great contributions to the work of heaven, and has talents in refining tools and martial arts. It has reached the end of Tianzun for half a step, and within a long time, he can become a strong person in Tianzun.

In fact, they all eventually became Tianzun and turned into the serving deputy hall master.

However, they also have something in common. Each of them has also come up step by step from the Son, the Core Son, the deacon, and the elder, and has studied in the secret realm of the headquarters for many years, and has been recognized by everyone.

One of the most recent acting deputy hall masters did not know how many years ago it was.

At least in the past million years, there has never been a new acting deputy hall master.

Nowadays, a new acting deputy hall master appeared, which instantly caused a sensation in the secret realm of the headquarters.

Especially when he learned that the acting deputy hall master had never been in the secret realm of the headquarters in the future, he had never served as a deacon or an elder, but had only come up from the holy child of the Heavenly Work Branch of the Human Celestial Realm, which caused an uproar.

"Qin Chen? Who is this guy, have you heard of it?"

"I heard that this person is just a small holy son in the work branch of the East Heaven Realm of Human Race and Guanghan Futian, and he has directly become the acting deputy hall master."

"Why? A little saint child can become the acting deputy hall master, even if he becomes Tianzun, he is not so fast, right? What kind of cultivation is he?"

"I don't know, but when he was in the human world, this person was just a half-step venerable."

"What? Venerable Half-Step?" Many people were dumbfounded and felt unbelievable. Venerable Half-Step was terrifying outside, but on this day working in the secret realm of the headquarters, he was just an ordinary person who could come in. Which one was not Half Step Venerable, a home that was only half a step ago

Hey, he became the acting deputy hall master in one fell swoop. What kind of madness is the high-level mad?

For a time, many elders looked gloomy.

Among them, in many palaces, some elders were gloomy.

Qin Chen!

How is this name so familiar?

By the way, they remembered it, it seems that the upper hand had already paid attention to it. Tiangong's branch in Tianjie would have a holy child named Qin Chen who might join the Tiangong's headquarters, requiring their attention.

However, in these years, this person has never come.

They almost forgot that there is such an order.

But who would have thought that as soon as this Qin Chen arrived, he would directly become the acting deputy head of the headquarters.

This made them not surprised, but also moved their hearts slightly.

Could it be that this is why they are paying attention to this person over there?

It is indeed weird for a saint son to directly become the acting deputy hall master.

In this case, some methods can be used.

As a result, some people began to stir up secretly.

Many elders, the strong, were used, and they were angry.

No, for this matter, you must go to the conference hall to ask clearly what is going on.

Whoosh whoosh.

A veteran elder who received the news began to gather in the conference hall to ask the truth.

Qin Chen naturally didn't know what was happening here. At this time, he was looking for a place to build a palace on this island of God of Craftsman with Venerable Mantra and Holy Lord of Light.

"Little Chen, no... Acting Vice-Hall Master, in the future, I will have to rely on you." Venerable Yaoguang followed Qin Chen and said cheerfully, in his heart that Qin Chen could become the Acting Vice-Hall Master. Also shocked.

This is the real big man in the headquarters.

"Haha, Vice-Hall Master Qin, I will follow your orders in the future."

Zhenyan Dizun also laughed. He never expected that Qin Chen, who he had only assisted in the Eastern Heaven Realm not long ago, had become a high-level headquarter in the blink of an eye, and he even had to rely on the other side to breathe.

"What deputy hall master, I am at a loss now." Qin Chen said with a wry smile, completely clueless.
